No. 21

PROCEEDINGS OF COUNTY COURT.

Jury Disagrees over Gambling Case

No. 36 Criminals: State vs Sterling Dorsey, assault, plea of guilty. Sentenced to pay a fine of \$5.00 and costs. No. 37 criminals: State vs Robert Crawford, alias "Brother Crawford," larceny, plea of guilty. Sentenced to be committed to the Maryland House of Reformation at Cheltenham until

years of age. No. 38 criminals: State vs William H. Bartlett, burglary. Plea of guilty. Sentenced to be confined in the ty. Sentenced to be confined in the Maryland Penitentiary for the period

No. 47 criminals: State vs John Kelly, larceny, plea of guilty. Sen-tenced to be confined in the Maryland Penitentiary for the period of six

No. 48 criminals: State vs Henry Bailey, selling intoxicating liquor. Trial by jury. Verdict of guilty and sentenced to pay a fine of \$25.00 and

No. 59 criminals: State vs Walter Bowers, larceny, plea of guilty.

Nov. 20. No. 50 criminals: State vs Harry L. Stem, selling intoxicating liquor. Tried before the Court, verdict of guilty and sentenced to pay a fine of \$25.00 and costs.

No. 51, criminals: State vs Harry L. Stem, selling intoxicating liquor. Tried before the Court. Verdict of guilty and sentenced to pay a fine of \$25.00 and costs.

No. 52 criminals: State vs Harry L. Stem, selling intoxicating liquor. Trial by jury. Verdict of guilty and sentenced to pay a fine of \$25.00 and

No. 10 appeals: State vs Julius Silverman, selling intoxicating liquor, plea guilty and sentenced to pay a fine of \$25.00 and costs.

No. 11 and 12 appeals: State vs. Thomas H. Zepp, alias "Rattlesnake Bill," keeping gaming table, trial by jury. Jury disagreed and case continued.

This case which has attracted wide attention throughout the county resulted from the arrest of Thomas H. (Bill) Zepp at the Hampstead Carnival. Zepp was twice arrested and arranged before Justice Hutchinson of Westminster, charged with operating gaming tables at the Firemen's Carnival. The police Justice found Zepp guilty, and an appeal from the Justice found Inc. tice's decision was taken.

The appeal case came up in the Circuit Court at Westminster, Tuesday afternoon and tried before a jury. men stood for acquital and three taxing them at all. for guilty.

Rev. Mr. Hoover to Leave Frederick.

nation as pastor, to accept a call to the Second Reformed Church, Harrisburg, Pa. Although having been in this city less than three years, he has made a host of friends, who, while regretting his departure, wish him

every success in his new field of labor. Rev. Mr. Hoover delivered a sermon before the Harrisburg church congregation Nov. 4, and was elected pastor and called November 11. A committee from the church came to this city the last week in July and invited him to preach a sermon in the Harrisburg church. The following Sunday the committee returned and again

invited him to look over the new field He became pastor of Grace Church in February, 1921. Previously he was engaged in the Inter-Church World Movement Survey in Arizona, and his charge here was his first pastorate, after his work in the West. The Harrisburg church has more than 700 members and is the largest of four Reformed churches in that city. The congregation recently secured a school building, which will be fitted

up and used for community services. Rev. Hoover's resignation takes effect December 16, and he will leave for Harrisburg the following week. He is president of the City Federation of Churches and has been actively identified in civic and community work.-Frederick News.

Prohibition Enforcement Activity.

Everywhere in the east, the enforcement of Prohibition laws is being prosecuted with vigor, even in Baltimore. Pennsylvania and Philadelphia, are seizing distilleries and closing sa loons, with a vim, carrying out both state laws and the positive instructions of the Governor. Greater activity is also pronounced in New York and New Jersey, while Massachusetts is at the forefront along the same

The recent convention of State Governors, and the strong stand of the National Government, as well as increased demand from the churches, is believed to be bringing about enforcement activity.

A \$75,000 private car is being built for Henry Ford by the Pullman shops, the most luxurious private car in America. Perhaps he is getting ready for a campaign tour for the Presidency, next year?

FAVORS TAX REDUCTIONS. Senator Bruce Indorses the Mellon Proposition.

Senator Wm. Cabell Bruce, of Maryland, who will take his seat when Congress meets, is a supporter of Secretary Mellon's proposal for tax reductions. He says;

"In my opinion, we are very much indebted to Secretary Mellon for the enlightened and fearless spirit in which he has taken up the subject of tax reduction. It is that spirit which has won for him such a remarkable

measure of public respect.
"The 25 percent reduction in the tax on earned income which he proposes is, in my judgment, based on a sound distinction. An income from wages, a salary or a professional vo-cation is a precarious thing as compared with an income derived from an established business or from invested net income.

"Then the scaling-down of the present normal income tax from 4 percent to 3 percent. and from 8 percent to 6 percent, respectively, suggested by the Secretary, is, I think, bound to meet with very general approval, because of the income tax upon the shoulders of the great mass of the

"The idea of reducing the surtax income rates by making \$10,000 instead of \$60,000 the initial surtax peg and then reaching a maximum surtax of 25 percent. at \$100,000 peg by a graduated surtax scale should also commend itself to a sober judgment.

"Colbert, the famous French Minister, once said that the art of public taxation consists in plucking the goose without making him squawk. The surtax goose is squawking to such an extent that the task of plucking is producing fewer and fewer

"The revenue from the higher surtax rates is decreasing and millions of dollars of property formerly subject to surtax has been diverted from productive enterprises and reinvested in tax-exempt securities which by reason of that fact are being issued by states, counties and cities in the United States in alarming abundance.

"To say nothing more, it would seem as if the best way to increase the revenue from the surtax rates would be to reduce them.

"I approve of other recommendations made by Secretary Mellon, but as they are not of major importance it is unnecessary to speak of them in detail. I must say, however, that I cannot see just why the Secretary should recommend the repeal of the tax on admissions to places of amuse-

ment.
"It seems to me that this is a little like repealing taxes on liquors, to-bacco or silks. There is no sounder fiscal principle than the one which in-

"At first thought I was disposed to the schools. question the repeal of the tax on telegrams, telephones and leasing wires, but it, I imagine, falls mainly on bus-iness, and few things tend more to At a meeting of the consistory of Grace Reformed Church, Friday night promote the welfare of every one in a community than the exemption, to Give the Latter.

Expenditures Would Exceed the Revenue of State. a reasonable extent, of productive business from tax burdens.

"It is certainly very important that if minor subjects of excise taxation are to be relieved of such burdens no unjust spirit of favoritism should be allowed to repeal the excise taxes on some without repealing them on oth-

What H. Clay Englar is Doing.

In answer to numerous requests for information as to what H. Clay Englar, son of the Editor of The Record, is doing in California, his last letter home says;

"I am storekeeper with the South California Edison Co., but the real work is accounting. We are an electrical power generating concern, generating and supplying all of Southern California. Ours is the largest power producer in the state, and greatest power line in the world is ours-a 220,000 volt line over 200 miles long from generating plant to consumer; and it is our job to build stations and instal electrical equipment for transforming current from 220,000 volts and under, down to commercial and

house voltage of 110 volts. My work is the responsibility for the accounting for all material used upon the job for which I am storekeeper-a field accountant. On the side I make radio sets for a few friends, and have one of my own, out of which we get so much entertainment that we would not like to do without it. Wonder if you would like me to try to make you a set. I should think you would get many enjoyable nights out of it.

I move around considerably, and am now at 2263 Locust Ave., Long year. Beach, Cal."

Died from His Injuries.

Henry Dehoff, a farmer residing near Littlestown, who suffered a frac-ture of the right leg below the knee and was hurt internally when run down by an automobile along the Baltimore 'pike leading into Littlestown, Sunday, November 11, died Monday night, from the effects of his injuries. Death occurred at the home of his brother, William Dehoff, with whom he resided. The injured man had been former service men should be paid, if taken to the Annie M. Warner hospital, Gettysburg, following the accident, but was removed to his broth-

MARYLAND STANDS ALONE.

The Only State in the Union Not Electing a Single School Official.

In order to secure information relative especially to the percentage of the county tax rate in each county required for schools, and how far the counties complied with the requisitions of School Boards, The Record recently sent a questionnaire to each County Treasurer in the state, asking these questions:

1—The total Tax Rate of County.

2—The portion of the Rate required for School purposes.

3—The amount asked by School Boards for School purposes.

4—The amount appropriated by the Commissioners.

Replies were received from 13 of the 23 counties in the state, as follows;

County Rate Amount Asked Amount Given

| Tax Rate | for Schools | by School Board | by Commissioner |
|------------------|-------------|-----------------|-----------------|
| Allegany | .711 | | |
| Anne Arundel1.53 | .80 | 329,531 | 248,000 |
| Calvert2.53 | .316 | 34,507 | 34,507 |
| Caroline1.45 | .50 | 115,975 | 106,975 |
| Carroll1.40 | .70 | 376,150 | 232,088 |
| Dorchester | .689 | 129,254 | 124,604 |
| Frederick | .578 | 332,317 | 290,528 |
| Garrett1.77 | .79 | 125,512 | 125,512 |
| Howard1.44 | .364 | 88,083 | 77,893 |
| Montgomery1.15 | .57 | 234,970 | 234,970 |
| St. Mary's | .66 | | |
| Somerset | .702 | 81,175 | 72,775 |
| Washington | .57 | 402,836 | 370,836 |

We regret that the information is not complete, but it is sufficient to show the vast sums conributed from the tax-payments for school purposes, averaging approximately 50 percent of all the county taxes paid, and that this vast total, as well as the state appropriation to each county, is expended wholly by "appointed" school officials, while the remaining 50 percent is spent by regularly elected County Commissioners.

