

Topic for the Week Beginning July 15—Continued by Rev. S. H. Doyle.

The Sabbath day is the day specially set apart by God for religious worship and service, but it does not follow from that that it is the only day upon which we are to be religious.

Every day of the week is the Lord's day, and there is no day upon which we are not to love and serve Him. These facts are recognized by all people, and yet when it comes to actual practice many seem to think that religion is only for the Sabbath, and that between Saturdays and Sundays we are to put on our ordinary clothes and that between Sundays we can follow our own plans and devices.

Sunday religion only is not the kind that is meant in the word of God. There it is plainly taught that we are to serve the Lord daily. The sacrifices of the Old Testament were offered daily, although they were doubled in number upon the Sabbath.

In this description we can learn many things that should characterize our lives as Christians upon the days of the week:

1. Religious faith should be exercised between Sundays. "They continued steadfastly in the apostles' doctrine," is not only necessary to our standing in God on the Sabbath, but it is the basis of His word in the sanctuary or reading it in the home, but also when amid the duties and cares of everyday life during the week.

2. Religious fellowship should be exercised between Sundays. The early Christians spent much time on week days in worshipping God. Praise and prayer were their daily devotions. "They continued daily with one accord in the temple, breaking bread from house to house, did eat their meat with gladness and singleness of heart, praising God."

3. Religious work should be exercised between Sundays. The early Christians spent much time on week days in worshipping God. Praise and prayer were their daily devotions. "They continued daily with one accord in the temple, breaking bread from house to house, did eat their meat with gladness and singleness of heart, praising God."

THE SPORTING WORLD

Sham Medicaments. Titles by which they know each other in big cities.

Medicaments are criminals, nine-tenths of them with criminal records, is the report of those who have investigated most successfully.

They parade their simulated miseries upon our streets. Those who are in fact less or armless have lost those undesired and useless organs as tramps in stealing rides on railroad trains, etc.

And even the few really blind of the many that pretend to be so were made so purposely or are glad they are so.

New York city is ridding itself of these impostors by the simple expedient of showing up the frauds.

In the slung of these worthless "New York" is jimmied." By taking the good arms out of splints or the sound legs out of casts, exposing the sham blind and the malingering paralytic, punishing the frauds, etc.

Other cities are yet to learn a lesson. "Chi Silin" made a large income, some \$50 a week for years, in an hour or two a day in New York playing the paralytic.

"British" was always most successful. It is allowed to parade their simulated miseries upon our streets. Those who are in fact less or armless have lost those undesired and useless organs as tramps in stealing rides on railroad trains, etc.

PEOPLE OF THE DAY. That had never occurred to him. When Lafayette visited London county he was entertained with the most eminent guests by President Monroe.

Corbett Scored a Point. By securing the consent of Jeffries for a twenty-four foot ring for the coming championship battle Jim Corbett scored an important point in the preliminary arrangements.

An Efficient Chief Clerk. It is within bounds as to fact and no reflection upon two three other excellent men in corresponding positions to say that Mr. Wallace H. Hills, chief clerk of the treasury department, is at the very head of his class.

Reptiles That Walk Erect. Lines of several sorts can walk and run easily on their hind legs. The Australian water lizard, which is three or four feet in length, keeps quite erect when traversing long distances on land.

Food for Health and Beauty. "The best of all beauty making foods are fresh fruits and fresh vegetables," said Professor H. W. Wiley, the famous government chemist.

Children Do Lie. Do children lie? Yes; constantly, persistently and universally, says the Kindergarten. A child does not tell the truth because he could not. He does not know the truth, and his approximation to the truth is very much vaguer than ours.

Cholera Infantum. This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It is a form of cholera, however, when properly treated.

Proud of Her Widowhood. "I would rather be the widow of Phil Sheridan than the wife of any man living," said Mrs. Philip H. Sheridan.

Brain Work and Hair. Everything physical being equal, it is established that the man who is engaged in professional work will grow gray sooner than will the man who is engaged in manual work.

Woman's Cruelty to Woman. Another illustration of how cruel a woman can be given the other night when a young lady was calling on an elderly spinster who dresses and acts with unbecoming youthfulness.

