

# THE CARROLL RECORD.

Vol. 3., No. 16.

TANEYTOWN, MARYLAND, SATURDAY, OCTOBER 17, 1896.

\$1.00 Per Year.

## Locals and Personals.

The Governor has extended the time of Carroll county assessors to November 15th.

The Frederick fair was attended by a large number of persons from this place on Thursday.

Rev. H. Ditzler, of Mt. Jackson, Va., has received a call to Clearfield Co., Pa., and will likely accept.

Rev. D. Frank Garland died with Governor Lowndes, while in attendance at Synod in Cumberland.

D. J. Hesson and P. B. Englar were in Philadelphia this week, making the balance of their fall purchases.

A republican mass meeting will be held here next Saturday night, the 24th. Bills will be put up the first of the week.

Jacob Brown, now living on Dr. Motter's place, has rented a farm near Sell's Station, Pa., and will move there in the spring.

The inquiry for farms in this neighborhood is still on the increase. No wonder—it is a good section to live in for almost all reasons.

G. Bruce Trimmer, son of Isaac Trimmer, is taking a course in stenography at the Eastman Business College, Poughkeepsie, N. Y.

Bernard Fuller, of Hagerstown, a nephew of Mrs. N. B. Hagan, and well known to the boys of this place, is a newsboy on the W. M. R. R.

The contribution on our Editorial page, "A plea for the Birds," should be carefully read and considered by every lady reader of the RECORD.

W. M. Reindollar and Mrs. M. H. Reindollar, were in the city this week for new goods. Taneytown is now well supplied with new fall goods in all lines.

The election this year will be held in Squire Ordorff's office. This was the only room in town which could be secured, that comes within the requirements of the law.

Our subscription list is still on the increase, notwithstanding hard times. Tell your friends, who are not subscribers, that this is an indication that the RECORD is a good county paper.

T. H. Eckenrode raised a pumpkin on his Emmitsburg farm, which weighs 70 pounds, and measures 62 inches around. So far as heard from, this is the best Taneytown can do in the pumpkin line.

We are informed that it was the intention of the Business Association of Frederick, which secured the German Baptist annual meeting. Still some people think that the B. M. A. is no good to a town.

A change of time went into effect on the Frederick Div. P. R. R. on Monday. The morning trains north and south, pass each other here at 9:43. The afternoon train, north, leaves at 3:53, and the train south, at 5:30.

Burgess S. Miller has in his possession an old campaign badge, in good condition, containing excellent photographs of Bell and Everett. On one side is the motto, "The Union of States," and on the other, "The Constitution."

Three members of the former Littlestown band, will hereafter play regularly with the Taneytown band, which will materially add to its excellence, and make it one of the strongest and best band organizations in the state.

William Snider, the Harney merchant, was in Baltimore for new goods this week. Our Harney business men should advertise in the RECORD. With a great big circulation at Harney, we have not a single advertiser. This is too bad.

The Littlestown Mutual Fire Insurance Company has made an assessment of three per cent on its premium notes, for losses by fire, and one of three mills on the dollar for storm losses. This Company does business within a radius of six miles from the home office.

W. Jesse Roberts' horse, Lady Carlisle, won third money in a trotting race at Frederick on Thursday. Had it not been for the dirty work of an another driver, who cut the horse across the face with his whip, she would have won second money, which was the prize aimed at.

We are informed that since the Chesapeake Telephone Company has raised its charges from 15c. to 25c. for connections within the state, that the receipts of this office have very decidedly decreased. Progress in the wrong direction very seldom meets with increased financial support.

Elmer W. Fiegle, of Yonkers, N. Y., is now visiting his mother at Mayberry. He has just returned from a six weeks stay at St. John's Hospital, and his friends are glad to see him out again. On his return trip to New York he will spend some time with his brother, John, in Philadelphia.

John H. Fair, of Norfolk, Nebraska, a son of John Fair of this place, has sent John McKellip, treasurer, a New York draft for \$50, for a memorial window to his parents to be placed in the new Lutheran church. This provides for all the windows upstairs except the four small windows in the recess, which are about as desirable as any, but will not cost as much as the larger ones. The two large windows are taken by the C. E. Society and the Mite Society; three of the next largest ones are taken by Daniel Nall, Alfred Reaver and John H. Fair, and the remaining three, by persons, whose names, for the present, are unknown.

## NOTES FROM EVERYWHERE.

Items of current news boiled down, for busy readers.

The annual reunion of the Alumni Association of Mount St. Mary's College, Emmitsburg, was held from Wednesday until Friday, of this week, concluding with a banquet.

As near as can be ascertained the checks received at Waynesboro and Midvale for peaches will aggregate \$110,000. To move the crop required the services of 140 refrigerator cars.

Ex-Postmaster-General Wanamaker, in a speech at Waynesboro, Pa., on Wednesday, said he could more consistently have supported Jefferson Davis than he could support Bryan.

There is a scarcity of beef cattle in Frederick county, dealers complaining that an extra demand in West Virginia has caused the shortage. From three to three and three-quarter cents per pound is being paid live weight.

