VOL. 37

TANEYTOWN, MARYLAND, FRIDAY, JANUARY 9, 1931.

No. 28

INTEREST IN OLD MILLS STILL CONTINUES.

The Subject brings back Recollections of long ago.

(For the Record).

An article appeared in the last week's issue of The Record about the "mills" on Sam's Creek that interested us, because they were on Sam's Creek The name Sam's Creek sounds as familiar to us as our own name. We were born on Sam's Creek; father and mother were born on Sam's Creek; all our uncles and aunts (direct) were born on Sam's Creek; both Grand-father's owned farms that the little serpentine creek ran through. We played in it, we bathed in it and fished in it. Why shouldn't we feel attached to it?

Dear little old Sam's Creek bub-Dear little old Sam's Creek bubbling and rippling over sand bars, washing up gravel here and there, changing its channel from year to year. We know the mills too, but couldn't give such a correct history as friend "Willis" has. The Stoner mill at Jesse W. Fuss' was one of most important. The first miller, "Kerchner," we never knew only from hear-say. Uncle "Joe" Woods ever good and genial we remember quite well at the mill and later at the exchange at Union Bridge, and A. L. change at Union Bridge, and A. L. Lynn, who operated the mill 4 or 5 years until he met his tragic end at

hands of Joseph D. Davis. We enjoyed our trips to the mill, at that time and often spent 2 or 3 hours of Summer afternoon with "Joe" about his work and was among the first on Saturday to be at the mill after the tragedy. After that, the after the tragedy. After that, the old mill seemed doomed. At this time mill and the millers have faded into history. McKinstry's mill at McKinstry now operated by W. R. Zumbrun and son T. R. Zumbrun, is the only mill on the creek that does a flourishing business. In the past six-ty years the dams that held back water have all filled with mud and have become useless for water forever; modern power, is too expensive for country mills.

C. EDGAR WOLFE. In addition to the above, we have the promise of an article from a Baltimore subscriber, on the same subject, "when he gets the time." Also note reference to the subject in the letter from Mr. Miller.—Ed. Record.)

A NEW YEAR'S GREETING

Mr. P. B. ENGLAR, Manager. I cannot refrain from complimenting and congratulating you on your first issue of 1931. It certainly reflects very creditably on you. The article in reference to the mills on Sam's Creek and the happenings of twenty-five years ago, as well as the report of the Farmers Meeting of Maryland, is and should be of great interest to everybody. You have every reason to be very proud of your paper, and Taneytown also has great reason to be proud of the distinction of having an editor like your good self in a place like Taneytown.

With kindest regards and best wishes

Sincerely yours, HARVEY C. MILLER,

Philadelphia, Pa. (Our good friend, and former citizen of Detour, is embarrassingly liberal in his commendation, but we do not have the courage to let it go as merely personal. Thank you!—Ed.

STATE'S ATTORNEY BROWN.

Attorney Thos. F. Brown, who was elected in November at State's Attorney for Carroll County, without opposition, was sworn in, on Monday, for the next four years, by Chief Judge Francis Neal Parke. This will be Mr. Brown's think terms of State's be Mr. Brown's third term as State's Attorney, an office that he has filled with great zeal and ability, and in general has set a record difficult to equal, and impossible to excel. As many of the law-breakers of the county well know.

BLUE RIDGE COLLEGE LYCEUM

will give the fourth number of the course at Blue Ridge College Auditorium, on Thursday, January 15, at 8:00

gives ample opportunity for a varied program. They will play everything er just as they are or stuffed or chopfrom classical compositions to lighter numbers in their ensemble; but probably the high light of the program will be the cymbalone solos of Miss or figs and seedless raisins, with half

CORBIN BUS LINE SOLD.

The bus line operated between Westminster and Union Bridge by O. C. Corbin, Westminster, was sold on Wednesday to the Blue Ridge Transparent of the Blue Rid boro, Walkersville to Frederick. The Corbin busses were moved to Hagers-Walkersville to Frederick. The ceptable. town where they will be used on short runs out of that city.