Very Remarkable Cure of Diarrhoea. "About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. A. J. Miller.

Easy. "She's made a fool of that young fellow." "Well, she couldn't have to economize on the raw material."—Baltimore American.

To Rout the Fleas. A great many people write me and other "newspaper" people asking methods of ridding their premises of fleas, says Willard Farmer.

That Will Jar Them. Over the top of an earthenware jar fasten a piece of writing paper, tightly holding it with a string or elastic band. In the center of the paper cut a cross, as shown in the illustration.

READY FOR BUSINESS. paper he will drop into the jar and the paper will fly back in place again, ready for the next corner. A trap arranged in the same manner can be used for the capture of field and harvest mice, which make odd and amusing pets.

Stuffed Tomatoes. Stuffed tomatoes may be prepared in a variety of ways, nearly all palatable and nutritious. For any of them choose large, solid tomatoes, cut in half and remove the center and the seeds.

Survival of a Custom. On gateposts you will frequently find a stone ball. Who would ever suppose that the balls on the gateposts were the heads of family enemies?

In Medieval Cities. There can be no doubt that one reason why cities did not grow so rapidly in the seventeenth and eighteenth centuries as in the nineteenth is the excessively high death rate that prevailed during the earlier period.

Why do little birds in their nest agree? Because it would be dangerous to fall out.

What is the merriest kind of sauce? Capers sauce.

What would a man have to be to be buried with military honors? Dead.

Watch this kind of Dog. In these days of mad dog and rumors of mad dogs it is well to remember these symptoms of hydrophobia. Beware of the dog which it becomes dull and hides away; appears restless; falls on the move and growling; whose countenance is somber and sullen; walks with head down like a bear. Beware of one who barks at nothing when all is still. Beware of a dog that scratches incessantly and tears up things. Look out for the dog that has become too fond of you and is continually trying to lick your hand and face. Beware, above all, of dogs which have difficulty in swallowing, which appears to have a bone in its throat, and one that has wandered from home and returns covered with dirt, exhausted and miserable.

What to Teach the Boys. A philosopher has said that true education of boys is to "teach them what they ought to know when they become men."

1. To be true and to be genuine. No education is worth anything that does not include this. A man had better not know how to read, and be true and good, rather than be learned in all sciences and in all languages, and be at the same time false in heart and counterfeit in life.

2. To be pure in thought, language and life—pure in mind and body. 3. To be unselfish. To care for the feelings and comforts of others. To be generous and kind to all.

4. To be self-reliant and self-helpful even from childhood, and to be independent always, and self-supporting at the earliest possible age. Teach them that all honest work is honorable; that an idle life of dependence on others is disgraceful.

When a boy has learned these things, when he has made these ideas part of him—never poor or lower or rich—he has learned the most important things he ought to know.

Rescued from Suffering and Death by PAINE'S Celery Compound

THE GREAT MEDICINE. MR. ALFRED BROWN, A Prominent and Popular Citizen, Says: "After the Use of Paine's Celery Compound, I Am Now in the Best of Health."

The greatest of modern physicians, Prof. Edward E. Phelps, M. D., LL. D., after years of long practice and close scientific study, gave to suffering and diseased men and women his marvelous, life giving prescription, with the conviction and positive knowledge that it had peculiar virtues and ample power to cure.

Thousands of the strongest testimonials from the best known and most reliable men and women of our country fully sustain the claims made by Dr. Phelps regarding his incomparable Paine's Celery Compound.

One of the most convincing proofs furnished, comes recently from a gentleman widely known in the capital city of the Dominion of Canada. We refer to Mr. Alfred Brown, of O'Connor St., Ottawa, Ont. Mr. Brown's letter fully demonstrates the fact that the greatest sufferer may cast off his or her burden of disease and become well, strong, and happy. It proves, too, that the great medicine maintains more fully than ever before its unrivaled place in the estimation of people of wealth and social standing as well as with the masses.

FOR TWENTY YEARS DIAMOND DYES have been the standard home use. Every dyeing in dyeing has been utilized to improve them. Today they are the simplest, strongest, and most reliable of all dyes for home use.
