THE CARROLL RECORD

GIVE US THE NAME AND ADDRESS OF YOUR BOY WHO HAS GONE FROM HOME.

VOL. 32

TANEYTOWN, MARYLAND, FRIDAY, SEPTEMBER 18, 1925.

NO. 12

THE BIG CARROLL COUNTY FAIR.

Pronounced the Best for Exhibits Ever held in County.

After several busy days of preparation, the Carroll County Fair, opened, on Tuesday with a large line of exhibits and side attractions. As the day was threatening from early morning, and rain commenced to fall at mid-afternoon, the attendance was rather small, even for a first day. The various events of the day were carried out. During the races, one of the pony riders was thrown and badly hurt.

Wednesday was a better day, but still threatening, so far as weather was concerned, but the Fair went along in all departments comfortably and smoothly, and with very fair attendance. The rain of the previous day made the ground comfortable and free from dust, and the race track was in fine condition. The big attendance at night made the day equal to that of other years.

Among the Taneytown exhibitors of merchandise of various sorts are: C. O. Fuss & Son, furniture; George R. Sauble and Franklin Bowersox, agricultural implements; Allison & Harner and Raymond Ohler, plumbing and household supplies; The Reindollar Co., feeds; Merle S. Ohler, automobiles; Roy B. Garner, hardware, etc.; Dr. R. F. Wells Co., medicines.

From Westminster, E. M. Frounfelter, Delco Light; A. W. Wampler, house furnishings; H. H. Harbaugh, Chas. W. Klee and D. R. Geiman and Fisher Motor Co., automobiles; Farmer's Supply Co., farm implements; Jos. L. Baust, cream separators; Union Bridge, Frank E. Snyder, automobiles; Gettysburg, Baker's Battery Service, radios; New Windsor, Frounfelter Bros., automobiles.

Middleburg, L. K. Birely, washing machines.

Hanover, Nace's Music Store, exhibits.

Frederick, Cramer & Stephens, musical instruments.

Gettysburg, Warren Service, auto accessories.

The exhibit of horses, cattle, swine sheep and poultry was exceptionally large and fine; while the household exhibits crowded the building, which is much too small for the purpose.

Thursday was a fine day for a Fair the first day of the week with smiling skies, and the people royally responded with perhaps a record-breaking crowd though the ground did not seem crowded. There was more of spread-out of the attractions this year, and a large portion of the crowd assembled on the grand-stand, and took things easy, watching the races and the various free exhibitions on the platform.

We can not give a schedule of the races, but each day's were well contested and fast time made. We would be glad to publish the results, but they must be furnished us, each day, by some one qualified to do so officially.

Both Wednesday and Thursday night's fireworks were fine, and decidedly one of the most attractive features of the fair. The display was not only an expensive one but was expertly handled. Another feature of the fair, this year, was the excellence of three merry-go-round and wheel attractions, all operated by one firm that evidently knows how to operate them safely.

The night attendance was another big feature. The entire grounds are now excellently lighted, and big night attendance is helping the Fair management in bringing up the attendance that may fall short during the day, and this was especially the case on Wednesday night.

Good order prevailed throughout, and we think there must have been very few, or no, complaints of robbery or disorder of any sort; and the chancing schemes that bordered on gambling, seem to have been fairly within the law, or at least not such as to warrant official interference for the protection of the public. The parking of cars and the handling of the crowds in general, was excellently taken care of.

Ran Into Freight Train.

Roy Ensor, of near Utica, and A. G. Wireman, of Woodsboro, who were returning home to Woodsboro, on Thursday night of last week from the vicinity of Creagerstown, in Mr. Ensor's auto, ran into a freight train at the Woodsboro crossing, and both were badly injured.

Mr. Ensor was driving. It is reported that they were either unable to see ahead of them as they approached the crossing, because of dim headlights on the auto, or become confused from a light on the opposite side of the crossing. The car suffered a broken windshield and other damage.

Rare coins are filtering through to Paris and America in numbers so large that they suggest that a valuable find has been made. It is believed to be in Persia.

In the Philippines there are fish that climb trees, fish that squirt poison through syringes, fish so small that 10,000 of them, matured, make a light breakfast for a native, and fish that live on dry land and drown when placed in the water.

ANOTHER WEEK OF T. B. TEST.

Cattle Testing is Nearly Ended in this District.

The result of the T. B. testing of cattle for the past week showed the following results; 425 tested, with 67 reactors—a better percentage of uninfected cattle than usual. The work will continue this week, and easily be finished next week, in the district.

Dr. McCoy is liberal in his praise for the prompt manner in which the diseased cattle have been removed, and the premises disinfected, which is very much to the advantage of the remaining cattle, and to all interests concerned.

In answer to the criticism that no apparently healthy cattle have been killed here, from among the reactors, two healthy looking 2 year old bulls were killed at the Mehring plant. They presented a very nice outward appearance, but on being slaughtered showed well developed tubercular lesions, not in the lungs, but one in the throat and the other in the intestines.

These cattle were in the early stages of the disease, and if killed at a city slaughter house, the carcasses would have been disposed of as fit for food, as the flesh would have tested good. The carcasses, however, were not so disposed of here.

Proceedings of the Orphans' Court.

Monday, Sept. 14, 1925.—Wm. G. and Francis G. Eppley, executors of Martha Ellen Eppley, deceased, reported inventories of personal property, debts due and current money and received order to sell real estate, stocks and bonds and personal property.

The last will and testament of Thomas J. Stouffer, deceased, was duly admitted to probate and letters testamentary thereon were granted unto Katharine Stouffer, who received warrant to appraise personal property and order to notify creditors. Edgar M. Bush and John A. D. Bush, executors of Eleanor Bush, deceased, reported sale of personal estate and settled their first and final account.

Tuesday, Sept. 15, 1925.—Lydia A. Stremmel, executrix of William H. Stremmel, deceased, settled her first and final account.

The sale of real estate of Jason P. E. Hood, deceased, was finally ratified by the Court.

Letters of administration on the estate of Susan Dutrow, deceased, were granted unto John J. Dutrow, who received warrant to appraise personal property and order to notify creditors.

Letters of administration on the estate of John N. Ditch, deceased, were granted unto Annie E. Wantz, who received order to notify creditors.

Fire Prevention Week.

October 4 to 10th, is "Fire Prevention Week." The churches, schools, newspapers, manufacturers, business men of all kinds, are urged to contribute something toward the object of making our country, our homes, our interests in general, safer against fire, during this week. The movement is backed by the National Board of Fire Underwriters, the National Protective Association, and the Chamber of Commerce of the United States.

Suggestions as to how to arrange programs, can be had on application to the National Board of Fire Underwriters, 76 William St., New York.

The following suggestions are made for schools:

- 1—A talk by the teacher, or superintendent, localized and made as simple as possible.
- 2—Staging of "The Trail by Fire" a play that can be had by writing the National Board of Underwriters.
- 3—Practical advice given by some uniformed firemen.
- 4—Reading of essays on the dangers of carelessness that may produce fires.
- 5—A fire drill.
- 6—Invitation to parents, in order to arouse interest and help make up a program.
- 7—Talks by Insurance Agents.

Whatever may suggest itself, in a practical way, by anybody, should be placed into effect during this week. Notices in stores, shop windows, signs in warehouses, a line or two in advertisements, "No Smoking" rules, the consideration of fire escapes, looking after defective flues and chimneys, etc., can be used. Everybody is urged to help in some way.

Wheat Yield only 13 Bushels to the Acre.

The Department of Agriculture figures the average of wheat per acre taking the country as a whole, at only 13 bushels. The crop this year is estimated at 700,000,000 bushels, while last year's total was 873,000,000 bushels. It is said that the crop is only about sufficient for home requirements, and that there will be but little for export. However, as foreign crops are heavy, there is but little foreign demand expected.

The Canadian yield, this year, will be about 391,819,000 bushels, as compared with only 262,000,000 last year.

The other day, at a Chester County, Pa., woman shot at a chicken hawk, as she supposed, and killed a man who was passing through some bushes in which the hawk had disappeared.

MURDER CASE NEAR UNION BRIDGE

Robbery Supposed to Have Been Cause of the Crime.

William Gould, a farm hand, aged about 45 or 50 years, was found dead in a horse stable near the store of Peter Bosco, Union Bridge, on Sunday morning, with a badly battered head. He was last seen alive on Saturday night when he left the Bosco store, in company with a colored man named Willis, of Bark Hill, who is being held until the case is more fully investigated. Willis says he knows nothing of the killing, as they went different ways on leaving the store.

Gould is a stranger in the neighborhood but is believed to have come from the South somewhere. He had been working during the past two weeks on the farm of William Hesson near New Windsor. On Saturday afternoon he left the farm in company with another man, to go to Union Bridge, and it is known that he had \$50.00 in his possession at the time of leaving, which was missing when his body was found.

State's Attorney Brown was notified, and conducted an investigation, Thomas F. Gaither, J. P., summoned a jury of inquest, with Geo. S. Eichelberger as foreman, and the following members; T. R. Hesson, Geo. H. Eyley, John F. Messler, George Alexander, Seven Pogle, Harvey Haines, Harry Butcher, J. M. Repp and Harry Schue. An autopsy was performed by Dr. Harry F. Bare and Dr. James T. Marsh. After the jury had viewed the body, and heard the results of the autopsy, it adjourned until Thursday night, the 17th, when the inquest was continued.

There is a belief, on the part of some, that Gould may have been connected with authorities attempting to secure evidence concerning a suspected bootlegging business in the neighborhood. Two other negroes, in addition to Willis, are being held under suspicion.

Are You Sure Your Child's Birth is Recorded?

In connection with the opening of schools throughout the state, the clerks in the Bureau of vital Statistics of the State Department of Health, according to reports from that Department, have been kept busy answering inquiries and looking up birth records for parents whose children have recently reached school age. According to the school requirements all new pupils must present satisfactory evidence of the fact that they are approximately six years old or over before they can be enrolled.

If the births have been recorded the requirement is easily met by parents who have carefully kept the card that was mailed to them from the State Department of Health, certifying that the birth had been duly registered. If the birth was not recorded by the attending physician or midwife, the parents may have considerable difficulty in securing the necessary certificates. In some places, parish church records have been resorted to, but unless such records had been kept with great accuracy, it has not been possible to obtain the information that would be legally acceptable.

"Tests that we are making constantly, show that at least 95 percent of the births in Maryland are registered promptly and accurately by the doctors and midwives throughout the State," said Dr. F. V. Beiler, Statistician of the State Department of Health and Chief of the Bureau that is the custodian of the records of births and deaths; "But failure to report a single birth means the omission of that name from our records—failure to report as much as five percent would mean the omission of approximately 1750 names a year, or 8750 in a five year period."

"The registration of a child's birth is required for the benefit of the child—not to satisfy some whim of the lawmakers. It is of the utmost importance to the individual as it legally establishes his identity. The child may need the record, some day, not only to prove he is of school age, but to establish his right to property or to an inheritance; his right to vote; to establish legitimacy; to prove his birthplace; his age and citizenship (this applies especially to children of foreign born parents); to recover pension claims; and for numerous legal and other purposes."

The registration of a child's birth is his birthright—the first and one of the most important safeguards the state provides for him. The doctors and midwives throughout Maryland are, as a whole, co-operating cordially with the Department in the prompt and accurate registration of every birth—but it is the duty of every parent to find out whether such a record has been filed.

"Is your child's birth recorded? If not, why not?"

Baseball Championships.

Pittsburg won in the National League, with New York second. In the American League, Washington again won, with Philadelphia second. In the American Association, Louisville won, and will contest for the championship with Baltimore, that again won in the International League. Hagerstown defeated Cambridge for the state championship.

ANGER IN SCHOOL GAMES.

Too Strenuous Athletic Exercise Bad for the Heart.

Both boys and girls can easily overdo in athletics while attending school, as well as in the years of youth following school age. Dr. Chester T. Brown, associate medical director of an insurance Company, recently warned parents, instructors and children, that the latter should be carefully kept from making undue demands upon their hearts.

The danger is especially great in such schools that do not have children specially examined as to their fitness for athletics, for be it known, there is a vast difference between proper exercise, and indulgence in athletic sports.

Schools that consider various games as part of necessary development, should be especially careful not to permit children to overdo, in the matter of games, as such choice can not be safely left to the children themselves.

"Boys and girls of athletic tastes are likely to have in their early teen, ambitions beyond their strength to realize," said Doctor Brown.

"It is the age when they view every thing in the superlative. That is as it should be. But to keep them from burning out their energies they need a tactful word of advice that will help them direct their real ambitions toward the more mature period when they will have attained their growth and their strength."

"Young men and women in the college can stand rigorous training far better than boys and girls four or five years younger. The most rapid period of growth is usually between 12 and 16 years. The heart at this time is doing an up-hill job, so to speak, and care must be taken not to aid any extra strain. There has to be some competition in sports to give them zest, but the spirit of rivalry should be subordinated to the general love of the game."

"Impress upon girls and boys that the way to build up a powerful physique is to regulate the earlier activities to the point where they aid in the body's development but do not make demands upon it beyond its very limited strength in those years. Athletics, so far as they provide an enjoyable way of getting exercise in the open air, are excellent for boys and girls—men and women—of all ages. But the heart must always be considered."

"There is more heart trouble among children of school and high school age than is generally realized. Through wise living—nourishing food and plenty of time spent in the open air—boys and girls can do much to overcome many heart impairments. On the other hand, there is a risk of the heart being permanently weakened if there is an undue strain put upon it during adolescence."

Egg Laying Contest.

College Park, Md., September 12—Eighty of the one hundred houses which are being erected at the University of Maryland Experiment Station to house the thousand hens which are expected to lay their way to fame with the beginning of the Maryland Egg Laying Contest, Nov. 1, have been completed and are ready for interior furnishings.

Contrary to what might be expected, the elite of the poultry kingdom are to be provided with no luxuries and will be permitted no extravagances. The houses will be warm and comfortable but are of the simplest and least expensive type to build. They are of the open-front, shed-roof type, six by ten feet in size. Interior fixtures will include roosts, dropping boards, a broody coop, nests and feed and watering devices.

All interior equipment is of simple design and can readily be copied by the average person. The house, fixtures and yarding system, it is said, are such as can be recommended to the average back-lot poultryman who is interested in keeping a few fowls for home use or fancy.

When all the buildings have been completed they will be arranged in five rows on a three and a half acre field, in view of and easily accessible from the Baltimore-Washington Boulevard. The grouping has been designed to take care of the fowls easy and to give visitors the best possible chance to inspect the birds in the different pens.

The feeding ration for all fowls in the contest will consist of a dry mash composed of 100 pounds of wheat bran; 100 pounds of wheat flour middlings; 100 pounds of finely ground heavy oats; 100 pounds of yellow corn meal; 100 pounds of meat and bone meal (50 to 55 percent protein); and 2½ pounds of salt free from lumps. The mash feed will be equal parts of wheat and whole yellow corn, by weight.