TANEYTOWN AND 1930. More Fortunate than Many Other

Taneytown enjoyed a rather favor-able experience with the year 1930. The unemployment trouble that so many places have been complaining of chiefly the large cities—was practically not in evidence here. Building operations, it is true, were limited to one fine brick dwelling, and the exten-sive enlargement and remodeling of two business places, but considerable lesser repair work was done, giving almost continuous work to our mechanics, some of whom were fortunate in securing away-from-home con-

The mercantile business was nothing to brag of, yet not bad enough to complain seriously about. The credit business was no doubt increased, and collections are now not very easy; but so far as we know, the financial status of the community seems lacking of the necessity for many enforced set-

tlements. Farming in the community has been like that occupation everywhere during the past year—very unprofitable, due to the drought. But, our farmers are as a rule good business menwhich means industrious and good managers—and most of them have bravely and safely stood the hard test, and are full of hope for better times in 1931.

So, on the whole, the town and community have demonstrated a sound munity have demonstrated a sound conservative spirit. They have not made a lot of money, but have made the best of the situation, and are far from being in the plight that so many are who have thought Taneytown district too slow, and a few years ago followed prospects that are now far worse than those they left.

Taneytown has very little in the

Taneytown has very little in the way of manufacturing, but in dul! times it is all the better off that it has not. It may be called "slow," but for those who want it to be, its "sure" and a good place in which to live, modest-

One of the notable events of the year was the organization of The Taneytown Chamber of Commerce, a body that is likely to be influential in advancing the interests of Taneytown and community, and to exist permanently along with like bodies in other

LEGISLATURE EFFECTS ORGANIZATION.

The Business of the Bodies to Commence Next Week.

At the caucus of Democratic Members of the Senate and House of Delegates at Annapolis, on Tuesday night, Senator Walter J. Mitchell, of Charles County, was chosen for President of the Senate, and Francis A. Michel, of Baltimore, was chosen as Speaker of the House-Mitchell and Michel, names very similar. Governor Ritchie backed both men, which silenced any opposition.

The Republicans went through the form of nominating Oliver P. Metzerott, of Prince George's County, for speaker. The vote resulted, Michel

88, Metzerott 37.
The Governor in his message recommend an increase of over \$1,000,-000 for state public building construction; maintenance of the state tax rate at 25 cents; an appropriation of \$1,500,000 for Maryland University; full time health officer for each county; recodification of the motor vehicle

laws; more study of the proposed Chesapeake Bay bridge, etc. He left in the hands of the Legis-lature the Constitutional Convention approved at the November election, the recommendation of approximatey \$500,000 expenditures made by the Tercentenary Commission, and

voting machine proposal.

The real work of the legislature will be commenced next week.

PRIZE FOR BEST EDITORIAL ON CAUSE OF PEACE.

The late George F. Milton, president and editor of the Chattanooga News, in the earnest desire to render permanent service to the cause of International Peace—an ideal to which his life was devoted—established in

Writers should submit two clippings of their published articles pasted upon white sheets 8½x11 inches. One sheet should be labeled with the name and address of the author, name of periodical in which the article appeared and date of publication. The other sheet appraise personal property and order to notify creditors.

Michael E. Walsh, executor of Margaret Smith, deceased, settled

Margaret Smith, deceased, settled his first and final account.

S. Grace Coppersmith, executrix
sity of Tennessee, Knoxville, Tennessee," and must be received by Decem-

plish most for her sex during the calendar year 1931. This award will be determined, without competition, by the administrators of the Fund.

The decisions will be announced as hope

soon as possible after the first of the year, and checks will be mailed to the winners. The administrators re-serve the right to withhold awards if no contributions are sufficiently

BALTIMORE AUTO SHOW.

The automobile offerings for 1931, to be shown at the Baltimore 25th. Annual Automobile Show during the week of January 17th to 24th at the setting of unrivalled beauty and historic significance.

The great drill hall—the largest

unbroken expanse in the city—is rapidly being transformed into a replica of the approach to the Lincoln Memorial at Washington and will be the most costly and elaborate decorations for any even ever held in Baltimore. At one entire end of the hall is being constructed the imposing front of the memorial with its stately pillars. Upon the opposite wall will be hung a tremendous moral painting, 182 ft wide by 28 ft high, of the City of Washington skyline showing the dome of the Nation's capitol and the towering shaft of Washington's mon-ument. Dotting the great area of floor space and providing segrega-tion of the exhibits will be cherry

trees in blossom. From every point of interest the Baltimore automobile Show will unusually attractive. It will o for your approval an unprecedented array of cars with innovation galore that mark real constructive evidence

The Baltimore Automobile Show s being held under the auspices of the Automobile Trade Association of Maryland and is staged by the personal direction of John E. Raine, Secretary and General Manager of the Trade organization. Mr. Raine, on behalf of his organization, has suc-cessfully staged the last nine exhibits to be held in Baltimore.

