## BRIEF NEWS NOTES OF GENERAL INTEREST.

### Gleaned from the County and State and our Exchanges.

A man in Arkansas advertises an automobile in exchange for a pair of oxen. He says he wants something to be depended on when he wants to go.

The National Camp, Patriotic Order Sons of America, will likely meet in Baltimore, in September, instead of Washington, the place first chosen, because of the G. A. R. meeting in the latter place at the same time.

Charles C. Gorsuch, of Westminster, has been elected one of the Trustees of Western Maryland College. The College is fortunate in securing Mr. Gorsuch, as his appearance on the Board means additional progress for the institution.

The Frederick county Lutheran reunion will be held at Braddock Heights, next Wednesday, July 28. Music will be by the Orphans' Home band of 30 pieces, and there will be a choir of 40 voices. Addresses by Revs. J. C. Bowers and W. A. Hartman.

The Blue Ridge College will hold their annual reunion at Pen-Mar, Tuesday, July 27. A short program at 2 o'clock. Addresses by Pres. Paul H. Bowman, R. Paul Smith, Supt. Frederick and Hagerstown Railway, and Prof. E. G. Guyton, of the Commercial Department.

A chautauqua tent at Dallastown, Pa., near York, was blown down in a storm, Monday afternoon, and two men killed and fourteen injured. Over 700 were in the tent, and the entertainers were in the midst of their program when the storm broke. The tent was torn from its fastenings, carried forty feet, and thrown down a mass of wreckage.

Frederick county was visited by another violent storm, on Monday afternoon—the third within a week. The storm centered about Buckeystown. Two barns were burned, belonging to John P. Graff and Clarence W. Rudy, the loss being about \$7,500. Considerable damage by storm was done to buildings and trees, and to telephone lines.

Albert Gosnell, Woodbine, and Elmer Jenkins, Sykesville, were injured on Tuesday, when a touring car in which they were riding skidded and turned over near Ridgeville. Both were pinned beneath the car and were released by Dr. L. D. Chaney. Gosnell fractured his upper jaw and may have a fracture at the base of the skull. Jenkins had four ribs fractured and may be internally injured.

John R. McLean, the publisher, has bought the front steps of the Capitol at Washington, which after long years of use are being removed to make way for new ones of granite. Mr. McLean will use the slabs in a sunken garden at his country place. The old steps are rich in historic interest. Upon them Lincoln, Garfield, McKinley and all other Presidents down to Woodrow Wilson took their oaths of office and delivered their inaugural addresses.

Henry Ford, of Detroit, will be invited to attend the assembly of Northern Illinois Republicans at Aurora on Aug. 7, when a boom will be launched for him for Republican nominee for Vice-President of the United States, according to a current report. The affair is to be a picnic for loyal Republicans of the six counties in Northeastern Illinois. Backers of the Ford boom say that if every owner of a Ford car votes for him he will be elected by an enormous plurality.

On account of the small amount of wheat being sold locally, a number of millers of Franklin Co., Pa., have been compelled to close down. The farmers are holding their crops for higher prices. The bulk of the new crop is not threshed yet. The farmers have stored their wheat in the straw in their large barns and will let it remain until winter, when it is threshed out and shipped to market. Two flouring mills in Chambersburg and several in the county have closed down.

Howard Grumbine, of Westminster, received a fractured left arm and numerous cuts and bruises about his face in a motorcycle accident last week, near Brummel. Grumbine and Roland Harbaugh were riding on the motorcycle and were going at a good clip when they crashed into the wagon of Christ Weike. Both cyclists were thrown over the wagon into the road. Weike was thrown to the road on his head and was cut and bruised about the face and body. Harbaugh escaped with slight bruises.

A new hotel to cost approximately \$150,000, which will be partially financed by Baltimoreans, is to be erected this summer on the site of the old Blue Mountain House, near Pen-Mar, which was destroyed by fire in 1913. It is expected to be ready to open next Spring. Associated with the local promoters will be bankers in Hagerstown and Waynesboro. Estimates have been asked on two styles of buildings—one a three-story brick building and the other a frame building, both of the same dimensions.

J. D. Crowl's ice cream factory and bottling works, in Westminster, were destroyed by fire, on Monday. The loss is about \$4,000, with no insurance. The fire was caused by a spark from the engine which set fire to the frame work. The buildings destroyed are an ice cream factory, bottling works, two large ice houses, two stables, two wagon sheds, large barn, chicken house and two hog pens. Three racks of hay and wheat also were consumed. The barn contained about 20 tons of this year's hay crop.

### Grangers Storm Insurance Co., in Receivers' Hands.

After hanging fire for about three years, during which a number of judgments have been secured against the company by farmers of Frederick and other counties, Judge Brashears, of Annapolis has signed a decree appointing receivers of the Grangers' Mutual Fire and Storm Insurance Company, of Carroll County. The decree has been received at the Westminster court and filed. F. Neal Park and C. C. Clemson, of Westminster, have been appointed the receivers of the company by the State Insurance Commissioner with the recommendation of Attorney-General Allen Poe. The corporate surety bond has been fixed at \$10,000.

Represented by Charles McC. Mathias, Frederick, F. Neal Park and C. O. Clemson, Westminster, judgments against the Insurance Company were secured by Jno. W. and George C. Thomas, County Commissioner Thomas N. Mohler and Arthur Strube, of Frederick county, aggregating nearly \$2,000. The Grangers' Mutual and Storm Insurance Company refused to recognize or pay the judgment. Because of this, proceedings were started looking toward the appointment of receivers to close the business of the Company, collect all outstanding premiums, and pay all claims against the company. Under the decree handed down by Judge Brashears, the charter of the company has been forfeited.

There are said to be a number of unsettled claims against the Company, both in Frederick and Carroll counties, which were not pushed. The receivers will likely make assessments under order of the Court, collect the amounts so levied, and pay the same out to the parties entitled.

The company of which Luther M. Bushey, of Sykesville, Md., was president was incorporated in 1906. It was a mutual concern, composed principally of farmers of Carroll, Frederick, Baltimore, Howard and Montgomery counties. Numerous losses were sustained and assessments levied upon the policyholders were not collected in full. In consequence, claims have accumulated against the company. Last fall an examination of its affairs was made by the State Insurance Department and the receivership proceedings followed. The principal assets of the company are uncollected assessments, amounting to \$12,886.49.

### Taneytown Public Events.

This Saturday, July 24, the P. O. S. of A., of Taneytown, will celebrate their 25th anniversary as a Camp, in Ohler's Grove. An all day affair, with band music, baseball games, side attractions, and addresses in the afternoon by State President Seabrook, State Secretary Heaps, and Revs. Marks and Downie.

On Wednesday afternoon, July 28, the Community picnic in Ohler's Grove. An event in which all denominations take part, more about which will be found elsewhere in this issue. This is everybody's day for a good time, and that's what it will be.

On Wednesday, August 4, also in Ohler's Grove, the annual picnic and tournament, for the benefit of St. Joseph's Catholic congregation. This event always draws big crowds, and this year the attractions will be added to by addresses by Democratic candidates for nomination for Governor, Comptroller, etc. See large advertisement in this issue for details.

The week of August 9 will be State Grange Fair week, the event of statewide prominence, which will be attended with the usual attractions, and will no doubt draw the customary large crowds during the various days.

### Wheat Yield in Frederick County.

With Frederick county's wheat crop harvested and some farmers now threshing, estimates are being made as to the production of the grain this year. As is generally known, the crop as a whole is far behind last year's yield, although some growers were fortunate in securing a good crop. The average for the county will hardly be over 15 bushels to the acre. Some fields were not worth cutting, while others produced only a few bushels to the acre.

It is stated that the grain was good and fairly well filled but the straw was light. A report from the Manor was to the effect that the yield there will range from 12 to 18 bushels, a decided falling off from last year, when 20 to 30 bushels was the way the crop ran.

Few exceptional yields are being heard of this summer. One of the most remarkable yields in Frederick county last year was secured at the farm of the Buckingham Industrial School, about 39 bushels to the acre being reported. The grain has not yet been threshed there this summer but the crop cannot compare to last year's wonderful production, it is said.

The biggest yield in Washington county so far reported is that of Aaron Middekant, who had 17 acres to make 600 bushels, which makes over 35 bushels to the acre. The field had been heavily limed within the past five years and it is thought that the result of this lime is now beginning to tell on the land. The wheat is reported to have stood unusually heavy upon the ground and many persons who saw it before being cut pronounced it the finest field of wheat that they had seen in all that section of Washington county.

Little threshing is being done as compared to last year. Some farmers are storing the wheat, and the general tendency is to hold the crop until better prices are offered.—Frederick News.

### Still Better Type Equipment.

The RECORD has just added to its equipment five desirable series of new job type, and strengthened its supply of other type faces, which will give it still better facilities for up-to-date and high-grade work. This office has always enjoyed a wide reputation for turning out the very best of work, our motto being, "Whatever is worth doing, is worth doing well," and this requires frequent additions of new equipment.

## MARYLAND ROAD SYSTEM REVIEWED.

### Another Five Million Loan Needed to Complete the Work.

At the close of 1915, Maryland will have a state road system, well on toward completion, which connects each county seat with Baltimore, and the various sections of the state with each other. The total sum borrowed by the state, to date, for the system, is \$15,770,000, the interest on which is \$605,800. The loans ran approximately 15 years, and the proportion of the State tax rate to provide the interest and sinking fund varies from 2 cents in 1909, which produced \$205,000, to 16 cents in 1917, which will produce \$1,642,000 figured on the present taxable basis.

The sum of money, however, that has been available for the construction of the State system proper is actually \$14,570,000, for \$200,000 was specifically set aside from the loan of 1912 to become part of the special fund appropriated by the State for the construction of the Washington boulevard, and the loan of 1910, for \$1,000,000, was for the specific purposes stated above, and it is upon this basis of \$14,570,000, as a general roads fund, that the mileage and costs are based.

The following is the mileage allotted, and built, in each county:

	Allotted.	Built.
Allegany county	4	41.00
Anne Arundel	61	28.40
Baltimore	103	56.40
Calvert	25	35.00
Caroline	40	38.85
Carroll	44	37.10
Cecil	45	44.40
Charles	54	42.05
Dorchester	79	53.40
Frederick	71	59.40
Garrett	57	47.30
Harford	40	42.60
Howard	38	27.20
Kent	31	22.00
Montgomery	72	55.05
Prince George's	62	37.00
Queen Anne's	42	33.20
St. Mary's	49	44.70
Somerset	37	28.60
Talbot	37	19.50
Washington	63	47.40
Wicomico	59	40.70
Worcester	52	41.10

Total miles 1212 922.35  
The lowest average cost per mile has been \$5000—in Southern Maryland—and the highest average cost has been \$134,000 for 50 miles of street paving in the city of Baltimore. The average cost per mile, this year, is estimated at \$10,750.

The State is also building the new Hanover street bridge, which will be the longest and most expensive bridge in the State, with its approaches being one and one-half miles in length and costing approximately \$1,250,000. It is also spending \$1,900,000 within the corporate limits of Baltimore. One hundred and sixty miles of turnpike have been purchased at an approximate cost of \$319,000, and 53.50 miles of turnpike have been taken over from the United Railways and Electric Company, making a total of 213.50 miles of turnpike which have been incorporated in the State system.

This remaining mileage of 290 miles is of the first importance in the whole comprehensive scheme of the State highways, and it is earnestly to be hoped that the State at the next session of the Legislature will provide the funds for this purpose.

In view of the important nature of the remaining mileage and upon the very fair estimate of \$12,000 per mile as a basis of cost, it would seem that for the uncompleted mileage of 290 miles it would be necessary to provide at least \$3,480,000 for roads alone. Many bridges remain to be replaced with more permanent structures of concrete. Included in these are the several important bridges on the Eastern Shore. It is estimated to replace the present structures with concrete, to assure the uninterrupted travel of the future, the sum of \$1,800,000 will be required; this sum, taken with the estimated cost of the remaining highway, would indicate the sum of \$5,000,000 as a necessary further credit to be established by the State, to provide for discount incident to the sale of the bonds, to fully complete the great system of arteries already built.

Now that the system of main arteries built by the State is practically complete, sufficient provision for adequate maintenance becomes the paramount necessity; for the purpose for which this vast work was undertaken and this great investment made will be lost unless the roads are properly preserved and maintained.

The average cost of maintenance in the new State highways in 1913 is given as \$434 per mile and \$440 per mile in 1914. On the road system complete it is estimated that the figure of \$500 per mile, on the total mileage of approximately 1250 miles, will be necessary for maintenance on a system of roads that is new, indicating a total amount of between \$625,000 and \$600,000 as annually necessary for adequate maintenance. The motor vehicle tax for 1915 produced the sum of \$295,859, of which 20 per cent, goes to the city of Baltimore and a proportion to the State aid roads, there being left \$199,344 for the State system proper. A tax of 1 per cent, per \$100 is now levied for maintenance, producing about \$100,000 annually.

In the years 1914 and 1915 the outlay for maintenance will amount to the sum of approximately \$650,000 and the receipts from the motor vehicle tax available for the State system proper approximately \$300,000, and from the one cent tax \$191,000, together aggregating \$491,000, showing a deficit for the period of two years of approximately \$160,000 to be made up from the general fund for construction; the receipts from the motor vehicle tax must increase materially from year to year, but it seems safe to say that it will be found necessary to provide between \$300,000 and \$400,000 annually by taxation to provide adequate funds for maintenance and administration, and that the tax to be levied to provide the funds for this purpose should be

increased to at least 3 cents per \$100; that there may be no lapse of time in which decay and disintegration may occur, only to impose a heavier burden later on for more extensive repairs. Condensed, from Balt. News.

### Traction Engines Damage Roads.

Many complaints are being made by users of improved highways relative to the damage that is done by traction engine operators. It is claimed by some property owners that, while the Maryland laws permit cleared traction engines to use state roads, that the operator should exercise some care that his engine does not cut up the road. One property owner when seen by a reporter for the Frederick Post said the situation up this way:

"Are those who are using traction engines, displaying reasonable caution in traveling over improved roads? It is stated that many of the men who are running the engines keep directly in the center of the road, thereby seriously damaging the oiled surface, by breaking the binder. This causes the oil coating to become loose and carried off by passing automobiles.

"Traction engine owners should caution their men to keep off the macadam and use the side road whenever it is possible. There is no question but considerable damage is done by the cleats cutting into the oiled surface. At the coming session of the Maryland Legislature it is more than likely that some laws will be passed along the lines regulating the use of state roads by heavy automobiles and traction engines.—Frederick Post.

### Maryland Horticultural Meeting.

The Summer Meeting of the Maryland State Horticultural Society will be held at new Pen-Mar Park, July 29 and 30, 1915. Special interest centers in this meeting, as the members and guests of the Society will have an opportunity to visit one of the most picturesque sections of Maryland.

The fruit growers of this section, and throughout Washington county, have extended a cordial invitation to the members of the Society and their friends to visit their orchards during the meeting. A special automobile trip is being arranged for Friday, July 30, leaving new Pen-Mar Park about 9 a. m.

The primary object of the Society in holding a Summer Meeting is to permit the members to observe practical operations in horticultural work in different parts of the State. Here is an opportunity to observe how the famed mountain peaches are produced.

The program will be very interesting. Among the subjects of the addresses will be, Success in Orcharding. Apple and Pear blight. Spraying and thinning. Grape culture, etc.

No Farmer or Fruit Grower should be too busy to take a trip during the Summer. No matter how progressive he thinks he is, he can always learn something by observing how the other fellow operates his business. We learn from each other. On such trips business and pleasure can usually be combined. After taking such a trip one is usually glad to get back home and is more satisfied with his environment, because every person has his troubles and every location its difficulties.

### Orphans' Court Proceedings.

MONDAY, July 19th, 1915.—Letters of administration on the estate of Burdie C. Deveney, late of Carroll county, deceased, were granted unto Catharine Carlie.

Letters of administration on the estate of Adam H. Wagner, deceased, returned Josiah H. Wagner and Allen W. Goog, who received warrant to appraise and order to notify creditors.

Samuel C. and John T. Stoner, executors of David Stoner, deceased, returned inventories of personal property, debts due and money received orders to sell personal property, stocks and bonds and real estate.

TUESDAY, July 20th, 1915.—Emma J. Burgoon, executrix of John Burgoon, deceased, returned inventories of personal property, debts due and money.

Letters of administration on the estate of Joseph T. Ward, late of Carroll county, deceased, were granted unto Annie A. Ward, who received warrant to appraise and order to notify creditors.

The last will and testament of Robert A. Nelson, late of Carroll county, deceased, was admitted to probate and letters testamentary thereon were granted unto Joseph H. Kain who received warrant to appraise and order to notify creditors.

Philetus R. Haight, administrator of William H. Haight, deceased, returned inventories of personal property and money and received order to sell personal property.

Union Bridge Banking and Trust Company, executor of Hannah A. Dotterer, deceased, settled its first and final account.

Thomas A. Harrison, administrator of James O. Harrison, deceased, reported sale of personal property.

