No. 40

NEWS NOTES HERE AND THERE

Condensed Items of Interest from County, State and Our

The Democratic caucus will meet on Saturday and the Republican on Monday to prepare for the organization of the House next Tuesday. The Democrats will name Champ Clark, of Missouri, for Speaker, and South Trimble, of Kentucky, for clerk, they having no opposition. The Republicans will name opposition. opposition. The Republicans will hame James R. Mann as minority leader in all

Prof. Chas. H. Keltner, of Mt. Morris, Ill., who was a few years ago a member of the faculty of Blue Ridge College, at Union Bridge, has given the RECORD an opportunity to bid on printing the Catalogue of Mt. Morris College for 1910-11, an opportunity which we felt obliged to decline because we are too busy to take large outside contracts at this season of

The presence of crawfish in the Frederick reservoir will probably cost the city \$22,000 to repair leaks made by their boring, and the abandonment of been assigned to the presence of craw-fish by engineers, and it is thought that about 100,000 gallons of water are daily going to waste.

The minimum salary of Methodist ministers should not be less than \$800 a year, in the belief of the New York Methodist Conference, and a commission of 14 members will devote the next 12 months to devising means to increase the compensation of poorly paid pastors, according to a resolution adopted this afternoon. The Laymen's Association and the conference will each name seven members of the commission.

The Sentinel, of Westminster, has grown into eight big pages, and fairly struts with its spick-and-spanness. We remember the time—not so long ago—when Brother Joseph spoke rather disparingly of the use of "boiler plate," but it is evident that a great change has taken place in his journalistic dreams, even in the face of the growing scarcity of papermaking materials, and higher cost of paper. Good luck to you Brother Joe!

The city election held in Hagerstown on March 27, for Town Councilmen resulted in a gain of one Councilman by the Democrats. Of the three wards voting the Democrats carried two and the Republicans one. Martin A. Mogensen, Democrat, was re-elected in Ward 1, by 25 majority, against 66, two years ago Democrat, was re-elected in Water, 59
25 majority, against 66 two years ago.
The City Council, which stood three
Democrats and two Republicans, will
now stand four Democrats and one Republican, with a Republican Mayor.

Indications are that John B. Hanna will be re-elected chairman and treasurer of the Republican State Central Committee when that body meets in Baltimore next month. The party has been licked for a number of years and is now perfectly harmonious, and the party now perfectly harmonious, and the party leaders are well satisfied with Mr. Hanna's chairmanship. From present prospects there will be no opposing candidate and Mr. Hanna's election will be unanimous.

New York city had a shirt waist factory fire, last Saturday, which resulted in the death of nearly 150 persons who were penned in the top floors of a 10story building because of inadequate fire escapes. An investigation is being made which will result in the inspection of the city's tall buildings, many of which are said to be death traps. scenes at and following the fire were simply horrible. Most of those killed simply horrible. Most of those killed were young people, chiefly girls, Jewish to be to regard simple, melodious, easily and Italian.

The woman's suffrage movement is gaining rapid headway in Frederick. Women of the community are rapidly enlisting in the cause, and the new organization, a branch of the Just Government League of Maryland, is winning additional members daily. Since the last meeting 50 new names have been added. Monday night the first active work of the local league was inaugurated. Miss Anna Floyd outlined the steps to be followed by the workers at the session. The campaign will be a lively one,

bargain, a year later refused to appro- Gavotte, priate the sum necessary for its upkeep. Champ Clark as speaker will not make priate the sum necessary for the Champ Clark as speaker will not make Champ Clark as speaker will not make the Champ Cl scurry around Washington in a car which he thrice refused to vote and for Silver Bell, which he was unwilling that even the expense of chauffeur and repairs should be proyided by the last Congress.

Five million dollars probably could repair the damage done by fire in the \$27, 000,000 New York State Capitol on Wednesday, but money cannot restore the historical records, which were the pride of its library. After examining the ex-terior walls State Architect Ware deciared that the massive pile of granite Court of Claims, the Assembly library and document rooms, most of the ofquarters of the Senate Finance Committee Water and smoke did damage in every part of the building.

not exactly envious—we are saving up Preaching at Taneytown U. B. Church, Sunday, at 10 a, m. Harney 7.30 p. m. Everybody all. in every part of the building.

Will Omit "Mr." Hereafter.

Hereafter the RECORD will discontinue the use of the title "Mr." before a Christian name, or initials. Its use heretofore, in our paper, has been somewhat irregular, but generally it has been proof while the Exchanges.

Somewhat irregular, but generally in the custom of most been used, while the custom of most papers—especially dailies—is to the contrary. The change is made to conform trary. The change is made to conform the custom of the custo general custom, to treat all cases uniformly, and to save time and space. Robert Luce in his admirable work, "Writing for the Press," has the follow-

"Writing for the Press," has the following to say on the subject:
"Mr. Should be used only to distinguish men from womer, to confer what may be called social recognition or honor, and to take the place of initials, or a christian name. In ordinary newspaper writing when the christian name is used, the title is not necessary, and when only the initials are used, the omission of any title whatever implies that the name is that of a man. Therefore, in newspapers the only considerfore, in newspapers the only considerable use of the title Mr. that is justifiable, is in place of initials when these are omitted to avoid repetition, or because the man referred to is well known. Some newspapers permit it in accounts of social happenings, but even there the

more sparingly it is used, the better.' In examining our county exchanges in order to observe their custom with reference to the use of Mr. we have found, very frequently, that in the same the reservoir may follow. The great leakage of water from the reservoir has article the title is used to some names and not to others, apparently making a distinction hard to satisfactorily explain. Other papers use the title pretty generally, while others omit it as generally, and the latter class is decidedly the largest. We will therefore follow the crowd, as well as the best authorities, and omit Mr. before initials and christian name, as in "John T. Brown," but of course using it when referring to Mr.

Damage Done by Storm.

A tornado-like windstorm, accompapanied in some sections by lightning, hail and rain, swept over Frederick and portions of Carroll county Monday night, doing considerable damage. Barns were struck by lightning, roofs were blown off, trees uprooted and fencing torn to pieces. In one instance a carriage shed was carried for more than 50 feet.

At LeGores station, on the Northern Central railroad, at Mountaindale, at Utica, at Keymar, at Lewistown and in many country sections damage is re-

In the Keymar-Middleburg section a considerable amount of small damage was done to buildings and trees. A grain shed owned by Luther T. Sharetts was moved about a foot from its foundation, and many buildings were damaged at the roof, at Keymar. There was quite a demand for window glass, the next day, to repair the damage done by

At LeGore a carriage shed, which had just been converted into an ice house, belonging to L. C. Barrick, was picked up as if it had been a piece of paper, and after being carried over 50 feet was dumped in a neighbor's garden.

At Keymar part of the tin roof of W. F. Cover's warehouse was blown off and of Frederick, were struck by lightning, but in both cases, beyond the melting of some steel work, and the splitting of wood, no serious damage was done.

Miss Galt's Recital.

(For the RECORD.) A most delightful affair was the "hour of music" given under the direction of Miss Anna Galt, at her home last Saturday afternoon. The youthful artists (the more advanced of Miss Galt's pupils) adapted themselves with sympathetic versatility to the rather wide range and variety of moods represented in the wellinterpreted and well received program.

understood compositions and composers as unmistakably beneath one's notice, when so many musical aspirants are driving themselves pell-mell after the queerest things possible to be found anywhere-it is exceedingly gratilying to note with what wholesome care our town-teachers are directing their scholars choices along the lines of well-balanced, well-chosen, well-rendered works of the plain, old, unsophicticated sort. There is nothing quite like the loveliness of heart reaching, head haunting music in this world of many desires and delights. May such occasions multiply. The program is as follows:

sion. The campaign will be a five extending throughout the county, and the leaders expect that they will meet with encouraging results.

The Speaker's automobile will be given a long rest. Two years, at least, of idleness await the handsome \$6,000 motor car which a generous Congress purchased for the use of Speaker Cannon chased for the use o Charles Arnold. Ode to Spring, Grace Bower. Mervin Fuss. Whisperings of Love, Julia Smith. Flirtation, Shower of Stars, Helen Reindollar.

Swing Song,
Barchetta,
Isabella McKinney.
By request, Miss Galt tunefully offered one of Chopin's Mazurkas and Sinding's "Rustle of Spring," bringing to a close the much enjoyed affairs.

The Middletown Valley Register has was as plumb and true as ever. The flames destroyed the State library, the Court of Claims, the Assembly library ter the realm of machine composition. We are beginning to feel lonesome, but fices of the excise department and the quarters of the Senate Finance Com-

IMPORTANT ROAD MEETING.

Shall the Taneytown-Westminster Road be Improved by the State Commission?

There is an important advertisement on the last page of this issue, relative to a public meeting to be held in Taneytown, this Saturday afternoon, concerning the improvement, by the State Road Commission, of the Taneytown and Westminster, road, commission, collective and the state of the minster road, commonly called the "Plank road," which connects with the Meadow Branch turnpike. All interested in the improvement of this road are urged to be present, for it is probable that on the action taken by this meeting will rest the fate of the road.

The entire subject and prospects have recently been thoroughly investigated by

recently been thoroughly investigated by several prominent citizens of Taneytown, who will state their information at this meeting, therefore, it would be improper to comment on the subject in advance.

The important thing, now, is to have a large attendance, at this meeting of all property owners along the line of the road, as well as all who favor the state improvement of this very important main road of the county. Let nobody underrate the importance of being present. The time for decisive action is right now. Come!

William I. Babylon, administrator of Charles R. Babylon, deceased, settled his first and final account.

Agnes F. Wamaling, administratrix of Robert L. Wamaling, deceased, reported sale of personal property.

Candidates' Cards.

The Emmitsburg Chronicle, last week, contained eight candidates' cards; five for State's Attorney, one for Orphans' Court, and two for County Commissioner, all soliciting the support of the public at the primaries. This may appear like getting into the ring a little early, but it is the right course to pursue, under the new direct primary sys-The RECORD solicits such announcements from Carroll County candidates of both parties.

Capt. Jesse Sheets Celebrates.

Still hale and hearty at 72 years of age and celebrating the fifty-first anniversary of his entering the service of the Western Maryland Railway Company by attending to his duties as station agent at Walbrook, Jesse H. Sheets, or Captain Sheets, as he is popularly known, last Saturday received the congratula-tions of his friends. Captain Sheets is the oldest man in point of service on the

The widely know railroad man lives at 2541 West North avenue, and assisted by his daughter attends to his duties at the station. He became an employe of the railroad soon after becoming of age, and from March 25, 1860, has been constantly in its employ. Captain Sheets was a regular conductor on the road until about 16 years ago, when his health began to fail.

Study Subject:—"The Sorrowing Christ—Solitary," the .fifth meditation on the week of the cross. Everybody welcome. Piney Creek—10 a. m., worship. Text:—"Let every man be swift to hear, slow to speak." All are invited.

Martinsburg Goes "Dry."

