

FARMER KILLED WHILE BLASTING STUMPS

His Son was also Injured But Not
Very Seriously.

Mr. Milton A. Reaver, well known farmer of Taneytown district living near Harney, met with instant death last Friday afternoon about two o'clock, while he and his son Vernon were engaged in dynamiting stumps on his farm. They had already removed four and were working on the fifth. Two fuses were being used, one on each side of the stump. Vernon had lighted the one on his side, while the wind interfered with Mr. Reaver lighting his, causing him to spend too much time in the act, perhaps lighting a second match not noticing that the first had already lighted the fuse.

The son started to his assistance, when the explosion occurred. Mr. Reaver was thrown a distance of thirty feet and his son a shorter distance. When the latter recovered sufficiently he hurriedly notified Luther Zimmerman, a neighbor, who summoned a Taneytown physician, but death had been practically instantaneous.

The dead man had a fractured skull, a broken left arm, both hands mangled, and internal injuries, while his son's injuries were not serious. State's Attorney Brown was notified, but considered an inquest unnecessary. Mr. Reaver was 57 years of age, a son of the late Mr. and Mrs. Joseph M. Reaver, and is survived by six children; Joseph M., near Harney; Ernest R., Gettysburg, Vernon C., at home; Mrs. Elmer Fuss, near Gettysburg, and Genevieve and sisters, Oliver, of Littlestown; Robert M., of near Taneytown; Roy B., at McSherrystown; Mrs. Charles Hoffman, of Harney, and Mrs. J. Frank Null, near Bridgeport. His wife, who was Miss Cora Null, died about six years ago.

Mr. Reaver was well liked by all who knew him. He was an active member and Trustee of the Harney Lutheran Church, where funeral services were held on Monday in charge of Rev. L. K. Young, a former pastor. Interment was made beside his wife in the Lutheran cemetery in Taneytown.

MAKE EVERY EFFORT TO PAY YOUR CREDIT BILLS.

The Record has not been prompted by business men to make any statement in their behalf, but it knows by actual contact and observation that the business men of the whole country—not solely in Taneytown—need payments of the bills due them, and that the competition is so sharp and profits so meagre that the credit business is becoming more and more a serious problem.

Those who do not know, may think that the sale of a lot of items on credit, out of a large stock, is not much of a burden for the dealer to carry; but they forget that the items sold must be placed in stock again, and that means buying them on thirty days time, and paying for them then. Business men can not buy on an indefinite time, and pay for them when convenient.

If there ever was a time in the last ten years when business men need to make collections, that time is now, and that means that every debtor should take the matter of his credit purchases seriously, and make every effort to "pay up" either by cash or bankable note, and do it voluntarily.

No one appreciates more keenly than local creditors, the vast sums in the aggregate sent out of a community in cash to the mail order houses. And no one appreciates so keenly as they, the fact of the continuous need of support to churches and other local objects—not counting rents and taxes—that they, and not the mail order houses, pay. The service and personal appeals that the local business men respond to, as well as the enormous amount of actual financial credit extended, deserves greatly more consideration than it gets.

So, be fair within the next thirty days and pay up those bills that should have been paid months ago. The printer may be on the list; or it may be the doctor, or mechanic. Whoever it may be, be fair to home creditor.

CONTRACTS WITH CANNERS ARE BINDING.

In the cases of Geo. N. Hunter & Son, Westminster cannery, against Merle and Lionel Yohn, defendants, who had contracted to sell patches of string beans to the plaintiff firm, but had actually sold and delivered same to Baltimore, it was decided on Tuesday in favor of the plaintiff, before Judge Forsythe in the Carroll County Court.

The case was an appeal from Justice Benson who had decided in favor of the packing firm. The decision evidently means that once a contract is regularly entered into with a canner, farmers can not sell their products elsewhere without contractor's consent.

REPAIRS AND BETTERMENTS. Urged as an Effective Saving of Property Values.

In a statement furnished by Secretaries Lamont and Davis, it was strongly recommended that in order to help the labor situation, as well as to prevent further depreciation in property;

"It would assist greatly during this period if every business concern and every household able to do so, would survey their situation as to repairs, clean-ups and betterments, that must be undertaken sooner or later, and have them put in good shape now."

This is of course excellent and practical advice. No doubt more would follow it, if the cost of betterments were less expensive; and yet, the serious fact remains that "putting off" painting, cleaning and repairing for a time of smaller cost, means that when that time comes—if it ever does—it will then cost more to make the improvements, because more will be needed to be done.

Without question—for buildings show the need for themselves—an immense amount of repairing is needed to farm buildings and homes, through out the country and in towns. Rather than not have any of this work done now, it will be decidedly better to have it done, a little at a time, where most needed.

Repair work is not so much needed for mere appearances, as for real saving of the property. Delay in painting, is especially costly. Failure to repair a bad roof, means damage to the whole building. A few respectable looking outbuildings, reprecates the value of a whole farm.

BAIL REFUSED FOR EDWARDS.

A petition was filed in the County Court, on Tuesday, for a writ of habeas corpus to bring before the Court, Paul W. Edwards, of Copperville, who is being held in jail since February 18 in connection with the death of William T. Keefe, of Bark Hill, that is claimed to have been due to poisoning.

The petition was filed with Clerk of the Court, Edwin M. Miller, by attorneys Weant & Wood, as counsel for Edwards, the object being to have him released under bail. The petition was forwarded to Judge Parke who was engaged in Annapolis, this week, as a member of the Court of Appeals.

Judge Parke, on Thursday morning, ordered the writ of habeas corpus, and on Friday morning Edwards was brought into Court. After a hearing, the Court refused bail and Edwards was returned to jail to await the action of the Grand Jury at the May term of Court.

CHILDREN'S AID SOCIETY APPEAL.

We need your help in taking care of the unfortunate children in our county.

The loyal and unselfish volunteer workers have worked hard during the past year to put this project across, and in many cases have had to stand by and watch the suffering from the lack of financial aid.

The County Commissioners gave \$2,000 towards this splendid work because they see the need of it, but our budget for 1930 is \$4,000 and we are asking the good citizens of our county to help us with the remaining \$2,000.

To do constructive work we are forced to have a worker in the field who can answer the appeals from all over the county and go into the homes and adjust the differences that are there, one who understands the legal side of the work. We want every boy and girl to have a fair chance, and every cent that you contribute stays in the county to help those who are in need. We trust you will see the necessity of this work and through the fulness of your heart respond to this appeal.

The membership fee in Carroll County is \$1.00, but contributions necessary to continue the work will be most gratefully received and will not be regarded as a yearly contribution. We wish that you would ask questions about the work, that you would come to our next Board meeting and feel free to attend any meeting of our local groups. Your interest in the work will be welcome.

We need to raise \$2,000 at once, and do not want to spend money to get it. All of us are busy people and are volunteering our services in this great cause. Please send us your contribution.

Taneytown quota for 1930 \$160.23.
Thanking you in advance,
MRS. WALTER A. BOWER, Chm.
MRS. WM. F. BRICKER, Treas.
ELEANOR BIRNIE, Sec'y.

The annual tour of the state conducted by the Maryland Christian Endeavor Union, will be held this year from March 12th., 24th. Russell Baile, Field Secretary, of Massachusetts, will tour the state with F. C. Dixon, Maryland's Field Secretary. The meeting for Carroll county will be held Sunday, March 16, at 8 P. M., at the Methodist Protestant Church, Finksburg.

Does April 1 mean to you the time when you ought to "pay up"? There was a good old time when it did mean, just that. And, the merchants never changed the custom voluntarily, nor agreed to the justice of the change.

"We should manage our fortune as we do our health—enjoy it when good; be patient when it is bad; and never apply violent remedies except in extreme necessity."

A good law without enforcement, is an unperformed promise.

TWO SCHOOL BUILDINGS CONDEMNED.

Conditions Relating to Sykesville
and Union Bridge.

The regular meeting of the Board of Education was called to order in the office of the Board, Wednesday, March 5th., at 10:30 A. M. Commissioner Koons was absent.

The minutes of the previous meeting were approved as read.

The bills, paid and unpaid, presented to the Board were approved and ordered paid.

The resignation of Miss Amanda Dorsey, Winfield School was accepted and Miss Madeline Walker was appointed in her place.

Superintendent Unger made a report on the extension of the Mt. Airy bus to Gypsy Hill. The Board approved this action.

The Superintendent was authorized to draw up new contract with the present bus drivers in so far as they are satisfactory, so as to make the conditions of the contracts as nearly uniform as possible and to publish before the opening of school in Sept. a new set of bus regulations for the information of the public, the children, the bus drivers, and the principals.

Upon a completion of the report of the Superintendent, that the State Superintendent had reviewed the offerings of land and had agreed to approve a certain location across the street from the present school property, and the price being considered satisfactory, the board authorized the purchase of the land as soon as the County Commissioners would supply the necessary funds, and to proceed to secure the necessary plans and drawings for an adequate building at Union Bridge.