The mash will be fed dry and will be kept before the fowls at all times. The grain will be fed in the litter, morning and night, in such an amount as to force the birds to consume approximately equal by weight of mash and scratch.

T. B. SYMONS, Director.

Strike in Bituminous Field.

A sympathetic strike has been ordered, that affects union miners in the bituminous coal fields of West Virginia, to take effect September 26. Many of the mines in West Virginia are non-union, and the union strength is not at present considered strong.

Chief Bacon Rine, of the Osage Indians, recently had an audience with President Coolidge.

TWO IMPORTANT PRIMARY ELECTIONS

Democratic Fight in New York, and Republicans in Wisconsin.

Two important primaries were held on Tuesday, both having National significance, and both hotly contested within parties. The one in New York city, between Mayor Hylan, candidate for the Democratic nomination for Mayor, backed by William Randolph Hearst, and State Senator James J. Walker, backed by the Tammany organization and Governor Smith, was easily of first importance. The Republicans also had three candidates, but interest centered in the Democratic fight, which was regarded as a fight between Smith and Hearst for the control of the party in the state.

The other case was that of Robert M. La Follette, Jr., who seeks his father's seat in the U. S. Senate. La Follette claims to be a Republican, but is not recognized as such by the National party organization. Two regular Republicans were in the fight—Ex-Gov. Francis E. McGovern, and Roy Wilcox, both claiming to be "Coolidge" Republicans.

In New York, Walker, the Gov. Smith and Tammany candidate, defeated Mayor Hylan by about 95,000. There are rumors of a third ticket, at the election to follow, perhaps headed by Hylan, but this is at present largely speculation. Waterman, Republican, easily defeated his two opponents.

In Wisconsin, La Follette won the Republican Senatorial nomination, receiving more votes than the other three candidates combined. There is also a likelihood of an independent Republican candidate at the election on Sept. 29, but the state is still clearly back of La Folletteism.

Family Reunions.

Family reunions are all right. They ought to be held every year, and indefinitely. But, by another year they will likely present a big problem to county weeklies, in the matter of publishing the "names of those present." Likely this will be one of the "things that can't be done," but the publishing of the names is really of but little importance—the important thing is for the families to get together, for their own interests and pleasure, followed by the publication of only the main features, the program, and the total number present.

Family reunions, in the matter of the names of "those present" are much like "socials" and "surprise parties"—the names are of little real value, as news. "Those present" at church services, pic-nics, festivals, anniversaries, funerals and innumerable other important public or social occasions, are never published; and Family reunions and parties should be in the same class.

Both publishers, and many readers of newspapers, take this view of the matter of publishing names, as newspaper space can be much more profitably used.

Why the Government Borrows.

The new issue of Treasury certificates to be effected this month calls to mind once more the important part played by technical financing in relieving the burdens of the taxpayer. This element is often overlooked, for instance, in consideration of the war debts. We note that we are paying between 4 and 5 percent in interest on Victory and Liberty loans, while foreign nations are paying us only 3 or 3½ percent.

But a part of these loans is being bought in by the Treasury with money borrowed at lower interest. The certificates to be issued this month will bear only 3½ percent interest, the proceeds to be used, partially, to reduce the public debt now bearing an average interest, say, of about 4½ percent.

Last September the Treasury borrowed at a rate as low as 2½ percent. Though more must be paid this year, there is good reason to believe that, in time to come, the rate will fall below even last September's. Even so, borrowing at 3½ percent is a redeeming bond bearing interest at 4½ appears to be good business practice."

Banner Corn Crop in Maryland.

Maryland farmers have a fat chance of averaging not less than 41 bushels of corn to the acre this season, says John S. Dennee, Federal agricultural statistician for Maryland. Only once before in 59 years, according to the Statistician, and that was in 1919, has Maryland averaged so high a corn yield. Careful seed selection at planting time and good weather for field work during the cultural period are given as the outstanding reasons for the big success of the crop.

Production, based on September 1 condition as reported to the Crop Reporting Board of the United States Department of Agriculture, is estimated at 26,630,000 bushels against 18,538,000 last season, and 25,926,000 bushels, the average of harvests during the preceding five years (1920-1924). The 1925 crop at current prices has an estimated farm value of \$32,222,000. Much of Maryland's corn is consumed on the farms where produced, or marketed "on the hoof." The 1924 harvest was 8,000,000 bushels less than the 1925 crop and was estimated to be worth \$20,577,000 at the farm gate.

INTERESTING TO YOUNG MEN.

Senator Weller has Four Appointments to Make.

Senator O. E. Weller will make three appointments to the United States Naval Academy and one appointment to the United States Military Academy, for 1926, through competitive examinations. The examinations for this purpose will be held by the United States Civil Service Commission at 9:00 A. M., on Saturday, October 24, 1925, at the office of the Secretary to the Local Board of Civil Service Examiners, at the Post-office Building, in Cumberland, Hagerstown, Annapolis, Cambridge, Easton, Salisbury, and at the Custom House building in Baltimore.

A boy must have passed his 16th birthday and not his 20th, on April 1, 1926, to be eligible for these Naval Academy appointments, and must have passed his 17th birthday and not his 22nd, on July 1, 1926, to be eligible for the Military Academy appointment. Senator Weller will appoint as principals the first boys certified by the Civil Service Commission as having the highest averages in their examinations; the second four as first alternates; and the third four as second alternates.

Senator Weller is himself a graduate of the Naval Academy. He is a member of the famous Class of '81, which includes Secretary of War Weeks, Admiral Henry B. Wilson, Major General George Barnett, Admiral S. Uriu, of the Japanese Navy, and many other distinguished men.

The Senator obtained his appointment to the Naval Academy by competitive examination, and believes that every eligible young man should have the same opportunity that he had. For any further information desired, including a form showing the character and scope of these examinations, address—Honorable O. E. Weller, United States Senate, Washington, D. C.

The Dahlia Show.

The annual Dahlia Show will be held in Westminster, Saturday and Sunday, Sept. 26 and 27th. Only two dahlia blooms will be required to enter the regular type classes. Prizes will be awarded for the following classes, Decorative, Hybrid Cactus, Cactus, Show, Pompon, Peony, Collected, Duplex, also any bouquet of fall flowers.

We expect to have a fine exhibit this year of the different varieties of fall flowers. We hope a number of people will take interest in this show and exhibit their fall flowers. Ribbons and other prizes will be awarded.

Why Tomato Growers Lost.

Queen Anne's county tomato growers have lost thousands of dollars so far this season by failing to take advantage of the contract price of 30 cents per basket, offered by packers throughout all sections early this year.

For the last ten days the market has been glutted, and prices have ranged from ten cents to twenty-five cents a basket.

Yesterday the market was a trifle stronger, and prices will probably advance as production decreases. While the yield per acre may not prove high this season, it will probably produce the largest number of baskets in years, due to a greatly increased acreage.—Centreville Observer.

"Ma" Ferguson a Lucky Governor.

"Ma" Ferguson, the woman Governor of Texas, is going to have a record year of profit-making for the state, on account of the present high price of cotton. The state owns a lot of cotton farms, operated largely by state convicts. When Mrs. Ferguson became Governor, the penitentiary system of the state was facing a debt of \$600,000. The revenue from this year's cotton crop will wipe out this debt, and leave a balance of over \$1,000,000.

Egyptian Exedra Memorial.

Joseph L. Mathias, Westminster, Md., has recently erected in his Memorial display yard an Egyptian Exedra Memorial. The design is original and was especially executed for him by the Georgia Marble Co., Tate, Ga., who were the executors of the Lincoln Memorial in Washington, D. C. The Exedra is highly carved and displays the insignia of the Egyptian Sun God and Lotus flowers which are typical of Ancient Egyptian art and architecture. The entire structure is composed of twenty-three pieces. A duplicate of this memorial was exhibited in the Cleveland Auditorium, Cleveland, Ohio, when the Memorial Craftsmen of America held their annual convention there in August.

Marriage Licenses.

William C. Caples and Emma C. Smith, Westminster.
Augustus J. Randall and Bessie V. Harris, Baltimore.
James H. Peeling and Norma G. Young, Finksburg.
Harvey B. Buckland and Jennie H. Bushey, Schnectady, N. Y.

The Tennessee legislature has appropriated \$120,000 for additions to the Negro state normal school at Nashville, bringing the amount available up to \$320,000.

THE CARROLL RECORD

(NON-PARTISAN)

Published every Friday, at Taneytown, Md., by The Carroll Record Company.

P. B. ENGLAR, Editor and Manager.

BOARD OF DIRECTORS.

GEO. H. BIRNIE, Pres. JOHN S. BOWER,
G. A. ARNOLD, V. Pres. D. J. HESSON,
JAS. BUFFINGTON. P. B. ENGLAR,
G. WALTER WILT, Secretary.

TERMS.—Strictly cash in advance. One year, \$1.50; 3 months, \$1.00; 6 months, 75c; 4 months, 50c; 3 months, 40c; single copies, 3c.

The label on paper contains date to which the subscription has been paid. All subscriptions will be discontinued on expiration, according to Governmental orders.

ADVERTISING rates will be given on application, after the character of the business has been definitely stated, together with information as to space, position and length of contract. The publisher reserves the privilege of declining all offers for space.

All advertisements for 2nd, 3rd, 4th, and 7th pages must be in our office by Tuesday morning each week; otherwise, insertion cannot be guaranteed until the following week.

FRIDAY, SEPTEMBER 13, 1925.

Entered at Taneytown Post-office as Second Class Matter.

All articles on this page are either original, or properly credited. This has always been a fixed rule with this office, and we suggest the adoption of it by our exchanges.

The Coal Strike.

For once, the people are practically ignoring a big news item—the anthracite coal strike—and but little space is given to it in the newspapers in consequence. Somehow, the public is strongly inclined to think that the miners are decidedly in the wrong, this time, and that the old "high cost of living" argument does not apply. The operators have the best of it, on the basis of public sentiment, the belief being that the miners are well paid.

The fact that more than 50 percent of the miners are foreign born, may have something to do with it; also, the fact is that "the cost of living" has materially declined, while the miners have been getting more than war-time pay, wages having increased something like three times as much as living expenses.

At any rate, after two weeks of the strike, it is very little heard of as compared with the important developments that may come out of it.

The Col. Mitchell Case.

The war department is reported to be getting ready to punish Co. Wm. Mitchell, former assistant chief of the army air service, for "airing" his criticisms of the conduct of our country's air activities. Perhaps, like Vice President Daves, Col. Mitchell is telling a lot of truth that is highly unpalatable to some of our official family members? At any rate, it hardly seems fair to us that he should be tried and convicted by the "family." It is not in order in this country, for the condemned to act as his own judge and jury.

Col. Mitchell has unquestionably fractured the regulations, in attacking the ability of his superior officers; but it is sometimes true that the supervisors are not as "superior" as they take themselves to be, and who is to unveil the truth, if it is not somebody in a position to have a good idea of just what the truth is?

The Senate is likely to give Mr. Daves a disagreeable time of it, for his very injudicious (as we think) method of acting as school-master; but, this does not demonstrate that Mr. Daves did not tell the truth—only that he went in a most disagreeable and tactless way about it.

The same may be true of the Mitchell charges, and yet, how would the facts—if they are facts—get before the public unless plainly spoken? So, we are of the opinion that the officials of the War and Navy departments should go slow in condemning Mitchell, in a hammer and tongs way. Rather, the right thing to do is overlook the mere insubordination side of the matter, and get rather prayerfully down to the exact facts. Let the attacked be as open with the real evidence, as the one who made the attack. The big general public is vitally interested.

"Cheering up" Farmers.

All of us ought to be open to evidences of satisfactory "times." When things are going well, we ought to do our part by cheering up the tune of things, and not look about us for chances to squawk about matters that might be still better. But, there is an awful lot of "cheer up" stuff in the papers that is intended to make us feel well, whether we are or not, likely following the theory that our state of health and state of business is largely a state of mind—merely a psychologic condition.

Take for instance the "farm outlook" write-ups. Many of them are fair, most of them are correct in their general statements as to improved conditions, but a lot of them over-do the subject by painting rosy pictures that do not exist—at least, not in this neck of woods. For instance, in the midst of a news agency write-up, last week, in which apparently farmers

are all located on "Easy street", this sentence appears—"They have no trouble in selling their farms."

Taken literally, this is correct. But, selling a farm, and selling it at a satisfactory price, are two very different accomplishments. This statement, by the way, was credited to William M. Jardine, Secretary of Agriculture, but this does not alter the fact that he was making a misleading statement for a considerable area of this country, for farms are not generally selling readily at satisfactory prices.

Carrying the farm value question further, farms are not only not selling well, but there is no active demand for farms to rent. With the greatly improved results from farm operations this year, we do not see why there should not be a greater present demand, both for farms by purchase, and farms by tenants, but such a demand has not yet arrived in our county, so far as we are able to see, and when they are not in demand in Carroll County, Maryland, we are in doubt as to their being in such demand elsewhere in the east.

We are not attempting to manufacture a "grouch" for Maryland farmers. Rather, we would like to join in the tune that it is "bully" to be a farmer now; but, we are afflicted with the more or less chronic habit of telling the truth, and while we do see an altogether better outlook for our farmer friends, we nevertheless find that it takes more than a mere state of happy mental visions to produce actual satisfactory sales and rentals of farms.

"Cityfied" Towns.

Some towns are constitutionally and regularly selfish, just like some individuals. They are all for themselves, their "boosting" their pleasure, their profit. Any event, not held in one of these towns, is given very little publicity or patronage, by either the newspapers, or the citizens of the town—it is "our" town, and "our" profit, or no support.

Pride in the home town is all right. Working for home interests and home advancement, is the natural and patriotic business of everybody. But, there are proper limits to everything and to every good motto, and that limit is marked by proper consideration for the equities of others—to common fairness and decent fraternal relations.

Fraternal rivalry between towns is to be expected; but when "the other town" wins a point, the loser should not sulk and refuse to play. Neither should any town try to monopolize everything that goes, merely for the sake of "getting things," and then not help to make them a success after they get them. This frequently happens.

It always pays for even rivals to be both fair and friendly; and for the larger to have full respect for the smaller. Just because "our town" is not doing some one creditable thing, is no sensible reason for our trying to keep the "other town" from making a success of their undertaking. This is small business.

Some towns recognize others only when they need them—only as they can exploit them for profit—"make use of them" as we say—for instance, during campaigns previous to an election. When the big town—or any town—commercializes all its advantages, or considers all propositions selfishly—acts the "big fish"—it really belittles itself; and instead of gaining, actually loses, for there are always those of discriminating minds who know the outward signs of true selfishness.

The "city" seems to regard country towns as their natural prey, and as mere blotches on the surface of the earth not worth considering—except as "customers"—as a source of money streams citywards. Some large towns are also "cityfied" along this same line.

The Pepper Platform.

