VOL. 26.

TANEYTOWN, MARYLAND. FRIDAY, MARCH 5, 1920.

No. 36

THE HAVRE DE GRACE-TANEY-TOWN RAILROAD BILL.

An Old Project Renewed, that Interests Baltimore City.

Taneytown will not become excited over the prospects of the building of a Havre de Grace and Taneytown railroad, even though such a Company was incorporated in 1918, and endeavored to secure a charter from the legislature of 1918, but failed; and now seeks a charter, again, with enlarged powers, from the present legislature.

Baltimore city influences will likely be arranged against granting such a charter, for fear that the Pennsylvania R. R. may be interested, and would use the franchise to construct a "cut off" around the city for its through traffic. Baltimore likes to complain of the "smoke nuisance" because of the great use of the tun-nel under the city, yet stands in the way of the Company going around the city, which is an apparently unreasonable position, especially as it is an admitted fact that the tunnels are congested with traffic, and that relief is imperatively needed by the Company within a short time. The new bill was introduced in the Senate Senator Stifler, of Harford, and

in the House by Delegate Cobourn.

The Havre de Grace and Taneytown Electric Road was incorporated in 1918 under the general State law. The route as given in the incorporation was from Havre de Grace to a point on the Gunpowder Falls, through Eleventh and Ninth districts, Baltimore county, north of Towson, thence through the Third to the Second district, to the North Branch of the Patapsco, following the North Branch to Keyser's run, thence to Finksburg in Carroll county; through Westminster to Taneytown.

Recounting this, the Stifler bill then provides that in addition to the powers granted under the general law, the company shall have others. These include the right to "construct and operate all lateral tracks, turnouts,' etc.,' and the right to build the road on the surface or elevated or un-derground. Section 2 reads: That the said corporation shall have perpetual existence and shall be authorized to use electricity or any other

The board of directors named in the bill is composed of J. Frank Foster, C. Stanley Stirling, Gabriel Du-Val, George O. Blome and James P.

Section 5 provides that the corpora-tion shall have "the power to unite, connect and consolidate with any railroad company or companies, either in or out of this State, so that the capital stock of the company or companies so united, connected and consolidated respectively may at the pleasure of the directors constitute one company and be entitled to all the property, franchises, rights, privand immunities which each of them possess, have and enjoy under and by virtue of their respective

The corporation is given the power "to lease or purchase and operate any railroad in or out of the State for the purpose of carrying on their business." Then comes this grant. Then comes this grant: That the said board of directors of the said corporation shall have the power and rigths to adopt any route or routes for said railroad company between termini mentioned in their charter as to them shall seem most

suitable and proper. Mr. Cobourn, who introduced the bill in the House, stated that it was a bona fide project to connect the upper section of the State east of the Blue Ridge Mountains and that there was no "snake" in it. He said the projectors proposed to get electric current for operating from the Mc-Call's Ferry dam, which supplies part of the current used by the United Railways Company in Baltimore.

Taneytown has had a "new railroad" to talk about, periodically, for the last forty years. For a long while it was the Washington-Gettysburg road, that was warmly debated, with fears expressed that Taneytown would not be "in it," and all sorts of arguments were indulged in as to routes and rights of way, advantages, damages, and the like. The subject came up every few years, with variations; preliminary surveys were made, stock subscriptions solicited, and at times the project would seem to be real "warm;" but eventually the W. & G. dropped out of sight.

The last survey was the "LeGore" survey that came up the Westminster road, ran through the lands north of the road, and connected with the N. C. R., about where the cannery is now located. A number of "rights of way" were secured, and for a time there was "much talk." This was eight or ten years ago, and the topic has since taken a rest for a longer time than usual.

"Spending by Farmers Amazing."

A news dispatch to the Philadelphia Ledger from Chicago says: "Rural prosperity is bewildering, and spending by farmers is amazing. There could be no better illustration than that the sales of- (a well known mail order house) totaled approximately \$28,250,000 last month, or 771/4 % more than a year ago. Actual sales in the last two months were \$57,700,000 an increase of almost

This firm sells almost exclusively by catalogue securing its orders by mail almost entirely from rural sections throughout the whole country. | least \$90,000 in the harvest.

WILSON'S LAST YEAR.

Each Day Counting from his Last 365 as President.

Woodrow Wilson appears to have been President for a long period— much longer than seven years. Perhaps it is because he has had the most eventful term of any President since Lincoln, and perhaps because he has added so many new acts and prerogatives to the office, and now that he is entering upon the home-stretch of the last year, the country can hardly

realize it. There was a time that the end of his second term did not stand for the end of his occupancy of the White House, but it does now. Whether this is because of his recent illness, or because of his course during the war, matters but little. The fact is as nearly assured as a fact can be, that within less than one year, another man will be President of the United

The probability is that Mr. Wilson will welcome the end of his term—especially now. There is hardly any question that he feels differently about a third term, now, than he did two years ago, if he even then seriously contemplated it. A men must tire of contemplated it. A man must tire of leadership and responsibility, especially when it is accompanied by the tremendous burden of such events as have occurred during his second term. Official life of this strenuosity is killing, and almost entirely devoid of pleasure periods; and the more especially so to a man of the President's temperament—to a man who has so clearly demonstrated his desire to personally assume entire generalship, and to discourage interference, or advice. He has unquestionably helped to make for himself a burden not meant for any man to bear—and especially not a President of the United

A Remarkable Public Sale.

The sale of personal property, stock implements and household goods, of Wm. M. Ohler, Jr., held on Monday, was the greatest public sale of the kind ever held in Taneytown district, especially in point of attendance, and prices paid. There may be sales held later, that will amount to more money, but hardly any to equal it in everyway. The crowd was estimated at from 5000 to 7000. The people came from miles and miles in every di-rection, many very early in the morn-ing, and teams and automobiles by the hundreds were packed at every available spot, some of them nearly a mile away, until late in the evening.

The sale totaled nearly \$7000.00.

Prices, generally, were skywardsome of them very remarkable, to put it mildly. All of the cows, the tractor, and a large number of other items, were bought by a Mr. Goldsmith, of Baltimore, who recently bought the Baker farm, his bill amounting to about \$3000.00.

Although two auctioneers and four clerks were employed in the after-noon, all of the goods could not be sold—chiefly .household effects—and these will be sold later, in town. The two auctioneers sold at the same time one at the house, the other at the

State Grown Trees for Planting.

With the approach of spring the topic of trees is frequently discuss-ed. There will be more forest and roadside planting this year than ever before according to present indica-

Many inquiries have been received by the State Board of Forestry, 815 Calvert Building, Baltimore, by those who want to plant memorial trees, by others who are anxious to plant rows of trees for windbreaks to temper the cold west and northwest winds, and many other shade trees along the roadways. A few are making arrangements to plant some of their or waste land in forest trees. Whatever the needs the State Board of Forestry is ready to help in advice regarding the selection of trees and method of planting, and in furnish-

ing the trees at actual cost. The trees range in size and price from 4 inch pines at less than halfcent apiece, up to pines 7 feet tall at 50 cents apiece, and from oak transplants from 10 inches at 2 cents apiece to ash and elm trees 15 feet tall at 65 cents each. Between these extremes are trees of many varieties and sizes selected because of their suitability for the different soils and the different purposes of throughout the State of Maryland. They include two kinds of pine. Norway Spruce, Cypress, three kinds of oak, ash, elm, black walnut, two kinds of maple, pecan, oriental blane, two kinds of locust, ginko and other trees suitable for forest or roadside plant-

The State Nursery has proven to be one of the most popular branches of the Forestry Department and has done much toward promoting tree planting throughout the State. Since establishing the nursery the demand for State grown stock has exceeded the supply, necessitating extensions at two different times. Some stocks are low but the policy of "first come first served" will prevail while they

The Baltimore and Ohio Railroad ice harvest on Mountain Lake has ended with a total shipment of 383 cars to various ice houses on the system. Last year, the Baltimore and Ohio paid \$10 a ton for ice and hauled it to the various ice houses. This was largely the manufactured product. This year it cost \$1.00 a ton and the company has saved at

PRODUCTION REDUCED AND LABOR IS HIGHER.