On the surface, at least, this does not seem to be a self-government style of conducting public business, and Maryland seems to stand alone, among all the states of the Union, in not having a single elected by the people, school official, from the State Superintendent on down to District Trustees.

There may be plausible argument advanced for the appointment of all school officials. Perhaps we secure better men through the appointment system than we would through their election; but we hardly think the general public is ready to admit it. If such should be true, then, the pertinent question arises—Why should any county official be elected? Why not have them all by appointment of the Governor, who must necessarily make such appointments by "recommendation" of the party "leaders" of each county?

The following statements have been publicly made, apparently on good

authority, and we have never seen them contradicted;

"The people of Maryland are deprived of a voice in their schools without parallel in any other state in the United States.

Maryland is the only state in the Union in which not a single school official is elected by the vote of the people; the only state in the Union in which the Governor appoints the members of the County Boards of Education. Of the forty-eight states, no other state, in selecting its school officials, has deemed it advisable to deprive its citizeness of all post-investigations. ed it advisable to deprive its citizens of all participation and all local control, as is done in Maryland, yet these appointed Boards, in no way answerable to the people, have sole power to dictate taxes for school purposes to the County Commissioners and these County Commissioners must levy and collect the taxes assessed. This is directly opposed to the first principle of American Government, and is "taxation without representation," and should not longer be tolerated.'

"According to Ayers Rank of States Educationally for 1918 (the last available) Maryland ranked 34th. and according to Bulletin No. 20 published by the Bureau of Education in 1922, five State Legislatures that ranked way above Maryland passed laws to elect County Boards of Education; viz., Arizona, Utah, Ohio, Minnesota and Oregon, ranking respectively 3, 7, 11, 18 and 19, while Maryland ranked 34th."

What is the answer? Is the Maryland system, standing alone, the best system in the United States? If so, why should Maryland Schools rate so low among the states?

low among the states?

Are the voters of Maryland satisfied that "appointed" school authorities in the counties should spend more of their taxes paid than do the County Commissioners that they elect, and make such strenuous efforts to get the best men possible for the office? These questions need consideration and answer.

Messrs Weant and Steele appeared as Zepp's attorneys, while State's Attorney Brown, represented the State. The case did not conclude until Wedness any individuals that I know, program as any individual as any ind more than the County Commissioners spend for all other purposes, aside from

TAXATION AND BONUS.

A Washington correspondent of the Baltimore Sun, under date of Nov. 19, in a lengthy write-up of the tax and

bonus questions says, in part;
"The country must take its choice between a reduction in Federal taxes the chances of being heavily cut by the framers of the budget.

Governor Ritchie has made a statebetween a reduction in Federal taxes and a soldier bonus; it cannot have ment in which he says that in addition

This statement was made with definiteness at the Treasury Department this afternoon by high officials after they had given careful consideration to the proposal of former Secretary William G. McAdoo, now a Democrattaxes be reduced now and the bonus financed by a bond issue.

This would be a very fine program. one satisfying everybody concerned, if 000,000. it would work, officials concede, but In addition, the Governor explain-Secretary Mellon and his associates ed, the State is being asked nearly to are convinced that even if this Government borrows the money with which to pay the bonus, passing the debt along to another generation for repayment, taxes cannot be reduced for years, at best.

It was pointed out at the Treasury today that a sale of bonds up to four or five billions of dollars with which to pay a cash bonus to the former service men would wipe out the existing margin of about \$300,000,000 between Government receipts and expenditures

This much money or more would be needed with which to pay interest on the bonds, even if issued at a rate as low as 4 percent, and to provide a sinking fund with which to redeem est on \$5,000,000,000 at 4 percent. would amount to an annual charge of \$200,000,000, and the sinking fund would need more than \$100,000,000 a

In other words, the cost of carrying a bond issue, such as proposed by Mr. McAdoo and by many other pro-bonus leaders in and out of Congress, would take all the Federal money now in excess of annual expenditures and perhaps considerably more, according to authorities in the Treasury.

Most interests represented here have argued from the outset against increasing the public debt by a further bond issue in order to finance bonus. They have contended that the at all, out of money raised by additional taxation or by money received from foreign government on account

DEMANDS ON TREASURY.

The bi-ennial raid on the State Treasury by various State boards and Institutions, is now under way, with

to desired budget increases aggregating \$9,066,000 in three years over the 1924 budget, loans totaling \$19,000,-000 are asked.

He pointed out that, exclusive of any new loans, the budget estimate for each of the three years, plus inic candidate for the Presidency, that terest and sinking-fund charges, is more than the State's annual revenue. This, he said, with a 30-cent tax rate on the 1923 assessable basis, is \$18,-

> double its present indebtedness \$21,820,000, and to increase to \$35,-187,000 obligations that before the close of 1927 would otherwise be reduced to \$16,187,000.

"Acres of Diamonds."

A great attraction is in store for the citizens of Carroll County in the coming of the world's most noted lecturer, Russell H. Conwell, of Philadelphia. He will appear in his world-famous lecture, "Acres of Diamonds," at Alumni Hall, Western Maryland College, Westminster, Maryland, Monlow as 4 percent, and to provide a sinking fund with which to redeem o'clock. This lecture has been heard the bonds when they mature. Interest on \$5.000.000.000 at 4 percent by three generations of American citizens, and has been delivered about 6000 times. It is the greatest triumph of the American platform.

The price of tickets is 50 cents, and only 750 ticekts will be issued. After the seating of the student body, only that number can be accommodated in Alumni Hall.

Tickets will be on sale on Monday, November 26, at the Rexall Drug Store, the Bonsack Drug Store and at the College.

Last week, there were 15 lots of real estate transferred at the Court House, all of them, except two, for various considerations from \$1.00 to \$10.00. We discontinued, many months ago, taking up time and space many with such meaningless transactions; and the wonder to us, is, that any newspaper considers it worth while to er's home Friday. He was aged 64 of their war indebtedness to this coun-years, nine months and 19 days. of their war indebtedness to this coun-as "news." What is the answer?

DISTILLERY ROBBED.

Carroll County Plant Loses three Bar-rels of Whiskey.

Three men, unmasked, and in broad daylight, robbed the warehouse of the Industrial Grain Products Co., formerly the McGinnis distillery, seven miles east of Westminster, of three barrels of whiskey, and made off with them in a light truck. The affair oc-curred last Sunday, shortly after noon. No one but the two guards appears to have seen the deed accomplished.

According to the story of the guards, Harry Buckingham and Harry Larrimore, they were separately heldup by young men, with drawn revolvers, handcuffed, and bound by wire to a heavy iron pipe. The robbers then proceeded to help themselves to three barrels, evidently all they could con-

manager of the distillery, and also Federal Revenue officials. Both States Attorney Brown and Sheriff Martin were away on business at the time.

R. D. Carriers to Count Pigs.

Postmaster General New has ordered another pig census, for next year, and Rural Mail Carriers have been given the job. The Carriers did it once before, and in such a satisfactory manner, that the job has been put on them again.

The survey will show not only the number of pigs on farms, but also the number which will be kept throughout the winter, as well as the amount of field corn and other stock food rais-ed on the individual farm for feeding

Last year thousands of farmers used the reports which enabled them to determine, first, whether to cut down or increase the number of sows kept for breeding, and second, whether to market hogs light or heavy, depending upon the prospective supply as well as the relative price of corn and

Taneytown District "Samples."

The Record will go for three weeks, as a "sample," to a number of Taneytown district homes, where it does not go as a regular visitor. There are not so many such homes, but, even a few are too many. Really, folks, you need The Record, for a good many reasons -more than you perhaps appreciate -and we want you to know that we need you, as well.

We are not making any special effort to make these issues any better than usual; in fact, they may not be as interesting as the average, as we have no control over happenings, and must take things as they come; but, the fact is, there is likely to be enough of interest in every week's issue to justify this little additional expense.

All we ask is that those who get these "samples," entirely free of charge, read them, consider the proposition fully, then take whatever action seems best. They are our "invitation" to join The Record's family of readers, and we trust that at least half will accept it. We extend our thanks, in advance, to all who do so.

Senator Hiram Johnson, of California, has announced himself as a can-didate for the Republican nomination for the Presidency, in 1924.

THE KU KLUX KLAN IS OVERRATED.

Not an Important Force in the Politics of the State.

