

STATE C. E. CONVENTION IN PROGRESS.

Dr. Daniel A. Poling the big attraction tonight.

The thirty-ninth annual convention of the Maryland Christian Endeavor Society opened Thursday night in Alumni Hall, Western Maryland College. The conference will continue until Sunday.

The Rev. Dr. Norman Ward, president of Western Maryland College, read the Scripture at the opening session. Speeches of welcome were made by Mayor George E. Matthews, the Rev. Edward Hays, pastor of Centenary Methodist Episcopal Church, and the Rev. G. W. Ports, president of the Carroll County Society.

This Friday night the Rev. Dr. Daniel Poling, president of the International Christian Endeavor Union, will be the principal speaker. A torchlight parade will be held Saturday night.

The full program is one of the best ever provided and contains the names of many prominent men interested in church and C. E. work.

The Parent-Teacher Meeting Next Tuesday Night.

The Parent-Teacher Association of the Taneytown School cordially invites every one to attend its next meeting to be held in the School Auditorium, on Tuesday evening, October 29, 1929, at 7:30 o'clock. The program will be as follows:

School Orchestra Solo
Mrs. Francis T. Elliot Reading
Mrs. Allen Feeser Presentation of Flags

Camp No. 2, P. O. S. of A.
Violin Solo
Talk and Demonstration on "The School Lunch"

Miss Shindee School Orchestra Selection

Annual reception to the new teachers immediately after the program.

Coming High School Events—School Bazaar, Friday, November 13, Assembly Hall; Local Declamation Contest, November 22, Assembly Hall; County Declamation Contest, December 6; High School Operetta, Friday and Saturday evenings, Nov. 1 and 2, Assembly Hall.

The October issue of The Flame, High School Paper, will be on sale on Tuesday evening, October 29, in the Lobby.

"Mrs." or "Miss"—Which?

Every business concern that transacts much mail order business, receives important letters from ladies, signed with their first name—for instance, "Mary Thomson." As these letters either require a reply, or the mailing of an order, the problem always comes up—"Mrs." or "Miss"?

Addressing a lady by mail as "Mary" or "Jane," seems impolite; and would be decidedly "fresh" by a salesman in a place of business. Why not write the "Mrs." or "Miss," as the case may be, and remove the occasion for embarrassment?

Personally, we think that when neither prefix is given, it is justifiable to assume that "Miss" is right, but we happen to know that this is not a safe rule to follow—in fact, that there is no rule.

Another question along the same line is occasionally discussed. Should a wife use her husband's name, as Mrs. John Mitchell, instead of Mrs. Catherine Mitchell, when writing to strangers and in having calling cards printed? Some say the former custom should be used, in case the husband is living, and the latter, when he is not; but again there is no fixed rule, and we do not feel qualified to pass judgment.

We know this, however, that especially when writing to strangers, nothing should be taken for granted, and the name should be so signed as to leave no doubt in the mind of the person whose business it is to reply.

Blue Ridge College Lyceum Course.

The first number of the Blue Ridge College Lyceum Course will be given in the College Auditorium, on Friday evening, November 1 at 8:00 P. M., by The Killarney Colleens.

Irish songs, humor, rhythm and sparkling wit are happily intermingled in the program of "Tess" Sheehan and Mae Saltmarsh, the Killarney Colleens. In their repertoire are various selections that combine music and drama most delightfully. Three changes of costume are used. Opening with an Irish sketch, they convey to the audience a true conception of the land of the fairies, the poets and the bards. Character songs are introduced and some of the latest popular numbers are featured in novel fashion.

"Tess" Sheehan, typically Irish in every word and move, is blessed with a contagious laugh. They laugh with her, they thrill with her and their fancy romps with her creative moods. She has appeared in every state of the Union and is happily remembered for her Irish songs and stories.

Mae Saltmarsh is an excellent trombonist. She has toured on vaudeville circuits from coast to coast, and has done considerable radio broadcasting from Minneapolis and St. Paul. She introduces several novel trombone numbers and presents a piano medley of popular airs arranged by herself. One of her best novelties is a "Solo Duet" in which she plays both piano and trombone.

These two entertainers promise a rich treat. Each is a genuine artist.

E. C. BIXLER.

TRUCK HITS FREIGHT TRAIN

On Baltimore Street Railroad Crossing in Taneytown.

A truck loaded with farm produce, driven by Keller Leathers, of Smithsburg, bound for Baltimore, ran head-on into a freight train standing on the Baltimore St. crossing, Taneytown, on Wednesday night at 10:20. This is the third or fourth time that a similar accident has occurred at this crossing. Neither Mr. Leathers nor the man accompanying him, saw the train until too late to avoid the crash.

Neither of the men were hurt, but the radiator and engine were driven back against the body of the truck, and a portion of the load—fruits, eggs, etc., was ruined. The telephone was used to summon another truck, and the trip to Baltimore was continued.

Accidents of this character are not limited to Taneytown, but are reported rather frequently from various parts of the country, along with other grade-crossing accidents. Unlighted trains, it seems, are difficult to distinguish at night, strange as this may appear.

November Term Jurors.

The following have been drawn to serve as jurors for the November term of Court.

Taneytown District—Robert B. Arnold, Claudius H. Long, Curtis G. Bowers and Daniel J. Hesson.

Uniontown—Ira A. Rodkey, J. Thomas Zile, Grover J. Morelock and Aaron D. Leister.

Myers—Charles A. Koontz, Calvin H. Harman and Austin A. Groft.

Woolerys—Bertrand Caple, Clinton Shipley, Carroll E. Owings and James E. Evans.

Freedom—Willoughby Allport, Harry M. Phelps and William A. Arrington.

Manchester—James W. Martin, John Clayton Black, Denton J. Wertz, Christian F. Hunt and Robert B. Fleming.

Westminster—Charles E. Richardson, Jesse L. Stoner, Frank T. Myers, Archie Claude Algire, H. Price Goodwin, George H. Armacost, John L. Bennett, Elmer C. Brehm and J. Frank Hoffman.

Hampstead—James G. Yingling, Emerson R. Armacost and William C. Caltrider.

Franklin—Howard M. Wantz and Chester M. Nusbaum.

Middleburg—Lloyd B. Wilhide and Henry C. Putman.

New Windsor—Preston J. Duvall, Samuel W. Hoff and Charles E. Nicodemus.

Union Bridge—Harry C. Reese and Samuel E. Brandenburg.

Mount Airy—Nathan G. Dorsey and Samuel S. Hood.

Berrett—Harvey M. Houck and John G. Richardson.

Judge Parke Refuses Writ of Mandamus Against Sheriff.

Judge Parke, on Monday, refused a writ of mandamus against Sheriff Geo. C. Fowble compelling him to admit relatives, witnesses and counsel to the cell of Mrs. Viola M. Spurrier—who is in the county jail on the charge of murdering her husband—without the Sheriff or deputies being present.

The Sheriff through his counsel, Theo. F. Brown, testified in his own behalf that he had permitted counsel for the prisoner to confer with Mrs. Spurrier, privately, but had refused the admission of witnesses and counsel without his also being present.

The Judge found that the rule of law is that the management of prisoners can not be interfered with by the court, and that the writ, as prayed is never issued against a public official unless he has refused to do something which it is his duty to perform. The Sheriff, under the law, has sole charge of his prisoners.

Mrs. Spurrier has been in jail since last July, committed by Police Justice Benson on the charge of murdering her husband, on July 17. Her counsel, Edward W. Weant and John Wood, alleged in the petition for the prisoner that the sheriff had repeatedly refused to allow the prisoner to confer with counsel privately, or with relatives or witnesses, and that so doing interfered with preparing her case for the November term of court, and securing justice.

St. John's Church to Vote on Separation.

The members of St. John's Lutheran Church, near Littlestown, will vote, on Sunday, Nov. 3, regarding the proposition of forming a separate organization. The announcement was made last Sunday that the vote will be taken at the regular services on that date.

Should the vote be in the affirmative it will enable the church to have its own pastor and hold service every week. The church council met on October 15 and decided to place the proposition before the congregation.

The change of which St. John's is a part has had no regular minister for some time but the Rev. Dr. C. W. Baker, of Gettysburg College has been supplying the pulpit.

As to "Contributed" Articles.

We received a "Contributed" article on Tuesday morning that we will hold for next week. In our invitation last week we omitted stating that such articles should be in hand by Saturday for use in the following issue.

Our custom is to commence assembling the copy for editorial page, on Friday afternoon, for the next week, and finish filling the space on Monday, consequently after that time we can not use articles, unless they may have been provided for by agreement.

First page articles, of course, can usually be handled very much later in the week.

CHOICE OF PEN SITE POSTPONED

Opposition to Available Sites Requires Consideration.

The selection of a site for the new penitentiary has been postponed indefinitely by the State Board of Welfare, according to announcement made by Governor Ritchie on Thursday. The opposition to the location of the pen at various sites available has been sufficient to call for serious consideration, which may mean that no location will be selected until after the election in 1930.

There are said to be at least five sites under consideration—two in Frederick, one in Washington and two in Baltimore counties. Most of the opposition is said to come from farmers, but it reaches nearly all classes of persons in the localities spoken of.

According to Governor Ritchie, a site suitable for the prison will be in a locality where the least opposition is raised by the resident. He said it was possible that a site which the board has not yet considered might be selected.

Proceedings of the Orphans' Court.

Monday, October 21, 1929.—Letters of administration on the estate of Herbert Taylor Stephens, deceased, were granted unto Lois Biddle Stephens, who received order to notify creditors.

Blanche M. Harp, administratrix of Daniel J. Harp, deceased, settled her third and final account.

Tuesday, Oct. 22, 1929.—J. Sterling Geatty, surviving executor of Ida H. Repp, deceased, reported sale of real estate on which the Court issued an order nisi.

J. Sterling Geatty, executor of Charles T. Repp, deceased, reported sale of real estate on which the Court issued an order nisi.

Westminster Deposit and Trust Company, guardian of Ann Elizabeth Kroening, infant, received order to sell securities.

Llewellyn Poole and W. Halbert Poole, administrators of Anna S. Moyer, deceased, reported sale of personal property.

Llewellyn Poole and W. Halbert Poole, administrators of Calvin S. Moyer, deceased, reported sale of personal property.

Harry E. Nusbaum and Warren E. Nusbaum, administrators of Mary M. Nusbaum, returned inventory of personal property and received order to sell same.

The last will and testament of Nicholas J. Walsh, deceased, was admitted to probate and letters testamentary thereon were granted unto Frances Cordelia Walsh, who received warrant to appraise personal property and order to notify creditors.

The "Hoboes" are Moving.

This is fitting time for the tramps and hoboes—Knights of the Road—and the highways a bit farther east of us are mostly dotted with plodders, most of them going south, though some will hang around north a while and then find nearby quarters in which to while away the dull winter months until Spring open up again.

Most of the wayfarers are looking for anything else than work. They tramp from choice, as a business, and do not want to be burdened with anything more substantial; though to the uninitiated "tramping" seems to be a harder job than real honest toil, and not half so respectable.

Country newspaper offices meet with a lot of the fraternity, who are eager for "yesterday's paper"—or two of them—and occasionally express their interest in some special thing that is happening, and when questioned are usually found well informed.

The thing to wonder about, is, not that they are with us, but how do they get started at "tramping," and where do they come from? It would also be of interest to know whether their number is increasing or decreasing, and whether some of them may not, on the sly, gather up information that they capitalize, having another class of non-workers as their patrons.

Anyway, they are on the move now, as outdoor life for the year is growing less comfortable—moving south for the winter and north for the summer, like the idle rich.

Westminster Creamery Robbed.

The creamery of Howard E. Koontz, Westminster, was robbed Saturday night last, of cash amounting to about \$30. Mr. Koontz stayed at the creamery until rather late and when he left the building locked up for the night. Admittance was gained at the elevator shaft to the second floor, using the stairway to the first floor, that is between the creamery and the office. The door leading to the office was pried open and it was in this room that the change is kept for the men to go out on the milk delivery in the early morning. There is usually about \$50 in change kept for that purpose. Nothing else was found to be disturbed. It is thought the robbery took place well after midnight. The authorities are making an investigation.

Taneytown School Not in Contest.

The article that appeared in several daily papers the first of this week that Taneytown High School boys won first prize at Frederick Fair for corn testing, was wholly incorrect. The fact is the Taneytown school was not represented in the contest.

A BUZZARD STORY

Bird Smashes Windshield of Auto Near Frederick.

A pair of motorists en route from Ohio to one of the Carolinas related an odd experience to Donald A. DeLashmurt, Rockville auto dealer and former president of the Rockville Chamber of Commerce, as they passed through Rockville.

It involved a mammoth turkey buzzard, which bore such a strong resemblance to a turkey as to be taken for one and which gave a remarkable demonstration of recuperation after an honest-to-goodness knockout.

The story told Mr. DeLashmurt by the tourists was that when they were seven miles out of Frederick a huge bird suddenly rose from alongside the road and flew directly into the windshield of their machine, smashing it into many pieces and scattering glass in all directions. The impact perceptibly jarred the big auto.

The automobile was brought to prompt stop and when its occupants alighted they found the big bird lying alongside the road apparently dead.

"Well, we lose a windshield, but gain a fine turkey," remarked one of the men to the other as he tucked the big specimen into the rear of the car, but a few minutes later the pair discovered that they had not fared that well.

Stopping at a garage on the outskirts of Frederick the tourists called attention of an employe to the "fine turkey" and explained the circumstances under which it came into their possession.

"That's no turkey; it's a buzzard," remarked the garage man, "and he's not dead, either," continued, as the object began to move.

Without further ado, the buzzard scrambled to its feet, flapped its wings a couple of times and gracefully took to the air, leaving the motorists and other onlookers non-plussed.—Rockville Correspondence in Frederick News.

Mr. Jacob Newcomer Killed.

Mr. Jacob H. Newcomer, of York Springs, was run down by an automobile and instantly killed on Wednesday evening, in York Springs, Pa., when on his way home from a store and crossing the street. The street at the point is not well lighted and it is thought that Mr. Newcomer stepped immediately in front of the car that was driven by Ralph Winand, of Hampton.

After striking Mr. Newcomer the car ran into a tree by the roadside and completely wrecked. Winand and a companion, Charles Gross, were both injured, the former very seriously.

Mr. Newcomer was a son of the late Mr. and Mrs. John Newcomer, of Taneytown. He is survived by his wife, who was Miss Rosa Trostle, and one son at home; also by three sisters, Mrs. Harry Koons, of Baltimore; Mrs. Amos Hilbert, Taneytown; Mrs. James A. Reid, York; and by one brother, John Newcomer, of Middleburg, Md.

His age was 62 years, 1 month and 17 days. Rev. L. B. Hafer, pastor of York Springs Lutheran Church, and Rev. Samuel Pittinger, pastor of the M. E. Church, will officiate at the funeral, that will be held in York Springs, Saturday afternoon.

A coroner's inquest will be held after the funeral.

Fewer Train Passengers.