### Oakland Mills Sold.

The bidding was very conservative at the auction sale of the property of the Oakland Manufacturing Company, at Oakland, Carroll county, on Monday. The entire bidding was confined to three or four men, and the listless contest soon ended with John C. Melville, of Chambersburg, Pa., the highest bidder. For the small sum of \$16,100 he acquired the ownership of the entire property, a church, school, a store, with goods valued at \$2,500, and a well-equipped farm of 104 acres.

Mr. Melville, the new proprietor, owns a large mill in Chambersburg, Pa. His brother, Charles Melville, has an estate adjoining the mill property at Oakland. After the sale the new owner expressed his intention of operating the mill along the same or similar lines. Though he would not definitely state the exact nature of the products he would turn out, he expressed himself as determined to carry on the woolen business. He will put the mill into operation perhaps within a week. By that time, he thought, samples could be turned out easily.

## A GREAT BATTLE PROGRESSING IN POLAND.

### Russian Army in Danger of Defeat by the Germans.

The greatest battle of the war is now in progress in Poland, with the chances very decidedly in favor of the German-Austrian armies. The Russians are fighting fiercely, and wherever compelled to retreat are destroying all property behind them. The battle has been in progress for a week, the Germans making steady advances.

The Russian armies lack artillery, and a sufficient number of officers. Warsaw, the chief city of Poland, seems doomed to capture, and it is likely that it will be burned by the Russians before they let it fall into the hands of the invaders as a prize.

The Italian army is making progress in Austria, but is having trouble to reduce the strong fortresses they find, in time to be of much service to Russia.

The situation on the western front remains practically unchanged, neither side venturing to enter into a drive outside of their intrenchments.

It is now confidently stated that England is to begin a great drive against the German forces, about August 1, and will redeem her apparent weakness and tardiness as an important factor in the European war. England, so far, has shown up very poorly, by comparison with France and Russia, and will need to do great things in order to maintain her position as a powerful nation.

General Kitchener is reported to have been quietly engaged in forming an efficient new army of 2,000,000 men, fully equipped and backed by heavy field guns, and that a second army of 750,000 men will be ready to follow in a few weeks. It is also said, apparently on good authority, that another 1,000,000 troops have been drilled and equipped for home defense, if needed.

The whole scheme has been kept as quiet as possible, but the preparations have been going on, for months, and all the details worked out carefully by General Kitchener.

### Big "Dry" Pic-nic at Mt. Airy.

Arrangements are rapidly being completed for the big "dry" pic-nic which will be held in Wildwood Park, Mt. Airy, on Saturday, August 7.

Music for the occasion will be furnished by the Apollo Male Quartet, of Philadelphia. One of the biggest features of the program will be the mammoth parade which will inaugurate the celebration. The parade will form at the Presbyterian church, in Mt. Airy and the line of march will be direct to the grounds. All lodges of Mt. Airy are expected to participate in the procession. Prizes will be offered to the lodges making the best appearance and with the largest number of members in line.

Among the prominent speakers will be Prof. Wm. Jas. Heaps, of Baltimore; Dr. Thomas Hare, superintendent of the Anti-Saloon League of Maryland, and Daniel A. Poling, of Boston, associate editor of the Christian Endeavor World.

### Taneytown Wins Two Games.

The Taneytown baseball club went to Woodsboro, last Friday, and scored its first victory of the season, 8 to 2, in a snappy, hard fought game. The local club has been strengthened in its make-up, and practice has done all hands good, enabling them to bat with more confidence and to field more sharply. It required some little time to get in shape, but for the remainder of the season Taneytown will be no easy snap.

On Tuesday, the locals played Thurmont, at Taneytown, and put them in the cellar by a score of 11 to 4, the score being 11 to 0 at the beginning of the 8th inning, when Taneytown eased up, the visitors making 3 runs in the 9th. Motter pitched the full game for Taneytown, and was very effective.

Revenge on the Emmitsburg team will be next in order—let the mountaineers take due notice.

### Looking Up Our Navy.

Washington, July 21.—Acting under orders of Secretary of the Navy Daniels, with the approval of President Wilson, the Board of Inspection and Survey for Ships of the Navy Department, is making a survey of all the American merchant vessels, with a view to their use by the government in the event of war. Every ship which flies the American flag is being taken into consideration, its tonnage, condition, speed, etc., noted, together with its availability as an auxiliary of the United States Navy.

Despite the warlike significance of this action, navy officials declare that it merely is a precaution which is being taken to prevent a possible recurrence of the situation which prevailed at the onset of the Spanish-American War. At the beginning of that conflict there was a great demand for ships to be used as colliers, transports, supply ships, etc., as well as those which might be armed as auxiliary cruisers. But it was found that the Navy Department had made no list of such available vessels and did not know where to look for them. As a result the government bought vessels at fancy prices, far beyond their worth, and many of which were not fitted for the uses to which they were put. It is proposed now to avoid the possibility of a repetition of this experience.

When asked about the significance of this action, Navy officials said it did not mean that this government is preparing for war or that recent events had made war any more probable than it has been for months. It is merely a precautionary measure in the interest of preparedness, they declared. As a result of it, if there should be an armed conflict with Germany, this government would know exactly how many merchant ships are available, their tonnage, seaworthiness, value, etc.

### Suggests Block System for W. M. R. R.

Chief Engineer Charles E. Phelps has submitted to the Public Service Commission a report in which he recommends that the Western Maryland Railway Company be required to equip its lines with automatic block signals from the end of its double track, at Emory Grove, to Virginia avenue, in Cumberland. The recommendation is based upon an investigation made by inspectors under Mr. Phelps into the causes of the head-on collision that occurred near Thurmont, June 24, resulting in the death of Mrs. W. E. Chipchase and her son, Walter N. Chipchase, of Baltimore, and others.

In his report Mr. Phelps states that it has been amply demonstrated that the Thurmont accident was in no wise due to structural or equipment weakness, but to the impaired efficiency of the road's train dispatching system. Then he goes on to say that two facts seem to stand out prominently as the result of the investigation made by his inspectors.

It appears, he says, that the train dispatching over about 100 miles of the Western Maryland line, which was formerly handled by both Hillen Station and from Hagerstown, was at the time of the accident all handled from Hagerstown. The dispatcher, in addition to his regular duties of controlling the movements of the trains over 180 miles of road, was charged also, according to Mr. Phelps, with the duty of distributing empty freight cars as and when required. Upon this subject Mr. Phelps says:

"It would seem that this duty had naturally impaired the efficiency of the train dispatching so far as the particular passenger trains involved in this accident were concerned, and it would also seem that it is not too much to expect that one dispatcher for 180 miles of line should be in a position to give his undivided attention to the control of train movements and not to have an extra over-lapping duty which would tend to impair the efficiency of his real duties as a train dispatcher."

Cardinal Gibbons was 81 years old this Friday. As usual, he celebrated the event in the quiet and rest of the country, at the home of T. Herbert Shriver, near Westminster. The Cardinal, despite his advanced years, is still very active. There is no apparent letting up in the regular routine of his daily life. A short time ago he showed the effects of the strain during the first spell of hot weather and was indisposed for a few days. Now he has regained his full vigor and goes about his business affairs with all the promptness and regularity of earlier years.

There are more coal mining counties in Illinois than in any other State in the Union, half of the 102 counties being, or having been, producers. The two most important producing counties are in the southern part of the State, where the coal beds attain a greater thickness than in the northern districts. The principal increase in the coal production of Illinois in 1914 was in Franklin County, where a large amount of development has taken place during the last four years, advancing the county from eighth place in 1910 to first in 1914. In 1914 this county produced 7,311,209 tons of coal.

Great dissatisfaction exists at the Washington Navy Yard because of a reduced scale of wages, taking effect July 1, by order of Secretary Daniels. Threats have been made by local labor leaders that unless the old scale is restored, there will be a strike among the machinists, which will likely spread to the other yards of the country.

### DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

HANN.—Suddenly, on July 21, 1915, at Chester, Pa., Philip Howard, youngest son of the late Isaiah and Elizabeth Hann, formerly of near Taneytown. Funeral at Chester, Pa., July 24.

OTTO.—Mr. Thomas Otto, a well known farmer and citizen of Middleburg district, died at his home near Middleburg, early last Saturday morning. He had been ill for some time. Funeral services were held at Haugh's church, on Monday morning. He was 67 years of age. (See Middleburg correspondence.)

KEEFER.—Mr. Samuel Keefe died at his home in Mayberry, on Monday, aged 74 years, 2 months and 15 days, after a prolonged illness. He leaves a widow and the following children: William Keefe, of Mayberry; Mrs. Cyrus Leppo, near Silver Run, and Mrs. Hoff, of Hagerstown. Funeral services were held on Thursday, at Silver Run.

FLEAGLE.—Charles A. Fleagle died at the home of Mr. Ezra D. Stuller, in Mayberry, on Sunday, aged 70 years, 6 months and 6 days. He had been ill for some time from brain trouble. For quite a number of years he had been employed as carpenter and all around mechanic at the Experiment Station, College Park, but was obliged to quit work because of his malady. He was highly regarded there, as an efficient mechanic.

He leaves three brothers, Thomas, Samuel T. and George, and two sisters, Mrs. Ezra D. Stuller and Mrs. Jane Shriner. Funeral services were held on Tuesday afternoon; interment in the Reformed cemetery, Taneytown. Services by Rev. Guy P. Bready.

PIOUTZ.—Mrs. S. Harry Pioutz, of Hagerstown, died Saturday morning at her home, 53 Elizabeth St., aged 44 years and 4 months. Mrs. Pioutz is survived by her husband and one daughter, Clara; three brothers and two sisters in the west also survive. Funeral services were held on Monday, at 2:30 o'clock, at the house by Rev. J. W. Ott. Interment in Rose Hill cemetery.

Mrs. Pioutz was a devoted member of the Lutheran church and was loved by all who knew her. She was a kind and loving wife and mother, and had many friends in Hagerstown, as well as in Union Bridge, where they resided before moving to Hagerstown, where Mr. Pioutz is employed in the W. M. Shops. The floral tributes were beautiful.

## LIVE STOCK HUSBANDRY

### CEMENT STABLE FLOORS.

When Well Bedded and Drained They Are Entirely Satisfactory.

Men sometimes question the advisability of using concrete for a horse stable floor, says F. L. Allen in the Rural New Yorker. The objections urged are coldness, hardness, dampness and danger of slipping. There seems to be little foundation of fact for any one of these objections. Men have kept horses all their lives on a plank floor without ever raising these objections. But how much is a plank floor better than a well constructed concrete floor in any one of the above mentioned particulars?

A concrete floor is cold because it is a good conductor of heat, but a plank floor that is up from the ground, so that the wind can blow under it, is colder. A cement floor built upon a crushed stone or a cinder foundation is as dry as a plank floor, unless the plank floor is loose, so that the water filters through. In that case there is a loss of fertilizing values and an insubstantial condition of the stable. Some seek to secure both warmth and dryness by a two course construction with tarred paper between. As for hardness and danger of slipping, I cannot see much difference between concrete and oak plank. As a matter of fact, many of the best farmers and biggest breeders of high grade horses are using cement floors, and "the consensus of opinion is that if plenty of bedding is used and proper drainage provided they are entirely satisfactory."

For drainage a slope of one and one-half to two inches in the length of the stall will be sufficient.

### DUAL PURPOSE CATTLE.

Milking Shorthorn a Profitable Producer of Milk and Meat.

The cow that will produce butter, say, all the way from 300 to 500 pounds a year and at the same time produce a steer that will fatten readily and bring a good price when put on the market is certainly popular, writes a correspondent of the Orange Judd Farmer. The breaking up of ranges, the extension of dry farming, the demand for cultivated land, to say nothing of the increased demand for beef, have resulted in such a decrease in the number of beef cattle that something must be done.

Other countries have found that the only way out of the problem is to raise a few animals each year on nearly every farm in the country. It has been pretty definitely determined that this is possible. The friends of the dual purpose cow claim that she is the animal which will most readily fit into this modified form of agriculture. They insist that, while it may not be profitable to keep a cow simply for the beef steers she will produce, it is worth while to keep animals which will not

The results of a three day milk test at the recent dairy show at Ottawa, Canada, show that the Shorthorn is a great dairy cow, the equal of either the Ayrshire or the Jersey, and a good beef animal as well, says the Breeder's Gazette. The average yield of milk was for the Ayrshires, 14.4; Jerseys, 11.74; Shorthorns, 13.9 pounds. The average total score was for the Ayrshires, 182.5; Jerseys, 180.6; Shorthorns, 179. The total yield of fat in the three day test was Ayrshires, 28.26; Jerseys, 28.91; Shorthorns, 27.21 pounds. And the average yield of fat (per cow) was Ayrshires, 5.65 pounds; Jerseys, 5.78 pounds; Shorthorns, 5.44 pounds. The cow shown is a milking Shorthorn.

only give birth to a good meat producing animal, but will also give a fair amount of milk.

There are good milkers in all breeds, but probably the milking strains of Shorthorns are more numerous than the milking strains of any other of the strictly beef breeds. The Red Poll is considered a dual purpose animal and is quite satisfactory.

Of course the breed specialists insist that for highest efficiency special purpose animals must be kept. If beef is to be produced a beef breed must be handled. If milk is the prime object then let one of the dairy breeds be kept. All of this was very well during the days when land was cheap and plentiful, when feed was abundant and the demand for meat small. Under present day conditions it has developed that a new method must be adopted.

### Clover Roughage For Hogs.

A good winter roughage is secured by stacking green clover with every other layer of clean straw. Leave it in the stack for two months, and then feed to the hogs. An immense saving can be made on the grain ration. The animals like it and seem to be in better health when fed this roughage. Cut the clover when about ten inches high. Cut in the morning and in the afternoon, after the dampness has dried off and the leaves are wilted, stack it. Clover when intended for hogs should be cut at a more immature stage than when intended for other cattle.

### LIVE STOCK NOTES.

It is a sin for a well born colt to be ruined in its growing. Free range for the hogs does not mean that your neighbor's farm should be their pasture. Bad shoeing causes many horses to travel badly, but shoeing is not wholly to blame. Careless, ignorant adjustment of the harness is one cause.

When using alfalfa for hog pasture divide the field into three lots, using one in early spring, one in summer and the third in fall. In this way two crops of excellent hay may be cut from each plot.

Look for vigor in the ram you propose to use. If he has not got it turn him off and get one that has.

## CONTINUOUS GRAZING FOR HOG PROFITS

[Prepared by the United States department of agriculture.]

The hog is by nature a forager. He likes to graze and root, and the more of his food that he can be made to gather in this way and the greater the ease with which he can secure water the more profitable is he likely to be to his owner. In such states as Virginia, Maryland, West Virginia and Kentucky grazing crops should furnish hogs with fully 75 per cent of their food. Varying conditions will naturally affect this percentage in other sections, but there are several principles in the selection of pasture crops for pork production which are alike everywhere.

FEEDING YOUNG PIGS.

where. Among these may be mentioned, first, the adaptability of the crop to the soil and the climate; second, the liking of the hogs for it; third, the amount of nourishment it furnishes and its influence on the character of the meat produced; fourth, the length of time the crop can be pastured and its ability to renew itself after it has been pastured off.

An interesting instance of what can be done by careful planting of pastures is reported by a county agent in Virginia, who was, however, extremely lucky with his sows. Starting with five sows, he produced an actual cash income of \$773.50, while the increase in the fertility of the land was considered to do more than offset the cost of taxes, insurance, depreciation, etc. The sows farrowed in January, producing a total of thirty-five pigs. The fall farrow brought fifty-five more. The January pigs were fed on 1,000 pounds of shorts until April 1, when they were turned into a three acre lot which had been sown the previous September with rape and crimson clover. They grazed these throughout April. On the 1st of May they were turned into lot No. 2; also three acres, which had been sown on Sept. 15 with rape, wheat and white crimson clover, which they grazed until June 1, when they were moved to lot No. 3, again three acres. This had been sown on Oct. 1 with wheat and vetch, and the pigs grazed it until June 20. Lot No. 4, of two acres, afforded them wheat from June 21 to July 15. For the rest of the month they were fed green corn and on Aug. 1 put back into lot No. 1, which had been sown to New Era cowpeas in the interval. Green corn was used to prolong the peas until Sept. 1 soy beans were ready in lot No. 2. By Oct. 1 more peas were ready in lot No. 4, and these were grazed until Oct. 20, when corn was available for grazing in lot No. 3, where the pigs were kept until Nov. 15. In this way eleven acres furnished the herd pasture from April 1 to Nov. 15, with the exception of two weeks at the end of July, when green corn was fed. Green corn was also used through the month of August to supplement the peas.

The only actual cash outlay for the year's work was the purchase of five sows at \$14 each and of 1,000 pounds of shorts and seed, the whole amounting to \$141.80. In addition to this, 350 bushels of corn were consumed, 150 to finish off with. At 75 cents a bushel this amounted to \$202.50, but the actual cost of production was only about 30 cents a bushel. Labor, use of the land and other items brought the expense of the total investment up to \$523.50. The returns were estimated at \$905.30, thirty-eight pigs being left on hand, valued at \$190.

This result was, of course, made possible only by the remarkable prolificacy of the sows, for ten pigs per sow is considered a good yield for the year. Prolificacy is an essential to profitable pig raising.

