The latest fad is the post card "shower" or surprise party, occasioned by inviting to the honored party 50 or 100, or even more, fancy post cards, according to the popularity and means of those participating. Next, the presence newspaper will be expected to publish the names of "those participating."

Mr. B. O. Sloaner, last week, purchased the desirable Eckenrode lots, fronting on the Westminster road, near town. The price paid is said to have been \$1950. He also sold the two lots recently purchased from the Clark estate, to Mrs. Clara A. Whitmer.

The Taneytown Fire Hose Company lately purchased 300 ft. of very fine hose, of the Chicago Fire Hose Company, paying for same with the money derived from dinner and supper, held on last Thanksgiving week. The Company now has 1100 ft. of good hose.

The first of this week saw many changes of residence—so many that we will not try to mention them—and while we have changed many addresses on our mailing list, the probability is that there are still many who do not receive the Ritzton this week, and will wonder why.

Mr. C. A. Fox and family, of Keysville, moved to Taneytown on Monday and are now comfortably installed in their new home on George St. A big dinner was a feature of the day and it was fully enjoyed by the large crowd of helpers, and some who helped themselves by special invitation.

The Wentz brick yard property has been sold, it is said, to Mr. Shank, of Woodstock, who will operate the works this season. There is a vast supply of excellent material on the property and with proper manufacturing, Taneytown brick ought to be in demand to the full extent of the capacity of the works.

A letter was received by the Editor, this week, from Rev. A. D. Bateman, who writes cheerfully of his work, and of things in general. He especially writes of electric lights and commiserates with Taneytown on her dark condition. The light is a little expensive, but it's "just the thing." He has organized a "Men's League" in his congregation which he says is a strong help.

An amusing, though aggravating, incident occurred in connection with the presentation of the Buffington medal, last Saturday. General King, who was invited to leave the train at Union Bridge, last Friday night, where a team was in waiting to convey him to Buffington's, failed to hear the station called out, and remained on the train until Rocky Ridge was reached before he found out "where he was at." He hired a team, and as neither he nor the driver knew just where Mr. Buffington lived, they had quite an experience getting there at night, being compelled to call at houses along the way for instructions, but finally arrived, finding the family in "the land of nod."

Tired mothers, worn out by the peevish, cross baby have found CASCASWEET a boon and a blessing. Cascasweet is for babies and children, and is especially good for the ill so common in cold weather. Model of Economy

A certain farmer who lives out in the country and who is noted for his closeness in money matters has a 13-year-old son, who is as industrious as his father is peevish.

Recently the father and son made a compact whereby the latter would receive 10 cents for every cord of wood he sawed and piled in the wood shed. Immediately the boy became very busy at the wood pile, and his earnings have been piling up at a rapid rate, his mother keeping her son's hard earned savings for him.

"What are you going to do with all your money?" the thrifty youth was recently asked.

"Goin' to buy a new saw with it," was the reply.

Death Was on His Heels.

Jesse P. Morris, of Skippers, Va., had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at R. S. McKinney's drug store. 50c and \$1.00. Trial bottle free.

Primary Election Law.

The Primary Election bill passed by the Legislature Saturday night, in accordance with the decision of the Democratic caucus, is largely modeled after the Montgomery county law. It is not considered by Governor Crothers and those who stood with him in the fight as a genuine and bona fide redemption of the platform pledge on the subject, but it has been accepted by them as better than nothing and as a step in advance.

That feature of the bill which has aroused the most adverse criticism is its evident discrimination against Baltimore. As shown in THE SUN's editorial on Saturday, the candidates name is to be put on the ticket, and the delegation elected to the State convention from any county or legislative district is pledged to vote for the candidate who receives the largest vote—not in the State, but in the particular county or district. The object of this plan is to make the vote of a small county count for as much as the votes of several men in a large county or in Baltimore. That is to say, in Calvert county each 250 Democrats would have one vote in the State convention for the nomination of Governor, each 500 Democrats in Howard county would have one vote, while in Baltimore county each vote in the convention would represent 1,325 Democratic voters, and in the second city district 2,000.

The chief features of the bill are as follows: Direct Vote and the Method of Nominations.—In the selection of candidates for State offices the Crawford county plan is not to prevail throughout the State other than according to the system of the United States Senatorial primaries for State offices. All candidates for State offices have the right to have their names printed on the ballot in each county and each legislative district and to be voted for directly by the people. The candidate receiving the largest votes in each county or district is to have the support of the delegates of such county or district. This is as it was in the Senatorial primaries. So far as the candidates are concerned it is left optional with the county committees of each party whether or not they shall have the Crawford county system or the convention system.

How Far the Law Applies to Baltimore City.—The new bill will not interfere with the primary law in the city. The primaries for State candidates will be held under its provisions, as there is no provision for this in the city law, but the local candidates will be selected as they are now and under the same law.

Judges and Clerks.—These are to be appointed by the Supervisors of Elections, except in Baltimore county, where the county committee is to name them. There are to be two judges of the dominant party and one of the minority, the latter being named by the minority Supervisor. Each judge and clerk must take an oath as to the discharge of his duties and is paid for his services by the County Committee, and not by the party committee.

Ballots and How the Voting is Done.—There is to be an envelope system of voting, and the voter may mark his ballot at home and take it with him to the polls. The form of the ballot is this: The names of all the candidates are printed, and instead of making a cross mark after the name of the one he wants to vote for, the voter must, with a black lead pencil, scratch out the names of those he does not want to vote for, leaving untouched the one he does. The State Central Committee in each county prints the ballots and prepares the envelopes, one for each ballot. The envelopes are prepared and delivered to the return judge in each precinct three days before the primaries. Any candidate three days before the primaries is entitled to receive as many ballots and envelopes as he may demand and pay for.

The Casting of the Vote.—The voter may receive his ballot three days before the primaries from a candidate or his friends or from the return judge. He may mark it at home or elsewhere, or he may go to the polls and get it. He may have assistance in marking the ballot, but he must not show it to any judge or clerk or any other person, nor must any person accompany him within 100 feet of the polls. The ballot after being marked is placed in the envelope provided and sealed. It is to be placed in the box in the presence of the voter. In marking the ballot the intent of the voter is to prevail.

Who Can Vote and the Time of the Primaries.—Only Democratic voters shall vote in the Democratic primaries and only Republican in the Republican primaries. Lists of the registered voters are to be provided the judges by the Supervisors, and in case of doubt the applicant must give an affidavit as to his party affiliation. The time of the primaries for county officers is to be fixed by the county committees and for State offices by the State committees.—Sun.