Ex-Judge James A. C. Bond, who has been for many years the legal adviser and counsel of the Baltimore and Ohio Railroad in this county, has been appointed to take charge of all legal business of the company in Frederick, Montgomery and Howard counties also.

John T. Brady and twelve other students of Mt. St. Mary's College, Emmitsburg, appealed from the decision of John A. Horner, republican registrar, refusing to allow them to register, and on Saturday their names were ordered by the court to be placed on the books.

Dr. J. McPherson Scott, of Hagerstown, who was appointed by Governor Lowndes as a delegate to the second Pan-American Medical Congress to be held in the city of Mexico, November 10-19, has notified the Governor that he will be unable to accept the appointment.

A subscriber to the RECORD says, "Mr. Wm. McClelland, living on Jacob Stoner's Frederick county farm, near Union Bridge, had a pumpkin which measured five feet seven inches in circumference, and weighed seventy-seven pounds. Mr. Schaeffer grows them a little larger."

Col. James F. Stahlke, the republican congressman from the Adams-York, Pa., district, who failed to secure re-nomination, has come out in a letter declining to run as an independent. This leaves Frank E. Hollar, republican, and Charles A. Hawkins, gold democrat, in the field.

An electric motor car on East Patrick street Frederick, collided with the buggy of Mr. Clarence Troxell, of Thurmont, on Wednesday. Mr. Troxell's team was forced back upon the car by a horse ahead of him. The rear wheels of the buggy were smashed, but Mr. Troxell had sprung out to hold the horse and so escaped injury.

The free mail delivery system went into operation in this county, from the Westminster office, on Thursday, for the benefit of the patrons of that office. Four carriers have been appointed, who deliver and collect mail on the same trip, making one trip each day. They start out in the morning after the arrival of the early Baltimore mail.

Mrs. Helen Josephine Irwin, wife of Capt. P. H. Irwin, first assistant civil engineer of the Baltimore and Ohio Railroad, died at her home, on East Main street, Westminster, at 9:30 p. m., Thursday night, of chronic bronchitis. Mrs. Irwin was a daughter of the late Col. John Brooke Boyle. She leaves four sons and three daughters.

Alleged sugar agents are reaping a rich harvest among the farmers in some sections. They take orders for sugar by the barrel at a low rate. The "sugar" arrives all right, and the agent pockets the price. But when the barrel is opened it is found to contain nothing but salt, with a few pounds of sugar in a compartment at each end of the barrel.

Two monster Baltimore and Ohio freight locomotives built by different firms were placed in service on the road recently. Number 1608 is a mighty machine of the consolidation type built by the Cook Locomotive works of Patterson, N. J. Her cylinders are 28x38, drivers 34 inch diameter, boiler pressure 180 pounds, and total weight about 170,000 pounds. Number 1241 is a consolidation built by the Richmond Machine Company, and weighs in working order, 145,000 pounds, and has drivers 50 inches in diameter.

A question of no little interest to persons traveling on turnpikes was decided in an opinion by Judge Jones in the Howard County Circuit Court last week. The question involves the right of a turnpike company to charge more than one toll a day for a person passing through a tollgate oftener than once a day. The case was tried in that court several days ago on an appeal from a justice of the peace, whose decision was against the turnpike company. The court's decision was in favor of the turnpike company.

David E. Bussard, a prominent farmer living near Harmony, Frederick county, was killed last Friday morning by being run over by his six horse team. Mr. Bussard had started to Frederick alone with his team, and when but a short distance from home his horses became frightened at a traction engine, and ran away. It is supposed that in his efforts to stop them he became entangled in the line and was thrown under the wheels. Mrs. Bussard at the time of the accident, was in Baltimore in a hospital undergoing treatment.

## THE OFFICIAL BALLOT.

The Order in which the Tickets will be Printed.

The tickets will appear on the official ballot according to the number of votes received at the last election by the respective parties, and after them those of parties which did not receive any votes last year in the order of their filing. They will appear with party emblems as follows:

Republican—Bust of Lincoln, profile turned to the right.

Democratic—Jackson and the Liberty Tree.

Prohibition—Medallion of Washington, surrounded by a wreath; group of American flags, with motto, "For God, Country and Home."

Socialist Labor—The blacksmith's uplifted bare arm.

Sound Money National Democratic—Medallion of Jefferson.

National—Godness of Liberty, with the motto, "Liberty, Equality, Justice."

There will be a seventh column on the ballot, in which those who wish to vote for others than those whose names appear elsewhere may write the names of their candidates.

Public Well Nearly Dry.

Last Friday, while workmen were placing a much needed floor on the old public well, the idea occurred to someone to measure the depth of the water in it, which was done. The result was startling—only eighteen inches. No one has ever dreamed that this old reliable source of supply was falling, as the well is nearly 80 feet in depth, and it was thought that there was at least from twenty to thirty feet of water in it. No wonder the pump works hard; eighteen inches of water, eighty feet below the surface, very naturally requires force to raise it.

The failure of this old stand-by, naturally accentuates the plain necessity for a public and reliable water supply. Should there be no rains before freezing weather, sufficient to start up the wells, this town will be in a dangerous predicament this winter; not only for fire contingencies, but for necessary house use. The RECORD has always supported public improvements, and did what it could toward securing a favorable vote on the water question, fully expecting that by this time the works would be in operation, should the bond issue be legalized. The vote was taken last May, with a favorable result, yet we are apparently no nearer having water than just after the election.

