The County Commissioners decided on Tuesday to take advantage of the opportunity afforded by the Shoemaker road law to secure State aid for Baltimore county roads. Under the provisions of the law Baltimore county can secure \$14,893.39 for improvements of roads but the county must expend an equa amount on the roads for which state aid is asked. It is probable that Park Heights avenue will be one of the roads for which aid will be requested. - Catons-

managers are worried over the outlook They feel that it is necessary to hold the labor vote in the industrial centres of states upon which Mr. Roosevelt's election depends. The following letter from the World's Fair, which is of special interest to farmers, is taken from the last issue of the Baltimore County *Union*, having been received by that Journal from a special respondent on the ground. The exhibit of farming machinery in

the Palace of Agriculture covers about five acres, or one-fourth of the building. A great many people stop to look at the many new devices used by the up-to-date and scientific farmer, and when the question is put to them, "Are you interested in farming?" reply, "No, but I was raised on a farm." Almost invari-A picked choir composed of 16 of the adding Lutheran singers of York, Pa., adding Lutheran singers of York, Pa., Alfred Huster of them have a longing desire to be back on the farm," and a great many add "and I'm going to get back to farming." If those who are discontented on the farm would come here and listen to the people from all over the country express their desire to be back in the country, it would be a panacea for their discontent and they would go back with the feeling that they are engaged in the most independent business on earth.

Among the latest things in the harvest-

ing machinery line is the corn harvester, the corn upright until a large shock is sively by Rev. J. J. Kerr, of Newville, made, then ties it, lifts it up with a derrick and sets it down on the ground, tops up and butts down. Another is the machine that gathers the ears only, leaving the fodder on the stalk. Here you see the big headers that are pushed ahead by the horses and cuts the heads of wheat off, leaving the straw; for in the large area of wheat growing sections the straw is not utilized. In some of the wheat states of the far Northwest the seeded until the spring of 1906, making one crop of wheat only in two years. Near St. Louis in what is called the 'American Bottoms' the crops are mainly wheat and potatoes. The wheat ground will be plowed late next fall from which the wheat has been cut this year and upon which clover was sown in the spring. This fertilizes the ground, because the clover makes a good growth by fall, and in this way they raise pota-toes without fertilizer. The potato ground is then sown in wheat without fertilizer.

## Commercial Hotel for Baltimore.

If present plans do not miscarry, Baltimore is to have a fine commercial hotel at the northwest corner of Charles and Baltimore streets.

The details for the big enterprise are given by Frank P. Newell, the Chicago architect and promoter of the project, in the current issue of the Hotel World, of Chicago, Mr. Newell says in that paper that he has successfully launched scheme to erect a 400 room hotel at the corner of Charles and Baltimore streets. The site, which he says was first purchas ed and then leased to a new corporation for 99 years, is 116 by 155 feet. The project is based upon a \$500,000 bond that has been given large contractors that a hotel costing a certain figure will be erected on the site, and the enterprise is onded for about \$400,000, the bonds

drawing 5% interest. The plans for the hotel, which are now in Newell's office in Chicago, provide for a building which gives a large number of stores on the ground floor, ing in a rental of not less than \$5,000 This enables the leasing of the hotel for \$50,000 a year, which for a fireproof hotel of 400 rooms, it is claimed, is a very reasonable rental. The house will be 12 stories in height, each room with bath, and it is figured that rooms can be let for a dollar a day up and make a handsome profit.

A remarkable thing about the project is not only that the stock has been oversubscribed for, but there are also already several thoroughly responsible applicants for the lease, men with ample means to furnish and operate the house.

## THE BIG CHICAGO STRIKE.

Yards Quit Work.

Chicago, July 25.—Chicago's sympathetic general strike at the stock yards predicted by its leaders to be the greatest and most expensive this country has ever known, began at 10 o'clock today when thousands of teamsters, cattle handlers, and members of the mechanical trades quit work and made a grand rush for the gates leading from the busi-est square mile of buildings, yards and pens in the world.