The struggle for existence is the would reflect an ever increasing symmetry interesting part of existing, pathy between the two countries.

CARROLL COUNTY SOCIETY Will Hold Annual Dinner at Lord Baltimore Hotel.

The twelfth annual dinner of the Carroll County Society of Baltimore, will be held at the Lord Baltimore Hotel January 20, at 7:00 P. M. A very entertaining program has been prepared. Charles Carroll, Jr., a descendant of Charles Carroll, of Carrollton, will be the main speaker. J. Thomas Lyons, humorous orator, will be present, and music will be furnish-ed by "The Marylanders" under the leadership of Elmer F. Bernhardt.

Members of the Society, and their friends whether Carroll Countains or not, are invited to attend. The cost of the dinner will be \$3.00 per plate. In order that proper arrangements may be made, all who propose to attend should send their check, not later than January 17, to Thomas S. Ying-ling, 12th. floor First National Bank building, for as many reservations as

are desired.

Each table will seat ten persons which will permit groups to be served together. The dinner will be served in the Lord Calvert Ball room on the Mezzanine floor.

TO PROHIBIT PURSE NET FISH-

There will be a bill before the legislature to prohibit the purse-net as a means of taking fish in large quantities. This sort of fishing does not directly affect any waters but those of the Chesapeake Bay and its tributaries; but it is evidently a wrong way to take fish anywhere, and to that extent affects indirectly all who

are in favor of fair play.

We clip the following part of an article from the Emmitsburg Chronicle, of last week, prepared by Dr. H. P. Freeman, Emmitsburg, who is one of the vice-presidents of the "Izaak

Walton League. "This bill is intended to prohibit purse-netting, commonly known in this section as seining on a tremen-dous scale. Purse-netting is a methhis will a fund to be known as the George F. Milton Awards in Journalism, the income from which is now power boats. By this unsportsmanavailable to Southern writers. like method whole schools of fish, For 1931, a cash award of \$500 will large, small and medium are caught be made to the writer who shall publations of like method whole schools of fish, large, small and medium are caught at one swoop. At certain seasons of lish in any newspaper or periodical in the year these netters catch more the South during the calendar year of fish than their facilities will enable 1931, the best editorial or editorials them to save, with the result that 1931, the best editorial or editorials advancing the cause of International Peace. The term "South" shall be understood to mean the following states: Tennessee, Kentucky, North Carolina, South Carolina, Virginia, Florida, Georgia, Alabama, Mississippi, Louisiana and Maryland.

Writers should submit two clippings. people of Maryland. Striped bass or rock, blue-fish and trout and other species of fish which the people of Maryland would be glad to have grace their table as a delicacy are being turned into fertilizer or thrown away and will, if persisted in, cause this wonderful asset of the state to become almost avinet

There are only fourteen licensed purse-netters in the state and it is hoped that after January, 1931, this number will be reduced to the numerical equivalent of a "goose egg."

MORE CROSSING ACCIDENTS.

The grade crossing situation as a whole instead of showing definite improvement is steadily growing worse. While it is true that the question of elimination and protection is being given consideration by a number of agencies and commendable efforts are being put forth, yet the measures tak-Fifth Regiment Armory, Bolton and en appear to be wholly inadequate to Holman Sts., will be displayed in a meet the exogencies of the present situation.

During the past five years there has been an increase in the number of grade crossings, averaging approximately 650 per year; during the same period there has been an increase of nearly 7,000,000 in automobiles registered, each of which is used more and driven farther per year than was the case a few years ago; both local and long-distance touring have greatly increased. These facts combined have resulted in material increase in exposure to the risk of grade crossing accidents. It is encouraging in some measure that accidents have not in-creased in proportion to the increase in highway traffic.

Nevertheless, the fact that there are 10,000 or more casualties per year resulting from grade crossing accidents is a measure of the extreme seriousthe ness of the question and the need for be more definite constructive measures for relief and protection.