Registration in Carroll.

The following table gives the corrected result of the registration in Carroll county. It will be seen that the registered vote of the county is 238 less than last year, which is largely due to the general registration, which has caused many names to be dropped of those who were not entitled to residence in this county.

Franklin, New Windsor and Union Bridge, are the only districts showing an increase. The principal losers are, Woolery's, 97; Westminster, 79; Uniontown, 65; Manchester, 55, and Middleburg, 53. The remaining five districts lose, in all, 74 votes, as compared with the registration of last year.

	1896.	1895.
1. Taneytown	686	707
2. Uniontown	631	686
3. Myers	503	511
4. Woolery's	670	767
5. Franklin	564	564
6. Freedom, 2nd. pr.	445	1,023
7. Manchester	879	934
8. Westminster 1st. pr.	730	773
9. Westminster 2d. pr.	814	850
10. Hampstead	554	572
11. Franklin	363	359
12. Middleburg	396	349
13. New Windsor	523	511
14. Union Bridge	386	377
15. Mt. Airy	338	341
Totals	8,302	8,760

A representative from each class was appointed to co operate with the financial secretary of Franklin and Marshall College in securing \$50,000 for additional buildings and endowment.

The directors of the Woman's College at Frederick, Md., submitted their report through Rev. C. S. Slagle, of Westminster, Md. The institution had 133 students during the past year, and is in a prosperous condition.

That Annual Meeting.

At a meeting of the Elders of the various German Baptist churches of the Eastern district, held in New Windsor last Saturday, the action of the location committee in selecting Frederick as the place for the next annual meeting, was finally ratified.

Quite a stir has been created among Carroll county members, on account of the selection of Frederick, and the meeting on Saturday was extremely animated. It was clearly shown, however, that the inducements offered by Frederick, through the Business Men's Association, far exceeded those offered by Westminster.

Orphans' Court Proceedings.

MONDAY, Oct. 12th, 1896.—John H. Waters, guardian of Anna E. Oursler, settled first and final account.

TUESDAY, Oct. 13th, 1896.—Albin L. Duval, surviving executor of Ellen R. Runkles, deceased, returned inventory of goods and chattels and received orders to sell goods and chattels and notify creditors.

Report sale of real estate of Jesse Myers, deceased, finally ratified.

Report sale of real estate of David H. Hoffacker, deceased, finally ratified.

Distribution among creditors of Edward S. Baile, deceased, finally ratified.

Remember This.

The next time a traveling peddler calls at your door and tries to sell goods, ask him if he will take your butter, eggs and other produce in exchange; ask him to donate a few dollars to that enterprise you are just starting in the community; tell him subscription has just been started, and asked him to contribute some provision down there. If he responds liberally, patronize him, if not, don't. Your home merchant does this and more.—Ea.

## POTOMAC SYNOD.

The Reformed Church Synod meets at Altoona, Pa.

The Potomac Synod of the Reformed Church assembled on Tuesday evening in Altoona, Pa. Rev. George B. Rosser, of Hanover, Pa., conducted the opening services. President Rev. W. C. Schaeffer, Ph. D., of Chambersburg, Pa., preached the opening sermon. About ninety delegates answered to their names at the roll-call. Rev. Dr. Conrad Clever, of Baltimore, was elected president; Rev. T. F. Hoffmeier, of Middletown, vice-president; Rev. W. J. Stewart, of Baltimore, corresponding secretary; Rev. Dr. J. A. Hoffmeier, of Martinsburg, Va., reading clerk.

The board of publication presented its report. The death of the late publisher, Rev. Dr. Charles G. Fisher, of Philadelphia, who had leased the interests of the board for ten years and whose lease had not expired, has developed a number of complications in connection with the publication interests. The report showed that Dr. Fisher's widow had sold her lease to the board for \$3,500. The board has moved its office from 907 to 1025 Arch street. Its total investments at present are \$11,585. The report was referred to the committee on publications for proposals of action.

John B. Roth, treasurer of the Theological Seminary at Lancaster, Pa., submitted his report. The amount of the seminary's endowment is \$94,418. The expenditures during the year were \$9,000.

The report of the board of Home Missions was submitted. It showed that \$13,900 was contributed for the board's work. This was \$4,000 short of the amount asked.

Rev. Dr. C. R. Diefenbacher, of Greensburg, Pa., appeared before the synod and presented the claims of St. Paul's Orphan's Home, Butler, Pa. The home has under its care ninety-four children.

The synod recommended that the classes and congregations emphasize the plan of securing fifty cents as an average contribution from each member of the church for missions.

Attention was called to the fact that theological students before graduating have no right to receive calls from congregations. The classes were directed to bear this in mind.

At Wednesday afternoon's session the report of the Board of Foreign Missions was submitted, giving an account of work in Japan. There are 1,369 members of the Reformed church and 1,616 Sunday school pupils in that country.

The board of visitors of the Theological Seminary, at Lancaster, Pa., presented its report. The seminary had 65 students last year. There were 19 graduates who were licensed to preach.

