

## OUTLOOK FOR CANNING CROPS GOOD

The Stocks on Hand Likely to be Entirely Consumed.

The 1930 outlook for practically all canning crops produced in Maryland has reason to be the best in several years. There is every indication that the 1929 pack of canned foods will be entirely consumed before the new pack comes on the market. Spot prices of some commodities have been consistently strong, indicating that demand for the products is at least in keeping with the supply. There has been a tendency for greater price stability recently; that is, there has not been the extreme market fluctuation experienced for several years following the war.

It would seem from this that the total crop production for 1929 was in keeping with the consumption demand for the finished product. There are a few minor exceptions to this, as snap beans, but in general the 1929 crop of tomatoes, corn and peas for canning was not too large, nor does there appear to be an extreme under-supply of any of the major commodities.

The past year was reasonably profitable to both the canner and the grower of canning crops which may influence both in the direction of acreage and pack increases for 1930. In view of relatively recent disastrous experiences along this line, it should be entirely unnecessary to emphasize the danger of over-production.

Recent information points toward acreage increases in Maryland with virtually all canning crops. It is the attitude of most buyers that canned foods (referring to corn, peas, tomatoes and snap beans) will be in liberal future supply; consequently, the future prices being quoted are much lower than present spot prices, thus illustrating the immediate reaction to any suggestion of over-production.—U. S. Agriculture.

### LOCALS 25 YEARS AGO.

The Carroll Record enlarged its facilities by taking in the middle room of the Opera House building.

Announcement was made of the 14th. annual meeting of the Woman's H. & F. Missionary Society of the Middle Conference, to be held in the Taneytown Church, April 27-28th.

A program was rendered in the Taneytown school, Levi D. Reid, principal, the participants being Miss Emma Reaver, Miss Ethel Sauerhammer, Miss Elizabeth Crapster, Robert S. McKinney, Rev. D. J. Wolf, Miss G. May Forrest, Rev. E. C. B. Castle, Miss Roberta Roelkey.

Visitors to town were, Charles Mentzel and son, Baltimore; Mr. and Mrs. T. O. Eckenrode, Shamokin, Pa.; Mrs. L. A. Long, Baltimore; Theo. C. Fair, of York; Samuel Ocker, and Rev. A. B. Mower.

Mrs. Ellen Fleming, died at the home of her son-in-law, James Neeley on March 30th.

Market produce prices were, old chickens 10c; light chickens 12c; squabs 28c to 30c; calves, 5½c. Grain markets, wheat \$1.05; corn 45c; timothy hay \$7.00; mixed hay \$5.00 to \$6.00.

The Taneytown Grange purchased a lot on Middle St., from P. B. Englar to be used for the site of a Grange store.

### MISSIONARY WOMEN MEET.

(For the Record.)

The Woman's Missionary Society of Baust Reformed Church held their regular monthly meeting in the school house on Tuesday evening. After the meeting a social hour was enjoyed and refreshments of cakes, ice cream and coffee were served to the following: Rev. and Mrs. S. R. Kresge, Mr. and Mrs. Jacob Rodkey, Mr. and Mrs. O. E. Dodder, Mr. and Mrs. Howard Maus, Mr. and Mrs. Ira Rodkey, Mr. and Mrs. Monroe Wantz, Mr. and Mrs. Harry Formwalt, Mr. and Mrs. Wm. Myers, Mr. and Mrs. Charles Heltbride, Mr. and Mrs. Howard Rodkey, Mrs. John Null, Mrs. Madison Bartlett, Misses Mattie and Annie Sell, Bess Yingling, Ruth Miller, Mary Formwalt, George Dodder, Arvid Myers, William Formwalt, Mary Catherine Maus.

The Rev. and Mrs. Kresge will leave on Thursday for their new charge at Utica. The Missionary Society joins in wishing them success in their field of labor. Mrs. Kresge has been the president for several years, and the Society will lose a faithful member and one who was always ready to do her part.

### CARROLL COUNTY SOCIETY TO MEET, APRIL 10th.

The annual meeting of the Carroll County Society, of Baltimore City, will be held on Thursday, April 10th, at 8 P. M., at the Lord Baltimore Hotel.

Guy W. Steele, of Westminster, will talk on the Lincoln Memorial Highway from Washington to Gettysburg via Westminster. H. P. Gorsuch, Editor of The Times and Harry L. Kimmy Postmaster, will discuss the new postoffice building for Westminster. Louis H. Dielman will speak on the Covered Wagon Centennial.

These talks, election of officers and refreshments, will make a most interesting evening for the former Carroll Countians.

### A RADIOED SPELLING BEE

Between Members of Congress and Newspaper Representatives.

Remembering his many exciting contests for the "Championship" in spelling bees of the long ago, the Editor of The Record was an interested member of the invisible audience that listened to the radio-casting of an old-fashioned "bee" held in the rooms of the National Press Club, Washington, last Saturday night, participated in by Members of Congress and Washington newspaper correspondents.

Senator Fess, of Ohio, presided as school-master in "giving out" the words and reading the rules. He stated that the book to be used was an "old blue back" spelling book, published in 1866. We think it a mistake that any spelling book was used, and not a modern dictionary—Webster's new International, for instance—as since 1866, two, and sometimes three, forms of spelling many words are allowable.

Many of the words were comparatively simple. Among the less simple ones were: heinous, illegible, indispensable, ingenious, ingenious, irascible, saleable, discernible, deleterious, exaggerate, frieze, exchangeable, judgment, valiant, obtrusive, martial, recompense, casein, exchequer, guillotine, gangrene, eleemosynary, biocentary, buccaneer, chrysalis, consomme, resuscitate, bivouacked, acquiesce, nihilism, oleomargarine, punctiliousness, soliloquy, sarcophagus, mayonnaise, oscillate, hypothesis, instill, juiciness and iridescent.

The following were among the words misspelled: tranquillity, achievement, sacrilegious, liquefaction, optician, carburetor, daguerreotype, rhythm, abacus anaesthetic, logarithm homogeneous, indigenous, igneous initials, mortice and kimono.

Representative Howard, of Nebraska, who went down on "tranquillity," furnishes a good alibi, in charging "tranquillity" is unconstitutional, and quoted in support of his claim the preamble to the Constitution, "We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, etc." There is a fine question involved here, worthy of debate, as to whether the orthography of the Constitution establishes correctness, or whether the authors of it spelled the word incorrectly.

Congressman Luce, of Massachusetts, and Ray Tucker, reporter for the N. Y. Telegram, were the last survivors. Mr. Tucker went down on the spelling of "referable" by using the "rible" suffix. He protested the decision, stating that "referable" was also a proper form. As Senator Fess evidently had no authority at hand, other than the blue backed speller which gave it "referable" he passed the decision to Congressman Luce, who promptly agreed that the down should not be counted. Then, about thirty words later, Mr. Luce himself went down on "kimono," giving Mr. Tucker the "championship."

(Reference to Webster's gives "referable" as the standard form, but at the bottom of the page, in small type gives "referible" as an allowable less used form.)

Other cases of two or more allowable forms of spelling applied to instill—instill; mortice—mortise, carburetor—carburetor; anaesthetic—anaesthetic; and to judgment—judgement. It will easily be seen, therefore, that the "old spelling book" was not a wise choice for authority, as compared with Webster's. As contestants went down on these words they had as good a right to protest as Mr. Tucker.

However, as the feature was radioed as "something new" in the way of programs, and in order to revive interest in the very important accomplishment of correct spelling, the winning of the "championship" was not of first importance. Judging from the hilarity in the audience in the rooms of the Press Club, one can easily visualize something like the same enjoyment on the part of the radio audience, which seems to call for more programs of the same character.

### EMMITSBURG LUTHERANS TO BUILD PARISH HOUSE.

Emmitsburg Lutherans have broken ground for a new parish house which will be used for the Sunday School and social activities of the St. Elias Lutheran congregation. The building, exclusive of the heating plant, will cost about \$26,000.

The plans as presented and approved by the congregation call for a building 48x80 feet, two stories and basement front and one story and basement rear; front of the building to be of native stone.

On the ground floor there will be a social hall for games, suppers and dramatics, a stage being included in the plans. The first floor will be the Sunday School and assembly room, arrangements being made for class rooms and Boy Scout recreation rooms.

The following committees were appointed by the congregation: Building committee, E. R. Shriver, Robert McNair, R. M. Gillelan, James M. Saylor and M. F. Shuff, Jr.; finance, Edwin F. Ohler, Charles A. Harner, Harry Weant, Luther Kugler and J. E. Zimmerman. The Rev. Philip Bower is pastor.

### NEW P. O. FOR WESTMINSTER.

Westminster is to get a Postoffice building, to be erected by the U. S. government. The appropriation is \$125,000 for the purchase of a site, and for the building. The appropriation will be available on July 1. Congressman Linwood L. Clark has taken active interest in the matter. It is thought that the building will be completed within a year.

## CO. COMMISSIONERS TO SCHOOL BOARD.

A Further Discussion Relative to School Situation.

To the Honorable the Board of Education of Carroll County, Md. Gentlemen:—

The County Commissioners of Carroll County have given most careful consideration to the letter of the County Superintendent, dated March 11th, with its enclosures of petitions and the solution of your Honorable Board "requesting the Board of County Commissioners of Carroll County to provide in the levy of June 1930 sufficient money to erect in these two communities" (Sykesville and Union Bridge) "adequate and complete public school buildings, and to notify the Board (The Board of Education) 'immediately what action it proposes to take in order that the Board' (the Board of Education) may know whether it has authority to proceed at once with the construction of new buildings at these places."

The County Commissioners note the statement in the said letter of the County Superintendent that "The responsibility for the execution of this program now rests upon the County Commissioners" and are constrained to call attention to the facts—that for a number of years, from year to year, they were willing and ready to provide a sufficient sum of money adequate in their judgment for the erection of one public school building, but that the County Superintendent, supposedly acting for your Honorable Board, announced that unless the large sums of money, believed by him to be necessary, were provided, no lesser sum of money would be acceptable to your Honorable Board—and that the County Commissioners were ready and willing (the two boards finally having come substantially to agreement as to the amount of money necessary for the construction of an adequate public school building) to provide the money in 1929-1930 for the erecting of one school building, at such place as might be determined by your Honorable Board, by issuing to your Honorable Board warrants or certificates of indebtedness, and providing for the levying of taxes to meet the same; but your Honorable Board declined and refused to accept this method of financing the construction of a school building in 1929-1930.

Had your Honorable Board been willing last year to accept the method suggested by the County Commissioners for financing the construction of a school building at that time, one school building could have been erected last year, and it would not be necessary for your Honorable Board to ask for a levy of taxes in 1930 sufficient in amount to erect two school buildings. Consequently the County Commissioners do not feel that "The responsibility \* \* \* rests upon the County Commissioners."

The County Commissioners are at what place or places, they realize to accede to your request to provide in the tax levy of 1930 sufficient money to erect school buildings at both Sykesville and Union Bridge. The assessable basis of taxable property in the county will be a number of hundreds of thousands of dollars less than the assessable basis in 1929. The bulk of taxes in Carroll county is derived from real estate. Carroll county is an agricultural county. The tax rate cannot be increased beyond the rate of \$1.65 per \$100 without serious detriment to the farmers of Carroll county. To levy sufficient amount of taxes to build two school buildings in one year would impose too great a burden of taxation on the people.

The County Commissioners, therefore, can do no more than make the promise and do now so promise your Honorable Board, that they will include in the levy of taxes for 1930 the amount heretofore agreed upon by your Honorable Board, sufficient to provide for the erection of one public school building at such place as may be determined upon by your Honorable Board; with the definite and express understanding that, in the event that sufficient monies have not been received from the collection of taxes at such times as your Honorable Board may require money to pay for the construction of such school building as your Honorable Board may decide to erect in 1930, then, in that event the County Commissioners shall issue and your Honorable Board shall accept, certificates of indebtedness or warrants, payable to the order of the Board of Education of Carroll County, for such sums of money as may from time to time become due in the course of the construction of said school building.