Senator Pepper, of Pennsylvania, is a candidate for re-election. In his announcement he states that he is the candidate of the Republican party in the state, expecting the support of all Republican organizations, but will not make a deal, or bargain, with any of them. On the whole, his announcement is dignified and independent, and quite "Senatorial" in character. The Philadelphia Ledger further says:

"He does not propose to be the candidate of the Vare organization nor of any other clique or combine. He proposes to be a candidate representing the State of Pennsylvania. He believes it to be for the best interests of the Republican Party that he should adopt the principle that the Senatorship should not be treated 'as an office to be bargained for with powerful groups in some of the counties.'"

In accordance with that principle the Senator does not propose to seek conferences with Congressman Vare, the undisputed leader of the Philadelphia organization, the most pow-

erful political group or unit in the State.

If Vare desires to confer with him, the Senator will meet him. But Mr. Pepper will not ask Vare's support, will not bargain with him, will not enter into any deal with him respecting other offices on the State ticket and consistently will refuse to trade Philadelphia's or Vare's support against the rest of the State.

Editor Describes the Proper Editorial Page.

"You know," said David E. Smiley, editor in chief of the Philadelphia Public Ledger and other Curtis papers, "the more I think of the editorial page the more convinced I am that the reading public is sick and tired and all fed up on the grouch, complaining, always-knocking something type of editorial that some newspapers persist in using."

"People don't like to be 'preached to' day after day. There's enough of that sort of thing in everyday life. The newspaper that continually throws at the public one-sided viewpoints on important public matters—political, religious and otherwise—gets eventually into the same class as the 'nagger,' or the man or woman with a chip on the shoulder, waiting hoping always for some person to come along and knock it off."

"People nowadays want both sides of every question that engages their attention."

"The editorial page is the newspaper mirror of life. To be worth while it should reflect in a proper way the mind of the reading public. I don't mean it should not attack and fight consistently against corruption and things inimical to the public good. It should do that very thing."

"The editorial page of a newspaper is the place where the beautiful in the English language should find opportunity for proper expression. There is nothing so entrancing, so delightfully resting and soothing, so helpful or so inviting as words expressed in the language of the bountiful." It brightens a newspaper and injects a ray of sunshine that relieves and rests the mind, so accustomed all day long to the hardships that embitter the average man or woman fighting in a practical world for actual existence. And where else is the public to look for such expression if not on the editorial page?

"The average person, takes little time nowadays to read books. It may be unfortunate, but it is a fact. The newspaper, therefore, that gives expression to the best in life, mingled with good humor, minus the 'preaching' and stressing the things that really are constructive, is the newspaper that will not want for circulation. It will find a welcome in the home."—From an interview with David E. Smiley in the Editor and Publisher.

The Thirst for Office.

The thirst for office is a terrible affliction. It is said that few ever leave Washington without wasting the rest of their lives contriving to get back. One ex-President's life is said to have been deeply embittered by the fact that the country seemed to get along with him out of office. Over in Great Britain today there exists a situation which for difficulty equals anything in Europe, and the helplessness of public leaders in the face of overwhelming problems is frightening to contemplate.

No man in his senses would wish to exchange places with the Premier of Great Britain, unless that man were divinely endowed with infallible light as to the way out of the present wilderness. Yet there are in Great Britain at the present moment two ex-premiers who know from experience the enormity of the difficulty, who have proved to the world their own incapacity to cope with it, and these two men are using every political wile to become Premier again! What poison there must be in public office so to destroy a sense of proportion, a sense of the solemnity of responsibility, in men.

Woodrow Wilson once said that a man was a fool to desire to be President. There is much in that. Yet, here and there throughout the country are men who have angled for the office with every conceivable bait. A thirst for the office is probably a sign of unfitness for it. This goes for incumbents as well as would-be incumbents. It is easily understood how a man with a purpose and a plan should desire the office as the means of working out his plan, but we have seen very little of that in recent years.

The amazing part of the present clamor for attention on the part of would-be presidents is that none of them tell us why he wants the office, or what he would do with it should he get it, or why he thinks he is so much better than anyone else that he feels justified in asking us to look upon him as the future Chief Magistrate.—Dearborn Independent.

The Bondage of Ignorance.

Former Secretary of State Hughes of course, referred to no new danger in his address as head of the American Bar Association when he issued a warning against the bondage of ignorance. From the beginning of civilization ignorance has been recognized as probably the greatest handicap to social progress. Dishonesty pure and simple may characterize the politician who for his own selfish purposes deceives his followers into taking a course contrary to the public good. But ignorance obviously is the trouble with those who permit themselves thus to be imposed upon. There are some who think of ignorance, prejudice and bigotry only in connection with intolerance in religion, but such conditions are to be found in all social activities. The cause of world peace has been held back chiefly by ignorance, prejudice and bigotry in politics. We find the same traits, coupled with sheer dishonesty, handicapping the administration of the law. Mr. Hughes had something to say specifically of the legal profession. He sees a menace in the admission of incompetents to the practice of law. "There is no guaranty of liberty in putting the community in bondage to the ignorant," he emphasized.

The people must be trained to be on guard against charlatans and bigots in politics, the law and business as well as against fanatics in religion.—Pittsburgh Post.

A Believer

Homer Hazel, twenty-nine years of age, with a wife and three children, is paying his way through Rutgers, where he is the star athlete and the most popular man.

"I believe in hard work," he said at a New Brunswick reception. "A big business man crossed the ocean one winter when times were hard in order to drum up some foreign orders, and one stormy evening in the smoking-room a society chap said to him: 'Terrible time, terrible. And you, sir, like the rest of us, are hoping for better things, I suppose?'"

"No, my friend," said the big business man. "No, I'm not hoping for better things. I've got my coat off and my sleeves rolled up, and by gosh, I'm working for them."

Unhappy Isle of Corfu

Corfu, one of the loveliest of the Isles of Greece, is again in trouble. It has changed hands more than a score of times and has had as many different owners. Known originally as Coreyra, it was the site of the first naval battle fought in the annals of Greece, the engagement taking place nearly 700 years before the birth of Christ. Since then it has figured in innumerable near eastern cities—an island which has been the cause of almost endless bloodshed. Pirates of old Illyria, Romans, French, Sicilians, English, Italians, Corsairs, Turks and, of course, Greeks, have all had a hand in its affairs at some time or other. Great Britain ruled it for not quite fifty years, when it passed under Greek control at the wish of its inhabitants. Today its future is as uncertain as ever it was.—Family Herald.

Rough on the Cat

A professor of Harvard university has recently demonstrated in the same experiment both the power and the awfulness of science. Everybody knows that when a cat is mad or excited his hair stands on end, he arches his back and boists his tail toward the starry firmament. This professor operated on the brain of a cat and made the cat permanently mad and excited. And all this was done without the least pain to the cat. But the poor cat's hair stands up, his claws are drawn out and he continuously scratches and spits.

Stepping On The Gas

It is reported that last year 43,000 people were killed by gas—2,000 by asphyxiation, 1,000 by attempting to light it, and 40,000 by "stepping on it."

There is a moral in that, for it is not a joke. A good many people are traveling fast these days, not only in motor cars but in general methods of living. There is always a temptation to "step on it" when more speed can be attained. This bank believes in "safety first" rather than in "stepping on the gas."

POULTRY

POULTRY SHIPPERS
SAVE MUCH MONEY

A report prepared by V. W. Lewis, live stock marketing specialist for the North Carolina state division of markets, shows that those poultry growers of North Carolina who took advantage of the co-operative cart shipment of poultry and eggs this spring saved a total of \$28,578.48.

The shipments began on March 26 and closed on June 20. During that time, through the efforts of the home and farm demonstration agents of State college, the teachers of agriculture in the high schools and the marketing specialists, 464,285 pounds of poultry and 3,151 cases of eggs were shipped. In addition to the eggs shipped a total of 3,530 cases were stored in a cold storage plant in Wilmington to await the higher prices of the winter months.

Mr. Lewis says: "When we began this work, live hens were selling in the territory indicated at from 17 to 20 cents per pound and only in a few instances did the producers get as much as 20 cents. All but six cars of this poultry brought a price of from 22 to 25 cents per pound at the car door."

Farmers taking part in this movement saved at least 4 cents per pound by selling co-operatively in addition to the fact of having a market brought to their home towns. The movement spread and some counties made shipments not included in the amount given. Vance county, for instance, made two shipments in co-operation with the marketing agents of a railroad; Rutherford county shipped 43,741 pounds and the Farmers' federation of Asheville shipped 190,000 pounds.

Indications are that this movement will grow in volume and importance in 1926 and Mr. Lewis states that there is now no longer any excuse for growers not making money with poultry. All that is needed, he says, is for the producers to get behind some organized movement to help themselves.

Prevention of Disease Most Profitable Plan

When one goes into a chicken house and hears the birds singing, it is a pleasant contrast to the appearance of a flock that is droopy, with pale combs and indicating a general unhealthy condition. The difference in the majority of cases is not due to one producer curing the disease and the other not curing it, but rather to the fact that one breeder prevents the trouble that is affecting the other person's flock.

Most cases of roup and similar contagious diseases are the result of the disease being brought to the farm with new fowls which were not isolated until they had been proved to be healthy. Sometimes the disease comes from an outbreak of a previous attack after which the premises were not properly cleaned up and disinfected.

Lice and mites can do a great amount of harm if they have their own way. The good poultryman does not wait until they get a strong foothold in the flock, but carries on a preventive war on such pests. Under such conditions pests never cause a serious loss.

Most of the trouble from worms and a good deal of the trouble from coccidiosis can be eliminated by raising the flock on fresh ground each year. If it is not possible to have fresh ground the next best thing is to clean up frequently and use lime freely in keeping the ground sweet and free as possible from germ life.

Poultry Hints

Oatmeal and all that sort of food is no good for ducks or geese. Keep all this sticky stuff away from them.

Because chickens seem to drink only an occasional teaspoonful of water is no reason for thinking that they don't need any water.

If broody hens are shut up the first night they are discovered they can be broken up easier than if left on the nest for several days.

Keeping the house free of mites by use of a good coal-tar disinfectant in a strong mixture and the pullets free from lice by sodium fluoride will be a big help.

Laying hens need green food in summer as well as winter. If you neglected this when you planted your garden, why not try a row or two of swiss chard and maybe a little rape.

One of the best ways of destroying the bacteria that bother poultry is to put the yards under cultivation. In addition, the seeding of the yards is very important from the standpoint of furnishing green stuff for the fowls.

When hens are well fed, but extremely fat and do not lay, either the feed is not of a balanced character or the hens are natural beefers—meaning that their disposition is to acquire fat rather than to convert what they consume into eggs.

Chickens and Cattle Tested at Same Time

Veterinarians Combine Tuberculin Inspection.

(Prepared by the United States Department of Agriculture.)

Veterinarians engaged in the tuberculin testing of cattle in Green Lake county, Wisconsin, have found it possible to inspect the poultry flocks on the farms visited without slowing up the regular cattle-testing work. This is significant, says the United States Department of Agriculture, when it is realized that there is no special federal appropriation for conducting a campaign against avian tuberculosis, and that the poultry flocks of the county must be cleaned up along with the herds of cattle if the eradication of the disease is to remain permanent.

Operating in the regular way, the veterinarians in Green Lake county inspected 1,032 flocks on the farms visited for cattle testing. They found 153 flocks infected, and the remainder apparently free from the disease. Two hundred and eighteen post-mortems, slightly more than one in each infected flock, were held. Altogether, it was estimated, more than 72,000 fowls were inspected.

An estimation of the extent of tuberculosis among the poultry flocks of the country shows the disease varying from 1 to 15 per cent.

A definite effort to inspect poultry was begun in February. In the various states during the first two months of the work 46,665 flocks were inspected, 2,565 of which were found to be infected. It is estimated that nearly 3,000,000 fowls were inspected during this period.

Young Alfalfa Plants Hurt by Nurse Crops

Many a good stand of spring-sown alfalfa is ruined by allowing the nurse crops of oats or barley to mature for grain.

"The young alfalfa plants are literally choked to death for want of water," says George W. Musgrave, agronomist at the New Jersey Agricultural Experiment station. The ripening grain, he explains, draws an enormous amount of water from the soil, thus famishing the feeble young alfalfa plants.

Though this moisture robbery is the chief objection to letting the nurse crop mature for grain, it is not the only one, according to Professor Musgrave. There is also the possibility of fatal injury to the alfalfa, through lodging of the ripening fruit.

Successful alfalfa growers cut the grain for hay just as soon as it heads out. Not only may a satisfactory quality of grain be secured at this time, but the crowding effect on the alfalfa seeding is removed and the alfalfa is given the opportunity to develop properly.

The main object in planting the grain is to secure a successful alfalfa stand; one should take no chances on losing his investment in inoculation, seeding and labor, through losing sight of this fact. It is a mighty poor economy to try to use the oats or barley as a grain crop as well as a nurse crop.

Careful With Pullets, to Avoid Molt in Fall

Farm poultry producers who hatch chickens early in order to get a fall egg production from their pullets while their hens are molting, must handle the pullets carefully to avoid a molt in the fall, according to H. W. Fitting of Purdue university in reply to questions on this subject.

The pullets should have been hatched so they will mature and start laying around October 1. This means about six months for the lighter breeds such as Leghorns and seven months or a little over for the heavier breeds such as Rhode Island Reds, Plymouth Rocks and others.

A good plan that prevents too rapid development is to feed the grain as well as mash in a self-feeder after the cockerels have been marketed. When pullets' combs are reddening materially, it is well to remove some or all of the animal protein from the mash. However, if this is done, more minerals should be added to take the place of that which was contained in the animal protein. Once a pullet is mature, egg production cannot be delayed.

FARM FACTS

Market all broilers as early as possible.

Keep brooding baby chicks until they are fully feathered.

Turkeys are seed and insect eaters and do not thrive on sloppy mashes.