John W. Owens, special correspondent for the Baltimore Sun, has been investigating, for the Sun, the forces of the Ku Klux Klan in the counties of Maryland. He says the organiza-tion is "over advertised, ever-empha-sized and over-rated." He says, further, in part;

"It is not merely that its friendship for a man or its advocacy of a cause creates opposition stronger than it-self, although that undoubtedly is the fact in the State as a whole. If all veniently haul.

The guards worked themselves loose in about an hour and notified the manager of the distillery, and also

the people who go into the anti-klan force—the Catholics, the Jews, the negroes and others—were to pay no attention whatever to the klan and

leave it free to work its will unopposed it still would be a feeble force."

The first thing to be understood in dealing with the general standing of the klan in the counties (everyone knows it is weak in Baltimore) is that its numerical strength has been great-

ly overstated. When the Gubernatorial campaign opened and the Democrats were hear-ing reports that the klan would fight Governor Ritchie on the Eastern Shore there was talk that there were 15,000 members on the Shore.

Nobody except the klan officials knows exactly how many there are, but after checking the probable strength with men on the Eastern Shore who always knows what they need to know about organizations that attempt to take part in politics the op-inion is hazarded that the klan has not one-third of 15,000 Eastern Shore members, and very likely has not more than one-fifth.

On the Western Shore Anne Arundel is one of the strong spots, its klansmen being estimated at between 1,000 and 1,600. Baltimore county has some and it is said they are particularly active around the Lansdowne district, which is near Anne Arundel as well as in the unper contract. as well as in the upper section. There are supposed to be a good many in Carroll, some in Harford and a few in

Prince George's may have 1,000 and there are a few in Charles, particularly around Indian Head, and in Calvert in the neighborhood of Solomon's Island. Frederick county is believed to have upward of 1,000, with the strongest group among the reliand may be a set group and the reliand may be a set group among the re est group among the railroad men in the Brunswick neighborhood. Washington county's force is estimated as high as 1,200 and as low as 600, the latter estimate having been made by a man regarded in the county as a klansman. Allegany county's force has been estimated as possibly above 1,200, but generally as lower.

Those figures are not very impressive, if the klan is regarded as an ency seeking political dominance. Moreover, in practical politics the figtate of B. Wallace Shull, deceased, were granted unto Mary Josephine ures do not mean even the strength they suggest. For, taking the countries of the light suggest is the suggest of the suggest of the light suggest. ties as a whole, it seems the klansmen are not far from evenly divided between the Democratic and Republican parties, so that if it were assumed that they could control politically all their members, they really would be able to switch from one party to the other only about half their strength.

Again, the information gathered in the counties shows plainly that many members of the klan are like many members of other organizations—they join and then pay no more attention. Some of those who join are like two fairly prominent men in one of the Eastern Shore counties. They love power and prominence, and will participate in anything that seems likely to gratify their craving. They are re-ported in their town to have joined and then, seeing no concrete advantage, to have dropped into the back-

Others have joined and forgot about it because it appealed for a brief season as a novelty, or because they yielded to the persuasion of agents of the klan, more or less against their judgment. For one reason or another, many who have joined soon became inactive, according to the information given by men in the counties who know what is going on.

With those circumstances in mind, it is to be understood next that the idea held by some, that the klan is fostered by the Methodist and other evangelical churches, as the Anti-Saloon League has been, is utter nonsense-so far as the Maryland counties are concerned. The feebleness of the klan would indicate that, if nothing else did, for the great majority of the country people are identified with those churches."

One Woman's Response. The following letter has been re-ceived from Union Bridge. Let us have many more;

"I have for some years favored the idea that women should be allowed the privilege of the ballot, and trust that now they have been given that right, that they will consider it not only a privilege, but a duty.

Every woman should register and at every election cast her vote. As only pure, clean and conscientious officials should be elected to govern our country, women should also use her influence in endeavoring to have only the names of such persons put upon the ballot, who will pledge themselves to enact only such laws as will add to the prosperity of our country, and then to use every effort to enforce these laws. Let principle, not party, be her watchword. Union Bridge.

The Negro Vote Defection.

The Baltimore Afro-American, weekly newspaper, contained the following editorial in its last issue, with reference to the defection of the Negro vote from the Republican party. Evidently, it sounds a note of satisfaction, as well as of confirmation. Our opinion is, that after Republican leaders get used to the change, they will like it, for taken all in all, the Negro vote has been a load, rather than an asset, to the party, and it was inevitable that such a break should

Increase in Savings.

banks, national banks and State banks and trust companies, continues to inmany cities in virtually every section of the country, which reveal the trend of savings deposits moving upward.

A current report by the American Bankers' Association states that saving deposits in the United States have increased by approximately 106 per cent in the last decade, and the number of savings accounts by about 141 one Sam Gompers. percent.

If distributed equally among the entire population, the savings deposits in 1912 would have given \$89 to each adult and child in the country, the report says, but in 1922 the portion of each would have been \$158.

Savings deposits comprise about one-half of all bank deposits of every kind. The increase in savings banks, and banks having distinct savings departments, not counting branch banks. has been about 210 percent., the number growing from 5376 in 1912 to 16,-709 in 1922. The officially reported savings deposits in 1912 were \$8,425,-275,000, and in 1922 they were \$17,-331,470,000. In 1922 there were 30,-323,320 savings accounts reported.

Interest paid on savings deposits in the larger cities of the country varies. The general rate is 4 percent which is the figure now allowed by most of the mutual banks in this city, although in some cases 41/4 percent is allowed.

Six savings banks in Greater New York pay depositors 41/2 percent interest and of these five are in Brooklyn. The majority, however, maintain the 4 percent rate.—Phila. Ledger.

-05 The Anonymous Letter.

of the anonymous letter to the edi- Street directorate who leave the toiltorial office! At his littered desk sits the editor, glumly gazing out of the husks of existence. Coolidge taking window and wishing he could get a two-bit oath of office before a counaway for a week of duck shooting. try notary public, who happened to be And presently he sighs and returns to his work, and begins to go through er, and putting in farm hours in silent his mail, and so comes upon his old friend—the anonymous letter.

Usually it sputters. There is indignation in it, and denunication, and damnation. And there is stealth. One gets a picture of the writer moving softly in the shadows of a dark street at midnight with his tremendously important letter under his long, mysterious coat. He reaches a mail-box. Stealthily he looks to the right, to the left, behind. Taking a sharp ufacturer. breath of resolution, he suddenly saunters away, his trembling lips whistling as he tries to register unconcern, like Charlie Chaplin passing

It is almost impossible for an edian anonymous letter. Usually the editor smiles, and sometimes he may shake his head sadly at the perverted mental processes of the writer. What, precisely, are those processes? What satisfaction does he get from dispatching his mysterious epistle?

On this point George Jean Nathan made a brief and interesting comment not long ago:

"I often wonder what satisfaction is derived by the writers of anonymous insulting letters. However, thin-skinned a man may be, he can't very well be insulted by a person whom he does not know and has never heard of, and of whose existence, unaware. However tender one's hide, one can't conceivably be bothered very much by the nose-fingerings of an inof Commerce.

Our Changing Dollar.

The Department of Labor tells us that the American dollar is now worth 65c as compared with its value before the war. That is, it will buy just 5 percent as much goods, real estate or service as it did in 1913. It is well to check up on the dollar every little while to see which way its value is ple perhaps the matter is still a mys-

This is shown by reports from ing miserly about it.-Ellicott City

Coolidge Acts as Silencer.

The new President is voiceless but not toothless. Voiceless in the sense of not blowing off political ballyhoo. But his character had teeth in it—ask

The unexpressive Coolidge, not continually peddling platitudes, has cast a gloom over the Big Noise peddlers, has been a kind of silence for Senators who maintain press bureaus and constantly employ publicity agents, get front page newspaper interviews on "burning issues," and threaten to fight everything that has the least tinge of regular party action-members of Congress who edit newspapers, write magazine articles and belch reform in the chautauquas.

They have a man to reckon with in plain unexplosive Mr. Coolidge. The occupant of the White House talks twice a week to the newspapers but he employs neither mystery nor the megaphone. As Harding employed kindness, courtesy and conciliation, Coolidge has the courage to cultivate quietness. He seems to believe time will settle muddy waters and dispel froth and foam. Coolidge seems to possess traits of taciturnity characteristic of General Grant and Grover Cleveland, both men of decision and character far more than commonplace occupants of the White House.

The country is satiated with demonstrative politics. We have had a surfeit of tear-shedding for the oppressed victims of capitalism and the or-How cheering is the frequent visit ganized trusts and interlocking Wall ers and the masses merely the bare his father, a Connecticut valley farmlabor on routine details, with no skycracking announcements, is too much for the Hearst, Tammany, et. al., who dope the people with continuous barnstorming. It would be an appropriate ending of the era of sensational politics if all the grandstanders crowded onto the stage at once in the Big Noise presidential free-for-all and the grandstand collapsed and carried them down to oblivion together .- The Man-

Now, What-?

Benjamin J. Falk (famous photographer) relates a personal anecdote as follows:

"Many years ago a rather buxom and very pretty young woman came to the studio for a sitting. She carried tor to become angry at the writer of a parcel, which, she explained, contained 'two waists a high and a lownecked one,' and asked me before retiring to the dressing room which of them I advised her to wear for the portrait.

