We acknowledge the receipt, from Hon. J. A. Gombel, of the program of exercises held at Pelham Bay Park, Sept. 10, at which addresses were delivered by Mayor McClellan, Mr. Goulden and others. "The RECORD usually reaches me early Sunday morning, while I do not indulge in reading Sunday papers, I can not abstain from reading the RECORD on Sunday, for it is the happiest hour of the week for me. This has been an ideal summer in every respect, and the crops in this part of Iowa have been fine. The corn is a little late, but if the frost does not come too soon, it will be a heavy crop. I expect to visit St. Louis later on in the fall, and expect to be home sometime between this and Christmas."—I. E. WILLIAMS. Iowa City, Iowa.

### Spanish Minister on Diplomacy.

"Will you give me, sir, a good definition of diplomacy?" a reporter said to the Spanish Minister to America, Emilio de Ojeda.

"Instead of a definition, I'll give you an illustration," the diplomat replied. And, smiling a little, he began:

"There was a certain tenant farmer who waited on his landlord one morning in great distress of mind."

"I have bad news to report to you, sir," he said.

"The landlord looked up from his newspaper with a scowl. 'Bad news? Bad news of what sort?'"

"The tenant rubbed one foot over the other, and twisted his dusty cap nervously in his huge hands."

"A terrible story, sir," he faltered. "Your black bull and my black bull got to fighting this morning, and my black bull gored yours to death."

"I hold you responsible," the landlord cried excitedly, and he jumped up from his chair and paced back and forth at a tremendous gait. "I hold you responsible, farmer."

"But, sir," the tenant objected, "you can't say I was to blame. The two bulls fought together, they fought, and one was killed. That is all there was to it. How was I to blame."

"I am a justice of the peace," said the landlord. "I know the law, and the law says in plain terms that the owners of dangerous animals are responsible for the damage that they do. Your bull killed mine, farmer, and you must make good the loss to me. That is the law."

"That is the law, is it, sir?" said the tenant.

"That is the law."

"All right, sir, I will stand by the law. But—'and here the tenant, a true diplomat, permitted himself to smile faintly—but, sir, I was guilty of a slight mistake when I said my bull killed yours, it was your bull, sir, that killed mine.'"

### A Startling Question.

While stumping the state during the last gubernatorial campaign, Governor Frazier, of Tennessee, entered the office of a village hotel, where he discovered a corpulent German seated at a table writing. Suddenly the German paused in his task, frowned, scratched his head, chewed the end of his pen and looked so obviously worried that Mr. Frazier asked: "My friend, can I be of any service to you?"

"Yah," was the prompt and relieved reply; "blease tell me velder you puts an 'e' behind 'before'?"

It was several seconds before the affable candidate grasped the man's meaning and gave the desired information.

### Letter to Daniel Crabbs.

Taneytown, Md.  
Dear Sir: When you can pay but for less than Devoe; don't, save your money. Mr. Aaron Higgins, Plainfield, N. J., always used 15 gallons of paint for his house; Devoe took 11.

Mr. Ezra Rathmell, Williamsport, Pa., always used 11; Devoe took 6.

Mr. Burt Young, Girard, Pa., always used a gallon for certain rooms; took half as much Devoe.

Mr. Nathaniel Barber, Canton, N. Y., bought 12 Devoe; used less than 6.

You can always pay but for less than Devoe; don't, save your money.

The wearing costs the same way and doubles the difference.

The cost of painting is by the gallon. We paint coats most, most gallons.

Yours truly,  
F. W. DEVOE & CO.

### Democratic Negro Minister in Trouble.

Vigorous repudiation of the political views of Dr. S. Timothy Tice, presiding elder of the Greater New York district of the African M. E. church, was heard in the Bridge Street Church, Brooklyn, at the services last Sunday morning. Colored men and women united in denouncing him because he had written a newspaper article announcing his support of Judge Parker and saying there were no good reasons why colored men should support the Republican ticket.

Dr. Tice is next in authority to Bishop B. W. Arnett and has supervision over all the A. M. E. churches in Greater New York and on Long Island. Until the appearance of his article he was popular, but now wrath is strong against him. Had he been in church on Sunday his ears would have tingled. So much anger has been aroused by his utterances that the church is now divided into two camps, the political, religious and other organizations of colored folk have passed resolutions denouncing his "flap."

### THE BROOK WAS STOCKED.

But the Fisherman Got Very Little For His Five Dollars.

I had just got my rod together and was looking on a worm when the owner of the brook, a sturdy and somewhat ill looking farmer, appeared on the bank beside me. I offered a short salutation and received one in return, considerably shorter than my own.

"Any trout in this brook?" I asked. "Clock full on 'em."

"You allow fishing here, of course?" "Yas, de pay is all right."

"How much?" "Five dollars a trip, now she's stock-ed."

"Oh, she's stocked, is she? Well, I'll give you \$5—in advance!"

He pocketed the money, and I awaited down the brook, a careful of half pounders swimming before my dazzled vision. In the first three I let the only bite I had was from my big coat pocket. I spent an hour casting in "the pool," another one throwing "the cut" and finished out the afternoon skimping around the shores of "the pond."

Then night came on, and I was glad. If ever I have an evil deed to perform, anything like murdering an abledied farmer, I prefer to do it after dark. On my way to the station I stopped at the house of the farmer and inquired for him.

"Pa's gone tur the village," said the boy. "He got some money turday, so he's gone over tur git some groceries."

"Your father told me the brook was stocked," I said fiercely. "So 'tis."

"I don't believe there's a trout in it over an inch long."

"I don't, 'nec," said the boy. "Pa didn't stock it tell las' summer."—New York World.

### On Business.

"Is this the office of the Philanthropic Insurance company?" inquired a brisk looking stranger, consulting a memorandum in his hand as he entered the room.

"Yes, sir," replied a man at one of the desks, rising and coming forward. "Can I do anything for you?"

"You can," rejoined the caller, with emphasis. "I would like one of your large sheets of blotting paper. My son says you send out a better quality of blotting paper than any other insurance company in the city. Thanks! Good morning!"—Chicago Tribune.

### Hard Soap.

One can of potash, five and one-half pounds of grease, three pints of boiling water. Put the potash in an earthen jar, add the water and let stand until dissolved and cold. Melt the grease, put it in a tub, and when blood warm stir in the potash slowly enough to take ten minutes for the process, stirring all the time. The next morning cut it into cakes and set away to dry.

### Dented Furniture.

To take dents out of furniture wet the dented part with warm water, fold a piece of brown paper five or six times, soak it and lay it on the place. Apply on that hot flatiron till the denture has evaporated. If the bruise is not gone repeat the dose. After two or three applications the dents or bruises will be raised level with the surface. Afterward polish as usual.

### Dry Soap and Candles.

Candles burn better and more slowly if they have been stored in a dry place six or seven weeks before using. Soap will go twice as far if it is stored in a dry place.

It should be cut into small blocks and these arranged in tiers, with spaces between to allow them to dry.

### Keeping Pickles.

Pickles should be kept in stone or glass jars, never in glazed earthenware, on which the vinegar acts dangerously. A wooden spoon must be used when making pickles and no metal allowed to come near them.
