Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way.

Yet when persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain codliver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done? This question was ans-

wered when we first made SCOTT'S **EMULSION**

of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs.

The bad taste and odor have been taken away, the oil itself has been partly digested, and the most sensitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest it. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life.

MAJOR JOHN A. LOGAN KILLED.

Manıla, Nov. 14.—The Thirty-third Infantry, in one of the sharpest engagements of the war, with an equal force of Filipinos, five miles from San Fabian, last Saturday, lost one officer and six men killed and one officer and

12 men wounded. The Americans captured 29 Filipinos and 100 rifles. They found 81 Filipino dead in the trenches and rice fields. It is probable many more Filipinos were killed or wounded.

The Filipinos opened the fight two miles from San Jacinto, while the leading American battalion was passing a clump of houses in the midst of a cocoanut grove knee deep in mud. The native sharpshooters, hidden in trees, houses and a small trench across the road held their fire until the Americans were close to them. When they began firing other Filipinos opened fire from thickets, right and opened fire from thickets, right and opened fire from the forther own.