Following the most bitter campaign ever known in the history of Martinsburg, W. Va., the "dry" forces, Monday, won by a majority of 172 in a total vote of 2500, the largest vote ever polled

Both the "dry" and the "wet" forces worked hard throughout the day and exhausted every resource to get out the vote, and scores of automobiles and carriages were kept busy during the day carrying votes to the polls.

Following the announcement of the result, the "dry" element held a big celesult,

bration, and hundreds attended services in the churches...

The election was only an informal expression of the sentiment of the people, but, while the council will not be legally bound by the result, it is altogether probable that the 16 local saloons and three beer agencies will be refused licenses after July 1.

The campaign was the most remarkable ever carried on in the city, and many eminent speakers addressed big audiences, on both sides of the question. Both sides are said to have spent a good deal of money during the cam-paign, although it is not charged that either used money for any illegal pur-

Will of Ephraim B. Repp.

The will of Ephraim B. Repp, who died recently in New Windsor, has been admitted to probate in the Orphans' Court of Carroll county, and disposes of an estate valued at \$8,000 to \$9,000.

Among the bequests are the following: To the Washington Humane Society, of Washington, D. C., W. S. Hutchins, president, \$400; to the National Association of Audubon Society for Protection of Wild Birds and Animals, 131 Broadway, New York City, \$300; to the New Windsor Presbyterian Church, of Carroll county, \$300. The remainder of the estate is bequeathed to near relatives. Mr. Repp was a lover of birds, and did much to arouse public interest in their protection in Carroll county. He never married, and died in his sixty-

Food For Starving Chinese.

sixth year.

Washington, March 30.-The United States transport Buford, bearing the relief supplies to the starving people of China, which were collected in this country under the auspices of the American National Red Cross and the Seattle Commercial Club, arrived at Shanghai today according to a cablegram received by the officials of the American Red Cross. The vessel will proceed immediately to Nanking and Chinkiang to unload her cargo of mercy.

Announcement of the arrival of the American transport in Chinese waters reached Washington almost simultaneously with mail advices of the State Department from Shanghai and Nanking, detailed pitiful tales of the indescrib-

detailed pitiful tales of the indescrib-able suffering of the starving millions.

Mr. Bostick, a missionary, writing from Pochow, says the sufferings of the poor have reached the extremes of misery. A few months ago they were living on wheat bran. With this exhausted they have resorted to cooking leaves of trees and even simple dry wheat chaff. Barefooted children, all but naked on

freezing cold day, pitifully screaming, "I'm hungry, I'm hungry," present a common street scene. Mothers, no longer able to provide food for their offsprings, throw them away, probably in the frantic hope that compassion will force some one to rescue them. Men, a few months ago able-bodied farmers, have been reduced to rags, shivering to have with cold and facing starvation.

"Many have perished in the streets," says Mr. Bostick, "but one of the saddest cases I have ever heard of was that of a man who died last week near me. He was so overcome with hunger that in the last moments he picked up clods of dirt and crammed them in his mouth."
A deaf ear must be turned to these pitiful pleadings by those trying to render assistance, continues the missionary, because the amounts within reach are "but a drop in the bucket."

Forest Fires in Maryland, 1910.

Reports from Forest Wardens for fourteen counties of the State, including Allegany, Baltimore, Carroll, Cecil, Charles, Frederick, Garrett, Harford, Montgomery, Prince George's, St. Mary's, Washington and Worcester, have been compiled by the State Forester. In the counties named there were sixty-five fires, which burned over 17,536 acres of woodland, causing an estimated damage of \$96,294. About half of these fires were extinguished by the Forest Wardens, and their assistants, at a cost of \$181.50 The others were either extinguished by the landowners, or allowed

to burn out. Thirteen of the sixty-five fires were started from unknown causes; of the fifty-two that started from known causes, twenty-three were caused by burning sedge fields, brush, etc.; twenty were started by railroads; four by hunters; two by mischievous boys; one by a tractionengine; one by a saw mill and one was reported as incendiary. It is strikingly shown that the two common causes of forest fires in the State are brush burning, which resulted in 44% of the fires, and railroads, including logging loco-

In the other counties of the State not reporting, there are fewer fires, but as there are no forest wardens there is lack of definite information. It is probable that the total record for the State would be not less than 20,000 acres burned over, with an approximate damage of \$100,000. By far the most destructive forest fire acts reported.

was in St. Mary's County in April, 1910, when nearly 9,000 acres were burned over, causing a loss, including buildings, of over \$50,000. In the other counties of the State, with the exception of Garrett, Howard, Montgomery, Prince George's and Worcester, the fire damage for 1910 was less than that for 1909.

DR. TAYLOR ON ALCOHOL

A Scientific Demonstration of the

in the Presbyterian and Lutheran churches, Taneytown, on Wednesday and Thursday nights, from the scientific side of the temperance question, especially with reference to the constituent elements of alcohol and its influence on the body and mind. Temperance lecturers once appealed to the emotions of their hearers, and pictured in a general way the horrors of intemperance and its harmful effect on society in general. To-day, the subject is handled in a wholly different manner, the appeal being made to reason, backed up by scientific demonstrations and conclusions. tific demonstrations and conclusions.

The chemical analysis of alcohol, its classification as a poison sure to leave evil effects on the human system, is the basis of all modern efforts against the use of liquors. The intelligence of the individual is directly appealed to, and in such a manner that an entirely new light is influencing public sentiment on the question. Instead of leaving the fight against alcohol to mere lecturers and enthusiasts, to the clergy and to temperature societies, the property of the company of t temperance societies, chemists and scientists are going down deep into the question getting at the real truth, and telling it in such a convincing way that there is

no arguing around it.

Dr. Taylor is neither a third-party
Prohibitionists, nor an Anti-saloon agitator, primarily. He represents the very
latest scientific research—the medical
side—and does it remarkably well, so well that his lectures are bound to produce results favorable to anti saloon legislation. His appeals are to intelligent people; to those who have been, in a way, hard to interest; he gives new light in such a way that good citizens are inspired to follow the lead of scientific research, because there is no other consistent. earch, because there is no other sensi-

The strongest point, perhaps, made by Dr. Taylor, was in showing the impairment of the brain cells by alcohol. He stated it as a scientific fact that even a small portion of alcohol taken into the small portion of alcohol taken into the system, as by the use of 3½ per-cent. beer, resulted in impairing the mental faculties, and illustrated the point by citing the hasty quarrels of moderate drinkers. He gave it as a scientific tact that alcohol attacked the higher faculties first of all—judgment, conscience will—and afterwards the lower or animal faculties.

He analyzed a bottle of beer in the presence of the audience, showing it to contain 7 per-cent. of alcohol, then on the turning out of the lights illuminated the church for a few minutes with the amount of alcohol extracted.

The earnestness and evident scientific authority with which Dr. Taylor delivers his lecture, is extremely convincing, and the feeling is strong that if he could only secure the general attendance of men, he would exert a tremendous influence on public sentiment favorable to anti-saloon egislation, through reaching the voters. There is no evading the force of the truths he expresses.

Big Railroad Trust Changed.

Washington. March 28.-Criminal prosecutions against powerful financiers may be instituted shortly, it was learned here today, following a long secret investigation of what Department of Justice officials declare to be "the biggest trust in the

Agents of the department are reported to have evidence of a billion-dollar combination said to be fathered by the Pennsylvania Railroad and organized to control the entire anthracite coal output of the United States.

The Pennsylvania, the Baltimore and Ohio and the Norfolk and Western railroads were today declared at the Department of Justice to be the three carriers who play the most prominent part in the alleged combine. It was asserted that the Pennsylvania, through intermutual directors and enormous stock holdings listed in "dummy names" practically controlled the latter roads. The Baltimore and Chio and the Norfolk and Western, in turn, were believed to control numerous smaller roads in the same manner. The Government alleges that this combine has brought up coal fields wherever possible and formed secret alliances with those companies

who refused to sell. The result, according to a high official of the department, is a trust dwarf-ing even the Standard Oil and Tobacco

Prosecutions of the financiers alleged to be behind the combine will be based on the Sherman Anti-Trust law. It was admitted to the department that agent are now hard at work trying to find evidence which will connect certain men powerful in Wall street with the trust.

The discovery of the "Coal Trust"

is the result of investigations originally conducted in connection of coal carry ing railroads under the "commodities clause." The present contemplated proceedings, however, are entirely separate and apart from the former litigation. The commodities clause cases were prac tically lost by the Government by a of the Supreme Court of the United States.

Unlawful to "Dun" on Card.

Postal cards or post cards sent openly in the mails bearing the notification that the person to whom they are sent is a debtor, delinquent or defendant in any case will not be accepted for mailing. If found in the letter drops or boxes they will be taken up and the

The text of the regulations reads as follows: "The department has decided that postal cards, or post cards which make public the fact that the person named thereon is a debtor, delinquent or defendant in any case should not be accepted for mailing unless sent under

To Investigate Coal Prices.

Harrisburg, Pa., March 28.-A sweeping legislative investigation of the anthracite coal industry in Pennsylvania is Harm Done by Alcoholic
Liquors.

Dr. E. O. Taylor, of Boston, lectured the Presbyterian and Lutheran churchs. Taneytown, on Wednesday and the Vestigation will be thorough, the com-

vestigation will be thorough, the committee is empowered to inquire into the relations between mining and transportation companies, and the great banking houses which are said to be closely affiliated with them, and which reveally con-

houses which are said to be closely affiliated with them, and which usually conduct their financial operations.

The resolution, which is understood to have the approval of the Republican leaders, gives the Committee power to investigate the matter of freight rates, it being alleged in the resolution that the rates for anthracite are much higher than those for bituminous coal. The preamble recites that: preamble recites that:

whereas, The high cost of living in the cities and in those portions of the commonwealth removed from the anthracite coal mines is in a large degree due to the high price of fuel used for domestic and other purposes, and

and other purposes; and
Whereas, It is a matter of common knowledge that a large part of the exorbitant cost of anthracite coal to the public is due to the excessive freight and other transportation charges, which are other transportation charges, which are much higher than rates charged for the much higher than rates charged for the transportation on any coal and entirely out of proportion to the length of the haul and the service rendered by the carriers of said anthracite coal; and Whereas, It is reported that further advances in the price to be charged the people for anthracite coal, are contem-

people for anthracite coal are contem-

Whereas, It is further reported that plated, and Whereas, It is further reported that the excessive freight and other charges made for the transportation and handling of anthracite coal are in part at least due to large fees and commissions paid by the transportation companies to private and other bankers for the negotiation of the sale of the securities of said transportation companies, and for loans of money thereto, and are also due to exmoney thereto, and are also due to excessive fees, commissions and other charges paid to brokers, commission agents, sales agents, factors and middle-men, all of which are added to and go to increase the cost of the transportation and delivery to the public of anthracite coal for domestic fuel and other pur-

In view of this alleged condition the committee of investigation is directed to particularly "inquire into the actual cost of the mining and transportation of anthracite coal throughout the common-wealth and proportions of which costs are paid to labor in the mining and transportation of said coal, with a view of determining whether the rates charged for the transportation of anthracite, are for the transportation of anthracite are excessive as compared with the rates charged for the transportation of other coal for equal distances, and in connection with this investigation to inquire into the costs of operation and management of common carriers engaged in the transportation of anthracite and of the cost of the mining thereof; with a view of determining whether the cost of anthracite to the consumer is in any measure due to usurious fees and commissions paid by transportation companies to private and other bankers who are in the directorate of or are closely affiliated with such transportation companies for the negotiation of the securities of said companies and for fees, commissions and other charges loans of money thereto, and to excessive charges paid by transportation and mining companies to brokers, commission agents, sales agents, factors and middle men.

