TANEYTOWN, MARYLAND, FRIDAY, OCTOBER 18, 1912.

Please watch the Date on your Paper. No. 16

BRIEF NEWS NOTES OF GENERAL INTEREST. -+0+-

Gleaned from the County and State and our Exchanges.

A two weeks revival service is now in progress in the old stone Meadow Branch church. The evangelist is Elder Benj. B. Garber, of Washington City. The meet-ing is well attended, and the sermons above the average.

-000

The W. M. R. R., had another bad wreck, on Sunday, near Williamsport, when eight loaded freight cars were de-

Governor of Pennsylvania on October 28th, by R. Hayes Dutton, Rufus A. Colehouse and George D. Giut, of Han-over, for a charter for the Littlestown Gas Company. The new company will supply gas to the citizens of Littlestown and to reitors redicernt and territory adjacent.

Don't forget the Maryland Week Exposition at the 5th. Regiment Armory, Baltimore, Nov. 18-23. Every county in the State should forward samples of the best they can produce, whether grain, to-bacco, fruit or flowers, for same will not only be educational but will advertise your vicinity and help crop improvement in other sections in the State.

When the season for hunting rabbits and partridge in Frederick County opens on November 1, sportsmen cannot, as formerly was their custom, hunt wherever they please. A local law passed and signed at the last session of the Legislature makes it mandatory that they secure permits from landowners to hunt on their grounds and imposes a heavy fine for violations.

Women nouseccepts, in a monoch of Western cities, have formed co-operative agreements, and will buy direct from the producer, car load lots of potatoes and apples, and will also buy large shipments of eggs and butter. They will experiment, first, with large shipments of staples, and if the plan works, they will order canned goods and other articles in the same goods and way.

The York Ministerial Association has made formal protest against the York Agricultural Association for conducting last week an "unclean fair." This protest in writing will be sent to the County Commissioners and the Auditor General of the State, asking that the State appropriation of \$1000 be withheld from We believe in the Initiative, which, if in force in this state, would enable the fair society. The ministers al lege that immoral shows and gambling were permitted.

(For the RECORD.) Will you permit us space in your col-umns that we may be able to give some

On the "Cost of Elections."

light on the "cost of Elections in Carroll County" to the tax-payers and voters in this county, in addition to what you have

been doing so well in the past. I want to say, in starting, that your condemnation of the Direct Primary is not merited, because it is the only item of election legislation since the year 1900 The Meadow Branch Turnpike Com-pany has advertised its tool-gate and that has one iota of fairness in it, and stone crusher for sale, preparatory to go-ing out of business, as the road is ready to be turned over to the state. dynamic power it is to exert in the dissolution of political households, has, we be-lieve, been as yet unmeasured.

Elections in this county have been costing a pretty smart sum in these latter years, a cost that we believe is not justi-fied. A reference to our files of your paper in your issue of August 9th., 1912, is published the annual statement of the Board of County Compissioners of Cor Board of County Commissioners of Car-roll County. In that statement, Mr. John M. Roberts, chairman of the Board of Election Supervisors, is made to have received for salary, \$175.00; for deliver-ing registration books, \$\$4.00; for putwhen eight roaded frequencies in the same Board, for like services, \$545.70. when eight roaded frequencies in the same Board, for like services, \$545.70. the vertex was caused by a car jumping the track near the front end of the train. An application will be made to the Governor of Pennsylvania on October 28th, by R. Hayes Dutton, Rufus A. Colohouse and George D. Giut, of Han-It would seem that for time actually em-ployed as officials of the state, these men received in the neighborhood of \$50.00 per day.

Upon a rather careful examination of the Election Law, we find in Sec. 2 (Chapter 296, Acts of 1902) "Each Super-(Chapter 296, Acts of 1902) "Each Super-visor of Elections of any of the Counties of this State shall receive an annual sal-ary of * * * * an amount not exceeding one hundred and fifty dollars," and Sec. 59 (Chap. 2, Acts of 1901), the sev-eral Boards of Supervisors are "respect-ively authorized and directed to make adequate provision for the performance of the duties imposed upon them by this Section (the delivery of books, ballot boxes, tickets, etc.), and the County Commissioners * * * * shall pay the ex-Commissioners * * * * shall pay the ex-penses incurred in the performance there-of." Nowhere else in the entire law have we been able to find any authority for additional pay for their work. In view of all this, have these men been paid the above sume lerally or have they been above sums legally, or have they been voted gratuities ?

Women housekeepers, in a number of Vestern cities, have formed co-operative Sentinel Co., \$315.70 for services rendered in the shape of printing. Quite a snug little pile to fall heir to. Along other lines we have similar generous treatment doled out to sundry individ-uals who have happened to be in the enjoyment of political preference.

Of the entire sum spent for Elections in 1911, but a small part of the total was charged up to actual primary expenses and this was very nearly counterbalanced by what was paid by the candidates. We believe in the Direct Primary and that the future will demonstrate its useful-

ness, as it has done in other states. We believe in the Initiative, which, if

ROOSEVELT SHOT BY NEW YORK MADMAN. ----

Manuscript of Speech in Breast Pocket Saved His Life.

Col. Roosevelt was shot in the right breast as he was leaving his hotel in Milwaukee, on Monday night, for the auditorium to make a speech. The Col. kept his appointment and made his speech, and afterwards submitted to an examination by surgeons, and later took a train for Chicago where he was taken to a hospital

His assailant was overpowered after firing but one shot. He gave his name as John Schrank, of 370 East Tenth St., New York, and from writings found on his person he is evidently unbalanced in his mind. He expressed himself after the shooting that "any man looking for a third term ought to be shot," and from the papers found on him he appeared laboring under the delusion that Roosevelt was the murderer of McKinley, whose spirit called on Schrank to avenge him. Roosevelt, at first, did not know that he had been hit, and made light of the affair, and even after he realized that he had a bullet in him, felt so little pain that he insisted on making his speech, which he did with apparently little dis-comfort. The bullet passed through his overcoat and other clothing, a doubled manuscript, and a spectacle case, which diminished its force.

On arrival at Chicago, Col. Roosevelt was at once taken to Mercy hospital, where an attempt was made to locate the ballot, but it was decided not to use the probe at this time. The patient has been eating heartily, and insists that he will go home to Oyster Bay, on Sunday. There is little fear of any serious consequences unless blood poisoning should set in, as the ball apparently did not affect any internal organ. The bullet ploughed its way upward and rests not far from the breast bone on the right side, about five inches below the collar bone.

Shrank, according to his statement, has been following his victim for several weeks trying to get a good opportunity to shoot him. He is described by New York people who know him as a man of temperate habits, but, of an extremely morbid and nervous disposition. He appears to have inherited a temperament bordering on in-sanity. He does not appear to have con-nection with any anarchistic society and seems to have acted solely on his theory that "a man who wishes a third term has no right to live.

Opinions are divided as to the effect the shooting will have on the campaign. Many think that Roosevelt will now get Many think that Roosevelt will now get thousands of sympathetic votes, and that his display of nerve will appeal strongly to worshippers of physical "heroics;" while others take the view that his re-mark, that he would "make his speech if it killed him," shows the dangerous "do or die" side of his character in such an omphatic more that if that if the time the time the emphatic way that if the event will have any effect at all, it will lose him votes.

Schrank later gave a more detailed con-fession, all based on the idea that "a man who wants a third term has no right to voters of Carroll county to say whether it was the just thing for \$12,000,000 of the wealth of the county to be exempt from in order to get to be President.

The U. B. Conference. Frederick, Md., Oct. 12.-The feature of the United Brethren Conference here

to-day was a pilgrimage to the Peter Kemp farm, two miles from this city, where the first general conference of the church in the United States was held September 25, 1800. It was at this conference in the old stone house still stand-ing that William Otterbein, Martin Boehm, John Hershey, Abraham Trox-ell, Christian Krum, Henry Krum, George Pfrimmer, Dietrich Aurand, Jacob Geisinger, John A. Geeting, Jacob Bowlus and Adam Lehman organized and insti-tuted the faith. The site of the old barn, where an overflow meeting was held, addressed by Otterbein on this occasion, was a place of great interest to the delegates. The pilgrimage, headed by Bishop Matthews and Presiding Elder Washing-er, was made over the electric road and several hours were spent in the country. It was the first time that many of the delegates had ever visited the birthplace of the church. Conferences were also held in this county in 1802, 1805 and 1806, the latter near Middletown in a house still

standing. Following an address this afternoon by

Dr. T. F. Tagg, of Baltimore, editor of the *Methodist Protestant*, on "Union Between the United Brethren and Meth-odist Protestant Churches," the conference passed a resolution indorsing the union and asking that the legislative bodies of the churches adjust the details of a

Federal union as speedily as possible. Dr. Tagg said the only trouble in the way of a union would be agreement upon a name. He said he could see the time when all Protestant denominations must unite. Bishop Matthews followed with an address favoring the union. The repre-sentatives of the churches will meet in Columbus, Ohio, November 21, to consider a union.

Following the assignment of ministers announced at a memorial meeting Sunday afternoon, the United Brethren Conference adjourned to meet next year in Greencastle, Pa. One of the most important appointments was that of Rev. Dr. G. D. Gossard, who has been pastor of Salem Church, on Francis street, Bal-

timore, for 10 years, as president of Leb-anon Valley College, at Annville, Pa. Assingments of interest to Taneytown And vicinity, were as follows: Taneytown, Rev. L. A. Stangle; Chewsville, Rev. J. D. S. Young; Mechanicsburg, Rev. E. C. B. Castle; Shepherdstown, Rev. A. B. Mower; York, Rev. J. E. B. Rice; York Haven, Rev. A. C. Crone. Rev. C. W. Christman voluntorily retires for a year, in order to take treatment for his throat, and for special study.

-School Commissioners.

The Board of School Commissioners for

Carroll County held a regular meeting in

WAR AGAINST TURKEY NOW BECOMING GENERAL. --

United with Montenegro.

Montenegro, which first opened hostilities against Turkey, is now reinforced by Servia, Bulgaria and Greece, and Roumania may be compelled to enter the alli-ance, which would then be a very formidable one against the oppressive Turk. The interests of Austria, also, are closely identified with these countries, and has a small territory adjoining Turkey. So far, the greater powers have shown no dispo-sition to interfere, and possibly will not until the conflict becomes general and shows its ultimate tendency. Turkey has made the declaration of

war, following the outbreak of the Montenegrins. The war, in a sense, is termed a "holy war" against the Mohammedan persecutions through the Turks.

Turkey apparently outnumbers the al-lies in fighting strength, but it is yet to be shown that the Turkish army is thoroughly loyal to the Sultan. As fighters, all of the countries involved have brave men, and it is now believed that the allies are in a good state of preparation. Such a war would affect not only Europe, but to some extent the whole world, especially should it become general and long drawn out.

Recent Political News.

Senator Works, of California, Progressive Republican, has announced publicly that he will support Wilson as the only means of defeating Roosevelt in the state, where the Bull Moose party has stolen the Republican name, and Taft can be voted for only by writing his name and the names of his electors, on the ballot. Senator Works is "progessive," but not of the Roosevelt stump.

Gov. Deneen, of Illinois, who was an ardent Roosevelt supporter before the convention, is now as ardently standing by his party, and has within the past week stated that of all the faked Roose-velt contests, he believes only 34 had any merit. He says he tried to have the con-tests limited to this number, but Roose-velt refused. Gov. Deneen has been promptly branded **z**, a "traitor," and has been consigned to membership in the Ananias club.

Gov. Haskell, Democrat, of Oklahoma, who was once characterized by Roosevelt, when President, as "utterly unworthy of any position in our public life, or for association with any man anxious to make their office on Monday, Oct. 7, 1912. The following members were present: Theo. F. Englar, Levi D. Reid, Dr. Wm. D. Hopkins, J. Wesley Hoffacker, Abram N. Zentz and Clifton G. Devilbiss. an appeal on a moral issue," is neverthe-less the Bull Moose leader in the state, and both are fighting together, for the Hopkins, J. Wesley Hoffacker, Abram N. Zentz and Clifton G. Devilbiss. After the minutes of the preceding meeting had been read and approved, the regular order of husiness was taken as taken and source and approved to be a second sec

The Board passed an order requesting Gov. Wilson, in view of the shooting of the County Superintendent to notify teachers to dismiss all pupils attending Roosevelt, will cut his speaking campaign short. He said, "Mr. Taft has at no time Presidential Primary Expenses.

Just what real good the Senatorial Committee expects to get out of the present investigation concerning the pre-convention expenses of the various presidential Servia, Bulgaria and Greece now candidates, is difficult to see, save as to the origin of sums contributed, which may show by inference that the said contributors hope to get back their invest-ment in the event of the election of their

candidate. The investigation, which has been an exhaustive one, is not yetfully completed so far as the Democratic candidates are concerned, shows that the following sums were raised for primary campaign expense

For	Roosevelt	\$688,000
For	Taft	475,000
For	LaFollette	72,000
For	Wilson	208.193
	Harman	
For	Clark	50,500
For	Underwood	52,000

It was also shown that in the Roosevelt campaign of 1904, about \$2,195,000 was collected, 73¹/₂ per cent. of which was con-

tributed by corporations. The Roosevelt fund for the primary was contributed largely by five men, George W. Perkins, Frank Munsey, Gif-ford Pinchot, Dan Hanna and William Flinn.

