VOL. 24.

TANEYTOWN, MARYLAND. FRIDAY, MARCH 15, 1918.

No. 37

ROAD TRUCKS MUST

PAY HIGHER PRICES.

Freight Hauling.

Although the Roads Commission recognizes that heavy motortrucks are the cause of the greatest damage to the State's system of improved high-ways, and feels that they ought to pay a greater sum toward the maintainance of the roads than they now pay, there is no desire to put undue burdens on them. This was made clear by Chairman Zouck, of the Com-

"The trucks are here to stay," he said, "and they will continue to grow in usefulness. We are not antagonistic to the trucks, recognize that they are a wonderful convenience, and for short hauls, in time will supersede the railroads. At the same time we will supersede MRS. GEO. K. MATHER, Pres. recognize, as every fair man must, that the State never intended to provide practically free road beds for the handling of freight, and that when the roads are used as such, those using them ought to pay a proper share of the maintainance cost of the roads. The modern road has made the heavy motortruck a possibility. They are of practically no use on dirt roads or on bad roads, and if anyone tries to hire a truck for hauling, the first question asked, will be the condition of the roads after leaving the State highways. If the road is not a good one, the truck owner will not undertake the job.

"As a matter of fact, we are just

at the beginning of freight traffic by motortruck, and as this traffic grows it will put an ever-increasing strain upon the State roads. We do not desire to keep the trucks off the State roads, and we have no intention of letting the roads go to pieces if we can

As we see it, the way to meet the problem presented by the truck is to limit the weight that may be carried upon it, and the weight of the truck itself, and fix a fair charge upon the truck for the use of the roads. We recognize, too, that in order to meet the truck problem we will be compelled ultimately to rebuild macadam roads with concrete. Concrete is the only road that will stand up under the heavy traffic. We are preparing to build shoulders of concrete on each side of the macadam roads now. These shoulders will keep roads from spreading, will keep them in fairly good shape and will protect them for a number of years against excessive wear. Then we can gradually replace them with concrete, the shoulders remaining in place, and increasing the width of the roads which have been found too narrow for the traffic that

"We built some roads of concrete with a bituminous top, the concrete base being four inces thick. This, we have found, was too thin, and they do not stand up. Our standard concrete road is six inches thick, but we have come to the conclusion that even that is not enough, and our new concrete roads will be seven inches thick. When they wear down a little we can put on a top dressing of heavy asphaltic oil to take up the wear, and they will, I believe, wear indefinitely and take care of any weight of truck now in use."-Balt. Sun.

A Severe Windstorm.

A severe windstorm, which is reported to have been only the tail-end of a more violent exhibition centreing in Ohio, passed over this section, last Sunday, beginning before daylight and continuing more or less violent for twelve hours. Many losses have been reported from the northern during the intermission. tier of counties, not only to buildings by to fencing and to all of the light-

er out-door objects.

Losers in this section were in part, as follows: Stable upset at Mrs. Mary E. Crapster's tenant house, on Middle burg road; considerable roof damage to the Poole barn, in Taneytown, recently purchased by J. E. Flohr; roof damage to the barn on the J. W. LeGore farm, at Piney Creek; slight loss to buildings of Mrs. Helen Engelin at Goulden farm tenanted by Pius help to support some branch of L. Hemler; damage to slate roof on "service" to bring "Liberty to the capbrecht, Taneytown; barn doors blown J. J. Garner's dwelling; damage to slate roof on Lewis Hemler's dwelling; part of metal roof on barn of J. D. Haines, near New Windsor. blown

Most of the losses were covered by insurance, or partly so. Some who are uninsured, have been prompted by the storm to take out policies

Prospects of Normal Wheat Crop.

Much wheat in the State has suffered from winter killing during the past few months, but if the damage is no greater than it at present seems to be, the State will have a normal production. This is made possible by the off-set to the damaged conditions by the increased acreage, plantd by Ma-

ryland farmers, last year. Several requests to the State College for advice about using manure to help the crop along are answered by the Experiment Station with the pinion that if wheat has been open to damage from winter-killing, the damage has already been done, and the manure would be of value only so far as its plant food content is concerned. This in turn leads to the conclusion that where fertilizer is needed the commercial product should be used and the manure saved for such crops, as corn and tomatoes.

Lectures and Demonstrations on War Bread, Meats, Substitutes, etc.

The Woman's Civic League of Westminster has secured the services of Miss Rachel Everett, Emergency State Roads not Intended for Free give a series of ten lectures and demonstrations of war breads, meat substitutes, etc. Miss Everett thoroughly undersands her work and it is extremely interesting. She will teach us many things we ought to know. It is requested that all patriotic women who are willing to assist in the conservation of food, will make an ef-

fort to attend these meetings. The Civic League bears the expense of these lessons and offers them entirely free to the public. They will begin with Saturday, March 16, at 2:30 P. M., in the Social Hall of the Methodist Episcopal Church and on each Saturday, afternoon thereafter. each Saturday afternoon thereafter until the ten lessons are completed.

We extend a cordial invitation to you to meet with us and request that

Council of Defense Notes.

A meeting for the purpose of organizing a Motor Messenger Service for Carroll County, was held at the Defense Headquarters, Westminster, Md., Saturday afternoon, March 2, Mrs. Cary Gamble, Captain of the Motor Messenger Service of Baltimore and staff, Mrs. Linthicum, Miss Le-Mott and Miss Weber, came from Baltimore, and Captain Gamble explained the uses and aims of the Motor Messenger Service, namely: to help in all war work where conveyance is needed. Miss Marian Shriver is Captain for Carroll County, and has aroused much interest in the Service. Many women throughout the county have signified their willingness to help in this work. Those present at the meeting on Saturday, besides Captain Shriver, were: Mrs. John H. Cunningham, Mrs. Harry Kimmey, Mrs. C. O. Clemson, Mrs. Robert Galt, Misses Cora Sappington, Lola Machree Allender, Lillie Maus and Mrs. Gilbert Benson.

A meeting was held at Sykesville, on the 7th., in the interest of Thrift Stamps. Messrs. John H. Cunning-ham, H. P. Gorsuch and Rev. Chalmers Walck made addresses

Girls are selling Thrift Stamps in the stores and Post Office in Westminster, and have met with great success Window cards and literautre about the W. S. S. have been sent to the District Leaders, in order to stimulate interest in the important work.

There will be a meeting at the Opera House, in Taneytown, at 7:30 Monday, March 18. Prominent speakers will address the meeting and girls dressed as nurses and boys dressed as scouts, will give a drill and sing patriotic songs. Miss Anna Galt, as District Leader, has done telling work in getting started the campaign for the sale of Thrift Stamps. Miss Galt has as her committee, Mesdames, Maurice Duttera, Harry Miller and George Arnold, and Miss Mory Fringer Mrs. Dutters Miss Mary Fringer. Mrs. Duttera is chairman of the Thrift Committee, who have sent 150 cans of fruit and preserves to Westminster, to be used for feeding soldiers who pass through the county. This Committee plans to have Miss Everett, County Agent, in the near future address the women of Taneytown, on Food Conservation and war breads.

Important meeting on March 21st, at the Opera House, Westminster, in connection with the General War meeting, under the auspices of the Maryland Council of Defense, at which Mr. C. T. Williams will speak. The Women's Section will have a woman of national importance to address the meeting and call attention to the importance of women investing Thrift Cards will be given out and girls will sell stamps

Our Basket Gets Another Appeal.

We thought perhaps the limit had been reached, or nearly so, of applications for financial help and for free space for appeals on account of the war, but this week's mail brought us a letter from Shanghai, China, and a very appealing one it was, too; and yet, we fail to grasp just what it means, or wants, specifically. At any rate, the writer urgently requests tive millions in China," and no doubt the appeal is a worthy one, brought about by this indescribably horrible world war. It is, however, another of the dozens of appeals received, each week, that must go into our waste

Baltimore Markets Omitted.