----Maryland Newspapers Exempt.

The commitment of a newspaper reporter of Augusta, Ga., to ten days in jail for refusing to divulge the name of a person who gave him information upon an important story, brings to light the fact that Maryland is the only State in the Union that has a law exemping newspaper men from revealing their sources of information.

The Maryland law, which is explicit,

is as follows:

"No person engaged in, connected with or employed on a newspaper or journal shall be compelled to disclose, in any legal proceeding or trial before any committee of the legislature or elsewhere, the source of any news or information obtained by him for and published in the newspaper on which he is engaged, connected with or employed. Editor and Publisher, N. Y

The Counties Can Be Trusted.

The Baltimore Sun and News are both distinctly amusing, at times, especially over questions which closely apply to, or which they think apply to, Baltimore city. Both these papers are afflicted with exaggerated ego in this one direction. Actually, Baltimore is not the whole state of Maryland; in fact, the city needs the state a whole lot more than these papers imagine, and it will be a fine thing for the city when its may be laid and followed at too great a mouth pieces stop knocking the counties.

In a recent editorial, the News said: "Of every dollar spent on this (road) improvement, this city pays about seventy-five cents, consequently, it has grave concern in having the money used to the best advantage." This remark was called forth in a consideration of the news of the day, or some short story whether or not the counties should be or interesting sketch. So doing will entrusted with building state roads, instead of the State Road Commission. burden from work-will help to lighten As a "pot of money" is at stake, the labor. So, do not think of maintaining News sagely remarks, "and while the a home without reading matter-get as counties, in their desire to get hold of it, much as you can possibly afford, and it may be actuated by nothing else than a will prove a splendid investment, a real wish to see that due economy is exer. help when tired and out of sorts, and cised, the situation offers opportunities just the thing to help make life worth for jobs, political patronage and for waste that is rather appalling."

We are not going to bother with figuring how the city owns "seventy-five cents" of every dollar of the road fund. There are ways and ways of manipulating figures, and ways and ways of arriving at results, and it is just possible that the arithmetic used by the News is faulty at the ends and weak in the middle; but, aside from the truthfulness of the claim, or even admitting it-Where did the city get the money? Baltimore is a local place, at best; it gets much of its business and profits because it is the Democrats of the city, are going to vote law as they find it in the statute books,

The sort of grudging argument put up the counties and the city. The Western Maryland Railroad, with its cheap excursions for the past twenty years, has cluding Baltimore, if the city, even undumped hundreds of thousands of dollars in profits into the laps of city business men, to the detriment of countries the boss of either party to dominion over try business men. This is but a single both. example of where the "seventy-five cents" comes from-if it does come at

The Home Paper and the New Home.

The home paper should be in the minds of many people, at this time of putes. the year, for new homes are being made, and such homes should be equipped with an ample supply of reading matter, beginning with the home paper. Young folks starting out in life can make no greater mistake than by thinking that they can "get along" without good reading matter, and that there is so much to do that there is "no time for reading."

Naturally, the making of a new home costs money, and as naturally there is a determination to make and save money, Getting a good start, financially, and working hard for success while young and full of ambition, is very creditable in a young couple, but even such plans cost. It never pays to be sordid, and stingy, or to do without things that add to one's intelligence and pleasure.

When times come for physical rest and relaxation, there is no more enjoyable thing to do than pick up a good newspaper for a few minutes and read furnish new thoughts which will take the living.

Concealed Weapons.

Police officials and peace officers all will act as a deterrent.

It will be bad for the State, in- courts to the people voting at the polls. but if the prisoner was caught armed that fact can be proved and with the other circumstances should be sufficient to put the offender away for the protection of the public.

The suggestion has been made that the sale of firearms be restricted. This plan would have been all right if it had been put into effect years ago, but with the immense number of weapons already sold it would do little good to keep a record of those sold hereafter. The suggestion has been made that the possession of a deadly weapon which has not been registered with the proper authorities be made a felony. This would have a tendency to keep criminals from owning weapons, for it is certain that a burglar or a cracksman would not register his revolver with the police. The honest man would do so. The plan would have the advantage of making it possible to establish the ownership of a weapon with which it was known that a murder had been done.

The question is one of vast importance to the public, and it is worthy of the careful thought of lawmakers. It is certain that many homicides are committed less be indefinitely increased under a avoided by any law that would lessen 'gun toting." - Catonsville Argus.

Announcement made of free trip to the Panama-Pacific International Exposition

WORD has been received from SUNSET, the Magazine of the Pacific and the Far West, of the organization of the Sunset Panama-Pacific Club. The Club offers a four weeks' trip to the Exposition to be held in San Francisco in 1915, including railway fare, Pullman, diner, hotel accommodations, admissions to the fair, side trips to points of interest, all in return for a little time each week to be devoted to the work of the Magazine.

The exposition is to be held to commemorate the completion of the Panama Canal, conecting the Pacific and Atlantic. From all indications it will be by far the greatest World's Fair ever held.

The Magazine has issued a very attractive booklet descriptive of the trip, and giving further particulars, which will be sent on ap-The membership is very limited and it is not likely that more than one or two applications will be accepted from this vicinity.

Requests for particulars should be sent to Sunset Panama-Pacific Club, 317 Battery Street, San Francisco, California.

'These articles and illustrations must not be reprinted without special permis-sion.]

BROODY BIDDY AND HER RE-QUIREMENTS.

Selection is the magic word in poultry culture and refers not only to picking bon ton birds for breeders, but pertinently applies to the broody hen, her eggs and her nest.

Apply it to eggs and you will not set antiques, dirties nor freaks in shape nor size, but fresh, medium, normal eggs, thirteen to the hen before May and fifteen later.

Not just any hen will do. Brahmas, Cochins and Langshans are rather clumsy. Rocks, Dottes,

FAITHFUL BIDDY.

Reds and Orpingtons are about the best. Hens crossed with Leghorns, Hamburgs, Minorcas, Spanish, Anconas, seldom sit steady. The cluck should be good sized, clean shanked, vigorous, hot blooded, gentle and anxious to sit anywhere.

Otherwise she may die on the nest, leave her eggs or rear culls. Not just any nest will do.

Small, very deep or public nests mean mixed eggs and omelet.

Try the . ;le shown. It is O. K. and twenty-one inches every way.

Fill with wheat straw. Let Biddy shape it for eggs, then turn against wall, cover the top, let hen out once a day for feed and return her before eggs are cold and expect a big hatch if eggs are fertile.

Better test eggs the seventh day to be sure of fertility, and set two hens at same time to be sure of one full hatch at least, one to be set over in case of fallu

Where should nest be located? Not in the damp, where hens get in-

testinal colds; not on high, where they break eggs.

Cut out that damp cellar fad and sod from the bottom of the nest, for under natural incubation eggs get little outside moisture and that most from the hen, so give Biddy a clean, quiet nest on a dry floor and have no

HER REWARD.

empty nests around for her to get into by mistake. Lastly, treat Biddy well. Handle her gently, keep her free from lice, furnish a sunny dust bath for her to roll in, feed her lots of whole corn, flanked with sharp grit and pure water, and she will have an undisturbed digestion.

M.

Under such conditions incubation is no strain, but a rest cure.

It assures a big hatch of dandy chicks and a mother in fine fettle to raise them to a splendid maturity.

DON'TS.

Don't feed capons whole grain right Don't buy chickens with bubbles on their nose. Catarrh.

Don't thaw frozen eggs and sell them to your best trade, and watch for the eggs that slip under the nest straw.

Don't put the roost up near the roof unless your roosters are frost proof. 'nueir breath will freeze above their backs, and you will have roup germs

by stacks. Don't make roosts high, but low and level. Fit to the feet and edges bevel. Don't heat your water vessel with a lamp. Heat the hens with sound feed and exercise. Thus get eggs and avoid a conflagration.

NEVER AGAIN! "Never again!" cries Guzzler. "Never again for me' You bet I've signed the pledge for good. Never! No, sir-ee!"

"Never again!" yells Grocer Tricks.
"Nit, nit, you bet!
When I play that blame game again
The fools ain't all dead yet!"

"Never again!" moans Mrs. X. "Never! Mercy me,

If I can catch another man

I'll treat him decently!"

"Never again!" sighs Sarah Ann. A tear stands in her eye. "Never, never, never!" Her broken heart doth cry.

But what's all this fool talk about?
Why do these "Never" yell?
1 g...288 I'll have to let you know,
For they will never tell.

Guzzler used a storage egg To make a glass of nog.
And now he'll never, never,
Never again drink grog.

Tricks sold storage eggs for fresh. He got ten years in jail.
'Never, never, never again!"
Is Tricksy's bitter wail.

Mrs. X. made egg custard
With an old storage rot.
She now is rubbing at the tub.
Her man a divorce got.

Poor Sarah Ann to paste her bangs Smeared storage on her head.

Her lover smelled the awful stuff
And quick fell over dead.

C. M. BARNITZ.

DEPENDABLE CHICK FEED.

"Can hatch 'em, but can't raise 'em," is the explanation given by many for poor success with chicks. "All I could do, they just died off like flies," said a discouraged friend. An investigation of conditions showed two reasons for his failure-he fed too much, and the chick feed he used was stale and adulterated.

Our advice to you is feed little, but

often. Analyze carefully that commercial chick feed, and if it does not come up to the line in quality and price then make your own mixture by the

FEATHERS AND EGGSHELLS. Over thirty tons of rotten eggs have been seized in New York since April. Ten tons of these were trailed from Atchison, Kan., to Brooklyn, N. Y., by United States health inspectors. New York is just getting awake to this awful business, and when the country in general awakes to this awful general swindle there will be a law passed that it's as great a crime to sell a man poisoned food to get his money as it

is to poison his food to get his estate. The York (Pa.) Dispatch tells of a child that placed an ostrich egg in her little bantam's nest with this written request: "Something like this, please. Keep on trying." Hungry turkey lovers hold up the 650,000 turkey record of Texas and ask those states that are doing so little for the turkey industry: "Something like this, please. Keep

on trying." There were 2,300,000 bacteria discovered by New York chemists in a gram of rots and spots. A small quantity injected by Philadelphia chemists into a guinea pig killed it in a short time, and a drop of blood taken from this victim's heart and injected into another's veins killed it quick. Yet persons or things that call themselves human beings sell such poison to get

gain. May their tribe decease. During farmers' week at State College, Pa., a regular poultry show is held. Live fowls are not only exhibited, but dressed poultry and eggs are also shown and demonstrations given in killing, picking and packing poultry

for market. The rotten egg dealers of Pennsylvania declare that under the act of 1909 they are being oppressed. Some have even been sent to jail for selling A No. 1 rots. They have established a lobby at Harrisburg and are trying to prove the law unconstitutional.