The largest amount for the Taft campaign was contributed by the Taft family; and \$25,000 each by Andrew Carnegie and John Hayes Hammond.

Two of the large contributors to the Two of the large contributors to the Wilson fund were Cyrus H. McCormick and Thomas D. Jones, of the Harvester Trust. The sums were included in a lump sum of \$85,800 collected by C. H. Dodge from "friends of Princeton."

All of the campaign managers declared that no strings nor pledges were connected with any of the contributions, and in the Perkins contribution it was vigorously denied that it was a Harvester trust gift. All of these contributions are of course distinct from purely local expense, by

state or county organizations. The total contributions amounted to the startling sum of \$1,796,446.

MARRIED.

LAWYER-SLONAKER. -John Wm. Lawyer, of Mayberry, and Miss Cora Belle Slonaker, of Mayberry, were married at Union Bridge, Md., Oct. 12, 1912, at 4 p. m., by their pastor, Rev. W. G. Stine.

ELLIOT-CARSON. -Dr. Frank T. Elliot, of Harney, Md., and Miss Margaret Car-son, of Layton, Fayette Co., Pa., were married at the latter place, on Tuesday morning of this week. Following the ceremony they left on a trip for Washing-ton, D. C. Dr. and Mrs Elliot will re-side in Harney, where the former has been successfully engaged in the practice of medicine during the past year. They expect to return to Taneytown from their trip this Eriday compine when then will trip this Friday evening, when they will be entertained at the home of . Mr. and Mrs. Louis Elliot.

UTERMAHLEN-BEMILLER.-Mr. John Herman Utermahlen and Miss Lillie May Bemiller were married at Meadow Branch, on Oct. 13, at 7.30 p. m., by Elder W. E. Roop,of Westminster, who in his usual impressive manner, performed the marage ceremony. The bride wh youngest daughter of Mr. and Mrs. Jno. E. Bemiller, of Union Mills, was very pretty attired in a gown of blue. groom wore the conventional black. They will reside on a farm near Pleasant Valley.

Milton S. Hershey, the Hershey chocolate manufacturer, has just closed options for the purchase of nine more farms. The consideration is said to have been more than \$50,000. This increases the number of farms Mr. Hershey owns to 47, with a total acreage of over 5,000. All of it is to be turned into pastute land, as Mr. Hershey is fast increasing the number of cattle he keeps to supply milk for the chocolate factory.

Supt. Anderson expresses the utmost confidence on the outcome in Maryland at the next election and claims a majority of representatives to both branches of the

State legislature. He says that he feels that such a majority in favor of having the people of Maryland say whether they want saloons or no saloons will be piled up that there will be no hope left to the liquor interests to break the ranks and the will of the electorate of Maryland. \frown

The Boston baseball club won the National championship, on Wednesday, by winning from New York, the series of games standing Boston 4, New York 3, and one tie game. The total receipts at the eight games amounted to \$490,833, of which amount each Boston player will get \$4024.68 and each New York player \$2566.46. The remainder of the big sum goes to the management of the clubs, and to the National commission. The total attendance was 252,037.

Hog cholera has made its appearance near Frederick, and farmers to the east of the city are losing great numbers of the animals from the disease. County Commissioner Charles W. Zimmerman is the heaviest loser, stating that he hauled dead hogs out by the sled load and buried them. He stated he had 60 sick with cholera, and these ranged in size from 50 to 150 pounds, and that his loss would be at least \$500. A number of other farmers in that vicinity are heavy losers from this disease.

d.

--

More than 20,000 men pledged in their association to protect the Holy Name against profanity and blasphemy will march in a remarkable demonstration at Washington, on Sunday, October 20, under auspices of the Washington section. The Baltimore and Western Maryland sections will have conspicuous places in line, Baltimore have the right of line by virtue of the fact that the president of the society in the archdiocese of Baltimore is Jerome H. Joyce of that city. It will be the second demonstration of the kind by the Holy Name Society of this archdiocese. A few days ago, more than 30,-000 men marched in Philadelphia. Throughout the country annual demonstrations are to be made, and the Society Catholic Church of America.

wealth of the county to be exempt from taxes, the owners of which enjoying all the while all the privileges guaranteed to

all its citizens. We likewise believe in the Referendum. another tenet of the Progressive Party, which, if in operation in this state would cause the payment of political debts by legislative enactments to cease, and the repeal of the Mortgage Tax law by the Carroll county legislators last winter would be differency surrelectorate of this county. LUTHER KEMP. would be differently disposed of by the

Uniontown, Md., Oct. 7, 1912.

We do not know whether the above was intended to be answered by the RECORD, or not. As the editorial question referred to facts as they are, and not to questions of administration which may be partly responsible for the cost of our elections, we of course do not feel strongly criticised. Some of the points in the above, however, are covered by another editorial in the present issue, on "Fooling the People," which was written before the receipt of the above communi-cation. Perhaps a reading of this will give our valued contributor further light. On one point, at least, we must dis-agree with the conclusion he reaches, that 'but a small part of the total was changed to the actual primary expenses, and ed to the actual primary counterbalanced by this was very nearly counterbalanced by that was paid by the candidates." By

referring again to our editorial it will be seen that also in the year 1909, when we had one direct primary election, the total cost of our elections for the year was \$7681,16, as against \$5079.72 for the year

following, or an excess of \$2601.44. This, we think, additionally substantiates our argument that the tax-payers of the county are paying richly for a privilege which the majority do not want to exercise, and which they would "recall" had they the

opportunity. Moreover, we do not consider it fair that candidates should be required to pay to the Election Board of Carroll County \$1280.00 in one year for the privilege of

attempting to secure nominations. The whole primary system gives the man with money to spend, an unfair advantage over the poor man, who may possess qualifi-cations of more value to the public service than mere possession of money. We do not subscribe to the system which practically makes it impossible for any but rich men to enter both primary and election campaigns. ED. RECORD.

Harry G. Tritapoe, at his beautiful ome, "Rosemont," near Frederick, on home, "Rosemont," near Frederick, on Tuesday night, gave a dinner to a few friends in honor of Judge John C. Motter, who is retiring from the bench after fifteen years of honorable service. The affair was a surprise to Judge Motter, who came feeling that he was one of the strations are to be made, and the Society is rapidly growing numerically and in in-fluence, into one of the first forces of the forthe clumph of America.

He claims to have been a liquor dealer, most of his life, and that he owns property in New York worth \$20,000 or \$25,000 from which he draws an annual revenue of \$600. On being asked whether he belonged to any political party, he said; "No, sir. I thought there should be an example of the third term if it should exist any longer. Mr. Grant was refused and he was satisfied; this man was refused, and he is not satisfied. It's gone beyond limits, if he keeps on doing this after election. The next thing we will have is a Civil War, because he will say the scoundrels and thieves and crooks stole my nomination and now they will steal my election, and they will take up arms in all the Western States. We are facing a Civil War just to keep him in a third term; in an illegitimate place. On being asked where he got such ideas, he said, from reading about the Chicago Convention, and "he says it every time he speaks.

The latest report is that Col. Roosevelt will likely go to his home at Oyster Bay, on Monday, and that he will soon there-after enter actively into the campaign. While all danger from blood poisoning, or tetanus, is not over, no complications are feared. The wound, in itself, was never of a serious character, and had it been inflicted on one of less prominence, would have caused very little comment as a hospital case, especially as occurring to a man in perfect physical health - 000-

Installation of New Pastor.

The service of installing the new pastor of St. Mary's Lutheran congregation, at Silver Run, will be held in the church at that place, this Sunday morning, at 10.30 The new pastor is Rev. J. Luther Hoff-man, formerly of Scranton, Pa., and he and his family are already located in the parsonage, and at work, with the outlook a very successful term of service.

Rev. H. D. Newcomer, of Baltimore, a former pastor, will deliver the charge o the congregation; and Rev. W. H. the pastor. A general invitation is extended to this service.

-...

Another First Rate Story.

We are going to run another story when "Excuse Me" ends, which will be in about six weeks. We have had so many say they enjoyed this one, and want another, that we just can't help it, especially as we have one that is better than "Excuse Me"—more plot to it—

neither is it a nasty story in anyway, nor entertaining stories.

ools from other school districts, except in cases of mutual agreement beteachers It was decided that an admission fee of

regular order of business was taken up.

\$3.00 per term be charged for pupils from Pennsylvania attending the Carroll County schools.

Commissioner Zentz was ordered to have necessary repairs made at the Louisville school.

Tcachers' eontracts were confirmed, and salaries for the current year were fixed. After sundry bills were passed and ordered paid the Board adjourned.

-+0+-

Death of George O. Brillhart.

George O. Brillhart, a prominent young attorney, died at his home in New Wind-sor, on Monday, aged 38 years, from tuberculosis, from which he had been suffering for the past year. He was a grad-uate of New Windsor College, and of the University of Maryland.

At a meeting of the Carroll County Bar, held on Wednesday, in the absence of Chief Judge William H. Thomas, Hon. James A. C. Bond presided and Theodore Brown acted as secretary. Charles E. Fink, Francis Neal Parke and George L Stoeksdale were appointed a committee to draft resolutions to be presented during the November term of court. John Milton Reifsnider and Michael E. Walsh, a committee, was instructed to procure a suitable floral tribute, and it was resolved to attend the funeral at Winters' Lutheran Church in a body on Saturday morning

next at 10 o'clock. -000 For Smut in Wheat.

Having called attention to the advantage of selecting seed wheat at this season farmers must not overlook the possibility of smut which is so prevalent in some sections of Maryland.

In general the smut spores which, as a rule are attached to the grain when sown, germinate at the same time as the seed the fungus entering the young plantlet in which it develops unseen until about the time the grain is beginning to head to the congregation; and Rev. W. H. Hetrick, of Westminster, the charge to the pastor A ground invitation of the mass of delicate threads which mature their spores for the infection of

the next crop There are two classes: the stinking and loose smuts and the loss and deterioration from same is very considerable, but can be avoided by treating the seed wheat with a solution of formalin, particulars for same can be furnished by the State George Eckard, Walter Helwig, Daniel Experiment Station at College Park.

Senator Dixon, Roosevelt's campaign manager, has attempted to insinuate that and healthfully amusing and entertaining. Everybody will like "When a Man Marries." It is not tiresomely funny, erally regarded as execrable, and as comthe opening of the campaign.

taken an active part in the campaign, and I have no desire to be the single canditween both Boards of trustees, and both date on the stump engaged against so active antagonist.

> Eugene Chafin, Prohibition candidate for President, says Wilson will carry 40 states, and be elected easily. He says Wilson will gain more Republican votes than he will lose to either Roosevelt or Taft.

Mr. Bryan, evidently fearful that there will be a large sympathetic vote for Roosevelt, said in a speech, this week; "The issues of this campaign should not be determined by the act of a madman. They must be settled by the sane rather than the insane. Neither Col. Roosevelt nor his friends could ask that the discussion be turned away from the principles that are involved. A maniac, however cowardly and dastardy his deed, is not the arbiter to whom to submit a Presidential contest."

An Expression of Esteem.

For the RECORD.)

Thursday afternoon, Oct. 10, J. Roy Myers, of near Pleasant Valley, enjoyed an expression of esteem from the hands of his neighbors and friends, most of which are members of the brotherhoods of which Mr. Myers is a member himself. Having been critically ill for more than eight weeks, the donors felt it their duty to as sist in the farm work. So at the time stated forty-one assembled at the home and went to the field and put his corn on shocks. Mr. Myers is an energetic devoted brother in both church and order, and is worthy of the favor conferred up-on him. In his life he has exemplified the principles of his order, and loyal to the best interests of his church. The participants should feel that they have aided in a very creditable and complimentary act. In conclusion Mr. Myers takes this opportunity to tender sincere thanks to all, and hopes he may be spar-ed to lend a charitable hand to some at east.

Those present were, James H. Myers, John Utermahlen, Frederick H. Myers, Theodore Myers, Edward Myers, Ralph Starner, Raymond Myers, Stevenson Yingling, Harry Myers, Harry Welk, William Myers, George Devilbiss, John Bankart, Christopher Zepp, Edward O. Starner, Ernest Helwig, Ralph Helwig, Washington Louey, Vernon Myers, Theo-dore Miller, Charles Helwig, Horace C. Leister, Samuel, Theodore, Clarence, Elmer, John, Clarence E., Upton and Holly Myers, Filmore Bankard, William J. and William H. Yingling, Carroll Charles and Roy Myerly and Harry Wantz. The Myers' have a good major-J. Roy Myers is a member of the O. S. of A. and K. of P. Lodges.

Our county is well supplied with papers, but the RECORD is always worth your Dollar.

DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

REAVER.-On Oct. 15, 1912, Grover Charles Reaver, infant son of Mr. and Mrs. Robert M. Reaver, near Kump. Funeral services at the Lutheran church, Taneytown, on Thursday morning, by Rev. L. B. Hafer.

All articles on this page are either original, or properly credited. This has al-ways been a fixed rule with this office, and we suggest the adoption of it by our exchanges.

THERE IS A difference. "Banner lye' mades good soap and dirty things clean, while "banner liars" make clean things dirty with false hopes ?

How BIG WAS Alexander? Perhaps about the size of T. R., who is too big to play second to any other man, and whose defeat at the Republican convention meant that if he couldn't head the party, he would smash it so nobody else could head it.