No Cut Likely in Farm Food Prices. Many Leaving the Farms.

Warning that serious risk of reduced food production impends because of high wages demanded by farm laborers, high cost of farm equipment and supplies and pronounced movements of people from the farms to the cities was given by the Department of Agriculture on the basis of reports and letters from all

sections of the country.
"The most definite of these reports come from New York State," the department's announcements said,"where records of the population on 3,775 representative farms on Feb. 1, this year, and Feb. 1, a year ago, were made by Federal and State workers. It was disclosed that during the past year the number of people on these farms decreased nearly 3%, and the number of hired men decreased more than 17%. If the same ratio holds for all farms in the State about 35,000 men and boys left farming to go into other industries, while only about 11,000 have changed from other industries to farming. This is a more rapid movement from the farms to other industries than took place in the early part of the war.

"The same conditions in varying degrees exist in all sections, according to the Federal Bureau of Crop Estimates, although they are not so

"Another New York report, applicable in some degree in every part of the country, is that farm wages this year will average 14% higher than they were in 1919, although in 1919 they were 80% higher than they were at the beginning of the war. were at the beginning of the war. Estimates from 350 farmers in all parts of New York indicate that experienced farm help, hired by the month, will be paid this year about \$52 a month and board, as compared with \$45.50 last year. Experienced married men, not boarded but provided with a house and farm products are expected to receive on the ducts, are expected to receive on the average about \$68.50 a month in cash, as compared with \$60 last year.

"Numerous letters to the Department of Agriculture from its field workers or from farmers indicate a widespread disposition to cut down plantings so that the work of cultivating can be attended to by the farmer himself or by members of his family. The assertions that farmers cannot pay the high wages demanded in competition with other industries and make a profit on their products is frequently made. Many farmers also declare it is unfair to them to be under the necessity of working 10, 12 or more hours a day when the tendency in other industries is toward a shorter working day and a decreased output."

Proceedings of the Orphans' Court.

THE RAILROADS TURNED BACK Government Operation Defended Not-withstanding Cost.

The President signed the Railroad bill, on Saturday night, and on Sunday night, at midnight, the lines went back to their own control. The properties go back, showing a loss under government operation for 26 months, of \$715,500,000. Director Hines defends the loss by claiming that government operation has cost the public less than the cost would have been under private operation, and that it made possible war transportation that could not have otherwise been made. He denies that the return has been made in a greatly crippled physical condition of the properties.

The Government bought for the roads a total of 100,000 freight cars, and 1,930 locomotives. While this is below normal purchases for a like period, it was explained that physical inability to obtain equipment because of the exigencies of war was the only reason the normal purchases were not

The railroads will go back to private control with important wage demands pending, but the same conditions obtained when the Government assumed direction, Mr. Hines pointed out, adding that machinery will be set up either through the Railroad bill or through bipartisan and voluntary action to adjust differences. The whole question of rates of pay will then be reviewed, he said, in the light of existing conditions and based on the just needs of the employes.

This now from 16 to 24 inches, and resi- notice is especially for out-of-town dents along the river are fearing a customers whom we may not get to

LEGISLATURE NOW COMING TO IMPORTANT BILLS.

Prohibition and Roads Soon to be Acted Upon.

In the Maryland legislature the liquor question has been prominent, this week. Joint resolutions were pre-sented urging the recall of the vote of two years ago on the Volstead act, and to instruct the Attorney General to join other states in protesting the validity of the act. Both wet and dry leaders and delegations have been active lobbying for their respective

A bill increasing the marriage license fee from \$1.00 to \$2.00 passed the Senate.

A bill has been presented in the House taxing furniture in excess of \$100.00, for local purposes. The bill removes the present exemption of \$500.00.

The soldiers' bonus bill, now pending, which involves an expenditure of \$9,000,000, came to the front in the shape of hearing before the Finance Committee of Senate and House. The argument was made that action was needed, now, and that Congress would not act on a like measure until after

the Presidential election. Governor Ritchie signed several bills Tuesday including the one providing for the merit system. All the others were local measures including the water loan for Cumberland and the municipal light plant loan for

Hagerstown.
Considerable opposition from the counties developed against the road bill, this week. Apparently the chief objection hinged on the mandatory feature of the bill, compelling all counties to issue their share of bonds, irrespective of the financial ability of each county; also, that the counties could build their own roads cheaper.

Rabbits Killed by Thousands.

Considering the fact that Maryland laws protect rabbits, and throw all sorts of restrictions about their killing and sale, the following article

seems decidedly—queer:
"Idaho has conducted rabbit drives in recent weeks, on as big a scale as when the country was new. Because the cold weather brought the rabbits by the thousands to feed in the irrigated lands, they threatened to do extraordinary damage in some sections. One drive netted over 8,000 rabbits and another 3,500. In Minidoka Co., Idaho, 29,000 jack rabbits have been killed this winter in organized drives and 60,000 additional by poisoning campaigns. Once school was dismissed to permit the boys to take part. Four hundred people participated. Six rabbit drives in Lincoln Co.,, Idaho, resulted in killing 1,800 bunnies. Each event took on the R. Plummer, 4 tracts, for \$10.00.

Mary R. Plummer and husband, to
David H. Stem and wife, 2 lots, for
Sandwiches and coffee were served.

In Walla Walla County, Wash. 11 000 rabbits were killed by 600 sportsmen armed with shotguns. They formed a line 5 miles long and drove the animals to the point where the Snake and Columbia Rivers unite.

Local representatives of the United States Department of Agriculture have directed the work or have co-operated with the local county agent or other authority."-U. S. Dept. Agriculture.

Reduced Food Supply Theratened.

Washington, Feb. 24.-The farm population has decreased 3% in the last year in some States and available farm labor has decreased 17%, ac cording to estimates by the Federal Department of Agriculture.

Reduced food production is threat-ened because of the labor shortage, the high cost of implements and supplies and the movement from farming communities to the cities, the Department warns in its latest statement.

Investigations concluded February indicate a considerable increase in farm wages for 1920, although the wages in 1919 were in many cases 80% higher than before the war.

Of the tendency to avoid a heavy farm payroll, the Department's statement says: "Numerous letters to the Depart

ment of Agriculture from its field workers or from farmers indicate a widespread disposition to cut down plantings, so that the work of cultivating can be attended to by the farmer himself or by members of his fam-The assertion that farmers cannot pay the high wages demanded in competition with other industries and make a profit on their products is frequently made. Many farmers also declare it is unfair to them to be under the necessity of working 10, 12 or more hours a day, when the tendency in other industries is toward a shorter working day and a decreased output."—Balt. Sun.

A Very Brief Will.

was filed in the Orphans' Court, Baltimore, on Monday. It was that of George Weller, who wrote it as fol-

"Baltimore, Dec. 5, 1907.—I hereby give all I possess to my wife, Emma." see fit to select me as their choice, I This was all, except his signature, and the signatures of two witnesses, preciation." as required by law.

The Lincoln Trust Company, the fourth bank for Gettysburg, was organized, last week, with a capital stock of \$150,000, nearly all of which has already been subscribed.

OUR SOLDIERS' DEAD IN EUROPE May Take Five Years Before all Are Brought Back.