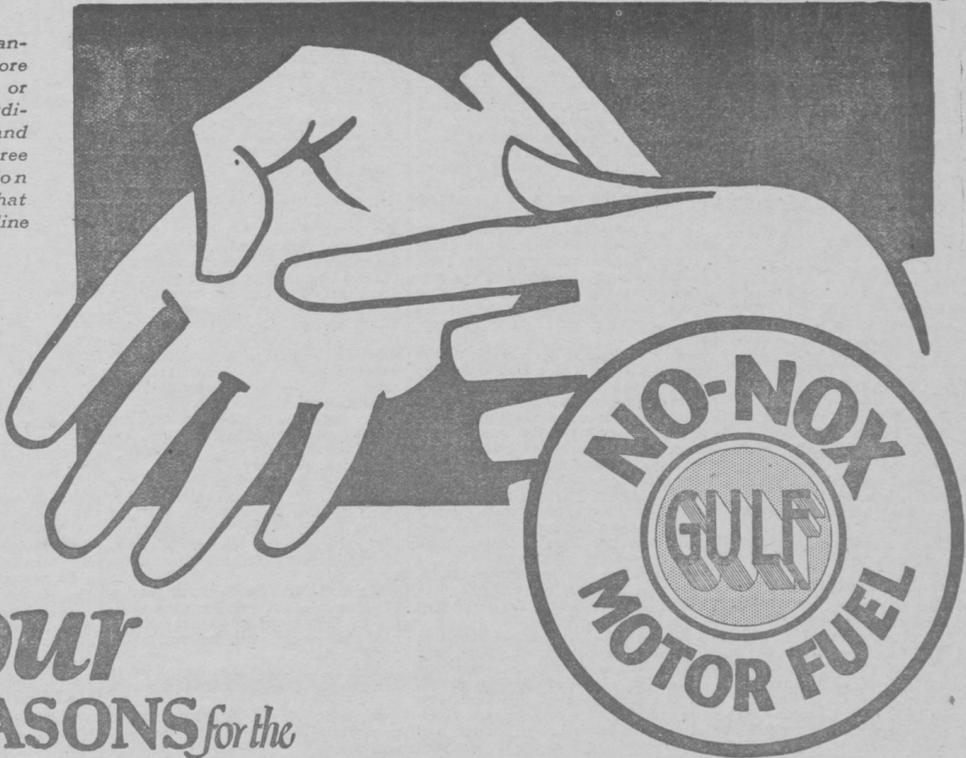

Timid hens do not get their share of the feed and are seldom heavy layers.

It does not pay to grow low-priced crops on high-priced land, nor vice versa.

Stale bread soaked in milk and squeezed nearly dry is a good first feed for poults. This is followed with fine chick scratch feed and larger grains as the poults develop.

Don't make the hens eat quack grass in the summer. Swiss chard is a fine summer green feed when plenty of tender grass is lacking. A 100-foot row of swiss chard will keep 20 hens in green feed all summer.

NO-NOX is guaranteed to be no more harmful to man or motor than ordinary gasoline, and is priced only three cents per gallon higher than that good GULF gasoline

Four REASONS for the use of NO-NOX

- 1 It eliminates fuel knocks in your engine—and the waste of fuel, the lack of power and the carbonization that this knock implies.
- 2 It reduces gear shifting to a minimum, making it a pleasure to drive in traffic or over the hills.
- 3 It prevents all harmful effects of carbon accumulation.
- 4 It increases the motor's smoothness and power—insures a quicker speeding up of the motor—and greater economy.

Spotlight of World

Turned on Minister

The minister is looked upon as the leader of the community. He stands on a high pedestal. The church atmosphere, the organ, the painted windows, the silence, the solemnity, set him off and apart from his fellows. There is something of enchantment and mystery about him. Wisdom must flow from the fountain head, and what the poor overtaxed man can give is mere words, and sometimes dull ones at that.

He must stand a little straighter, keep himself aloof, talk dogmatically, and be just a little above his fellows. That makes the minister a rather lonesome man, spiritually.

He cannot share himself with his fellow. He must share the pretended, artificial self with them. He does that unconsciously, of course, but that only makes him a more unfortunate person still. He gradually identifies himself with the thing people think he is, and his real personality loses its force and character and significance.—A Minister's Son, in Century Magazine.

Confess—But What?

He was consulting his lawyer, more in a personal than in a professional way. "I don't know what to do, John," he said. "My wife has received an anonymous letter exposing some things I was mixed up in before we were married." The lawyer spoke from much experience. "Bill," he said, "there's only one thing to do—confess." "That would be all right, John," said the worried husband, "if she would let me take a look at the letter or tell me what's in it. As it is I don't know what to confess."

Home for Sale.

A very desirable home in Keymar, consisting of 1½ Acres of Land, 7-room house, equipped with bath room, water system, and electric lights, Stable and Garage combined; also large Poultry House. Plenty fruit of all kinds. Price reasonable.

Public Sale

—OF—
2 Desirable Properties
in Middleburg, Carroll County, Md.

The undersigned Attorney for the owners, will sell at public sale on the premises hereinafter described, on
SATURDAY, SEPTEMBER 26, 1925,
at 2 o'clock, P. M., the following properties:

First: All that tract of land containing

17,556 SQUARE FEET,
more or less, improved by a large Brick Dwelling, six rooms with two porches, one in front and one in the rear, Stable, Garage and other out-buildings. This property is very desirable and is located near the center of the village of Middleburg, Carroll County, Maryland, with frontage of 66 ft. on the main thoroughfare, concrete road, with a depth of 266-ft.

This property is now occupied by Jesse W. Eyer and was conveyed to Caroline E. Walden by Charles T. Reifsnider and John M. Roberts, Trustees, by deed dated May 23rd., 1896, and recorded among the land records of Carroll County in Liber B. F. C. No. 82 Folio 509.

Second: All that tract or parcel of land containing

81 8/10 SQUARE PERCHES,
more or less, improved by Frame Dwelling with six rooms, and other outbuildings. This property fronts 75 feet on the main thoroughfare in the town of Middleburg and has a depth of 180-feet. This property is now occupied by Reuben Plaine and adjoins the premises occupied by Jacob Snare and Mrs. Ada McKinney and is the same property conveyed to Mrs. Caroline E. Walden by Mary E. Claiborn by deed dated Sept. 18th., 1893 and recorded among the land records of Carroll County in Liber B. F. C. No. 77, Folio No. 379.

TERMS OF SALE.—One-third cash on the day of sale and residue in two equal payments in 6 and 12 months, the purchaser giving his, her or their notes with approved security, bearing interest from the date of sale, or all cash at the option of the purchaser. Other terms may be granted by the undersigned.

Kenneth Mering, of Baltimore, had part of his vacation, last week and visited his aunts, Misses Ida and Bessie Mering.

Mrs. G. W. Baughman returned to Philadelphia, on Tuesday, after spending her vacation at H. B. Fogles.

The testing of the cattle of our milk-man puts the customers to much disadvantage this week.

Mrs. M. A. Zollickoff, who has been on the sick list for some weeks, was quite shocked Saturday by the news of her brother, Wm. Snader's sudden death, in New Windsor.

Miss Esther Crouse is continuing her studies at Union Bridge High School.

Mrs. George Slonaker has been on the sick list the past week.

Miss Beryl Erb has returned from her stay at Monterey Inn.

LITTLESTOWN.

John Baseoach and daughters, Mrs. John Nightman, Mrs. Dennis Runkle, Misses Ida and Anna Baseoach, returned to their home in Philadelphia, after spending several days with Mr. and Mrs. Edward Gitt, and other relatives in and around Littlestown.

Mr. and Mrs. Millard Engle and daughters, Betty and Aldena, and son Laverne, returned to their home, on Sunday, after spending several days, last week, with relatives and friends in and around Frederick.

Mr. and Mrs. James Staub, were recent guests at the home of their daughter, Mrs. Curvin Carbaugh and family, at Mt. Pleasant.

Misses Ruth Nau, of this place, and Esther Rudisill, of near town, left, on Tuesday morning, for Millersville, where they will attend school at the State Normal School.

Miss Gladys Dehoff, of near town, entered West Chester State Normal School, where she will pursue a course G. E. Duttera is spending several days in Philadelphia, with relatives and friends.

Mrs. Harry Zeigler and sons, Glenn, Kenneth and Carl, were week-end guests of her parents, in York.

UNION BRIDGE.

There was an exciting time at this place, on last Sunday morning, when a man by the name of Gould was found murdered in a stall, back of the Elevator, close to Peter Bosco drinking place, Justice Thomas Gaithre summoned a jury of inquest with George C. Eichelberger as foreman. Several arrests have been made—Norman Willis, Lewis Green, Roland Roberts and Peter Bosco.

The Tidewater Co., is putting up foundations for a large house.

The P. R. R. Co., is having a new roof put on their freight station at this place.

Earl Shriner and wife, will leave for their new home, in Baltimore, this Saturday.

Frank Cauffman will move to Foster Warehouse's house, in the near future.

The community sale drew a large crowd last Friday. Good prices were realized.

The moving picture parlor has opened again.

Albert Frock will open a lunch room on Main St., this Saturday, Sept. 19.

H. L. Broadwater and family and Mrs. Geo. H. Eyer and Anna Barnes motored to Gettysburg, last Saturday afternoon.

There has been a stop and go sign placed on the square, at this place. While some regard it, others do not. The only way to do it place a fine on those neglecting it.

There was 38 more cattle loaded here at this place, Monday, and two carloads at Keymar.

F. J. Shriner has put a door in the front room of his house, for V. J. Fudder's ice cream parlor.

Neal Bowman was called to Virginia his father being paralyzed and is in a critical condition.

MANCHESTER.

A series of barn fires has taken place in the surrounding community in the past few weeks. Within a short period of a little over a week four barns located within a short distance of this place were destroyed. Two of these fires the origin has not been determined, the other two, one was started by a horse upsetting a lantern and the cause of the last, it is supposed that the sparks of a passing threshing outfit started the fire.

John Cape, near Grave Run, seems to be the heaviest loser. The cause of this fire is not known. In the barn at the time of the fire was the season's harvest of wheat, hay and other feeds, farming implements, eleven head of milk cows, all of which were burned.

Mr. Cape was in Manchester at the time of the fire with a load of factory corn. Mrs. Cape and other members of the family were out in the field pulling sweet corn for the next load to the factory. The fire was not discovered until the entire building was enveloped, Hampstead and Manchester Fire Companies responded and did fine work. The two big pumps were placed along the stream directly in the rear of the barn and for several hours two lines of water were played upon the burning ruins of the buildings and hay and straw stacks. It is said that his loss will run into several thousands of dollars with very little insurance.

Rev. John Lehman, better known as the marrying parson, was kept busy a few Saturday nights ago. One couple had arranged for 7:00 P. M. At the conclusion of this ceremony, two more couples who perhaps decided on short notice came along and were made happy as well. We wish them happy years.

On Thursday of last week, the annual convention of the Carroll County Unit of the Women's Christian Temperance Union was held in St. John's M. E. Church, Hampstead. Mrs. Mabel Kelbaugh, extended words of greetings and was responded to by Mrs. Martha Shaw. Reports were made of the superintendents of the various divisions of the union. Mrs. Mabel Kelbaugh is treasurer of the local union.

The following from this place attended the Landes reunion which was held at Druid Hill Park, Baltimore, on Labor Day: Misses Alverdie and Birdie Hoffacker, Mr. and Mrs. Roswell Hoffacker, Mr. and Mrs. John Keck and children, Mr. and Mrs. Harvey Rhodes and children, Harry and Madlene, Mr. and Mrs. Harvey L. Miller and children. The guests present from other cities numbered 150.

The Ladies' Missionary Society, of Immanuel Lutheran Church held their September meeting at the home of Mrs. R. C. C. Stoffle, Saturday evening a week ago. The President, Mrs. L. R. Rehmyer, presided. This Society will send the following delegates to the Missionary Convention which will be held at Thurmont, October 7, 8 and 9. Mrs. Stoffle and Miss Emma Trump. This Society held a supper in the social room last Saturday evening, which proved to be a success.

Holy Communion will be observed in the Lutheran Church of this place on Sunday, October, 4, at both morning and evening services.

Martin Manthey is suffering from a severely bruised leg, which he sustained from a fall.

Mr. and Mrs. Edwam Rehmyer and children, of Stewartstown, Pa., spent Sunday at the home of his brother, Rev. Rehmyer and family.

Rev. John Hallenbach and family, are returning this week from enjoying a month vacation. We welcome him to our town.

The canning factories are nearly completing their harvest at this writing. They lost several tons of corn, as the yield was greater than their capacity.

Quite a rain fell here on Saturday and Sunday evenings past.

Sunday School rally day services of the Immanuel Lutheran Church will be held on October 11th.

LINWOOD.

Sunday morning, September 20, the Brethren Church will hold "A Harvest Home" Service. Special music, in keeping with the occasion, is being arranged by the choir. Sermon by the pastor, Rev. Paul Yoder, on the subject of "Harvest." A Rally service will be held during the Sunday School period. In the evening, at 7:30, of the same day, Dr. P. E. Heimer, Reformed minister of Thurmont, with his Rocky Ridge community choir, will visit the Linwood Brethren Church. The choir will render a special musical program for the first part of the service, and Dr. Heimer will deliver a sermon on "The Second Mile." Everybody is invited and urged to arrange to worship with us during these special services.

Mrs. Joseph Dayhoff entertained the W. M. S., at her home, last Saturday afternoon.

D. D. Ransdall and wife, of Washington, were week-end guests of John E. Drach and family.

Miss Bertha Drach entertained a few friends on Monday evening.

Brayden Ridenour and wife, and Mrs. Ella Bovey, of Hagerstown, and Miss Laura Shiffer, of Boonsboro, were Sunday visitors in the home of J. W. Messler.

Harry Harrison and wife, John Buffington and family, E. M. Rouzer of Baltimore; Mr. and Mrs. Peter Sheppard, of Uniontown, Pa., spent Sunday with R. Lee Myers' and attended the funeral of Mrs. Eliza Rabold, of New Windsor, on Sunday afternoon.

A CRY IN THE NIGHT, gripping pains in the vitals, cramps, weakening diarrhoea - whether child or adult, immediate comfort and ease in

CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY

Pays to keep always on hand.

KEYMAR.

Mr. and Mrs. Charles Witherow and family, of Washington, spent last Sunday afternoon at the home of the former's sister and brother-in-law, Mr. and Mrs. Raymond Wantz, and also called at the home of R. W. Galt, this place. On their return, Mr. Wm Witherow, father of Charles, accompanied them home.

Mrs. Dora Albaugh, of Sykesville, is spending some time at the home of her sister and brother-in-law, Mr. and Mrs. Scott Koons.

Mr. and Mrs. Charles Gardner and daughter, Miss Margaret, and son, Charles Jr., of Blue Ridge Summit, spent last Sunday at the home of Mrs. Gardner's parents, Mr. and Mrs. W. F. Cover. Miss Margaret and Charles, Jr., came to say goodbye to the folks before leaving. Miss Margaret is going to Washington to teach. Charles Jr. is going to Dickinson's College, Carlisle, Pa.

Mr. and Mrs. Jno. Leakin and family attended the funeral of the former's cousin, Mrs. J. S. Reppen, Johnsville, Thursday.

Mr. and Mrs. Luther Sharetts, accompanied by Mr. and Mrs. Luther Devillbiss, and Mr. and Mrs. Wolf, of Union Bridge, spent last Sunday in Myersville, at the home of Mrs. Sharetts' sister, Mr. and Mrs. Grossnickle.

Mr. and Mrs. Goodell and family, of this place, but who has been visiting in New York and other places, paid this place a visit before leaving for Florida.

Mrs. W. F. Cover is still confined to her room. Mrs. Cover has been a great sufferer the past four weeks, with the hay fever. She has suffered more this year than she has for several years.

