No. 21

## NEWS NOTES HERE AND THERE

County, State and Our

County Hospital Association was held at the Hospital. During the month of October 58 patients were treated. Admitted, 35; discharged, 29; died, 2; remaining, 28. Of these 44 were full pay, 2 part pay and 12 free patients.

The congregation of Trinity Lutheran Church, Wheeling, W. Va., has selected Rev. Charles L. Ritter, of Fairfield, Pa., pastor, to sueceed Rev. Wilmer Hartman, who recently accepted a call from a Pittsburg Lutheran Church. Rev. Mr. Ritter is 40 years old and a graduate of Gettysburg (Pa.) College and Seminary.

Hanover merchants are strenuously opposing cheap excursions to Baltimore, and will organize a strong association through which to bring pressure on the railroad officials. Gettysburg is asked to co-operate, but, as that town derives so much benefit from excursions from Baltimore and other points, consistency would seem to prevent its action against Baltimore.

the highest vote cast to have been 93, 264, an apparent shortage of 22,708. The amendment received 36,972, and against it 48,744. Hering, for Comptroller, had a plurality of 1014. The Republicans elected sheriff, clerk of circuit court, and surveyor. The Democratic Senatorial primaries cost Senator Rayner about \$12,000. The election in Rayner about \$12,000. The election in the surveyor should have an end, as all of the cold instification for it has died out. The Rayner about \$12,000. The election in Baltimore cost about \$95,000.

Edward Weagley, a Chambersburg youth of 16 years, following a dare by several of his companions, dropped a lighted match into a piece of drainpipe, containing a quantity of powder. A blinding explosion followed and young Weagley fell to the ground with his whole face, from forehead to chin and ear to ear, blown full of powder and terribly burned. If he recovers, which is doubtful, he will likely be blind the balance of his life.

Grinding up a snake which had crawled among the apples in a cider press, the family of Paul Elsner, of near gone from his store to dinner, as usual. Red Lion, and a number of their friends were made sick last week. Mr. Elsner table talking with his family, and at the had taken his wagonload of apples late in the day and the mill having closed, the apples were left in the press over dead.

On Wednesday afternoon, Charles B. Seiss was shot in the leg by Estee B. Zentz, while the two were shooting at mark. The ball entered the right leg whole neighborhood as a man thoroughwhole neighborhood as a man about five inches above the knee, fracturing the femur and lodging in the thigh of his left leg. At first it was thought the right leg would have to be amputated, but every effort will be made to save his limb. The bone was terribly fractured by the heavy ball, but and wherever needed. if no other complications set in it may be possible to heal the wound.

The new Masonic Temple, in Balti-Masonic temple in the world. The walls are largely of marble, and the furniture mahogany, while all the fittings are of very best throughout the entire building. There are lodge rooms, re ception rooms, dining rooms, a drill whole community, in fact—share the hall and all the numerous adjuncts sorrows of the stricken family. necessary to a building of this class.

Joseph W. Gaver, 48 years old, prominent member of the Frederick county bar and a widely known citizen, died last Sunday morning at the Riggs cottage, Ijamsville, after an illness of about two weeks. He was the Demo-cratic nominee for Clerk of the Court, and after an unremitting campaign collapsed with a nervous breakdown the day before the election. From the beginning his illness assumed a serious phase, and with the exception of intervals he was unconscious most of the

The largest Dunkard lovefeast ever held in Washington county took place, Saturday night, at the German Baptist Brethren Church, Longmeadows, north of Hagerstown. Fully 2,500 persons were present and hundreds were unable to partake of the sacrament. Twenty-Dunkard ministers were present. The lovefeast was in charge of Rev. D. C. Flory, of Bridgewater, Va.; Rev. J. O. Buterbaugh, of Cavetown, and Rev. Jesse Emmert, a missionary in India, who is now in the United States | 23 days. on a furlough.

Prosperity was indicated again this week, when the Pennsylvania Railroad' Company placed orders for 10,000 new cars, bringing the total of new freight cars ordered by that company this year up to 26,000. The order will not replace wornout equipment. The regular re-placement order for freight car equipment for lines east and west of Pittsburg for 1909 was for 6000 cars. Two thousand additional cars for replacements were recently ordered on the 1909 program and the regular replacement schedule for 1910 calls for 8000 cars, orders for which already have been

#### Church Notices.

The Lord's Supper will be administered at Ba st Reformed church, Sunday, at 10.30 m. Preparatory services Saturday prejous at 2.0 p m. Y. P. S., Sunday, at 7.30 m. Martin Schweitzer, Pastor.

Hunting Game is Stealing.

There are pretty strong indications Condensed Items of Interest from that, in a few years, hunting for game on the premises of another, will be a thing of the past. As game uncounted. ly belongs to the owner of the land, it Exchanges.

follows that a bunter has no more right to shoot a rabbit, or bird, on another man's land, then he has to take a bag of corn, or a lot of chickens. In fact, hunting on the premises of another, without permission, is stealing.

Promiscuous hunting is simply the survival of a custom of the long past pioneer days, when the taking of game was a legitimate means of securing lood, and when much of the country was an uncultivated wilderness; a time when there were wild animals roaming around which were dangerous to man and to domestic animals, and to public safety in general. At this time, hunting was more or less a conceded right, or privilege, because there was no great inter-ference with, or trespassing on, private property. Then too, hunting was done with the rifle, and small game was not exterminated to the extent it now is with breech loading shot guns.

Gradually, conditions have changed. There is no wild game more destructive than rabbits; the land is almost entirely under cultivation, homes are thick over the land, and every land owner, or tenant, prefers to have for himself every-thing on his property to which he is le-gally entitled. It is true that rabbits The official vote of Baltimore shows and partridges are migratory, but certainly there can be no rights of ownership attaching to the average hunter,

> old justification for it has died out. The great increase, in recent years, of advertisers against trespassing, shows con-clusively public sentiment in the matter, to the extent that those who practice hunting in defiance of this sentiment, also openly defy the law and voluntarily take the position of armed thieves, without right or justification.

#### Death of Mr. Milton H. Reindollar.

Mr. Milton H. Reindollar died suddenly at his home, in Taneytown, shortly after noon, on Tuesday, from rupture of the heart. He had been complaining

conducted a retail hardware business on Baltimore St., near the railroad. He always applied himself faithfully and one of the farm journals—"How to energetically to all his business engagements, and was known throughout the country life." ceptionally cheerful and friendly with the late election, making a strong apall, liberal with his charities, and always ready to lend a helping hand whenever

He leaves a widow and three children: Harry I., in Baltimore, Miss Mary, at home, and Wallace, a student at Get-tysburg College. Also two step-children. The new Masonic Temple, in Baltimore, which was dedicated this week, is one of the most beautifully decorated also leaves three brothers, Theodore B., buildings in the city, and is said to be of San Francisco, Cal., Charles F., of among the best, if not the best, equipped near Uniontown, and J. Jacob, of Fairfield, Pa.; also three sisters, Mrs. James B. Galt and Mrs. P. B. Englar, of Taneytown, and Miss L. Ada Reindollar, of Fairfield, Pa. Many family connections and a very wide acquaintanceship—the

> Mr. Reindollar was in his 63rd. year. Funeral services were held on Friday morning, at 10 30 o'lock, by his pastor, Rev. Wm. E. Wheeler, of the Lutheran The bearers were all members of the Knights of Pythias, of which he was a member.

Dearest Father, thou hast left us, We thy loss most deeply feel, But us God who has bereft us; He can all our sorrows heal.

He has crossed the shining river. And has gained that radiant shore, Where no heart with grief can quiver, And all parting scenes are o'er.

We shall soon pass on to meet him, And make whole the broken band; Meet him just beyond the river, In that happy golden land. By the Family.

IN LOVING REMEMBRANCE Of my beloved husband and father, George A. Mehring, who departed this life November 21, 1908.

Once our home was bright and happy, Oh! how sad and lonely today; For my dear and loving husband, One year ago has passed away.

Sweet will our meeting, father, When the storms of life are o'er, Where we know you're watching for us, With the loved ones gone before. By his Wife and Children.

## PROPOSED AUTOMOBILE LAW.

A Measure Satisfactory to Motorists will be brought before the Legislature.

The Automobile Commission, of Maryland, has been laboring all summer to draft a state law regulating automobiling, and at last it seems to have reached conclusions satisfactory to the Commission, and to the Automobile Club of Maryland. Whether it will be satisfactory

for more than 40 h. p., \$18. A commissioner of motor vehicles is recommend-

ed, with a salary of \$3000.00 a year.

The bill, as proposed, will allow a speed of 12 miles an hour in the heart of the city where the traffic is heavy. the suburbs, the speed may be increased to 18 miles an hour, while in the open country a speed of 25 miles will be

There are numerous provisions, in the bill, all drawn to the satisfaction of mo-torists, such as the use of chains on while going down hill, etc. Should the law be passed with the pro-posed speed limit, unless there are rigid restrictions when passing teams, and going through towns, it will be very objectionable to drivers of horses. The bill should also contain heavy fines for all violations of law, and it should be made comparatively easy to establish viola-tions; indeed, this law should be made to cover the interests of the majority of public road users, and not the interests of the comparatively few motorists in the state. Members of the legislature from the counties will be expected to look after the best interests of their constituents, when the law comes up.

#### Taneytown Grange Meeting.

Taneytown Grange, No. 184, held its first afternoon meeting, (2 p. m.), on Saturday last. The attendance was good and the proceedings interesting and instructive.

The report of the Committee on the best method of raising a good crop of corn, with practiced tests, was discussed at some length. Thorough preparation of the ground, frequent and careful cultivation particularly as soon after a rain as possible, enabled several of those present to raise ten barrels to the acre

this dry season. In following the latter plan, instances were given where the yield was double that on the same quantity of land when the reptile got among them. It was found afterward but not much attention was paid to the circumstance until those who drank the cider became sick.

Mr. Reindollar was a son of the late work was done when the moisture had largely evaporated. For late planting, it was agreed that the seed corn should be secured from New York State, where the seasons were much shorter, thus manner the reptile got among them. It was found afterward but not much attention spent his whole life in Taneytown, except several years in New Windsor. For the past ten years he had successfully conducted a retail hardware business on the same quantity of land when work was done when the moisture had largely evaporated. For late planting, it was agreed that the seed corn should be secured from New York State, where the seasons were much shorter, thus manner the conducted a retail hardware business on the same quantity of land when work was done when the moisture had largely evaporated. For late planting, it was agreed that the seed corn should be secured from New York State, where the seasons were much shorter, thus manner the conducted a retail hardware business.

peal for a higher standard of citizenship, a purer patriotism. He called attention to the urgent necessity for a more active and unselfish participation in the primary, as well as at the annual elections. The gentleman is booked for a visit to the Medford Grange, in this county, Wednesday, December the 8th.

#### Mr. Francis L. Hering Dead.

Mr. Francis L. Hering, one of the most prominent citizens of this county, died at his home, near Finksburg, Tuesday night, in the seventy-fifth year of his age, of tuberculosis. He had been confined to his bed for only six days. Before the Civil War he was the propri etor of the drug store at Carroll Hall, Westminster, and gave up his business to enter the Confederate Army. After the war he successfully conducted a chain of roller mills, but recently has operated only the home mill, the Comet, which was managed by his sons Roby, Carroll and Fenby. The former two have died within the past 13 months, of the same disease that caused their father's

He was a member of the board of directors of the Mutual Fire Insurance Company of Carroll county. He is survived by his widow, who is a daughter of the late Amon Algire, and one son— M. Fenby Hering. Dr. Joshua W. Hering, state comptroller, is his brother, and he leaves one sister. Mrs. Virginia C. Armacost, of Westminster.

#### The Auto Line Discontinued.

The operation of the Auto Car Company's automobile passenger line between Thurmont and Gettysburg, via Emmitsburg, has been discontinued. Dr. James K. Waters, of Thurmont, said on Tuesday that a meeting of the company's board of directors would be held shortly to determine upon its future course, but that it was probable that operation of the line would at least be suspended during the winter. The company operated two cars, one between Thurmont and Emmitsburg, the other between Emmitsburg and Gettysburg. At Thurmont the line connected with the trains of the Washington, Frederick and Gettysburg Railway, now in operation between Frederick and Thurmont. The late Isaac S. Annan, of Emmits-burg, who died suddenly last week, was president of the company.

#### Red Cross Christmas Stamps.

The RECORD office will have Red Cross Christmas stamps on sale, on Monday, Nov. 22. These stamps as last year, will be sold for the prevention and relief of Tuberculosis, and the price one cent each. Each purchaser of a stamp will contribute directly to the cause, as no- inventory of stock and inventory of body derives any profit from their sale. | money.

#### Thanksgiving Day Set.

Washington, November 15.—President Taft to-day issued his first Thanksgiving proclamation, setting the date for Thursday, November 25. The proclamation is as follows:

"The season of the year has returned when, in accordance with the reverent custom established by our forefathers, the people of the United States are wont

to meet in their usual places of worship on a day of Thanksgiving appointed by the Civil Magistrate to return thanks to God for the great mercies and benefits which they have enjoyed.

to the members of the legislature, remains to be seen. This law should be thoroughly studied and ventilated before action is taken.