Hereafter, the Record will not publish the Baltimore markets. There was a time, years ago, when this feature was desirable in a country weekly, but now it is likely that very few, if any, look for such a feature; besides, it is difficult, because of the grading of wheat, corn and hay, to publish dependable figures. We shall continue the home market prices, as heretofore, but unless a stronger desire exists for them we think, the Baltimore markets will not be given.

List of Explosives Licensors for Carroll County.

the Peace, Union Bridge.

Woman Suffrage and Dry Bill Among the Defeated.

LEGISLATIVE NOTES

The Senate, Monday night, passed the bill requiring all vehicles, whether propelled by power or horses, to show lights, at night, on the public roads. Senator Warfield opposed the measure

DURING THIS WEEK.

but it passed, 18 to 9.

The effort to repeal the "Declaration of intention" law, was defeated by a strict party vote, in the Senate.

The Weiner state-wide dry bill was easily defeated, on Tuesday, a vote not being taken, as but one member asked for a roll call. There is still another bill resting in the Senate, which may be brought forward, but any further dry, legislation state-wide in character is likely to be de-

feated, at this time.

The bill giving women the right to vote at Presidential elections was defeated in the House, on Wednesday, for the present session, by a vote of 53 to 42. The Carroll county delegation was divided, Messrs Kephart and Leatherwood voting to "table" the bill, and Messrs Wooden and Ely against the motion.

The House, by the close vote of 47 to 46, went on record favoring a resolution that farm laborers and other men engaged in food production be exempt from the army draft.

There seems to be no bond issue for roads, in sight, but that auto and truck licenses will be advanced enough to pay cost of road maintenance.

on favorably. Among the bills finally passed by the Senate was that giving to the counties of the state home rule, the express powers being set forth in the act. This law will permit the counties to conduct their own affairs, and will keep from the legislature the numerous bills that have to do with their internal affairs.

Municipal suffrage for women, was killed, on Thursday, for the session.

Public Welfare League Meeting, Myers Disrtict.

(For the Record.)
The Public Welfare League of Myers District, was held Monday evening, March 11, in Silver Run, presided over by the chairman, Rev. S. C.

Hoover.
Mr. Hoover reported his personal conferences with the chairman of the National Highways Transport Committee; with Mr. Shirley, Chief Engineer of State's Highways Commission; with Mr. Morris, Chairman of the Ways and Means Committee of the General Assembly. In addition to these conferences,

interviews were had with Speaker Wooden, of the House, and finally with the Governor. All these relative to the improvement of our road. The question of the Mail Truck Service was next considered. Mr Hoover went to Washington, D. C. and had a conference with the Fourth Asst. Postmaster, Mr. Ryan, who promised that the Mail Truck for Gettysburg, Pa., from Baltimore, Md., should stop in Silver Run, for the collection of mail-first-class matter and Parcel Post.

Next matter of consideration was an Emergency call for our telephone. Resolution adopted that the officers of the Silver Run Telephone Company be asked to provide a "Sticker' -slip to be posted upon each telephone box, upon which slip is printed, or stamped, a given signal to be known as an "Emergency Call," to be used in case of fire or other acci-

American Forces Actively Engaged.

The American forces in France are less now taking initiatives on their own account, and during the week have engaged in several successful raids and minor engagements, which the news reports picture as successful. The German forces are especially active on the American front, and will make ever effort to discount the value of the American contingent as an enemy force, for the sake of effect on the German people who have not been left know the extent of America's participation in the war. Secretary of War, Baker, is now in France, presumably on a very important mis-

States Attorey Seabrook, of this County, is seriously ill at his apartments at the Westminster hotel, suffering from a complication of troubles. His hosts of friends throughout the county hope for his recovery. worth all, and more, than they cost.

The Rag Doll Corn Tester.

The obviously unfit ears can be eliminated by inspection, but many of those left, which to all appearances are well matured and fit for seed, will be shown by the tester to be weak or dead, while the remainder can be relied upon to give good results when planted. There are many testers in use, but the most practical and economical of them all is the "rag doll."
Bleached muslin is a satisfactory material for making the doll. Cut into strips 16 inches wide and 3 to 5 feet By a line drawn down the center, and cross lines every 4 inches, the doll is divided into sections, each of which is to be filled with a 6 to 10 kernel sample from an ear to be

Select these kernels from different parts of the ear. Number the ears to correspond with the number of the section in which the kernels are to be placed. Fold the outer edges of the tester toward the center so that they meet, roll the doll about a corn cob or other cylindrical object, and tie, Soak the doll for a few hours, drain off the excess moisture, and place it where it will not dry out and will be subjected to a good growing temper-

At the end of about five days the tests should be ready for reading. Ears germinating 80 percent, or more should be saved for seed. This year it is well to retain all ears showing a germination of 60 percent. or over, keeping these poorer germinating ears separate. These may have to be used if the supply of seed germinating 80 percent. or better is not sufficient. If used they should be planted thicker

than the good seed. Farmers' Bulletin 948 of the Unit-The greater Baltimore bill is now the special order in the Senate, and the indications are that it will be acted the indications are that it will be acted to the control of the Chited States Department of Agriculture, entitled, "The Rag Doll Seed Tester," describes fully this method of testing seed corn.

800,000 to be Called this Year.

Washington, March 12.—Eight hundred thousand men are to be called to the colors gradually during the present year under the second Army draft, which begins on March

An announcement today by Provost Marshal General Crowder of the number to be called was followed closely by an order for the mobiliza-tion of 95,000 men during the fiveday period beginning March 29th., some 15,000 of them to be assembled under the second draft. Eighty thousand will be men of the first draft of 687,000 not yet summoned into service.

Details of how the second draft is to be applied will be made public later after Congress has acted upon proposed legislation providing for the registration of youths attaining the age of 21 years and for basing state and district quotas on the number of registrants in Class 1. In his first official statement on the subject, however, General Crowder assures the country that no sweeping withdrawal of large numbers of men at one time is contemplated and that care will be taken to avoid interference with harvesting.

The 95,000 men now called, it is understood, are needed at once to fill up divisions and other units scheduled for early departure or to take the place of men transferred from other divisions to make up such deficiencies. Newly organized regular divisions are practically short of men and heavy drafts on National Army divisions to make these good have been necessary, seriously interfering with the training work of the National Army divisions drawn upon. The call for new men makes it probable that no further transfers will be necessary. Maryland's quota in this call is 382.

Red Cross Work in Europe.

"What the Red Cross is doing in Europe" is the title of a most interesting and strongly written pamphlet, Maj. Grayson Murphy, American Red Cross Commissioner to Europe. He pictures the absolute and urgent need of Red Cross work, and the vast difficulties encountered by the organization before it could begin to do effective work systematically, among the needs being a warehouse system, and many ambulances and motor

They have in use now, about 500 motor vehicles, great base warehouses and about 100 great barracks under construction in different parts of France and Belgium. They have numerous hospitals, and are caring for about 50,000 children in France, also a large number in Belgium, in addition to the care of soldiers and the thousands of destitute and home-

The organization is also combatting tuberculosis in an extensive way. It serves hot drinks and refreshments through a canteen system, to all of the allied armies, almost always under shell fire-225,000 soldiers having been served in December. About 1,000,000 hot meals are served each month.

The recreation hall branch of the service is also very important; a system of baths and disinfecting clothes adds greatly to the comfort of the soldiers, and keeps them in better spirits and physical trim.

There is, in fact, no essential feature lacking in the care of the troops, whether it be for comfort, or emergency, or entertainment. All of this, of course, is costing a great deal of money, but those who see the working out of the benefits, say they are

COAL DISTRIBUTION FOR THE PRESENT YEAR.