With population increasing, prosperity continuing and the travel habit growing, the Class 1 railroads of the United States are steadily losing revenue from passenger traffic. Revenue from freight, on the other hand is increasing rapidly. For August, the preferred vacation month, with mileage operated greater in 1929 than in 1927, passenger revenues of the reporting companies were \$7,436,000 less this year than two years ago.

For the eight months ended August 31 the 1929 passenger revenue was \$67,386,000 less than for the like period of 1927.

In these statistics, reported by the Interstate Commerce Commission, may be discerned the reason why railroad companies are going so largely into the motorbus and airplane fields of activity. Almost everybody rides nowadays, but less on steel rails.

Users of private automobiles are in large degree permanently lost to the railroads as passengers. Travelers by bus and plane also are definitely lost to the old-line carriers, yet will have to pay tribute to them as the latter take over the newer facilities.

A 13-Hour Day for Hens.

Increasing egg production by use of artificial lights in the late fall and winter should not be overdone. The hen's working day should not be longer than 12 or 13 hours for best results. While the use of lights keeps the laying stock in better condition and increase egg production, excessive use of them is harmful. Some poultrymen use lights only in the morning, and some in both morning and evening. When lights are used in the evening, a dimming device should be provided so that when the bright lights are turned off the hens can see to go to roost. According to the U. S. Department of Agriculture, a 40-watt lamp is a desirable unit. Lights should be about 10 feet apart, 6 feet above the floor, and should be fitted with a reflector about 16 inches in diameter.

Creditors do not have better memories than debtors—they only exercise them more.

MONDAY IS NAVY DAY AT NORFOLK, VA.

What Commander James Says of Need for Strong Navy.

October 28th. will mark the annual celebration of Navy Day, at Hampton Roads, Norfolk, Va., where an impressive program will be rendered. Established seven years ago, Navy Day has steadily become of greater importance and interest, and the effort to establish a complete understanding of the importance of the Navy to the country has become more general. The Navy is of supreme importance to every industry, and to every citizen. There is not an industry, from agriculture to the manufacture of steel, that is not in some measure dependent upon overseas markets, either for the sale of surplus, or the purchase of raw materials. This overseas commerce is perhaps one of our "infant industries," but it amounts to 14½ billion dollars a year. An adequate Navy guarantees this immense economic asset against interruption. Commander James, U. S. Navy, says:

"Changed world conditions have now placed us in the leading commercial position, and being non-aggressive in our policies we may, by keeping strong, continue to enjoy its benefits. It was the aggression of Germany due to the apparent weakness of our Navy that drew us into the last war. Let it be never so in the future, let our peace be everlasting."

A nation peacefully inclined and strong in its defense is immune from war. Let us be thus immune. Let us be strong and secure on the seas that we may hold that prestige in the world so necessary for commercial prosperity. Let our domestic trade progress, and it will with security. Let us continue to build up and maintain our wonderful world trade which has kept pace with the growth of our Navy.

At last we see ahead of us the goal—parity with the navy of England that has stood supreme these many years. Our wealth and prosperity require it, have given us the means to obtain it, and England has acknowledged our right to its superiority in 1922 we surrendered our superiority to obtain it, but when the smoke cleared away we learned that our battleships had been sunk in vain. The parity we had obtained applied only to battleships. It is only now that we are to see its full achievement.

Parity, or equality, that long sought goal, which means security in trade, and freedom from the burdens of armament competition. Let us cherish it, cheerfully abide by it, and thus continue to prosper. Let us accept the learned counsel of every President from Washington to Hoover and all other patriotic and loyal students of world affairs, that our strength on the seas is necessary to our prosperity. Study the relation of the Navy to this prosperity, and learn to honor and appreciate it.

And in closing, may I add just one message to those mothers who have sons growing up in this country. Realize that as long as there exists no navy stronger than our own, they may dismiss those thoughts and fears of having to sacrifice these sons that the country may live. Realize too, that only by this means may they safely cherish this fondest hope."

Owing to the growing appreciation among industries of the value of first aid in the safety first movement, the American Red Cross has doubled its number of students in two years. In the fiscal year which ended June 30, the Red Cross issued 52,596 first aid certificates to students completing the course and passing the tests, as against 24,812 certificates two years ago. A corresponding increase is shown in the number of classes.

In the last year, Red Cross first aid instruction in Maryland trained 466 persons in the emergency treatment of the sick or injured, who passed the tests and received Red Cross certificates.

The national figures do not take into account the thousands who took the course without submitting to the tests for certificates, or the many more thousands who received only a part of the instruction, such as the prone pressure method of reviving the unconscious, as taught to police and fire departments and industries. This alone prepares men in hazardous occupations to deal with gas asphyxiation, electric shock and apparent drowning.

The first aid teaching of the Red Cross tells what to do until the doctor arrives. It calls for no special apparatus, but makes use of the materials at hand. The main emergencies met are resuscitating the unconscious, preventing people from bleeding to death, and handling the injured so as to reduce the danger of shock.

By arrangement with national headquarters, Red Cross first aid is taught to employes of the subsidiary companies of the Bell telephone system.

The Boy Scouts use the same first aid system and receive Red Cross certificates.

William was starting off to school and his mother suggested that he take a handkerchief. "Aw, Mom," protested Willie, "I ain't got no cold."

A grain of gold will spread over a great surface, but not as much as a grain of wisdom.

PRESIDENTIAL HUMOR

Mr. Hoover Starts new Record at Edison-Ford Event.

President Hoover, who has not heretofore had a wide reputation as a humorist, started on in the speech he delivered Monday night during his 50th anniversary of the discovery of electric light by Thomas A. Edison was celebrated. During the course of his address he said:

"I surmise that the wildest ambition of Thomas A. Edison in inventing the electric lamp was 'to relieve the human race from the curse of always cleaning oil lamps, scrubbing up candle drips and everlasting carrying one or the other of them about.'"

"But the electric lamp has found an infinite variety of unexpected uses," he said.

"It enables us to postpone our spectacles for a few years longer; it has made reading in bed infinitely more comfortable; by merely pushing a button we have introduced the element of surprise in dealing with burglars."

"The goblins that lived in dark corners and under the bed have now been driven to the outdoors; evil deeds which inhabit the dark have been driven back into the recesses of our insides; it substitutes for the hot-water bottle in aches and pains."

"It enables our cities and towns to clothe themselves in gayety by night, no matter how sad their appearance may be by day. And by all its multiple uses it has lengthened the hours of our active lives, decreased our fears, replaced the dark with good cheer, increased our safety, decreased our toil and enabled us to read the type in the telephone book."

"Inside" Information For Women.

Include a "surprise" of some sort in the school lunch box. If you think back to your own school days you will remember how monotonous lunches used to be. A few nuts, raisins, dates, or figs, a special kind of cookie, or an especially choice fruit—something that can be saved until last—will be greatly appreciated. If there is time wrap the "surprise" in an interesting way.

Good quality silk is durable material, but it cannot be washed like cotton. Use only lukewarm water for silk garments, for both washing and rinsing. Make good suds of a neutral soap, and wash with as little rubbing as possible. Be careful that the silk does not come in contact with washing powders which bleach, because these powders may rot the material.

Here's an idea for a simple, inexpensive, and wholesome decoration for a child's party cake. Use any preferred cake recipe, and cover the cake with white icing. Have ready some trimmings made from gumdrops—pink, yellow, and green ones. The gumdrops can be sliced thin with a sharp knife, and then cut with scissors into petal and leaf shapes to form wild roses and leaves and stems. A child's name or initials or "Happy Birthday" could be made with bits of gumdrops.

Smothered ham with sweet potatoes is just right these cool fall days. Cut a slice of smoked ham into pieces suitable for serving. Brown these lightly on both sides, and arrange them to cover the bottom of a baking dish. Spread 3 cups of raw sliced sweet potatoes over the ham. Sprinkle with 2 tablespoons sugar, and add 1 cup of hot water and 1 tablespoon of butter or ham drippings. Cover the dish. Bake slowly until the ham is tender. Baste the potatoes occasionally with the gravy. Brown the top well when the ham and potatoes are done.

A two way or pass closet in the connecting wall between the kitchen and dining room is a great convenience. Soiled dishes are passed through the opening from the dining room to be stacked on the drain-board or counter, level with the sink. The sink is often placed along the connecting wall, or it may be at right angles to the pass closet on an outer wall of the house so that there may be a window above it for light and air. In either case as the dishes are washed they can put away on the shelves without any extra steps. On the dining-room side it is a good plan to have a full-length door to shut off the glimpse of the kitchen and sink through the shelves.

Thinking of Christmas?

The Record offers three suggestions of Gifts for your consideration.

1—A year's subscription to The Record (\$1.50) will be accompanied by a Christmas Card containing the greetings of the giver—if desired.

2—Our \$1.00 box of stationery—200 sheets of bond paper with 100 envelopes to match.

3—Two sample lines of Christmas Cards; also box assortment. Orders for cards should be placed now.

Before finishing up your list of gifts, consider these. The Record, especially, should be used more generally—sent to the absent ones who would most appreciate it.

The United States at Sea.

The Record acknowledges the receipt from the U. S. Naval Institute, Annapolis, of a copy of "The United States at Sea," a collection of articles setting forth "The relation of the Navy and Merchant Marine to our National Life." The book is profusely illustrated, the articles are both informing and interesting, and is no doubt designed to give the general public more information concerning the various branches of the Navy, and their activities.

THE CARROLL RECORD

(NON-PARTISAN)

Published every Friday, at Taneytown, Md., by The Carroll Record Company.

P. B. ENGLAR, Editor and Manager.

BOARD OF DIRECTORS.

G. A. ARNOLD, Pres. D. J. HESSON, V. P. G. W. WILT, Sec'y. P. B. ENGLAR, WM. F. BRICKER, JAS. BUFFINGTON.

TERMS—Strictly cash in advance. One year, \$1.50; 6 months, \$1.00; 3 months, 75c; 4 months, 50c; single copies, 3c.

The label on paper contains data as to which the subscription has been paid.

ADVERTISING rates will be given on application, after the character of the business has been definitely stated together with information as to space, position, and length of contract. The publisher reserves the privilege of declining all offers for space.

All advertisements for 2nd, 3rd, 6th, and 7th pages must be in our Office by Tuesday morning each week; otherwise, insertion cannot be guaranteed until the following week.

All articles on this page are either original or properly credited. This has always been a fixed rule with this Office, and we suggest the adoption of it by our exchanges.

Entered at Taneytown Postoffice as Second Class Matter.

FRIDAY, OCTOBER 25, 1929.

It is one of the prime inconsistencies of life, that all of us get bumped for our opinions that others do not like, but get no compensating return from our opinions that others like.

Premier MacDonald, of England, who recently visited this country, talked and acted equal to the best American citizen. Perhaps he may have helped to make some of our good ones, better.

One of our sincerest regrets as an editor, is, that we can find so little time to read the Congressional Record. It beats detective stories all hollow, and if our ability at repartee is below par—especially in sarcasm—the C. R. contains the finest up-to-the-minute supply in the world. The only trouble is, if we read it too extensively and seriously, we are apt to wonder whether there are many sincerely honest men in Congress, or in Federal offices, or anywhere—except a few in the Senate—and we must take their word for that.

The Away From Home Subscriber.

Every country weekly has a considerable list of away from home subscribers, and they are the ones who make the publishers' job worth while. Some are far away, beyond the Mississippi; others in the mid-west, and still others in the eastern cities, or far enough away to be out of touch with local happenings, to all of whom the home paper is truly a welcome visitor.

Almost every such subscription renewal is accompanied by a letter of commendation, or some brief personal mention that shows how much appreciated is the paper from "back home"; and all of this is perfectly natural, and just another illustration of the poetic thought that "distance lends enchantment to the view"; but somehow the feeling comes over the publisher that the local subscriber—for other good reasons than those of the away-from-home—might display more of his kind loyalty.

The home subscriber is of course highly appreciated, if not in turn always so very appreciative. We get so used to things we have always had, that we take it for granted that we will always have them, and do not feel under any particular obligation to consider ourselves interested in their welfare; we just expect them to come along, as always, when wanted, just as they have always done—and there our interest ends.

There is a difference, too, in living in the home neighborhood of the weekly. We often hear and know about things that are in the paper, days before they are published, and often know more of the events than are published. In fact, our very familiarity about local matters, may easily lead us to the conclusion that the Editor doesn't amount to much anyway as a publisher of news, so we feel a certain justification in feeling very independent about whether we subscribe, or not, to his paper.

However, we forget that the news features represent only a part of the value of a weekly paper. We may know about a lot of things that the paper carries; but we can not know in advance what the advertisements are going to be, nor the more general features of value that the Editor gathers up; and most important of all, we need the home printer for many other things than his paper, and no other printer or publisher anywhere can accommodate our special needs.

But, the "away from home" subscriber wants the home paper all for itself. He does not care for its advertisements, nor for its job printing, and not so much for its general features. What he wants is "a letter from home" that comes every week, telling of events that he has no oth-

er way of finding out—and, he would be mighty sorry if he had not this little paper that the home folks may not care so much about. That he says so, at times, is not to be wondered at.

Who is a Lobbyist?

Who is a "lobbyist?" An old-fashioned definition is—"A person, not a member, who tries to influence the votes of members of a legislative or law-making body." Taking this at its face value, we might more properly ask—who is not a lobbyist?

Certainly, this definition is hardly to be classed as representing a disreputable calling, because everybody who has any business interests, moral convictions or political aims, is trying to promote them, and conversely those who hold opposite interests and convictions are trying to promote theirs, whether in or out of membership in a legislative body.

We rather hold that lobbying when conducted on-the-square is a pretty legitimate business, and sometimes quite necessary. We can also see that the dictatorial inclined members of legislative bodies, who do not care to have their own plans interfered with, may easily use the word contemptuously, but that is merely personal and to be expected.

However, it may be that lobbying may be exercised mostly in its worst sense; that it may be mostly employed as an effort to defeat the best interests of the public, in a more or less underhand way, as many another good word, or term, is misused. But, merely to condemn lobbying, when it means the use of influence toward ends that we consider proper, and as an effort toward counteracting wrong influences within a body, is quite another matter.

We must be very careful, these days, how we use names, if we would be personally consistent, or we may find ourselves doing the very things we condemn others of doing.

(Since writing the above, an editorial something along the same line, in the Philadelphia Ledger, came to our notice, and we publish that, under the caption "Four Kinds of Lobbyists.")

Is This "Agricultural"?

An issue of last week's Frederick News, in describing the Fair of the Frederick County Agricultural Society, said in part:

"More stories of easy victims being fleeced by fakirs at the Fair are being told and on almost every hand can be heard reports of some one—either inexperienced at the game or experienced gamblers—being swindled at some game or other."

And following this paragraph came numerous detailed accounts of swindles perpetrated on visitors by fakirs, the sums lost varying from 25 cents to many dollars. None of this is new, nor confined to Frederick Fair, nor is it apparent that any organized effort is being made to suppress the evil.

These fakir gamblers have no rightful place at any Agricultural Fair. It would be hard to imagine any gathering at which they would be less appropriate, notwithstanding the fact that for many years they have been tolerated, if not encouraged, as a Fair attraction; and the only explanation of this is that they "pay" for the privilege of fleecing those who patronize them, and thereby add to the revenue of the Associations.

