

THE WISE MAN IS HE WHO ALWAYS MAKES SURE HIS JUDGMENT IS JUST AND FAIR.

THE CARROLL RECORD

PATIENCE MAKES THAT MORE TOLERABLE, WHICH CAN NOT BE REMOVED.

VOL. 37

TANEYTOWN, MARYLAND, FRIDAY, OCTOBER 24, 1930.

NO. 17

CLOSELY DIVIDED AS REGISTRATION

On Affiliation the Democrats are 85 Votes Ahead.

The corrected registration for Carroll County, is as follows—

Democrats	7949
Republicans	7864
Declined	297

Total 16,110

The Democrats made a gain of about 300 votes, as compared with 1928, chiefly, it is said in the registration of women, or a majority on affiliation of 85 votes over the Republicans.

According to the figures, the election result between the candidates of the two parties should rest with the 297 voters who "declined" to state their party. While these will undoubtedly have an important bearing on the result, they may not determine it. The biggest factor will be the vote actually cast. Two years ago the total registration was—

Republicans	7648
Democrats	7426
Declined	286

Total Votes 15,360

The actual vote for President was 12,355 and for U. S. Senator 11,333; or 3005 votes short for president, and 4027 short for Senator on a ballot easy to mark. We do not have the registration figures for 1926, but the vote for Governor was only 10,419 when all county officers were elected, like this year.

Then there is always a large number of "defective" ballots not counted for anybody, that, in a close division between the parties—such as exists in Carroll county—might be sufficient to turn the scale, if counted.

Besides all of this—and most important of all—is the fact that many of the voters of this county are not "stick to the party" voters, but many on both sides indulge liberally in "outs" for personal reasons; they vote for men rather than for party, and this is as it should be in a county election.

The wet and dry vote will also have some bearing on the result, especially for state officers and member of Congress, and possibly for members of the House of Delegates, but is not likely to extend to strictly county candidates.

So, taken as a whole, the party that succeeds best in getting its vote to the polls; and whose voters best escape the "rejected" ballot total; and who get the most votes on personal popularity and adjudged fitness for the officers for which they are candidates; and who get the most of the "declined" voters, are the most apt to win; and all of this means that the result in the county is pretty sure to be in doubt until all the votes are counted.

WETHER TO PRAY FOR RAIN.

The question of whether prayer should be made for rain, has naturally aroused some debate, and as naturally the "Doctors" disagree, which is always one of the most unfortunate of facts. Dr. Harry Emerson Fosdick, of New York, who is noted for the positiveness of some of his opinions against the orthodox in religion, says, "the crude obsolete supernaturalism which prays for rain, is a standing reproach to religion;" which we take to mean, that it is childish and out-of-date to think that God, who created the universe and set it in motion, has now any influence over the laws of nature.

This opinion is attacked by Dr. Samuel G. Craig, prominent Presbyterian, who asserts that praying for rain is as logical as praying for anything else. "Whether God will answer any particular prayer depends upon his Sovereign pleasure; but no one who holds to the Christian view of God will deny his ability to send rain if he sees fit."

Here are presented two differing views, perhaps representing rationalism and fundamentalism. "When Doctors disagree, who shall decide?"

THE BALLOT FOR 1930.

The Record, in its issue for next week, will give a write-up concerning the ballot to be used on Tuesday, Nov. 4, designed to help voters especially those not accustomed to voting—to mark their ballots as they desire. As the ballot will be a large one, it will be necessary for unskilled voters to fully post themselves on marking their ballots, in order that their efforts may not fall in the "rejected" ballot class.

No attempt should be made to mark a ballot until after a "sample ballot" has been examined and is fully understood.

The Record office is not an instruction room, nor is assistance concerning the ballot especially offered; but, following our usual custom our office will render assistance to all who care to come to us for that purpose.

AN AGED QUILT.

Miss Mary Smith, Edge Grove, Pa., has in her possession a quilt which was made by her grandmother Spaulding, in 1812, while she was a student at St. Joseph's College, Emmitsburg. The quilt is made of pure white linen and has retained its color. There are many beautiful designs embroidered, fruit and flowers alternating. Mrs. Spaulding then Sara Ann Hughes, was a student at St. Joseph's during Mother Seton's time, the foundress of St. Joseph's college, and of the Sisters of Charity in the United States.

CAN NOT STOP HUNTING

Maryland Laws do not Give the Governor Authority.

Maryland hunters have little if any reason to worry about the possibility of being denied a gunning season this Fall because of the drought. Though hunting seasons have been closed by executive order in New York, Pennsylvania, New Jersey and Virginia for the purpose of reducing the forest-fire hazard, the Maryland General Assembly is the only power legally competent to call off Maryland's regular hunting season.

E. Lee LeCompte, the state game warden, has said that there could be no controversy over that matter. Gov. Ritchie and he investigated it very completely in 1927, he said, when an unusually dry season gave rise to some agitation for a suspension of the usual fall hunting season.

At the same time Mr. LeCompte pointed out that the hunting season for upland game in Maryland did not commence until November 10. The ducking season opens the first day of November, but inasmuch as ducks are shot on the water, the duck hunters are not likely to set any forests afire, he said.

"Hunters are really not responsible for as many forest fires as some people contend," Mr. LeCompte added. "We had our most serious forest fires of the year last May when there were no hunters out. Lighted cigars and cigarettes tossed from automobiles probably cause a lot of fires. In June the campers are responsible for many, too."

Of course, the hunters probably start some fires, too, particularly if they drop lighted matches or throw cigarettes and cigarettes around."

Karl E. Pfeiffer, assistant state forester for Maryland, said that his department planned to ask the governor to issue a proclamation requesting everyone to exercise unusual precaution during the hunting season against causing forest fires. A similar proclamation was issued by the governor, he said, during the last pronounced dry hunting season.

All Wardens and field men in the employ of the State Department of Forestry will be instructed to maintain a redoubled vigilance during the hunting season, he said. "The department lacks funds, however, to augment its field force during the hunting season, he said."

CARROLL COUNTY CENSUS.

The following are the population figures officially given out by the Census Bureau for Carroll County—

1920	1920
Dist. 1, Taneytown.....	2,503 2,533
Taneytown town.....	338 800
Dist. 2, Uniontown.....	1,904 1,945
Dist. 3, Myers.....	1,707 1,815
Dist. 4, Woolerys.....	2,629 2,743

LUTHERAN S. S. ASSOCIATION.

The Lutheran Sunday School Association of the Maryland Synod, will hold its annual meeting in Frederick, Thursday, Oct. 30, morning, afternoon and night. Approximately 1000 representatives are expected to attend. The program will be a very complete one, covering the three sessions.

The main speakers will be, Dr. W. A. Wade, president of Synod; Dr. Abdeil Ross Wentz; Rev. Chas. P. Wiles; Rev. J. S. Simon, D. D.; Rev. M. Hadwin Fischer, D. D.; Rev. M. D. Stirewalt; Rev. C. C. Russmeyer; Russell Arendt Campbell, and others having charge of features of the program, as well, official reports, etc.

Officers of the Association are: Rev. M. A. Ashby, Boonsboro, president; Walter C. LeGore, LeGore, secretary; C. C. Keeney, Walkersville, statistical secretary, and John S. Renn, Frederick, treasurer.

The morning services will consist of registration, devotional, president's report, greetings and responses, appointment of committees, addresses.

Afternoon session, conference on Departmental work, conferences for teachers. Appropriate addresses on various branches of Sunday School work, business session, reports of committees, etc.

The evening session, Luther League intermediate department work, and many additional features, at all of the sessions not here mentioned. Banners will be presented to schools having the largest delegations, not including Frederick county.

Convention committees are as follows: Program, Dr. M. A. Ashby, Dr. U. S. G. Rupp, W. C. LeGore, C. C. Keeney, John S. Renn; reception, Jesse Kolb, W. C. Staley, Philip Seeger; music, Robert L. Smith, Charles Opel, Jr.; entertainment, the board of managers of the Evangelical Lutheran Sunday School; registration, Mrs. C. E. Schildknecht, Miss Grace Hagan, Mrs. Lenhart, Miss Sadie Ogle.

TO PATRONS AND FRIENDS OF TANEYTOWN SCHOOLS.

You are cordially invited to attend the next meeting of the Parent-Teacher Association, which will take place on Tuesday evening, October 28, 1930, at 7:30 in the School Auditorium. Following the program a reception will be given in honor of the teachers.

STATE ROADS REPORTS FOR MARYLAND.

Great Progress Shown in Construction for the Year.

In the last ten years the area of Maryland more than two miles from a State highway has been reduced fifty-seven percent, according to a survey just completed by the State Roads Commission.

In 1920 44.2 percent of the State was more than two miles from a State road. On October 1 last, only 19.2 percent of the area of the State was in this classification. These figures are shown in the report by means of shaded maps.

Howard county had the best rating in both years. In 1920 twenty-seven percent of the area of this county was more than two miles from a State road. At present only one percent of the county is farther than two miles from a State road.

In 1920, thirty-three percent of Montgomery county was more than two miles from a State road. Now only five percent of the county is within such an area. Anne Arundel county also has a rating of five percent this year.

In 1920 Carroll County had 179 square miles of road, out of a total of 444 square miles, lying more than two miles from a state road; while in 1930 Oct. 1, it had only 42 square miles, or 9 percent of its area, more than two miles from a state road.

The main contracts in the county this year, were as follows:

Lineboro road, end	\$ 30,043
Taylorville, end	149,786
Penna. Line	38,719
Taneytown-Keymar, 1.81 m	56,764
Taneytown twd. Pa., 2.52 m	71,762
N. Windsor-Manchester 1.06 m	37,337
Day-Winfield, 1.02 m	19,791
Day-Winfield, 2.16 m	55,861

The report of the State Roads Commission, handsomely bound and illustrated, with maps, giving a complete review of the road work for the year, may be examined at the Record Office by those interested.

The book also contains a picture of the new concrete bridge over Pipe Creek, near Taneytown, and a view of a section of the shouldered road at Fountain Valley. It is plentifully illustrated with views of roads and bridges throughout the state, and contains numerous maps showing the progress in road construction since 1910.

FATAL AUTO ACCIDENT.

A fatal auto accident occurred last Sunday afternoon, about 4 o'clock, on the Susquehanna trail about one and a half miles north of Shrewsbury, Pa., when Marian J. Rehmeier, aged 11 years of near Glen Rock, Pa., was struck by a Ford Coupe driven by J. Carroll Koons, of Taneytown, and instantly killed.

The situation leading up to the sad event was as follows. The Rehmeier girl and a friend, Margaret Lentz, aged 14, had been taking a walk when they met Melvin Jones, aged 14, and Maurice Smith, aged 15 on horseback. The girls stood by the roadside talking to the two boys, who remained mounted, when suddenly, according to witnesses, the Rehmeier girl, without any explanation or her companions, darted directly in front of Mr. Koons' car, the result being that she was hit and thrown to the ground.

Mr. Koons was driving carefully at about twenty-five miles an hour, and had such control of his car that he was able to swerve it to the left, but not far enough to avoid striking the girl. Coroner Zech after a complete investigation, exonerated Mr. Koons fully from any responsibility in the case. Mr. Koons was accompanied by Miss Jessie Libhart, of Baltimore, on a pleasure ride.

"INSIDE" INFORMATION FOR WOMEN.

Cook cut celery with canned tomatoes. Or with an equal amount of thinly sliced white turnip.

Cooked cucumbers may be a novelty in your family. Pare and quarter them, and prepare as you would steamed squash. Serve with melted butter or a sauce if desired.

Try a stuffing for green peppers made of equal parts of fresh corn, cooked macaroni (in small pieces), and tomato, onion cooked in butter, salt and pepper. Any minced cooked meat on hand may be added.

Try sausage and fried pineapple. Cook sausage meat in flat cakes one-half an inch thick. Brown slices of drained pineapple in the sausage fat and place one sausage cake on each piece of pineapple for serving. Have the platter and the plate very hot.

A baby does not need shoes until walking time. Shoes put on before then, generally for appearance, do more harm than good. The first walking shoes should have flexible but firm soles, unpolished, preferably slightly buffed, and broad enough to be a steady platform under each foot. Very soft soles curl and make more difficult the baby's task of learning balance. Stiff or boardlike soles are also to be avoided. The toes of the uppers should be full or puffy, not flat and cramping to the toes.

WASHINGTON CO. DROUGHT NEEDS.

A survey by the Washington County Drought Relief Commission last week estimated that 900 farmers of the county were without collateral for bank loans and that of this number 200 would be dependent on charity. It is estimated that \$200,000 would be necessary to finance the farmers who were without security for loans.

Henry Holzappel, chairman of the county committee, told the Chamber of Commerce that county banks would stand the brunt of the loss on any loans to the farmers, with the only solution resting on Federal aid. He estimated the drought loss in the county at \$2,250,000.

MINISTER WINS PRIZE.

The first prize of \$100 in the Essay Contest conducted by the Board of Christian Education, was this year awarded to the Rev. Dr. John S. Hollenbach, pastor of the Manchester church. The Reformed Church has been conducting these contests annually. The prizes are made possible by a fund left by Dr. Rufus W. and Katherine McCauley Miller. The subject was: "The Place and Power of the Church Paper in the Christian Home."

FREDERICK FAIR A SUCCESS

Good Crowds Attend in Spite of the Cold Wave.