Some REGARD the coming election, a joke. Well, men have died from laughing so much that they couldn't stop, while others became only temporarily hysterical and swallowed their false teeth-and some have "choked." A joke is a mighty good thing when it turns out right.

LET US HOPE that a Wilson president will be better for the prosperity of the country than was a Wilson bill. Some think that the one stands for the other, but the prosperity of the country may be able to stand more now than it once did -anyway, we will not have a ME and MY dictatorship.

--

to elect Gov. Wilson, that they are having fun out of their own misery-betting or Taft ? In other words, which can make the other adorn the tail end? There may be a selfish sort of satisfaction in this, for a few, but it looks a great deal like the play of little boys-play that involves men's interests.

expense of the primaries to pay.

last issue, the two primary elections in ' for us to live in, and to own property in, slightest benefit from this expenditure. dertaken about us. At the county primary certain persons won, and certain persons were defeated, but there is no way of showing that the latter were more unworthy than the former, nor is there any way of showing that those who won were any better all around nominees than would have been given to a bogus greenback, so far as purifica-

both parties by regularly elected dele- tion in Pennsylvania politics is concerned, gates to a county convention. In addition to all this, the extension of

the primary system has done, more than of the tardy withdrawal of the Roosevelt all else, to bring about disunion and dissention in parties. We do not contend Philadelphia Record says: that parties always give us ideal nominees or legislation, but we do believe that the country will always be better off with strong opposing parties, and with party conventions, than without either or both. going to have perfect government; never going to have unanimous public sentithe best possible government out of responsible party organizations and platforms, rather than out of disorganization, and out of that character of "rule of the people" which practically has no home office, nor officially responsible head.

The RECORD feels that the people are ticians that are preaching a sort of "Holier than thou" doctrine, under the guise of saving "the people" from the 'bosses.'' How silly such a scheme appears when only about one fourth of the voters of Carroll county-"the people" - vote at a Presidential primary ! Hardly late to make any impression other than a state, anywhere in this great country, that of a tricky political move." a state, anywhere in this great country, cast 50 per cent. of its vote at this primary, in spite of the most violent efforts and the expenditure of millions to "whoop up" excitement.

Who invented the recall proposition, the direct primary, the direct election of Senators, and the various other new issues in politics ? Did "the people" do it, or was it personally interested politicians-the uplifting spell-binders of the country ? It seems to us that the people as a whole—the 'responsible, intelligent, hard-working, tax-paying people of the country-want political peace, and business stability, and economical govern-REPUBLICANS are so intent on helping ment, and same public improvements, Harvester Trust, and George W. --**Opinions from Various Sources.**

When Mr. Roosevelt was President he refused to allow the Harvester Trust to be prosecuted, and he permitted the Steel Trust to apply the boa constrictor process to the Tennessee Coal and Iron Company. It is perfectly natural, therefore, that Medill McCormick. of the kins, of both that and the Steel Trust, istration is prosecuting both their Trusts, and they are doing their utmost to help Roosevelt beat Taft. Another man whose faith and vision has a similar inspiration is Mr. duPoint, of Delaware, whose It is so much easier to float with the Powder Trust was prosecuted under the tide than pull against it, that the tendency Supreme law by the Taft Administration, The Man Who Faces the Judge.

Is he a criminal or an unfortunatethe man who faces the judge in the inferior court? Is he vicious, and a real menance to society, or is he, rather, only a human being slightly out of joint with his surroundings? Is the problem of the judge in his case only a legal problem, or is it far more a social problem ? The consideration of these questions is a part of the great moral awakening of the twentieth century; a result of the growing realization that the individual has a value to the community and to the

race. To the increased number of organized activities that seek to relieve poverty, to prevent disease, to care for the neglected and the defective, and to perform the many kinds of work that are commonly classed as charitable and humanitarian, has been added the movement for the socialization of the lower courts. That does not mean mawkish sentimentality. It means that the judge, before pronouncing sentence, tries to learn the causes and motives that led the man before him to break the law; the mental

and physical responsibility of the man, the persons dependent upon him, the kind of treatment to which he will best respond. The courts of justice can thus serve broader and higher purposes, and become in fact as well as in name the vehicles of justice, and not merely agencies for the punishment of wrongdoers.

Many changes are necessary in the machinery-separate courts for women and children, night courts, a system of civilian probation officers, more general use of the summons in place of the warrant, better court rooms, easy and direct communication of the arrested person with his friends, and complete systems of identification, in order that the earlier court record, if there is one, can be laid at once before the judge.

There are some of the reforms that New York City has recently made in the inferior criminal courts; and in other large cities where popular pressure has become strong enough to show the lawmakers the wisdom of the changes, there is progress of the same kind.

The magnitude of the problem is apparent from the fact that every year about six hundred and fifty thousands persons, charged with minor offenses, appear before courts in the United States.-Youths Companion.

> from the population of the countries. Bulgaria has a population of about 4,-300,000. Her army on a peace footing consists of 58,000 men, and in time of war it is expected to reach 235,000. Servia's population is 3,000,000; her peace strength is nominally 35,605, and her war strength 110,000. Greece has a population of 2,-750,000, but her military organization is so poor that her army is proportionately small, numbering in peace 23,600 and in war only about 50,000. Montenegro has only 250,000 people, but it is a grave penal offence for any man to go unarmed or to be inexpert in the use of arms; the result being that she has a peace army of eleven brigades and a war strength of 50,000.

The four states have among them, then a war strength of 445,000 men of all classes. Turkey, on the other hand, has, apart from Egypt and Tripoli, a population of more than 25,000,000. The nom-Analyzing the status of the Third Term | inal strength of her army is 375,000 in

peace and more than 700,000 in war. To what extent the war in Tripoli has lessened her power is not known, but it seems probably that she can put a considerably larger army in the field than all her adversaries united.

Ť

R

In case of a general Balkan war, then, instead of the millions on each side which some have imagined, the chances are that there will scarcely be a million men in bad and indifferent nominations. It is the field under all the flags. The war will be substantially confined to the land, as the Turkish and Greek navies are negligible quantities. That it will be waged fiercely is to be expected. The Turks and Montenegrins are natural born warriors, and the Bulgarians are among the most ruthless of combatants. The Servians are hard fighters, and despite their gross the Greeks have in them the making of

good soldiers.-N. Y. Tribune.

turkeys that are cruelly doped with it? The birds don't done their darlings Mother wild turkey doesn't blister the delicate internals of her offspring to raise them. Why should you? It's unnatural, it's cruel, it's killing.

It's all hot air about that red hot stuff being beneficial. It's no true tonic; it's a destructive irritant; it burns out the liver.

Some folks dope their hens with red pepper to make them lay. They stuff them with mustard; they feed them a mixture of drugs guaranteed to bring eggs. With what result?

The hen may lay a few more eggs as long as the transient stimulation lasts, and some hens may show no serious after effects, but we have seen as high as sixty die in a week from such doping. They had egg bound, inflammation of the digestive tract. violent diarrhea, gangrene of the oviduct and soft ulcerated liver. A hen often becomes immune. She

cannot lay, through their use. Dope not only affects old stock, but the egg germ and the vitality of the

chick. The delicate adjustment of the egg

organs, necessary to produce a good hatching egg, is deranged and failure results.

The poultryman who feeds his hens stimulants to make them lay and sells eggs from such doped stock for hatching is not doing business on the square, and such use of dope is evidence that a man's stock is no good: that he is cruelly greedy or has little practical knowledge of poultry culture. Here's our rime, take it in time, A mixture of good strains, good grains and good brains brings the good gains.

FEATHERS AND EGGSHELLS. We find that crossing different varieties of turkeys seems to bring out the bad points of both in the offspring. colony houses are hauled all over the land and Bronze and Bronze and Buff

Anty Drudge on Education.

Katherine-"My, how provoked I am, Anty. You wouldn't dream this frock had once been white. Look at it now. I sent it to the laundress and it looks a'most the color of weak coffee with milk in it."

Anty Drudge-"It's partly your fault, my dear. You're a college graduate, but you aren't educated until you know what is best for your clothes. If you had known enough to see that your white frock was washed with Fels-Naptha soap in cool or lukewarm water it would have been snowywhite. The Fels-Naptha way is the only method of washing to keep white clothes white without harming them."

Here's the easiest way that's ever been discovered to wash clothes-either in summer or winter.

For the white things: Wet the clothes, soap well with Fels-Naptha, roll and let soak for thirty minutes in cool or lukewarm water. Unroll, rub lightly, rinse and hang out to dry.

That's all; no boiling, no hard rubbing, no hot water.

This simple Fels-Naptha way of washing makes your clothes sweeter, whiter, cleaner than you can get them any other way.

And the clothes last longer because they are not weakened by boiling, nor worn by hard rubbing.

Worth trying?

It is for the woman who values her clothes, her time and herself.

For washing colored clothes and other things, see plain directions on the red and

GETTING RID OF MICE

1 - 5 1

LITTLE PESTS IN A TRAP OF THEIR OWN MAKING.

Expensive Patented Snares Not In It With the Sugar Bag, to Which Housekeeper Hereafter Will Pin All Her Faith.

Mice always bother the people who do light housekeeping more than the ordinary householder, probably because the former is more apt to have few mouse-tight receptacles for food. Various traps have been tried by one couple who indulge in light housekeeping in a three-room apartment, says the Philadelphia Record. Sometimes, at large intervals, they managed to catch one of the pests. Every scheme of baiting and setting traps which they could find or invent was tried and the mice continued to eat everything they could get at, falling back on a diet of clothes when every bit of food had been successfully cached.

The mice seemed too wise to try the traps, no matter how fresh and well toasted was the cheese and bacon rind. The couple was almost in despair, and had nearly decided upon using poisons, to which, for sanitary reasons, they had hesitated to resort. The mice themselves, waxing over greedy, fell into a trap of their own setting, and one has been caught every day or two until now there are only one or two left, but the happy housekeepers have great hopes of catching them all.

One of the few provisions which had not been stored was the sugar. which is bought in a large, rectangu lar box, holding five pounds. The cover was slit a little way at one end and the sugar bowl filled by pouring from this aperture. The sugar was left out, because it was thought that mice did not possess a sweet tooth. Then one day when a large quantity of the boxful had been removed at one time, the woman opened the closet door, to stand frightened at some scrambling sounds she heard. She quickly located them in the box of sugar and realized what had happened.

The mice had discovered the sugar and had been feeding from it, gaining the tiny opening from a shelf beside which the box stood. She had taken out so much sugar that on its last trip the mouse, in its sudden fright, could not make the leap which would carry it through the small hole. The woman quickly put a piece of sugar over the opening and then carried the box to a pail of water, into which she shook the mouse.

Several others have trapped themselves in the same way and the woman declares that when they have eaten all the sugar she will rebait the box with some more, and never, never spend any more money on patent traps.

NICE WITH AFTERNOON TEA

Suggestions for Delicacies to Serve at Function So Popular With the Gentler Sex.

Scald half a cupful of milk, add half a cupful of boiling water, then cool to lukewarm. Add one compressed yeast cake, mixed with three tablespoonfuls of lukewarm water, then add half a tablespoonful of lard, two tablespoonfuls of molasses, one cupful of chopped English walnut meats, half a cupful of white flour and three cupfuls of wheat flour. Knead and bake as ordinary bread.

Favorite Sandwiches .-- Cream two heaping tablespoonfuls of butter, add a cupful of grated cheese, two tablespoonfuls of anchovy essence, a quarter of a tablespoonful of paprika, a quarter of a teaspoonful of mustard and a half cupful of finely chopped olives. Spread between thin slices of buttered bread.

Date Finger Sandwiches .- Put one and a half cupfuls of stoned, chopped dates into a saucepan, add half a cupful of water, then boil gently for half an hour. Remove from the fire, add two heaping tablespoons of sugar, one teaspoonful of lemon juice, and half a cupful of whipped cream; beat till well blended, then spread thickly between lady fingers

Use the Wheel Tray .- This wheel tray can be used for luncheons, dinners, teas, porch parties and also for functions where refreshments are served. Any woman who entertains needs this invaluable assistant to be up to date, to provide correct service, and to save the useless steps and unnecessary fatigue required to carry travs around

IN PUTTING UP PRESERVES

Matter of Importance Is the Selection of the Right Kind of Fruit to Be Handled.

Fruit for preserving in any form, should be fresh-picked, or gathered, and slightly under-ripe. Such fruit ensures more perfect shape in the finished product and eliminates the possibility of fermented fruit or the loss pectin or jelly-making property. of

Handle soft fruit (peaches, berries, etc.) as little as possible. If it is to be canned in jars, put it into the jars, at once, on hulling or otherwise preparing it.

If berries must be washed, put them, a few at a time, into a colander, pour cold water over them and turn at once upon a large sieve to drain, then hull.

Large hard fruit, as apples, pears, and quinces, should be washed and wiped dry before paring.

Cut apples and other hard fruit, for jelly, into quarters, removing all wormy places or imperfections. Retain the skin and cores. The cores of quinces should be discarded, as the excess of gummy properties does not improve jelly.

Use a silver-plated knife to pare fruit. Peaches, soft pears, plums and tomatoes, set into a wire basket (frying basket) may be plunged into a saucepan of boiling water; after three or four minutes remove to a kettle of water for the same time when the fruit may be quickly and easily peeled. This method of peeling is admissible when a large quantity of fruit is to be put up, but it is thought to detract somewhat from the flavor.