The frame work of the house of A. W. Feeser is up and first weatherboarding is on; also Ernest Myers, has his house up and under roof, and ready for the stucco to be put on. Mr. Myers is building his house near the Pines along the Detour road.

Mrs. Foy, of Chicago, arrived on Friday of last week and expects to spend the winter with her daughter and son-in-law, Mr. and Mrs. J. Raymond Zent.

Mr. and Mrs. Charles Kline, son Kenneth, Mrs. James Smith, son James Jr., all of Baltimore, spent Sunday last at the home of Mr. and Mrs. Marshall Bell.

Oliver Leakin, of Akron, Ohio, is spending some time at the home of his brother and sister-in-law, Mr. and Mrs. John Leakin.

SHE CRAVED AFFECTION. Adventure and riches; all the fine things of life a modern young girl could ask for. Such a girl is "Sandy" heroine of Elenore Meherin's great new love story which starts Friday, September 18, in The Baltimore News.

MARRIED

REID—BROWN.

A quiet, yet impressive wedding ceremony took place in the parlor of the Woodward Avenue Baptist Church, Detroit, Michigan, at 3 o'clock Saturday afternoon, September 12, 1925, the contracting parties being Mr. Carroll Ervin Reid and Miss Dorothy Fay Brown, both of that city. The ceremony was performed by John Wellington Hoag, pastor of the church and of both bride and groom. The attendants were: Mr. Maynard L. Reid, brother of the groom, and Miss Luella Brown, sister of the bride.

After the ceremony, the happy couple took the boat for Buffalo, N. Y., and after a two weeks' bridal tour, which will include a visit to Niagara Falls, Baltimore, Washington, and other places of interest in the East, will be at home at West Grand Boulevard and Buchanan Ave, Detroit. The groom is the second son of Mr. and Mrs. John J. Reid, now living in Detroit, but formerly of Taneytown, Md., and the bride a daughter of Mr. and Mrs. Ray Brown and favorably known in Baptist and Mission Circles in Detroit, and their many friends wish them a long, happy and prosperous life together.

DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

BEULAH M. BOWERS.

Beulah M., daughter of Mr. and Mrs. Birnie L. Bowers died on Saturday morning, aged 1 year and 24 days. Funeral services were held on Monday morning at the home and at Bethel Brethren Church by Elder Clayton F. Bucher.

She is survived by her parents, and by four brothers and one sister, Ellsworth, Monroe, Leonard, Lloyd and Mary L., also by her grandmother, Mrs. Mary Hawk, and by grand-father and grand-mother, Mr. and Mrs. William Bowers.

J. WINFIELD SNADER.

J. Winfield Snader, died at his home in New Windsor, Saturday afternoon, after a few hours illness, aged 68 years, 8 months and 12 days. He was a son of the late Jacob and Sophia Snader, near New Windsor.

In 1891 when he entered the general merchandise and implement business with Edward Barnes, trading under the name of Barnes & Snader, and continued in this business up to the time of his death. He was vice-president of the First National Bank of New Windsor, and a member of the Presbyterian Church.

Surviving are his widow who was Miss Sue Repp, New Windsor; one son Denton, Philadelphia; a daughter Mary Anna, at home; three brothers, Oden, Waterloo, Iowa; Ellsworth and John, New Windsor; and one sister, Mrs. Milton Zollickoff, Uniontown. Funeral services were held at the residence at 2 o'clock, Wednesday afternoon, the Rev. Dr. Laughlin, his pastor, assisted by the Rev. Mr. Paull, pastor of the M. E. Church, New Windsor, officiating. Interment was made in Pipe Creek cemetery near Uniontown.

HUGE INCREASE IN TAXES SINCE 1914

United States Pays \$7,716,000,000 Annually.

New York.—The immense financial burden imposed upon the principal nations associated during the World War against the central powers is analyzed in a comparative study of taxation in the allied countries made by the national industrial conference board.

Taxation in the United States nominally has more than trebled since pre-war days. The total amount of local, state and federal taxes levied in the fiscal year 1923-24 amounted to \$7,716,000,000, as compared with \$2,194,000,000 in 1913-14. Taking into account the decrease of purchasing power of the dollar during the war decade, this represents an actual increase in the tax burden of two and a quarter times that of the last prewar year.

Per Capita Tax Doubled. Per capita taxation more than doubled in both the United States and Great Britain. But Great Britain in 1924, six years after the signing of the armistice, led all allied countries both in amount of taxes levied per head of population and in the proportion of total national income diverted into channels of governmental expenditures. France, Italy, Belgium and the United States follow in order, according to the burdensomeness which their respective tax systems imposed upon their people as measured by the relation of taxes to national income.

British per capita taxes, amounting to \$27.11 in the fiscal year 1913-14, had risen to \$58.40 in 1923-24, in terms of 1913 purchasing power; per capita taxes in the United States, figured on the same basis, increased from \$22.73 in 1913-14 to \$45.27 in 1923-24; in France, from \$24.70 to \$29.53; in Belgium, from \$11.39 to \$17.76; in Italy the per capita tax remained the same, \$14.28, taking into account the lower purchasing power of the 1924 currency. Comparative figures for Germany are not available.

Increased Relative to Income. In both the United States and Great Britain taxation in proportion to national income approximately doubled, in Belgium more than doubled since prewar days.

While taxation in the United States and Great Britain increased in about the same proportion, and these two countries levy the highest per capita taxes among the allied nations, the greater material wealth and productivity of the American nation make its tax burden comparatively lighter than that borne by any of the European allied countries. Net revenues in the United States, moreover, are spent largely for universal education, good roads, public buildings, parks and other reinvestment of the taxpayers' money, the conference board analysis indicates, while the proceeds of taxation in Europe are to a great extent absorbed in paying the cost of past wars.

Boss Vetoes Pay Boost Voted Him by Employees

Olivet, Mich.—Methods of putting into business the principles of allowing workers to dictate the salary of officials, handling executive business of the company through a council of workers and making the same rules for workers as executives were outlined by William P. Hapgood, president of the Columbia Conserve company of Indianapolis before the conference of the Fellowship for a Christian Social Order.

Hapgood declared he allowed his workers to decide what his salary should be, had repeatedly refused increases of salary and had protested that his salary was already too high. At present, the speaker said, profits are being used to buy out the stockholders. The goal of the workers is complete ownership of the business.

War on Suggestive Movie Titles Bringing Results

Hollywood, Cal.—The fight against suggestive titles to motion pictures has made definite progress during the last six months, Will H. Hays, director general of the industry, declared on his semi-annual trip to the Hollywood film plants.

"The press books for the coming releases of pictures contain only three objectionable titles," Mr. Hays stated. "The open-door policy of the producers and distributors has met with gratifying response all over the country in the shape of letters of suggestion as to the improvement of motion pictures. Further suggestions from the public are solicited."

Cites Big Drop in Crime in Britain in 50 Years

London.—Better education, an increase in sobriety and an advanced standard of living have resulted in a tremendous decrease of crime in England in the last 50 years, Sir William Joynton-Hicks, home secretary, told the International Prison Congress.

He said that in 1875 there were 10,000 persons undergoing penal servitude. Now, he said, there are only 1,600 in spite of the increase of population. Besides this number there are 1,100 young people undergoing correctional treatment.

Clock Saves Life

Burlington, Wis.—A recording clock which he carried on his belt saved the life of Corrie Betdig, night patrolman, recently, when a fleeing burglar fired two shots at him.

THE WINCHESTER STORE

Reaver Family Reunion. Agricultural Conditions Abroad. A reunion of the family of the late Jos. M. Reaver was held in Robert M. Reaver's grove, near Galt Station on Labor Day, there being four generations represented. Those present were: Mrs. Jos. Reaver, Miss Clara V. Reaver, Mr. and Mrs. Charles F. Hoffman, Mr. and Mrs. J. Frank Null, Milton A. Reaver, Mr. and Mrs. Oliver Reaver, Mr. and Mrs. Robert Reaves, Mr. and Mrs. Roy Reaver, Mrs. Maurice Moser, Mr. and Mrs. Chester Moose, Misses Ruth, Grace, Ethel, Genevieve, Marie, Edith, Rose and Charlotte Reaver, Miss Erma Null and David, Walter, Ralph, Raymond and George Reaver, Ralph Null, George Fowler, Mark and Frank Moose, Mervin Legore and Mr. and Mrs. Henry Erb.

While Dr. Symons' trip was mainly in the nature of a vacation, he made special efforts in England, France and Belgium to ascertain the condition of agriculture in those three countries and to investigate the progress being made in co-operative marketing and extension education. In England, according to Dr. Symons, agriculture has suffered in sympathy with a generally unfavorable economic condition. Unemployment remains a big problem, labor conditions are unsettled, industry is far from prosperous, taxes are high and living costs have increased at a rapid rate. All of this has had its effect upon England's agriculture. In addition, the English farmer must contend with a minimum wage for farm workers, with relatively low prices for farm commodities and with taxes that far exceed anything the American farmer has to meet. The result has been a decrease in the acreage of arable land that many agricultural leaders view with alarm.

Restless Sleep Due to Stomach Gas

Gas pressure in the abdomen causes a restless, nervous feeling and prevents sleep. Adlerika removes gas in TEN minutes and brings out surprising amounts of old waste matter you never thought was in your system. This excellent intestinal evacuant is wonderful for constipation or stomach trouble. Don't waste time with pills or tablets but get REAL Adlerika action! R. S. McKinney, Druggist.

Don't miss it.—Advertisement

WORLD WAR HISTORY IN HOOVER'S LIBRARY

Collection Endowed by Secretary of Commerce.

Stanford University.—The Hoover war library, endowed by Secretary of Commerce Herbert Hoover at Stanford University, has received 44,500 books and pamphlets, in nearly all languages. Every one bears in some way on the World war.

The largest number, 12,000, are printed in Russian; 10,000 in French, 9,000 in English. The rest are divided among Hungarian, Italian and other languages.

Many of the items, printed or out of print, are irreplaceable. It offers students facilities duplicated nowhere and paralleled only by the Musée de la Guerre at Paris.

Documents of All Nations. The program of the institution calls for procuring all important official documents of every nation throughout the war and during the reconstruction period. Three-fourths of this material already has reached the library.

The manuscript collection includes 65,000 reports and communications bearing on conditions in Europe during and after the war. This file is supplemented by copies of private papers of men who were active in world affairs of the time.

Files of Newspapers Gathered. The library has collected from each country involved a file of newspapers in sympathy with the government, together with those of two opposition papers, representing the left and the right.

Mr. Hoover graduated from Stanford in 1895. He is a member of the board of trustees.

Geologist Says Wyoming Was First Glacial Spot

Rock Springs, Wyo.—In the opinion of C. J. Hares of Denver, a noted geologist, Wyoming was the first section of the country to be covered by the great ice sheet which ages ago surged down from the North.

He considers that the glaciation of Wyoming occurred in the mid-Tertiary period, whereas the ice sheets filled the rest of the country in the Pleistocene age. The glaciation of Wyoming was millions of years before the present great rivers of the Rocky mountain region began to flow.

"Two centuries of tertiary glaciation in Wyoming are known," Mr. Hares reported to western scientific bodies. "The ice must have been approximately 3,000 feet thick and it probably moved forward at the rate of three feet a year, taking more than 200,000 years to spread over the central and southern parts of the state, where it left its more apparent traces.

"The tertiary glaciation undoubtedly occupied a very long time in geologic history. It marks a profound change in the climatic conditions of that period."

Palmyra Island, Listed as British, Is American

Washington.—Discovery that publishers of recent maps and atlases have erroneously designated the small island of Palmyra in the Pacific ocean as British instead of United States territory has just been made by the Department of the Interior.

Palmyra Island, 990 nautical miles southwest of Honolulu, consists of a cluster of islets about ten miles in circumference, with a lagoon in the center. A few coconut trees grow upon it.

The error is due to Palmyra's history. It was originally known as Samarang and was discovered by Captain Sawle of the American vessel Palmyra in November, 1802.

An expedition conducted by Captain Zenas Bent took possession of it in the name of the Hawaiian kingdom in 1862. It was annexed by Great Britain in May, 1880. As a possession of the Hawaiian Islands for 27 years previous it became a part of the territory of the United States.

In the neighborhood are four islands, Christmas, Jarvis, Howland and Baker, which National Geographic society maps designate as "undetermined, United States or British."

Babies Bereft by Sea Tragedy Drift Ashore

Petersburg, Alaska.—Two girls, five and three, respectively, told authorities here that a motor boat on which they were passengers was the scene of a spectacular murder and suicide, which left them at sea adrift and alone in the craft.

The principals in the tragedy were Tom Rise and his wife. After Rise beat the woman, he threw her overboard and then jumped over the side himself.

As if guided by a providential hand, the vessel beached itself and the two little girls crawled off when the tide went out and walked to a cannery three miles up the beach, near here. The five-year-old child, an adopted daughter, said her foster parents had been drinking before the fatal fight took place.

Win Race With Death

Cincinnati.—A successful race against death terminated here recently when surgeons removed a bean from the left lung of four-year-old Carmel Petry, Jr., of Hanley, W. Va. No train being available until late at night, the 238-mile trip was made by automobile in nine hours.

The Exiled God

By DOUGLAS MALLOCH

HOW much may mortal dare to hope?

Well, even now there come sweet hours
When eglantine and heliotrope
Are somehow something more than flowers,
Hours when some other sense than sight
Thrills with the garden's glad delight.

How much may mortal dare to dream?
Well, I have stood beside the bars,
Beheld the moonlight on the stream
And caught the converse of the stars,
Some untranslated language heard
And understood, who knew no word.

Who has not known an hour like this,
Perhaps an instant, in the strife?—
When rose or song or moon or kiss
Lifted his spirit out of life,
Obliterating earthly things?—
Yea, for a moment felt his wings?

Some other sense, some hour of earth
Links earth and heaven, sky and sod,
Whispers the secret of his birth—
Man hears, and knows he is a god,
An exiled god who but awaits
The opening of his palace gates.

Inside those gates such gardens lie
As earthly gardens only hint,
And their reflections make our sky,
Give west its color, east its tint;
Earth has its trees, its bloom, its grass,
Till greater wonders come to pass.

How much may mortal dare to hope,
How much may mortal care to dream?
That we shall walk who only grope,
The godlike thing we sometimes seem

In fleeting moments we shall be
Through all our immortality.

Among the NOTABLES

ROBERT FERGUSSON

ROBERT FERGUSSON was a great Scottish poet, but is best known to modern folk because of his influence on the writings of the supreme poet of Scotland, Robert Burns.

Fergusson was born in Edinburgh 1750, in Edinburgh, the son of a clerk. It was determined he should have a university education, to study for the church, and though his father died before his education was finished, he managed to complete his studies. But he found he had no taste for religion, and was too nervous to study medicine, so it seems his family rather despaired of him.