Statements.

The Fuel Administration has ordered an average reduction of 30 cents a ton on anthracite coal, between April 1 and September 1, and passed certain rules to prevent hoarding. Consumers are advised to place their orders early, so that delivery may be made gradually throughout the summer: The regulations are as follows: "(A) Until further notice no do

mestic consumer of coal or coke shall purchase, receive or otherwise take possession of, more coal or coke than is required for his actual and neces-sary requirements prior to March 31, 1919. If such consumer already has a quantity on hand, he shall receive only such additional amount as shall make up his actual and necessary requirements prior to that date.

"(B) No person, firm, association or corporation, whether acting alone or corporation, whether acting alone or in conjunction with others, shall, directly or indirectly, provide any domestic consumer of coal or coke with more coal or coke before March 31, 1919, than is necessary, with the amount already on hand, to meet the actual and necessary requirements of actual and necessary requirements of the fleets upon the seas and such consumer prior to that date.

person, firm, association or corporation shall sell or deliver coal to a domestic consumer who does not first furnish to the person selling or de-livering such coal a statement which the consumer declares in writing to be true and which specifies (1) the amount of coal the consumer has on hand, (2) the amount of coal he has on order and the name of the person from whom ordered, (3) the amount of coal used by him in the 12 months ending March 31, 1918, and (4) the amount of coal needed to meet his actual and necessary requirements prior to March 31, 1919; provided, however, that this regulation may be modified by any state fuel adminis-trator within his own state under such conditions as he may deem prop-

State Fuel Administrator, deliver or cause to be delivered to any domestic consumer, more than two-thirds of his normal requirements of anthracite coal,until each domestic consumer who has placed his order with said dealer, and is willing to receive delivery of the same, has received two-thirds of his normal annual requirements for the year ending March 31, 1919; provided, however, that orders of six tons or less may be filled in full.

"(E) Carload or bargeload lots shall not be delivered to a single domestic consumer or to a group of consumers except with the permission of the local fuel administrator.

"(F) Dealers shall file with the settled his first account. local fuel administrator on the first of each month a statement containing the names and addresses of consumers to whom deliveries have been made during the previous month and the quantity delivered to each.

"Any dealer or consumer who vio-lates the foregoing regulations will be subject to the penalties prescribed

"Such further regulations will be issued as may be necessary to enforce the essential features of the forego-

"The purpose of the plan is to secure the broadest and most equitable distribution possible during the coming year. The Fuel Administration is assured by the representatives of the National Retail Coal Merchants' Association that the retail dealers throughout the country will lend their hearty co-operation in the performance of this patriotic service.

Drastic Financial Regulations.

The Washington correspondent of the Baltimore Sun, "J. F. E.," says that Congress is expected to act, Consumers to be Required to File within a few days, on a general Federal control of all financial investments. In effect, it will license the use of all American money, and limit the financing of all enterprises, whether essential or non-essential to the prosecution of the war.

Favorable committee reports have been made upon still another measure the purpose of which is to grant com-plete price—fixing power not only over products but over raw materials generally. Such power has been found necessary by the experience of the past six months, if the Federal Food Administration is to deal designated with the witel problem of cisively with the vital problem of rationing America's allies, while at the same time providing for the generous provisioning of the people of

Unless all signs fail the first anniversary of America's entrance into the war will find the Federal Government the absolute dictator of every national resources which it requires to reinforce the armies in the field, the fleets upon the seas and the naand Government bonds. The railroads "(C) On and after April 1, 1918, no erson, firm, association or corporation shall sell or deliver coal to a dosestic consumer who does not first on the first prior to that date.

and Government bonds, the rathroads will have been merged into a single system and operated as such. And all raw materials needed for war purposes will be in the hands of the Prespiration.

This will mean that domestic business will be as completed dominated by the Government as is the foreign ousiness of the country under the War Trade Board. And it will mean that all the energies and interests of all the people will directly or indirectly concentrated to the single end of

Students for Farm Work.

The Frederick County Board of Education will furlough 40 students of the Agricultural Department of the high schools for the remainder of the school period and will credit them "(D) On and after April 1, 1918, in studies according to farm work efficiency. The plan was recommended dealer shall, unless authorized by the state of the farmers' Association because of the scarcity of labor. The Association asked to have all high school students and pupils of the public schools above the fifth grade released. Superintendent G. Lloyd Palmer will follow up the farm work of the stu-dents and apply it to their credit in the classroom.

a long list of helps and propositions that have unquestionably led to a very different average farmer business man-and now, he ought to be psychologically receptive to even such a strange investment as government

With a very large percentage of Carroll county farmers, the financial handicap no longer exists. As patriotic citizens they are not to be placed in the back rows. By intelligence, they must know the present needs of the government, and that the purchase of bonds does not mean a gift to Uncle Sam. They must know that the whole property and wealth of this country is back of a bond issued by the government, and even the most cautious financial training must tell them that the U.S. bond represents the best there is for sure repayment.

We trust that Carroll county farmers will come to the front, show their patriotism, as well as their ability to know a good thing when they see it, and buy bonds. They are not President Wilson's bonds, nor Kaiser bonds, nor gift bonds of any sort; but plain backed by Uncle Sam bonds, who needs, and must have, the money he wants, with which to help make a better, more peaceful, more worth living in, world.

A Gloomy Outlook.

It is now urged as the simple and likely unify his party. undeniable fact that the European Congressman Brodbeck, of Pennver hes advanced for crowth to show satisfactory peace terms, the United gument, as follows: States must do it. With the exception of taking Paris, the German forces have accomplished every single thing they tried to do, and they failed unexpected thing-committed nation- | sacrificed.

to send any more shoddy uniforms for American soldiers in France.

Forgot What He Needed.

From the Republican, Mt. Giliad, Ohio: The editor had an interesting experience some time ago, when a young gentleman came to this office and asked for a copy of the Morrow County Republican. He scrutinized it carefully when a copy was handed him, and then said: "Now I know!" "What is it you are looking for." "What is it you are looking for," we inquired. "My wife sent me after a bottle of Chamberlain's Cough Remedy, and I forgot the name. several stores and the clerks named over everything in the line on the shelf except 'Chamberlain's.' I'll try again, and I'll never go home without Chamberlain's Cough Remedy." The clerks, and never let them substitute. Customers lose faith in stores where substituting is permitted, to say nothing of the injustice to makers of good goods and the disappointment of

Hold Your Liberty Bonds.

One who subscribes for a Liberty Bond and gets credit as a patriot for doing so is not acting patriotically if is my aim, to have peace, and that be immediately sells that bond, that just as quickly as it can be had on a is, unless he imperatively needs the in Germany, is a decisive defeat of the German army itself.

The allies on the Western front have not been able to do this, after a long time trying it, and this is very long time trying it, and this is very long the defeat of basic that will guarantee our national honor and integrity, and that right and justice to all people, so admirably outlined by President Wilson, be accomplished, so that within our lifetime, or that of our children, we will not be does not help. does not help.

The same objection lies to exchanging Liberty Loan Bonds in trade. Merchants offering to take Liberty Loan Bonds in exchange for merchandise are doubtlessly actuated by patriotic motives, but such transtaken by the farmers of this counmuch as she pleases, and still hold Senators Lambast Hoover and Garfield ject of the bond sale, the encouraging actions tend to defeat a primary obof thrift and the discouraging of expenditures. Bonds so exchanged are in most cases immediately sold on the open market which tend to depress ly the sales of future issues.

Secretary McAdoo expressly states that there is no desire on the part of the Government to prevent or interfaith, in Liberty Bonds.

It is one of the great objects of the Treasury Department to have these bonds held as permanent investments submitted by the people and paid for out of savings, thus at once providing funds for the Government and conserving labor and material.

