## **BRIEF NEWS NOTES** OF GENERAL INTEREST.

Gleaned from the County and State and our Exchanges.

The Baltimore *Daily Bulletin* is said to be in the process of formation. It will be Democratic, and a supporter of the present city administration

---The annual reumon of the teachers,

students, and friends of Blue Ridge College, will be held at Pen-Mar, Tuesday. July 30. Program in the auditorium at 2 o'clock. On last Sunday, the heaviest rain fell,

inches in three-quarters of an hour, or 2.8 inches in two hours. The rain was largely local, and there was no storm.

ever experienced in Washington-21

---The State Road Commission has decided to oil the new state roads; not so much to keep down the dust as to pre-serve the roads. The oil holds the sur-face in place; keeps it from being torn up and blown, or washed, away.

---Frederick city and adjoining section sustained a heavy rain and wind storm, thunder and lightning. About 600 tele-phones were put out of commission, and

was very great. The storm was very severe at Woodsboro and Walkersville. Senator Lorimer was ejected from the U. S. Senate, last Saturday, the vote being 55 to 28, as follows: Democrats against Lorimer 30, Republicans 25; for Lorimer, Democrats 8, Republicans 20. Senator Smith, of Maryland, voted for Lorimer, while Rayner voted against. Bailey and Tillman, prominent Demo-crate, voted for him.

crats, voted for him

-+0+ Chas. H. Boyer, of Chicago, Manager of the Casualty Department of the National Life Insurance Company of American ica has donated \$5000 to the new endowment fund of Gettvsburg College in honor of his father, Rev. M. G. Boyer, D. D., who has just retired from the Board of Trustees of the College after a long and faithful term of service. Under the very efficient leadership of Professor C. F. Sanders the Gettysburg Summer School is proving a great success both as to

---President Taft has decided not to make will leave the stump oratory entirely to Colonel Roosevelt. He does not believe According to the President's program, he will make one or two important speeches in the campaign. He may make half a dozen shorter ones to delegations that will visit him at Beverly. In these he will discuss the issues and will, if occasion arises, make a reply to any attacks upon him or his administration by Colonel Roosevelt or Governor Wilson.

The Senate on Tuesday passed without discuss on the "terror battleship" resolution by Senator Tillman, proposing that the United States build the greatest warship possible under modern naval conditions, to put an end to the "race for naval supremacy." Mr. Tillman's resoluval supremacy." Mr. Tillman's resolu-lution directs the Committee on Naval Affairs to determine how far shipbuilders and armorers can go to build "the very best battleship or cruiser the world has ever seen or will ever see," and proposes to name the new ship the "Terror" and make her the "peacemaker of the world.

The numerous railroad wrecks of the past month, which resulted in such loss of life and property, were all preventable, and happened in every case because some employe failed to do his duty in the manner set down in the regulations. It is hardly fair to hold the high officials of these corporations culpable for the care-lessness of employes, but nevertheless something ought to be done to bring about a closer observation of rules and regula-tions. If the officials are guilty of anything it is a tendency to go on the assumption that once issued, rules automatically enforce themselves.

--Yonkers, N. Y., has a minister who says man's duty to his chickens is more important than his duty to his church. He is the Rev. William Ewart Mounteney, pastor of Morsemore Baptist Church. He put the chickens ahead of the church in addressing the Yonkers auxiliary to West Chester Fanciers' Club. think that by interesting my fellowmen in chickens," he said, "I do nearly as good as if I were in my pulpit preaching a sermon. A man's three duties are:
First, to his home; second, to his chickens, and third, to his church. I put the church last because I think if I can interest a man because I think if I can interest a man in chickens I can get him

Farmers of Frederick county are now of wheat, although not near what was expected several weeks before harvest advantages which may be derived from a time and just about the time the wheat was beginning to head. At that time the stalks appeared to be quite thick upon the ground and many predicted the yield would be a record of the others in name agreement of the other of the others in name agreement of the other of the ot

Reformed Church Reunion.

In spite of rain, fully 2,000 persons attended the twenty-third reunion on Thursday at Pen-Mar of the Reformed churches of Maryland, Virginia, West Virginia, Pennsylvania and the District

Virginia, Pennsylvania and the District of Columbia. Special trains were run from points in Maryland and Pennsylvania. The Wayne Band, of Waynesboro, Pa., furnished the music.

At 1,30 p. m. a meeting was held in the pavillion, at which Ephriam Cornman, of Washington, D. C., president of the board of directors of the Reformed churches, presided. The meeting was opened with a prayer. Solos were sung by Mrs. Laura Nooman Shafer, of Boonsboro, Md., and Miss Viola Brodbeck, of Hanover, Pa. An address was made by Harry E. Paisley, of Philadelphia. He urged the members of the Reformed Church to put more enthusiasm in their Church to put more enthusiasm in their church work. Mr. Cornman paid a tribute to the late J. A. Hoffhein, of Martinsburg, W. Va., who was president of the board of directors of the Reformed Church in this section of the country for

Following the meeting the elders of the Col. Roosevelt has resigned from the Republican Club of New York, of which he has been a member for 27 years. This action is taken to mean that he no longer considers himself a Republican.

Following the meeting the elders of the Maryland Classis held a meeting to consider means by which laymen of the church may be urged to take more activity in church work. An all-college hour was yell during the afternoon, at which the considers himself a Republican. was spent during the afternoon, at which Rev. C. H. Ranck, pastor of Third Re-formed church, of Baltimore, presided. During the college hour glee clubs and representatives from colleges gave college yells and sang. Among the colleges rep-resented were Johns Hopkins University, Paltimers. Baltimore; Franklin and Marshall College, Lancaster, Pa.; Ursinus College, Collegeville, Pa.; Woman's College, Frederick, Md.; Mercersburg Academy, Moreorsburg Des Moreorsburg Academy, 

A Wreck on the W. M. R. R.

Six persons, two very seriously, were injured in a collision between work train No. 601 and westbound local freight No. 301, on the Western Maryland Railway, shortly before noon last Saturday. The wreck occurred on a small bridge east of Spring Mills Station, and one mile west of Westminster. Four cars were derailed and engine No. 313 tumbled partly down the embankment. The injured were: the embankment. The injured were: Engineer C. H. Lynn, of Hagerstown;

legs scalded and sprained.
Brakeman C. E. Durst, of Hagerstown;

town; legs broken. Sisk and Westhafer were taken to Bal-

timore and placed in the Union Protestany extended campaign trip this fall. He will leave the stump cretery entirely to

Train No. 301 was in charge of Concharge of Conductor J. A. Leahy, of

Baltimore, and Engineer Kapp.
The exact responsibility for the accident has not been made public. The freight was running slowly, with a box car in front of the engine, and the collision is said to have been due to the presence of a curve in the road which prevented the engineers seeing ahead.

Buy-at-home Argument.

The retail merchants of Charleston, S ., in waging an educational campaign, issued a buy-at-home propaganda as fol-

"I Buy At Home" Because my interests are here. Because the community that is good nough for me to live in is good enough for me to buy in.

Because I believe in transacting business with my friends. Because I want to see the goods.

Because my home dealer "carries" me when I run short. Because every dollar I spend at home stays at home and works for the welfare

Because I earn my living here. Because the man I buy from pays his part of the town, county and State taxes. Because the man I buy from helps support my school, my church, my lodge

Because when ill luck, misfortune and bereavement come, the man I buy from is here with kindly greeting, his word of cheer and his pocketbook, if need be. Here I live and here I buy.

Roosevelt State Convention.

The Roosevelt party has issued a call for a State Convention to be held in Bal-Sarah J. Millender, deceased, settled his The Roosevelt party has issued a call timore, next Thursday. The call was signed by 125 persons, the following being from Carroll County:

Dr. Luther Kemp, of Uniontown; Samuel C. Ott, of Taneytown; Dr. George E. Baughman, of Westminster; Chas. H. Sapp, Hampstead, and W. Norman Hood. The Baltimore *News*, the Roosevelt organ in Maryland makes the issue clear,

'Now, the National Progressive party has little prospect of success in this State this year. The gentlemen of the State committee and of the convention may as Farmers of Frederick county are now well realize this now as later. Are they treshing and are reporting a fair crop ready to take a whipping for the sake of compromise between principles and the upon the ground and many predicted the yield would be a record one. As the blades began to dry and fall off it was blades began to dry and fall off it was blades began to dry and fall off it was blades began to dry and fall off it was barty is from the Democratic? Many of At

only a hollow mockery."

TANEYTOWN HAS CHANGE TO GET A STATE ROAD

The Old Plank Road and the Meadow Branch Turnpike Project.

President Weller, of the State Road Commission, and Chief Engineer Shirley, accompanied by Dr. Woodward and William Arthur, of Westminster, made a tour of inspection of the road from Westminster to Taneytown, on Tuesday. Mr. Weller was very favorable impressed with the importance of making this road a state road, and will urge the Commission to accept the proposition of citizens of Taneytown and Frizellburg and yicinity, made two years ago, to purchase the Meadow Branch turnpike and turn it over to the state, providing the commission will in turn make a state road of the entire stretch of twelve miles.

The owners of the pike are willing to dispose of it, for this purpose, for \$3000., and this amount, or more, had been previously subscribed, but as the commission did not act, the amounts were not paid. The old subscribers, as well as new ones, will be solicited to renew their sub-scriptions, and if the \$3000. can be raised within 30 days, there appears to be but little doubt that the state road will be as-sured, this Summer and Fall.

Mr. Weller stated that the Commission —should his recommendation be accepted—would make a first allotment of \$30,-000 for this road, beginning work at both ends at the same time. He further stat-ed that the road would be built largely as the people wanted it to be, consistent with

making it a good durable road, and that the work would be pushed vigorously. Those interested now have the long sought opportunity awaiting them, of securing a much needed pike from this section of the county to Westminster. There is some little objection to the purchase of the Meadow Branch pike, as one of the conditions, but this is a very small matter, after all, and hardly worth criticism. The subscription is made but once, so let everybody renew their former sub-scriptions, and others subscribe who can well afford to do so, and Taneytown and Westminster will be joined together by a state road, for all time.

There is no getting away from the fact that this is one of the main traveled roads of the county, with most important side connections, while at Taneytown it leads directly into main routes to Emmitsburg, Gettysburg, Monterey, Pen-Mar, Frederick, Hanover and other points. It will require but little grading and is also a road of unusual width—the widest in the county its entire length of 12 miles and as the section traversed is without either railroad or trolley facilities, it is logically the road of all others in the county for the state to take over in order

the greatest number of tax-payers.

The road will be a sure thing, if those naturally the most interested come to the front, now, and contribute the small purchase price of the Meadow Branch Turnductor C. A. Lewis, of Hagerstown, and Engineer Lynn. The work train was in ---

----No Drinks on P. R. R. Trains.

The sale of all intoxicating liquors on Pennsylvania Railroad trains running on lines east of Pittsburg, has been discontinued. Similar action will be taken in the near future on all other lines of the Pennsylvania system. This was announced on Tuesday at the office of Traffic Manager Wood.

efforts of the Anti-Saloon League in the

ground, and it was known at once this meant a diminished yield. The Hessian fly also did some damage and already of the Maryland Agricultural College and not sowing until October 3 to 10. Usually seeding in Frederick county begins about Sentember 25.

At the office of Traine Manager wood it was said that the management of the Pennsylvania Railroad recognized the fact that there was a legal question invall future obligation to and sympathy with that party?

If not, the call to the National Progressive State Convention of Maryland is only a hollow mockery." At the office of Traffic Manager Wood and Pullman service.

"The World in Baltimore."

The Wyrld is to be reproduced in miniature next October, in Baltimore, and 12,000 Baltimoreans are preparing to impersonate the people of all nations in "The World in Baltimore" Exposition, which is to be held in Baltimore from October 25th to November 20, 1912

October 25th to November 30, 1912. To house the Exposition, a large temporary building is being erected at Maryland Avenue and Oliver Street, adjoining the well-known Lyric Theatre. The new building will be two stories in height and will have a floor space of more than 36,000 square feet. It will be connected with the Lyric, in which the great Pageant of Darkness and Light will be given.

The purpose of "The World in Baltimore" is to show the progress of Christian Civilization in every part of the

tian Civilization in every part of the world. In order to do this in the most effective way, life-like scenes of foreign lands and sections of America in which the work of missionaries is carried on will be set up in the Exposition. Each sec-tion will be surrounded by beautifully painted scenery, reproducing parts of foreign lands and of our own country. Inside of these scenes there will be erected buildings which will be duplications of the structures which a visitor to a foreign city might look upon. In all, there will be between thirty and forty of these sec-

Twelve thousand people, who are being enrolled as volunteer helpers for the Exposition from 220 churches in Balti-more and vicinity, will impersonate the natives of each country, and most of them will wear characteristic costumes. They will have prepared themselves by careful study to answer the questions of visitors and explain everything which a person

and explain everything which a person may see at the Exposition.