Although the County Commissioners realize that it is not their prerogative to give any counsel or advice to your Honorable Board as to its conduct of the public school affairs of the county, either as to what new school buildings should be erected or at what place or places, they realize, with your Honorable Board the inadequacy of school facilities in the county, and would respectfully suggest, as a solution temporarily of the immediate necessity, that one school building should be erected in 1930, and that from the place where your Honorable Board may decide to erect said new school buildings, the portable buildings there now in use be transferred to the school site, where your Honorable Board may deem greater accommodations needful; to be there used until the year 1931, when in the judgment of the County Commissioners, the Board of County Commissioners of 1931 should provide in the levy

### OUTLOOK FOR DAIRYING.

Warning Notes to Dairywomen of Maryland.

The surplus of butter, cream and condensed milk now in storage in the United States and the surplus of fluid milk on the Maryland markets sound a note of warning to dairymen of the State.

Decrease in the purchasing power of consumers has helped to create some of the surplus products, and this influence will no doubt be felt during 1930.

The three co-operative milk marketing associations in the State, last year, marketed 2,190,375 gallons of milk in excess of the amount marketed in 1928.

These conditions would indicate a somewhat lower price for milk during 1930.

It is not a good time to increase the dairy herd, or for new herds to be established.

During the past 18 months more heifers have been saved to be placed in Maryland herds. This number constitutes probably 30% of the total dairy cows of the State, and would indicate that the increase in milk production will be likely to extend over several years.

The dairy farmer should aim toward more production by eliminating the low producing cow, by the use of more home-grown feeds, and should retain only such heifers for replacement as come from high-producing cows and are sired by good purebred bulls.—Univ. Md. Extension Service.

### THE ORPHANS' COURT.

Monday, March 31, 1930.—Floyd B. Pickett received order to withdraw funds.

Estey S. Abbott, executrix of E. Benton Hann, deceased, reported sale of real estate on which the Court issued an order nisi.

Vernon H. Barnes and Jessie B. Hollinger, administrators of Guy H. Barnes, deceased, returned inventory current money and report of sale of personal property.

Letters of administration on the estate of J. Cornelius Hull, deceased, were granted unto Margaret R. Bachman, Mary E. Hull, Treva P. Bankard and Emily J. Keefer, who received warrant to appraise personal property and order to notify creditors.

Letters of administration on the estate of Ellen Wisner, deceased, were granted unto Cora M. Myers and Relda M. Lippy.

Alice Magin, administratrix of Charles Magin, deceased, settled her first and final account.

Arthur L. Stonieser and Arthur Wantz, executors of Wesley J. Hahn, deceased, reported sale of personal property.

Annie E. Wantz, Irvin E. Wantz and Ada C. Myers, administrators of Robert M. Wantz, deceased, settled their first and final account and received order to transfer stocks.

Pearl E. Chrest, executrix of Vernon A. Chrest, deceased, returned inventories of personal property, debts due and current money.

Maggie S. Robertson, executrix of James J. Robertson, deceased, settled her first and final account.

The last will and testament of Abram T. Cronk, deceased, was admitted to probate and letters testamentary thereon were granted unto Carrie A. Cronk, who received warrant to appraise personal property and order to notify creditors.

Letters of administration on the estate of Amanda J. Pennington, deceased, were granted unto Harry H. Pennington, who received order to notify creditors under Chapter 146 Acts 1912.

### BOY KILLED RIDING A COASTER WAGON.

William E. Virts, Jr., aged 13 was crushed to death on Tuesday, in Frederick, when a small express wagon that he was riding coasted beneath the rear wheels of a seven-ton truck owned by E. C. Valentine, road contractor, driven by Eugene Kump.

The boy was out on the street playing with other boys, when by some means the wagon was caught by the truck, missing the front wheels but causing beneath one of the rear ones. The driver of the truck was arrested charged with operating on an expired chauffeur's license.

The father had taken out an insurance policy on the boy's life about two weeks ago. A further investigation of the accident is being held.

### THE CENSUS UNDER WAY.

The following census enumerators for Carroll County met in Westminster, on Monday and received their instructions, and are now at work: Taneytown—Claudius H. Long. Uniontown—J. Walter Spicher. Myers—Wellington M. Penn. Woolery—William M. Tracey. Freedom—Charles Humphrey. Manchester—Joseph H. Bradshaw. Westminster—Mrs. Martha Shaw, and Walter L. Hawkins.

Hampstead—William C. Wilhide. Franklin—Merton L. Franklin. Middleburg—Samuel R. Weybright. New Windsor—Edward E. Roop. Union Bridge—C. Howard Myers. Mount Airy—Charles H. Smith. Berrett—Frederick Fink.

County Commissioners of Carroll County, Maryland.

## BOARD OF EDUCATION PROCEEDINGS.

Sykesville to get New School Building this Year.

The regular monthly meeting of the Board of Education was called to order in the office of Board, Wednesday, April 2, 1930, at 10:15 A. M. Commissioner Zepp was absent.

The minutes of the previous meeting were read and approved.

The unpaid bills presented to the Board were ordered paid.

The reply of the County Commissioners in answer to the Board of Education's request for information with reference to making appropriations for new structures to be placed at Sykesville and Union Bridge was received. The County Commissioners gave the information that appropriations for one building would be available. The Board of Education, thereupon, on a motion of Commissioner Slingluff, seconded by Commissioner Koons, decided unanimously to construct the building at Sykesville. This will be undertaken when the budget has been returned by the County Commissioners about July 1st.

It has come to our attention that a large number of children are being farmed out in this county by the Henry Watson Children's Aid Society, and other sources. Upon advice of the Attorney the matter was investigated to some extent and it has been found that there are a good many children so farmed out. The Board decided to leave the matter drift for the remainder of this year with the intention of formulating certain regulations with respect to this situation for another year so far as the interests of these children apply to the public schools.

Superintendent Unger was authorized to hold up the boring of the well on the Sykesville ground, until the return of the budget after July 1.

The Superintendent reported that heretofore it has been possible to conduct the music contest, called the Eisteddfod, at very little expense; but this year the music copyright, the orchestra scores, and the expense of the Adjudicator amounts to a considerable fund, and it is deemed desirable to charge admission. The Board therefore authorized an admission charge of twenty-five cents for every person, except those who participate in the contest. The contestants will be brought in from the various schools in the school buses. There will be no complimentary tickets.

A committee representing the Pleasant Valley community appealed to the Board to continue the Pleasant Valley High School after this year. The Board confirmed its action, taken February 5, to the effect that it was necessary to practice economy, and that the State authorities were unwilling to approve, any longer, a high school as small as Pleasant Valley, and therefore the Pleasant Valley High School will be transported, next year, to the Charles Carroll School; and the Bearmount, Meadow Branch and Frizzellburg schools will be transported and consolidated with the Pleasant Valley Elementary School. It is estimated that these retrenchments will save the county over \$4000 a year in running expense.

### "INSIDE" INFORMATION FOR WOMEN.

Curry of Lamb is a favorite East Indian dish. The Bureau of Home Economics will tell you how to make it.

There is a good recipe for mousses, strawberry and other flavors, in Leaflet 42, "Ice Creams Frozen without Stirring," which may be had free from the U. S. Department of Agriculture as long as the supply lasts.

Dandelion greens are popular with many people in the springtime. For some tastes they are better mixed with other greens, such as mustard or kale or turnip or beet tops, using about one-fourth dandelion.

For a change, when making pineapple salad with cream cheese, instead of making the cheese into a ball, put it through the potato ricer and let it drop on the slice of pineapple. Shake paprika, pepper, and salt over the top and serve with mayonnaise dressing.

To make mint sauce for roast lamb, mix ½ cup water, ½ cup vinegar, 1½ tablespoons sugar and ½ teaspoon salt and bring to the boiling point. Remove from the fire, add 2 tablespoons chopped mint leaves, and allow the sauce to stand 3 to 4 hours before serving.

Always iron with the thread of the goods and iron until the garment is dry. Do sleeves, collars, belts and other parts that hang off, first. To remove the shiny gloss on hems, tucks, or seams, moisten a piece of soft cheesecloth in water, wring it dry, and wipe it quickly over the shiny place.

### COURTESY IN DRIVING

How Many Can Successfully Claim this Great Virtue?

Exercise courtesy in driving! What a strange request! Why, we're all courteous in everything we do; why should we take special pains to be courteous while driving?

First of all, are we courteous while driving? Let's see! When the green light waves us on, and we begin to make a right turn, do we use our horn to plough through the pedestrians who are crossing with the green light or do we give them their legitimate right-of-way? Do we speed through puddles or slush and unconsciously bespatter people on sidewalks and safety zones? Do we insist on taking the right-of-way from other vehicles simply because it belongs to us?

Do we hog our whole side of the road? Are we deaf to the horn of the fellow who wants to pass us? Do our lights blind the oncoming driver, and, then, do we relegate him to the depths because his are the same way? Do we really practice the Golden Rule, or do we violate it because it appears so easy to get away with it? Do we give vent to oaths and fits of temper which are rare occurrences under normal conditions, simply because we know the other fellow probably doesn't grasp them, or, if he does, he will be too far away to fight about it anyway?

Well, now you have probably come to the conclusion that you aren't as courteous in driving as you might be. You're agreeing that you'll change your tactics. The chances are that you are now asking this question, "Why the hullabaloo about courtesy when it's safety that we're after?" The question brings its own answer, "When you drive courteously, you are bound to drive safely." If you don't plough through the pedestrians, you cannot strike them. If you give the right-of-way cheerfully, you cannot have a collision. If you don't hog the road, you cannot sideswipe. And so on! Hundreds of other points come to mind in rapid succession. Not only that, but oaths and ugly display of temper merely diminish our safety consciousness. When our pulse and blood pressure are up, we are physically that much less alert.—Aaron Freeman, in General Plan Employment Supervisor, Maryland.

### NEWS NOTES OF THE WEEK.

Senator Smoot, chairman of the Finance Committee of the Senate, stated in a Radio address that he expects the tariff bill will be in conference five or six weeks, and ready for final passage by the middle of June.

The Secretary of Agriculture is authority for the statement that in 1928 Maine growers produced 37,900,000 bushels of potatoes, and received only 42 cents a bushel. But in 1925 the state produced 33,750,000 bushels and received \$1.86 a bushel. Maine's chief agricultural crop is potatoes.

A total gross income of \$182,137,739 and net income of \$15,892,562 are reported for 1929 by the Radio Corporation of America. These figures compare with \$101,851,603 and \$23,661,989, respectively, in the previous year. In 1929 the Radio Corporation considerably enlarged its activities, acquiring among other industries the Victor Talking Machine Company, of Camden.

Jack Hart, noted criminal, wanted in Baltimore, was arrested in San Francisco, on March 5, on the charge of theft and vagrancy, and later released on \$250.00 bail. He was arrested under the name of James J. Bryson. The authorities did not know, until too late, that he was Jack Hart.

The poll being taken by the Literary Digest on the Prohibition issue, was denounced in the Senate, on Friday, by Senators Jones and Dill, of Washington, and advised those believing in prohibition to have nothing to do with it. The chief objection appears to be to the manner in which the ballots are circulated, to which the Editors have replied that the names for ballots were obtained in the same manner as those for presidential polls, but no statement was made as to the manner.

Senator Tydings, of Maryland, emphasized his extreme "wetness" in the Senate, on Tuesday, by stating in an address that he would continue to fight a "cause which is simply dragging the United States and all of its traditions down into the mire of crime, and corruption and hypocrisy."

The Massachusetts Senate, on Wednesday, refused to enact the initiative petition to repeal the State Prohibition Enforcement Act. The House had taken a like action on Tuesday. This action kills the bill in the legislature.

The House of Representatives sent the Tariff Bill to conference, on Wednesday, by a vote of 241 to 153. This shuts off further debate on the bill, except on sugar, cement, lumber and shingles.

President Hoover, on Thursday talked back and forth over the radio, from the White House, with the President of the Argentine Republic, to the President of Chile, and President of Uruguay, in South America.

Ruth Hanna McCormick and Senator Charles S. McNee, are making a spirited canvass for the Republican Senatorial nomination in Illinois—the most spectacular, so far, of the year.

