

Prayer Meeting for the Week Beginning May 21. By Rev. S. H. DOYLE.

Topic—Growing up for God—Eph. iv, 1-16. (Union meeting with the Churches.) God never expects the impossible.

THE SUNDAY SCHOOL.

LESSON VIII, SECOND QUARTER, INTERNATIONAL SERIES, MAY 21.

Text of the Lesson, John xviii, 28-40. Memory Verses, 37, 38—Golden Text, John xviii, 37—Commentary Prepared by Rev. D. M. Stearns.

In this lesson, which leads up to the crucifixion, we must, however briefly, sum up the events from last lesson onward. Let us not forget that it is His last night in a mortal body.

His going forth from the city over the brook Kedron, rejected by Israel, His Son (Ez. 32, 25; Hos. xi, 3), carries us back to David going forth over the same brook, rejected by his son (1 Sam. xv, 30), but the type was a very faint shadow of this awful reality.

How the agony was heaped up in the hour of His death, when He lay in the garden, forsaken of all, the mocking and buffeting and cruel scourging and finally the hiding of His own Father's face as He who knew no sin was made a sin offering for us—remember, "for us."

Let your heart say "for me" suffering all this for me that I might not suffer through all eternity, and all of His own voluntary will (Lev. 1, 3), for no power on earth or in hell could take Him or take His life from Him unless He willed it (John 8, 19).

After much buffeting and suffering and uncalled for abuse He is brought before the high priests, and He would not utter Pilate's judgment but let them defile and persecute and determine to kill an innocent man.

See the Scripture being fulfilled in the Jews asking the Romans to be His executioner, for had the Jews killed Him He would have been stoned as Stephen was, but it was foreordained that He should be crucified.

A MATTER OF HEALTH

chief attraction lies in the crispness resulting from rapid cooking on a hot fire, but when food of this kind is being prepared it is a great comfort to the housewife to know that the rest of the meal is ready and hot in the box.

In any household such a box will be found of great advantage, lessening the worries of the housewife and cook, and leaving much more time for other duties and recreations, but for working women it is more than this—it is almost indispensable.

A little patience and interest will secure all the experience that is needed and remove all doubts. A few experiments will teach how much preliminary cooking of the gas to be required for different substances. In general, it will be found that two or three minutes of actual boiling of the fire is amply sufficient for vegetables, while most meats require twenty to thirty minutes.

Meaning Something. It had been only a piece of boyish mischief. To be sure two of the school rules were broken, but a fellow couldn't be tied to rules all the time.

Mothers should always keep in good bodily health. They owe it to their children, to the world and to God, to be well, to be happy and to be able to do their duty.

Chamberlain's Cough Remedy. "I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken."

Keeping Food Hot. To prevent the escape of heat from a coffee pot some housewives wrap it with a dry towel or a piece of a blanket.

When colds and another. The season's first cold may be slight—may yield to early treatment, but the next cold will hang on longer; it will be more troublesome, too.

BREEDING BARRED ROCKS.

The general rule in mating for cockers is to use a male of exhibition color or with dark females, says E. R. Thompson in Reliable Poultry Journal.

PRIZE WINNING ELYMOUTH ROCK COCK. (From Frederick's Gazette.) Good shape and graceful carriage. The comb stout, of course, but well serrated and set well on the head, legs yellow and eyes a nice bay color.

There is a true type in a Barred Rock, and it is a misfortune that breeders and judges do not get closer together on this important matter. The true shape of a Barred Rock male is on the blocky type, yet longer in body than a Wyandotte, with full breast, broad back and legs and thighs of medium length.

Health Mothers. Mothers should always keep in good bodily health. They owe it to their children, to the world and to God, to be well, to be happy and to be able to do their duty.

PLAYS AND PLAYERS. "The Girl and the Moon," a new musical comedy, is under the direction of Elmer Vane.

Points on Feeding. The best feed we have ever used for calves, considering the money value, is bright, sweet corn fodder stored in the early fall under shelter.

Change Litter Often. Change the litter in the scratching shed and on the poultry house floor often. Do not allow it to get filthy.

Japanese Jottings. Kissing and shaking hands are rarely practiced in Japan.

FACTS FROM FRANCE. The cost of creating a body in France is only 3 francs.

The materials are all-wool chevrons, cassimeres, tweeds and hove spun. Colors in brown, gray, green, mixtures, plain blues and blacks.

Men's All-wool Spring Suits. Men's All-wool Spring Suits. Men's All-wool Spring Suits.

Working Pants. Stylish Pants. Men's Dress Pants.

We have a Fine Line of Boys' Suits, at the Lowest Prices.

SHOES! SHOES! A Fine Assortment of Shoes just received.

Points on Feeding. Dried blood meal is insoluble in water. It usually contains about 85 per cent of protein and is therefore a valuable feed to use with corn or any other feed that is low in protein.

Change Litter Often. Do not allow it to get filthy. Japanese Jottings. The Japanese farwell, "Sayonara," means something like "If it must be so, or 'If we must part thus, so be it.'"

Easy Pill. Easy to take and easy to act is that famous little pill, Dr. Williams' Little Early Risers. This is due to the fact that they are taken before the stomach is purged.

William O. Atwood, Chairman of the committee of 1905 on arrangements for the twenty-second International Christian Endeavor convention to be held in Baltimore July 5-10 of this year, was born in Chester county, Pa., in 1862.

Atwood became the president of a Christian Endeavor society in 1885, in 1888 was elected vice president of the Baltimore C. E. Union and ever since has been a member of the executive committee of that organization.

He served two terms as president of that union, one term as president of the Maryland C. E. Union and at the present time is president of the Christian Young People's League of Baltimore, a combination of Young People's societies of the various denominations.

Atwood is well known in both business and religious circles and is regarded as one of Baltimore's leading citizens. In his shoulders rests the burden of responsibility in connection with the care of 20,000 or 30,000 young people from all parts of the world in attendance on "the best yet" international Christian Endeavor convention next July.

A Right to Be a Firm Believer. The secretary of the New York State union was asked why he "heartily believed in Christian Endeavor," and this was his reply: "Born into church through the Christian Endeavor society, stammering up my first word of public testimony in one of its meetings, I found an audience for the first time as the leader of its prayer meeting, performing my first personal work under its direction, gaining my first and all subsequent lessons in finding my way in its borders and finding myself indebted to its practices and principles for my development in a multitude of other ways, I have a right to be a firm believer in Christian Endeavor and a loyal supporter of it to the last fiber of my being."

Scott's Emulsion. The season's first cold may be slight—may yield to early treatment, but the next cold will hang on longer; it will be more troublesome, too. Unnecessary to take chances on that second one. Scott's Emulsion is a preventive as well as a cure. Take when colds and another.
