Having a large circulation in a prosperous section, among different class-100.00 es and professions, and as the RECORD itself is made up attractively and on the modern plan, an advertisement can scarcely be given a poor position at any place in its columns. It has been onr rule not to contract for reading advertisements which must be sandwiched in with news items, and this rule will continue to be adhered to.

> By keeping our space for reading matter entirely separate from advertisements, we not only please the reader, but help the advertiser too, by placing all on equality with each other; we offer monthly changes without charge so that advertisement will form a real news feat ure for the paper. The agricultural classes have been forced from their farms into the nearest towns, where they are without work or money.

The local authorities of the several towns, however kindly disposed, are unable to relieve the needs of their own people and are altogether powerless to help our citizens.

The latest report of Consul-General Lee estimates that 600 to 800 Americans are without means of support. 1 have assured him that provision would be made at once to relieve them. To that end I recommend that Congress make an appropriation of not less than \$50,000 to be immediately available for use under the direction of the Secretary of State.