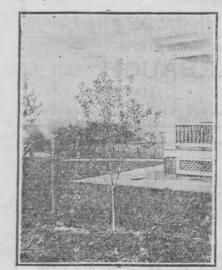

Photo by C. M. Barnitz. BARTLETT UNFERTILIZED.

farm, so that the ground is systematically enriched and the hens on range are healthier and more profitable.

Here is a plan for farmers to reclaim dead land and make money instead of having their hens dropping this fine enough partridges to replenish the fertilizer around the barn and wagon shed where it is wasted.

In winter the up to date poultryman catches the day's droppings on straw litter, which is put out to rot.

At night they are caught on dropping boards and are removed with a good absorbent and stored.

When droppings are stored alone or with sawdust 50 per cent is lost; with land plaster 33 1-3 per cent, but when mixed with land plaster and loamy soil or acid phosphate the virtues are preserved.

For hen health, the good of the ground and profit, this valuable product should be removed and cared for. Try it for strawberries, flowers, garden, the fruit, the field. It's the ne plus ultra.

b. M. Barnitz

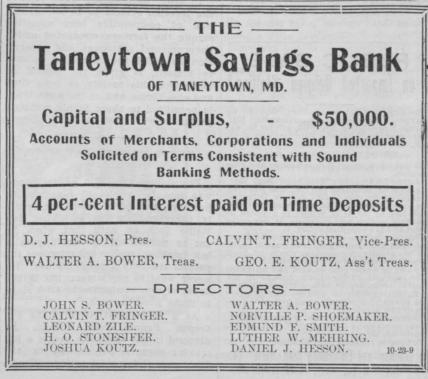

People can talk about which plan is the best, but anyone who wishes to know the truth about the matter, has only to compare the VOUGH, part for part, with the leading makes of the century. We are always glad to have anyone make these comparisons, as the wonderful strides of progress made in the construction of the **VOUGH** Pianos

Is A Revelation To All

who investigate. The best Piano to be had today, if actual construction and results are judged, is the VOUGH Piano. You can see and examine these Pianos at

BIRELY'S PALACE OF MUSIC, Frederick, Maryland.

A fine grater is better than a knife for removing the surface of anything that is burned.

In washing laces that have become stained with perspiration first wash them with cold water and soap, and after the stains are removed put them into warm water.

Pine pillows should be made of butcher's linen. This is to be preferred to the color linens, for the oil in the pine will strike through in time and necessitate a thorough washing.

To clean a vinegar cruet put a teaspoonful of lye in it and then fill it with water. Let this remain in it a few days and then rinse the cruet out thoroughly, when it will be perfectly clean

Mushrooms, or foods containing mushrooms, must not be eaten after having been allowed to get cold, as they are apt to develop injurious properties and become poisonous. Either eat all that is cooked or throw away what is left.

In order to clean bronze the article should be immersed in boiling water, then rubbed with a piece of flannel dipped in yellow soapsuds, and dried with a soft cloth and chamois leather.

Damson Tart.

One and one-half pint damsons, one quarter of a pound of brown sugar. Put the damsons with the sugar between them into a deep earthenware dish and put in the middle of it a small cup turned upside down to prevent the juice from spilling; line the edges of the dish with pie crust and cover with same. Bake one-half or three-quarters of an hour in a good oven. Serve hot at table with cream. This is the English style and there will be found an abundance of fruit with each portion of crust.

Yellow Cake.

Large tablespoon of butter creamed with even cup of sugar, two eggs creamed in, one at a time, two-thirds cup of sweet milk, one even cup of prepared flour, two-thirds sup pastry flour; beat well, flavor to taste; bake in a sheet in not-too-hot oven: frost with white frosting made of butter. with one cup powdered sugar, one teaspoon of butter, boiling water to mix to thick paste and spread on warm cake. I bake until it stops singingabout 25 minutes.-Exchange.

Chicken Pie.

Cut up the chicken and stew it until it is tender, season it with one teaspoonful of pepper, one tablespoonful of salt, half a teaspoonful of ground mace, one teaspoonful of ground ginger, one tablespoonful of chopped onion and two tablespoonfuls of chopped parsley.

Take a deep pie dish and line it with a pie crust, then put a cup in the center of the dish (this cup will hold the gravy). Then put the chicken in the dish, two raw potatoes cut in thin slices and one hard boiled egg cut in slices. Put the potatoes and egg on top of the chicken and cover the dish with pie crust, bake and serve hot.

Swedish Meat Balls.

One pound of finely ground lean beet put through a meat chopper twice, also a small onion, if you like onions; one tablespoon of flour, a little pepper and salt, and cold water enough to mix easily with a spoon; then wet your hands in cold water and shape into balls; put a piece of butter in the frying pan, have pan hot before putting balls in, fry on both sides and push to one side; make brown gravy by browning a small piece of butter and a teaspoon of flour; pour hot water over all and cook five minutes.

St. Denis Salad.

Cut cold boiled potatoes in one-halfinch cubes. There should be 11/2 cups. Cut cold boiled beets in one-quarter. inch cubes. There should be onethird of a cup. Mix the potatoes and beets, add three hard-boiled eggs finely chopped, one-half tablespoon of chopped green pepper and one half teaspoon of chopped cheese. Moisten with dressing and serve in nests of lettuce leaves.

Tart Paste.

Take one-half cupful of water, onehalf cupful of lard, the beaten white of one egg, three tablespoonfuls of powdered sugar, one teaspoonful of cream tartar, and one-half teaspoonful of soda; add flour enough to make a moderately stiff dough.

Troy Pudding.

One cup of milk, one cup of molasses, one cup of suet or three-quarters butter, half cup of raisins, more or less, three full cups flour, teaspoon of soda. Boil or steam four hours.

Members of Gypsy Band Arrested.

A female member of a gypsy band was arrested at Mt. Airy, on Monday, charged with the theft of \$10.00 from telegraph operator H. D. Spurrier, while he was talking with her. There were other here arrive the generation of the set charges against the same girl and her

companion. Charges against the band have also been made for stealing hay and other items, and for practicing fortune telling. The arrested girl was put to jail, in ab-sence of bail, her father offering some horses as security, but this was refused. As a rule, the gypsy bands which travel through the country will not only bear watching, but it is best to have as little business transaction with them as possi ble. Their blandishments, and assumed ability to "tell fortunes," are mere money-making schemes to take in the

susceptible ones. -000

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by all dealers. ---

Small Fruit Orchards. Small fruits are sometimes grown successfully in orchards. Such a farm I have in mind near Hilton, N. Y. Currants, in this case, are planted among apples, peaches and grapes. The currants have more than paid for the farm, the cost of the trees and their care up to maturity. I attribute this unusual case much more to the aggressiveness and character of the grower, however, than to the method itself.

Intensive Agriculture. Soiling, that is, cutting the growing crops and feeding them in the lot or in the barn, is an intensive form of agriculture which is becoming more and more practiced as land advances in price. The use of soiling crops and of silage promises to solve many of the present-day feeding problems. Field corn, rye, clover, field peas, sweet corn and millet are all good soiling crops.

FARMERS IN RUSSIA

Obtain Loans Through Co-Operative Credit System.

Ambassador Curtis Guild at St. Peters burg Sends to State Department Exhaustive Report on Plan

Adopted in That Country.

Washington .- Even in remote Siberia and Turkestan has the farmers' cooperative credit system reared a financial fabric to assist the peasant farmer of the Russian czar's domain. The state department has just received from Ambassador Curtis Guild at St. Petersburg an exhaustive report on the farmers' co-operative credit system in Russia.

This is the first of a series of reports requested by President Taft from nearly every one of the diplomatic officers in Europe on this movement which he is striving to transplant to this country for the benefit of the American farmer.

At the present time the Russian government has nearly forty millions of dollars of government money invested in the farmers' co-operative credit system. How established a part of the Russian peasant's life this financial machine is becoming is clearly shown in the practice of the peasants to deposit their savings with the credit societies on the understanding that the deposits will be paid out after their death for their funeral expenses or that they will be returned to them at the time of the coming of age of a son or the marriage of a daughter.

The co-operative movement among Russian peasants has now developed two distinct aims: First, to educate the peasants, a large proportion of whom are quite illiterate, along the lines of modern farming; and, secondly, to encourage them to save their earnings and acquire the habit of providing against the rainy days. The direct aim of the Russian government in organizing this system was to relieve the peasant from the necessity of paying exorbitant and ruinous rates of interest, imposed upon them by their money lenders.

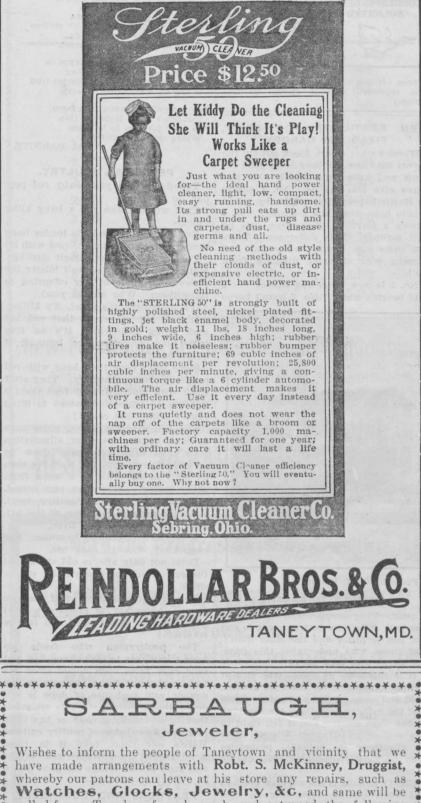

The movement affords further education for the peasant since the Russian government has very wisely left the management of the societies largely in the hands of the farmers them selves, conducted through the general meetings of the societies, in which every member of the society is given one vote. The peasant is thus given considerable experience in financial affairs and management. The members elect a board of directors and a council. These bodies take care of

the executive work. They report to the general meetings of the societies, at which all the members are present. The government exercises supervision over the societies through the ministry of finance. Although instituted as late as 1895,

the movement has spread in Russia to include ten thousand farmers' societies, with an average membership in

Macaroni Fakes.

"They even fake macaroni," said a pure food man. "Nothing is cheaper than macaroni, thanks to which Italian bank clerks can live on \$4 a week, but in this benighted, money-mad land of ours the food trust millionaires insist on faking it.

"But you can tell fake macaroniit is perfectly straight. The real has bent ends, for it has been dried in hairpin in shape, slung over a rail, and, when it is broken for boxing, the bent ends show.

"The real macaroni is made of a semi-transparent wheat from southern Europe and Algeria, a hard wheat extraordinarily rich in gluten and other nitrogenous matter. Real macaroni is tender, yellowish, elastic, rough in texture. It boilsg without becomin sticky or losing its tubular shape.

"But the fake stuff, made of cheap domestic wheat, is very tender. Hence it must be dried flat; slung over a rail to dry, it would fall to pieces, and hence its straight shape, its lack of the characteristic curved ends. It is an ugly white, too, instead of a rich yellow in color. Boiled, it is apt to break up and collapse. Eaten, there is little nourishment and less taste to it."

Here is a woman who speaks from personal knowledge and long experience, viz., Mrs. P. H. Brogan, of Wilson, Pa., who says, "I know from experience that Chamberlain's Cough Remedy is far su perior to any other. For croup there is nothing that excels it." For sale by all dealers

each society of nearly five hundred. The network of societies covers practically the entire immense area of the Russian empire. Widespread interest is taken in the movement both by the Russian government and by the peasants, and the government is at the presnt time considering a further elaboration of the scheme. In studying the Russian co-operative

credit system from the viewpoint of the American farmer, Ambassador Guild finds that naturally the great difference obtaining between conditions in the United States and in Russia, in regard to the amount of land farmed by individuals, the system of land tenure, the wealth of the farming class, and in the general facility for borrowing money, makes it impossible for this country to secure much benefit from a study of the Russian system beyond its general principles. For example, the average loan required by the farmer in Russia does not exceed \$50 and is generally employed to purchase some article necessary at the moment, such as an agricultural implement or a horse, the loan being repaid by the Russian farmer immediately after the harvest. Of course, the American farmer, who

works a much larger acreage, would usually need more money and longer time. He would require his loan, not so much for the moment's exigency, as for the gradual development of his property.

In brief, Ambassador Guild reports the Russian system to be an institution of co-operative loan societies among the farmers, conducted under governmental patronage and supervision, by which the farmer, at no cost to himself, is given the benefit of loans from his society on long time and easy terms, and, at the same time, is permitted to share in his society's profits.

KEEPS VOW TO BAR WHIP.

Forty years ago little Willie Wilson was late for school at Blantyde, in Scotland, and the schoolmaster soundly thrashed him for it. That day Willie took an oath that when he got to parliament he would pass a law making such behavior on the part of teachers a penal offense. He never went to parliament, but in the house of representatives he tock steps to make good his oath.

teenth Pennsylvania district, he dropped in the speaker's basket a bill making corporal punishment in the District of Columbia a serious offense.

Elevinenters and and the second and

Charles E. Fink. Dr. Sherman is a successful practising physician and far-

mer, and is a director in the Manchester Bank. Mr. Schaeffer is a retired farmer and capitalist, and is a

director in the First National Bank of Westminster. All of these gentlemen are well and favorably known in Carroll County, and their report on a proposition of this kind

should absolutely satisfy anyone. These gentlemen have spent eleven days in the famous YAKIMA VALLEY, and have seen and investigated every feature of it.