"As I had no idea what the draperies in her parcel looked like I replied. 'I can't tell about that before I see you in both.'

"Then the amazing thing happened. She blushed furiously, lowered her eyes, and all she said was: "Then I'll put them both on at once." "-- New York Herald.

Harems Feel H. C. L.

High living expenses have hit Tur key harder than ever they dared to attack the United States. And as a consequence Turkish gentlemen who formerly were allowed to have four lawful wives, providing they gave each a private house and adequate support, are finding that one wife is all and sometimes more than they can afford. Still marriage is in no way going out of style. For even from an economic standpoint one wife is preferable to none at all, since all able-bodied male Turks who attain the age of twentyfive and remain unmarried must give to the government a quarter of their income-to be distributed by the gowernment to the poor.

Odd Experience.

Several years ago, while in the wait ing room of a station in the city, an elderly man came in and looked at me. Soon he came up to me and begged my pardon for staring at me. He said that he thought I was a girl he had known years before. My mother was with me, and just then she recognized him as our cousin. He certainly was surprised, and so was I, when she

provide a happy combination for healthful pleasures, outdoor life and enjoyable sports.

Through sleeping cars operated by the Pennsylvania Railroad and connecting lines supply convenient and adequate service to practically all Southern resorts.

Operating 24 Hours Daily With Current at Ten Cents a Kilowatt Hour Is Cheap.

Not only should drinking water intended for poultry be kept from freezing so that the hens can drink at all times, but, according to scientific poultry raisers, it should also not be cold enough to chill the birds. Both requisites may be provided for by the use of this inexpensive electric water warmer.

An ordinary pail or pan may be used with the addition of a large tin can or small pail for the heating unit. If made of galvanized iron, the parts will last longer. Arms riveted to the can extend over the edge of the water pail. Care must be taken to solder around the rivet holes on the outside, for the lamp container must be water-tight.

An ordinary metal lamp socket is soldered or crimped into a tin disk large enough to cover the container. This cover must be either a tight-fitting lid or be made to fasten with a spring or catch.

In all but the coldest weather a 15watt lamp will warm a ten-quart pail sufficiently. Operating 24 hours a day

Warm Drinking Water Often Means More Eggs.

with current at 10 cents a kilowatt hour, the warmer will cost 3.6 cents, which is worth while if it adds only two eggs a day to an otherwise doubtful cold weather production. In severe winter weather, it may even pre vent the loss of some of the hens.-J. H. V. in Popular Science Monthly.

GREEN FEEDS FOR CHICKENS

Where Fowls Have Unlimited Range in Summer There Is No Difficulty -Different in Winter.

(Prepared by the United States Department of Agriculture.) If the best results are to be obtained with poultry, they must be furnished with a plentiful supply of green feed. Where fowls have unlimited range on a farm they will secure green feed during the spring and summer, but ring the winter it must be supplied for them.

The question of how to supply the best feed at the least cost is one that each poultry keeper must decide largely for himself. It will probably make but little difference what kind of green feed is supplied provided it is relished by the fowls. Cabbages, turnips, beets, potatoes, etc., are suitable for this purpose. The larger roots and the cabbages may be suspended by means of a wire or string or they may be placed on the floor, in which case it would be well to split the turnips or beets lengthwise with a large knife. Potatoes and turnips should be fed cooked. The mangel is an excellent root for feeding raw.

Cut clover, soaked in boiling water, fed alone or with the mash, is good, say poultry specialists of the United States Department of Agriculture. Clover meal and ground alfalfa make very good feeds for this purpose. Where the fowls are yarded and not enough green feed is furnished by the yards, a small patch of clover, alfalfa, or rape may be sown. Any one of these, if frequently mowed, will furnish a great quantity of green feed in a form relished by the fowls. Canada field peas may also be sown for this purpose, and when fed in a tender, crisp condition are eaten readily. Rye is a good crop for late fall and early spring, for it will germinate and grow in cold weather. As a general thing, fowls should have once a day about all the green feed they will eat.

POWDER CONTROLS HEN LICE

Mixture of Gasoline, Stock Dip and Dry Cement Will Prove Quite Effective.

Common hen lice that live on the hairs, feathers and skin of the fowls can be controlled by treating with a home-made powder composed of mixing three parts of gasoline and one part of stock dip and adding enough dry cement to make a powder. Hold the bird with its head down and apply the mixture by working in the feathers.

Retain Pullets in Fall.

Farmers are urged to stop the practice of selling their pullets in the fall. These are worth more as winter layers than as meat for the table. Winter eggs must come from the pullets, so these should be kept and not sold

EXECUTORS' SALE Valuable Real Estate.

By virtue of the authority vested in them by the last will and testament of Margaret Mehring, deceased, and an order of the Orphans' Court of Carroll County, the undersigned executors will offer at public sale, on the premises in Bruceville, in Carroll County, Maryland, on

TUESDAY, NOVEMBER 27, 1923, the same day and place of the sale of personal property, at 1:00 o'clock, P. M., the real estate directed by the said will to be sold, as follows:

1. MYRTLE HILL HOME,
the widely known residence of the late
Frederick Mehring and sister Margaret
Mehring. This property is located immediately west of the Pipe Creek Bridge in
Bruceville, and is intersected by the county road leading from Taneytown to Keymar. It contains approximately three acres
of land, and is improved by a good twostory house, with hot water heat and bath,
recently painted, and in good condition.
It has good barn suitable for both stable
and garage, and other outbuildings. It has
an orchard and garden, and is a most desirable home. It would be specially attractive as a summer home for a city resident.
Located on improved road, and about one
mile from the Keymar station. Possession can be given as soon as settlement is
made.

2. A TWO-STORY DWELLING HOUSE. 1. MYRTLE HILL HOME,

2. A TWO-STORY DWELLING HOUSE, 2. A TWO-STORY DWELLING HOUSE.

This property is contiguous to the above described "Myrtle Hill Home" and consists of approximately an acre of ground, immediately south of the mansion house, improved with a good frame dwelling house, newly painted, and other outbuildings. It has a considerable amount of fruit of various kinds, and an excellent garden. This property will be sold subject to the right given to John H. Airing and wife, their heirs and assigns, to obtain water for domestic uses from the well on the property. This property is occupied by Raymond Weant under a monthly lease, terminable at the end of any monthly term by giving thirty days previous notice in writing.

TERMS—One-third of the purchase mon-

CORRESPONDENCE

Latest Items of Local News Furnished By Our Regular Staff of Writers

All communications for this department must be signed by the author; nor for publication, but as an evidence that the items contributer are legitimate and correct. Items based on mere rumor, or such as are likely to give offense, are not wanted.

We desire correspondence to reach our office on Thursday, if at all possible. It will be necessary, therefore, for most letters to be mailed on Wednesday, or by Fast Mail, west, on W. M. R. R., Thursday morning. Letters mailed on Thursday evening may not reach us in time.

MELROSE.

Edward Jones, of Ebbvale, south of here, had the misfortune of losing a valuable horse on Monday of last week, the horse rearing up against the top of his stall, fracturing his skull. Often correspondents are wrongly

often correspondents are wrongly advised about some news given them. If we make any mistakes, we will gladly correct them.
On Friday of last week, our veteran friend, Mr. M. T. Yeiser, a public school teacher for nearly a score of years; County Surveyor for twenty years, was in town, doing some work for Mr. Amos Sauble.

Coal seems to be scarce and high in

Coal seems to be scarce and high in price in this part of Carroll County, as much wood for fuel is being transported through town by wagon and

Mr. Kuhns, teacher of Wentz's school, who, several weeks ago, had his right arm badly fractured, started teaching after a week's rest, and has kept right on in the work since, even

though inconvient and painful.
In regard to Newton Hetrick locating in our town in the butchering business, next month, he informs us that it is a false report, or perhaps guess-work on the part of someone. He has no intention of locating in our town. Several weeks ago a delegation of

farmers and tax-payers, numbering about sixty, in and around Lineboro, appeared before the County Commissioners at Westminster in a body, demanding a macadam road from Lineboro to join our recently finished highway. They were treated court-eously, and it seems to be an assured fact that the much needed, improved road will be built next summer.

Recently-and this is November-a travelling man came into our office to telephone to distant friends, "I just arrived in Melrose, after passing over the fearful road from Lineboro, and am on good roads now, and will soon be there." How will the "fearful" road be until March and April of next

One of our townsmen is having his winter supply of wood sawed in an economical way into stove lengths, by connecting a circle saw to a half-ton truck. Two men and the truck do the work with the aid of onlookers.

There is part of a large field near

town containing many seemingly nice specimens of iron ore on the surface. No doubt if someone would use a magnetic ore searcher, much valuable ore could be located there. Not far from could be located there. Not far from this place, there is a little knoll which seems to be hollow, perhaps the remains of an Indian cave. Efforts had Hilterbrand, last Sunday,near Woodsbeen made a number of years ago to dig for an opening, but the whole surface seems to be solid rock covered | a business trip to Baltimore, Tuesda with six inches or more of soil.

BOTH PHONES.

11-16-2t Turkey Marketing Hints.