Notwithstanding the cold 20,000 persons attended the Frederick Fair, on Thursday, and there was good attendance on other days. The exhibits were very complete, and of fine order throughout.

On Thursday Mayor Broening, Republican candidate for Governor, and the other State candidates and Representative Frederick N. Zihlman, candidate to succeed himself in the 6th. district, mingled with friends on the grounds and in the grandstand. They arrived early in the afternoon and were guests of the fair officials.

Officials of a number of fairs were among the guests of the local management. These included J. F. Seldondridge, secretary of the Pennsylvania State Fair Association and secretary of the Central Fair Association embracing the eleven fairs of the eastern circuit, and Benjamin Amos, secretary of the Belair fair.

FREDERICK'S WATER SUPPLY IS VERY LOW.

According to the Frederick Post, the water situation in Frederick is very unsatisfactory. The water in the main dam is only half its usual depth. The dam covers an area of 11.57 acres, but at present the area is only a small portion of that, and a portion of the body is entirely uncovered, showing rocks, stumps and boulders, and of course, a lot of dried mud.

At night, this supply is not used but other sources are tapped, which gives the dam a chance to fill. The dam is fed by Fishing Creek which has now shrunk to two feet wide at some places, though at normal times it is a brisk stream. The water is good, what there is of it. The Post says:

"If every user of water in Frederick could see the main source of the city's water supply, Fishing Creek and its impounding dam, it would not be necessary to urge anyone to save water. The scene impresses its own story at a glance. Frederick's supply is at a dangerously low level. Any resident who wastes, or does not fail to conserve water during the present emergency menaces the common welfare. No one knows how long it will be before a beneficial rain will come. So far this month Frederick city's rainfall, according to official records, is only two hundredths of an inch, scarcely enough to measure."

THE ORPHANS' COURT.

Monday, Oct. 20th., 1930.—Harry L. Feeser, Oliver E. Lambert and Edith K. Malone, administrators d. b. n. c. t. a., of William H. Knox, deceased, reported sale of real estate on which the Court issued an order n. si.

The last will and testament of William H. Swartz, deceased, was admitted to probate.

John H. Conaway and George E. Conaway, executors of William H. Conaway, deceased, reported sale of real estate which was immediately ratified by the Court and who settled their first and final account.

Pearl E. Chrest, executrix of Vernon A. Chrest, deceased, settled her first and final account.

Calvin H. Valentine, executor of Charles E. Valentine, deceased, settled his first and final account.

Charles E. Royer and Robert Gist, Trustees, estate of Ezra M. Bish, deceased, reported sale securities and received order to deposit funds.

Letters of administration on the estate of Hattie A. Irvin, deceased, were granted unto Charles H. Irvin, who received warrant to appraise personal property and order to notify creditors.

The sale of real estate of Sarah J. Slick, deceased, made by Hickman W. Sniar, executor, was ratified by the Court.

Letters of administration on the estate of Howard S. Penn, deceased, were granted unto Robert E. Penn, who received warrant to appraise personal property and order to notify creditors.

Letters of administration on the estate of George P. Ritter, deceased, were granted unto Lydia Anna Stonesifer, who received warrant to appraise personal property and order to notify creditors.

Arthur G. Wantz and Arthur L. Stonesifer, executors of Wesley J. Hahn, deceased, settled their first and final account.

A ROAD BOND ISSUE FOR CARROLL.

Question to be voted on at the November Election.

A matter that has been heard little of, is Chapter 244 of the laws passed by the legislature of 1928, that provides for authorizing a bond issue of \$200,000, for the building and improving of roads in Carroll County providing the same receives a favorable vote at the coming election. A copy of the proposed law will be found in this, and the next issue of The Record.

A reading of Chapter 244 will show that the sale and issue of the bonds is covered, the method of raising the interest thereon, their redemption, and in general the terminology usually connected with bond issues.

Voters should familiarize themselves with the proposed Act, and then vote "For" the Bond Issue, or "Against" the Bond Issue, as their judgment may dictate.

WAREHIME FAMILY HELD REUNION, SUNDAY.

A gathering of the Warehime family was held on Sunday, near Tyrone, Md., when quite a number of the relatives and friends were delightfully entertained by Mr. and Mrs. Noah H. Babylon, at their hospitable home, "Friendship Farm."

A bounteous dinner was served by the host and hostess to the guests at noon. During the afternoon a program of pleasing vocal and instrumental selections were rendered by the younger folks, which was much enjoyed.

Prior to departing for their homes in the evening, the guests were served delicious refreshments, consisting of home-made ice cream, cake, candies, etc.

Those present were: Mr. and Mrs. J. R. Warehime and son, John, Jr., of Westminster; Mr. and Mrs. Russell Warehime and children, Richard and Isabel, of near Frieslandburg; Mr. and Mrs. Herschel Warehime and son, Vincent, and Mr. and Mrs. William Stout, of Baltimore; Mr. and Mrs. Maurice C. Warehime, daughter, Ruth and son, Robert, of Littlestown; Mr. and Mrs. John Black and daughter, Garnet, and Mrs. Ellen Starner, of Manchester; Mr. and Mrs. Chester Fuhrman, of near Melrose; Mr. and Mrs. William Leppo and son, William, Jr., of Westminster; Mr. and Mrs. David H. Leppo, daughters, Romaine and Marie and sons, Earl and Woodrow, of near Westminster; Mr. Frank Hartlaub, of Littlestown; Robert Shaffer, of near Westminster; Miss Edna Stewart, of Union Mills; Mrs. Mary Stribe, of Baltimore, Miss Isabel Babylon, and Mr. and Mrs. Noah H. Babylon.

A SURPRISE PARTY.

(For The Record.)

A surprise party was held at the home of Mr. and Mrs. Clarence Hawk, on Oct. 17th., in honor of their sons. The evening was spent in playing games and social conversation. At a late hour all were invited to the dining-room where refreshments were served.

Those present were: Mr. and Mrs. Clarence Hawk, Mr. and Mrs. Charles Stambaugh, Mr. and Mrs. Norman Hess, Mr. and Mrs. Clarence LeGore, Mr. and Mrs. Ralph Hess, Mr. and Mrs. Oliver Fogle, Mr. and Mrs. Luther Fox, Mr. and Mrs. Harvey Wantz, Mr. and Mrs. Lewis Boyd, Mr. and Mrs. William Weishaar, Mr. and Mrs. Harry Clutz, Mr. and Mrs. Luther Harner, Mr. and Mrs. Albert Hahn, Mr. and Mrs. Russell Eckard, Mr. and Mrs. James Harner, Mr. and Mrs. Upton Dayhoff, Mr. and Mrs. John Harner, Mr. and Mrs. Roland Reaver, Mr. and Mrs. Preston Smith, Mr. and Mrs. Maurice Baker, Mr. and Mrs. Ernest Smith, Mrs. Wm. Smith, Mrs. James Weishaar, Misses Addie Fogle, Thelma and Elizabeth Clutz, Ruthana Eckard, Grace and Clara Weishaar, Dorothy and Laura Belle Dayhoff, Pauline Fox, Cathryn Hess, Catherine and Annabelle Stambaugh, Mildred Baker, Thelma Harner, Velma, Grace and Gladys Smith, Thelma Sell, Virgie Boyd, Charlotte Hess; Messrs. Roland Fleagle, McClue Dayhoff, Theodore Fair, Delmar Baumgardner, Glenn, Earle and Kenneth Hawk, Charles and Robert Anders, Willie and Eddie Weishaar, Jerry Snider, Wilmer, Ralph, Lloyd and Fern Baker, Sterling and Junior Eyer, Walter Harner, Maurice Becker, Charles Kelly, Ray and Elwood Harner, Loy LeGore, Everett Hess, Junior Harner, Ray and Roland Reaver, Glenn Dayhoff, Eugene Stambaugh and John Fogle.

C. E. RALLY AT KEYSVILLE.

The Keysville Lutheran C. E. Society will hold a C. E. Rally at the Keysville Lutheran Church, on Sunday evening, Oct. 26, at 7 o'clock. A special program is being arranged. There will be short talks by the different members of the Society. The program also consists of several duets, a recitation, and a quartet. Rev. Olen Moser will give an address. The public is cordially invited to attend and bring family and friends.

MARRIAGE LICENSES.

Carroll F. Merson and Pheobe Davis Washington, D. C.

Russell P. Matthews and Estelle R. LaMore, Kensington, Md.

Hamilton Snowden and Mary Milligan, Baltimore, Md.

Harry C. Clark and Cecilia G. Hessler, Shamokin, Pa.

THE PENNA. CAMPAIGN.

Is of Great Interest to Voters in Maryland.

Only second in interest to the gubernatorial election in Maryland, to Carroll counties, is the contest going on in Pennsylvania between Pinchot, Rep. and Hemphill liberal-Democrat; the former very dry, and the latter very wet. However, while this feature plays a quiet and very important part in the contest, it is by no means the chief issue.

The Republican organization and the Vore influence, in Philadelphia, are against Pinchot, and the city Republican papers so color their news as to benefit Hemphill, though not openly supporting him.

On the other hand, many of the leading Democrats in the state repudiate Hemphill and vigorously support Pinchot, who is making his campaign largely against some of the big corporations of the state, and the Public Service Commission, alleging the evasion of taxpaying and many acts of unfairness to many cities and sections of the state by certain corporations.

The big elements of doubt in the result rests in whether a sufficient vote will be returned from Philadelphia to overcome the rest of the state; and especially considering the reputation of the city for some of its recent returns of votes cast, there are reasonable grounds for thinking that this might be possible.

The state is unquestionably stirred up, politically, as it has perhaps never been before; and at present there are claims of victory on both sides, that are mere hopes rather than assured facts.

The Pinchot opposition is using all available arguments against him, even questioning its Republicanism and classing him with Western insurgents; also alleging that he is a political opportunist and a crusader for his own particular views on public matters. The fight in the party, however, is solely over Pinchot, and does not extend to candidates for Senator or the House of Representatives.

HIGH SCHOOL NEWS TANEYTOWN.

The Parent-Teacher Association will hold its regular monthly meeting Tuesday evening, October 28th. Delegates will be named to attend the State Parent-Teacher Association meeting in Frederick, November 18-20. Assistant County Superintendent Biehl, of Frederick county will address the association Tuesday evening. Music will be furnished by the Hess quartette.

The report cards for the first quarter will be given out October 31st. Parents will observe that this is a new card and it shows much more than the old card. It gives a real cross section of the work the pupil is doing. Please study the card carefully and if explanation is necessary consult the principal.

There will be no school on Friday as the teachers are all attending the annual meeting of the State Teachers Association in Baltimore.

Mr. Smith attended the Westminster Rotary Club, Wednesday evening. All the principals of Carroll County were invited.

Taneytown defeated Union Bridge by a score of 2 to 1, Friday last at Union Bridge. The goal for Taneytown was kicked by Walter Hahn.

The teachers are busy taking the bi-annual school census. Parents are asked to sign these blanks as a means of check on the information given. It is hoped that no parent will refuse this little favor. These census are taken by the State Department of Education.

A new Compton's encyclopaedia was purchased by the elementary school on Monday last.

The dates for the operetta are Friday and Saturday nights, November 7 and 8.

THE COLD WAVE.

The cold wave here was due to blizzards in various parts of the country, the heaviest snow-fall apparently being in the Lake Erie region in New York, where the depth of snow has been reported from six inches to four feet, on Sunday. Snow and cold was also general in the middle west, reaching to the Atlantic Coast. Freezing temperature (32°) was pretty general throughout Northern Maryland on Monday and Tuesday mornings.

The Pacific Coast and the South were the only sections to escape the first attack of winter, the frost extending as far south as Kentucky and Tennessee, West of New York, Buffalo, Jameson, Watertown and Dunkirk were the hardest hit; a milk shortage of 8000 gallons resulting at Buffalo, due to snow-bound trains. The lowest temperature was reported from Montana—12° above zero.

Cumberland and Hagerstown reported a temperature of 21° on Wednesday morning, with ½ inch of ice on still ponds, and all vegetation killed, as well as late apple crops.

NOVEL CAN SOCIAL.

(For The Record)

Said a canner young Scot to his Granny: A canner can can anything that he can, but a canner can't can a can, can he?

The members of the Reformed Church and their friends are cordially invited to attend the Halloween Can Social to be held in the Sunday School room, on Friday, Oct. 31, at 8 o'clock.

Admission, one can of fruit, vegetables, or anything you "can."

All cans will be sent to Hoffman Orphanage. Come join with us in an evening of music, games and refreshments.

THE CARROLL RECORD

(NON-PARTISAN)

Published every Friday, at Taneytown, Md., by The Carroll Record Company.

P. B. ENGLAR, Editor and Manager.

BOARD OF DIRECTORS.
G. A. ARNOLD, Pres. D. J. HESSON, V. P.
G. W. WILLY, Sec'y. P. B. ENGLAR.
WM. F. BRICKER.

TERMS—Strictly cash in advance. One year, \$1.50; 6 months, \$1.00; 3 months, 75c; 4 months, 50c; single copies, 5c. The label on paper contains date to which the subscription has been paid.

ADVERTISING rates will be given on application, after the character of the business has been definitely stated together with information as to space, position, and length of contract. The publisher reserves the privilege of declining all offers for space.