The first big defection came when seven hundred men, including the scalers and pen cleaners employed by the Union Stock Yards and Transit Company, refused to work further. The first to go were the handlers, and this eliminated the usefulness of the teamsters and they ollowed. As they passed out of the big gates at Exchange avenue they were greeted with cheers by the thousands of strikers gathered in the vicinity. Prior to this spectacular exodus came small strikes in the various plants, in-

cluding carpenters, firemen, elevator men, machinists, etc., but these did not have the effect of tying up the plants since such action had been anticipated, and as often as a union man stepped out a non-union man, or a union man who had deserted his organization was there administration, de bonis non, granted on the estate of Julianne Hobbie, decased, unto Ada Hobbie, who received to take his place. ### The Democratic Chairmanship. Thomas Taggart, of Indiana, was elected chairman of the Democratic

accept the chairmanship resulted finally

in the seemingly harmonious settlement of the question through the withdrawal of the opposition to Taggart, For a while however, the situation looked extremely threatening, and the settlement was not recorded without some apprehension as to what might be the effect of disappointing some of those who had insisted that the Indiana man should not be chosen. The arrival of Mr. Gorman in New York vesterday caused almost as much disturbance as his failure to arrive in St. Louis had caused in the national convention. ### Mud-slinging to the Rear.

There will be no real cause for mudslinging in the Presidential campaign, argued and reargued, compared and recompared, with warmth and exaggeration, from top to bottom of the list of differences; but, the leaders, as men and candidates, are safe from serious damage

from mud-slinging demagogues. President Roosevelt has been before the people long enough for all the characteristics of the man to be known. Possibly no other public official since the foundation of the government has stood out so clearly, or whose principles and latter be in the Democratic column. aspirations have been so above-board. The very prominence of this fact has this stamp can be very dangerous.

Judge Parker is of a directly opposite stamp in many respects. Instead of taking the public into his confidence by expressing himself liberally, he is rather secretive, calculating and deliberative; like President Roosevelt, he is criticized for his distinguishing characteristic, and as unjustly. There is nothing in his past record and judicial temperament to indicate that he would make other than a wise and safe President of the United States, nor that his ability might not be trained to the successful management of the affairs of state.

Both men are extremists, with reference to their manner of expression. The one causing a fear of too much impulsiveness, the other a fear of too much slow of expression determination. The ideal character undoubtedly lies between the two extremes; but, as the candidates stand before the people, we know that the one has been tried and not found dangerous, while there is not the slightest foundation for the belief that the untried one will be the less safe.

The voter, therefore, is perfectly free to vote his party ticket, so far as men rest on the platform and party principle differences, of which there is such a plentiful abundance that the campaign will not suffer for want of argument and en-

### Farms for Railroad Men.

Philadelphia, July 20.—The Pennsylvania Railroad has under consideration a plan by which all of the thousands of employes may, if they so desire, become proprietors of little farms. The scheme contemplates the parcelling out of desirable land belonging to the railroad company along the various lines of track and permitting the free use of this land to every employe who wishes to put the land under cultivation.

In cases where the employe himself might not have the time to conduct a little truck farm, the offer would hold if little truck farm, the offer would hold if the members of the employe's family and that it would give him great pleaswere willing to look after the land. NO. 2363 EQUITY.

In the Circuit Court for Carroll County, sitting as a Court of Equity.

n the matter of the Trust Estate of Clotwor-thy Birnie, deceased, Clotworthy Birnie, Trustee, Jennie Birnie, et al , Defendants.

Jennie Birnie, et al., Defendants.

The object of this Petition is to have the Last Will and Testament of Clotworthy Birnie, late of Carroll County, State of Maryland, deceased, construed so that the Trustee and Petitioner may distribute the trust funds in his hands to the parties entitled thereto.

The Petition states that a certain Clothworthy Birnie, late of Carroll County and State of Maryland, deceased, departed this life on or about the Second day of June, in the year Eighteen Hundred and Forty-five, leaving a Last Will and Testament duly executed to pass real and personal property, bearing date on the Twenty-fourth day of March, in the year Eighteen Hundred and Forty-five, which said will was duly admitted to probate in the Orphans' Court of Carroll county.

