TANEYTOWN, MARYLAND, SATURDAY, SEPTEMBER, 25 1897.

Local and Personal.

This is meant to be a purely Local News column, to which the RECORD invites contributions. Events of local importance—whether current or in the near future, accidents, cases of extreme illness, society and church happenings, marriages, deaths, etc., should be reported to the Editor in writing; otherwise, they may not appear.

Next Tuesday is the first day for registration.

Miss Gertrude Annan of Emmitsburg, Md. is visiting at Dr. Motter's.

Mr. Amos Duttera is painting and otherwise improving his Baltimore St. residence.

The farmers of this section are generally getting along with their fall work very nicely.

Miss Gertrude Gardner has arrived home, after an absence of ten days in Baltimore, on business. Watch the advertising columns of

Maryland is still omitted from the states receiving daily appointments of fourth-class postmasters. Day after day the bulletin announcing the appointment of republicans in places of democrats is issued, but the distribution does not reach Maryland, except where death creates vacancies. After the election, when the disappointed applicants for postoffices can do the party no harm, Maryland will get her share of this line of patronage.

Prof. George C. Pearson has issued a call for a convention of peach owers, to be held in Hagerstown for the purpose of devising means to exterminate the yellows, which threaten to destroy the peach industry throughout the Blue Mountain belt, and Washington and adjoining counties. He says the peach-growing ndustry is in great peril. If the yelows and San Jose scale are allowed to spread, he predicts that the industry will be ruined in a few years.

A serious fire was narrowly averted Tuesday afternoon at the store of Miller Brothers, dealers in dry goods and clothing, in Westminster, One of the large show windows was decorated with lace curtains and other inflammable material, which was ignited. it is supposed by contact with an electric wire. All the goods in the window were destroyed. Further loss, was, no doubt, prevented by the grompt response of the fire department and the activity of the lerks in the store.

PROMPT ACTION NEEDED. Items of Interest Gleaned from many | Fire Apparatus and a Fire Company must be Provided.

Our water supply is now a settled fact only about two months in the future, and yet no beginning has been made, that we are aware of, toward providing for the necessary apparatus for using the water for fire purposes. The present contractor has nothing to do with this part of the system, nor should the corporate authorities be expected to assume this extra expense as an additional burden cessary funds through individual ef-

MORRISON TO TANEYTOWN. An Interesting Account of a Trip Eastward.

I left Morrison, Ill., July 27th., and came home by jumps. My first stop was Chicago, the great metropolis of Illinois. The first place of interest was Lincoln Park; here one can walk for hours and look at the wild animals from all countries, view the grand scenery of Lake Michigan and enjoy the beauties of the Park. I next visited Lake Front Park, which is quite new, and it is here that the Logan Monument is situated. It is the largest equestrian statue in America. The figure is dressed in the union the town, when our citizens have it within the is power to raise the nehand grasping the bridle-rein, while with the right hand he bears aloft the flag. Long ago the RECORD urged the Logan as he rallied the troops before formation of a Bucket and Ladder Atlanta. The statue is in the center of the Park, and is in full view of Gen. Logan's old home in Park Row. After walking through various parts of the city until completely tired, I went to the Palmer House, on Monroe and State streets, where I put up for the night. This house covers almost an entire block, is nine stories high and contains over seven this, not in the spirit of "I told you hundred rooms. From my room on the ninth story, I had a grand view of the Lake and enjoyed the cool breeze on a hot July evening. After a good night's rest, and a stroll through the city in the morning, I wended my way to Union Depot, to take an eastern bound train which eaves at 10.30. To give an idea of the size of Chicago, I will say that it took one hour's

travel on the cars to reach the depot, after entering the city from the west, and over an hour to run from the depot to get out of the city on the east. There is one street in the city, I was told, that is twenty-eight miles ong. The railroad passes through the city from north-west to south-east. The streets are constantly crowded, and one must often elbow his way through the crowd. In some places the street cars run on the streets, over the streets and under After leaving Chicago, my next stop was at Red Key, Ind., where I chang-

Birthday Surprise Party.

For the RECORD.) The pretty home of Mr. George Shriver, near Harney, was filled, Monday night, Sept. 13th., with his many friends, who came to celebrate his birthday. It was an evening spent happily by all; the large house was taken entire possession of by the guests. The yard was lighted with many lanterns, which presented a pretty scene, while the young ladies gentlemen made the air ring with their merry voices, and the old ones enjoyed themselves in social conversation, and listening to the music of the piano, organ, violin and banjo, which was greatly enjoyed, until supper was announced by Mrs. Shriver. Mystic Chain Meeting. (For the RECORD.)

