Again the season is about to change and as the season changes, we must change also During the past six months there have been some of the most remarkable changes that have ever been noticed. Scarcely a line has escaped the advance in prices, and the outlook calls for no immediate reductions, yet we have been very careful in our marking, and after a survey you will agree that the goods dis played on our counters are remarkably low. The fact of our having an immense stock of goods on hand pri-or to the wonderful advance all along the line, establishes the fact that we are headquarters for all domestics. The Sun's reports from all parts of the United States are unsurpassed.

The Sun's Cable Service is the finest known; the troubles in the Philippines and in South Africa demand competent correspondents and vast expenditure of money and labor in getting the news. When you get the Sun you get news and intelligent presentation of facts with it, as well as carefully prepared articles of editorial writers of highest standing. When you read a daily paper whose principal recommendation is cheapness, you get the dregs—generally very poor dregs at that.