Rev. Dr. W. M. Dentrick read his report on the minutes of the synod, from which appear the following facts: The synod's invested funds amount to \$35,300. Mercersburg College has had 116 students during the year. Its present term opened with 101 students enrolled. The receipts of the institution during the year were \$5,882 and the expenditures \$13,105. A new wing has been erected to the school building, costing \$7,000.

A representative from each class was appointed to co operate with the financial secretary of Franklin and Marshall College in securing \$50,000 for additional buildings and endowment.

The directors of the Woman's College at Frederick, Md., submitted their report through Rev. C. S. Slagle, of Westminster, Md. The institution had 133 students during the past year, and is in a prosperous condition.

At this point the Dr. Baugher matter came up, which involved the action of the board of trustees in depositing him from the chair of Greek at Pennsylvania College; Dr. Baugher, under a suspension of the rules, was given the privilege of making a statement in his behalf and a number engaged in the discussion which was decidedly spirited. It was finally decided that the Synod had no jurisdiction in the matter.

Dr. Parsons, of Washington, offered the following resolution which was adopted: "Resolved, that a committee of three be appointed to present in person to the board of trustees of Pennsylvania College, a petition asking of them an early, full, unserved and satisfactory explanation of their course summarily ending Dr. Baugher's long and valuable connection with the college, without any charges against him, and without giving him any opportunity to answer for himself before the board."

The treasurer's report shows receipts for the year from all sources to be \$18,930,70, which is \$7,000 in excess of last year, yet behind the total appropriation for the year, which is \$24,900. Nearly the whole amount contributed went to the various benevolent objects of the General Synod, the home mission fund receiving \$4,778.19 and the foreign mission fund \$3,532.16.

A resolution offered by Rev. J. A. Hedge's of Jefferson, denounced the saloon code and asked the appointment of two delegates, with alternates, to attend the convention of the American Anti-Saloon League in Washington this winter. This created some discussion. Rev. Dr. Samuel Dover, of Washington, stated that while he was a warm advocate of temperance, he was opposed to the synod connecting itself officially with any organization outside the church.

The resolution was adopted and President Trump announced that he was glad to see that the Lutherans, who have been said to be indifferent

## MARYLAND LUTHERANS.

Condensed report of the Synod at its Cumberland meeting.

The first session of the Maryland Synod was held last Friday morning. After devotional exercises, Governor Lowndes delivered an address of welcome to the Synod to Cumberland, to which, Rev. O. C. Roth, president of the Synod, responded; after which, the president's report was read.

Eleven ministers have resigned their charges during the year. Twelve pastors, including licentiates, were dismissed to other synods and ten were received into membership. Several churches have been dedicated and other new church enterprises undertaken. The president called attention to the need of providing for the \$15,000 of the Gettysburg Seminary debt apportioned to the churches of the Maryland Synod. Two committees were appointed by him. One visited St. James' Church, Frederick, and recommended it to the assistance of the Board of Home Missions. The other committee held a meeting in Frostburg and investigated the charges preferred against the pastor and reported unanimously that they were not sustained and completely vindicated his character.

The following officers were chosen for the ensuing year: President, Rev. C. S. Trump, of Martinsburg, W. Va.; secretary, Rev. Victor Miller, of Lottsburg, Md.; treasurer, Mr. W. H. H. James, of Baltimore. Rev. Mr. Miller and Mr. James have held the positions to which they were re-elected for a number of years.

The following clerical and lay delegates were elected to the General Synod, which meets in Mansfield, Ohio. Revs. M. L. Beard, Dr. M. Valentine, W. H. Dunbar, Dr. J. W. Butler, S. A. Hedges, T. J. Yost, C. W. Miller and George S. Howers; lay, Messrs A. F. Fox, Dr. Geo. T. Motter, Edward Sharetts, John Bieckle, A. D. Albert, F. W. Kakek, Cornelius Eckhart and Hon. Geo. L. Wellington.

The report on Foreign Mission work showed the treasury was behind, and that missionary work in India had been set down on account of lack of funds. On Saturday night an address was delivered by Rev. S. A. Hedges.

On Monday morning after the usual devotional exercises, Rev. Dr. Charles S. Albert, of Philadelphia, made the report for the directors of the theological seminary at Gettysburg. Last year 82 students were enrolled, of whom 24 were graduated. The seminary contingent fund received \$3,895, of which \$1,100 was a loan. During the year the Singmaster legacy of \$53,000 was paid into the treasury. The interest of \$10,000 of this sum is to be used for enlarging the library. The remainder of the legacy is to be used for the endowment of an additional professorship. The total endowment of the institution is \$151,751; total income, \$7,000; indebtedness on buildings, \$64,000.

Rev. D. F. Garland, of Taneytown, on behalf of the seminary debt, reported that his committee had distrusted the synod and apportioned on the \$13,000 to be raised. Baltimore churches are apportioned \$4,300 and Washington churches \$2,500. It was ordered by the synod that Treasurer James send letters to churches delinquent in seminary contingent fund, urging prompt payment.