An American authority estimates that it would take five years to re-move all the bodies of American sol-diers now buried in France and England to the United States. While there is still some opposition in

France, none has developed in England, where there are 2500 bodies.

It is probable the American army dead now resting in England will be removed aboard transports, excepting those whose relatives in America have requested the bodies of their relatives remain in foreign lands.

Assurances that the work of returning the bodies of American dead from France would be expedited as much as possible were given representatives of the Bring-Back-the-Soldier-Dead League of the United States who called upon Newton D. Baker, secretary of war, this week. Six members of the League, all of whom lost sons in

the world war, called upon Mr. Baker. Mr. Baker was asked as to the expense, as there has been a feeling on the part of many relatives that they would have to bear part of the cost. It is the announced intention of the War Department, Secretary Baker said, to disinter, prepare for shipment and deliver the bodies. It has not been definitely decided by the department, however, whether the govern-ment will bear, or share, the cost of a cemetery plot on this side.

Consumer Blamed for High Prices.

Chicago, March 3.—Southern laborers who are "eating too high up on the hog" (pork chops and ham) and American housewives who "eat too far back on the beet" (porterhouse steak) are to blame for the continued high cost of living, the American Institute of Meat Packers announced today.

With the export market for meat shattered by adverse foreign exchange and wholesale prices back to where they were a year or two ago, the American consumer is chiefly responsible, the institute's bulletin on Feb-

ruary conditions says.
"At home there was a good volume of pork trade during the month," the bulletin says, "but consumers seemed to want the choice and higher priced cuts. High wages in the South have led to purchase of choicer cuts of pork

than in former years, and the result is a lack of sale for heavier cuts of salt pork."

Hog prices early in the month were at the highest level of the winter, with receipts at the yards 15 to 20% below normal, despite the fact that government reports show there is probably a ment reports show there is probably a

large surplus on the farms.

In the beef market a "factor which has had great influence upon the beef trade has been the relatively strong demand for hind-quarter beef and the poor demand for fore-quarter beef," the packers state.

h. c. l.? Just think how much less peachability of character, of the mere food consumption that will mean men who have charge of our treasures. they will not buy?

The Maryland legislature did at least one fool trick, in sending a delegation to the West Virginia legislature, to try to influence that body to "me too" the action of Maryland with reference to equal suffrage. West Virginia does not need the help of Maryland to attend to its own business, and from reports of the reception of the delegation, we think they found out that truth. The Governor is reported to have said that the action of the Maryland body was "unprecedented," and that had he been a member of it, he would have voted "against" the action. But, the Governor did not mean his remarks to be construed in an "unpleasant" sense. Of course not.

A Paper Illsutration.

The Record contained a little filler, last week, that was no doubt overlooked, or not much considered, by many of our readers. It was to the effect that a New York daily had reduced the size of its Sunday issue, from 84 to 72 pages and thereby lost are certain to prove beneficial. \$14,000 for that one issue—the publisher said so. Why was the reduction made? Not in order to lose the \$14,000 for 12 pages—that's sure. It was simply that there is not paper enough to be had for these big pa- ord, last week. There will be that

announced, that, beginning with last several things, but the most import-Sunday's edition, the News would be ant thing it means, is, that farmers limited to 18 pages, and perhaps as are rapidly becoming "business men," small as 12 or 14 pages, because of in practice, as they have always been, its diminishing supply of paper, due in reality. The time was-and only that the project should cost the nato the mills not being able to meet a few years ago-that very little was the demands, partly on account of the spent on farm advertising; in fact, freezing of streams from which the about as little as possible, was spent, mills secure water, and to other caus- and that limited to a "sale bill." es. This will be the effect on most, Farmers have learned that "it pays if not all, of the city dailies, and un- to advertise," and that their "sales" questionably the country weeklies will are largely the same as the mer- an immediate and not a deferred pay- town and Tyrone, or have like experiences. In all proba- chant's sales-disposing of goods to ment of the soldiers' claims, and the bility, many will be compelled to the public, and that it pays to tell the quit.

Now, there are some main questions for consideration-why should -our "Special Notice" department any city paper publish from 72 to 86 has shown farmers, as well as others, or more, pages? The answer is, what advertising will do. They have what was going on and what the the big demand for advertising, even tried it, many a time, and with good at high rates, as witness the \$14,000 results. It is just as true that larger loss on 12 pages. The next question advertising will pay, as well as the is based on political cowardice. Taxes is-Why the big demand for adver- smaller; and we are glad the farmer are the thing.-Springfield Republitising? The answer is, because it is getting wise in this direction—and can. pays. Another question is-Why not because it is "business" for us, does the advertising pay? Because either. it sells goods at high prices, on which there are big profits. And the last as a class, are coming to the front as question is-Who buys the goods? business men, in many other ways, which we will leave to the individual and it is a decidedly hopeful sign. imagination to answer.

advertisers; nor argument that all fairs, in the future, than they have who are advertising are making big had in the years past, and the better money. We could, if we felt so dis- equipped they are as practical busiposed, give a list of big advertisers ness men, the better it is going to be that we think such a conclusion would for themselves, as well as for the fit, but, our conclusions might be whole country. The wider the knowlwrong. Unquestionably, the big ad- edge of business transactions out in vertising is paying somebody, else it the open, the wider one's view bewould not be done-and paper would comes of the affairs of others, and be more plentiful. And it is equally the greater likelihood of the cultivatrue, that big advertising compels tion of a spirit of fairness for the imitation—the smaller dealers must other fellow. keep close to the pace set by the largalways do what they want to do, but | their own selfish interests. A few

body, because somebody is making big money in extensively advertising ar-'ticles on which they are making big profits, and other somebodies are buying the articles. The condition hits the little publisher, and the little dealer, the hardest, as a natural result, and to a larger extent interferes with their business. Incidentally, the situation is a big tribute to the value of advertising.

"Back to the Church."

Recently, the truth has been pretty widely emphasized that real safety and stability rests, not in vaults and time locks, not in banks and bonds, but in the people who care for and operate them. The point is made that the people must get back "to the church" and "of the church" in order to perpetuate real safety. The picture is drawn that a man may have thousands of U.S. Coupon bonds in his private box in a bank vault, but that these securities are not safe, unless the employees of the bank are safe, Startling as the statement is, it is

The safety of many of our earthly treasures—our bonds, cash, diamonds A news report says, London is ex- silverware-or whatever form our pecting a million Americans to visit treasures may be in, is not represented their city, this year on their way to by the make, or size, of the bank the European battlefields, and is mak- vault, nor by the number of figures ing hotel arrangements accordingly. of its capital stock; but is represented Perhaps this will help to reduce the in fact, by the christianity, the unim-

And the foreign are tempted, now, as never before. things that will be bought? And Insufficient salaries to meet living the sugar they will not eat? And costs; the sight of wealth piling up the American summer resorts they for a few; the feeling that clerical will not visit? And the newspapers and salaried positions are not fairly renumerated by comparison with phytion; all these are terrific dangers and | within their reach.-Frederick News. temptations, and need to be so regarded by the general public.

If not "back to the church" for real safety, where shall we go? If the church does not need to be upheld, and stood by, as never before, what then shall we do? If there is another organized institution in the world better qualified and intentioned for maintaining and increasing common honesty, where and what is it? What is our own attitude toward this tremendously vital question?

Has Had Stomach Trouble for Seven Years.

Theodore Sanford, of Fenmore, Mich., has had stomach trouble for seven years and could not eat vegetables or fruit without pain in the stomach and restless nights. By taking Chamberlain's Tablets, he is now able to eat vegetables or fruit without causing pain or sleeplessness. troubled with indigestion or constipation, give these tablets a trial. They -Advertisement

Farmer Business Men.