Turkey time's a-coming! If you want top prices for your birds, here are a few tips.

Range fattening is more satisfactory than pen fattening.

Begin fattening about three weeks

or a month before marketing, and proceed gradually by feeding lightly on corn in the morning and again in the evening a short time before the tur-keys go to roost. Increase the quantity of corn fed gradually until the birds are getting all they will eat. Be careful not to feed new corn too heavily until the turkeys have become accustomed to it, to prevent digestive

Good sized, well matured birds in good condition for fattening can of-ten be marked to best advantage at Thanksgiving. Small, immature tur-keys should be held until Christmas, for further fattening, but if the birds are unthrifty market them at once. Sales outlets to raisers within express shipping distance of good markets are local consumers, local buyers and dealers, more distant buyers or dealers and car-lot shippers, and receivers or commission merchants of live or dressed poultry in the large cities. To determine the best available outlet study shipping charges and keep in touch with both local and distant buyers as to price. Distant buyers will mail quotations on request.

Most producers market their turkeys alive. Shipping dressed turkeys to markets is justified only when making local sales or when there is an unusually favorable outlet for the dressed product. Shipping cops should be high enough to enable the birds to stand up. A coop three feet long, two feet wide and twenty inches high will accommodate five or six turkeys. Over-crowding may result in bruising which detracts from the market value; overcrowding may also cause death and complete loss.

If the birds are on the road only a few hours, do not feed before shipping. If they are on the road a longer time water and feed liberally to prevent shrinkage in weight. Ship in time to place the turkeys on the mar-ket a day or two before the holiday. Late arrivals may reach an overstocked market, and arrival after the holi-

day usually means lower prices.

Killing and dressing birds is simple when properly done. Hang up the turkeys by their legs and with a single stroke push the point of a sharp knife up through the roof of the mouth into the brain. When properly done this operation paralyzes the bird and loosens the feathers so that they come out easily. Then sever the vein in the throat just beyond the skull for bleeding. The turkeys should be dry picked, and plucked clean. Thoroughly cool the carcass after plucking, inas much as failure to remove all animal heat promptly will result in early spoilage. Cool either by hanging outdoors if the temperature is between 30 and 45 degrees, or by immersing in cold running spring water or ice wa-

When thoroughly chilled, the carcasses are ready for shipment. A barrel is a convenient shipping container. Place a layer of cracked ice in the bottom of the barrel, then a layer of turkeys, followed alternately by layers of ice and turkeys, and topped off with a layer of ice. Tack burlap slight to see and they hung motionover the top of the barrel.

turkey business be sure to retain as many of the finest, largest, quickest growing young birds needed to rear the next year's flock and send the rest with his foot and scratch his ear.

More detailed directions for marketing turkeys have been prepared by the Bureau of Agricultural Economics guard, these saintly looking scalawags United States Department of Agriculture, in co-operation with the University of Maryland Extension Service, and may be obtained from your county

Golden Rule Sunday.

December 2, will be Golden Rule Sunday in Maryland. Golden Rule Sunday was inaugurated at Geneva, Switzerland, a few weeks ago, by representatives of twenty societies fourteen counties, now organized as the International Near East Association. Maryland will observe the day with the rest of the world, for it will be an international event.

On Golden Rule Sunday all persons disposed to make a practical application of the Golden Rule are requested to provide for their Sunday dinner approximately the same menu that is approved and provided for at least 50,000 of the children in Near East Orphanages. The menu as adapted and proposed for American homes will be adequate in nutritive food value and palatable. Oscar, the world-famous chef of the Waldorf-Astoria Hotel, Miss Bradley, of the Farmer School of Cookery, and others, are providing special recipes, or forms, in which to serve the orphanage menu in American homes.

The difference between the cost of the usual Sunday dinner and the simpler, less expensive orphanage menu, is to be given as a contribution and thank-offering for the purchase of food for the orphans of the Near

A call for co-operation to the organizations in the State Federation of Womens' Clubs has been sent out to them by Mrs. John F. Sippel, the president; the W. C. T. U., the Womens' International Club, and many they women' argument the sent of the other womens' organizations are cooperating to make the day a success.

Maryland Headquarters, Near East Relief, 14 West Franklin Street, Baltimore, Md., will be glad to send menu for the day to anyone applying writing there and will receive the do-nations of the difference in the home

fare and the orphanage menu of Golden Rule Sunday. ONSTIPATION must be avoided, or torpid liver, biliousness, indigestion and gassy pains result.

Easy to take, thoroughly cleansing CHAMBERLAIN'S TABLETS

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day and lucky jewel

MARTHA

THE names of the sisters of Bethany, Mary and Martha, are closely While Mary signifies bitter. Martha means becoming bitter. Since the sister of the Blessed Virgin bore the same name as her own, both are said to come from Mara (bitter) though some believe that Martha comes from Aramean mar (a lord) often heard as the title of Syrian

Martha of Bethany, according to legend, demolished a terrible dragon by holding up a cross one time when her family was making a journey through wild country. The Marfa of Russia is of course like the English Martha, Matty and Patty (though by rights, the last named is a diminutive of Patricia and not connected with Martha at all). Indeed, in Russia Martha is considered the true housewifely woman of the Bible, independent of the legend of the dragon.

Martha's equivalent has been a royal name, therefore, many centuries, occurring frequently among the daughters of the earlier czars. The Martha used in Ireland is only an equivalent for the native Erse Meabhdh, Meave or Mab, once a great Irish princess, who has since become Queen of the Fairles, and is universally known as Queen Mab. Martha was used for Mor in Scotland. Marthe and Marthon of the south of France and the rarer Marta of Italy and Spain were all from the Provencal dragon-slayer. The name has always had a quaint old-fashioned ring and its popularity will never cease, due no doubt to its Biblical ref-

The pearl is most appropriately Martha's jewel, representing, as it does, purity of thought. Its heritage of tears would seem a fitting attribute for Martha. Monday is said to be her lucky day and seven her lucky number. (© by the Wheeler Syndicate, Inc.)

GULL IS MASTER OF THE AIR

Also Shows Sagacity in Pursuit of Food-Will Steal and Murder Like a Pirate.

One of the prettiest sights was the gulls, which filled the air like so many feathery snowflakes. Their immaculate white bodies and soft wings tipped with black were delightful to see.

They were masters of the air. There was a constant adjustment of wings to meet every air current that struck the rocks where we camped; but in a less, as if in a painted sky. They If you are building up a permanent | tacked straight in the teeth of the wind. I saw one retain perfect poise and at the same time reach forward

> A gull in his own country will steal and murder like a pirate. If a murre guard, these saintly looking scalawags swooped down to eat the eggs and

> The murre has a large, tough shelled egg which the gull's bill cannot penetrate. But these robbers know enough to pick it up, fly out, and drop it on the rock below or nose it along until it drops to the shelf below,

> when they can devour the contents. Oftentimes I have seen a gull pick up a young murre or cormorant not long out of the egg and swallow the youngster alive. The downward course of the young bird was marked by a bulge in the gull's neck.

> I have often seen a western gull act in a way that speaks well for his sagacity. I have watched him open clams and mussels at the seashore. His bill is unfitted for crushing the hard shell, but he will take a clam, rise to a height of 30 feet, and drop it to the hard sand and gravel below. If it doesn't break he will continue the performance. I saw one bird do this 15 times before he was successful.-National Geographic Magazine.

Rug Weaving Lost Art.

Home industry is about gone. Few women bake their own week's supply of bread in Detroit, or even in the smaller towns of the state where the influence of machine production is less. And there is almost no one left who can weave a rag rug. The American rug is the rag rug. And the bag of carpet rags which used to hang in the house was as much of an institution

as the woodbox. Women used to weave their own rag rugs in many homes years ago. Quilt tying is a similar custom which has been slower to die.

There is not even a little rag bag in the home in these days of largescale industry. If there is a rag bag, it is for hat trimming, not for rugs, And the few modest weaving shops scattered around Detroit, with a rug hanging in the front window, are as quaint and old-fashioned in their atmosphere as a violin maker's shop.

The making of rag rugs, however, has been carried to the point of art by a few and in spite of the factory the art will survive.

NO TRESPASSING!

The name of any property owner, or tenant, will be inserted under this heading weekly, until December 15th., for 25 cents cash in advance.

All persons are hereby forewarned not to trespass on my premises with dog, gun, or trap, for the purpose of shooting or taking game of any kind, nor for fishing, or in any way injuring or destroying property. All persons so trespassing render themselves liable to the enforcement of law in such cases, without further notice.

Good Will---

If our practice owes its remarkable success and growth to one single factor more than another, it is to the good will of those who have gotten well by this method. A very high percentage of new patients who come to us each week results from their enthusiastic endorsement of Chiropractic.

We appreciate this loyalty from our friends and patients.

After all, friendships are the best thing in the world anyhow.

DOCTORS CHARLESWORTH

Palmer Graduate Chiropractors

FOUND THE GHOST

Mystery Really Small Task for New York Sleuths.

Comparatively Simple Explanation of Happenings Which Had Made the Proverbial "Nine Days' Wonder."