Certainly, there should be a variety of attractions, but why include gambling, or sleight of hand tricks, or one-sided games in the list? And why assume that such things are wanted by "agriculturists" in a show purporting to be in their interest? If such practices as were complained of in The News are to be tolerated at all, let it be as a County Fair, or by some other name, and not link "agricultural" with the business at all.

THINGS WORTHWHILE.

(Contributed.)

It is difficult to estimate values. Nevertheless some things have a value greater than others have, and we come to think of them as worth more to us.

These are often the simple everyday things that have lost their novelty for us. We should never grow weary of the commonplace, for life after all is made up of the common place things.

What then are some of the things of which we think as worthwhile? Let us say in beginning that they need not have a great money value, for the things we value most we do not estimate in dollars and cents. The real things of life are within the reach of all.

Some one has said, "the highest product of the soil is, animal life," and we would say the highest product of animal life is man. Pope has said "the proper study of mankind is man." To cultivate the friendship of men and women therefore is worthwhile.

To associate with good men and women is to become like them. We are all more or less chameleon-like taking on the colors of our environment. So then we would say in the first place it is worthwhile to culti-

vate the society of good companions.

In the next place we would say, live with good books, for thereby we are associating with the noblest characters of all the ages. "Precious and priceless are the blessings which books scatter around our daily paths. We walk, in imagination, with the noblest characters, through the most sublime and enchanting regions." "A good book is the precious life-blood of a master spirit embalmed and treasured upon purpose for a life beyond life." So may we walk in a worthwhile way with good books.

And we would not forget music and art, "Music both charms," and the great hymns of the church and oratorios have been the inspiration of many a life. I need not name those who have contributed to their genius to this worthwhile branch of our subject, for often the less known have held a great place among these immortals.

Coming home to mother nature we find a source of the highest value. There never was a time when people enjoyed the beauties of the world around them as today. The facilities for travel are such that the world is at our very doors. Palatial trains, motor cars and airplanes take us to the four corners of the earth, overnight as it were. Can anyone estimate this worthwhile privilege?

But, while nature, music and art, books and human friendships are all worthwhile—there is another we must not overlook. It is the life that has been lived in the service of its country and its Maker. Only this week the nation has done honor to Mr. Thomas A. Edison for his benefactions to humanity.

On the golden anniversary of his successful completion of the incandescent light. Notable men were present, among them our president, Mr. Herbert Hoover, who said, "that every American owes a debt to Mr. Edison. It is not alone a debt for the great benefactions he has brought to mankind, but also a debt for the honor he has brought to our country".

From our Pilgrim Fathers and the Father of his country, George Washington, and the great Emancipator, Abraham Lincoln, down to the present time we have a heritage in attainment and in character and in national life that is worthwhile.

The message of worthwhile things comes especially to the youth of our land. They should be satisfied with nothing less than the best.

Wear A Light.

Almost every night some unfortunate pedestrian on our highways is killed or injured by an automobile. Sometimes the accidents are the result of the negligence of the motorists, sometimes the fault of the walkers. Needless to say, both the persons causing the injuries and the victims regret the unfortunate affairs. Every public road should have sidewalks. Some day, the responsible officials will realize footpaths are public necessities. Hundreds of lives will be saved; much suffering will be spared.

In the meantime, however, something should be done. We notice that an ingenious individual has invented red glass discs that reflect the light. Every pedestrian on our roads should wear something of the kind in his coat tail. A flashlight would be excellent. White clothes or stockings have saved many lives and limbs. The ladies can carry the red signal as a sort of rear brooch, carry a flashlight so that it has a rear exposure and wear light clothes.

It is almost a case of suicide to walk upon any road used by automobiles without carrying a danger signal of some kind.—Towson Union-News.

Four Kinds of Lobbyists.

Some of the current comments on the latest inquiry into lobbying at Washington suggest the need for straight thinking to resolve the confusion surrounding this subject. The Caraway Committee is endeavoring to discover whether improper influences are working to promote or defeat legislation. For the moment it is concerned with the so-called tariff lobbyists.

The schedule in the pending measure which has aroused the greatest discussion is that fixing the duties on sugar. H. N. Austin, secretary-treasurer of the United States Beet Sugar Association, tells the committee that during the last seven years his organization has spent about \$70,000 annually in collecting and disseminating information regarding sugar and looking after its interests before Congress. Its object is to obtain higher duties on sugar. At the same time, other interests, having investments in the Cuban sugar industry, have been trying to obtain lower duties.

So there are two sugar lobbies, whose interests directly conflict. Both have been peppering Congress and the public with their arguments for and against more protection for the domestic industry. Into what classification of lobbyists do these particular agencies fall? For Senator Caraway has expressed the opinion that there are both "bad and good lobby-

Always fresh!

FRESH in your dealer's stock because they sell so fast and please so well. Individual foil-wrapped to prevent pocket breakage and to preserve freshness after the box has been opened. Long, ripe filler that will not crumble in your mouth.

ists," and Mr. Austin, as an expert, has suggested what appears to be a reasonable classification according to their activities. It does not refer to the multiplicity of political and social propagandist organizations.

This differentiates the individual who has money invested in an industry for which he desires protection, the organized trade association looking after its interests, the publicity and legislative agent ready to represent any client and earn his pay and the sharper who obtains money under the false pretense that he can render real service. The parasites of this latter type are legion. It would be a blessing if they could be driven out of Washington bag and baggage. This investigation will be well worth while if it discloses any practical method of rooting out these gentry. As for the other three classes of lobbyists interested in legislation affecting business, they are performing what has always been regarded as a legitimate function.—Phila. Ledger.

Human Emotion Based on Electric Current?

Is love simply the result of electrical attraction? Is the human body an electric battery and our life, energy, and vitality dependent on how strong a current we create?

A doctor has stirred up tremendous discussion by declaring that chemical activity in the cells of the human body produces electricity, that this electricity maintains the life process, and that lack of it finally causes death.

He believes the human current has a great influence over all our emotions, including love, and thinks this may explain why certain people are attracted to one another, or vice versa.

A famous electrical expert says: "We have never isolated this current, and the laws of electrophysiology are not well known, but we have many proofs that this current exists. The body produces electricity in a score of different ways. At every muscular contraction or irritation of a nervous center there are vibrations that liberate this mysterious power."

"The least movement of a muscle produces electricity. For every heartbeat there is a corresponding oscillation of the galvanometer needle."

Durability of Leather

Shown by Recent Find

The durability of leather was proved by the discovery, in the course of excavating for the foundations of the new Bank of England, of soles of Roman shoes, one of which bore clearly the impress of the official Roman eagle.

The soles evidently were those of the sandals worn by women and children. Bronze rivets were used to hold together two or three thicknesses of leather and no doubt accounted in part for the life obtained from the footwear, which must have been much greater in weight than present-day shoes. The old leather was in about the same state of preservation as might be expected of a modern shoe that had been on a rubbish heap for a couple of months.

Although nowadays leather is produced with more speed and less mechanical crudity, the processes of preserving, toughening, and softening it are not materially different from those practiced by the Romans in England about 2,000 years ago.

His Worthy Precedent

Little Lawrence was untidy. Though his mother made every effort to encourage him he seldom folded up his clothes after he undressed for bed.

One day his mother came into the bedroom and saw his clothing scattered all over the floor.

"I wonder who it was that never folded up his clothes when he went to bed?"

Little Lawrence pulled his clothes over his head and answered:

Taneytown's "Leading Fashion Store"

We sell Standard Sewing Machines

Koons Bros.

DEPARTMENT STORE.

TANEYTOWN, MD.

New Fall Merchandise of highest Quality and Lowest Prices awaits you at this Store.

Ladies' and Misses' Coats.

For the month of October we are featuring a sale of Ladies' and Misses' Coats. Don't miss this sale of dressy cloth coats for Fall and Winter. Fine all wool swedes and broadcloths smartly styled with selected fur sets at special low prices.

Hosiery and Underwear.

Splendid values in Women's Rayon, thread silk and full fashioned hose. Service weight, french heels and slipper sole. All the seasons newest shades.

Men's spiral knit fancy halve hose in Rayon and mercerized yarn.

Ladies' Rayon and heavy Underwear for Fall and Winter in one or two-piece garments.

Men's Knit Underwear for Fall and Winter. Men's cotton Ribbed Shirts and Drawers. Men's heavy knit wool and cotton Union Suits. Children's Knit Shirts and Pants and Union Suits.

FARM POULTRY

FLOCK HISTORY IS GUIDE IN CULLING

Always Better to Improve Production by Care.

"In culling poultry the history of the flock should be the first important consideration," say the extension specialists in poultry husbandry at the Ohio State university. "If the flock as a whole has been laying heavily throughout the entire year, culling should be comparatively easy, as the good birds will show evidence of high production, while the few poor birds will be outstanding, showing very definite evidences of low production or none.

"If the flock has laid indifferently throughout the year, or has suffered from parasites such as red mites, lice, or intestinal worms, or is improperly housed or cared for, the culling will be very difficult, for many of the birds that are really worth keeping will be questionable, due to their condition. Under such circumstances the first step should be to correct conditions, and allow the good birds to come back and show their value, which will cause the poor birds to be more easily recognized.

"It is always better to improve average production by better management rather than by culling, which decreases the number of birds and cuts down the possible earning power of the flock."

Get Rid of Parasites on Chickens in Flock

The hens have enough to bother with in the summer with the hot weather without having to fight lice and mites in addition. The flock owner can do a great deal to help the hens get rid of these pests.

There are various remedies on the market which can be used, or a drug known as sodium fluoride can be bought at the drug store and can be put on the hens, applying it on the back, head, throat, on the breast, around the vent, between each thigh and the breast and on each wing. This is a rather tedious process, although it will get all the lice.

Within the last year and a half, however, it has been found that painting Black Leaf 40 on the perches will rid a flock of lice. This is easy and effective.

Mites are a worse pest than lice, since these little bugs stay in the cracks and crevices around the nests, droppings boards and perches during the day and get on the birds at night, at which time they suck the hen's blood. These can best be fought by using a strong disinfectant on the nests, roosts and droppings boards.

If these pests—lice and mites—are allowed to remain on the birds, they will sap the chicken's vitality and will hinder egg production considerably.

Ducks and Geese Are Fed Pretty Much Alike

Ducks and geese are fed just about alike. They should be kept warm and dry and fed about four or five times per day. All young water fowl should have soft feeds, that is to say, wet mash mixed as follows: Three parts yellow corn meal, four parts bran, one part red dog or low-grade flour by weight. Add to this 10 per cent of high-grade meat scraps, 1 per cent of fine sand, and mix with water or milk so that it is quite moist but not sloppy. Feed this every two or three hours for two weeks.

Care for Chicks

Raising good chicks is about the most important thing on a poultry farm. That to a large extent determines your profits. If you neglect the chicks by crowding them too closely, by letting the house become filthy and the soil in bad shape, you may produce weak chicks that do not live well and lay well. It is comparatively easy to grow good chicks if you are willing to do the necessary work of properly caring for the chicks.

Turkeys on Upgrade

Turkey raising is on the upgrade, now that the blackhead bugaboo has been done away with. And the turkey growers are getting the marketing system down to a fine point, too. Six turkey marketing associations have just been formed in various parts of Colorado, and the next thing will be a statewide pool. Profits received by members of turkey marketing pools in the West last year were very pleasing—that's why new pools are being formed to handle this year's crop.

Scratching Shed

In some of the warmer sections of the country, fowls will prefer to spend their nights in the trees and on outdoor roosts but severe storms, driving snows or heavy rains will in most instances, send them into the houses. It is the storm more than the cold that the hen objects to, and for this reason, if no other, a scratching shed where the fowls are sheltered from the wind, should be provided where the layers can sing and keep busy during the entire day.

Horse Racing Popular With Ancient Peoples

The earliest recorded organized trials of speed with horses were the chariot races at the Greek national festivals, of which the most notable were the Olympic games held every fourth year. Greek sculpture frequently represents the horse as used for riding, apparently without a saddle in most cases; but not as so employed for sport, except as an incident to the chariot racing. On the other hand, the horses in the Roman contests were to a very great extent ridden. All the formalities of entering and of differentiation of classes and of starting were minutely laid down and followed, even to the color of the riders' uniform. In the earlier times these Roman races were held on the open plain. There has always been a tradition in England that on Salisbury plain, just outside Stonehenge, the remains of a Roman race course exist; and the oldest race which still takes place in England is run over a flat meadow just outside the walls of the Roman city of Chester.—Washington Star.

East Indian Idol Held in Supreme Veneration

The name Juggernaut itself is an Anglicized corruption of the Hindu Jagannath, the name of Vishnu or Krishna in one of his manifestations. It means literally "lord of the world." It is the name of an idol in the temple at Puri, India. The temple itself is a magnificent one, built in 1198, at a cost of \$2,500,000, while the idol consists of an irregular block of stone, pyramidal in shape, having two large diamonds for eyes.

On its festal days the idol is conveyed to another shrine on a magnificent car, 45 feet high and 35 feet square, having 16 wheels, each 7 feet in diameter. The number of pilgrims who visit the temple was formerly estimated at 1,200,000 a year. At the present day 100,000 or more may assemble there on the great festivals.

Hohenzollern Family

The Hohenzollerns trace their descent from Count Thasso, who lived about the beginning of the Ninth century, and built a castle on Zollern hill in the Swabian Alps near Hechingen. From this height his descendants derived their patronymic. A separation took place about 1165 when Frederick IV founded the elder or Swabian, and Conrad III, the younger or Franconian line. The first was subdivided into the branches of Hechingen and Sigmaringen in 1576. From the Emperor Sigismund Frederick VI, of the younger line, received the investiture of the electorate of Brandenburg, in 1415, and founded the dynasty of kings of Prussia and German emperors that reigned till November, 1918. The branches of the elder line continued unbroken till 1849. Then the reigning princes surrendered their respective rights and principalities to the king of Prussia for annual pensions.—Literary Digest.

Term's Meaning Changed

Originally the term "Salic law" was only to a codification of the laws of certain Germanic tribes, including the Salian or Merovingian Franks. These laws were codified in Latin in the early Middle Ages. They related chiefly to property and penalties for various injuries.

The term is often applied exclusively to a section which relates to inheritances, and provides that only males inherit property. Since the Fourteenth century a further restriction in application has attached it chiefly to those laws, in whatever country found, which forbid female inheritance of the throne.

The Rose in History

Roses and romance have been kin through the centuries. They have been flung to knights in armor, have been worn beneath the coat of mail as heroes entered battle, have been strewn at the feet of returning conquerors, have lain in quiet peace on the biers of the dead, have softened the contours of tombs and burial mounds, have marked the confident pathways of brides, have been thrown at the feet of idols. Wherever man has sought to express what words cannot say, the rose has played its part.