Senator Watson, of Indiana, presented the record of Democratic Senators in their votes on the Tariff, showing that an aggregate of 1010 Democratic votes had been cast either for increased rates, or against proposed decreases. Senator Tydings of Maryland, is credited with having voted for three increases, and against nine decreases.

### SIGNATURE NUISANCES.

One of the big little nuisance met with in a business way by those who have considerable correspondence with distant firms, is the large number of undecipherable scrawls met with, purporting to represent a correspondent's name—plain to nobody, with the possible doubtful exception of the writer.

Another nuisance is the lady correspondent, desiring a reply, who signs her name "Mary" Johnson, or "Mary" something else, leaving it an open question whether she is a "Miss" or "Mrs." When the reply is to be sent to letters having such signatures, the writer who desires to be polite is in a quandary.

The first class of signatures is the most objectionable, especially when made by a business man. Our observation has been that the bigger the business represented, the more undecipherable is the signature, which leads to the conclusion that hieroglyphics are purposely used in order to impress us that here is a man big enough, that writing plainly might be an evidence of the ordinary.

Our latest freak specimen was a name that might be taken for "Pyze-mian" "Pfzeman", "Ppzmaier", "Ppzenniaier", or "Ppfzemaier". The only letters clear in the signature were the "P" and "Z" the rest being left to figure out. And, this was a fairly good specimen as signatures go. Sometimes they start out bravely with an initial, and after that the hand and pen are at liberty to do as they please.

Fortunately, it often happens that the name of the correspondent appears on the letter head in type—a wise precaution—and the writer no doubt thinks that is a plenty, without requiring any special further exertion on his part. But, he ought to hear contrary opinions at the other end of the line!

### THE GOVERNMENT IN BUSINESS

We profess to strongly oppose the government going into business, on its own account, yet we are coming to—in fact, have reached—the point when the government is appealed to for help for private business, by all who can muster the strength to command a hearing.

The tariff bill has long ceased to be a bill producing only needed revenue for the government. It is true that the government still collects and uses the revenue, but it is a revenue that at the same time acts as a barrier to keep produce and merchandise from being imported and coming in competition with home produce and merchandise. The justification for this protection has always been, and is yet, that it enables home industries to pay higher wages than are paid in foreign countries.

This is the biggest specimen of our government in business, with the single exception of the Postoffice department that practically monopolizes the carrying of our mails, and since the introduction of Parcel Post, also an immense amount of our smaller merchandise.

As these big propositions have been working successfully, naturally the demand for an extension of this sort of business by government is more widely in demand, not only from our Federal government but from our State governments. Municipal ownership of public utilities is a striking example, through local government ownership and operation of water and light systems; state accident funds, and the like.

In the matter of highway improvement, the government is in business, Federal, State and County. The state is a heavy supporter of our hospitals, schools, and various homes. It collects taxes, generally, and spends them, locally; sometimes perhaps through the exercise of political or other influence.

Mostly, business by government is wisely administered, and we are so used to it that we would not know how to replace it. But, those on the outside of such benefactions have a hankering to get on the inside. They

are willing for the government to be in business, providing they in some way "get their share." And it is this effort that appears to be growing. The state is applied to for favors—not jobs, nor money—but just some advantage that they can themselves operate.

So, we have a large increase in "bills" both in Congress and in State Legislatures, that are almost entirely local in their benefit. We solicit our representatives in legislative bodies to back what we want, and we have a way of making these solicitations very real and serious—either before or after an election—to the extent that said representatives know just what is meant—that his favorable, or unfavorable, response, means either a continued, or shortened, political career. Yes, the government is very much in many kinds of business. The people order it in.

### THE DEBENTURE PLAN.

What is known as the "debenture plan" may be the biggest stumbling block in the final outcome of the whole tariff question. The debenture plan is, to issue to exporters of farm products Treasury debentures (acknowledgments of debt) to the amount of half the tariff on such products. The theory back of the plan is that by stimulating an export demand for our farm products, and creating a scarcity at home, the price will rise above world prices to the amount of the debenture.

President Hoover's expressed opinion is that the effect of such a plan would be to greatly increase production, and thereby defeat its purpose; as well as call for an increase in taxes to supply the sum required for the debentures that may amount to from \$200,000,000 to \$400,000,000 a year.

But, the plan is strongly indorsed in the west and portions of the South; by the "Farm Bloc" in the House; by the National Grange, and by the never-say-die independents of the Senator Borah class. At present the "debenture" status is, that it was eliminated in the bill as it originally passed the House; later it was passed in the Senate by the Democratic-Insurgent coalition; and now, many of the Western Republican members of the House who are candidates for re-election this fall, are about ready to turn-tail and be debenturists, so they can "come back."

Another angle is, that neither the Republicans or Democrats—especially in the west—are well satisfied with the tariff bill, or what is likely to come out of the conference; and both may agree to drop the fight on schedules, very largely, and centralize on the debenture plan as a sort of smoke screen, and play a straight-out game for the agricultural vote on that question alone.

### STATES WAR ON ILLITERACY.

Washington, D. C.—Thirty-five of the states of the Union are waging aggressive campaign on illiteracy in response to urgent appeals from the National Advisory Committee on Illiteracy. Twenty-six of the forty-eight states have appointed state committees and organized drives in the cause under the guidance of the National Committee.

In this drive on illiteracy the Governors of the states, the State Superintendents of Education, state committees on illiteracy, County School Superintendents, and local committees, have carried on the burden of work. The National Committee has laid down the general plan and furnished information and guidance.

When the present campaign which precedes the taking of the census is ended, the Committee will settle down to a more leisurely concentration on illiterates wherever they may be. There are half a dozen elements that enter into the campaign. The white people who live in isolated regions, more particularly in the Southern Appalachian Mountains, are among the most difficult of these. The foreign element in the congested centers constitutes another. There is little similarity between the problems presented by these two. The negroes are a third great problem. The Indians, wards of the Government, are another. Then there are the chance illiterates scattered by circumstances through the whole population which prevent any community from being entirely free of this problem. The theory is that the educational resources of forty-eight states should be able to carry education to all the people and the purpose of this movement is to concentrate attention on illiteracy until it disappears as an unhappy element in American civilization.

### FARM MARKETING ACT.

Arthur M. Hyde, Secretary of Agriculture, delivered an address at the Republican State Convention in Maine, on March 23, the following being extracts from it referring to Farm Board Marketing legislation.

"There is no industry in America which is more highly competitive than agriculture. Agriculture competes

not only with the living standards and production costs of foreign nations, but it competes also with producers of substituting crops in our own country, and with living standards of other sections of our country.

For example, Maine potatoes must compete for a market with all other potatoes grown in the country, and also with wheat, rye, oats and other crops which may acceptably be substituted in the Nation's diet. On occasion, too, they must compete with imported potatoes. Apples are in competition not alone with other apples, but with oranges, bananas and other possible substitutes.

There is no such thing as a localized agriculture. Different sections of the country have different agricultural problems, but farming is not a localized industry. It exists in every State. It is scattered entirely across the country and from the Lakes to the Gulf. It is divided into 6,000,000 separate farms, or producing plants, each one in competition with the other both in production and marketing. How hopelessly futile it is, therefore, to attempt to separate the agriculture of any State or section from the whole, or to deal with a part of it without dealing with the whole of it.

There seems to exist a feeling among the farmers of the New England States that the agricultural marketing act and the Federal Farm Board have been created to aid agriculture in the Mississippi Valley, but do not concern New England. The agricultural marketing act says nothing about the Mississippi Valley. It refers only to agriculture—all the agriculture of the United States—and the Federal Farm Board includes in its thinking, not part, but all the agriculture of this country.

The Board cannot do otherwise. Let us make the fanciful supposition that the Federal Farm Board might undertake a program to improve the marketing of the Minnesota potato growers. The very first obstacle they would encounter would be the fact that Maine potato growers, and Idaho growers, and growers from the Southwest and the Southeast were also supplying potatoes to the market.

The Farm Board would be forced to realize immediately that although the growing of potatoes may be localized, the marketing of potatoes is national, and that nothing could be done unless the program included the potato growers of all the States. The same thing holds good for all farm commodities."

### CHINESE BANDITS LOOT WIDE AREA

#### Alarming Increase in Raids Is Noted.

An alarming increase in banditry in at least 10 of China's 18 provinces is indicated in reports received by foreign legations here from their consuls.

This state of affairs is attributed chiefly to the persistence of civil war. The consular reports state that most of the bandits are not professionals, but men and women who have been driven to prey upon their neighbors because of desperate need of food.

In some of the cases reported whole villages banded together to make raids upon neighboring villages to obtain food supplies. Such instances were reported from Szechwan, Hupeh, Kansu, Anwei and Fukien provinces.

In several provinces—notably Honan, Shantung and Kwang-si—consular reports indicate that former soldiers grouped into well organized bandit gangs have looted towns and villages and kidnapped persons even of moderate means for ransom. Several army commanders have not paid their troops for months, even years, and eventually the soldiers desert to become robbers.

North Manchuria has been a chief sufferer from the recent spread of banditry. During recent years, with comparative peace and order, this section has prospered, and this government has succeeded in suppressing the Mongol, Chinese and White Russian robbers who infested the area.

But the dispute with Soviet Russia has preoccupied the government troops, with the result that the bandits have become more active than ever. The 2,000 mile border between Siberia and Manchuria is out of reach of the Chinese troops, and affords easy prey for the robber bands.

### Frenchman Flies 12 Years Without Crash

Paris.—Jacques Corsin, thirty-two years old, who was an "ace" in the French air service during the final years of the war at the age of twenty, has been recognized by the Aero club as the pilot with the greatest flying record—6,533 hours, or 272 consecutive days and nights in the air.

In 12 years since he obtained his pilot's license, the French youth has flown 1,000,000 kilometers, has carried 10,000 passengers and never had an accident. He is now pilot of one of the commercial planes of the French Air Union.

Born in 1897, Corsin engaged in the French army at the outbreak of war in 1914 as a boy of seventeen. He went through the fighting at Verdun, Ypres and elsewhere and won his stripes as a sergeant and the Croix de Guerre.

He went into the aviation in 1917 and was cited in army orders for his brilliant air fighting. After demobilization he went to Peru to teach army flyers and while there performed some sensational feats on the plateau of Cino de Pasco at 4,500 meters altitude.

Since 1921 he has been a commercial pilot, flying the Paris-London and Paris-Marseilles routes.

### No "Frills," but Real

#### Meals in Lumber Camps

Some one recently writing of Maine lumber camp feeds describes the table in rather interesting terms: "The food is all on before the cook shouts: 'Come and get it!' You will not find finger bowls, white napkins or a dozen knives and forks to every person, but you'll find real grub, the kind that delights the stomach of every woodsman. There are no 'courses.' You eat as much as you want of anything that is on the table. The dishes are kept filled by the cookees. Coffee, milk and tea are in large pitchers. Other food is in tins or enameled basins and in large quantities. The cups are of tin and hold a pint—a real man-size cup. Knives, forks, spoons and plates are also of tin or enameled ware. Some of the men mix beans, bread, pickles, potatoes and onions together and then cover it with molasses. As soon as a man has eaten, he takes his dishes and deposits them in one of the huge dishpans that is usually in the sink at one end of the cookroom. To leave your dishes on the table would be a certain sign of 'greenhorn.'"—Lewiston Journal.

### Scottish Judge Noted for Bathos on Bench

Newly appointed judges are invariably warned against undue loquacity on the bench. A dreadful example of such verbosity is found in the case of Lord Eskgrove, a Scots judge of a hundred years ago. Eskgrove could never be content with a plain statement, and his efforts to adorn the tale often led him into almost incredible depths of bathos. Condemning a tailor to death for murdering a soldier he declared: "Not only did you murder him, whereby he was bereaved of life, but you did thrust, or push, or pierce, or project, or propel the lethal weapon through his regimental breeches, which were his majesty's." On another occasion, sentencing two criminals for housebreaking with violence, he ended a long recital of their crimes by deploring: "And all this you did, God preserve us, just as the family were sitting down to dinner."—Montreal Star.