The great musical feature of "The World in Baltimore" will be the Pageant of Darkness and Light, in which several hundred persons will participate. This is a musical drama of great events in the history of missions. There will be five brilliant episodes, full of life, action, and color, taken from the four corners of the color, taken from the four corners of the earth. The Pageant will be presented on the stage of the Lyric Theatre afternoons

and evenings during the Exposition.

The total expenses of "The World in Baltimore" Exposition are estimated at \$100,000. A group of business men in Baltimore are subscribers to a guarantee fund amounting thus far to nearly \$50,000. It is not the purpose of the Exposition to make any profit, but to spread accurate knowledge of the great work of christianizing the world. It is the expectation, however, to make all expenses and repay any amount which the guarantors advance. Should there be any profit, it will be turned over to the Missionary Exposition Company for the furtherance, of position Company for the furtherance of Missionary Education. The officers of "The World in Balti-

and as the section traversed is without either railroad or trolley facilities, it is logically the road of all others in the county for the state to take over in order to give the greatest amount of benefit to the greatest number of tax-payers.

The onicers of The World in Battl-more' are, President, John T. Stone, President Maryland Casualty Company; Chairman of the Executive Committee, George R. Gaither; Treasurer, Francis A. White; Secretary, William F. Cochran; all of Polyinger The Benefit of Travetoe. all of Baltimore. The Board of Trustees includes many well known business men in Baltimore, such as Joshua Levering, Robert Garrett, John B. Ramsay, Samuel G. B. Cood, Summerfield Baldwin, William H. Matthai, Henry S. Dulaney, Daniel Baker; also Dr. Howard A. Kelly, Rt. Rev. John G. Murray, D. D., Rev. J. Ross Stevenson, D. D., Rev. John F. Goucher, D. D., and other prominent

#### ----Typhoid Lurks in Wells.

The rural sections, long considered ideal so far as concerns the health of their inhabitants, have been dealt a blow by physician investigators who maintain that two-thirds of the cases of typhoid fever in the city owe their origin to insanitary conditions in the country and to

Farms, which are generally remote from towns, cities, or other areas of con-gested population, would seem to be al-most ideally situated for obtaining pure and wholesome water, but in reality polluted water is exceedingly common on them and typhoid fever rates are usually greater in country districts than in cities. Typhoid fever is now almost universally believed to be transmitted solely through drink or food taken into the stomach, and is especially liable to be communicated by polluted waters obtained from shallow wells near spots where the discharges of typhoid patients have been thrown upon the ground and subsequently carried down through the soil and to the wells, and it is doubtless principally this fact that accounts for the disease be

ing so common in farming regions.

On a great many farms the well is located at a point that may be convenient to the dwelling, without any regard for possibility of the pollution of the well water through seepage from barn or cess pool or through the circulation of water underground. Information relating to the underground inovement of water is particularly valuable, and on this ac-count the United States Geological Survey is distributing a report on the subject—Water-Supply Paper 255—''Under-ground Waters for Farm Use,'' by Myron L. Fuller. The demand for this publication has necessitated a third reprint. A copy of the report may be obtained by addressing the Director of the Survey at Washington, D. C.

Hagerstown and vicinity suffered a terrific electric storm, on Wednesday evening. Buildings of various kinds were unroofed, trees uprooted, and general damage of a cyclonic character sustained. The loss by storm and lightning amounted to many thousands of dollars, while several barns were burned.

----As a result of his inspection of Carroll county state roads, Chairman Weller of the State Road Commission has issued orders to all contractors to increase their working force and take all steps necessary to complete their work by this fall.

--Watch the columns of the RECORD.

POLITICAL NOTES ON VARIOUS QUESTIONS.

No Compromise for Roosevelt. Gov. Wilson will Command Forces.

(As National politics will be an absorbing topic of news for many of our readers, we will give, perhaps weekly, a mixed column of the leading events of the week as they relate to all parties. This will present to those who have neither the time, nor the opportunity, to do so, a means of keeping posted on the moves made in the interesting game. In this weekly review, we will endeavor to be fair, and whatever comment is made, aside from bare facts, will be made in order to give the trend of sentiment as we see it,—Ed. RECORD.)

Col. Roosevelt will consent to no plan in the nature of a compromise, that is not wholly in his favor, and has flatly taken issue with some of his supporters on the subject. He made his position known in answer to a proposition spoken of in Pennsylvania and Maryland to use the same electors on both tickets, thus presenting a united front against the Wilson electors, with the understanding that the ticket receiving the greatest number of votes would receive the entire elec-

toral vote of the State.

He said "I make my appeal to all progressives, no matter what their past affiliations may be, who believe that both of the old party organizations are completely under the domination of the bosses and of special privilege and that both es and of special privilege, and that both the Chicago and Baltimore platforms are

real progressive leader in the race.

President Taft, Chairman Hilles, of the Republican National Committee; Senator Sanders, Senator Crane and former Senator Dick had a long conference on Monday, over a statement which has been prepared to refute the charge that any of the Taft delegates at the Chicago convention were illegally seated. It is understood that the statement is to be given publicity either by the national committee or by Republican committees of the House and Senate. It is a very exhaustive review of every contest.

Gov. Wilson has demonstrated that he is the leader of the Democratic party, and the National Committee has turned over to him its powers of choosing its officers, only the Governor's close friends being named for responsible places. Governor Wilson's ideas about the committee to run his campaign have been quietly passed along by word of mouth and the men he has selected for the important posts at the front of the battle will be officially

made known within the next week.

The personnel of the campaign committee, which will have immediate charge of the Democratic fight, will in all likelihood be composed of the following: W. F. Mc-Combs (chairman), New York; William G. McAdoo (vice-chairman), New York; J. D. Crimmins (treasurer), New York; Willard Saulsbury, Delaware; R. Hudspeth, New Jersey; Josephus Daniels, North Carolina; A. Mitchell Palmer, Pennsylvania; John T. McGraw, West Virginia; Senator Culberson, Texas; Senator Gore, Oklahoma, and Senator O'Gor-

Both Speaker Clark and Mr. Underwood have visited Gov. Wilson, and pledged their support during the cambridge of their support during the cambridge of the camb pledged their support during the campaign. Gov. Harman has not, as yet, presented his appearance. The meeting between Wilson and Underwood was especially cordial. Underwood said, "When we hauled down our banner there was no soreness left. We fight for a flag. An individual is an instance. I come as a soldier in a cause at the call of my General in command, and I am proud to be

Republican National Committeeman Stanley, and others, of Kansas, have filed an injunction against the printing on the Republican ballot names of electors who say they will support Roosevelt, if elected. Mr. Stanley says: "We assert that the Democrats or any other party candidates for electors have as much right to have their names printed under the name, emblems and circle of the Republican party as a set of men who openly declare will not support the party nominee in the Electoral College should they be elected."

#### ----Chafin and Watkins Nominated.

Atlantic City, July 12.—After a threeday session marked by tumultuous scenes and factional strife that threatened to split the party in twain, the delegates of the National Prohibition Convention nominated Eugene W. Chafin, of Illinois and Arizona, for president and Aaron S. Watkins, of Ohio, for vice-president early to-night. Chafin and Watkins headed the party in the 1908 campaign.

The end of the convention was, how-ever, astonishingly harmonious considering the acrimonious debates that have marked its early meetings. This was largely due to the fact that the presidency of the party is regarded in the hearts of the delegates as an honorary position only and also that a forfeit of \$300 would accrue if the convention lasted longer than 6.30 tonight.

The delegates, therefore, used every ex-

pedient to rush the business, and the nominating speeches were begun almost before the members of the convention had taken their seats after the invocation this

Four candidates for president were placed in nomination against Mr. Chafin. They were F. W. Emerson, of California; Finley C. Hendrickson, of Maryland; Aaron S. Watkins, of Ohio, and Andrew Jackson Houston, of Texas. Each in turn withdrew his name after the first ballot, Mr. Houtson creating enthusiasm by the statement that he would rather receive the lowest vote in the Prohibition convention than the highest in either the Demo-

cratic or Republican convention. The leading candidates against Mr. Watkins for vice-president were Mr. Emerson, of California, and George E. Stockwell, of New York.

Vermont had a specimen of freak weather this week. Following three Md., Sunday morning and evening, July 21st. for Real Estate at Public and Private weeks of great heat, with the thermometer Sale. If you have a property to sell, advertise it now.

Weeks of great heat, with the thermometer twice touching 100° the temperature dropped 58° in 24 hours, bringing frost.

Preaching at Taneytown U. B. Church Sunday at 10 a. m. Harney at 8 p. m. All are welcome.

J. D. S. Young, Pastor.

Express Rates Reduced.

The Interstate Commerce Commission has prescribed reduction in rates of all Express Companies. The inquiry, which has been under way three years, is very exhaustive, and declares that the entire Express business of the country, although under different names, is managed by not more than three groups of interests. It is believed that the investigation and conclusion will be a long step toward solving the question of the high cost of living

The greatest reduction of rates proposed is on small packages—that is, on parcels which weigh less than twelve pounds. Rates on packages of more than twelve pounds, were found to be more reasonable than those on smaller parcels.

Briefly stated the new rates may be said to be based upon a minimum charge of 21 cents for a one pound package. This charge increases in raito to the increase of weight and distance, at rates varying from three-tenths of a cent a varying from three-tenths of a cent a pound to about twelve cents a pound. Twelve cents a pound, according to the conclusions of the commission, is approximately the highest rate per pound for the greatest distance possible for a parcel to be carried wholly within the United States, exclusive of Alaska.

Packages weighing two pounds, for instance, may be shipped 1000 miles—New

stance, may be shipped 1000 miles—New York city to Chicago—for 24 cents; and 2000 miles—New York city to Denver for 31 cents, the present rates being respectively for each 35 cents. A three pound package will cost 27 cents for 1000 the Chicago and Baltimore platforms are unprogressive, showing that it is hopeless to expect from either of the old parties far-reaching progressive movement." He has thereby declared that he is the only real progressive leader in the race.

President Taft, Chairman Hilles, of the spectively. The cost of transporting a twenty-five pound package 1000 miles will be 76 cents, against the present rate of \$1.10 and for 2000 miles, \$1.64 against the present rate of \$2.25.

During the storm shortly after 2 o'clock Wednesday morning lightning struck the big old 4-story stone mill owned and conducted by Samuel D. Reifsnider, along the Gas House pike, about 2 miles from Frederick. The mill was over 100 years old and contained four floors and a basement. The dwelling of Mr. Reifsnider, situated directly across the pike from the mill was also so badly damaged by fire that it will have to be -000damaged by fire that it will have to be practically rebuilt.

After an unofficial investigation that lasted many hours, secret service officials on Thursday denied the report published that a bomb addressed to President Taft had found its way to the Executive offices and that Assistant Secretary to the President, Sherman P. Allen, had been injured when he opened the package that contained it. He denied categorically that he had seen the bomb described, and said he could not account for the report.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

Bruraker - Mrs. Lydia Brubaker widow of Captain J. C. Brubaker, of daughter of the late William Roberts, and a sister of the late Mrs. Alfred Zollick-offer and Frank Roberts. The funeral was held on Wednesday afternoon at 1 o'clock. Mrs. Brubaker was a member of the Methodist Protestant Church.

---RITTER.—Harold, son of Mrs. Edward Ritter, of Mt. Union, aged 16 years, died on Wednesday evening at the Md. University Hospital, following an operation. The young man was engaged in plowing corn, on Tuesday morning, and was kicked in the stomach by the horse he was using. A physician was summoned who at once hurried the case to the hospital, but death ensued, as stated, about thirty

hours after the accident. The death is a particularly sad one in the community, especially because of the sudden taking away of a healthy young man whose end was least expected, and his mother, a brother and sister, have the deepest sympathy of all. Funeral services will be held at Keysville, on Saturday morning, following a service at the

RINEHART

In sad but loving remembrance of my dear husband and father, Harry L. Rinehart, who departed this life six months ago, Jan. 15, 1912.

Rest, dear husband, thy work is o'er;
Thy willing hands will toil no more,
A faithful husband, loving and kind,
A more faithful husband, no one could find,
Sleep on, dear husband; sweetly rest,
I loved you well, but Jesus loved you best,
God's will be done; He doeth well,
But, oh, how I miss you no earthly tongue
can tell.