Report of condemnation of school buildings at Sykesville and Union Bridge made by the Superintendent of schools to the Board of Education on March 5th., 1930, according to State School Law Chapter 506 (1916) in which he is required "to recommend for condemnation school buildings that are unsanitary and unfit for use."

The following letters and statements, as well as personal complaints from many interested citizens, and my own observations, compel me to report to you that I do herewith, formally and according to law, recommend for condemnation as unfit, unsanitary, unsafe and inadequate the school buildings at Sykesville and Union Bridge, and herewith notify you that you must provide satisfactory and adequate school facilities for the opening of school in September 1930, for 379 children at Sykesville and 248 children at Union Bridge.

The following statements condemning the buildings have been submitted to the State Superintendent Dr. A. S. Cook and copies have been filed in the office. No stronger evidence is needed to show that these impossible conditions must be remedied at once.

(The Record regrets that it can not give the required space to the statements referred to, concerning the situation at Sykesville and Union Bridge, but must condense the same.)

A petition signed by fourteen prominent citizens of Sykesville addressed to Supt. Unger recites in detail the unfitness and unsafety of the present building; that the rooms are too small and inconveniently arranged; stairway in weak condition and oil-soaked and not properly supported; floors oilsoaked, plastering cracked, doors in bad condition, inadequate fire escapes; elementary school housed together in portables a considerable distance from main building; manual training and home economics rooms outside of main building, etc., etc.

Dr. W. C. Stone, deputy state health officer, reports to Supt. Unger that the building is badly overcrowded; that the ventilation is very poor; danger of spread of communicable diseases very great; toilet facilities are inadequate; the portable buildings are not acceptable, and very cold in winter; that Sykesville people are entirely justified in their dissatisfaction with present school facilities.

A petition signed by fourteen leading citizens of Union Bridge addressed to Supt. Unger recites; that present building is in an unsafe condition, and a menace to health; that the exterior brick walls are bulging the foundation sunken and walls cracked; plaster badly cracked on walls and ceiling; stairway to second story is narrow and badly worn; the fire hazard is serious; in case of fire children would find difficulty in escaping; floors soaked with oil; only the first-floor rooms are suitable for classes, etc., etc.

The petition concludes with a strong condemnation of the building; that its continued use is little short of criminal, when considering the possibility of serious calamity should conditions of cause be just right. An inspection of building was requested.

A. J. Klinkhart, architect, pronounced the building unsafe and unsuited for school purposes, and repeats the objections contained in the foregoing paragraphs.

The proceedings of the Board of Education conclude as follows:
Pursuant to the above action taken by the Superintendent based on the petitions of condemnation preceding, the Board passed the following resolution:

Resolved, That the matter of the petitions of the Sykesville and of the Union Bridge communities for new public school buildings at these two places be referred by this Board to the County Commissioners with copies of the exhibits presented by the commit-

LETTER FROM CHINA

The Big and Wonderful Land of Make-Believe.

Here comes a letter from this land of "make-believe." This is Chinese New Year, but the government would make believe it is abolished and forbids its celebration. But it is Chinese New Year. Fire-crackers boom as of old. People in their best "go-to-meetin's" greet their friends with "Kong-hsi fah-dai"—"Congratulations and abounding wealth." Stores are closed. Nanking's order is ignored. You can't change 1000-year old customs of 400 million people in a night.

But this is not the only make-believe. Nanking makes-believe China is unified. It "ain't." China is split into smithereens. Chang Fa-kwei in Kwangsi is fighting Nanking. Yen Hsi-shan has Shansi and Chihli and rules well. Chang Hsueh-liang lords it over Manchuria. Tang Seng-cri keeps a hornet's nest buzzing in Honan. Vong Yoh-dzang sways Shensi. Shzechuen goes its own way, and other rebels keep the Capitol on "pins and needles."

Yet Nanking has repeatedly reported each of these discordant notes overcome or won over. But it is only make-believe to hood-wink the world. Chiang Kai-shek is the "conqueror of the North and the unifier of China." But what he seems to have done was done mostly with Russian brains and capital until he took Nanking. After that the rest was won by squeezing money from people in the rear of the "fighting lines" and buying enemy commanders in front. There was hardly one worth-the-name battle fought. It was mostly victory by purchase and buying of victory takes the gloss off the glory.

If Nanking had the money now she could purchase all her present enemies. But what's the use? Soon there would be swarms of other enemies. It's profitable to be an enemy of Nanking! China had to humble herself before Russia for Russian officers could not be bought. But in China the "itching palm" is conspicuous. Remember this and you can understand much about the wars in this "squeezed-greaser" land. China is getting worse and worse. Property-rights are gone. Life is unsafe. Business is paralyzed. Freedom of the press and speech has vanished. Loyalty and obedience are not. Liberty is dead. Bandits abound.

But Nanking makes-believe all is "as fine as pie" and issues pious reports. Among officials there are doubtless sincere ones who would put things right but the make-believes predominate and block every move for good. But don't judge harshly. Most officials are sons of the laboring class and of the newly-rich. They are young and inexperienced. They pay great attention to trivial things and neglect great things. If in our Washington it's said, "He that is without Gin among you let him first cast a stone," can we condemn heathen China? We hope that some day China striplings will tire of "playing house" and will get down to horse sense.

But I'm getting away from the New Year. Gambling is everywhere. Superstition is rife. Money is wasted that might relieve famine suffering. Every temple is crowded with people offering incense, candles, paper-money and prayers to all the gods. They pray most for wealth. That prayer is not make-believe. They want wealth, and they worship the god-of-wealth with all their hearts. Every home has one made of wood, mud, or paper but he is "Dzai-zen" all the same.

When business gets poor in China they say the god-of-wealth has gone to America. The paper Dzai-zen is interesting. The god's throne is a big ingot of gold set with jewels. Mountains of gold are at the god's left and Silver Hill is at his right. In front of him is a great bowl of jewels. On Silver Hill is the money tree a shake of which will shower you untold wealth. Over Dzai-zen's head is "Foh"—blessedness. All around are his servants ready to carry wealth to those whom the god favors. This god is very amenable to flattery and he who flatters best gets most. But he too is make-believe.

May the true God-of-wealth prosper you and friends in all good. Yours longingly for a sincere and prosperous China.

C. P. O. Box No. 1234, Shanghai, China)

BUY DAY-OLD CHICKS.

You can't count your chickens before they're hatched if an incubator or hen is used, but you can count them if day-old chicks are bought from a good hatchery. Each year more and more farmers are buying day-old chicks instead of incubating the eggs. If you buy chicks, be sure to get them from a reliable breeder who has healthy stock and whose hatchery is managed under sanitary conditions. Chicks should be ordered early so they can be delivered in March or April. Late-hatched chicks rarely do as well as early hatched ones.—U. S. Dept. Agriculture.

tees from these communities declaring the buildings in these two communities unfit, unsafe, and unsanitary for public school purposes and requesting the Board of County Commissioners of Carroll County to provide in the levy of June 1930 sufficient money to erect in these two communities adequate and complete public school buildings, and to notify the Board immediately what action it proposes to take in order that the Board may know whether it has authority to proceed at once with the construction of new buildings in these places.

TRIBUTE TO BOY SCOUT MOVEMENT.

President Hoover Strongly Commends
it to the Country.

At a dinner given by the Boy Scouts in Washington, on Monday night, inaugurating a five year expansion program, President Hoover was the chief speaker, who lauded the movement as the bulwark of the nation as it teaches the fundamentals of good citizenship. The event was broadcast nationally. He said in part:

"Together with his sister, the boy is the most precious possession of the American home. I sometimes think that one of the sad things of life is, that they will grow up. Literature and lore have established our boys in varied relations to life—as a growing animal of superlative promise, to be fed and watered and kept warm; as a periodic nuisance; as a joy forever; as the incarnation of destruction; as the father of the man; as the child of inquiry; as the problem of our times and the hope of the nation.

"In any event, he is a complex of cells teeming with affection, filled with curiosity as to every mortal thing; radiating sunlight to all the world; impelling desire to take exercise on all occasions. He is a perpetual problem to his parents, and the wisdom in his upbringing consists more often in the determination of what to do with him next rather than in what he shall do when he goes out into the cold world.

"The problem that we are considering here is not primarily a system of health or education or morals. It is what to do with him in his leisure time that will, of course, contribute to his health and his education and his morals, but in the main what will direct his interests to constructive joy instead of destructive glee and will yield him constructive joy for the balance of his life.

"There cannot be Boy Scouts without organization and leaders.

"And by leaders I include particularly those devoted men, who, as troop leaders, become the inspiration and friends of boys and upon whom rests the responsibility of actually administering constructive joy.

"Through its organization our boys learn of discipline, they learn the unity of effort, co-operation and the democracy of play and work; they learn of the duties and satisfactions of service. All of these are the foundations of life, the basis of liberty and happiness, the safeguards against destructive joy in the grown-up life hereafter.

