STATE APPROPRIATIONS.

Considerable Increase in the Expenses for the Next Two Years.

The omnibus appropriation bills, making provision for the salaries of the state officers, state and charitable institutions, and fixing the tax rate for the ensuing two years were reported to the Senate on Monday by the Finance Committee.

These measures are the most important of the session, affecting as they do the finances of the state as well as those of a large number of institutions receiving state assistance.

The committee always finds it difficult to satisfy the demands made upon it, in the aggregate, much greater than they were two years ago, owing to the increase in the cost of living, and to the numerous additions to state institutions and the construction of new ones.

The General Appropriation Bill carries an increase of \$150,000 the first year, and of \$200,000 the second year.

The omnibus appropriation bill shows an increase of \$300,000 the first year and \$400,000 the second year.

When the record was examined at the close of the call for the introduction of the bills, it was found that they numbered 125, and that they were introduced during the session ends by suspending the rules, but this can only be done in case of bills of emergency.