The tax agreed on is as follows; For 20 horse-power, or less, \$6.00; for 20 of war. Peace and plenty of bounteous of war. Peace and plenty of bounteous of war. action is taken.

The tax agreed on is as follows; For 20 horse-power, or less, \$6.00; for 20 horse-power and not more than 40, \$12; crops and of great industrial production animate a cheerful and resolute people animate achievement of the common achievement of the common animate achievement of the common achievement of the c to all the renewed energies of beneficient industry and material and moral prog-ress. It is altogether fitting that we should humbly and gratefully acknowl-

edge the Divine source of these blessings. "Therefore, I hereby appoint Thursday, the twenty-fifth day of November, as a day of general thanksgiving, and I call upon the people on that day, laying aside their usual vocations, to repair to their churches and unite in appropriate services of praise and thanks to Al-

"In witness whereof I have hereunto put my hand and caused the seal of the United States to be affixed.'

#### Election Officials to be Prosecuted.

The men who put up the fake tickets in Wilson law counties, are to be pros-ecuted to the full limit of the law. This was the decision reached at a conference of Republican and Independent leaders, in Baltimore, on Monday. Plans for the collection of evidence were outlined, and the general sentiment was that the limit of patience had been reached in the ballot trickery for several years in

force in various counties in this state.

It is confidently believed that the evidence is so clear and strong, that conviction will surely follow, under the criminal laws of the state, of some of the men responsible for fraud and

All the serious troubles occurred in the counties to which the Wilson ballot law applies. This legislation was designed to legalize trickery, and the boards of Election Supervisors, being controlled by Democrats, are charged with having generally used the power to the fullest extent. This law disfranchises more than half the voters in some of the counties. Many of those deprived of the right to vote are white-Democrats and Republicans. The Democrats stick to the law, as it represents a net gain for them be-cause of the colored voters in the counties to which it applies.

In the investigation begun on Monday special attention was given to the election in Prince George's, Queen Anne's, Charles, St. Mary's Calvert and Worcester counties. In most, if not all, of these counties efforts were made to befuddle the voters either by separating the names of the candidates as far as possible from whole neighborhood as a man thoroughly upright, and above the suspicion of even slight wrong-doing. He was exceptionally cheerful and friendly mit.

Congressman Goulden, of New York, an old Carroll county boy, and a member, spoke at length on the lessons of the tricks practiced may be gathered. ered from the fact that in St. Mary's county, where the registered vote is 4000, one of the successful candidates had less than 750 votes counted for him. and in Charles county, which is Republican normally by 800 majority, the Democrats carried it for their entire ticket by a majority of practically 200.

While the ballots are so arranged as to deceive the unwary as well as the illiterate, they are also planned so that the Democratic illiterate will have a decided advantage over the Republican

## A SPANISH SWINDLE.

#### An Old Scheme is being worked Through the Mails to Defraud Americans.

The Department of State, at Washington, has received a report from the American Consul-General at Barcelona, Spain, in regard to the band of swindlers operating in various towns and cities in Spain, who make a practice of writing to persons in the United States respecting the imprisonment of a relative and the guardianship of a child.

The Consul-General states that the alleged prisoner generally describes himself as a political prisoner from Cuba; he is at the point of death and has but one friend—the prison priest—through whose good offices he is enabled to smuggle an occasional letter out of the prison fort.

The prisoner is rich. He has a fortune

in cash on deposit in the United States, but the certificate of deposit is concealed in a secret receptacle of his valise; the valise itself has been taken possession of by the court at Carthagena, which tried and condemned him, and will be held and condemned him, and will be need until the prisoner or his representative has satisfied the costs of the trial. The prisoner has an only daughter; dying in prisoner has an only daughter; dying in the Western Union—for years known as a Gould property—by the American Telephone and Telegraph Company came his prison, his sole thought is of this beloved offspring. He has no friend or relative in Spain to whose care he can commit her. In this emergency his thoughts turn to the distant relative in the United States whom he has never seen and of whom he knows only through hearsay or the family tree. Will the distant relative assume the guardianship of the darling daughter, and the darling daughter's fortune of about \$30,000? If the distant relative accepts the trust one-fourth of the prisoner's entire fortune will be the material reward. The good priest will go at once to the United States and take the darling daughter with him. There is but one condition: the ready money which the prisoner brought with him to Spain has been exhausted; the distant relative is therefore requested to send enough to liberate the valise containing the secret receptacle and the certificate of deposit. money is to be sent to the good priest at an address indicated, and, having received it, the good priest will at once secure the valise and start for America, the 'land of the free and the home of the brave,' with the darling daughter.

The above is generally the first letter of the series. It is quickly followed by another in which the prisoner pathetically states that his strength is rapidly failing and the end is near. He beseeches his dear distant relative to assume the trust and be a loving father to the darling daughter. The third letter is from the good priest himself, who in brief, touching terms, and hopelessly bad English, announces the death of the unhappy prisoner; the good priest adds that the darling daughter is under his care. He is ready to put his promise into execution and start for the United States as soon as he shall have received the necessary funds from the distant relative. The good priest frequently incloses with his letter a bogus newspaper clipping announcing the death in prison at Barcelona of the famous Cuban patriot (sometimes called Augustin Lafiente); the newspaper notice also speaks cunningly of the confiscated valise and the darling daughter.

such a plausible way that almost any unsuspecting "distant relative" of European extraction would be more or less deceived by the glad prospect of falling heir to the agreeable custody of a darling daughter with a big fortune, and a onefourth interest therein as an additional

Naturally the first impulse of the distant relative is to ask a lawyer or a judge or some authority what course he ought to pursue in the premises, but as he thinks of doing this his attention is taken by the warning in the prisoner's letter beseeching him not to mention the matter to any living soul lest the secret of the valise and the hidden receptacle be indiscreetly betrayed.

The valise, after all, with its concealed certificate of deposit, is the key to the situation and possession must be taken of it before anything can be done or said. This (so cunningly set forth by the prisoner) is very evident to the distant relative, and so he quite frequently preserves the secret intact, and instead of consulting a lawyer or writing to the American Consul-General at Barcelona he quickly sends a draft for the sum demanded to the good priest and awaits results. Of course he waits in vain, and the poor, dead prisoner and the good priest and the darling daughter in the course of time pass out of his life forever, leaving him only an uncomfortable memory of the money he so cheerfully contributed to the confidence game.

For nearly twenty years these same knaves have been practicing their swindle, and it is needless to suggest that they are very carefully organized; they have confederates not only in the United States but in most other countries. The confederates in question select a man and find out all they can about him; they get hold of family names, family origin, and family characteristics. The information is transmitted to the rascals in Spain, and letters are at once written to the prospective victim. The scheme is presented and developed in a very plausible way and many of our fellow-countrymen have "bitten" promptly and cheerfully.

Under the Spanish laws a felony must be consummated before the police may act, and a mere attempt to obtain money by false pretenses does not appear to warrant arrest. The money must be actually paid over and the prosecuting witness must be present in propria persona to testify; otherwise prosecution would be useless.

Recently the letters written to the distant relative have varied somewhat and finally took refuge in Spain, where | bring about closer fraternal relations.

he was apprehended and charged with manslaughter.

This change of character, however, is immaterial, and in the future more new characters will probably be intro-duced by the gang. The scheme is the same, and the public is warned to place no credence in such or similar letters. Every effort has been made by the Department of State and its representatives in Spain to unmask these scoundrels and bring them to justice, and the Spanish authorities have also been active and several members of the gang have been apprehended and held for trial, but so far no convictions have re-

DEPARTMENT OF STATE, Washington, D. C., October, 1909.

sulted, owing probably to the peculiarity of the Spanish law referred to in the

report of the Consul-General at Barce-

## Telephone and Telegraph Combine.

New York, Nov. 16.—The control of the Western Union Telegraph Company passed to day to the American Telephone and Telegraph Company and a long step was taken toward the merging of the telephone and telegraph companies into a corporation with a capitalization of nearly \$1,000,000,000.

to-day from Boston.

The acquisition of the Western Union and the recent absorption of various district Bell Telephone Companies in various parts of the country indicates a large in the present capitalizalarge increase in the present capitalization of the parent company, the American Telephone and Telegraph Company.

The present capital stock of the American Telephone and Telegraph Company is \$300,000,000 in stock and \$228,000,000 in bonds. The Western Union has a capitalization of \$125,000,000 in stock and \$40,000,000 in bonds.

The action on the part of the American Telephone and Telegraph Company did not come as a surprise to the financial interests of this city. The negotia-tions for the purchase of the Western Union have been in progress for several

For more than twenty-five years there has been litigation between the telephone company and the Western Union. The Western Union, under its agreement with the American Bell Telephone Company, refrained from engaging in the telephone business in consideration of receiving from the telephone company, for seventeen years, royalties of 20 per cent. on all telephones licensed by the

Bell Company. Claiming that the telephone company was not living up to its agreement, the Western Union brought suit, placing its damages at \$10,900,000. The telephone company disclaimed liability, and Aug. 23 last Everett W. Burdett, acting as master in the case, returned a judgment for the Western Union for about \$4,500,-000. The matter will be carried to a higher court, possibly the Supreme Court of the United States for final ad-

#### A Milk and Butter Exhibit.

The Maryland State Dairymen's Association has decided to hold a Milk and Butter Exhibit at the Fifth Regiment Armory, Hoffman St., Baltimore, from November 29th, to December 3rd., in conjunction with the exhibit of the It is a simple scheme, but presented in Horticultural Association, the Corn Breeders' Association and the Bee Keepers' Association.

The annual meeting and lectures will be held at the same time, notices will be

The following prizes for the Milk Exhibit will be offered by the Association: For the best four quarts of milk, \$25.00; Second Prize, \$20.00; Third Prize, \$15.00; Fourth Prize, \$10.00; Fifth Prize, \$5.00. Certificates will also be awarded to all exhibitors of milk scoring over 80% The competition for the prizes in the Milk Exhibit will be limited to producers who themselves or members of whose families care for and milk the This restriction has been made so that none of the larger dairies can compete and the smaller producer of milk may stand an equal chance with any other exhibitor to win the prize.

Information as to how to make exhibits can be secured from the Secretary, J. Alexis Shriver, Bel Air, Md., or any of the milk dealers in Baltimore or Washington to whom milk is shipped regularly.
This is an opportunity which many

farmers can avail of and being under the auspices of the State Dairymen's Association assures fair treatment to all

#### Gettysburg Jail Condemned.

The Gettysburg (Adams County) Jail has been condemned by the Secretary of the State Board of Charities, with the jails in nine other counties. The report of the Secretary is based on an inspection prior to Sheriff Fissel taking charge, and no specifications have been made public. The Gettysburg Compiler says of the re-

'The jail inside and outside is in a better condition than it has been for years. It is true the building is old and that there is much about the building that is not modern, but the jail as far as the officials are responsible is in firstclass condition and no report made can

in any way reflect upon them. In the unsettled condition of the science of penology it would be money thrown away for the county to build a new jail, that might be made an obsolete institution in a few years time by changes in the law. The present jail well kept as it is by Sheriff Fissel and his good wife will answer every need of the county for the present."

IF SENATOR Aldrich really wants his central Bank idea to succeed, he is taking the very worst steps in that direction by advocating it openly, himself. Whether rightly or wrongly, Senator Aldrich is not a very popular public man. He is suspected with having "axes to grind," in nearly everything he indorses, and the people are not looking in his direction for the best care of their interests. Just now, Messrs. Aldrich and Cannon ought to be discreet enough to keep quietly in

THE RESULT in Washington County shows conclusively what we have always claimed-that the right to vote on Local Option, is not equivalent to having Local Option. We contend for the right to vote, as an American privilege, on all such questions; then, it is equally such a privilege to vote for, or against, the adoption of Local Option. A great many people could not separate the two questions, and persisted in discussing the second one first. Perhaps the vote in Washington County will help them to the right direction. His special comsee more clearly.

CARROLL COUNTY will not stand "Wilsonizing." That is a sure conclusion, no matter what other counties may be willing to accept. Any member of the ing until the legislature is actually in House, from this county, who will vote session, when the best that can be done for such a measure, will not only retire is to turn all questions involving public himself permanently from politics in the expenditure over to committees, which county, but will in addition injure his have not the time to secure detailed and standing and reputation as a citizen. The present ballot is unpopular with both Democrats and Republicans, and it is the limit; besides, there is a strong Governor in his apparently honest efgeneral sentiment in the county for ab- forts toward economy and reform, and solute political fairness, without further especially will be be popularly supported University of Virginia eleven, was so trickery.