Make Sure of Their Men

There is no flirting among the native married men of Tasmania. Capt. Kilroy Harris, an Australian visiting in this country, says that as a part of the Tasmanian wedding ceremony the bride's father knocks out one of the bridegroom's front teeth as a sign to the world that he is married. Not satisfied with that the wedding guests cut gashes in the poor devil's back and fill these with mud to make sure the scars will be visible for life. And he can't wear a shirt for that would arouse suspicion.—Capper's Weekly.

Few Places Without Bibles

Bibles have been distributed almost the whole world over, by a small army of nearly a thousand colporteurs, who have followed the track of Don Quixote de la Mancha, and climbed the mountain passes of Georgia; entered the prisons in Formosa, and traversed the forests of Nicaragua, and sold gospels in the sulphur mines of Sicily, on Japanese railway cars among the lumber camps of the St. Lawrence and in the market places of Omdurman.

Great Adventure

Four-year-old Marvin's parents were planning something unusual for a vacation, and during that period grandpa was expected to care for the children. Daddy gave the little lad injunction to "be very good" during his absence.

"I will, daddy, for it is going to be a great adventure for you." He could not remember a time when dad and mother had before taken a trip.

SAVE your money and your health. USE DR. WELLS' REMEDIES and get—

They have cured thousands. They will cure you. These remedies are guaranteed to do what is printed on label or money refunded. Millions of Miles of Constant Testing

to maintain the outstanding quality and dependability of The Chevrolet Six

In spite of the fact that a million Chevrolet Sixes have already been placed in the hands of owners, and have proved their performance and stamina by billions of miles of service over every type of highway the nation affords—

—the Chevrolet Motor Company continues to take new Chevrolet Sixes from the assembly line at the factory and subject them to pitiless testing on the roads of the General Motors Proving Ground!

This passion for proof—this consistent refusal to accept any

tests as final—is one of the fundamental reasons for the overwhelming popularity of Chevrolet cars. For in no other way is it possible to make the Chevrolet Six so sound in design and materials—so dependable in performance—and so economical to operate!

If you are considering the purchase of an automobile, come in and see the new Chevrolet. You will find that it is more than a Six in the price range of the four. In every way it is a finer car than you ever thought possible in the low-price field!

A fifth wheel speedometer accurately measures speed and mileage on all Chevrolet test runs at the Proving Ground.

A SIX IN THE PRICE RANGE OF THE FOUR

Grapefruit The Year 'Round

A SUM of more than \$4,000,000 was recently set aside by Congress to fight the Mediterranean fruit-fly. This dreaded pest, discovered last April in Florida, has since been found in California and in shipments of fruit arriving in New York City. One of the products it threatens in Florida is grapefruit which is raised in huge quantities in that State. Much of this grapefruit is canned, and so popular has it become that the largest grapefruit cannery in the world is now projected at Winter Haven.

Too Good to Miss

In this canned form we can have grapefruit all year 'round, and this large appropriation to preserve grapefruit as well as other products is justified by the delicious dishes which can be concocted with it. Take, for instance, this

Ginger Ale and Grapefruit Salad: Soak two tablespoons gelatin in four tablespoons cold water, then dissolve it in half a cup of boiling water. Add one-fourth cup sugar and one-fourth cup lemon juice, and stir until the sugar is dissolved. When cold, add one cup of ginger ale and the juice from a No. 2 can of grapefruit. When about to set, add the grapefruit pulp and eight Maraschino cherries and pour into a flat pan or into molds and let chill until stiff. Serve garnished at the side with sprigs of fresh mint and top with cream mayonnaise. This will make sufficient salad to serve eight people, and it will make all eight of them more than glad to be taxed for the extermination of the fruit-fly.*

FRIDAY, OCTOBER 25, 1929.

UNIONTOWN.

Mrs. W. G. Segafosse spent from Thursday till Sunday with relatives in Frederick.

Mrs. Howard Brumbaugh, spent part of last week at Will Eckenrode's.

Mrs. M. H. Tagg, Littlestown, has been a guest at her brother, George Selby's.

Mr. and Mrs. M. A. Zollickofer entertained, on Sunday, Mrs. Lizzie Birnie and daughter, Miss Eleanor, Taneytown; Mrs. Sue Snader, son Denton, and daughter, Miss Marianna, of New Windsor; Rev. J. Snader and daughter, Miss Mary; Westminister; Dr. and Mrs. Kenneth McCullough; Waycross, Ga. Dr. McCullough is a son of the late Rev. C. E. McCullough, who was pastor of the M. P. Church here, 22 years ago, and this is his first visit here in that time. Many of his friends did not recognize him.

Mr. and Mrs. T. E. Warner, New Oxford; Misses Florence and Myrtle Malehorn, Westminister, were guests at Mrs. A. L. Brough's, Sunday.

Mrs. Emma Snader, Waterloo, Iowa, is spending some time with her sister-in-law, Mrs. M. A. Zollickofer.

Cortland Hoy and family, and Catherine Brodbeck, Philadelphia, were week-end guests at Mrs. C. Hann's.

A number of our people attended the sales of the late Mrs. Ellen Rowe and Mrs. Mary Otto, last week. Antique dealers were present and many things brought big prices.

TYRONE.

Mr. and Mrs. Walter Flickinger, of Baltimore, spent from Tuesday until Sunday at the home of Mr. and Mrs. Edward Stuller.

Mr. and Mrs. C. M. Copenhaver, of Westminister, visited at the home of Ezra Spangler, Friday evening.

Mr. and Mrs. Grover Morelock, daughter, Gladys, spent Sunday evening with Ernest R. Myers and family.

Mr. and Mrs. Pearl Johnson, daughter, Ethel, visited at the home of Frank Garner and family, Westminister, Sunday afternoon.

Those entertained, Sunday, at the home of Mr. and Mrs. Noah Babylon, were: Mr. and Mrs. William Adams, Avondale; Miss Ruth Schaefer, Mr. and Mrs. Levi Maus, son Charles, Mrs. Wesley Warehime, Westminister; Mr. and Mrs. John Kaufman, Herschel Warehime, Baltimore; Mr. and Mrs. John Warehime, son Junior, of Frieslandburg; Miss Mary Stonestier, of Mayberry; Wilmer Young, Taneytown; Mr. and Mrs. Chester Fuhrman, Mr. and Mrs. Paul Fuhrman, Melrose.

Mr. and Mrs. Harry Lambert and children, Taneytown, were entertained, Sunday, at the home of Mr. and Mrs. Ernest R. Myers.

NORTH EAST CARROLL.

On Sunday, at St. David's Sunday School in the afternoon, 12:45; Services, 2:00, by Rev. A. M. Hollinger; Christian Endeavor, 7:00.

Mr. and Mrs. Howard Bowman attended the District Sunday School Convention, at Stelze's Church, Sunday.

Ralph Noble and G. H. Bowman motored to Gettysburg on Sunday. Mr. and Mrs. George Utz and family, motored to Johns Hopkins Hospital, Baltimore, on Sunday, where they visited their son, Raymond.

Mr. and Mrs. John Thirt entertained at their home, during the week end. Mr. and Mrs. Paul Coppertsmith, daughters, Mildred and Romaine, and Mr. and Mrs. H. B. Bowman.

Mr. and Mrs. Monroe Shearer and children, of Jefferson, Penna., spent Sunday afternoon at the home of Mr. and Mrs. Gereon Rebert.

Most of the farmers have finished digging their potatoes. The yield was an average one this year.

Many of our church members attended the rally day services at St. Matthew's Church, at Hanover, on Sunday.

MAYBERRY.

The Misses May and Helen Hymiller were Sunday guests of Miss Neda Myers.

Mr. and Mrs. Garland Bollinger and daughter, Helen, and Miss Mary Coe, spent Sunday afternoon with their parents, Mr. and Mrs. Joseph Coe and family.

The storm, on Tuesday, took about half of the barn roof off of Ellis Crushong's barn; at the King place, it blew out an apple tree, by roots.

Mr. and Mrs. Ellis Crushong and daughter, Geneva, spent Tuesday with Mr. and Mrs. Samuel Baker and family, of Liberty.

Miss Neda Myers and Misses May and Helen Hymiller spent Sunday afternoon with Miss Ruthanna Keefe.

MANCHESTER.

J. H. Blocher is a patient in a Baltimore Hospital.

Mr. Martin, of Chambersburg, who had been appointed pastor of the U. B. Circuit here, has decided to continue in business. We are informed that the vacancy will be filled by Mr. Ivan Naugle, of Gettysburg.

Rev. Paul E. Rhinehart and family dined with Rev. John S. Hollenbach and family, Thursday evening.

The Male Chorus from Jefferson sang very acceptably in Trinity Reformed Church, Manchester, Sunday evening. Rev. Paul D. Yoder spoke on "The Trumpet Call."

FEESERSBURG.

Miss Maud Edleston, of Baltimore, arrived in the home of Mr. and Mrs. Ellwood Harder, last week, in the capacity of housekeeper and companion. Mrs. James Coleman spent last week visiting relatives in Martinsburg, W. Va.

Mrs. Addison Koons and granddaughters, Esther and Pauline Sentz, spent the week-end with the former's brother, John Williams and family, of Oakland.

The Frederick Fair attracted some of our citizens, last week, among the number L. K. Birely, his sister, Susie and Oneda Keefe. They saw the enormous pumpkins, were amazed at the dough-nut manufacture, and amused with the patent carriers for small chicks.

With 100 names on Sunday School roll the past quarter, the average attendance at Mt. Union was nearly 65. S. S. and Communion there next Sunday morning, conducted by Rev. M. L. Kroh; and the ingathering of fruits and vegetables for the Deacons' Home, and illustrated songs and lecture on Yosemite Valley, by Mr. and Mrs. George Mather, of Westminister, at 7:30 P. M. A silver offering asked for Home Missions.

Last Sunday was Rally Day for Middleburg Sunday School, with increased attendance and an interesting program, each class contributing a song, or recitation, or reading.

The Woman's Bible Class of Middleburg S. S. will have a Halloween Social, in the Church Hall, on Friday evening of next week.

The Harold Crumbacker family entertained on Sunday, his parents, Mr. and Mrs. George Crumbacker and brother, Orville and Merle and family, of Linwood vicinity.

On Sunday, Mr. and Mrs. E. W. Harder had a pleasant surprise of visitors from her home town: Mr. and Mrs. Archie Scholvin and son, Harold, of Northumberland, Pa., with Mr. and Mrs. Morris Tucker, of Sunbury.

Callers on Mrs. Belle Rinehart on Sunday, were: Mr. and Mrs. George Etzler, of Woodsboro; Mr. and Mrs. Harry Young and sons, Harold and Donald, of LeGore; Mr. and Mrs. L. S. Hyde and daughters, Mary and Helen, of Medford; and Mrs. Earl Shiner, of Baltimore, on Monday.

After a severe heart attack, early Saturday morning, Mrs. Rinehart is again confined to bed.

While Mr. and Mrs. Maurice Claubaugh with their children, Lillian and Norval Johnson, were on their way to Frederick Fair, last Wednesday, their car struck James Crum, who was walking on the road, near Ladiesburg, and knocked him down. He was able to arise and walk away, though he was considerably shaken. The occupants of car showed all possible attention.

Daniel S. Repp, whose leg was broken in an auto accident, on July 2nd, was brought home from the Hospital in Baltimore, on Sunday, and able to move about in a wheel chair. Through the assistance of the Child's Welfare Association, Lester Raines, a bright-faced boy of ten years, from near Linwood, has come to make his home with Mr. and Mrs. Harry Buffington, of Mt. Union.

The pupils of Middleburg school will celebrate Halloween with a program, in the school-house, on Thursday evening. Ralph Yealy and Clara Devilliss, teachers. There will be a short play, some recitations and stunts, and refreshments for sale. All patrons and friends are invited.

Some of our folks are attending chautauque in Union Bridge, this week, and find it very interesting. The lecture on Monday evening, on "Things Not for Sale," was fine and inspiring.

W. C. Thopson, with the Cement Co., at Union Bridge, has purchased the fine bungalow at Mt. Union, built by Orville Wright, 15 years ago; and after making some changes, will occupy it with his wife (nee Lenora Repp) and daughter, and aged father.

Recently, your correspondent enjoyed a drive through glorious autumn scenery to the early home of Robert Strawbridge, a few miles southeast of New Windsor, where he lived 13 years. After his coming to America in 1760; and formed the first Society of Methodism; also visited the memorial on site of the first Methodist Church built in America, 1764, about a mile southeast of his home. A small tablet on the porch of the log-cabin of 165 years ago (since enlarged and weatherboarded) tells the story, and contains the names of 17 persons in that first-class meeting, besides their wives and children. How humble have been the truly great!

While writing, the wind is furious and the rain coming down in torrents. Sounds like another equinox—but look! there's the Sun—and a rainbow!

KUMP.

Mr. and Mrs. John Stambaugh, entertained at dinner, on Sunday: Mr. and Mrs. Harry Stambaugh, son Edgar and daughters, Mildred and Luella; Mr. and Mrs. Charles Stambaugh, Charles Kelley, all of near Hanover; Mr. and Mrs. George Frontman and daughter, Mary, Miss Mary Eagen, all of Lebanon, Pa., were callers in the evening; Mr. and Mrs. Blane Hankey, near Bethel Church; Ralph Wantz and Ezra Stuller, Taneytown.

Entertained to dinner at Anamary Whimert's, on Sunday, were: Mr. and Mrs. Howard Treifer, Mrs. Mary Tracy, Mrs. Helen Norris and son, Whitley, and Miss Erlene Fridinger, all of Hanover, and Miss Ida Clark, near Taneytown.

Mr. and Mrs. Jesse Sauerwein and daughters, Dottie and Ruthanna, of near Kumps, spent Sunday in Littlestown with friends.

Marriage Licenses.

Rainey F. Dorsey and Catherine A. Squirrel, Libertytown, Md.

Kenneth G. Caple and E. Mae Hill, Finksburg.

Floyd Gartrell and Hazel Crallford, Woodbine.

Paul S. Mummert and Irene M. Bankert, Hanover.

Earle Nace and Gertrude M. Warner, Hanover.

Russell Lescaleet and Ethel Winters, Westminister.

KEYMAR.

Mr. and Mrs. John Smeltzer, daughter and son, and Mrs. Mary Crapster, of Washington, D. C.; Mrs. John Crapster, son and daughter, of near Taneytown, were callers at the home of Mr. and Mrs. R. W. Galt, Saturday afternoon of last week.

Mr. Hersthum, of Virginia, was a recent visitor at the home of Mr. and Mrs. W. F. Cover.

Mr. and Mrs. Sterling Grumbine and two sons, of Unionville, spent last Sunday at the home of Mrs. Fannie Sappington and daughter, Miss Cora.

Mr. and Mrs. Beasley and son, Bobbie, of Washington, spent last week-end at the home of Mr. and Mrs. Scott Bollinger.

Mrs. R. W. Galt was entertained at the home of Mrs. Eleanor Tull, Frederick, last Monday, and attended the D. A. R. meeting, at Rose Hall Manor, formerly the homestead of George Johnson.

David Leakin made a business trip to Frederick, last Monday.

Mr. and Mrs. Upton Dayhoff and daughter, Miss Laura Bell, and son, Master Glen, of near this place, accompanied by Annie E. Hawk, spent last Sunday in Littlestown, at the home of Mr. and Mrs. Samuel Hawk.

