# New York Weekly Tribune Give us a Trial. ONLY ONE DOLLAGE A YEAR

Public interest will steadily increase, and the disappointment of the men whose votes turned the scale at the last election, with the result under the administration they elected, will make the campaign the most intensely exciting in the history of the country. THE NEW YORK WEEKLY TRIBUNE

the leading Republican family newspaper of the United States, will publish all the political news of the day, interesting to every American citizen regardless of party affiliations. Also general news in attractive form, foreign correspondence covering the news of the world, an agricultural department second to none in the country, market reports which are recognized authority, fascinating short stories, complete in each number, the cream of the humorous papers, foreign and domestic, with their best comic pictures, fashion plates and elaborate descriptions of woman's attire, with a varied and attractive department of household interest. The "New York Weekly Tribune" is an ideal family paper, with a circulation larger than that of any other weekly publication in the country issued from the office of a daily. Large changes are being made in its details, tending to give it greater life and variety, and especially more interest to the women and young people of the household.