By his sad and loving wife, Farewell our dear, may your slumber Be as gentle as your love, And when God shall call us homeward May we meet in Heaven above,

Dearest Papa, how we miss you Since from earth you passed away And our hearts are aching sorely, And we think of you each day. By his dear little Boy and Girl.

O, joys that are gone, will you ever return, To gladden our hearts as of yore; Will we find you awaiting us, some happy morn.

morn,
When we drift to Eternity's shore?
Will dear eyes meet our own; as in days that are past?
Will we thrill at the touch of a hand.
O, joys that are gone, will we find you at last,
On the shores of that wonderful land?
By his wife and children.

IN LOVING REMEMBRANCE Of our Grandmother, Sarah M. Myers, who died July 19, 1911.

Our Grandma is not dead, but sleeping Beneath the earth's cold sod; We turn our mind from weeping, And put our trust in God.

By her grand-daughters, Vallie and Carrie Myers, **→**◆◆ Church Notices.

### Postal Banks Popular.

----

Washington, July 10. - Postmaster Genwhich emphasizes the success of the postissued July 1, are shown.

on this last issue is \$854,860, while the twenty-five States is necessary to elect. total of the previous issue, January 1 last, was \$417,380, and on July 1, 1911, \$41,-

Wyoming and Rhode Island. The postal savings banks of New York | delegations would be very dim indeed. Stase applied for \$37,680 worth of bonds on July 1, while in January the conversion amounted to \$17,160. The comparison shows an increase of 119.6 per cent. California's postal savings banks did a big business this year, a gain of 197.8 per cent being shown in the figures for the issuance of bonds on July 1, as comissuance of bonds on July 1, as compared to the conversion in January.

Altogether the statement is a vindication of the contention of the administration that the postal savings bank scheme would not materially affect private banks.

----If you are a housewife you cannot rea-For sale by all dealers.

Says T. R. Served Man, not the Cause.

Washington, July 12. - Under the caption, "The Case of Mr. Roosevelt," Sennever-ending surprise that men will con- ator La Follette has written an editorial in the current number of "La Follette's lished philosophic natural laws. Aerial Weekly," in which he contrasts Bryan's conduct at Baltimore with Roosevelt at

"Roosevelt at Chicago, backed by money derived from the stock-watering operations of the Steel Trust and the Harvester Trust, organizing what are now confessed to have been fake contests at the property of the steel of the ste as to nearly two hundred delegates in order to control the Republican convention and secure his own nomination, re fusing to aid in making a progressive platform, bound to have the nomination or destroy the Republican party, was a most striking example of misdirected power and unworthy ambition.

'Roosevelt had as great an opportuni ty to serve the progressive cause at Chi-cago as Bryan had at Baltimore But Roosevelt was serving the man, not the cause. He wanted one thing—he wanted the nomination. And yet he did not have enough votes to nominate himself upon any honest basis. He did have enough delegates in that convention ultimately to have nominated a real progressive and adopted a strong progres-

sive platform.

"If he had evidence to prove that Taft could not be honestly and fairly nomi nated, why did he not direct his lieuten ants to present that evidence to the National Committee, and then to the con vention and the country so clearly that the convention would not have dared to nominate Taft, and that Taft could not, honor, have accepted the nomination

'The reason is obvious. An analysis of the testimony will, I am convinced, show that neither Taft nor Roosevelt had a majority of honestly or regularly elected delegates. This the managers upon both sides well understood. Each candidate was trying to seat a sufficient number of fraudulently credentialed delegates.

"This explains the extraordinary conduct of Roofevelt. He could not enter bly subjecting his own spuriously creown contention that he had an honestly

elected majority of the delegates.
"That this is the true psychology of the Roosevelt proceedings becomes perfectly plain. He was there to force his own nomination or smash the convention. He was not there to preserve the integrity of the Republican party, and make it an in-strument for the promotion of progres-sive principles and the restoration of gov-

ernment to the people.
"But Mr. Roosevelt was not governed by a suggestion of that spirit of high pa-triotic and unselfish purpose of which Bryan furnished such a magnificent example one week later in the Democratic convention at Baltimore. Instead, he filled the public ear with sound and fury.

'He submitted no suggestion as to platform of progressive principles. He clamored loudly for purging the convention roll of tainted delegates, without purging his own candidacy of his tainted contests and his tainted trust support. He offered no reason for a third party excepting his own overmastering craving for a third term.

#### FOR BROODER BUILDERS.

Many poultrymen are their own carpenters, and many of the most useful contrivances in the form of incubators, brooders, trap nests, hoppers and improvements in poultry house architecture have originated, been tried out and invented by these "saw and hatchet" carpenters, as the professionals dub

Many build their own brooders, and this article is for the fellow who is about to build one.

The regulation brooder heating apparatus heats a brooder 6 by 3, and

Photo by C. M. Barnitz.

SETTING UP THE BROODER.

this is about general size, the front being three feet high, the back two feet and the floor on one level.

Many buy the heating part from the factory and build only the house.

The interior is divided evenly between nursery and scratch room, the nursery double walled to hold heat, the heating parts detachable and the partition removable so that they may be taken out and brooder changed into colony house when chicks are large enough.

A larger brooder is too clumsy. It 4s too large for the regulation heater and, especially if nailed together, too heavy to move.

A brooder should be made in parts to the roof may be raised on hot nights.

glass doors for light and air; ventila-

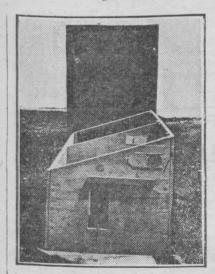

Photo by C. M. Barnitz.

OPEN TO SUN.

tors in the high point of ends, making a current of air that does not hit

The floor should be off ground. The brooder should be set flat on ground so rats cannot harbor beneath; the roof should be shed and fastened down with hooks

Many of the brooders sold are made of chestnut, which soon goes to pieces. Pine is best lumber, and the brooders should be painted different colors so chicks do not crowd into one.

### DON'TS.

Don't get rattled and throw out eggs because they don't hatch right when you expect them. They are sometimes delayed, so don't be dismayed.

Don't bother building your own incubator. Such homemade machines seldom work or pay, make people wear and often blow up.

Don't be enraptured over flowery catalogue descriptions. The more adjectives you see in an ad. the more likely you'll be sold bad.

Don't waste life kicking. Human mules are fools.

Don't cut down feed because it is high. If your hens do not pay expenses and a reasonable profit change stock, unless the man is the stumbling block.

Don't expect the same profit from poultry that you read of in system promoting advertisements. As there is often a nigger in the wood pile, so there is oftener a nigger in the chick-PB coop.

A WOMAN'S SAD MISTAKE.

There is a fellow right near by Who got the chicken fever. He was so crazy after hens His wife feared be would leave 'er.

One day she passed a grocery store

And saw big eggs inside. She bought six dozen of the same And quickly homeward hied. She took the eggs from Bill's big hens And set the store eggs there,

Then giggled, giggled, giggled so That she fell off a chair.

"Those china eggs won't hatch!" she cried.
"Ha, ha! Won't Bill he sold? He'll quit his crazy chicken stunt And love me as of old."

But, say, the eggs she set were ducks', And Bill caught on to it.
Bill waited for those eggs to hatch To see her get a fit.

Just sixty little quacks came out. He took them to the door. They waddled right into the house And spread all o'er the floor

"Quack, quack!" came from the parlor; "Quack!" came from everywhere "Oh, horrors! What's that noise?" She cried from up the stair.

When she got down the stairway She dropped all in a bunch,
And all those quacks came waddling up To make of her free lunch.

Those ducks tracked all her porches; They ate her flower bed;
They quacked around her day and night
Till she was almost dead.

You bet she quit her butting in! You bet she quit ner butting
Bill has the inside track.
She knows if she says just one word
Bill will yell loud, "Quack, quack!"
C. M. BARNITZ.

GIVE THEM A REST. Your breeding birds have done their duty, so give those selected for next

season a rest.

Let them range at will. Don't force them for eggs, cut out corn, the fat former and heat producer; feed them food rich in nitrogen and phosphorus for feather former, so the molt may come and new plumage grow without draining the system. Let them gather the four leaf clover, revel in alfalfa, catch the fat grasshopper, pick the juicy apples in the shady orchard and glean in the

wheat stubbles. The air, green food, bugs, sunshine, exercise, rest, will build them up, the molt will be easy and almost imperceptible, and they will be fit to furnish those winter eggs that bring so much long green.

You have no green fields nor shady orchards for your poultry? Sorry!

Hope you may have some day! Well, then, copy nature as near as possible, for without natural methods fowls gradually weaken and failure

#### FEATHERS AND EGGSHELLS.

A lady's blue enameled gold watch was found in the crop of a turkey dressed at the Cafe Boulevard, Tenth street and Second avenue, New York. The turkey was shipped from Vermont, but the watch may belong to some western belle, for it is whispered that many western turks are shipped to Vermont and then are retagged and shipped and sold in New York for bon ton bluestocking New England stock.

An investigating committee declares screw together. Thus it is easy to food passes through as many as five clean, to dry out, to move, to store, and hands before reaching the New York consumer and that 50 per cent of the The front should have two large city consumer's dollar goes to the middleman after the food reaches the city. The farmer and his "city kozens" by this fleecing method are between the devil and the deep sea.

When the mayor of Indianapolis put up seventy-five turkeys to lower the market price, just 400 buyers grabbed for them at once. The turkey crop has shrunk to 3,000,000 per year, with 95,000,000 to eat them. What a grand rush there will be for the last turkey! One thousand skunk skins were bought from trappers in Wyoming

county, Pa., by a fur dealer. The Audubon society is awfully down on the house cat, but the fair dames never say a word against the pestiferous skunk that robs bird nests and henroosts. Milady even wears skunk furs (Alaska sable), and they are just

too lovely for anything. The crows killed off many partridges in Pennsylvania during the past severe winter. It's about time the crows get it in the neck. They catch thousands of chicks, rob the bird nests of eggs and young; kill many game birds and destroy the corn. Let some society belle wear crow wings on her hat. That will start the slaughter. The other women will wear them, and, presto, the nasty crow will be no

California is specially strong on breed clubs and certainly sets a good example to many fanciers in the eastern states. If you wish to boost your breed, about the only way to do is to variety before the public and of course makes sales. Yes, advertising pays in many ways.

That poultry is moving up in other countries is shown by the last Crystal palace show, London. There were 12,-500 entries and \$25,000 was awarded in prizes. The American breeds stood next to the Orpington, England's favorite, of which there were 918 caged.

Cracking glass for poultry grit is bad business. Glass is too sharp for erop and gizzard, often pierces both. gets lodged in the mouth, and then glass is not good grit anyhow, for it soon wears smooth. Why feed such dangerous material when good granite crystal grit is cheap?

Persian insect powder is made of a Japanese chrysanthemum and is very effective for lice and fleas. In buying see that it is dry, fresh and unadulterated with flour. When fresh it has a very bitter taste.

Comme & M. O.

## Anty Drudge on Early Rising.

Mrs. Workhard (winding alarm clock)-"I always set the alarm for 4 o'clock on Monday morning, so I can make an early start with my washing and get through before dark.

Anty Drudge—"Nonsense. Just you sleep three hours later, and then send to the grocer's for some Fels-Naptha soap, and do your washing the Fels-Naptha way. Your wash will be on the line before noon, cleaner and whiter than ever before."

In India the women still go down to the river banks and wash clothes by rubbing them over stones.

They are unprogressive, we say. But they are no farther behind the times than the American women who still boil clothes and hard-rub them on a washboard. The women of India don't weaken their clothes by boiling, at least.

The truly modern way of washing is the Fels-Naptha way. No boiling to weaken the fibre; no hard-rubbing to wear and tear. Work saved, time saved, fuel saved; clothes cleaner.

Follow directions on the red and green wrapper.

### A Bad Spill.

"Here's a young woman that was left half a million dollars merely for spilling a little sunshine into an old man's life." "Her experience is more fortunate than mine. I once spilled a cup of coffee into an old man's lap organize and then boost. This puts the and he cut me out of his will altogether."

> In the Nature of Things. "Contentment is better than riches," said the ready-made philosopher. "True," replied Mr. Dustin Stax; "but my observation is that a man who is rich has a better chance of becoming content than a man who is contented

has of becoming rich."

Where the Difficulty Lay. Bouttown-Better not go to the St. Fashion hotel. Their bill of fare is in French. Cultured Friend (indignantly)-I can understand French. Bouttown-Yes, but the waiters can't, and neither can the cook.-New York Weekly.

Two Things to Be Taught. One thing I solemnly desire to see all children taught-obedience; and one to all persons entering into lifethe power of unselfish admiration.— Ruskin,

His Grounds.