All advertisements for 2nd, 3rd, 6th, and 7th. Pages must be in our Office by Tuesday morning each week; otherwise, insertion cannot be guaranteed until the following week.

All articles on this page are either original or properly credited. This has always been a rule with this Office, and we suggest the adoption of it by our exchanges.

Entered at Taneytown Postoffice as Second Class Matter.

FRIDAY, OCTOBER 24, 1930.

FOR SHERIFF.	
JOHN A. SHIPLEY	REP.
RAY YOHN	DEM.

ONE THING THAT CAN'T BE DONE

Just at a time when the country appears to most need economical administration of governmental affairs, and lower taxation, along comes the demand that work be found—almost invented—for the unemployed. The President is appealed to for "immediate" relief, in both directions. The navy for instance, in the world-plan for naval reduction, naturally calls for reduced activities and help, while those being "laid off" want their jobs back, or their equivalent.

The farmers, especially, are demanding lower taxation, and with complete justice. Roads and schools are equally demanded most imperatively, and bond issues are urged that must eventually be paid—principal and interest, by the tax-payers.

The recent convention of the Federation of Labor, held in Boston, demanded continued employment, and the maintenance of the American standard of living by laborers, and this is a worthy appeal. All city governments are perplexed with the need of both retrenching in expenditures, and at the same time keeping populations employed.

The cry from both sides is for the President or the state, to "do something" to help their appeals. The "government" is appealed to; but, it is also the "government" that must levy and collect taxes to pay for all of its activities.

What is the solution? There is none that everybody would like. We must undergo painful operations, and endure disagreeable experiences, and pay heavy costs, very frequently, to have our physical ills remedied; and the same result applies to our social and financial ills—as some things that some persons demand can be had only at the expense of somebody else. All things for everybody, to their full satisfaction, represents at least one thing that can't be done.

CONCEALED WEAPONS LAW.

Something like a wide-spread sentiment is being attempted against the law making the carrying of concealed weapons a crime, the argument being that the law merely disarms good citizens, and makes them easy victims of the "hold-up" and general criminal classes, and that the law does not stop crime, but rather aids it.

There is undoubtedly food for serious thought in the argument. True, the finding of a pistol on the person of a suspect often leads to his detention, when no other evidence is present. Getting a suspect in jail and keeping him there for a time, gives the officers

of the law time to look up his record and later bring more serious charges against him.

It is true, too, that the possession of a weapon may invite its use in very trivial cases, and especially when liquor helps the shooting spirit. Boys may also be led to carry a pistol when they see men do it, and sad results may follow in such cases.

And yet, under some circumstances, especially considering these days of numerous hold-ups and numerous violations of the peace, honest men should not be made suffer because the law compels them to go about without the protection afforded by a handy fire-arm; which law in itself also has the tendency to discourage fire-arms in the home, which the law does not prohibit.

This law, in part at least, is the delusion on the part of well-meaning persons who think too strongly that a law against crime will prevent it—"guns" are still carried by criminals, and always will be.

MR. FORD'S REPORTED PROPHECY ABOUT WAGES.

Henry Ford who earned the distinction of being the first employer to pay \$5.00 a day for ordinary labor—as much as he could use of it—and thereby got a big lot of free advertising, is now reported to have predicted that by 1950 wages for skilled labor will be \$4.00 an hour, or \$27.00 a day.

And, as a close second to Mr. Ford, the president of a labor organization is urging a five-hour day and a five-day week, as just part of his plans for improving labor conditions. Mr. Ford has the advantage of setting a definite time for the pay, but the labor leader beats him by offering five-hour days instead of six and one-half hours.

Both are too prophets in futures, and likely both could get together on details, and work out a plan that would spread the whole country thick with earned wages—but, neither has said anything about where the work is to come from, and this is an important omission.

Also, nothing is said of the possibility of increased unemployment; but probably both would agree that this is the government's business anyway, so why should they worry about that?

Another fly in the ointment is that Mr. Ford has put off the fulfilment of his prediction twenty years hence, which forces the conclusion that Mr. Ford is a very canny prophet, and plays safe so far as his time in business, and the prospects of his being one of the paymasters, is concerned.

THE GOOD LOSER.

We should be "good" losers but not "too easy" losers. Taking defeat as philosophically and patiently as possible, after one has made a good fight—for a right principle, or end—is but the exercise of moral courage and good sense such as is naturally expected from a good fighter.

But, defeat in many cases should be accepted as temporary, rather than permanent. We should not forget the motto—"If at first we don't succeed"—in something right—"we should try again," and we assume that this is meant in connection with the following from the Philadelphia Ledger.

"Possibly the first lesson of life is the trick of taking its troubles less seriously than they seem to deserve. The child must learn it by bumps and bruises, the youngster must cultivate a stiff upper lip or be miserable among his fellows, the young man and woman must face their future prepared for trials as well as triumphs. It is the discipline of experience which discovers that difficulties and disappointments lie along every uphill road and that those who whine and lose courage before them will never deserve success nor attain it.

It is because of this that the quality of good sportsmanship is so much honored in every game and friendly contest of wits and strength and skill. These are pictures in play of the grimmer game which all must engage in if life is to be made worth while. The good loser in sport is an acknowledged example to those who measure their strength against the chances and circumstances of daily living. He is not blamed for failure who has done his best and kept his courage and good humor unharmed by defeat."

THE RAILROADS HELP.

Once again the railroads have been called upon to assist in what amounts to a national emergency by making substantial reductions in freight rates on farm products in the drought-stricken area. They have readily enough assented to the plea for reduced rates. So far no request has been made of commercial motor truck lines, which are taking a large part of the railway freight business, to do likewise.

There seems to be developing an idea that for the railroads it is always "more blessed to give than to receive." Railroad security owners, already affected by the tremendous shrinkage of over 33 percent in net railroad operating income for the first six months of 1930, cannot but note how the rail lines are called upon to make further sacrifices, and how their truck lines competitors are al-

lowed to skim the cream from the transportation business without being called upon to make emergency rates in time of stress.

In 1929, the railroads were asked to reduce freight rates on wheat flour designed for export, on the theory that this would relieve congestion in the wheat markets. Politicians got the benefit of passing a "farm relief" measure, even though it was impractical, and the railroads stockholders lost considerable revenue. Immediately after the stock market crash railroad executives were the first called to Washington where they pledged themselves to maintain their budgets for expenditures to sustain wages and employment as far as possible.

For the first six months of 1930 railroad earnings were at the annual rate of only 3.61 percent as compared with a possible 5.75 percent which the Transportation Act permits them but which they have never been able to earn.

No means of transportation has yet been found which is a substitute for the railroads. It would be well for the public to realize that it is the real loser in any policy, state or national, which tends to discourage railroad development.—The Manufacturer.

REVIEW OF THE PROHIBITION ISSUE IN NOV. ELECTION.

Prohibition in many phases is presented as an issue to the voters in the election of November 4, 1930.

There are 435 members of the House of Representatives and 35 members of the Senate to be elected this year. In any consideration of the result of the Congressional elections in 1930 as it may relate to wet and dry strength in the next Congress, it should be borne in mind that due to the Hoover landslide in 1928, there is in the present 71st. Congress a somewhat disproportionate dry majority. Many more people participated in the election in the Presidential year than usual and a larger number of them voted dry when the issue was made in the Presidential contest. It is natural to suppose, therefore, that in an off-year election there would be a return to a more normal division between wets and dries. To date, however, there may be said to be indications only of a slight trend toward normalcy rather than any significant gain in wet strength.

The wets are better organized than formerly. A larger number of wet candidates have entered the primary contests, but only in a very few districts in which are large cities to which there has recently been an influx of population and where there is a wet press, have they made any progress. There they have concentrated their attack and in a few instances have succeeded in defeating dry Congressmen for renomination. A notable instance of this is the district represented by Hon. Grant M. Hudson, an outstanding dry whose district was the most populous in the United States, having a total population of 537,743, and which included a large portion of the city of Detroit, as well as the cities of Flint and Lansing, well-known centers of the automobile industry. In Detroit the most bitterly fought mayoralty contest in years tended to bring out the city vote, while less interest was manifested in the rural sections. The nature of the fight that has been made in the primaries should constitute a warning to the dries and arouse them to greater activity in the November election.

The wet candidates running for the Senate and House of Representatives show the same division of view with respect to a change in the existing law and Amendment as characterizes the issue in the states. Some are for the outright repeal of the Eighteenth Amendment and the restoration of the police power to the states; others favor government control; some advocate beer and wine; some a quarter-month provision similar to that which obtained in some of the southern states prior to national prohibition, and many other varieties of modification, depending upon what they regard as the degree of wetness among their constituents.

To date nominations for the Senate and House of Representatives, made either by primaries or conventions, have been made in all of the states, and the election has been held in one state—Maine. The results would indicate that the dries are certain of a gain in the Senate of a vote from Maine, where Representative White, who ran as a dry, succeeds Senator Gould, who did not stand for re-election, and who remained silent on the prohibition issue six years ago when elected but afterward failed to support dry legislation.

In Pennsylvania, the seat to which Mr. Vare, a wet, was elected but never admitted and to which Mr. Grundy was appointed, will unquestionably be filled by Hon. James J. Davis, who ran as a dry. The victory of Mr. Morrow in New Jersey will represent no change, as Mr. Edge, his latest elected predecessor, was wet. In Montana there will be a contest between Senator Walsh, who has a dry record, and Mr. Galen, a wet who has been nominated by the Republicans. In Texas, Senator Morris Sheppard, the author of the Eighteenth Amendment, was renominated by about 352,033 majority over a former Congressman who ran as a wet, a greater majority than was given Mr. Morrow in New Jersey.

In South Carolina the nomination of former Representative Byrnes over Senator Blease will represent no change in voting strength, for although Senator Blease was personally opposed to prohibition, he voted for it in response to the acknowledged wishes of his constituents. Likewise the change in Louisiana from Senator Ransdell to Governor Long will not affect the voting strength. In North Carolina Senator Simmons was defeated for renomination by Mr. Bailey. Both campaigned as dries. In Alabama, Senator Hefflin, because of his support of the Republican President-

ial nominee in 1928, was not admitted to the Democratic primary. The regular Democratic nomination went to Mr. Bankhead, who ran as a dry. Senator Hefflin has filed as an independent Democrat and will contest Mr. Bankhead in the November election for the Senate seat. In all the southern states the Democratic nomination is equivalent to election, so far as Republican opposition is concerned.

In Nebraska the contest will be between Senator Norris, a dry, and former Senator Hitchcock, a wet Democrat. In Ohio the contest will be between Senator McCulloch, a Republican dry, and Mr. Bulkeley, a wet Democrat. In Wyoming the contest will be between former Governor Carey, dry Republican, and Mr. Schwartz, a modificationist Democrat. In Illinois the contest will be among Mrs. Ruth Hanna McCormick, who ran in the primary as a dry but after nomination pledged to vote in accordance with the referendum to be held on November 4; former Senator J. Hamilton Lewis, Democratic wet; and Mrs. Lottie Holman O'Neill, independent Republican dry. In Delaware the contest in the election will be between Senator Hastings, Republican nominee, who has supported prohibition legislation, and former Senator Bayard, Democrat, wet. In Massachusetts former Senator Butler, running as a dry, defeated Eben S. Draper, a wet, for the Republican nomination. In the general election he will contest with Marcus A. Coolidge, a wet Democrat.

In the states not named prohibition is either not an issue or the nomination is equivalent to election and there will be no change in the wet and dry strength in the Senate.

In the House of Representatives, in one district in which nomination is equivalent to election, the nominee of the majority party is dry and will likely replace a sitting wet member. There are nine districts now held by the dries in which nomination is practically equivalent to election, or where the nominee of the opposition party is wet, in which wets have been nominated. This would leave an apparent loss to date of nine in the House of Representatives.

It is estimated that the wet and dry strength in the present House of Representatives is approximately 329 dries to 106 wets. When this is considered it will be appreciated how slight has been the change in the complexion of the House on the basis of the nominations thus far made. The Association against the Prohibition Amendment recently issued a statement claiming an accession of 29 votes in the next Congress for the repeal of the Eighteenth Amendment. Twenty of these 29 were members of Congress who had formerly stood for modification and who have now indicated that they favor repeal of the Eighteenth Amendment. These 20 were never claimed by the dries and were always classified as wet. As to them there is no change, from the dry standpoint. In addition, they claimed that they will gain nine votes as a result of the primaries. An examination shows that the representatives from a number of these districts were never classified by prohibitionists as dry. There are a few districts in which the issue between the dries and wets will not be settled until the election.—Anti-Saloon League.

Many Plants That Lure Insects to Their Death

There are a great many varieties of insectivorous plants which grow almost all over the world. The first group of these plants is known as the pitcher plants, which have the blossom in the form of a pitcher which acts as a death trap for flies and other insects. The insects are attracted by a fragrance or some other lure, enter the mouth of the pitcher, and crawl down toward the bottom, being forced onward by small spikes downward pointing from the sides of the pitcher's throat. The poor fly is thus given no chance to escape and when he reaches the bottom he is caught in the sticky mass of fluid there and his body juices absorbed by the plant. Two other types of insectivorous plants are the Venus flytrap genus and the Dionaea which grows only in the low coast regions of North Carolina. This little plant is probably the most famous stem variety of the insect-eating plants. A third type is a Sundew Drosera, which is common to Australia. This is also a large genus containing a great variety of species.