In a letter from Mr. Fink he says:

"Yesterday Mr. Schaeffer, Dr. Sherman, Mr. Devine, Mr. Leonard, our Superintendent, and myself autoed to Schumacher's place, inspected his land, trees and potatoes, and then went over to Section 27. (The land we sold and our own land is all located in Section 27.) We went carefully over the latter, and Dr. Sherman and Mr. Schaeffer were both highly pleased with the location and soil of Section 27 and with the location of their respective tracts. In fact, both of them say that the location and soil of any tract in Section 27 is as good as another; that a man could shut his eyes and pick out one on the plat and it would be just as good as any other. IN ALL THEIR TRAVELS HERE THEY HAVE SEEN NO LO-CATION TO EQUAL SECTION 27, and they consider it far superior to Schumacher's land. Both are enthusiastic as they could be about everything they have seen here, including our dam and the water supply."

"As we were leaving Section 27 (we happened to be going out over Berwager's tract) we pulled up a vine here and there, and found fine, large potatoes. In one hill we found four very large ones besides a number of smaller but marketable ones. We will bring a few of these potatoes home with us.

The Mr. Schumacher referred to is Superintendent for a care-taking company whose land adjoins Section 27, and last year his potato crop, planted in new ground between trees. yielded at the rate of \$355. per acre.

In another letter he says,

"Both Dr. Sherman and Mr. Schaeffer are enthusiastic and are astounded at the fruit they see here, AND BELIEVE WE HAVE THE BEST LAND AND LOCA-TION THEY HAVE SEEN IN THE WHOLE VALLEY. They say that no one in Carroll County will believe them when they return and tell about the marvelous things they have seen here with their own eyes."

WHY WAIT ANY LONGER ?

The proposition has now been thoroughly investigated by capable men in whom we all have the fullest confidence. They are not merely satisfied, but are enthusiastic over it. Do not let this opportunity slip by. The payments are easy, as only one-fourth is required down and the balance in one, two and three years, and the potato crop and fruit will take care of these payments. 'Phone or write us and arrange to see us during the coming week.

at Baltimore.

STRONG PLAYS

"The Pilgrimage," an Arabian play, and "Two Thousand Miles for a Book," an American Indian drama, will be given in the Missionary Play Hall of "The World in Baltimore,' to be held from October 25 to November 30, at the Lyric theatre, Baltimore. Both of these plays are unusual, demanding many participants, the requirement of people for both being three hundred and fifty.

Beautiful incidental music will accompany these plays, the weird strains of Indian lyrics being heard in one, and mystical Oriental strains supporting the other.

The scene of "The Pilgrimage" is laid at Jiddah, the port of Miecca, at the time when the whole Moslem World makes its annual pilgrimage to the tomb of Mohammed. The populace becomes aroused over the conversion to Christianity of several natives, especially that of a young Mohammedan student of high caste, which is the work of Missionaries who have been working in Jiddah. Several perilous situations are encountered through the attitude of the natives to the Missionaries and their friends. The acknowledgment of a gradual conversion to Christianity is made by an high caste Professor of Mohammedanism, whose wife, a princess of high degree, finally joins him in sacrificing all dear to tradition among their native people, as well as their riches, for the sake of The Christ.

The wonderful longing for the 'White Man's Book of Heaven," the Bible, is demonstrated in the play "Two Thousand Miles for a Book," when, in 1838 a delegation of American Indians went from the Oregon country to St. Louis for "The Book," long before promised by the white men who had passed their way.

Several short plays, lasting some thing less than an hour each, will also be given. In "Sun-Light or Candle-Light" the scene is laid in Japan; 'Election Day" takes one to the moonshine district of our own country;

Such precautions may not cure but they greatly reduce the original cause of the ailment and modify the trouble Ordinarily medicines are not of much use but where there is distress from excessive work, an overloaded stomach, constipation, a hot stable, or close, muggy weather, a sedative may

DAINTY HOUSE FROCK

ATTRACTIVE, ALTHOUGH BUILT ON SIMPLE LINES.

Materials May Safely Be Left to the Choice of the Wearer, as Any Number Will Make Up to Excelint Advantage.

The illustration, to my thinking, gives the daintiest dress of all, and very smart women often order a number of country frocks built on just such simple lines. Materials may vary according to the use which will be made of the gown, but the side buttoning on this one-piece style, the contrasting collar and cuffs, and the easy neck and sleeve cuts never vary, Linen and duck dresses made in this way are used for boating and golf, and they are admirable for city marketing and other shopping, while for working use the dress would very likely be in good gingham in a more practical color.

But why always have one's working clothes in a practincal color, thinks somebody, and why, indeed, if one loves gay ones and looks well in them? So I want to tell you that such plain little gowns would be charming if made of ginghams in the daintier colors-pale blue, violet, pink, yellow, etc., the plain trimming matching the patterning of the goods or else of white. One might not be able to scrub the floor in such a dress, but dinner could be cooked while wearing it, for it is understood that a dainty dress must be protected with a large apron. While fresh, the frock in a delicate color, made up in this manner, would be good enough for receiving company morning or afternoon, as nobody dresses as much in summer as in other seasons.

When making up house gowns the tricks of the trade should certainly be observed if one wants the genuine house effect and lasting usefulness. For example, the shop dresses, both bodice and skirt, are put together with pudding-bag seams-sewed first on the right side, then on the wrongthis arrangement permitting much better possibilities with laundering. Then as pearl buttons of good sort are always dearer than fancy bone ones, a number of the frocks show the smartest knob fasteners in bright colors. One black and white percale frock seen recently was decked off with knob bone buttons in a rich watermelon pink, these running down the side of the dress from the neck to hem. Buttons of the same sort, or in

FEED BROKEN-WINDED HORSE

Principle to Be Recognized is to Feed

Little and Often-Care of Stall

Is Important.

By R. G. WEATHERSTONE. For running horses green food can

pot be used. It makes the animals

soft, but it may be fed to advantage

to winded horses of slow draft. When

that is done it should be given in a

fresh succulent state, rye, vetches,

etc., being fed before the seed begins

qualities, and a few roots o. carrots

with dry grain make a good winter

In fact the principle to be recog

nized is to feed little and often, to

avoid long fasts, and if it is necessary

to work immediately after feeding to

It is a good plan to keep a bucket

of water in a corner of the manger so

that it can be taken when desired, if

dry food is given, and in this way

given of course there is not the same

Leed for water. A little tar in the

water may be found beneficial and the

animals soon begin to take to it read-

ily. A ball made of tar and tallow

is greatly favored for broken wind,

Cool, well ventilated stalls or boxes

are of the utmost importance, as the

animal should have as much pure air

Long spells of rest in the stable followed by excessive spells of work

only serves to aggravate the com-

plaint. Good "hard" condition is what is wanted and this can only be

had with frequent exercise or when

the horse is idle a free run in a field.

Above all, constipation should be avoided and the digestive organs care-

if there is any sign of distress.

When succulent green food is

seldom will excess be indulged in.

go easily at first.

as possible.

ADVICE TO POULTRY RAISER

be given to obtain temporary relief.

Don't Pay Good Money for "Secrets" -Forced Moulting Does Not Increase Egg Output.

(By MILLER PURVIS.)

Don't pay a dollar or any other sum for some "secret" about poultry raising. We will guarantee that every valuable "secret" about the business will be published one or more times in these columns every year. The man who advertises "secrets" is seeking for suckers, every time.

We have all heard a lot about forced moulting of fowls in order to get them to moult early and begin to lay before winter comes. It has now been demonstrated that forced moulting., if it makes any difference in the annual output of eggs from a hen, is a damage rather than a benefit. Hens which are allowed to moult naturally lay at least as many eggs as they would if they had been forced to moult quickly.

Droppings Boards.

In order to facilitate cleanliness in the poultry-house and to greatly reduce the amount of filth, droppings boards should, by al means, be used. By using a little precaution in placing the droppings boards so as not to obstruct the light, the entire floor space beneath can be utilized for a scratching floor.

At least six inches should be allowed between the droppings boards and the roosts, the distance depending entirely upon the arrangement of the roosts. If the platform is made in sections it can be handled much more easily, as it is frequently found desirable to remove them in cleaning. Smooth boards are the most desirable to use.

Value of Soil Fertility. It has been estimated that a \$1,000 worth of wheat will take about \$250 worth of fertility from the soil; a \$1,-000 worth of pork, \$60 worth of fer-tility; a \$1,000 worth of beef, \$85 worth of fertility; a \$1,000 worth of milk, \$110 worth of fertility; \$1,000 worth of butter only about \$1.25 worth

Torii and Temple, Japan Scene, "The World In Baltimore."

China is the scene of "School-Girl and Slave Girl;" "Kosiki" is located in Korea, and a fifth play has its scene in Africa. The best talent obtainable in Baltimore has been secured for these plays, which are short enough to be snappy and interesting, yet intensely dramatic. Motion pictures, the best collection it has been possible to secure, will be shown. These rare pictures for the most part have been taken by special representatives for missionary societies especially to illustrate conditions in foreign lands.

BALTIMOREANS FINANCE MISSIONARY EXHIBITION

"The World in Baltimore" Exposition, which will be opened in the Lyric theatre and a specially constructed hall, Baltimore, from October 25 to November 30, is under the management of committees of Baltimore men of the highest standing and reputation, who have provided a guarantee fund of more than \$50,000 to finance the exposition. It is hoped that the admission fee, which the visitor will be asked to pay, will enable all expenses to be met, and any money advanced by the guarantors to be repaid. Should a profit remain after this has been done, it will be turned over to the Missionary Education Movement for the extension of missionary education. The great missionary boards and societies are supporting the exposition through the Missionary Education Movement.

SPECIAL BUILDING ERECTED

No public hall in Baltimore was large enough for the Exposition, "The World in Baltimore," to be held there October 25-November 30, so a special hall was built for the purpose. This hall will be the Hall of Nations; the Lyric theatre will be used for the pageant, plays, etc.

A RESTAURANT FOR USE OF THE VISITORS.

A well equipped restaurant under the management of one of the best caterers in Baltimore, where meals and refreshments may be obtained by visitors at fair prices, will be maintained at "The World in Baltimore" Exposition, October 25 to November 30, and it is expected that this feature will add no little to the pleasure of those who attend.

blue, violet, yellow, green or any other color, can be had for 12 and 25 cents a card. If the dress is not to be washed much, too, or the wearer is willing to spend a litle time adding the touch after laundering, a band of black lawn or calico put under the hem gives the skirt more cachet and with this addition a bias of the same is added to the neck and sleeves.

MARY DEAN.

To Make a Tea Tray.

The daintiest tea tray may be fashioned from the lid of a cheese box in this manner:

First sandpaper the wool until it is perfectly smooth and stain it a mahogany color. The stain may be purchased already prepared.

Polish the wood with turpentine and linseed oil.

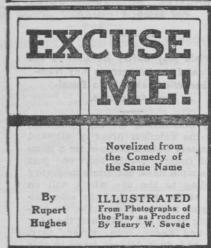

Attach brass handles, which may be obtained at the upholster's shop for a very small sum.

A round, embroidered doily placed in the bottom adds to the appearance of the tray.

These trays are especially nice for the piazza or for serving breakfast to the invalid

THE CARROLL RECORD

FRIDAY, OCTOBER 18th., 1912.

Copyright, 1911, by H. K. Fly Co. CHAPTER XXVII.

The Dog-on Dog Again. As the conductor left the Mallorys to their own devices, it rushed over him anew what sacrilege had been attempted-a fool bride had asked him to stop the Trans-American of all trains!-to go shopping of all things!

He stormed into the smoking room to open the safety valve of his wrath, and found the porter just coming out of the buffet cell with a tray, two hollow-stemmed glasses and a bottle swaddled in a napkin.

"Say, Ellsworth, what in -- do you suppose that female back there wants ?- wants me to hold the Trans-American while-"

But the porter was in a flurry himself. He was about to serve champagne, and he cut the conductor short: "Scuse me, boss, but they's a lov-

in' couple in the stateroom forward that is in a powerful hurry for this. I can't talk to you now. I'll see you later." And he swaggered off, leaving the door of the buffet open. The conductor paused to close it, glanced in, started, stared, glared, roared: "What's this! Well, I'll be-a dog smuggled in here! I'll break that coon's head. Come out of there, you miserable or'nary hound." He seized the incredulous Snoozleums by the scruff of his neck, growling, "It's you for the baggage car ahead," and dashed out with his prey, just as Mallory, now getting new bearings on Marjorie's character, spoke across the rampart of his Napoleonically folded arms:

"Well, you're a nice one!-making violent love to a conductor before my very eyes. A minute more and I would have-"

She silenced him with a snap: "Don't you speak to me! I hate you! I hate all men. The more I know men the more I like-" this reminded her, and she asked anxiously: "Where is Snoozleums?"

Mallory, impatient at the shift of subject, snapped back: "Oh, I left him in the buffet with the waiter. What I want to know is how you dare to-"Was it a colored waiter?"