## IF YOU HAVE

# Real Estate for Sale

Advertise it in

# The Carroll Record

The time of the year is at hand when Farms and other Real Estate at Private Sale, possession of which will be given April 1, 1916, should be advertised. July and August are the best months for the first announcements.

Such properties should be advertised and described, at length. When at private sale, about four weeks should be a sufficient length of time to give the desired publicity. If not sold then, a public sale can be arranged for at a later date.

Our "Special Notice" Column is not designed for use in advertising Real Estate. When it is used for this purpose, our rate is Two Cents for each word.

The RECORD is an exceptionally valuable medium for advertising Farms, owing to its wide circulation among a good class of readers. We do not have a lot of "dead beat" subscribers who have been carried along for years, without paying.

The paper that is held in the highest value as a newspaper, is also worth the most for advertising purposes--no matter whether it be Real Estate or Merchandise that is for sale. Tell the story where it will be seen, and read!

Try the RECORD and get results! Rates will be given beforehand, if desired, but send in your written copy--the charge will be modest.

# THE CARROLL RECORD

## Taneytown, Md.

## GREAT SUFFRAGE LEADER

As president of the International Woman's Suffrage alliance, and as leader in numerous suffrage organizations, Mrs. Carrie Chapman Catt has earned a unique distinction among members of her sex for her indefatigable labor for the cause. She has been the head of the alliance ever since its foundation twelve years ago, and during that period has been identified with winning fights for woman's full or partial suffrage in Tasmania, Queensland, Finland, Norway, Sweden, Denmark, Victoria, England, Belgium and Iceland, as well as full suffrage in seven of the United States.

Mrs. Catt is known particularly for her qualities of constructive statesmanship.

## WAS FIRST NORWEGIAN BOOK

Distinction Is Claimed for One Printed in New York City in 1852.

Madison, Wis.—A copy of the first Norwegian book printed in America has just been discovered in Beloit, Wis., by H. L. Skavlem of Janesville, Wis., a Norwegian antiquarian, naturalist and author.

This first book was a reprint of Pontoppidan's "Forklaring," a sort of expanded catechism of the Lutheran creed, and was printed in New York city in 1852 under the direction of Eling Eielson, a pioneer Norwegian evangelist and the first Norwegian Lutheran minister to be ordained in America.

For some time it was uncertain as to which was the first Norwegian book printed in this country. Some years ago, however, Prof. Rasmus B. Anderson, former United States minister to Denmark, came across a reference made by Eielson to a book printed by him in the early 40's and concluded that such publication was entitled to the credit of priority.

Recently Skavlem had occasion to visit an aged woman in Beloit and saw lying on the center table in her home a copy of the much-desired book which had been handed down in her family and carefully preserved.

## SKINS HIS WAY TO DEGREE

Student Pays the Expenses of His College Tuition by Trapping Muskrats.

Beloit, Wis.—A student at Beloit is literally skinning his way through college. He is Edwin M. Dahlberg, Cherry Valley, Ill., a senior, and he has earned a large portion of his college expenses by trapping muskrats on the Rock river, near this city.

Dahlberg began to emulate Daniel Boone last fall. He set a string of traps along the river above the city. Every morning he would visit them, starting out in his canoe at five o'clock.

Drifting down stream, he would skin his catches on the way back to Beloit. He cured the pelts on some rafters in the men's dormitory, which sometimes were upholstered by several hundred skins at a time.

## BUILT A TOWN FOR WHEAT

Kansas Wanted a Market and Breton Became It—Is a Profitable Investment.

Colby, Kan.—Because he raised 150,000 bushels of wheat in 1914 and needed a place to market it without a long haul, Ben Foster, a large landowner, built a town of his own. He erected an elevator, lumber yard, coal yard and store. Also residences for his employees.

He named the town Breton, and now it is getting away from his first idea. Other people are moving there. Foster is in a good way to become the proprietor of a thriving country town. He refuses to sell the lots, but rents them on long leases.

Foster has his wheat market, farmers are patronizing his store, elevator and lumber yard and he is making money.

### Granny Johnson Is 112.

Eatonton, Ga.—"Granny" Eliza Johnson, a negress of Eatonton, has reached the age of one hundred and twelve years and is still hale and hearty and says she feels as young as she did forty years ago. Besides having received her second sight, she has cut her second set of teeth. She hasn't been on the main street of Eatonton in over forty years, but remembers everything and everybody in and about the town.

## SEEDING TIMOTHY ALONE IS HIGHLY RECOMMENDED.

Improved Quality Of Hay and Higher Yield Result From That Practice.

NICHOLAS SCHMITZ, Maryland Agricultural Experiment Station.

It has long been the custom in Maryland to sow timothy with wheat in the fall, adding clover in the late winter or early spring. The seed is placed in the grass-seed attachment of the grain drill and allowed to fall either behind or in front of the hoes, usually in front. This method of seeding is cheap and gives fairly good results in Garrett, Alleghany, Washington and Frederick counties. In the other timothy growing counties this method is unsatisfactory, except on fertile soil in a high state of cultivation. The low yields and poor quality thus obtained are not due so much to poor germination and poor stand in the spring after seeding as to the growth of weeds.

Where the old way of seeding timothy does not give satisfactory results the only remedy is sowing the timothy, or timothy and clover, alone in early fall, not with a grain crop. The plan is to seed the wheat without the timothy in the fall and the clover in the spring; then, as soon as possible after harvest, the stubble should be plowed down and very firm, finely pulverized seed bed prepared. This, to be sure, will involve an extra plowing and preparing of the seed bed, but the increased yield and quality of hay more than pays for the extra labor. A full crop will be ready for cutting the next June or July, which will be the same time as if it had been seeded with the wheat, the stubble of which was plowed down. Timothy may also follow such crops as early potatoes, early tomatoes, cow peas cut for hay, etc.

If fertilizer is sown with the grass, then seeding with the grain drill as when sowing with wheat in the fall, is by far the most economical way of seeding. But the chances for getting a perfect stand are greatly increased if the seed is dropped behind the hoes and a light harrow or weeder run over the field for covering. On soils not subject to much washing or baking after heavy rains, the seed may be dropped in front of the hoes and a roller run over the field to assist in covering. This firms the soil around the seed and brings the moisture to the surface, which adds greatly to the chances of getting a good stand.

Where fertilizer is not sown with the grass the seeding can be done more quickly with a wheelbarrow seeder, covering with a spike tooth harrow or weeder, and, wherever conditions permit, following with the roller.

## POULTRY PROFITS DEPEND ON PROPER FEEDING.

Do your hens have free range? If they do, are they able to pick up feed on this range? If so what kind of feed do they get? These are a few of the questions you will have to consider before you can feed your hens intelligently. Hens require certain things in their feed. They get some of these things naturally and some have to be supplied from the feed bin. You may think that proper feeding of poultry is merely giving them what they will clean up properly, but this is far from right.

MAKING HEALTHY GROWTH.

We have obtained good results with corn, 250 lbs., wheat bran 100 lbs., middlings 100 lbs., beef scraps 50 lbs., and salt 1 1/4 lbs., as a feed for hens which are confined in a small yard. But suppose these same hens were running out on a large range in the spring time where they could pick up worms and insects all day, do you think they would require the same feed? For example take meat, the most expensive ingredient in the feed. Would it be necessary to give them so much when they are picking up meat all day in the form of insects and worms?

Then supposing you cheapen your ration during the spring time by cutting down on the meat feed, what are you going to do next fall and winter when the natural meat supply cannot be obtained by the birds? Will you keep on feeding nothing but grain feeds, like so many do, or will you put in some of the meat that the birds require for egg production? Hens cannot lay eggs unless they have the raw material out of which to manufacture them. In the spring-time they get meat feed naturally and lay eggs. In the fall and winter they cannot lay eggs unless you give them meat in some form.

Note:—The various forms of milk can be used to supply the animal or meat feeds spoken of above. Nothing is better as a feed for laying hens or growing chicks Roy H. Waite

SPECIAL CORRESPONDENCE.

Latest Items of Local News Furnished by Our Regular Staff of Writers.

All communications for this department must be signed by the author; not for publication, but as an evidence that the items contributed are legitimate and correct. Items based on mere rumor, or such as are likely to give offense, are not wanted.

The Record office is connected with the C. & P. Telephone from 7 a. m. to 5 p. m. Use telephone at our expense, for important items on Friday morning. We prefer regular letters to be mailed on Wednesday evening, but in no case later than Thursday evening.

UNION BRIDGE.

G. M. Mummert and wife, of Menzes Mills, York Co., Pa., spent Sunday with their son-in-law and daughter, Mr. and Mrs. Danner, and their grand-children, Anabelle and Robert Danner.

Mrs. Theodore Fowble spent Sunday at the home of her daughter, Mrs. Martin Eakles, Hagerstown.

Joseph Delphy and wife returned to town, Sunday evening, after a five weeks sojourn in various parts of Frederick county. During his visit to Frederick city he met six of his soldier comrades of Co. B., 7th Md. Regiment, and renewed their old acquaintance. One comrade with whom he dined remembered that the last time they dined together was the first day of the Regiment's participation in the battle of the Wilderness. This man was severely wounded that afternoon and never returned to his Company, being given invalid duty elsewhere. The majority of the soldiers had prospered and were in easy circumstances, but one or two who had not enjoyed prohibition surroundings were still dependent on their pensions for support.

Miss Elsie Kelly returned home, Saturday, after a pleasant visit of four weeks with her mother and sisters, in Littlestown. Last week the Union Bridge Banking and Trust Company dressed their bank building up with a new coat of paint.

Mrs. Frank Wood and his daughters, Louise and Margaret, and Mrs. Laney, of Baltimore, were guests of Mrs. Wood's parents, H. H. Bond and wife, on Sunday.

Mrs. Philip Baker visited at Mrs. J. Frank Baker's, Monday afternoon and evening. Mrs. J. Frank Baker returned from her visit to Washington, D. C., Monday evening.

Miss Dorothy F. Cockran, of Wilmington, Del., who has been visiting at S. D. Senseney's for the past month, left for her home, Wednesday morning.

Mrs. Annie Caylor and Mrs. Elsie Wilson attended the funeral of Mrs. Lottie Pfoutz, on Monday, in Hagerstown.

Mrs. Italy Grimes had three hemorrhages, one Thursday morning, another in the evening, and one Friday morning of last week. She was confined to bed several days, but is now going about and caring for her little son now two months old.

Miss Ada Little is now confined to bed. Mrs. Lottie Pfoutz, wife of Harry Pfoutz, died at her home in Hagerstown, Saturday morning, July 17, 1915. She had gone with her husband on a motorcycle to Chambersburg, Sunday, and was caught in a rain. On Monday she did a heavy washing and on Tuesday was compelled to go to bed with a well developed case of pneumonia. The end came Saturday morning at 1:00 o'clock. Mrs. Pfoutz was born near Union Bridge, her parents being Fanny Smelser and the late John William Stultz. When a young girl her parents moved to Abeline, Kansas, where she grew to womanhood and married Harry Pfoutz, of Adams county, Pa. They came East and settled in Union Bridge where they remained until the W. M. shops were removed to Hagerstown when they transferred their residence to that place and have lived there since. Mrs. Pfoutz was of a genial disposition and had many warm friends among her acquaintances who greatly regret her death. She was 44 years old. She leaves besides her husband, one married daughter, Mrs. Annie Caylor and Frank Wilson, of town, and first cousins. Funeral services were held at her home, Monday. The pastor of the Lutheran church in which she held membership officiating. Interment in Rose Hill cemetery.

PLEASANT VALLEY.

Don't forget the Sunday School picnic, Saturday, July 31. The program will begin prompt at 12 o'clock. The Taneytown Band will furnish the music. There will be a festival in the evening. The picnic will be held in Joseph P. Yingling's grove.

Sunday School this Sunday at 9 a. m.; divine service at 10 a. m. by Rev. J. W. Reinecke. C. E. Society at 7:30 in the evening.

Misses Ethel and Florence Little, of Hyattsville, are visiting Mr. and Mrs. Vernon Smith.

Mr. and Mrs. Clarence A. Zepp spent a few days of last week with relatives and friends in Hanover, Pa.

Miss Olive Ebaugh, of Carrollton, is visiting her grand-parents, Mr. and Mrs. Edward Hahn.

Mrs. Annie Young and daughter, of Hagerstown, spent last week with her sister, Mrs. Harry Myers.

Mrs. Jessie Smith and Miss Catherine Lynch, of Westminster, spent a few days with Mr. and Mrs. Jos. Smith.

John Wantz, of Baltimore, spent Sunday with relatives in this place.

Miss Mabel Loister, of Taneytown, and Miss Sallie May Fowler, of Baltimore, spent a few days with their grand-parents, Mr. and Mrs. Jacob Lawyer.

Mr. and Mrs. Levi Myers, of Westminster, and Mr. and Mrs. Philip Fowler and daughter, Ethel, of Baltimore, spent Tuesday with Mr. and Mrs. Wm. H. Yingling.

Jacob Lawyer, who was paralyzed on Thursday last, is improving slowly at this writing.

AVONDALE.

Miss Goldie Owings, of Avondale, entertained the following guests on Sunday, July 18th: Misses Edna and Blanche Manger, of Westminster, and Roy, Guy, Norman and Walter Nusbaum, of Avondale. Miss Goldie spent last week with her uncle and aunt, Mr. and Mrs. J. D. Barnes, of Westminster.

UNIONTOWN.

On Thursday evening, July 15, a large company gathered at the home of Charles Fritz, at east end of town, where a reception was given to their lately wedded daughter and husband, Mr. and Mrs. Baily Fleagle. Ample preparation had been made for the pleasure and appetite of their guests. An abundant luncheon was served, consisting of delicacies to suit all. Many gifts were given to the couple, and all wish them prosperity and happiness.

The Willing Workers' are busy working for the coming bazaar, to be held Wednesday evening, July 28. Oak Orchard band will furnish music for the evening, and the ladies and gentlemen on the committees will be glad to furnish other inducements for the pleasure of the crowd.

George Davis and family moved to the Red Men property, last week.

Dr. J. J. Weaver, spent the week end with his daughter, Mrs. E. K. Fox and family, in Washington.

J. W. Haines was with his family in the city over Sunday.

Mrs. John E. Heck and son, William, are visiting relatives, at Renovo, Pa.

Miss Jessie Mering is enjoying mountain air at Pen-Mar, this week.

A two week's service is being held at the Pipe Creek Church of the Brethren by Elder W. K. Connor, Harrisonburg, Va., who is a guest of Elder W. P. Englar.

Mrs. C. E. Smelser is having a visit with her brother, E. Lee Erb and family, at their home near Frizzellburg.

Rev. W. S. Delp, wife and daughter, Miss Edna, of German Valley, N. J., who are enjoying their vacation in their touring car, taking in the sights of the country, were guests of some of their friends here this week. Mr. Delp was pastor of the Uniontown Lutheran Church for eight years, leaving here 25 years ago for his present charge. Many of their warm friends of the past have been called home and their presence is missed.

Mrs. Dr. J. J. Weaver, is visiting her sister, Mrs. F. T. Darby, Hagerstown.

Guests in town have been Philip Lemon and grandson, Harry Suter, wife and daughter, of Baltimore, William Devillbiss and son, of Westminster, at W. Guy Segalose's; Miss Henrietta Shorb, at W. P. Englar's; Ridgely Mering, of Pleasant Grove, at his grandfather, G. T. Mering's; John Blaxten and wife, of Taylorsville, at Mrs. Fannie Haines'; Mrs. Jesse Nussbaum and son, Roscoe, at J. C. Hollenberry's; Mrs. David Shorb, of Minot, Dakota, at Mrs. M. C. Cookson's; Mrs. Cortland Hoy and son, of Philadelphia, at Mrs. Clayton Hann's; Prof. Irving Herbert, of Fawn Grove, at Rev. T. H. Wright's; John J. Burns and wife, of Jefferson, Miss Gertrude Von Niede, of Womelsdorf, and George Garman, of Brodbeck, Pa., at Rev. W. E. Saltzger's; Miss Ada Arnold, of Baltimore, at Charles Sittig's; Miss Nellie Hibberd at Dr. J. J. Weaver's.

Charles Crumbacker and family, were visitors in the city over Sunday.

DETOUR.

Misses Ruth Weybright and Margaret Wilhide, of Thurmont, spent one day recently with E. D. Diller and wife.

Boy Scouts from Union Bridge, are camping along the Monocacy River, near town.

John Adams, of Woodsboro, visited his aunt and uncle, Harry Albough and wife, this week.

Mrs. Wm. Caylor, Mrs. Frank Wilson, of Union Bridge; Mrs. J. C. Whitmore, of Detour; attended the funeral of Mrs. S. Harry Pfoutz, of Hagerstown, on Monday.

H. H. Boyer, wife, son John and daughter, Emily, spent Sunday afternoon with Albert Dutta and wife, of Sykesville. Later in the evening they called to see Mr. Boyer's aunt, Mrs. Harriet Stewart, of New Market, who was very ill. On Tuesday they accompanied by Guy Warren, attended Mrs. Stewart's funeral, she having died last Sunday night.