Bit of Greece in France

Antibes, like all the other places along the fascinating French Riviera, has had a romantic history, says a writer in the Detroit News. It was founded more than 2,000 years ago by descendants of the Greek colonists who had built a thriving city on the site of Marseilles. Legend says that among these first settlers were some men and women who had come from Greece and that they chose Antibes as a place to build because the scenery there reminded them so much of Greece. Phenicians and Carthaginians, Romans and Gauls, Germans and Italians and French—they have all met on this coast in the centuries that have passed since, but Antibes has managed more than any other town in France to retain its Greek appearance.

University's Art Treasure

A full-size copy of Murillo's "Immaculate Conception" in mosaics is in the chapel of the Catholic university at Washington, a gift from Pope Pius XI. Three artists labored nearly four years in the Vatican mosaic studio to piece together nearly 800,000 bits of colored glass and of other mineral compounds which form the finished picture, the original of which is preserved in the Prado at Madrid. The mosaic is 9½ feet long and 6 feet wide. Without a frame, it weighs 6,900 pounds. The pieces are of 20,000 different tints and shades.

Taneytown's "Leading Fashion Store"

BALL-BAND RUBBER FOOTWEAR

Koons Bros.

DEPARTMENT STORE.

TANEYTOWN, MD.

The Stylish Values in our Store remind you that Fall Merchandise is here.

DRY GOODS DEPARTMENT.

Staple goods, in Percalés, plain and fancy Gingham, Dress Prints light and dark outings, sheeting and Pillow Tubing and Table Damasks

NOTION DEPARTMENT.

Special values in Men's and Ladies' Sweaters, in button Coat or Slip-Over style. Dress Shirts of broadcloth, Madras and Rougee. Hosiery of all kinds. Special prices on Ladies' full-fashioned Silk Hose, in all the new Fall colors. Underwear in wool and cotton.

HATS AND CAPS.

A new selection of the latest styles and colors in Hats. Our Hats are shaped correctly and the prices are very low.

BLANKETS AND COMFORTS.

Matchless values in Plain and Plaid Wool, part Wool and Cotton Blankets. Bed Comforts in fancy cretonnes.

SHOES. SHOES.

Special values in all our long wearing Shoes. Men's heavy Work Shoes, the kind that wear. Men's Dress Shoes and Oxfords in Tan and Black.

Ladies' Oxfords and Pumps in the up-to-the-minute styles, in Patent and Kid.

CLOTHING.

Men's ready-to-wear Suits and Top Coats in the latest colors for Fall. Also leather, leatherette and sheeplined Coats.

FLOOR COVERINGS.

Gold Seal Congoleum and Floortex Rugs in new Fall patterns. Floortex by the yard, width 2 yards.

POULTRY

MAKING PROFITS
RAISING SQUABS

Careful Attention Must Be
Given to Details.

(Prepared by the United States Department
of Agriculture.)

Squab production will return a fair profit to persons who are willing to give careful, regular attention to the right kind of pigeons. Poultry men sometimes raise squabs as a specialty, but more commonly as a side issue to general farming or backyard poultry raising. Poultry specialists of the United States Department of Agriculture point out that it is advisable to start on a small scale and observe market conditions. Details concerning the method of housing, selection of breeding stock, and management of pigeons are described in Farmers' Bulletin 684-F, "Squab Raising," recently issued in a revised edition. "The greatest difficulties that confront the beginner," the bulletin explains, "are procuring good breeding stock and finding a market for the squabs. The profits in this business have been greatly over-estimated. In successful plants producing market squabs only, the average annual return above cost of fuel is between \$2 and \$2.50 for each pair of breeders. To be successful at the business, the squab raiser must give careful attention to details and have a thorough knowledge of squab production."

The following important points in squab raising are mentioned in the bulletin. A variety of good-quality, hard grains, including peas, should be fed; the pigeon pen should be dry, well ventilated, and free from rats and mice; and a double nest should be provided for each pair of breeders. Supply fresh drinking water, protected from dirt, and provide a separate pan for bathing. The squabs should be marketed as soon as they are feathered under the wings. Copies of Farmers' Bulletin 684-F may be procured from the Office of Information, United States Department of Agriculture, Washington, D. C.

Turkey Business Shows

Satisfactory Increase

Turkey raising in the United States has been regarded as a side issue and gamble, but increasing knowledge of parasitic diseases and their control is putting the industry on a more stable basis, says A. R. Lee, poultry husbandman of the United States Department of Agriculture. "There are now more than 3,500,000 turkeys on farms in this country, and they constitute 1 1/2 per cent of all poultry. The 1929 crop of market turkeys indicated a decided advance in the business as compared with 1928. The estimated increase was about 9 per cent."

Pullets Beginning to

Lay Need Proper Mash

Pullets ready to start their careers as layers are ready for the feed of their elders. At this age they need a laying mash which contains more animal protein.

The University of Wisconsin suggests as a mash for pullets about to start laying, equal parts of ground corn, ground oats, wheat bran, standard middlings, and meat scraps. Salt is added to the mixture, at the rate of five pounds when 100 pounds of each of the five ingredients are used.

Poultry Hints

Jats, when first started, make excellent forage for chicks.

Pullets' eggs usually do not bring as high a price on the market as do hens' eggs; therefore, it is to the advantage of the poultryman to bring the eggs up to normal size as soon as possible.

Grain, oyster shell and water are other essentials in a laying ration. Milk is an excellent poultry feed and may be substituted for one-half the meat scraps in the mash, if it is kept before the hens all the time.

Alfalfa is an ideal pasture for poultry. It is perennial and probably offers the most nourishment of all the plants you might grow.

Good Thanksgiving turkeys are well fed and fattened. A fat turkey carries a great deal of flesh and the meat is of higher quality.

There is so little difference in the merits of the White Rocks and Barred Rocks that few owners would venture to recommend one in preference to the other.

Egg size can be increased, quite often, by feeding milk in some form. If skim milk is plentiful on the farm, it is advisable to mix a wet mash with milk instead of water. Milk may also be provided in the drinking fountains.

There is nothing which will improve the quality of summer eggs more than the production of infertile eggs. This means that all roosters should be removed from the breeding flocks just as soon as hatching eggs are no longer needed.

African Gorillas Going

Like American Buffalo

The gorillas of the British hills of Africa are dying out, principally from the ravages of big-game hunters who kill for the mere pleasure of it. The animals are given some degree of governmental protection in some parts of the African continent, but on account of the difficulties of guarding the country the protection does not amount to much. The Nigerian groups are somewhat larger, but are being decreased rapidly by the hunters. The natives, as a rule, are not in sympathy with this slaughter, for they regard the animals with friendly interest. It is only on rare occasions that they show any inclination to attack humans. The gorilla units confine their movements to certain well-defined limits, and they roam about the country harmlessly and quietly. As a rule they keep to the country, which is somewhat inaccessible, and make excursions into the inhabited portions only when driven there by the unfavorable conditions existing in the high countries. The native regard for these animals may be based upon superstition to a certain extent, and it is quite common for the native tanner to refuse to touch the pelts brought to them by hunters.

Land Erosion Serious

Matter to the Nation

Erosion continues to wash away the soil resources of the nation. A recent survey of a typical small valley in northeastern Kansas shows that 86 per cent of the land, comprising the greater part of the valley, has lost from 8 to 40 inches of soil since it was cleared 40 years ago, the United States Department of Agriculture reports.

Thirty-four acres had lost an average of 11 inches of soil, 45 acres had lost 18 inches, 10 acres had lost 21 inches, 2 1/2 acres had lost 23 inches and 1 1/2 acres had lost 3 1/2 feet of soil. The "yardstick" for measuring the losses was found in a few remaining patches of timber, where the soil was as nature originally built it—a mellow, rich silt loam almost black with spongy humus, and capable of producing 75 bushels of corn an acre. Now

the land is very much less productive. Much of it is overrun with weeds. In the meantime the washing proceeds.

Women Read Most

Women read far more than men, according to the manager of one of Great Britain's largest lending libraries. Women of all ages, he stated recently, are enormous and rapid readers. They will read anything—however good, however light, and no novel is too "strong" for them. Men are not like that. They read either very good books or literature of the very lightest kind. Strangely enough, he added, men who would be considered the most "highbrow" often delight in the most "lowbrow" literature. Men who are harassed by important affairs, including many distinguished statesmen, often seek relaxation in books which hold their interest without demanding any close concentration on their part.

Fortunate

"I never thought I'd pull through, but I did. First I got angina pectoris, followed by arteriosclerosis. Just as I was recovering from these, I got tuberculosis and double pneumonia. Then they gave me hypodermics. Appendicitis gave way to aphasia and hypertrophic cirrhosis. Afterwards I had diabetes and acute indigestion, besides gastritis, rheumatism, lumbago, and neuritis. I was given morphia—"

"Good heavens, you don't look much the worse for it."

"I wasn't ill, you idiot! I was up for my spelling test in connection with a health department job."

Not Meant for Aquarium

It is very difficult to transport live octopi even from place to place on the sea coast, and this difficulty becomes almost insurmountable to a spot far inland. Octopi must be kept in running sea water of equable temperature, and the feeding presents a difficult problem since octopi relish small fish and mollusks, which should be alive. There is no way to prevent an octopus from discharging the black fluid which it employs as a protection,

and the water becomes clear after such a discharge only when the discolored water is all run out.

Sea Snakes

It is believed that sea snakes do not grow much longer than 12 or 13 feet, says an article in Pathfinder Magazine. Speaking of sea snakes found near the coast of northwestern Australia the National Geographic society says: "Sea snakes are frequently seen curled up asleep on the surface of the water. These reptiles are poisonous and grow to about 12 feet in length." Sea snakes are distinguished by the compressed, rudder-shaped tail, and they are unable to move on land. Their food consists chiefly of fish.

Beautiful Venice

The city of Venice is situated on 120 islands in a shallow bay of the Adriatic sea, the gulf of Venice. The islands are close together and are only separated by narrow canals, which serve as streets. There are about 175 of these, over which there are 378 bridges. The city is two and a half miles from the mainland and connected by railroad bridges which contain 222 arches. It covers an area of 944 square miles and the population in 1921 was 519,208.

Originated in Germany

Skat, a card game now known throughout the world, originated in Altenberg, Germany, in 1821, writes George P. Hambrecht in the Wisconsin State Journal. Up to 1817 the Italian game of tarock held full sway over the card-playing public in their clubs and societies in Germany, but in that year tarock began to be replaced by schafkopf, which became the nucleus of the modern skat.

Boiling Point of Water

The boiling point of water varies with the pressure. In water under ordinary conditions it is 212 degrees Fahrenheit or 100 degrees Centigrade, but it becomes less with lessened atmospheric pressure, as in ascending a mountain, being lowered about one degree Fahrenheit for every 550 feet of ascent or one degree Centigrade for every 961 feet. The boiling point of water at the summit of Mt. Blanc (15,781 feet) is about 85 degrees Centigrade. It would take less heat to raise the temperature of water to 85 degrees Centigrade than it would take to raise it to 100 degrees Centigrade. Thus water would boil more quickly at higher level.

No Place Like Home

A person is hurt every 30 seconds in the American home. The trouble is that is where the jaywalkers, the speed boys, the youngsters who race for crossings, the idiot who takes the wrong side of the street, the daredevils at intersections, the morons on the wheel, the drunk drivers, the aged, the babies that play in the street, the absent-minded, the fellows who race through signals, the near-sighted, the road hogs, the slow pokes, folks who are just learning to drive, the children who are too young to get a license, the careless, the incompetent, the scamp who gets mad, all live.—Los Angeles Times.

Bid for Fame

The late Luther Burbank said one day to a Los Angeles reporter: "Almost any man can succeed if his aim is a good one. Too many men adopt bad aims. A long-haired musician rushed into the kitchen and said to his wife: 'At last, love, I have fame within my grasp.' 'How so?' the poor woman asked, and she looked up at him from the wash tub rather skeptically. 'You know Mendelssohn's "Wedding March"?' 'Yes.' 'Well, I'm going to write a "Divorce March".'

For Economical Transportation

Outstanding features of the new Chevrolet 6-cylinder truck

NEW DUAL WHEELS

6-CYLINDER 50-HORSEPOWER MOTOR

NEW RUGGED REAR AXLE

NEW FULLY ENCLOSED BRAKES

To every man who buys trucks, there are certain features in the new 1 1/2-ton Chevrolet that recommend it especially for modern hauling.

The rear axle is larger, heavier and more durable. The rear brakes are larger, and all four brakes are completely enclosed. Chevrolet's 50-horsepower valve-in-head six-cylinder engine combines modern performance with unexcelled economy.

Dual wheels, along with six truck-type cord tires, are optional equipment at slight extra cost. In addition, the new heavy-duty truck clutch, the 4-speed transmission and the heavier, stronger frame are factors of outstanding importance to the modern truck user.

Come in today and arrange for a demonstration of the new Chevrolet truck!

John H. Roop returned home on Saturday last, from a two weeks' visit to his son, at Greenville, N. C.

UNIONTOWN.

Mrs. Clayton Hann, Mrs. Clarence Lockard, Mrs. George Eckenrode, in company with Mrs. O'Mara and daughter, Miss Anna, of Glyndon, spent from Monday till Friday with relatives in Philadelphia.