#### Eliminating Ground Ivy

A simple and effective remedy for ground ivy on lawns has been found. This consists of a single spraying with sodium chlorate, using 1 to 2 ounces per gallon of water, and that quantity of solution is sufficient to cover 100 square feet, providing a pressure sprayer is used. If applied with a sprinkling can, a trifle more solution will be needed, as that method of application is somewhat wasteful of material. The leaves should be thoroughly covered. The spray can be applied any time during the summer or fall. Since the spray discolors the grass for a short time, it is perhaps best to defer application until late fall.

#### English Poets Laureate

The origin of the poet laureateship of England is involved in obscurity. In early days the word "laureate" came to mean in English "eminent." It was thus generally, although not always, applied in a literary sense. Medieval kings had poets or minstrels attached to their households, who received pensions, although their appointment was not official. In this way Ben Jonson was looked upon as the first laureate, but the title seems never to have been really conferred on him. John Dryden was the first English poet to receive the title by letters-patent in 1700. From that time the post became a regular institution.

#### Lost Property

It was kit inspection, and the soldiers had their things laid out on their beds. The orderly walked into the room and approached Private Brown. "Three shirts, Brown?" he asked. "Yes, sir. One on, one in the wash, and one in the box," replied the private. "Two pairs of boots?" "Yes, sir. One pair on and one pair in the box." "Two pairs of socks, Brown?" "Yes, sir; one pair on and one pair in the box." "Good! Now, where's the box?" "Dunno, sir; I've lost it."—London Answers.

#### Earliest English Clock?

In the first chamber of the great tower of Salisbury cathedral lies a rusty, odd-looking piece of mechanism which may prove to be the earliest turret clock in England, dating back to 1386, or six years before the earliest record of the Wells clock, now in the Science museum at South Kensington.

An interesting feature of the Salisbury clock is the hand wheel for winding the going (as distinct from the striking) part. Only a little work at a trifling cost would be required to make the clock go again.

#### Let Down

Mother had been trying very hard to teach little Betty to be more polite. At last she really seemed to be successful.

"Just you see how good she is at dinner time," mother boasted to her husband.

Dinner time came. There was suet pudding.

"Betty," said the child's mother, "will you have some more pudding?"

"No!" replied the daughter.

"No what, Betty dear?"

"No fear, mother."

## A Useful Fruit

WHY cram all your cranberries into the Christmas season?

These delicious tart berries are available in cans at any time of the year. Here are a few recipes for their use which will start you on the right track.

#### Cold and Tart

**Cranberry Cordial:** Make a syrup of one cup sugar and two cups water. Add two cups tea, one cup lemon juice, the contents of a No. 2 can cranberry jelly and a No. 2 can unsweetened pineapple juice, and six cups cider. Serve very cold. This makes four quarts.

**Cranberry Cocktail:** Heat to boiling three-fourths cup pineapple syrup, three-fourths cup canned cranberry sauce, one tablespoon sugar and one tablespoon lemon juice, and simmer until cranberry sauce is entirely melted. Chill and pour over one and one-half cups

diced pineapple and one cup diced banana. This makes eight servings.

#### Hot Dishes, Too

**Apples Baked with Cranberries:** Core eight baking apples, pare half way down, and put small piece butter in each cavity. Place in pan. Heat one cup canned cranberry sauce in two cups water, pour over and around the apples, and bake in oven till tender, basting often. When almost done, sprinkle one-fourth cup sugar over the apples and set under broiler flame till sugar melts and tops are glazed.

**Apricot Cranberry Tarts:** Cook together until creamy and rather thick one cup canned cranberry sauce, one cup canned apricot pulp, four teaspoons sugar and one teaspoon flour. Cool and put in previously-baked tart shells. Top with whipped cream. Makes ten to twelve tarts.\*

## Six Delightful New Ways to Enjoy a Familiar Food

By JOSEPHINE B. GIBSON  
Director, Home Economics Dept.,  
H. J. Heinz Company

**PEANUT Butter** is a well  
known and very popular sand-  
wich spread, but many of us are  
not familiar with the great  
variety of other uses for this  
highly nutritious food.

Because of its large protein and  
iron content, Peanut Butter is  
especially good as a meat substi-  
tute. And clever cooks have  
found that it gives an unusual,  
nutty flavor to cookies, salads,  
fudge, cake frosting, muffins, and  
bread.

Here are a few of the many  
ways to introduce this valuable  
body-building food into the daily  
menu:

**Peanut Butter Muffins**—Sift  
together 2 cups flour, 4 tea-  
spoons baking powder, 1/3 cup  
sugar, and 1/2 teaspoon salt.  
Work into the dry ingredients 1/4  
cup Peanut Butter, and 2 table-  
spoons butter or lard. Gradually  
add 1 cup milk, and bake in  
a well-greased muffin tin in a hot  
oven (about 375 degrees to 400  
degrees F.), for twenty minutes.

**Peanut Butter Bread**  
Sift 2 cups flour with 4 teaspoons  
baking powder, 1/2 teaspoon salt and 1/3  
cup sugar. Work 1/4 cup Peanut Butter  
into the dry ingredients, and add 1/2 cup  
milk. Pour into a well-buttered, small  
bread pan and allow to stand for 20  
minutes. Then bake for 30 minutes in  
a moderate oven (about 350° F.).

**Egg and Peanut Butter Salad**—  
Cut 6 hard-boiled eggs in half  
lengthwise. Remove the yolks,  
combine with 3 tablespoons  
Peanut Butter, and add Mayon-  
naise Salad Dressing to moisten.  
Fill the egg whites with this mix-  
ture. Serve two halves in a nest  
made of crisp lettuce and with a  
sprig of celery and with a  
spoonful of Mayonnaise or May-  
onnaise mixed with Chili Sauce  
over each egg.

**Peanut Butter Fudge**  
Mix together 2 cups granulated sugar,  
1/2 cup milk, 2 heaping tablespoons Pea-  
nut Butter and 1 teaspoon Cider Vinegar.  
Boil the sugar, milk, Peanut Butter and  
Vinegar slowly, without stirring, until  
when a few drops are poured into a  
cupful of water a firm ball is formed.  
Remove from the fire, cool until luke-  
warm and beat until creamy. Pour into  
a buttered pan and cut in squares.

**Peanut Butter Frosting**  
3 tablespoons Peanut Butter; 2 table-  
spoons cold coffee; 1 tablespoon cream  
or top milk; 1 teaspoon Vanilla; Pow-  
dered sugar, about 1 1/2 cups.  
Mix Peanut Butter with cream,  
coffee, and vanilla. When thor-  
oughly mixed, add about 1 1/2 cups  
sugar sifted gradually until of  
consistency to spread.

**Peanut Butter Cookies**—Roll  
cookie dough 1/4 inch thick.  
Spread with a thin layer of  
Peanut Butter (or Jam) and roll  
into a cylinder. Cut in 1/2 inch  
pieces, and bake in a hot oven  
10 to 15 minutes.

## You Buy Less Food When You Cook Electrically

Because everything goes so much further, you  
actually save money in food bills when you install  
an electric range. There's about twenty per cent  
less shrinkage in electric oven cooked food.  
Roasts retain their nourishing juices . . . vegetables,  
their important mineral content. Even cakes and  
loaves of bread are larger and stay fresh longer.

Therefore you can readily see that not only is  
the cost of operation cheaper, but you actually  
buy less food. Add to this the value of your time.  
For you will spend less time in the preparation of  
meals, than with the old fashioned method of  
cooking. This time you no doubt can put to more  
valuable use. Considered from every angle,  
electric cooking is the most economical method.

## COMMUNITY COOKING

**COMMUNITY** cooking, a modern  
development foretold by Henry  
Ford, is actually here. It has  
come about without our realizing it.  
This development is due to the can-  
ning industry. In addition to the  
plain foods in cans which can be  
served cold, just as they are, or  
heated and served, there are now  
many made dishes all ready to heat  
and serve.

These made dishes include Beef  
à la Mode, Hungarian Style  
Goulash, Chicken Curry, Chicken à  
la King, Chop Suey, Lobster New-  
burg, baked beans, alone, with to-  
mato sauce and with pork, fruits  
for salad (which should be chilled,  
not heated), succotash, cod fish balls,  
cod fish cakes, deviled crabs, Bos-  
ton Brown Bread, Chili Con Carne,  
plum puddings, spaghetti with to-  
mato sauce, roast beef, beef stew,  
beef steak with onions, chicken  
tamales, Irish stew, stewed kidney,  
liver with bacon or onions, roast  
mutton, sausage with sauerkraut,  
boiled tripe, roast veal, fruit cake,  
Fiskebolle, creamed white potatoes,  
more than two dozen soups, whole  
chickens roasted in cans, and even  
an entire Mexican dinner sent to  
you all in one package.

There Are Others, Too

With this wide variety of canned  
made dishes from which to select,  
it is possible to devise nearly any  
kind of dinner with a minimum of  
cooking and preparation, or even  
with no preparation at all. And the  
above list is not all-inclusive. There  
are other made dishes, canned in

small quantities, from which to  
choose.

One of the latest made dishes to  
be put on the market are the whole  
cooked chickens in a tin can. Before  
being cooked, the birds are inspected  
for wholesomeness by representa-  
tives of the Bureau of Agricultural  
Economics of the United States  
Department of Agriculture, operat-  
ing under a nation-wide inspection  
service for the condition and qual-  
ity of dairy and poultry products.

### A Complete Mexican Meal

Here's how the whole Mexican  
meal in one package, which we men-  
tioned above, can be made into  
either a luncheon or a dinner. This  
package contains a can of tamales,  
a can of chili con carne, a can of  
Mexican style beans, two cans of  
deviled sandwich spread and a bottle  
of chili powder. The menu for the  
luncheon to be made from these  
materials plus one or two staple  
foods is

Bean Salad on Lettuce Leaf  
Deviled Sandwich Spread  
Sandwiches  
Hot Shoe-String Potatoes  
Tamales with Chili Con Carne  
Coffee

For the salad, you use the can of  
Mexican style beans, a cup of diced  
celery, one-half cup chopped nuts  
(preferably vacuum-packed), two  
tablespoons chopped onions, four  
tablespoons heavy salad dressing,  
one tablespoon salt, and the lettuce  
leaves.

The sandwich filling consists of  
one can of Deviled Sandwich Spread,  
one dill pickle, chopped fine, four  
tablespoons mustard salad dressing,  
two hard boiled eggs and salt.

For the Shoe-String potatoes cut  
one-half pound potatoes in strings  
and cook them in hot, deep fat.  
Drain, and then sprinkle with salt  
and some of the chili powder.

Serve on each plate two tamales  
with the chili con carne poured over  
as a sauce. All the products in  
the package are ready to serve and  
require only heating. The beans  
and chili con carne should be heated  
fully twenty minutes in the can be-  
fore opening, and the tamales thirty  
minutes.

### A Red Hot Dinner

Here's the red hot dinner that  
can be made with the contents of  
this package and a few staple ar-  
ticles of food such as are found in  
every kitchen. The menu is

Tamales covered with Chili  
Con Carne  
Deviled Sandwich Spread Croquettes  
garnished with Parsley  
Escalloped Corn and Oysters  
Mexican Style Beans  
Bread Mexican Salad Coffee

Serve the first course as an ap-  
petizer just as it comes from the  
cans. For the Deviled Sandwich  
Spread Croquettes you need the  
two cans of Spread, one cup of  
mashed potatoes, two hard boiled  
eggs, Mix, mould, roll in crumbs, in  
raw beaten eggs, then in crumbs  
again, and cook in deep fat.\*

Our sick folks are all improving and trying to take up work again.

Did you try to pick up that purse on the side walk? April fool! Now look for sunshine and rain and blossoms.

### MY YO-YO.

What is the dearest thing on earth,  
That fills my heart with joy & mirth?  
My Yo-Yo.

What takes the place of my best girl  
And is treasured more than any pearl?  
My Yo-Yo.

What keeps me busy day and night,  
And makes me exercise with might?  
My Yo-Yo.

All day I work my arms it seems,  
Till when I'm sleeping, in my dreams  
I Yo-Yo.