Cornelius Eiler, of LeGore's, spent Sunday with Mrs. C. Dresher.

Miss Jessie Hann, formerly of Medford, and Master Carroll Royer, of Westminster, visited S. R. Weybright and wife, this week.

Clay Wood, wife and children, of Chambersburg, spent a few days this week at Wm. C. Miller's.

Charles Miller, wife and family, of McSherrystown, called on A. C. Miller and wife, Saturday afternoon.

Mrs. John Lawrence and daughter, Mrs. George Mentzer, spent one day last week with James Few and wife, of near Rocky Ridge.

Ursa Wood, wife and son, Wm. Wood and wife, of Rocky Ridge, visited John Wood and wife, over Saturday and Sunday. Mrs. Weller, of near Thurmont, also visited Mr. and Mrs. Wood a few days this week.

Samuel Weybright, on Saturday, attended his son, J. S. Weybright's sale at Thurmont.

Misses Mary Newman, Cora, Sarah and Caroline Sappington, of Keymar, spent Saturday afternoon with Emily Boyer and attended the baseball game, here.

Dr. and Mrs. Luther Kemp, of Uniontown, visited at Hannah Weant's, on Monday.

The baseball game, which was played here on Saturday afternoon, between Rocky Ridge and Detour teams, resulted in a defeat for the former, with a score by innings as follows:

Rocky Ridge 0-0-2-0-1-0-0-3  
Detour 3-0-1-0-2-2-0-8

The festival on Saturday night was well attended and made a decided success.

HARNEY.

J. W. Cecil, wife and children, of Frederick, motored to Harney in their Studebaker car and spent Friday afternoon with E. L. Hess and family.

Jacob Newcomer, who has been seriously ill, is slowly improving.

The Sunday School of St. Paul's Lutheran church, of this place, will hold their annual picnic, Saturday, July 31. Supper will be served on the ground.

Joseph Thompson, of Gettysburg, spent a few days with his parents.

Mrs. Samuel Ridinger and daughter, Esther, are spending a few weeks with friends in Baltimore.

Miss Maggie B. Thompson, of Littlestown, is home visiting her parents.

Edward Valentine, of Baltimore, spent several days last week with his parents.

Beauty More Than Skin Deep.

A beautiful woman always has good digestion. If your digestion is faulty, Chamberlain's Tablets will do you good. Obtainable everywhere.

MIDDLEBURG.

The community was very much shocked last Saturday morning when they learned that Mr. Thomas Otto had died very suddenly, at 3:30 that morning. Mr. Otto had been in bad health for some time, but had apparently improved very much, but during the night he became worse rapidly and expired before the physician arrived. He was the only son of the late Samuel and Caroline Otto, and was born and lived all his life on the farm he owned. He was the last of three children; one sister, Mrs. Alfred Hape died a few weeks ago. He leaves beside his wife and son, Wilbur, of Keymar, one daughter, Mrs. Geo. Koontz, of near Keymar. He will be greatly missed, not only by his family, who have our deepest sympathy, but also by the entire community. His funeral took place Monday morning. Interment in Haugh's cemetery. Revs. Yoder and Poffenberger officiating. He was a life-long member of the Lutheran church, and also belonged to the Taneytown Order of Heptasophs, members of which acted as pall-bearers.

Mrs. Laura Fuss and grand-daughters, Hilda and Nina Ransburg, of Arlington, are spending some time with the Misses Harbaugh.

Mrs. Wm. McKinney and son, Willie, of Baltimore, spent last Sunday with Mr. and Mrs. Joe McKinney. Willie will remain a while with his grand-parents.

Miss Mary Mackley, of Baltimore, is visiting her cousin, Mrs. Rena Biddinger.

Mr. and Mrs. George Humbert entertained, last Sunday, Rev. F. Jagers, wife, sister and her friend, of New York; Mr. and Mrs. Albert Biddinger, and Lewis Boyd, wife, and son James, of Taneytown.

Mr. and Mrs. Charles Kline, of Baltimore, visited Mrs. Mary Six, over Sunday.

Mrs. Fanny Dukehart, of Frederick, spent several days with her daughter, Mrs. Orrie Hyde, James Seabrook and wife, of Union Bridge, and Miss Clara Devilbiss, of Taneytown, were also guests last Sunday at the same place.

Mr. and Mrs. J. P. Delphay spent last Sunday at Annapolis with their daughter, Mrs. Arthur Benchoff.

Miss Elizabeth McKinney is spending some time with Mr. and Mrs. Wm. Johnson, of Beaver Dam.

Miss Virgie Humbert has returned from a two weeks visit with friends in Emmitsburg.

Mr. and Mrs. Carl Johnson, of Ladiesburg, spent last Sunday afternoon with Walter Johnson and family.

KEYSVILLE.

Mrs. W. E. Ritter and daughters, Bernice and Olive, spent Saturday, in Gettysburg.

C. E. Six, wife and son, Donald, visited the former's mother, Mrs. Katharine Six and family, of Monocacy, Frederick Co., on Sunday.

Mrs. Harmon, of Hagerstown, is spending some time with her brother, Robert Valentine.

Miss Lillie Baumgardner spent the week's end with Miss Rae Lambert, New Windsor.

Peter Wilhide, wife and daughter, Marian, Harry Fleagle and wife, of Copperville, and Miss Mary Baumgardner, motored to George Wilhide's, of Thurmont, on Sunday.

George Cluts and wife, entertained, on Sunday; Milton Ohler and wife, of near Taneytown; George Devilbiss and wife, of Frederick County, and Charles Cluts and wife.

Benefitted by Chamberlain's Liniment. "Last winter I used Chamberlain's Liniment for rheumatic pains, stiffness and soreness of the knees, and can conscientiously say that I never used anything that did me so much good."—Edward Craft, Elba, N. Y. Obtainable everywhere.

COPPERVILLE.

Clinton Sent and wife, Mr. Wilkinson, wife and children, of Baltimore, spent several days with the families of J. Frank and Harry Sell.

Mrs. Edward Flickinger, of Silver Run, and daughter, Helen, of Union Mills, spent Saturday and Sunday, with William Flickinger and family. They also spent Sunday afternoon with Samuel Flickinger and wife.

William Flickinger and wife gave a harvest treat on Saturday evening in honor of their friends. Those present were, Wm. Flickinger and wife, Maurice Flickinger and wife, Ira Rodkey and wife, Charles Lutz and wife, Mrs. Edw. Flickinger, Mrs. Harry Fuhrman, Mrs. Wm. Flohr, Misses Sadie and Anna Flickinger, Namo and Grace Rodkey, Annie Lutz and Helen Fuhrman, Messrs Jacob Rodkey, Newton Troxell, David Werner, John Byers, Willie and Charles Flickinger, Martin and Luther Rodkey, Stanley Lutz, Edward Fuhrman, Levi Frock, Kenneth Cook.

Kenneth Cook returned home after spending a week with the family of Chas. Lutz.

Wm. Flickinger has started to dig the foundation for a new house along the state road.

Harry Flickinger and wife, spent Sunday with Emory Flickinger and family.

LINWOOD.

Mrs. Rohrer and daughter, Flora, of Hagerstown, were guests of Mrs. Lou Messler, from Saturday until Thursday.

Mrs. Frizzell and daughter, of Westminster, were recent visitors to her brother, John Baker and wife, of Baltimore.

E. Clay Shriner and wife, of Baltimore, and C. H. Englar, spent Sunday at Linwood Shade.

The lawn fete, of the Linwood Brethren, will be held on Saturday evening, July 31st, instead of 30th, as announced last week.

Miss Maude Koontz has returned from Philadelphia, having spent several months with relatives there.

Mrs. Schlosser and son, Frank, of Baltimore, are visiting Mrs. Samuel Dayhoff.

Charles Rabold, of New York City, is spending a short time with his mother and sister, at Joseph Englar's.

Miss Ruth Gilbert, of Hagerstown, is spending his vacation with Grandma Englar.

Miss Bessie Baffington, of Baltimore, is visiting her sister, Mrs. Will Rinkelhart.

A series of meetings are in progress at Pipe Creek Church of the Brethren, conducted by Elder W. K. Connor, of Harrisonburg, Va. Everybody welcome.

Miss Bungardner, of Ohio, is visiting the family of John Koontz.

The reunion of the Linwood Brethren will be held at Pen-Mar, July 28th.

VALLEY OF VIRGINIA.

Our closest city, Harrisonburg, is four miles distant. The Methodists erected a massive magnificent church, costing \$65,000. The architect no doubt had in mind Solomon's Temple, when he planned and built this immense house of worship.

The Fourth of July here was observed on the 5th, by displaying flags, and the Washington crisp man was in evidence with an auto load of small children in dresses of red, white and blue. Great respect is paid here to the National flag and the cause it represents. There is one massive brick building fully four hundred feet in length. The normal school numbering 500 students turned out in a body on the 5th. A wholesale groceryman told me it takes something to keep them going, meaning food products.

The corn crop promises to be a good one, much of it going into tassels.

Children will say queer things in their innocent way: Little Edna asked her Mamma how old their cow was. "Five years old," replied her mother, "why," said Little Edna, "She is big enough to be 50!"

Although I have been digging in gardens every year since I was "knee high to a duck," as the old saying goes, I have never had much success in experimenting. This past May I bought some beans, thinking they were bunch beans. They began to wind. I consulted the dealer from whom I purchased the seed. He said the "kids," had mixed the labels. I considered, and not having any poles or sticks to accommodate the vines, at last decided to cut off the "winders," and now have big bunchy stalks with big clusters of beans all over them.

Speaking of fish, there are plenty of streams of water here. What Maryland people would call a river is called a "creek" here—20 feet from bank to bank. I met a boy carrying a big string of fish, they looked like yellow perch, but proved to be what they call a yellow snucker. I asked the boy whether he liked to fish, "yes; if they bite," was the natural reply that was expected. Years ago when I came to Virginia for recreation, I was taken in a row boat on a small stream to him my angling abilities, at catching 15 pound bass. Seeing the cork go down silently but swiftly, I pulled so hard the boat almost capsized, until I saw a big black object on the surface of the water. A jerk on the part of the big fish tore the line, righted me in the boat, but my prize was gone. To console me we went to another point of the same stream, and I caught 19 nice fish in about the same number of minutes. Fish 3 and 4 inches in length are called "minnies," being used for eel bait.

Maryland has a famous "Dughill" said to have been caused by a large worm crawling along and dying in the eastern part of Carroll county. We have a famous "Mole Hill" here. No matter where you are within five miles on any side, it can be seen. When on top of it you can see clear across into Augusta county and yonder are the "West Virginia Hills."

"Oh, the old Virginia Hills  
How majestic and how grand;  
With their summits bathed in glory  
Like our Prince Immanuel's land,  
Is it any wonder then,  
That my heart with rapture thrills  
As I stand once more with loved ones,  
On these old Virginia Hills?"

J. A. Zepp.

Traveling Man's Experience.

"In the summer of 1888 I had a very severe attack of cholera morbus. Two physicians worked over me from four a. m. to 6 p. m. without giving me any relief and then told me they did not expect me to live; that I had best telegraph for my family. Instead of doing so, I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and take no substitute. I took a double dose according to the directions and went to sleep after the second dose. At five o'clock the next morning I was called by my order and took a train for my next stopping point, a well man but feeling rather shaky from the severity of the attack," writes H. W. Ireland, Louisville, Ky. Obtainable everywhere.

FRIZZELLBURG.

Sabbath School here, Sunday, at 10 a. m.

Preaching service at the Church of God, here, Sunday, at 2 p. m., by Rev. Murray. Rev. W. H. Hersh, of Westminster, will deliver a sermon in the Chapel, here, this Sunday night, at 8 p. m. Subject, "Unpardonable Sin." The public will profit by attending this service.

Roy Sheets, of Baltimore, is spending the week with his uncle, Louis Fleagle, who is indisposed, but at this writing is apparently better.

Do not forget the Sunday School picnic held here Saturday afternoon and night, in Warehime's grove. Oak Orchard Band will render music. Able speakers will deliver addresses. Other amusements for old and young. All come. The number of automobiles and motorcycles that passed through our village last Sunday aggregated 279. Mrs. Lavinia Benedict kept tab and we feel confident this is correct.

Our saddler, W. H. Dern was in Philadelphia, Wednesday.

Some of our people attended the Lutheran reunion at Pen-Mar, Thursday.

After a long absence grandmother Maus has returned home again.

UNION MILLS.

Miss Treva Yeiser has as her guests this week Misses Anna Kaefer, of Woodbine, Inez Alexander, of Boonsboro, and Anna Prenzler, of Halifax, Pa.

Mr. and Mrs. Herbert J. Yingling, of Baltimore, spent part of this week with his parents, Mr. and Mrs. E. J. Yingling.

Mr. and Mrs. Norman Burgoon, of Baltimore, were recent guests of George W. Bankert and family.

Mr. and Mrs. Milton Feeser visited Jacob Bemiller and family, in Bachman's Valley, last Sunday.

Mrs. Claude Rahn, of New York, and Miss Edna Rahn, of Baltimore, are the guests of Mr. and Mrs. Monias Bankert and other friends.

Mr. and Mrs. John Seidt are the first boarders to arrive at the home of Mr. and Mrs. John Flickinger.

## GARNER'S 1915 Real Estate News HOMES FOR SALE.

"Be it ever so humble, there's no place like home."

TRACT NO. 1.  
Double Dwelling, located on southeast corner of George street and Mill Road. This is a frame house, 2-story, well improved with buildings, all independent one of the other; well calculated for two families.

TRACT NO. 2.  
Business for sale in Taneytown. Small capital required; Buildings for sale or rent. Young man should get interested.

TRACT NO. 3.  
Steam and Water Power Mills for sale in Carroll and Frederick counties, and Adams county, Pa., at bargain prices.

TRACT NO. 4.  
Lot on Fairview Avenue, Taneytown, for sale. This lot is well located for a fine building and would be well worth consideration to anyone who contemplates building.

TRACT NO. 5.  
Small Desirable Farm 1 1/2 Acres more or less, located 1/2 mile north of Mayberry, in Uniontown district, Carroll County, Md. Improved by a 2-story dwelling, water at door, new barn, shed, hog house and corn crib combined, also water at barn, small orchard, 1 1/2 Acres of timber. Well adapted for poultry business.

TRACT NO. 6.  
80 Acres Farm more or less, in Myers District, Carroll Co., Md., located on road leading from Taneytown to Silver Run. Improved by a large new two-story 9-room Dwelling, with summer kitchen, large bank barn, and all other necessary outbuildings; water at all buildings; fencing good; and well improved 20 Acres being timber. Get busy if you want this home.

TRACT NO. 7.  
33 Acres Farm, more or less, in Taneytown District. Take notice. All buildings on this farm have been built within the last four years. I dare say there isn't another farm with such improvements. Couldn't be better land, all lined over twice within the last 6 years. Good fencing, 10 Acres of Timber. I will say that this farm will be sold. Mean business, come quick. No matter where you run, you just find this farm a little better improved than the one you have just looked over.

TRACT NO. 8.  
Large New Frame House, 10 rooms and store room, 18x34, located on Frederick St., Taneytown, Md. This house has all conveniences, bath and steam heat, and ranks among the best properties in town. Price reasonable.

TRACT NO. 9.  
Dwelling and Store room located in Mayberry, Carroll County, Md. Priced to sell quick.

TRACT NO. 10.  
Dwelling, located on west side of George St., Taneytown. This is a frame house, 2-story; (8 rooms and summer house), well improved concrete pavements and walks, one of the fine homes on George Street.

TRACT NO. 11.  
Dwelling and Business Place, on Baltimore St., Taneytown. Guaranteed 10 per cent. investment at once.

TRACT NO. 12.  
120 Acres Farm, more or less, located 1 1/2 miles northeast Woodsboro, Frederick Co. Improved Frame Dwelling 2-story, (8 rooms). Ground barn 30x60 ft. Never-falling water at door; fruit and timber. 17 Acres which furnishes pasture the entire season. Just the place for a dairy and raising cattle. Price and terms reasonable.

TRACT NO. 13.  
100 Acres, more or less, in Taneytown District, Md., located on road leading from Stone School-house to Marker's Mill. Improved by 2-story Brick House, (8 rooms); water at door from spring. Good summer house, barn, 45x90 ft., 3 floors, wagon shed, corn crib, and all necessary buildings, in good repair. Nearly new. All kinds of fruit. 15 Acres timber, fencing good and fertile about 3,000 bushel corn, 700 bushels wheat; taxes about \$51.00. Bargain price to quick buyer.

TRACT NO. 14.  
80 1/2 Acres, more or less, located along Emmelburg and Taneytown road. Improved by a 2-story (10-room house). Ground barn and necessary outbuildings. 5 Acres timber, fruit, stream water through farm. Just right for a dairy and stock raising farm.

TRACT NO. 15.  
Double Dwelling, located on east side of George St., Taneytown. Improved by a frame dwelling and long porch looking south on Baltimore St. and Mill Ave. A most delightful location with street and alleys surrounded. Stables 6 horses and 4 vehicles. We are pricing the place for an effective and quick sale.

TRACT NO. 16.  
Factory Sites and Building Lots along State Road, Baltimore Street Extended.

