

NOTES HERE AND THERE.

Brief Items of General Interest from Correspondents and Other Sources.

It is said that the legislature will resist the state with the object in view of making democratic chances better for electing members of Congress.

Senator McComas has stated that no Federal appointments will be made in Maryland until after April 1st, under any circumstances or conditions.

There will be five eclipses in 1902, three of the sun and two of the moon, but of these only one, an eclipse of the moon, on Oct. 16th, will be visible here.

The Court of Appeals of Maryland has decided that the trustees of Chesapeake and Ohio canal shall have control of the waterway for six years more.

A bill has been introduced in Congress by Representative Pearce, giving Rural Carriers fifteen days' leave of absence in each year, on full pay. It ought to become a law.

The Baltimore Sun, almanac, or "blue book," paid its customary annual visit, last week, and was accorded a hearty "come in." We would hardly know how to keep shop without it.

Jas. A. Ocker, of Littlestown, received a stroke of paralysis on Tuesday, in a critical condition, but a change has resulted for the better and his chances for recovery are now good.

We acknowledge the receipt of a copy of the thirty-third annual report of St. Mary's Industrial School, very handsomely prepared, and the work of which was executed wholly by the printing department of the school.

How many people have noticed that no portrait of a man has ever appeared on a United States coin or the picture of a woman on the postage stamps? An observing editor remarks on these facts that they constitute the reason why we lack the stamps and squeeze the coin.

Tramps are again a nuisance at Lebanon, Pa., and the county commissioners have arranged with Sheriff Copenhaver for their confinement in the dark cell on bread and water diet. Mayor Gerhart has ordered his policemen to arrest every tramp who shall enter the city, and promises a 30-day sentence to each offender.

It has been definitely ascertained that the President will entertain the appeal of Admiral Schley for review of his case and that he will take no steps and make no decision whatever until the papers now in course of preparation by Hon. Isidor Raynor, Admiral Schley's counsel, are laid before him.

David McConaughy, the oldest member of the Adams county bar, is dead. He was 78 years of age. Mr. McConaughy was the originator and for 10 years president of the Gettysburg Battlefield Memorial Association. In 1865 he represented the Franklin-Adams district in the State Senate and since has held many local offices.

How the American people would rebel if it cost as much to inaugurate a President of the United States as it will to crown King Edward Sovereign of England and Emperor of India next June. A London correspondent, who has been investigating the cost, estimates that the cost of the English nation of the coronation festivities will be no less than nineteen million dollars.

Luther M. Alleman, postmaster at Littlestown, Pa., charged on the oath of Augustus Eder of Frederick, with altering the date of a bank draft, has been held in bail for his appearance at the next term of the York county (Pa.) court. The charge grew out of the transaction which Alleman had with Ebert some time ago, and out of which grew a lawsuit, involving about \$6,000, which Ebert won at Gettysburg recently.

The surveyors employed jointly by the States of Pennsylvania and Maryland to correct the line as first established by Mason and Dixon, have reached the famous "concordance" in Germany township. They found many of the stones displaced; one used as a door-sill in a dwelling, another in a church, and others in the houses of the people, and out of these lying down and some at a distance from the original place. All of these stones will be secured and returned to the proper place. *Littlestown Independent.*

Attorney David N. Henning, of Westminster, was severely injured in an accident at the residence of Mr. Henning on the 10th inst. He was in the country on business accompanied by John M. Roberts and Wm. B. Thomas, and while descending a hill the latter, who was driving the horses to become unmanageable, the driver, in order to stop them, turned them against the bank, which upset the carriage, and Mr. Henning attempted to jump, but was caught by the carriage and his shoulder fractured. The other gentlemen were bruised, but not badly hurt.

A Donation Acknowledged.

The ladies of the Young People's Missionary Society of the Presbyterian church, Taneytown, recently sent a box of clothing to the Social Settlement in Baltimore. The following letter bespeaks the gratitude of those so sorely in need of the substantial of life, and the appreciation on the part of those who are engaged in carrying out these beneficent little ones.

If there are any who would enjoy sharing with Christ's own children, some of the wealth and bounty given them by Him for His own sake, they may do so by handing at any time, gifts of clothing, money, toys and books to the Secretary of the Society, Miss Eliza Birnie, and they will be promptly forwarded.