There are the soundest reasons for holding Liberty Bonds. Their quotations under par on the stock exchange means a loss only to those who sell. The financial history of the United States shows that in times of peace all of its bonds have gone above par, some as high as 139. The tremendous growth of our resources and of our trade, our domestic trade alone having increased from \$30,000,000,000 to \$64,000,000,000 in the last four years, warrants the belief that our Government bonds are the soundest investments in the world and with the restoration of peace conditions will command a handsome premium in the market.—Bureau of Publicity.

Bad Taste in Your Mouth.

When you have a bad taste in your mouth you may know your digestion is faulty. A dose of Chamberlain's Tablets will usually correct the disorder. They also cause a gentle movement of the bowels. Mrs. Frank Rowe, of Union Bridge, was a visitor at Mrs. Mary Rowe's,

last Sunday.

Mr. and Mrs. Frank Boone, of Beaverdam, were visitors at John Rowe's,

some time with her sister, Mrs. O. A. Gilbert, in Hagerstown.

Less Myers and wife spent Sunday in Baltimore.

There will be some changes in our neighborhood, this Spring. George Garver, on the Harry Haines farm

Mr. and Mrs. Frank Boone, of Beaverdam, were visitors at John Rowe's, on Sunday.

DIED.

Obtivaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

MR JACOB FROCK.

Mr. Jacob Frock died at his home, in Hagerstown, on Sunday, aged 52 years. His wife, Mrs. Minnie Frock, and eleven children, survive; Mrs. Belva Whitmore, Mrs. Iva Houck, Mrs. Eva Herbert; Murry, Leslie, Alvie, Mabel, Roy, Norvel and Helen, at home, and Maurice, in France. Funeral services and interment at Rocky Ridge, on Wednesday.

MR. FRANK CLINGAN.

Mr. Frank Clingan, son of Mrs. Sophia Clingan, died at her home on Emmitsburg St., early Monday morning, after an illness of only about three hours. His age was 43 years. He is survived by his mother, two brothers, Samuel, of near Taneytown; Motter, of Harrisburg, and one sister, Mrs. Emanuel Bair, of Taneytown. Funeral services were held in the Lutheran church, on Wednesday.

MR. ANTHONY W. SHERMAN. Mr. Anthony Wayne Sherman, son of Mrs. Ida S. Sentz, of Baltimore, and the late George M. Sherman, died at Bay View Hospital, Baltimore, at 4:15, Monday morning, March 11th, 1918, after a long illness of tuberculosis. His age was 41 years, 7 months, 21 days.

He is survived by his mother, three brothers and one sister, G. Henry, of Baltimore; Charles E., of Middleburg; Benjamin F., of Los Angeles, Cal., and Mrs. Chas. H. Smith, of Baltimore. He was a nephew of Mrs. James Buffington and the Misses Sherman, of this place.

Funeral services and interment at Rocky Ridge, on Wednesday morning. An unusual occurence was, that the funeral of Mr. Jacob Frock, of Hagerstown, a cousin of Mr. Sherman, was held at the same time, one sermon being preached.

A Calendar in Your Head.

Why buy a calendar if one can carry the whole thing in one's head? There are several ways in which one can figure out the day of the week apon which any day of the month will fall, but the majority of them require an amount of mental arithmetic that is beyond the powers of the man in a hurry, or the woman arranging for a

party.

Here is a simple calendar arranged by a memory expert. It consists of twelve words arranged as a rhyme. These twelve words are indexes for the twelve months, and they are three in a line, so as to make it easier to get at the months by taking them three

Time Flies Fast,

Men Wisely Say;
Men Think, Alas!
Time's Fooled Away.
The initials of these words give us the day of the week upon which the first of the month will fall in 1918, taking them in order. T stands for Tuesday, Th for Thursday. S is for Saturday and A for Sunday. M and W are for Monday and Wednesday

respectively. It is obvious that if one knows upon what day of the week the first day of any month will fall, one has only to add sevens to it to discover the dates of all similar days of the week in that month. If the 1st of August falls on a Thursday, the 8th, 15th, 22nd and 29th must all be Thursdays.

Now suppose you have committed this little rhyme to memory and wish to know upon what day of the week the Fourth of July will fall in 1918, July is the seventh month and the seventh word in our couplet, beginning the third line, is Mon. As M stands for Monday, the 1st of July must be a Monday, so the 4th will be a Thursday.

Let us suppose your birthday is March 23. As March is the third month the word is at the end of the first line, and the initial F shows that the 1st of March will be a Friday. If the following Fridays are the 8th, 15th and 22nd, your birthday will be on a Saturday in 1918. Suppose it is Christmas day you

are looking forward to. December is the last of the twelve months and the initial of the last word in our little rhyme is A, which stands for Sunday Then the Sundays in December will be the 1st, 8th, 15th and 22nd, and Christmas day will be three days after Sunday, or Wednesday.

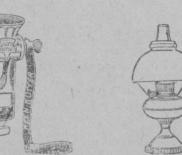

Simple Wash Removes Rings Under Eyes

Taneytown people will be surprised how quickly pure Lavoptik eye wash relieves blood shot eyes and dark rings. One young man who had eye trouble and very unsightly dark rings was relieved by ONE WASH with Lavoptik. His sister also removed a had eye strain in three days. A small bad eye strain in three days. A small bottle of Lavoptik is guaranteed to benefit EVERY CASE of weak, strained or inflamed eyes. Aluminum eye cup FREE. Robert S. McKinney, Druggist.

Do You If you do you are a judicious adver-Believe tiser and a good business man. Ju-

In Signs dicious advertising Always Pays and especially when you advertise in a paper that is read by everybody in its territory.

This newspaper reaches the eye of everybody who might be a possible buyer in this section.

Since the inauguration of wheatless days and the constant reminders from Government quarters of the necessity of conserving wheat and wheat flour many persons have been turning their attention to other flours, among them that produced from rye. It was the apparent view of many who did this that not only were they helping the Government and the boys "over there" but also that they were saving money

for themselves by the change.

It may be a shock to the average householder to learn that rye flour and rye bread is decided more expensive than that made of wheat, and is perhaps the most expensive grain now on the market. Rye is quoted in Bal-timore at \$2.80 a bushel, while the price at some of the Western points is said to be \$3 a bushel. This compares with a price of \$2.24 for wheat. The best wheat flour sells at \$11.50 and \$12 a barrel, while rye flour brings \$15.60 readily, with the supply scarce and the indications of a further rise

The price to which rye has soared is practically three times what it brought in the normal pre-war times. Then it sold around 90 cents a bushel, with a barrel of rye flour selling at \$4 and \$4.50 according to grade. From this 300 per-cent. advance in the price of both the grain and the flour it can be seen that the consumers are not practicing economy in seeking rye bread as a substitute for wheat As a matter of fact wheat flour is the cheapest now on the mark-

The Cost of Doing Business.

Perhaps it will be made clear if we put down, in a group way, the several classes of items which, aggregated, go to make up the cost of doing busi-

First. Interest on capital invested (say 6 per cent to 8 per cent).
Second. Rent (if you own the premises you occupy, charge as rent the sum another would pay if he occupied your premises instead of

Third. Freight on incoming goods (including packing, drayage, duty). Fourth. Salaries (including an ad-

equate one for yourself). Fifth. Fixed expense (insurance, light, fuel, taxes, water rates, tele-

phone, etc).
Sixth. Interest (on borrowed mon-

Seventh. Incidentals (stationery, postage, cleaning and all miscellaneous items).

Eighth. Delivery (including horse, wagon, stable, motorcar, garage, repairs, supplies, twine, paper, etc).

Ninth. Advertising (including all forms of publicity endeavor). Tenth. Losses (including bad debts,

shrinkage, spoilage, leakage, donations and subscriptions, thefts, etc). Eleventh. Depreciation (on furniture, fixtures, horse, car, premises,

These several classes of expenditure, when added, constitute the cost of doing business, but unless all items are charged the cost records are faulty.—American Grocer.