The thing, most of all, which will equalize conditions during the reign of high prices, is for all to participate in the benefits. Where wages have not advanced, where prices of various products making up a business have not advanced, where work, or patronage, has not increased, it is a proposition which must be clear to all, that there should be advances. Business and prices cannot continue good for one half of the people, and poor for the other half, without bringing about trouble, and an inequality which sooner or later must be remedied.

We do not apprehend that we are at present facing any serious trouble of the kind sketched. Most people can, if forced to do it, help themselves by practicing economy without affecting the questions of food, or necessaries of life. There has been a great amount of money spent, in recent years, for luxuries-or at least for articles not necessary-and it has been the manufacture of these very things which has drained the country of help, and at the same time crowded the cities with consumers of farm products. Prosperity has brought money-spending, and we are perhaps indirectly suffering from this fact, strange as the thought may at first sight appear.

#### Is the Governor in Earnest?

"We should not let any one run us-

politician, corporation or individual. as a banker or business man runs his business-on a business basis. Let each man think for himself and do what he thinks is right. The world was never as moral as it is now. A great wave of morality seems to be passing over the country. The motives of public men are being examined, and the old time methods are pushed to the wall. In this day and generation it is the man who gives a square deal on whom all eyes are centered. If that is true with the individual, how much more so with the newspaper, for it helps to mold the opinion of the individual. A newspaper nowadays must print facts and abide by the truth. Party lines are not drawn as closely as they were, and a good man has a better chance. I think Mr. Roosevelt has helped to bring about this. I think everything is drifting in this direction. The voter is beginning to vote more for the best man than for the party man. \* \* \* Let us be more independent -do our own thinking. #### Mr. Taft's Plan.

We are glad to see that the country is taking President Taft's proposed corporation plans in a friendly spirit and without hysteria. It is realized now that stock market speculators were about the only ones who really suffered through Mr. Rooseyelt's crusade against certain corporation abuses.

No railroad, it is now realized, was hurt by the new Federal law. There are the most convincing proofs that corporations in general, while brought under a stricter accounting, were not doomed to disaster, as many of the company officials a few years ago would have the country believe.

One has only to look about here to see these proofs. In the past year sixtyfive representative corporations have either increased their dividend rates or are paying a dividend where none was paid before. Railroads are earning now as much as they did in their best 'year prior to the 1907 panic. Counting the carriers in use today than ever before.

United States Steel, which represents 58 per cent. of the nation's steel and iron industry, is rolling up profits, according to its own statements, equal to the very best of the past.

Railroads like the Norfolk & Western report that they are each month breaking all records for profits. The country is manufacturing for export a little more than it ever did.

These favorable conditions could not possibly exist today had the corporation regulation laws of the past few years been disaster breeders. But when these laws were before the people there were the most violent outcries which were raised chiefly by corporation managers who had their eyes to the stock ticker more than to the business for which their shareholders paid them salaries.

Confiscation was the popular work which certain anthracite coal interests were wont to use in reference to the law that a coal miner cannot be a carrier. But behold the Lackawanna Railroad which manages to eke out a 20 per cent. annual dividend and which easily arranges its properties so that the law is obeyed and profits not reduced a dollar! If there is any concern that looks the opposite of confiscated it is this very railroad.

Revolutions do not move backward. that is sure, and the rule will apply in the case of better laws for the regulation of corporations in this country. Such laws are in the interests of the ordinary security owners as well as for the protection of the general public.

What the average share and bond owner needs and what the shippers and consumers demand is that corporations be made to publish accurate reports without concealing or diverting earnings. -Phila. Press.

ROLLERS OF CONCRETE.

Process For Making Cheap and Desirable Farm Articles.

A concrete roller is a very desirable article to have on a farm. One may be made at slight cost that will be quite as serviceable as an iron roller costing several dollars. Following is described a simple and practical way of making a concrete roller: The first cut shows two completed rollers, one with an iron handle, the other with one of wood; 2 by 4 should be used for side pieces. The weight of a concrete roller may be figured at about 150 pounds per cubic foot. These directions will

be for making a roller eighteen inches weighing, therefore, about 400 pounds. Larger sizes may be made by merely changing the dimensions of the forms.

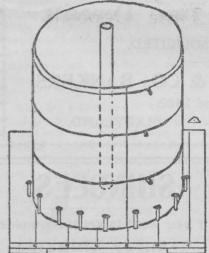

Have a tinner cut No. 24 galvanized sheet iron to a size 18 by 57 inches and roll in his machine until the edges lap two or three inches. Get some strips one-half or five-eighths inch thick and two inches wide. Cut eight pieces one foot long and one piece seventeen inches long. Select a smooth board surface two feet or more square, drive a nail in the center and tie a string to it. Fasten a pencil to the string just nine inches from the nail and draw a circle eighteen inches in diameter. Take the eight pieces cut out, lay them on the circle, with each piece just projecting beyond the circle. Nail these firmly together where they overlap with small nails.

Mark the same circle on this form and cut out with a compass saw. Nail the seventeen inch strip across this and bore a hole exactly in the center to fit the axle, which should be a enteen inches long. Select a smooth

to fit the axle, which should be a piece of shafting one inch in diameter, or three-quarter inch gas pipe two feet

long.

Next make a baseboard about two feet square of dressed lumber, clears on the underside. Bore a hole in the center of a size to fit the axle. Lay the follower before made over this committee shall have the power of substitution. the follower before made over this power of substitution. and put the axle through both holes. Take the sheet iron and place around

Coat inside of are the needs of the hour. sheet iron and baseboard with linseed oil or lubricating oil. Make a concrete of one part portland cement, two parts of sharp sand and three or four parts of small stone. well mixed and wet enough to pour. Raise the follower about six inches from the bottom and pour in two or three inches of concrete. Tamp thoroughly. The object of tamping is not so much to settle the concrete as to remove air bubbles and get the stone away from the forms, so as to have a smooth surface. Raise the follower three or four inches and pour in more concrete, and so on until the form is full. As the follower is raised it keeps the sheet iron perfectly round and the shaft in the center. Take the follower off and smooth the top with a trowel. Remove the sheet iron in a day or two, but do not move the roller or baseboard for a week. The roller should harden two weeks before using.

Picking Hops.

There are two drawbacks to hop picking. One is so called hop poisoning, which is simply a sort of prickly heat or rash, sometimes produced by contact of face and arms with the nettle-like fuzz on the stalks of the hop vine. It does not affect all pickers. The other is the dark staining of the hands resulting from the resin of the blossom. It may be removed with the crushed green leaves of the hop.

Undersized Birds.

Little chickens confined in close quarters take on flesh and fat at the expense of bone and frame. Such birds will be undersized and make poor

## THE GRANGE

Conducted by J. W. DARROW, Chatham, N. Y., Press Correspondent New York State Grange

#### COUNTY COMMITTEES.

Bylaws of One Submitted For the Consideration of Others.

The Columbia county (N. Y.) Pomona grange has organized a legislative committee based on the Chautauqua county plan. Members of the committee (one from each subordinate grange) are now being appointed throughout the county. The duties of the committee are to keep in communication with the state grange legislative committee, keep informed on all legislation of interest to the grange at Albany, communicate such information to each local grange and also to watch carefully county legislation by the board of supervisors so far as it affects the farmers' interests. The executive commit-tee will consist of the chairman, secretary and three other members appointed by the chairman. The good work done by the Chautauqua county grange legislative committee is an example to other county granges. If Pomona granges in other counties would organize such a legislative committee the influence would enhance the farmers' long and eighteen inches in diameter, benefits greatly. For the information of others we give below the bylaws of the Columbia county grange legislative committee:

Section 1. This committee shall be known and designated as the grange legislative committee of Columbia county, N. Y.
Section 2. Its membership shall consist of one member from each local grange in the county, to be elected or appointed by each grange annually in August.

Section 3. Its officers shall consist of a chairman and secretary, to be elected annually at the September meeting of the Pomona.

the chairman.
Section 7. Necessary expenses of the secretary for postage and stationery may be presented in a bill for payment by

#### THE OLD AND THE NEW.

Farmers Must Co-operate if They

Would Succeed. The hardest rub for the farmers of today, says J. L. Bennett of Piscataquis Pomona grange, Maine, is that they are sending a good portion of their money to the west for flour and feed. If the farmer is going into the dairy business he ought to raise his feed, the most of it, in order to make his business pay. Our taxes are high, and we must live. The potato crop is all that has saved us. Many of the farmers could not have paid their bills without them. I can see only one way for the farmers to better their condition and that is to co-operate. The granges must combine and work for the benefit of the whole. If the farmers must have so much feed from the west, combine and send for it by the carload. It will pay. It has been the follower, drawing it up shugly. tried. They have organized in Worcester. The second cut shows this clearly, been practicing co-operation at Houl-When ready to fill place the base- ton, the largest grange in the state, for

#### GRANGE SCHOLARSHIP.

Ohio State Grange Offers One to the Winter Course In Agriculture.

Considerable interest is already shown in the scholarship contest now on among subordinate grange representatives in Ohio, who will compete for free tuition in the Ohio State university in the winter course in agriculture and homemaking. Each young man or woman contestant shall prepare and give an oration or essay on some subject relating to agriculture or the household and read or deliver the same at the subordinate grange not later than the 1st of November. The winner at each subordinate grange shall be entitled to contest at the Pomona grange, which contest shall be not later than the 1st of December. The winner from here must compete at the state grange, provided, however, that if there is but one contestant in a grange that one shall have the same standing as though there had been others and they had won from their re-

spective granges We commend the idea to other state granges and suggest that at least three such scholarships should be awarded instead of one.

They do things in a liberal way sometimes in New Jersey. At a grange picnic and fair held the past summer it is do the work of gathering up the accuestimated that 50,000 people were present. It took 500 chickens, 3,000 ears of corn and several quarters of beef to satisfy the hungry farmers and their families. The manager of the affair same time the handle controls the opwent out and bought a whole field of eration of a lid which opens for the corn from a nearby farmer.

# LABOR SAVING DEVICE

Elimination of Back Breaking Feature of Daily Household Duty.

Women are generally agreed that one of the most serious features of household work is the incessant stooping which seems to be necessary in the performance of the daily routine of the housework. Doctors claim that it is this alone which is in a large measure responsible for the many ills and ailments which women are afflict ed with and which the men are free from. So many of her daily tasks require that she should lean or stoop over that it is not long before this unnatural attitude is responsible for some serious and chronic-illness which often makes her an invalid for the rest of her life.

The stoopless dustpan which has been recently invented enables her to

Misses Helen and Nellie Ecker and Miss Engle, were visitors, this week, at Mrs. Harvey Erbs. The Thanksgiving service will be held in the M. P. church, next Thursday, at

While driving to Fairview, on Sunday afternoon, Mr. Jesse Billmyer had a serious accident. His horse frightened after he had passed an automobile, ran into the bank on Lazy Hill and throwed Mr. Billmyer and Mrs. Chas. Carbaugh out of the carriage. Both were severely hurt, but are improving at this time.

Quite a large number of Endeavorers from town attended the C. E. Rally at Baust, on Sunday afternoon and even-

On Tuesday, Rev. G. W. Baughman shipped to the Lutheran Deaconess Home, in Baltimore, a large donation from the four congregations of the charge. It weighed 1500 lbs. and consisted of 250 qts. of jarred fruit, 9 bus. of potatoes, 57 lbs. of hard soap, buckwheat, hominy, turnips, onions, pump-

kins, beets and apples.

The funeral of Mordecai Fritz took place on Tuesday morning. The services were held in the Bethel, conducted by his pastor, Rev. L. F. Murray, assisted by Rev. G. W. Baughman. Inter-

ment in the Hill cemetery.

On last Saturday, the members of Winter's church gave their pastor, Rev G. W. Baughman, a genuine surprise. About forty of the members and friends took possession of the parsonage and served a fine dinner, leaving the pantry and cupboard full of groceries and pro-visions for the future. "Daisy," the new horse, was not forgotten—corn and oats were left for her. The pastor and family return thanks for this pleasant social affair and for all the tokens of good will and esteem of their friends and

#### Maryland Collegiate Institute.

Miss Ida Picking, of Marian, Pa., and Mr. George Troupe, of Hagerstown, Md., have enrolled this week in the academic department.

On Monday evening, Mr. I. W. Shu-maker, of Jacksonville, Florida, arrived here enroute to his home at Myersdale, He told us many interesting things about the extreme south. The weather there is a little warmer than here, but their summer continues for nine months. Mr. Shumaker likes Florida oranges, but prefers our old ham and corn cakes to the rice and bacon of Jacksonville. He resumed his homeward journey, on

Thesday morning.
Eld. Geo. S. Rairigh and son, Shadrach F., ('05), of Denton. Md., called recently to see Ord K. Rairigh.