The report of Rev. Dr. M. Valentine on catalogue of Pennsylvania College, Gettysburg, showing the work of the past year, precipitated a warm discussion. The college has an enrollment of 227 students, the largest number in its history. The report recommended an expression of gratification and indorsement, and Rev. Dr. S. Stall, of Philadelphia, moved its adoption.

At this point the Dr. Baugher matter came up, which involved the action of the board of trustees in depositing him from the chair of Greek at Pennsylvania College; Dr. Baugher, under a suspension of the rules, was given the privilege of making a statement in his behalf and a number engaged in the discussion which was decidedly spirited. It was finally decided that the Synod had no jurisdiction in the matter.

Dr. Parsons, of Washington, offered the following resolution which was adopted: "Resolved, that a committee of three be appointed to present in person to the board of trustees of Pennsylvania College, a petition asking of them an early, full, unserved and satisfactory explanation of their course summarily ending Dr. Baugher's long and valuable connection with the college, without any charges against him, and without giving him any opportunity to answer for himself before the board."

The treasurer's report shows receipts for the year from all sources to be \$18,930,70, which is \$7,000 in excess of last year, yet behind the total appropriation for the year, which is \$24,900. Nearly the whole amount contributed went to the various benevolent objects of the General Synod, the home mission fund receiving \$4,778.19 and the foreign mission fund \$3,532.16.

A resolution offered by Rev. J. A. Hedge's of Jefferson, denounced the saloon code and asked the appointment of two delegates, with alternates, to attend the convention of the American Anti-Saloon League in Washington this winter. This created some discussion. Rev. Dr. Samuel Dover, of Washington, stated that while he was a warm advocate of temperance, he was opposed to the synod connecting itself officially with any organization outside the church.

The resolution was adopted and President Trump announced that he was glad to see that the Lutherans, who have been said to be indifferent

## Correspondence.

Linwood.

For the past few days, the farmers have been retarded in corn husking by the damp drizzly weather. Rain is needed badly, and every drop is a welcome visitor.

The disease by which Mr. E. L. Shriner lost two of his valuable horses, has, we are glad to say, entirely abated in his stables. Mr. Shriner called in the state veterinary surgeon, who pronounced the disease a bad case of epizootic and nothing more. The report in circulation that his cattle all had the disease we can truthfully say is a *falshood*, and a healthier or more productive herd of cows would be hard to find in the county.

Messrs Israel Rinehart and D. Fred. Englar joined the happy band of pilgrims that went to Canton, Ohio, to pay their respects to Major McKinley, and tell him how much they loved him. They left Linwood on Friday at 12:40 p. m., returning Monday noon and report a warm welcome by the presidential nominee at his own home.

Mr. and Mrs. Nathan Englar presented, in memoriam of their little son Ralph, a beautiful highly polished oak desk to the Linwood Sabbath school. It was a beautiful thought of Mr. and Mrs. Englar, and the present was most agreeably accepted by the school in general and will be treasured in memory of little Ralph, who was the first and only scholar called by death from the school since its opening, over 3 years ago.

Mrs. Lou Messler, who went to Baltimore to see her brother off to Europe, and spend a few days with her mother, has returned home.

Mrs. Martha Pyle, who has been visiting friends in Pennsylvania, has returned to her brother's, Mr. Jesse Smith.

Mr. Harvey Bloom, brother of Mrs. William Wilson, was married last week, to Miss Nettie Routson of Middletown.

Messrs Leonard and Kelo Gilbert visited their grand-father in Liberty, on last Sunday.

Mr. Jesse C. Shirer and family returned to the city on last Friday, after a stay of two weeks with Mr. Jesse's parents, at "Linwood Shade."

The young men of Linwood and vicinity gave the newly wedded, Mr. and Mrs. Unger a calatunpian serenade a few evenings ago. It was not quite so musical as the Wilson Post Band, at Canton, last Saturday, but was enjoyed nevertheless.

Every one about town has got the painting fever which has added much to appearances.

Mr. Dehoff, our blacksmith, has built a corn crib, and broken ground for a blacksmith shop on his premises. The shop he worked in, owned by Mr. Billy Wilson, was demolished by the late storm.

Mechanics of all kinds are in demand.

Work is progressing on the Bethel steeple and belfry.

Total list of registered voters in this district make the number 631.

Miss Nellie Charlton, of Baltimore, is visiting Miss Florence Weaver, in town.

Tornado insurance men have been adjusting losses in and about town during the past week.

Aiva C. Garner, of Motters, Frederick Co., spent Sunday with her sister, Mrs. E. G. Gilbert, in town.

James Devilbiss, of near town, sold his farm containing 153½ acres, on Saturday last, to William Shaw for \$700 cash.

Miss Hannah Yinging, who has been very ill for some weeks past, is improving.

John E. Heck and wife, of Baltimore, are visiting his father here. John is apparently very fond of Uniontown. Nothing like it. There are others.

The Western Maryland Telephone Company has at last repaired their lines to this place—better late than never.

New Windsor.

John H. Munford, an aged citizen of New Windsor, died on Sunday morning, 4th, inst. His remains were interred in the cemetery at this place on Tuesday afternoon; funeral services were held in the M. E. church, Elder W. H. Franklin officiating.