The grade crossing problem is nation-wide, and the casualty record is sufficiently grave to warrant greater consideration throughout the country and to justify the expenditure of increased amounts of public funds to safeguard the traffic on our high-ways.—From Annual Report of Com. on R. R. Grade Crossings.

EVANGELISTIC SERVICES.

Evangelistic Services will be held at the Taneytown United Brethren Church, beginning Tuesday, Jan. 13, 7:30 P. M., daily except Monday. A 3,000 mile wire now connects
Mexico City and New York. In the
first message over it, sent by President Hoover to President Ortiz Rubio,

during the segment of testay, stat. Is,
7:30 P. M., daily except Monday.
Plans are under way to have visiting evangelistic speakers and singers during this campaign, and features President Hoover expressed the earnest desire that the news flashing back and forth on that newly opened line and also to bring or invite your unsaved friends along. EARL E. REDDING, Pastor.

CONGRESS WRANGLING OVER LOAN BILLS.

The Appropriation for Food the Point of Disagreement.

The Senate, on Monday, voted \$15,-000,000 as a loan for food, for the benefit of the drought sufferers, and also voted for the \$45,000,000 bill for the relief of farmers suffering from the drought. All of the money is for

Senator Caraway, of Arkansas, was urgent in presenting the bill for \$15,000,000 for food, citing as one of the needs the report that 300 farmers in his own state, last Saturday, led a storming demonstration in a small town in his state, demanding food for their families who were represented

The Baltimore Sun telegraphed the Governor of Arkansas for the facts, and received a telegraphic reply that the situation there was not in way alarming, and no violence of any form had taken place. He stated further that the people of Arkansas and the Red Cross are taking care of the situation in a satisfactory manner, and will continue to do so as occasions

The House on Tuesday showed its antagonism to the \$15,000,000 food proposition, and John B. Payne, the

including a partial withdrawal by the Governor of Arkansas of his statement in a telegram to the Balti-more Sun, that the state could handle

Complaint has also been made that the idle in the large cities should be lucluded in the food relief program,

this wonderful asset of the state to become almost extinct.

People engaged in this pursuit have no time nor money to contribute to the upbuilding of the fishing preserves in our state, but are solely in the business for selfish purposes only. They represent only a handful of the people of this state and have see," and must be received by December 31, 1931.

In addition to the award in Journalism the Milton Fund provides for a cash award of \$200 to the woman writer in the South who shall accommarite in the South who shall accommand the state and have not take stock of your physical assets when you make an inventory of your possessions at the beginning of the New Year, sums up the New Year is a safety when safe in the south who shall accommand the safety who shall accommand the safety who shall accommand the safety who shall accommand the sa rector of the Maryland Department of Health, to grown-ups throughout

THE POPE ON MARRIAGE

Reaffirms Catholic Position as it Relates to Divorce.

Pope Pius IX during the week reaffirmed the strong Catholic doctrine on the sanctity of marriage, and opposition to divorce. His pronounce ment was sweeping and in detail, and was the first generally specific expression of the Holy See on the subject in fifty years.

In substance, it opposes birth control; pronounces abortion murder; renews the Catholic doctrine that divorce is not justifiable for any reason; that marriage is permanently sacred; that experimental marriage is utterly condemned; defines numerous relations between man and wife, and in an advisory way covers many of the problems touching matrimonial rela-

Marriage is placed on the highest possible plane, and his advice to the young is to "choose a partner well," remembering always the Word of the Lord "What God hath joined together let no man put asunder; and "modernism" that belittles the sanctity of marriage is distinctly a modern evil.

THE RED ROOSTER AND THE BLACK HEN.

Business right now is not so bad; it's not booming, but we're not starving. But then, it matters not what business conditions may be, there are some who always want to win on a chairman of Red Cross told the Sen-ate Committee that his organization was adequately caring for all distress. His detailed report who always want to win on a fluke, that kind that believes the world owes them a living, but who never realize that they are a liability His detailed report was severely criticised, but Mr. Payne held to the statement no more funds were wanted to walk across the street to collect

was adequately caring for all distress. His detailed report was severely criticised, but Mr. Payne held to the statement no more funds were wanted because none were needed.

With the fight over relief appropriations, and the Prohibition question figuring in the debate, hopes of avoiding a special session are said to be losing ground, notwithstanding the fact that the business interests of practically the whote country want Congress to adjourn and go home.