Thirty-six sales of farm personal property were advertised in the Recmany this week, and a large number The Baltimore News, last Thursday every week for a while. This means people about it, far and near.

The big new truth is, that farmers, They will have bigger voice and influ-Now, this is not an idictment of all ence in National, State and local af-

The Sucker Crowd.

Many small wage earners argue that they will never have a chance to get rich unless they take these chances, and so they blow in their savings. They are incited by tales of how some scrub woman or boot black made a lucky strike. Yet for every one that wins big money, a thousand may have lost. So their pathetic little savings, that might have become the basis of a business capital, go up in smoke. And for years afterward they will be moaning around that they never had a chance in life.

The News' suggestion to such people is to ask advice of the bank men sical labor; that brain and honesty are and other business people in their negligible qualities as compared with home town. They will thus save bitthe service of those classes able to | ter disappointment, and will retain combine and compel greater renumera- the real chances for saving that are

Bonuses and Politics.

The soldiers' bonus question, said to be causing Congressional leaders much anxiety, may bring trouble in at 10 o'clock, A M,, the following personthe coming campaign if nothing is al property Clark the other day in debate; and

mud in November," thundered Champ mud or no mud, bonuses have the Congressional politicians walking the floor.

The "sense of the national executive committee" of the American Legion is "that all service men and women are entitled to adjusted compensation in the form and amount of a \$50 bond per month of service."

This would require about \$1,800,000,000. If a sum nearly \$2,000,000,000 is to be given outright to the World War veterans, it is to be hoped that the money will be raised by taxation and not by a bond issue bearing a comparatively high interest rate.

A bond issue would involve heavy interest payments through a period of years to holders of the bonds, so that in the end the bonuses would cost the country much more than what the soldiers would receive. The soldiers themselves ought to oppose a bond issue, for they cannot desire that the project should cost the nation far more than the amount reaching their pockets.

Taxation is to be preferred. It

The Sucker Crowd.

The Sucker Crowd.

One of the most pathetic features of the present rush for money and wealth, is the multitude of honest and well-meaning people who throw money away on speculative investments and wild cat projects. The mails are loaded with glittering literature addressed to "sucker lists," written to tempt inexeprienced people to invest in oil stocks, mining ventures, and other schemes of a most dubious and uncertain character.

People who contemplate investing in such projects, should realize that a meritorious proposition does not usually have to solicit funds in this siders, and the general public does not get a smell.

These schemes are not necessarily dishonest. A great many are merely pipe dreams of over sanguine people who have been blowing bubbles all their life.

The Sucker Crowd.

All correspondence should be mailed to us not later than by Thursday morning train, which will mean Wednesday on the Routes.

HARNEY.

On Feb. 29, a very pleasant day was spent at the home of Mr. and Mrs. Wm. Fissel, in Harney, when the following gathered to celebrate the 68th birthday of Mrs. Fissel: Rev. March and son, of Taneytown; Mr. and Mrs. Frank Kerns and son, Donald; Mr. and Mrs. Geary Bowers and children, Mary, Viola and Donald; Mrs. Oliver Luckenbaugh and grandson, Harry; Claude and Walter Fissel; Mr. and Mrs. Dilly Mort and son, Harry. Horner Fissel and wife could not be present, on account of sick-

Miss Elsie Leatherman spent a few days with her parents, Mr. and Mrs E. K. Leatherman.

Those who spent Sunday evening with Mr. and Mrs. Harry Sentz, were Mr. and Mrs. Wm. Fissel, Mr. and Mrs. John Fream and children, Alice, Laura, Walter and Ernest; Mr. and Mrs, Dilly Mort and son, Harry: Mr. and Mrs. John Fleagle and children, Walter, Daisy and Roland; Thomas Fleagle and John Thomson, who played the piano, and Dilly Mort played the violin.

Mrs. Charles Routson, of Akron, O., is visiting her parents, Mr. and Mrs. A C. Fink.

Harry Clutz has opened up his

small grocery store.
Mrs. John Witherow and son, John, of Harrisburg, are visiting at the home of Mr. and Mrs. H. J. Wolff. Mr. and Mrs. Walter Ohler spent Tuesday in Hanover.

LINWOOD.

J. C. Deibel & Co., of Woodsboro, shipped three carloads of logs from this place to Williams Venere Co., of Highlandtown, Md.

Alva Garner ,of Owings Mills, is spending several days with Jesse P. Garner and family.

Mr. and Mrs. Samuel Brandenburg

attended the funeral of Mrs. B.'s aunt, Mrs. Josephine Burall, of Mt.

Airy. Mrs. J. W. Messler and daughter, spent Saturday in Baltimore. The whooping cough and measles visited our public school this week, making the attendance rather small.

Mrs. Carroll Warren and two children, of Baltimore, have returned home after visiting her father, A. C.

Mr. and Mrs. Joseph Langdon and son James, of New Windsor were the guests of Mrs. Etzler's family, on Sun-Mrs. R. Lee Myers spent Sunday

with D. F. Englar and family of Union Bridge.

Miss Edna Etzler spent Thursday New Windsor.

UNIONTOWN.

The sick in the neighborhood are all improving, two of our pastors, Rev. V. K. Betts and Elder W. P. Englar, who have been on the sick list, are able to be around.

U. Grant Heltibridle is repairing his property lately purchased by him. Movings have begun. On Tuesday, Bernard Lawrence moved to C. A. Zile's tenant house; Chas. Waltz, took possession of the property bought of Mrs. Julia Trite.

The P. O. S. of A., of this place, is increasing considerably in numbers. Last week, 20 young men were iniated, with several more this week.

A number of men from this place, who are employed in the W. M. shops at Union Bridge, expect to be laid off this week, owing to the change of management of the road.

DETOUR.

Mr. and Mrs. Wm. B. Rinehart, of Union Bridge, and Mr. Robert Erb, of Sandy Springs, spent Sunday, with Mr. and Mrs. E. Lee Erb.

Mrs. Robert Speilman and daughter, Lillie, spent a few days last week with Mrs. Baker Frailey, near Thur-

Mr. and Mrs. A. C. Miller and Miss Helen, of Thurmont, spent Sunday with Mr. and Mrs. E. D. Essick. Mrs. Catherine Dresher has closed her house and moved to the home of Mrs. Wm. C. Miller, where she will

make her future home. Jacob Myerly, of this place, and Chas. Valentine, of near Emmitsburg

spent Sunday in York.
Thomas Eyler, who has been on the sick list is able to be out again.

NEW WINDSOR.

Richard Smith and son, of Illinois, are visiting his father Edward Smith Rev. Haugh, of the M. E. Church, started his revival services.

Prof. Harting gave a dance on Wednesday evening, last week. He has quite a large class taking lessons.

The B. F. Shriver Co., will build 3 houses for their hands, just as soon as

the weather permits, on Maple Ave., Henry Gobrecht will also build a modern home in the Spring, on the same

Cox & Schneider is the name of the firm which will shortly open a general merchandise store in the Gilbert house Reuben Morningstar moved his shoe shop to Mrs. Gilbert's room, near the Railroad Station.

UNION BRIDGE.

Sales are in full swing and will continue for some time. A special train arrived here over

R. R., on Monday. The station has been re-opened, and Mr. Harvey is the agent. Of course, we are on the Penna. line. Joseph Fogle has accepted a posi-

tion in Baltimore
Mrs. Parker is substituting for
Miss Miller, during the latter's ill-

Mr. Moyer returned on Saturday, from his trip to Allentown.