Johnny's Pa.

My pa-he always went to school, He says, an' studied hard, Wy when he's just as old as me He knew things by the yard! Arithmetic? He knew it all, But when he tells me how it was My grandma she says, "Hum!"

My pa-he always got the prize For never bein' late; An' when they studied joggerfy He knew 'bout ev'ry State. He said he knew the rivers an'

Knew all the outs an' ins, But when he tells me all o' that My grandma she just grims. My pa-he never missed a day A-goin' to school,

An' never played no hookey, nor Forgot the teacher's rule; An' ev'ry class he's ever in The rest he always led. My grandma, when pa talks that way, Just laughs an' shakes her head.

My grandma says 'at boys is boys, The same as pas is pas,
An' when I ast her what she means
She smiled an' looked at ma. The says 'at little boys is best When they grow up to men, Because they know how good they were And tell their children then.

Let's All Join in the Chorus.

Don't stop my paper, printer; Don't strike my name off yet; You know the times are stringent
And dollars hard to get; But tug a little harder Is what I mean to do,

And scrape enough together— Enough for me and you. I can't afford to drop it, And I find it doesn't pay To do without a paper,

However others may, I hate to ask my neighbors To give me theirs on loan; They don't just say, but mean it, "Why don't you have your own?"

You can't tell how we miss it, If it, by any fate, Should happen not to reach us, Or come a little late; Then all is a hubbub And things go all awry; And, printer, if you're married, You'll know the reason why.

The children want those stories, And wife is anxious, too, At first to glance it over And then to read it through;

And I read the editorials And scan the local views, And read the correspondence And every bit of news.

Some Guesswork. "This bit of literature hasn't any plot to speak of, but it's got me guess-

"Detective story, eh?" "Nope; time-table."-Louisville Courier-Journal.

Soldiers Much Safer Than in Civil War.

Surgeon-General Gorgas say: in

the March American Magazine:
"There seems to be an impression
in this country that to fight in the present war means almost sure death to a soldier. As a matter of fact, both in the danger from disease and in the deadliness of the actual fighting there is no comparison between the war in Europe today and our Civil

"'In the Civil War our mortality was something over five per cent for the four years. It is true that the French armies suffered almost exactly the same death losses during the first five months of this war. people must not forget that those first five months were the most dis-astrous period, especially for the Allies, who were unprepared in every

way.
"'By 1916 the French had reduced their mortality to only about two per cent for twelve months! That is a rate of only twenty per thousand. Even in civil life a rate of thirteen to fifteen per thousand is usual. There-fore it is evident that the additional

Slightly Passive.

swing, and during its progress a witness was cross-examined as to the habits and character of the defend-

"Has Mr. March a reputation for being abnormally lazy?" asked counsel briskly.

"Well, sir, it's this way-"Will you kindly answer the question asked?" struck in the irrascible lawyer.

"Well, sir, I was going to say it's this way. I don't want to do the gentleman in question any injustice, and I won't go so far as to say, sir, that he's lazy, exactly; but if it required any voluntary work on his part to digest his food—why, he'd die from lack of nourishment, sir!"

Washington is facing the proposition of housing thousands of persons who will locate there, during the year, in various war occupations. It is estimated that fully 15,000 persons nust be provided for before the end | plays. of this year. For some time, Balti-more hotels have been taking care of a large number of transient visitors to Washington, which has helped to make accommodations scarce in Baltimore, at times.

Shirt Factory Facts

Facts for the community to know about the Shirt Factory as it is the only indus-try in Taneytown employing women the year around. In November 1916 when I taken charge of the factory, there were 11 operators and the production was 35 dozen finished shirts are week

dozen finished shirts per week.
February 25, 1918, 23 operators, production 150 dozen finished shirts per

What Operators Earn.

steadily, tell the story: Operator No. 1, earnings for two weeks, Dec. 2, 1916, \$3.82; Feb. 25, 1918, \$17.44. Operator No. 2, Feb. 26, 1917, \$5.39; Feb. 25, 1918, \$16.70. These figures are results of the average for the first two weeks, and the average for the first two weeks, and what has been accomplished in one year by the same operator.

Moral Support Needed.

To obtain greater results, I ask the moral support of the community, especially the business people who are the direct beneficiaries, next to the operators. Every two weeks the pay roll is distributed through the town for groceries, bread, clothing, coal, etc. The factory is on a paying basis and don't ask for any financial help, put you can help to "boost if you wish to build up the town and your

A. F. REIS, The Sanitary Reduction Works, Hanover, Pa.

"OVER THERE"

Maryland's Great Liberty Loan Cantonment Opens March 30.

Baltimore.

For the Third Liberty Loan, Maryland's Liberty Loan Committee is making ambitious plans to the end that this patriotic movement may meet with unqualified success.

It is announced that the big drive will start on Saturday, April 6, but the committee, taking time by the forelock. will commence operations on March

In order to arouse general interest and enthusiasm, it has been arranged to present certain features of the war very graphically to everyone who visits Baltimore during the first weeks of the campaign. As the result of some months of careful planning and with the co-operation of the Government of the Dominion of Canada, and of various Allied War Agencies in the United States, arrangements have been made for a Liberty Loan Cantonment which will open in the Fifth Regiment Ar-A law suit was recently in full mory in Baltimore on Saturday, March 30.

CANADIAN WAR TROPHIES.

The Canadian exhibit has been collected as a nucleus for a permanent war museum for the Dominion. It includes many trophies which Canadian valor captured at Ypres, Courcellette and Vimp Ridge. Among these are German cannon, machine guns, bomb throwers, small arms, grenades, signal rockets, aeroplanes, parachutes, body armor, intrenching tools, periscopes and countless other appliances for attack and defense.

ARMY AND NAVY. Our own Army and Navy will be well represented by interesting exhibits. There will be demonstrations of the war work of the American Red Cross, Y. M. C. A., Y. W. C A, Knights of Columbus, Food and Fuel Administrations, etc., and other instructive dis-

FAMOUS BANDS.

There will be daily concerts by some of the most noted bands in the Union, including the Marine Band of Washing, and Lieut. Sousa's famous organization, the band of the Great Lakes Naval Training Station.

REMARKABLE NEW MOVING PIC-TURES.

There will also be exhibitions of thrilling moving pictures. It will be the aim of the Committee to make every day one of the special features. NOTED SPEAKERS.

For example, there will be Canadian Day, on which occasion the Dominion's most prominent statesmen will be present and discuss Canada's activities in this war.

On other days, distinguished mem-The average learner makes about 40c a bers of the Diplomatic Corps repreday when starting, a few figures from the senting our Allies in this country and pay roll of operators, who have worked on still other occasions leading Amer-

EACH TICKET.

Admission to the Armory can only be had by ticket. These tickets will be sold at 40c. each, but 25c. of this will be represented by a coupon which is to be retained by the purchaser and can be applied as a payment for that amount on a Liberty Loan. This makes the actual price of admission 15 cents.

Of course the majority of people will buy more than one ticket, but no matter what the amount of their purchase. each coupon will stand for 25 cents toward securing a bond; that is to say, one hundred tickets would represent \$25.00 and they may be cashed in for that amount as against the total purchase money on a Liberty Bond. Lesser amounts will be computed in the same way. For instance, a man holding two coupons and wishing to purchase a \$50 bond would bring to his bank \$49.50 and his coupons, which would be taken at their face value, or two coupons and 50 cents would be taken as first payment on a partial payment plan.

The Committee appreciates the fact that as a usual thing most Marylanders visit Baltimore in the spring; and it feels that those in the more distant portion of the state should time their spring shopping or business so that the date of their visit would occur during the progress of the Exhibition. It will well repay the journey from every conceivable standpoint.