The Society desires to thank Messrs. Weant & Koons and F. M. Yount for their donations of dress goods and underwear, and to Mrs. L. Fringer for her kind assistance. The letter reads: Mrs. James Cattanch.

Accept our thanks for your splendid donation of clothing, which we have received to be used by us in our work here at Locust Point among God's poor. Every article of clothing is so appreciated by these destitute, and they are sure to be in need of it. We are sure that you will be glad to hear that they are so happy and that they are so grateful for your gift, which has very materially aided them.

Hoping you will remember us in the future, we remain, Very truly yours, Mrs. LILLIAN W. ANOK, President.

Tramps as Stone-breakers.

The following item is clipped from one of our exchanges:

"The people of this county and vicinity will ask the county delegation in the legislature to enact a law giving power to the trustees of the Almshouse to maintain on the county farm a shed and a supply of stone to be broken by tramps who may be sent there by justices of the peace or who may apply for lodging. During the past five or six years the number of tramps who have lodged at the county house has been so large as to be of considerable expense to the county in furnishing them food and bed. The people desire that these vagrants, in consideration of their lodging, shall be required to work in the stone shed a short time, and the stone cracked by them to be used on the public road along the county farm or elsewhere. Several of the delegation have been interviewed on the subject, and there is every prospect that such a law will be passed."

The stone-breaking idea may be good, but we doubt it, unless it is accompanied with some kind of simple and compulsory commitment system, which will result in very numerous introductions to the stone pile. If it is not, tramps will simply steer away from almshouses and inflict themselves all the more on the citizens.

It is not so much the kind of work, as the certainty of work, which will act as the purgative. We endorse the workhouse scheme, but would like to add to breaking stone such enticing work as sawing wood, making brick, hewing crosses, and making and boring posts, manufacturing fence rails, and, if possible, blackening stoves and fitting stove pipe together.

We trust that some sort of effective tramp exclusion law will be passed, and that its enforcement will be as nearly compulsory as possible. The tramp must not be considered in the category of human beings entitled to many of the nice distinctions meted out to legitimate citizens, as "tramping" places him outside of any such claim—he is a self-convicted, half-criminal, at least. We want a law, which, in effect, will be a compulsory emigration law.

Recommended by the Board.

The Board of State Aid and Charities has recommended a list in State appropriations which is startling—in round figures, \$1,000,000. The various institutions favored, chiefly Homes and Asylums, are given, approximately, \$850,000, for the two years, 1903-04.

Among the recommendations made, a few which secure the approval of the Board are very decidedly cut down: for instance, Springfield Asylum asked for \$198,400, and is allowed but \$70,000; Johns Hopkins University reduced from \$100,000 to \$50,000; St. John's College reduced from \$39,000 to \$24,500, and others in various sums from \$2,000 to \$10,000. A number of Colleges, Schools and Regiments of the M. N. G. are cut off entirely, from amounts asked, or about \$635,000. The heaviest losers in this class are the Experiment Station, Md. Ag. College, \$90,000; Fourth and Fifth Regiments, Troop A, M. N. G., total \$200,000; Farmers' Clubs, \$60,000; Baltimore Medical Colleges, \$125,000, and various other institutions making up the amount first stated.

The medical colleges are refused on the grounds of their being private institutions, conducted largely for gain; also, because other states, as a rule, do not aid such institutions.

A considerable number of Homes and Asylums are refused because their scope is limited, and sometimes experimental; also, because other institutions are said to cover the same objects.

The appropriations asked for the M. N. G. are largely for buildings, the necessity for which is not pressing. The Experiment Station is considered part of the Agricultural College, the same reason is also given for disapproving the sum asked for organized Farmers' Clubs.

Western Maryland College is refused \$5,200 additional because it already receives \$11,700 annually. The same reason is given for Washington College and St. Mary's Seminary.

The Woman's College, Frederick, fails to get \$13,000, because the Board differs on the policy of free scholarships in private institutions, and the State appropriates large sums for public and normal schools.

It is a difficult matter to determine whether the recommendations made by the Board are generally wise, but the presumption is that they are. That they are wholly wise, it is equally a fair presumption that they are not. In any case, we must assume that the gentlemen composing the Board have acted after investigation, and according to their best judgment.

While the report of the Board is not final, it is important, for the reason that it carries with it the weight of presumed advance, investigation, consequently the average member of the legislature will be influenced by this fact in his vote. Besides, many people are thoroughly convinced of previous waste of public funds, and are in a frame of mind to make a decided curtailment of appropriations at this session.