On Tuesday the 16th., the Temperance Committee of the Eastern District of Maryland met at the home of Prof. John J. John. Some very important measures were passed, which will without doubt aid in saving some of the one hundred thousand young men that yearly fill

drunkard's graves.
Prof. W. I. T. Hoover will fill the appointment for preaching in the chapel,

#### Union Bridge.

The 25th, anniversary and reopening services of St. Paul's Reformed church Union Bridge, will begin on Sunday, Nov. 28. Rev. D. A. Souders, of Irwin, Pa., will preach at 10.30, and Dr. C. S. Slagle at 7.30 p. m. The following former pastors will officiate; Dr. A. S. Weber, on Monday evening; Rev. K. Otis Spessard, on Tuesday evening; Rev. M. L. Firor, on Wednesday evening; Rev. Fred Cook, on Thursday evening, and Rev. H. J. Macalister, on Friday evening. All are invited to these serv-

Wm. Zumbrum and wife, of Baltimore, spent Sunday with his mother, in this place.
Rev. I. Tover, who has been suffering

with rheumatism, is able to resume his duties in the store of J. W. Little.
Clayton Wolfe, of Oklahoma, and T. Wolfe, of Philadelphia, have been visitors in this place, the past week.

Mrs. E. J. Reese and two children, of

Baltimore, are spending some time with her parents, Mr. and Mrs. John H. The electric lights continue to give sat-

isfaction, and we are having all night service now, which is quite a benefit to the milk shippers and others who come to meet the early trains. Concreting on the hydrated lime building has begun, and the work will be

pushed until its completion, this building will be 60x135 feet and contain five furnaces each 11 feet in diameter and 48 feet in height.

Mrs. D. Oscar Wolfe isill at her home, on South Main St.

Whooping cough seems to be quite prevalent in town among the children.

#### Pleasant Valley.

Abraham Caylor, wife and daughter, Florence, were the guests of Mr. and Mrs. Jos. P. Yingling, on Sunday; also Mrs. Samuel Cover, of Westminster, spent

the past week.
Mr. and Mrs. E. W. Devilbiss and daughter, Rachael, were the guests of Mr. and Mrs. Thomas F. Hering, of Washington, D. C., from Saturday until

Tobias Yingling lost a fine young colt, which died on Wednesday evening from injuries sustained last Saturday, by the breaking of a shaft, and part of it pen-etrating the animal's lung.

Earnest Fleagle, of Taneytown, is the guest of Mrs. Levi Myers. Levi Myers is spending some time in Baltimore, with his sons, Howard and Charles, and daughter, Fannie.

Mrs. Jacob Frock, who has been suffering with rheumatim for the past few months, is somewhat improved, and is able to get about with some assistance.

#### Tyrone.

John Leister and wife, of Leister's church, were the guests of Guy Haines and wife, on Sunday.

Quite a large crowd attended the C. E. Rally, on Sunday afternoon and night; some very good addresses were made by the Endeavor visitors.

The Reformed congregation will hold their fall communion, on Sunday. Preparatory service on Saturday afternoon. The angel of death was in our midst Saturday evening, and called to rest Mr. Mordecai Fritz who had been stricken with paralysis one week ago. Mr. Fritz will be missed very much in this community, where he has lived the greater part of his life. He was a member of Camp No. 10, P. O. S. of A. and the Camp loses one of its best members. He was always present and willing to do all he could for the best interest of his Camp, and was one of the trustees for quite a number of years. The Camp buried him with the impressive service used by the order. He was buried on Tuesday morning, at Uniontown, aged 66 years and 23 days. He leaves a widow, two sons and two daughters, Harry, of Hanover, Pa.; Edward and Fannie, of Baltimore, and Annie, at home. The pall bearers were members of the Camp, Messrs. Levi Maus, Chas.

Davidson, Sterling Myerly, Theo. Haines, John Powell and Chas. Marquet. Jeremiah Flohr, of Freedom, was the gnest of his son, James E. Flohr, last week. Geo. Haines, wife and son, Raymond, of Waynesboro, Pa., spent last Saturday and Sunday with his brother, Jacob

#### Copperville.

Samuel Galt has returned from a visit to his sisters, in Philadelphia.

Hon. Joseph A. Goulden and wife, of New York, have been visiting the old home occupied by Mr. A. Weimer. Mr. Goulden attended the Grange meeting on Saturday afternoon and gave us an ex-cellent talk. We would say to those members not present they missed more than a treat.

Oregon school is closed for an indefinite time on account of the teacher, Mr. Jesse Billmyer, meeting with an accident, caused by the passing of an automobile.

#### Keysville.

A W. C. T. U. Society was organized at Keysville, last Sunday evening. The next meeting will be held on Sunday evening, Dec. 12 We invite all to come and join with us, and wear the bow of "white ribbon" which stands as an emblem for temperance and purity.

#### The Art of Saving.

I believe that if somebody could invent unique ways of saving money the public would have an assured future. Men, women and children would regard saving as a game and play it with all their heart. There are penny savings banks where newsboys and bootblacks carry their tiny savings, but other children regard their penny bank at home with unfriendly eyes. There are working girls who put away their five cent pieces and fatten their small bank accounts by walking instead of riding and making other petty sacrifices. But the majority of working girls spend as fast as they can earn

and declare that they cannot help it. One reads of a man who began his career by regarding every dollar as a worker and getting all the profit he could. With that quaint conceit in his head saving became a pleasure, and he won riches without realizing that it was a struggle. I know of more than one woman who receives each night from her husband every dime he has received in change through the day. for he is careful to avoid spending such a piece of money. These, with her own savings in the same direction, make a respectable weekly showing .-Kansas City Journal.

The Egg Factory on your farm will work full time if you feed your hens Fairfield's Egg Producer regularly. It provides them with egg-making materials exceedingly profitable. Costs but a trifle. (Ask for Fairfield's Free Book). Sold under written guarantee by S. C. Reaver, Taneytown, G. W. Yeiser, Union Mills, T. W. Mathers & Sons, Manchester and M. R. Snider, Harney.

Tire Themselves Getting Ready. Washington Irving tells a story of a man who tried to jump over a hill. He went back so far to get his start for the great leap and ran so hard that he was completely exhausted when he came to the hill and had to lie down and rest. Then he got up and walked over the hill. A great many people exhaust themselves getting ready to do their work. They are always preparing. They spend their lives getting ready to do something which they never do. It is an excellent thing to keep improving oneself, to keep growing, but there must be a time to begin the great work of life. I know a man who is almost forty years old who has not yet decided what he is going to He has graduated from college and taken a number of postgraduate courses, but all along general lines. He has not yet begun to specialize. This man fully believes he is going to do great things yet. I hope he may .-Success Magazine.

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Cures backache and irregularities that if neglected might result in Bright's disease or diabetes.

## A Truthful Sign.

Mr. Longear-By the way, did you ever know that large ears are a sign of generosity? Miss Beauti-of course. Mr. Longear. They are a sign that nature has been generous,

#### Too Attentive.

"People who write begging letters are entirely too persistent," said a charity official. "They remind me of a summer resort episode. A young man went there for his two weeks' vacation. He put up at a cottage. He paid about \$9 a week. Well, when he came to depart this young man said to the boarding mistress:

"'Madam, you have been most attentive to me during my stay here.' "'Thank you, sir; thank you very

much,' said the lady. "'Yes,' continued the young man, you have been most attentive, and not only you, but everybody-everybody in the house, if I may say sohas been most perseveringly attentive to me day and night, and, madam, to show my appreciation I am going to offer you a small present.'

"'How very kind!' said the landlady, and a bright, expectant smile lit up her face. Then the young man thrust into her extended hand a packet of insect powder and retired hastily."

#### Puzzling Orchid Imitations.

Orchid imitations are a puzzle to flower scholars. The whole appearance of the flower is suggestive of some insect, sometimes to quite a remarkable degree. It does not seem easy to find any real purpose that could be served by this resemblance, yet no one imagines that it can be accidental. Any one who knew of the bee orchid, a native of Europe, and came upon it for the first time would at once recognize it. It seems to be a large, velvety brown backed bee variegated with yellow. The two petals might serve well for the wings of the insect. In the center of the lip of the fly orchid there is a small bluish spot like the body of a fly. The two lateral petals are slender and curiously like the antennae of an insect. The whole illusion is complete and suggests to the casual glance that a few flies are hanging on the stem of some plant which has cast its flowers.-Chicago Tribune.

Cows coming off pasture will fall off in milk production regularly. It supplies them with the elements they have been getting from the juicy grasses all Summer, and puts them in trim for Fall and Winter milk production. Sold under written guarantee by S. C. Reaver, Taneytown, G. W. Yeiser, Union Mills. Mathers & Sons, Manchester and M. R. Snider, Harney.

The Paper They Were Written On. The average author would probably laugh at the statement that at one time in the world's history manuscripts, simply as such, irrespective of the nature of the text, were immensely valuable. In ancient times manuscripts were important articles from a commercial point of view. They were excessively scarce and were preserved with the utmost care. Even the usurers were glad to lend money on them when the owners were obliged to offer them in pawn. It is related in an ancient tome that a student of Pavia. who was reduced by his debaucheries, raised a new fortune by leaving in pawn a manuscript of a body of law. and a grammarian who was ruined by a fire rebuilt his house with two small volumes of Cicero through the ready aid of the pawnbroker.

#### No Case on Record.

There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's Honey and Tar has been taken, as it will stop your cough and break up your cold quickly. Refuse any but the genuine Foley's Honey and Tar in a vellow package. Contains no opiates and is safe and sure.

#### Why She Posed.

As a New York photographer bowed a sallow, tottering woman of middle and makes egg production regular and age out of his studio he closed the door gently and turned to a waiting

customer. "That beats the Dutch," said he. "There's a woman who has been in bed two weeks and whose doctor supposes she is there at this moment. She is convinced that she is near death, and as she hasn't had any picture of herself taken since she was a child she got out of bed despite a friend's protest, dressed and came here to sit to me in order that she may leave a photograph to her husband, who is a traveling man and now in the far west.

"When a woman will she will. But that's a queer gamble with the big shadow, all right."-New York Globe,

### Ours and Theirs.

"A play on names unconsciously perpetrated by my youngest son was very funny," said a Flatbush man yesterday. "We live next door to a family named Feitenour, and the other night while my family was busy reading in the library we heard a racket on the back porch. My son went out to investigate, and on his return my wife, always inquisitive, asked what had caused the noise.

"'Nothin' but a couple of cats,' Jim told her, and then I heard her ask, 'Did you see whose they were?'

"'Yes; one was ours and the other was Feitenour's."-New York Press.

Knew What Was Wanted. Miserly-So that woman doctor charged you \$2 a visit. Well, what did she say? His Wife-Said I stayed indoors too much. Here's her prescription. Miserly (reading it)-"For external use only. One nice walking dress; one new hat; one pair of gloves to

EMWITS URG, - - - MARYLAND.

Coleridge's Imagination. From his early youth Coleridge lived in a world of books and dreams, yet his favorite walk seems to have been the Strand, the last place in the world for a poet to lose himself in reverie. As he strolled down the street he imagined himself swimming the Helles pont, the feat of which other poers was to accomplish later. Once while the mind of Coleridge was thus far from the busy Strand he absently thrust his hands before him in the manner of one swimming. Suddenly

one hand came in contact with a gentleman's pocket. The gentleman, thinking to capture Fence and Boring. Call ona thief, seized the hand and exclaimed: "What! So young and so wicked!" He accused the poor, poetic boy of an

attempt at pocket picking. With some fright and a few tears the boy explained, and we can imagine that words did not fail him who was to become the most brilliant talker of his age. The gentleman was delighted with Coleridge's imagination. which could turn the Strand into the Hellespont. The intelligence of the young Leander made the stranger inquire into Coleridge's tastes, and when he found the boy liked books he open- | Cheapest Dishes ever sold in town. ed for him a subscription at the circulating library in Cheapside.-Westmin-

In the Heart of a Storm. New Land Sighted -- Mid-Polar Basin a Lifeless World &

(EIGHTH ARTICLE) ·\*•\*•\*•\*•\*•

with encouraging results, and home shores. on the evening of March 26, with a pedometer and other method of dead reckoning for position, we were placed at latitude 84 degrees 53 minutes. The western horizon remained persistently undisturbed. A brisk storm, it seemed, was gathering, snow, except to quench thirst. but it was a long time in coming igloo stronger than usual, hoping that the horizon would be cleared by a good blow on the morrow and afford us a day of rest. The long, steady marches, gun to check our enthusiasm.

In the daily monotony of hardship we had learned to appreciate more and the snow wall. Still, we were bound more the joy of the sleeping bag. It was the only animal comfort which afforded a relief to our life of frigids, and with it we tried to force upon the weary body in the long marches a pleasing anticipation.

A heaven given drink of ice water was first indulged in to quench | did not respond to a loud call. the chronic thirst, and then the process of disrobing began, one at a time, for there was not room for all to act at

The fur stuffed boots were pulled, and the bearskin pants were stripped. Then half of the body was quickly pushed into the bag. A brick of pemmican was next taken out, and the teeth were set to the grind of this feet. bonelike substance. The appetite was always large, but a half pound of cold were uncovered, and then, with prowithered beef and tallow changes a hungry man's thoughts effectually.