Whooping cough seems to be the predominant disease in the vicinity at present.

Little Charles, youngest child of F. J. Devilbiss, was very badly scalded on last Saturday by the upsetting of the teapot, while at the supper table. In the absence of Mr. and Mrs. Devilbiss, the young colored girl was about to serve the tea, when the handle of the pot broke off, thus sulling the contents over the chin, breast and stomach of the child, putting him in a very serious condition, but we are glad to say, at present, he is apparently improving.

Communion services were held in the Presbyterian church last Sabbath, Rev. Dr. Jas. Fraser officiating. Movings around town are quite common this week. Three families moved out of town, and the agent and operator moved into the handsome new depot.

Mr. Joel Haines, successor of F. J. Devilbiss, has opened his store and is making a very fine display of new goods. We wish him success in his new field.

Mr. Harvey C. Miller, of Philadelphia, made a short call on friends in town on Tuesday morning.

Quite a number of persons from this section attended the Frederick Fair this week.

## Copperville.

Doctor and Mrs. Charles Stonifer, of Gettysburg, Pa., were the guests of Mrs. H. T. Wantz, from Saturday until Monday.

Mrs. Debbie Fleckinger, who was on a visit to her daughter, Mrs. Joseph Warner, of Baltimore, for the last week or two, returned home the fore part of this week.

Although it has been more than two weeks since the great storm visited us, the damage which it caused, is far from being repaired. Carpenters and tinners are at a premium; they have not been able to meet the demands made upon them, and consequently there has been additional damage done to buildings and their contents, on account of not being roofed. Our lumber dealers have not been able to furnish near enough shingles to go around.

The late rains which we have had the last few days, have helped the wheat very much; it looked badly before the rain.

# The Carroll Record.

A Weekly Newspaper.  
INDEPENDENT IN POLITICS.

PUBLISHED EVERY SATURDAY AT TANEYTOWN, MD.  
BY THE CARROLL RECORD PRINTING AND PUBLISHING COMPANY.

BOARD OF DIRECTORS:

TERMS \$1.00 PER ANNUM IN ADVANCE.  
ADVERTISEMENTS will be inserted under contract at the rate of 10c per line per annum. Rates for Special Advertisements given on application.

FINE JOB WORK a specialty, at lowest rates. Samples and estimates furnished on all classes of work.

CORRESPONDENTS must avoid personal reflections, of a non-compulsory character, and only make statements which can be verified. All communications must be signed by the writer's own name, otherwise they cannot be used.

SUBSCRIPTIONS will be continued, as a rule, after the time for which the paper has been paid, unless subscribers who wish to discontinue should notify us, or the Postmaster to do so. The label on paper contains date to which the subscription has been paid.

ADVERTISEMENTS and contributions for the inside of the paper should be handed to the Tuesday evening to be guaranteed insertion.

ENTERED AT TANEYTOWN POSTOFFICE AS SECOND CLASS MATTER

SATURDAY, OCT. 17th., 1896.

## The Election in Carroll.

The result of the election in Carroll county this fall, will be awaited with much interest, it being the first election under the new election law which has created one new polling place and required an entirely new registration. The money question, is expected to make some changes in the result, but just what the change will be, neither party seems to be able to foretell.

Last fall, the county for the first time for many years was carried by republican state candidates, and elected seven republicans to minor offices. Later on, at the special election for Senator, when a strong effort was made on both sides, the majority of Hering, (dem.) over Weaver, was but 28. It is easy to see, therefore, the reasons for the great interest in the approaching contest in this county.

In addition to the foregoing, the result this year will likely have an effort on that of next year, when a full county ticket, including clerk of the court, will be elected, and members of a legislature which will elect a successor to Senator Gorman.

Last year, the combined vote for the gubernatorial candidates was 7896 in a registered vote of 8760. This year, with a registered vote of 8366, the vote of last year may be exceeded, even though the registered vote is 395 less this year, as there is an excess of 469 votes registered now over the number cast last year.

Presidential elections usually bring out a full vote, and have heretofore been pretty accurate demonstrators of the strength of parties; the last few years, however, have shown that nothing is more uncertain than the result of an election, and whatever it may be in this county this year, the side which wins can only receive encouragement from the fact, and not positive assurance that the same result will follow a year hence.

## Preparing for Winter.

The time is here to make preparation for another season—for two, in fact—winter, and early spring. In some ways, at least, everybody prepares for the change from autumn to winter; fuel, provisions and warmer clothing, are so necessary that none but the most improvident fail to supply themselves as best they can, as no one thinks of depending on the chance of summer weather in the winter months.

Strange to say, however, other things just as necessary to comfort and economy, and just as sure to be needed as the ones mentioned, are totally neglected. As everybody knows, winter is sure to be attended by cold winds, snow and freezing weather, and followed by mud and wet. This being a condition to be expected, not only the interior and exterior comfort of our bodies is to be provided for, but many other things of a less selfish, yet scarcely less important character. For instance, all kinds of machinery and implements should be carefully and properly protected from the weather; outbuildings should be repaired and made as secure and comfortable as possible, particularly when used for wintering live stock; gates and fences fixed up, and things generally put in shipshape.