"The priceless treasure of boyhood is his endless enthusiasm, his store of high idealism and his fragrant hopes. His is the plastic period when indelible impressions must be made if we are to continue a successful democracy. We assure ourselves that the cure of illiteracy and the fundamentals of education to be the three R's—reading, 'riting and 'rithmetic. To this we must add one more R, and that is responsibility—responsibility to the community—if we are not to have illiteracy in government. The conviction that every person in the republic owes a service to the republic; that the republic rests solely upon the willingness of every one born in it to bear his part of the duties and obligations of citizenship is as important as the ability to read and write—that is the only patriotism of peace."

FORMER PRESIDENT TAFT DEAD

Former President Taft died at his home in Washington, last Saturday afternoon, following a comparatively brief period of serious illness. The cause of death was given as cerebral sclerosis. Mr. Taft had an unusual public service record as District Judge, Solicitor General, Governor General of the Philippines, Secretary of War, President of the U. S., and Chief Justice of the Supreme Court.

His funeral on Tuesday was attended with the highest honors. Congress adjourned; his body rested in the rotunda of the Capitol for three hours; delegations of twenty from the Senate and House joined the funeral cortege, and a military escort attended the body to Arlington cemetery. The funeral service was held in All Soul's Unitarian Church.

He was buried at Arlington, according to his expressed wish, where he will lie among the dead of the wars. The location of the spot was selected by Mrs. Taft and her three children.

Although at times during his political career Mr. Taft was harshly criticised, and although he was the worst defeated candidate who ever ran for the presidency, he won for himself—for his manliness and lovable character—an exalted place in the hearts of the people.

THE FAUSEYS WILL SING.

Mr. and Mrs. Fred M. Fausey, of Williamsport, Pa., gospel singers, will be heard at all the services in Manchester, March 16 to 20. (See church Notices) and also at a Pentecostal Rally held under the auspices of the Carroll Co. C. E. Union, Tuesday, March 18, at 7:45 in the M. P. church, Westminster. Rev. John S. Hollenbach will preach on "Preparing for Pentecost." All Societies are urged to send delegations.

Someone has truly said: "The precepts of the law are these; to live correctly; to do an injury to none, and to under every man his own."

THE NEWS OF THE WEEK

Record of Important Events in Condensed Form.

The total farm population on Jan. 1st., 1930, was estimated by the Bureau of Agricultural Economics at 27,222,000, a decrease of 269,000 from the estimate of 27,491,000 on Jan. 1, last year, the Department of Agriculture announced, Feb. 21.

A referendum vote will be taken in Rhode Island, Nov. 4, as to whether the 18th. Amendment should be "retained" in the Constitution of the U. S., providing the Governor signs the act. This is regarded to be merely an expression of popular opinion, and not as an actual vote for repeal.

The Senate co-alition—Democrats and western "independent" Republicans—that started in to revise the tariff uniformly downward, has recently been obfuscated by desertions, to the extent that a good portion of the Senate's work will look very much like protection. Evidently, some of the free-traders have been hearing from home that the "tariff is a local issue."

Former president Calvin Coolidge has been making a hit of his western tour, judging from his very enthusiastic receptions. Some are inclined to see in the fact a "come back" as a presidential possibility.

Associate Justice Sanford of the Supreme Court died suddenly in Washington, on Saturday. He had not been ill but was stricken, apparently in good health, while in a dentist's office where he had stopped on his way to the Capitol to take part in the celebration of Justice Holmes's eightieth birthday. He was in his 65th year. Burial took place in Knoxville, Tenn., his home, on Monday.

The Pennsylvania republican situation has cleared up by the withdrawal of former Senator Vare from the race. There will be two tickets in the primaries; Samuel S. Lewis for governor and Joseph R. Grundy, for Senator; and Francis Shunk Brown for governor and James J. Davis for Senator. The Vare influence is expected to be exerted for the Brown-Davis ticket. Ex-Gov. Pinchot will enter the primaries as a candidate for Governor.

Henry Ford has purchased 25,000 acres in Georgia, for a test farm for the use of Mr. Edison's experiments in making rubber from golden-rod, the land being especially adapted to the growing of golden-rod.

Commander Richard E. Byrd was communicated with at New Zealand, on Tuesday, his first stop on his way home from the South Polar region. President Hoover, in discussing the "unemployment" situation, said, there are less men out of work today than in 1922.

WOMEN BACK PROHIBITION.

Women friends of prohibition largely monopolized the dry time, this week, before the House Judiciary Committee. The women witnesses were from a wide field, and all demonstrated extreme aggressiveness for the 18th. Amendment and enforcement legislation, and presented a formal creed of 14 points in support of their attitude.

Mrs. Jesse W. Nicholson, Chevy Chase, Md., one of the leaders in the anti-Smith revolt, and Mrs. John F. Sipple, Baltimore, president of the General Federation of Women's Clubs, were dry witnesses, and both took care of themselves against the cross-examination of the wets. Twenty women in all, appeared, headed by Mrs. Henry W. Peabody, of Boston, chairman of the Women's National Law Enforcement League.

Mrs. Nicholson made the statement that some of the witnesses for the wets were "attorneys for brewers." This statement was sharply questioned for detailed information, and something of a furor was raised mainly by Representative La Guardia, of New York, but Mrs. Nicholson left her statement stand as made.

In addition to these witnesses, Mrs. Peabody read statements indorsing prohibition from Mrs. Henry Ford, Mrs. Thomas A. Edison, Mrs. Carrie Chapman Catt, Mary E. Wooley, president of Mount Holyoke College; Mrs. Raymond Robbins, now of Florida; Mrs. Vic Dohoney, wife of the former Governor of Ohio; Mrs. William Pattangall, of Maine, and Miss Elizabeth L. Arthur, lecturer for the New York State Grange.

Mrs. Peabody said these women represented organizations having a combined membership of from 10,000,000 to 12,000,000 persons.

C. E. PENTECOST RALLY.

A Pentecostal Rally, under the auspices of the Carroll County Christian Endeavor Union, will be held in the Methodist Protestant Church, Westminster, Tuesday, March 18, at 7:45 P. M.

The address of the evening will be by Rev. John S. Hollenbach, pastor of the Manchester Reformed Church, on the subject "Preparing for Pentecost." He is a very earnest and forceful speaker, and his subject is a timely one.

A feature of the rally will be the singing of Mr. and Mrs. Fred M. Fausey, of Williamsport, Pa., noted gospel singers.

It is hoped the Endeavorers of the county and their friends will attend in large numbers and enjoy the splendid program and fellowship.

TAKE THE RECORD ALONG!

A good many changes will be made April 1 in the location of homes. The Record would greatly appreciate following folks into these new homes, and help to make the change more homelike. Parents might suggest this to their children; or to neighbors, and we are hoping that many will do so. Why not?

WHAT KIND OF PROSPERITY?

Those who pretend to establish as a fact that the country is generally prosperous, speak only for perhaps one-half of the people. We do not know the exact percentage; but those who use the prosperity argument have only to investigate far enough, with open minds and eyes, and they will find that the effort to keep up war-time prices and war-time spending is lop-sided in its application, and that nothing like a fair level of prices considering income and expense, has reached the pre-war level, which was not itself an ideal one. We were going wild before that.

Those who are actually very prosperous are in one or more ways profiting at the expense of somebody else. We have only to make comparisons of prices for many of the necessities of life, with former prices; and present incomes with former incomes, to show that percentages do not fit. We need only to consider one immense class of people who are compelled to try to live on invested incomes, or such small incomes as they are able to earn, to make it clear that there can not possibly be any prosperity for them. They may see and hear of prosperity, but as for themselves they know that it does not reach them.

It is unnecessary to specify the long list of items that are outrageously too high in price at present; too high when measured by the purchasing ability of the masses. And they are prices kept up by force of one kind or another. Taxes, too, are abnormally high, and every tax-payer is aware of it. A comparatively few things are low in price, but these do not compensate for the rule in the opposite direction.

What is to be done about it, is the problem. Who is responsible, is equally problematic. Perhaps the beginning toward a solution rests largely with the public. The refusal to buy unnecessary, would be a help. Many of the extravagant prices rests on the high cost of labor; but, labor needs high pay to keep up with the procession. And yet, the complained-of lack of employment would disappear in many cases, if labor costs were lower.

The farmers pretty generally complain of "the times" and of lack of profit; but farmers represent only one big class, while there are hundreds of other smaller classes in the same boat, the total of which perhaps outnumber the farmers.

Politicians are trying to capitalize the situation, by blaming one thing or another, but they are not advancing honest-to-goodness constructive measures. Blaming "the administration" is a natural, and very old-time expedient, designed to affect votes, but has nothing to do with practical economic situations.

The whole question is further complicated—and more than we commonly imagine—by the big fact that there is a tremendous number of people in this country who would never be prosperous, no matter what kind of "times" there would be. The spenders are with us, always, as an unsettling influence, and as a positively dangerous element, because they obscure a clear vision of business situations, and always "want more," in order that they may "spend more."

Another factor to be considered is the danger in talking of "hard times" because doing so may create a "panic" a widespread distrust and interference with normal, healthy business. So, while we can not figure out the truth of things along the lines of prosperity, we should at least not overlook our own responsibility, and not be too ready to place all of it on somebody else; and while awaiting the outcome, it will be very wise of us to practice reasonable thrift, and protect ourselves the best we can.