Farmers' Clubs, and farmers generally who are beginning to take active and intelligent interest in the work of the Experiment Station connected with the Agricultural College,

will not take kindly to the recommendation of the Board, nor will they agree that the reason given for the disapproval is either satisfactory or in the slightest degree tenable, and a fight on the part of the interests involved is sure to follow.

We are not sufficiently conversant with the facts and purposes connected with the subject to enter into a discussion of it, but we are undoubtedly of the opinion that at least \$50,000 of the \$90,000 asked should be voted for the purpose. We are also of the opinion that the \$40,000 asked for "organized clubs" was a mistake of judgment, and that the decision of the Board, on this point, is wise. Certainly, the agricultural interests of this State demand recognition, and we can well afford to give good appropriations for this purpose, for two years, at least.

Some one will also ask why Western Maryland College should still receive \$11,700 a year, if the Board is doubtful as to the wise "policy of free scholarships in private institutions." This College is certainly a "private" institution, as much so as a dozen more in the State operated by other religious denominations. Why not let the farmers have this \$23,400 for two years, instead of W. M. College?

The publication of the report of this Board will undoubtedly start many a pilgrimage to Annapolis, and a lot of very interesting "log rolling" is sure to be done this winter in the old town. On the whole, we think the creation of this Board was wise, and have no doubt that it will result in saving the State many thousands of dollars; still, there will be "thieves who break in and steal," in spite of all precautions.

The State, and the W. M. R. R.

From our point of view, the sale of the Western Maryland Railroad to the Pennsylvania Company, would be detrimental, not only to the interests of Baltimore city, but to the entire State. The Pennsylvania is undoubtedly a magnificent system, ably conducted and progressive; it is also accommodating and liberal spirited—when it must be. It is neither better nor worse than any other great corporation with a monopoly to operate, but it certainly owns about enough of Maryland.

It is probable, that, unless the W. M. R. R. is soon absorbed by some other strong road, the Pennsylvania will get it; indeed, if it had really wanted it badly, heretofore, it would likely have owned it by this time. As long as the road is separately conducted, as at present, the Pennsylvania possibly cares but little for the property, and the desire for it, no doubt, rests almost wholly in the keeping of it from being a valuable connecting link for a strong rail line.

The strong tendency toward a monopoly of railroad interests throughout the country, will operate in the direction of bringing prominently to the front the idea of government ownership—a consummation connected with many dangers—or, at least, the more strict regulation of the carrying business by National or state legislatures.

Maryland's interests certainly lie more strongly than ever, since the B. & O. absorption by the Pennsylvania—in the keeping of the Western Maryland from sharing the same fate. Indeed, we believe that its sale to the Indians, or to some other wealthy railroad interest, would be an absolute safe-guard of the interests of the state, and should be entered into.

The Canal Bill Passed.

Washington, Jan. 9.—The Hepburn Nicaragua Canal bill passed the House late this afternoon by practically a unanimous vote. Only two members out of 310 voted against it—Messrs Fletcher (Rep., Minn.) and Lassiter (Dem., Va.). The opposition to the Nicaragua route attempted to secure amendments to lodge with the President the discretionary power to purchase and complete the Panama canal, if it could be purchased for \$40,000,000. The test came on the first vote, when the advocates of an alternative route polled 102 against 170 votes. At each succeeding vote their strength dwindled until Mr. Cannon (Ill.), under whose leadership the fight was made, was unable to get the ayes and nays on a motion to recommend. All other amendments failed and the bill passed exactly as it came from the committee. None of the votes, except that on the final passage of the bill, was a record vote.

The debate which preceded the taking of the final vote was made memorable by a clash between Mr. Hepburn, the author of the bill, and Mr. Cannon, chairman of the Appropriations Committee, on several previous occasions they have measured swords over canal legislation. Two years ago a similar bill was passed by a vote of 234 to 88.

The bill as passed today authorizes the President to secure from the states of Costa Rica and Nicaragua, in behalf of the United States, control of such a portion of the territory belonging to said states as may be desirable and necessary on which to excavate, construct and protect a canal suitable to the wants of modern navigation and commerce, and appropriate such a sum as may be necessary to secure the control of said territory. Section 2 authorizes the President, after securing control of the needed territory, to direct the Secretary of War to construct such canal from the Caribbean sea, at a point near Greytown, in Nicaragua, by way of Lake Nicaragua, to a point on the Pacific ocean, near Brito, and also to construct proper harbors at the termini of said canal, and to make necessary provisions for the defense of the canal and harbors.