TRACT NO. 17.  
Double Dwelling, located on East side of Middle St., extended—10-Room 2-Story Frame Dwelling. Priced for quick sale.

TRACT NO. 18.  
75 Acres, more or less, in Middleburg district, Carroll county, Md. Improved by a 2-story 7-room House, Ground Barn, 35x80 ft., and necessary outbuildings. Water at door. Plenty of fruit. 6 Acres of timber. 2 Good markets in easy reach. School convenient. Land fertile. Crops good.

I will also take property not to be advertised, if so desired. Fair dealing to buyer and seller. All business strictly confidentially. List your property with me for quick sales. Come in we'll talk it over.

## SOME DIFFERENCE AT HOME

Small Boy Not at All Disturbed by Father Reaching for Strap While Aboard Trolley Car.

They were speaking of the bright remarks of the little folks the other evening when this anecdote was recalled by Congressman Henry George of New York.

Recently a woman entered a crowded trolley where a man and a very small boy were sitting side by side. Instantly the man offered his seat to the woman and seized a strap.

"Isn't that gentleman your father, my boy?" gently asked the woman passenger, breaking into conversation with the youngster.

"Yes, ma'am," answered the boy. "We are going to the zoo."

"Well, since he is so much older than you, why don't you give him your seat?" remarked the kindly hearted passenger. "Don't you dislike to see him reaching for the strap?"

"Not in a trolley car," was the prompt rejoinder of young America, "but I do at home."

He'll Think They Own a Car. "See here, Louise, aren't you ashamed of yourself? The first invitation you are sending to the adjutant is all soiled with petroleum."

"Why should I be ashamed about it? I did it purposely, to show him that our family is not poor, since we can afford to use it."—Humorist's Listy (Prague).

Not So Sweeping. Mrs. Styles—I see New York will conduct a special school for the instruction of street sweepers.

Mr. Styles—It will be a failure.

"Why so?"

"Because the women are not wearing those long trails any more."

NOT VERY DEEP.

"Does she love her husband?"  
"It's the kind of love that you can send on a postcard."

Queer!  
"You might as well admit your guilt," said the detective. "The man whose house you broke into positively identifies you as the burglar."  
"That's funny," said the burglar.  
"What's funny?" asked the detective.

"How could he identify me when he had his head under the bedclothes all the time I was in his room?" asked the burglar.

Turning It Around.  
"What's your boy crying for so upstairs?"

"Oh, his mother shut him up in his room."

"What for?"

"She always does things by contraries. When we have company she thinks a child should be heard and not seen."

How It Happened.  
Mrs. Gotham—What! Another new hat, John?

Mr. Gotham—Yes, dear.

"But you couldn't possibly have worn out that other hat, already."

"I know it. But the car porter and the boy at the barber shop wore it out for me."

Answered.  
"Young man," said the irate old gentleman at the lunch counter to the hard looking youth who was inhaling his soup with a gurgling sound and splashing it about the while, "what are you? A Colorado geyser?"

"Now," responded the soup juggler. "I'm a New Haven guy, sir!"—Harvard Lampoon.

At the Cottage.  
He—I didn't know it was so late. Are you sure that clock is going?

Feminine Voice (from above)—It's going a whole lot faster than you are, young man.—Penn State Froth.

Tempered by Circumstances.  
"What is the only safe rule of action when you want a thing done?" asked the professor of social economy.

"Order it rare," replied the student who dined at restaurants.

As the Saying Is.  
"An obstinate sort of fellow is Dubwaite."

"Yes."

"He won't even let a conductor tell him where to get off."

Paw Knew the Answer.  
Little Lemuel—Say, paw, what is the meaning of intuition?

Paw—Intuition, son, is something that tells your mother she is right whether she is or not.

## PUBLIC SALE OF

### Three Valuable Farms

In Uniontown Dist., Carroll County, Md.

The undersigned will offer at public sale on the premises of Tract No. 1, on

TUESDAY, AUGUST 31, 1915,

at 2 o'clock, p. m., all those three valuable farms located along the State highway running from Taneytown to Westminster, about three miles from the former place, in Uniontown District, Carroll County, Maryland, and which formerly belonged to the estate of Clotworthy Birnie, deceased.

Tract No. 1 contains 178 1/2 ACRES AND 20 SQUARE PERCHES, more or less, improved by a rough east Stone Dwelling House, with 15 rooms, basement kitchen and linen room with large Bank Barn, Hog Pens, Wagon Shed and other necessary outbuildings, with well of good water and cistern at house and barn.

Tract No. 2 contains 150 ACRES AND 67 SQUARE PERCHES, more or less, located contiguous to Tract No. 1, in said Uniontown District and improved by a Good Weatherboarded Dwelling House, 7 rooms, basement kitchen, Large Stable, Hog House and other necessary buildings, and a well of excellent water at the house. Bear Branch, never-falling stream of water, runs through this tract and Tract No. 1.

Tract No. 3 contains 114 1/2 ACRES AND 22 SQUARE PERCHES, more or less, and is located contiguous to Tract No. 1, in said Uniontown District, Carroll County, Maryland. This property is unimproved, the land is in a high state of cultivation, and adjoins the lands of Curtis Ecker and the late Colonel Gottlieb et al.

The above properties offer opportunities to any person desiring to purchase valuable and productive farms, and the land is very fertile, located in the richest part of the County within a short distance of several markets and convenient to churches and schools.

The aforesaid tracts will be offered separately and then as a whole, and sold to the best advantage. This is the same property which was formerly known as the Clotworthy Birnie estate, and is described in the mortgage from Clotworthy Birnie, Trustee, to Adam M. Kalbach, by deed dated September 20, 1907, and recorded among the Land Records of Carroll County in Liber D. P. S. No. 108, folio 97, was devised by the said Dr. A. M. Kalbach to the undersigned, and now occupied by Mr. L. H. Winter.

TERMS OF SALE: One-third cash on the day of sale, one-third in six months, and one-third in twelve months, the deferred payments to be secured by the notes of the purchaser, with approved security, bearing interest from the day of sale, or the whole of the purchase money may be paid in cash at the option of the purchaser.

MARY KALBACH, J. N. O. Smith, Auctioneer, E. O. Weant, Attorney. 7-23,15

## EXECUTORS' SALE OF

### Three Valuable Farms

By virtue of the power and authority contained in the will of David Stoner, deceased, the undersigned executors will offer at public auction on the respective farms, as follows:

First, on WEDNESDAY, AUGUST 18, 1915, at 1 p. m., near Trevanian, in Uniontown district, a farm containing

77 ACRES AND 64 SQUARE PERCHES of land, more or less, about 1 1/2 Acres of which is in timber, and the balance in a good state of cultivation, and is improved by a Large Frame Dwelling House, Bank Barn, and all necessary outbuildings in good repair, well watered, and is located adjacent to the farms of Jacob Bankert, Joseph Englar, Ezra McGee and Ezra Selby, and is tenanted by Theodore N. Starnes. The growing crops will be excepted.

And on the same day and immediately after the sale of the above farm, will be offered a farm containing

108 ACRES AND 35 SQUARE PERCHES of land, more or less, situated adjacent to the above farm, and is improved by a Large Frame Dwelling House, Stone Bank Barn, and all other necessary outbuildings, in good repair, well watered at the barn and house; good orchard; the land is in a good state of cultivation and is tenanted by William A. Formwalt. The growing crops will be reserved. This farm adjoins the lands of J. Thaddeus Starr, William Feaser, and Abram Fogle, and is on the road leading from the Middleburg road to the Taneytown road. And on

THURSDAY, AUGUST 19, 1915, at 2 p. m., will be offered a farm containing

133 ACRES OF LAND, more or less, situated near Windfield, in Franklin District, in said County, adjoining the lands of Charles Flemming, Charles Jenkins, Donald Miller, Thomas Barnes, and others, and is improved by a Large Frame Dwelling House, New Bank Barn, and all necessary outbuildings, in good repair, good orchard and spring of water. The farm is well watered by streams. About 70 Acres is in good timber. The growing crops will be reserved. The farm is tenanted by George Crumbacker.

TERMS OF SALE: One-third cash on the day of sale or upon ratification thereof by the court, the balance in two equal payments, the one in six months and the other in twelve months from the day of sale, the credit payments to be secured by the single bills of the purchasers, with approved security, bearing interest from the day of sale, or all cash at the day of sale. A cash deposit of one hundred dollars will be required of each purchaser on the day of sale.

SAMUEL C. STONER, JOHN T. STONER, Michael E. Walsh, Attorney, Elias N. Davis, Auctioneer. 7-23,15

## Executor's Sale OF A

### Valuable Farm

In Taneytown Dist., Carroll County, Md.

By virtue of the power and authority contained in the Last Will and Testament of Moses P. Baumgardner, late of Carroll County, Maryland, deceased, and by virtue of an order of the Orphans' Court of said Carroll County, the undersigned Surviving Executor will sell at public sale upon the premises, on

SATURDAY, AUGUST 14, 1915, at 2 o'clock, p. m., all that valuable farm containing

100 ACRES OF LAND, MORE OR LESS, improved by a Large Weatherboarded Dwelling House, Bank Barn, Hog Pen, Wagon Shed, and other necessary outbuildings, with well of excellent water at house and barn. There are also a number of other buildings, and an orchard upon the property. The land is in a high state of cultivation, having been recently mowed, is very productive, and is located along the Monocacy River, about two miles west of Keyville, in Taneytown District, Carroll County, Maryland, adjoining the lands of Samuel Wertz, James Forney, Mrs. Moses P. Baumgardner and others, and is the same property which was conveyed to the late Moses P. Baumgardner by Isaac N. Stoner by deed dated April 30, 1881, and recorded among the Land Records of Carroll County in Liber F. T. S. No. 55, folio 108, and is now occupied by Andrew J. Baumgardner.

TERMS OF SALE: One-third cash on the day of sale, or on the ratification thereof, one-third in six months and one-third in twelve months, the deferred payments to be secured by the notes or single bills of the purchaser or purchasers, with approved security, bearing interest from day of sale, or the whole of the purchase money may be paid in cash at the option of the purchaser upon the ratification of the sale by the Court, except that \$500.00 shall be paid in cash on the day of sale.

PETER BAUMGARDNER, Surviving Executor of Moses P. Baumgardner, William T. Smith, Auctioneer, E. O. Weant, Attorney. 7-23,15

## MORTGAGEE'S SALE OF A

### Valuable Farm

In Middleburg Dist., Carroll Co., Md.

By virtue of the power of sale contained in a mortgage from Annie E. Weybright and John S. Weybright, her husband, to Oliver D. Birely, dated April 1st, A. D. 1903, and recorded among the Real Estate Mortgage Records of Carroll County in Liber J. H. B. No. 1, folio 123, etc., the undersigned Mortgagee will offer at Public Sale on the premises, on

SATURDAY, AUGUST 7th, A. D. 1915, at 1 o'clock, p. m., all that Valuable Farm, containing

140 56 100 ACRES OF LAND, more or less, improved by a large Two-Story Brick Dwelling House, fine large Bank Barn, Hog Pen, wagon shed, corn crib and other necessary outbuildings. Spring of never-falling water, also water through house and barn and hog-pen. This is a very desirable farm, as the land is in a high state of cultivation and fencing in good repair, convenient to churches and schools, and is located about 1 1/2 miles northwest of Deleville, in the Western Maryland Railroad, adjoining the lands of Chas. H. Diller, M. D., Ernest Ritter, Martin Flohr, Chas. Doxson, et al., and are the same tracts or parcels of land described in the mortgage heretofore mentioned, and which were conveyed to the said Annie E. Weybright by John S. Weybright, administrator of W. E. Daniel, Re Saylor, deceased, by deed dated April 1, 1903, and recorded among the land records of Carroll County.

TERMS OF SALE: One-third cash on the day of sale, or on the ratification thereof, one-third in six months and one-third in twelve months, the deferred payments to be secured by the notes of the purchaser or purchasers, with approved security, bearing interest from the day of sale, or the whole of the purchase money may be paid in cash at the option of the purchaser, on the ratification of said sale by the Court, except that \$300 shall be paid in cash on the day of sale.

OLIVER D. BIRELY, Mortgagee, E. O. WEANT, Attorney. 7-16,15

## The Primary Fact About War.

We sometimes think that the distinguishing characteristic of war is the killing and maiming of men, but it is evident that this is not the real distinction, for men are killed and maimed in time of peace. The essential and the one marked difference is this, that during war a nation is a society, whereas in peace it is an aggregate of individuals. So true is this, indeed, that if a citizen from some other world acquainted with our normal activities during peace should visit us when we are at war he would have difficulty in recognizing in this smooth-moving, harmonious unit the disorganized welter of yesterday. Compared with the spirit that animates a society at war, the disintegration that inevitably ensues when the sword is laid aside is in all practical respects like the dissolution which sets in in the body of a man when the spirit has taken its flight.—"The World Storm—And Beyond," by Edwin Davies Schoonmaker, in Century Magazine.

## Speed of Waterfowl.

Waterfowl have great powers of flight. The canvasback duck covers from 130 to 160 feet a second. The blue winged teal and the green winged teal, the bluebill and the redheads are only a little slower. Mallards, pintails, wood ducks, black ducks and others can easily fly faster than a mile a minute. Even such large birds as cranes, swans, pelicans and geese can fly at a speed of more than 100 feet a second.

The speed of waterfowl has often been measured with great accuracy. Two men take positions on a duck pass a measured distance apart. The first man carries a stop watch and a gun, the second a gun only. As the fowl pass the first blind the timer shoots in order to frighten the birds into full speed and starts his watch. As the ducks pass the second blind the man there fires a shot, and the timer stops his watch. The usual length of the course is a quarter of a mile, although a mile "track" is sometimes used.—Youth's Companion.

## A Lasting Window Polish.

There is an art in washing windows, and if they are properly polished the operation need not be repeated for a long time. A really good polish will survive several rainstorms and will only require the dust to be removed occasionally with a dry cloth. The inside of the windows should be washed with tepid water, without soap or powder of any kind, rubbed dry with chamois and polished with cheesecloth. A solution for cleaning the outside should be made from one ounce of pulverized whiting, one ounce of grain alcohol, one of liquid ammonia and a pint of water. Spray the window with clear water to remove surface dirt. Let the solution with a soft cloth. Let this dry on. Afterward polish with cheesecloth or tissue paper. If the glass has been badly scratched a filling may be applied. This consists of an ounce of white wax dissolved in turpentine. It should be applied before the polishing.—Washington Star.

## A Matter of Temperature.

Hospitality is a good deal a matter of latitude, I suspect. The shade of a palm tree serves an African for a but. His dwelling is all door and no walls. Everybody can come in. To make a morning call on an Eskimo acquaintance one must creep through a long tunnel. His house is all walls and no door except such a one as an apple with a worm hole has. One might very probably trace a regular gradation between these two extremes. In cities where the evenings are generally hot the people have porches at their doors, where they sit, and this is, of course, a provocative to the interchange of civilities. A good deal which in colder climates is ascribed to mean dispositions belongs really to mean temperature.—Holmes.

## The Psychology of Practice.

The question of short versus long periods of practice in training the human muscles for any particular kind of work is obviously one having far-reaching application. Some interesting experiments on this subject have been carried out by Dr. K. S. Lashley of Johns Hopkins university. Acquisition of skill in archery was selected as the subject of observation. Twenty untrained persons were divided into three groups. One group shot five arrows with the English longbow per day; another twenty shots per day and the third forty shots. The result showed conclusively that the group shooting only five times a day improved in accuracy with less expenditure of time in practice than was required by either of the other groups for the same amount of improvement. A report on the experiments says: "The relatively greater efficiency of short periods of practice continuing for many days is in accordance with the results of the study of animals and of speech habits in man and indicates that in training to muscular feats, in both animals and men, the length of practice periods required is usually too great for maximum efficiency."—Philadelphia Record.

## His Fiancee

He Had Intended to Be a Father to Her.

By ESTHER VANDERVEER

"I may not see you again for years. Will you be true to me?"

"Rather ask yourself whether you will be true to me. You are at an age when a man's fancy is liable to great changes."

"I shall not change in my feelings toward you."

"We shall see. Now, come and kiss baby; then you must be off."

Hugh Edgerton, twenty years old, had become enamored of a young widow, Mrs. Clara Pomeroy, two years his senior, with a child, a girl in her third year. He had been offered a position in a banking house in Hongkong, China, and was about to proceed there. Full of the hope of youth, he was intent upon making a fortune and returning to spend what remained to him of life with Clara Pomeroy for his wife.

He followed her into an adjoining room where the child lay asleep in her crib. Bending down, he kissed her.

"Dear little thing!" he said. "When I return I will be a father to her."

He took the child's hand in his, and so soft, so dear was it that he could hardly bear to release it, but the mother admonished him that his time was limited, and drew him away.

"Goodbye," she said; "whatever is in store for you and me in the future—"

"And baby."

"Yes, and baby. I will say this, you are a fine fellow and deserving of a good wife."