Liberality in responding to worthy objects may lower the number of dollars one is worth, but may represent laying up treasure where one needs it most.

THE NEWSPAPERS AND PROHIBITION.

Will Rogers, who enjoys the reputation of being one of this country's greatest humorists, recently said of the prohibition controversy.

"If the papers announced that they would quit printing what either side said * * * there are at least 90,000,000 living in the country that wish both sides would shut up and go to work."

Whether one considers this humor, or not, the reference to the papers "shutting up," has a lot of force to it, as it is the papers, more than any other one thing, that is keeping up the agitation, and unquestionably lending encouragement to all sorts of violators and antagonists to prohibition and its enforcement laws.

The fact is, the very general opposition of the daily press in the large cities to prohibition, is suspicious in itself. It may be that the unanimity of this opposition is spontaneous and unpaid for; but that it is carried on regardless of the hundreds of thousands of readers who oppose their course is very unusual indeed, considering the fact that the newspapers are supposed to cater to great extent to popular sentiment.

Since there are so many "investigations" now being sponsored by the Senate, it might be well to have the investigators try their hand on the question of the genuineness of the attitude of the press relative to the big question, and to go into the matter of whether or not there is a big fund—as is sometimes charged—furnished by the liquor interests, to defeat prohibition, and how the same is spent.

Mrs. Ruth G. Strawbridge, of Philadelphia, prominent society woman, who recently appeared before the House Judiciary Committee, during her statement said she had sent out 2500 inquiries to Philadelphia matrons, asking whether or not they were favorable to excluding liquors from their social functions and had received 1337 favorable and 247 unfavorable replies; and asked two questions and made a positive charge, as follows:

"Why are foreign countries so anxious to defeat American prohibition? Why are they working so strenuously against our prohibition laws? The dollar-mark is the answer. The wine-growers of European countries have put up a tremendous sum of money to fight prohibition in our states." Statements like this need investigation, and more light on the subject.

OWNING A HOME.

We have reached a period of the year when the thoughts of many are given to owning a home. To own one's home is a good way to practice thrift for most persons. The problem, however, is one not easy of solution. The question with most prospective home owners is "How much can I afford to pay for my home?"

As in all other problems relating to individual or family administration each case presents certain special aspects. Only broad, general suggestions can be offered. Manifestly, a young man whose prospects are for a continually rising income can afford to pay more for a home than a man who, through one circumstance or another can look into the future years with no assurance of greater earnings.

One of the most interesting contributions to this subject was made recently by Mr. Henry M. Stegman, writing in the Thrift Magazine. He points out that "most homes are bought on partial payments. Here the need for caution is even greater than if all the money needed were in hand. The monthly installments are not all savings. Especially in the beginning, they will go chiefly toward meeting the interest. As the debt is gradually reduced, this factor will decline. But the initial bargain should be based as closely as possible on one hundred times the weekly wage."

One hundred times the weekly wage would be approximately two years' wage which, Mr. Stegman concludes, is a good basis for determining what one should pay for one's own home.

It must be borne in mind, however, that this is only a general formula. Homes in or near large cities, for example, are more expensive than those purchased in small places. For this reason home ownership is out of the reach of many city workers whose only recourse is to go far into the suburbs and sometimes this is impracticable. We may feel, nevertheless, that the vast multitude of Americans, home ownership is an economic possibility. With most families it is a commendable type of thrift and at this period of the year should receive every encouragement.—S. W. Strauss.

"Scrapping" Old Cars.

We ran across the following recently, in a daily paper. The details of the "scrapping" plan are not given, but probably refers to "trade ins."

"Fifteen million dollars will be spent by the automobile industry in 1930 in removing unsafe cars from the highway, according to the details

of a program indorsed by the directors of the National Automobile Chamber of Commerce. Believing that the size of the accident situation warrants strong measures for its cure, the motor companies will scrap 400,000 old automobiles in 1930, it is said, in addition to the normal scrapping which is constantly going on.

This highway safety plan proposes that the manufacturers provide a fund to remove permanently those cars that menace the safety of other highway users.

"This widespread experiment will strike right at the heart of the unsafe vehicle problem by eliminating a huge block of those cars which are in the poorest condition," Alvan Macauley, president of the automobile chamber and former chairman of its street traffic committee, said in commenting on the program.

"The rattle-trap car is only one factor in the accident difficulty," Mr. Macauley continued. "Unsafe, incompetent and reckless drivers, as well as reckless pedestrians, cause a large proportion of the accidents. Blind curves and other highway defects are also to blame."

Bedouins Prize Camel Above All Possessions

A camel is considered worth more than a wife to Bedouins. Their incomes, sometimes their lives, depend upon their camels. A camel which can travel without food or water for ten or twelve days is valuable indeed. But some will do so for fifteen or even twenty days. The saddles for these prized beasts are the finest that money can buy. A man who has four or five camels is considered well-to-do. One who has fifty is considered wealthy. He has many servants, and lives on the income of his camels.

The rivalry between chieftains who have 500 or 600 camels is just as intense as it often was among the cattle barons of the West. Sometimes one of the shieks will hire Bedouin bandits to steal another's camels and start a feud that lasts for years.

Camels eat a thorny weed called gavan. The weed is so dry that it is used to start fires. The root is filled with a resinous fluid that yields almost pure glue. Some of the best glue in the world is made from it.

Years' Passing Brings Interest in Obituaries

"One thing more reminds me that I am growing old," the gray-haired man remarked. "It is the class of news that interests me in the papers. There was a time when I never thought of looking at the death notices and the obituary columns. I was too busy with other topics. Then, slowly, almost imperceptibly, I began glancing at the obituaries in the home newspaper which I had been receiving for years. There was scarcely a week went by without an article about the passing of some one I had known when I was a boy. Then just as gradually the necrological news took on a more intimate aspect. I found myself reading of those with whom I played when a youngster, or with whom I was associated as a youth. These somber items were at first few and far between, but as the years drifted by they became more frequent, and I suddenly found myself reading obituaries before I did the personals."—Detroit News.

Concerning Trade Marks

The courts have said that a person entering a field of endeavor already occupied by another should, in the selection of a trade name or trade mark, keep far enough away to avoid all possible confusion. Whether there is an infringement of a trade mark does not depend upon the use of identical words, nor on the question as to whether they are so similar that a person looking at one would be deceived into the belief that it was the other. The courts incline to hold that infringement occurs if one adopts a trade name or a trade mark so like another in form, spelling or sound that a person with a not very definite or clear recollection as to the real trade mark, is likely to become confused or misled.

No Giants 200 Years Ago

They were little men in the eighteenth century. They were not dreamers. They called themselves practical, and considered themselves enlightened; they sneered at visions. Such things as they did were done in bits; their schemes were carried out, if at all, an inch at a time. Pettiness was habitual to them, originality almost unknown. Dean Swift, who knew his generation, once wrote of the kings of the Lilliputians that he was "taller by almost the breadth of my nail than any of his court, which alone is enough to strike an awe to the beholders." Whales had then been earlier, and later were to be, but in the beginning of the eighteenth century the pool was filled with pretty goldfish.—Donald Barr Chidsey in "Marlborough."

Their Own Will

The will to live as well as local pride is revealed in the purchase by the town of Huntington, in the Berkshire hills of Massachusetts, of the woolen mill upon which the majority of the residents depend for occupation. Closed for sometime, the mill has been bought by the townspeople, who have also raised funds for the purchase of needed equipment. The mill will not be run by the town, but will be leased to a manufacturing company on long terms; an offer is already said to have been made.—Hartford Courant.

POULTRY

HATCHABILITY OF EGGS INHERITED

Low Rate Causes Heavy Losses to Industry Yearly.

(Prepared by the United States Department of Agriculture.)

Forty per cent, or 800,000,000 of the 2,000,000,000 eggs incubated annually fail to produce live chicks, according to the United States Department of Agriculture. Such a low rate of hatchability causes heavy losses to the industry annually. Solution of the problem is one of the important undertakings of the poultry specialists at present.

While many factors, such as breeding, feeding, and management, have an important bearing on the hatchability of the eggs produced, heredity is also a factor. It is now known that some hens lay eggs of a higher hatchability than others and that this characteristic can be transmitted from sire to daughter. In fact, the studies already made by department poultrymen indicate that strains which will produce eggs with a very high hatchability may be developed by trap nesting, pedigree hatchling, and selection of hens producing a high percentage of livable chicks.

At the department's poultry experiment farm at Beltsville, Md., breeding work is being conducted to develop strains of high hatchability. Some progress has already been made. Records of one hen with an average of 90 per cent hatchable eggs show that she has transmitted this characteristic in a large degree to her progeny. She has two daughters and seven granddaughters with records of hatchability ranging from 78 to 95 per cent, or an average of 86 per cent hatchability.

Department poultrymen are of the opinion that such records as these will prove of interest to the poultry breeder or commercial poultryman because they are evidence that a pedigree, showing number of eggs alone and no evidence of their hatchability, is greatly lacking in completeness.