Consequently, he went off by himself, found a humble clerkship which he kept all his life, devoting his leisure to writing poetry and attending the meetings of a band of writers who called themselves "Knights of the Cape." Many famous men were members of this fanciful organization, all of whom acknowledged the young poet's genius. But Fergusson drank too much, and after a fall and a severe blow on the head, his mind became rather unbalanced, and he was only twenty-four when he died.

Burns speaks often of his debt to Fergusson. The Leth Races of the elder poet suggested, probably, the "Holy Fair." His "On Seeing a Butterfly in the Street" corresponds much to Burns' "To a Mouse." While "The Farmer's Ingle" seems to have had a great influence on "The Cottar's Saturday Night." Indeed, Burns was the one who asked the authorities for permission to mark the grave where the earlier poet was buried.

SAILOR NEAR END OF WORLD TOUR

Making Trip in Craft of His Own Design.

Los Angeles, Cal.—Once more out of the vastness of the Seven seas has come a message from Harry Pidgeon, the lone Los Angeles sailor, who is circumnavigating the globe in his little vessel—the Islander—and with it has come a quaint tale of coincidences which reads like fiction, though it is true.

Pidgeon sailed from Los Angeles harbor in a craft of his own design and with only a book knowledge of sea navigation. A letter received by his brother, Walter Pidgeon, revealed that he has almost circled the earth and is now at Colon in the Panama Canal zone, on the last leg of his homeward journey.

On the first leg of his long sea journey, one of the first persons Pidgeon saw upon his arrival at Tahiti, South Sea Islands, was A. J. Baster, a world traveler. They became friends. Months later Pidgeon sailed into Suva, Fiji Islands, and there was Baster to greet him. Then Pidgeon sailed on and on, to Australia, to South Africa and then across the Atlantic to the British West Indies.

Pidgeon arrived at Port of Spain, Trinidad, British West Indies, last month. For the third time on his circumnavigation of the world Baster met the intrepid sailor. Pidgeon mentioned the three unusual chance meetings in the letter to his brother.

Pidgeon's letter to his brother stated he had arrived at the entrance to the Panama canal, that his next stop would be Balboa, on the Pacific side, and that he would arrive in Los Angeles early this fall.

California High School Girl Wins Meat Contest

Chicago.—From a field of approximately 13,500 contestants coming from high schools throughout the United States, Miss Frances Erdman, Turlock, Cal., has been chosen national champion in the second national meat story contest. This announcement is made by the National Live Stock and Meat board, which conducted the contest in co-operation with high school home

Miss Frances Erdman, economic instructor. The honor attained by Miss Erdman carries with it a cash award of \$300.

Selection of the national champion and other winners was made by a committee of prominent home economics women.

The contest was sponsored by the board as an aid to the study of meat in high school home economics classes, according to a statement accompanying the announcement of winners. Contestants were required to write a story or theme upon some phase of the meat subject and send in with this three original and practical meat recipes.

100 Lightning Flashes for Each Second of Time

London.—Scarcely a second passes, year in and year out, winter and summer, when there are not at least 100 lightning flashes somewhere in the world, according to the recently issued blue book of the meteorological office of the British government service.

During a year, says the book, the world experiences 10,000,000 thunderstorms, or an average of 44,000 a day. The amount of energy released by these flashes is too stupendous for the human mind to grasp, the book points out. It is suggested by the meteorologists that the water power of the earth, which has already been harnessed, be used as a measure.

Figuring on that basis, it is estimated that double that amount is represented by one flash of lightning; consequently, in any given second there is released from the clouds more energy than the world's water-power stations yield in six months.

With Cheerups and the Quixies
By Grace Bliss Stewart

LIZZIE LIZARD'S LOSS

"G ECK—geck—geck-o, Geck—geck—geck-o," came a plaintive little sound from right under Cheerups' toes. "I'd like to speak to you, if you please," continued the small voice.

Cheerups was sitting on the edge of a toadstool, merrily swinging his feet and wondering what kind of visitor he would have next, when this tiny sound fell on his ears. He looked down and there on the ground was what seemed to be a small green lizard. It looked like a lizard and yet it didn't, for lizards have tails and this one hadn't a speck of a sign of a tail.

"No, of course you don't know me," cried this little creature. "I am Lizzie Lizard and they call me a Gecko be-

"Of Course You Don't Know Me," the Little Creature Said.

cause that is what I say when I sing. But nobody would recognize me now. I am so changed. It serves me right, I suppose, for ever leaving my good home on the ceiling. Sometimes, though, one does long for a little adventure, so this morning I went out of doors and got my tail snapped off for my pains. I was having such a nice glide along the garden path when all

THE WHY of SUPERSTITIONS

By H. IRVING KING

HEARTSEASE

A COMMON kind of smartweed—the polygonum persicaria of the botanists—is, in many parts of the United States, called heartsease because of the heartlike marking on its leaves and is supposed to be a cure for diseases of the heart. Also there are a considerable number of plants in this country of different species which are known popularly as rattlesnake masters and supposed to be a cure for the bite of venomous snakes. Very many of these latter plants have some peculiarity about their roots or foliage or stems which suggests a snake.

The belief in the medical efficacy of the heartsease and the rattlesnake masters is simply a continuance of the ancient superstition of the "doctrine of signatures," which was in turn evolved from the sympathetic magic idea of primitive man—sympathetic magic of the homeopathic variety. The medical superstition of the doctrine of signatures was highly regarded by the ancients and continued unchallenged down to nearly the beginning of the Eighteenth century; though Pliny, the great Roman naturalist, does, in one place, speak of the folly of the use of catanache in love philters "because of its shrinking in drying into the shape of the claws of a kite and thus holding the patient fast."

But from Pliny to Ray, an interval of over 1,600 years—and long before Pliny—medical science gravely accepted the "doctrine of signatures." In 1694 Dr. John Ray ventured mildly to question the doctrine and though he was looked upon as a dangerous innovator the ancient superstition rapidly lost ground until it was relegated to the folk-medicine department of current superstitions. The famous "doctrine" was, in effect, that plants indicated by their shape, markings, etc., the particular disease for the cure of which nature had intended them.

A LINE O' CHEER

By John Kendrick Bangs.

A GOODLY RESOLVE

I'M GOING to hold my tongue today
Unless I've something good to say,
Some word or two of wholesome cheer
To whisper in my neighbor's ear,
And help him on his troubled way.
But if that something good comes by
And has to do with purpose high,
And worthy deeds by mortals done,
Or some right wholesome bit of fun—
Gee! How I'll let the phrases fly!
(© by McClure Newspaper Syndicate.)

of a sudden Mr. Secretary Bird swooped down and made his breakfast from my beautiful green tail."

"That's just a shame, Lizzie," said Cheerups, for he had a very tender heart. "I am most dreadfully sorry. Tell me something about yourself. Where do you live?"

"We Geckos live in the homes of men, in hot climates all over the world, and they like us and never do us any harm because we are so useful," replied Lizzie. "Do you see these fat swollen-looking toes of mine? They are little suckers which make me able to climb up walls or windows and even to stick to ceilings. That is where I love to stay and catch flies for a living. Two or three lizards will keep a house entirely free from insects. But, oh dear, what do I care about my useful feet if I haven't a beautiful tail? I was so proud of it! Now I might as well be going," sobbed Lizzie mournfully. "I just came to you for a bit of sympathy. I am sure no one can help me."

"Now wait a minute, Lizzie dear; don't be downhearted!

"Open your ears and shut your eyes And I'll tell you something to make you wise," sang Cheerups merrily.

Lizzie wiped her eyes on a blade of grass, shut them promptly and listened with all her might.

"If you will be patient and cheerful, forget all about your troubles and go on doing your duty at home as usual, all at once you will find that a beautiful new tail has grown in place of the old one. Mother Nature just whispered that into my ear," chirped Cheerups, "and so I know it's true:

"Don't grieve
But just believe."

Lizzie beamed all over with gratitude.

"I will begin to forget my troubles right away, and I'll do my duty as soon as I get home. Good-by and thank you a whole heartful," cried she, with a little wiggle of joy, as she slipped off through the tall jungle grasses.

"What's in a Name?"

By MILDRED MARSHALL

Facts about your name; its history; meaning; whence it was derived; significance; your lucky day, lucky jewel

ALTHEA

ONE of the most confusing names in feminine nomenclature is Althea. Extraordinarily beautiful and belonging absolutely to the aristocracy, it is constantly jostled and confused by a host of other names. Althea, be it said, is an individual. The name means wholesome, and not true, as is generally believed. The latter significance is generally given because it is confused with the name Althea, sometimes known as Letty.

The real Althea, which comes from the Greek word meaning healthy or wholesome, belonged in ancient times to the unfortunate mother of Meleager. It persisted as a feminine name in ancient Greece, but is now more often used to designate a genus of mallows, or rather to allude to their healing power.

It comes to us through literary channels and maintains its somewhat isolated state, never having descended to anything like common usage.

As Althea is a rare name, so is her talismanic gem, the star sapphire. It is a jewel which promises her great achievement along artistic lines and protects her from evil. Saturday is her lucky day and 5 her lucky number.

Let's Go

Slim—Will you take a walk with me?
Jim—What for?
Slim—Oh, my doctor told me to take exercise with "dumbbells"—Boys' Life.

Prepare Early for Filling the Silo

Arrange for Help, Power and Cutting Equipment.

Plan early for the important work of filling the silo. Arrange for your help, power and cutting equipment. Make measurements for placing cutter and power. Plan to have a clear road to the cutter and also one leaving, so that the loads of fodder can easily be brought to the machine and leave without requiring backing or difficulties in getting away. Select a good foundation for the cutter and set up blower pipe as nearly vertical as possible so as to avoid friction and unnecessary length of pipe. The machine should be set level and securely fastened by stakes and by sinking grooves for wheels. In putting up blower pipe or carrier, care should be taken to securely fasten top at entrance to roof. In building your silo it is well to construct a ladder reaching from top door to outside opening at roof so that it will be easy for a man to go to the top of an empty silo and open the roof door to lower rope or pulley for elevating pipe or carrier.

Corn should be fairly well matured, for at this time the plant contains its greatest amount of food material. This stage may be determined by observing the denting of the corn, the drying of the bottom leaves or some of the outside husks.

The early dent stage is that period when the corn is best matured for putting in shocks. If the corn be sowed thick in drills or broadcast, its maturity can be determined by tassel and silk. With cane, kafir corn or milo maize the same rule will hold true as to maturity. If the corn is overmatured it will be necessary to add water which can best be done by using a hose and putting the water in at the blower, using from one-half to one barrel per load according to the dryness of the fodder. Where the silage is to be used for fattening, rather than milk production, it is important that the corn be mature, and for this purpose it is best to plant an early variety in those sections where a later one will not mature.

Renovating Strawberry Bed Soon After Harvest

The strawberry patch which has borne one crop should be renovated soon after harvest. This is done by plowing out the plants on either one or both sides of the row, leaving a strip only about four inches wide. The soil of the plowed land is thoroughly cultivated and if a spike-toothed harrow is used, cross-cultivation may be practiced so that a good bed is made for the new runner plants. Under good soil conditions these will start to row within a short time and will make a row of new plants 12 to 16 inches wide by early fall. The new plants are confined to the proper width by continuing cultivation until they cease to grow. Usually it does not pay to renovate a commercial strawberry patch that has already produced two crops, although a home patch, under very favorable conditions, may be allowed to yield three and sometimes four crops.

"Hard Luck" With Pigs Result of Wrong Feeds

A great deal of so-called "hard luck" with young pigs soon after farrowing can be traced directly to improper feeding and in most cases to over-feeding of the sows. Just because a sow seems hungry just after farrowing is no index that she should receive feed.

A liberal supply of water should always be available. This will usually satisfy and quiet the sow. She should receive very little feed for at least 24 hours after farrowing. The first few feeds of grain should be light and fed in the form of thick slop. She should not be on full feed for from six to ten days after farrowing.

FARM FACTS

Few things give more and cost less than a woodlot.

Watch the garden for unwelcome insect visitors. A bug in time saves nine—and the garden sassa.

Alfalfa is not only a soil enricher of outstanding merit; it is the best of all forage crops for dairy cattle.

Lots of loose talk about the poor class of help on the farms made one farmer inquire if better living quarters wouldn't attract a better grade of men.

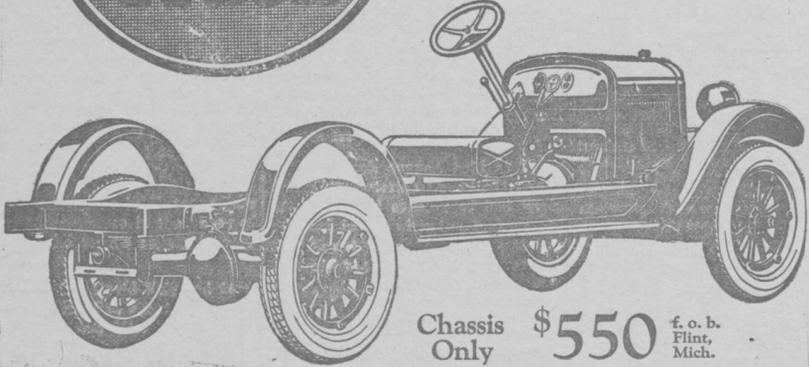

During hot weather it is very necessary that the buckets from which calves are fed be kept clean and sterilized, since dirty buckets are a common cause of calf scours. Bacteria develop rapidly at this time of year and an unwashed bucket soon becomes very unsanitary.

Window glass filters out certain valuable sun rays. On a test at the New Jersey experiment station 1,000 chicks kept behind glass averaged one-fourth pound each at the end of 12 weeks. Two hundred chicks of the same age and fed the same ration, but kept outdoors, weighed 1½ pounds.

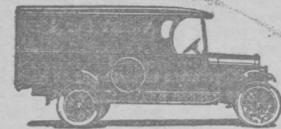

for Economical Transportation

New 1-Ton Truck

Chassis Only \$550 f. o. b. Flint, Mich.

The Chevrolet chassis may be fitted with a wide variety of bodies, suitable for any industry, including such styles of bodies as Panel Delivery, Stake, Open Express, Canopy Express, Bus, Dump and Tank.

Large 30" x 5" tires on front wheels only \$35 extra. See us today regarding a style of truck to fit your particular needs.

Chevrolet introduces a new one-ton truck, built according to the fundamental policy of this company to provide "Quality at Low Cost".

It has a fine appearance and is specially designed and constructed for commercial service. Its deep 6-inch channel steel frame, hung low to the ground on long semi-elliptic springs, allows the platforms to be placed at the right height for easy loading and unloading.

The powerful Chevrolet motor is famous for its ability to stand up under heavy service. It has well balanced crankshaft thoroughly lubricated, standard 3-speed transmission, fully enclosed dry-plate disc clutch, extra heavy rear axle with large spiral bevel driving gears and rigid one-piece pressed steel housing, heavy truck-type wheels and large tires, full running boards and fenders, Remy generator, starter and distributor ignition, and other quality features.

This truck is not only well adapted to city work but also for use in hilly country and over difficult roads.