It seemed to Edgerton that the kiss she gave him lacked the fervor of a woman deeply in love. But it had always been so between them. The widow, though but a few years his senior, had a far wider range of experience than he, and a woman of twenty-two is usually much more mature than a man of twenty. When he regretted this lack of fervor she always said to him, "When ten or twenty years have passed it will be I who will have cause to reproach you for indifference."

While on his voyage to China Edgerton spent the most of his time writing letters to his fiancee. If an analysis of his feelings were possible it might show more distaste for leaving home and friends for a foreign land than love, but no one has yet been able to isolate love—as they say of germs—and, after all, our affections are largely a matter of association. Nevertheless Edgerton pined for his widow and the time when he would be united with her, and the dear child he had seen sleeping so peaceful and innocent in her crib was ever present in his mind.

Edgerton on arriving in Hongkong was given a position of some importance, for he had had several years' experience as a subordinate in business and was advanced rapidly. But unfortunately when he reached a status in which he might begin to accumulate the house he was with made some important losses and wound up their business. Edgerton joined forces with others and formed an independent house. They made money for a time, but one of the partners proved dishonest, and after getting him out of it they had a considerable deficiency to make up.

Meanwhile Edgerton wrote regularly to his fiancee and received letters from her. It was due to her encouragement that he was able to stand by what he had undertaken, for when ill luck befell him he was sorely tempted to give up and go home. He had with him a likeness of his fiancee, and, though the years were passing and each year added to her age, he continued to think of her as she had appeared when he parted from her. He always referred to her little girl as "the baby" and forgot that while her mother had passed the climax of youth and beauty the daughter was approaching it.

Years passed before Hugh Edgerton came to a status wherein he could close out his business in China and return to America with the fortune he had set out to win. Indeed, it was due to a fortunate rise in an article in which he had made an investment that at last enabled him to do so. It was a happy day that he announced to Mrs. Pomeroy that he was independent of the world and in a few weeks would return to claim her as his bride.

Sixteen years had passed since Edgerton had left his native land. He had been so engrossed in business that they did not seem to him more than six. Nevertheless he realized that there must be some change, especially in "baby." He pictured her as a girl playing with her doll, but bearing an age when she would lay it aside. Her mother doubtless would not have changed so much. True, she would be older, but not so very much older. As to Edgerton himself he was now thirty-six, an age wherein a man is supposed to be in his prime. His associations with women in China had been thus far with those who had not yet passed out of young ladyhood. Indeed the mothers of some of his women friends were but little older than he. One young woman of nineteen, an English girl, was hoping to win him

when she was disappointed by the announcement that he was about to return to America.

The return voyage seemed endless to Edgerton, so eager was he to meet his fiancee and the little girl to whom he was to be a father. He pictured himself taking his ease in his own house, surrounded by his family. The loneliness of a bachelor life in a foreign country was now to be a thing of the past.

Edgerton was the first passenger to step ashore at San Francisco, and within an hour after landing he was speeding eastward on a railway train. The day and hour of his arrival was known to Mrs. Pomeroy, and Edgerton expected that she would meet him at the station. His impatience to see her caused him to hope that she would, but his aversion to the public witnessing their meeting caused him to hope that she would not.

She did not appear. Calling a conveyance, he drove to her home. A maid opened the door for him, and so sure was he that his fiancee would do so that he came near throwing his arms around the maid. He was ushered into a drawing room somewhat dimly lighted, but there was no one there. In a few minutes, hearing a light step on the staircase, he approached the door and stood waiting. A woman entered the room, and he caught her in his arms.

She submitted to the embrace, but did not return it.

"You are as you were when we parted," he said in a disappointed tone. "You were then without warmth, and you are without it now. I wonder how you could have been true to me all these years."

Standing off from her, he was astonished to see one who looked not a day older than when he had left her.

"Upon my word," he exclaimed joyfully, "you have not changed in the least! It is marvelous how you have retained your youth. I feel almost too old for you."

Now for the first time the lady ventured to speak, but she spoke not as a widow of mature age; she was rather a coy young girl. She haltingly told him that he said what he did in order to flatter her, whereupon he vowed that he spoke the truth, and he embraced her again.

"And now," he said, releasing her, "where is baby? I must see her at once."

"You forget that baby is no longer baby; she is a schoolgirl."

"Where is she?"

"Why, she is at school."

"At school! Not here to welcome her papa? But she will return presently?"

"She is at a boarding school some distance from here." This was said falteringly as a falsehood would be spoken.

"Surely you are deceiving me. It cannot be that!"

"Clara is well; nothing has happened to her."

"Clara?"

"Of course. Have you forgotten that her name and mine are the same?"

"Oh! I have always been accustomed to think of her as 'baby.' For my life I cannot understand how you can have preserved your youth. Are you sure that no rouge?"

"Not a particle."

"Surely by this time you should have a few faint lines around your eyes. I see no trace of age whatsoever. Your lips are as red as they were when I last kissed them."

And he kissed them again.

"But why," he continued, "do you welcome me in this dim light?"

"Perhaps when you see me in a brighter one you may see what age has done for me."

As she spoke lights were turned on from another part of the house, and a woman entered the drawing room whom Edgerton did not remember to have seen before.

"My mother," said Clara Pomeroy.

"Happy to meet you, madam," said Edgerton, bowing. Then, turning to Clara: "Your mother! Why, I supposed your mother!"

"Hugh!" said the lady who had entered.

Edgerton started. He looked again at Clara's mother, and there came to him a feeling that he had made a grave mistake. He turned from her to the daughter. Under the brighter light he saw that she could not be more than twenty. Turning again to the mother, he recognized his fiancee of sixteen years ago turned into a woman who, though not quite forty, looked at least fifty. Her hair was white, her skin was wrinkled, her neck under her chin was shriveled.

"I am Clara," she said, "and that is 'baby.' When you went away I did not believe that on your return I would be a fit age for you. I look older than I am, but no man of your age should be tied to a woman of mine. Clara so nearly resembled me as I was when you left us that I was tempted to put her forward as myself. The result has been as I expected. In me you looked for the youthful person you left sixteen years ago. You have found an old woman. You supposed that in Clara you would find a little girl. You have found her what I was when you parted from me."

Edgerton listened to this speech with a countenance which, despite his efforts, betrayed that it described the situation. At its conclusion he began to stammer objections, but the lady took his hand, pressed it warmly and laid it in that of her daughter.

"I have no wish to influence you two except for your own good. Clara is what I was at her age, and, as I told you years ago, you are a fine fellow. I give you a good wife."

Edgerton married Clara Pomeroy, but she was of a different generation from the love of his extreme youth.

## RHUBARB AT ITS BEST

RECIPES THAT HAVE BEEN TRIED AND FOUND WORTHY.

Plant Just Now Is at Its Best and Should Have a Place on Every Table—Dumplings That Appeal to the Children.

Rhubarb is at its best just now, as well as cheap, so it is a good time to serve it often at the table. But in order to have it appreciated it should be prepared in a variety of ways.

Very delicious preserves can be made with rhubarb either alone or combined with another fruit.

Rhubarb and Fig Jam.—To five pounds of rhubarb cut short lengths allow one pound of cooking figs, the grated rind and juice of one lemon, and four pounds of sugar. This should stand over night, and in the morning be cooked very slowly for an hour. Then put into glasses and seal.

Rhubarb Jam.—To each pound of rhubarb allow one pound of sugar and one lemon. Peel the yellow rind thin and slice the pulp. Put away over night with the cut rhubarb as before described, and boil for three-quarters of an hour slowly. Pour into jars and seal.

Rhubarb and Orange Jam.—Put three pounds of oranges into a preserving kettle with plenty of cold water and simmer for three hours. Drain and cut up the oranges, rejecting the seeds. Put six pounds of granulated sugar into the kettle with just a little water and stir frequently until it boils. Then put in the oranges with three pounds of rhubarb cut into short lengths. Stir again until the mixture boils and then let the whole simmer for another twenty minutes.

Rhubarb Dumplings.—Children will enjoy these for lunch or supper, even though they do not like rhubarb. The rhubarb is stewed in half its weight of sugar and a little water. While it is cooking mix a biscuit batter, using a pint of flour, one-half teaspoonful salt, two teaspoonfuls of making powder and a cupful of milk. Drop this in the rhubarb by spoonfuls and cook for from eight to ten minutes. A pinch of ground ginger or a few raisins can be added if the flavor is liked.

Rhubarb Jelly.—This makes a nice Sunday dessert, because it can be prepared the day before. Soak one-half box of gelatin in half a cupful of cold water for an hour. Cook two pounds of rhubarb in a very little water and when reduced to a pulp sweeten to taste. Set aside and cook one cupful of sugar with one of water for twenty minutes. Stir the soaked gelatin into the boiling sirup and stir until dissolved. Remove from the fire, add the rhubarb and set away in a mold to cool.

Rhubarb sponge is made as for jelly, but when it begins to thicken the beaten whites of three eggs are whipped in until the jelly is quite stiff. Serve with whipped cream or a thin custard made from the yolks of the eggs.

Rhubarb Compote.—A compote is very little more trouble than stewing, but infinitely more attractive when served. Boil one cupful of sugar with a wineglassful of water for five minutes. Then drop in short lengths of rhubarb, a few at a time, so they retain their shape. Take them out with a skimmer as they become tender and lay in a dish. Pour the sirup over and serve when cold.

### Washing Shawls.

To wash knitted or crocheted shawls, fold them as flat as possible and lay carefully in a pillow case, run through at intervals with basting thread to keep flat. Then they should be handled like other flannel or woolen goods, says the Dallas News. If washed separately, observe the usual precautions for woolen goods, gently squeezing through the hands and keeping the suds and rinsing water of the same lukewarm temperature. Take out of pillow case, but do not hang knitted goods up to dry. Put in the oven on a big platter, shaking and turning occasionally, or lay on a clean cloth in the sunshine.

### Drop Gingerbread.

Beat to a cream one-half cupful of brown sugar and one-half cupful of butter or lard that has been softened. Add two well beaten eggs, one cupful of molasses, two teaspoonfuls of cinnamon, a tablespoonful of ginger, half a cupful of sour milk with a teaspoonful of soda beaten in, and, lastly, three cupfuls of flour. Cover the bottom of a dripping pan with buttered paper, drop the dough on in spoonfuls, giving the cakes ample room to rise and bake a rich brown in a moderate oven.

### To Clean a Copper Kettle.

To bring a copper kettle back to its first brightness, wash with soap and water, then make a paste of a knife powder and paraffin and scour well. Two or three cleanings may be necessary to bring it back to its original brilliancy.

### Chateaubriand Steak.

Wipe a nice tenderloin steak with a damp cloth, put on a buttered broiler and broil over a fire until done, but not dried. Transfer to a hot platter, butter thickly and cover with broiled mushrooms, laid close together.

### Butter Gravy.

One tablespoonful of butter, one heaping tablespoonful of flour, shake or two of pepper, little salt. Work butter into flour and gradually stir in hot water until mixture is correct thickness.

## USES FOR THE BLACKBERRY

Housewife Who Has Realized That They Are Worth Picking in the Hot Sun.

Was it worth while, after all, to spend hours gathering blackberries? The sun was so hot, the thorny briars so sharp and we were so tired! Several months later I opened a quart jar of these berries for supper, and afterward, when I realized in how many ways it was served to our family of five, I felt fully repaid for the effort of gathering them.

I used half a cupful of juice for clear tapioca the day I needed a very simple dessert to follow a roast dinner. Heaped with whipped cream and served ice cold it was delicious. Later in the week, needing a hot dessert because of a rather scant supply of cold meat, I turned again to the jar of blackberries. The recipe for delicious and economical pudding follows:

"One cupful of berries, two cupfuls of bread crumbs, two and a half cupfuls of milk, three tablespoonfuls of flour, three-quarters of a cupful of sugar and one tablespoonful of butter."

Two eggs would have made the pudding much better, but eggs were scarce and high, so I used the flour and more butter instead. Soak the crumbs in the milk, mix the flour smooth with milk and add it to the soaking crumbs; and then add the sugar, berries and part of the butter. Pour the mixture into a buttered baking dish, and dot the top with the remainder of the butter. Put in a slow oven three hours before dinner.—Mary M. Howell in the Country Gentleman.

## RHUBARB AND ORANGE MOLD

Delicious Mixture Suitable for Service at Home Table or for Guests' Luncheon.

Wipe the stalks of one or two bundles of rhubarb with a damp cloth, trim the ends, and cut the stalks into short pieces. Put the fruit into an earthenware fireproof pan, or else into a well tinned copper saucepan, add about two ounces of loaf sugar to each pound of fruit, and a half pint of water, also the pulp of two sweet oranges, two thinly cut strips of lemon rind, and half a teaspoonful of ground ginger. Let the whole simmer gently until the fruit is quite soft. Remove the lemon rind, and rub the remainder through a fine sieve. Soak in water some gelatin, allowing about one-half ounce to each pint of fruit pulp, then drain, dissolve it, and strain the gelatin into the fruit pulp. Reheat with a gill of milk, add, if liked, a few drops of liquid carmine or cochineal, also a little cream, then pour into a previous wetted mold, and let it set in a cold place. To serve, immerse the mold in lukewarm water for a second or two, and turn out quickly on to a cold dish. Serve plain, or else with some custard poured over it.

### Banana and Strawberry Whip.

Crush one banana and put it through a strainer. Crush a dozen strawberries. Whip the white of one egg until stiff, add from two to four tablespoonfuls of powdered sugar or sugar to taste, then whip in the crushed banana. Stopping right here in our recipe, we have an imitation whipped cream, which we may flavor a little if we choose, then serve over strawberries, which must first be sprinkled with sugar, as when regular cream is added.

But going on we may add the strawberries and get that pink shade which makes strawberry ice cream at this time of year so attractive to the eye. This whip is pretty served in tall cold glasses, with a strawberry on top. But if we are desirous of having something with more body and contrast we may serve it over broken up marshmallows in compote glasses, or we may garnish the whip alone with pieces of marshmallow shaped in petals.

### Favorite Potato Recipes.

Potatoes Fried Whole.—When nearly boiled enough, put small potatoes into a saucepan with butter or beef drippings. Shake them about to prevent burning until they are brown and crisp. Drain them from the fat. It will be an improvement if they are floured, dipped in beaten egg and rolled in fine bread crumbs and then fried.

Potatoes for Breakfast.—Cut cold boiled potatoes in slices lengthwise, dip them in beaten egg and put on a buttered pie plate in the oven. As soon as they are brown and hot, serve.

### Peach Custard.

Cook in double boiler one pint of milk, the beaten yolks of three eggs, one-half cupful of sugar, pinch of salt and one teaspoonful of vanilla, or any flavoring preferred. Put halves of canned peaches in sherberts, and when mixture is cold pour it over them and chill. Pile whipped cream over all, garnish with candied cherries, or any preserved fruit, such as strawberries, blackberries, cherries, etc.

### Steak Loaf.

One pound hamburger steak. Roll four crackers, one-half teaspoonful salt and a big one-half teaspoonful of sage; mix these well. Add two eggs, beaten, and one-half cupful of cream, whipped tin and put thin slices of bacon on pork on bottom and top.

### Chinese Salad.

Equal parts of cold macaroni cut into small bits, minced ham, lobster and cold boiled carrot, chopped. Mix well and add some good mayonnaise dressing, with a few capers.

## KILLED BY THOUGHT

Example of Fact Furnished by Paris Woman.

Importance of Controlling Thinking Has Been Shown Time and Again—Derangement of the Nervous System Is Easy.

Everybody ought to learn, from early childhood, the importance of controlling their thinking. Thoughts may be, and often are, as deadly as the worst engine of destruction ever invented.

Not long ago a Zeppelin went sailing over Paris, dropping bombs as it passed. Fortune was kind to the Parisians, and no one was killed or seriously wounded by the exploding bombs. One woman, however, though untouched, fell dead.

She had been killed, not by a bomb, but by a thought—a momentary, devastating thought of fear conjured up in her own mind.

There was a train wreck in Illinois. A number of passengers were badly injured, but many escaped without physical harm of any sort. Yet among the latter there were at least a dozen who afterward developed paralysis of arms or legs.

These persons, I repeat, had not received the least real bodily harm. The whole trouble with them was that they had thought they must be severely injured, and by thus thinking they had so deranged their nervous system as to cause the development of paralytic symptoms.

Bearing cases like these in mind—and they are occurring every day—it is easy to understand and appreciate the force of this emphatic statement by a leading American physiologist, Professor Dearborn of Tufts college:

"The aspects of consciousness are the realists of all real things. For every man crushed by a falling rock or an overturning car, dozens are crushed by mental objects such as volitions and feelings."

Again and again it has been conclusively proved that thoughts of fear, anxiety, despair, have caused a fatal outcome in case of accident and illness where recovery would otherwise have been assured.

Moreover, the world is, and always has been, full of physical wrecks whose invalidism has been directly and solely due to the destroying thoughts on which they have allowed their minds to dwell.

Truly thoughts are "the realists of all real things," and the whole trend of a man's life, for good or evil, depends on the kind of thinking in which he indulges.

"As a man thinketh, so is he," is no mere picturesque literary phrase. It accords with, and is supported by, the facts of scientific research and everyday observation.

Control your thoughts, and the secret of health, happiness and success is in your grasp.—Kansas City Star.