Charles Harner, near Taneytown, spent last week with his sister, Mrs. U. M. Bowersox and family.

Mr. and Mrs. Russell Fleagle, Mr. and Mrs. Harry Fowler, Nevin Hiteshew, spent the week-end in Cumberland, with the latter's daughter.

J. E. Formwalt, who remained in the city three weeks, during his wife's illness, came home Sunday. Mrs. F. is some improved.

Mrs. Orville Hamburg entertained a sister from Walkersville, last week. Mrs. Mary Eckard, Miss Louise Booker, Will Simpson, Wilmington, were week-end guests at T. L. Devilbiss. Mrs. Eckard stayed for a longer visit.

Alva Garner, Owings Mills, spent Wednesday at Mrs. M. C. Gilbert's. The Pipe Creek Mite Society was entertained by the Uniontown Society, at the parsonage, Wednesday evening.

The ladies of the M. P. Missionary Society will have their usual dinner, at Mrs. B. L. Cookson's, on election day.

KEYMAR.

Mrs. John Forrest, after having quite a lengthy trip, has returned to her home. At Twin Falls, Idaho, she spent some time with her daughter and son-in-law, Dr. and Mrs. G. C. Halley. She also spent a few days at Los Angeles, Cal., and spent some time at the Grand Campus, and stopped on her return for two weeks with her son and daughter-in-law, Mr. and Mrs. Elvin Forrest, at Albuquerque, New Mexico, and spent a few days with Mr. and Mrs. Gus Wagner, in Kansas City, Mo. Mrs. Wagner, before marriage, was Miss Myrtle Angell.

Mr. and Mrs. Upton Mehrling left, last Thursday morning, for Texas, where they will spend some time, probably the winter, as they have taken up land.

Mrs. Bessie D. Mehrling made a business trip to Washington, last week. Miss Lulu Birely spent a few days in Baltimore and Washington, the forepart of this week.

Mr. and Mrs. Wm. Weaver and family, of Waynesboro, Pa., spent last Sunday afternoon at the home of the former's uncle and aunt, Mr. and Mrs. R. W. Galt.

EMMITSBURG.

Mr. and Mrs. Roy Wagaman and Mr. and Mrs. James Wagaman recently visited friends at Altoona and Roaring Springs.

Mr. and Mrs. Alexandria Cauliflower and two children, of Altoona, visited friends here, over the week-end.

Miss Maggie Walters, Mr. and Mrs. Fred Harris, all of Baltimore, were week-end guests of Miss Flora Frizell.

Miss Pauline Frizell returned after spending several days in Baltimore.

Miss Jennie Smith is spending several weeks with Mr. and Mrs. Edgar Annan, Baltimore.

Miss Anna Bell Hartman and Miss Hoskins, of Baltimore, were guests of Miss Rose Rowe, over the week-end.

Mrs. Phillip Bower and Miss Helen Maxell, spent several days this week in Baltimore, attending a Missionary Convention of the Lutheran Church.

Mr. and Mrs. Clarence Frailey, Misses Edith Nunemaker, Anna Cadori, visited several days in Richmond, Va. Mrs. Harry Baker accompanied them as far as Washington, and visited Mrs. Howard Slemmer.

The following were entertained at the home of Mr. and Mrs. Charles Landers, on Sunday, in honor of Mr. L.'s birthday: Mr. and Mrs. Edgar Annan, Mr. and Mrs. Richard Annan, Mr. and Mrs. S. Harman, all of Baltimore; Miss Jennie Smith, Mr. and Mrs. Ned Annan and family.

Mrs. Jennie Reifsnider spent several days, this week, in Baltimore.

LINWOOD.

Sevard Englar left last Thursday for Summit, New Jersey, to do some work for Mrs. M. S. Marshall, of that place.

Mrs. Joe Thomas, of New York, is visiting in the home of R. Lee Myers. Rev. and Mrs. J. L. Bauman were Sunday guests of Mr. and Mrs. Roscoe Garner, near New Windsor.

Robert Garber, Jr., and family, of Washington, and Mr. and Mrs. Keener Bankard, Lock Raven, were Sunday visitors in the home of John E. Drach.

Communion services will be held at the Linwood Brethren Church, this Sunday evening, Oct. 26th, Rev. Baker pastor of the Brethren Church at St. James, Md., will be present to assist with the communion, and also deliver the message in the morning. Every member is urged to be present at both services.

Plans are being made for the annual "Home Coming," Sunday, Nov. 9th. Services morning, afternoon and evening. Bring your lunch and enjoy the day with us.

The Harvest Home service at the church, last Sunday, was well attended. Considering the drought, we were made to wonder at the splendid display of fruit, vegetables, and canned goods, which Rev. and Mrs. Bauman appreciated very much.

John E. Drach is somewhat indisposed at this writing.

Announcements have been received of the wedding of Miss Mary Buffington, daughter of Mr. and Mrs. John M. Buffington, and Ralph Crabbs, on Tuesday, Oct. 21. Our very best wishes go with them.

Dr. C. F. Yoder, a returned missionary from South America, will lecture at the church, Thursday, Nov. 6, at 7:30. Public most cordially invited.

DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

ELDER W. PHILIP ENGLAR.

Elder W. Philip Englar, of Uniontown, died at Md. University Hospital, Baltimore, on Thursday morning, aged 68 years, 1 month, 23 days. He had been in declining health for several years, and had been at the hospital for treatment for three weeks.

He was a minister in the Church of the Brethren for thirty-five years, resigning his activities in that direction about two years ago. Elder Englar was known for his quiet demeanor, his genuinely sympathetic nature, and his natural geniality, and will be missed as one of the best citizens of Uniontown.

He was a son of the late Uriah and Susannah Englar, and is survived by his wife, who was Miss Ida M. Myers before marriage, and by one son D. Myers Englar, one daughter, Mrs. Walter Speicher, and by one granddaughter, all of Uniontown.

He had been in the mercantile business in Uniontown for a number of years, but not recently. He also represented the Dug Hill Insurance Co., The People's of Frederick, and the Brethren's insurance company, of Hagerstown; and was a Director of the Carroll County Savings Bank.

Funeral services will be held at the home on Saturday afternoon, at 1:00 o'clock, followed by further services at Pipe Creek Church of the Brethren, where interment will be made.

FEESERSBURG.

Mt. Union S. S. had a glad Rally-Day last Sunday. The church was decorated with flowers and autumn leaves. There was a good attendance. The children sang "Jesus loves all the children;" a group of young girls sang "My Mother's Bible," Mr. and Mrs. Edw. Dayhoff, Mrs. Rosa Bohn and son, Frank sang "Cling to the Rock," Viola Dayhoff and Frank Bohn sang "Alone with Jesus;" W. C. LeGore, Sec'y of the Lutheran S. S. Association gave an inspiring address, on the text "Cast thy bread upon the waters, for thou shalt find it after many days." Some former members of the school returned and some new ones were received.

On Sunday evening, Rev. C. Archer gave an illustrated address, in Middleburg, on the work of the M. E. Church around the world, and a beautiful song "Give Bountifully." Many clear views of schools, Chapels, Hospitals, Orphanages, and various phases of their work at various stations, were shown.

Next Sunday evening, Oct. 26th., the C. E. Society of Mt. Union church will have their annual gathering for the Deaconess Mother House, of fruits and vegetables, fresh and jarred, and many other products useful and necessary in such a home. There will be special music and addresses, and a welcome for all. The offering will be for Missions, Mr. Jesse Garner, of Linwood, will be one of the speakers.

Mr. and Mrs. Cleon Wolfe motored to Baltimore, last Thursday evening, to call on Mrs. Maurice Smith, in St. Joseph's Hospital, who was recently operated on for typhoid trouble and 2 growths removed. They found her bright and recovering nicely, hopeful of soon being removed to the home of her daughter, Mrs. Glenna Boyer, in Hamilton, in Baltimore.

Mrs. Louise McK. Bostian, who spent last week with her sister, Mrs. Melvin Bostian, returned to Pittsburg by bus, from Westminster, on Saturday night.

Stanley Clayton, of Baltimore, spent the week-end with his mother, at Ellwood Harder's and was taken back to McDonough school on Sunday afternoon. Roy Crouse and niece Frances Crumbacker accompanied them.

On Thursday of last week, Mrs. Lizzie Thompson, widow of Dr. Chas. Thompson, for many years a practicing physician in this locality, and her daughter, Miss Alice, who holds a position in Hood College, were calling on old friends, about here. There are many things to consider after an absence of 40 years or more.

Chas. F. Koons and his son-in-law, Elam Sprengle, of Waynesboro, visited the former's mother, Mrs. Eliza Koons, on Sunday afternoon. Mr. Koons has passed the summer at his home on 2nd St. in Waynesboro, but expects to spend the winter with his daughter, Mrs. Lottie Gladhill, in Washington, D. C.

While a number of relatives were enjoying Sunday afternoon with Mr. and Mrs. C. Wolfe, Mr. and Mrs. Wilbert Almony, of Fullerton, Baltimore, joined them for a few hours.

A Hallows'een Social will be held in the Church Hall, in Middleburg, on the evening of October 30th., instead of the 29th., as first reported. Just a good time of fun and refreshments.

Dr. Richey, District Superintendent of W. Baltimore Conference, will preach in the M. E. Church, at Middleburg, the first Sunday in November, at 10:30 A. M.

Joseph P. Bostian and the American Oil Co., have placed a cement pavement and three electric gas pumps with other up-to-date conveniences in front of Bostian's Garage.

On Tuesday morning, Ralph Crabbs of Linwood, and Mary, only daughter of John M. and Cornelia Buffington, of Union Bridge, were quietly married by Rev. J. J. John, in New Windsor. They drove to Washington, D. C., and took a southern trip. May happiness attend their pathway through life.

MANCHESTER.

Those who attended the State Convention of the Council of Religious Education from this town and nearby towns were: Mrs. Maurice Michael and Mrs. LeRoy Wentz, Lineboro; Dr. H. D. Boughter, Greenmount; Prof. E. L. Cross, Hampstead; Rev. I. G. Naugle, L. H. Hempseyer and John S. Hollenbach.

Mr. Harvey Rhodes and family motored to Mercersburg, Sunday afternoon to hear the carillon and pipe organ.

Mrs. I. G. Naugle spent several days in Gettysburg last week.

A reception was given to Rev. I. G. Naugle and family by members and friends of the Millers and Manchester U. B. Churches.

For the House of Delegates

As I find it impossible to see all the voters in the county, I am taking this method of asking the vote and support of all my friends at the coming election, November 4th. Thanking you in advance. 10-24-24 C. RAY BARNES.

CHRISTIAN ENDEAVOR TOPIC.

Topic—Making America Christian (Home Missions) Mark 5:1-20

Written by—Franklin B. Bailey.

When we call America a Christian country we do not mean that all people living in it are Christians. Nor do we mean that all parts of it are Christian. Some Americans claim to be Christians do not by far have the highest type of Christianity. There is still much to be done before America becomes thoroughly Christianized.

Jesus said to His disciples, "Ye shall be witnesses unto me both in Jerusalem, and in all Judea, and in Samaria, and unto the uttermost parts of the earth." Our Jerusalem is the particular part of the country in which we live. We may think of our state as being our Judea and the surrounding states as Samaria. Therefore in order to help make America Christian we must help make Christians of those with whom we live and then do all we can directly and indirectly to help spread the Gospel throughout our entire land.

There are first our own people who have not yet become followers of Christ and who make no effort to carry out His teachings. All Christian Endeavorers can do much toward influencing such people. Then there are the non-Christian foreigners living in our country who need to be reached. We can indirectly help them by supporting City Missions and Relief Work. Then there is still much to be done for those living in isolated mountain districts by way of leading them out of the darkness into the Light. We may not be able to do much personally but we can emphasize Home Missions and help through our Mission Boards to extend Christ's Kingdom throughout our beloved land. Home Missionary work includes American Indians, Alaskans, Negroes, Mexicans, Mountaineers, Hawaiians and all Aliens. Truly the harvest is great even here in Christian America.

To make America thoroughly Christian is our task. We may not be able to do the big things but we can do the little things well. Charles A. Brooke tells of a Christian woman in Buffalo, who, instead of moving out when Italians surrounded her home, decided to remain and live her life among them as an interpreter of Christian America. At her funeral her pastor told of her decision and of the profound impression her life made on her foreign neighbors.

"It may not be on the mountain height, Or over the stormy sea; It may not be at the battle's front My Lord would have need of me; But if by a still small voice He calls To paths that I do not know, I'll answer, dear Lord, with my hand in Thine, I'll go where you want me to go."

NO TRESPASSING

The name of any property owner, or tenant, will be inserted under this heading weekly, until December 10th., for 25 cents cash in advance.

All persons are hereby forewarned not to trespass on my premises with dog, gun, or trap, for the purpose of shooting or taking game of any kind, nor for fishing, or in any way injuring or destroying property.

FOR SALE.—Grimes Golden, Jonathan and Delicious Apples.

EAST END MILLINERY Establish-ment is well stocked with stylish Fall and Winter Hats.

8-ROOM HOUSE, on George St., Taneytown, at Private Sale.

FOR RENT.—Half of Dwelling on Middle St. Furnace and Electric Lights.