Others who were entertained at the Hawk home, were: Mr. and Mrs. Sam Hawk, Sr., and two daughters, Silver Run; Mr. and Mrs. John Hawk, son and daughter, of Buecher's Mill; Mr. and Mrs. Wm. Hatterow, and Mr. and Mrs. Edw. Hawk and daughter, Littlestown.

A surprise party was held at the home of Mr. and Mrs. John Leakin, last Saturday evening, Oct. 19th, 1929, in honor of Mr. Leakin's birthday. Those present were: Mr. and Mrs. John Leakin, David, Truman, Donald and Oliver Leakin, Mr. and Mrs. Daniel Leakin and son, Edward, Mr. and Mrs. George Myers and daughter, Mary Jane; Mr. Benj. Metzger, of Baltimore; Mr. and Mrs. Clarence Dinterman, of Walkersville; Mrs. Harry Hitebridge, Miss Virginia Metzger, and Mrs. Vernon Clabaugh, of Johnsville; Mr. and Mrs. George Harman, Miss Ruth Harman, Luther Clabaugh, of Taneytown; Mr. and Mrs. Allen Fogle and family, of Union Bridge; Mr. and Mrs. Maurice Claubaugh, daughter, Miss Pauline and sons, Mr. and Mrs. Harry Clabaugh and family, Ralph Early, Mr. and Mrs. Paul Grossnickle and daughter, Louise; Mr. and Mrs. Upton Mehning, Miss Annie Mehning, Mrs. Bessie D. Mehning, Mr. and Mrs. Robert Galt, Mr. and Mrs. George Koons, Mr. and Mrs. Scott Koons, Keymar. Refreshments were served, the table groaned with good things such as ice cream, cakes, bananas and grapes and hot coffee, etc. Table decorations were chrysanthemums and birthday cake, pink rosebuds and lighted candles. House decorations were dahlias. Mr. Leakin received many beautiful and useful presents and was more than pleased with one of his presents, and that was a box of fish bats, presented by a sister-in-law. Mr. Leakin is one of the successful fishermen of Keymar. At a late hour all left for their homes, after wishing Mr. Leakin many more happy birthdays.

John White, of York, Pa., is spending some time at the home of his uncle and aunt, Mr. and Mrs. Marshall Bell.

HARNEY.

There will be a Halloween Social held at Harney School, on Thursday evening, Oct. 31. Come and enjoy a good social time with the teacher and pupils.

Miss Katherine Lambert spent the week-end with her home folks, at New Windsor.

Jacob Haines, Mr. and Mrs. Truman Lambert and daughters, Helen and Dorothy Lee, and son, of New Windsor; Miss Isabel Eckenrode and friend, Baltimore, spent Sunday evening at the home of Samuel D. Snider.

Mr. and Mrs. Joseph Koontz and children, of near Emmitsburg, moved on Monday, in part of Howard Kump's house.

Mr. and Mrs. Harry Mort, Mrs. Geo. Detrick and son, spent Saturday afternoon at the home of Mr. and Mrs. Dilly Mort.

Chas. Reck, of Manchester, spent the week-end here, with his parents, Mr. and Mrs. Wm. Reck.

Mr. and Mrs. Chas. Wilson and daughter, Anna Mae, and Quentine Eckenrode, were Sunday guest of Clyde Wilson and family, Mummasburg, Pa.

Preaching Service at St. Paul's, next Sabbath, at 2:00; S. S., 1:00.

Callers at the home of Mr. and Mrs. Joseph Kelley, last Sunday, were: Mr. and Mrs. Edw. Harner, of Taneytown, and Mr. and Mrs. John Milhimes, Littlestown.

Mr. and Mrs. Clarence Harner, of Hanover, spent Sunday afternoon at the home of the latter's parents, Mr. and Mrs. Enoch Yealy.

Mrs. Lovia Harner moved her household effects to the home of her brother, Luther Shriver, of Gettysburg, last Friday, and will now make her home with him.

GLYCERIN MIX REMOVES CAUSE OF STOMACH GAS

Simple glycerine, buckthorn bark, saline, etc., as mixed in Adlerika, acts on BOTH upper and lower bowel, removing poisons you never thought were there and which caused gas and other stomach trouble. Just ONE spoonful relieves GAS; sour stomach, sick headache and constipation. Don't take medicine which cleans only PART of bowels, but let Adlerika give you a REAL cleaning and see how good you feel! It will surprise you! Robt. S. McKinney, Druggist, Taneytown, Md.

—Advertisement—

Three tired young men parked their car by the side of the road near Sylvia, N. C., and went to sleep. They awakened to find their car in a creek bed, where it had stopped after rolling down a 50-ft. embankment and they did not know how or when the event happened.

Nation's Export Trade Defiance of Old Saying

American producers have exploded one of the best geographic metaphors. They now make millions annually by "carrying coals to Newcastle." Many "coals" in fact, to many "Newcastles."

American merchants are selling all sorts of products to countries for which those same products are famous, says the National Geographic society.

Apple blossom time in Normandy is no hindrance to the sale of thousands of boxes of American apples in France. The United States also sells perfume and raisins to France, the home of flower farms and vineyards; hops and sausage to Germany, home of beer and frankfurters, and fertilizer to Chile, the world's chief source of natural nitrates.

Peru is the original home of quinine. Yet quinine leads the list of American medicinals worth \$400,000 imported into Peru annually from the United States, a country in which cinchona trees do not grow.

"Conversational" Dinner

One night at the White House during the Presidency of Theodore Roosevelt there met at dinner John Hay (then secretary of state), Sir Martin Conway, Walter Wellman, James Ford Rhodes, the historian, and, of course, President Roosevelt. Next day Hay and Rhodes met again and the following conversation ensued:

Rhodes—That was a nice conversational dinner we had at the White House last night.

Hay—Conversational do you call it? How long were we at the table?

Rhodes—About two hours.

Hay—Well, Wellman talked a minute, Sir Martin a minute and a half, you a minute and I not more than that, and Theodore talked all the rest of the time. Do you call that conversation?—Philadelphia Public Ledger.

Destructive Locusts

When agriculture began to be established generally in the great plains region of the United States lying west of the Mississippi river and east of the Rocky mountains, during the decade 1870-80, a migratory species of grasshopper, commonly known as the Rocky mountain locust, frequently swooped down from its breeding grounds on the benches of the mountain range in such great swarms as to destroy practically all cultivated crops over vast areas of country, reducing thousands of families almost to starvation.

John Did Not Eat Insects

The locusts eaten by John the Baptist were probably not insects, but the fruit of the carob tree, the dried pods of which are the locust beans sold as food for cattle. The carob tree is sometimes called the honey tree, from the sweet pulp contained in its pods while they are fresh.

DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

MR. JOSEPH F. WARNER.

Mr. Joseph F. Warner, once a resident of Taneytown, but for 35 years living in Baltimore, during most of the time engaged in carpentering, died at the home of his son, Warren W. Warner, in Philadelphia, on Monday morning, aged 71 years. On being notified C. O. Puseas & Son undertakers went to Philadelphia and removed the body to his late home, 1941 Clifton Ave., Baltimore.

His wife, who was Miss Laura Flickinger, daughter of the late Mr. and Mrs. Frederick Flickinger, died about 20 years ago. He is survived by one son, Warren W., and one daughter, Miss Rosa M. Warner, at home; also by one sister, Miss Anna Warner, of Thurmont.

Mr. Warner was 71 years of age and had been in failing health for several years. He had been at the home of his son about three months, on a visit.

Funeral services were held on Wednesday afternoon, at Baust church, in charge of Rev. Barnhart of Christ Reformed Church.

MR. JACOB H. BLOCHER.

Mr. Jacob H. Blocher, retired merchant of Manchester, died Tuesday, following an operation at a Baltimore hospital. Mr. Blocher was in his 73rd year. He had been ill for some time, and was removed to the Baltimore institution last Wednesday. An operation was performed, which he passed successfully, but a relapse resulted in his death.

Surviving are his wife and two sons, Harry, of Hampstead, and Ross, of Manchester. Mr. Blocher was a director of the Westminister Trust Company.

Funeral services were held Thursday afternoon at 2 o'clock at the home, with the Masonic order, of which he was a member, in charge. The Rev. L. Rermeyer officiated.

RESOLUTIONS ON THE DEATH OF MRS. WM. J. FLOHR.

At the regular meeting of the Women's Missionary Society of Baust Reformed Church, Oct. 2, 1929, the following resolution was adopted:

Inasmuch as God called to her eternal home, Mrs. Wm. J. Flohr, our friend, neighbor and co-worker, our sorrow must turn into joy when we think of the association we have had with a life so expressive of love, loyalty and service; that her goal may become our aim; and that our efforts of christian fellowship may find incentive and results because of her memory.

We express our deepest, heartfelt sympathy to her bereaved family and friends.

MRS. S. R. KRESGE, Pres.
MRS. HOWARD RODKEY, Cor. Sec.

Our Lament.

The rose is red,
The violet blue;
This little bill
Is overdue.
So, pay it now—
Don't wait till when
The rose and violet
Bloom again.

For if you do
Delay it thus,
No violet
Will bloom for us.
Unless you pay
The rose will rest
Upon our fair
And manly chest.

The birds will sing,
But what of that?
We shall not hear them
Where we're at.
So, come across—
We need the dough
Not in the spring,
But now, you know,

The rose is red,
The violet blue;
Do we need cash?
I'll say we do!
—The H. H. Smith Agency, "Insurance Service".

ISOLATE DRUGS IN VENOM OF TOADS

Find Potent Substances in Chinese Product.

Baltimore.—The dried venom of Chinese toads has been found to be a virtual pharmacoporia.

Four potent substances have been isolated successfully by Dr. K. K. Chen, with the co-operation of Dr. Hans Jensen of Johns Hopkins medical school.

One is ergosterol, which cures rickets in rats in exactly the same manner as cod liver oil does. It occurs together with cholesterol, a white, fatty, crystalline alcohol which is tasteless and odorless.

Another is adrenalin, identical with that obtained from the suprarenal gland of animals, which has been used widely in medicine. The suprarenal gland, located near the anterior end of each kidney, secretes a substance which has important effects on the circulatory and muscular systems.

The other two principles have an action similar to that of digitalis, which has been employed in the treatment of heart disease. Digitalis is an important drug from the leaves of the purple foxglove.

The venom, processed into dried cakes by Chinese druggists, long has been used in the Orient because of its medicinal properties. Taken internally as a pill it is said to be able to break colds, while externally it has been used in the treatment of toothache and local inflammatory conditions.

Experiments have been conducted with animals but it is hoped, according to Doctor Chen, that further study in man will show the newly isolated substances to be useful therapeutically.

Mystery shrouds the production of the cakes, which are rich with substances identical with animal products on the one hand and resembling plant products on the other, and are at once either a virulent poison or a powerful and beneficial medicine.

Attempts are being made to secure specimens of the toad for a detailed morphological study, to ascertain which species produce the venom. The method of securing the secretions and drying them up into cakes also is the subject of inquiry.

HIGH SCHOOL NEWS TANEYTOWN.

The Parent-Teachers' Association will hold its monthly meeting Tuesday evening, Oct. 29, at 8 P. M., in the assembly hall. Miss Slindee, county home demonstrator will address the association on "Packing the School Lunch." Plans will also be made for the school bazaar December 13. A full attendance is desired.

Mr. Smith the principal in the name of the school, wishes to take this opportunity to publicly thank the Home-makers' Club for the swings they donated to the school. The posts are set in cement and everything was done to make it strong and substantial. The work was done by Mr. Crabbs and the repair man sent by the board of education.

Mrs. Shipley music supervisor spent Friday afternoon at the school helping with the operetta. The operetta is entitled, "Love Pirates of Hawaii" which will be given Friday and Saturday nights November 1 and 2. It is hoped the public will support the school in this project.

Net receipts for the athletic association from the movie given on Tuesday night was \$20.20.

LeRoy Eckert enrolled in the 8th grade on Thursday, this makes the high school enrollment 101.

The general shop room will be completed this week. All of the equipment has arrived and work will start November 1. The boys from the Pleasant Valley High School will come here each Friday morning for instruction in general shop.

The attendance during the past week was the lowest since the opening of school due to the Frederick Fair.

A gong different from any other in the school will be installed for a fire alarm in the near future. A fire drill is being organized by the principal.

The school was closed on Friday on account of the teachers attending the State Teachers' Association. The association met in the new City College in Baltimore.

Good Short Ones.

Small Boy—Say, mister, give me a pound of oysters.

Dealer—We sell oysters by the measure, my boy, not by the pound.

Small Boy—Well, then give me a yard.

Mrs. Meyers—What is your husband's average income?
Mrs. Beyers—Oh, about one o'clock in the morning.

"Yes, poor Percy may have had his faults, but his heart was on the right side."

"Is that so? No wonder he died!"
Husband (reading aloud a newspaper report of a fire): One woman escaped down a water pipe at the back of the house.

Wife: How lovely to be as slim as that!

Traveler: Porter, I want to be called at 5 o'clock in the morning.

Porter: Boss, Ah guess yo-all isn't acquainted with these head-mod'n inventions. See dis heah button, heah? Well, when yo-all wants to be called, yo jest presses dat button, an' we comes and calls yo.

"My father's Mayor," bragged a small boy, "and when he rides in a parade the motor cops go ahead and he doesn't have to pay any attention to any traffic rules."
"That's nothing," sniffed his friend "My father's a truck driver."

We learn by doing; therefore it is wise to do things right.

Without doubt, the present is the era of specialism.

Throughout the Ages. (CONCRETE.)

Do you realize, in this modernistic age, methods of twenty years ago are obsolete. This is the age of great achievement and inventions, **THE AGE OF STEEL AND CONCRETE.**

BE MODERN. Select a Reinforced Concrete Burial Vault, as Manufactured

How the Groom Looked

Mabel—What did the groom look like?
Matty—Like the bride was determined to have a wedding no matter what she had to use for a groom.

Sarcastic

"Your oratorical friend appears to have exhausted his subject."
"Yes," answered Senator Sorghum, "and his audience also."—Washington Star.

Nothing Else to Do

"Rastus, I'm sure sorry to hear you buried your wife."
"Boss, ah jes' hat to. She died."—Capper's Weekly.

Puzzled

"I've come to the conclusion that women are puzzles."
"So have I; in fact, I've had to give several of them up."

NO TRESPASSING

The name of any property owner, or tenant, will be inserted under this heading weekly, until December 10th., for 25 cents cash in advance.

All persons are hereby forewarned not to trespass on my premises with dog, gun, or trap, for the purpose of shooting or taking game of any kind, nor for fishing, or in any way injuring or destroying property.

WOULD SAVE DEWEY FLAGSHIP AS RELIC

Congress to Give Question Deep Consideration.

Washington.—The final disposition of the U. S. S. Olympia, flagship of Admiral George Dewey at the battle of Manila bay, is likely to be considered at the next regular session of congress, as a strong sentiment has developed among veterans and patriotic organizations for preservation of the vessel as a historic relic.