That under and by virtue of said Last Will and Testament a certain Rogers Birnie and Margaret Birnie were duly appointed Trustees of the residue of said testator's estate and that they duly accepted said trust and entered upon the duties of the same; that on the Nineteenth day of February, in the year Eighteen Hundred and Seventy-eight, said Margaret Birnie departed this life and that from that time until the Fifteenth day of March, in the year Eighteen Hundred and Eighty-six, the said Rogers Birnie alone discharged said trust.

That on the said Fifteenth day of March, in the year Eighteen Hundred and Eighty-six, the said Rogers Birnie alone discharged said trust.

That on the said Fifteenth day of March, in the year Eighteen Hundred and Eighty-six, the said Rogers Birnie alone discharged said trust.

That on the said Fifteenth day of the Petitioner therein named was duly appointed Trustee in the place and stead of said Rogers Birnie and that the said Dr. Clotworthy Birnie, Trustee, having duly bonded has served as such Trustee to the present time.

That by said Last Will and Testament of Clotworthy Birnie, deceased testator deviced

the place and stead of said Rogers Birnie and that the said Dr. Clotworthy Birnie, Trustee, having duly bonded has served as such Trustee to the present time.

That by said Last Will and Testament of Clotworthy Birnie, deceased testator devised in part as follows, "and I give and devise to my daughter Margaret Birnie as Executor, and to the survivers of them, and the heirs and assigns of such survivers of my said Executrix and Executor, all my real, and personal, and mixed estate (except what is first herein bequeathed) subject to the payment of my debts and funeral expenses, in trust for the following purposes; that is to say, my real estate for the benefit of my daughters exclusively, (my son Rogers having had his portion of my real estate) and my personal property for the use and benefit of my daughters, and my son Rogers his share of my personal property to be ascertained by appraisement, and valuation, at my death, and so also each of my daughters if they shall marry are to take their respective distributive portions in the same way of personal property on their marriage. It is my will that as soon as may be after my death, that my Executrix, and Executor or the surviver of them do sell as much of my real estate as will be necessary to pay my debts, and as much more as they may think necessary preserving my present dwelling house and offices, and three hundred acres of land contiguous thereto, a residence for my unmarried daughters, and invest the proceeds of such sales as they may think best, and apply the interest arising from such investment in the manner hereinbefore directed for the benefit of my daughters. And on the death or marriage of all of my daughters, then the real estate that may remain unsold and all the remaining personal estate shall be sold, and the proceeds equally divided among all my daughters that may then be alive, and the children taking their equal portion of what their deceased parents would have been entitled to."

## A REAL CURE FOR MALARIA.

It has recently been discovered that the germs that produce Malaria, breed and multiply in the intestines and from there spread throughout the system by means of the blood. This fact explains why Malaria is hard to cure by the old method of treatment. Quinine, Iron, etc., stimulate the nerves and build up the blood, but do not destroy tha germs that cause the disease. Rydale's Tonie has a specific effect upon the intestines and bowels, freeing them from all disease breeding microbes. It also kills the germs that infest the veins and arteries. It drives from the blood all poisonous matter and makes it the blood all poisonous matter and makes it rich and healthy.

RYDALE'S TONIC is a blood builder, a rve restorer, and a Malaria destroyer. Try it; it will not disappoint you.

LARRYING FOR A HOME.

Ladies' Vici Kid \$2.00 Shoes, @ \$1.00.

That Is a Mistake Too Serious For Any Woman to Make. Home is a woman's real sphere, however much conditions and necessities have forced her into other and more extended ones. No true woman is indifferent to home and all that it means to herself and others. The more truly womanly she is the more she appresiates and values it.

like buying a picture for its frame or valuing the binding of the book above the book itself. No one can make the home a more important thing in married life than the man one marries, and in no possible case can the home satisfy one if the husband fails. Love for the man one marries will make a home of an attic or the weather side of a hedgerow. But married life, where the home comes first and the husband second or a bad third, is a hideous travesty of what it was meant to be, and it can never draw anything but a blank in the marriage lottery, The girl who marries for a home has provided herself for the best of her | days with a cage which she must halve with another being. The girl who marries for a home is as mistaken as the man who marries for a housekeeper. Both are oblivious of the real reasons for marriage, the highest and the best. Both put the home before the maker of it, and that leads to sure disappoint-