For lighter loads there is a Chevrolet commercial ½ ton chassis possessing the same quality features, price \$425 f. o. b. Flint, Michigan.

Ohler's Chevrolet Sales Co., Taneytown, Md.

Quality at Low Cost

HIS MATCH

A taxi driver recently got the worst of a wordy bout.

An old man with a wheelbarrow wouldn't get out of the way, and the taximan shouted:

"You ought to be wheeling a baby buggy."

"And you ought to be in it," replied the old man.

A Business Getter

A small boy called on the doctor one evening. "Say, doc, I guess I got measles," he said, "but I can keep it quiet."

The doctor looked puzzled.

"Aw, get wise, doc," suggested the small boy. "What'll you give me to go to school and scatter it among all the kids?"—Bottles.

TRIALS OF WEDDED LIFE

Radio Fan—Have you a loud speaker in your house?

Longsuffer—Yes, loud and incessant. I'm sometimes sorry I married her.

Supply and Demand

Supply and demand
Serve to heighten the gloom.
There are always more problems
Than we can consume.

Conditions Changed

He—You are very extravagant in your dress.

She—Before we were married anything that was for me you never thought extravagant, no matter how much it cost.

He—Hub! I never said what I thought then.

Contemplation

"I have heard that you contemplate retiring to private life."

"I do," answered Senator Sorghum; "the same as I contemplate going to heaven. It's a sweet and blissful prospect, but somehow you don't feel in any particular hurry about it."—Washington Star.

"The line is busy"

SOME people have the idea that this is the telephone operator's favorite phrase when she is too plain lazy to make the connection. All wrong.

In the first place, our operators aren't the lazy sort; they are too carefully picked and trained and supervised. And their never-ending courtesy ought to tell the doubters that they believe the public always comes first. But if they were lazy, or tired, or afflicted with any of the other ills that the human race is heir to, they'd make the connection; because it's easier to do that than to tell you the line is busy. One push of a plug often makes your connection; several operations are necessary to tell you the line is in use. We'd like to show you about it at your own exchange.

A "busy" report may not mean that your man is talking. Some one else may be calling him. His receiver may be off the hook. Or if he's a party line subscriber, one of these things may have happened to another telephone on his line. So if he says he was not talking at the time you called, don't jump at the conclusion that the operator has given you a wrong report.

We're not perfect. But we're all—one hundred per cent of us—doing our utmost toward giving the public the best possible telephone service.

Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean of the Evening School, Moody Bible Institute of Chicago.)
(©, 1925, Western Newspaper Union.)

Lesson for September 20

PAUL WRITES TO THE THESSALONIANS

LESSON TEXT—1 Thess. 2:1-12.
GOLDEN TEXT—"In everything give thanks."—1 Thess. 5:18.
PRIMARY TOPIC—Paul's Love for His Friends.
JUNIOR TOPIC—How Paul Worked in Thessalonica.
INTERMEDIATE AND SENIOR TOPIC—Paul's Devotion to His Work.
YOUNG PEOPLE AND ADULT TOPIC—The Spirit and Method of Paul's Work.

While the lesson committee has selected this brief passage in the second chapter for printing, the intention was to present the message of the entire epistle. It was on Paul's second missionary journey that the church at Thessalonica was founded as seen in the last lesson. After crossing into Macedonia he preached the Gospel at Philippi, where he was imprisoned. From Philippi he went to Thessalonica. The people there were largely Gentiles.

I. The Salutation (ch. 1:1). Timothy and Silas were associated with Paul in this missionary journey, and they are associates of Paul in this message.

II. Paul's Thanksgiving (1:2-10).
1. For Their Faith, Love and Hope (v. 2-4).

This triad of graces testified of their election of God.

2. How They Preached the Gospel (v. 5).

It was in the power of the Holy Spirit.

3. Joyful Obedience (v. 6).

4. Exemplary Lives (v. 7).

5. Missionary activities (v. 8).

6. Turned From Idols (v. 9-10).

III. Character of Paul's Ministry (2:1-12).

It would seem from this defense that some of the Jews had called into question his ministry. He defends himself by showing the character of his ministry:

1. It Was Courageous (vv. 1-2).

His persistence in spite of shameful persecution proved his devotion to the Lord and His work.

2. Honest and Guileless (vv. 3-4).

As one sent of God, he faithfully ministered unto them, not courting man's favor.

3. Without Flattering Words (v. 5).

4. Without a Cloak of Covetousness (v. 5).

5. Did Not Seek Glory From Man (v. 6).

6. Gentle and Affectionate (vv. 7-8).

So vitally did he enter into the lives of the people that he displayed a gentleness even as a nursing mother with her children.

7. Unselfish (v. 9).

In order that his motive be not questioned, he labored night and day for his support.

8. Irreproachable and Blameless (v. 10).

He did not claim to be faultless, but he challenged them as to his blamelessness.

9. His Lofty Aim (vv. 11-12).

That they would walk worthy of God in keeping with their high calling.

IV. How the Gospel Was Received (2:13-16).

As the very Word of God.

V. Paul's Desire for the Thessalonians (2:17-18).

1. He Endeavored to See Them Face to Face, but Was Hindered by Satan (2:17-18).

2. He Declared Them to Be His Crown of Rejoicing (2:19-20).

His hope of meeting his converts at Christ's second coming was his crown of rejoicing.

3. Reloicing Sent to Them (3:1-10).

It was his report that furnished the information concerning this church.

4. He Prayed for Them (3:11-13).

VI. Sins Rebuked (4:1-12).

1. Unchastity (vv. 1-5).

2. Dishonesty (vv. 6-8).

3. Lack of Brotherly Love (vv. 9-10).

4. For Being Busybodies (v. 11).

5. Idleness (v. 11).

VII. Doctrinal Errors Corrected (4:13; 5:11).

1. Not to Sorrow Unduly (v. 13).

It was because of their misunderstanding of the meaning of the coming of the Lord that they were indulging in excessive sorrow.

2. The Reason Assigned (vv. 13-18).

(1) The departed saints will come back when Jesus comes (v. 14).

(2) Living Believers Will Be Caught Up With Them (v. 17).

3. The Time of the Lord's Coming Unknown (5:1-11).

The exhortation is "be ready," watch.

VIII. Concluding Exhortations (5:12-23).

Sin, Grace, Humility

No sin is so offensive to God, and so injurious to the soul as pride. No grace is so commended, both by precept and example, as humility.—Ryle.

Truth

Truth is not of man's making, but of God's revelation. Hear it in the house of God.—American Lutheran.

To Be Thankful

To be thankful is to be especially Christlike.—Russell H. Conwell.

THE CHRISTIAN ENDEAVOR TOPIC

Moody Bible Institute Monthly
Chicago, Ill.

September 20

Getting Strength from God
2 Corinthians 12:6-10; Philippians 4:11-13

Observe the first word of our topic. It is not the word asking, but the word "getting." Many ask and then doubt. Not many know how to ask and receive. In a tract written by Dr. Northcote Deck entitled Turning Promises Into Facts, these words are found: "It is one of God's certainties that the great wonderland of grace and of glory can only be possessed by a life of faith. And a life of faith implies a series of conscious, definite, repeated daily acts of faith by which we take God at His word, believe His promises, claim them for our own in spite of feelings or appearances, and so turn them into blessed facts of experience."

Now consider the provision in our Scripture lesson—"My grace is sufficient for thee." Has this provision been translated into actual experience or, to use the words of the topic, are we getting strength from God? To Israel it was said, "Every place that the sole of your foot shall tread upon, that have I given you." We may change these words for the occasion and read them in this way, "Every provision of grace that your faith shall lay hold of, that have I given you in actual experience." We get strength from God, not merely by asking for it, but by receiving it.

A bird may get along with only one wing, but can never know the full joy of bird life without two wings. A Christian may live along day after day by asking and asking and asking. In this there may be a certain subjective and beneficial reaction, but the new life in Christ can never be fully known until we learn to "ask and receive." It is this that leads to the fullness of joy.

Concerning certain believers it is said that out of weakness they were made strong (Heb. 11:34). How was this change brought about? The preceding verse tells us that they "obtained promises," that is, they turned the promises into facts of experience. The alchemy by which the divine promises were transmuted into human experience is found in the two words "by faith." The Christian believer who does this is able to say, "I can do all things through Christ who strengthened me."

Member of Lily Family Grows in Arizona Desert

Arizona deserts have their own flowers, in places the supply is abundant, the growth large, the flowers when in bloom of marked beauty, the big yucca and the sotol, both members of the lily family, showing beautiful bloom on tall and stately stalks.

One of the interesting desert growths is the water cactus, so named because of its great stalk, from five to ten feet high and as large in circumference as a barrel. It has a heavy pulpy covering from which it is possible to squeeze goodly amounts of water, and Indians and travelers are quick to turn to the cactus when water supplies are short.—Columbus Dispatch.

Business Is Business

A recently printed story about a stenographer who said she didn't care to work any longer for a boss who was so stupid as not to notice that she was dressed for the matinee, reminded us of an anecdote of Henry Irving and Jessie Millward. Miss Millward appeared at rehearsal one day in a new and dainty dress. Irving noticed it. "Very pretty frock—very pretty indeed," he said. "What is it for?" "I'm going to join a luncheon party as soon as rehearsal is over," she answered proudly.

"Go at once, my dear; go at once," was the disconcerting reply. "Don't let the rehearsal detain you. But—tomorrow—come in your working clothes tomorrow—with your mind full of work."—Boston Transcript.

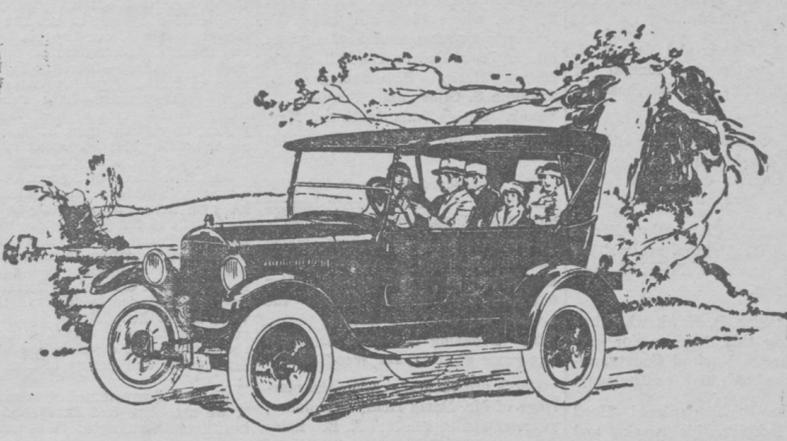

Rough and Ready

Phil was a first-year pupil in one of the North-side schools, and though small, was "in Dutch" for fighting on numerous occasions. One day his teacher called his mother on the phone to say she would have to send him to see the principal. The mother asked her not to do that, as it would be too humiliating, but to try to reason with him and it would be more effective. "Reason with him," the teacher said. "I tried that for fifteen minutes at my desk, and thought I had won him over, but before he got back to his seat, he had hit a boy in the nose who was smiling at him."—Indianapolis News.

Preserving Wild Fowl

A tract of 25,000 acres in Louisiana has been given to the National Association of Audubon Societies, together with a large endowment for the planting of cereals for food, for the creation of a sanctuary for the preservation of wild ducks. Dr. T. G. Pearson, president of the society, stated that this was the most important step ever taken for the preservation of wild ducks, because of the provision for keeping the land constantly under cultivation and growing enormous crops exclusively for the wild fowl.

Felicity
The movie actor has to face The perils of publicity And sacrifice, in quest of "space," His marital felicity.

Travel
Homebody—The last time I saw the great Mr. Muffroff was in Venice. Benabroad—G'wan! You've never been in Venice. Homebody—I know it, but I've been to the movies.

Unloaded Years
Nell—What else you may say of her, Miss Anthony carries her age remarkably well. Bell—Oh, it's easy enough to carry one's age by dropping a few birthdays now and then.

All Right for the Purpose
"Are you painting that scene over there? It doesn't look much like it at all."
"I know. I'm doing it for souvenir post-cards."—New York Mercury.

P. P. C.
He (at window)—Isn't that Blank and his wife at the Ewelon's door? I thought they were to be divorced. She—So they are. They are now making their pre-separation calls.

Plants That Protect Coasts From the Sea
In the struggle to defend our coasts from sea encroachments, seaside authorities have no better allies than the hardy tamarisk and shrubby sea blite. These useful plants are as effective in protecting the lonely stretches of our shores as stout sea walls and far-flung groynes, says a writer in London Tit-Bits. Take, for example, Shoreham, on the Sussex coast. This town was seriously affected by the incoming tides until it was found that the loose shingle that fringes the sea could be bound into a resisting mass by the extensive planting of tamarisk, a hardy little plant whose only real enemy is severe frost.

On the Norfolk coast the same method is adopted, but there the shifting shingle is bound with shrubby sea blite, which grows waist high and covers large areas of the coast. The more this plant is ill-treated the stouter it flourishes. Occasionally a violent storm will result in the shrubs being completely embedded in fresh shingle thrown up by the waves. This, in reality, is an advantage, as the plant puts forth new shoots that bind the fresh stones, still further strengthening the land rampart.

"Sports" a Century Ago Not of Highest Order
Public entertainments in London a hundred or more years ago were more of a sporting than of a dramatic or musical type. In the Observer of a date of 1825 appeared a full report of a dog fight, at the Westminster pit, at which "fifty personages of rank" were among the spectators, and whereat also his grace, the king's rat catcher, entered the arena with a cage containing ninety rats that a dog named Billy killed seriatim in seven minutes and thirty seconds.

Another article recorded that Mr. Wombwell, the proprietor of a lion named Nero, had built a den, ten feet high and fifty-seven feet in circumference, in which a contest a outrance between his pet and six dogs was to take place in June. Still another chronicled the melancholy fact that "John Smith, who was matched to eat a pair of men's shoes in fifteen minutes at the Half-Moon tap, Leadenhall market, has broken down in training, having been seized with indigestion."

Diamonds From Belgium
Diamonds sent from Belgium to this country in a recent month were valued at \$1,500,000, while steel shipped from here in the same time was worth only \$500,000.

Excellent Idea is Umbrella "Exchange"
Brussels appears to be the only city which has a well-organized umbrella-borrowing bureau. The annual subscription is low, but if every umbrella-user were to join such a society, its income would be enormous.

The idea is rather similar to that in force at the British museum, National gallery and other public institutions, where you are required to deposit your "gamp" before being allowed to go round the galleries. You get a ticket of metal, or a bone disk, which will redeem your umbrella at any time; only, in the case of the umbrella exchange, the umbrella is not your own, but the property of the society.

Each member, on paying his subscription, receives a token, usually of metal stamped with an index number, which he carries in his pocket instead of an umbrella in his hand. When caught by the rain, all he has to do is to go to one of the society's agencies, which are tobacco shops, restaurants and big stores, and hand over the token, to be immediately provided with an umbrella.