"Of course. But I'm not speaking of-'

Somebody rang the bell." suppose he should bite him?" "I guess somebody did!" Mariorie But

where, anywhere. Marjorie paced up | the other he opened the door to look back along the track. "He was two years old," Marjorie

and down distractedly, tearing her

hair and moaning, "Snoozleums, Snoo-

zleums! My child. My poor child!"

At length her wildly roving eyes noted

the bell rope. She stared, pondered,

nodded her head, clutched at it, could

times in vain, then seized a chair,

swung it into place, stood up in it,

gripped the rope, and came down on

it with all her weight, dropping to the

floor and jumping up and down in a frenzied dance. In the distance the

engine could be heard faintly whist-

sobbed. "Oh, that's too bad!" the conductor groaned. "What did he look like?" "He had a pink ribbon round his not reach it, jumped for it several neck.

"A pink ribbon-oh, the poor little fellow! the poor little fellow!" "And a long curly tail."

The conductor swung round with a yell: "A curly tail!-your son?" "My dog!" Marjorie roared back at him.

The conductor's voice cracked weakly as he shrieked: "Your dog! You stopped this train for a fool dog?" "He wasn't a fool dog," Marjorie retorted, facing him down, "he knows

more than you do." The conductor threw up his hands: "Well, don't you women beat-" He studied Marjorie as if she were some curious freak of nature. Suddenly an idea struck into his daze: "Say, what kind of a dog was it?-a measly little cheese-hound?"

"He was a noble, beautiful soul with wonderful eyes and adorable ears."

The conductor was growing weaker and weaker: "Well, don't worry. 1 got him. He's in the baggage car." Marjorie stared at him unbelievingly. The news seemed too gloriously beautiful to be true. "He isn't dead-Snoozleums is not dead!" she cried, "he lives! He lives! You have saved him." And once more she flung herself upon the conductor. He tried to bat her off like a gnat, and Mallory came to his rescue by dragging her away and shoving her into a chair. But she saw only the noble conductor: "Oh, you dear, good, kind angel. Get him at once.'

"He stays in the baggage car," the conductor answered, firmly and as he supposed, finally.

"But Snoozleums doesn't like baggage cars," Marjorie smiled. "He won't ride in one."

"He'll ride in this one or I'll wring his neck."

"You fiend in human flesh!" Marjorie shrank away from him in horror, and he found courage to seize the bell rope and yank it viciously with a sardonic: "Please, may I start this train?"

The whistle tooted faintly. The bell began to hammer, the train to creak and writhe and click. The conductor pulled his cap down hard and started forward. Marjorie seized his sleeve: "Oh, I implore you, don't consign that poor sweet child to the horrid baggage car. If you have a human heart in your breast, hear my prayer."

The conductor surrendered unconditionally: "Oh, Lord, all right, all right. I'll lose my job, but if you'll keep quiet, I'll bring him to you." And he slunk out meekly, followed by the passengers, who were shaking their heads in wonderment at this most amazing feat of this most amazing bride.

When they were alone once more, Marjorie, as radiant as April after a storm, turned her sunshiny smile on

Mallory: "Isn't it glorious to have our little Snoozleums alive and well?"

She just took Snoozleums on her lap, and, looking up with wet eyes and a sad smile, murmured: "Thank you very much. You're the

nicest conductor I ever met. If you ever want another position, I'll see that my father gets you one.' It was like offering the kaiser a new job, but the conductor swallowed the insult and sought to repay it with irony

"Thanks. And if you ever want to run this road for a couple of weeks, just let me know." Marjorie nodded appreciatively and

said: "I will. You're very kind." And that completed the rout of that conductor. He retired in disorder, leaving Marjorie to fondle Snoozleums with a neglectful indifference that would have greatly flattered Mallory,

if he could have seen through the partition that divided them. But he was witnessing with the cynical superiority of an aged and disillusioned man the, to him, childish behavior of Ira Lathrop, an eleventhhour Orlando.

For just as Mallory moped into the smoking-room at one door, Ira Lathrop swept in at the other, his face rubicund with embarrassment and ecstasy. He had donned an old frock coat with creases like ruts from long exile in his trunk. But he was feeling like an heir apparent; and he startled everybody by his jovial hail: "Well, boys-er-gentlemen - the

drinks are on me. Waiter, take the orders. Little Jimmie woke with a start,

rose hastily to his feet and saluted, saying: "Present! Who said take the orders?' "I did," said Lathrop, "I'm giving a

party. Waiter, take the orders." "Sarsaparilla," said Dr. Temple, but they howled him down and ordered

other things. The porter shook his head sadly: "Nothin' but sof' drinks in Utah, gemmen." A groan went up from the clubmembers, and Lathrop groaned loud-

est of all: "Well, we've got to drink something. Take the orders. We'll all have sarsa-

parilla. Little Jimmie Wellington came to the rescue.

"Don't do anything desperate, gentlemen," he said, with a look of divine philanthropy. "The bar's closed, but Little Jimmie Wellington is here with the life preserver." From his hip-pocket he produced a silver flask that looked to be big enough to carry a regiment through the Alps. It was greeted with a salvo, and Lathrop said to Jimmie: "I apologize for everything I have said-and thoughtabout you.' He turned to the porter: There ain't any law against giving this way, is there?"

The porter grinned: "Not if you-all bribe the exercise-inspector." And he held out a glass for the bribe, murmuring, "Don't git tired," as it was poured. He set it inside his sanctum and then bustled round with ice-filled glasses and a siphon.

When Little Jimmie offered of the flask to Dr. Temple, the clergyman put out his hand with a politely horrified: "No, thank you."

Lathrop frightened him with a sudden comment: "Look at that gesture! Doc, I'd almost swear you were a par-

less express. Have you got a little minister in your suitcase?" Ira beamed with added pride as he

explained: "Well, you see, when I used to

court Anne I had a rival-Charlie Selby his name was. I thought he cut me out, but he became a clergyman in Utah-Oh, Charlie! I telegraphed him that I was passing through Ogden, and would he come down to the train and marry me to a charming lady. He always wanted to marry Anne. I thought it would be a durned good joke to let him marry her-to me."

"D-did he accept?" Mallory asked, excitedly, "is he coming?"

"He is-he did-here's his telegram," said Ira. "He brings the license and the ring." He passed it over, and as Mallory read it a look of hope spread across his face. But Ira was saying: "We're going to have the wedding obsequies right here in this car. You're all invited. Will you come?'

There was a general yell of acceptance and Ashton began to sing, "There Was I Waiting at the Church' Then he led a sort of Indian wardance round the next victim of the matrimonial stake. At the end of the hullaballoo all the men charged their glasses, and drained them with an uproarious "How!

Poor Dr. Temple had taken luxurious delight in the success of his disguise and in the prospect of watching some other clergyman working while he rested. He joined the dance as gaily, if not as gracefully, as any of the rest, and in a final triumph of recklessness, he tossed off a bumper of straight whisky.

Instantly his "How!" changed to "Wow!" and then his throat clamped fast with a terrific spasm that flung the tears from his eyes. He bent and writhed in a silent paroxysm till he was pounded and shaken back to life and water poured down his throat to reopen a passage.

The others thought he had merely choked and made no comment other than sympathy. They could not have dreamed that the old "physician" was as ignorant of the taste as of the vigor of pure spirits.

After a riot of handshaking and good wishes, Ira was permitted to escape with his life. Mallory followed him to the vestibule, when he caught him by the sleeve with an anxious:

"Excuse me." "Well, my boy-"

"Your minister-after you get through with him-may I use him?" "May you-what? Why do you want a minister?"

"To get married." "Again? Good Lord, are you a Mormon?'

"Me a Mormon!"

"Then what do you want with an extra wife? It's against the laweven in Utah."

"You don't understand." "My boy, one of us is disgracefully drunk.'

so long a duplicity, but at last they Fleagle, Mayberry, Md. were out:

"Mr. Lathrop, I'm not really mar-

70 Years withCoughs

We have had seventy years of experience with Ayer's Cherry Pectoral. This makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. We want you to have confidence in it, as well. Ask your own doctor what experience he has had with it. He knows. Keep in close touch with him.

One of Ayer's Pills at bedtime will cause an increased flow of bile and produce a gentle laxative effect the day following. Formula on each box. Show it to your doctor. He will understand at a glance. Dose, one pill at bedtime, just one. Made by the J. C. AYER CO., Lowell, Mass.

"Perhaps they are worrying about me.'

"I shouldn't be surprised." "The poor dears! I'd better write them a telegram at once."

"An excellent idea." She ran to the desk, found blank forms and then paused with knitted brow: "It will be very hard to say all I've got to say in ten words."

"Hang the expense," Mallory sniffed magnificently, "I'm paying your bills now."

But Marjorie tried to look very matronly: "Send a night letter in the day time! No, indeed, we must begin to economize."

Mallory was touched by this new revelation of her future housewifely thrift. He hugged her hard and reminded her that she could send a dayletter by wire.

"An excellent idea," she said. "Now, don't bother me. You go on and read your paper, read about Mattie. I'll never be jealous of her-him-of anybody-again."

"You shall never have cause for jealousy, my own.'

10

But fate was not finished with the initiation of the unfortunate pair, and already new trouble was strolling in. their direction.

(To be Continued.) --

Saved By His Wife.

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is of that kind. "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough, when I was so weak my friends all thought I had only a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and "Well, I'm not," said Mallory, and then after a fierce inner debate, he decided to take Lathrop into his con-fidence. The words came hard after manufacture of the state of t

"Oh, you can't hurt those nigger waiters. I started to say-"

"But I can't have Snoozleums biting colored people. It might not agree with him. Get him at once.'

Mallory trembled with suppressed rage like an overloaded boiler, but he gave up and growled: "Oh, Lord, all I'll get him when I've finright. ished-"

"Go get him this minute. And bring the poor darling back to his mother."

"His mother! Ye gods!" cried Mallory, wildly. He turned away and dashed into the men's room with a furious: "Where's that damned dog?"

He met the porter just returning. The porter smiled: "He's right in heah, sir," and opened the buffet door. His eyes popped and his jaw sagged: "Why, I lef' him here just a minute ago.

"You left the window open, too," Mallory observed. "Well, I guess he's gone.'

The porter was panic-stricken: "Oh, I'm turrible sorry, boss, I wouldn't have lost dat dog for a fortune. If you was to hit me with a axe I wouldn't mind.'

To his utter befuddlement, Mallory grinned and winked at him, and murmured: "Oh, that's all right. Don't worry." And actually laid half a dollar in his palm. Leaving the black lids batting over the starting eyes, Mallory pulled his smile into a long face and went back to Marjorie like an undertaker: "My love, prepare yourself for bad news."

Marjorie looked up, startled and apprehensive: "Snoozleums is ill. He did bite the darkey."

"Worse than that-he-he-fell out of the window."

"When!" she shrieked, "in heaven's name-when?"

"He was there just a minute ago, the waiter says.'

Marjorie went into instant hysterics, wringing her hands and sobbing: "Oh, my darling, my poor child-stop the train at once!'

She began to pound Mallory's. shoulders and shake him frantically. He had never seen her this way either. He was getting his education in advance. He tried to calm her with inexpert words: "How can I stop the train? Now, dearie, he was a nice dog, but after all, he was only a dog."

She rounded on him like a panther: "Only a dog! He was worth a dozen men like you. You find the conductor at once, command him to stop this train-and back up! I don't care if he has to go back ten miles. Run, tell him at once. Now, you run!"

Mallory stared at her as if she had

answered, with a proud toss of the head. "Where's the conductor?"

a safe distance and said:

"He's looking for the fellow that pulled the rope.

"You go tell him to back up-and slowly, too."

"No, thank you!" said Mallory. He was a brave young man, but he was not bearding the conductors of stopped expresses. Already the conductor's voice was heard in the smoking room, where he appeared with the rush and roar of a Bashan bull. "Well!" he bellowed. "which one of you guys pulled that rope?"

"It was nobody here, sir," Dr. Temple meekly explained. The conductor transfixed him with a baleful glare: "I wouldn't believe a gambler on oath. I bet you did it."

"I assure you, sir," Wedgewood interposed, "he didn't touch it. I was heah."

The conductor waved him aside and charged into the observation room, followed by all the passengers in an awe-struck rabble. Here, too, the conductor thundered: "Who pulled that rope? Speak up somebody."

Mallory was about to sacrifice himself to save Marjorie, but she met the conductor's black rage with the withering contempt of a young queen: "1 pulled the old rope. Whom did you suppose?"

The conductor almost dropped with apoplexy at finding himself with nobody to vent his immense rage on, but this pink and white slip. "You!" he gulped, "well, what in- Say, in the name of-why, don't you know it's a penitentiary offense to stop a train this way?"

Marjorie tossed her head a little higher, grew a little calmer: "What do I care? I want you to back up." The conductor was reduced to a wet rag, a feeble echo: "Back upthe train up?"

"Yes, back the train up," Marjorie answered, resolutely, "and go slowly till I tell you to stop.

The conductor stared at her a mo-

ment, then whirled on Mallory: "Say, what in hell's the matter with your wife?"

Mallory was saved from the problem of answering by Marjorie's abrupt change from a young Tsarina rebuking a serf, to a terrified mother. She flung out imploring palms and with a gush of tears pleaded: "Won't you please back up? My darling child fell off the train.'

The conductor's rage fell away in an instant. "Your child fell off the train!" he gasped. "Good Lord! How old was he?'