By a queer trick of politics an igbor is not named for Capt. Joseph norant and pompous old darky was Wadsworth, but for Gen. James Sam- elected judge of a minor court in a ceruel Wadsworth of Geneseo, N. Y. tain western state. In the first case General Wadsworth raised a regiment over which he presided he made a when the Civil war broke out, served ruling so absurd that the lawyer whose with distinction, and was killed in the case was affected by it said: "This is a very strange ruling, your honor. 'What grounds-does you say? Why, dese yer' co'thouse grounds, of co'se!" replied the judge.-Judge.

> When Canary Came Into Europe. The canary was introduced into Europe as a cage bird in the latter part of the fifteenth or early part of

the sixteenth century, and has now spread all over the civilized world. Wonderful Metropolis. There are in London more Scotsmen than in Aberdeen, more Irish

than in Dublin, more Jews than in Palestine, and more Roman Catholics than in Rome.

English Dogs as Beasts of Burden. Until 1839 dogs were employed to draw wagons through the streets of London as they are now in parts of Europe.

Each in His Own Sphere. The man who sweeps the streets is doing as much service to the state as the man who fills the pulpit or sits in the senator's chair.

Live Each Day. Foresight is very wise, but foresorrow is very foolish; and castles are, at any rate, better than dungeons in

the air.-Sir John Lubbock.

# NOTED OLD RANCHES

San Joaquin Valley Acres Now in Business Hands.

Telon Ranchos, With More Than 276,-000 Acres of Land, Constitutes One of the Very Few Great Tracts Left.

Los Angeles, Cal.—One by one the great ranches of old California, the immense grants of early days, the lordly domains of wheat and barley magnates, have melted away before the relentless sweep of progress. For half a century and more the change has been going on, the passing of each vast rancho marking a swift epoch in the history of some section of the state. The subdivision of the first great rancho in California may be said to have marked the passing of a feudalism of the soil in this western world, for the old California was in truth almost a land of overlords, and even supported something like a peasantry population all its own. And yet something may be justly said in defense of the pioneers, both Spanish and American, and of the pastoral system of that early day. There was then known no such thing as the system of small farms and comparatively dense agricultural settlements which marked, and now more than ever mark, the east and central west. In California land had to be acquired, if acquired at all, in immense tracts.

Between Los Angeles and San Francisco, here and there in the mighty reaches of the San Joaquin valley, and interspersed like exaggerated white squares on the curious checkerboard whose black squares, representing acres of something that perchance may be called "intensive" agricultural development, greatly predominate, may still be found a few of the oldest ranches of old days. Most of them, it is true, are more or less under the sway of the surveyor's rod and the modern idea, but a few (you can count them on one hand) are almost as they were a half century ago.

Such a place is the great tract now known as the "Tejon Ranchos," the original Gen. Beale rancho, which lies well at the bottom of the San Joaquin valley, in the elbow formed by the Sierra Nevada and the Coast range. The recent sale of this vast pastoral empire to a group of Los Angeles land buyers makes the sensation of the year in California real estate circles.

Forty years ago, in his interesting volume, "California, a Book for Travelers and Settlers," Charles Nordhoff declared the Tejon to be the most magnificent estate in a single hand in America." And Mr. Nordhoff, who was the correspondent of the New York Herald, had traversed continents in the service of his paper.

The Tejon Ranchos, with their more than 276,000 acres of land, constitute one of the very few great tracts of the old days which has not through all the years lost a whit of its identity. Today this landed empire, now, as for nearly half a century past, an undiided principality, is in essentially the same condition in which it was when Mr. Nordhoff visited the spot as the friend and guest of its owner, Gen. Edward F. Beale.

Boasting an incalculable wealth of undeveloped agricultural and horticultural possibilities, together with certain, though unestimated, mineral and timber resources, the enormous holding has remained during all the intervening years what it originally was, a live stock rancho. With a fine sentiment that has taken small reckoning of financial exploitation, the heirs of the late Gen. Beale have clung steadily to the old regime in their management of the great estate.

The name of Gen. Beale, scholar, warrior, gentleman-the companion of Kit Carson in the lively days of the southwest, and the greatest of all the surveyors of transcontinental roadsis indissolubly linked with the history of California. The crowning achievement of his career, gauged by the history he helped to make-gallant as was his career as a fighter—is now realized to be the record of accomplishment which he made as a sur-

### ITALY PLANS NEW KINGDOM.

Vienna Hears of Plot to Unite Archipelago Under the Duke of the Abruzzi.

Vienna.-"There is a strange story in circulation to the effect that the recent assassination of Kopassis Effendi, the prince governor of the island of Samos, and the present agitation in Crete are the result of a scheme concocted in Rome. Another part of the plan is the creation of a kingdom in the archipelago, the crown of which would be offered to the duke of the Abruzzi. Such a state, it is believed, would turn the balance of power in the Mediterranean in favor of Italy.

"Custard" Pie Condemned. Sacramento, Cal.-When is a custard ple not a custard pie? When it has corn starch in it, answers the city board of health. The pie was before the board at its meeting.

It has been confiscated by C. L. Megowan, a market inspector. Its owner did not defend it. The physicians on the board debated some time, but decided that inasmuch as corn starch is not custard, a pie made of corn starch cannot be labeled a custard pie. It may be just as good and just as wholesome, but it is not custard.

#### PAY FOR ACTING BY YARD

Public Demand Regulates Prices In Film Productions as in Other Things.

Bernhardt's acting is worth a cent & yard, Coquelin's costs 5 cents and Eva La Valliere can and does draw 10 cents for every three feet of her posing. These illuminating statistics came to light in the course of a suit which one of the moving picture companies is bringing because several miles of the product furnished them was said to be below standard.

That posing ought to be paid for by the yard is no new idea, although it is not generally stated with such brutal frankness. An evening's "entertainment" has to last a certain conventional number of minutes or it is "not worth the money." It has to be cut into a conventional number of pieces and adorned with a certain kind of conventional embroidery. The "star" has to be on the stage a good portion of the time; in other words, he or she must contribute a certain number of yards of acting at every performance or the public will go where they can get more stuff for

Bernhardt gets less from the moving picture people than Lavalliereabout one-tenth as much. That, also, is a good, concrete illustration of the market for tendencies which we deplore in theory and encourage in practice throughout our own theatrical season. Public demand, after all, determines the prices if not the values of theatrical commodities just as it does in other industries. If we can be induced to pay most for the tinsel and paste, for the shoddy and the highly colored cotton, it is hardly fair to put all the blame on the managers. To use one of the classical expressions of our modern Rialto, theatrical managers are not "in it for their

#### GETS NOTED ENGLISH CASTLE

Deal for Countess of Warwick's Home Is Said to Have Been Completed by Wealthy American.

London.-The Pall Mall Gazette states that one outcome of the countess of Warwick's recent visit to the United States is the report that Warwick castle will be let on a long lease to a wealthy American. The newspaper gives no hint as to the identity of

the American. Warwick castle stands high above the River Avon a little under 100 miles to the northwest of London. Extensive lawns and gardens are inclosed within the walls. The walls are flanked by towers dating back to the fourteenth century. The highest of the towers is 147 feet. The view from the castle along the Avon, with its wooded banks, is regarded as one of the

most attractive in England. Warwick castle is at present the residence of the earl and countess of Warwick. The countess has become widely known for her socialistic views. She even has made speeches from a cart in favor of labor candidates at

For many years the castle was involved in the wars of early England It was strengthened after the Norman invasion and much of the castle as it stands at present bears a date more

recent than the battle of Hastings. Tradition, however, dates the first castle at Warwick back to the time of Ethelfreda, daughter of King Alfred. Henry III. made the castle his headquarters in the wars against the barons, and Edward IV. was imprisoned there. Other sovereigns have been entertained there. Queen Elizabeth was one of these. She was entertained with pageants which were reproduced in July, 1906, under direction of Louis N. Parker, the playwright.

### ADOPTED THE WHOLE FAMILY

Rich Cleveland Merchant and His Family Wanted One Child, But Took Three.

Cleveland, O .- Harry W. Griggs, one of the leading merchants of Cleveland, and his wife, decided they would adopt a child.

After inquiry they learned of a little girl they might have. They called to see the child and fell in love with her at first sight. She was three years old and devoted to her two elder sisters, one six and the other seven years old.

Observing the devotion of the sisters, Mr. Griggs suggested that they adopt two so that the little one might have company. Mrs. Griggs remarked that the plan

seemed good for the little one, but not so good for the one that was to be left. "Well," said Mr. Griggs, "we will

take them all." Today three happy little girls are playing in the Griggs home.

Scheme for Killing "Skeeters." New York .- Late returns from the most thickly populated Jersey dis-

tricts indicate that the mosquito problem is solved. Arthur Bingham, a Newark mechanic, thinks he has achieved that benefaction to hamanity. Why not, he argued, attach a vacuum

cleaner to the lawn mower and draw in the mosquitoes that were playing hide-and-seek in the grass. He tried it. Great!

But Mr. Bingham will not put his invention on the market until he has perfected an arrangement whereby the lawn mower will also chop the heads of the pesky critters off prior to their introduction into the vacuum cleaner. Until then Jerseyites must have them.

The hay and potato crop, both of which were failures last year in this neighborhood, are above the average this year. Some of the finest potatoes we have were raised by Jesse F. Billmyer. Farmers are busy threshing their crops and getting them to market.

#### --COPPERVILLE.

Our long wished for rain arrived last night, and this Thursday morning the earth looks like Spring, everything bright-ened up; even the birds are singing their melodies in praise to the Giver of such a blessing to the toiler, who provides for their sustenance. I thought, as I listened to the prayer-meeting bell, last evening, whether in the church, or at home, who the Rev. John Ensor, who is a brother of

could refrain from rejoicing.
William H. Sittig, baggage master and mail distributor of Johns Hopkins Hospital, is visiting in the family of his aunt, Mrs. William C. Eckard.

(The following item has been handed us, in reply to the "Teddy bear" item in last week's correspondence. This must be the last of this little pleasantry, as such efforts often lead from one step to another, and when we give one side a hearing it can not

be justly denied the other.—Ed. Record,)
"In reply to the "Teddy bear's" letter, last week, Teddy has two brothers, one large one small. The large brother has applied for office but never got it, the reason being he can't tell a red rose from a white one. The reason the bear has to go barefooted, he lent his smaller brother money to buy beef and gum boots. He isn't so dumb that he don't know a grass widow from a grasshopper.

#### ---LINWOOD.

Prof. and Mrs, Hoover and daughter, Vera, were visitors at Mrs. E. L. Shriner's, Saturday evening.

Mrs. Louis Messler went to Baltimore

on Saturday, to see her mother, who had a slight stroke of paralysis.

Miss Ella Fritz is spending a couple weeks with her sisters, at Arlington, Md. Little Miss Ruth Gilbert, of Hagerstown, arrived at Linwood Shade, last Friday.

# FRIENDSHIP

Manner of Feeling That Brings Man Into Companionship with God.

TTTHEN a man says friendship, I think he utters the deepest word in human speech. ranks even a little higher than love, being a sort of unselfed love, love with the itch and hunger ex-

We do not love our friends; we like them. We love our children, wife and parents, and kinfolks. We like apples and custard pie and a cozy fire and a good bed and slippers-and our friend.

Like goes farther in than love. Like is a voice from the subconscious self, a cry from the inward and unknown me. It lies behind the will, beneath the judgment, in the far darkness of our secret soul.

It does not say that a wife cannot be also a friend; but she rarely is; she is usually an enemy, to whom we are most passionately attached. And if she be a friend, then that friendship has grown up from other sources, and is of a different texture and quality from the sex motives which make marriages. Not many women would tolerate comradeship from a husband. Perhaps this is as it should be, and nature needs fiercer fires for her necessary results.

Still rarer is friendship between parent and child. It is an amazing thing I have noticed here, how warm, intelligent and cultured father and son both strive for friendship and cannot attain it. Sometimes they succeed, but so rarely that it may be

called a phenomenon. Whence, then, come friends? And who are they? And how can one make them? All answers to these pathetic questions seem to me to be unsatisfactory, partial, insufficient, and by the way. The rules of the wise will not work. We do not make friends by being noble and good; friendship does not arise from similarity of tastes; and otherwise one can, in actual experience, drive a two-horse wagon through all and any of the prescriptions of the proverbial philosophers. Much of a Mystery.