The tea, an hour in making, was now ready, and we rose on elbows to take it. Under the influence of the warm drink the fur coat with its mask of ice was removed. Next the shirt, with its ring of ice about the waist, comes off. giving the last sense of shivers. Pushing farther into the bag, the hood was pulled over the face, and we were lost to the world of ice.

The warm sense of mental and physical pleasure which follows is an intersting study. The movement of others, the sting of the air, the noise of torturing winds, the blinding rays of a heatless sun, the pains of driving snows and all the hitter elements were absent. The mind, freed of the agitation of frost, wandered to home and better times under these peculiar circumstances; there comes a pleasing sense with the touch of one's own warm skin, while the companionship of the arms and legs, freed of their cumbersome furs, makes a new discovery in the art of getting next to freshed as one does after a cold bath.

In the Heart of a Storm.

On March 27 it blew a half gale at night, but at noon on the following day the wind eased. The bright sun and rising temperature were too tempting to remain quiescent, and, though the west was still darkened by threatening clouds, the dogs were put to the sleds and off they went among the wind swept hummocks. We had not gone many miles before the first rush of a storm struck us.

Throwing ourselves over the sleds, we waited the passing of the icy blast. There was no suitable snow near to begin the erection of a shelter, but a few miles northward was a promising area for camp, and to this we hoped to take ourselves after a few moments' rest. The squall soon spent its force, and in the wind which followed good progress was made without suffering severely. The temperature was 41 degrees below zero F. and the ba-

rometer 29.05. Once in moving order, the drivers reprolong the effort to a fair day's the sun settled in the western gloom us into camp. Before the gloom was finished a steady, rasping wind brush- | dred and second meridian.

my companions were out of sight and

After a little search a blowhole was located, and in response to another call came Eskimo shouts. Violent efforts were made to free their bags, but the snow settled on them tighter with each tussle.

I was surprised a few moments later as I was digging their breathing place open to feel them burrowing through the snow. They had entered the bag without undressing and half emerged with shirt and pants on, but without

After a little more digging their boots tected feet, the bag was freed and placed on the side of the igloo. Into it the boys crept in full dress, except coats. I rolled out to their side in my

Move on Refreshed.

The air came in hissing spouts, like iets of steam from an engine, but soon after noon of the 29th the ice under our heads brightened. It became possible to breathe without being choked with floating crystals, and as the ice about the facial furs was broken a little blue was detected in the west.

The dogs were freed of snow entanglements and fed, and a shelter was made in which to melt snow and make tea. A double ration was eaten, and then the sieds began to move again.

Soon the sun burst through the senarating clouds and raised icy spires in towers of glitter. The wind then ceased entirely, and a scene of crystal glory was laid over the storm swept fields. With full stomachs, fair weather and a much needed rest, we moved with inspirations anew. Indeed, we felt re-

The pack had been much disturbed, and considerable time and distance were lost in seeking a workable line of travel. Camping at midnight, we had only made hine miles for a day's ef-

Awakening in time for observations on the morning of the 30th, the weather was found beautifully clear. The fog. which had persistently screened the west, had vanished, and land was discovered at some distance west, extending parallel to the line of march. The observations placed us at latitude 34 degrees 50 minutes, longitude 95 degrees 36 minutes.

A Long Coast Line.

In the occasional clearing spells for several days we had seen sharply defined land clouds drifting over a low band of pearly fog, and we had expected to see land when this veil lifted. We had, however, not anticipated to see so long a line of coast. The land as we saw it gave the impression of being two islands, but our observations were insufficient to warrant such an quired very little encouragement to assertion. They may be islands; they may be a part of a larger land extendmarch in spite of the weather. As ing far to the west. What was seen of the most southerly coast extends the wind increased its fury and forced | from 83 degrees 20 minutes to 83 degrees 51 minutes, close to the one hun-

This land has an irregular mountainous sky line, is perhaps eighteen hundred feet high and resembles in its upper reaches the highlands of Heiberg island. The lower shore line was at no time visible.

From 84 degrees 23 minutes, extending to 85 degrees 11 minutes, close to the one hundred and second meridian, the coast is quite straight. Its upper surface is flat and mostly ice capped, rising in steep cliffs to about twelve hundred feet. The lower surface was so indistinctly seen that we were unable to detect glacial streams or ice walls. Both lands were hopelessly buried under accumulated snows.

We were eager to set foot on the newly discovered coast, for we beter the sleds were forced along snow in large dunes like the sands of lieved then, as proved by later experience, that these were the earth's north-The snow house was not cemented ermost rocks, but the pressing need with water. The tone of the wind did for rapid advances in the aim of out main mission did not permit of detours. Resolutions were re-enforced ize the great need of fuel economy, and energy was harbored to press onward for the pole in an air line.

Fair Marches Made.

Every observation, however, indicated an easterly drift, and a westerly course must be continuously forced to counterbalance the movement. A curtain was drawn over the land in the afternoon of March 31, and we saw no more of it. Day after day we now pushed along in desperate northward efforts. Strong winds and fractured, irregular ice increased the difficulties. Progress was slow.

In one way or other we managed to gain a fair march between storms during each twenty-four hours. In an occasional spell of stillness mirages spread screens of fantasy out for our entertainment. Curious cliffs, odd shaped mountains and inverted ice walls were displayed in attractive colors. Discoveries were made often, but with clearer horizon the deception was detected.

On April 3 the barometer remained steady and the thermometer sank. The weather became settled and clear. The pack became a more permanent glitter of color and joy. At noon there was now a dazzling light, while the sun at midnight sank for but a few moments under a persistent northerly haze, leaving the frosted blues bathed in noonday splendor.

In these days we made long marches. The ice steadily improved. Fields became larger and thicker, the pressure lines less frequent and less troublesome. Nothing changed materially. The horizon moved; our footing was seemingly a solid crust of ice, but it shifted eastward. All was in motion. Often we were too tired to build snow houses, and in sheer exhaustion we bivouacked in the lee of hummocks. Here the overworked body called for sleep, but the mind refused to close the

In a Lifeless World.

There was a weird attraction in the anomaly of our surroundings which aroused the spirits. We had passed beyond the range of all life. For many days we had not seen a suggestion of animated nature. There were no longer footprints to indicate other life; no breath spouts escaped from the frosted bosom of the sea.

Even the sea algae of the surface waters were no longer detected. We were alone, all alone, in a lifeless world. We had come to this mental blank in slow but progressive stages. As we sailed from the barren areas of the fisher folk along the outposts of civilization the complex luxury of the metropolis was lost and the brain called for food.

Beyond, in the half savage wilderness of Danish Greenland, there was the dawn of a new life of primitive delight. Still farther along, in the ultima Thule of the aborigines, the sun rose over the days of prehistoric joys. Advancing beyond the haunts of man, we reached the noonday splendor of thought in times before man's creation.

Now, as we pushed beyond the habitat of all creatures, ever onward, into the sterile wastes, the sun sets. Beyond were night and hopelessness. With eager eyes we searched the dusky plains of frost, but there was no speck of life to grace the purple run of death.

In this mid-polar basin the ice does not readily escape and disentangle. It is probably in motion at all times of the year, and in the readjustment of the fields following motion and expansion there are open spaces of water, and these during most months are quickly sheeted with new ice.

Measuring the Ice.

In these troubled areas we were given frequent opportunities to measure ice thickness, and from our observations we have come to the conclusion that the ice during one year does not freeze to a depth of more than about ten feet. But much of the ice of the central pack reaches a depth of from twenty to twenty-five feet, 'and occasionally we crossed fields fifty feet thick. These invariably showed signs of many years of surface upbuilding.

It is very difficult to surmise the amount of submerged freezing after the first year, but the very uniform thickness of the antarctic sea ice leads to the suggestion that a limit is reached in the second year, when the ice, with its cover of snow, is so thick that very little is added afterward from be-

Increase in size after that is probably in the main the result of addition to the superstructure. Frequent falls of snow, combined with the alternate melting and freezing of summer and a process similar to the upbuilding of glacial ice, are mainly responsible for the growth in thickness. The very heavy, undulating fields which give character to the mid-polar ice and escape along the east and west coasts of Greenland are therefore mostly augmented from the surface.

Sloan's Liniment is the best remedy for sprains and bruises. It quiets the pain at once, and can be applied to the tenderest part without hurting because it doesn't need to be rubbed - all you have to do is to lay it on lightly. It is a powerful preparation and penetrates instantly relieves any inflammation and congestion, and reduces the swelling.

Here's the Proof.

Mr. L. ROLAND, Bishop of Scranton, Pa. says:— "On the 7th of this present month, as I was leaving the building at noon for lunch, I slipped and fell, spraining my wrist. I returned in the afternoon, and at four o'clock I could not hold a pen-cil in my hand. I returned home later and purchased a bottle of

# Sloan's

and used it five or six times before I went to bed, and the next day I was able to go to work and use my hand as usual."

Sloan's Liniment is an excellent antiseptic and germ killer-heals cuts, burns, wounds and contusions, and will draw the poison from sting of poisonous insects. 25c., 50c. and \$1.00

Sloan's book on horses, cattle, sheep and poultry sent free. Address Dr. Earl S. Sloan, Boston, Mass., U.S.A.

In breeding profitable horses care should be taken to select animals known to possess desirable qualities. Vicious mares should not be bred. Every year bad dispositioned horses send quite a number of persons to premature graves and cripple others, while the material damage they do is quite considerable.

The Social Life of Vienna. The Viennese have for generations

been famed for their hospitality and cheerfulness. Stress and strain, agony and pain do not characterize the temperament, natures and states of the Viennese. Life in Vienna has much of the German phlegmatic trend, plus considerable Parisian elegance, minus the French fussiness in etiquette and manners. Like all Europeans, they love the cafe life. The whole family goes out after the day's labor. It'interests the traveler considerably to study the various types of this European cafe existence. In Paris the keynote seems to be display, style, smart appearance. In Vienna a good natured, happy sociability after the day's toil prevails. The family comes much more into view in Vienna than in bright, elegant, wild Paris, the city par excellence of dazzling social events. As the Austrians take things calmly, a certain lovely charm and restfulness mark their public and social life. It is a people that would for its own welfare need to study somewhat the strenuous life if the lesson of strenuousness could be learned for good and not to the destruction of that amiable, hearty, easy spirit for which the Austrians are known and the Viennese distinctively .- Vienna Letter in Omaha Bee.

The Crab In the Whale's Ear. along the lines of passenger travel across the Atlantic nothing was more common than to see the great beasts enormous splash, a spectacle never, failing of interest to the ocean tourist, but not due to any sportive disposition on the part of the leviathan of the deep-quite the contrary. The breaching of the whale is no fun for the beast. It is a frantic effort to rid himself of the torture of earache. There is a marine crustacean which pesters whales to the verge of endurance, and there seems reason to believe that some whales have been drivwhich is found in the oyster. When ute later than 6 for dinner, George! it lodges on the whale it infests the inner surface of the eyelids and the ear. By swift rushes on the surface the whale is able to clear its eyes, but dislodged by any such means.

Holmes the Man. As a doctor Oliver Wendell Holmes never won a large practice, for he not only collected a volume of poetry from time to time, but smiled when the door was opened and made jokes upon the staircase. When some one asked him what part of anatomy he liked best he answered: "The bones. They are cleanest." The answer shows us the "plain little dappe" man" who could never bear the sights of a sickroom, who laughed to relieve the tension, who would run away when a rabbit was to be chloroformed, who was clean and scrupulous in all respects and inclined as a young man to satirize the world with a somewhat acrid humor. Two friends have put together a picture of him: "A small, compact little man, buzzing about like a bee or fluttering like a humming bird, exceedingly difficult to catch unless he be really wanted for some kind act, and then you are sure of him." The other adds that he has a "powerful jaw and a thick, strong under lip that gives decision to his look, with a dash of pertness. In conversation he is animated and cordial, sharp, too, taking the words out of one's mouth."-London Times.

Gamblers Robbed by a Trick. About twenty persons were gam

#### New Plan to Save Crop Loss.

\$10,000,000 each year, plans for a National Audubon University to be endowed with one million dollars were announced in this city today. Based upon the known annual crop loss of one billion dollars due to the spreading pests that the insect eating birds destroy, the calforth this project, show that the teachone per cent. of the huge national penalty for popular lack of knowledge on this | blessings which we have received? subject. When one million dollars can be raised for the new university, it is proposed to at once start its work, which one of us who cannot find some thing, promises to eventually contribute hundreds of millions to American prosperity.

Every man, woman and child throughout the United States is to be included eat, or before a soap box on which rests as a student in the proposed Audubon university. Through hundreds of lecturers and teachers, who are to be educated in the science of nature's checks to the destruction of the country's crops | me truly grateful." and woods, the economic principles of bird preservation will be taught to the people of every community. By means of university extension and correspondence courses the saving effect of the wild birds upon agriculture in every section will be presented to the workers on the six million farms of the country. Each phase of the science of economic | Kinney, Druggist, Taneytown, Md. ornithology will be studied at this unique seat of learning and presented to the people whose material gain is today seriously hampered by lack of light on the subject.

