A little girl, suffering with tooth-ache, was in his chair to have the tooth removed. She refused to let him proceed at first, being afraid of the pain. "It won't hurt you, little one," said the dentist. "There, now, open your mouth. It won't hurt." Half a minute's work removed the tooth, and as the little girl cried softly the dentist said: "Didn't I tell ou it wouldn't hurt? What do you think of me now?" GIVES VIGOR AND STRENGTH TO DEBILITATED AND RUN DOWN WOMEN.

It is maintained by many distinguished writers that the greatness of a nation depends much upon the physical condition of its women. The general conditions which contribute to health and long life, are those which do not imply a rapid and unequal exhaustion of those powers by which life is maintained. While we assert that the women of our land stand peerless for beauty and the virtues that make them lovable, we cannot hide the fact that there are thousands in our midst who, owing to overwork, worry, household cares, and an unequal exhaustion of life power, have become weak, nervous, sleepless, and debili-