NOTICE TO CREDITORS.

MUSKRAT FOR FOOD

The enormous numbers of carcasses of muskrats which are thrown away after the pelts have been removed is a waste of food. The muskrat is an animal of most cleanly habits, is most discriminating in choice of food, and is a very acceptable addition to the table.

The writer can speak from personal experience to the effect that when cooked as rabbits are cooked the meat of the muskrat is extremely palatable. As a matter of fact, muskrats are sold for food in some of the eastern markets and some hunting clubs in the East have animal banquets in which the muskrat forms the chief dish. In some places this animal is known as the "marsh rabbit."

It is to be hoped that this means of reducing the cost of living, although slight, may not be overlooked .- F. L. Washburn, Minnesota Experiment Station.

RAISING MORE BEEF CATTLE

Thousands of New Breeding Herds Being Established All Over Country With Better Stock.

It is a fact that there are thousands of new breeding herds being established all over the country. It is also a fact that farmers and small ranchmen are using more care in selecting the heifers and cows for these new

Fine Beef Specimen.

herds and the additions they are making to the herds they already have on their farms. Better quality has been preached from every hilltop in the

tural papers have not let up in their Use "Reis'" Bone Fertilizadvocacy of pure-bred cattle for the beef herds, and the voice has been

GRUBS INJURIOUS TO STOCK

Pests Found on Backs of Cattle Develop Into Heel Flies and Do Great Harm to Animals.

The characteristic lumps or swellings which may be found under the skin on the backs of many cattle from January to April contain grubs. If these grubs are allowed to remain, they will complete their growth, drop' to the ground and transform to heel flies, which may reinfest the cattle during the spring and summer. The grubs weaken the cattle, cause them to fall off in flesh and milk, and decrease the value of the hide. The beef in the immediate vicinity of a grub becomes slimy and of a greenish color. and is known to the butcher as "licked On an average the damage to beef." the hides is placed at one-third their value and the loss of beef to each infested animal ranges from \$3.00 to

ARRANGING RATION FOR COWS

Three Things Should Be Borne in Mind -Protein, a Little Fat and to Supply Succulence.

The ration for the dry cow should be formulated with three things in mind, namely, to furnish a sufficient amount of protein to develop the fetus properly and allow a surplus for the needs of the body of the cow; to supply enough carbohydrates that the cow may lay on a little fat; and to supply succulence. Some kind of green feed is very essential i the ration for the cow at all times. It serves the purpose of maintaining the bowels in a loose condition, which is necessary to good digestion and assimilation of

COMPOST HEAP IS ESSENTIAL

Leaves, Ashes and Other Refuse Matter Should Be Accumulated for Garden Soil.

With the existing high cost of ferthizers of all kinds it is important that every farmer have a compost heap where leaves, ashes and other refuse matter about the place can be accumulated for use on the garden soil.

No Need to Rub

Try Sloan's Liniment and see how quickly the swelling is reduced and the pain disappears. No need to rub; it penetrates quickly and brings relief. Have a bottle handy for rheumatic pains, neuralgia, back ache and all mus-

cle soreness. Generous sized bottles, at your druggist, 25c. 50c., \$1.00. PAIN

SUNDAY SCHOOL

Lesson 12.—First Quarter, March 24, 1918.

THE INTERNATIONAL SERIES

Lesson Text, Mark 6:32-44-Memory Verse, Mark 6:50-Golden Text, Matt. 20:28—Commentary Prepared by Rev. D. M. Stearns.

After they laid away the body of John the Baptist, and had told Jesus all that they had done and taught, our Lord said that they should come away from the crowd and rest awhile, for so many were coming and going they had no leisure even to eat (vss. 30-32). To those who long for rest he says, "I know thy works," and he also says, "Come unto me and I will give you rest" (Rev. 2:2; Matt. 11:28). Con- and in its power master the art of livtrast those who some day will have such a glorious rest and those who will never rest day nor night (Rev. 14:11, 13). It may be his will for some that they continue at work until absent

The two parts of today's lesson, feeding the multitudes and toiling in the night storm, simply and wonderfully set forth our present occupation as his followers, and present conditions till he come. The feeding of the five thoueach of the four gospels, the night of life. storm is found in all but Luke. When across the sea, they ran afoot and outwent them, and came together unto him. When he saw the multitudes he was moved with compassion for these shepherdless sheep and began to teach them many things (vss. 33, 34). It was gone up into a mountain with his disciples, but the multitudes followed him the running over of peace. because they saw his miracles on them that were diseased; so he healed their sick as well as taught them (John 6:1-4; Matt. 14:14). In Luke 9:11 it is written that he spake unto them of the Kingdom of God and healed them that had need of healing. Always note the association of his healing with his teaching concerning the Kingdom (Matt. 4:23). As the day wore away. and the evening came, the disciples became a little concerned about the muititudes having nothing to eat, and so they asked the Lord to send them away Ninto the villages to buy bread (vss. 35 6). How great must have been their surprise when he said: "They need not depart, give ye them to cat" (vs.

Here we need to notice John 6:5-9. and the suggestion of Philip and Andrew; the one saying how each one might have a little if— and the other apologizing for speaking of a lad who had five barley loaves and two small fishes. The Lord's suggestion, or rather command, was simply an impossibility, as they saw it. How they failed in flying all about him. He has no actheir knowledge of him, and seemed quaintances in England. He hasn't a not to recognize in him the one who relative in the world. He was just had fed all Israel for forty years with hungering for some one to talk to bread from heaven. Do we know him when he saw the American. He reany better now? Commanding them to bring to him the boy's loaves and fishes, and make the multitudes sit down by hundreds and fifties upon the green grass, for there was much grass in the place, he took the loaves and fishes and, looking up to heaven, he gave thanks and blessed them, and gave them to the disciples, and through them to the multitude. They did all eat and were filled, and twelve baskets full of fragments of the loaves and fishes were gathered, for he had said, "Gather up the fragments that remain that nothing be lost." Thus 5,000 men, besides women and children, were abundantly fed (vss. 41-44 and the other gospels).

37: Matt. 15:16)

Multitudes are perishing today for lack of the Bread of Life, the Living Frend from Heaven, and he is saying all who have it, "Give ye them to eat." More than half of the people on earth have never yet had a taste of the Bread of Life, while those who have tasted and hungered for more are too often given stones instead of bread. He is saying, "Eat ye that which is good and let your soul delight itself in fatness." "Eat, O friends; drink, yea, drink abundantly, O beloved" (Isa. 55:2; Song of Solomon 5:1); but where are the disciples who are ready to receive the bread at his hands and pass it on to the hungry? He received from his Father all that he passed on to others, as he said, "I have given unto them the words which thou gavest me" (John 17:8; 12:49, 50). Only that which we receive from him is worth . It was a British-Russian alliance to passing on, for all else is naught but the thoughts and opinions of men. His | Persia from the west by way of Turkey cry still is, "Whom shall I send, and and the Berlin-Bagdad line. Under who will go for us?" There is no use the Queensberry rules of imperialism saying "Here am I, send me" (Isa. 6.8) It was a fair stroke, with plenty of unless we are willing as his sent ones | historical precedent, says the Boston to carry only his message (Ex. 4:12; Globe. Jer. 1:7-9; Hag. 1:13).

He sent the multitudes away in peace, but constrained his disciples, who were evidently unwilling to leave him, to return by boat to the other side, to Bethsaida, while he departed into a mountain alone to pray (vss. 45, 46). The wind was against them, and evidently a strong wind, for they were tossed with the waves and were toiling hard at the oars, and this continued till near morning, the fourth watch, when he came to them, walking on the sea (vss. 47,48). He saw it all, but did not come to them till the morning. How suggestive it all is of his true disciples now. He is at the right hand of the Father making intercession for us, and we are in the world's night contending with winds and waves.