O legislator, hold thy snoot
When they their lie shall tell!
Thy snoot horn will get busted up
If it should catch that smell.
If they should sample eggs display
Tread softly, hold thy breath;

A gentle breeze, a little sneeze-Explosion, ruin, death!

Pennsylvania's poultry population increased 2,000,000 in 1910, and its fowl population is now estimated at 12,000,000. This is an excellent showing, especially when you consider the fact that Pennsylvania preachers hold the world's record for making chanticleer disappear.

On Nov. 21 Dr. Wiley, the governafter operation. Soft mash for hash. ment's food expert, sent out the following proclamation: "Eat thy fill on Thanksgiving day and forget Wiley and the microbe, but do not eat cold storage turkey." Spoiled storage turkey surely is a curse, but if Doc Wiley's foes make him eat crow he'll find it worse.

This country has over 5,000,000 farms, and last October there were only 6,500,000 turkeys maturing on all this territory. Six hundred and fifty thousand of these were raised in Tex-

as, the great and only.

Doing Chores.

There is no time in the year when there is cessation from toil on a farm. It is different in winter; that is all. The days are shorter, the work rougher. Of course much depends upon the character of the farm. Considerable leisure is possible where few cattle are kept and general trucking done. But always there are the "chores." A remarkably elastic expressios that-"doing chores." It may mean much or little. Some dairy farmers, for instance, whose serious business in life is milking cows, may potter around the farm after the morning's milking and, taking the morning's milk to the creamery or railroad sta- vent injury to the sole or sensitive tion, eat their noon dinners, mend some fence, look over the harness or haul out manure, potter around some more and then say, "Guess it's about time to do the chores," meaning to milk two dozen cows or so-the real hard work of the day.—Philadelphia Press.

Believed Them Truo Stories. When Dante published his "Inferno" the simplicity of the age accepted it as a true narrative of his descent into

When the "Utopia" of Sir Thomas Moore was first published it occasioned a pleasant mistake. This political romance represents a perfect but visionary republic in an island supposed to have been newly discovered in America. "As this was the age of discovery," says Granger, "the learned Budaeus and others took it for a genuine history and considered it as highly expedient that missionaries should be sent thither in order to convert so wise a nation to Christianity."

It was a long while after publication that many readers were convinced that Gulliver's travels were fictitious.

Sheep Easy to Handle.

Sheep cost the least to keep of any other farm live stock, do the most toward keeping the farm clear of foul weeds, tax the soil least that feeds them and improves it the most. Sheep are better contented when kept in confinement than other stock, are easily handled and are the most desirable animals for providing a good quality of meat for the warm months, and the money that results comes the easiest of any that finds its way to the farmer's pocketbook. Ten sheep can be kept where one cow can, and the risk is much less. It may be said that the sheep always carries her pocketbook with her. If she dies her pelt of fleece pays her funeral expenses. If she lives her wool in the spring and her lambs in the fall will pay double revenue.

Care of Hogs.

Don't make the mistake of allowing the young boars to run with the gilts until they are three or four months

Feed a large variety of food, but avoid sudden changes-that is, do not change the whole ration at any one

To produce the full development of bone the work must be commenced before the animal is born by feeding the dam plentifully with bone produc-

ing foods while she is pregnant. The development of the bone in a pig carries with it the development of the vital organs and a large increase in the amount of lean meat in the car-

Sowing Carrots.

It takes about two pounds to the acre. Cover seed not more than one inch deep and sow in drills ten to twelve inches apart if hand cultivated and twenty-four inches apart if cultivated by horse. The plant is hardy and seed can be sown early, although late varieties for stock are sown in May or early June.

Record to Determine Worth. Don't overstock your dairy in starting and keep a careful record of each individual from the day she takes a place in your herd. Her record will prove whether you keep her or sell her.

FEET OF THE HORSE NEED ATTENTION

Use the Rasp Freely on the Colts at Pasture.

The teeth and the feet of the horse should receive special attention, for without these in a good healthy condition the animal's usefulness is in a large measure destroyed.

Many horses are so vicious or irritable that they will not allow any one to examine their feet, to say nothing of cleaning, trimming or shoeing them. The colt at pasture should have its feet cared for as closely as the ma-

tured animal in order that he may grow to maturity with feet in a healthy condition. The foot of the colt grows so rapidly that the wall will often project far below the sole and cause it to split and form quarter and toe cracks. It is better to use a pair of hoof cutters and rasp and have the feet pared evenly and avoid unbalancing the ani-

Any horse used on the road or street should be shod, but the shoes ought to be changed every five or six weeks and the feet trimmed in order that the natural growth of the wall may be removed. If the shoes are improperly allowed to remain on the feet for two, three or four months and in some cases a year without changing them the wall becomes excessively long and grows over the shoe. Pressure becomes too great on the sole and bars, resulting in corns, bruised soles and lameness.

A hoof hook should be included among the equipment of a well regulated stable. The feet of the horse should be cleaned every morning before he leaves the stable. The hoof hook will remove all litter, pebbles or anything that may have become lodged in the foot. This precaution may prestructures of the foot.

Better Silage For Sheep.

At the Minnesota experiment station it is believed that greater care must be had in preparing silage for sheep than for cattle. Sheep require a sweet and dry silage. Thickly planted corn cut before it is well matured does not make ideal silage for sheep.

Corn planted about like field corn, harvested and put into the silo when it begins to dent has proved very healthful to sheep and they have done well on it. If clover hay is fed in conjunction with this silage cheap and satisfactory gains may be made in sheep fattening.

Growing Table Beets. Table beefs prefer a good, friable soil son?

that is well drained. Light soil produces early crops, although a clay ton Herald. loam will produce larger yields. Where possible plow the land in the fall. Beets are hardy and can be sown as early as the land can be worked.

HUMOR OF THE DAY

The Biter Bit.

Who thinks to take another in

Is oft in his turn taken in.

Two townsmen and a countryman on a pilgrimage to Mecca agreed to share provisions till they should reach Mecea. But the victuals ran short, so they had nothing left but a little flour, enough to make a loaf. And the townsmen, seeing that, said one to the other: "We have but little food, and our companion eats much. How shall we bring about that he shall eat none of the bread and that we alone eat it?" And they took this counsel-they would make the loaf and while it was baking should all go to sleep and whoever dreamed the most marvelous thing in that time should alone eat the bread. This they did, thinking to betray the simple rustic, and they made the loaf and put it in to bake and then lay down to sleep. But the rustic saw through their treachery and when the companions were sleeping took the half baked bread, eat it and turned to sleep. Then one of the townsmen awoke as one dreaming and afraid and called to his companion, and the other

said, "What hast thou?" "I saw a marvelous vision! Methought two angels opened the gates of heaven and bore me before the face

And his companion said: "Marvelous is that vision. But I dreamed that two angels seized me and, cleaving

the earth, bore me to hell." The rustic heard all this and pretended to sleep, but the others called out to him to awake, and he discreetly, as one amazed, replied, "Who are ye that

are calling me?" They replied, "We are thy compan-

And he said, "Have ye returned?" And they said, "Whence wouldst

thou have us return?" And the rustic said, "But now methought I saw two angels take the one of you to heaven and then two other angels took the other to hell, and, seeing this and thinking you would neither return, I got up and ate the loaf."-From the Spanish.

A Sad Case. "She must have been delighted when her husband, whom she thought was killed in the railway wreck, showed

up safe and well.' "I don't know about that."

"You certainly cannot doubt it." "I only know she cried when she countermanded the order for the auto that she had planned to buy with his insurance money."-Houston Post.

Gold and the Female Heart. "It was Gray, wasn't it, who asked, What female heart can gold de-

"I don't know. Maybe it was. But I can tell him any female can despise gold if it is necessary to do so in order to get a title."-Chicago Record-Herald.

Made In Syria. Seeing a man who had a blow on the head about to bind it up with salt and caraway seeds, his physician said to him, "Art thou going to send down thine head to the oven to be baked?"-Book of Laughable Stories From the Syrian.

A Startling Fact. At a recent school examination a

youthful scholar wrote this on his "Abraham Lincoln was born in Kentucky in 1492 at the age of seven

years."-Harper's Weekly. Queer. Professor Beeswax - On your trip

abroad did you see any wonderful old

Emmitsburg.

James McGrath died early Sunday morning at his home on Gettysburg St. Death was due to pneumonia. He is survived by his widow, who was Miss Nussear, one son in Philadelphia, four daughters, Mrs. Roddy, of Baltimore; Mrs. Zurgable and Mrs. Clarence Mc-Carron, of this place, and Miss Lulu, at home. His funeral took place Tuesday morning from St. Joseph's Catholic church of which he was a consistant

Fire of unknown origin, Monday night totally destroyed the broom factory with all its contents; a sewing machine costing \$1000, several hundred brooms broomcorn and handles. The building was a frame structure and a high wind blowing it had gained such headway was impossible to save anything. The strenuous efforts of the Vigilant Hose Co., saved the adjoining buildings. The loss is estimated between \$4000. and It was partially insured.

On Tuesday evening the ladies of the Presbyterian church held a chicken supper at the home of William Morrison. Everything was served bountifully and

in the finest style. Charles Kritzer and family have moved to Hagerstown; also R. S. Knode

Percy Helman and wife have returned to Cumberland, after spending a week with J. A. Helman. Miss Lulu McGrath was unfortunate

in breaking her arm, last Sunday.

-0-0-0-When you have rheumatism in your foot or instep apply Chamberlain's Liniment and you will get quick relief. It costs but a quarter. Why suffer? For the late James Eckenrode, beside the sale by all dealers.

Uniontown.

Mrs. Lanie Shaw has moved to the home of her son, Will Shaw. Mr. Brothers who had been on the farm with him has gone to Kurtz Warner's.

Mrs. Susan Caylor, and son, Charles,
moves to their former home in "Possum
Hollow." Theodore Haines moves to a follow.' Theodore Haines moves to a farm near Springdale, Mrs. Fannie Haines bought his property. Lewis Waltz bought the home tenanted by Mrs. Haines. David Bloom, Charles Fritz and families move to the home vacated by L. Waltz, on the farm rented by Spader Devilbiss. Hugh Hiltabridle by Snader Devilbiss. Hugh Hiltabridle

goes in the house they leave.

Mrs. Marietta Trayer is home from her winter's visit with her niece, Mrs. Rose Christ Griest, at Atlantic City.

Miss Beryl Erb, one of our teachers,
has been on the sick list this week. Rev.

