Thoughts on Thanksgiving Day.

The question is, Is Thanksgiving day a day of Thanksgiving? Is it a day of proper special import, or is it just a day According to revised figures, the total vote of Carroll county, as counted, was take holiday, and kill their hogs. A 6,317. As there are 8,375 registered voters in the county, the missing vote was 2,058, of which total 635 ballots few go to church. Everybody to their It is poetically and otherwise imagined

that nearly everybody eats roast turkey, cranberry sauce and "punkin" pie, on that day. It's a good thing, perhaps, to eat turkey poetically, or in your imagination, than not eat it at all, for if a good many did not do it that way they would never know how it tasted. Turkeys grow, in the country, to be sold, not eaten. It is said that some get them without either growing, or buying them, Maryland Court of Appeals, the highest tribunal in the State.

Without entire growing, or spirite but that is likely another fiction. We don't know. Editors know less about

A Model Home for Aged.

Hagerstown, Md., Nov. 17.-The large addition built to the Fahrney Memorial Home for the Aged, owned by the German Baptist Brethren Church, at Mapleville, Washington county, was dedicated today in the presence of a large aseemblage. The addition, which is of brick, two stories high, with mansard roof, cost between \$5,000 and \$6,000, and is 34 by 44 feet. It contains 12 bedrooms and 2 toilet rooms.

The building is equipped with modern conveniences. Water is furnished on tap by means of a gasoline engine. The nterior woodwork is framed in oak. The cypress doors have a natural finish. Seven of the rooms have been furnished by individuals. R. B. Poffenberger, of Myersville, was the contractor, and the work was begun last May. At the close of the ceremonies a collection was taken up and a large sum raised. The improvements have all been provided for.

traveled twice around the world and made six journeys to the Holy Land, making a close study of Jerusalem. He is a native of Washington county being a largedy been started by the State in without a fight.

Governor Comer will approve the bill and it is understood that a movement has already been started by the State institutions of the church.

This indifference to the exercise of the largety and every candidate ought to have a right to win out and institutions of the church.

to make the signing of the bill a very formal occasion.

This bill runs every saloon and dispensary out of business; it means shuting down many large breweries in the State and much loss of revenue to the State, counties and cities. The prohibition wave has swept the State like wildfire and there was nothing left for the state and the signing of the bill a very formal occasion.

It looks to us very much that the time is not far distant when every elector will be made to vote in order to enjoy the protection of the government he is apart of. It will be found that to preserve the Democratic principle of the rule of the majority, and to secure the safety of numbers that all the people will have to vote. The

Muslin Windows in Barns.

The experiment of using muslin curthe same juices found in a healthy stomach. KODOL is offered on a guaranteed has proved so successful in poultry houses all over the country, is now being extended to dairy barns. The problem of ventilation has long been one which dairymen have found difficult to solve, says Suburban Life. The new plan is the acme of simplicity Several windows are removed and replaced with frames over which commo muslin cloth has been tightly stretched Experiments have shown that even in the coldest weather the temperature of the stable is lowered only two or three degrees by the use of these curtain win-

dows while the barns actually have seemed very much warmer. This result s due to the fact that the air is kept dry. Where this plan has been adopted the cattle have shown less evidence of suffering from the cold and the attendants have admitted that the barns have been more comfortable places in which to work than when the glass windows were in use. It is the excess of moisture in the air which causes dampness and chill which prevails in many dairy barns. Although the outside air is able to pass through the muslin it is almost possible for any one standing three feet way to detect its entrance.

a system of this kind will do much to prevent the spread of tuberculosis among cattle. Poultrymen have found that whereas under the old system of using afflicted with colds and similar troubles free from such complaints, and it is expected by advocates of the new system that there will be similar beneficent re sults in the case of dairy cattle

IMITATION HARD WOODS.

How Furniture Manufacturers Meet a Contingency. Perhaps no set of men appreciate the seriousness of the timber supply

question more than those engaged in the manufacture of furniture. They have realized for some years that a pinch in the hardwood market is sure to come, and they have succeeded in coping with the situation by the economical use of material by the practice of veneering and the imitation of the highest priced hard woods.

During the last few years the great increase in the price of hard woods has created a strong demand for wood which can be used in imitation. The two woods that are most successfully imitated are mahogany and oak, particularly the quartered oak in the golden and darker finishes. Almost without exception the manufacturer markets these imitations either as imitations or under some registered trade name and does not pretend to deceive his customers.

