ENTERED AT TANEYTOWN POSTOFFICE AS SECOND CLASS MATTER SATURDAY, JAN. 28th., 1899.

THE N. Y. World almanac and encyclopedia for 1899 is on our desk.

Such crude character sketches, as that of "Jones, Brown and Smith," which appeared in this space last issue...

Jones may be a Vanderbilt, and Smith, President of the United States; yet, both can drop out of the world...

Tom, Dick and Harry, gentlemen whom we profess not to care for, in our selfish way, care as little for us...

The Southern negro is evidently learning. Last week, John G. Lewis, colored, was appointed receiver of public moneys...

Garrett County Acts Wisely. The commissioners of Garrett county have taken the proper step in deciding that, hereafter, the county printing shall be given, under contract...

Political papers should not have "a pull" for this work, to the exclusion of competition, not only because it is contrary to the spirit of economical government...

Political papers, of necessity, must live, through party patronage, much as church papers are sustained, yet they should not be so much under obligations to party customs as to prevent freedom of thought and expression...

We think that county printing should be done, in most cases, by printers within the county; but, that contracts of this kind should be won through competition, and not received as rewards from a party...

The period for money-making, and character building, in the average man's life, is between the ages of thirty and forty-five.

Some people get a good start in life, before thirty, but the majority do not; by start, we mean one earned, not inherited.

Too late, to many, comes the realization of the value of a correct early education and training.

After forty-five, a man may yet make a name and fortune, but chances are against it.

The southern negro is evidently learning. Last week, John G. Lewis, colored, was appointed receiver of public moneys...

Another case was that of a young negro, named Scott, in Kentucky, who, after the commission of a crime for which he expected to be lynched...

The Sure La Grippe Cure. There is no use suffering from this dreadful malady, if you will only get the right remedy.

"La Grippe" is an infectious disease whose specific germ is a bacillus possessing the power of segmentation...

But further, it causes severe constitutional disturbance which manifests themselves by neuralgias, muscular pains (myalgias), fever and chills...

Bearing in mind the leading symptoms and tendency of this disease, it is wise to avoid any drug which will weaken the heart's action or depress the patient's vitality in any way.

Quinine three (3) grains in capsules, Phenalin five or ten (5 or 10) grains in powder at one dose...

ROYAL BAKING POWDER. ABSOLUTELY PURE. Makes the food more delicious and wholesome.

VOTE ON THE TREATY.

Senate Decides to take the Vote on Monday, February 6.

Washington, Jan. 25.—The Senate in executive session today decided to vote on the peace treaty on February 6.

As soon as the doors were closed and the public excluded, Senator Davis chairman of the committee on foreign relations, took the floor and announced that he was authorized by the committee to accept the proposition made in executive session by Senator Gorman yesterday, to vote on the treaty within ten days. He, therefore, asked for unanimous consent that the vote should be taken at 3 o'clock on Monday, February 6, saying that exactly ten legislative days would intervene between this time and that.

He intimated that if there were any objections to this date he would like to hear them, but none was heard and the hour and the day were unanimously agreed to. There was also an agreement that the Senate should go into executive session each day at 2 p. m. between this time and February 6 for the discussion of the treaty.

A large part of the time of the regular executive session was consumed by Senator Davis in making a presentation of the history of the Paris conference.

He said the American members of the commission had been in constant communication with the President while negotiating the convention; that he was made acquainted with all the commission's movements, and while he admitted that there had been apparently some division of opinion among publicists in the United States as to the policy of including the Philippines in the agreement, there had been practically no other honorable way out of the difficulty.

As for himself, Mr. Davis said he was willing from the start to extend our borders so as to include these islands, because he believed their acquisition a most important stride in the advancement of the American nation, commercially and otherwise. He and others were looking forward to the prospective partition of the vast Chinese Empire among the European nations, and he foresaw that if the United States did not secure a footing in the Orient, such as they now have an opportunity to secure through the terms of the treaty, they would be most effectually and forever shut out from this vast market.

If we should fail to make good our own opportunity, thus providentially presented, we need, Mr. Davis said, expect no favors from Europe in regaining a foothold in the Eastern markets. We need count upon no display of friendship from Europe in this or any other matter. The European powers were profoundly jealous of the United States, and the Senator declared that it was a fact that we had not had one friend on the Continent in our recent struggle with Spain or in our efforts to secure peace favorable in this country. He intimated that but for Great Britain's attitude there would have been intervention by the continental powers.

Clabaugh to go on the Bench. Washington, Jan. 23.—Judge McComas, it is understood, will not retire from the District of Columbia bench until March. On March 4 he will be sworn in as a United States Senator, to succeed Senator Gorman. Considerable interest is taken by the District bar in the appointment of Judge McComas successor upon the bench. Many members of the profession favor the selection of Job Barnard, although the names of A. A. Birney, J. J. Darlington and others are mentioned.

Interested parties, who have talked with President McKinley upon the subject, say the appointment of Attorney-General Clabaugh, of Maryland, to succeed Judge McComas, is a certainty. Marylanders here are discussing the probable action of Governor Lowndes in the event that a vacancy is created in the attorney-generalship by the promotion of Mr. Clabaugh. The Governor will have the appointment of a new attorney-general, who will hold from March until next fall, when an attorney-general is to be elected on the state ticket. A prominent Eastern Shore politician, who was in Washington today, said it was generally believed that Governor Lowndes would appoint ex-Judge George Mitchell Rasmus, of Caroline county, to the place. The Governor is known to have a very kindly feeling for Judge Rasmus, whom he placed on the bench of the State Court of Appeals after the death of Chief Judge Robinson, in 1890. The appointment would be pleasing both to Judge Rasmus and his friends, and would relieve the Governor of any complications that might arise by the appointment of a younger and more ambitious politician.—Ball. Sun.

Advance in Wheat. New York, Jan. 25.—Outsiders today lifted the price of wheat over 2c a bushel. So active was the demand that it kept right along after the close, and in the late dealings outside the exchange May advanced to 79c, or 3 cent higher than the official closing figures. Today's strength was entirely a matter of sentiment, backed up by heavy outside orders, with Wall street understood to be liberally interested in hoisting the price.

No one pretends to say where the present boom will end. There was a good deal of unloading today, but demand kept feverish and easily absorbed all offerings before they had a chance to affect the market. A question of interest is the attitude of foreign houses, who are believed to have sold short at lower prices. Should the advance force covering by this interest sensational features would doubtless result. Total transactions in the market were 3,385,000 bushels.