Wrangling over the food appropriation has been aggravated by telegram sent to the members that have been read into the records. The centre of the discussion seems to be around the situation in Arkansas and Oklahoma, including a partial withdrawal by

Said the little red rooster, "Gosh all hem-lock, things are tough; Seems that worms are gettling scarcer, and I cannot get enough, What's become of all those fat ones is a mystery to me; There were thousands through the rainy spell, but now where can they be?"

Included in the food relief program, one of the Senatorial spokesmen for the cities demanding that of the sum appropriated, the cities should get half.

The old black hen who heard him didn't grumble or complain; She'd gone through lots of dry spells and had lived through floods of rain. So she flew up on the grindstone, and she gave her claws a whet, as she said "I've never seen the time there wasn't worms to get."

SAYS PROHIBITIONISTS ARE LUKEWARM.

The Rev. Dr. Homer W. Tope, State Superintendent of the Pennsylvania Anti-Saloon League, on Tuesday declared "lukewarmness of too

State trustees of the league in session in Philadelphia were told by the Rev. Dr. F. Scott McBride, national superintendent, that the country-wide sentiment was never more favorable

succession of scandals for years. "Prohibition in Pennsylvania, how-ever, is safe with the present Legis-lature and present Governor-elect,"

he assured those attending the meeting, held in the Central Y. M. C. A. 1421 Arch St. "One of our greatest needs." said Dr. McBride in his address, "is for an increased number of laymen to

support the work we are doing. Resolutions were adopted opposing any effort to hold a referendum "as meaningless, since the Constitution does not provide for a change of laws in that way."

MEDFORD GRANGE TO MEET.

On Thursday evening the 15th., at that it is better to prolong life, through periodical supervision, than to die prematurely.

7:30 P. M., in the County Agent's Office, there will be a public installation of the Grange officers for the "My New Year's advice to every grown-up in the State is:

"Let your doctor be the auditor of your health account. If you have not present as the installing officer. Mr. been to him recently, go to him for a complete physical examination, with special reference to your heart and You do not have to be a Grange memyour circulatory system; your lungs ber to attend this meeting on Thursand your breathing apparatus; your day evening the 15th. Come out and

\$6,000,000,000 are now being spent by the world for armaments. "To free the world of the back-breaking cost of preparing to fight another war," we are warned, "would be to rid it of a permanent mortgage on prosperity and an ever present menace to world peace."

A little ordinary courtesy would solve many traffic problems and often I save some lives and limbs.

HOOVER AND RENOMINATION.

Somehow, Mr. Frank R. Kent, newspaper writer extraordinary, and others of the craft seem imbued beyond doubt with the idea that Presdent Hoover wants to be renominated in 1932, and will be. So far as we have been able to glean the facts. President Hoover has never made the least sign, nor spoken the least word, that he wants his job over es without fear of having a more ef- again, and it might be well to wait ficient competitor take business away a bit before settling the question for

Then, there is altogether likely to service. Red tape controls activities be a Republican National convention in 1932, following long-standing Try as they will, our socialist precedent, and it is discounting the friends are unable to get away from power, and intelligence of such a these plain facts. Nationalization of body a long way ahead of time, to business would not only mean that state definitely and positively that surance policy here, carry a ton of K. what the writers say now is a

> "Right now he is pretty close to bottom. The elements that opposed his nomination and election are have ing a glorious time. They have hit, are hitting and will continue to hit him with everything loose. And he is having a hell of a time. Every mistake he makes—and he has made a number-is magnified. Every dissension within his party, though along old, familiar and unimportant lines, is played up. The constructive things he has done—and he has done some—do not strengthen his credit. Nothing will in these times. tide's against him and he is taking a terrible beating.

> All this, plus their November victories, has imbued Democrats with confidence stronger than they have had since 1916. And it is a justified confidence. It seems sure Mr. Hoover will be renominated. With his present unpopularity, the economic depression and the advantage of havideal—that if ever a Democrat can be elected he can be now.

And that brings it all back to the months off. Prophecies about prosperity are worthless. No one can tell whether then we will be wholly recovered, partly recovered, or not recovering at all. It's a guess as to the duration of the depression. But his is certain; the strength of Mr. Hoover will be exactly measured by the amount of the recovery. As business gets better his chances improve. Democratic chances diminish. If there is no appreciable improvements within the next year, it will probably be too late for him and elect a Democratic President.