The Select Castle meeting of the Ancient Order Knights of the Mystic Chain, was held in Hagerstown this week. The meeting was a very pleasant one, and we are pleased to note that in spite of the hard times during the past year, the Order has grown; although the growth may not have been as large as on previous years, yet we feel greatly pleased to know that it has moved slowly and peace-Business is on a boom; our latest fully along, and the prospects look very bright for the future.

It is believed that when the boys are called together the next year, all will rejoice to know that a good and great work has been done. the business was transacted, the meet ing adjourned to meet again at Midland, Md., on the third Tuesday in September, 1898. Those in attendance at the meeting from this section were D. J. Hesson, O. T. Shoemaker, John l and Mr. Rennaker, of Silver Run.

Colored Voters Disappointed.

The color question in politics, which bobs up eyery few years, is apparent. ly in evidence this year in the situation in Baltimore. The failure of the republicans to nominate one or more colored candidates for the House of Delegates has aroused the ire of the colored brethren, and a regular

stampede is threatened by the leaders, who claim not only to have been ignored, but deceived. There is, in our opinion, only one solution to this color question, so far as place on a ticket is concerned, and that is-personal fitness. We do not believe that color, nationality, business, or mere availability, should con

stitute a "pull" for a nomination in any district or under any circumstances. If a colored man is the man best fitted among the candidates for a certain office, he should be given the nomination, and not otherwiseany other consideration is essentially vicious and indefensible. Should a colored man be given political recognition simply because he represents a considerable solid body of yoters in a party, with the same consistency must a white man, representing the most vicious class, possi-

bly, be given the same recognition. In other words, if the republican, or any other, party, be required to reward colored men with office, because they are colored, and vote their people with the party as a consideration, why should not the objectionable foreign element which is so largely represented in all large cities, have equally just claims for the same reward and recognition.

If this sort of reasoning prevailed in politics—it does, unfortunately, to void orders to be renewed, and the not by any means been the Turks, cal result? The people of property, intelligence and morality, would be compelled, for self protection, to band officials who have the renewal of the press of Europe, and all those who orders in charge understand that the system is being used in the place of compelled, for self protection, to band of the property of the press of Europe, and all those who orders in charge understand that the system is being used in the place of of infernal calumniators which has compelled, for self protection, to band themselves together in a party in opposition to poverty, ignorance, and vor of Postal Savings Banks, and I called here was the Hon. The truth is that these miners are chinery. mostly foreigners from Russia and Poland, who neither know nor care much for our laws and customs, and who, in all probability, know so little of our language as not to understand a military order when given for the safety of their own lives. Then too, they are of the class of people who get unreasonably wound up over a situation, and blindly reckless of consequences. One will find, on investi gation of these riots and disturbances,

that but very few American born workmen engage in them. Our immigration laws have been so very lax in their requirements, and our country so free for all, that the result is the most incongruous accumulation of the earth's scum in the mining districts, and elsewhere, that could well be imagined. That there should be serious conflicts, with serious conclusions, is as natural as anything could well be; and a sheriff, who has a gang of this class confronting him, with which he can neither reason nor make understand, yet which is bent on mischief, is undoubt edly justified in the use of his guns, not withstanding the condemnation of the safe-distance sympathizers.

Money orders are often obtained by persons who have a few dollars to lay away. This is made eyident by the operation of the law, which declares a money order void when not presented for payment within one year. When a money order is retained by the payee beyond that period it can only be renewed by the superintendent of the system in Washington, and the number of cases where money orders have been re tained for one, two, three and even more years is surprising. The records show that in most instances where money orders are not presented within the prescribed period, the order was purchased by the payee with no other purpose than depositing his safe until wanted.

When the original money order has pecome void a duplicate is issued, upon application, by the superintendent of the system, and void duplicates are replaced by warrants upon a fund created by uncalled-for money which has accumulated since the system has been in operation. Shredding Corn Fodder.

A correspondent of Country Gentleman offers these suggestions to beginners in shredding fodder: 1. Cut the corn as early as practicable and set it and 25c. up to stand well and tie the shocks well. 2. Let the stalks get dry enough so that no juice will appear when it runs through the rolls. 3. Provide two or three platform wagons, about 7 by 16 or 18 feet and as low as possible, with ends 3 feet high, on which to haul the corn to the machine. Do not atand rush, rush, until all is husked and shredded. The cost will exceed the cost of husking by hand slightly.