Reports from every state and county in the land have convinced the officers of the National Association of Audubon Societies that all the American people are now ready and eager to learn to guard against the money loss that surely follows the destruction of the country's feathered resources. Only the wide presentation of the facts and figures of economic bird value can ever check the alarming spread of crop plagues over the continent, the ornithologists and agricultural authorities declare. To tell this saving story to all the adults and particularly to the children of America is believed to be the only emergency measure that can now avail to preserve the agricultural and general wealth of the country.

"As a business proposition as well as a splendid philanthropic opportunity I want to present the nation's need for our proposed university to all Americans who have the good of their country at heart," said William Dutcher, president of the National Association of Audubon Societies at its headquarters, 141 Broadway, today. "For every hundred thousand dollars put into this work of economic education, a million is sure to be saved to the agricultural interests of the whole people. Successful agriculture means general prosperity, and thus every merchant, manufacturer and business man of any sort is vitally interested and should bear his part in our present plan to educate the public to these great economic principles of bird conservation,"

#### America's First Thanksgiving Day.

It was a bleak November day in the year of our Lord 1621. The sea was beating angrily against the shore, and a

found no place within the cabins of the color and firm texture. Though women settlers. For it was Thanksgiving Day | with red hair have long been considered -the first the world had ever known.

Within the house of Governor Bradone of the people assembled to sternly two. suppress exclamations of most worldly delight and anticipation. Until at last, the door of the kitchen was thrown wide, and into the room moved Mrs. Bradford, holding aloft a platter on

turkey in the colony. So was the coming of the first Thanks-

giving turkey.

That first turkey was doubtless a glori- | Snider, Harney.

THE CARROLL RECORD ous bird. But we who live too late to taste of it, need not despair, for there are others. Times have changed, and in this, our age, instead of big brother Bill taking his shotgun into the forest after the turkey, mother takes a large pocketbook, and travels to the market. But, however, the prize is secured, the result is the same-for us and for the bird.

The turkey was chosen for the first Thanksgiving dinner, because it was large and most luscious. And it was a wise choice, so that nowadays Thanksgiving without turkey somehow doesn't seem just right. Some people eat ducks, and are quite satisfied therewith. Some people, of necessity, eat pork and beans, and doubtless are also satisfied and thankful for that which they have. But the turkey is the bird. One might as well dispense with the cranberry sauce, New York, Nov. 15;-Proposing to the pumpkin pie, or many other desave the people of this country at least lightful things most relished on this day of days.

And for those of us who can eat our fill, there is a good object in the Thanksgiving dinner. It not only shows us the fruits of our land, but also it persuades us to eat of them. And to such an extent that, when the dinner has gone its culations of the National Association of destined way, we, if we have done our Audubon Societies, which is putting duty, will find ourselves quite unable to Has something harder yet to fight move. And while in this helpless coning of bird value from such an institu- dition, how much better could we occution must result in wiping out at least py ourselves than by giving our minds up to profound meditation upon the

#### How to Sew.

Some women, after they have used a pattern, just roll it up and tuck it away almost anywhere it happens, and when they want to use it next time it curls up and acts so that there is no doing anything with it. If they would just lay the patterns out flat and put them where they might stay that way all this trouble would be avoided

And very loose or over-crisp material should be treated with more than ordinary care. As soon as it is cut each sec. tion should be stitched round its edge by machine to keep it from raveling. This naturally implies the largest stitches and the loosest possible tension. Otherwise, there will be a drawing round the edge, which will prevent the successful making up and result in greater damage than the raveling.

When hand tucks are to be made on children's dresses they should be carefully made, and the first one kept perfectly straight to use as a guide for the others. A good way to do this is to loosen one thread, not pull it out, but sufficiently draw it to show the straight line, and crease the tuck in this line. After the width of the tuck and the space between each is decided, use a notched card as a measure for all the

#### THF "MEBBE" MAN.

O do you know the "mebbe" man Who views all things with doubting scan, And from conviction holds aloof Because of insufficient proof? His first ancestor trod the sod Just west of Eden and in Nod, And when poor Adam said that Eve Fed him the fruit that made him grieve This man winked with an eyelid slow And sourly muttered: "Mebbe so!"

When Caesar came back with his troops The "mebbe" man frowned at the whoops That welcomed all the heroes hom The "mebbe" man then lived in Rome. And when Copernicus first found Why all the planets whirl around He gazed up at the starry sky And winked a deep and doubting eye And thought he dealt a fatal blow When he observed: "Well, mebbe so."

Bold Alexander knew his jeers; Methuselah for countless years Bumped into "mebbe" men who said The real Methuselah was dead! And Jonah when he left the whale Heard through the people's welcome hail The grumbling voice of one who vowed That Jonah had deceived the crowd. Though Jonah had the whale to show The doubter murmured: "Mebbe so!"

Columbus, in his prison cell, And Hannibal and William Tell And Washington and all the rest Who tried to do their very best, Knew what it meant to bear the scan Of kinfolk of this "mebbe" man. Than polar ice and wind and snow-The man who mutters: "Mebbe so!"

#### A Religious Author's Statement.

Rev. Joseph H. Fesperman, Salisbury, C., who is the author of several books, writes: "For several years I was affiicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Druggist, Tanneytown, Md.

#### Labor and the Saloon,

Toronto, Ont., November 14.-The question of labor and the saloon was discussed this afternoon by prominent labor leaders at a big mass-meeting in Massey Hall. The Rev. Charles Steizle, a fraternal delegate to the convention of the American Federation of Labor from the Federal Council of the Churches of Christ in America, presided and made the principal address. The other speakers included Vice President John Mitchell and Treasurer John B. Lennon, of the American Federation of Labor, of the United Mine Workers of America.

Mr. Mitchell declared that organized labor, in its fight for better conditions for the wageearner, is doing more to promote temperance than any other organization. He refuted the contention that shorter hours of labor and increased wages result in added profits to the

Mr. Lennon said the liquor business lowers the standard of efficiency of the workingman and prophesied that the time would come when the forces of labor would be arrayed against the sa-

from selling intoxicants, even at picnics. Education of the masses, he argued, would go a long way toward eradicating the liquor traffic.

Rev. Mr. Steizle in his introductory address declared that the saloon and the labor hall must be divorced.

"In too many cities of the country." he said, "trades unionists are compelled to pass through the saloon in order to get to their meeting places, and woe betide the man who doesn't stop to take a drink. Many of the workingmen of America are helplessly in the power of these hall owners.

"It is the duty of the municipality to provide centers which may be used for the gathering places of the people in their organizations. In many instances workingmen themselves have taken the matter in hand and in some of the leading cities they have erected labor temples the coals that were smoldering in white intellectual and moral uplift of the

"To the task of labor temple building organized labor may well direct itself. program which includes the entire American continent. Such a movement would give organized labor a dignity not yet achieved in our American life.'

Many school children suffer from constipation, which is often the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation.

## Everybody Wears Black.

be immensely popular this winter. This the occasion. From the kitchen came hair, since one cannot change them; but is not unlooked for, since the past seasons have favored dull, dark colors. The all-black hat was really the beginning of this sudden popularity of black, and since it has been so universally ap-

-----Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by all dealers.

#### The Children's Eyes.

If your children complain of headache and tired eyes, don't immediately take them to an oculist. Many children now condemned to wear disfiguring glasses would quickly recover if only their parents realized the value of fresh air as a

cure for bad eyesight.

This was the opinion recently expressed by a lady doctor when speaking about some of the slighter cases of defective eyesight met with in school

cases fresh air was more needed than spectacles. This opinion should, as the French say, "give one to think," for there is

little doubt, I feel convinced, that many other small ailments and worries of childhood are caused by the same thing -lack of sufficient fresh air.

said, have prohibited their members of course, that we are all burning every town, Md. moment we live; our bodies are like slow fires that never go out while life These fires need stoking, not with coal,

but with oxygen from the air and food digested by the digestive organs.

In childhood the fires burn more vigorously than in later life; the pulse is quicker, the vitality greater, because the body is building. It is not at the same standstill that it is in adult life, therefore it needs more fuel.

We never can get precisely the same amount of oxygen in a room as we find in the open air. Therefore we get fuel for the maintenance of our bodily fires if we lead an indoor life than we do if we live largely out of doors; and, deprived of it, our fires burn low, and the result is lowered health.

Did you ever try the experiment of opening the windows when you find the fire burning low in a room in which you have been sitting for some time with the window closed? You will immediately notice that the fire begins to revive.

which are used for the social, physical, intellectual and moral uplift of the people.

Just in the same way a child who is organized labor may well direct itself. accustomed to breathe impure air will The work should be entered upon with a often improve marvelously if sent to some place where the air is pure and fresh and allowed to live almost entirely out of doors and sleep in a room with open windows.

And the eyes are greatly influenced by the state of the health-children's eyes particularly. Lowered vitality predisposes to stav on the eye, to what is called "granulation" on the lids to inflammation and other eye troubles.

And it is not nearly always poor children who suffer most from lack of fresh air. Many well-to-do people's children suffer much more from this want, for they are not allowed to play in the streets as are the children of their poorer neighbors. Therefore, if your Unless all signs fail, black is going to children's eyes are troublesome, it is worth while to try what a little fresh air will do for them before condemning them to wear spectacles.

#### The President's Trip.

The President now returns to Washington to begin work on his message. That the experience of the trip will have a large effect on that message can hardly be doubted, and that it will be a good effect can be almost confidently hoped. The President has come into closer touch with the people, and with more people living in widely separated parts of the country, than a President often does, especially just on the eve of his sending a message to their legislative representatives; and there are innumerable people interested in this, not only as an economical, but as a political problem.

On the other hand, the people have

also learned a good deal from the President, for in some instances he talked to them with unusual frankness. Perhaps many of them have been brought for the the first time to a realization of the restrictions that surrounded the Chief Executive. He is not above the law, as they had sometimes been led to believe There are constitutional limitations which he cannot ignore; or at least should not ignore, for if he does ignore them he will get the country into all sorts of expensive and embarrassing situations. Doubtless the President's long trip has been worth what it has cost the national She said that many cases of bad sight were caused by ill-health, and in these aroulis News. apolis News.

#### OBSTINATE FRECKLES.

Apply These Lotions and "the Beauty Spots" Will Disappear.

for a poultice. Apply this to the face four nights in succession. Wash off in the morning. The freckles will generally disappear and likewise the red-

Another remedy is to take rainwater and add as much pulverized alum as the water will dissolve. Dab this on the freckles several times a day.

Still another method is to use half a teacupful of rainwater and two teaspoonfuls of powdered borax. Allow the borax to dissolve and with this wash the affected parts twice a day. This is never failing remedy for removing freckles for people possessing certain textures of skin.

With others the following remedy is effective: Two tenspoonfuls of lemon juice, one of powdered borax and one of sugar. Mix and allow to stand a day or two. Then apply two or three times a day.

The following remedy is vouched for by medical authority and is very simple: Break the stem of a dandelion. The juice which exudes should be wiped over the face twice daily, morning and evening preferably. Of course the larger the stem the more juice can be extracted, which, by the way, should be milky in color.

As most of the remedies for the cure of freckles contain astringent properties, which are more or less drying to the skin, it will need to be protected from becoming too harsh and dry while using the remedies. A good cold cream of equal parts of rosewater and glycerin with a few drops of carbolic acid may be applied between the application for freckles. Should the skin be naturally moist or oily none of the above remedies if used judiciously will be found too drying. A soothing cream to use for this purpose is made of one ounce of benzoinated oxide of zinc ointment and two drams of spirits of camphor.

Where the treatment for obstinate freckles has been tried there is nothing more soothing than the cream which is skimmed from milk. This is a natural substitute for a cold cream and is very cooling.

Why does a hodcarrier wear white

suspenders? To keep his trousers up. What is the queen of roses? The watering pot, because she reigns (rains) over them.

Which would you rather have, \$5 in notes or in gold? Notes are better, because when you fold them you find them in-creases.

Why is a pig's tail like the letter K? Because it is the end of pork.

Why is an elephant like an oyster?

# THE SUNDAY SCHOOL.

Lesson IX .- Fourth Quarter, For Nov. 28, 1909.

#### THE INTERNATIONAL SERIES,

Text of the Lesson, Rom. xiv, 10-21. Memory Verses, 19, 20-Golden Text, Rom. xiv. 21-Commentary Prepared by Rev. D. M. Stearns.

Bishop Moule speaks of this section of this epistle from chapter xii onward as "present duties in the power of eternal facts." Some of the facts are the sin that is in man, the redemption that is in Christ Jesus for sinful man, the "no condemnation" and "no separation" of chapter viii as a result of that great redemption and the farreaching, glorious prospect for the whole creation with Israel as a righteous center bringing true riches to all nations. The effect of this upon the mind of the believer should be such a renewal that henceforth he is done with this present evil age and done with himself and determined to live wholly in the perfect will of God. as a new creature in Christ, old things passed away, all things become new (Rom. xii. 1, 2: 11 Cor. v. 17). Even Christ pleased not Himself, and in the epistles we are taught how we ought to walk and to please God and to let every one of us please his neighbor for his good to edification (xv, 1-3).