With one hand he was groping for gone mad, but he set out to run some- | the Lell cord to give the signal, with

But Mallory was feeling like a son March day. He answered with a

sleety chill: "You care more for the dog than you do for me.' "Why shouldn't I?" Marjorie answered with wide eyes, "Snoozleums

never would have brought me on a wild goose elopement like this. Heaven knows he didn't want to come." Mallory repeated the indictment: "You love a dog better than you love your husband."

"My what?" Marjorie laughed, then she spoke with lofty condescension: 'Harry Mallory, if you're going to be jealous of that dog, I'll never marry you the longest day I live."

'So you'll let a dog come between us?" he demanded.

"I wouldn't give up Snoozleums for a hundred husbands," she retorted. "I'm glad to know it in time," Mallory said. "You'd better give me back that wedding ring."

Marjorie's heart stopped at this, but her pride was in arms. She drew herself up, slid the ring from her finger, and held it out as if she scorned it: "With pleasure. Good afternoon, Mr. Mallory."

Mallory took it as if it were the merest trifle, bowed and murmured: "Good afternoon, Miss Newton."

He stalked out and she turned her back on him. A casual witness would have said that they were too indifferent to each other even to feel anger. As a matter of romantic fact, each was on fire with love, and aching madly with regret. Each longed for strength to whirl round with outflung arms of reconciliation, and neither could be so brave. And so they parted, each harking back fiercely for one word of recall from the other. But neither spoke, and Marjorie sat staring at nothing through raining eyes, while Mallory strole into the Men's Room as melancholy as Hamlet with Yorick's skull in his hands.

It was their first great quarrel, and they were convinced that the world might as well come to an end.

CHAPTER XXVIII.

The Woman-I-later's Relapse. The observation room was as lone-

ly as a deserted battiefield and Marjorie as doleful as a wounded soldier left behind, and perishing of thirst, when the conductor came back with Snoozleums in his arms.

He regarded with contemptuous awe the petty cause of so great an event as the stopping of the Trans-American. He expected to see Marjorie receive the returned prodigal with wild rapture, but she didn't even smile when he said:

"Here's your powder-puft"

Mallory whirled on him with the eyes of a hawk about to pounce, and The very idea!" was the best disclaimer Dr. Temple could manage, suddenly finding himself suspected. Ashten put in with, "The only way

to disprove it, Doc, is to join us. The poor old clergyman, too deeply involved in his deception to brave confession now, decided to do and dare all. He stammered, "Er-ahcertainly," and held out his hand for his share of the poison. Little Jimmie winked at the others and almost filled the glass. The innocent doctor bowed his thanks. When the porter reached him and prepared to fill the remainder of the glass from the siphon, the parson waved him aside with a misguided caution:

'No, thanks. I'll not mix them." Mallory turned away with a sigh: 'He takes his straight. He's no parson.'

Then they forgot the doctor in curiosity as to Lathrop's sudden spasm of generosity-with Wellington's liquor. Wedgewood voiced the general curiosity when he said:

"What's the old woman-hater up to now?" "Woman-hater?" laughed Ira. "It's

the old story. I'm going to follow Mallory's example-marriage."

"I hope you succeed," said Mallory. "Wherever did you pick up the bride?" said Wedgewood, mellowing with the long glass in his hand.

"Brides are easy," said Mallory, with surprising cynicism. "Where do you get the parson?"

"Hang the parson," Wedgewood repeated, "Who's the gel?"

"I'll bet I know who she is," Ashton interposed; "it's that nectarine of a damsel who got on at Green River." "Not the same!" Lathrop roared. "I found my bride blooming here all the while. Girl I used to spark back in Brattleboro, Vt. I've been vowing for years that I'd live and die an old maid. I've kept my head out of the

noose all this time-till I struck this train and met up with Anne. We got to talking over old times-waking up old sentiments. She got on my nerves. I got on hers. Finally I said, 'Aw, hell, let's get married. Save price of one stateroom to China anyway.' She says, 'Damned if I don't!'-or words

to that effect." Mallory broke in with feverish interest: "But you said you were going to get married on this train."

"Nothing easier. Here's how!" and he raised his glass, but Mallory hauled it down to demand: "How? that's what I want to know. How are you going to get married on this parson-

ried to my wife.'

"You young scoundrel!" But his fury changed to pity when he heard the history of Mallory's illfated efforts, and he promised not only to lend Mallory his minister at second-hand, but also to keep the whole affair a secret, for Mallory explained his intention of having his own ceremony in the baggage-car, or somewhere out of sight of the other passengers.

Mallory's face was now aglow as the cold embers of hope leaped into sudden blaze. He wrung Lathrop's hand, saying: "Lord love you, you've saved my life-wife-both."

Then he turned and ran to Marjorie with the good news. He had quite forgotten their epoch-making separation. And she was so glad to sale by all dealers. see him smiling at her again that forgot it, too. He came tearing the observation room and took her the shoulders, whispering: "Oh, M jorie, Marjorie, I've got him! I've him!"

"No, I've got him," she said, swi ing Snoozleums into view.

Mallory swung him back out of way: "I don't mean a poodle, I m a parson. I've got a parson. 'No! I can't believe it! Where he?" She began to dance with light, but she stopped when he plained:

"Well, I haven't got him yet, I'm going to get one.'

'What-again?" she groaned, we of this old bunco game of hope.

"It's a real live one this tin Mallory insisted. "Mr. Lathrop ordered a minister and he's going lend him to me as soon as through with him, and we'll be n ried on this train.'

Marjorie was overwhelmed, but felt it becoming in her to be a tr coy. So she pouted: "But you we want me for a bride now. I'm s a fright.

He took the bait, hook and all:

never saw you looking so adorab "Honestly? Oh. but it will be g ous to be Mrs. First Lieutenant lorv."

"Glorious!"

"I must telegraph home-and my new name. Won't mamma pleased?" "Won't she?" said Mallory.

just a trace of dubiety.

Then Marjorie grew serious wi new idea: "I wonder if mamma and papa have missed me yet?" Mallory laughed: "After three days"

disappearance, I shouldn't be surprised."

-000 As to School Holidays.

"In Rome, in the time of the Republic, 64 days in every year were devoted to public festivals recognized by law. The American republic has not reached such a number of holidays, but its schools surpassed it long ago." says the current report of the United States Bureau of Education. The document points out, however, hat there is now a wholesome trend way from the custom of granting overabundance of school holidays.

When you have a bad cold you want the best medicine obtainable so as to cure it with as little delay as possible. Here is a druggist's opinion: "I have sold Chamberlain's Cough Remedy for fifteen years says Enos Lollar of Saratoga, Ind. and consider it the best on the market." For

Lesson IV .- Fourth Quarter, For

Oct. 27, 1912.

THE INTERNATIONAL SERIES.

CHRISTIAN ENDEAVOR

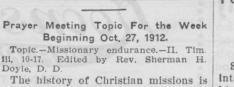

Prayer Meeting Topic For the Week Beginning Oct. 27, 1912.

Text of the Lesson, Mark vii, 31, to viii, 10-Memory Verses, 34, 35-Golden Text, Mark vii, 37 - Commentary Prepared by Rev. D. M. Stearns.

Departing from the region of Tyre and Sidon, where He had comforted the mother's heart and honored and commended her faith, He returned to the sea of Galilee, a journey of forty or fifty miles, but nothing is said of the journey. How little we think of His long walks from one part of the country to another. It is easy to travel in our day, and there is a vast amount of it done, but very few do it on foot and for Him, yet I do know some missionaries who are very like Him in this respect. Verses 32 to 37 of our lesson are recorded only by Mark and tell of the healing of a deaf and dumb man. Some are dumb because they cannot speak and others are dumb because they will not speak.

It is sometimes wise for those who can both hear and speak to be as if they were both deaf and dumb (Ps. xxxviii, 13). Too many are dumb because they do not feel constrained to speak. Their remedy may be found in Ps. xxxix, 3; Ezek. iii, 27; Jer. xx, 8, 9. If any are inclined to plead slowness of speech or the inefficiency of youth they may be helped by Ex. iv, 12; Jer. 1, 7-9. All need that which our Lord commended in Acts i, 8; see a result in Acts iv. 31. All may come unto Him. and He knows at once a right way for each. His way with this particular man was unique, but it must have been the right way for him. He took him aside from the multitude. He often takes us aside that He may cause us to hear or see or know something He could not otherwise teach us. It is blessed to be taken aside with Him. I like the verse which says that "we should live together with Him" (I Thess. v, 10). We have read of many being healed by touching Him or the hem of His garment, but see His fingers on this man's ears and tongue, and instantly he could hear and speak plainly. Was the power in His touch or in the words "Be opened," or in both? More important for me to be able to say that He hath touched me and hath spoken to me, and taught me to say "He hath done all things well." Just here Matthew records that He went up into a mountain and sat down, and great multitudes came to Him bringing the lame, blind, dumb, maimed and others and cast them at His feet, and He healed them, and they glorified the God of Israel (Matt. xv, 30, 31). When Israel came out of Egypt there was not one feeble among their tribes, and when the kingdom

comes the inhabitant shall not say, "I am sick." "There shall be no more death, neither sorrow nor crying, neither shall there be any more pain." "They shall hunger no more, neither thirst any more; neither shall the sun

a history of endurance. No disciple of Christ ever went forth to preach His gospel without being called upon to "endure hardness as a good soldier of Jesus Christ." In the life of Paul, the first great missionary to the gentile races, this fact is abundantly demon strated. In his letter to the Corinthians (II Cor. xi, 23-33) he enumerates the hardships that he was called upon to endure, and short of martyrdom itself it would be difficult to conceive a greater and more trying list of difficulties and hardships. He was beaten, stoned. shipwrecked, weary, hungry, thirsty, cold, and suffered mental and spiritual anguish in thinking of the condition of those for whom he labored in Christ's name. In his letter to Timothy he recalls the fact that he knew of his "persecutions, atflictions which came to him at Antioch, at Iconium, at Lystra, what persecutions I endured, but out of them all the Lord delivered me." No matter how great our hardships and difficulties, He who calls upon us to endure them is more powerful than they and able and willing to deliver

us out of them. Paul's history as a missionary is but an example of practically all who have followed him, so far as endurance is concerned. The agonies that have been endured, the persecutions that have been suffered by the missionaries of Christ cannot be enumerated. No tongue could tell the story of the phys-Ical sufferings, mental and soul anguish that have been endured by the soldiers of the cross engaged in carry ing the glad tidings of salvation to lost and ruined men. They have been de spised, hated, persecuted, tortured. burned and crucified. They have, in deed, as Christ Himself said, gone forth as sheep among wolves, been delivered up to councils and persecuted even unto death.

The history of the early Christian centuries is full of the most bitter persecutions and of martyrdom by methods of untold cruelty. Nor does the modern missionary movement lack those who have endured similar experiences. In Africa, China, India and the islands of the sea the story has been ever the same, and where today there is no fear of physical suffering the missionary is called upon to endure the separations from loved ones, the opposition that arises from race and religious prejudices and the many obstacles that must arise in successfully carrying forward the work of Christ's kingdom.

The glory of Christian missions is the fact that the missionaries have endured in spite of all sufferings and difficulties. In the early days martyr dom was not looked upon as a hard ship but a crown of glory. This spirit has always prevailed, and it prevails today. Men have gloried in hazarding their lives for Christ's sake and. like Moses, have endured "as seeing Him who is invisible." Every Chris-

ALL KINDS OF GHOSTS Polly Andrews Discovered a tongue?" Daylight Species.

By CLARA INEZ DEACON.

Sheriff Bob Andrews was climbing Into his buggy to drive to town when his daughter Jolly came out of the house to call to him:

"Oh, dad, I'm going over to the Rickett's place today to get wild plums."

"Lots of them there," he replied, 'but what about the ghosts?" "They never show up by daylight,

you know. "Well, don't flirt with them, if they

do.' The old Rickett's place was a mile down the highway. It was a small farm and a rambling old house that had been abandoned for years. The land had grown up to weeds and briars and tangle, and the house was doorless and windowless, and tenanted by all kinds of ghosts, from that of Henry Ward Beecher to that of a murdered pack peddler. When the boys visited the place to snook around they went, in gangs, and the men who drove past; after dark made their horses step a little faster at this spot. Everybody laughed about the ghosts of the Rickett's house, but nobody made a hunt. for them.

Polly Andrews had been visiting the place at intervals for the last five years. There were artichokes, apples, plums and berries to be found there in season, and a healthy girl has the same appetite for those things as a boy. She has never peered into the front door. But that was the limit. No use in tempting the ghosts to spring out and do murder. The wild plum season had come again, and Polly would defy several ghosts for all the fruit she could eat. Yes, there were plenty of wild plums, as her father had said, and she sat down under a tree to "gobble."

From where she sat, the girl could, see only one end of the house. There were four window-openings in view and she had glanced at them several times and wondered what the interior of the house was like, when the face

and was looking at him, but he kept his position until she rather impatiently demanded: "Well, you have a name and a

"If they have come to arrest mehe replied looking up. "Mister man, get to your feet!

That's better. Now get a grip on yourself. Why are you cowering here?" "I have been made a victim of a base plot," he answered. "I have been

hiding here for two days." "I have read of base plots in novels, but never encountered one. They didn't seem to pick out a hero to baseplot against in this case!"