And in the morn when I awake,  
Before my breakfast I will take  
My Yo-Yo.

And start to sling it in and out  
Until my family curses out  
My Yo-Yo.

I prance along the busy street  
And show to everyone I meet  
My Yo-Yo.

I think it is the grandest thing—  
They all stop to watch me sling  
My Yo-Yo.

I sling it out and reel it in;  
The girls all like to see me spin  
My Yo-Yo.

They are all running after me,  
But all they want to see  
Is my Yo-Yo.

### BARK HILL.

Thomas C. Baile, of Park Hall, near New Windsor, was taken suddenly ill last Monday morning, while at the brooder house. Mrs. Baile assisted him to the house, his children were notified and were with him alternately until he passed away Tuesday afternoon. Mr. Baile had been in declining health for some time. He and Mrs. Baile visited this town on Friday before he was taken ill, at the home of his daughter, Mrs. C. F. Bowers. Mr. Baile lived many years and farmed near McKinstry, and was a leading member of the M. P. church at Sam's Creek. When he quit farming he moved to Park Hall. ### Desolation in Wake of

#### Gigantic Gold Dredges

Automobile tourists through the northern part of California are liable to have their attention attracted to mountains of cobblestones frequently seen. Sometimes these piles are 50 or 60 feet high and several hundred feet long. They are never beautiful and they add nothing to the landscape. In fact, they are eyesores, but there is little prospect of their removal. These piles are the accumulation of the gold dredges, gigantic constructions which eat their way through the land and leave a trail of desolation. Farmlands and orchards are brought up by the operators and left in ruin, for the land is useless for any purpose whatever after the passage of the dredger. These machines cost about a quarter of a million dollars, but the cost of operation is very small. A large quantity of the earth must be treated to recover a small quantity of the yellow metal, but at that the business is very profitable. The stones taken from the soil are useful only to grind up for cement, but the piles standing today will offer crushed stone sufficient for the demands of the entire country for many years.—Washington Star.

### Plate and "Window Glass"

Glass is made in two ways. One by blowing, the other by rolling. The blown glass, known as "window glass," is not always uniform in section, may contain imperfections, bubbles, sand marks, streaks, warped surfaces and is graded accordingly.

Plate glass is free from the imperfection of warpage, objects seen through it are not distorted, it is more costly. Single-strength window glass may be used for small panes and storm sash. Light-weight plate glass one-eighth-inch thick is recommended for small windows.

### Indians' Poisoned Arrows

The bureau of ethnology says that the arrow poison used by the Indians was of vegetal and animal origin. Among the vegetal poisons there were the sap of the yucca angustifolia, a preparation of acornite, and a plant called mago, the milk of which was poison. Some tribes, such as the Shoshoni and Bannock Indians, secured a deer and caused it to be bitten by a rattlesnake. The deer was then killed and allowed to putrefy. Then the arrows were dipped into the putrid matter.

### MANCHESTER.

Mr. and Mrs. F. M. Fausey, from Williamsport, Pa., and Dr. and Mrs. John S. Hollenbach, spent Monday visiting Mt. Vernon and Washington.

During the Heart and Home Service broadcast over WFBK on Tuesday, Mr. and Mrs. Fausey, who have been singing at the Churches of the Manchester Reformed Church, for the last two weeks and more, sang "The Center of His Will" and "The Nearer the Sweeter." Rev. John S. Hollenbach pronounced the benediction.

Miss Frances Miller, a patient for ten weeks at the Union Memorial Hospital, will return home shortly. Mr. Harry Geiman who was there for several weeks, returned lately.

### WASHINGTON'S HEAD TO BE UNVEILED.

Washington, March 28.—President Hoover has been asked to unveil July 4 the 60 foot head of George Washington and two paragraphs of Calvin Coolidge's celebrated 500-word history of United States, chiseled in the granite of Mt. Rushmore in the Black Hills of South Dakota.

Gutzon Borglum, sculptor for the Mt. Rushmore National Memorial Association, said today the President had taken the invitation under advisement and that Mr. and Mrs. Coolidge had indicated they wished to attend the ceremonies. The unveiling of the Washington head will mark completion of the first portion of four figures to be blasted out of the mountain. Borglum expected to work in order on figures of Thomas Jefferson, Abraham Lincoln and Theodore Roosevelt.

Sculptor Borglum was the artist for the North Carolina monument, one of the last additions to the Gettysburg battlefield.

When somebody called Billy Sunday a "fake" because his conversion "don't last," Billy is said to have replied, "Well, neither does a bath."

"Clergymen are like brakemen because they do a great deal of coupling."

## CHRISTIAN ENDEAVOR TOPIC.

Topic—What is Involved in Deciding for Christ? Rom. 10:8-15. (Consecration).

Written by—Rev. C. O. Sullivan.

This beautiful scripture reference must be read and meditated upon to receive its full beauty. Of course on the surface lay food, but deep beneath the surface lay delightful feasting. The blessings of the gospel were designed for, and were offered to, Jews and Gentiles alike, with the most perfect impartiality. The descendants of Abraham, the disciples of Moses, did indeed enjoy an advantage; but, instead of profiting by it, they turned it against themselves.

Hearing the Word. Before anyone can really believe on the Lord Jesus Christ the individual must hear or read something about him. Paul brought the idea forth that the word was very near them. So it is today. The word is very near everyone who cares enough to hear it or read it. Great, then is the power of the word. Of great importance is also the preaching of the word. The Lord who, by a supernatural appearance and voice, called Saul to the knowledge of himself, commissioned him to preach the gospel to his fellowmen and made him one of the first and perhaps the most successful, of the innumerable band of preachers of the cross.

Believing. Hearing the word is of no avail except one believes it. Just hearing it will not save. We must believe it with all our hearts. We must believe in our heart that God hath raised Christ from the dead. (Rom. 10:9.)

Confession. Belief must be followed by a confession. Paul says it is absolutely necessary. "For with the heart man believeth unto righteousness; and with the mouth confession is made unto salvation." (Rom. 10:10.)

Conclusions: The steps involved in deciding for Christ are: A. Preaching. B. Hearing. C. Believing. D. Calling upon God. E. Confessing God.

### SCISSORS CUT FRIENDSHIP

"I'll give you a cent for them, or they'll cut our friendship," said the recipient of a pair of exquisite gold embroidery scissors. For it is written or rather cut into the pages of superstition that a gift of knife or scissors cutteth in twain the love or friendship between him that giveth and him that receiveth!

Such a gift was once as popular as it is now taboo! For among the middle classes during the reign of Elizabeth in England, a pair of scissors was a common, we might almost say the staple for wedding gifts! As the modern bride couple receives vases and candle sticks, those who ventured then into the bonds of matrimony were bombarded with scissors! Let us hope they were good dodgers.

The purpose of this gift was to arm the prospective husband and wife with a weapon for severing the knot, should it become painful. In the language of the day: Fortune doth give these pairs of knives to you. To cut the thread of love if it be untrue. (Copyright.)

## Proud Boast Is Old

The germ of the idea of the sun never setting on the dominions of a particular ruler is found in Herodotus, Book VII, Chapter 8. The boast was a common one with the Spaniards in the Sixteenth and Seventeenth centuries and is frequently alluded to in the literature of other countries. It does not seem to be recorded who first used the expression the sun never sets upon the British empire. John Wilson, who wrote under the pen name of Christopher North (1786-1854), in his Notes Ambrosianae, No. 20, April, 1829, says, "His majesty's dominions on which the sun never sets." This appears to be the first use of the expression in English literature.

## Underworld Battle

"I shall call the police!" exclaimed the burglar. "That's what I meant to do," said the woman whose jewels were in jeopardy. "What hope have you, if the police arrive?" "I shall accuse you of attacking me and trying to take possession of my hard-won loot from previous jobs of the evening."

## Nebraskan Has Bible

### Dating Back to 1737

Wauweta, Neb.—Mrs. George Theobald of Wauweta is the possessor of a Bible translated by a Martin Luther and compiled in 1737. The tome has been in the possession of Mrs. Theobald's family for 194 years. It is made of parchment and is bound with wood and leather. It is in an excellent state of preservation. Brass bands protect the covers which bear the marks of heavy rings that once hooked the Bible to the pulpit of some old church.

## Pacific Mystery

Easter Island is called the "Unsolved Mystery of the Pacific" because of the scattered presence of hundreds of immense heads carved out of stone which are to be seen, some standing erect while others are down upon the ground. Their meaning is only conjectured and no one has ever offered any explanation which is generally accepted. Apparently Easter Island was chosen as the graveyard for the chiefs of a large island archipelago which suddenly disappeared. The thousands of slaves who were kept at work carving out these images were left without food and fell upon each other until only a few remained. The story of all these events was never recorded and can be read only by inference.

## Liberty Cap

In early Roman times, only freemen were permitted to wear caps. When a slave was manumitted, a small cap, usually of red felt, was placed on his head, and his name was registered in the city tribes. Several Roman commanders hoisted such caps on spears to indicate that all slaves who joined them should be free; and when Caesar was murdered, the conspirators marched forth in a body, with a cap elevated on a spear, in token of liberty.

In the French revolution, the liberty cap was adopted by the revolutionists as a badge of their freedom.

# The SANDMAN STORY

## ABOUT BLACK PIG'S PARTY

LITTLE BLACK SQUEALER decided he would have a party. "Will you come, squeal, squeal?" he asked Miss Ham.

"Thank you, grunt, grunt," said Miss Ham. "I'll be pleased."

"Will you come, Grandfather Porky Pig, squeal, squeal?" he asked.

"Ah, yes, grunt, grunt," said Grandfather Porky, "your dear old grandfather will do you the great honor of coming to your party."

"Will you come, squeal, squeal?" asked Little Black Squealer of Mrs. Pink Pig and Master Pink Pig and of his father.

"Squeal, squeal, grunt, grunt," they all said, "we will come with pleasure."

"Shall We Name a Date for You?" Asked Grandfather Porky.

"We will be with you, and you can count on us, as people say."

"Will you come, Sir Benjamin Bacon?"

"Grunt, grunt, I accept your kind invitation," said Sir Benjamin.

"Will you come, Sir Percival?" Little Black Squealer asked.

"I will come," said Sir Percival.

"Yes, yes, I will come, grunt, grunt."

"Will you come, Brother Bacon?" Little Black Squealer asked. "Squeal, squeal, will you come?"

Brother Bacon twisted his tail, and said:

"With delight, with delight. Grunt, grunt, with delight."

"Will you come, squeal, squeal, Sammy Sausage?"

"Indeed I will, grunt, grunt," said Sammy Sausage.

"And Pinky Pig, how about you?"

"I'm your pig gentleman when it comes to a pig party," he answered.

"But," said Miss Ham, "when is the

party to take place? I'd like to know."

"Oh, yes, Little Black Squealer, when are you going to have your party?" asked Grandfather Porky Pig.

"You forgot to tell us the date," said Mrs. Pink Pig.

"You didn't mention that," said Master Pink Pig.

"We must know," said Master Pink Pig's mother.

"I hope it is to be soon," said Benjamin Bacon.

"That would be pleasant," said Sir Percival.

"When is the big event to be?" asked Brother Bacon.

"Yes, when is the party to come off?" asked Sammy Sausage.

"I must keep the day free and not go to market that day," said Pinky Pig's mother, and Pinky Pig said:

"I'll come and bring my merry little appetite. But when is the date of your party?"

"Well," he said, "I decided I would have a party. But I haven't decided just when my party would take place."

"But that is the most important," all the pigs said.

"Of course it is the most important," said Little Black Squealer.

"Shall we name a date for you?" asked Grandfather Porky. "I think it would be nice to have it soon, then all the other pigs should return your charming hospitality—all save myself."

"For an old grandfather is doing enough of an honor to come to these functions."

"Well, I thought of having you all name the day for me," said Little Black Squealer.

"I thought you could all name the day which would be convenient for all of you to bring the food. I thought it would be one where everyone entered into the spirit of the thing, and each brought something—a regular picnic, in other words."

"But I'll be the chief one to plan the picnic party, and it will be in my part of the pen."