Hill has been kind enough to do substituting for her. Snader Devilbis is visiting his son,

Paul, a telegrapher at Connelsville, Pa. Mrs. Harlin Menizer, of Blue Ridge ammit, has been visiting her parents, Mr. and Mrs. Theodore Eckard. George Lambert, our up-to-date shoe-

maker, who has for a long time occupied the room formerly owned by the late H. H. Brough, moved, on Wednesday, to the shop vacated by Arthur Crumbacker, who moved his family to Balti-more, on Monday. We hope Mr. Lam-bert's friends will have no trouble in locating his business place, but his warm stove generally attracts.

Miss Lou Eckard is improving some; can be up at times.

Invitations are out for the wedding of Miss Mary, daughter of Rev. G. W. Baughman, and Harry B. Fogle, on Wednesday, April 12, at noon, in the Lutheran church here.

Solomon Myers and Ezra Caylor are getting their business place in shape, to start up the meat trade, in the future. George Slonaker, on Wednesday, put up a monument in the new cemetery, marking the resting place of the late

Theodore Adams. Friends of Miss Clay Mering, of Clear Ridge, were very sorry to know of her misfortune in breaking her arm, and hope she will not be shut in very long, as she is much missed.

Detour.

Linwood.

We have had all kinds of weather since our last writing; rain, snow, hail, sleet, and then rain again with very high winds, a real hurricane at times. Winter and spring are certainly having a battle

Quite a few farmers and others bave exchanged places the past week: Jos. Bowers moved from Mrs. E. L. Shriner's to Mrs. Sallie Engleman's farm, and Robt. Etzler moved to Mrs. Shriner's. John Koontz moved from the farm of Mrs. Thomas Haines. Mrs. Haines, with Mrs. Trayer, will occupy part of her house with her niece and nephew, Thurston Cronise, who have moved in to take charge of the farm. John Koontz moved from Mrs. Haines' to the farm he purchased of Mrs. Crawmer, near Waltz's mill. Walter Black moved from the tenant house on Mrs. Shrippy's place. the tenant house on Mrs. Shriner's place to Wm. Zepp's, near Pipe Creek church,

Black.

Miss Lotta G. Englar returned from Hagerstown, on Monday evening, after a visit of three weeks with her sister, Mrs. O. A. Gilbert, accompanied by her. niece, little Miss Ruth.

We were shocked to learn of the funeral of our neighbor, John Yingling, on last Sunday afternoon, not knowing he had had the fatal stroke that ended in death. The funeral cortege was on the way to the church before we were apprised of the fact, too late to pay our pprised of the fact, too late to pay our espects. Our sympathy is with the Hibberd and Helen Ecker.
The L. H. Dielman Co., are putting in

Mrs. Myra Albaugh, who has been ill with la grippe, is much improved, also Mrs. Jesse Smith.

week, assisting her aunt, Mrs. Jasper Englar, to move from M. O. Myers' farm to Wakefield. Mr. Myers' son, Raymond, moves on the farm vacated by Mr. Englar. Raymond has the dis-tinction of tilling the soil that his greatgreat-grandfather did in the seventeen hundreds. It has been known as the Snader farm for over 125 years. Jacob Snader, Sr., purchased the land some time in the 1700's. His son, Philip, inherited it, then Philip's son, E. T. Snader, then his son in law, the present owner. Adjoining this farm is the Capt. Naill mill property, owned at this time by John Drach, who resides on it. It was built some time in 1700 by Mr. Drach's great-grandfather, and the mill work was done by the above Jacob Snader when he was a young man, he having come from Lancaster county, Pa., to do the work, and fell in love with that locality and purchased the land. I did not mean to write a history have the land. history, but this all came about by the changes taking place.

E. Mac Rouzer spent several days in Linwood, attending to his uncle Joe Englar's business, Mr. Englar having been confined to the house with a severe

Grandmother Hesson still continues

Blue Ridge College

The music department of the college will give a concert, on Saturday, April 8th., at 8 p. m. This concert will consist of the sacred cantata, "The King Triumphant," together with solos, etc., for voice and piano; also several numbers by the Glee Club. There will be a

charge of 20¢ for admission.

The Brethren Educational Committee, consisting of Elders L. F. Holsinger and A. G. Crosswhite, of Rossville, and Flora, Indiana, respectively, inspected

our school this week. All of our folks, except Robert Smith, who were reported sick, are out again.

Mr. Smith is suffering with fever. Dr. E. O. Taylor, of Boston, Mass., will lecture here on Friday, March 31st, and Sunday, April 2nd, at 8 p. m. The lecture will be illustrated. Gunpowder will be exploded in liquor and he will have a pint of beer on fire for ten minutes, and other chemical experi-ments that will explain the liquor question from the scientific side. All are

cordially welcome. H. G. Baker, assistant manager of the base ball club, made a flying trip to Baltimore, on Tuesday, to purchase some base ball goods.

M. D. Anthony and H. H. R. Brechbill spent a few days at their homes,

Copperville.

George Benner, who has been quite ill has made a change for the better, and s on the road to recovery. Harrison Overholtzer is suffering a evere attack of pneumonia.

Mrs. Annie Warehime, of Baltimore, spent a few days with her mother and other friends here. The writer spent an evening with her at the home of her mother, and enjoyed a repast with cider three years old and of delicious flavor.

Mr. and Mrs. Appleby, of near Union-ville, spent a short time with friends here. Mrs. George Biddinger spent some time with friends near Westminster,

Leslie Creager, of Baltimore, visited friends here, this week. Mrs. Ellen Grinder, of Creagerstown, has returned home, after spending some time with friends here.

Miss Lucy Anders spent several days with relatives in Taneytown.
Russel Eichelberger visited friends here, on Sunday.

Bridesmaids Gowns.

It is customary for a bride to select the style and material of the bridesmaids' dresses, and if the girls are not well enough off to have many dresses she should assuredly be careful to choose styles that are not too pronounced, so that the dresses may be worn on other occasions. Complaints about this are not infrequent from girls who have acted as brides maids when they were obliged to buy dresses they could never use again on account of the combination of colors or the exaggerated mode fancied at the moment by the bride.

Lost Meanings. "Those who care for the beginnings of things may be glad that the quill wise when they leave no portraits of pen survives to remind us that the original pen was plucked from a bird," observes a writer. "Germans and observes a writer. getting that, thanks to their respecbe. Paper is no longer made of papyrus; a pencil is not a little tail 'penicillus,' like a camel's hair brush; the 'lead' of a lead pencil is not lead, and the 'india rubber' with which we erase its marks does not and never did come from India. Even of parchment there is probably not a fragment in the country, except, perhaps, in a museum and coming from Pergamum, in Asia."-Chicago News.

Life In the Icy Arctic.

In the morning I was generally the one to waken first and would either start the alcohol lamp myself or call Astrup for that purpose. Our morning meal consisted of a lump of pemmican, six biscuits, two ounces of butter and two cups of tea each. As soon as this was finished everything was repacked on the sledge. I then read the that figures were obtainable for 103: odometer, aneroid and thermometer and, taking the guidon, which had fifty-eight above and twenty-nine bewaved and fluttered over the kitchen throughout our hours of rest, from its place, stepped forward and the next march was commenced. After from four to six hours of marching we would halt for half an hour to eat our simple lunch of pemmican and give the dogs a rest and then after four to six hours of traveling halt again and repeat the already described route.-Robert E. Peary, "The Great White Journey."

Got Rid of the Scum.

She was a city bride who had never before taken a hand in housekeeping and Caesar were small men. and knew but little about things in the kitchen. A few mornings ago she got after the milkman.

"What's the matter with your milk?" she said, with great vehemence. "I don't know," he replied. "What do

you find wrong with it?" is covered with a nasty yellow scum." nor its breath and could be happy scum?"

"Why, I skim it off, of course, and throw it in the garbage can."-Farmers' Guide.

Profit by last year's experience, feed

Historio Beauties. The famous beauties of the world are

Frenchmen are in no danger of for- villainess, but she was dowered with such charm that there was not a jailer tive words 'feder' and 'plume,' but the or an enemy she could not charm when English 'pen' suggests a feather only she tried. No, nor a woman—not even when one chooses to think about it the wives of her lovers. Men came all our writing materials are no longer what etymologically they profess to away, after a little glimpse saving and recall the Latin 'penna.' Almost from every country, taking year long away, after a little glimpse, saying they had "seen loveliness itself." Then one sees her portraits. Too much forehead, not enough eyebrow, a straight nose and expressive mouth (in one picture a lovely mouth)-and that is all. Mary, queen of Scots, was very lovely -three kingdoms battled because of her beauty-and yet her pictures leave one cold. Fouche said her portrait showed every trait of the lowest criminal type. That was before he knew whose picture he criticised.-London

> Great Men Tall and Short. A recent investigator has attempted to show that Lombroso and his followers were wrong in asserting that men of genius were of small stature. Of 230 individuals of eminence he found

of these sixteen were of middle height, Americans particularly combined greatness with inches. Jefferson and Jackson were more than six feet tall. Sumner was six feet four inches, and Washington, Lincoln and Beecher were more than six feet. Among famous foreigners Tolstoy was a large man, and so were Thackeray, Bismarck and

Darwin. On the contrary, many of the world's greatest geniuses were undersized and even deformed. Napoleon, Poe, Pope, Alexander the Great, Nelson, Blake

After all is said, genius is no respecter of rules.-New York American.

Sacrificing the Woman.

That Carlyle could contemplate with equanimity being unpraised, unmoneyed and neglected all his life, that he "Well," she said, "every morning it required neither the world's pudding "And what do you do with the without them, was pardonable and perhaps commendable. That he should expect another person to share this unmoneyed, puddingless and rather forlorn condition was scarcely consistent with such lofty principles. Men may sacrifice themselves, if they please, to imagined high duties and ambitions, Chick-o-la, only at REINDOLLAR BROS. but they have no right to marry wives 3-24-2t and sacrifice them.-Exchange.

ODD STUNTS WITH A WHIP.

Wonderful Feats by a European Master of the Lash.

"I saw a downright novelty on the bill of a European music hall," said a man who spends a bit of his time on the other side. "It was furnished by an Austro-Hungarian, who accomplish-

ed some wonderful things with a whip. "One of his stunts was to take a long lashed, stout handled whip in each hand and, with orchestral accompaniment, proceed to crack or snap them at a terrific rate. The sound made by his whips in this manner is graduated from a noise like a rifle report to the soft click of a billiard ball. It makes a curious sort of music and serves to show how he can regulate the force of each stroke.

"Another feature of his performance is achieved with a vicious looking whip with an abnormally long lash. It is provided with a heavy handle of medium length. This is his favorite toy, and what he can do with it is really wonderful. He first gives an idea of what fearful force may lie in a whiplash in the hands of an expert. There is a large frame shown, over which is stretched a calf or sheep skin. This is marked with dots of red paint. The man with the whip steps up and, swinging the lash round his head, lets fly at the calfskin. With out of the leather, leaving a clean cut angles to one another, is a musical hole. These pieces are distributed novelty. among the audience to show that there

is no trickery about the performance. three shelves. On these there are a dozen or more of medium sized apples lying very close together and provided an organized band of Jerusalem menaudience may designate which apple he wishes struck, and the unerring lash snatches it out like a flash. A Richter, believes that he has discovstill more difficult feat is the snapping ered the original Mount Olympus on of coins from a narrow necked bottle. the island of Cyprus. A piece of silver about the size of a half crown is put over the cork of the bottle, which stands on the edge of a table. The whip artist, without appearing to take any sort of aim, sends the long lash whizzing through the air and picks off the coin without jarring the bottle, much less breaking it."-New York Press.