The vessel, having outlived its usefulness as a fighting craft, might in the ordinary course of events be slated for scrapping, but the tradition of its prowess as a fighting machine, gained at Manila, still lingers in the public consciousness.

Heading telegrams from all chapters of the Veterans of the Spanish War, the Navy department has officially announced that the disposal of the Olympia has not yet been decided upon, and that its preservation will be fully considered before disposal is approved.

Flagship in 1898.

After service as the flagship of Rear Admiral F. V. McNair from 1885 to 1898, cruising in waters of Japan, China, and the Sandwich (now Hawaiian) islands, the Olympia became the flagship of Admiral George Dewey in command of the Asiatic squadron on January 3, 1898, Capt. G. W. Gridley, U. S. N., commanding, according to information furnished by the Navy department.

On May 1, 1898, at the battle of Manila bay, the Olympia led the attack on the ships of the Spanish squadron.

The Olympia has seen service in many parts of the world since the time of the war with Spain. It continued for a few months with the Asiatic squadron, but went out of commission on November 8, 1898. After recommissioning in January, 1902, it joined the North Atlantic squadron as flagship. During the period from 1903 to 1905 it went on errands of protection for American interests and lives in Panama, Smyrna, and the Dominican republic.

When the United States entered the World war, the Olympia was designated flagship of the United States patrol force. She was employed in patrol duty off the coast of Nova Scotia and ocean escort for British merchantmen en route to and from New York and the war zone.

Carried Unknown Soldier.

In December, 1918, the Olympia became the flagship of the commander of United States naval forces in the eastern Mediterranean, and cruised the Adriatic and Black seas. After several important missions of post war transport and relief in eastern European waters, the Olympia returned May, 1921, to Philadelphia.

In September, 1921, she was assigned the distinguished duty of bringing home for burial in Arlington cemetery the Unknown Soldier representative of the heroes of the American forces of the World war. She left the Philadelphia navy yard on this mission October 3, 1921, reaching Plymouth, October 16. She arrived at the Washington navy yard on November 9, 1921, with the Unknown Soldier, and was met by representatives of the army and navy and other services.

Bird Paradise Set Up on West Indian Island

Tobago, West Indies.—The island of Little Tobago, 11 miles from this port, has become a bird paradise. This small island of less than 500 acres attracted the attention some years ago of Sir William Ingham, former proprietor of "The London Illustrated News." He conceived the idea of making it a refuge for birds of every size and description. He imported a large number of birds of paradise which have thrived and multiplied in their new surroundings.

On the death of Sir William the island went to Lady Ingham for life. On her death in October, 1925, Sir Herbert Ingham and Mr. Bruce Ingham came into the property. Later they expressed the wish to convey the island to the king and to rename it Ingham island. The government of Tobago and Trinidad arranged to care for the birds. Food and water have since been carried regularly to the island. The birds are increasing in numbers rapidly.

Russia Transplants U. S. Clock Factories

New York.—Soviet Russia is rushing plants to manufacture for the first time the American dollar watch and the alarm clock. To manufacture inexpensive watches and clocks of those and other types, the Soviet Precision Machinery trust. It was learned recently, has bought, through the Amtorg Trading corporation here, the entire equipment and machinery of two American clock and watch factories. The factories purchased are those of the Ansonia Clock company, Brooklyn, and the Deeder Hampden Watch company Canton Ohio. They will be reconstructed in Moscow and will be ready for production in 1933, according to an Amtorg Trading corporation representative.

Honor Roman Poet

Naumagen. This small city on the Moselle, which still retains much of its ancient Roman appearance has just unveiled a monument to Decimus Magnus Ausonius, the first man known to write a poem about this beautiful German river.

BIRD SANCTUARIES DRAW THOUSANDS

Sea Fowl Cover Ledges on St. Lawrence Gulf.

Ottawa.—Thousands of sea birds—gannets, elder ducks, puffins, cormorants, terns, and many others—wheeling and screaming or covering the nesting ledges like banks of snow, is the scene which presents itself to the visitor to the big sanctuaries of the Gulf of St. Lawrence, says the Canadian bureau of natural resources.

Since the earliest times the bird rocks of the Magdalen islands, Perce Rock and Bonaventure island off the Gaspé coast and the islands along the north shore of the gulf have been the breeding grounds for countless numbers of sea birds, and the protection their bird inhabitants received because of the Migratory Birds Convention act has resulted in greatly increasing their numbers.

Each year the sanctuaries are visited by a migratory bird officer from the department of the interior and careful note is made of the increase among the birds.

The fame of the bird sanctuaries of the St. Lawrence, which number 13, has spread and growing throngs of tourists make the trip by rail or steamer each year. The Gaspé coast rookeries were set aside in 1919 and those along the northern shore of the gulf were established in 1925. All are under the joint control of the Dominion government and the Quebec provincial authorities.

The bird sanctuaries off the Gaspé coast, which are reached with ease by rail to the quaint little town of Perce, are better known than those of the north shore and consequently the thrilling picture of the great throngs of gannets which inhabit the Bird Rocks, Perce Rock and Bonaventure island are known to many.

Skeletons Ages Old Unearthed in England

London.—Five human skeletons and ten funeral urns containing ashes have been unearthed at Manea, Cambridge-shire. They have probably been buried for thousands of years and may belong to the neolithic or bronze ages.

Excavations are still in progress. The site was marked only by a slight symmetrical rise in the center of a field, which has for some time past been suspected of being an ancient barrow or tumulus.

All the skeletons were in the same attitude. The bodies had been buried in a contracted position with the knees bent and the feet drawn up to the body. The hands were placed either under the head or supporting the chin. Each skeleton was lying on its side, and the general posture was that of a person sleeping.

The urns are broken, but it may be possible to piece the fragments to gether. A number of good specimens of flints and other objects of antiquarian interest have also been found, and it is expected that further discoveries will be made on the site.

Bird Mistakes Window for Space, Breaks Neck

Malone, N. Y.—A belted kingfisher crashed into the show window of an automobile dealer and broke its neck. The fireman at the station next door turned it over to Raymond Patnode, taxidermist.

Patnode said the bird undoubtedly became confused and thought the window was clear sailing. He said these birds are very fast on the wing and that contrary to popular belief, there are many of them nearby. Some of them have poached goldfish from back yard aquariums.

Just to Please Wife

Anarillo, Texas.—Love knows no bounds—"nor haircuts," according to a local beauty parlor operator. A young man recently had a permanent wave "because my wife loves curly hair."

Eskimo Belles Strip Off Furs for Silks

Halifax N. S.—Baffin Land is a long way from Paris much closer to the North pole, but the smiling, dusky-skinned belles of this island within the Arctic circle and west of Greenland are beginning to use talcum powder and wear silk undies.

This was learned here from members of the Canadian government expedition to the Arctic on board the Beorlic which looked at North Sydney.

In summer time when the thermometer begins to mount from 60 or 70 below zero to warmer figures, the Eskimo flap pers strip off their fur garments which tickle terribly and don imported chemises, step-ins, pericoats and dresses, often bearing the name of some French designer.

But the cheery chubby Arctic maidens still seem make-up they like talcum powder because it smells nice and they use it lavishly but not on their faces. Their noses will remain shiny tips untraced until some daring feminine pioneer buys a puff and a lipstick.

Part of Tree 60,000,000 Years Old Found in U. S.

Trenton, N. J.—Examination of a piece of American chestnut tree found by a well driller at Bradevelt, Monmouth county, several feet below the surface, showed evidence that the chestnut tree grew in New Jersey 60,000,000 years ago, the state department of conservation and development announced recently.

Meredith T. Johnson, assistant state geologist, identified the piece as of the late Cretaceous age, a geologic period which is said to have ended 60,000,000 years ago. Unlike most fossil wood found in these formations, the piece was said to be well preserved and its texture fiber plainly visible. Prof. S. J. Record of the Yale forestry school agreed with Johnson. The piece was placed in the State museum.

House of Seven Gables Turned Into Hostelry

Salem, Mass.—Memories of other days, when colonial gentlewomen and men gathered at the House of Seven Gables in Salem for a few hours of refreshment and entertainment, have been revived by announcement that the historical building has followed the trend of the times and is accommodating overnight guests with board and rooms. "Reasonable prices" are charged for these accommodations, which are in the old Hathaway house, built in 1682, and in the adjoining cottages, which have been renovated for the convenience of out-of-town visitors and others who desire to enjoy a colonial atmosphere.

China to Make Memorial of Beautiful Koo Home

Peiping.—Although Dr. Wellington Koo, former premier of China, is living in exile abroad, his beautiful home in Peiping is to be turned into a memorial to the late Dr. Sun Yat-sen. The action has been taken without consulting Doctor Koo, as it is felt his property can be confiscated as that of a rebel, because he worked for the Chang Tso-lin government.

Cow Removes Tonsils of Boy in Pasture

Berlin, Conn.—Bernard Mazurek, four, of Treasure Fields, Kensington, needed to have his tonsils removed, but he or his parents had been putting off the dread day. Now he is rid of the bothersome tonsils, thanks to the unsolicited assistance of a cow.

The boy was attempting to nook a piece of paper on the horn of a grazing cow when the animal lifted its horns and poked him in the mouth. The boy was taken to the office of Dr. A. J. Goodwin, where it was found that the poke had caused the removal of one tonsil and Doctor Goodwin finished the job. The patient is at home, as well as could be expected.

MASSACRE BOOSTS RARITY OF BOOKS

Tibetan Classics in Washington Affected.

Washington.—"The slaughter of thousands of Chinese and Tibetans in Dangar, in Western China, reported in news dispatches, brings about a strange result in a Washington (D. C.) library, where it has probably enhanced in value beyond all previously estimated prices, a set of Tibetan classics," says a bulletin from the Washington (D. C.) headquarters of the National Geographic society.

"Dangar lies close to Choni, in western Kansu Province, near the Tibetan border," continues the bulletin, "and the great Buddhist Monastery at Choni and all its valuable contents were burned by the same Moslem army which massacred the inhabitants of Dangar. In this monastery were housed the thousands of wooden blocks, 500 years old, from which the best sets of the Tibetan classics were once printed.

Brought From Monastery.

"Two years ago Dr. Joseph F. Rock, now leading a National Geographic society expedition on the China-Tibetan border, four hundred miles south of the rebellion area, was in Choni, and obtained for the library of congress a complete set of the Choni-printed classics in 317 volumes. These priceless books are now on the library's shelves in Washington.

"Details of the Moslem rebellion in Kansu which have just reached the headquarters of the National Geographic society through provincial papers published in China, indicate that the massacre at Dangar was only an incident in the troubles that have scourged western Kansu since last October. In the region, 150 miles wide between Dangar and Choni and in most of the surrounding towns and villages, according to these published reports, there has been destruction by massacre, pillage, and fire. Thousands of square miles of the once fertile countryside have been laid waste. Tens of thousands of people, in addition to those slaughtered, have died and are dying of starvation, and the frantic populace are said to be practicing cannibalism.

Raiders Led by Youth.

"The chief force of Moslem raiders, according to provincial correspondents, consists of 25,000 cavalymen mounted on the best horses of the province, and led by an eighteen-year-old general, Ma Changying (called affectionately by his followers, Ma Si-ling, 'Little General'). These hard-riding troopers have been known to dash 10,000 strong, 110 miles in 47 hours over mountain ranges ten to twelve thousand feet high to avenge the defeat of some of their stragglers. In one such raid, across the Tibetan border, all the inhabitants of more than a hundred villages, from infants to old men and women, are said to have been massacred.

"The region which has been the center of the Moslem massacres lies about 800 miles west and slightly south of Peiping (Peking) on the upper reaches of the Hwang-Ho or Yellow river near where that stream crosses from its Tibetan source into China. A little to the northwest is the Koko Nor, great salt lake of northeastern Tibet. The region on the Chinese side is a land of deep valleys carved in the soft loess soil. In happier days the valley lands and the terraced hills produced much wheat and many vegetables, and supported numerous villages. The people are largely of Tibetan blood.

"During his stay of several years ago at Choni, Doctor Rock, through the friendliness of the Prince of Choni, was enabled closely to observe the ceremonies of Lamalism. His descriptions have been published in the National Geographic Magazine. He took hundreds of photographs, with detailed notes for color, of the monastery buildings, the library, the elaborate images and costumes, and of the ceremonial dances. It thus happens that this unique monastery, now in ashes in remote western China, still lives pictorially in the archives of the National Geographic Society in Washington."

Women Outnumber Men as Glacier Park Hikers

Glacier Park, Mont.—Tourist travel to Glacier National park for the first month of the 1929 season shows considerable increase over that of the same period last year. Travelers have registered from nearly every state and many are from foreign countries. Hotel, auto-stage and trail saddle horse facilities are the best in the history of the park, government inspection shows.

While the male visitor is more noticeable on the verandas, the number of young women hikers on the Rocky mountain trails exceeds that of any previous season. Two women walk through the park to every man who dares this endurance test, it is estimated.

Cathode Ray Tube Used in Finding False Jewels

Lynn, Mass.—The newly developed cathode ray tube, designed to separate genuine and synthetic gems, has been put into commercial use for the first time by the General Electric company here. Sapphires, second only to diamonds in hardness, are widely used by the company as jewels for bearings in meters and other delicate electrical instruments. The new tube is proving invaluable, it is said, in sorting gems

City's Wisdom Shown Looking to the Future

Millions of dollars will be saved to American cities through the planning of city improvements early. This is evidenced by the experience of Akron, Ohio, which, through carefully contemplated and progressive street widening, has already saved nearly \$2,000,000 according to E. E. Duffy, head of one of the largest associations dealing in building and road construction materials.

"Ten years ago Akron adopted a street-widening plan calling for the eventual widening of nearly twenty miles of streets," he said. "To have widened these thoroughfares outright would have been impossible, for the total cost would have been some \$20,000,000. The plan was adopted of establishing new setback building lines so that as buildings became obsolete and were replaced, the new structures were erected ten feet or more back from the former building line.

"The \$2,000,000 saving made by Akron includes money saved through the avoidance of condemnation charges. Having saved this amount in ten years, the city is now going to spend roughly that amount in widening four and a half miles of an important artery."

Essential Factors in Creating Land Demand

We are in the habit of judging values of real estate by the general activity in the real estate market, building operations, building permits issued, acreage bought and sold, general business conditions and similar indications. But there are other important ways of gauging rising values.

The growth in population, transportation, utilities, industry, public improvements, etc., are some other factors which add to permanent real estate values because they indicate demand, accessibility, comfort, buying power, progress, desirability and the like, to the prospective buyer.

We have only to imagine the sales resistance in marketing a piece of urban real estate without improved streets, without utilities like gas, elec-

tricity, water, sewers and telephones; without factories or business nearby to create pay rolls; without rapid transportation to and from regular places of employment or business, and the importance of these factors in creating and increasing values in real estate becomes self-evident.

Fire Prevention

Each year the number of communities actively participating in the observance of "fire prevention week" increases and better results are obtained. Many individuals and organizations are in a position to be of service during the campaign, which should be planned in advance.