FOR SALE.—75 Acre Farm. The late J. L. Allison farm midway between Taneytown and Gettysburg.

FOR SALE.—Fine Homes, improved by Brick and Frame Houses and all improvements.

FAT HOGS WANTED.—Who has them? Stock Loans to reliable farmer.

FINE STARK-DELICIOUS Apples and other varieties. Cider will be made each Thursday.

FOR SALE.—Apple Butter by the crock; also, Apples, 50c per bu.—Markwood Angell.

CHURCH NOTICES.

This column is for the free use of all churches for brief announcements of services.

Piney Creek Presbyterian.—Preaching Service, 9:30; Sabbath School, 10:30.

Taneytown Presbyterian.—Sabbath School, 10:00; Preaching Service, 11:00; Christian Endeavor, 6:45.

Trinity Lutheran, Taneytown.—Sunday School, 9:00; Worship, 10:00; Luther League Rally, at 6:30.

Reformed Church, Taneytown.—S. School, 9:15; Service, 10:15; C. E., at 6:30.

Keyville.—Holy Communion, 8:00; Sunday School, 9:00; Preparatory Service, Friday evening, October 24.

Taneytown U. B. Charge, Harney Church.—9:30, Sunday School; 10:30, Preaching Service.

St. Mary's Ref. Church, Silver Run.—Sunday School, 9:00; Morning Worship, 10:30; Christian Endeavor, 6:30.

Silver Run Lutheran Church.—S. S., 9:30; Preaching, 10:30; Evening Service, 7:30.

Manchester Ref. Charge, Lineboro.—S. S., 9:00; Worship, 10:00; Song Service under auspices of the Community Club at 7:45.

Manchester.—S. S., 9:30; C. E., at 6:15; Worship, 7:00. Theme for the day is: "The Trees Anoint a King Over Them."

Uniontown Lutheran Charge, Mt. Union.—S. S., 9:00; Holy Communion, at 10:30; Deaconess Ingathering Service, at 7:00.

Winter's.—S. S., 1:30; Divine Worship, 2:30; Catechetical instruction after services.

St. Paul's.—S. S., 9:30; Rally-day Service, Sunday, Nov. 2nd.

Manchester U. B. Charge, Mt. Zion Church.—Sunday School, 9:30; Worship, 10:30; Christian Endeavor Service, 7:30.

Miller's Church.—Sunday School, at 9:30; C. E., 7:30. Bixler's Church.—Sunday School, at 9:30; Worship, 7:30.

Uniontown Circuit, Church of God.—Sunday School, 9:30; Preaching Service, 10:30. Theme: "Evangelism Imperative." Preaching Service at Frizellburg, Sunday evening, 7:30.

PROPOSED BOND ISSUE FOR ROADS.

CHAPTER 24.

AN ACT to authorize and empower the Board of County Commissioners of Carroll County to borrow, upon the faith and credit of said county, a sum of money not to exceed Two Hundred Thousand Dollars (\$200,000.00).

Section 1. Be it enacted by the Board of County Commissioners of Carroll County, in order to provide the funds necessary for the construction and permanent improvement of the public roads in said county, whenever and wherever the said County Commissioners shall have determined or shall hereafter determine that construction or improvement is necessary or expedient, that they are hereby authorized and empowered to borrow money, on the faith and credit of said county, and to issue and sell coupon bonds therefor, in an amount not to exceed Two Hundred Thousand Dollars (\$200,000.00).

Section 2. And be it further enacted, That the said bonds shall bear date of issue and shall be listed and sold in series, beginning with Series A, and subsequent series shall each be initiated with the following consecutive letters of the alphabet, and the bonds of each series shall be numbered consecutively beginning with the number One (1); and the said Board of County Commissioners shall from time to time issue, offer for sale and sell, in the manner hereinafter provided, a series of said bonds for such an amount as may be necessary at such time or times for the construction or permanent improvement of public roads in said county designated for such construction or improvement by the said Board of County Commissioners; and each of said series of bonds shall be issued and sold as of the first day of July of the first day of January in any year; and said bonds shall bear attached thereto coupons as hereinafter provided for the said semi-annual payments of interest accruing after the date of the selling of said bonds; and each of said series of bonds shall mature and be redeemable within a period not exceeding twenty (20) years from the date of issue, and under such conditions as shall be determined by resolution by said Board of County Commissioners; and provided that all of said bonds shall mature and be redeemable not later than twenty (20) years from the date of issue.

Section 3. And be it further enacted, That the said Board of County Commissioners of Carroll County shall use for the construction or permanent improvement of public roads in said county as the said Board of County Commissioners may designate for construction or permanent improvement, such sum or sums of money derived from the issue and sale of said bonds, as they may consider for the best interest of the county, until the whole sum of Two Hundred Thousand Dollars (\$200,000.00) shall have been expended; and in the work to be done upon said roads from the moneys hereby negotiated, the said Board of County Commissioners may, in its discretion, use such moneys as a separate, individual fund, or it may use the

same in connection with any State appropriation guaranteed to the several counties of the State under existing laws, or in connection with any other Act that may become a law appropriating other or further sums of money from the State to the aid of the several counties for the purpose of the improvement of the public roads in said county.

Section 4. And be it further enacted, That for the purpose of redeeming said bonds at their maturity and for assuring the prompt payment of the interest coupons, the said Board of County Commissioners shall for the year 1931 and annually thereafter until the maturity of the last of said bonds, issue under the authority of this Act, levy a tax upon the assessable property of said county sufficient to pay the annual interest on said bonds, and the principal thereof, and also in addition thereto they shall for the year 1932 and annually thereafter, for the sinking fund, levy an amount which with accumulated interest thereon will enable them to meet and redeem the several series of bonds issued under the authority of this Act, as they shall severally become due, being the intention of this Act that none of said bonds shall mature before the first day of January, 1934.

Section 5. And be it further enacted, That the money annually levied for the sinking fund as provided in the preceding section of this Act, and the moneys of the Board of County Commissioners in some bank, savings institution or trust company paying interest thereon, and they may also invest the moneys of said institution or trust company a good and sufficient bond in the penalty of not less than ten percent, above the amount of moneys so invested; and the Board of County Commissioners and the Treasurer of said county; and the said sinking fund may be used at any time in the purchase and redemption of any of said bonds when the purchase price shall secure a rate of interest greater than that paid by the depositors of the moneys so invested; and after the purchase and redemption of any such bonds by the said Board of County Commissioners from the deposits in the said sinking fund, the same shall be immediately destroyed; and no portion of the said sinking fund shall be diverted to any other purpose than the liquidation of said bonds.

Section 6. And be it further enacted, That the said Board of County Commissioners shall be paid to the joint order of the said Board of County Commissioners of Carroll County and the Treasurer of said county, the moneys realized therefrom, and all redemptions or maturities thereof; and the proceeds of the purchase of said bonds shall, when not used for immediate purposes, be made in some bank, savings institution or trust company, under the same conditions as hereinbefore required for the sinking fund money and the interest thereon.

Section 7. And be it further enacted, That the bonds to be issued to the amount of Two Hundred Thousand Dollars (\$200,000.00) for the construction or permanent improvement of public roads in said county, as designated in "Carroll County Public Road Bonds—Issue of (date of issue)."

Section 8. And be it further enacted, That whereas provision is hereinbefore made for a levy of taxes to pay the interest on said bonds, if the said Board of County Commissioners shall determine that the interest payable on any of said "Public Road Bonds" can be paid out of the general fund levied for county roads, they shall not be required to make special levy for said interest, but may, in their discretion, pay said interest from the general fund provided in the levy for public roads, or out of their contingent fund.

Section 9. And be it further enacted, That if and whenever the said Board of County Commissioners shall determine that construction or permanent improvement of any public county road or roads shall be made, and that the work of construction or permanent improvement of such public road or roads shall be commenced and carried forward before it shall be possible to issue and sell a series of bonds as provided for in Section 2 hereof, the said Board of County Commissioners is hereby authorized and empowered to borrow on the faith and credit of said county such sum or sums of money as shall be sufficient and necessary to meet and pay the contract price for the construction or permanent improvement of said public roads, and to issue certificates of indebtedness for said sum or sums so borrowed, and shall pay said certificates of indebtedness out of the proceeds derived from the sale of the first series of bonds issued and sold thereafter.

Section 10. And be it further enacted, That in order to provide for the selling of said bonds to be issued under the provisions of this Act, the said Board of County Commissioners of Carroll County, or a majority of them, are hereby directed to advertise, for at least once a week for four successive weeks before said bonds or any part thereof shall be issued, in such newspapers printed and published in Carroll County or elsewhere as may be determined by said County Commissioners, that the said County Commissioners will be in readiness at any time to receive bids for the purchase of said bonds, and that the expiration of said notice to receive bids, at such place or places as may be named in said respective advertisements, for bonds issued under the provisions of this Act under such regulations as may be made in the discretion of said County Commissioners of the majority of them, and secured interest between the date of the bonds and the time of sale and the delivery of any payment for said bonds shall be adjusted with the purchaser or purchasers thereof under such regulations as shall be made in the discretion of the said County Commissioners or the majority of them; and upon the day mentioned in said advertisement as the day for opening the bids for the proposals thereby called for, they shall receive such sealed proposals for the purchase of as many of such bonds as may be mentioned or designated in said advertisements; and on the opening of such sealed proposals, as many said bonds as have been bid for shall be awarded by said County Commissioners or the majority of them to the highest responsible bidder or bidders therefor for cash, at not less than the par value of said bonds; and when two or more bidders have made the same bid, and such bid is the highest and no other bid for by the highest responsible bidder is in excess of the whole amount of the bonds so offered for sale, such bonds shall be awarded to such highest responsible bidder, bidding the same price, in a ratable proportion; and if any of said bonds so offered for sale are not bid for, or if an insufficient price is bid for them, they may subsequently be disposed of under the direction of the said County Commissioners or the majority of them, at private sale, upon the best terms they can obtain for the same; provided they shall not be sold for less than par and accrued interest; and provided further that the said County Commissioners or the majority of them, in their discretion, shall have the right to reject any and all bids.

Section 11. And be it further enacted, That the said Board of County Commissioners is hereby authorized to expend from the moneys realized from the sale of said bonds so much as may be necessary in payments of the expenses of engraving and printing and other outlays in connection with issuing of said bonds, and for the payment of the advertising directed by this Act, and all other expenses connected with the execution of the provisions of this Act in connection with said loan.

Section 12. And be it further enacted, That before the issuing of said bonds or any of them the moneys of the issuing of said bonds as hereinbefore set forth shall be submitted to a vote of the qualified voters of Carroll County, at the General Election to be held in said county in November, 1930; and the said Board of County Commissioners of Carroll County shall cause to be printed in each of the weekly newspapers printed and published in said county, as an advertisement, a copy of this Act, once a week in each of two successive weeks immediately prior to said General Election, to be held in November, 1930; and the Supervisors of Elections of Carroll County shall cause to be printed on the ballots to be voted at said General Election, a suitable square to the right of each, the words: "For the Road Bond Issue."

"Against the Road Bond Issue." And, if at said election the number of ballots cast upon said question and reading "For the Road Bond Issue" shall exceed the number of ballots cast upon said question and reading "Against the Road Bond Issue," the said Board of County Commissioners of Carroll County shall be and it is hereby authorized and empowered to borrow on the faith and credit of said county to an amount not exceeding Two Hundred Thousand Dollars (\$200,000.00) and to is-

sue bonds therefor for the purpose and in the manner hereinbefore provided in this Act; and, if at said election the number of ballots cast upon said question and reading "Against the Road Bond Issue" shall exceed the number of ballots cast upon said question and reading "For the Road Bond Issue," then the provisions of this Act shall be void and inoperative, and no part of said loan shall be negotiated, and said bonds shall not be issued; and immediately after said election the Supervisors of Election of Carroll County shall forthwith certify the result of said election to the Clerk of the Circuit Court for Carroll County; and the results of other elections are certified to said clerk under provisions of the General Election Laws of the State of Maryland; and the said Clerk of the Circuit Court for Carroll County shall forthwith certify the same to the County Commissioners of Carroll County.

Section 13. And be it further enacted, That this Act shall take effect on the first day of June, 1929.

Approved April 11, 1929. —Advertisement

RUPTURE EXPERT HERE

E. J. Meinhardi, of Chicago, the well-known Rupture Shield Expert, will personally be at the Alexander Hotel, Hagerstown, Md., on Monday only, October 27th, from 9:00 A. M. to 5:00 P. M.

Mr. Meinhardi is highly recommended by thousands of satisfied customers. Take advantage of this opportunity to see him as he will not visit any other city in this section at this time. There is no charge for consultation and demonstration. This Appliance is for men only.

Mr. Meinhardi says: The "Meinhardi Rupture Shield" not only retains the Rupture perfectly, but it also cuts out the agonizing days in the average case, regardless of the size or location of the rupture.

The "Meinhardi Rupture Shield" has no underwear, is perfectly sanitary, practically indestructible, and may be worn while bathing.

Rupture often causes Stomach Trouble, Backache, Constipation, Nervousness, and other ailments which promptly disappear after the Rupture is properly retained. Thousands of deaths occurring annually from strangulated rupture can be avoided.

SPECIAL NOTICE—All customers that I have fitted here during the last ten years are invited to call for inspection for which there will be no charge. (Come in and talk with these customers regarding their experience with my Appliance.)