OUT OF THE POORHOUSE.

A Pathetic Incident of Life In an English Village.

"Opposite my home," writes a correspondent of the Westminster Gazette from an English village, "are two cottages which for some time stood empty. A few weeks ago two old people from whom the pauper disqualification had been removed came slowly up the long hill and with trembling fingers unlocked the door and entered. A piece of paper very soon appeared to act as a screen across the window. We saw very little of the old people, but there were signs of what was happening inside. Before long a little white curtain replaced the paper. After dark no light appeared in the cottage. It takes time to furnish with an old age pension. One night as I drew down my blind a gleam of light caught my attention from over the way, and the picture 1 saw will remain with me for long. There in the middle of the room was a lighted lamp, and the two old people, with clasped hands, stood gazing up at it in silent delight. They must have had more creature comforts in the workhouse, but there was no pride of possession there and they could not be together either. But the pathos of it -beginning life at seventy!"

Odd Test of Naval Vessel.

It is not often that a deliberate attempt is made to break a ship in two, but that is what the British admiralty department did when it suspended the torpedo boat destroyer Wolf by the middle without support at the ends and then at the ends without support in the middle in order to discover whether the boat was so weak that it would break amidships because of the unevenly distributed support of heavy waves at sea. The Wolf stood the strain not only of this but of subsequent tests. The experiments were made because it had been charged that the boats of this class were structurally weak.

A Veteran Tenor.

"He was a star of first magnitude in 1866," says a writer in the Frankfurter Zeitung, referring to Albert Niemann, who celebrated his eightieth birthday recently. "For many years he sang the heroic tenor parts in grand opera on the most important stages of the world and had the wisdom to retire in 1889, while still in the fullness of his powers. The veteran stage hero is stout and wears his snow white beard much as he did the blond one as Faust in the memorable performances when Pauline Lucca was the Marguerite."

Rugs and Gowns to Match. There is a woman at one of the hotels near Fifth avenue who has her own furniture in her rooms. In her possession are six fine oriental rugs, each of a different shade. She entertains a great deal, and on each occasion she has a rug put down that will harmonize with the coloring of her frock. There is said to be no shade that will not harmonize with the color of one or other of the rugs.-New York Sun.

Rusty Steel.

A good method for removing rust from steel is first to rub the object with sweet oil and then after a day or two to rub it with finely powdered unslaked lime until the rust disappears. Then give it another coating of oil with a woolen cloth and put it in a dry place.

Acid etching was first done in 1512. Moscow has 20,000 cabs and St. Petersburg probably the same number.

many kinds are imported into the United States to the value of about \$2.000,000 per annum. During the first four months of its

existence the Turkish parliament failed to legislate a single law in connection with any public measure. In one plague stricken town of China over 6,000 corpses have been or are being cremated, and the deaths have

been occurring at the rate of 150 per Turin's international exposition will be opened April 29 by the king and queen of Italy in the presence of other members of the royal family and the

government. The island of Margarita, off the north coast of and belonging to Venezuela, has a population of 60,000, who subsist principally by its pearl and other fisheries.

British exhibitors at the Argentine exposition held in Buenos Aires received an excellent return for their trouble, placing orders aggregating no less than \$14,599,000.

There are now fewer than 200 women in the prisons of Holland, according to Dr. Simon von der As, who for fifty years has been the chief of administration of prisons in that country. Thousands of oil palm trees in Por-

tuguese Guinea are said to be dropping their nuts annually. As there is nobody to take them away they decay, and thus valuable produce is lost. In the foothills of Mount Tacana, a

Guatemalan volcano, there is an almost inexhaustible supply of sulphur in huge blocks, which is taken out from time to time by Indians, but has not yet been exploited.

Foreigners now have the same right to own real estate on the same terms as natives of the country in any part of the Ottoman empire except in the Hedjaz, a district in Arabia containing the sacred cities of Islam.

One out of every twelve men in the United States army was brought before a court martial for some offense last year. Last year there were 5,206 trials by court martial in the army as against 5.580 the previous year.

The demand for automobiles in Great Britain is constantly on the increase, and, while the area of Great Britain is comparatively small, the number of motor cars in use is proportionately greater than in nay other part of the world.

The last great organized crusade for the prevention of disease in England prior to the present war against rats was in 1896-7, when, in order to stamp out hydrophobia, more than 70,000 stray, diseased and ownerless dogs were seized and painlessly put to death.

The project for the canalization of the bar at the entrance of Lake Maracaibo, so as to permit the entrance of vessels up to twenty feet draft, is receiving considerable attention from the Venezuelan authorities. At present ships drawing over twelve feet cannot safely enter the lake.

Haladjian Effendi, Turkey's minister of public works, declares that he is planning a national system of over 20,000 miles of the best highways, a great extension of railroads, irrigation and drainage works, river and harbor improvements, etc. Many thousands of miles of provincial roads will also be built, connecting the railroads and national pikes in a complete transport system.

Princess Victoria Louise of Germany bids fair to be quite independent of the kaiser's rules. Even at her early age she is said to take issue with her imperial father's edict that the three k's, kirche, kinder, kuche, should be the limitations of woman's activities, and she has taken the liberty of protesting against the kaiser's anti-woman suffrage utterances. Recently the young princess visited a club of working girls and expressed herself as anxious to aid them.

TALK THAT TALKS.

If you would now be erudite And stand in with the gang
You must get busy with the dope
And sling the classy slang.
It's got us going, and then some,
It's got our talk for fair.

Without it you are to the bad
And won't get anywhere.
Your girl's a little bear or skirt

Your girl's a little bear or skirt
Or kiddo—oh, you kid!
To be polite you show a front.
Your Kelly's now a lid.
Your friends are to the good or straight

Your friends are to the good or straight
Or on the Fritz—among
The dippy in the foolish box
Or in some manner stung.
You once were wont to walk and run
Or eke perhaps pursue.
You beat it now or chase yourself
Or ramble or skiddoo.
There was a time with your wife's friends
You went and took a drink.
You gargle now or lap highballs

You went and took a drink.

You gargle now or lap highballs
With some booze fighting gink.
Believe me, it is true, get wise,
And cinch it all by rote.

For if you don't it's nix for yours will get your goat.
-Powell T. Manning in Puck.

Punctured.

He had been boasting proudly about the quality of his machine, and pretty nearly everybody within earshot had grown excessively weary.

"For speed it's a dandy," he concluded. "but it costs like the dickens to keep it in repair."

"Well," said a stranger who had come into the smoker a trifle late to hear the beginning of the talk, "perhaps you haven't got the best. Now, I've got a machine that's a corker for speed, too, and I don't believe I've spent more than-well, not more than 85 cents in repairs in two years."

"Eighty-five cents!" cried the boastful one. "Nonsense! Why, the mere idea of speed alone involves a greater wear and tear, to say nothing of breakages, than that. Maybe our ideas of speed differ," he added condescendingly. "Just how high can you run?" "Three hundred words a minute,"

said the stranger. "Words?" demanded the boastful one scornfully. "Why, yes," said the stranger. "You

OUR HOME DEPARTMENT. Original and Selected Articles of Interest to the Home.

We invite contributions to this department from all readers who have something to say on topics which relate especially to home improvement, social conditions, or moral issues. While we disclaim all indorsement of sentiments which may be expressed by contributors, and desire to be as liberal as possible, we at the same time request all to avoid personalities, and stick to proper expressions of opinion.

All articles for this department must be in our office not later than Monday morning, of each week, to be guaranteed insertion the same week, and all articles must be signed with the name of the author, even when a nom de plume is given.

A HOLY DAY.

(For the RECORD.) In your editorial on "Sabbath Observance" in a late issue, you said truly that "the violation of law is wrong." Starting out with this proposition, one can hardly do better, on this particular subject, than to go back to the foundation of all law-the decalog, where we find that the keynote of right Sabbath observance, is Holiness. The commandment begins and ends with this thought. "Remember the Sabbath day to keep it holy." * * * "The Lord blessed the Sabbath day and hallowed it."

Are we keeping the day holy when we spend its hours travelling on Sunday trains, driving or touring for pleasure, reading Sunday newspapers, or the latest popular book, making it a day for amusements, visiting or feasting our fifty cents, it is a good time to purchase. friends, paying all our correspondence purchased the day before?

THE CARROLL RECORD and become fixed, continue their growth, reach the adult condition, and are ready to reproduce in a little more than a month. This short period enables it to mature several broods, and during the entire summer, and until late fall, reproduction continues, the broods becoming mixed, and all stages being present continuously upon the plants soon after summer opens.

The scale infests all the usual decidious fruit-trees, roses, currants, gooseberries-in fact the entire order Rosaceæ, and occasionally occur on chestnut, walnut and elm.

On decidious trees, where the trees become dormant, the scales are best treated during the dormant period.

At that time there is no foliage to interfere, and much stronger washes can be used than would be safe during the summer, or when the tree is active.

It is difficult to penetrate insect tissues with ordinary liquids, and good results in the destruction of scale insects can be obtained only by the use of caustics.

The lime sulphur solutions have proven entirely successful in checking the scale on apple, etc. The concentrated lime sulphur solution should not be used weaker than one gallon of the solution to nine gallons of water. In case of bad infestation a greater strength may be used. Goods results have also been obtained by spraying with miscible oils.

All remedies failed till I used Electic Bitters, but four bottles of this wonder-

Paper Plaster and How to Use It.

"Paper plaster is one of the most useful and durable mediums for decoration," says Woman's Home Companion for March. "It may be used on small or large surfaces, and even in unskilled hands charming results may be produced

"Take old newspapers and tear them into very small pieces. Put a mass of them in a tub of water and allow them to soak overnight. In the morning put the whole mass through the meat chopper. Wet it again so as to make it pliable like plaster. Practise modeling the paper into different shapes while it is in this state, but remember, of course, that it will not be permanently cohesive. After you have learned to handle the pulp mix it with a little glue. It will remain soft for some days and can be molded without haste, but as time goes on, the molded plaster will become hard.

"Old glass bottles may be covered with the plaster and decorated in any way that you may fancy. Well-shaped jars may be decorated with designs of fruit or flowers. When the pulp dries, it takes on an attractive bronzv color without treatment of any sort. Soft brown or green dyes may be worked in with the plaster, however, and produce charm-

"Glove or handkerchief cases may be made from ordinary wooden boxes. For a handkerchief-case, cover a cigar-box with the paper pulp, working in some simple and appropriate design, pinching it and modeling into shape. For this purpose use a narrow paper-knife and make the more delicate touches with the flattened end of an orange stick. Pad and line the inside of the box with silk.