Watch Shipping Days to Get Higher Hen Prices

"There is a right time to ship poultry. Shipment should be made so it will reach the market Tuesday, Wednesday, or Thursday according to observations by many experienced shippers. The market is often overloaded toward the end of the week, resulting in selling at reduced prices to avoid a carry-over to the next week," says W. D. Termohlen of Iowa State college.

It is also a smart plan to compare local prices with terminal market prices because, in many cases, the difference is not worth the extra costs connected with shipping.

FRIDAY, MARCH 14th., 1930.

KEYMAR.

Mr. Charles E. Valentine, former Western Maryland Railroad agent at Keymar, died last Sunday morning, at 3:30 o'clock, at the home of Mr. and Mrs. John Forrest, from heart trouble. He had been agent for a number of years, up until two years ago, when he retired on account of declining health. Mr. Valentine retired Saturday night, apparently in his usual state, when he was seized with a heart attack at 11 o'clock. His physician was summoned, but he was beyond aid and passed away four or five hours later. He had been residing at the Forrest home for the last four years. Two brothers, Calvin of Keyville; John W., York, Pa., survives. He was affiliated with the J. O. U. A. M. Lodge, of Taneytown, and the Order of Railroad Trainmen. Funeral took place Tuesday afternoon, with all services at the Forrest home, conducted by Rev. P. H. Williams, of the Union Bridge Lutheran Church, assisted by Rev. Fife, Lutheran minister of Woodsboro. Burial in Mt. Zion (Haugh's) cemetery. The funeral was largely attended and the floral designs were many and beautiful. He was in his 70th year.

The Home-makers' Club met at the home of Mrs. Bessie Mehning, Monday afternoon, with 9 members and one visitor.

Mr. and Mrs. George Koons, Mrs. Upton Mehning and Miss Annie Mehning, attended a surprise, which was given their minister, Rev. and Mrs. Fife, at the parsonage at Woodsboro, last Friday evening. The sewing circle gave the surprise and in connection with the surprise they gave the Rev. and wife fine eats and a double Irish chain quilt, all ready for the bed which was appreciated very much by Rev. and Mrs. Fife.

Mrs. Truman Keefe and little son, returned home from the Frederick City Hospital, last Saturday.

Mrs. Fannie Sappington has been confined to her bed for the last two weeks, suffering from rheumatism.

Miss Katherine Koons, of Baltimore was a recent visitor at the home of her parents, Mr. and Mrs. George Koons.

FEESERSBURG.

The record for perfect attendance for February in Middleburg School numbers 24 pupils. The school is rehearsing a play, to be given next month.

There was a large attendance at the P. T. A. meeting in the Church Hall, last Tuesday evening, and an interesting program. The young people sang songs, Mrs. Mary Haines Harsher, of Union Bridge, gave the reading, and a kitchen cabinet orchestra rendered popular selections which were enjoyed by all.

While on a visit to his wife in Frederick Hospital, last Thursday, Jesse Bostian's car was badly damaged when passing an auto parked by the wayside at Woodsboro another car in the rear ran into his. Three friends were with Mr. B., but no one was seriously hurt.

A half dozen members from Mt. Union congregation attended the Lenten Service in the Lutheran Church, at Uniontown, last Wednesday evening. Rev. M. L. Kroh, pastor.

Mrs. Chas. Hyde (nee Elsie Coleman) is recovering from a serious illness of bronchial pneumonia. This lady who has not been able to lie down for a number of years, has been confined to bed for two weeks only able to have one tiresome position.

Mrs. Alma Flickinger Bostian continues to improve at the Hospital, and we hope she can soon return to her home, in good condition.

There was a good attendance at S. S. at Mt. Union, on Sunday morning. C. E. Service followed, in which a half dozen persons spoke on the topic "How win others to Christ." In two weeks, at 10:30 A. M., the monthly Missionary meeting will be held.

Several of our ladies attended the Day of Prayer worship in the Lutheran Church, in Taneytown, last Friday, and report a good meeting, but not crowded. How slow we are to "Watch and pray" with a will!

Yes, we actually heard the voice of Admiral Byrd, American explorer returning from his antarctic expedition, in New Zealand, on Tuesday morning, by radio. 'Twas a thrilling moment to hear his friends in New York give him greetings, and receive his response over thousands of miles. Again we say, like the first message sent by telegraph, "What hath God wrought?"

The same afternoon, we listened to the funeral service for William Howard Taft, in All Souls Unitarian Church, in Washington. "Lead Kindly Light," by the Marine Band, was a musical prayer and inspiration; also played by the organ and chimes, beautifully. Taft was the only man in history to occupy our two highest offices, President and Chief Justice of the U. S. A.

L. K. Birely attended the funeral of Chas. Valentine, at Keymar, on Tuesday; burial in Mt. Zion (Haugh's) cemetery.

Visitors in the home of Albert Rinehart, on Sunday, were his son, Chas. Rinehart and family, and daughters Gladys Bostian and family, Louise Rinehart and Earl Harrison, all of Baltimore. Mrs. Belle Rinehart is able to be out again.

A force of men, with heavy machinery, are repairing the state road from Feesersburg to Middleburg, this past week.

Our local fishermen have had some successful sport recently, and some losses in last week's heavy rain.

Sales are the order of the days first snow and we hear men asking each other—are you going to the sale on Tuesday or Friday? and how did the cows sell? and etc. They seem always new.

Eggs are plentiful and cheap. The women are beginning to count their young chicks.

'Tis a great game—seeing who will find the first mess of dandelion. Mrs. C. Wolfe is the winner again.

UNIONTOWN.

G. Fielder Gilbert spent several days, first of week, in Philadelphia, with his daughter, Catherine, who is attending Medical College there.

Clayton Hann, of the United Electric Co., Baltimore, visited home folks, on Monday.

Those who spent Sunday in the home of Harry Angell, were: Robert Angell, wife and little daughter, Betty Jane, of Gettysburg; Mr. and Mrs. John Radle and four children, John Jr., Isabelle, Doris and Robert, of Steelton, Pa.; Miss Naoma Reck, of Harrisburg and gentleman friend, Webster F. Keiter, of Halifax, Pa.

Walter and Howard Kump, Harney visited their father, William Kump, of near Emmitsburg, last Saturday.

Anna Smith still continues poorly. Those who visited with her lately were: Mrs. Chas. Hoffman, Mrs. B. G. Marshall, Mrs. Marian Marshall and daughter, Shirley.

David A. Baker has been confined to his home for several days the past week.

We are glad to note that they have commenced work on the Gettysburg and Harney road. The road has been in a horrible condition.

Walter Peck and Kenneth Markle, of Breezewood, Bedford Co., are visiting the former's mother, Mrs. Etta Peck, of Harney.

and a young son. Funeral services in charge of her pastor, Rev. W. E. Saltzgriver, were held at the home of her parents, on Tuesday afternoon. Interment in Pleasant Valley cemetery.

CARD OF THANKS.

We hereby extend our sincere thanks to all friends and neighbors who in any way assisted us following the sudden death of our father, Luther W. Mehning; also for floral tributes and use of autos.

BY THE FAMILY.

MANCHESTER.

Mrs. I. G. Naugle is ill at this time. Mrs. William Lloyd was in a Baltimore Hospital for examination, on Saturday.

Mrs. Edward T. Miller, of Baltimore, made an inspiring address on Missions, in the Reformed Church, Sunday evening, in the service observing the World Day of Prayer for Missions. She emphasized Pentecost, the power that comes through prayer and the need of a revival of religion.

Mrs. Emma Forry's sale, near Lineboro, was well attended.

Many of our citizens received their ballots from the Literary Digest Poll on Prohibition. Opinion is divided, many streaks of wetness still remaining here. One wonders whether the time, money and energy used in conducting such a vote were not better used in observing and enforcing the law. Anybody knows that there are sufficient Dry States and to spare to keep it from being repealed and there are no serious indications that we shall have modification in the near future. Why not be good Americans and Christians and obey the law, whether we like it or not, for it is rendering a public service.

Mr. and Mrs. J. W. Hoffacker and Rev. and Mrs. John S. Hollenbach visited the former's daughter, Mrs. Ross Blocher, at Sanatorium, near Sabillasville, on Tuesday afternoon.

CHRISTIAN ENDEAVOR TOPIC.

Topic:—Peter a Great Evangelist. Matt. 4:18-20; 16:16.

The Least May Magnify Christ.—You have seen a picture of the capitol, at Washington, set in a tiny hole in the handle of a pocket-knife, yet when one looked at it through the lense in the holes, it looked as large as life. So Peter, sometimes the least constant, humble and loyal of the twelve, was so able to magnify Christ as to win thousands to Him. It isn't the Big You that wins, but the Great Christ you hold up.

First, "Follow Me."—No Sunday School teacher or Christian Endeavorer can hope to win others who is not trying to follow Christ. A college president or winner of a noble prize, who is not a follower of Jesus can only point others to Him, not lead them. "Get right with God is a slogan of rescue missions that fits us all."