However, if by 1932 trade is distinctly on the up grade, full recovery should be attained before the election. In that case practically all criticism of him would be absorbed and the odds heavily in his favor, with Prohibition injecting the only ment of uncertainty in the campaign. It is unpleasant to think the Demo-cratic hope would have to be based on another bad year. Yet no one doubts it. If a Democrat hopes for bad times in 1931 he is a poor patriot, a poor politician. It's a tough spot. The game in Washington is to keep man is kept doing his best, and earning to his utmost, only to have a eral Assembly meets and is well unabove the first pharse, United we wouldn't anyhow."

Mechanical Toys Seen

as Scientific Wonders Among African negroes, a doll is supposed to have magical powers, and may be used to ward off evil, or offered up as a sacrifice.

Not so many years ago it was believed that to overcome an enemy it was only necessary to fashion a wax doll resembling him and melt it slowly before the fire, when he, too, would waste away with illness.

Toy animals, like those in Noah's ark, miniature picks, shovels and household articles, such as miniature tea services, were buried with the dead or were offered to the gods as imitation sacrifices. Thus a farmer would present at his temple little wooden sheep or horses; the housewife would offer small reproductions of household utensils.

Mechanical toys, such as trains, dancing bears and swimming ducks, had quite a different origin. They were produced as scientific wonders, by the great experimenters of long ago, and were regarded as playthings fit for a king. The more ignorant people believed them to be miraculous and sometimes the makers had narrow escapes from execution as wiz-

"Roses of Old Virginia" Praised by Englishman

In old Virginia there were many kinds of wild roses. As soon as tobacco and cotton plantations were established and houses were built and there was time for beauty, a rose garden was planned, laid out and planted with native roses and the fashionable roses of the Seventeenth century which were brought over from the old country.

These rose gardens are an important and very beautiful feature of every Colonial place. They are very often walled in, and low-clipped box hedges formally divide the beds. The box may be planted in most intricate fashion, as at Mt. Vernon, George Washington's home, or it may be simpler, but it is always well trimmed and cut, as the new owners of these historic old places which were left derelict for long after the Civil war take a great pride in restoring and preserving their beauty and tradition. -Correspondent of the London Times.

Cremona Violins

Carlo Berzoni Cremona was an Italian violin maker. He lived from 1690 to 1746. This master has always been considered one of the best pupils of Stradivarius. He made several models usually flat, giving to the inferior part of the body of the instrument in width whatever the superior lost or gained in length. The sound holes, rather far apart, are very near the edges. The scroll lacks roundness, but at the same time has character. His varnish, always rich and transparent, although thick in places, varies from light red to brown red, sometimes amber yellow, and has a tendency to crackle slightly. The tone is particularly beautiful, combining refinement and power, and any violins made by this man are superinstru-

Commemorative Stamp

The Battle of Fallen Timbers commemorative stamp issued by the Post Office department is a memorial to Gen. Anthony Wayne, and to commemorate the one hundred and fifth anniversary of this battle. "Mad Anthony" Wayne of Revolutionary war fame was called upon to end the Indian trouble at the frontier, when Harmar and St. Clair had failed. He began his campaign in Ohio in the fall of 1793. In 1794 he was active on the Maumee, and on August 20 defeated the Indians decisively at Fallen Timbers, and in August, 1795, he and 127 of the Northwestern tribes signed the treaty of Greenville, by which the United States acquired a large tract of territory.

Cad Religious Sect

The word "abecedarian" is derived from the first four letters of the alphabet and is applied to one learning the alphabet; hence an Abecedarian is a tyro or beginner, says an article in Pathfinder Magazine. As an adjective the word means rudimentary. The Abecedarians were a sect of extreme Anabaptists in Germany during the Sixteenth century. They were so nicknamed because they maintained that the holy spirit would grant the elect all the knowledge necessary to truth; they despised all learning, including theology, and regarded knowledge even of the alphabet as sinful.

GROWING CHICKS NEED VITAMINES

Corn, Cod Liver Oil, Milk and Grass Urged.

Give your poultry yellow corn, cod liver oil, milk and leafy feeds for vitamines, recommends the poultry department of the New York State College of Agriculture. Chicks need vitmore sensitive to a lack of these vitamines than most animals. Growing chicks need them more than mature

Of the three principal vitamines for chicks, vitamine A is found abundantly in such foods as yellow corn, green of this vitamine in the diet will retard and stunt growth and will lower resistance to disease.