"Why, the very idea," said Miss Ham, "he was going to have us bring the party." And she walked off.

"Never have I heard of such nerve," said Sammy Sausage.

"Well, he can't do that sort of a thing with us," said Brother Bacon.

"The child has no manners," grunted Grandfather Porky. And he strutted off in his great fat fashion, but looked at Little Black Squealer out of his small eyes.

And his look said quite plainly:

"Of all the nerve—I Well—I"

Everyone had walked off now. And the party was off, too. Little Black Squealer's idea hadn't worked well in the pen.

## Daddy, Let ME Drive

I look into the future  
(And it isn't very far!)

To see a rearrangement  
Of the seating in our car.

There was a time when Mother  
Thought she'd never care to drive.

Although she wasn't certain  
I would get them home alive.

And then (I saw it coming)  
She decided it was best  
For her to "drive a little"

So that I could get some rest.

Of course, she soon discovered  
What a pleasure it can be—  
And you ought to see how often  
She prescribes a rest for me!

And now the boys are pleading,  
"Daddy, let me drive today!"  
(I hardly need to tell you  
That they often have their way.)

So, I look into the future,  
And the writing on the wall  
Tells me I'll be mighty lucky  
If I get to drive at all.

## "Hex" Doctor's Lotion Is Blamed for Death

Reading, Pa.—Possibility that a "hex" doctor's prescriptions of an inflammable skin lotion caused the death of Mrs. Harry MacDonald, thirty-four years old, found dying from burns in her home recently, led Dr. H. Ammarell, coroner, to begin an investigation.

At first Doctor Ammarell believed death was accidental, but when he discovered that nothing else was burned, he investigated.

Anthony Braum, the woman's father, stated that Mrs. MacDonald had been visiting "hex" doctors for several weeks and he believed that one of them had given her a fluid to place on her skin, which he believed may have been inflammable.

## Canadian Bituminous Sands

In what is known as the McMurray country in Canada, 300 miles north of Edmonton, are to be found extensive deposits of bituminous sand. The future commercial significance of these deposits is as yet not generally realized, it adds, although it is possible that eventually they may prove to be of real national importance.

It is thought the bituminous sand in Canada is in many respects similar to the oil shale in the United States and that the development of bituminous sand should be considered quite as seriously as that of the oil shales. Yield per ton from the latter will, in some instances, be higher than from bituminous sand, but, from the point of view of mining costs and certain other factors, the development of bituminous sands will probably have advantages over oil shales.

## BLAMING FARMER FOR DAIRY SLUMP DECLARED UNFAIR

WATERTOWN, WIS.—Claims that butter prices have slumped because farmers are eating substitutes are an unjust indictment against the dairy farmer and are injuring rather than aiding the dairy industry, State Senator John C. Schuman declared in a statement issued here.

Senator John C. Schuman.

with a 38,000,000 pound butter surplus," said Senator Schuman, "is that dairy farmers are ruining their own business."

"The interests inspiring these statements throughout the dairying sections are attempting to convince the public that butter is the only dairy product suffering from surplus. This is far from the real facts. All dairy products including fluid milk and cream are below normal market value to the farmer."

"There was an increased surplus of 90,000,000 pounds of evaporated and condensed milk in storage at the beginning of 1930 over the previous year. Powdered milk showed an added surplus of \$331,807. The dairy market division of the Bureau of Agricultural Economics reported recently that the average price of cheese in 1929 was the lowest since 1926. If the accusation that farmers caused the butter surplus is true, then they could be equally blamed for the surplus of all these products."

"It is probable that all these accusations are in reality based on information secured from butter people who are naturally not interested in the farmer's welfare or earning power, but solely in the margin of profit they themselves obtain. That is why, when a butter surplus confronts them, they blame the farmer for eating substitutes."

"It has been an immemorial pastime to blame the farmer for all the difficulties of agriculture. When he understands that the real facts are being suppressed, his awakening will be an unpleasant experience to those who are throwing dust in his eyes."

## On the Menu

The portly gentleman who had been engaged to sing in the musical program following a dinner at a large restaurant was looking very enraged. He was scanning the list of musical items, and, to his consternation, his name had been omitted!

Approaching one of the organizers he brandished the program furiously, and demanded the reason of the omission. The young fellow whom he approached glanced down at the card, then laughed nervously. "Aren't you Signor Jelly, the singer?" he asked.

"Yes," was the reply.

"Well—er—your name being 'Jelly,'" said the young chap, "it appears to have been put on the menu by mistake."—Montreal Star.

## French Superstitions

To a considerable extent, the French peasants still attach credence to the evil eye, to witches, to were-wolves and to other weird medieval superstitions, in spite of years of persistent effort to eradicate these primitive beliefs. In many remote villages of Normandy and Brittany belief in heathen deities also survives. Sacred trees are the object of midnight worship, when young girls gather to dance in the moonlight, as in the days of Druidical head-dresses. Healers and medicine men abound in the rural districts and certain animals still are treated with reverential awe. Cases involving superstition are constantly coming to the attention of the French courts.

## Fearsome Creature

Maud Rex Allen says: "As known in Japan, the conception of the dragon is undoubtedly derived from the products of the imagination of the early Chinese, who were especially fond of evolving supernatural forms by combining parts of various animals. It is essentially a serpent, with horns of a deer, the head of a horse, eyes like that of a red worm, scales like those of a carp, ears like a cow, paws like a tiger and claws like an eagle. It has flame-like appendages on shoulders and hips. On either foot are three, four or five claws—the imperial dragon of China has five; that of Japan three."

## Good Idea

Harringly was trying hard to listen to the speaker's eloquence at a political meeting, but the snoring of an infant directly in front of him gave him little chance. At length he leaned forward, touched the mother on the shoulder, and asked: "Has your baby been christened yet?" "No, sir. Why do you ask?" "Merely because I was about to suggest that if he had not been christened you might name him 'Good Idea.'" "And why 'Good Idea'?" asked the woman. "Because," replied Harringly, "it should be carried out!"—Vancouver Province.

## WONDER CAVERN IS LURE TO TOURISTS

COBLESKILL, N. Y.—If Rip Van Winkle had taken his little snooze in the Hudson Highlands lately, instead of during the Revolution, he would have had real occasion to rub his eyes on awakening.

Man has lately been prodding at nature in Mynherr Van Winkle's old neighborhood, unearthing secrets at which Rip could only make guesses.

What would Rip think, for instance, of electric elevators, descending through a concrete shaft, 156 feet into the earth, into underground chambers where a myriad of electric lights play on the miles of stalactites and stalagmites?

This is the engineering feat recently completed for the pleasure of motor-tourists at Howe Caverns here. It is not inconceivable that Rip himself may have scrambled over the cavern's rocky roof in his eagerness to get out of earshot of Dame Van Winkle's tongue. But existence of the cavern, regarded by geologists as a twin-wonder to Niagara Falls, did not become known to the white man in his lifetime.

Howe Caverns remained unexplored until recently because of its extreme inaccessibility. Increase of motor-travel in the neighborhood has led to the construction of roads which place the entrance to the caverns on the main highway (Schoharie Trail, New York State Route 7), forty miles west of Albany and thirty miles southwest of Schenectady.

## STOCK MARKET CRASH BOOSTS BOOK SALES

NEW YORK.—Far from injuring the book business, the recent doings in Wall Street are an actual stimulus to book-sales.

"The business of making and marketing literature thrives on upsets and catastrophes which jolt men's minds into new lines of thought," according to Harry L. Hollingsworth, professor of psychology at Barnard College, Columbia University, and contributing editor of the World Book Encyclopedia.

Prof. Hollingsworth explained that he reached this deduction, not only from consideration of the present situation, but of the reaction of the public mind to the panic of 1907 and the years of post-war disillusionment.

"History—and human nature—are repeating themselves today. The demand, however, is not for the diversion of fiction, New York dealers say, but for substantial works of reference of the World Book type. Biographies and scientific volumes also show gains. In time of uncertainty, people want the sort of reading they can 'sink their teeth into.'"

## Helpful Suggestion

An employer who believed in supporting all efforts to introduce a new spirit into industry, had called his men together to place before them his plans for bettering working conditions.

"Now whenever I enter the work-shop," he said, "I want to see every man cheerfully performing his task, and therefore I invite you to place in this box any suggestions as to how that can be brought about."

A few days later he opened the box and took out a slip of paper on which was written: "Take the rubber heels off your shoes."

## Tut-Tut!

All judicial humor, fortunately, is not retrospective. While some judges dig it up from the past, others are busy extracting it from the present.

A little while ago it was stated before a well known judge that a company was to run a revue named "King Tut-Tut."

His honor rubbed his brow.

"What does 'Tut-Tut' mean?" he inquired.

"It is an expression," replied counsel, "used on the golf links when a man misses his drive."

"You mean when the clergy are present," suggested the judge, amid laughter.—Birmingham (Eng.) Weekly Post.

## Great College Honor Nothing to Hotel Man

Where is the high-school student who has not at sometime thought of making Phi Beta Kappa at college? Where are the parents who have not hoped their son in college would make the national honorary scholarship fraternity? How—in the mind of the scholastic world—could greater honor be achieved? So much for that.

The other day in a large hotel a guest stepped up to the manager's desk and announced he desired to identify himself so that he might get a check cashed.

"Have you anything to identify you?" the manager asked.

"Why, yes," said the guest after some hesitation, "here's a Phi Beta Kappa key with my name on it."

After looking at the key long and earnestly the manager looked up and exclaimed:

"Sorry, sir, I'm afraid this won't do. Haven't you got a good Elks' card or something?"—New York Sun.

## One Sister

Mary Jo's brothers call her "sister." Recently a new neighbor observing the little girl playing with her brothers asked the four-year-old whether she had any sisters.

"We have one sister, I'm it," was the reply.

## Why We Do What We Do

By M. K. THOMSON, Ph. D.

## WHY WE VALUE TACT

IN THE colony of American students in Germany some years ago there appeared a young Russian who was not admitted into polite society anywhere else because of his bluntness and absolute truthfulness on any and all occasions.

The Americans were a cosmopolitan and democratic group so they took in the young Russian. On one occasion he, with the rest of the colony, had been invited to a party at the home of an American student family. The hostess was very much upset because of the odor of kerosene in the house from a smoky little stove on which she prepared some light refreshments. Every one lied about the odor and tried to make light of it to ease the feelings of the gracious hostess. But when the apology was made to the Russian he blurted out: "Oh, it stinks like the mischief, but I guess I can stand it."

Tact is the grease that keeps the machinery of society moving along smoothly. It might be likened to the shock absorbers of an automobile. Tact is the greatest asset of a diplomat.

The man of tact knows what to say and what not to say. He avoids offending people.

We admire tact; it makes for good fellowship and proper social contacts. In recommending a man for an important position it is much in his favor if you can truthfully say that he is a man of rare tact. For such a man also possesses good judgment, insight, quick perception, takes in a situation at a glance, maintains his balance and poise under all circumstances.

An ambassador, a salesman, a lawyer, a business man will not get very far without tact. Tact is useful everywhere that one human life rubs up against another. It is akin to intelligence which meets a new situation and solves it properly the first time.

We admire tact because it is the "open sesame" to success and personal popularity.

## Elk in Montana Spurn

## Chance to Roam Preserve

Martinsdale, Mont.—Thirty fat elk take the position that it's far better to be on the inside looking out than on the outside looking in.

Released from the DuRank elk ranch pastures so that they might live within the nearby elk game preserve, these sleek animals refuse to leave the vicinity of their former home. Life was easy there and food was good—why change?

As a result the elk have been loitering close to the ranch fences, apparently begging to be taken back. Their attitude has given rise to a problem of animal salesmanship—how best to sell them the advantages of a preserve.

## Lesson for April 6

### THE LAW OF THE CROSS

LESSON TEXT—Matthew 16:13-26.  
GOLDEN TEXT—If any man will come after Me, let him deny himself, and take up his cross, and follow Me.  
PRIMARY TOPIC—Proving our Love for Jesus.

JUNIOR TOPIC—Proving Our Love for Jesus.

INTERMEDIATE AND SENIOR TOPIC—Denying Self for Christ.