For imitating mahogany cherry was formerly used almost entirely, but the diminished supply and the increased price of this wood have led manufacturers to seek a substitute which would lend itself more readily to the stain than cherry and at the same time show the grain and hold the gloss. For these reasons birch, especially curly birch, maple, beech and section the climate is healthy. Such gum are extensively used for all parts of furniture. Even in the better grades often used for posts and frames, while A wet soil is indicated where we find genuine mahogany in the form of veneer is used for panels, tops and

land is often made available for farm | In making imitation quartered oak purposes, but it is better for grass than almost any wood can be used, since in this case the original grain of the We find a strong, rich soil, hard to wood is first covered with a filler, come home without either being frozen bucket and will be deposited partly on work, but of great fertility when once and then the quartering is printed on or looking so. Birch, maple, popof corn, rye, vegetables and small used for this work. After the wood

Certain woods used in furniture construction are extremely expensive owing to the difficulty of obtaining pieces with a good grain of sufficient size for working. Such, for instance, is Circassian walnut. This, which comes from the Ural mountains, is largely used in the form of veneers for chair backs, panels and tops' in bedroom suits, table tops, etc., the balance of the piece of furniture being composed either of American or black walnut (natural finish) or of satin walnut, commonly known as red gum. The latter, while it does not often show the beautiful grain of the panel, is so near the color of plain Circassian walnut that only close scrutiny can detect the difference.-New York Post.

To Cure Lump Jaw. The most successful treatment for lump jaw in cattle is to cut the lump on the jaw open and apply inside of of the little cavities in this lump should be opened freely, so that the tincture of iodine will act on every part affectgiven half a dram of potassium iodide daily, by dissolving this dose in a quart of water and drenching it. Give the potassium iodide for about a week,

Regular Milking Time. A few points as to the care of the dairy cow may be mentioned. First, be regular about milking and feeding. Milking an hour later on Sunday morning is a very bad practice. The cow must be regularly cared for. Always be quiet and gentle when handling the stock. Many a cow has been ruined by being abused while giving milk. Be neat and insist upon your men be-

"The one thing we have more trouble with than anything else," said the manager of one of the large hotels in upper Broadway, "is the fact that women insist on smuggling their pet dogs to their rooms. We have no objections to dogs as dogs. If the animal is not too large or too fierce our guests may take them to their rooms during the day and may even feed them there. But we draw the line at having dogs in the bedrooms at night. Any woman with a pet dog can have the beast cared for by the porter at night, and we have specially constructed kennels for all kinds of dogs, and we give them the best of care. But owners of pets seem to think that no one save themselves understands Fido or Gyp. The women seem to think that if doggie has not the comforting assurance of the owner's nearness then doggie will not sleep well. So women try to smuggle their pets to their rooms under their cloaks or by back ways or even bribe one of the porters to take it to their room, believing that we will not hear anything about it.

"As a matter of fact, the first thing the porter does after getting his tip is to tip me, and a couple of hours later the woman is called upon by a clerk, who tells her dogs cannot stay in the bedrooms all night.-New York Press.

His Neighbor's Cat.

A Cleveland lawyer tells of a man living in a suburb of that city whose sleep had been disturbed nightly by the howling on his own back fence of his neighbor's cat. At last, in despair, he consulted his lawyer.

"There sits the cat every night on our fence," explained the unhappy man, "and he yowls and yowls and yowls. Now, I don't want to have any trouble with this neighbor, but the thing has gone far enough, and I want you to suggest a remedy."

The lawyer looked solemn and said not a word. "I am well within my rights if I

"I would hardly say that," replied the legal light. "The cat does not belong to you, as I understand it."

"And the fence does?"

"Then," concluded the lawyer, "I think it safe to say that you have a perfect right to tear down the fence." -Lippincott's.

Weeds Worth Millions. New Zealand flax is one of a number of wild weeds that yield their gatherers great wealth. The flax, the yards is a long distance to be gained strongest known, grows wild in in three downs, and when two teams | marshes. When it is cultivated it are evenly matched the punt signal dwindles and its fibers become brittle

Indian hemp grows wild, and out of it hasheesh, or keef, is made. Keef one with a good kicker and a fast pair looks like flakes of chopped straw. It beer and whisky.

The most valuable weed of all the wild growths is the seaweed. The nitrate beds of South America, which yield something like \$65,000,000 a year, are nothing but beds of seaweed decomposed.—Columbus Dispatch.

One Kind of Fame. Authorities who have in charge some of England's ancient treasures try to discourage the habit of carving initials on these relics. A fine of \$15 was recently imposed on a man who had chipped his name in letters six inches high on one of the stones in the "Druids' Circle" near Keswick. Close to the giant stone globe at Swanage a special slab is provided for the harmless reception of the names of all who are addicted to this self advertisement. On popular Alpine summits it is customary for names to be left on cards in emptied wine bottles.-Chica-

SURPRISE PARTY.