Vitamine B which maintains the health of the nervous system is found in the outside covering of cereals, in green vegetables, and in milk. A lack of this vitamine affects the organs of digestion and reproduction, and the nervous system.

Vitamine D, or the anti-rickets vitamine, hardens the bones of growing chicks and prevents leg weakness. To prevent rickets feed cod liver oil or eggs or allow the chicks to run out in the sunlight every day. Sunshine has the same effect on chicks as does vitamine D in their food. Window glass filters out the valuable rays of sunlight so cod liver oil must be fed when the windows are kept closed or even when the chicks are outside, if the weather is cloudy the greater part of the time. Feed one-half pint of cod liver oil to each 100 pounds of grain and mash. Unrefined cod liver oil from a reliable company is just as efficient as refined oil and is much

Cod liver oil tends to lose its value when exposed to the air, so mix fresh lots of mash every week or two. Mix the cod liver oil in a small amount of bran or mash with the hands and then add this to the main pile and shovel the pile over several times until it is evenly distributed. It is usually advisable to feed cod liver oil during the first ten weeks of spring rearing. Cod liver oil should be stored in a cool dark place in closed containers.

Feed for Chicks to Be

Chicks to be raised for broilers or roasters should be fed as other chicks are up to the time of finishing for their special purposes. What are called growing mashes and the usually fed hard grains are given to produce sturdy frames upon which fat may be deposited later in the finishing process. There are any number of formulas for these, all suitable and each preferred by some poultrymen. There are excellent commercial mixtures and formulas are given from time to time in Broilers are usually sold at from eight to twelve weeks of

Raised for Broilers

age and, during the last ten days or two weeks of that time are penned up and fed upon a special fattening ration, of which cornmeal makes up the greater part. If milk in some form is added in liberal quantity to this ration, the quality of the product is im-

Vitamine D Important

for Egg Hatchability Birds that have access to direct sunlight will generally produce eggs of greater hatchability than birds that are deprived of this aid. Sunlight furnishes the vitamine D which is important. Experiment stations have not proved that cod liver oil is as effective as direct sunlight in providing this vitamine, but as sunshine is not available at all times, the majority of hatcheries require that the hatchery flocks receive cod liver oil in their ration. The addition of green alfalfa or clover hay is also an aid in supplying the vitamines needed. The use of glass substitutes on the hen houses will also aid in giving the hens outdoor conditions, even though the weather may not be suitable.

Avoid Cold Nests

A cold nest with cold eggs will often cause a good hen to stop setting. Let her warm the nest first, then place under her, eggs that have stood in a warm room for several hours. A piece of sod the size of the nest box and about four inches thick, turned grass side down, will hold the heat, and keep the moisture from leaving the eggs too rapidly when hens are setting. Make a slight rounded hollow in the center of the dirt, then put in a layer of chaff or short straw.

Don't Feed in Litter

D. C. Henderson, poultry extension specialist at South Dakota state college, says that since bacillary white diarrhea and coccidiosis can be spread only through the mouth and digestive tract of the chick, hopper feeding, as opposed to the feeding of mash and grain in the litter, may be one of the best preventive measures in combating these diseases. It is recommended that the first few feeds be given on clean newspapers. with hoppers or boxes for subsequent feedings

GREAT AMERICAN VALUE

At the National Automobile Shows

Chevrolet wins first place for the fourth time

First place at the National Automobile Shows-a position granted on the basis of annual sales volume—is again awarded to Chevrolet.

This is the fourth consecutive time that Chevrolet has achieved this honor. And the reason lies in the exceptional value which Chevrolet cars consistently provide.

This year, in its bigger and better Six, Chevrolet is offering an outstanding example of the value which has brought it such record success.

In fact, no previous Chevrolet car has ever represented such a high degree of quality and advancement, and sold at such low prices as today's Chevrolet Six.

New Year's Day with Mr. and Mrs.
Luther Sentz and family.

Inclined to Mercy Mrs. Plainmug-I'd like to sit for my portrait. Think you'll do justice to my features?

Psmear, the Artist-Oh, lady! How could you think me so stern and hard as that?

HOW LONG MARRIED

"So you are married? For how

crying fits."