YOUNG PEOPLE AND ADULT TOPIC—Cross-bearing in the Christian Life.

The lesson topic is narrower than the Scripture text. It includes Christ taking account of His ministry, Peter's confession, Christ's prediction concerning His death and His teaching concerning the cost of discipleship.

1. Christ, the King, Taking Account of His Ministry (vv. 13-17).

1. The place (v. 13).  
It was at Caesarea Philippi, the northern limit of Jewish territory, practically in Gentile territory.

2. The time in Christ's ministry.  
The cross was only a few months away. The King had already been rejected. They had charged Him with being in league with the devil and sought to kill Him. It was highly important that the disciples have clear views as to Christ's person in order to stand the test of His trial and crucifixion.

3. Peter's confession (vv. 13-16).

(1) The occasion (vv. 13-15). Two questions asked by Jesus Christ provoked this confession. a. As to the opinion of the people concerning Him (vv. 13, 14). They recognized Him as a teacher and prophet of more than human authority and power. Had He been content with this, He would not have been molested in Jerusalem. It was His persistent claim of being the God-man, the very Son of God, that sent Him to the cross. b. As to the personal opinion of the disciples (v. 15). It was not enough for them to be able to tell what opinion the people held concerning Jesus. It was necessary that they have definite, correct and personal knowledge of and belief in Him. (2) The content (v. 16). It consisted of two parts. a. "Thou art the Christ." This avowed Jesus to be the Messiah—the fulfiller of the Jewish hopes and expectations. b. "The Son of the living God." This acknowledged Him to be divine. It was the recognition of His glorious person in keeping with the Jewish hope (Isa. 9:6, 7).

4. Christ's confession of Peter (v. 17).

Those who confess Christ shall be confessed by Him (Matt. 10:32, 33). Christ pronounced a blessing upon Peter—not in the nature of reward, but a declaration of the spiritual condition of Peter because of his clear apprehension of his Lord.

5. Christ's charge to the disciples (v. 20).

He asked them not to tell any man that He was the Messiah. The time was not ripe for such testimony.

II. The New Body, the Church, Announced (vv. 18, 19).

Following the confession of Peter, Jesus declared His intention of bringing into existence a new body, to the members of which He would give eternal life, and into whose hands He would entrust the keys of the Kingdom. Peter was to have a distinguished place in this body. Association in this new body cannot be broken by death, for the gates of Hades shall not prevail against it.

III. The King Predicts His Death (vv. 21, 23).

This prediction was no doubt startling to the disciples. They did not yet realize that redemption was to be accomplished through the passion of the cross. So unwelcome was this announcement that Peter cried, "This shall not be unto Thee." Later Peter saw through the darkness to the sunlight on the hilltops beyond. A new hope filled his breast (I Pet. 1:3, 4). Victory through death is yet the stumbling block of many.

IV. The Cost of Discipleship (vv. 24-26).

Life can be saved only by losing it. If we are going to be Christians, we must share Christ's suffering.

1. There must be denial of self (v. 24). There is a wide difference between self-denial and denial of self. All people practice self-denial, but only real disciples of Christ deny self.

2. "Take up His cross" (v. 24). This cross is the shame and suffering which lie in the path of loyalty to Christ.

3. Follow Christ (v. 24). This means to have the mind of Christ—to be like Christ.

### Flowers That Are Not Seen

If a man could make a single rose, we should give him an empire; yet roses and flowers no less beautiful, are scattered in profusion all over the world, and few regard them.—Martin Luther.

### A Life in His Hands

The right thing is not always the easiest; but God has His schools for training, and a life left in His hands will never fall of its highest development here and hereafter.—Selected.

## English Law Demanded

### Attendance at Church

Sunday holiday makers and trippers will be interested to know that a statutory law in England years ago prohibited such frivolity, says the London Daily Mail. The Act of Uniformity, 1552, requires: All persons, except those dissenting from the worship or doctrines of the Church of England and usually attending some place of worship not belonging to the Church of England, are, if they have no lawful or reasonable excuse for absence, to endeavor to attend their parish church or accustomed chapel, or, if reasonably prevented from so doing, some other place where the divine service of the Church of England is performed, on all Sundays and other days ordained and used to be kept as holy days, and to abide there orderly and soberly during the time of common prayer, preaching, or other divine service there performed. Failure to observe this law renders the offending "parishioner or inhabitant of a parish" who is not legally exempt from attendance at divine service on Sundays and holy days "liable in proceedings taken against him in the ecclesiastical courts to be censured for the offense, admonished as to his attendance in the future, and to be condemned in the costs of the proceedings."

### Ancient Builders' Idea of Humor Quite Modern

The builders of the old churches in England were not so serious but that they now and then perpetrated a joke, even in stone. On more than one of their creations they carved in relief a scene representing a monk preaching solemnly to a flock of geese. The same humorous spirit is sometimes to be detected in the domestic architecture of early times.

Just upon the boundaries of Bedfordshire and Hertfordshire formerly stood an old rambling farmhouse. The living-room was long and low, and on the center beam that went across the ceiling was inscribed this legend: "If you are cold, go to Hertfordshire."

This seemingly inhospitable invitation was explained by the fact that one-half of the room was in one county and one-half in the other. The fireplace was in Hertfordshire.

### Disdainful of Physicians

Disraeli affected to regard all doctors with a sovereign disdain, writes a columnist in the Manchester Guardian. "Gull is all froth and words," he declared at seventy-three. "They are all alike. First of all they throw it on the weather; then there must be a change of scene; so Sir W. Jenner, after blundering and plundering in the usual way, sent me to Bournemouth, and Gull wants to send me to Ems; I should like to send both of them to Jericho." And Joseph Chamberlain's insistence that to go up to bed and to come down again constituted exercise enough for any man must have been a sore trial to his doctors.

### Afraid of Life

"You're not afraid of life, are you?" she asks him, and Finch is startled to truth. "Yes, I am. I'm awfully afraid of it."

She reared her head from the pillow. "Afraid of life. What nonsense. . . . I won't have it. You mustn't be afraid of life. Take it by the horns. Take it by the tail. Grasp it where the hair is short. Make it afraid of you. That's the way I did. Do you think I'd have been talking to you this night—if I'd been afraid of life? Look at this nose of mine. These eyes. Do they look afraid of life? And my mouth—when my teeth are in—it's not afraid either."—Kansas City Star.

### Sunrise on the Moon

The transition from night to day on the moon is very rapid, for the moon has no atmosphere; no rosy tints paint its mountain tops at dawn. There are no graduations between darkness and night, no twilight with color-tinted clouds. Before the sun comes there is blank, black darkness, deeper and blacker than anything experienced on our earth. As the sunshine moves across its surface the first peaks to catch its rays stand suddenly out, fully defined in a harsh, untempered glare and in sharp contrast to the dense blackness of the nearby terrain, where it is still night.

### Food Requirements

According to Prof. V. H. Mottram, an adult woman needs but 2,500 calories a day. An adult man engaged in sedentary occupation requires 3,000 calories daily. A man doing hard work should have 5,000 calories. The physiological reason given is that the feminine organism utilizes food more economically than man. A child's food should not be proportioned according to his age, as he requires more than half the food of an adult. Boys and girls of fourteen are to be considered as adults in food utilization.

### Sanity in the Madhouse

I should imagine that a madhouse would be an excellent place to be sane in. I'd a long sight rather live in a nice, quiet, secluded madhouse than in intellectual clubs full of un-intellectual people, all chattering nonsense about the newest book of philosophy; or in some of those earnest, elbowing sort of Movements that want you to go in for Service and help to take away somebody else's toys.—From "The Poet and the Lunatics," by G. K. Chesterton.

# Community Building

## Small Towns Assuming Leadership in Industry

Not long ago the nation was stirred by the drift of population away from farms and rural areas into the great cities. Young men, attracted by the high wages paid by industry and what appeared to be the superior social life, deserted the soil for the city.

In the last quarter century rural America has made tremendous progress. Better schools, good roads, the automobile, telephone and radio have created a rural civilization greater than any in history.

Industrialists, attracted by such factors as lack of labor difficulties, low taxes and uncongested, pleasant living and working conditions, were barred from entry into the small town only because of lack of power.

Then rural electrification on a large scale was inaugurated. And now, according to authorities, the smaller towns are on the road to industrial leadership of America and the countryside is staged for the next scene of our industrial progress. The drift of population has turned. At present the only pronounced gain in industrial wage earners is taking place in the country.

It is safe to say that many towns which are almost unknown today will be the great industrial centers of the future. The industrial revolution of the Eighteenth century apparently doomed rural progress—now the electric revolution of the Twentieth century is reversing the process.—Terre Haute Tribune.

## New Motor Highways Destroying Old Charm?

Many examples might be cited to show how we are almost daily destroying old values in the process of creating new ones with our motor roads. When shall we wake up? When shall we realize that highway engineering is much more than the mechanical construction of a road; it is also the placing of that road in such a way that it makes new values without destroying old ones? When are we going to realize that if we persist in our present policy of building motor arteries on the lines of our old roads through the hearts of villages and towns which have given to New England its unique charm, or if we fail to consider the landscape effect of our highways in places where nature is the supreme attraction, we are very rapidly going to destroy what is most characteristic in our state, and what gives it its greatest attraction to visitors? We are gaining the value of easier transportation at the sacrifice of other values quite as precious. Could anything in the long run be more wasteful?—Boston Transcript.

### Evil of Poor Construction

There is a section of almost every town that gave promise of fine things five or ten years ago. The houses in it were all new then. The streets wandered pleasantly into the meadows from which they grew. Now it presents a specter of premature age and decay. The little homes sag dejectedly; their faces are gray with neglect.

You have seen this sudden flowering and withering of a new community. It must have happened at least once under your eyes. You must know the reason for the unhappy end. It was poor, inadequate construction, nothing else.

### Ideal Spirit in Oath

The "Athenian Oath" which was used in ancient Greece is: "We will never bring disgrace to this our city by any act of cowardice or dishonesty. We will fight for the ideals and sacred things of the city. We will revere and obey the city's laws, and do our best to incite a like respect and reverence in others. We will strive unceasingly to quicken the public's sense of duty. We will transmit this city to those who come after us, greater, better and more beautiful than it was transmitted to us."

### Garden Important

A combination of house and garden in appropriate treatment is meeting with successful appreciation in some parts of this country, and the owner now considers it a necessary part of the scheme with the landscape treatment adjacent to the house, and to have either the architect or a competent landscape architect deal with the landscape treatment of the grounds.

### Infant Industries

Capt. Robert Dollar says that manufacturing must grow up within a city and not be stolen from other communities. Get a little stock in your own well conducted "infant" industries and grow up with them.—Minneapolis Journal.

### Value of Face Brick

Face brick is a popular medium used to modernize old homes. Very often an attractive, colorful home is salvaged out of the old house at a fraction of the cost that a new dwelling of similar appearance would entail.

### Old-World Beauty

Do all Europeans have an innate sense of beauty? Else why do their humblest villages look like a picture?

## Basque Peace Officers

### Kept Reasonably Busy

Unique is the miguelete. Everywhere in Spain, from the gates of the royal palace in Madrid out to the remotest, humblest hamlets, the civil guardsmen have the right of way—except in the Basque province of Guipuzcoa. The Basques have their own police, called migueletes, who wear a jaunty uniform of baggy red trousers, a blue tunic with a cape fixed to the shoulders and a red bolina on their heads (a contrast to the civil guards' yellow trappings and gray or black uniforms and of oilskin). Although a soldier, armed and trained as such, the miguelete, instead of parading about in idleness, has many civilian duties. He carries all the official mail in the province, conveys lunatics to the modern asylum, inspects the roads, teaches the illiterates to read and write, collects telephone tolls and also taxes. A Basque is always ready with a bet, which is the common way of ending a dispute about handball, tree felling, grass mowing, stone lifting, swimming, about what weight his pair of oxen will drag or the fighting powers of a ram from his herd. On every bet a percentage is due and is collected by the miguelete. It is the miguelete also who takes charge of the savings bank accounts, and so great is the confidence he inspires among the peasantry that old and young hand over their hard-earned reales and pesetas to this red-legged cop. What prestige! Indeed, it has been proposed that the League of Nations study the corps with a view to making it a world organization.