The young man was impressed by her sarcasm. He blushed and straightened up, and after swallowing hard he replied: "I do not claim to be a hero. but I am not a liar. For three years I have been employed in the First National bank at Averne.'

"Yes. And money has been taken." "A package of \$5,000 was missing. I had no more to do with the taking of it than you did."

"But you skipped out and left the world to believe you a thief."

"Yes, fool that I am, it came upon me so suddenly that I was all confusion. The cashier came to me and charged me with the theft and put \$100 in my hands and advised me to flee at once to escape arrest. He said prison awaited me if I stayed. I only waited to put on my hat and coat." "Chump!" scorned Polly.

"But if I had stayed?"

"That package would have been found somewhere as having been 'mislaid.' Was there any particular reason for the cashier wanting to drive you out?"

"I can't think of any."

"Were you both courting the same young lady?"

"Why-why-"

"Oh, you innocent lamb!" laughed the girl. "It's no wonder the gold brick men can afford their steam yachts. How that cashier must chuckle."

"Do you think-think-.. "No, I don't think. I know. Your hame is what?"

"Porter Phelps."

"And I am Polly Andrews, daughter of the sheriff of this county. Come out under the plum trees."

When they were out doors and seated she continued: "Mr. Porter Phelps you appear to lack sand and to be easily rattled and to need a guardian. You have told me a straight story, have you?"

"I have." "No evasions?"

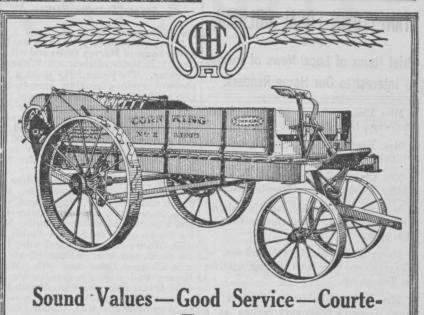

"None whatever." "Then you are coming with me

and tell dad all about it. Dad's fine as silk on a trail, and they say I know a thing or two. I guess we can straighten this matter out all right." "But your father-" protested the fugitive.

"He'll have a few words to . say along the line I have, and then turn to and help you out."

Polly was a prophet. To a layman, the young man's story would have been pronounced too fishy for belief, but Sheriff Andrews had seen just as queer cases in his time. He listened quietly, thought for awhile, and then said:

"If you and the cashier were both

P. 10

ous Treatment

THESE are the advantages you gain by trading with the I H C local dealer. He is a good judge of values in farm machines. He sells machines of guaranteed quality, and stands behind them to see that they make good. When he sells you an

I H C Manure Spreader

Kemp 20th Century, Corn King, or Cloverleaf

he sets up the machine, tests it, and makes sure that everything is right before he delivers it. He shows you how to use the machine, to make it last longest. In case of accident he can furnish repair parts promptly-repairs that fit. He gives you service worth far more than it costs you.

I H C manure spreaders are made in both return and endless apron styles, but all aprons run alike on large rollers. Non-friction roller bearings are used wherever practical, making the machine easy on the horses. The feed is variable and positive. The machines pulverize the manure and distribute it evenly in a light or heavy coat, as may be needed. Because they distribute manure properly, I H C spreaders use less than half as much manure as fork spreading to cover the same amount of ground. They make one ton of manure go as far as two, and do better fertilizing with far less labor than the old-fashioned method. The I H C local dealer has the style and

size best suited to your needs. See him for catalogues and full information, or write

International Harvester Company of America

"Beauty" Treatment Failed. Because she had a "sweet sixteen" cheek on one side of her face and a much wrinkled and faded "past fifty' cheek on the other a woman in Lyons, France, secured \$5,000 damages from a beauty doctor much patronized in that

light on them nor any heat." (Ps. cv, 37: Isa, xxxiil, 24: xlix, 10: Rev. vii, 16: xxi, 4). Do you wonder that Jesus told them of such a kingdom as He fed them and healed them? What can we think of those who know of such a kingdom and are doing nothing to make it known to others who might be glad to become inheritors of it if they only knew about it and knew how to become heirs to it?

Returning to the record in Mark, we read that the multitudes had been with Him three days with nothing to eat, and some had come long distances, so He had compassion upon them and said to the disciples, "If I send them away fasting they will faint by the way." Did He really care and does He care if we are faint and weary? Oh, yes, He cares! I know he cares. It matters to Him even about sparrows, and he clothes the lilies. The disciples seem surprised at His remarks and ask, Whence can a man satisfy these with bread here in the wilderness? Well, that depends upon the man. An ordinary man could not, but who is this man? Had they forgotten that so recently they had taken food from His hands to more than 5,000 people and had seen Him control and subdue a great storm? Yes, it is the old story of Ps. lxxviii: "They forgot His works and His wonders that He had showed them. They said, Can God furnish a table in the wilderness?" Having ascertained that they had seven loaves and a few small fishes, He took them and gave thanks and broke them and gave to the disciples to set before the people, and they did all eat and were filled.

He took what they had and used it as on the former occasion, though He might have rained it from Heaven (Ps. Ixxviii, 24). The poor widow had a pot of oil, and He multiplied that. Another widow had a little meal and oil and He multiplied that. He can create out of nothing, but He seems to love to take what we have and increase it. He wants it all given over to Him, as these and the lad gave all into His hands, as He Himself gave up all for us. He has provided a full and complete eternal redemption which He gives freely to every one willing to receive Him. Then He asks those who have received Him, and to whom He has given all, to forsake all that they have that they may become His disciples (Rom. vi, 23; John i, 12; Luke xiv, 33), to be used by Him as He will. He is all fullness, the fullness of the God head bodily, and we may be filled by Him for the benefit of others (Col. L 19: 11. 9. 10).

tian life demands endurance, and the exemplication of this virtue in the heroes of the mission fields should inspire us to an endurance that we have never before known.

BIBLE READINGS.

Matt. x, 16-22; Acts v, 26-33; vii, 54-60; xv, 25, 26; xxvii, 14-25; II Cor. xi, 23-33; II Tim. ii, 1-3; Heb. xi, 32-40; xii, 1-7; Rev. ii, 10.

Endeavor Under the Ban.

Last year the governor general of Madagascar ordered all Christian Endeavor societies on the island to dis band. He threatened prosecution of officers and committees if this mandate was not obeyed. The reason for his action was that he could not permit "associations" among the natives. The missionary societies working on the island protested. No news is at hand as to the result. One wonders at a lib erty loving people like the French taking such an attitude as this toward a society carried on in the spirit of Christian Endeavor.

A Ten Minute Night.

If the meeting lasts an hour have six leaders, who will lead for ten min utes each. Each leader will prepare his own program without reference to the others, even if he repeats some of the things that others have done. If the character of the meeting is clearly explained to the leaders each will probably vie with the others in making his part of the meeting orig inal. If there is any doubt about this of course the leaders might get togeth er and plan out the meeting before hand.

Christian Endeavor Principles.

We believe in having spiritual people for spiritual work. We hold that spiritual life must be

evidenced by open confession and by active service.

We consider the training of the young for such service a matter of paramount importance.

We cling to the idea of denomina tional loyalty combined with interdenominational fellowship.-Rev. F. J Horsefield.

Big Field For Endeavorers.

A single province of India has 22, 000,000 inhabitants, for whom there are twenty-one foreign missionaries, or one missionary to each 1,000,000 of population.

"Come Down Here, Sir!"

of a young man suddenly appeared at one of the openings on the second floor. It showed for only three seconds, but that was long enough to satisfy the girl that she was looking at a human being-a young man whose face might have been interesting but for the look of fear on it. 'That chap is hiding!" whispered

the girl to herself, and she felt more curiosity than fear.

Bob Andrews had been sheriff of Boone county, term after term, and his wife and daughter had always been more or less interested in his cases.

"Yes," resumed the girl," "if he were not a fugitive, he would not be here. Hasn't the look of a horse thief. and he is a stranger in this locality. May have been hiding here for three or four days, but I haven't heard that dad is after anyone just now. He is probably armed. Wonder what dad would do if he were here?"

For five long minutes she kept her eyes on the window, hoping the man would show his face again, and then she sprang up with the words:

"Why, I know what dad would do. He'd go in there and pull the fellow out and find out all about him. I'ii do the same!"

Without giving herself time to ar gue, she walked straight up to the house and half-way around it to the porch, and looked in at the doors. A rotting and dismantled stairway led up from a hallway with little heaps of rubbish here and there-desolation on every hand. It was a ghostly place, even at midday.

"Come down here, sir!"

The girl stepped into the hall and called to whomever might be above No reply-no movement.

"Then I shall come up!" With a chill at her heart and every

nerve tingling, Polly softly mounted the shaky old stairs. There was fear at every step, but she forced herself to World. go upwards. Four bedrooms opened off the hall, and no doors to any of them. The girl looked into three of them, and then shivered. The man must be hiding in the fourth. She hesitated for only a second and then advanced. There was no challenge. Sitting on the floor in a corner was the fugitive. His knees were drawn up, and his elbows rested on them, and his face was hidden in his hands. He knew that the girl had come up!

after the same girl, he would have a motive in wanting to drive you away in disgrace. I'll go over to Averne and see what I can pick up."

Two days later he returned to sav: "No one but the cashier had heard that any money was missing, and it. did not take me long to convince him that even he had not heard of it. You can go back and take your place again."

A year later, just after Mr. Phelps had left the sheriff's house one evehing, the father remarked to the daughter: "I thought he was in love with a

girl in Averne." "So did he for awhile."

"Did she jilt him?" "No. I arrested him!"

Old Riga Being Modernized.

The ancient city of Riga, on the river Dwina, near the Baltic sea, is undergoing a wonderful change. The place was founded in 1201 by the Knights of the Sword, a German order instituted to convert the Letts and Esthonians. It became in time a fortress of considerable strength. It did not lose the appearance of a medieval town until 1857, when its masonry walls were torn down. When Napoleon invaded Russia more than a century ago the governor of Riga burned two thousand houses. Riga is now being converted into a modern industrial city. The centuries-old moat has been turned into a picturesque canal and its banks have been planted with ornamental trees and shrubs to provide a popular promenade. The old; narrow winding streets of the inner town are being widened and straight ened. The suburban quarter, for so long a collection of wooden huts, is being built over into large apartment houses. Several squares and public gardens and buildings are being constructed. One of the squar's is used as a military parade ground. On it is the Russian cathedral, the city museum and a school supported by the chamber of commerce.-New York

made her husband.

ed at the edges.

Kate-Mrs. Wops boasts that she

city. She alleged disfigurement, and the judge agreed that her face did look very much like a walking certificate of feminine deceit. The doctor advertised in the newspapers that he could restore the beauty of youth by grafting-lifting the skin and sewing it again to the forehead under the hair. Madame Berthe Pewilly thought she would like to be a young girl again. She has buried two husbands and is now looking for No. 3. The beauty doctor operated. His method succeeded beautifully on the right cheek. The left one, however, refused to succumb to the treatment-a most provoking rebellion. "Have patience," pleaded the doctor, "we will yet succeed. See, 'Madame, the loveliness, the delicate youth of your right cheek!" The lady, however, could only see the faded accusativeness of the left side of her face. Indignant, ashamed, she sought

her lawyer, who took the case into court, and won.

A certain peer, an important figure in the Upper Chamber by reason of a very long and very bushy beard, had dismissed his valet for the night. Shortly afterwards, however, he was much annoyed to hear peals of laughter from below, and called back the man to explain. The valet answered that it was just a little joke, but his lordship would have none of it, and demanded the details angrily.

"Well," admitted the man, with reluctance, "it was really a little game we were having, my lord." "What game?"

"Well, my lord, a kind of guessing game."

"Don't be a fool, Walters! I rang for you in order to get an explanation. What guessing game were you playing? Guessing what?"

"We blindfolded the cook, to tell you the truth, my lord, and then one of us kissed her, and she had to guess who up, and she kissed it, and then cried out, "Oh, your lordship; how dare CHAS. E. H. SHRINER. W. H. DERN. C. E. SIX. you!"-London Mail.

Had the Last Smile.

A lady, having left her umbrella in a tram car, applied for it at the office.

Meg-Anybody could tell that, to "Oh, you ladies, you ladies!" said look at the way the poor man is fray- | the official in charge, as he brought about 30 umbrellas for her inspection; "you are so terribly forgetful." The lady smilled as she calmly pointed out to him that, with the exception of three, they were all gentlemen's umbrellas.

-+0+-CHALLENGE FROM R. S. MCKINNEY.

Offers to Refund Money if Dr. Howard's Specific Will Not Cure Any Case of Constipation or Dyspepsia:

R. S. McKinney is seeking the worst case of dyspepsia or constipation in Taneytown or vicinity to test Dr. Howard's new specific for the cure of those diseases. So confident is he that this remarkable medicine will effect a lasting cure in a short time, that he offers to refund the money should it not be successful.

In order to secure the quickest possible introduction, R. S. McKinney will sell a regular fifty cent package of this medi-cine at half price of the medi-

cine at half price, 25 cents. This specific of Dr. Howard's will cure sick headache, dizzy feelings, constipa-tion, dyspepsia and all forms of malaria and liver trouble. It does not simply give relief for a time; it makes permanent and complete cures.

It will regulate the bowels, tone up the whole intestinal tract, give you an appe-tite, make food taste good and digest well and increase vigor. Joy and happiness will take the place of that "don't care whether I live or die" feeling.