"Very pretty bas-relief effects may be made with the plaster. It may even be used in executing low-relief wall designs for borders or friezes. If you wish a conventional design or figure, cut out as many patterns of the same design as you decorated and mold the pulp over them. Keeping the pulp neatly within the lines will insure accuracy and uniformity. on with a sponge or with a large soft

SUNDAY SCHOOL.

Lesson II .- Second Quarter, For Prayer Meeting Topic For the Week April 9, 1911.

THE INTERNATIONAL SERIES.

Text of the Lesson, II Kings vi, 8-17. Memory Verses, 15-17-Golden Text, Ps. xci, 11-Commentary Prepared by Rev. D. M. Stearns.

The beginning of this lesson chapter, the story of the iron that did swim (verse 6), carries me back full forty years to the days of my schoolteaching in Halifax, N. S., when after telling this story at the opening services I have seen boys stay in at recess to read it again for themselves. We cannot help thinking of Him who is able to restore lost people, or, rather, save them, however far down they may be. The piece of tree which made the iron swim reminds us of the tree which made bitter waters to become sweet (Ex. xv, 25) and of Him who is the tree of life to all who come to Him, making us to be trees of righteousness, the planting of the Lord that He may be glorified (Isa. lxi, 3).

The lesson of today opens to us the realities of the unseen and Elisha's beautiful faith in God and communion with Him. I am fascinated with the title "man of God," so often used of Elisha and of others, suggesting, as it does, one whom God owns for Himself and whose one desire is to live for Him, to please Him and to be His faithful messenger. In chapter iv, 9, it is "an holy man of God," and this is more full of significance, for not all men of God are as willing to be holy as they should be. The world, the flesh and the devil are too much for any of us, but victory is possible (II Cor. ii, 14; I John v, 4; Rev. xii, 11).

The king of Syria did not take into account the God of Israel when he warred against Israel. Not many do even in the twentieth century. Even a great many preachers do not seem to know much about Him and still less about a people called Israel, although God never wrought for any other nation as He has done and will yet do for Israel (II Sam. 7, 23; Ps.

The king of Syria was more than once surprised to find the king of Israel elude him and thought that there must be some traitor in the camp who gave away his plans. When one of his servants reminded him that there was a prophet in Israel who could tell what he said even in his bedchamber (verse 12) he foolishly thought that he could take him captive, not considering that if the prophet could save the king of Israel he could also save himself. Learning that the prophet was in Dothan, he sent thither horses and chariots, a great host, and compassed the city about. And now they had him sure. So they had some reason to think,

leaving out the supernatural. The servant of Elisha seemed to think that the case was hopeless. But how grand the confidence of the prophet, "Fear not, for they that be with us are more than they that be with them" (verse 16). How like Paul's "If God be for us who can be against us?" (Rom. viii, 31) or David's "Though an host should encamp against me, my heart shall not fear

(Ps. xxvii, 3). How blessed and comforting the "fear nots" are from Gen. xv, 1, all the way through this heavenly book! How simple and confident the prayer of Elisha, "Lord, I pray thee, open his eyes that he may see!" swift the answer, and he beheld the mountain full of horses and chariots of fire round about Elisha (verse 17). "The chariots of God are 20,000, many thousands of angels" (Ps. lxviii, 17). John saw more than a hundred millions of angels all worshiping the Lamb (Rev. v, 11, 12). These are some of the unseen realities. May they be real to us also.

As the soldiers came to take him he asked the Lord to smite them with blindness, and He did so. Then he led them to the man whom they really wanted, the king of Israel, and prayed the Lord to open their eyes, and they found themselves in Samaria in his power. The king of Israel would fain have smitten them, but Elisha forbade him and told him to feed them and send them home (verse 22). So the bands of Syria came no more into the land of Israel (verse 23, 1, c.).

Again we have a fulfillment of Deut. xxxii. 30, "How should one chase a thousand and two put ten thousand to flight?" A study of the many different ways in which God at different times has shown His power on behalf of His people would be most inspiring to a believer and possibly helpful to one who does not as

yet know the Lord. Take another instance from the next chapter, when the Lord made the host of the Syrians to hear a noise of chariots and a noise of horses, even the noise of a great host, so that they arose and fled, leaving their tents and horses and asses and everything in their camp and fled for their lives (vii, 67). It is still true that "the angel of the Lord encampeth round about them that fear Him and deliv-

ereth them" (Ps. xxxiv, 7). Sometimes it is more for His glory to let the enemy take us and ill treat us, as in the case of Joseph, Micaiah, Jeremiah, Daniel and his friends Peter and John, Paul and others. The night on which our Lord Jesus gave Himself into the hands of His enemies for our sakes He could have had legions of angels for the asking (Matt. xxvi, 52-54). As a spectacle to angels as well as to men we can sometimes glorify Him most in suffering (Phil. i, 29).

CHRISTIAN ENDEAVOR.

Beginning April 9, 1911. Topic.—Painting the states white.—Ps. xiv, 1-7. (Temperance meeting.) Edited by Rev. Sherman H. Doyle, D. D.

The states need to be painted white. Some of them have been. We give thanks for that. From that we take courage. The good people in some of these commonwealths of ours have seen the terrible evils of the liquor traffic. They have banded themselves together. They have worked a. they have prayed. They have risen up in their might and they have declared, "We will have no more of this accursed thing within our borders." And no black spots are left anywhere within them. What these states have done other states can do and ought to do and, we believe, will do. For what moral right has any state to suffer such a traffic as this? It is a curse and nothing but a curse. It curses man, body, brain and soul. It wrecks thousands upon thousands of homes. It fills our almshouses and asylums, our penitentiaries and our prisons. It inspires to all manner of crime. It is always and everywhere the enemy of everything sacred to God and to man.

Because it is all this, and much more than this, the liquor traffic is doomed. It was never nearer death's door than it is today. It is dying hard, but die it must. Do you smile as you read this? Can you not discern the signs of the times? What else does it mean, this battle which is raging all along the line, this campaign of education? Are not millions of our boys and girls being taught the evil effects of alcohol upon the buman system? Are not ministers preaching against it? Are not societies working against it? Are not thousands upon thousands beseeching God day and night to deliver us from it? What does it all mean that 72 per cent of our agriculturists discriminate against the man who uses liquor and that 79 per cent of our manufacturers, 88 per cent of our tradesmen and 90 per cent of our railroad officials are doing the same thing? We are not shallow optimists. but we firmly believe that the deathknell of the liquor traffic is already sounding. It would have sounded long ago if men, instead of listening to the voices of ignorance and prejudice, of appetite and greed, had listened to the voices of reason and of conscience,

of religion and of God. No one ought to be in any doubt as to where we stand on this liquor question. Where does Christ stand-Christ, the friend of the poor; Christ, the lover of men? Where Christ stands there also stands the true Christian. It is not enough for us to say, "I am opposed to the liquor traffic." In no way. shape or manner ought we to countenance it. We ought to pray against it. We ought to work against it. We ought to use all our influence against

We ought to band ourselves with those who are actively engaged in working for its suppression, help with our money in the fight that they are making and do all in our power to hasten the day of victory.

BIBLE READINGS.

Prov. xx, 1; xxiii, 20, 21, 29-32; Isa. xxviii, 7 and 8; Rom xiv, 13; I Cor. viii, 13; Eph. v, 18.

Some Bible Work.

When our Junior meetings closed for the summer we gave each Junior a booklet made of pink paper and prettily decorated with pictures of flowers birds and children, cut out of postcards and picture cards and pasted on the different pages.

The outside cover bore the name of the Junior, and the first page was inscribed, "Junior C. E. Bible Work For the Summer of 1910," and on the other pages were references given, one for each week, to be memorized during

the summer. These were the references: Matt. vi, 28-30, 33; Ps. lxvii, and the Beatitudes. Each Junior who could recite these verses from memory in the fall was presented with a Junior badge.

They were also given pretty cards with an envelope pasted on the back in which to put their offerings for mis-

sions during the vacation. Both the booklets and the cards were prepared by the Young People's Society of Christian Endeavor and presented to the Juniors.-Anna E. Pierce.

The Field Secretary For Kansas. It has been the dream and the ambition of Kansas for several years to have a field secretary. Now at length this dream has been realized in the appointment of W. I. Jones of Emporia.

who has just begun his labors. Mr. Jones is a graduate of Emporia college. He has been a successful teacher, and in order to accept the call of the Endeavorers of his state he has had to seek release from a school principalship for which he had

contracted for the coming year. The new field secretary is an earnest Christian young man who has attained his present position by dint of hard work. He has been a leading worker in the First Congregational society in his home city, as well as in his city union and district union. Besides, he has regularly attended the state conventions and has taken part in them.

ENDEAVOR'S REWARD.

We dream our dreams And onward press Through toilsome stress, We reach the harbor of success And rest forever.

-John R. Clements.

MYSTERY OF LIGHT

Some Luminosity So Intense the Eyes Cannot See It.

THE RIDDLE OF THE FIREFLY.

So Far It Has Baffled Science, but When It Is Solved, as It Eventually Will Be, We Shall Have Light Without Heat and the Perfect Lamp.

The scientist set down a small black box and impatiently pushed aside the powerful microscope and the delicate bolometer. "It is most discouraging," he muttered, "to have such a treasure before one's eyes and still be unable to grasp it."

I looked in the little box, surprised to find nothing but a few brilliant fireflies. The scientist began to explain.

"In that box is the most efficient illuminant known to man. The radiant output from one of those insects corresponds to nearly fifty watts a can die, while our very best artificial illuminant, the flaming are lamp, gives only two or three watts to the candle. The light from those insects, as recorded by the bolometer, radiates little if any heat, while the very best incandescent lamps waste more than 90 per cent of the electrical energy in useless heat. If I could read this secret of the insect world and make a lamp after its pattern I could produce 384 candle power from the same current that gives sixteen candle power today. Some day the secret will be read."

The source of all light (except the light from fireflies and their kin) is a substance raised to a temperature sufficient to set up waves in the surrounding ether, which, when falling upon the eye, produce the sensation we know as light. Light waves vary in length between one thirty-threethousand-four-hundredth and one sixty-five-thousandth of an inch, the first being extreme red and the second extreme violet. Rays of white light have a length of one forty-five-thousandth of an inch. The sun is a great mass of white hot matter. It is the atmosphere that enables us to see light, and outside of our atmosphere it is absolute darkness, as dark as the interior of Mammoth cave. In an arc lamp it is the white hot particles of carbon floating between the two electrodes that produce light. In the incandescent lamp it is the hairpin filament inside the glass globe that, when heated by electricity, gives off light waves. In gas and oil lamps light is produced by the heated particles of carbon in the flames above the wick or mantle.

