He was unwilling to inflict upon the business world a spectacle of an extra session of Congress debating for months over a tariff bill which the party in the Senate could not have the power to pass, and the result of which might have been a crazy-quilt, made up in the Senate, like the Gorman-Wilson bill was, where all principle and policy were sacrificed merely to gain sufficient votes to pass some kind of a measure. Now that the forty-fifth vote has been obtained, there will, probably, be little trouble in gaining even more support, though, with forty-five votes, the Senate would be tled, and Vice-President Hobart would cast the decisive vote affirmatively.

Some persons of the superstitious class seek to track some connection between that shocking tragedy, the lynching of Marshall Price, the murderer of Sallie Dean, and the unseasonable condition of the tree upon which Price was hanged, near Greensboro, Md. It is a most singular freak of nature. Despite the heavy trosts of this fall, this tree, upon which Price breathed his last, is still in full foliage and presents a spring-like appearance, while its neighbors are as barren as in the midst of winter.