A Full Surrender—Peter left his nets. "I am too busy to do anything in this Crusade," a young man answered when solicited. "Leave your nets to follow Him," the one asking him suggested. "My—Oh!" He remembered that he had a tennis racket in his hand. "Yes; I will leave the tennis net for this afternoon and go with you."

Halt Him—No one can win others who has a belittling, cheapening conception of Christ. One rule laid down for salesmen is: "Have faith in your goods." If a salesman had to admit, "Yes; there is a little cotton in the weave of this woolen goods," he would better hunt some goods he can praise to the skies. "One can't feel like admitting that Jesus is less than He believed himself to be, and win others to Him. Either we must take Him at His own appraisal of Himself, no matter what critics say, or else we take nothing about Him wholeheartedly."

Putting Self Before Christ is a fatal error in winning others. I was following him anxiously to see him catch trout. "Please stand further back," he had to caution me; "the fish will see your shadow on the water and be shy." Don't let a vain spirit of self-sufficiency cast your shadow over Christ, as Peter did when he presented to rebuke Him.

Using the Name of Christ Boldly.—Peter showed all the boldness of his nature and his new faith when he said, "In the name of Jesus Christ of Nazareth, walk." "Are you a Christian," was asked of a church member.

"I—why, yes, I suppose so," was the answer. Jesus doesn't want any one who stammers and guesses and limps and quibbles and apologizes, to represent Him. Speak out boldly.

Backing Our Words With Living.—Peter backed his life testimony with his testimony of stripes on his back; with the prison and chains. The people in whom the world outside of the church has most confidence are those who are sacrificing and daring most for Christ. One in the office of a great concern reported that a fellow office worker was giving a good deal of his evenings, holidays, and strength and money to Christian Endeavor work. "If he gives more," replied the office manager, "of what is his own to give, come and tell me and I will promote him. I like to see a man give himself until it hurts for the cause he loves."

BARK HILL.

Mrs. Harry Eckard visited Harry Lambert and family, Sunday, at Mt. Union.

Mr. and Mrs. J. E. Dayhoff visited Mrs. W. F. Keefer, at Copperville, quite recently.

Miss Emma Wolfe spent Saturday in the home of Hall Martin and family, near Fairview.

Charles E. Buffington, of Log Cabin, called on Edward Wolfe, recently.

Mrs. Robert Anderson butchered this week. Messrs Ellis Crushong and Geo. Coleman were head butchers.

Mrs. Wm. Jones spent Thursday with Mrs. E. Stambaugh, at Mt. Union.

ALUMINUM WARE IS NOT DANGEROUS.

Some way the idea has got abroad that aluminum ware is dangerous to health—that foods cooked in aluminum utensils absorb some kind of poison.

How such a notion got started is hard to say. Certainly, it was not really to protect the public from harm. Perhaps the original idea was to help the sale of some other kind of cooking utensils.

But in the end, such trade wars serve mainly to befuddle the public. They benefit nobody.

The Department of Agriculture, itself, has not conducted any experiments on aluminum ware. We have, though, made a careful study of the scientific literature reporting experiments done by other reliable research institutions.

Not one statement can we find, backed by scientific research, that even suggests aluminum ware as the cause of disease or as a menace to health.—Federal Bureau of Home Economics.

The Postoffice department, throughout the country, is doubling-up Rural Routes for the sake of economy, and partly due to the extension of good roads making more mileage per carrier possible. This is good business.

WHAT A DIFFERENCE 90 DAYS MAKE!

TODAY A TODDLING CHICK... in 90 days a proud pullet about to lay. There's something to think about! Tiny bones and little muscles have grown several times in size... a delicate fuzz has sprouted into hundreds of feathers... a chick weighing grams has grown into a pullet weighing pounds... all in 90 short days!

A wonderful change... and only one thing can do it... good feed! This year consider Purina Startena Chow (mash) and Purina Chick Chow (scratch) or All-Mash Startena Chow for the first six weeks... and then Purina Growena and Purina Intermediate Hen Chow until your pullets are laying at 16 weeks.

Put these Chows before your chicks. You will see pullets that are built right... pullets that will lay eggs aplenty in fall and winter when eggs are always worth good money.

Victoriously Proved

... in performance, economy and value

during **ESSEX** Challenger week

LOCAL RECORDS

Speed as high as 74 miles per hour. Reliability, No Adjustments made to Motor while running on tests. Acceleration, 10 to 50 miles per hour in 35 seconds, from standing start. Economy average of 21 miles per gallon of gasoline.

Prove What Every Essex Can Do

Come take a ride yourself. Know by personal experience what this brilliant New Essex Challenger can do. Its exploits of Challenger Week have swept the country. Essex owners led the demonstration. They were so widely followed and aided by public participation that we are continuing the invitation to Ride—Ride—Ride!

Every locality now knows Essex for the accomplishment of some great feat. Hills seldom attempted in any car

were climbed by Essex in high gear. Remarkable economy proofs were established. New acceleration marks were made.

Most important of all—Challenger Week convinced motorists everywhere that Essex represents the greatest dollar for dollar value in car satisfaction that the industry offers. We will gladly give you a personal demonstration of any of these proofs which Essex has established.

Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Member of Faculty, Moody Bible Institute of Chicago.)
(©, 1930, Western Newspaper Union.)

Lesson for March 16

THE PARABLES OF THE KINGDOM

LESSON TEXT—Matthew 13:24-52.
GOLDEN TEXT—The kingdom of God is not meat and drink, but righteousness and peace, and joy in the Holy Ghost.
PRIMARY TOPIC—The Whole World for Jesus.
JUNIOR TOPIC—The World for Christ.
INTERMEDIATE AND SENIOR TOPIC—What Our Religion Means to Us.
YOUNG PEOPLE AND ADULT TOPIC—What Christianity Means to the World.

The things set forth in these parables only apply to the church in the measure that they permeate that body by virtue of its being formed within this period. It should be observed that they set forth the "mysteries" of the kingdom.

I. The Wheat and Tares (vv. 24-30, cf. 36-43).

1. The sowers. The sower of the good seed is the Son of Man (v. 37), and the sower of the tares is the devil (v. 39).

2. The growing crops (v. 26). There is a striking resemblance in the growing crops. The chief peril of the devil is that he transforms himself into an angel of light (II Cor. 11:14, 15).

3. The harvests (v. 30).

There comes a time when the fruit of the crop shall be gathered. The separation is made by the angels under the direction of the Son of Man. For the tares there is a furnace of fire. For the wheat there is the Lord's garner.

II. The Mustard Seed (vv. 31, 32).

1. Its unimportant beginning (v. 1). It begins as the least of all seeds. Not only was Christ, the King, of humble parentage, but His disciples were unlettered fishermen. Likewise, through the centuries, not many wise and not many noble have been called.

2. Its vigorous growth (v. 32). Though small in its inception, the work inaugurated by Christ has become mighty in power.

3. Its lodging capacity (v. 32).

The birds which find lodgment in the tree do not represent the children of men who find safety and salvation in the church, but the predatory beings who have found shelter in the church, though they are no part of it.

III. The Leavened Meal (v. 33).

1. The meal in Scripture means something nutritious and wholesome. It was used in one of the sweet savour offerings which typified Christ (Lev. 2:1-3 R. V.).

2. The woman.

The woman is the administrator of the home. Her responsibility is to take the bread provided by the head of the home and prepare and distribute it to the children. It means then that the woman, the administrator, has introduced false doctrine and thus corrupted the children's bread.

3. The leaven.

In Scripture, leaven is invariably a type of evil (Ex. 12:15; Matt. 16:6, 12; I Cor. 5:6-8; Gal. 5:8, 9). It means that in this age the truth of God would be corrupted by worldliness and unbelief.

IV. The Hid Treasure (v. 44).

1. The field (v. 38). Christ's own interpretation makes this the world.

2. The treasure. The treasure means Israel (Ps. 135:4, Deut. 7:6-8).

3. The purchaser. No one but the Son of God had sufficient resources to buy the world (John 3:16).

4. The purchase price. This was the precious blood of Jesus Christ, God's beloved Son (I Pet. 1:13, 19).

V. The Merchantman Seeking Pearls (vv. 45, 46).

1. The merchantman is Christ. The Son of Man has come to seek and save that which was lost (Luke 19:10).

2. The purchase price. Christ impoverished Himself (Phil. 2:6-8) to purchase the one pearl of great price (Eph. 5:25).

3. The pearl of great price. This is the church (Col. 1:13).

VI. The Dragnet (vv. 47-50).

1. The sea. The sea in Scripture denotes peoples or multitudes (Dan. 7:3; Rev. 17:15).

2. The dragnet. The dragnet cast into the sea means the sowing of the seed by the Son of Man.

3. The dragnet drawn to the shore when full means that when God's purpose for the present age is full, account will be taken of the results.

4. The separation made by the angels. This will take place at the end of the age.

5. The destiny of the bad fish. The angels shall sever the wicked from among the just, and shall cast them into the furnace of fire where there shall be wailing and gnashing of teeth.