Because of the authority vested in their positions, public officials, such as mayors, village presidents and fire marshals, can aid fire prevention campaigns materially by taking part in the program and issuing proclamations calling upon citizens to participate. Usually they realize the danger of fire and gladly co-operate.

Building Cost Lowered

Although industrial building has been at high levels this year, the cost of a new factory structure is 6 per cent below the average for the last ten years, according to a survey of building costs throughout the country just made by a Chicago firm of engineers and builders.

The cost of industrial construction is now 40 per cent under the peak reached in 1920 and it is at the lowest point since late in 1922. The computation is based on a standard building 100 by 200 feet, and it includes prices of material and wages of labor.

Shrubs in Shady Spots

There are many shrubs which will grow well or perhaps better in shady situations than in the sun. Such plants include: Japanese barberry, red bud, red osier, dogwood, hazelnut, deutzia, forsythia, hills-of-snow, various species of privet, Indian currant, Van Houttel spirea, Japanese maple and numerous viburnums. In planting shrubs around the home many sit-

uations such as north exposures and tree shaded areas will be found where some shrubs will not grow. If the proper species are selected and cared for a vigorous and healthy growth will result in any situation.

Beauty in Building

Communities built to look like "peas in a pod" have aroused the American Institute of Architects into developing a plan for a union of effort in the arts of designing, C. Herrick Hammond, president of the institute, announced. The movement would bring about collaboration among architects, sculptors, mural painters, landscape designers and craftsmen in creating a new mode of architectural expression.

Modernize With Windows

The dark, dismal house with its dismal walls has gone. Bright, healthy rooms and friendly exteriors have come to stay. More and larger windows is the verdict of the architect and owner alike. Thousands of old homes are being modernized in this way.

No Easy Task

English is one of the most difficult languages in the world to master, according to a young Frenchman, who is studying auto mechanics in a Detroit factory. "American tourists abroad protest against the 'unreasonableness' of the French language but consider your own," he said. Ordinarily you pronounce the suffix 'ough' with a long 'o' sound. But when you place an 'r' before it, getting 'rough,' you say 'ruf.' Then when you make it 'through' you say 'thru.' It's almost too much for me."

Money's Real Meaning

Money in itself means nothing. It is only a medium of exchange. How much you get in your pay envelope each week depends on what you have to offer and are willing to give in exchange for it. You are your own paymaster.—Grit.

Freedom

From "pot watching" that eliminates Kitchen drudgery

Only a few years ago home cooking was a worrisome job of "oven peaking" and "pot watching" stooping, finger burning and only fair cooking results.

Now with the Automatic Hotpoint Electric Range with its controlled oven heat and automatic timer, kitchen drudgery is eliminated.

Automatic Hotpoint ELECTRIC RANGE

No woman deserves to be imprisoned in the kitchen. With the Automatic Hotpoint Electric Range this is no longer necessary. You can put a whole meal in the oven, set the automatic electric timer, and it will start and stop the cooking operation at any time you wish. Think of the time this will give you for shopping, entertaining and other duties.

Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean Moody Bible Institute of Chicago.)
(©, 1929, Western Newspaper Union.)

Lesson for October 27

THE CHRISTIAN'S VIEW OF RECREATION

LESSON TEXT—Jer. 31:12, 13, Zech. 8:15, Mark 2:18-28, Mark 6:30-32, John 2:1-11.

GOLDEN TEXT—I am come that they might have life and that they might have it more abundantly.

PRIMARY TOPIC—The Right Way to Play.

JUNIOR TOPIC—The Right Way to Play.

INTERMEDIATE AND SENIOR TOPIC—What Play Does for Us.

YOUNG PEOPLE AND ADULT TOPIC—Recreation in Community Life.

In the last lesson we saw that work was God's primal law for man. In work there is a certain breaking down of cells which needs constant repair; therefore, in order that work may continue there must be recreation. Recreation means re-creation. Failure to discern this truth has made of recreation dissipation. In this light let us view the salient points in the scripture selected.

I. The Coming Golden Age (Jer. 31:12, 13).

Though Jeremiah was the weeping prophet, and presented dark pictures of Israel's condition, God gave him a view of Israel's golden age. He made known how that through the mighty hand of God the chosen nation should be delivered from bondage and brought into their own land where peace, prosperity and gladness should prevail. The source of all real recreation is right relationship with God. God is the source of all joy. Nothing so powerfully affects the physical organism in its renewal as joy in God. In this coming age the streets of the city will be safe for old people and children (Zech. 8:4, 5).

II. The Christian's Relation to Fasting (Mark 2:18-23).

1. A question asked (v. 18).

The very joyfulness of the disciples of Christ in contrast with the Pharisees, moved an inquiry as to the reason. The law of Moses only required fasting on the Day of Atonement. John the Baptist was in prison, therefore it is clear as to why his disciples were fasting.

2. Christ's answer (vv. 19, 20).

He declared that the children of the bride chamber could not fast as long as they had the bridegroom with them. The joy of present companionship with Christ prevented their fasting. This shows that Christ is the real source of joy. He recognized that when the bridegroom was absent, there was occasion for fasting. Christ is now away, therefore fasting is permissible. In times of great need the early church fasted. Before sending out the first missionaries they fasted and prayed (Acts 13:1, 2). More fasting and less feasting would be helpful today in the ordination of Christian workers.

III. The Christian's Relation to the Sabbath (Mark 2:24-28).

The disciples were charged with lawlessness because they plucked ears of corn as they walked through the fields on the Sabbath day. In Christ's defense against this charge, He

1. Cites a precedent (v. 26).

It was the case of David, their great king, who in time of need ate the shewbread which was only lawful for the priests. The principle set forth is that the higher law of human need warranted David in doing this which was out of the regular line of duty.

2. Showed the nature of the Sabbath law (v. 27).

The Sabbath was made for man, therefore its right use is determined by what it contributes to man's good. The Sabbath should not be man's cruel master, but his helpful servant.

3. Jesus is Lord of the Sabbath (v. 28).

It was He who instituted it when creation was finished; therefore He had the right to use it as it pleased Him for man's good.

IV. The Need of a Vacation (Mark 6:30-32).

The tragic death of John the Baptist had just occurred, and the disciples had just returned from a strenuous missionary tour. Christ, perceiving their need, invited them to come apart with Him for rest.

V. Jesus Attending a Wedding (John 2:1-11).

This is a striking sidelight on the spirit of Christ. A marriage feast was graced by His presence. In this act He set a mark of honor upon marriage, which is the most joyous of earth's occasions. In this act man's holy Redeemer lifted the holy ordinance of marriage into its dignity and beauty. In the course of the feast, when the wine was exhausted, He wrought His first miracle rather than have its festivities marred.

Glorious

Earth has not a spectacle more glorious or more fair to show than this—love tolerating intolerance; charity covering as with a veil even the sin of the lack of charity.—P. W. Robertson.

Overcoming Obstacles

An easy life is not likely to be a very valuable life to itself or to others. Strength comes by overcoming obstacles, and it is the strong life that can best help those about it.

Now with greater values than ever before, with surplus power, with beautiful new models, with the famous "Cold Control", with mechanical parts enclosed, and with sales greater than at any time in the history of the Company, Frigidaire Corporation announces . . . a

Special small cash payment

puts any Frigidaire in your home . . . balance to suit your convenience

The Frigidaire "Cold Control" which speeds the freezing of ice cubes and desserts.

You need Frigidaire and you need it now. For you can't trust the weather to safeguard food. It is first too warm—then too cold. And today you can call at our showroom, pick out any household Frigidaire you want, and have it delivered to your home for a special small cash payment. You can begin at once to enjoy all the priceless advantages of the new Frigidaire.

You get the famous Frigidaire "Cold Control" that enables you to speed the freezing of ice cubes, salads and desserts. You get the extra-powerful Frigidaire compressor that makes the "Cold Control" practical and efficient. You get striking beauty in finish and line.

You get a refrigerator with the mechanism completely enclosed—away from dust and dirt. You get value that only Frigidaire can give.

Decide to have Frigidaire now. End all the troubles of uncertain refrigeration this winter. A special small cash payment is all you need. And you can pay the balance to suit your convenience—as your Frigidaire pays for itself. See us about this special offer today or phone for our representative.

FRIGIDAIRE MORE THAN A MILLION IN USE

Liberty Street
WESTMINSTER, MD.

Impossible to Predict

Approach of Tornado

Science has devised no way of predicting when or where a tornado will strike or exactly what path it will travel once it starts. Weather bureau officials recognize certain conditions that are favorable—sultry, "sticky" afternoons following mornings that are oppressive, especially in May and June, with an area of low atmospheric pressure shown on the weather map to the northwest—but the weather bureau makes no prediction of tornadoes. Even when conditions are apparently most favorable tornadoes do not occur at all and when they do appear there is no certainty in regard to what locality or even what state they will strike. Also, no successful effort has ever been made to warn cities of the approach of a tornado when it is traveling in their general direction. Wire service is always disrupted by such a storm and radio would be worthless on account of disablement of a sending station in the storm path.

Two Rare Birds

Two six-plumed birds of paradise—so rare that living specimens have never before been seen in England—arrived recently at the London zoo

from New Guinea. They carry on their heads the six long, racket-tipped spines which have earned for the species its popular name. On the breast is a metallic hued shield iridescent with green, bronze and blue. Save for a silver cushion on the forehead they are velvety black, making the turquoise blue iris of the eye very conspicuous. If they act in similar fashion to a closely allied species, the birds will throw out their body-plumes like a skirt, expand the breast shield, erect their head-plumes fanwise, and strut about erratically.

Nation's Fur-Bearers

Among the states producing the most fur-bearing animals it is probable that Louisiana ranks highest on account of its large muskrat catch. Martens appear most plentiful in Northwestern states. Minks are plentiful throughout the wooded areas of this country where trapping has not been carried on extensively. Blue foxes do not occur wild in the United States. Red foxes are common throughout the greater portion of this country, most of them being in the Northern wooded regions. Fishers are found almost exclusively in the Northern states where civilization has not disturbed their haunts.

A New Salad Dressing Each Day For A Month

By JOSEPHINE B. GIBSON
Director, Home Economics Dept.,
H. J. Heinz Company

Indian Dressing—To foundation recipe add ¼ cup chow-chow pickle, chopped.

Horseradish Dressing—To foundation recipe add 2 tablespoons evaporated horseradish mixed with 4 tablespoons cold water.

Fruit Salad Dressing—To foundation recipe add ½ cup whipped cream. Fold in lightly.

Celery Dressing—To foundation recipe add ¼ cup finely chopped celery and 2 tablespoons chopped green pepper.

Different Dressing—To foundation recipe add 1 chopped hard cooked egg, 1 tablespoon chopped pimento and 2 tablespoons india relish.

Piquante Dressing—To foundation recipe add ½ teaspoon mustard, ½ teaspoon Worcestershire sauce, ½ teaspoon onion juice and 2 drops tabasco sauce. Mix thoroughly.

Roquefort Cheese Dressing—To foundation recipe add 4 tablespoons Roquefort cheese (crumbled) and mix thoroughly.

Spinosa Dressing—To foundation recipe add 1 tablespoon chopped sweet pickle, 1 tablespoon stuffed olives (chopped), 1 teaspoon chopped parsley. Mix thoroughly.

Summer Dressing—In foundation recipe use 1 tablespoon less of vinegar and add 3 tablespoons pineapple juice, 3 tablespoons orange juice and 1 teaspoon sugar.

Tarragon Dressing—In foundation recipe use Tarragon vinegar for this dressing and add 1 hard cooked egg, chopped very fine.

COOKED SALAD DRESSING
1 teaspoon mustard; 1 teaspoon salt; 1 teaspoon sugar; 2 tablespoons flour; ¼ cup paprika; 1 egg; ¼ cup milk; ¼ cup pure vinegar; 1 tablespoon butter.

Mix mustard, salt, sugar, flour and paprika together. Add well-beaten egg and mix until smooth. Add milk and vinegar and cook over hot water until thick, stirring constantly. Remove from fire, add butter and cool.

Following are delightful variations of Cooked Salad Dressing:

Hawaiian Dressing—To foundation recipe, when cool, add 3 tablespoons orange juice and 3 tablespoons pineapple juice. An especially good dressing for fruit salad.

Manhattan Dressing—To foundation recipe, when cool, add ½ cup sandwich relish.

Savory Dressing—To foundation recipe for Cooked Salad Dressing, when cool, add ¼ cup India Relish.

Whipped Cream Dressing—Fold into the foundation recipe, when cool, ¾ cup whipped cream. Good on all fruit salads.

Cold Slaw Dressing—Omit dry mustard in foundation recipe and add 3 tablespoons prepared mustard sauce when dressing is cool.

Fluffy Dressing—When making foundation recipe separate the egg, use the yolk as directed, and lastly fold in the stiffly beaten egg white after dressing is cooked and cool.

FRENCH DRESSING

1 teaspoon salt; 1 teaspoon sugar; ¼ cup pure olive oil.

Mix the salt, sugar and paprika. Add vinegar and oil, and beat thoroughly, or put all the ingredients into a glass jar, screw top on tightly and shake thoroughly.

Following are delightful variations of French Dressing:

Chiffonade Dressing—To foundation recipe add 2 tablespoons chopped parsley, 2 teaspoons chopped onion, 1 hard cooked egg (chopped) and ¼ cup chopped cooked beets well drained.

Ketchup Dressing—To foundation recipe add ¼ cup tomato ketchup and mix thoroughly.

Mustard Dressing—To foundation recipe add 2 tablespoons prepared mustard sauce and mix until thoroughly blended.

Parisian Dressing—To foundation recipe add 2 tablespoons chopped green pepper, 2 tablespoons chopped red pepper, 2 tablespoons chopped celery, ½ tablespoon chopped onion and ½ teaspoon chopped parsley. Mix thoroughly.

WHY

Astonishing Forms of Trees Are Not Uncommon

Winds have long been known to be an important factor in forest growth, but they often produce curious results. Government forestry experts have recorded trees growing out of crevices in rocks where tree seeds have been scattered by the wind; trees sprung from seed underneath rocks, which have pushed their way up and split huge boulders, giant redwoods dwarfed to a few feet by ocean storms.

A striking curiosity, the result of seed sown by the wind, is the growth of an oak, gum and chestnut in a single tree in Prospect park, Brooklyn. Another is the locally famous split stone at Lansing, Mich., a huge boulder split in half by a tree which has grown up through the center of the rock. In a few cases trees of different species grow twined around one another in spiral effect.

An interesting example of the effect of the wind upon trees is that of a cottonwood in Kansas which was bent over, its two branches taking root and forming two trees several feet from the base of the original tree, which subsequently died. There is record of a maple in New York blown over by a storm, from the fallen end of which two new trees sprang the new trees and the old forming a right angle off the ground.