The Art of Living With Others. March 17th 1 Peter 3:8-16

The art of living with others is acquired as soon as the grace to live for others is attained. This is the greatest of all graces and its name is Love. Its worth and value are such that a whole chapter in our Bible is devoted to its elucidation. (See 1 Cor. 13.)

All the good qualities presented by Peter in our Scripture Lesson are compatible and campionable with love. The unity, compassion, pity and courtesy of verse 8 are natural to love, while the "evil for evil" and "railing for railing" of verse 9 are utterly foreign to love, as also is the evil and guile of verse 10.

Sins of the tongue are in view in these two verses and these sins are most common. Criticism and unkind words about others spoils many a day and many a life. And the desire to "get back at 'em" so strong in the natural man that nothing but love, regnant in the life, will suffice to turn

the threatened defeat into victory. Now love is "the fruit of the Spirit." You cannot work up a feeling of love ing with others. Love is not a work but a fruit—the product of life—"the spirit of life in Christ Jesus." He lived in the midst of unlovely people and loved them. We too, in the power of His indwelling, can do the same from the body or caught up to meet Such a Scripture as Ephesians 3:17 him in the air. tery of this art; indeed it is the very essence of the whole matter. master the truth of this verse is to

master the art of living with others.

Returning now to our Lesson, would it not be wise to underscore the last he come. The feeding of the five thousand is the only miracle recorded in them as a worthy objective—a goal

There are many discords, clashes the multitudes saw them departing and jars easily avoidable if we "seek across the sea, they ran afoot and out peace and pursue it." The story is told of a man who carried in his pocket a little oil can. Whenever a squeaky door or noisy wheel was encountered, out came the oil can, and the noise was eliminated or reduced In some such way we too, in the realm nearly passover time and Jesus and of the inner life, "can seek peace and pursue it." The oil of joy is simply

ANOTHER SAD SIDE OF WAR

Many Men Wilo Have Won Honors Have Lost Comrades and Feel Lack of Companionship.

An American was sitting in Simpson's restaurant recently having dinner when a hardy man in Canadfan uniform started to converse with him. The Canadian was working in a large automobile factory in Windsor when the war started, but enlisted in a Canadian regiment and has been in five of the worst battles of the war. Hardly a handful of the men who started with him are still on the roster. This particular soldier was about to leave for the trenches again after completing his leave. There was nothing remarkable in that, but this is his

Inside his coat he wore the Victoria Cross. He got it at Ypres, where he carried a captain three hundred feet through No Man's Land with bullets luctantly showed his decoration, and said it would give him great happiness if he had some one somewhere in the world who was close enough to him to slap him on the back and say, "Good, old chap!"

Still he wasn't maudlin about it. He was just one of thousands who are carrying honors around with them and have no relative or intimate friend to congratulate them. It's war. This particular soldier said as he

left X-: "If I ever get through I'm going back to the States, but the odds are against me. We can't always beat this fighting game. It's like roulette. It gets you in the long run. There is only one man of my original company left besides myself."-London Mail.

TO RESTORE PERSIA'S STATUS

Russian Bolshevik Authorities Announce Intention of Giving It Its Former Independence.

A little more than ten years ago, in 1907, Persia ceased to be a sovereign nation in anything but name and was resolved into twin "spheres of influence." The northern half was a Russian sphere, the southern half British. The pressure from north and south grew until it forced out the American, Morgan Shuster, who had come to put Persia on its financial feet.

That was an incident of imperialism. block off Germany from getting into

Now the foreign minister of a Russian government that has no regard for imperialism and its rules has sent word to Persia that the 1907 agreement is all off, null and void, and that Russia will now try to relieve her of Turkish and British troops, too.

In announcing this doctrine of Persia for the Persians, and putting it into practice, the Russian bolshevik government immeasurably strengthened the position it took at Brest-Litovsk and at Petrograd in demanding

liberation for all subject nationalities. It is fair to say that the British ministry to-day would be slow to apply the mailed fist of imperialism as in Persia in 1907. Much water has flowed under the bridges since, and the imperialistic tide is ebbing fast.

WHY ====

The Soldier Must Have An Emergency Ration

MERICAN MEDICINE comments on the soldier's ration, and more particularly on the emergency ration of hardtack and sweet chocolate suggested by Doctor Vedder. It weighs only one pound, but gives the soldier the proper amount of food on which to carry on the work required of him. The writer says:

"The problem of rationing the soldier is of the utmost importance, not merely for the purpose of preserving his physical health, but of conserving his military effectiveness. Regardless of what the civil population subsists upon, the rationing of the soldier must not be reduced so as to curtail the food requirements.

"It oftentimes becomes necessary to send in advance scouting parties for whom adequate food supplies cannot be prepared to be carried by them. To meet such military exigencies an emer-

gency ration is essential. "As Vedder has pointed out in the Military Surgeon, an emergency ration must be balanced and possess a reasonable energy value and tissue-building power. Palatability must not be sacrificed. Its bulk must be minimal in order to prevent the ration from serving as a drag upon the soldier, already weighed down by his essential military appurtenances. The food must be of such a character that it will not readily deteriorate, while at the same time it must be cheap and readily purchasable.

"Vedder has suggested as an emergency ration ten ounces of hardtack and six ounces of sweet chocolate. The total weight of the ration is one pound, while it supplies approximately 2,100 calories, of which 180 calories arise from protein sources.

"A man resting in bed requires 1,800 calories per day to satisfy the normal heat and energy requirements of bodily function. According to Chittenden, on a low protein diet, 250 calories from protein are provided with a total of 2,854 calories for the 24 hours. The haversack ration as at present constituted supplies approximately 4,500 calories per day, with 460 calories arising from protein elements. This ration naturally provides the due and proper amount indicated for soldiers engaged in hard work.

"The emergency ration suggested is not liberal in character, and, in fact, materially reduces the total food required for the soldier, but this is merely for emergency purposes, and should not actually interfere to a great extent with the physical health of the consumer, provided that it is utilized merely in emergencies. It is patent that the bulk is not excessive, and that the foods suggested are cheap, generally available, palatable and resistant to deterioration."

BASKET-NET FOR FISHERMAN

How Angler Can Catch Minnows and Small Fish for Bait.

Perhaps the greatest difficulty that amateur lisherman encounters on his expeditions is the securing of live bait. But if he has included in his equipment a basket net he can catch minnows and small fish in any stream.

The frame of the net is made from six tempered spring steel rods. To this the netting is attached with rustproof ring clips. In the center of the netting is the bait pocket, in which bread, meat or other balt is placed to attract the minnows. When the netwis lifted, the weight of the contents causes it to "bag," so that the minnows will not escape over the

When the net snags or when, for some other reason, it is subjected to extraordinary strain, the six tempered steel rods bend inward and downward until all but one of the rings by which the net is attached to the frame slip out of the hooks. This collapsing of the frame frees the net from the snag and releases the strain. The inventor claims, however, that the net will not collapse except under extraordinary strain, which if resisted would damage the net. It folds up into a compact little bundle which is scarcely noticeable among the fisherman's "traps."

Why Girl Messengers Are Failures. With one or two exceptions, girls who have tried lately to replace messenger boys in New York have failed. Too much walking, too many display windows and the inability to stand the gibes of messengers of the other sex, and dislike of a uniform are the stumbling blocks which have thinned the ranks. Because of a dearth of boys due to school starting and calls to "higher up" jobs, the telegraph companies advertised for girls. They wanted "girls over 16 for light work, steady employment." Many girls who didn't know what they were getting into answered. One office was able to persuade three to go to work, and another got five. After the first day there was one girl left in each office. Too much strain of walking all day and the taunts of boys working with them took the others. The employers of girl messengers are not discouraged, however, and believe by elimination they may finally get a good working force.