## LOCK THAT REQUIRES NO KEY

New York Man Has Patented Invention That Probably Will Be Taken Up Eagerly.

A lock that can be locked from one side without a key, by the simple turn of the door handle, and that when so locked cannot be opened from the other side of the door was patented recently by Anders Gustaf Anderson of New York. It is quite simple and can readily be understood by examination of the accompanying diagram.

This lock is intended for use on the doors of such apartments as bath-rooms, private offices or doctors' con-

sulting rooms, in which the certainty of absolute privacy is desired without the use of a key.

The diagram shows a section through the lock. At F the bar on which the handles are turned is seen in cross section. This turns a bar that presses against D D, the two arms of the bolt B thereby drawing this back with the tongue C, which fastens the door. A is a tumbler that falls into place when the handle on the inside of the door is turned. When it has fallen the door is locked so far as the outside handle is concerned, for the latter handle cannot move the tumbler A, and this is in such position that the bolt cannot move back until A has been turned out of the way, which can be done only from the inside. E is a protection to stop A from turning too far.

### His Next Preferment.

Here's a prominent foreigner who has had the Order of the Bath and the Order of the Garter conferred upon him, and probably he's now nervously waiting for the order of the winter underclothes as the next step in the line of preferment.—Ohio State Journal.

## The New Year's Supper.

The hostess who entertains a few friends on New Year's eve should select a simple repast for the evening, as usually supper is served late. The following menu was used at a "seeing the old year out" party last season and was found very satisfactory:

Lobster Chops with Cream Sauce.  
Hot Rolls. Olives. Salted Nuts.  
Orange Sponge. Little Cakes.  
Olives with Whipped Cream.

If a fresh lobster is unavailable the canned fish may be used instead.

Open jar or can, turn the contents out on a flat dish and set aside for a couple of hours. This aerates and removes the distinctive taste by which canned goods are often recognized. Make a sauce, putting two tablespoonfuls of butter and two tablespoonfuls of flour in a saucepan. Heat until blended; then add gradually one cupful of rich milk and stir until thick.

Season with salt and pepper and a pinch of mace, cover and cook for five minutes; then add two cupfuls of the lobster meat cut fine, one teaspoonful of lemon juice, one tablespoonful of chopped parsley and the beaten yolks of two eggs. Stir until the mixture is a little thicker; then spread on a dish and set away until very cold.

Shape into small cutlets or, if preferred, into croquettes. If difficult to mold dust the hands with a little flour. Should much be used it will impair the delicacy of the finished dish. Put the whites in a saucer, add a tablespoonful of warm water and beat with a fork just enough to break the stringiness. Dip each chop into this, making sure that every part is moistened; then roll in fine dry crumbs.

The orange sponge calls for one cupful of orange juice, one-quarter of a cupful of lemon juice and one-half of a package of granulated gelatin soaked in one-half of a cupful of cold water. Dissolve one cupful of sugar in one-quarter of a cupful of hot water and bring to the boiling point. Add the gelatin, stir until dissolved; then take from the fire, add the fruit juice, strain and set aside. When cold and beginning to thicken add the whites of four eggs whipped to a stiff froth and continue to beat slowly until the whole mass is thick and frothy. Turn into a mold and set away. It is carefully turned out and garnished with whipped cream.

## Delicious Raisin Pudding.

After pouring four cupfuls of scalded milk over one and one-quarter cupfuls of rolled crackers allow it to stand until cool. Add one cupful of molasses, four eggs, slightly beaten; one-half of a graded nutmeg, one-half of a teaspoonful of cinnamon, one teaspoonful of salt and one-third of a cupful of melted butter. Parboil one and one-half cupfuls of raisins until soft by cooking in boiling water to cover; seed them and add to the mixture. Turn the batter into a buttered bread pan, cover, set in a larger pan of hot water and bake slowly for three hours, stirring after the first half hour to prevent the raisins from settling. Serve with the following sauce:

Beat until light the yolks of four eggs and add gradually to this while beating constantly one cupful of powdered sugar and two tablespoonfuls of grape juice. Place on the fire and cook for five minutes, stirring constantly. Set in a pan of ice or very cold water and beat until cold. Then add one cupful of heavy cream, very stiffly beaten, and one teaspoonful of vanilla.

# SUNDAY SCHOOL TAKES WAR LIGHTLY

Lesson V.—Third Quarter, For Aug. 1, 1915.

## THE INTERNATIONAL SERIES.

Text of the Lesson, 1 Kings x, 1-13. Memory Verses, 8, 9—Golden Text, Prov. viii, 11—Commentary Prepared by Rev. D. M. Stearns.

We saw in a previous lesson that Solomon's wisdom excelled all the wisdom of the east and of Egypt and that people came from all the earth to hear his wisdom (1 Kings iv, 29, 30, 34; II Chron. ix, 23). His writings are mentioned in 1 Kings iv, 32, 33. The Song of Solomon was probably written in the joy of his first love to the Lord in his younger days when he first became king. Proverbs reads like his more mature experience, while Ecclesiastes is the sad retrospect of his great folly and sin after he had turned away from the Lord, for his wives turned away his heart after other gods, and his heart was not perfect with the Lord his God (1 Kings xi, 4, 6). Although he was beloved of his God and among many nations there was no king like him, nevertheless even he did strange women cause to sin (Neh. xiii, 26). After the dedication of the temple the Lord appeared to him the second time and assured him that His eyes and His heart would be perpetually upon that house because His name was there (1 Kings ix, 1-14). What a precious assurance for all the redeemed to appropriate, for what was true of a building is surely true of those who are temples of the Holy Spirit. He and his people were warned, however, that if they forsook the Lord He would make them a proverb and a byword among all people (1 Kings ix, 6, 7). So we are warned that if the salt loses its savor it is good for nothing but to be trampled under foot of man. The lesson of today, with the parallel record in II Chron. ix, shows how it might have been if Solomon had continued faithful and how it will be when a greater than Solomon shall sit on David's throne and the glory of the Lord upon Israel shall draw all nations. They shall come from Sheba, bringing gold and incense, and shall shew forth the praises of the Lord, and the wealth of the nations shall be brought to Israel when the Mighty One of Jacob shall be their Lord and Saviour (Isa. lx, 1-3, 6, 11, 16).

The queen of Sheba heard of the fame of Solomon concerning the name of the Lord; therefore some one must have told. We know of a greater than Solomon and of a greater glory than he ever had, which our Lord and Saviour wants to share with all who are willing to receive Him and follow Him, but so few think it worth while to tell these good news that two-thirds of the people on the earth never heard yet. When the queen heard she came to see for herself if the report was true. She came with a great retinue and with camels, bearing spices and gold and precious stones. Such an abundance of spices never came to Jerusalem before, and she gave to Solomon 120 talents of gold, which, at \$25,000 a talent, would be about \$3,000,000. See verses 2 and 10.

According to verse 14, Solomon was in the habit of receiving 666 talents of gold yearly. That would be over \$16,650,000 in gold alone. So we do not wonder that silver was as stones and nothing accounted of (verses 21, 27). The queen had many hard questions to ask Solomon, but he told her all. There was nothing hid from him that he could not tell her. And when she heard his wisdom and saw his buildings and his home and his servants there was no more spirit in her, and she had to acknowledge that, while before she came she did not believe all that she heard, now she had to confess that his wisdom and prosperity exceeded all that she had heard and the half had not been told her (verses 4-7). It reminds us of Isa. lxi, 4; I Cor. ii, 9, where we read that the things which God hath prepared for His redeemed exceed all.

The Spirit has indeed told us somewhat, but we are slow to receive it, and we are not like the apostles, who said, "We cannot but speak the things which we have seen and heard (Acts iv, 20). If the queen of Sheba carried back to Arabia with her a saving knowledge of the Lord God of Israel then her visit was to some purpose, but if it was only to see and admire and wonder and give and receive gifts (verses 8-10, 13) then it was a mere passing affair and great only to human sight. From verse 10 we might conclude that she had learned to know the true God and can only hope that it was even so. From Isa. xxxix we learn that the visitors from Babylon did not learn from Hezekiah of the true God, the God of Israel, but only saw Hezekiah's greatness and his precious things. Christians might be a bit perplexed sometimes if the Lord should inquire after visitors had gone. "What have they seen and heard in thine house?" (Isa. xxxix, 4).

Solomon's gift to the queen of all her desire, whatsoever she asked, besides what he gave her of his royal bounty (verse 13), makes us think of Rom. viii, 22, "With Him freely all things," and of David's one great desire—that he might behold the beauty of the Lord (Ps. xxvii, 4). The more we become occupied with the glory of His kingdom and with the city of which the Lord God Almighty and the Lamb are both temple and glory (Rev. xxi, 22, 23) the better we shall see things here in their true light.

Russia Shows Little Evidence of Great Conflict.

Determination to Win and Break German Militarism Is the Spirit of the Czar's People—No End to His Armies.

By SLOAN GORDON.  
Correspondent of the Chicago News.

Petrograd, Russia.—How the great war has drained the human reservoirs of France—how the boulevards of Paris are manless wastes; how the call to arms has taken male Germans from the farms and the villages and the cities; how rare are men of fighting age upon the streets of Budapest and Vienna, and how, even in London, there is noted a marked falling off in the number of visible male beings—all these evidences of the effects of international blood letting have been set forth in countless columns in the newspapers of America for months.

That the stories are true of those German and Austrian and French and even British centers there can be no reasonable ground for doubt—the numerous authorities attest their accuracy. But it may be set down that this is not true of Petrograd. To all outward appearances in this war capital there is no war. There are evidences here and there of great military activity. There are daily drills upon the public squares and there are Red Cross signs in great profusion. But of men, or, rather, the absence of men—there is no such thing.

Great, mysterious, brooding Russia—the unfathomable Russia—goes about her daily ways with a nonchalance that is baffling to the western mind. Her streets are crowded—the streets of Petrograd and of Moscow and even of Warsaw, where the fighting lines are but a few miles distant. Tens of thousands, literal hordes of men of all ages jostle and crowd along the famous Nevsky Prospekt from morning until night and far into the night. The hotel lobbies are jammed with men and women in furs and finery.

"Is it always like this?" exclaimed an American who has spent many years in Petrograd and other parts of Russia, in response to inquiry. "Well, just about. I wouldn't know there was a war going on if it weren't for the newspapers."

"Russia," he continued, "is going about this war business with an air of confidence that I have never seen before. It is not quite the same confidence that your typical Britisher displays, the sort we always associate with the English and which has been variously classed as bullheadedness, arrogance, egotism and plain nerve. It is none of these with Russia. It is merely a concrete national example of what is really underneath the surface—a Russian individual characteristic. Your Russian is a fatalist in great crises. When it comes to something really big he settles down to an imperturbable calm, shrugs his shoulders, and takes his medicine."

That the general attitude of Russia toward the war has changed since hostilities began is testified to by those who have observed.

"In the beginning of the war," said one of these observers, a Russian merchant with large interests in Petrograd and Warsaw, "we felt that we were fighting only to repulse an enemy—to prevent invasion of our territory. There was little show of bitterness against the Germans. But it is different now. This war has done more to make Russians think and to draw them together than anything that has ever happened in the history of the country. Today there is a fixed determination to fight it out to a finish and to end the probability of future conflict by destroying Prussian militarism. That may sound strange to those who have looked so long upon Russia as a military nation, but it is nevertheless true. A new feeling of patriotism has been born."

"And do you know," he added, much as though it were a matter of course, "that it is impossible for Russia to lose—for the allies to lose this war? Russian resources of men and money are too vast. Why, there are a million young men arriving at military age every year. Russia could lose a million every 12 months, which is inconceivable, and still keep her armies in the field in undiminished number. Russia can feed her armies, and never feel it. All the blockades in the world cannot affect us! We raise our own food, and can and will make our own supplies of every sort, if necessary. We have the money, we have the men, and, by heaven, we have the spirit!"

### Coyotes at Work.

Condon, Ore.—Rabid coyotes have lately been doing much damage to stock in this section. A number of cattle had to be killed at Fossil the first of the week. On the Rogers ranch in Ferry canyon a coyote chased hogs all around the plow teams working in the field and showed no fear of the men. One man shot at the brute four times, but failed to kill it.

### 3 Names in 10 Minutes.

Winamac, Ind.—Mrs. Ida Moore obtained a divorce from William Moore in the circuit court here and her maiden name, Ida Maibaur, was restored. Ten minutes later her name was again changed when she was married to William Beach. It was the fourth marriage for Mrs. Beach and the first for Beach.

## Care of Babies In Summer

[Prepared by the children's bureau, United States department of labor.]

Many thousands of babies die every summer, and many thousands more suffer from illness because of the excessive heat. Bottle fed babies form the greater part of the number, owing to the great difficulty of keeping cows' milk sweet in summer, but even breast fed babies need very particular care during July and August.

The first and most important thing in the care of the baby through the hot weather is to give him the right food. The value of breast milk to babies has been brought out in an earlier article. The next most important thing to do for the baby is to make him as comfortable as possible by plenty of baths, sleep, fresh air and light clothing.

The baby should have a constant supply of clean air to breathe, summer and winter, day and night. Do not be afraid to take him out of doors. In the country it is very little trouble to give the baby plenty of out of door life. A screened porch on the shady side of the house is an invaluable aid to the mother in the care of the baby. It makes a safe place for him to stay, awake or asleep, protects him from his enemies, the fly and mosquito, and at the same time affords him the fresh air he needs.

The poorest place in the house for the baby to stay in is the kitchen, which is necessarily the hottest one. When the mother has to be busy in her kitchen the baby should be kept out of doors as much as possible, and during the warmer weather, when the out of door air is hotter than that indoors, the baby should be kept in the coolest room in the house. A play pen will be a great help in confining a runabout baby within safe bounds. It may be used indoors or out, with a rug or blanket in the bottom.

The baby should be kept clean and cool by frequent baths. He ought to have at least one full tub bath every

BATHING THE BABY.

day, and when he is restless and the weather very hot he may have one or two sponge baths in addition. For a young baby the water should be slightly warm or tepid. The mother may test it by dipping her elbow into the water. If it feels just pleasantly warm it will be right for the baby. After he is a year old the water may be cooler, but should never be cold enough to shock or frighten him, for a baby should find his bath a great delight.

Use only a mild soap like castile and very little of it, rinsing the skin thoroughly afterward. A baby's skin is very sensitive and may be made sore by a harsh soap. If any redness or chafing appears use no soap at all, but try a bran bath.

Make a little bag of thin cheesecloth and partly fill it with ordinary bran. Sew or tie the open side and put in the bath water, squeezing it until the water is milky.

When the baby has prickly heat he may be sponged with a bath made by dissolving a tablespoonful of ordinary baking soda in two quarts of water.

It is important to keep not only the skin clean, but the clothing also. The diaper should be changed as soon as it is wet, for a wet or soiled diaper is quite sure to make the baby's skin sore if worn for any length of time. The country mother has the advantage in being able to dry the diapers in the sunshine after they have been washed or to spread them on the grass to bleach and sweeten. Every soiled diaper should be placed at once in a covered pail until it can be washed.

The baby needs very little clothing in hot weather. On the hottest days he may go with nothing on but his diaper, and, possibly one other thin garment. The mother will, of course, be ready to dress him as necessary to prevent him from chill when the weather cools. Clothe the baby in as few soft, clean, simple garments as will serve to make him comfortable and happy.

Plenty of cool drinking water is essential. Babies and young children often suffer for lack of this. It may be given from a nursing bottle before the baby is old enough to drink from a cup. The water for the baby should be boiled and cooled, as even clean looking water may contain germs of disease which are killed by the boiling process. Give the baby a drink several times a day between meals and at night when he awakens.

## For Young Folks

Fancy Japan Chickens at Panama Exposition.

Those fortunate children who have visited the great Panama-Pacific exposition at San Francisco do not need to be told of its beauties and wonders; they have seen with their own eyes. Those who contemplate going to the fair have a great pleasure in store, for all beholders unite in declaring it the most gorgeous sight imaginable. Perhaps some who have been there saw the rare exhibits in the exposition's continuous live stock show. Notable among these are the long tailed Japanese chickens, which are bred especially for the emperor of Japan and whose valuation runs to as high as \$2,000 for a single bird. These chickens are housed in glass, this precaution being necessary to preserve the fine quality and sheen of their feathers. The picture shows a keeper holding one of these remarkable birds in his hand. As can be seen, the tail feathers reach to the ground.

### Boy Scout Baseball.

The scoutmaster takes a question from a list of questions and fires it at the batter. If the batter misses it completely it counts as three strikes, and a correct answer by the catcher puts out the batter. If the batter answers the question correctly another question goes to an outfielder, who makes a putout or allows a safe hit by answering correctly or by missing. If the batter's answer is partly right, he is considered to knock the ball to an infielder, who makes an error or a putout at first, depending on whether he misses or answers the next question. If a runner on a base wants to try to steal, a question is sent to the infielder on the next base, who does or does not put out the runner. If an infielder wants to catch a runner napping, he calls for a question, the missing of which allows each runner to proceed to the next base. Of course his correct answer puts out the napping runners.