Why Twilight Duration Varies With Latitudes

Twilight is a diffused illumination before sunrise and after sunset. Popular usage has made the term refer only to the light after sunset, the morning twilight being called dawn. The phenomenon is due to refraction of the sun's rays through the atmospheric layers and their reflection from clouds and dust suspended in the air. Theoretically, twilight can last while the sun passes through an arc of 18 degrees below the horizon and consequently the duration of the twilight varies with the latitude of a given place. In the tropics it lasts a comparatively short time from half an hour to one hour, whereas above latitude 48 at the summer solstice (June 21), twilight lasts all night, and for many nights in succession as the pole is neared. Twilight varies also with the amount of dust and moisture in the air and also the temperature of the air, which alters the altitude of the particles.

Why Necktie Is "Cravat"

"Cravat" is derived from "Cravate" the French name of the inhabitants of Croatia, who in English are called Croats (pronounced "kro-ats"). In two syllables, "Khrvat" is the Croato-Serbian form of the name. The orig-

inal cravat was a linen scarf worn around the neck by a regiment of Croat mercenaries in the service of Austria. About 1636 the French government organized a regiment of light cavalry dressed in uniforms patterned after those of the Croats. This mode of neckwear immediately became popular among civilian men in Paris. When first introduced among civilians the cravat consisted of a simple linen or muslin scarf, but later cravats edged with lace and tied in a bow with long flowing ends became the fashion.

Why Wind Blows

Wind is air in motion. If all parts of the earth were equally heated by the sun's rays, the atmosphere would be equally dense and in a state of perpetual calm. It happens, however, that the sun heats certain areas of the atmosphere more than it does others. The heated portions of the air expand and blow out over the cooler areas. The heavy air of the cool areas is no longer held back by the lighter air of the warm areas and rushes in to restore the equilibrium. Thus winds are formed. The direction of winds is considerably deflected by the rotation of the earth on its axis.

Why Water Evaporates

Water evaporates when it is exposed to air or heat. There is a constant movement of molecules of the water. Their average velocity is constant at a given temperature, but the individual velocity of the molecules varies greatly and changes from instant to instant. This variation is due to the frequent impact between the molecules. Those which are near the surface of the liquid and which have high velocities escape from it into the air above, causing the phenomenon which we know as evaporation.

Why He Missed Record

James Monroe in 1821 received all the electoral votes except one. An elector from New Hampshire was the only member of the electoral college to vote against him. According to a legend, probably unfounded, this elector voted against Monroe because he did not want anybody else to have the honor that Washington had of being unanimously elected.

Why Known as Rumble Seat

The term "rumble seat" was first applied to the seat in a carriage behind the body of the carriage, which was provided for servants. Doubtless it was called this because of the continuous low, heavy noise which was made by a carriage or wagon as it rolled over the road.

Why Bass Drum Is Barred

The reason why a bass drum is not heard over the radio is that many loudspeakers do not reproduce very low notes well.

"Spoiled" Child Handicapped

Many parents feel that the first few years of a child's life are an important twilight before the real dawn of personality and utterly ignore the importance of those early years for development, observes Clara Bassett in Hygeia Magazine.

Careful study of the spoiled child problem shows that such children do not outgrow their early habits, as parents often think they will. Many of them go through life with these attitudes and then develop mental and nervous breakdowns when they find they are not equipped to meet bravely the vicissitudes and responsibilities of adult existence.

New Invention

A small boy had watched a telephone repairman climb a pole, connect a test set and try to obtain connection with the testboard. There was some trouble obtaining the connection. The youngster listened a few minutes and rushed into the house, exclaiming, "Mamma, come out here quick. There's a man up a telephone pole talking to heaven?"

"What makes you think he is talking to heaven?"

"Cause he hollered 'Hello! hello! hello! good lord, what's the matter up there; can't anyone hear?'"—Forbes Magazine.

Perfect Mother-in-Law

She has a marvelous talent for timing her visits. She always arrives the day you need her and never stays a day too long. She always brings cheer and helpfulness and a big basket of things from the old farm. She gets along beautifully with her sons and daughters-in-law. She knows how to please her grandchildren without spoiling them and ruining their digestions. She knows how and when to write a check and when to make beaten biscuit and fry a chicken. She has perfect health and a young mind. She is the perfect mother-in-law.

There is always the chance that you will get her if you marry often enough.—Kansas City Star.

Peculiar State of Mind

"It may be a complex, a phobia, or a neurosis," said the street-car rider, "but there's just one thing on my mind when I take an open car. I usually sit on the back seat, or on an inside end seat. In either place I have a good view at the slot which protects the live wire in the street below. I've been tossing my cigarette butts at the slot, wondering if they'd ever go in. It's really become an obsession, since they never seem quite to make it. I'm meditating getting off and pushing one in some time, so I'll be able to get my mind on other matters while I ride."—New York Sun.

TANEYTOWN LOCALS

Items of news from town, or vicinity are always wanted for this column. Especially accidents, sales of real estate, fires, important happenings, visits to or from the community social events, and all matters of general interest to those at home, and away from home.

A social and entertainment will be given by the Horney School next Monday night, Oct. 31, at 7:30.

Curtis G. Bowers has bought the bread route formerly operated by Charles R. Hilterbrick, and has taken possession.

The sale of the property of Mrs. Anna M. Allison, Fairview Avenue, was postponed on account of rain to this Saturday. See special notice.

Raymond Davidson returned home, on Wednesday, from Frederick Hospital, where he underwent an appendicitis operation. He is getting along well.

Rev. and Mrs. S. R. Kresge of Baust Church called on their sons, Donald and Eric, who are students at Drexel Institute, in Philadelphia, Pa., this last week.

Thos. O. Eckenrode, who has been on a lengthy visit to his brother, John, in San Diego, Cal., has returned to Harrisburg. He reports having had a fine visit.

Mr. and Mrs. D. J. Hesson and Mr. and Mrs. P. B. Englar and daughter, Ada, paid their annual visit to Mr. and Mrs. Louis H. Elliot, near York Springs, on Sunday afternoon.

Mr. and Mrs. Clayton Sauder, of Mt. Joy, Pa., visited Mrs. Jesse Myers and family, on Friday; Mrs. Fannie Sauder accompanied them home after spending five weeks with her sister, Mrs. Myers.

Mrs. Caroline Wagner and son, Olan, of Dover, Ohio, who spent some time with Mr. and Mrs. J. C. Ridinger, at Pen-Mar, in company with Mr. and Mrs. Ridinger, spent Monday night at the home of Mr. and Mrs. Norris Sell.

Mr. and Mrs. Lewis Boyd and grand-daughter, near town, and Mr. and Mrs. George Humbert and daughter, of Littlestown, visited Mr. and Mrs. Albert Biddinger, at Middleburg on Sunday. Mrs. Biddinger who had been very ill is improving.

Mrs. Charles Stambaugh, Harney; Miss Grace Spangler, Tyrone; Mrs. Claude Long, Mrs. Wm. Feeser and Miss Anna Galt, of town, attended the Woman's Presbyterian Society for Missions, at Arlington Presbyterian Church, on last Thursday.

Those who spent Sunday with Mr. and Mrs. Newton Hahn and family, were: Mr. and Mrs. Charles Shriver, Baltimore; Mrs. James Christopher, Hardings, Va.; Mr. and Mrs. William Ohler and Miss Sallie Myerly, Hanover. Mrs. Christopher remained for a week's visit.

Maurice C. Dutera, as Burgess of Taneytown, attended a luncheon Saturday afternoon, given by Mayor Broening, the Post Development Commission and the W. M. R. R. Company, on the occasion of the formal opening of the McComas Street ocean terminal, Port Covington, Baltimore.

Mr. and Mrs. John Eyer, Ladiesburg, entertained at dinner on Sunday evening in honor of Mr. Eyer's birthday the following guests, Rev. and Mrs. F. Fife, of Woodsboro; Mr. and Mrs. Jesse Boston, of Middleburg; Mr. and Mrs. Samuel Overholtzer, and Lester Dutrow, of New Midway; Mrs. Sarah Albaugh, of Taneytown, and Miss Lulu Birely, of Keymar.

On Sunday, October 13, at the home of Miss Amanda Wolf, on Emmitsburg St., her two nieces Mrs. George H. Alban and Mrs. William Walger, of Grave Run Mills, presented their aunt a birthday dinner in honor of her 94th birthday anniversary. Those present were: Mr. and Mrs. George H. Alban, Mr. and Mrs. William Walger, of Grave Run; Mr. and Mrs. Ralph J. Myers and foster daughter, Mollie, of Hagerstown, and Mr. and Mrs. G. Raymond Moul, of Hanover, Pa. The best of our knowledge, Miss Amanda is our oldest citizen, and is enjoying reasonably good health, notwithstanding her great age.

Those who spent Sunday with Mr. and Mrs. Steiner Engelbrecht and family, were: Mrs. Lizzie Grene, sister of Mrs. Benj. Hyser; Mr. and Mrs. William Grene and following children: Richard, Dorothy, Charles, Betty, Louise and Webster Grene; Mrs. Emma Handler and son, Richard; Miss Helen Grene and Mr. Chas. Grene, all of Baltimore; Mr. and Mrs. Sam. Bowman, Mr. and Mrs. Ralph Helwig, both of Hanover; Mr. and Mrs. Willis Snyder, of Frogtown; Mrs. George Brown and her son, Ross; Mrs. Chas. Kemper, both of Taneytown. Evening callers at the same place was Edgar Troxell and wife, of Rocky Ridge; David, Tolbert and Paul Stonesifer; Misses Beulah, Marian, Genevieve and Anna Keeney and Mae Smith, all of Taneytown.

Rev. Kresge attended Potomac Synod at York, Pa., last week.

Miss Amelia Annan is visiting Mrs. James, at Spartanburg, South Carolina.

Miss Jane Dern, of Hagerstown, is spending some time with Mr. and Mrs. Frank Wantz.

Mr. and Mrs. Samuel Overholtzer, of New Midway, spent the week-end with relatives in town.

Mr. and Mrs. Paul Angell and children, of Sykesville, spent Wednesday with Mr. and Mrs. Jesse Angell, near town.

Mrs. Irving Andrews and son, of Washington, spent several days last week at the home of Roy B. Garner and wife.

Mr. and Mrs. Thaddeus Crapster, of Va., were guests of Mrs. Sue Crapster, Thursday and Friday of this week.

Rev. and Mrs. Walter Waybright, of near Oakland, visited Mrs. Waybright's parents, Mr. and Mrs. Wm. Hockensmith.

Miss L. Ada Reindollar, who has been visiting relatives in town for some time, returned to her home in Fairfield, Pa., on Thursday.

Mr. and Mrs. Vernon Crouse, Mrs. Mary Stover, Paul and Mary Koontz, spent Sunday with Mr. and Mrs. Wm. J. Stover and family, near town.

D. M. Mehning and wife, Norman Baumgardner, wife and daughter, spent the week-end with Dr. Wilbur Mehning and wife, of Silver Spring.

Mr. and Mrs. Jacob Newcomer and daughter, Miss Martha, and Miss Esther Nissley, of Salunga, Pa., visited Mrs. Jesse Myers and family, on Sunday.

Mrs. C. G. Carpenter, of Omaha, Nebraska, is the guest of Miss Amelia Birnie. Mrs. Carpenter is the daughter of the late Mr. and Mrs. Geo. W. Clabaugh.

Carroll Koons and Merwyn C. Fuss attended a banquet, Thursday night, at Schotties restaurant, given by the citizens of the town to the Littlestown baseball team.

W. Rein Motter, who has been ill with pneumonia for the past ten days, is reported to be holding up to the normal course of the disease, with slight improvement.

Mr. and Mrs. Harry Harner, near town, moved, on Monday to Baltimore, Mr. and Mrs. Edgar Deal, of Baltimore, moved on the small farm vacated by Mr. Harner.

Mr. and Mrs. Charles Cluts, of Keysville, entertained on Sunday; Mr. and Mrs. Russell Durborow, of Gettysburg; Mr. and Mrs. Wilbur Hahn, of Hanover, and Mr. and Mrs. Chas. L. Stonesifer, of Taneytown.

Harry I. Reindollar accompanied Albert LeFevre on a flying trip, on Monday, from Gettysburg to Lancaster, a distance of 60 miles. The trip was made going in 40 minutes, and the return in 30 minutes.

Mr. and Mrs. Charles Keefer, near town, entertained at dinner on Sunday; Mr. and Mrs. Mahlon T. Brown, near town; Mr. and Mrs. John Price and children, of Bridgeport, and Mr. and Mrs. Albert J. Ohler and Mrs. Belle Null, of town.

A meeting of the business and professional men of Taneytown is called for Monday evening, at 8 o'clock, in the Firemen's building, with the object in view of organizing a Chamber of Commerce. A full attendance of all concerned, is requested.

A little daughter of Mr. and Mrs. John Vaughn, aged about four years, was struck by an automobile, Saturday about noon, as she was attempting to cross the Emmitsburg state road. She was cut and bruised about her head and body, but not otherwise seriously hurt.

Last Saturday, Mr. and Mrs. Chas. Davidson and Mr. and Mrs. Ralph L. Davidson, of Philadelphia, and also John Fleagle, of Palisade Park, N. J., motored to Taneytown, and visited Mrs. Raymond Davidson, and then visited Raymond Davidson at Frederick City Hospital.

The Home-makers' Club will hold their monthly meeting, Wednesday afternoon, Oct. 30, at 2 o'clock. This meeting will be an achievement day program. Members of the Club will present two playlets which you will not want to miss. Your friends are invited to attend this meeting. Bring them with you.

Rev. George A. Brown and family, left Taneytown about 3 o'clock Thursday morning, for their new home at Newburg, Pa. The truck that did the moving was delayed until 9 o'clock Wednesday evening, on account of moving Rev. Brown's predecessor to Baltimore, making too much of a job for one day for the comfort of all concerned.

Miss Percy Adelaide Shriver, attended the wedding of Miss Marshall Bleakley to Mr. Frederic A. Hering, at Green Spring Valley, last Saturday.

CARD OF THANKS.

I am taking this method to thank my friends for the many gifts of candy, fruit, flowers, letters and cards, while I was in the Hospital.
RAYMOND DAVIDSON.

Children Almost Hate Cross, Nervous Mother

"My children almost hated me, I was so cross. Thanks to Vinol, my nervousness is all gone and we are happy again."—Mrs. T. Johnstone.
For 30 years doctors have prescribed Vinol because it contains important mineral elements of iron, calcium and cod liver peptone. The very FIRST bottle brings sound sleep and a BIG appetite. Nervous, worn-out people are surprised how QUICK Vinol gives new life and pep! Tastes delicious. Robert S. McKinney, Druggist, Taneytown, Md.

The Ford Motor Company has issued the following statement

"Production of passenger and commercial cars during September, 1929, totaled 161,305 units, a heavy increase over production during the same month of the preceding year.
An increased production schedule has been set for October, calling for an output of 175,000 Model A cars and Model AA trucks. The program for October anticipates a gain of 47,000 units over the production of October 1928, when 127,225 units were produced.
Total Ford production for the first nine months of the current year aggregated 1,633,498 units. Advance schedules indicate that production of Model A cars and Model AA trucks for the full year exceed 2,000,000 units.
The program adopted for October means that the Rouge Plant will continue on a full five-day schedule. Employment in the Ford plants remains at a high level, with 108,138 employees working in the three large plants of the Detroit area on October 2nd."