Now, it seems to me that the great point in our lesson is that each one should for himself get right in this matter and not misspend his time in seeking to get others right while he himself is all wrong. "Every one of us shall give account of himself to God" (verse 12). Therefore why judge our brother in any matter, and especially in eating and drinking, since all believers must stand before the judgment seat of God, or of Christ, for Christ is God? (Verse 10.) If we have received the Lord Jesus, then we are in Christ and are looked upon as having died with Him and risen with Him, so that our judgment for sin is past on Calvary, and we have His assurance that our sins and iniquities He will remember no more.

It is possible as His redeemed ones to walk in the light under the shelter of His precious blood and have conscious and unbroken fellowship with Him as we yield ourselves to Him moment by moment to walk in the good works He has beforehand prepared for us and to live the life of utter self renunciation which He desires us to live to His glory, making it our ambition in all things to be acceptable to Him (Eph. ii, 10; 11 Cor. iv, 10, 11; v, 9). Although our Lord said to His disciples at the last Passover, "I appoint unto you a kingdom, as My Father hath appointed unto Me, that ye may eat and drink at My table in My kingdom and sit on thrones judging the twelve tribes of Israel" (Luke xxii, 29, 30), yet "the kingdom of God is not meat and drink, but righteousness and peace and joy in the Holy Ghost" (verse 17), and the chief object of our thoughts here should not be what shall we eat and drink and wear, but how can we best make manifest and make known His righteousness, which He offers freely to all, and thus hasten His kingdom of peace on earth. We should think of every one on earth as "one for whom Christ died" (verse 15) and trust Him to use us to bring as many as possible to Him, that they might obtain and enjoy His righteousness and peace and then bring others to the same. When the kingdom comes and a King shall reign in righteousness, then on all the earth the work of righteousness shall be peace and the service of righteousness shall be quietness and assurance forever (Isa. xxxii, 1, 17). There can be no peace to an individual or to a nation or to nations apart from righteousness, and there is no righteousness worthy of the name except that which God has provided in Christ, the righteous one; but, believing in Him, we are thus justified and have peace with God and rejoice in hope of the glory

Through the comfort of the Scriptures we wait patiently for the hope, and the God of patience and comfort gives us the mind of Christ toward others, while the God of hope fills us with joy and peace in believing, making us to abound in hope through the power of the Holy Spirit, and the God of peace is with us and gives us peace always by all means (Rom. v. 1, 2; xv. 4, 5, 13, 33; II Thess. iii, 16). If it is thus with us the minor matters of eating and drinking will keep their right place and we will never be found insisting that we may eat this and drink that, no matter what others may say; but, being filled with thoughts of His kingdom and glory, we will live for the salvation and edification of others rather than for our own gratification. As believers our self life was crucified with Christ, and now we are to reckon that old life as dead and buried and live a new life wholly unto God (Rom. vi. 6-11), not in anyway tolerating anything for which our hearts would condemn us (verses 22, 23; I John iii, 21).

All that God works in us to will and to do of His good pleasure will be approved, but all that is of or for self or to please men will prove to be wood, hay and stubble to be burned up (I Cor. iii. 11-15). This judgment seat of our lesson is for believers only, that they may be judged for their works and have their places assigned them in the kingdom, and must not be confounded with the judgment of Matt. xxv or the great white throne of Rev. xx.

#### CHRISTIAN ENDEAVGR.

Prayer Meeting Topic For the Week Beginning Nov. 28, 1909.

Topic.-Home missions, "The battle of the slum."-Luke xiv, 15-23.

There is no more grave or serious missionary problem before the Christian church today than that of carrying the gospel to the slum districts of our large cities. When we face the problem of the foreigners segregated in our large cities, our industrial and agricultural centers, it seems to be a great one, but it is as nothing compared with the reformation and redemption of those who have become victims of the sins and allurements of the slums. The difficulties involved in successful Christian work in the shuns are colossal and almost insurmountable. Were it not that "all things are possible with God" man would be compelled to give up in despair in the face of the gigantic difficulties presented. When we think of what needs to be done and how little is being or can be done the heart grows sick and we feel like exclaiming with Paul, "Who is sufficient for these things?' Many of the victims of the vices of slum life do not want to give it up, and what can be done for those who desire to have nothing done for them? Thousands perhaps would like to break away from their foul surroundings, but how can they? And if they did where would they go and what would they do? Would even the Christian church receive them into its membership and try to help them upward? Sad to say, there are possibly few churches that would do so. Into what home would one stained with the life of the slums be received even to do the most mental labor? The gospel is being preached to many of them, especially in theaters on Sabbath nights after the church services are over.

Many profess conversion, and many are converted, but their future is full of darkness and almost despair. The men may meet with some help and encouragement, but the women have very small prospects of reclamation, and many of them, it must be said, of dire necessity drift back into the old life of vice and sin. Houses of refuge for fallen women reclaim and restore many, but few indeed in comparison to the numbers involved, and even then the places made vacant are soon filled by new victims.

The duty of doing something rests upon Christianity and Christian workers. It is easy to criticise municipal governments for not keeping large cities free from saloons and gambling dens and other resorts of vice, but the problems before them are almost as great as those before the church. They might do more than they do perhaps and probably would if they received more encouragement from good citizens instead of so much severe condemnation. But what they can do they should do, for they not only represent the law, but also upon them rests the duty of enforcing the law. By Christian people one or two things can and should be done. It has been well said that "an ounce of prevention is worth a pound of cure." Could not Christain people save many from the slums? And, if so, ought they not to do so? Could not many be saved from the slums if a little care and attention were paid to them by the preferred followers of Christ' If a voung man starts downward, who knows but that a little prompt attention might save him? But, instead of that, is not the tendency just the opposite? Do not slanderous tongues help him on? 1)o not his associates begin to pay less attention to him and gradually withdraw from association with him? And what is the result?

To the slums he goes for companion-

ship, and his ruination soon becomes

complete. The same is the history of thousands of women in the slums today. They may be naturally wild in disposition in their early young womanhood. Through inexperience of life they may commit indiscretions and perhaps nothing more. Just at that moment their friends should hold the firmer to them. But do they? In most cases they do not. They are received with sarcastic smiles and titters. Skirts are raised when they pass by lest their wearers become contaminated. They must not be in such a class in the Sabbath school or certain others will leave it. Shunned and deserted just when they need a kind word or a saving hand clasp, they, too, pass out of sight and are soon found in the slums. To many religion is but a farce, but nowhere does the farce appear to such an awful extent as in the average Christian's attitude toward those who have fallen, toward those who are "down and out." Yet many of these same people are the veriest hypocrites and baser at heart than many of the unfortunate weaklings who have drifted to the slums. Another thing is absolutely certain-Christian young people should not go slumming. Through slumming parties many have been led into slum life. No pure minded young man or young woman should ever seek vice even just to look upon it. The very sight soils the purity of the heart and soul. "Avoid the very appearance of evil." In its ripened stage it is foul and loathing, but its veneer is not so, and many are allured to it through such visits. Nor should young people, and especially young women, think even of doing work in the slums. Men. and strong men at that, should be selected for such work, together with women of some age and firm will and character. And, last of all, let us pray for those who are lost, God can

BIBLE READINGS. Prov. i. 10-19; vii, 24-27; xxii, 1; Eccl. xii, 1; Jer. ii, 9-19; Luke v, 29-82; vii, 36-50; xix, 41-46; Gal. v, 16-26; Eph, v, 11-21; Luke xv, 11-32.

reclaim them. Let us ask Him to do

# SELECTING THE BRONZE TURKEY.

A Thanksgiving Story.

By PORTE JEFFERSON. [Copyright, 1909, by American Press Asso-

ciation. Amanda Butler cautiously opened the door of the turkey shed and flashed the rays of her lantern until they fell broadcast on the clumsy form of a large turkey in the corner. He roused as she approached and stretched himself for action.

It was the work of an instant for Amanda's nimble fingers to flash up to his legs, and when she darted back there dangled from one foot a strip of bright red flannel. When Amanda locked the door and turned away the victim of her craftiness was protesting loudly against the absurdity of wearing red flannel in August.

Jeremiah sat on the doorstep in his shirt sleeves, smoking a peaceful pipe. "There," panted Amanda as she put out the lantern and sat down beside

him and fanned herself with her sunbonnet; "I've got one job done." "What's that?" queried Jeremiah

"Marked the Thanksgiving turkey."

"Which one?" "The big bronze one. I've had him

in mind for some time. He always roosts in the shed, so I caught him asleep just now and tied a red rag on his leg. I'll shut him up come the 1st of November."

"The big brenze turkey always roosts in the walnut tree. That's why I s'lected him for Thanksgiving dinner," remarked Mr. Butler deliberately. "Him a-roosting out of doors shows he has wild tastes, and what tastes better than wild turkey, I wanter know?"

Amanda received this unconscious witticism on her husband's part in stony silence.

"Of course I mean the biggest of them two bronze fellers," added Jeremiah after awhile.

"I marked the biggest," said Amanda

Jeremiah whistled one stanza of "The Star Spangled Banner," knocked his pipe against the step and went into

"PETE JONES IS COMING AROUND TO KILL THE TURKEY.

the house. A moment later Amanda heard him winding the kitchen clock preparatory to retiring for the night.

"A woman that's married might as well give up trying to have her way about anything," murmured Amanda discontentedly. "Just as if I didn't know that there turkey in the shed was the biggest of the two! If I don't eat that turkey I'll not eat any-so there! I'll show Jeremiah Butler I've got some gumption if I am a poor, miserable married woman!"

Having delivered herself of these sentiments. Amanda felt more cheerfully disposed and in her turn retired to bed, where her husband was already breath-

ing loudly and harmoniously. The next morning when she went out to feed the poultry two big bronze gobblers were stalking about the yard, each with a rag about one leg. The red flanneled turkey ruffled indignantly every time his beady eye caught sight of the objectionable color on his foot. The other one gazed mournfully at a piece of black tape that adorned his extremity.

Jeremiah crossed the yard with foaming pails of milk.

"What's that there black rag?" demanded Amanda angrily.

Her husband looked quizzically at her and then went on. "That there turkey is in mourning because he's going to be killed for Thanksgiving dinner," he said dryly.

Amanda said no more, but her plump face grew very pink, and her smooth forehead was creased in an anxious

That morning the rival turkeys fought bitterly. Whether it was the red flannel which aroused the mourning turkey's gorge I cannot say. It is sufficient to note that they fought fairly and that the red flannel gentleman put the other to open flight. When it was all over Amanda went out and smilingly picked up several handfuls of bronze feathers.

Jeremiah, who had witnessed the battle through a crack in the barn door,

grinned openly and went back to his neglected garden.

At night a remarkable thing happened. The victorious wearer of red sought a roost in the walnut tree, while the mourning turkey ignominously found refuge in the shed, and, strange to relate, he chose the very spot va-

cated by his rival. All that summer and early fall Amanda and Jeremiah avoided the subject of turkeys. After awhile others noticed that the topic was a disagreeable one, and so it was tacitly avoided by every one.

The first of November two bronze gobblers nervously paced two narrow pens. The red flannel turkey was generously fed by Amanda, while the black tape bird was as conscientiously stuffed by her husband.

Amanda grew nervous and irritable as the weeks wore on toward Thanksgiving. She did not really care which turkey she ate, for it had been a prosperous year with them, and she was thankful in every sense for the fullness of their cellar and granary. What she really did mind was the giving in to Jeremiah. She had always been the one to give in, and this time-it did seem for once as if he might let her have her way. It was true she had her way about everything concerning the household, but-

She baked and boiled and stewed for a fragrant week before the great feast day. There would be cousins from neighboring towns to dine with them, and the turkey must be slain and prepared the day before. Such a huge bird would be plenty for the ten who would be present. Amanda wished she might invite more, so that there would be some excuse for killing both birds, and thus cut the gordian knot of contention without loss of dignity to either Jeremiah or herself.

On the evening of the second day before Thanksgiving, Jeremiah Butler and Amanda sat in the warm circle of light cast by the reading lamp. Jeremiah was reading the county paper, and his wife was sewing.

Suddenly Jeremiah looked up. "Pete Jones is coming around to kill the turkey tomorrow morning," he said, with assumed carelessness. "He'll get it all dressed and ready for you."

"I've been thinking." said Amanda slowly, "that you might as well kill that there black tape turkey of yours. He looks pretty well conditioned, and he's the biggest bird after all. I don't feel like as if I could have any contention this Thanksgiving. We've been so prospered this year."

