This is certainly complimentary to you,my friends, and epitomizes the opinion of the world as to your honorable calling. It is estimated that more than ninety per cent. of the business men fail at one time or another during their career. The failures among farmers is less than ten per cent. Have you ever stopped to think of the ten failures for each success, of the great misery and suffering among this class particularly in their declining years, and of the contentment, peace of mind, and real comfort enjoyed by the farmers of this country?