Please note the above dates and office hours carefully. (This visit is for white people only.)—E. J. Meinhardi, Home Office, 1551 N. Crawford Ave., Chicago.

JOB Printing Quick Service

if you want it—reliable service always. We always place our guarantee of satisfaction back of every printing job we do. We are good printers—know it—and are willing to back our judgment with our guarantee.

Every Woman Can Afford This Modern Electric Range.

NEW LOW PRICES

MOST LIBERAL TERMS

NEW FEED AVAILABLE FOR LIVESTOCK OWNERS.

Attention of Farmers is Being Called to Substitute for Short Hay Crop.

Maryland farmers who are looking for a substitute for hay are advised to investigate a new product, OATMEAL MILL RUN FEED which, according to Dr. DeVoe Meade, specialist in animal husbandry for the University of Maryland Extension Service, seems to be a very satisfactory feed for livestock, being at least equivalent to timothy hay.

The new product, which has been on the market but a short time, is ground very coarsely and is being delivered to various points in the State in bag containers. It mixes readily with other feeds and can, therefore, be used to replace a large part of the hay in dairy and livestock rations. In the case of horses it may be used practically as the sole roughage.

Owing to the low cost and value of this feed, dairy and livestock farmers should make an effort to get in touch with their respective county Agents who have samples of the product. Approximately 25 manufacturers of oat products are able to supply the new Feed, it is said.

This Feed is sold by—

The Reindollar Company, Taneytown, Md.

CHARLES B. KEPHART

Republican Candidate for The House of Delegates

As it is impossible for me to see every one, I wish to state to the voters, that if elected I will vote AGAINST an increase in tax on gasoline; and as we need more state roads in Carroll County, will NOT vote for the state to build a bridge across the Chesapeake Bay, at an estimated cost of \$12,000,000.

THE NEW

Hotpoint

Installed In Your Home For Only \$5 DOWN 24 Months To Pay The Balance

CASH PRICE \$124.50

Completely Installed

No longer need women be slaves to their cooking, the modern Electric Range has freed women from the kitchen; and best of all it is within the means of every family. Electric Ranges were never so low in price. This is truly a buyer's market, take advantage of the low price and the liberal terms now.

Sunday School Lesson

(By REV. F. B. FITZWATER, D. D., Member of Faculty, Moody Bible Institute of Chicago.)
(©, 1920, Western Newspaper Union.)

Lesson for October 26

SPIRITUAL WEAPONS IN A WORLD WAR
(World's Temperance Lesson)

LESSON TEXT—Galatians 5:13-26.
GOLDEN TEXT—And every man that striveth for the mastery is temperate in all things. Now they do it to obtain a corruptible crown; but we an incorruptible.

PRIMARY TOPIC—Learning Self-Control.
JUNIOR TOPIC—The Law in One Word.

INTERMEDIATE AND SENIOR TOPIC—The Secret of Self-Control.
YOUNG PEOPLE AND ADULT TOPIC—Making Prohibition Effective and Permanent.

The lesson topic is not a happy one. The Scripture text chosen clearly refers to the inner conflict going on in the believer. Having been born of the flesh and of the Spirit (John 3:6), there is an unceasing conflict going on between the two natures (Gal. 5:17). The insurrection springing out of the carnal nature cannot be put down by the Law of Moses. Victory can only be accomplished through the energy of the indwelling Holy Spirit. The committee has further designated it "a temperance lesson." It has a real bearing on temperance in that it shows the only way to destroy the infernal liquor business; namely, to lead individuals to a personal knowledge and experience of Jesus Christ.

Having in Galatians 3 and 4 shown that the believer is free from the law as a means of justification, Paul makes practical application of this doctrine as follows:

1. Christian Freedom (vv. 13-15).
It is not an occasion to the "flesh" (v. 13).

Liberty is not license. The notion that when one is free from the law he is free from constraint, is wickedly erroneous. License of the flesh means not merely the indulgence of the flesh in actual material sins, but in the expression of a self-centered life (v. 15).

2. By love serving one another (v. 13).

Freedom from the Mosaic law means slavery to the law of love. Love thus becomes the fulfillment of the law—"Love thy neighbor as thyself" (v. 14).

11. Walking in the Spirit (vv. 16-18).
Walking in the Spirit results in:

1. Loving service to others.
2. Victory over the flesh (vv. 16, 17).

By the "flesh" is meant the corrupt nature of man expressing itself in the realm of sense and self.

111. The Works of the Flesh (vv. 19-21).

By works of the flesh is meant the operation of the carnal nature. The one who chooses to live according to the impulses and desires of his natural heart will be practicing the following sins:

1. Sensuality (v. 19).
The sins enumerated here, practiced in the sphere of the body, are:

(1) Fornication. Fornication includes all sexual sins in married and unmarried life.

(2) Uncleanness. This includes all sensual sins, open or secret, in thought or deed.

(3) Lasciviousness. This means the wanton, reckless indulgences in the shameful practices of the flesh.

2. Irrigation (v. 20).
These acts take place in the realm of the spirit and are:

(1) Idolatry.
(2) Witchcraft or sorcery. This means all dealing with the occult, such as magical arts and spiritism.

3. Sins of temper (vv. 20, 21).
These take place in the sphere of the mind and are:

(1) Hatred. (2) Variance, which means strife and contention. (3) Emulations; jealousy. (4) Wrath; bursts of passions. (5) Seditions; factions in the state. (6) Heresies; factions in the church. (7) Envyings. (8) Murders.

4. Sins of excess (v. 21).
(1) Drunkenness. This means indulgence in intoxicating liquors.

(2) Revelings, acts of dissipation under the influence of intoxicants.

IV. The Fruit of the Spirit (vv. 22-24).

This indicates action in the realm of life. The product of the Holy Spirit indwelling the believer.

1. Love to God and man.
2. Joy; glad-heartedness because of what God has done.

3. Peace with God and fellowman.
4. Long suffering; taking insult and injury without murmuring.

5. Gentleness; kindness to others.
6. Goodness; doing good to others.

7. Faith; believing God and committing all to him.

8. Meekness; submission to God.
9. Temperance; self-control in all things.

The Extraordinary

It is a fact that most of us are apt to settle down to the ordinary—God wants the extraordinary!—Missionary Worker.

Standing in Our Own Sunshine

"Most of the shadows of this life are caused by standing in our own sunshine."—Emerson.

Close-Up View of Christ

The close-up view of Christ is not reserved for far-off followers.—Christian Evangel.

Siamese Fighting Fish

Put Up Hot Contests

Meet Mr. Wat Chant Alur Bopit, two inches of forked and flailing lightning, famed fighting minnow of Siam. This ferocious though diminutive fish lay immersed in a bowl in the New York aquarium, the object of admiration of a huge crowd, according to a report in Time, the News-magazine.

In Siam, fish fighting occupies much the same place that cock fighting once did in the United States. In each of Bangkok's ten halls there are several tables about which are grouped seats for spectators. When the audience is ready, two bowls, each containing a contestant, are placed on the table. A fight is guaranteed if they charge at one another and pump their noses on the intervening glass. The betting commissioner books bets, the limit being \$44. The two fish are then dumped into one big bowl together. They charge furiously, first ripping off each other's ruby-red ventral fins. Next to go is the red top fin, while frequently they bite off chunks of side meat, drawing blood. With good fish a fight will last for six hours. Unpedigreed ones are exhausted in 15 minutes. After a fish has lost a battle he is bred no more but spends his declining days training small fry. Trainer fish constantly have their bodies mutilated as do United States fistieff trainers. Their advantage over the United States equivalents: they can regenerate broken parts.

Damage Done to Trees

When the Sap Freezes

Sap in trees frequently freezes during the winter. The freezing point of water is decreased by the addition of substances in solution. Since sap contains various solutes its freezing point is considerably below 32 degrees and accordingly it does not freeze in moderate freezing temperatures. Trees are further protected by the fact that the moisture content is not so great near the surface in the winter as it is in the summer. But the sap freezes during extremely cold spells and sometimes much damage is done to the trees.

The United States forest service says that in the Canadian woods when the temperature is 40 to 50 degrees below zero the ruptures of tissues in trees caused by freezing can often be heard as a sort of sharp report. As a rule freezing that produces sufficient pressure to rupture the tissues results in vertical cracks running up and down the trunk.

In succeeding seasons of growth the tree attempts to heal over these cracks but ridges of protruding scar tissue remain as evidence of the ruptures. The wood of trees is frequently frozen, but generally no serious rupture results because the moisture is evenly distributed through the tissue.—Pathfinder Magazine.

Two of a Kind

Thomas Hardy was once dining with Gen. Sir Redvers Buller of Boer war memory, when the subject arose of social blunders. Buller described what he called a "double-barreled" one of his own, says Mrs. Florence Emily Hardy in "The Later Years of Thomas Hardy." He inquired of a lady next him at dinner who a certain gentleman was, "like a hippopotamus," sitting opposite them. He was the lady's husband.

Buller was so depressed by the disaster that had befallen him that he could not get it off his mind. Hence at a dinner the next evening he sought the condolences of an elderly lady, to whom he related his misfortune. And remembered when he had told the story that his listener was the gentleman's mother!

Pretty Roofs in Norway

Perhaps the roof over one's head has something to do with the happiness and love in the home beneath it. The American shingles were appropriate for the pioneer, the English slates practical, the tiles of Latin countries cool and picturesque, but even better is the old straw thatch laid on sometimes to a depth of two feet. However, of homes in country places Norway has the loveliest roofs of all. Sod is used for a thatch there, and after a season or two the entire house-top is a meadow of grass and wild flowers, on which young goats may often be seen feeding, and where butterflies and honey-bees always hover.

God Forbidden to Whistle

A gob can sing his head off if he cares to, but he must keep his whistle in his pocket. Whistling has never been permitted in the navy. This prohibition is not designed to repress one of nature's elementary means of expressing joy, or boosting one's courage, but is forbidden because it might be confused with the bo's'n's pipe at a distance or below decks. In former days at sea sails were handled and much work accomplished by means of calls with the bo's'n's pipe, the boat-swain's badge of office.

Elementary

"My boy," said the business man to his son, "there are two things that are vitally necessary if you are to succeed in business."

"What are they, dad?"
"Honesty and sagacity."

"What is honesty?"
"Always—no matter what happens, nor how adversely it may affect you—always keep your word once you have given it."

"And sagacity?"
"Always give it."

GREEK BLUEBEARD ACCUSED OF DEATH OF SEVEN WIVES

Wiped Them Out After Spending Dowry; Caught With Prospective Eighth.

Athens.—The "Dragon of Hamelo," Peter Kulaxides, a Greek refugee from Pontus, accused of murdering his seven wives after spending their dowries, was arrested while at a tete-a-tete dinner with a beautiful young widow whom he had enticed, under a false name, to be his eighth wife. His arrest was effected one day before his new marriage.

Evidence against the "Dragon" exists only as regards his last wife who was found about a month ago in an arbi of the old Macedonian trenches, in a state of decomposition, but bearing signs of brutal violence. On the discovery of the body Kulaxides fled. This aroused the suspicion of the police who, after investigating his past, found that he had married seven times and that all his wives, with the exception of the last, had been reported by him as having died "in the country."

To the judge who made the first inquiries, Peter admitted he killed his last wife because she was "unfaithful" to him, but dodged all accusation for the death of his other wives. Regarding his first wife, Peter said that she died "of joy" on hearing of his release from a prison term.

It is expected that the "Dragon's" trial before the Criminal court of Salonica will be sensational.

U. S. Standards Bureau Discards Carbon Lights

Washington.—Old carbon lights, which have formed a "precarious" basis for measuring light in this country, have been discarded in favor of a recently discovered "standard of light."

The bureau of standards has maintained for years, and carefully saved, a few old carbon lights as the basis of measuring candlepower of all light. The lights have been used infrequently to prevent their disintegration.

Now, however, scientists at the bureau have developed a new primary standard of light, based upon melting platinum in an electric induction furnace.

The new system will provide an unchanging standard, they say. It has been recommended to the international committee of weights and measures for an international primary standard of light.

Cat Worth \$5,000 When It Is Shot by Dentist

Lexington, Ky.—A dentist who shot a tomcat which disturbed his slumbers with nocturnal arlas on the back fence has been made defendant in a \$5,000 damage suit brought by the pet's spinster owner.

Miss Mary Brent Hutchcraft charges that her neighbor, Dr. W. W. Aylor, inflicted on Jerry a "severe and dangerous wound."

Accompanying the damage suit was a petition for a restraining order to prevent the dentist from further molesting Jerry.

Six Marriages to Same Man Enough for Woman

Valparaiso, Ind.—Six marriages to the same man are enough, Mrs. Clara Knoll has concluded, and she has stated positively that when she obtains a divorce from William Knoll on a petition now pending, she will not remarry him.

The couple have been divorced six times in nine years, and each time remarried, whereupon, Mrs. Knoll charged, he immediately forgot each time the text of his promises to reform.

Nab Lunatic Claiming to Be Christ Reborn

Budapest.—By keeping him awake for three days and nights the Budapest police were finally able to trick the Hungarian piano manufacturer, Karl Csernak, into a deep sleep, disarm him, and carry him to an asylum.

Csernak became insane and imagined himself to be a twentieth century reincarnation of Christ. He guarded his bedroom with a revolver after plastering the walls, ceiling, and floor with religious leaflets.