Ghosts are said to walk abroad at night in country churchyards or to haunt old, old houses, or to wander in far-off deserted places; but cities have not been supposed to be their favorite resorts, nor in cities any such public and unromantic a place as a lunchroom or restaurant. And so it was with feelings of mingled astonishment and dismay that a restaurant keeper in this city recently observed what looked like ghostly pranks played upon his furniture, employees and patrons, according to a report of the Engineering Foundation.

It was seemingly a very modern ghost specializing in electrical effects. Plated tableware would not stay put, but frisked about in unaccountable ways, iron pots rooted themselves to the stove, watches were stopped; customers paid just one visit, beheld the strange doings, and fled to return no more. Help was impossible to retain. Something must be done, the ghost must be laid.

Now, it happened that next door was a substation of the electric light company, and the restaurateur, observing the electric qualities of his familiar spirit, guessed that it might somehow have escaped from his proper domain since it is especially true of electrical sprites that "stone walls do not a prison make." So he appealed to the electric light company to keep It own ghosts busy at home.

The manager of the station thought the restaurant man might be "spoofing" or something, so he decided on a personal investigation. It was all too true. Steel table knives set for service leaped out of place and remained rigidly fixed, giving apprehensions as to the possible fate of a customer who attempted to eat with his knife; iron pots needed Sandow cooks to pry them from the stove, and other weird demonstrations abounded. But he had the answer. He had found

It seems that near the wall on the side of the electric station nearest the restaurant were many large electrical conductors, each carrying heavy currents to and from the converters, or transformers as they are sometimes called. Now it is a property of an electric current to produce a magnetic field, quite similar to that of a big natural magnet, and the "lines of force" of such a field can pass through a brick wall about as easily as through nothing at all. Iron articles in such a field become themselves magnetized and try to line up along the lines of force just as a compass needle lines up with the lines of force of the magnetism of the earth. The restaurant, or at least much of its hardware, was

The remedy was simple. The lines of force will pass through bricks, but through steel, so heavy steel plates were set up along the wall of the substation toward the restaurant. The effect was magical, the ghost was laid. Knives and forks stayed put. One might eat with one's knife in safety; customers were reassured; help was again obtainable.

Said the restaurant man: "I've heard about this personal magnetism stuff and how to get it. I've had enough, I'll tell the world. No more magnetism in mine, thanks."

And this is the story of the now famous magnetic ghost of Manhattan island.—By Science Service.

"Fingers Before Forks."

Knives and forks played no part in one grand state dinner given in Morocco to a group of prominent Americans who recently returned from French Morocco, where they were guests of the government. Samuel Harden Church, president of the Carnegie institute, reciting his experiences at the banquet, said:

"When we reached Marakech we were the guests of the grand pasha, courteous in speech and elegant in manner, with whom we sat on the floor and ate a whole sheep with our fingers. The Berber prince from time to time tore out a rib from the roast and handed it to his guests, and as a special attention he gave a kidney of the sheep to one of the American women of the party."

Odd Experience.

Being a stranger in Chicago, I made arrangements to be met by my cousin at one of the entrances to a well-known department store. After a fruitless wait of 30 minutes I went inside to a telephone booth, intending to call her house, to learn what was delaying her. After depositing a nickel, a pounding on the glass partition of the booth caused me to stop, look and listen. There was my cousin in the very next booth trying to get her house also. We had been waiting at different entrances. -Chicago Journal.

Photographic Statuettes.

Recently introduced into this country from Europe is a very interesting method of making photographic statuettes. The subject is photographed in the usual way. The paper print is then cut out, following the exact outline of the figure. This is pasted on to a mahogany board 3-16-inch thick, which is cut away to match the photograph. When mounted on a small pedestal, this picture stands out in relief so that it looks like an actual statuette.

ABILITY TO SAY "I SAW IT"

Makes Ticketholder at Public Spectacle Get Idea That He Had His Money's Worth.

Questions from Shakespeare and the Bible, analogies drawn from the fall of Rome, and accusations of "loose thinking" are all powerful weapons in an argument, but the most effective is the stout assertion: "I saw it with my own eyes."

This explains why many spectators who have paid substantial sums to see a somewhat disappointing spectacle, such as a recent fight in Jersey City, and go to bed chagrined, come to believe before the following noon that they have had their money's worth. For theirs is the thrill of speaking with authority, says the New York Sun and Globe. Instead of being brusquely contradicted after each statement, they are listened to with respect and are freely quoted and appealed to by disputants who have not paid for the title of "eyewitness." Probably at the next event there will be many buying tickets with the resolve that "this time if that dub Jones tries to tell me what happened, I'll tell him what I saw, and let him know where to get off."

SAW METEORITE AS IT FELL

English Field Laborer Within Fifteen Yard of Projectle-Various Minerals in Its Composition.

The British museum recently received a very interesting gift in the form of a meteorite which fell not long ago near Saffron Waldon, in Es-

About one o'clock in the afternoon a laborer in a field at Ashdon heard a hissing sound, which he took to be the noise of an airplane. Looking up, he was astonished to see, not a plane, but a projectile rushing to the earth. It struck the ground about fifteen yards away, throwing up the soil all round like water.

The man was so much alarmed that he hurried away, but a day or two later returned to the spot with another man and dug out a meteorite, which was found at a depth of two

It weighs about three pounds, and is five inches long and four inches wide, with a thickness of three inches. The stone is composed of various minerals and has in it many small particles of iron.

It is an extremely rare occurrence for anyone to see a meteorite actually fall to earth, only fifteen such instances being recorded in the British

Kindly Act Betrayed Burglar.

His fingerprints on a glass in which he had gallantly offered a maid servant a drink of water proved the undoing of a burglar who tried to rob the home of a magistrate in Pontypridd, Wales. Awakening her with his flashlight, the burglar threatened to strike the girl if she made any noise, but when she said she felt faint he handed her a glass of water, asking where the money and jewels were the house, the intruder disappeared. But the police by means of the fingerprints on the glass were able to trace the burglar, finding him to be a pitman in a Welsh colliery and an old offender. In another instance recently burglars left a note in a house in England they had just robbed, commending the excellent liquors they had found in the cellar.

Couldn't "Get" the Plot.

An English visitor was taken by an American friend to see one of our minstrel shows. It was the first he had ever attended. He sat through it with a slightly puzzled expression. After the performance they adjourned to a restaurant and the American ventured to ask what he thought of the show. "Did you like it, old fellow?"

The Englishman came to time brave-

"Oh, yes. It was a jolly show, a jolly show altogether. Quite so. But I couldn't keep up with the plot for the

Twentieth Century "Prophet."

A man of considerable ancestry whom King George has lately honored with the grand commandership of the Victorian Order is Aga Khan, forty-eighth descendant in direct and unbroken line from the daughter of the prophet Mohammed, founder of the faith of Islam. Here is a man who is not a potentate robed in the garb of the Near East, but a completely modern man in the western sense-dress suit, horse races, golf, stage, polo, tennis, poker, jazz, etc.

Electricity Warms Swimming Pools. Thousands will be saved by the two largest electric water heating boilers in the world, which have been installed in the city of Winnipeg's swimming tanks. The new system will warm the water in the pools and supply hot water for the shower baths. The baths will use no more coal whatever. It will mean a saving to the city of several thousand dollars each year.

Mexican Newspapers.

Seven hundred and twenty newspapers and publications are produced in the republic of Mexico, the largest number, 218, in the federal district embracing the capital. In this national list 43 are commercial, 12 cultural, 2 automobile, 12 comic, 164 for general information, 12 literary, 97 political, 86 religious and 41 socialistic.

HOW =

HEART WEAKNESS CAN BE FORETOLD BY THE X-RAY .-How the X-ray may be used to detect heart weakness, not apparent by other methods of examination, even before the patient has a complaint, is told in a report by Dr. Harry Spiro, cardiovascular specialist, to the Radiological Society of North Amer-

Heart weakness can be discovered, he explained, by simply comparing the two sides of the beating heart as seen under the fluoroscope. The left side of the heart is normally the stronger pump; the muscles of the right side do not normally contract vigorously. If the left side resembles the right side in the size of its pulsatory waves, he said, it can then be said that the two sides are equal in strength, and that, therefore, the left ventricle is not as strong as it should be normally.

Doctor Spiro declared that this method of diagnosing the quality of heart muscle before trouble sets in has important possibili-

WHEN IT HAS HAD ITS DAY

How Money That Is No Longer of Use Is Destroyed by the Government,

Every day there rumbles out of the treasury, under heavy guard, a wagonload, or more, of money gone wrong. Over the smooth roadway past the monument it rolls at 18 miles an hour, up the gentle incline, around the sharp turn to the left and into the great white building where the green lights shine at night on Uncle Sam's new-made money and stamps.

That brief ride is its last. For our money gone wrong is on its way to destruction, says William Picket Helm in the Washington Star. Big bills, little bills, bills of every kind of issue of every denomination, all find their way at last to the graveyard.

Most of it is dirty money, greasy and grimy and without trace of the crisp crackle of its youth. All of it is wornout money. What a tale each bill could tell! Some of it has sped quickly from one spendthrift's hands into another's, gayly, carelessly, without a thought of tomorrow; some of it has known the depths of the saving sock; some of it has mildewed through the years spent underground.