Sections 3 and 4 authorize the President to make such surveys as may be necessary and to employ such persons in constructing the canal as may be necessary, and directs that in the construction of the canal the River San Juan and Lake Nicaragua shall be used as far as they are available.

Section 5 authorizes the President to guarantee to the states of Costa

Rica and Nicaragua the use of the canal and harbors, upon terms to be agreed upon, for all vessels owned by said states and by citizens thereof.

The last section makes a present appropriation of \$10,000,000 to carry on this work, and authorizes the Secretary of War to enter into proper contracts for material and work as may be deemed necessary therefor, such work and material to be paid for as appropriations may be made from time to time. The section fixes the aggregate cost at \$180,000,000 to be drawn from the Treasury on warrants of the President.

The Navy Protest.

As is well known, some ministers in Massachusetts are protesting against the proposed increase in our navy. Many of these are degenerates who, dissatisfied with the small reward for their services judged sufficient by the general public, are actuated by a narrow minded hatred of production of any valuable commodities. It is refreshing to see these, who fought the Blair educational bill as if their salvation depended on preventing the negroes and poorer whites in the South from acquiring a public school education, calling attention to how much good the money would do if applied to education. They even endorse the expenditure of the money required for the increase in public charities, going against the bed rock tenets of the Mugwump faith. None of the Mugwump leaders or newspapers seem to be objecting to this proposal to expend \$100,000,000 in charities.

The true inwardness of the objections to our navy, most of which have seen the light under the able patronage of Edward Atkinson of Massachusetts, may be found in a statement of the Secretary of the Navy in Cleveland's last administration, Mr. Herbert, that since we commenced building our new navy the price of open hearth steel had been cut in two.

When we commenced rebuilding our navy in 1888 we were making 144,000 tons of open hearth steel. In 1900 we made nearly 3,400,000 tons. Then we were importing open hearth steel from England and Germany; now we are exporting to those countries. Of course the price of steel could not be held up in the face of such increased production, and during the past ten years the cost of all agricultural machinery, steel framed buildings and bridges has been materially reduced through the commercial confidence our navy building gave to all steel and iron works in this country. The importer and foreign manufacturer have lost heavily. The Americans have gained a great deal. Both of these results are extremely obnoxious to many Massachusetts ministers.—Economist.

Yield of Wheat Last Year.

Washington, Jan. 10.—The statistician of the department of agriculture estimates the average yield per acre of wheat in the United States in 1901 at 14.8 bushels, as compared with 12.3 bushels in 1900, 12.3 bushels in 1899, 15.3 bushels in 1898, and 13.3 bushels, the mean of the averages of the last ten years.

The newly seeded area of winter wheat is provisionally estimated at 32,000,000 acres, an increase of 5.6 per cent. upon the area estimated to have been sown in the fall of 1900. The newly seeded area of winter rye is provisionally estimated at 1,250,000 acres, an increase of 2.9 per cent. upon the area estimated to have been sown in the fall of 1900.

The department has no reports as to the condition of winter wheat later than December 1. At that date it was 86.7 per cent. of the normal, as compared with 87.1 in 1900, 97.1 in 1899 and 92.6 in 1898. The department will not issue any further estimate of the total production of any product of the soil nor of the number of farm animals until it has made such adjustments of its estimates for the last two years as may seem to be required by the reports of the census, based on an actual farm-to-farm visitation, now in course of publication.

Remarkable Cure of Croup. A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel I cannot praise it enough. I bought a bottle of it from A. E. Store of Goodwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth to-day.—JOEL DENNEY, Inwood, Iowa. New Year Greeting!

We extend our best wishes for a Happy and Prosperous New Year, to our friends and patrons, and the dairying interests generally.

With the protection of honest butter from fraudulent competition, seemingly in sight, 1902 should be a most successful and prosperous year in dairying, when connected along business-like lines. We trust it may prove so to every one. It was the

that furnished the cream for the Farm Dairy Butter that secured the highest at the Dairy Union held at York, Pa., December 4th.—5th., 1901.

Anything you may entrust to us, along the dairy line, will have our careful attention.