Jeremiah coughed dubiously. "Amanda," he began rather sheepishly, "I did kind of a fool thing last summer. When you tied a rag on your turkey I went out the next morning and changed them rags. That's why your turkey went to roost with a black rag and mine went back to his tree with a red one. I meant it for a joke at first. I thought I'd have my way about killing the black one, and when we was eating it I was going to tell you it was your bird after all, but it looks silly

"It was silly," said Amanda energetically. "I about made myself sick over them two turkeys. I don't know if I wanter eat neither one. If I had known you was trying to joke-why, I don't know as I ever knew you to make a joke, Jeremiah!"

"I never did before," said Jeremiah, with a sickly smile. "I guess I won't again. I'll tell Pete to kill the black rag turkey, and then it'll be the one you s'lected."

"I'd ruther have the wild flavored one," admitted Amanda. "I'm partial to wild turkeys. Then it was your turkey that fit mine and made him run after all." She glanced at the bronze

feathers above the clock. "That there wild one was a gamy bird," chuckled Jeremiah, with another break into unconscious wit.

The next day when Pete Jones came to kill the turkey he found Jeremiah and Amanda busily engaged in cleaning silver. "Which one of them two bronze gob-

blers shall I kill? One's as fat as t'other, and each one's got a dirty rag tide around his foot." Jeremiah looked critically at a fork

he was polishing, and then he turned a quizzical smile upon his wife. 'Kill 'em both, Pete, and take one home for yourself."

'And whichever one it is, Pete, enjoy it!" smiled Amanda at her reflection in a teaspoon.

Dilettante Alpinists. The real Alps are not civilized. Nev-

ways have been built so that horse and motor can go where once only the guide led the way. The modern hotel is beside the clear blue lake under the shadow of the snow clad mountain. sometimes high upon a spur it has thrown out. You can linger over your table d'hote listening to the orchestra. dance all the evening, take baths, stroll on the promenades at the fashionable hour and say you have "done" the Alps. Yet you may only have seen them miles above you and have had not even a taste of the exhilaration, the joy of living, that comes only to the mountaineer. Then there is another way of saying you have been an Alpinist-a day or so walking amid the foothills on the lower slopes along the paths that have been trodden for centuries, worn smooth by peasant feet. Looking from some viewpoint upon the valley a thousand feet below, the visitor imagines that this is indeed mountaineering. But he does not know he is merely going over the pathways where the home people have gone, as their fathers and forefathers went from chalet to hamlet, to sell their cheese or eggs, or in their Sunday dress to hear the good man of the church-and forget it all in the neighborly gossip after service.-Putnam's Magazine.

## State Road Contract Thrown Up.

Cumberland, Md., Nov. 17.—Urner Carl, Austin A. Wilson and James G. Carl, Austin A. Wilson and James E. Macbeth, of Cumberland, were ap-pointed receivers for William Hootman and Harry Hootman, trading as Hootman Brothers, who had the contract to build the State road on the Baltimore pike from Cumberland six miles east, but threw up the contract and left suddenly, with unsatisfied creditors. The receivers were appointed by Judge Mor-ris, of Baltimore, after application in the United States Court here on behalf of gates all declared for local option, it

most difficult part of the work when they threw it up, having reported that they were advised that the contract was a losing one. They abandoned valuable machinery and equipment, which the Court orders to be sold speedily. The bond of the receivers was approved today by Albert A. Doub, referee in bank-

## Forced Into Exile.

Wm. Upcharch of Glen Oak, Okla, was an exile from home. Mountain air, he thought would cure a frightful lungracking cough that had defied all remedies for two years. After six months he returned, death dogging his steps. I began to use Dr. King's New Discovery," he writes, "and after taking six bottles I am as well as ever." It saves It saves thousands yearly from desperate lung diseases. Infallible for Coughs and Colds, it dispels Hoarseness and Sore Throat. Cures Grip, Bronchitis, Hemorrhages, Asthma, Croup, Whooping Cough. 50c. and \$1.00, trial bottle free, guaranteed by R. S. McKinney, Drug-gist, Taneytown, Md.

#### Just A Simple Gasoline Engine.

We take the following from the Ver-

montville (Mich.) Echo:
"Just to enliven things up a bit, the Echo office engine got a cranky streak on, last Wednesday, and the more we cranked it the crankier it got, until finally the atmosphere around our ordi-The annual Thanksgiving sermon will narily peaceful sanctum took on a rather bluish hue. It is one of the best engines rections say, but somehow or other we did not seem to hold our mouth right and it just would not run. It is water-Hill attended the Masonic ceremonies | cooled, cooled, high-pressure, non-stinker, double-action, single-barrel, anti-profanity instigator.

'At first we thought the tropic of capricorn had slipped into the king-row, and sure the exhaust was bent. We un-screwed the umbilicus, drew the rangefinder out, greased the pug tongue, bent the downangadingus, and even put it together again. Everything looked right, and we cranked it for an hour or two to see if it wouldn't combust audibly, but it wouldn't. Then thinking that oil had accumulated in the duffoppus so that the guyascutus couldn't coalesce with the noncompos mentis, we took out the doofunny, wiped the synovial fluid from the pendemonius, and removed the oil. This made everything look all right. The engine should have said 'kapeet,' 'kapeet,' right along now, but it merely said 'pr-r-r-r,' and that was all.

"There is a tea canister annex screwed on top of the main duodenum that runs up through the roof that usually says 'kapunk' at each explosion, but which was maintaining a discreet silence all this time. We resolved to go up on the roof and investigate this. Here we found that fuzzy wuzzys (worms) from the big willow tree near the Echo office had built their nest and plugged up the 'kapunker.' This solved the mystery. When it tried to 'kapeet' inside the 'kapunker' outside was cramped up stiffer than the right leg of the goddess of liberty. After adjusting the 'outside kapunker,' which released the 'inside kapeeter,' confidence was immediately restored. restored.

'A gasoline engine is just as simple as hoeing turnips when you get next to its curves. But our experience is that no gasoline engine can 'kapeet' when it is banged up in the snoozle.'

#### LIKE FINDING MONEY.

R. S. McKinney the popular druggist, Oratorical Contest to take place next is making an offer that is just like finding money for he is selling a regular 50 cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at half price. In addition to this large discount he agrees to return the money to any purchaser whom the specific does not cure.

It is only recently, through the solici-The ladies of Grace Reformed Congre- tation of Druggist R. S. McKinney that gation will hold a turkey dinner on this medicine could be bought for less Thanksgiving day, in the Opera House, than fifty cents, he urged the proprietors and a chicken and oyster supper on to allow him to sell at this reduced price Thursday, Friday and Saturday eve- for a little while, agreeing to sell a cernings, of the same week. The public is tain amount. The result has justified his good judgment for the sale has been something remarkable.

Anyone who suffers with headache, dyspepsia, dizziness, sour stomach, specks before the eyes, or any liver trouble, should take advantage of this will cure all these troubles. But if by any chance it should not, R. S. McKin-

#### Anti-saloon Vote in Frederick.

The Anti-saloon League has published lengthy analysis of the vote in Freder ick county, which seems to show satisfactorily that the supporters of the League had considerable influence in The citizens of Taneytown should not bringing about a result with which the League is well pleased. We give a portion of this published statement, as fol-

"Not only were the 'drys' able to oversult of this undertaking will have much to do with future efforts along the same gates through the withdrawal of the 'wet' vote, but actually run the delegates an average of 24 votes ahead of the Republican commissioners.

'As there was no reason for any 'dry' We have on hand about 50 copies of Republican to cut his delegates, there was nowhere from which the 'dry' Democratic delegates had to draw votes but from within their own and Prohibition parties, yet, not withstanding this evident

that an unpledged Democratic delegate now is your time, as they may be hard led his ticket; in answer to that they call attention to the fact that the leading 'dry' Republican stood third on the entire ticket, only 231 votes behind Mr. Urner, the leader, while the highest unpledged Democratic delegate stood tenth on the entire Democratic ticket, 523 votes behind the Democratic leader and 1049 votes behind Mr. Urner.

"Further, the League draws the fol-lowing deductions: Had all the Demo-cratic delegates refused to declare for local option, the average vote for each would have been about what the 'wet' delegates did receive, and would have increased, by several hundred, the Republican delegate vote. Had the Democratic as well as the Republican dele-25 employees of Hootman Brothers, who would have left the party vote normal and given the Democratic delegates a The contractors had accomplished the fair show with the other part of their

'Further, they believe that the Prohibition party vote was used much more effectively by working with the League than it could have been used with Prohibition legislative candidates in the field.

Lame back comes on suddenly and is extremely painful. It is caused by rheumatism of the muscles. Quick relief is afforded by applying Chamber-lain's Liniment. Sold by all dealers.

#### Not That Kind of Cat.

A distinguished member of the Naago, and noticed two colored boys playing with two kittens and asked what their names were.

'I calls 'em Tawm and Jerry,'' was Why not call them Cook and Peary?"

"Deed, boss," was the quick rejoinder, 'dese yere ain't pole-cats.

#### Hagerstown Fair Officials Indicted.

Hagerstown, Md., Nov. 16.-The Grand Jury of the present term of court yesterday evening returned and indict-ment against the Hagerstown Fair Association for permitting gambling on the fair grounds last month. The indictment contains seven counts, all dealing with wheels of fortune conducted on the grounds and specifying that a wheel of fortune is not allowable under the law, but was permitted on the fair grounds, and that the gambling was knowingly permitted by the Fair Association. The last count refers to the effect gambling publicly conducted has on a community.

The Grand Jury in its report state that 26 witnesses were examined, but from legal viewpoint sufficient testimony could not be obtained to find an indictment against the Fair Association for allowing improper shows on the grounds. The report recommends that officers and deputies be held more strictly to their duties and not allow crime to pass unnoticed. The indictment against the Fair Association is the outcome of the demand made upon the jury by Judge M. L. Keedy to a rigid investigation of alleged violations at the fair. The case will be heard during the present term

### A Card

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold, prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. R. S. McKinney, Druggist, Taneytown, Md.

October was the biggest month but one in the Minneapolis milling industry, he flour shipments going close to two million barrels, actual figures being 1,970,728. In October of the active period of five years ago, they were exceeded, but never before that time and at no time since. A year ago the total was 1,509,-622 barrels. Car load receipts of freight of all kinds in Minneapolis for October were 36,075, compared with 35,904 a year ago, and there was a material gain in the number of cars shipped, the figures being 32.076 compared with 30,075 in October, 1908.

The old, old story, told times without number, and repeated over and over again for the last 36 years, but it is always a welcome story to those in search of health-There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold

#### The Judge's Little Joke. The error of a clerk involved in a decidedly confusing situation the German gentleman referred to in a story

in the New York Times. On a jury day in the First district court a stolid looking German presented to the justice a certificate from the commissioner of jurors. After a rapid glance at the document the justice ordered the man to raise his right hand and administered the oath.

"Your name is Herman Kaufman?" "Yes, your honor."

"This paper," continued the court. "requests me to excuse Herman Kaufman from jury duty on the ground that he is dead. Now, remember that you have sworn to tell the truth and think well before you answer. Are you dead?"

"No-o, your honor," was the bewildered reply; "I don't think I am." "You claim that you are alive?"

"Y-e-s, your honor."

"That will do. Now take this pay back to the commissioner of jurors. The man did so. When the commissioner examined the certificate it bore the following indorsement in the justice's handwriting:

"The deceased, appearing before me in open court, insists under oath that he is not dead. Please investigate and if his testimony be false have him in dicted for perjury."

A Wedding Hint. The tall girl smiled in some embar-

rassment.

"Haven't you any secondhand shoes?" she said to the shoe clerk.

"But, miss"- he remonstrated. "No, no; you misunderstand," said she. "I don't mean to wear. I just mean old shoes, too worn for use, that customers have left with you. You see, there's a wedding up at our house tomorrow, and we want something to throw at the bride and bridegroom."

"I see," said the clerk. He rummaged in a black hole and drew forth an armful of dilapidated footwear. The girl selected some threes, two and ones.

"These will do. Thanks ever so much." she said, and so departed.

"Big footed people are always working that on us," said the clerk afterward. "That girl wears eights. She couldn't very well throw such mudscows at the bride, so she chose some little and dainty shoes here-ones and twos. Oh, yes, it's an old trick with the big footed."-Los Angeles Times.

Saracen's Head Tavern.

The Saracen's Head, Snow Hill, now closed, reached back to a respectable antiquity. In "Dick Tarlton's Jests' it is referred to as "the Saracen's Head without Newgate," and Stow calls it "a fair and large inn for receipt of travelers," which "hath to sign the Sarazen's Head." Its preeminent interest, however, is naturally Dickensian, and the novelist has given a vivid description of the old inn as it was when Nicholas Nickleby and his uncle interviewed there the master of Dotheboys Hall. There are various accounts of the origin of the sign of the Saracen's Head. One is tional Geographic Society was walking down town in Washington, a day or so the mother of Thomas a Becket, who was the daughter of a Saracen. In Selden's "Table Talk" we read, "When our countrymen came home from fighting with the Saracens \* \* \* they pictured them with huge, big. terrible faces, as you still see the sign