We are pleased to see Mr. Thompson on the street again. Now is the time to think about good roads. Mud is fast making its

appearance. We must send our children to school or be fined. The powers that be only provide for half time.

If this is the last of winter, we can honestly say that it has been a hard one, and we are glad it is over. Miss Edna Fuss will return to her

home, this week, very much restored A number of movings will take place this month. If there were more houses our population would materi-

ally increase. Mrs. Rebecca Rinehart has not been well, this week.

The most persistent critic of the christian religion, is the one who knows least about it. A meeting of the Firemen is called

for Wednesday night.

Did you send for your garden seeds yet? You will need them soon. Go to church on Sunday.

BRIDGEPORT.

Miss Pauline Baker was the weekend guest of the Misses Mary and Alice Schwarber, at Ladiesburg

Mrs. John Baumgardner and son, Raymond, and daughter, Mary, of Four Points, were visitors of Mrs. B's daughter, Mrs. Russell Ohler, on

Jacob Stambaugh, wife and children, spent Sunday with Mr. and Mrs. Elmer Valentine, near Rocky Ridge. Harry Fleagle and wife visited Albert Valentine and family, at Four

Points, on Sunday. George and Elmer Bollinger, of Emmitsburg, recently visited their parents, Wm. Bollinger and wife.

The following were guests at "Meadow Brook Farm," the home of Harry Baker, on Sunday: Rev. C. R. Banes, of Thurmont; James Mort and

wife, Roy Mort and wife and daughter, Maude, of Four Points. Misses Edith, Dorothy and Hazel Hess, of near Harney, visited their aunt, Mrs. Jones Baker on Sunday.

A spelling bee will be held at
Tom's Creek school house, on Wednesday evening, 10. If the weather is unfavorable, it will be held on the

Mr. and Mrs. Wm Mort and grandson, of Four Points, spent Sunday with their daughter, Mrs. Harvey Olinger.

FRIZELLBURG.

We are glad to note the return of Edward Strevig, after having his finger amputated, he came back looking

Owing to the illness of the pastor, there was no services at the Church of God, last Sunday.

Do not forget the comic entertainment to be rendered in the hall here, this Saturday night. Plays entitled "Queerville's Quartette," and "Hanging Out the Wash," are very funny. You cannot afford to miss it. Doors eph Langdon's family, of open at 7 o'clock; exercises will begin at 7:45.

KEYSVILLE.

T. C. Fox and family received from the French government a me-morial, in honor of their son, Orestus S. Fox, who died for his country. Mrs. John Deberry, who is ill, has

not much improved as yet. Gorden Stonesifer, R. A. Stonesifer and George Myers, went to Frederick, the past week.

David Ohler and wife went to Westminster, on business, this week. Lutheran preaching, this Sunday,

Why Colds Are Dangerous.

You are often told to "beware of a cold," but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. who contract pneumonia, first take cold. The longer a cold hangs on,the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take. -Advertisement

Corn Record Broker?

What is believed to be the greatest acreage yield of corn ever reported in Pennsylvania was produced on the farm of Samuel H. Tessler, in East Donegal township, 5,500 bushels being raised on a plot of 27 acres.

Wyoming's Source of Wealth. The state of Wyoming is receiving in oil royalties more than \$1,000,000 a year, and this is increasing to such an extent that it is said the state will be

able to do without taxes in three years.

Ready to Qualify. "You want to be a government

watchman?" "Yes." "You must take a civil service ex-

amination." "All right. G'mme something to watch."--Louisville Courier-Journal.

Lure of the Stage.

"Will I ever be an actress?" is a query theater managers often receive from young women. Mothers with prodigies appeal for an appearance of their sons, "who can recite all of Shakespeare." Now comes a letter from an apparently versatile young Kansas woman to Lawrence Lehman, manager of the Orpheum theater:

"Am writing you today asking if you are in need of an actress. Would love to join one of the troops that come to your show house. Have traveled with many cheap troops, so would rather get into a better class. I can play the piano and do a lot of comic tricks. The last troop I left at Joplin, Mo., and now am staying with my married sister here until I hear from you. I hope you can help me out with one thing or the other. If possible. I would like to stick in your theater all the time for I'm tired of traveling. Of course, if you can get me into some good troop I'd like very well to travel. I have some pictures of myself taken in many different ways, so if you'd like I'll send some. Now will close, hoping to hear from you and hope you can get me some-thing to do. Excuse writing."—Kansas City Star.

Scientific Research.

The supervisor of schools was visiting and had stopped in one of the rooms to explain the wonders of the solar system. Every little face glowed with the radiance of understanding, every little mind was absorbed with interest as the supervisor demonstrated with familiar objects the movements of the earth and moon about the

The supervisor shook mental hands with himself as he experienced that satisfaction coming only to orators who are swaying their audiences. With a sense of his success he turned to the class and said:

"Now, does any little boy or girl wish to ask a question?"

"Yes, ma'am, I mean sir," said Tom-"What made ya so baldheaded?"

Improved Hotel Service.

In some New York hotels there are two devices to diminish the business of bellboys. Icewater circulates in every room. Then there is a device called the "servidor"-a small wardrobe which is built into the bedroom doors. The guest may open it from the inside and put his shoes and clothes into it. They will be noiselessly extracted by an attendant from the outside and returned shined and pressed. If a guest orders a bottle of seltzer, or any other small object, it will be left by a hotel amployee in the servidor. A signal on the doors shows instantly when anything is put into the servidor. Through it a newspaper is delivered silently every morning.

MARRIED

LIVINGSTON—STALEY.

Miss Charlotte S. Staley daughter of Mr. Frank S. Staley, of York, Pa., and Mr. Ira H. Livingston, of York, were united in marriage, Saturday evening, January 31, 1920, at Balti-more, Md. The wedding was a great surprise to their many friends. They are now residing at the groom's home.

DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

CARRIE ELIZABETH SHANER Carrie Elizabeth, twin daughter of Mr. and Mrs. Clarence E. Shaner, died on February 28, 1920, aged 6 months and 11 days. Interment in Keysville cemetery. The pall-bearers Interment in were four little cousins: Clarence, Carroll, and George Hahn, and Edgar Bair.

MR. T. MILTON MARTIN.

Mr. T. Milton Martin, a well known resident of this district, died on Sunday, Feb. 28, 1920, aged 73 years, 8 months, 4 days. He was the last of three brothers who operated a farm, for many years, along Farquhar's run, now owned by his nephew, Willie E. Martin, of Hagerstown.

Mr. Martin had lived at his late home, continuously, for 67 years. He had been in failing health for the past six or eight years. Funeral services were held Tuesday afternoon, at the home, by Rev. Guy P. Bready, in-terment following in the Reformed

MRS. ELLA FLATER.

Mrs. Ella Flater, wife of Benton Flater, of Clear Ridge, died at the home of her daughter, Mrs. Charles Ecker, on Sunday morning, Feb. 29, 1920, after a long and painful illness, aged 72 years. Her maiden name was Algire. She is survived by her husband and five daughters: Mrs. Chas. Ecker, Mrs. Wm. Formwalt, Mrs. Wm. Eckenrode, Mrs. Wm. Vogle and Mrs. Norris Frock.

She was a member of the M. P. church, Uniontown, and funeral services were held there on Wednesday morning, by Rev. C. E. Forline. Her six sons-in-law were her pall-bearers. Interment in the M. P. cemetery.

CARD OF THANKS.

The thanks of the family of the late Theodore M. Martin are hereby extended to all friends and neighbors, for their help and kindness during the illness and following the death of Mr. Martin. WILLIE E. MARTIN.

In Loving Remembrance of JOSEPH MYERS, who died one year ago, February 25, 1919.