## Lessening Aversion to Formal Music Lessons

Children's aversion to music lessons, entailing long hours of practice for many months, can be overcome by making them familiar at an early age with musical toys, according to Frank H. Richardson, M. D., in Woman's Home Companion.

"Many families have found the approach to a real appreciation and love of music is made easier by having the simpler musical instruments around where they can be picked up and played casually even before formal lessons have begun," says Doctor Richardson. "Such simple things as the fife, flageolet and piccolo; the banjo, mandolin or even the humble ukelele; the xylophone or bells will often tempt not only the child but also the guest in the home.

"Improvised ensembles prove delightful ways of teaching children good-fellowship and freeing them from the embarrassment so overpowering in children whose only contact with strangers has been formal.

"Many a child who would have been repelled at first by the technical difficulties of the violin or piano, has come happily to these more difficult musical instruments by way of their humbler and more easily mastered brothers in the musical family."

### BRIGHT SALESMAN

"I am an advertisement canvasser. Have you any small wants I can advertise?"

"Certainly not. My servant should not have admitted you. I have told him repeatedly that I do not see canvassers."

"Then dismiss him and advertise in our paper for a better one."—Faun, Vienna.

### From the Back Seat

"I wish you would quit driving from the back seat," exclaimed Mr. Chuggins.

"All right," sighed the patient wife. "But after that remark, don't expect me to smile sweetly and give sympathy when a traffic cop gets you."—Washington Star.

# Savory Church Suppers That All Will Enjoy

By JOSEPHINE B. GIBSON  
Director, Home Economics Dept.,  
H. J. Heinz Company

PLANNING meals for a large group of persons, possibly a hundred or more, seems difficult to most of us, for it means thinking in much greater quantities than those to which we are accustomed. Yet church and community suppers require that someone be able to plan menus and estimate carefully the quantity of food needed.

Since these suppers usually are for the purpose of raising money, they should be as simple and inexpensive as possible, while furnishing ample quantities of nourishing and appetizing food. Below will be found two carefully planned menus, with complete recipes and the approximate quantities of food required to serve 150 people. If you will slip these suggestions into your cook book or recipe file, you may find them exceedingly helpful when you are called to serve on the entertainment committee:

### Menu I

Oven Baked Beans, Vegetarian Style  
Hot Rolls  
Fresh Cucumber Relish  
Fig or Plum Pudding with Sauce  
Coffee

### Baked Ham

4 hams (10 lbs. each); brown sugar, 5 cups; 3 cups pure cider vinegar; whole cloves; ¼ cup crumbs.

Cook the hams until tender. Peel off the skins, arrange in baking pans, and stick cloves over the surface of the hams. Make a syrup of the brown sugar and pure cider vinegar, and pour over them. Sprinkle with crumbs, and brown in a hot oven.

Baked beans may be purchased, if you do not wish to prepare them, in institutional sized cans, usually termed Number 10 Cans, which hold about a gallon each, and serve from 28 to 30 persons. Therefore, 5 or 6 of these large cans will be sufficient for 150 people.

### Cole Slaw

12 lbs. cabbage; 1½ cups chopped pickles; 1¼ cups chopped green pepper; 2¼ qts. mayonnaise dressing; ½ cup pure cider vinegar; ½ cup sugar; salt, pepper.

Slice the cabbage and let soak in cold water one and one-half hours. Just before serving, drain off the water, mix the cabbage

with the other ingredients, add dressing and serve.

Order a gallon of pickle relish to serve 150. A large can fig or plum pudding is enough for 12 to 15 people, so for 150 provide one dozen large puddings. Allow 2 rolls to each person, or 300 in all, and three pounds of butter cut in a butter slicer. Four pounds of coffee will be required for this number of people.

### Menu II

Beef Loaf  
Tomato Sauce  
Scalloped Potatoes  
Buttered Green Peas  
Spanish Queen Olives  
Mince Meat Pie  
Coffee

23 lbs. chopped meat; 3 qts. bread crumbs; 10 eggs; 2¼ qts. milk; ¾ lb. onions; 6 green peppers; about 8 tablespoons salt; 2 tablespoons Worcestershire Sauce.

Chop the onions and seeded green peppers together quite fine. Add the meat, together with the bread crumbs and salt. Beat the eggs slightly, add the milk and combine with the meat. Add salt to taste, and mix thoroughly. Weigh out into loaf pans which have been well greased, pressing

well into the corners. This quantity makes about 7 five-pound loaves, cutting twenty-four slices each.

### Tomato Sauce

2 institutional-size cans cream of tomato soup; 2½ cups flour; 1½ cups fat. Melt fat in a large pan, add flour, and stir until well blended. Add tomato soup, and stir until thick. Cook for several minutes and serve. This makes a delicious tomato sauce and is quickly and easily prepared.

4 to 5 institutional-size cans of peas will be needed, or if ordinary number 2 cans (the size usually purchased for families) are used, 25 cans will be required. Two one-gallon cans of Spanish Queen olives will be sufficient.

### Mince Meat Pie: Pastry

9 quarts flour; 10 teaspoons salt; 8 cups lard.

Mix flour and salt. Add lard, and blend thoroughly. Moisten to a dough with cold water, being careful not to use too much. This amount will make 26 pies. Each of these can be cut in 6 pieces, making 156 servings. To fill the pies, 5 or 6 institutional cans or about 14 two-pound jars of mince meat will be needed.

## TANEYTOWN LOCALS

Items of news from town, or vicinity are always wanted for this column. Special accidents, sales of real estate, fires, important happenings, visits to or from the community social events, and all matters of general interest to those at home, and away from home.

Mrs. Luther Steck, of Middletown, Md., is spending the week in town with her sister, Mrs. J. Keller Smith.

The Home-makers' Club will meet on Friday, April 11, at the Firemen's building. A full attendance of members is desired.

Carroll Feeser and Toney Morens, of Baltimore, were guests of Mr. Feeser's sister, Mrs. Norman Lawrence and family.

Mr. and Mrs. Maurice Feeser had as their guests, on Sunday: Mr. and Mrs. Henry Eckenrode and two sons, Henry and Claude, of Littlestown.

Mr. and Mrs. Jacob D. Null and daughter, Grace, of Hanover, Pa., spent the latter part of last week, with relatives and friends in and near town.

Dr. Herbert C. Alleman, of Gettysburg, addressed the Lutheran brotherhood, on Thursday night, and the Waynesboro Male Quartet sang a number of selections.

The advertisement for proposals for building 2.5 miles of concrete road, connecting with the mile already built north of town toward Littlestown, appears in this issue.

Mr. and Mrs. Q. E. Weant, of Baltimore, are on a visit to Florida. They say the weather has been cold, but moderated. Q. E. writes, "I never saw so much swamp in my life."

Mrs. Bernice J. Feeser entertained on Tuesday, Mrs. Allan Feeser and two children, John and Roberta; Mrs. Maurice Feeser and son, Juney, of town; Mrs. Leander Wantz and son, Feeser Wantz, near Westminster.

Mr. and Mrs. D. M. Mehring and Mr. and Mrs. Harold Mehring and family, spent Sunday with Dr. and Mrs. Wilbur B. Mehring, at Silver Springs, and also called on Dr. and Mrs. Gould Wickey, Washington.

John H. Hilterbrick sold his fine home on Emmitsburg St., to Miss Sarah Baumgardner and sister, near Keyville, on private terms, through D. W. Garner, real estate broker. They will take possession about April 15th.

Mr. and Mrs. Frank Palmer entertained at dinner, on Sunday: Mr. and Mrs. Curtis Stambaugh and daughter, Miss Kathryn, of Detour; Mr. and Mrs. Russell Eckard, daughter, Ruthanna and son, Merle, near town; Mr. and Mrs. Albert Angell, Mr. and Mrs. Earl Bowers, David Staley and Albert Boyd.

George Hitchcock, of Westminster, a member of the Senior Class, Western Maryland College, who is taking a special course in manual training at our High School, had the second and third fingers of his left hand caught by a motor-driven saw, on Tuesday evening, necessitating their amputation—a portion of each finger being saved.

Last week this office received an order from Frostburg, Md., for 1000 letter heads, and the same were finished and forwarded the next day. Not to be outdone, our customer came back on the fourth day with a check for the amount, and this message: "Thanks for your promptness, and good work." This is an agreeable way to transact business, isn't it?

Those who visited at the home of Mrs. Grant Bohn and son, Frank, on Bowman's Heights, near Union Bridge, Sunday evening last, were: Grandma Koons, who is only 95 years old, who also resides at the same place; also, Mr. and Mrs. Bruce Shirk, Mr. and Mrs. Earl Angell, Mr. and Mrs. Russell Bohn and family, of Big Pipe Creek; Mr. and Mrs. H. J. Crumbacker and family, of Middleburg; Mr. and Mrs. George Crumbacker and daughter, Mabel, of Waynesboro; Miss Ruth Seiss, Thurmont, and Harris Frock, of Chambersburg.

Mr. and Mrs. Walter Hilterbrick entertained at dinner, Sunday evening, in honor of Mr. and Mrs. Carroll Weishaar. Those present were: Mr. and Mrs. Carroll Weishaar, Mr. and Mrs. Walter Hilterbrick, Mr. and Mrs. Thomas Weishaar, Mr. and Mrs. Bernard Weishaar, Mr. and Mrs. Herbert Smith, Mr. and Mrs. Sterling Nusbaum, Mr. and Mrs. George Baker, Mr. and Mrs. Lester Cutsail, Mr. and Mrs. LaVerne Rittase; Misses Pauline Smith, Oneda Hilterbrick, Louise Baker, Arlene Nusbaum, Amelia Weishaar, Ethel Hilterbrick, Charlotte Hilterbrick, Catherine Nusbaum, Arletta Weishaar, Mary Jane Weishaar; Messrs Ross Swartz, Marcus Baker, Elwood Nusbaum, Earle Smith, Charles Baker, Benjamin Cutsail, Frances Weishaar, Fred Weishaar, William Rittase, Kenneth Rittase, Harry Baker.

Mr. John T. Dutterer spent a week in York, visiting friends.

Mrs. Mary McGuigan is very ill at the home of her daughter, Mrs. A. L. Morelock.

Mr. and Mrs. I. C. Kelly and son, of Hanover, were visitors in town on Sunday afternoon.

Mrs. Samuel C. Ott and Miss Virginia Ott, were guest of Mrs. C. C. Counbs, of Emmitsburg.

Mrs. Isamiah Hawk is visiting at the home of Mr. and Mrs. Asbury Fuss, near Emmitsburg.

Miss Helen Galt, of Hanover, spent the last week-end with her grandmother, Mrs. James Galt.

Mrs. Earl Koons, of Baltimore, spent Sunday with her parents, Mr. and Mrs. B. B. Chenoweth and family.

Mr. and Mrs. Maurice Feeser, son Juney and Mrs. Bernice J. Feeser, visited friends in Littlestown, on Saturday.

We thank many subscribers for their April 1 payments. Some no doubt forgot about it, and will come along during the month.

Mr. and Mrs. Elvin Dern and daughter, Oneda, of Gettysburg, Pa., called on friends in town on Sunday, and attended services in the Lutheran church.

Mr. and Mrs. Wm. J. Stover and son, Charles; Mr. and Mrs. Clarence Albaugh and daughter, Esther, near town, spent Sunday evening with Mrs. Mary Stover and family.

Mrs. Harry M. Mohny and daughter, Jean, left last Saturday morning for Butler, Pa., where they were joined by Mrs. Mary Mohny. All left on Sunday for Warren, Ohio, where they will spend some time.

Mrs. Harvey Shorb, near Keysville, was taken to the Frederick City Hospital, on Monday morning, and operated on in the afternoon for gall stones. She is getting along very nicely at this writing.

Last Saturday, E. Elwood Baumgardner had an X-ray taken of a foot that was giving him trouble since an accident about eight years ago; and on Tuesday he went to the South Baltimore Hospital where he had a toe amputated. He returned home and is getting along well.