Greyhounds are pictured on Egyptian monuments carved 3000 B. C. The Arab leopards is the oldest type of domestic dog at present existing.

Mosquitoes were unknown in Switzerland until the completion of the St. Gothard tunnel under the Alps. The tunnel gave them a short cut to the land of William Tell.

A pigeon in harvest time eats its own weight in grain a day, and a blackbird or thrush will eat its own weight daily of ripe fruit. Many kinds of birds exist in summer largely upon plants raised by man for his food.

Getting Thin

is all right, if you are too fat; and all wrong, if too thin already.

Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin; no matter what cause, take Scott's Emulsion of Cod Liver Oil.

There are many causes of getting too thin; they all come under these two heads: over-work and under-digestion.

Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work. You can't live on it—true—but, by it, you can. There's a limit, however; you'll pay for it.

Scott's Emulsion of Cod Liver Oil is the readiest cure for "can't eat," unless it comes of your doing no work—you can't long be well and strong, without some sort of activity.

The genuine has this picture on it, take no other.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

WOMAN AND FASHION

Stylish Walking Costume.
The model is of gray cloth, with the skirt plaited in the middle of the front fitted snugly over the hips and flaring beautifully at the foot. The coat bodice is trimmed in the middle of the front and at either side of the front and back.

With bands of gray velvet, those at the sides being continued on the basque. The revers are of sky blue velvet, enriched with gold braid, and the chemise and collar band are of blue velvet and white mousseline de sole—Philadelphia Ledger.

Handsome Chatelaine Bags.
Almost every other person one meets is wearing either a silver chatelaine bag or one of the steel bead variety, but there are still many people who prefer the less ornate leather bag, and for these there are some very handsome articles from which to choose. Brown, black and gray are the preferred colors in seal, alligator or Russian leather, with oxidized or satin finish silver tops. The wrist bags that have been making a valiant effort to become so popular here as they are in the east do not seem to meet with much encouragement, which is doubtless due to their being rather awkward things to handle unless one does not attempt to carry anything else in the hands, and time to time. A lovely bag that is intended to be worn with the dressiest of toilets is in heavy white corded silk elaborately embroidered in gold and turquoise and having a much carved top of gold.—Pittsburgh Dispatch.

How to Teach a Pet to Ride a Ball.
Many readers have doubtless seen bears standing on a rolling ball and maintaining their balance perfectly while rolling it about the arena. I have a bear who delights to do the trick. He can scarcely wait for his time to come to perform. He was taught, as they are all taught, by joggling his pedestal while he tried to keep from being jostled off. Gradually the pedestal was substituted for a ball with many flat places on it, and this was followed by a perfect sphere. He has been performing two years now, and I have never known him to slip and fall off.—Frank Leslie's Popular Monthly.

The New Detachable Gloves.
Brown, gray and black are the popular shades in gloves of either lace or unadorned kid, but the newest thing is the automobile or driving glove with the detachable gauntlet. The glove proper comes in all the light tints, such as gray, tan, biscuit, cream and white of the one button variety and may be

used for general wear without the wrist piece. The fashion of wearing the glove unbuttoned and turned back over the hand is quite a novelty when worn by a dashing beauty, but it will scarcely be adopted generally during the winter months, as the wrists will be sure to suffer from the exposure.

A Beautiful Hat.

A LOVELY BLOUSE.
A novel and lovely blouse is of white chiffon lined with palest pink and arranged with a yoke formed of two or three feather designs carried out in an applique of lace. Other designs in floral lace applique trim the lower part of the blouse, while the waist belt is very becomingly contrived out of two curved bands of tucked white chiffon connected with feather-stitching. The elbow sleeves are finished with accordion plaited frills of chiffon edged with lace.

"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail," says James Prendergast, merchant, Annapolis Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off by Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. Sold by R. S. McKinney, Druggist, Taneytown, Md.

WASHINGTON LETTER

[Special Correspondence.]

"Shade of Bill Holman! It's enough to make the old man turn over in his grave! And if Dockery of Mizoura was here he'd shore fall in a fit on the floor!"

He stood in the hall of the house of representatives contemplating the rich mahogany desks, the handsome furnishings, the gilt and decorations, with a choleric and deprecatory eye. He was attired in black broadcloth, vest low cut, showing a wide expanse of unstarched shirt front, crossed by a black string tie. His thin soled boots of soft leather were carefully polished, and he held a black slouch hat in his hand.