The Bravest Men

Our bravest men are often those of whom the world hears the least. Life to them is a constant struggle. They meet their obstacles every day and pass them in silence.—Presbyterian Record.

Modern Meat Pies

IN mediaeval days, before the invention of forks, meat pies used to be made in huge sizes and eaten with the fingers. This custom is referred to in Robert Browning's rousing poem "Marching Along" in the lines:

"Cavaliers up! Lips from the cup,
Hands from the pasty, nor bite take
nor sup
Till you're
Marching along, fifty score strong,
Great hearted gentlemen, singing
this song."

Today we are more individualistic, and not only eat our meat pies with forks, but frequently have a small one all to ourselves. A meat pie that might tempt you to eat with your fingers even nowadays, if no

one were looking, is the following one:
Beef and Vegetable Shepherd Pie:
Cook one-half cup chopped onion and one-half cup chopped parsley in three tablespoons butter for about three minutes. Combine the liquors from an 8-ounce can of diced carrots and a 10½-ounce can of stringless beans, and add sufficient water to make one cup. Smooth two tablespoons flour with this mixture, and add slowly to the first mixture, stirring until thick and smooth. Add one and one-half cups evaporated milk slowly, and cook again till thick. Season to taste, add the contents of one 12-ounce can of roast beef cut in cubes, and pour into a baking dish. Top with fluffy seasoned mashed potatoes, and bake in a hot oven—400°—for fifteen to twenty minutes. This serves from five to six.*

SAUCES GIVE GREATER ZEST TO MANY FAMILIAR DISHES

By JOSEPH BOGGIA, Chef
The Plaza Hotel, New York City

THE sauce chef is one of the most important functionaries in the kitchens of our great hotels, for upon his skill depends the appetite appeal of scores of the dishes which make or mar the reputation of the cuisine. His imagination and skillful blending of ingredients give that zestful flavor which is the final, perfect flowering of the culinary art.

It seems odd that greatly as sauces are appreciated by those dining in public eating places, we so seldom find them in the home.

This is not as it should be. Few sauces are difficult to prepare. No more is required than a little time and patience, an intelligent reading of directions, and a careful mixing of the ingredients in the right proportions.

SAUCE TARTARE adds greatly to the appetite appeal of fried oysters, scallops, smelts and many other varieties of fish. Mix together one-half teaspoon mustard, one-half teaspoon salt, few grains cayenne and one teaspoon powdered sugar. Add yolks of two eggs. Stir until thoroughly blended, setting bowl in pan of ice water. Add drop by drop at first, one-half cup olive oil, stirring with wooden spoon or wire

whisk. Dilute very gradually with one and a half tablespoons vinegar as the mixture thickens, at the same time adding the oil more rapidly. Keep in the refrigerator until just before serving. Then add one tablespoon tarragon vinegar, one-half shallot chopped fine, and one-half tablespoon each of finely chopped capers, pickles, olives and parsley.

SAUCE ALHAMBRA for oysters, fish or cold meats—Stir very slowly three-fourths cup olive oil into the beaten yolks of three eggs, alternating the oil with the juice of two lemons, two and a half tablespoons sugar, one-half teaspoon salt and one teaspoon onion juice. Blend thoroughly and add one large dill pickle, chopped fine.

BERBER SAUCE for baked ham—Heat one pint sweet cream and one tablespoon cornstarch in double boiler. Mix together four tablespoons dry mustard and one-half cup sugar. Add to the liquid and boil for two minutes. Add beaten yolks of two eggs and boil two minutes. Add very slowly one cup cider vinegar and a half teaspoon salt. Boil another two minutes.

HORSERADISH SAUCE for any sea food—Mix together one cup horseradish, one-fourth teaspoon dry mustard, two tablespoons sugar, and juice of one-half lemon. Heat in double boiler. Add slowly one-half cup sweet cream and cook until thick. Then add one tablespoon butter.

TANEYTOWN LOCALS

(Tues. of news from town, or vicinity are always wanted for this column. Especially accidents, sales of real estate, fires, important happenings, visits to or from the community social events, and all matters of general interest to those at home, and away from home.)

Real March weather was the rule this week; wind, snow-squalls, bright sunshine, and cloudy skies with a raw air, all in a day.

Callers at the home of Mr. and Mrs. Clarence E. Dern, this week, were Mrs. Ernest Ritter, of Keysville, Miss Wanda Troxell, of Missouri, and Miss Lottie Troxell, of Rocky Ridge.

Rev. and Mrs. Jerome Stambach, Mr. and Mrs. Wilson Sharer, Bertha Rohrbach and Ester Myers, of Jefferson, visited Rev. and Mrs. Earl E. Redding, at the U. B. Parsonage.

Dr. Percy L. Mehrling, of Springfield, Philadelphia, was here the first of this week, looking after home affairs. He says that no changes are being contemplated in the home here.

Mr. and Mrs. Charles Hesson and son, of Baltimore, spent the week-end with relatives in town. Mrs. Hesson and son, remained on a visit, and Mr. Hesson returned to his work in Baltimore.

Mr. and Mrs. Clyde L. Hesson entertained at dinner, on Friday evening of last week, Dr. and Mrs. C. F. Sanders, of Gettysburg; Mr. and Mrs. D. J. Hesson and Miss Olive Garner, of town.

We often say we "can't do without" a certain thing. Do we not actually mean that we do not want to do without it? or, in some cases, that we ought not to do without it—The Carroll Record, for instance.

Word was received of the death of George R. Stottlemeyer, of Wolfsville, who died at the Frederick City Hospital, on Wednesday morning. Mrs. William Troxell, of town, is one of the surviving children.

The special bargain in 5c tablets that we have been selling for several months, can not now be supplied, as our surplus stock of paper for the tablets has all been used up. We are glad to have supplied this bargain so long.

In a letter received from Mrs. G. W. Milne, of McMinnville, Oregon, dated March 7th, she tells of picking ripe ever-bearing raspberries the past two weeks, and that they are still ripening. Mrs. Milne was an Overholzer before marriage.

If everybody would help a little this Spring to improve the appearance of their homes, the whole town would be benefitted and all property values would be increased. Taneytown is, generally speaking, a good looking town, but keeping it so requires a little help every year.

Mr. and Mrs. U. C. Dayhoff and family, entertained on Sunday, Mr. and Mrs. Parker Plank and family, of Westminster; Mr. and Mrs. Albert Hahn, near town; Mr. and Mrs. Newton Hahn, daughters, Grace, Kathryn and Marian Belle, and Messrs S. White Plank and son, Murray.

Mr. and Mrs. Franklin Fair entertained on Sunday, the following: Mr. and Mrs. Ralph Hess and two children, Charlotte and Everett; Mrs. John E. E. Hess, Mr. and Mrs. Geary Bowers and children, Donald, Robert and Herbert; Mr. Donald Currens, Mr. and Mrs. M. Ross Fair and daughter, Anna Mae.

Visitors at the home of Mr. and Mrs. Lewis Boyd, near town, were: Mr. and Mrs. James Boyd and children, near Baltimore; Mr. and Mrs. George Humbert and daughter, Lilliestown, and Mr. and Mrs. Arda Thomas, of Baltimore. Mrs. Boyd, who had been suffering with rheumatism, is able to be up.

At the annual meeting of The Birnie Trust Co., on Monday, the following directors were elected: Edward O. Weant, Dr. J. J. Weaver, Arthur W. Feesser, George A. Arnold, Milton A. Koons, William F. Bricker and G. Walter Wilt. They organized by electing president, E. O. Weant; vice-president, Dr. J. J. Weaver; treasurer, G. Walter Wilt and assistant, Chas. R. Arnold.

(For the Record.)
Mr. and Mrs. D. W. Garner entertained at supper, Sunday evening: Mr. J. Arthur Schlichter, Philadelphia; Sterner Houck, Hanover; Dr. and Mrs. C. S. Basehoar, Carlisle; Mr. and Mrs. A. C. Basehoar, Gettysburg; Mr. and Mrs. J. J. Garner and Mr. and Mrs. D. M. Mehrling, of town. Callers in evening were: Mr. and Mrs. I. O. M. Houck, Mrs. Sterner Houck, Hanover; Dr. and Mrs. C. M. Benner and son, Robert, all who came to hear J. Arthur Schlichter, International Field Secretary, who is in great demand everywhere, and who appears on Wednesday and Thursday of this week before the lawmakers in defense of the 18th. Amendment in Washington.

The gross receipts from the Firemen's supper amounted to \$635.94, and the net receipts \$469.08.

LeRoy Wentz and Mrs. Mary Wentz of Lineboro, visited Mr. and Mrs. Calvin T. Fringer, on Monday.

Mrs. Mary M. Ott, spent Thursday with Mrs. Samuel Harner and Miss Alveta, and Mrs. Mary Angell.

Mrs. Merl Baumgardner, Mrs. Alma Newcomer, Mrs. Mary Saylor, and Mrs. Berry Fuss, attended a quilting bee, at the home of Mr. and Mrs. Mahlon Stonesifer.