To be impartial, it is best to take the questions in regular order—e. g., the seventh, seventeenth, twenty-seventh, etc., throughout the list. The list may easily be made by any scoutmaster, who may find it desirable to write the answer after each question. Here are some simple questions: What is the seventh scout law? Describe the flag used by Washington in January, 1776. Bad bruises are tested how? Give the letter K in some signal code. Give seven precautions against causing fires. Give the two most important things to do for dislocation of a bone.—Scouting.

### Jumbled Flowers.

1. Ystumchrahme. 2. Minaguer. 3. Tinaoncar. 4. Speacetsw. 5. Oneyhesuckl. 6. Ebonlag. 7. Lila yill. 8. Xilams.  
Answer: 1. Chrysanthemum. 2. Geranium. 3. Carnation. 4. Sweetpea. 5. Honeysuckle. 6. Begonia. 7. Calla lily. 8. Smilax.

### Nests of Weaver Birds.

In India the baya weaver birds usually suspend their nests from branches of palms or other trees which overhang a stream and weight them with lumps of clay, which prevent them swaying about at the mercy of the wind. The natives say fireflies are fastened into the clay for the purpose of frightening away rats and snakes.

### Overheard in the Kitchen.

"I hear you called on the refrigerator yesterday," said the woodbox to the pail. "Were you received pleasantly?"

"No; the refrigerator treated me with great coldness," said the pail.

### Concealed Word Square.

[One word in each couplet.]  
Here's where the landslide came last week;  
See where it filled the little creek!  
The laborers shoveled with their might  
And rescued all in sorry plight.  
To see them grab as each appears,  
And hear them give those hearty cheers!  
No session for a candidate  
Ear cheering heard at such a rate.  
Each man is thankful that he lives,  
And full redress employer gives.  
Answer.—Eland, labor, abuse, noise, dress. Find the words in the verse.

## Teach Your Child To Be Thrifty

Then you will never have cause to blush for it.

FEW PARENTS' HEARTS HAVE EVER ACHED OVER THE MISDOINGS OF A THRIFTY CHILD.

GUIDE YOUR BOY AND GIRL OUT OF THE PATH OF THE SPENDTHRIFT.

Start an account for them in our bank and teach them the importance of saving.

If you do not follow our advice, you may regret it.

If you do follow it you will always be thankful.

## TANEYTOWN SAVINGS BANK

## COOK IN COMFORT THIS SUMMER

YOU can make your kitchen as livable as your living room—if you have a NEW PERFECTION Oil Cookstove. No wood-box, no ash-pan, no coal-hod to bother with. A clean, cool kitchen, and half the drudgery gone. The NEW PERFECTION is quick and handy like a gas stove. It lights instantly, and gives you a big volume of heat, easily regulated just by raising or lowering the wick. It is easy to operate, easy to clean, and easy to re-wick. 2,000,000 women say it's "gas stove comfort with kerosene oil."

Ask your dealer to show you his NEW PERFECTION line—stoves with one, two, three and four burners. Note particularly NEW PERFECTION OVENS, especially made for use on these stoves. Ideal for roasting and baking.

Use Aladdin Security Oil or Diamond White Oil to obtain the best results in oil Stoves, Heaters and Lamps.

## TANEYTOWN LOCAL COLUMN

### Brief Items of Local News of Special Interest to Our Home Readers.

Miss Myra Grove, of Glen Rock, Pa., is the guest of Miss Mary Hesson.

Mr. and Mrs. John Hockensmith are visiting Mr. and Mrs. Forrest Otto, of Baltimore.

Mrs. Ernest Angell spent several days in Columbia, visiting her sister, Mrs. William Wagner.

Miss Margaret Shreeve, of Waynesboro, is spending a few days with her friend, Miss Clara Ohler.

Mrs. Martin L. Buffington returned home from a three weeks' visit to Lancaster and Columbia, Pa.

Just now, we have an accumulation of old newspapers in bundles of 100, at 5c each. Come and get them.

Miss Edna Delp, of German Valley, N. J., visited Misses Mary and Josephine Reindollar for a few days this week.

William and Fannie Yingling, of Pleasant Valley, spent Tuesday and Wednesday with Laverne and Vesta Zepp.

Mrs. Margaret Bankard is spending several days with friends and relatives, at LeGore, Woodsboro and Frederick.

Charles Little, and wife, of near Two Taverns, visited at the home of Samuel Renner, on Saturday and Sunday, last.

Mrs. Filmore Bowers, of near Littlestown, and daughter Mrs. Porter, of Oregon, spent Tuesday with Jesse Myers and wife.

Miss Agatha Weant, has returned home after spending a month in Baltimore, at the home of her uncle, Mr. and Mrs. C. C. Eyer.

Mrs. Daniel H. Fair returned home on Tuesday, after spending two months with her son, Robert R. Fair and wife, of Baltimore.

Mrs. Sarah Reck continues to improve, at Frederick hospital, but expects to remain there under treatment until about September 1.

Mrs. Dennis Bunty and son, Otis, and Master Wm. P. Miller, of Hanover, Pa., are spending some time with relatives in and near Taneytown.

Robert B. Galt went to Frederick hospital, on Monday, where he was operated on, on Tuesday, for rupture. He was quite sick after the operation, but is now progressing satisfactorily.

The electric plant for the Reformed church, is expected to be ready for use for the first time, at their lawn festival, July 31, and for the regular church service Sunday evening, August 1st.

Mr. and Mrs. Clyde Morningstar, of New Windsor, spent Sunday with Mrs. M's parents, Mr. and Mrs. J. T. Shiner. They were accompanied home by their niece, Miss Ruthanna Ohler, who will spend a few days with them.

The Lutheran parsonage property has been improved by the removal of the front fence, and the laying of concrete walks through the side yard. The work was accomplished in one day, by an energetic committee with professional assistance.

Mrs. H. M. Clabaugh is greatly improving the appearance of her home by adding three brick-pillared gateways to the grounds, which, when finished, will represent additional protection to the property, as well as appropriateness in general appearance effect.

George R. Baumgardner has broken ground for a new dwelling on Baltimore street, extended, which he will have finished for occupancy next spring. We will be glad to make more like announcements—and they ought to be made; Taneytown needs more dwellings.

The Boys Band of Loysville Orphan's Home, will give an open air concert, at Keymar, next Thursday evening, at 8 o'clock. There are 34 members in this band, which has earned a wide reputation for its excellent music, and it will be quite a fine opportunity for those within reach to attend, and give the boys a rousing reception. They will remain over night, at Keymar, so the concert can be depended on to be a satisfactory one, both in quality and in length.

The threshermen's agreement to charge 3 cents a bushel for threshing, did not hold in this section, as some of the threshermen soon broke to 24 cents, and the rest were compelled to follow. Three cents per bushel for threshing, is little enough, and farmers generally were willing to pay the price. In some sections, 4 cents and higher is charged. The lost half cent is little to each farmer, but would amount to considerable to the threshermen at the end of the season.

Renben H. Alexander has bought the Lowman (formerly White) farm, on the Bruceville road, together with all crops, live stock and farm machinery. We understand that no actual transfer of ownership has as yet taken place, but the deal has been made, and Mr. and Mrs. Alexander are now there. This is rated as one of the best large farms in the county. Mr. and Mrs. Alexander have been living in Westminster, since their removal from this neighborhood, and their many friends will be glad to learn of their return.

Miss Blanche Shriver, of Gettysburg, is visiting, Mrs. John S. Bower.

Mrs. Woodard and son, Harry, of Washington, are guests of Mrs. Margaret Stott.

Miss Elizabeth Crapster is spending two weeks with Miss Lyla Harvey, of Point Pleasant, N. J.

Miss Lillie M. Sherman entertained to dinner, on Thursday, a number of relatives and friends, in honor of her birthday.

The Record Office will be closed from 9:20 a. m., this Saturday, until 4:00 p. m., in order to give the force a day off to attend the P. O. S. of A. anniversary.

See announcement in another column, relative to the "Community" Picnic, next Wednesday. This should be a pleasurable event for both young and old.

A game of baseball will be played on the Taneytown ground, next Thursday afternoon, at 2:30 between Taneytown and Fairfield teams. A good game may be expected.

Mr. and Mrs. Raymond Leister, of near Marker's Mill, entertained on Sunday last, Chief Judge and Mrs. Robert N. Koonz, Charles W. and Mrs. Koonz and daughters Martha, Grace, Laura and Madeline, all of Union Mills, and Carrie and Margaret Lemmon.

The top surface of the state road, which had scaled off, at places, has been repaired with patches, ugite and finely crushed stone being used. This work is done without any interference with travel. Autoists who travel extensively, say the road between Taneytown and Westminster is the finest in the whole country.

Next Wednesday afternoon and early evening the annual community picnic will be held at Ohler's Grove. Conveyance of all who have no way of going and coming, is being properly arranged for by a committee specially appointed. Those desiring conveyance will please meet at the public school lawn between 12:30 and 12:45.

There will be music by the Taneytown Band, a "really" ball game and a series of athletic contests such as foot races, dashes, sack races, tug-of-war, besides the usual fun-provoking stunts.

Races—Paper, 3-legged, bag, wheelbarrow and relay; also nailing contest, elephant walk, tug of war, and girls' base ball game.

Those desiring entry to these various events should see Robert Stott, the chairman, as soon as possible, for registration. It is hoped sufficient interest will be manifested to insure the awarding of suitable prizes. Plans are on foot, also, to make the day especially interesting for the little folks.

The hearty and considerate co-operation of the entire community with the various storekeepers and warehouse men is urged so that as heretofore, all places of business will be closed from noon for the rest of the day. Jump in and help make July 28, a day of fullest enjoyment long to be remembered.

Baseball! Baseball!

(For the Record.) On Saturday afternoon a game of baseball between the Woodsboro and Taneytown teams will be played. This will be the third in a five game series, of which both teams have won one. Playing off a tie should bring an enormous crowd out to Ohler's Grove to see the game from start to finish. The presence of so many Woodsboro loyalists at the P. O. S. of A. Anniversary ought also add a tinge of pleasant rivalry and plenty of bleacher chatter. The local fans should swarm to the support of our boys, especially in view of the interesting incidents in connection with this particular game.

The fifth game of the series will be played on neutral grounds—in all likelihood at Emmitsburg.

The second game with Thurmont, will be played Monday afternoon next at 2:30. All who possibly can, should go to Thurmont and back the team to a man.

For Thursday, the 29th, at 2:30 p. m., on the home grounds—a game with Fairfield is scheduled. The boys are straightening out the kinks in the various departments of the game, are showing a fine team spirit, and should finish the season as the banner-winning aggregation of ball-players in all this section of baseball-loving country. Let's help them do it!

Supper to Mr. and Mrs. Fleagle.

(For the Record.) On Thursday evening, July 15, Mr. and Mrs. Charles Fritz gave a supper in honor of their daughter, Rosella, whose marriage to Bailey Fleagle, of Westminster, was solemnized on July 3. The supper, which was enjoyed by all, consisted of sandwiches of various kinds, deviled eggs, tomatoes, ice cream, cakes of all kinds, oranges, bananas, candy, coffee, cocoa and lemonade. The table was beautifully decorated with roses and ferns. In the center was built a pyramid of oranges and bananas. The bride's cake was tastefully decorated with candy. The bride received many useful presents.

Those present were: Charles Fritz and wife, Theodore Fleagle and wife, Rev. L. F. Murray and wife, W. H. Davis and wife, W. P. Englar and wife, Jesse P. Garner and wife, Dr. Luther Kemp and wife, Wesley Fritz and wife, J. W. Rodkey and wife, G. Fielder Gilbert and wife, Norman Smith and wife, Samuel Repp and wife, Guy Formwalt and wife, Luther Stultz and wife, George Slonaker and wife, Herbert Ecker and family, Feigh Fritz and wife, Hugh Heltibridge and wife, Walter Baile and wife; Mrs. J. E. Formwalt, Mrs. Frank Haines, Mrs. Wm. Caylor, Mrs. Clayton Hann, Mrs. Snader Devilbiss, Mrs. Sallie Bloom, Mrs. Susie Wilson and Mr. Obadiah Fleagle; Misses Emma Garner, Alice Lamb, Armita Murray, Ruby Rodkey, Nellie Hann, Hilda Englar, Clara Slonaker, Gertrude Gertrude, Grace and Blanche Devilbiss, Vernie Wilson, Marie Fleagle, Andrew and Margaret Repp, Emma Heltibridge and Margaret Hoy; Messrs. Harry Haines, Thomas Lloyd, Roger and Bernard Devilbiss, Edgar and Rodger Stultz, Milton Snader, Renalda Repp, Ray Heltibridge, George Caylor and Thomas Baile.

## CHURCH NOTICES.

United Brethren—Taneytown, Sunday School at 9:00 a. m.; preaching at 10:00 a. m.

Harney, Sunday School at 9:00 a. m.; preaching at 8:00 p. m. All are invited. W. J. MARKS, Pastor.

Taneytown Reformed church.—Sunday School, 9:00 a. m.; preaching at 10:00 a. m. Keysville, S. S. at 1:30; preaching at 2:30 p. m.

GUY P. BREADY, Pastor.

Regular services in Trinity Lutheran church, Sunday morning. In the evening, union services, sermon by Rev. Guy P. Bready. On Tuesday afternoon, at 1:30, there will be a free concert by the Loysville Orphans' Home Band, in the Sunday School room. An opportunity will be given for an offering.

Presbyterian.—9 a. m., Bible School; 10:45 a. m., worship. Brief meditation on a matter worth hearing about. 7 p. m. C. E. meeting.

Piney Creek.—6 p. m., Bible School; 6:45 p. m. (on the minute) thirty-five inspiring minutes of song and supplication out under the trees. Tabloid topic: "A Constitutional Convention. Prayer."

Reformed church.—St. Paul's, Union Bridge, 9:30 a. m., Sunday School. Banquet.—9:30 a. m., Sunday School; 10:30 a. m., divine worship. Subject of sermon: "God's Challenge to Man." 8:00 p. m., Young People's Society.

PAUL D. YODER, Pastor.

Marriage Superstitions.

In some parts of Germany the duties of the bridesmaids are tinged with superstition. It is one of their duties on the morning of the marriage day to carry to the bride a myrtle wreath, for which they had subscribed on the previous evening. This they place on her head and at night remove it, when it is placed in the bride's hand, she being at the time blindfolded. The bridesmaids then dance round her, while she endeavors to place the wreath on one of their heads. Whoever is fortunate enough to be thus decorated with it, is believed, to be a wife before another year has passed. In removing the bridal wreath and veil the bridesmaids are careful to throw away every pin or the bride will be overtaken by misfortune, while any unwary bridesmaid who retains one will lessen her chances of marriage.—Dundee Advertiser.

The Meteoric Hypothesis.

The nebular hypothesis of La Place has been abandoned in favor of the meteoric hypothesis of Lockyer and planetesimal hypothesis of Chamberlain. All suns, planets and moons, by these two nearly identical theories, were made by the falling in from space of small cosmic bodies, such as the meteors now falling on the earth. Trillions of years ago there was a meteor moving in space. It is now in the center of the earth. Another meteor joined this by collision, then another, and this falling in is now going on at a vastly diminished rate, so that comparatively few are now coming in, as may be seen on almost any clear night.—Edgar Lucien Larkin in New York American.

White Man's Graveyard.

Africa is a remarkably beautiful country. Its coast lines are picturesque, graceful, fascinating, alluring. Its seaport towns and cities are usually clean, pretty and reasonably healthful. Equatorial Africa has, until the last two decades, been called the white man's graveyard, but clean living, quinine, mosquito netting, sobriety and sanitary improvements have made Africa a place where one can not only exist, but live in as much comfort, take it all in all during the year, as in the city of New York.—New York Telegram.

Stale Candy.

Stale candy can generally be worked over by reboiling. In the case of acid candies, such as lemon drops, the candy is boiled, the acid is withdrawn by the use of lime or chalk, and the slurrup may then be used in the manufacture of that or any other species of candy.

Taking Up Time.

"I like to have my friends extend their congratulations," said the newly appointed public official.

"But that last caller extended his over an hour and a half."—Louisville Courier-Journal.

Refined It.

"Here's a dealer advertises a sale of hereditary mahogany furniture."

"Just what does he mean by that?"

"That's merely a polite way of saying secondhand."—Pittsburgh Post.

Inefficient Management.

Smythe (dismally) — Nell, I simply can't meet my creditors. Mrs. Smythe — Why should you? What in the world do you employ a secretary for?—Puck.

## BLUE RIDGE COLLEGE,

NEW WINDSOR, MD.

There is a growing appreciation of the high ideals, the homelike and uplifting atmosphere, as well as the thorough and efficient work done in the several departments of the College. We thank our friends and patrons who have made possible for us a larger usefulness. We are enlarging the faculty and increasing the buildings for the coming year. We want to make Blue Ridge a real blessing to the community and state. We are determined to create surroundings that are clean, and render a personal service to every young man and woman that will equip them in character, culture and efficiency for the work that they shall be called to do.

Besides the regular College Courses, you will be interested in the Courses in Business, Agriculture, Music, Art, Expression and Sewing. Call and get acquainted or write for Catalogue and other Literature. Address—