(For the RECORD.)
On Monday eve, Nov. 11, there was a surprise party given at the home of Mr. and Mrs. George Crumbacker, near Union Bridge, in honor of their niece, Miss Myrtle Koons. The guests began to arrive at about 7.30 o'clock. The plans were well laid and the affair proved to be a genuine surprise; nevertheless their welcome was just as warm and the time was only too quickly whiled away with singing and playing. At a late hour all were invited to the dining room to partake of refreshments, where each one did ample justice. The table was and all the delicacies of the season. About midnight the guests expressed themselves as having spent a very

pleasant evening, and departed for their Those present were, Mr. and Mrs. George Crumbacker; Misses Grace and Carrie Repp, Elizabeth Stansbury Nellie Wilhide, Alice Vanfossom, Susie Lambert Myrtle Koops Folge Desirit of the present were, Mr. and Mrs. with the hope that they will write soon and tell us all their news. Of course they never do, which is just as well, trated Bits. bert, Myrtle Koons, Edna Devilbiss, Edna Keefer, Mary Williams, Minnie Wiest, Addie Crouse, Ruth Koons, Mary and Annie Crumbacker; Messrs. LETTER WRITING.

Post Cards Responsible For Falling Off In Correspondence.

It is a well known fact that nobody writes letters nowadays. It is true we spend a vast deal of time at our writing table, that we consume untold quantities of ink and nibs, while our stationery bill is by no means the most modest item of our ever increasing expenditure. But we neither write nor receive letters. The utmost we do is to "dash off notes" in answer to invitations, to "scribble a few lines" of congratulation or sympathy, as the case may be, with a friend; to express briefly, but forcibly, our dissatisfaction with our dressmaker or our surprise at decorated with candies, cakes and nuts, our milliner's account. As for our absent relations, on the rare occasions when we remember their existence at all we send them our love on a post card with a few details about the me where you got the recipe!" weather, ending in "tearing haste"

DOT'S BIRTHDAY CAKE.

Chestnut street, near the post office, a It Had Five Lovely Pink Candles Set In Little Pink Rosebuds. Once there was a little girl called Dot, and she was just five years old, and she had a fine birthday cake. It was big and round, and it had five beautiful little pink candles set in pink rosebuds on top

Dot sat at the big table at dinner 'The unsophisticated Smith drew a that day, and by and by they put a pretty pink paper cap on her head and then brought in the birthday cake. And the little candles were all burning bright. And when she saw it she said: "Oh, oh! How lovely! It is just too pretty to cut!"

But her mamma said, "I will cut it for you, dear." So she cut one piece for Dot, and then she asked Dot, "Will Marie have a piece?" Marie was Dot's big doll. And Dot looked at her and piece?" Fuzzy was Dot's Teddy bear. "Mr. Smith, after he was gone, smiled And Dot looked at him and said, "He says, 'No, thank you.'" And mamma said, "Will papa have a piece?" And Dot said: "Oh, yes. Won't you, papa?" And papa said, "Yes, please." And Dot said: "Mamma, you will. You must have a piece of my birthday cake." And mamma said, "Yes, thank you."

And mamma cut the cake and gave Dot a piece and papa a piece and her-

How Young John, the Farmer's Son, Was Taught a Lesson. A farmer was one day walking to

town, and his little son, John, was by his side. "Look," said the father; "there is a horseshoe on the ground. Pick it up and carry it home for good luck." "Oh," said John, "I do not think it

is worth stooping for." His father made no reply, but he picked up the iron himself, and when he reached town he-sold it to a blacksmith for 2 cents and bought a few

nuts with the money. On the way home John grew very hungry. As if by accident, the father let one of the nuts fall. John picked it up quickly and, cracking the shell, gris, dipping them in corrosive acid and burying them in the mounds, after which farmer dropped a second nut, and John grasped it from the ground as eagerly as if it had been a piece of gold. In this way the nuts kept dropping until the boy had stooped for them all

one by one. As John was eating his last nut his father turned around with a smile and

"See, now, if you had been willing to stoop once for the horseshoe you would not have had to stoop twenty times for the nuts.' John had been taught a lesson.-Philadelphia Ledger.

A Day In School. I wish I knew my letters well, So I might learn to read and spell.

And O is something like a ball-

It hasn't any end at all. And all the rest are—my, so queer! They look like crooked sticks—oh, dear! Ma counted six and twenty more. What do they have so many for?