All of it has reached the stage where it must be withdrawn from circulation. The bills have served their purpose. They are destroyed and others issued to take their places.

CAN READ BY THEIR LIGHT

How Species of Costa Rica Beetle Furnishes Remarkable Illumination, According to Traveler.

tumbler will illuminate a moderatesized room sufficiently to make print readable are among the wonders found in the Costa Rican wilds by Robert Ridgway, ornithologist of the United States National museum, and included in an account of his explorations just published by the Smithsonian institu-

The display sometimes made by thousands of our "lightning bugs" or fireflies over damp meadows on a warm summer night, he says, is only a feeble imitation of the splendid pyrotechnic display made by thousands of these large Costa Rica beetles, called carbuncles, pronounced "carbunclys." The light of the carbuncle is not intermittent like that of our fireflies, but is nearly continuous and differs in color in different individuals. The lights are most often yellow, but sometimes green or occasionally ruby red.

How Spiders Make Sounds.

Recent observations have shown that many subspecies of the gigantic spiders, generally known as the mygale, are provided with stridulating or noise-making organs with which squeaking sounds can be produced. It is said that there is not a particle of evidence that these spiders, which have occasionally been known to destroy small reptiles, mammals and birds, possess the sense of hearing. Yet they can emit sounds and the inference is that the purpose of these noises is similar to that of the rattlesnake's rattle-they are emitted when the spider is on the defensive, and under the excitement of fear or anger.

How Motor Worked Under Water. A remarkable performance of an electric motor is reported. The motor was doing service in a mine geared to a pump, and because of the high temperature prevailing at the spot the motor was not inclosed, as they often are. During the winter the mine was flooded, submerging the pump and the motor to a depth of two feet. As it was necessary to continue the operation of the pump, the motor was not shut down, and for two hours it ran without interruption, though being completely submerged, until it had actually pumped itself clear of water .-Washington Star.

How Do You Say It?

The success or failure of a good many men has been determined by the way flev said "ouch" when adversity a crack on the head.-Xeno

WHY =

Some Scholars Believe Earth Is Drying Up

Geographers assert that there is every evidence that the great desert belt that extends across Africa and Asia at or a little above the tropic of Cancer is growing larger and drier. The Syrian desert, which is now an utter waste, was crowded with cities and full of cultivated fields only two or three thousand years ago. Mesopotamia and Persia, ancient seats of civilization, could scarcely have risen so high if their climate then had been what it is now.

There are plenty of evidences that the Sahara and the Libyan desert have encroached on the fertile lands of north Africa and of the Sudan. The old "granary of Rome" in Tunis is now largely an arid waste. It is not surprising if the Nile draws less water than it used to from its tributaries in the Sudan, and loses more than it used to by evaporation. Most geographers agree that the deserts are growing at present. Some believe that it is only an inevitable step in the drying up of the earth, and expect the process to go on forever, though perhaps with occasional remissions.

Other scholars say that there is evidence of an extraordinary amount of fluctuation in the climate of the world; that there have been much drier periods than ours, as well as much rainier ones; and that the widening of the northern desert band is only a phase in a long-time movement of climate from wet to dry and back again. But as these secular movements are extremely slow, often taking many thousands of years to complete their swing, none of us now living will be here long enough to know which theory is the right one.

TO MAKE COMPLETE CHANGE

Why the Post Office Department Is Revising Entire Stamp Series Is Explained to Public.

A complete change in the design of our stamps has just been announced by the United States postal service, the ninth in the history of the country. Denominations from one cent to twelve cents follow the time-honored custom of commemorating great figures in American history. The story of the nation is told in the nine designs and denominations from 14 cents

The purpose of revising the entire stamp series was to produce designs which would have more destinctive color and clearer numerals. Numerous complaints concerning the old series of stamps were made to the Post Office department and it is known that serious losses and mistakes resulted from the lack of definition in certain of the former designs.

Traditional fate has waited upon the 13-cent stamp. This denomination will not appear in the new series. It was brought out during the war when the combined postage and registration fee was 13 cents. Two new denominations take the place of this engrav-Beetles which emit almost continu- ing in the stamp constellation, the 14ously a light so brilliant that one or cent stamp and the 25-cent stamp, two imprisoned within an inverted which are useful in connection with parcel post.

Why Best Bananas Remain Home.

The ordinary fruit-stand banana is grown chiefly in Jamaica, Costa Rica and other parts of tropical America. Some attempt has been made to grow them in California, Louisiana and in other states with warm climates, but this is more or less of an experiment, because the plant cannot endure the slightest frost. As a novelty, a few banana plants have borne fruit in colder climes, but under special pro-

It is interesting to note that the best and most tasty bananas are not known to most of us because they are too perishable to ship any distance. In the East Indies there are bananas that grow over a foot long and about two inches thick. These are not exported, but are used for home consumption.—The Pathfinder.

Why Editors Went Armed.

J. G. Muddiman has written the life of his ancestor, Henry Muddiman, who founded the London Gazette in

1665, says the Detroit News. Muddiman's "News Letters," from 1667 to 1689, the manuscripts of which have been at Longleaf, Wiltshire, since 1704, have been carefully examined. Mr. Muddiman compares the life of a journalist of those far-off days with that of the present.

"A remarkable contrast," he writes, "to a modern editor journeying to his daily work was presented by the bewigged Seventeenth century news writer, mounted on horseback and traveling to Whitehall or the 'Seven Stars' in the Strand, armed with a sword and a brace of pistols in his holster, because of the footpads at Knightsbridge."

Why Janitors Dislike Newly Married. All the world is popularly supposed to love a lover and it is a common belief that all the world has a kindly spot in his or their hearts for the newlyweds. There is, however, one class that does not look with eyes of favor on the newly married-the apartment house janitor.

"Them new tenants in 4x," said one disgustedly the other night, "are newlyweds."

"Why the dislike?" asked a friend. "All newlyweds are a noosance," replied the janitor, biting off a large chew of tobacco. "They don't know how to run things. The first thing you know every fuse in the place is blown out."

LESSON FOR NOVEMBER 25

CHRISTIANS CALLED TO BE MISSIONARIES

LESSON TEXT-John 17:18; Matt. 28:16-20; Acts 1:6-8.
GOLDEN TEXT—"Go ye therefore and teach all nations."—Matt. 28:19. PRIMARY TOPIC-Telling Everyone

About Jesus.
JUNIOR TOPIC—Our Marching Or-

INTERMEDIATE AND SENIOR TOP-IC—Working Together With Christ.
YOUNG PEOPLE AND ADULT TOPIC
—World-Wide Witnessing for Christ.

1. Sent by Christ (John 17:18). Christ was sent into the world to save it. Just as He was sent, so He sends us. Just as He was obedient to the Father's command, so we should be to His command. That this might be possible Christ set apart himself, and that the disciples might be fit for this work they are to be sanctified through the truth of God's. Word. That which fits the one called to rep-

God's holy Word. II. The Great Commission (Matt. 28:16-20).

resent Christ is the knowledge of

At an appointed meeting place in Galilee on a mountain side, Jesus appeared before the disciples and gave this great commission.

1. His Claim of Authority (v. 18). He does not claim to be merely the King of the Jews, but King of Kings and Lord of Lords. He stands clothed with the authority and power of the universe. Before there will be any great concern about evangelizing the world there must be an understanding of the power and might of Jesus Christ as Lord. The Lord must and shall be

2. The Obligation Imposed (vv. 19, 20). They are to make disciples of all nations. The obligation of the Christian is not merely to preach the gospel to the Jews, but to all the nations. Those who accept Christ as Savior and Lord are to be baptized in the name of the Father, Son and Holy Ghost. By this means they openly acknowledge their allegiance to Jesus Christ as their divine Lord. To secure public avowal of loyalty to Christ is important. It strengthens the character of the confessor. They are also to be instructed to render obedience to all the commandments and requirements of the divine Lord.

3. The Divine Presence Promised (v. 20). To assure the disciples of the success of their undertaking, Jesus guarantees His presence at all times and under all circumstances. That which gives courage and encouragement to the missionary today is the assurance of the unfailing promise of the Lord Jesus Christ.

III. The Missionary Program (Acts

It is essential that the missionary program be understood. The work incumbent upon the church is to witness of Christ's gracious salvation to all the nations. After this is done there will follow the preaching of the gospel of the kingdom by converted Israelites. This was not clear to the disciples, therefore they put the question, "Wilt thou at this time restore the kingdom of Israel?" They were right in thinking that the kingdom will be restored. The Davidic kingdom shall be established, but not till after the gospel of the grace of God is preached and the body of Christ is completed. Its realization is certain, but the time is unknown. Times and seasons are in the hands of God. The program which the disciples are to carry out in this present time is witnessing for Christ.

1. In Jerusalem (v. 8). This was done by the Twelve immediately following Pentecost.

2. In Judea and Samaria (v. 8). This was done by the disciples after the hands of the persecutors were laid on them. Not only the Twelve but many others took part in this.