"I was in congress in the days of 'red-tape and reform,'" he said, "and we had no such doings as these. Then chairs, with a little reclining, was good for ten years longer, and there wasn't nary an initial carved in the desks. In my day the red and plush sofas in the lobby was a dream of oriental splendor, but I see they must have been leather sofas now."

"And as for these new committee rooms, the appropriations in particular, they air a scene of imperialistic sumptuousness that the Caesars never imagined. I walked through this morning, and I saw the feet sinking in the velvet carpets, and every move reflected in the polish of the mahogany tables, desks and chairs. These here plain congressmen, corn fed products of the west, must feel mighty out of place amid such surroundings of luxuries and regal splendor. They tell me there is \$3,000 worth of gold in the ceiling of the speaker's room by way of decoration and that a third of a million dollars has been put in tiling and mahogany, leather, gilt and painting."

"Well, I reckon, after all, there ain't nothing too good for the great American people, and these air the representatives of the people, and the people they pays the freight," whereat he shook his head and walked away.

A Flood of Petitions.
According to the right of petition shall not be abridged. It is quite evident from the numbers of petitions which are being sent to congress this year that the people are disposed to take every advantage of their privilege.

The long recess of congress gave opportunity for petition makers to prepare innumerable requests for all sorts of things, the result being seen in the mass of signed papers now flooding congress. The most widely circulated petition seems to have been in behalf of monogamy as against polygamy. It contained a list of names and thousands of these sheets, bearing the petition at the head and neatly ruled with blank lines, were apparently sent broadcast all over the country. They are coming in from every city and town and cross-roads postoffice; but, like a good many other petitions, they will merely burden the files of the senate for a little while and then be thrown away. There is no indication at present of any action along the lines of the proposed legislation.

The Minister From Siam.
Phya Akhara Ordnam is a high sounding name of the envoy extraordinary and minister plenipotentiary of his majesty the king of Siam, who recently arrived in this country. He was accompanied by his English secretary, Mr. Edward Loftis. Phya Akhara Ordnam is the first diplomatic representative from the Land of the White Elephant to be stationed in Washington. The Siamese minister at London, Phya Prasiddhi, is also accredited to

the United States in a diplomatic capacity, but he only visited Washington occasionally, transacting the little diplomatic business between the two countries from the Siamese legation in London. Mr. Loftis, who accompanies the new minister to the United States, has been an attaché and interpreter of the Siamese legation at London.

To Prohibit Docking.
President Roosevelt's refusal to buy horses whose tails had been docked has led Senator Gallinger, who agrees with the president on this subject, to introduce a bill in the senate making it unlawful for any person to dock the tail of a horse within the District of Columbia.

The title of the bill is "to prevent cruelty to certain animals in the District of Columbia" and goes into the subject thoroughly. Provision is made for the registering of horses with docked tails and makes it unlawful for a person "to import or bring into the District any docked horse or horses or to register a docked horse or horses within the District of Columbia."

For a Hall of Records.
Representative Brownell of Ohio has introduced a bill in the house making an appropriation of \$243,000 for the purchase of property in this city for a hall of records. The property mentioned in the bill is that bounded on the north by G street, on the east by Seventeenth street and on the west by the Windsor building. It is also provided that the building now on this site be razed at an expense of \$100,000. The purchase is to be made by the secretaries of state, war and navy, who shall acquire the property either by private negotiation or by condemnation proceedings.

In Congress With Clay.
Representative Cochran of Missouri presented to the president recently one of the oldest living ex-members of the lower house of congress. This is Judge Andrew J. Harlan of Missouri, who was a member fifty-two years ago. Judge Harlan is now ninety-two years old and is in splendid health. He was a friend of Henry Clay and all the great minds of the congressional days of many years ago.

CARL SCHOFIELD.

What a Bureaucracy Really Is.
When parchment was used for writing and when bookbinding was in its infancy and a bound book was a costly luxury, it was the custom to place the book on a piece of cloth or a strip of wool in order to prevent the binding from possible damage on the rough wood of the table. Those who had to deal with much money also had a strip of the cloth on the table or counter so that the coins should not roll. This strip was called "bureau."

In course of time the custom changed, and the same word was applied to the writing table covered with green or other colored cloth and at length descended to the modern table with the center protected by leather. As an office contains one or more of these tables it is not difficult to understand that the name should, in one country, have been given to the room that contained the bureau.—London Standard.