Mrs. Howard C. Roop, of New Windsor, daughter of Mr. and Mrs. Charles Hockensmith, this place, was operated on at the Church Home and Infirmary, Baltimore, on Wednesday, for an inward goitre.

Mr. and Mrs. D. J. Hesson's Florida trip also included Alabama, Mississippi, Tennessee and Kentucky, giving them the unusual experience of having visited every state in the Union, on various trips.

The special services last Sunday afternoon and evening in the United Brethren Church, conducted by J. Arthur Schlichter, attracted large crowds, that of the evening being too large for the church to hold.

Mrs. Henry Roe Cloud, on educated American Indian of the Winnebago tribe, will deliver an address in the Piney Creek Presbyterian Church, on Thursday evening, March 20th., at 7:30. Transportation will be available by Mr. Augustus Crabbs' bus, leaving from his home at 7:15.

The town authorities commenced work this week on the Mill Road alley. As this is an extensive improvement, even with good weather helping along, the road will not be open for travel for several weeks. A large amount of concrete retaining walls will require a lot of labor and time.

The World Day of Prayer Service, held last Friday afternoon, in the Lutheran Church, was well attended. This was a union service with all the Protestant churches of the town uniting. The offering amounted to \$9.01, expenses \$3.05. The balance of \$5.96 was given to the Children's Aid Society of Carroll County.

J. N. O. Smith, Auctioneer, reports the Chas. Strevig sale, in Cranberry Valley, on Thursday, as one of the largest crowds present at any sale he ever auctioneered, and prices were high: Horses brought from \$100 to \$197; cows, \$70 to \$139; tractor, \$415; drills, \$90 to \$97; binder, \$100; hogs sold high. Total sales amounted to \$5246. Time required was 5 hours.

Rev. A. T. Sutcliffe and family were called to Hummelstown, Pa., on Tuesday morning, on account of the death of Rev. Sutcliffe's father. (See death notice elsewhere in this issue). The Lutheran congregation here, as well as other friends, extend their sincere sympathy. The family will return to the parsonage, this Friday. The Church Council furnished a very handsome floral tribute.

The Union Bridge Pilot truthfully says "Anyone having occasion to use the Keymar-Taneytown road is easily convinced that this road should be built. The portion from the Keysville road to Taneytown is particularly bad; a half-mile of it not only bad, but dangerous, and should be looked after at once." We suggest that our Chamber of Commerce tell the County Commissioners about it.

"INSIDE" INFORMATION FOR WOMEN.

Group all early-maturing crops together in the truck garden and immediately after harvest turn down or remove the plant remains and plant a different crop in their place.

Cloths or pads for straining milk should be used only once as it is difficult to sterilize them after use. They may be purchased from any dairy supply house at a reasonable cost.

Spring greens that grow wild will soon be available for the trouble of picking them. Dandelion, poke, mustard, land cress, and various others are valuable in the diet and appetizing as a change.

It is a help in training a small child to dress himself, if the fastenings of his clothes are always found in the same place. Buttons for trousers should be placed where he can reach them easily and in the same place on all his trousers.

To clean upholstered furniture, use either a vacuum cleaner or a brush. A soft brush is best for velvet and velour, a stiffer brush for tapestry, and other strong, firm materials. When convenient, take upholstered furniture out of doors occasionally and beat with a flat carpet beater.

For variety in menus in which pork is the main dish, good flavors are celery, cabbage, cymbings, green peppers, parsnips, sweet potatoes, apples, and pineapple. These may be cooked in any of the ways you are accustomed to serving them, and used singly or in combination.

The vogue for tomato cocktails, made of the juice of canned tomato, seasoned with celery, onion, horseradish, and salt and pepper, is excellent because it adds to the day's supply of three valuable vitamins—A, B, and C. These vitamins are retained by tomatoes even when they are cooked or canned, and the inclusion of tomato in the diet is recommended by all nutrition specialists.

HIGH SCHOOL NEWS TANEYTOWN.

Mr. Smith attended a conference of principals in Westminster, on Friday last. He reported on the work that is being done in the General Shop in the Taneytown High School.

A conference on publishing the school paper was held at New Windsor on Wednesday afternoon. Each high school of the county was represented with four delegates. Mary Isabel Elliot, Ralph Davidson, Stanley Lutz and Nadine Ohler represented the local school. Mr. Bready, the faculty advisor of "The Flame", also attended the conference.

The name of Franklin Baker was omitted from the honor roll last week through a mistake.

Miss Grimes, County Attendance Officer, was a visitor at the school on Thursday last.

Taneytown and New Windsor High School had the highest percent of attendance in the county for the month of February. The percent was 97.

Miss Dillon attended a meeting of first-grade teachers at Mt. Airy on Monday.

The Parent-Teacher Association held its March meeting on Monday night, March 10th. The program was as follows: Instrumental duet, Mrs. Mervin Fuss and Mrs. Ohler; Elementary School Declamation contest, Fourth grade contestants, Doris Hess, Ruth Miller; Fifth grade contestants, Agnes Elliot, Fred Bower, Mildred Baumgardner, Basil Crapster; Sixth grade contestants, Mabert Brower, Katherine Stuller, Margaret Reindollar; Seventh grade contestants, Eileen Henze, Richard Palmer, Betty Ott, Eddie Trish; Instrumental trio, Catherine, Margaret and Henry Reindollar. A two-act play—"Mrs. Jenkins Brilliant Idea". The play was given by Mrs. Elliot, Mrs. Norman Baumgardner, Mrs. Clyde Hesson, Mrs. George Shriner, Mrs. J. K. Smith, Mrs. Allen Feesser, Mrs. Mervin Conover, Miss Mary Isabel Elliot. The judges in the contest decided that Mabert Brower was first; Eileen Henze, second.

The following awards have been won in typewriting during the month of February: L. C. Smith, silver pin; Stanley Lutz, 54 words per minute; Dorothy Thomson, 51 words per minute; L. C. Smith, bronze pin; Mary Young, 49 words per minute; Charlotte Myers, 45 words per minute; Vernon Zimmerman, 41 words per minute; Remington gold pin; Delmar Riffe, 55 words per minute; Remington silver pin; Charlotte Myers, 44 words per minute; Viola Wantz, 41 words per minute; Vernon Zimmerman, 41 words per minute. Royal gold pin; Stanley Lutz, 56 words per minute; Royal silver pin; Charlotte Myers, 45 words per minute; Margaret Crebbs, 40 words per minute; Oneda Hilterbrick, 42 words per minute. Underwood bronze pin. Charlotte Myers, 46 words per minute; Mary Young, 42 words per minute.

CARE FOR YOUR TEETH.

Dr. Richard C. Leonard, Chief of the Division of Oral Hygiene of the State Department of Health, gives three rules for keeping the mouth and teeth in good health. Here they are:

1—Eat properly balanced meals.
2—Keep the mouth clean.
3—Go to your dentist regularly for an examination of your teeth.

Correct diet makes strong teeth. Clean teeth are less apt to decay than are dirty ones. It is a mistake, however, to depend upon these two rules alone in maintaining mouth health. The third rule, calling for regular dental examination by a competent dentist must be added as an important factor in keeping the teeth strong and the mouth in normal good health.

Twice a year is none too often to visit your dentist for the purpose of a careful, thorough mouth examination. This will insure discovery of defects early enough to provide for their correction before they assume serious proportions. If, starting as early as three years of age, a child is taken twice—yearly to a dentist for dental inspection and needed corrections—and if the proper diet and rules of cleanliness are followed in the meantime—the child is practically assured of reaching adult life without being subjected to either the pain or discomfort accompanying bad teeth or to body ill-health caused by some infection having its source in bad teeth.

Too often one awaits the twinges of an aching tooth before visiting a dentist. By that time the trouble may have extended greatly, necessitating more work by the dentist. At the same time the work is likely to be more painful and the permanency of the correction less sure. Regular twice-yearly visits to your family dentist will enable him to do preventive rather than corrective work. Preventive measures cause a minimum of trouble, pain and expense.

Do You Expect To Make a Financial Success.

IF YOU DO, and haven't a bank account, you've started on the wrong road; for no matter how large a salary you might draw, if you don't save some of it for emergencies and business opportunities, you cannot adjuage your career a financial success.

But there are many moderate-salaried young men who have accounts with us, and who are well on the road to financial success.

Why Don't You Do Likewise?

TANEYTOWN SAVINGS BANK TANEYTOWN, MD.

IT IS NOT BY ACCIDENT that The Key Feeds hold their present place in the esteem and confidence of the better feeders. From the day the first ton was blended we have never departed from our determination to merit the complete faith of every feeder who feeds The Key Feeds.

Their present position is merely the normal result of years of painstaking attention to the production of invariably high quality.

There is no truer saying than "He who buys the best, buys cheaply"

Unfortunately there are some who think that this may be translated to mean, "He who buys cheaply buys best".

Users of THE KEY FEEDS know that they are not the cheapest feeds, but they believe that the little more they pay, is repaid a hundred times by the quality they get.