How to Make a Furniture Polish. A good furniture polish.—Equal quantities of common wax, white wax and white soap in the proportion of one ounce of each to a pint of water. Cut the ingredients fine and dissolve over a fire until well mingled. Bottle and label.

@onononononononononononono SILLY RUMORS GAIN CURRENCY.

Who starts the silly rumors? Dr. Charles A Mercier, the celebrated brain specialist, asks the question in a prominent London daily and then proceeds to evolve his own answer. He does it something like this:

"Shakespeare has spoken of rumor as necessarily false.

"'Rumor is a pipe Blown by surmises, jealousies, conjectures;

And of so easy and so plain a That the blunt monster with un-

counted heads, The still discordant multitude,

Can play upon it.' "'Bazaar rumor' is a common term in India," says Doctor Mercier, "and bazaar rumors are sometimes true, Indeed, there are fairly well authenticated instances of rumors of important events being communicated with incredible speed to very great

sometimes been true in material particulars. "Thus it is said that the outbreak of the Indian mutiny was current as a 'bazaar rumor' days before the news could have traveled by any means then known in distant parts of In-

distances, both in India and in

Africa; and these rumors,

though usually vague, have

"Falsity is not a cardinal feature of rumor.

"It never originates in a newspaper, even in a paragraph communicated 'with all reserve.' "Rumor is very generally be-

lieved.

"A wish, a hope, a forecast, a probability, a supposition on some subject of intense and universal interest is expressed and, perhaps, imperfectly heard. The "A wish, a hope, a forecast, a perhaps, imperfectly heard. The gist of the matter makes an impression so strong as to swamp the preparatory phrase. It is repeated from mouth to mouth with increasing assurance and lessening diffidence. Its interest is so intense that everyone who hears it is eager to repeat it and cannot wait to be sure that he has got the story right, and so

the rumor spreads."

Doctor Mercier adds that "Dame Rumor" should be a subject of psychological study.

WEDDINGS ON SHORT NOTICE

Kononononononononononon

How Missionaries in the Early Days Obtained Their Wives.

There is a touch of comedy about the businesslike way in which several of the early missionaries went to work to obtain wives before they left the shores of New England, writes the Rev. Francis E. Clark in Youth's Companion. The call to go to Hawaii was somewhat sudden and imperative. As a rule, only one vessel that would take passengers sailed in the course of a year for Honolulu, and of course it went by the way of Cape Horn. Often not more than a few days or weeks elapsed between the decision of the young theologian to accept the commission of the American board and the sailing of the packet ship. But the rule of the board was that the applicants must be married before they sailed for the field. Ay, there was the rub, for in many cases they had not decided whom to ask to be their brides.

But the time and tide would not wait for a long courtship, and so brothers or cousins or roommates were asked to intercede with eligible maidens, whom perhaps the prospective bridegrooms had never seen. It is even said that the young theologians haunted "female seminaries." and that the good, pretty and pious girls were lined up for their inspection.

Although this may be an exaggeration, it is certain that several of the brides who in the early days went with their missionary husbands to Hawaii were wooed by proxy, at least during the preliminary stages of the wooing. It should be added that, so far as is known, all those marriages turned out most happily, both for the young couples and for the work in which they were engaged. Their high purpose, their common sacrifice and their great mission in life drew them close together. .

Why Colors Are Associated With Various Characteristics.

The association of colors with mental and moral characteristics is a matter of imagination, although the symbolism is psychologically sound and is founded on easily traced analogies. Black is associated with crime because black represents darkness, which widely serves as a cover for crime and is also representative of ignorance, which is the real cause of crime. White stands for purity because it represents light, or enlightenment, and also, perhaps, because it represents cleanness time lost looking into windows, the and freedom from blemish. And it is easy to see why red should represent courage, because it is the color of blood and may be taken to signify vitality. Also a courageous man is supposed to be willing to shed his blood, if necessary, in the defense of right and justice.

How to Remove Egg Stains.

Egg stains on table linen should be soaked in cold water before being sent to the laundry. The stains come out quite easily if treated in this way; but hot water "sets" them, and makes them difficult to remove.

How Does a Soldier Feel in a Life-and-Death Crisis?

He was caught-like a rat in a trap-with only one chance in a million of

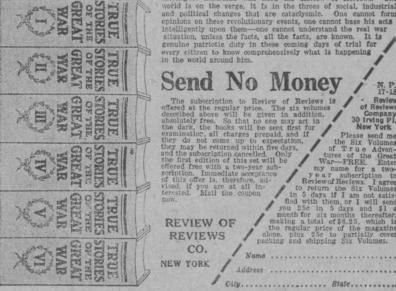

He was caught—like a rat in a trap—with only one chance in a million of coming out alive. He thought of—
What does a soldier think of in a life-and-death crisis? How does he feel? What does he do? What is the millionth chance that he takes to escape? While trembling and hot from the experiences they have gone through, over two hundred men—airmen, trench raiders, submarine commanders, grenade throwers—have told what they saw, heard and felt. To read these stories of personal adventure is to get an entirely new viewpoint of the war.

Profits and High-priced Feed.

Many of those thinking of engaging in poultry keeping are deterred by the high price of feed. As they cannot figure a profit on poultry raised on grain costing around \$5 a hundred pounds, they conclude that as long as such prices last poultry cannot be raised at a profit. That is true in regard to many cases were a profit could be made with feed at lower prices, but in many more cases poultry will pay even if feed prices should go

much higher than now. Most of the poultry produced in the United States comes from general farms where the birds live largely on wastes that would not be used at all if the poultry did not eat them. As long as a farmer does not feed any considerable quantity of salable grain not directly affect his profits from poultry. Indirectly, high prices of feed—tending to curtail production among those who buy most of their poultry feed—benefit the farmer by raising prices of poultry and eggs in

the general markets. When feed prices are high small backyard flocks can usually be kept at a profit by feeding as much waste as can be obtained, striving for the best possible egg production, and selling eggs direct to the trade that pays the best price. The same methods may also enable a specialist in market-egg production with a large flock to keep his plant running when with less efficient methods he would be forced to discontinue.

Growers of standard-bred poultry for breeding and exhibition purposes can usually operate no matter how high the prices of feed may go. If their profits are much lower than normal under such conditions, they know that eventually either prices of feed will come down or prices on highclass stock and eggs will go up, and in the long run their profits under different conditions will be equalized. -Dep't Agriculture.

Red Cross Work.

Interminable folds of gauze For those whom we never shall see-Remember, when your fingers pause, That every drop of blood to stain This whiteness falls for you and me Part of the price that keeps us free To serve our own, that keeps us clean From shame that other women know— O saviour we have never seen,

Forgive us that we are so slow! God! if that blood should cry in vain And we have left our moment go! AMELIA JOSEPHINE BURR.

Made-to-Measure Service of the highest efficiency, quick, prompt and reliable, and in every sense of the word

Dependable and Satisfying

We received this week, New Patterns of

Dress Gingham, Percal, Men's Shirting.

OUR FLOORCOVERING DEPARTMENT

has several pieces of

Linoleum, Carpet, and Matting

at prices much less than same goods will cost this Spring.

Just a Word-Mr. Farmer of interest to both of us!

We are glad you are getting such fine returns for your milk at the creamery. Keep right on taking it there—as much of it as possible. Don't forget, however, to bring us your Eggs, Poultry, Calves and Skins-all that you have to sell. Our business is big but we are out for more and better busisess all week long the year 'round. You can help us, to it—and incidentally line your purse with plenty of the stuff so much needed these days of soaring prices. We are as much interested in seeing that you get all that's coming to you as we are in building up our own trade. That's why our prices are the very fairest and highest. That's why you should sell to—