Indigestion of Child

Ends Up as Shingle Nail

Waterville, Miss.—It began this way: Joseph Coro, a city ward, complained he was unable to get a physician to treat his child who had "swallowed something."

The overseer investigated and found the child "suffering only from indigestion."

Several days later Coro met Police Captain George Beckett and solemnly swore the child that day had coughed up a shingle nail.

Italy's Largest Organ

Is Put in Cathedral

Messina, Italy.—The largest organ in Italy has just been installed here in the cathedral in honor of the first anniversary of its reconstruction.

The organ, built by Giovanni Tamburini of Crema, in north Italy, according to a design of Mgr. Manari, director of the pontifical school of sacred music, has 130 royal registers, 10,000 pipes, five keyboards and an elaborate pedal control. The organ works on an electrical air system.

Wire Cable With "Teeth" of Sand Cuts Out Slate

A saw with teeth of sand is used to saw out large blocks in the slate beds of Pennsylvania.

This ingenious device consists of a three-strand wire cable, which is built into an endless belt. The cable is guided by orienting pulleys, which adjust themselves to the face to be sawed. As it arrives at the point to be cut, sand is spilled over the cable by means of a stream of water, the particles of sand lodging in the twists of the cable.

The cable drags the sand, under considerable pressure and at high speed, against the bed of the slate and rapidly cuts its way through, the cutting being a trifle larger than the diameter of the cable.

The savings effected by this means run into a figure as much as 50 per cent of the usual amount of waste.

Experimenting is going on to work out a method of cutting the slate into the size of sheets to be shipped out by piling several slabs on top of each other and cutting them all at once with the wire saw.

Sand Frequently Trap

for Traveling Snakes

Snakes, when not in a hurry, can climb a leaning tree or the slippery slope of a wet rock. They are brisk travelers on the levels, and can turn on an extraordinary speed when in chase or flight they slither downhill. But any wide stretch of loose sand or dust pulls them up. Between the scrubs of Poole's point and the mangroves of Tibbo beach, on the N. S. W. south coast, lies an expanse of drifting powdery sand, writes a Sydney Bulletin contributor. Sometimes a snake trying to cross from one cover to the other gets stranded. As the crawler advances upon the ashlike surface he pushes forward a wave of sand with every sinuous heave. Sickening of the heavy going, he turns back, scooping out of the yielding sand a basin, the rim of which affords no scale hold. He squirms frenziedly to escape but only deepens the depression. In the end he dies of exhaustion or is scooped up by a swamp hawk or a kookaburra.

Noted English Porcelain

Spode is the name of an English porcelain made at the pottery of Josiah Spode in Staffordshire, England. Spode was born in 1754 and died in 1827. He manufactured dessert services, Spode cups, and Spode jugs or pitchers, large and long-lipped with a capacity of a gallon. When sixteen years of age, he is credited with having begun to make feldspar porcelain at Stoke-upon-Trent, and introduced into his composition crushed bone which was a soft base giving a very transparent body. His pieces were highly decorated with floral and ornithological designs, and were highly gilded. Succeeded by his son, the firm he established became one of the leading houses in the industry.—Literary Digest.

Famous Police Quarters

Scotland Yard in London derives its name from the palace, which from the time of Edgar to Henry II, was assigned for the residence of Scottish kings whenever they visited that city. Scotland Yard in London is the headquarters of the Metropolitan police force. The first police office was located in Whitehall in Scotland Yard and from there removed in the autumn of 1890 to the new building on the Thames embankment, now known as New Scotland Yard, in which all the branches of the Metropolitan police force, including the famous criminal investigation department, are located.

Cattle Differentiation

The Department of Agriculture says that it understands that in Holland there have been for many years both red-and-white and black-and-white Holstein-Friesians. A great many of the breed in this country carry recessive hereditary factors determining red color. Consequently, not infrequently red-and-white calves will be secured from registered black-and-white parents. The Holstein-Friesian association, however, will not register the red-and-white offspring in this country even though they come from registered Holstein-Friesian parents.—Washington Star.

Valuable Rubber Tree

The latex of Euphorbia intisy, which flows from any cut in the plant, coagulates in the air without further treatment. The bands of rubber thus formed are of very high quality. This shrub or small tree is native to Madagascar and with its discovery in 1891 and the following commercial exploitation the plant has been almost exterminated. The United States Department of Agriculture has secured specimens and is experimenting with them in a hope of adapting this remarkable rubber tree to growth in this country.

Actors Without Jealousy

The performers in the Oberammergau number about 700 persons, and it is said to be the only band of its kind where there is no professional jealousy and no exhibitions of artistic temperament. The actors receive only a very small sum for their efforts, the main proceeds going to charity. And as taking a part in the play is looked upon as an act of natural devotion, none of the 700 tries in the slightest way to outshine the rest.

TANEYTOWN LOCALS

Items of news from town, or vicinity are always wanted for this column. Especially accidents, sales of real estate, fires, important happenings, visits to or from the community social events, and all matters of general interest to those at home, and away from home.

This column is not for use in advertising any money-making program, fair, supper, party or sale; except for non-denominational charities or special benefits, Fire Company or Public Library support, Churches, Lodges, Societies, Schools, etc., are requested to use our Special Notice Department.

Mrs. James Buffington is visiting Albert Sherman and other relatives, in York, Pa.

Miss Margaret Shreeve, of Steelton, Pa., spent the week-end with her home folks here.

Mr. and Mrs. John Marker, Littlestown, visited Mr. and Mrs. Merwyn C. Fuss, on Sunday.

Miss Mae Sanders spent the week-end in Philadelphia, Pa., as the guest of her sister and brother.

Miss Eleanor Birnie is spending several days as the guest of Miss Louise Johnson, at Frederick.

Mr. and Mrs. Frank Palmer, David Staley and Ruthanna Eckard attended Farmer's day at Gettysburg, last Thursday.

Mrs. Emma Lambert and daughter Miss Mary, of Littlestown, spent Sunday with Mr. and Mrs. Wm. J. Stover and family.

Mr. and Mrs. Seven Fogle and children, of Union Bridge, spent Sunday with Mr. and Mrs. Edward S. Harner and family.

A large number from Harney and Taneytown, attended the C. E. Rally in the U. B. Church, at Jefferson, Pa., on Sunday evening.

Mrs. Raymond Baker, near Baust Church, was taken to the Maryland University Hospital, Baltimore, last Saturday, for treatment.

Mr. and Mrs. Keefer Cutsail and children, of Frederick, visited the former's uncle, Mr. and Mrs. Noah Cutsail over the week-end.

The Taneytown Soccer team defeated the Union Bridge team on the Union Bridge grounds, on Friday afternoon, by a score 2 to 1.

Mrs. Rebecca Brown has returned to the home of Mr. and Mrs. James Rodgers, near town, after spending several months with relatives in Hanover.

Mrs. Charles Hockensmith spent several days last week with her sister and brother-in-law, Mr. and Mrs. F. B. Twisden, of Gettysburg, and also attended Farmers' day.

Mr. and Mrs. Norville Shoemaker, of town, and Mr. and Mrs. Carroll Hess and children, near town, visited Mr. and Mrs. Andrew Bigham, at New Oxford, on Sunday.

Mr. and Mrs. John Bowman, Littlestown; Mr. and Mrs. John Baughman and daughter, Geraldine, Theo. Brown and Harry Miller, of Hanover, and Jno Brown, of Union Bridge, were week-end guests at the home of Mr. and Mrs. James Rodgers, near town.

Mr. and Mrs. William E. Martin, and Misses Clara and Mary Startzman, of Hagerstown, visited Mr. and Mrs. Frank Wantz, on Saturday. Miss Jane Dern accompanied them back to Hagerstown after spending several weeks with Mr. and Mrs. Wantz.

Mrs. Jesse Myers and family entertained over the week-end and Sunday the following guests: Mr. and Mrs. Aaron Grove, and Mr. and Mrs. Michael Grove, near Marietta, Pa.; Fannie Sauder, Mt. Joy, Pa.; Milton Myers, Pleasant Valley; Mr. and Mrs. Hubert Null and children, near town.

Mr. and Mrs. John Harner entertained last Tuesday evening: Mr. and Mrs. Elmer Schildt, Mr. and Mrs. Luther Fox and daughter, Pauline; Mr. and Mrs. Clarence LeGore, son Loy; Mr. and Mrs. Harry Stambaugh, daughters, Mildred and Lucille son, Edgar; Mrs. Lennon Eckenrode, Mervin Eyer, Luther Harner and Robert Weybright.

Mrs. Sarah Albaugh entertained at dinner, on Sunday, the following guests: Mr. and Mrs. James Florence, and Boyd Skipper, Waynesboro; Mr. and Mrs. Jacob Fringer, son Guy and two grand-children, and Mr. and Mrs. Earl Fringer and two sons, of York; Mr. and Mrs. Samuel Overholtzer and daughter, Alice, New Midway; Mrs. Mary Stover, Mr. and Mrs. Vernon Crouse and Paul and Mary Koontz, of town.

Those who spent Sunday at the home of Mr. and Mrs. Theodore Starnier, were: Mr. and Mrs. William Drake Sr., and son, William Drake, Jr., wife and daughter, Ruth, of York; Mr. and Mrs. Walter Selby, of Littlestown; Mr. and Mrs. William Davis, daughters, Irma, Thelma and son, Loy; Mr. and Mrs. William Weishaar, daughters Grace and Clara, and sons, William, Jr. and Edward.

Mr. and Mrs. John Baumgardner are both confined to bed with illness.

John W. Eckard, one of our best known citizens, is reported to be quite ill.

Mr. and Mrs. Arthur Slick, Hagerstown, spent Sunday with Mr. and Mrs. Frank Wantz.

Mrs. Lillie Byers has been ill with pleurisy, since Saturday night, and is confined to bed.

Miss Abbie Fogle spent from Tuesday until Friday, in Baltimore, with her sister, Mrs. John Garner.

The K. of P. Sisters will hold a Hal-lowe'en Social, on Monday night, Oct. 27th. All Knights and their families are invited.

Samuel Lambert, who has been living with his son, Lloyd, was taken to Frederick City Hospital, on Thursday morning, for treatment.

Miss Viola Broadwater, of Grantsville, Md., former teacher of music in Taneytown High School, paid her former friends here a brief visit, over Thursday night.

Mr. and Mrs. E. G. Shockey, Otter Dale Mills, entertained, last Sunday: Mr. and Mrs. Bruce Rogers and son, Frederick, of Baltimore, and Mr. and Mrs. Ralph Bryan, Washington, D. C.

Mrs. Geo. C. Naylor and daughter, Mabel, who have been visiting Dr. and Mrs. Wm. J. Sullivan in St. Louis, Mo., have returned to their home in Emmitsburg. Mrs. Sullivan was formally Miss Anna M. Naylor.

Mr. and Mrs. John H. Harner entertained on Sunday: Mrs. Lillie Harner and daughter, Rose; Mr. and Mrs. Harry Harner, of Littlestown; Ornan Moore, of Hanover; Mr. and Mrs. George Harner, Mr. and Mrs. James Harner and son, Walter.

Those who called at the home of Mr. and Mrs. U. A. Dayhoff and family, on Sunday were: Mr. and Mrs. R. C. Weant and sons, Ralph and Donald, of near Emmitsburg; Mr. and Mrs. Parker W. Plank and daughter, Lola, and son Gene, of Westminster.

Edward P. Zepp, Pleasant Valley, formerly of Taneytown, ran over the eight-year old son of Rev. and Mrs. Say, last Saturday, on Pennsylvania Ave., Westminster, the boy having ran from the rear of one car, directly into the path of the Zepp car, two wheels of which passed over the boy's body, but without serious results. Rev. Say and family are from Missouri, the former taking a course in the Westminster Theological Seminary.

Twenty-four members of Taneytown Grace Reformed Church, 11 of which are members of the C. E. Society, attended the fine C. E. Rally which was held at the U. B. Church on Oct. 17. Other visitors were also present, the whole making a good audience, notwithstanding the disagreeable evening. The addresses, and whole program, made a profitable and enjoyable evening. The address of Rev. John S. Hollenbach, of Manchester, was especially well received.

RATIFICATION NOTICE.

In the Orphans' Court of Carroll County: OCTOBER TERM, 1930.

Estate of William H. Knox, deceased. On application, it is ordered, this 20th day of October 1930, that the sale of Real Estate of William H. Knox, late of Carroll County, deceased, made by Harry L. RUDYVALLEE

WITH SALLY BLANE MARIE DRESSLER EDDIE NUGENT

The wonder singer of the air becomes the wonder singer of the screen in this glamorous romantic comedy—

"I'm Just a Vagabond Lover"
"A Little Kiss Each Morning"
"I Love You, believe Me I love you"
"I'll be Reminded of You"
"If You Were the Only Girl"

A Dollar's Worth of Feed value for every Dollar we Receive.

No one can deliver a dollar's worth of Feed Value for ninety-nine cents.

The price of Feed reflects the cost of the ingredients from which it is blended and the honesty of its blender.

Our aim is to use all high quality ingredients—in THE KEY FEED to give one hundred cents worth of quality for every feeder's dollar.

Repeat orders from hundreds of old and steady customers convince us that we are doing it.

Better Feed Produces Better Profits.