Probably the thing most neglected at this season, is providing against spring mud. It is the exception for country homes to have decent walks from the dwelling to the other buildings, and when the softening up time comes, mud is encountered as soon as one steps from the house. It may be too expensive to have brick, stone or board walks, but surely it would cost but little extra time and labor to make good gravel walks. A walk of this kind, even without a stone foundation, is far better than wading through the mud. The time can be found to do this if the inclination is there.

To carry the idea a little further, there are lots of miserably bad lanes leading to houses, which lanes make excellent roads by utilizing the loose stones lying around over the farm. This disposition of them would not only improve the land for farming purposes, but be a permanent comfort in travel, and at the same time, show the public that a thrifty, and intelligent person lived where such work was in evidence.

These ideas lead to a greater one—village improvement. The RECORD spoke editorially on this subject about a year ago, and has not since changed its mind. There is no sensible reason why the citizens, and those who naturally centre in small villages, should not go together and pick the roads or streets, and make an effort to have dry and well-drained sidewalks. If a half dozen energetic people in every village, will move in this matter, soon the country will be covered with veritable little cities—minus the taxes, and plus, most of the comforts of the larger ones.

## Try Your Skill at Figures.

If you think you are good at figures, try this out, then take your pencil and cross out the electoral votes which you think McKinley and Bryan will not get; then add up the columns and attach your name and send the clipping to the RECORD office. We would like to offer a years subscription free to each of five who come nearest to placing the figures as they will appear in the RECORD, November 7th; but, as it would be a violation of the Postal Laws relating to lotteries, it cannot be done. We will, however, announce the names of the five who come nearest to predicting the result. This table appears at two places in this issue, so that if one is spoiled the other may be used.

## Newspapers in Japan.

The Japanese newspaper is exactly the opposite of that which the reader of English newspapers is accustomed to see, says the New York Journal. Our last page is its first, its columns only run half the length of the page, it has no such things as headlines and its titles run from top to bottom, instead of across. It has but an occasional rough illustration, and it prints few advertisements, but those are paid for at a comparatively high rate. Its price ranges from one to two cents.

The internal organization of a Japanese office is a sad spectacle of daily struggle with difficulties unknown elsewhere, and really unnecessary there. The Japanese written and printed characters consist of the Chinese ideographs, those complicated square figures made up of an apparent jumble of zig-zags, and crosses, and ticks, and triangles, and tails, and of the original Japanese syllabary, called kana.

Of the former there are 20,000 in all, of which, perhaps, 14,000 constitute the scholar's vocabulary, and no fewer than 4,000 are in common, daily use, while the 47 simple characters of the kana are known to everybody. Therefore, the Japanese compositor has to be prepared to place in his stick any one of over 4,000 different types, truly an appalling task. The "making up" and stereotyping is like that of the old-fashioned printing offices, and the paper is printed upon flat presses, fed by hand.

The total number of persons employed on a typical Japanese newspaper is as follows: One political editor, one chief editor, five assistant editors, four proof-readers, one short-hand writer, twelve reporters or newspaper gath'ers, three or four compositors, each with several assistants, twelve men in the press-room, and minor employes, including distributors, making a total of 150 persons. The reporters are the weak point, for the editor frankly tells you that if they cannot find news they are compelled to bring home fiction, as they are paid by results, and even then they do not earn more than \$10 a month. They therefore deliberately invent a large part of their news.

## Bulldozing on the B. & O.

The reports which have been in circulation for some time regarding the bulldozing process going on along the line of the B. & O. Railroad in order to intimidate the employees and prevent them from exercising their rights of franchise as American citizens, exists solely in the minds of those who, for their own reasons saw proper to circulate such unjust reports. Messrs Cowan and Murray have a perfect right to present their side of the case to their employees and do all that honorable men would do to gain converts to their cause. So, likewise, have other gentlemen connected with this great corporation, who differ with the above named gentlemen, the right to advocate their side of the question. The conductors on the B. & O., as a rule, are men of character and their manhood would rebel at any coercion as to their rights as citizens. The engineers, the brakemen, trackmen and general employes will not be bulldozed or threatened with dismissal in the event of their voting their sentiments at the approaching election. We speak thus positively because we deem it unfair to the gentlemen at the head of this corporation to have them unjustly accused regarding such an important matter. We know personally many of them, connected with the B. & O., and we have their word for the statement we thus publicly make, that every man will exercise his own judgment and vote as he may think best for himself, his family and his country.—Fred. Citizen.

# Royal Baking Powder

## ABSOLUTELY PURE

A Plea for the Birds.

(For the Record.) Some time ago, a little editorial paragraph in the Baltimore *American* proposed the setting aside of one day every year, to be observed by the children of the country, to be known as Bird day. It is intended to correspond with the idea of Arbor day, and to teach the children a knowledge of birds, and a love for them.

The cruelty of robbing birds' nests, and of killing the defenseless little creatures, would thus be impressed upon the minds of the children, and in this way it is hoped to start a crusade which will encourage the increase of our native song birds.

Perhaps if this idea could be carried out it would also serve the purpose of teaching a lesson which all our girls ought to learn: which is—the cruelty practiced by using as trimmings for hats and bonnets, those little creatures, the least of which are so especially under God's care, that not one of them falls to the ground without His notice.