The fact is that the secret springs of friendship are wholly mysterious. Searching for them we must report like the Louisiana sheriff reported on the back of a writ "duces tecum" which he had been given to serve upon a negro who had escaped into the swamp: "Non comattibus, up stumpum, in swampo." As I look over my friends I find I like them as a dog likes his master. So I conclude that this emotion must originate in some Newfoundland or St. Bernard region of my nature, and, is probably one of those instincts not yet eliminated by evolution, something I share with

dogs. For all that I honor it as the best thing I am conscious of. I am prouder of liking my friends than of any other of my small bunch of virtues. When I think of Bill and Lige and Al and Rolph and Newt I get a kind of warmth about the cockles of my heart

no other contemplation can produce. And the biggest hurts I have ever felt are those made by the disloyalty of others whom I thought friends and trusted. Nothing is so salt and nauseous to the soul as the taste of Judas in the mouth of memory.

And it seems to me-for this, after all. is a sermon—that religion, rightly taken, is rather a friendship for God than a love for God, and that we would better translate all the Bible's admonitions to love God by the paraphrase to be friends with God.

To love God has a conventional sound; but to be a friend of Godthat is a searching and swordlike word. It means to like him; not to avoid him; to seek his presence; to be at home with him; to be cheered, consoled, quieted by the thought of him. Speaking for myself, I can say that

I never came into this comfortable relationship until I had swept away all I had ever been taught, dared to presume upon the debt God had incurred toward me by making me, and took my rightful place as his son at his ta-

It does not require any assumption of holiness or sinlessness to do this; it only needs to presume upon the vast noble mindedness, kindness and forbearing wisdom of such a heart as Jesus reveals to us. It requires a tremendous burst of moral courage to believe God likes the kind of man I am; but I do believe it; and the result is the greatest ethical dynamic of my life -the friendship of God .- Dr. Frank Crane.

## A Morning Prayer.

My Christ, I am not worthy. My faith is weak, my mind is confused, I am sinful and sick. But I pray thee to heal me in soul and body, for thou art my only hope and thou art my only Savior. Call me thy son. Bid me be of good cheer. Bless me as thou seest is best for me and send me on my way to live for thee. That is what I ask, dear Master, and I know I ask not in vain. Amen.

# YAKIMA VALLEY, WASHINGTON,

THE U. S. AGRICULTURAL DEPARTMENT SAYS:-

(In Reclamation Service pamphlet entitled "Yakima Irrigation Projects, Washington.")

"The eastern United States and the cities of Europe furnish ready markets for the crop, and so eager are the commission men for the fruit that it is often contracted for far in advance. FULL BEARING ORCHARDS AN-NUALLY PRODUCE CROPS WORTH FROM \$300 TO \$1200 AN ACRE, \$300 BEING LESS THAN THE AV-ERAGE FOR ALL WELL KEPT ORCHARDS. In 1908 the YAKIMA VALLEY shipped 1,610 cars of fruit, 1,200 cars of apples, and 410 cars of other fruits, or, in round numbers, 720,000 boxes of apples and 440,00 boxes of all other fruits, or 1,160,000 boxes all told."

Among the Testimonials in the same Government publication is the following letter from Mr. E. C. Dickerson:-

"When I arrived here in August, 1900, and paid my hotel bills, I had left just \$4.31 to start out on. By Christmas I had saved enough to make a small cash payment on my ten acres of raw land. BEFORE THE END OF FIVE YEARS MY PLACE HAD MORE THAN PAID FOR ITSELF. Last year the gross income from four acres, just beginning to bear, was \$2,124.98. IN MY 8 YEARS HERE I HAVE NEVER SEEN A FRUIT FAIL-URE. There is no encumbrance on my property, real or personal. NOTHING LESS THAN \$15,000 WOULD INDUCE ME TO LET GO OF MY PLACE. THE YAKIMA VALLEY IS GOOD ENOUGH FOR ME."

We have bought some of this fruit land after thorough, personal investigations, and in addition to our own land, have sold some to Carroll county people. All of which is under our care, and was planted with apple trees and potatoes last May.

We now have a limited quantity of land to sell before October first.

It is not necessary for you to move west, as we contract to plant and care for the land you buy along with our own.

#### THE GUARANTEE-

THE YAKIMA HIGHLANDS IRRIGATION & LAND COMPA-NY, WITH A PAID UP CAPITAL OF \$500,000.00 AND A SUR-PLUS OF NEARLY \$600.000.00, GUARANTEES TO TAKE THE LAND BACK FROM YOU AFTER FOUR YEARS TIME, IF FOR ANY REASON YOU ARE NOT SATISFIED WITH IT, AND RE-TURN TO YOU WHAT YOU PAID FOR IT, AND 10% INTEREST PER YEAR ON YOUR MONEY.

Wisdom in Action. The times are waiting for men who shall serve and not merely inquire; strive and not merely investigate; give to their age and their kind not so much learning in bulk as wisdom in action; great doing as the only true fruitage of great thinking; the conse-

cration to the uplifting of one's fellowmen of one's best rather than the conserving by mere culture of one's self. 000,000. -Henry Potter.

MURRAY HAS PLAN

Controller of the Currency Is After Dishonest Bankers.

He Would Have Duplicate Reports Made to His Office-Some of the "Tricks of the Trade" and How They Are Worked.

Washington.-The federal govern ment has not yet found a way to prevent disconest men from stealing from national banks, though it has worked at this problem for several years. L. O. Murray, controller of the currency, has, with the hope of aiding bank officials to detect dishonest employes, called attention to some of the latter day methods of "beating the banks."

Henry M. Dearing, cashier of the Albion National bank at Albion, Mich., is serving a term in prison. A search of the cashier's desk, after the closing of the bank, disclosed leaves removed from the loose leaf individual and savings depositors' ledgers carrying credit balances aggregating \$185,-317.41, which, of course, represented a shortage in cash of an equal amount. This method of "covering" had been in vogue since the bank began business. The cashier told the examiner that he found no difficulty at all in deceiving the directors. The bills receivable were added by him on the adding machines; the list was checked with the notes by the directors, but at no time, the cashier explained, did the directors check the total of the adding machine list with the general ledger. The assistant cashier said that practically all of the manufacturing customers' notes owned by the

bank were forgeries. Earl Stannard, bookkeeper of a national bank at Pomona, Cal., is under arrest for abstracting more than \$150,-000 of the bank's money. One of his methods was that of extracting the clearings items from the morning mail before they were seen by the cashler or others and destroying all items in favor of an oil company in which he was interested. Of the fifty-six pages of inactive accounts, thirty-six were falsified for a total of more than \$100, 000; not for more than three years had the active and inactive ledgers been footed and balanced on the same

F. T. Arnold, cashier of the First National bank, of New Berlin, N. Y., is awaiting trial because of an estimated shortage of about \$150,000 in the deposit account. He issued certificates of deposit which he failed to register, or if registered the entries were for a lower amount than the face of the certificate called for. It is understood that no one but Arnold was allowed to make any entries in the certificate of deposit register, which is wholly in his handwriting and presents many evidences of erasures and changes in figures. He concealed his stealings in several other ways.

George W. Coleman, bookkeeper of the National City bank, of Cambridge, Mass kent a personal account on the individual ledger. He would "kite" his own checks through a Boston curb broker and take them from the mail as they came back from the clearing house. The cashier never saw the contents of the clearing house, and posted the totals of the letters in the cash book. The general ledger and general cash book were kept by the cashier.

Within five years Coleman looted the bank of more than \$200,000, and is now serving a long term in prison. The directors noticed the reduction of the deposits in the bank and attributed it to competition. The defalcation was not discovered until the books were examined by the auditors of the Harvard Trust company, to which concern the directors had agreed to sell

All such unfortunate occurrences as these and many that have preceded them may be avoided in the future, in the opinion of Controller Murray, if the national banks will co-operate with his office in a plan which he has just suggested to them. This is nothing more than the simple device of sending to his office a carbon copy of the semi-annual report made by the examining committee of the board of directors of each bank-the report which says in black and white what the directors think of their own bank.

PRODUCTION OF GOLD SHOWS BIG INCREASE

The report of George E. Roberts, director of the mint, just issued, gives an extensive review of the production and distribution of gold during the twenty-one years beginning with 1890 and ending with 1910.

The gold production is shown to mount steadily upward, save for the interruption caused by the Boer war, from \$113,000,000 in 1890 to \$454,000,-000 in 1910. The review then undertakes to trace these new supplies of gold into use, showing the estimated consumption of the industrial arts, the absorption of Asia, the amounts taken by new and developing countries, and finally the amounts that have entered into the bank reserves of the important commercial coun-

tries. The twenty-one years are divided into two periods, the first ten years, 1890-1899, and the second of eleven years, 1900-1910. The production in the first period is estimated at \$1,960,-000,000.

During the second period of eleven years production amounted to \$4,037,

The industrial consumption has

about doubled during the period under review

largest factor in the absorption of is close to the earth; he is close to gold and in the expansion of credit domesticity because he is close to during this period is the United | the earth; he is close to doctrinal States. The banks and government treasury increased their gold holdings by \$702,927,944, the national banks increased their note circulation \$557,-800,000, and the national and state ton. banks together increased their loans and discounts from \$5,167,895,610 to \$12,855,503,194. The gain in gold was 106 per cent and in bank loans 115 per cent.

#### BOYS SWAT 21,450 FLIES.

Layton H. Burdette of the Industrial Home school, winner of the first prize in a "swat-the-fly" contest last summer, now leads the competitors in the Washington anti-fly campaign for this season. His score is 11,600 flies killed during May.

William Steiner of 1320 N street northwest, with a total of 9,850 flies destroyed, is second in the race.

Health officials are gratified at the high scores being made by the leaders in the race. Burdette and Steiner together have destroyed more than 20,-000 flies. The enormous size of the fly population ultimately to be developed in Washington this season practically is incalculable, they say.

Dr. Murray, supervisor of the campaign, estimates that on a conservative basis, 5,000,000 descendants will spring from one female fly between now and the end of the season. On the assumption that half of the 20,000 insects destroyed by Burdette and Steiner are females, the number of flies prevented from coming into existence, as a result of their slaughter, Dr. Murray estimates, approximates one hundred billion.

With the activity of Burdette and Steiner already assuring Washingtonians of being annoyed by fewer flies by millions this summer than otherwise would have been the case, health officials say that the five months' campaign, begun in time to strike a deadly blow at the fly when he contends against unfavorable conditions for existence at the beginning of spring, will make the national capital freer of the pest by fall than it ever has been. and the beneficial results undoubtedly will extend over into next season.

#### HOW BIG FORTUNES MELT.

The filing of heavy claims by physicians against the estate of the late Thomas F. Walsh of Washington, D. C., and Denver, was alluded to the

other day by a Colorado mining man. "The doctors' bills," he said, "may be entirely correct and I do not mean to criticise them. Mr. Walsh was a very rich man, but even the biggest fortunes melt under systematic assault or improper management. His' \$5,000,000 estate could have been easily wrecked by the purchase of a few more baubles like the Hope diamond, for which young McLean and his wife, who was Evelyn Walsh, are said to have paid \$180,000, and which was worn by Mrs. McLean for the first time at a brilliant reception given by her last winter. But before the young natron could wear the stone as her for it in the District of Columbia and great trouble and inconvenience were caused them."

### "Movies" Men Balked.

There is one place on earth, anyhow, where moving picture men can't get, and that is in the White House grounds. A moving picture concern dressed up a rube farmer, and undertook to engineer him upon the White House portico, so that a policeman might yank him off the steps, to show a crank trying to make his way into the White House. The policemen were there all right, and they nabbed the pseudo crank, but the moving picture machine "never got no picture." They begged and implored to have it all done over again with the real White House policeman, but that is not what the bluecoats down at the White House are paid for.

### Plea for Revaccination.

American Medicine makes a strong olea in behalf of revaccination. It says that the "perfect protective power of revaccination does not seem to be as widely known as it should be and there is urgent need of more publicity of the facts, now that there is a recrudescence of the anti-vaccination delusion." And, adds this standard American medical journal, "a primary vaccination causes only an evanescent immunity in many cases, and it is this fact which has been used so effectively by the anti-vaccinationists to convince the unreasoning that there is no immunity at all."

Would Have to Wait.

Mr. Marks was discussing the advisability of erecting a tomb for the several generations of the immediate fam-Little Elizabeth listened impatiently. Finally she said with flashing

"No, sir. I shall never go into a tomb with my grandmother. When the resurrection day comes, she'll keep hanging on to me and saying: 'Wait, Elizabeth; you must let the others go first,' and I'll never be resurrected."

Uncle Sam's Big Family. The total population now living under the American flag is 101,000,000, according to corrected figures anhounced by the census bureau the other day.

Ragtime Stops Court. While a street piano played ragtime outside, Judge De Lancy suspended juvenile court in Washington the other day to teach six prisoners how to play "run-sheep-run."