When the rain ceases the borrower deposits his umbrella in the next agency he happens to pass, and in exchange receives another counter.

Rose Bushes That May Be Classed as Freaks
As a rule rose bushes are not classed with yews and oaks among the long-lived and ancient, but a rose tree on the wall of Hildesheim cathedral, Prussia, can be traced back with certainty to the Eleventh century. Its main trunk has a thickness of 20 inches, and the branches spread over the wall to a height of 25 feet.

The castle of Chillon, on Lake Geneva, in which the famous "Prisoner" of Byron's poem was interned, has a very large rose tree of unknown age, and in the Marine gardens at Toulon there is one that spreads across a space of 80 feet by 15 feet, and which has been known to bear 50,000 blooms at the same time!

The biggest rose tree in Europe is in the Wehrle gardens in Friesburg, Germany. Its stock is a wild rose on which a "tea rose" was grafted 40 years ago. Today the lush is 120 feet high.

Bark "Wrapping Paper"
The Chopi Tibetans retain their individuality partly because they inhabit inaccessible mountains. At their capital, Choni, on the Tao river, lives the hereditary Chinese ruler of 48 tribes of this people. He can levy taxes, quell rebellions and administer punishment, but the Chinese say of him, "He has the pig's head, but cannot find the door of the temple." They imply that he is willing to give bribes to keep his position, but too many officials expect them, and he cannot tell which deserve the largest. A recent study of the province includes extensive botanical and zoological observations. One tree, known locally as the "red birch," is a boon to traders. It has a shining, brown, papery bark, which peels off in large, thin sheets, which are used by Tibetans and Chinese for wrapping butter and other food articles.

Ostrich Father
"At this season on my South African ostrich farm," said an ostrich farmer, "you will see some male birds strutting proudly about with three or four broods in addition to their own, while other males move wretchedly without any broods at all."

"The male ostrich, you see, is a very fond parent. He swaggers away from the nest in the morning to give his young ones an airing, and when he spies another male occupied in the same way he puts up a fight and, if he wins, he collars the beaten bird's brood."

"To see one of these proud males in the spring of the year swelling round with goodness knows how many little ones is a sight to bring tears to a true father's eyes."—Rehoboth Sunday Herald.

Mills for Milk
There is a tradition of a boy from London who was disappointed with the country, where he went for a holiday, because he saw them "pump milk from a dirty old cow."

The boy's idea of artificial milk is within realization, for after manufactured butter we are to have artificial milk. It is already consumed extensively in China and a mill is to be set up in France.

The Chinese drop a powder into water, stir it and it becomes milk. The powder is a soja bean crushed. The French mill is to treat the bean so as to enable the milk powder to be sold in packets. It is said that cheese is obtained by the same process.—London Globe.

Rare American Stamps
The first official use of postage stamps was sanctioned by act of congress of March, 1847. On July 1, 1847, the first stamps were issued. They were a 5-cent and a 10-cent stamp. The 5-cent stamp bore the likeness of Franklin, while the 10-cent stamp bore the portrait of Washington from Stuart's painting. Professional stamps were issued prior to 1847 and were used by postmasters at some of the larger offices. They consisted of an impression placed upon letters with impressions such as "paid 5c." the name of the office, etc. These stamps are very rare and are among the most valuable known.

TANEYTOWN LOCALS

Items of news from town, or vicinity are always wanted for this column. Especially accidents, sales of real estate, fires, important happenings, visits to or from the community social events, and all matters of general interest to those at home, and away from home.

Miss Estella Essig entered the Junior Class at Western Maryland College, this week.

Mrs. Thomas G. Shoemaker, left this Thursday, for Detroit, Mich., on a visit to her sister, Mrs. John J. Reid.

Misses Cora and Ruth Miller and Miss Helen Stonesifer, spent several days this week, with Mrs. Roy Carbaugh.

Samuel Ocker, of Hagerstown, visited Taneytown, on Wednesday, and renewed a number of old acquaintanceships.

An important special meeting of the Fire Co., will be held next Monday evening, at 7:30. A full attendance is desired.

Rev. and Mrs. Charles W. Hess, of Brunswick, Md., spent the past week, with Jacob D. Null and family and attended the Fair.

Rev. and Mrs. L. B. Hafer and family, of Gettysburg, were the guests of P. B. Englar and family, at dinner, last Saturday.

A meeting of the Interstate Milk Producers' Association will be held in the Firemen's Building, Taneytown, Tuesday evening, Sept. 22.

The first meeting for the season of the Parent-Teacher Association, will be held in the Opera House, Friday evening, Sept. 25, at 8:00 o'clock.

Dr. Lewin Hitchcock, son of Dr. and Mrs. N. A. Hitchcock, of Taneytown, has engaged in the practice of dentistry in the office of the late Dr. Geo. E. Baughman, Westminster.

A public school building to cost \$348,073, is to be erected in the Roland Park section of Baltimore. The heating plant alone, costs \$48,985, or approximately the cost of our entire High School property.

The heavy rain of Sunday evening furnished clear "wash-day" water for many Taneytown housewives who were in a quandary as to how to do clean washing with the red water from the public supply.

Mrs. George Harner has been engaged for two weeks, to play the pipe organ in the College Church, Gettysburg, as a substitute, the regular organist having gone to Hanover, St. Mark's Church.

Burton Kephart was one of four boys to receive a money prize for judging Holstein cattle, at the judging contest at Timonium Fair, last week. James T. Bushey, of this county, won first prize for judging Ayrshires.

Miss Elizabeth R. Elliot, who for the past eight years has held one of the higher positions on the nursing force of the Presbyterian Hospital, has resigned, to take up like work in a private hospital at East Stroudsburg, Pa., on October 1.

The first of this week—notably Monday and Tuesday—was a busy one on our streets, and on the road to the Fair. "Getting ready" required a lot of work and quick action. Of course, our office had the usual run of last minute jobs, wanted "right away."

We were told, when the Union Bridge Electric Co., went into new management, that the periods when current would be "off," would be much shorter. So far, we have not noticed any difference; when the current goes "off," especially during an electrical storm, it stays off several hours.

Following the excessive heat of the past two weeks, last Saturday and Sunday evenings, heavy electrical storms, accompanied by wind, did considerable damage in Frederick and portions of Carroll counties. The upper part of Taneytown district suffered damage to corn fields and trees, and three slight losses were reported to buildings owned by Charles E. Keefe and the Arnold brothers, and Wm. J. Stover.

David Staley, while walking along the right side of the road at the east end of town, on Tuesday night shortly after dark, and pulling a small express wagon, was accidentally run down by Miss Annie Flickinger on her way to town in her car. The narrowness of the road the coming of the cars going in the opposite direction, and the glare of the headlights on the wet street, all contributed toward the accident. Staley was carried along a considerable distance on the fender of the car, and fell to the ground when it suddenly stopped. He was considerably bruised and covered with mud, but very fortunately was not seriously hurt.

Mrs. John Ott, who was paralyzed, last week, is somewhat improved at this writing.

Mr. and Mrs. Howard Baker, of Philadelphia, are spending this week with relatives in town.

Mrs. D. W. Garner and Mrs. D. M. Mehring, attended the funeral of their cousin, Mrs. John Basehoar, at Littlestown.

Quite a number of our citizens helped out the hotels in caring for the large number of strangers who had business here at the fair.

Mr. and Mrs. Clotworthy Birnie and son, of Washington, are visiting Mr. Birnie's parents, Mr. and Mrs. Geo. H. Birnie.

Mrs. Hezekiah D. Hawk who has been visiting this Summer, for several months, in Harford County, returned to her home here, on Thursday.

Miss Ethel Sauble entered Hood College, Frederick, this week, and Misses Margaret Crouse and Janet Crebs entered Millersville State Normal.

Mrs. Charles S. Watson, of Colmar Manor, Md.; Miss Nannie Hess, Miss Gladys Zepp and Hubert Null, spent Sunday in Westminster with Mr. and Mrs. John D. Belt.

Mr. and Mrs. Theodore Eckard are now occupying their home in the John W. Eckard dwelling, on Fairview Avenue. They removed from Blue Ridge Summit, this week.

The stores and business places pretty generally closed on Wednesday afternoon, to give employees time to attend the Fair. The Record Office closed on Thursday afternoon.

Mrs. Lawrence Murphy and son, Lawrence, Jr., who spent the summer with Mrs. Murphy's parents, Mr. and Mrs. Harry B. Miller, left for their home in Greensburg, Pa., on Friday.

Chas. Uhler, of Brooklyn, N. Y., Mrs. Henry Bertrum and son, Chas., of Catonsville, and Mrs. Jacob Uhler of Upperco, visited Mrs. Margaret Harmon and Mrs. James Shorb, on Wednesday.

Miss Blanche Stouffer, returned home after spending a week with friends in Hagerstown. Mr. and Mrs. C. A. Bohn and family, of Hagerstown, spent Sunday with Mr. and Mrs. Harry B. Stouffer and family.

James Baumgardner had a bone broken and his little finger nearly torn off, on Sunday evening, while working at the B. & B. Bakery, getting it caught in the proofer, while taking out bread dough.

Mrs. Cleason Erb and daughter, and grandson, and Mr. and Mrs. Bush and daughter, of York; Mrs. Chas. Harris and son and her cousin, and Mr. March and friend, of Chambersburg, visited Miss Amanda Wolf, on Sunday.

Miss Ida Sherman, of York, visited the employees of the Record Office, on Wednesday, and made herself acquainted with her former surroundings of some years ago. She bought out a restaurant, in York, and took charge on Thursday.

Mrs. Roy B. Garner and little son, returned home from Washington, on Wednesday, accompanied by Mr. and Mrs. Victor Zepp. J. Whitfield Buffington, of Washington, was a visitor at the Garner home, this week.

Noted elsewhere in this issue, is the marriage of Carroll Ervin Reid, of Detroit, well known here. Mr. and Mrs. Reid paid Taneytown a flying visit on their tour, on Thursday, coming from Washington and going to Gettysburg.

Visitors at the home of Mrs. Sarah Null and Mrs. Louisa Hammond, during the week, were: Mr. and Mrs. Addison Harner, of Hanover; Mr. and Mrs. John Renner and daughter, Betty, of Mt. Pleasant; Mrs. Annie Renner, of Littlestown, and Mr. and Mrs. George Buffington, of York.

Mr. and Mrs. Raymond Shriner and daughters, Ruth, Virginia and Betty Ray, Mr. and Mrs. James Fox, of Baltimore; Mrs. William Ohler and daughter, Catherine, spent Saturday with Mrs. Newton Hahn and family. Mr. and Mrs. Shriner and family also spent Sunday with William Ohler and family, of Taneytown.

A hearing was held before Justice Hutchins, in Westminster, on Monday, of two cases of auto accidents that occurred recently at the railroad crossing in Taneytown, in which parties from Emmitsburg ran into freight trains standing on the track at the street crossing, at night, the autos being thereby considerably damaged. At the hearing the drivers alleged that they could not see the train, notwithstanding the electric light suspended over the street at the railroad, and that each driver had proper control of both car and speed. Each case was dismissed.

The new books for the Public Library will be ready for distribution, this Saturday night.

The following have returned to the Maryland State Normal School, at Towson, where they will finish the teacher's training course this year: Misses Treva Becker, Iva Hiltnerbrick, Messrs Harry S. Baumgardner, Franklin S. Gilds and Grayson A. Shank. Misses Vada Smith and Marcella Eyerler are beginning the course this year.

The Woodsboro team won the pennant in the Frederick County League by defeating Thurmont last Saturday afternoon 4 to 1. The game lasted only five innings, on account of a storm, and after waiting until after 6 o'clock the umpire decided the ground too wet for further play. "Cap" Drenning has been playing a fine game at third, for Woodsboro.

Cards are out announcing the marriage of Mr. David Henry Reindollar, younger son of the late E. E. Reindollar, to Miss Eunice Nathalie Kraft, of Baltimore. The wedding took place on Sept. 5th, in Brown Memorial Chapel, Baltimore, in the presence of a small group of friends and relatives. The young couple left immediately after the ceremony for a trip north, and will be at home at the Montreal Apartments after October 1st. They have the best wishes of a host of friends.

(For the Record). Among those who attended the watermelon social, held at the home of Cleve Weishaar and family, on Sept. 11, were: Mr. and Mrs. Jacob Strawsburg, Mr. and Mrs. Chas. R. Miller, Mr. and Mrs. Samuel Clingan, Mr. and Mrs. W. S. Clingan; Misses Rosella and Viola Ohler, Ethel Clingan, Mildred Wantz, Evaline Miller; Messrs David Ohler, Charles Clingan, Robert Smith, Ervin and Elmer Ohler, Harry, Donald, Raymond and Junior Clingan, and Herman Miller.

THE EMPTY PISTOL LAY AT HIS FOOT. A bullet had pierced his heart. On his desk was a woman's handkerchief, its faint perfume exhaling. Had a woman done this deed? For the answer read "Sandy"—great new serial story begins Friday, September 18 in The Baltimore News.

Doing Things—in our Mind.

Keeping up with one's profession is about the same as "keeping up with the procession," but a good many people do not seem to see the similarity. Some of our biggest talkers, and those who seem to know the most about everything—from the big questions of National politics on down to little local matters—have run-down looking little farms and business places, or perhaps none at all, and never held as small a public office as that of district school trustee.

Just how it can be figured out that a man who never made a success of his own little business, is yet fully competent to tell just how to run big business, is one of the problems that needs demonstration in nearly every community. Suppose we say—He never had the chance! Well, every fellow has a chance to do well, every fellow has a chance to be a success, well, hasn't he? Every fellow has some one thing he ought to do, and the authority to do, if he has enough intelligence and get-up in him to do it.

We are always building something, if we are alive and have reasonable health and strength. We are all teachers, and managers, and architects, of some sort. But, the trouble with us is that we take our own little affairs so easy, that we fail to realize how hard things are to do that we really know nothing about—but think we do. Taxes are too high! Government costs too much! Politics is crooked! The rascals ought to be turned out! And, we assume our ability to attend to such easy matters, if we just had the chance.

Would we, or could we? We would not, and could not. We would likely be bigger rascals, if we got in, than these who are in. We would make more blunders at law making, than the professional law-makers. We would mess things up in general, worse than they are now.

Every man, to be what he thinks he is, must start being a successful manager from the ground up, and keep on going. He must actually know things, and not just think he knows. He must realize that the bigger the job, the harder it is to do—the bigger man it takes, the bigger pay it is worth, the bigger it costs all along the line.

Really, the best and wisest, the most honest and competent, people we have, are those who hesitate most to say what they would do, if they had the chance at a big job. They know the difficulties—the big conflict—between the right thing, and the doing of it; they know that no one man can do it, and that the way is beset by robbers and all sorts of handicaps, and that good legislation and good accomplishments, come only after fights and compromises, and even then are mighty small as compared with expectations.