Surely the merciful God must notice with special displeasure, when their lives are wantonly taken away for the purpose of using them as articles of adornment. Let us hope that among some of the readers of this paper there are those who are including in this cruelty, *thoughtlessly*, and, on having their attention drawn to the matter, will no longer wear as a trimming, anything which causes the destruction of bird life, such as whole birds, heads, wings, or that trimming which has been much used of late—*aigrettes*—for, while these last might not at first thought be known as coming under this ban, yet when we know how they are obtained, we find that they belong there especially.

The aigrette is the love-plume of the egret bird, and during the mating season it is at perfection, and then it is that it is plucked from the living bird; the loss of it causing the death of the bird, with a lingering agony. Since this has been known, an effort has been made by those in the trade, to make ladies believe that what are called aigrettes, are manufactured articles, and not the real plumes of the egret as was supposed; but this has been proved to be untrue, and the aigrettes are really genuine feathers, the loss of which causes the death of the bird.

Let no one think she is only one of thousands of women who use these bird trimmings, and therefore that her not using them, will have no effect in stopping the evil. If each individual woman would do her part, at least her own conscience would be clear in the matter—and all of us have more influence on others than we know of, though it may be but a bit.

As long as there is a demand for these things, the trade will be kept up, and the responsibility of it will rest upon every woman who helps to create the demand, by wearing them.

**Danger in Food Supplies.**  
A lecturer on cooking the other day made the surprising statement that the asylums are being filled with country people in much greater proportions than city people, mainly because they were more careless in regard to their food. While a diet of fat meats may be more characteristic of people living in rural districts, there are other dangers just as insidious, to which the residents of the big cities are subject. Scientific research is every day emphasizing the fact that man is what he eats.

Probably there have been no more active advocates of pure food than the manufacturers of Royal Baking Powder. The vigorous campaign against adulterations carried on by them was no doubt due in a large part to the fact that in scarcely any other division of food supplies are harmful ingredients used lavishly as in the compounding of baking powders. The absolute purity of the Royal has become in the nature of an axiom, and its proprietors are naturally disposed to spread broadcast the doctrine of pure food. It has been claimed, without contradiction, that no other article of human food has ever received so many emphatic endorsements from the highest authorities.—*Journal of Health.*

If your children are subject to croup watch for the first symptom of the disease—hoarseness. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse it will prevent the attack. Even after the croupy cough has appeared the attack can always be prevented by giving this remedy. It is also invaluable for colds and whooping cough. For sale by R. S. McKinney, Druggist, Taneytown, Md.

## A Little Late,

—BUT—  
**Still They Go!**  
What we mean by this, is, we have again filled up our stock with the Nicest Lot of  
**Summer Dress Goods**

We have had this season. It is a little late, but our trade demands it, and we are selling them every day. Come and see the **NEW LINE!** We know you will be pleased.

**SUSPENDERS.**  
We have a big lot of Sample Suspenders. You can take your pick for 10 cents a pair.

**Peaches and Raisins.**  
We are now selling the Finest Peaches we have had this season, at 5 cts. per pound, but, these are about the last we can get for this money.

**White and Brown Sugar.**  
After to-day we will sell good Brown Sugar at 4c to 4 1/2c per pound. White Sugar, 5c per pound, or 5c by the barrel.

**Glass Jars.**  
Are you in need of any Glass Jars? We are now offering them at 50c, 60c, and 80c per dozen. These goods were bought early, and that is why we can sell them at these figures. If we had to buy now, they would cost from two to three dollars a gross more.

**Q. & Q. Tobacco, 20c lb.**  
It is going fast. When this lot is all, the price will be higher, as the factory refuses to fill any more orders at these figures.

**Stoneware.**  
If you need any Stoneware, here is the place to get the good article. We keep nothing but the straight goods. They always sell.

**It Always Pays** to buy a good article; you get value for your money, and it keeps you in a good humor.

**Reindollar, Hess & Co.** TANEYTOWN, MD.

**Hanover Gloves** OF ALL KINDS.

We have on hand the well-known Hanover Gloves; we have the Oil-tanned California White Glove, which has no equal for corn husking; also Husking Gloves of all kinds.

Hanover Gloves for Dress and driving can't be beat for neatness, fit and wear.

Come and look our Glove Stock over; if you buy other makes and get beat, the fault lies with you and not with us.

**KING WASHING MACHINE,** formerly \$8.00; this month \$4.00 buys one.

Agent for Empire Separators and Creamery outfits in general; also Tread Powers for running same.

**D. W. GARNER,** TANEYTOWN, MD.

Old exchanges, in bundles of 100, only 5c., at RECORD office.

**WANTED!** 25 Men to buy Fly Nets!

In order to sell the few Nets that we have left, we will offer them  
—AT COST!—

We must make room for our large stock of

**Blankets and Robes,** which we claim to be as low in price, if not lower, as any others on the market. All we ask to convince you of the fact, is to come and examine my stock and prices, before purchasing elsewhere.

**S. C. REAVER,** Near Railroad. Taneytown, Md