The eye can stand without tiring a brilliance of about five candle power to the square inch of surface. The ordinary candle flame gives only two or three candle power to the square inch. while the sun at zenith gives 600,000. The arc light ranks next to sunlight, with 10,000 candle power an inch, and the best tungsten filament incandescents give 1,000 candle power. This means that if the sun could be changed into a ball of tungsten it would throw off only 1,000 candle power of light from every square inch of its surface, when the world would be practically dark and we should freeze

to death in a week. The prism shows that white light is composed of a happy blend of all colors of the spectrum. The sun gives the only pure white light, with the arc lamps a close second and the metal the north on a clear day, is bluish light, open flame yellow light and kero-

sene orange light. By the laws of evolution the human eye has become accustomed to sun light, or sky light, coming obliquely from above, and our eyes resent light coming from any other source. Snow blindness, distress from white sand or water, is the result of violating this The upper eyelid is adapted to shade the eye from a strong light from above. The lower lid cannot perform this office, so when a strong light is reflected up into the eyes it blinds

The X ray has proved beyond doubt that there are light rays which move too fast for human eyes to register. This light penetrates books, wood, paper and even human flesh. With the fluoroscope to assist our eyes we can see the bones in our arm without bothering to remove coat or shirt. But a man with X ray eyes would be sadly handicapped in this world, for he could see nothing but solids, such as earths and metals, and would be unable to see a board fence at all. Beyond doubt there is light so bright that the eyes cannot see it, and to us all is darkness beyond what our eyes

will register. Light rays themselves are invisible. When they move through the ether alone our eyes cannot see them, conse quently all is total darkness. But when they meet with the resistance of our atmosphere, producing heat, they register on the retina and-beheld, we can see! As the atmosphere thins rapidly as we go upward, so in proportion the air resistance diminishes. and consequently the heat of the sun seems to grow less. This explains why the tops of high mountains are

always covered with snow. Many wonderful discoveries have been recorded in the illuminating field of late, and it is safe to say that this branch of science affords one of the greatest fields for research and invention. Each year our artificial illuminants are improved, but they are far from being perfect. Not until the secret of the firefly is read and light is produced without heat will our evening lamps be perfect.-Chicago Record-

"I fell and sprained my arm and was in terrible pain. I could not use my hand or arm without intense suffering until a neighbor told me to use Sloan's Liniment. The Man's Mistake.

Out of loyalty to his own sex the manager of the woman's suit department discharged his young woman stenographer and hired a man. The first batch of letters dictated to the man were written to about a hundred old customers, whom he invited to examine privately a lot of exclusive garments before they were placed on sale. The day after the letters were mailed the women flocked into the store, but the fire that burned in their eyes was the fire of the avenger rather than of the bargain hunter. One word which each woman had underlined in her letter explained their wrath. The garments, so the manager had meant to say, had been designed for women of stock figure, such as they possessed, "My husband always is the severest but the male stenographer had drawn on the alphabet and had written it "stacky."

"No woman on earth would have been guilty of such a mistake," growled the manager.

The next week the girl stenographer ger.

Miss Alice Crapster, of Washington, is visiting in town.

W. Rein Motter has accepted a position as telegraph operator at West York,

Mrs. C. A. Elliot left Saturday, on a visit to her daughter, Mrs. Chas. Smith, of Washington.

Mrs. Mary McCauley, of West Arlington, Baltimore, is spending a few days with friends in town and vicinity.

The Birnie Trust Co., has greatly improved the appearance of their bank, by having laid a rubber tile floor. For some reason, the fare from Balti-

more to Taneytown, by the way of York, Pa., has been increased from \$2.02 to Mrs. H. E. Weant and daughter, who

have spent the most of the winter among relatives, returned to their home here, on Thursday evening.

tive board was laden and bejond the capacity of any one.

Mr. Wantz, received a number of post cards and useful presents. At a late hour the company dispersed very evidently much pleased, but regretful that day, for Philadelphia, where he will

again enter the employ of the Baldwin Locomotive Works. The grain and grass fields are generally looking in poor condition, as though

the drouth of last Fall. W. Halbert Poole, horse dealer, bought a fine pair of black mated horses, this week, from John Boone, of Middleburg, for which he paid \$400.00.

Mrs. May Conover, of Harrisburg, who had been visiting her parents, Mr. and Mrs. Richard Hill, for a few days, returned home on Wedesday.

Mrs. Wm. E. Wheeler was in Baltimore, the first of this week, having been called home on account of the very sudden death of her sister, Mrs. Macke.

A large number of changes in residence have taken place in town and vicinity, this week, and every dwelling in the town is filled, to the best of our knowledge.

A heavy rain, accompanied by wind and large hail, passed over this district, on Monday evening. The farmers say it was "just the thing" to beat down the raised ur grain and grass roots.

Mrs. Mary L. Motter, and daughter, Mrs. Anna Cunningham, of Washington, spent a portion of the week here on a visit. Both are looking extremely well, and it seems quite natural to see them

Homer S. Hill and family removed to

has been clerk at the W. M. Ry. freight station since 1894 and during that time he has not been absent a day from work by reason of illness or otherwise, until this week.— $Waynesboro\ Record.$

The chicken and dog nuisance will commence again, with the beginning of garden making, and it would seem fully justifiable for those who suffer from such depredations to use severely protective measures. No good citizen will permit his live stock to be a nuisance and an injury to his neighbors.

The high price of paint and oil has a deterrent influence on the exterior improvement of properties, but this is usually a case in which delay, does not pay, as the increase in injury to property is too rapid to justify waiting for the mere chance of saving a few dollars in the cost of paint.

Among those who sustained a storm loss to buildings, last Monday evening, were J. Calvin Wilson, living on the Union Bridge road, the damage being to wagon shed doors and lightning rods on the house, and Wm. T. Keefer, who had a damaged wagon shed roof. Both losses were covered by storm in-

During the balloting for U. S. Senator in the New York legislature, this week, Col. Jos. A. Goulden has been receiving six votes. The effort to elect is a long drawn out one, and may yet result in the election of an independent by Republican and insurgent Democratic votes. Col. Goulden would fill the bill splendidly, and may yet prove to be the "dark

The house of Rev. Dr. M. H. Valentine, of Phila., was entered by robbers Tuesday night and some valuables were taken. Some of the stolen articles were not only of a considerable intrinsic value, but were prized as the heirlooms of the family. The house was vacant only about an hour and a half. The return of the maid frightened the thieves before they had finished their work.

man in Adams County, was buried at Gettysburg on Monday. Her weight was desired and brown in the oven or use woman, fifty years of age, and the cause of death was dropsy. It was with difficulty that the casket was taken from brown. With a sharp knife mark in the home of her daughter, Mrs. Nellie quarters. And one child may have a Anderson, without removing a portion whole pie or even two or three of of the door frame. Eight pallbearers them.—Woman's Home Companion. were necessary to carry the coffin.

A Pleasant and Interesting Event.

(For the RECORD.) At the hospitable home of Mr. and Mrs. Lewis D. G. Wantz, near Fountain Valley, a most enjoyable and interesting event took place on the night of Saturday, March 25, it being a birthday surprise party, splendidly and cleverly arranged by Mrs. Wantz and given by her in honor of her husband's birthday, which fell this year on Sunday, March 26. The Pleasant Valley Concert Band, of which Mr. Wantz is a prominent and active member, was specially invited. It was the wish of Mrs. Wantz, and so arranged, to have the band give Mr. Wantz a serenade before entering the event took place on the night of Satur-

Wantz a serenade before entering the house, in order to make the surprise the more complete, if possible; accordingly, the advance portion of the large company of guests gathered at the barn and at the proper time approached the house in a body to the martial music of the band. Happily, the "Old Man" was caught napping, and he afterward said, "In my sleep I heard the drums, and as I realized what was going on and said to myself, 'Well, the Old Man is caught this time.

The hours were pleasantly spent in all manner of indulgences, games, social chat, listening to the excellent selections by the band, also the graphaphone, but best of all, partaking of the many good things with which the fes-

dently much pleased, but regretful that the evening passed so soon, and wishing

Mr. Wantz many more happy birthdays. Those present were: Lewis D. G. Wantz and wife, Edward F. Dickensheets and wife, Theo. J. Myers and wife. David Slonaker and wife, Chas. W. Myers and wife, Upton E. Myers and wife; Mrs. Geo. C. Baust, Mrs. Burnside Hively; Misses Hattie P. Wantz, Luydue to "freezing out," and perhaps to etta M. Wantz, Margaret C. Dickensheets, Helen Shriner, Nettie Myers, Goldie Myers, Pauline Hively, Ethel Hively, Beulah Reese, Margaret Little, Mary Awalt, Maude Study; Messrs. David D. Myers, Edw. P. Zepp, Clarence E. Myers, N. H. Bankard; Scott Slonaker, Truman Dickensheets, Raymond J. Hebr. Lett. Dickensheets, Raymond L. Hahn, John T. Kemper, Levi E. Myers. Oliver Myers, Milton Powell, Raymond N. Myers, Milton Powell, Raymond N. Myers, Samuel Myers, Marshal Crumbacker, Clarence G. Myers, Wilmer A. Myers, Horace Koontz, Oliver Eckard, Oscar McGee, Norman S. Myers, Sterling Hively, Archie Myers, Paul Myers, Chas. Holwig, Mastars Wilhyr P. Wantz Lloyd Helwig; Masters Wilbur P. Wantz, Lloyd D. Wantz, Thurland R. Myers, David E

A Pleasant Surprise Party.

(For the RECORD.) A very pleasant surprise party was held at the home of Noah W. Miller's, near Uniontown, on Saturday evening, March 25, in honor of Mrs. Miller's 50th. birthday. Mrs. Miller was away from home all day, and on coming home in the evening about 8 o'clock, was surprised to find a host of her many friends awaiting her arrival.

The evening was spent in vocal and instrumental music, games and sociable chat, until a late hour, when all were invited to the dining-room, to partake of the many kinds of refreshments. The table was decorated with candles, in the nation's colors, which were lighted by Mr. and Mrs. Miller. Handsome postcards, (60 in number) handkerchiefs and other useful presents, were received by Mrs Miller, who wishes to thank all for their kindness. After wishing her many more happy birthdays, all returned to their homes.

Those present were, Noah W. Miller and wife, James Robertson and wife, Charles Bankard and wife, Dr. J. F. Englar and wife, Samuel Harris and wife, Jacob Wantz and wife, Henry wife, Jacob Wantz and wife, Henry Wantz and wife, Harry Weller and wife, Samuel O. Miller and wife, Frank Bell and wife, John Strevig and wife, Aaron Miller and wife, J. Roy Durbin and wife; Mrs. Edward Shaffer, Mrs. Jesse Snyder, Mrs. David Myers, Mrs. Lizzie Yingling, Mrs. Appie Brown: Misses Irane, Fitez Mrs. Annie Brown; Misses Irene Fitez, Ruth Young, Irene Bankard, Luttie and Ruth Miller, Belle Morningstar, Annie and Margaret Miller, May and Grace Maus, Lillie, Mary and Ruth Strevig, Ruth Harris, Romaine Young; Messrs Walter Wantz, George Humbert, Reuben Morningstar, Walter Little, Maurice Bankard, Carl Brown, Elmer Wantz, David Miller, Snyder Wantz, Walter Flickinger, Carroll Myers, Gerald Bailey

and Walter Yingling.