My dear husband, how I miss you;
I miss you at the table;
I see the vacant chair;
I spent one lonely year alone;
How we often sat and talked of Jesus and
His love;
Some day I hope to meet in heaven above,
Where all is peace and love.

By his WIFE.

FEW REALLY UGLY PEOPLE

Many There Are Who May Be Unattractive, but Not a Lot Definitely III-Looking.

Looking for beauty in the faces and forms passed on the street is such a fixed habit with people in general that it was a bit startling to hear of a man in London who was looking for some one ugly-the ugliest female, in fact, that he could find. This man was an American theatrical man and he desired the ugliest woman to contrast her in a production with a girl said to be beautiful.

The showman found his ugliest woman after looking over eight contestants. The prize winning "clockstopper" was thirty-two years old and a music teacher. She entered the contest because her mother told her "there would be no harm in trying." On winning she at once insisted on taking a stage name, as she "did not want all the neighbors to know about it." The runner-up in the contest, whose name was not given out, had an unfortunate nose and an "outsize" in mouths.

The contest really was of concern to the theatrical producer, but it served to impress upon Londoners in general the old truth that few people, after all, are really ugly, that every

individual looks good to some one. Two people, who came upon the advertisement of the ugly contest, began to amuse themselves in the genial way of human nature by examining their friends and acquaintances to discover which of them had the best claim to

To their disappointment, says a writer in the London Telegraph, they could not think of anybody, not even their pet abomination, who was, considered impartially, very ugly. Plain people-oh, yes, hosts of them; disagreeable-looking people—quite a lot; silly-looking people—any amount; but people definitely and conspicuously ugly-not one.

VANISHED WITH THE BUFFALO

Few Left of the Pronghorn Antelope, That Once Roamed the Plains in Vast Numbers.

Next to the buffalo, the most numerous animal in the United States not more than 50 years ago was the pronghorn antelope. About half the size of a deer, but a bit more compactly built, it ranged the plains from the Missouri river westward to the Pacific in places.

Antelopes were dry-country animals, and were always found wherever sagebrush, bunch grass and the short, curly buffalo grass existed. Their favorite range was the plains country just east of the Rocky mountains, where they migrated with the seasons, from Alberta to Mexico, and between the Rocky and the west coast ranges from the Big Bend of the Columbia in Washington, southward to the Gulf of California and the Mexican west coast. It was the best runner of all the plains animals, and had endurance for long-distance running, being well able to take care of itself when in danger. Its meat is not very attractive to the white man's palate, being stringy, tough and dry, and having somewhat the taste of goat meat. Some are still found, but only in widely scattered areas.

Fishes Figure in Miracles.

There are many legends paralleling the Gospel story of Peter's finding the

piece of money in the fish's mouth. St. Benno, bishop of Meissen, in Saxony, on June 16, 1106, left his see and went to Rome to avoid the persecution of Emperor Henry IV and ordered that the keys of his cathedral should be thrown into the sea when Henry was excommunicated. When he

returned he found the keys in a fish. St. Egwin, bishop of Worcester, on January 11, 720, wanted to punish himself for his worldly life when a youth and put fetters on his feet, throwing the key into the sea. On his way back from Rome the seamen caught a huge fish, in whose inner parts was the key, which the saint considered a sign that his penance was abridged and therefore he released himself.

Soap Bubbles Puzzle Dog.

A humorous happening is to get a dog to chase soap bubbles. He will be highly interested if one is placed on the floor, and if the breeze forces it to move he will follow it, keeping a respectful distance, however, at first. After several bubbles are blown he will gradually draw closer and very soon will touch his nose to one of them. Then is when a genuine look of astonishment comes over his face as the bubble vanishes and perhaps he gets a tiny bit of soap in his eye. The dog gives ample evidence of his perplexity whenever he sees anything that excites his curiosity, for who of us has not seen them pucker up their foreheads and stare in a quizzical manner at something they had not seen be-

Reason for Snake's Hissing.

The hissing of a snake is caused by the long, sac-like lung being inflated with air, which is forcibly expelled through the glottis and nostrils. The puff adder makes the loudest and most prolonged hiss of any snake. When alarmed, snakes hiss with the object of frightening off their enemies. If snakes were not able to make their presence known they would be frequently trodden upon and injured by the various creatures of veldt, forest

Twas Said:

A friend was telling mother about her new vacuum cleaner and the children were interested listeners.

"Do you know what's a vacuum?"
Milly, asked her brother.

"Course I know what's a vacuum," he replied, loftily. "It's somethin' with nothin' in it."

This youngster had the right idea shout

This youngster had the right idea about

This youngster had the right idea about vacuum even if he was not able to express it correctly, but that's just the opposite of what he would tell you about this store—it's full of good grade merchandise, new assortments of hardware and needs for the home are here in excellent variety and the prices are right.....

FINEST OF ALL EATABLES

Ideal Food for Both Body and Brain Is American Pie, According to This Enthusiast.

This is the height of the pie season in all parts of the United States. Pieplates in every household are juicy with the good stuff between the crusty roof and the less crusty foundation. Of course, it will be said that it is a matter of taste, but we speak for green-apple ple as the best of the

season's offerings. Every day in the year is the height of the pie season in New England. A westerner who lived for a year at Framingham is on record as saying that he had ple three times a day, 21 times a week, and-do the rest of the multiplying yourself-some thousand times in a twelve-month. From only one meal was pie missing, and on that day the housewife, momentarily careless, allowed the delectables to be burned up in the oven, and the neighbors were unable to lend because they had just enough for themselves.

All sorts of shameful things have been said about the New England pie. It is just as good as middle western pie, and no better, but this is speaking in high praise of all the pastry from Rhode Island to Maine, inclusive.

There are persons who say that Emerson, Whittier, Longfellow, Holmes, and Lowell, while they wrote well. would have written better if they had cut out pie as a steady diet. We do not believe it. Pie is food for the body and food for the brain. It is America's surpassing dish. Apple, peach, berry, cherry, pumpkin, lemon, squash, custard, mince—and a proper slice of each is a full quarter, and then repeat.—Denver News.

MONEY FROM 'VARMINT' SKINS

Uncle Sam Got Neat Little Pickup as a Result of the War Against Pests.

The money a farmer gets for wild-

animal skins is always a comparative ly small sum, representing a decidedly minor side line. But Uncle Sam received \$36,000 last year as the price of the wild-animal skins he had taken during the year as a by-product of just one phase of his agricultural operations—the war against predatory animals on the range land of the West. The killing of the animals from which the skins were taken will result in the saving of millions of dollars worth of live stock to the sheep and cattle men of the range country. The predatory animal extermination work is done by the bureau of biological survey of the department of agriculture. Expert hunters and trappers are employed. The skins of all the animals they capture or kill must be sold and the money turned into the United States treasury. Nor are the hunters or trappers permitted to accept bounties. But there is not the same temptation in that respect that there used to be, for since the government hunters and trappers have been "on the job" their work has been so obviously successful that the states either already have done away with the old bounty system or are planning to do so. The money formerly paid out in bounties is being appropriated in many states for co-operative work with the department of agriculture, with vastly better results as to number of predatory animals destroyed.

TOO MUCH COLOR.