3. Unto the Uttermost Parts of the Earth. Beginning with the first foreign missionary enterprise this work has been carried on with varying degrees of success till the present time.

Being Self-Centered.

Nothing is more wearing or a more fruitful source of unhappiness in the long run than to be self-centered. If our thoughts and plans, our hopes and fears, our ideals and ambitions all center in our own personal comfort and happiness, there must come many a day of infinite weariness and selfdisgust when life does not seem worth living. Poverty or riches have very little to do with it. You will find just as many well-to-do people as poor, for whom life has lost its spice and enthusiasm. It is not a question of capital. but of character.

No Place Sweeter Than Home.

It is very dangerous for any man to find any spot on this broad globe that is sweeter to him than his home.-H. W. Beecher.

A Mind in Health.

The first sure symptom of a mind in health is rest of heart, and pleasure felt at home.-Young.

God Should Be There, A cottage, if God be there, will hold as much happiness as might stock a palace.-J Hamilton.

> November 25 What We Thank God for Psalm 103:1-22.

The things for which thanks to God s offered in this Psalm are these:

1. Forgiveness of iniquity and removal of transgressions (vv. 3, 12). This alone is sufficient to awake in the heart thanksgiving and praise to God. When one is quickened by the Holy Spirit to see what a great forgiveness God has provided in His Son, the soul is filled with wonder, love and praise. To know that everything involved in our transgression has been met, and that all that might rise up against us in judgment was at the cross fully and finally settled, is to be filled with "joy unspeakable and full of glory."

2. "Who healeth all thy diseases." The risen life of Christ imparted to the believer, greatly aids the constructive forces of the body and promotes health. To be filled with joy and peace in believing, is to come into possession of the greatest forces that make for health in the realm of body, mind and spirit.

3. "Who redeemeth thy life from destruction." The life is redeemed from the forces of destruction by the operation of God's saving grace. Israel, thou hast destroyed thyself, but in me is thine help." This may This may be applied to every soul of man. It is an epitome of all human history; it discloses the whole Bible story of human ruin and divine redemption. Those who know God's redeeming power continually cry, "Bless the Lord, O my soul."

4. "Who crowneth thee with loving kindness and tender mercies." This is, indeed, the crown of all God's work He creates good desires and fulfills them. He begins a good work in us and continues that work until it is completed and crowned. And all of this is the outflow of His loving kindness and tender mercies. Be en-couraged and take heart, O children of God, for that which He in mercy commences, He crowns with abundant suc-

5. "Who satisfieth thy mouth with good things; so that thy youth is re-newed like the eagle's." This is applicable both to our material and spiritual well being. At this Thanksgiving season, we should remember both His providence and His saving grace Then, as we read this Psalm, we shall say with all our hearts, "Bless the Lord' O my soul, and forget not all his benefits."

Something to Think About By F. A. WALKER

THE GREAT HEARTED

ONLY the great-hearted can be true

All along the shadowed ways of life the great-hearted are constantly sending out sunlight and cheer, which humans of inferior natures can never know or bestow.

To do good, without having their motives suspected, is their grand intention. They seek no praise.

They move about with the quiet of summer breezes, leaving in their trail the delicious scent of gardens and the peace of tranquil skies.

In the happiness they give to others, they find a gratification rich beyond price. If but once in your life you should be fortunate enough to meet a great-hearted man or woman, the remembrance of it will linger in your mind until the end of your days. Great hearts often dwell in lowly

Sometimes they are found in frail bodies, poorly clad, but there is about them a radiancy of spirit brighter than a thousand stars and clear as the beaming of the noonday sun.

Great hearts blow to flame the spark that blazes with love; they espouse Truth and Mercy; they sing from morn till night of kindness and good will, when their days are lonely and their tables are bare.

They are neither silent nor neglectful when the ill and the discouraged need succor or sympathy.

Meek or lowly, they are the ministering angels from heaven, carrying to the sorrowing "good tidings of great joy." From idle slumbers they call youth and point the way to honor and fame; from the valley of gloom they bid the despondent to look up to the glorious heavens; from the mire of sin they lift up the fallen, seeking no reward but the joy that is theirs from doing good.

They sin as we all sin, but unlike most of us, they are charitable towards all mankind, prayerful, watchful, faith-

When the chimes in the belfry chant their evening hymns, no souls on earth are more serenely peaceful than the great-hearted; when at the setting sun of their life the streams of light grow dim in the golden west, and the somber shadows fall all about them, no souls on earth are happier than they,

THE RIGHT THING at the RIGHT TIME By MARY MARSHALL DUFFEE

REGRETS, ACCEPTANCES

Delay always breeds danger.—Cer-

IN REGRETTING a formal invita-tion all that is usually given as an excuse is a "previous engagement." It is not in good form to go into explanations concerning the nature of this engagement. For instance it would appear rather absurd if we did always tell just why we refused our friends' invitations. Then we might say something like this: "Mr. John Smith regrets very much that as Mrs. Henry Brown's dance occurs on the thirtieth of this month he will be unable to accept because that is the time when the payroll is being made up at the office where he works and he always has to work nights to get through with it," or "Mr. and Mrs. Charles Lee regret that since they are no longer able to afford a nurse and the maid of all work cannot be induced to stay in Saturday evenings, they no longer are able to leave their children on that night and must therefore refuse Mr. and Mrs. William Robinson's kind invitation to dinner," etc.

Such and similar obligations are best grouped as "previous engagements." However, when a person is to be out of town, it should be men-Honod or where there is a death in the family. Thus we would say "Mr. John Smith regrets that, owing to his absence from town, he will be unable to accept," etc., or "Mr. and Mrs. Charles Lee regret that, owing to their recent bereavement, they will be unable," etc.

If one finds that an invitation that has been accepted has to be declined at the eleventh hour no time should be lost in sending this message. If it is a formal invitation the note of regret should be sent by special messenger or if there is not time for that it should be telegraphed rather than telephoned. If it is telegraphed there should be considerable formality and courtesy about the wording of it. It may be written in the third person if the invitation was formal, and would then run like this: "Mr. John Smith regrets exceedingly that, owing to a not serious injury in an automobile accident, he will be unable to be present at dinner with Mr. and Mrs. Paul Jones." But usually it is more convenient even if the invitation came and was first accepted in the third person to have the telegram written in the first person, as: "I regret exceedingly that, owing to an automobile accident, in which I received slight injuries, I will be unable to have the honor of dining with you this evening." For such a telegram one should not begrudge a few words over the ten allowed in order to make the wording polite. In making a last minute regret, no matter how formal the invitation, full explanation should be given as to the occasion for not being present. To accept an invitation and then not to be present without sending a special note of regret is, of course, unpardonable.

The Receiver Off the Hook

When a telephone user fails to replace the receiver on the hook a serious interruption to the service results. In such cases incoming calls cannot be completed, and the operator is compelled to report the line "out of order."

On party lines, if the receiver is not replaced at any one of the stations, not only is that telaphone affected, but none of the other telephones on the line can either make or receive calls. Thus an entire line is put out of service, until the receiver of one telephone is replaced.

Sometimes the receiver is accidentally permitted to rest upon a book, or some object which prevents the hook from coming all the way down. When this occurs it produces the same effect as if the receiver were not replaced.

In cases of this sort a repair man must be sent to inspect the telephone. Some little time must therefore elapse before the receiver is replaced, and during this interval calls of great importance may be lost to the subscriber.

PLEASE REPLACE YOUR RECEIVER ON THE HOOK

are welcome.

The Play.

nesday evening, in this church.

The play which Mr. Holbein is producing for the benefit of St. Joseph's Church, is no exception to the Holbein productions. Clean, full of witty dialogues, humorous situations, well cast, "How One Little Lie can be Multiplied" will afford an evening of unalloyed pleasure. The old favorites will be found in roles that appear to have been written for them.

Who that has attended the Holbein oductions can forget Mrs. Holbein, Myrtle Bell, Miss Loretta Hyman, Tom Campbell, Al and Lou Caldwell, and the Russells—Russell Brooks and Russell Quinn? The two new members of the cast are the Misses Hilda Dumler and Winifred Flaherty. While new to this cast Miss Dumler is new neither to Tanevtown, nor to theatricappeared successfully in a difficult role in 'Along Came Ted." In Miss Flaherty. Mr. Holbein feels that he has uncovered a find. A typical colleen, black hair, blue eyes, clear complexlow and rich in native sweetness. Miss Flaherty rounds out a well balanced

Letter Heads for Christmas.

Every year, a lot of folks are much in doubt as to "what to get" for Christmas presents. Why not try Letters Heads and Envelopes-either one of our \$1.00 offers, advertised in The Record?

Everybody uses paper and envelopes, and once the printed ones are used, they will likely be continued. Anyway, this is a sensible, useful,

lasting gift.

Read over the offer, and let us have of the 16 charges, on a vote of 41 to 0. A plea for a new trial was promptly denied. Lieut. Gov. Tripp now becomes Governor.

Read over the oner, and let us have age until Christmas, or leave it here at the office. It would be hard to get a more useful Dollar's worth.

Taneytown's Chautauqua.