Joy In Being Close to the Earth. The average autochthonous Irish-The country which appears as the man is close to patriotism because he theology and elaborate ritual because he is close to the earth. In short, he is close to the heavens because he is is close to the earth.-G. K. Chester-

Neither Meant Much.

Grant Duff relates a conversation which prevents swearing in its most common light—the swearing for swearing's sake. "Oh, Mr. -, I wish you would not use such dreadful language. It gives me real pain," was the protest. And this the apology: "Pray, don't mind. I swear and you pray, but; neither of us mean much by it."-London Chronicle.

Possible Career for Him.

"Professor, I know my boy is rather slow, but in the two years that you have had charge of his education he must have developed a tendency in some direction or other. What occupation do you suggest as a possible outlet for his energies, such as they are?" "Well, sir, I think he is admirably fitted for taking moving pictures of a glacier."

No Satiety of Knowledge. We see in all other pleasures there is satiety, and after they be used their verdure departeth . . . But of knowledge there is no satiety; satisfaction and appetite are perpetually interchangeable and therefore it apv peareth to be good in itself simply without fallacy or accident.-Francis

Invention Belongs to America.

Gustavus Adolphus of Sweden, whose reign began in 1611, is credited by history with the invention of fixed ammunition. In his cartridge, bullet and charge were united in a paper! case. It was not, however, until 1850 that the first successful metallic cartridge was patented-by an American.

His Mind on Other Things. Judge (to jury)-Have you agreed

upon a verdict? Is the prisoner guilty, or not guilty of theft, as charged in the indictment? Foreman-We have not yet reached a verdict, your honor. I missed my pocket-book in the night, and I would respectfully ask that each uror be searched.

Had an Object.

"An Irishman was sleeping with a companion. In the middle of the night he was discovered out on the floor. Asked by his bedfellow what he was doing there, he calmly replied: 'I got out to tuck myself in." -"Bulls, Ancient and Modern," by J. C. Percy.

Bite That Broke Bulldog's Tooth. At Garrettford a bulldog pounced at the leg of James Martin, of this place. Being an artificial limb, the joint under the knee, largely of steel, closed on the dog's law, held him fast for a own she and her husband were sued | minute and broke off one of his teeth. -Philadelphia Record.

> Sure Cure for Smallpox. The worst case of smallpox can be cured in four days simply by the use of cream of tartar, one ounce dissolved in a pint of water; drink at intervals, is a never failing remedy. It has cured many, and seldom leaving a mark and avoids tedious lingering.

> Keep Watch on Conversation. Nothing in the home life needs to be more carefully watched and more diligently cultivated than the conversation; it should be imbued with the spirit of love. No bitter word should ever be spoken.—J. R. Miller.

> > Make Use of Time.

Know the true value of time; snatch, seize and enjoy every moment of it. No idleness, no laziness, no procrastination: never put off till tomorrow what you can do today.—Earl of Chesterfield.

Women in Poltics.

One of the most significant features of both the Republican and Democratic Conventions was the intelligent participation and interest of the women-not only those that were delegates but also those that were merely spectators. The Baltimore American, in commenting on this, says: "The number of women attending the national conventions and the interest with which they follow the proceedings show that women are taking far more intelligent interest in political affairs than is supposed by superficial general opinion to be the case.

The increasing force of the great movement toward self-government could not have attained this force without including the women, who are finding out more and more how closely government is founded on the home—that the home as a unit of the State has a direct and vital stake in good government, and that the good or ill conditions of the one must inevitably react on the other. It is this knowledge which is opening for women what was formerly for them the closed book of national politics."

#### -+0+-Day of the Lightning Rod.

Missouri recently of John Cole, inventor | flour may be used for sprinkling the rollof the lightning rod, recalls the spectacu- ing pin and board, but the less the better, lar career of that formerly interesting as too much flour takes from the richness figure in the world of commerce and of science as science was understood by the iced coffee at simple afternoon card parlaymen of earlier days.

and girls in plenty now who have never of butter with twice this amount of sugar. safe from a bolt of lightning unless it was fuls of flour with two heaping teaspoon-

provided by the hoodoo vender,

selected by the smooth lightning rod pedler, for the reason that the farmer usually owned his home, and besides, being less importuned by travelling agents, he was more susceptible to their wiles, but in the towns and cities no residence was considered quite copmlete until it was embellished by a lightning rod.

The pedler who was on to his job would drive up to a prosperous appearing farm residence and, equipped with a small storage battery, would proceed to demonstrate to the family the awful fate which awaited if the home was not protected by a lightning rod. Harrowing tales of the destruction of houses, consuming all the earthly possessions of the occupants and frequently resulting in the death of the entire family, were told so eloquently and pathetically that a contract was usually signed without delay and the lightning rod man proceeded to cover the house and the barn with the slender metallic rods, implanting the lower end firmly in the earth and erecting as many shafts above the roof as his conscience would permit, with a rooster or an arrow or some other ornament surmounting the shaft.

When the buildings had been well covered in this way the pedler left on his way to persuade others to allow him to rod their buildings, and a few months later, the farmer was notified by a bank that he was expected to call and pay the amount called for in the contract, a sum which usually surprised the debtor, but as the contract was generally in the nature of a lien on the buildings the owner had no other option but to pay the bill.

But the passing of the lightning rod has been going on for many years and now it is practically unknown except when it is seen on some of the older buildings where it has been perhaps for twenty-five or thirty years, and the people have come to look upon it with about as much respect for its virtue as they have for the left hind leg of a graveyard rabbit. The lightning rod served its purpose, it made several millionaires, and it calmed the feelings of thousands of nervous persons during thunderstorms, but it has gone, and soon it will be recalled only by tradition. - San Antonio Express.

#### ---Receipts Tested and Found Good.

Jelly Omelets.—Use an ordinary omelet receipe, substituting for the pepper a little sugar and using only half the usual quantity of salt. Spread with jelly or jellied fruit just before folding. Sprinkled with sugar and glazed with a salamander It was mighty good of you to these omelets become a French delicacy,

Tutti-Fruti Sauce.-Have ready one quarter of a cupful of cold water, two large spoonful or more of candied fruitcherries cut in quarters, limes and apriwith custards and batter puddings. A emon sauce may be made in the same Be sure and tell the voters in Ohio that way, using grated lemon rind instead of establishing the Technical School. The orange extract.

String Bean Salad.—Tiny young beets boiled till tender are an attractive garnish for the regular scholarships as provided to a bean salad. Place the salad on lettuce, with a circle of crisp lettuce leaves all around it. Just inside arrange the ly difficult to apportion them on any sysbeets in another circle. Do not use onions with a delicate string bean salad. If that any young man in the State whose something of the kind is desired sprinkle with chives. If the delicate beans of midsummer, such as come from suburban gardens, are used there is nothing nicer ty in the fall of 1912, shall communicate than a bean salad. Dress with fine olive oil in a French dressing.

Veal Salad.—Cold roast veal or lamb may be dressed with mayonnaise and garnished with stewed peas, either canned or fresh. The meat should be cut in large dice or very thin, small slices. The peas should be freed from superfluous juice and arranged upon the veal in a mound. Serve the whole up in a bed of lettuce, with small lettuce leaves placed around the whole as a border. Put the mayonnaise in spoonfuls around the peas, as an inner border between them and the lettuce. Individual salads of this kind are very attractive in appearance.

Delicious Cookies-Cream a cupful of butter with two cupfuls and a half of sugar. Add a cupful of sour, thin cream or creamy milk in w ich a level teaspoonful of soda has been dissolved. Sift three and a half cupfuls of flour and stir the other mixture into it. A little grated lemon rind or any suitable flavoring may The announcement of the death in be added before they are rolled out. More ties or with a cup of tea at 5 o'clock.

The farmer was the especial easy mark | half a cupful if richer chocolate streaks are wanted. For plain chocolate cookies leave out the orange and use twice as much chocolate.

#### --Surprise Boxes in Shark Stomachs.

Fisherman in the Caribbean sea recently found in the stomach of a shark which they had killed a good sized bottle in which was a half-decipherable letter from a shipwrecked sailor. Many such relics have been found. In one case a lady's bracelet was found in a state of perfect preservation, together with a silver spoon and a thousand Spanish reals

in money. The curious feature of the finding of the money was that it was in an official receptacle lost in the city of Spanish Town (Jamaica) during a negro uprising in the seventeenth century. Where had it been meantime? Surely not in the shark's stomach, unless the shark lives a much longer time (or some of them) than science has any reason to suppose possible. On the other hand, if in the sea it would have been rendered unrecognizable in a few weeks. Had it been in the possession of some one shipwrecked, why had it been left intact? The conclusion was inevitable that the shark must have fished it out from a compartment of some long-submerged vessel.—Harper's Weekly.

#### Wooing Gentle Slumber.

The case of a young woman in whom hard study of metaphysics has produced Advanced Technology in connection with sleeplessness was recently called to the atthe Johns Hopkins University did not tention of the readers of "The Press contemplate the opening of the School Forum." Several suggestions of a remedy have been offered, ranging from light anxious to show its appreciation of the literature to raw onions. In every sugtrust committed to it by beginning the gestion there is an assurance of effiacacy to overcome the demon of insomnia.

During the hot nights of July and Au-While it is clearly impossible to organ- gust the city dweller, though normally a ize and open the School of Technology in sound sleeper, must be content with light October 1912, the University authorities or even broken slumber at best. This, have decided to take the first step at however, is different from the sleeplessness which comes from the nervous or courses of instruction which are essential disturbed mental condition usually presto technology. Properly qualified stu- ent in those who suffer from insomnia. Specialists in nervous diseases are united Technology, when it is organized, will be in warning sufferers from reading or admitted in October 1912. They are ad- study that has an exciting effect on the vised to take the regular entrance examilarin; but they prescribe sedative "bed nations of the University. Those unable time books' which exercise a soothing

Individual temperament and literary taste should be consulted in choosing a "bed time book." Thackeray discourses delightfully in one of his "Roundabout Papers" on his own "bed time books," but Thackeray's choice would not suit everybody. Many persons have recognized the "Roundabout Papers" as an ideal "bed time book," including a genial outlook on life; but here again tastes differ. Lamb's "Essays of Elia" may induce the desired calm in one mind which another would only derive from a volume of religious meditations. A few pages of Wordsworth's poems may bring mental repose to many who suffer, while others will find that solance in some such sentimental classic as Donald G. Mitchell's "Reveries of a Bachelor" or "Prue and I," by George William Curtis.

As a rule, however, it is better to avoid novels, and even short stories. The sufferer who commits to memory Words worth's sonnet on "Sleep" and repeats it over as the head touches the pillow cannot fail to derive considerable benefit from it. Many of the specialists recommend it. Physical conditions must also be taken into account. The sufferer should never retire without partaking of some food—possibly a glass of milk in Summer, malted milk in Winter, or the blocd to the stomach and away from the head, and the presence of too much blood in the head accompanies insomnia and

To return to the young woman who studies metaphysics, it is evident that she should change her course of reading and select some "bed time books" which will soothe and not excite the brain. --

#### What Makes A Woman?

One hundred and twenty pounds, more or less, of bone and muscle don't make a woman. Its a good foundation. a woman. Its a good roundation. Its into it health and strength, and she may rule a kingdom. But that's just what Electric Bitters give her. Thousands bless them for overcoming fainting and dizzy spells and for dispelling weakness, nervousness, backache and tired, listless, nervousness, backache and tired, listless, have cup of hot water—which many persons take each morning—will make it palatable.

Do not gargle with salt water. Throat specialists consider it injurious to the tender mucous membrane of the nose.

Salt water rots the hair, so never fail

### The Ice Cream Boom.

Not this week, this month, especially, or this year, but every year, many months, the growth of the ice cream industry in the United States is one of the most extraordinary phases of industrial expansion. It is so much out of the ordinary routine of business that it may fairly be called a continuous boom.

In 1906 the consumption of ice cream in the United States was about 55,000,000 gallons. In 1910 it had increased to 100,000,000 gallons. Last year the consumption reached the prodigious total of 120,000,000 gallons. That means about five quarts for every man, woman and child in the country, on the average. As many millions eat no ice cream, or scarce-leave it is elegated to be a leave part of the country. population must far exceed the five-quart mark. Not a few must consume 50 quarts or more apiece.

Other ice cream statistics are likewise impressive. It takes about 1,800,000 tons of ice to freeze the cream and not less than 480,000 tons of salt. No one has calculated the work of the control o calculated the wear of spoons, the break-age of dishes and other incidental features of this great industry.

Obviously, the American taste for ice cream is getting stronger and more urgent. It is plain that the ice cream girls alone could make no such market for frozen sweets.