"Your narrative it too highly colored," remarked the editor, returning the bulky manuscript. "In what way?" inquired the disap-

pointed author. "Why," replied the editor, "in the very first chapter you make the old man turn purple with rage, the villain turn green with envy, the hero turn white with anger, the heroine turn red

with confusion, and the coachman turn

blue with the cold."-London Tit-Bits. Still Hopeful. "My boy," said Mr. Grabcoin, "I'm

going to pay your poker debts, but this is positively the last time." "Thank you, dad. Something tells me I won't have to trouble you that

"Good! Then you are going to quit gambling?" "Well, not exactly, dad. I have a

way any more."

change."

hunch that my luck is going to

Canine Curiosity. The curiosity of the dog is pronounced if observed for a few minutes. It is quick to notice a strange dog or person and the value of the watchdog comes from the fact that it wants to investigate every noise. It is very interesting to watch a dog when it meets a beetle. At first he seems to be a little afraid of the tiny creature, but finally he can't resist any longer, so he plucks up enough courage to touch it with his paw. Then, realizing that it has not hurt him, he smells it and rolls it over and over with his nose. Then, after he has satisfied his curiosity, he walks away and leaves the beetle to go its way if he has not put it out of commission with the strenuousness of the investigation.

Pennsylvania's Blue Laws.

Pennsylvania's venerable blue law, enacted April 22, 1794, and entitled "An act for the prevention of vice and immorality and for other good purposes," has survived all the assaults of those who would destroy it. The legislators of 1794 regarded it as being vastly more wicked to shoot a rabbit on Sunday than to drink a hot toddy. One offender was tagged with a fine of \$25, the other a shilling and a half. It was impossible under a strict enforcement of that law to operate a canal boat, a railroad train, a street railway car, a cab or sell any commodity from a loaf of bread to a package of chewing gum.

History of Brooklyn Bridge.

Brooklyn bridge, the first bridge to span the East river, is over a mile in length and cost to date more than \$25,000,000, estimates the Automobile Blue Book. It has been numbered among the seven wonders of the world. Designed by John A. Roebling, this masterpiece in engineering was started January, 1870, and opened to traffic May, 1883. During the preliminary work John Roebling met his death. His son, William A., took up the task of completion. He was subsequently seriously injured by fire while in one of the caissons and became an invalid. in compliance with his wish he was stationed in a home on the heights of Brooklyn, from which, with the aid of a telescope and the assistance of his wife, he directed the work from his window until the last rivet was driven. Plainly a Personage.

"I don't know who that solemn guy over there is, but I'll betcha he's somebody important," whispered Heloise of the rapid-fire restaurant.

"What makes you think so?" returned Claudine of the same establishment. "He never says anything about it, does he?"

"No; but, my gosh, he can actually look dignined while eating spaghetti!"

ONWARD AND UPWARDS.

"What has become of the man who used to rock the boat?"

"He has progressed with thetimes. He is not satisfied now unless he is mussing up the equilibrium of an

Eating or Sleeping. A man is often like a horse, We've heard some people say; But surely both are happy when It's time to hit the hay.

Considerateness Considered.

"Have I not been a considerate wife?" she asked, reproachfully. "Considerate!" he exclaimed bitterly. "In what way?"

"Has there ever been a night when you were out late that I haven't left the light burning for you?"

"And you call that being considerate? You have-but who pays the bills?"

Close Association. "The prima donna has decided to di-

vorce her latest husband." "On what grounds?"

"She says he insists on sitting in the same box every night when she sings. As a result they have been thrown together so much that he has gotten on her nerves."

Painful Topic.

"I'm afraid Miss Sereleaf did not endoy the party." "Indeed?"

"An old friend of hers was among the guests, a lady who has three grown children. She kept referring to the time when she and Miss Sereleaf were girls together."

Flying High.

"You know we promised a golden apple to the most beautiful girl at the hall."

"Well?" "The jeweler hasn't finished it. What

shall we do?" "What do we care for expense? Award her a real apple."

Its Style.

"Somebody says a baby in the house is a wellspring of joy." "Don't you believe it. From the amusement standpoint, a baby in the house is a screaming farce."

Wanted to Know.

"Excerent floor this," said the clumsy d ncer. "Then why dance on my feet?"

asked his unlucky partner.

A VERY PRESENT HELP.

"It's when a man is in trouble that he realizes the value of a wife." "Sure! He can put all his property in her name."

Something Cheap.

The price of everything's so dear-It makes one almost weep; But one thing still remains the same-That's talk-as usual-cheap!

Playing to a Crowd.

"Two is company, three is a crowd." "I like that adage," declared Yorick Ham. "It has frequently made me feel better when estimating the size of an audience out front."

LESSON FOR MARCH 7

JOHN WRITES ABOUT CHRISTIAN LOVE.

LESSON TEXT-I John 4:7-21.
GOLDEN TEXT-Beloved, if God so loved us, we ought also to love one another.—I John 4:11.
ADDITIONAL MATERIAL—I John, II

John, III John.
PRIMARY TOPIC—Loving One Another.
JUNIOR TOPIC—Loving God and Our

INTERMEDIATE AND SENIOR TOPIC -How to Show Love for God and His

YOUNG PEOPLE AND ADULT TOPIC

-Christian Love Upon Society.

I. The Origin of Love (vv. 7, 8). Love is of God, for God is love. God not merely loves, but he is the fountainhead of love. Love of country, love of humanity, filial and parental love, every particle of love everywhere has been derived from God; his love is infinite, eternal and unchangeable. Since love is of God, everyone who loves is born of God and knoweth God. The Christian, by his life of love, interprets God to the world. It is not enough that the world should be told that God is good and kind, it should see his nature expressed in the life and love of the disciple. The Christian's life is the world's Bible. Where love is wanting, knowledge of God is wanting.

II. God's Manifestation of Love (vv.

God's method of making known his love is through the incarnation—the sending of his only begotten Son into the world to be the propitiation for our sins (John 3:16). The coming of Jesus Christ into the world and his taking on human nature makes possible life for those who receive him. If we would know God's love, let us look at Jesus Christ. Those who gaze upon him in reverent contemplation cannot doubt God's love.

III. The Supreme Motive of Love

God's love is the grand incentive prompting his children to love.

IV. Love the Proof That God Dwells With Us (vv. 12-16). 1. No man hath seen God at any

time (v. 12), but there is abundant proof of his being. The one unmistakable proof of his being is love in the heart of man. Love is not native to the human heart, for the heart is deceitful above all things and desperately wicked (Jer. 17:9). Out of the heart proceeds murder (Matt. 15:19). Love in the heart is proof that God dwells within.

2. Love proves that God's Spirit is within us (vv. 13-16). The fruit of the Spirit is love (Gal. 5:22). God's Spirit dwells within his children. The indwelling Spirit shows us Christ and makes us believe in him as God's Son, the Savior of the world. Those in whom God dwells will always make this confession. Those who deny the Deity of Christ have no fellowship with God, and those who have fellowship with God will confess Christ as his Divine Son

V. Love's Relation to the Judgment. (vv. 17, 18).

It casts out fear. A judgment day is coming, for God hath appointed a day in which he will judge the world in righteousness by that man whom he hath ordained (Acts 17:31). It will be a terrible thing for those unprepared to meet God at that time, but for those who are indwelt by the living God there will be a joyful meeting. He that dwelleth in God and God in him will realize the perfection of love in boldness in the day of judgment, be cause as he is so are we in this world (vv. 16, 17). The way to get rid of the fear of meeting God in the judgment is to be living with God now.

VI. God's Love the Ground of All Love (v. 19).

The reason we love is that our lives have come into touch with the great fountainhead of love. The incoming of God's being and nature becomes the animating and controlling principle of our lives. The one in whom love is not the master principle does not know God.

VII. The Child of God Possesses Dual Love (v. 20).

The proof that one loves the unseen God is that he loves the person visible who bears the likeness and image of God, and has become a member of the same family through the redemption in Christ Jesus. Love to God and man is united in the one breast of the Christian. The one who hates his brother while pretending to love God is a liar.

