As Mr. Dooley familiarly calls them, either "Mac" or "Billy Bryan" will get the prize—of this, we are sure—therefore the country will not be without a president. There is consolation in the thought. On the one hand, the country is not in such a bad condition now that it cannot be held together yet awhile, with wise doctoring; and, on the other, if it falls.

But "the government stamp" is not about 15 out of 90 votes, or a power equal to seven and one-half States. But this is not his full power in the legislative halls, in the light of illustrious precedent. There is a potency in the use of patronage that has whipped in many a recalcitrant member, and either silenced opposition or forced a favorable vote.

The fact is, the people have a way of keeping house which turns out in efficient stewards and wasteful cooks whenever the signs point toward their shortcomings; but this "way" is also less than the individual of the proposition of whenever the signs point toward their shortcomings; but this "way" is also equally sure to retain them when such signs are not in evidence. Just which condition represents the present management, seems to be the point of debate this year—whether "Mac" is entitled to "stay on" another term, or whether "Billy Bryan" will make the

A Cunning Dog. A rabbit dog belonging to James Ross, a farmer living about two miles from Blackwood, Camden county, N. J., recently saved himself from being burned to death by burrowing into the earth. The barn in which he was confined was set on fire by a small boy with a lantern who stumbled through a skylight. When the dog found himself hemmed in by a circle of fire, he began to dig in the soft earth which formed the floor of the barn and soon had a burrow four feet deep, in which he took refuge. Debris fell across the hole and protected him. When the fire had burned itself out, the dog was found uninjured.-Philadelphia North

The profit on Major's cement is as much as any dealer ought to make on any cement. And this is doubly true in view of the fact that each dealer gets his share of the benefit of Mr. Major's advertising, which amounts to over \$5000 a month, throughout the country. Established in 1876.

Insist on having Major's. Don't accept any offhand advice from a druggist.

If you are at all handy (and you will be likely to find that you are a good deal more so than you imagine) you can repair your rubber boots and family shoes, and any other rubber and leather articles, with Major's Rubber Cement and Major's Leather Cement.