During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When rigerator. Do not put ice in the water.
Fourth—Squeeze lemon juice into a ottle and evector and desired. Clash to our rought and evector and desired. Clash to our rought attention at this time serious trouble may be avoided. Chamber-lain's Colic, Cholera and Diarrhœa Remother and evector and desired. sale by all dealers.

### Much in Little.

#### SLIPPERS ARE OF ALL KINDS

Either For Service or for Appearance, There Are Any Number of Designs to Choose.

Slippers in rich shades of dark red, blue and violet combined with gold and silver are worn with gowns introducing those tones.

These metal brocades can trace their popularity to the rich oriental effects introduced by the evening gowns. The slippers of paler tints in kid and satin are not considered "good

style" for the present in Paris. The sandal slipper is generally well liked. With four or five shapes ornamented with cut steel buckles, richly beaded, embroidered or jeweled, they fittingly dress the feet for formal oc-

A number of these have elastic goring at the sides, causing them to fit snugly. Many of these appear in the popular combination of black and Another recent development in the

world of fashion is the wearing of black patent leather slippers with white hosiery Tan-colored leathers are the correct

thing for street wear. They harmonize with the tans and browns that are the popular colors for the tailored

Slippers for less formal wear feature the military heel in preference to the Louis Quinze.

## SILVER AND VELVET

This model is of silver with odd revers-collar of liberty or velvet of a darker shade, which is finished at the bottom with a large motif of heavy silk embroidery. The sleeves are finished with cuffs made to correspond.

The chemisette and undersleeves are of tucked white tulle or muslin finished with little ruffles of the same. The girdle is of the liberty.

### SMARTENS UP OLD WAISTS

Little Bolero of Embroidery in the Latest Fashion, Surely Will Work Wonders.

Some of the new dress garnitures are really net boleros, resplendent with jewels, spangles and beads. They are so elaborate as to suggest the glitter of the stage dancer, but are not overgenerous when worn with the dark gown of simple lines. A good device in making over the last year's dress is to use the little bolero of embroidery. It will make an old waist look very smart. Oriental embroideries may be used in this way to good advantage.

The most economical and satisfactory way of obtaining a hand-embroiing, padding and making the waist. A blouse embroidered in this way is just as truly hand embroidered, with the added advantage of being quickly and accurately done.

### Cult of Gathers.

In many of the little lingerie dresses a slight fulness is distributed in gathers about a waistline that has again shifted to about its normal position. These gathers, however, are only possible for slim figures. They are flattened into tucks for more portly forms. An attractive yoke is made by shirring this fulness over cords, but let the one with the least tendency to plumpness beware of this effect if any tidiness of figure is prized. The horizontal lines of these cords about the hips have a directly opposite effect from the long, vertical lines on which everything has been planned for some seasons past-so there is a discount on one's height. Naturally, any fabric intended for shirring over cord must be of a decidedly diaphanous nature. Where a second material is used for trimming, chiffon cloth is found very successful, because this season it can be used with almost every sheer textile that is used for summer frocks. Then, too, it comes in almost every possible shade of all colors. As another qualification in its favor it has just sufficient resiliency of texture to keep it from getting a flattened out, crushed look after being worn a few times.

### Water on the Face.

Hard water, if use daily on the face, will soon age you and make the skin coarse and discolored. Distilled water if used only on the face is not very expensive, as you need only dampen a corner of the towel with it, peutic problem on a guinea pig and then to wipe the face in the morning, if the skin has been cleansed with the cleansing cream at night.

# Hair Falling?

You certainly cannot lose your hair and keep it, too. Which shall it be? Lose? Then do nothing. Keep? Then use Ayer's Hair Vigor. That is about all there is to it. Aver's Hair Vigor is also a splendid hair-dressing and hair-tonic. It keeps the hair soft and smooth and greatly promotes its growth. It does not color the hair. Consult your doctor freely. Doctors are studying these hair questions much more than in former days.

Lesson IV .- Third Quarter, For July 28, 1912.

THE INTERNATIONAL SERIES.

Text of the Lesson, Matt. xiii, 24-30, 36-43-Memory Verses, 37-39-Golden Text, Matt. xiii, 30 - Commentary Prepared by Rev. D. M. Stearns.

This is the second parable of the series of seven recorded by Matthew as one discourse spoken partly in public to the multitudes and partly in private to the disciples on the same day, but all referring to this present age of Israel's rejection of her Messiah and the consequent postponement of the kingdom. It is truly great and gracious condescension on the part of God to make known to us His purpose. "His eternal purpose which He has purposed in Christ Jesus our Lord" (Eph. iii, 11), for "known unto God are all His works from the beginning of the world," and all that comes to pass is simply what His hand and counsel determined before to be done (Acts xv, 18; iv. 28). See also Acts ii, 23; Isa. xlvi, 9, 10; xiv, 24; Eph. i, 11. Because people who have the word of God, and therein His mind and purpose, do not agree with Him they become conceited, wise in their own estimation, and talk and act unwisely and attempt to carry out plans never devised in heaven. Those who are appointed to teach the word of God are greatly to blame if instead of speaking His word faithfully they act like the false prophets in the days of Jeremiah and make people vain. speaking a vision of their own heart

and not out of the mouth of the Lord. According to the words of our Lord in these parables during this present age up to the time of the harvest, only part of the seed sown will bear fruit. It will be as when Paul dwelt at Rome -some believed and some believed not (Acts xxviii, 24). Side by side with the children of the kingdom will flourish the children of the wicked one. These unbelievers will be found within the professing church, as the birds in the branches, and the food of the church, that which preachers give to the people, will be anything but sound doctrine, for that the people will not endure. It will be and even now is as in the days of Isaiah when they said. "Prophesy not unto us right things; speak unto us smooth things; prophesy deceits; \* \* \* cause the holy one of Israel to cease from before us" (Isa. XXiX, 10, 11). Our Lord elsewhere foretold these things in Matt. x, 16-18; xxiv, 24. In these four parables, and notably in this one, we see the great adversary, the devil. He hates the word of God, takes it or keeps it from people, gets his followers into the professing church and into her pulpits. and yet the Lord is working out His eternal purpose, and He shall not fail not be discouraged (Isa. xlii, 4). The kingdom cannot come while the devil continues to be the prince of the power of the air, the prince or god of this world (Eph. ii, 2; John xlv, 30; II Cor. iv, 4), but when the stronger than he shall cast him out of the air and off the earth into the bottomless pit (Rev xii, 9; xx, 1-3) then a king shall reign in righteousness, and the effect or service of righteousness shall be peace. and the nations shall learn war no more. All talk about winning the world for Christ in this age, or extending His kingdom, or uplifting the race, is without Scriptural authority. and all pride of church or denomination or mere human effort of any kind is not of God, but from him who would have men think that they are gods. Note carefully our Lord's explanation of the parable of the tares. In the first parable the seed is the word of God, but in this the good seed are the children of the kingdom, those who have received the word of God (John i, 12). The tares are those who be lieve the devil and are therefore his children. There are just two great leaders, the Son of Man and the devil. and the conflict is between them for man and his inheritance, the earth We must not think of tares as the openly ungodly, but as something so like the wheat that some cannot tell the difference. The tares represent religious philanthropic people of culture and refinement, people who are admired and esteemed and by many considered the very salt of the earth. There is one very decided mark which distinguishes the wheat from the tares-true children of God confess themselves sinners and accept Jesus as God and put all their trust in his precious blood. the great sacrifice for sin. All others must be tares, for "he that hath not the Son of God hath not life" (I John v, 12). The devil will tolerate as much religion as any one may desire, and a beautiful character and abundance of philanthropy provided the sacrifice of Jesus Christ as the sinner's only plea is not mentioned. The Lord knoweth them that are his. Let us be sure that we are redeemed by precious blood and then ever and always without dis couragement sow the good seed of the word, ready as seed ourselves to fall into the ground and die that we may win others. I was greatly helped a one time by a remark of the late Dr Arthur T. Pierson to this effect: Your parish is not your field; the field is

the world, and your parish is a force

that God has given you to train that

he may use you and them to work the

field. Those who do not see the re-

sults they are looking for will be

helped if they remember that when

the devil sowed his tares he went his

way. He knew that they would grow.

## CHRISTIAN ENDEAVOR.

Prayer Meeting Topic For the Week Beginning July 28, 1912.

Topic. - Missionary progress in North America.-Acts ii, 1-21. Edited by Rev. Sherman H. Doyle, D. D.

Four hundred and twenty years ago today the continent of North America was inhabited by hordes of savages, many of whom possessed none of the characteristics that go to make up a desirable civilization. The name of Jesus Christ had never been heard on the continent, and the cross of Christ had never been lifted up. Today there is on North American soil, the most advanced Christian nation in the world, a great colony of the greatest Christian empire, and among every class of people on the continent which is not yet evangelized the work of evangelization is rapidly going on. The history of the world has no other record, from the Christian standpoint, in the same space of time that equals the progress of Christianity in our own land. On this continent and its adjoining islands there are many nationalities and many tongues, and yet. as on the day of Pentecost, they hear the gospel, every man in his own tongue. From Alaska to the island of Porto Rico, in British America, in the United States, in Mexico and in Cuba missionary progress is being con-

stantly made. Missionary work is transforming the entire life of the Alaskans. They live in different kinds of houses, dress differently, and in every way the gospel has changed them. Their houses are warmer built and kept cleaner. Garments used to be made of pieces of calico or blankets. But today the people wear warm clothing, underwear. shoes, stockings, skirts and dresses. trousers and boots. One unfortunate feature of Christian life in Alaska is the practical absence of a Christian Sabbath. Steamers ply the harbors, industries and mines are kept running four of the boys this winter." seven days in the week. Christian business men who will observe the

Lord's day are sadly needed in Alaska. In the United States proper, in addition to the continuation of the work among the exceptional populations, such as the Indians, Mormons, etc., progressive mission work is being done among various other classes. The gospel is being systematically carried to the thousands of timbermen in the states directly on the Pacific ocean. The miners in the foothills of the Sierras are receiving attention. The shack is often the home of the missionary and his wife. There is a revived interest today in the rural churches of the older states, which were at one time most flourishing, but which for years have been largely abandoned or neglected. Efficient missionary work is being carried on among the Chinese, Japanese and Koreans of the United States. There are groups of Korean Christians in California, and here, as at home, their Christian standard is very high. At great expense and with much labor progress is being made among the foreigners in our great cities, our industrial centers and agricultural regions. The Bible and other literature have been translated into many tongues and is scattered broadcast. Churches have been established and are growing in numbers and in spiritual power. Particular efforts are put forth to reach the young, who can be led the more easily to give up habits of their fathers which are un-Christian and un-Ameri-

Missionary progress in Mexico and Central America is not all that could be desired. The local conditions are usually very disadvantageous. It is hard to overcome the deep rooted beliefs and prejudices of centuries, and nowhere are they stronger. The conditions in Mexico are especially distressing and deplorable. The troublous times, the constant state of warfare, make great progress absolutely impossible. It is most gratifying, therefore, to turn to Cuba and Porte Rico, where "every prospect pleases" and man is more Christian and less vile. Sabbath schools are a marked feature of missionary work in Cuba In Havana park preaching has re cently become a means of reaching thousands who could not be induced to attend the regular church services In Porto Rico the various Protestant denominations are harmoniously as work. New churches are being built Men's brotherhoods are being organized. Medical missions are also playing an important part on this island One medical missionary writes: "The work has assumed a more permanent character. I feel that we are getting into the bearts and lives of the people and that they not only need us, but want us. We have more or less minor surgery ever day and have extracted teeth literally by the thousands! We open our clinics daily with a prayer service and have from thirty or forty patients in a day to as high as 125 or 150." Such medical work cannot but win the hearts of the people, and these won victory is assured.

BIBLE READINGS.

Ps. ii. 1-12; Isa. xxxv, 1-10; Dan. ii, 31-35, 45; xii, 1-3; Mic. iv, 1-3; Matt. x, 1-8; xiii, 31-33; Acts i, 8; Rom. ix, 1-5; x, 11 15; 1 Cor. iii. 5-10; 11 Cor. xi, 23-33.

A Vice President's View.

I am a great believer in the efficiency of the Society of Christian Endeavor In fact, I think it is one of the most potent agencies for good in our entire midst.-Hon. Charles W. Fairbanks.

## Heart Hunter

By Izola Forrester

(Copyright, 1912, by Associated Literary Press.) Russell did not look up at the schoolhouse window when he drew rein. He knew that she could see

him from her desk, and the outer door was wide open. It was well after four, and all the children had vanished down the four roads leading from the schoolhouse corner. They were quite alone, if one excepted the red squirrel who was tenant for life in the elm that was king of the playground.