VIII. The Solemn Command From God (v. 21).

God commands that those who love him should love their brethren. Obedience to this command will eliminate all war and contentions.

Life.

Life is made up, not of great sacrifices or duties, but of little things, in which smiles and kindness, the small obligations given habitually, are what preserve the heart and secure comfort.—Sir H. Davy.

Our Great Blessing. There is nothing that makes more for human happiness than the simple fact that some one needs us, that some task is holding us fast. We may ignorantly think of it as a burden, but it is our great blessing.

To Our Friends Who Will Want Furniture Between Now and Spring

Old Man Wisdom says: "Buy Now." Furniture is hard to get, and prices are going higher continu-We have many pieces on our floor, away under the present market prices. Those of our customers who come first will get the benefit of these prices. You can place your order with us now, for goods desired in April; we will accept the order at present prices and hold the goods for you until then.

We want your business. Because we sell better goods for less money than you can buy elsewhere, don't we deserve it? Reliable Furniture. Reasonable Prices.

Gosts You Hothing to have this wonderful new Aladdin coal oil (kerosene) mantle lamp demonstrated right in your own home. You don't need to pay us a cent unless you are perfectly satisfied and agree that it is the best oil lamp you ever saw.

Twice the Light On Half the Oil

Recent tests by the Government and noted scientists at 35 leading Universities prove the Aladdin gives more than twice the light and burns less than half as much oil as the best round wick, open flame lamps on the market. Thus the Aladdin will pay for itself many times over in oil saved, to say nothing of the increased quantity and quality of pure white light it produces. A style for every need.

\$1000.00 Will Be Given by the Mantle Lamp Company—the largest Coal Oil (kerosene) mantle lamp house in the world—to any person who shows them an oil lamp equal to the Aladdin. Would they dare invite such comparison with all other lights if there were any doubt about the superiority of the Aladdin? Let Us Call and Show You This Greatest of All Lights

Demonstration to Show How Proper Management Will Increase Egg Production.

(Prepared by the United States Depart-

ment of Agriculture.) Something different in egg-laying contests is being carried on in Missouri this year. Instead of a few selected fowls competing under the care of experts, whole flocks of hens on the home farm and under the care of their owners are matched against similar flocks in all parts of the state. This is not only a contest to see which hens can lay the most eggs,

Flock of Young White Leghorns.

the extension specialists say, but is also a demonstration to show how proper management will increase the egg production and profits of the farm

The plan is to have one poultry keeper in each community of the various countles enter the contest. The contestants agree to care for their entire poultry flock as nearly as possible according to directions furnished by the poultry-extension workers through the office of the farm bureau. At the end of each month each contestant is to report expenses and income from his flock for the month. This plan will stimulate better methods of poultry management by demonstrating on a typical farm in the neighborhood the results which can be secured by proper care of the flock.

According to reports of the extension workers, 37 farm flocks are entered in the contest, with an average of 155 hens to the farm. In February the hens in the contest averaged 8.1 eggs. The value of eggs to the farm amounted to \$32.08, the cost of feed per farm \$18.17, and the average net profit \$13.91. In the four months, November, December, January and February, eggs valued at \$100.53 were produced on each farm at a cost for feed of \$73.50 for each farm. White Leghorns averaged 25 eggs for the four months and led all breeds in egg

The highest record in a similar contest held in the state last year was made by N. P. Hollar, living near Harding, who secured an average production of 140 eggs from a flock of

What They Say About the \$1.50.

A subscriber in Baltimore, who knows all about present prices of paper and printing, on renewing his subscription, this week, says "I do not see how you do it at \$1.50 a

A lady subscriber, nearby, in sending in her renewal at \$1.50, wrote; "Not long ago you said the only thing that had not gone up was The Carroll Record. More recently, I note that the Record, too, went up, and as we are not likely to read for a year, at least, that it went down, I renew my subscription to March 1921."

Another subscriber, who left his subscription drop for about a month, says "I have simply got to have the Record. I take six or seven other papers, but I am lost without the Record, and must have it."

Dozens of those who pay at the office say; "You should have made the advance long ago; it's all right; you are entitled to it," and other like ex-

Another Baltimore subscriber wrote 'I read the Record all through, and it is worth more than \$1.50 a year to me. Put a little more Roosevelt in your editorials."

The above are only specimens of letters and remarks made within a

Numerous subscribers have been insisting on paying at the \$1.50 rate for the past year, and have added 50c their remittances. While we are glad for their commendation, we neither ask, nor desire, any increase on old subscriptions, and invariably return the excess amounts sent.

Cows Lead All Farm Animals.

The expansion which has been taking place steadily in the dairy industry of this country during the last seven years has at last put milk cows at the head of the list of farm animals so far as value is concerned. This is shown by a recent report by the Bureau of Crop Estimates, United States Department of Agriculture. The value of these animals now exceeds that of horses and cattle other than milk cows, the two classes formerly standing higher on the list. On January 1 of this year there were approximately 23, 747,000 milk cows in this country, an increase of 272,000 head, or 1.2 percent, as compared

with a year ago. Their aggregate value is placed at \$2,021,681,000.

Ten years ago the average milk cow was worth \$35.29, compared with \$78.20 a year ago and \$85.13 January 1, 1920. It is generally recognized that the quality of the milk cows of this country is improving at the same time that their number is increasing

The class of cattle, consisting of calves, steers, bulls and cows, not kept for milk production and desig-nated as "other cattle," shows a decrease of 700,000 head, or 1.6 per-cent. Ten years ago the average value per head of animals in this class was \$19.07, a year ago it was \$44.22, and \$43.14 this year. The number of "other cattle" in the country at the present time is approximately 44, 385,000, and their value \$1,914,575,-

TOWN HAS FINE CATHEDRAL

Otherwise Sleepy Little Leon, in Northern Spain, Has Nothing to Attract Tourists.

Surrounded by its prosperous wheat fields, the shabby little town of Leon in northern Spain seems peacefully indifferent to its out-at-elbow appearance, and to the fact that streets are not enlivened by the bustle of modern industry. A few mule carts rattle recklessly over the road, but otherwise it might easily be Sunday or a holiday and every one away from

home. The humble dwellings of the Leonese lie in the very shadow of one of Europe's most wonderful cathedrals, made possible by their ancestors' generous gifts and wrought by a master. The cathedral is the center from which radiates the tranquillity and harmony felt throughout the town. Its spires and towers of softly yellowed stone rise in gracious welcome above a mass of trees. A multitude of windows give promise of a bright, sunlit interior. Carved columns and figures frame the portals, and quaint gargoyles glower from nooks in the cor-

nices, as if to ward off all evil. Inside, the hall is vast and silent, lighted by scores of stained glass windows. The maker of the windows indulged his taste for bright and glowing color to an extent that would have been disastrous in a small church; but through the sweeping length of the vaulted nave the colors blend and fall in soft, rich shades. In this sanctuary of light rests the king who first planned the cathedral and made Leon a city of wealth and palaces. Since his day the city has been destroyed and plundered and rebuilt. It never again reached its former greatness. but the king's cathedral rose from its ashes, and stands now more beautiful than the founder had planned.

Old American Church.

Commemoration of the one hundred and fiftieth anniversary of the organization of the parish of Christ's Episcopal church, Newton, N. J., the second oldest church in northern New Jersey, took place in the presence of Bishop Edwin S. Lines of Newark, with many persons attending.

The church was established under a charter signed by King George III. The parish was organized December 23, 1769. The first church was erected in 1823 and was consecrated in that year by Bishop Cross. The corner stone of the present church building was laid in 1868.

The oldest church in northern New Jersey is the Dutch Reformed of Walpack Center, built in 1737.