Described.
A schoolmaster was endeavoring to make clear to his young pupils' minds the meaning of the word "slowly." He walked across the room in the manner the children indicated.

"Now, children, tell me how I walked."

One little fellow who sat near the front of the room almost paralyzed him by blurring out, "Bow-legged!"

An Ample and Sweet Revenge.

A young Englishman who had been repeatedly and unnecessarily annoyed by the St. Malo custom house officials made up his mind to get even with them. The last time he had crossed he had brought a ferret over with him, which he carried with extreme care and an evident desire not to attract attention. This immediately fetched one of the donaners, and he swooped down on it with joyful alacrity. Our young Englishman pretended not to understand the official until the Frenchman made his meaning clear by unmistakable signs. Then he slowly and reluctantly unlocked the bag. The donanier plunged in his hand, and—my pen let me put it down to my pen!—refused to adequately describe the dramatic scene that ensued. Suffice it to say that the bare recital of it was balm to my wounded spirit. I only hope it was our friend at the custom house who made the ferret's acquaintance. Revenge is sweet.—Continental Club.

What Two Scotchmen Did.

In the early days of California two Scotchmen emigrated thither. One of them, an enthusiastic lover of Scotland, took with him a thistle, the national emblem. The other took a small swarm of honeybees. Years have gone. The Pacific coast is, on the one hand, cursed with the Scotch thistle, which the farmers find impossible to exterminate; on the other hand, the forests and fields are laden with the sweetness of honey, which has been and still is one of the blessings of the western slope of the Rocky mountains.

How a Maryland Woman Put on Flesh

GAINED 45 POUNDS.

Loss of flesh means loss of power to resist disease. The man or woman who is fat and healthy has a reserve power that wins the battle of life.

Mrs. Margaret J. E. Truitt, of Pittsville, Md., for over two years had suffered with diseases peculiar to womanhood. Local medical skill seemed to give her no relief. Her food gave her no nourishment. She was gradually wasting away. "Finally," writes Mrs. Truitt, "I was induced to try YAGER'S SARSAPARILLA WITH CILBERY, and before I had taken half a bottle, I began to improve and to gain weight. Since then, I have gained 45 pounds since I began it."

The "building up" power of YAGER'S SARSAPARILLA WITH CILBERY is only one of its wonderful merits. Its primary action is to cleanse and enrich the blood. It restores the whole system to healthy, functional action.

YAGER'S SARSAPARILLA does not contain mercury or arsenic in any form whatever to accomplish the wonderful results achieved. There is absolutely nothing in its composition harmful in the least degree. Its medicinal merit is based on a combination of well known curative agencies heretofore presented in separate form, and sold at a much higher price than YAGER'S SARSAPARILLA. It is sold by leading druggists everywhere, a bottle. Made by Gilbert Bros. & Co., Baltimore, Md.

Codfish, Eggs and Meat.

The mother codfish is prolific, the roe of a large one containing as many as 9,000,000 eggs. Nature seems to have provided for a much larger supply of cod than we are obtaining, but the eggs, floating on the surface of the water to hatch, are destroyed by millions. Codfish eat anything that comes along, from ticks to sharks' teeth. In the stomach of a large specimen two ducks were found. The fish weigh as much as 150 pounds, and the biggest are four and a half feet in length. One man has caught 600 in a day of eleven hours on the Newfoundland banks with a hand line. Eighty men take on an average of 1,600 a day on the Dogger bank. Newfoundland is the headquarters for dried cod. Consul Carter, at St. John's, says the quantity held there before the present season opened was 35,840,000 pounds. The stock on hand a year before was 42,500,000 pounds.—New York Press.

Paper That Stops Bullets.

A series of interesting and in their way almost unique firing trials has been undertaken by the Swedish government. The purpose of these experiments was to examine the effect of shooting against pasteboard. The trials were conducted on the wharves of the Swedish navy in Carlserova, and the target used was a prepared one of millboard, against which fire from revolvers, rifles, carbines and machine guns was directed.

The pasteboard, which was three inches thick, resisted completely the bullets fired from the small arms, but was perforated by the projectiles from the machine guns. The experiments may be said to have given very interesting results. Bullets from the carbines used are able to penetrate wooden planks five inches in thickness, but they could not penetrate the pasteboard, which was only three inches thick.