It was half a mile to the nearest farmhouse. All about lay June fields, rich in lush grass ready almost for mowing. The air was golden, warm, hazy, lazy, wooing one to forget duty and day's work. Russell was heavily burdened with both at present. As superintendent of schools in Laverne county, it devolved on his shoulders to let the teacher go at the little Flaxy Bend district, because of inattention to duty and general laxity of conduct

That was exactly the wording of the charges in Mrs. Deacon Mabry's letter that reposed in his coat pocket. He didn't intend to show it to the

So simple it seemed, so hard it was to do. He had fought against it for nearly a week, remembering her upturned, earnest face, so warm and tender in its brunette tinting, the big, brown eyes, and childish mouth that drooped wistfully at the corners, the dark hair bound smoothly around the small head, with a big, black velvet bow on one side. That bow had been an offense to the enemy even, at least on one side.

"She ain't stiddy enough to teach," old Mrs. Mabry had insisted. taught considerable after Myron and me were married, but I was stiddy. It's a known fact that she's settled

"Settled them? You mean expelled

"No, I don't, Mr. Russell. I mean just what I say. She's carried on girl-fashion with Nate Hoskins and

"I'm Afraid They Don't Like Me Very Well-Do They?"

Benny Everitt and Walter Bennings, and even with Lonnie Murray, and they've every one of them lost their heads over her and proposed, and she's refused them all."

"Well?" Russell tried to speak mildly, remembering the various attractions of the aforesaid four boys. "maybe she didn't intend to have them take her seriously, Mrs. Mabry."

"And if she didn't, then she's lightminded, and a heart hunter, if I do say it myself, Mr. Russell. what we always used to call them, heart hunters, and their minds don't go any further than hunting them, and letting them go as soon as they're caught."

Russell remembered the whole conversation now as he stepped into the little shadowy schoolroom, low-ceiled, cool, with fern boxes at the windows and bunches of June roses on the desks. Rose was her name, too, he remembered—Rose Phillips. She turned her head now, a quick smile of welcome and surprise on her face. "Did you come to wish me good-

Russell could not help but smile

by?" she asked.

education.

back. He laid his cap on one of the first row desks and stood looking at her as he drew off his gloves. She could not have been over eighteen. In spite of what the school committee had reported, he knew that the little school had made actual progress under her care and tuition during the past term. He knew the children loved her dearly. The little room itself bore witness to her influence. It had been a barren place before her coming. A few old yellowed maps hung on the walls. There was a

wheezy melodeon in one corner, with

most of the ivory off the keys and

one pedal broken. The stove was a

little, inadequate drum affair, with

three legs to stand on. Since her coming the whole place had been changed. The children had given little entertainments and earned money for a new stove, for new globes and window boxes, and little fresh muslin curtains at the windows. At the school examinations they had led the other township schools, and before her days, Flaxy Bend district had been a problem in

"Yes," said Russell, with almost a sigh, "I came to say good-by."

She waited a minute, chin raised, eyes questioning.

"Where did you tell me your home was, Miss Phillips?" he asked, leaning over the top of the tall desk, and fingering a pink rose that was nearest to him.

"Vermont. It's only a little bit of a place where the trains stop if they are flagged. We call it Phillips'

Crossing." "I suppose you'll be glad to get

home." "Not so very." She spoke reluctantly, with a little uplift of her shoulders. "You see, I have a stepfather, and I am the only child from the first marriage, and there are seven little ones now besides. They don't miss me a bit, unless it's a good

"Why did you come way down here

in the country?" "Because I was in a hurry to go to work. The city schools won't take you unless you've been through Normal, you know. I like it out here. The work was hard, but the victory was so much greater, and I do think the children love me."

Russell caught the little wistful touch in her voice.

"The old folks are peculiar, aren't they? Hard to get along with." "I'm afraid they don't like me very

well-do they?" "They say you're a good teacher,

Rose waited and looked up at him quickly. Her brown hair was very near, with its soft satiny braids. Before he really meant to, he had tucked the pink rose among them.

"It looks much better there," he added, and wondered why his own pulses were racing suddenly, like brooks in April.

"But what? Please—please tell me?" she pleaded, drawing back, but "What do not removing the rose. they say?"

"They say you're a heart hunter." She leaned back her head and sighed, her hands clasped back of the rose, her eyes looking past him out of the first open window.

"They mean the boys, I suppose, Nate and the rest. Could I help it? Now, truly, could I, Mr. Russell? You know just what boys are. They'd come here every day, and bring all sorts of things to me that I didn't want. Why, Lonnie even used to bring me fox pelts for a cloak, of all things. Boys are always boys, and they get over it so quickly. I was

just as nice to them as I could be." "I am not blaming you-nor them," sadi Russell a bit unsteadily. "Only I agree with the deacon's wife that you are a very dangerous and disturbing influence to have around these peaceful parts."

The tears glistened in her eyes. "Oh, you don't really mean that?" she said pleadingly. "Are you trying to tell me I cannot teach here

Russell stared awkwardly down at her head, as she leaned it on folded arms, and her shoulders shook with

"I've tried so hard, and the children all love me," she said brokenly. "I didn't want to go back home at all. I was going to board here all summer, and rest-"

Then suddenly it dawned on Neil Russell why he had driven ten miles that afternoon to make all fit and due explanations to the teacher instead of writing. He knew just why he had thought of nothing but her tender lips and dark eyes and low contralto voice for weeks past. He knew why he had saved every scrap of writing she had ever sent him, and why he carried in an inner pocket a little tan suede glove he had found beside her chair after a board meeting one day. Oh, yes, he knew now, and he imprisoned both her hands in his and raised them to his

"Rose," he said. "Stop crying. I've brought you another heart,

dear." She stopped sobbing, but did not

raise her head. "I haven't any one in the world myself. I came up here from New

York and got along well. There's enough saved in the bank to buy us a good home in the fall. I think I could make you happy, Rose, if I may wear you, dear."

"What would you tell the deacon's wife and-and-all the rest?" she asked faintly.

"That I had to dismiss you because I couldn't let my wife work," he "Won't that do for a whispered. good excuse?"

Youthful Bigotry. "There is a thoughtful boy in an Antrim village who listened one Sunday to a statement made by his Sunday school teacher that God had created all things, and all men. 'Did God,' he asked, at last, 'make the Papists?' He had been taught to reverence the Almighty, and it seemed impossible that He could have been guilty of that. The teacher assured him that God had really made even them. The boy pondered the information for a minute, and then gave his opinion briefly and forcibly. 'He'll rue it yet,' he said."—"The Lighter Side of Irish Life," by George A. Birmingham.

The Reason. "He makes but a bald attempt at a living." "How is that?" "He is a hair specialist."

No Question About That. Heck-If I ever marry I'll rule the roost or know why. Peck-You'll know why all right .playing.—New York Sun. Boston Evening Transcript.

## The New Perfection Oil Cook-stove Suits Everybody

It suits the most exacting French chef. It suits the housewife. It is found in luxurious villas—in camps—in farms—in humble city homes. Everybody uses it; everybody likes it. It is the all-round stove for all the year round. It bakes, broils, roasts and toasts as well as a coal range. It is equipped with a special heating plate, and we sell the New Perfection oven, broiler, toaster, and pancake griddle—each specially designed for use with the

# New Perfection Oil Cook-stove

All dealers sell the stove. It is handsomely finished in nickel, with cabinet top, drop shelves, towel racks, etc. Long chimneys, en-ameled turquoise-blue. Made with 1, 2 or 3

Ant Fireworks.

There has been observed a curious phenomenon connected with the nests of the Brazilian white ants or termites. These when seen on the headwaters of the Rio Verde seem to be covered with tiny stars, which give the nests the aspect of a miniature tower brilliantly illuminated. When the nest is struck with a stick the lights go out, only to reappear again little by little.—Harper's Weekly.

True Culture.

"Culture is knowledge gained not for its own sake, but for the sake of the refining of the mind and the sweetening of the world. To know by head rote and not by heart rote, all the rules of politeness would never make a man polite. Knowledge is for loving use."-"Literature and Life," by Rev. L. Maclean Watt.

Columbia's First Bookplate.

The first book plate for the library of Columbia college was made in 1795. It was designed and etched on copper by Alexander Anderson, the first American wood engraver, while he was a medical student.-Dietetic and Hygienic Gazette.

No Perfection in Humanity.

Practically no human being is perfect. Even those that stand for splendid health and development usually lack in some respect; and the rank and file of men all have some weak point. With one it is a heart not quite perfect, with another a lung, and so on.

Have Ever Some Occupation. "But women-be they of what earthly rank they may, however gifted with intellect or genius, or endowed with awful beauty-have always some little handiwork ready to fill the tiny gap of every vacant moment."-Hawthorne, in "The Marble Faun."

T. R. Wants Rebels Too.

Oyster Bay, N. Y., July 12.-A protest against any hint of sectionalism on the new Progressive party was made to-day by Colonel Roosevelt who said that he did not "care a rap" where a man was born or whether his father wore the born or whether his lather wore the blue or the gray so long as he was the right type. Colonel Roosevelt was told of a speech made yesterday by Major General Daniel E. Sickles, of New York, at the meeting of the organization of the new party in this State. Major Sickles was quoted as saying Woodrow Wilson was "born amid rebel surroundings, and that we of the North have never been that we of the North have never disposed to put such a man in the White

Colonel Roosevelt said he could not discuss the speeches, but that it was the desire of the founders of the new party to make the movement one which would

truly represent all sections of the country.

"The call for the progressive convention," he continued, "stated that this was to be a Nation-wide, non-sectional movement free from any of the sectional or other jealousies and bitternesses of the past. We appeal alike to the men who wore the blue and the men who wore the grey and to the sons of the men who wore blue and to the sons of the men

the kinsfolk of my father served in the

Union army.

"No man has been more prominent in this movement than Judge Ben Lindsey born in the South, whose father served in Forrest's Cavalry. All I ask is that the man himself be of the right type and tion with the Snyder Automobile Co., of patriotic spirit and I don't care a rap where he was born. -404

## Its Only Purpose.

"O Willie, Willie," cried a teacher to a hopelessly dull pupil, "whatever do your think your head is for?" Willie, who evidently thought this another of the troublesome questions that teachers were always asking, pondered it deeply. "Please, miss," he replied at length, "to keep my collar on!"-Youth's Companion.

## The Best Way.

A correspondent wants to know how to pronounce Chihuahua. The best way mind of the people of the United States today, for they have grossly exaggerated to pronounce Chihuahua. The best way is to say Chy-hewa-hewa and then laugh as though you knew better. If it is done artistically you can get away with it nearly every time. The same treatment has been frequently applied to decollete with great success.

#### TRUSTEE'S SALE - OF A --DESIRABLE FARM

situate in Uniontown District, in Carroll County, Maryland. By virtue of a Decree of the Circuit Court for Carroll County, sitting as a Court of Equity, passed in Cause No. 4654, on the Equity Docket of said Court, wherein Ezra C. McGee and others are complainants, and Albert McGee is defendant, the undersigned, Trustee therein named, will sell at public sale, to the highest bidder, on the premises, on

WEDNESDAY, AUGUST 14th., 1912, at 2 o'clock, p. m., all that desirable farm. formerly owned by John McGee, late of Car-

70% ACRES OF LAND.

more or less. The improvements consist of a two-story, L-shaped, frame-weatherboarded DWELLING HOUSE, with basement and attic; summer house, good bank barn, wagon shed, with hog pen, wood shed, double chicken house, and a large scratching shed, and other necessary outbuildings. There are three wells of fine water on the premises; one of them at the dwelling house, one at the hog pen and one at the barn. About Five or Six Acres is good oak and hickory timber land; the balance of the property is in a high state of cultivation; well fenced, and watered by a running stream. There is also a young orchard of apple trees, and a large number of other fruit

ple trees, and a large number of other fruit trees on the premises. This desirable farm is situate between the County Roads leading from Uniontown to Taneytown, and from Uniontown to Middleburg, and on the public road leading from said Taneytown road to the Middleburg road, and is about 2 miles from Uniontown, and adjoins the lands of Samuel Harman, J. T. Starr and others.

VALUABLE FARM

Four Miles North of Taneytown, in Tantown District, Carroll County, Maryland.

By virtue of a decree of the Circuit Courf for Carroll County, in Equity, passed in cause No. 9671 Equity, wherein Edith B, Hilterbrick, infant, and Margaret A. Hilterbrick are plaintiffs, and Fred H. Hilterbrick, infant, is defendant, the undersigned Trustee will offer at public sale, on the premises below described, on

THURSDAY, AUGUST 8th, 1912

# JNO. MILTON REIFSNIDER, Solicitor. 7-19-4t