Light Warns Mariners of Treacherous Reef

One of the most famous lighthouses in the world recently celebrated its jubilee. A slim white pillar, known to nearly all sailors, rises out of the sea fourteen miles from Plymouth, England. This is the Eddystone lighthouse, or, rather, the fourth Eddystone lighthouse. For more than two hundred years, the light from this beacon has safeguarded mariners during the night against the treacherous reef which is its foundation, and which lies directly in the track of vessels entering and leaving the English channel. The first of the lighthouses erected on this reef was a queer affair. It was a tower that looked like a cross between a Chinese pagoda and a Turkish minaret. The outer walls were circled with wide galleries, and were ornamented with painted suns, wooden candlesticks, weather vanes and strange gables. The tallow candles in this wooden lantern were lit for the first time in November, 1698. For four years this queer structure withstood the onslaught of wind and sea. Then one fateful night a terrific hurricane swept away the lighthouse and its occupants. The present lighthouse was designed by Sir James Douglas, and its first stone was laid August 19,

Oldest and Costliest

Perfume Is Rose Attar Attar of rose is described in phar-

macopoeias as the oil distilled from the petals of the damask rose (Rosa Damascene). It is employed mainly in pharmacy for perfuming lotions and medicinal washes, but has a certain reputation in the treatment of painful eye affections, being astringent, like most vegetable substances.

It requires two hundred pounds of almost feather weight rose petals to produce one ounce of attar of rose, so is it any wonder that the perfume in its quaint eastern phials, covered with quotations from the Koran, costs anything up to five pounds sterling a fluid ounce?

Persia and Turkey produce most of the attar of commerce. India has lost the monopoly, as she has lost the monopoly of cinchona (quinine) and opium, much to the benefit of other countries. Rose water itself is a far older perfume. It is referred to by Nicander in B. C. 140, and the Mohammedan pharmacists, although they introduced its use into Europe, undoubtedly learned it from India, as they learned many other secrets of medicine and pharmacy.-Montreal Family Herald.

Somewhat Hasty Biggpott looked up from his massive glass-topped table, and glared at

the intruder. "Well, what do you want?" he rapped out.

The young salesman coughed diffidently. "Well-eh-sir, I came to see if I could interest you-if you needed-

one of our-" "Can't be done," snapped the other, "I've got three already."

Alone, Biggpott smiled at his own cleverness. Then his eye caught the card the other had left on the table, and he picked it up. Dark was his brow as he read, "Slickhem's Artificial Limbs. Consult our sales representative for cork legs, etc."

The salesman's eyes goggled, but he

Beekeeping's History

At the eleventh international conference of the Apis club, held in London, Miss A. D. Betts, in her presidential address, recapitulated the history of beekeeping, showing how it appears to have attained its maximum of national importance among the worshipers of the mother-goddess

in Neolithic or Bronze age times. It has gradually fallen to its low status of a century ago through the loss of its religious standing, and by the economic difficulties caused by the substitution of other beverages for mead, the diminution of the wax market at the Reformation and especially through the effects of the use of sugar upon the demand for honey .-Nature Magazine.

Landmarks

It had been a very convivial reunion dinner, and when the time came for the guests to depart Smith and Jones found that their last train to the suburbs had gone, and they were faced

with a five-mile walk home. About an hour later, just as they had passed a church which had chimed out the hour of two, Smith broke a long silence.

"Does your wife miss you when you are late on such occasions as this?" he asked.

"Very seldom," his friend replied. "There are still two large lumps on the back of my head where she hit me the last time."-London Answers.

Poultry on Parade The largest poultry plant in the world, operated at Reseda, Calif.,

sells more than 150,000 old hens each year and maintains a flock of 500,000 hens. The statistically minded can calculate that if these 500,000 chickens were marching in a line a foot apart the parade would extend more than 90 miles. This company now uses the poultry inspection service of the bureau of agricultural economics of the United States Department of Agricul-

HIGH SCHOOL NEWS TANEYTOWN.

The high school played its second game of basket ball this season with Westminster, Tuesday evening. Scores were: girls' game 6 to 7 in favor of Westminster; boys' game 19 to 41 for Westminster.

SHE WAS SURE OF IT.

A woman touring in Florida saw an alligator on the bank of a river and a number of colored children playing about. Suddenly the alligator opened its mouth and one of the children disappeared. The woman ran to the nearest cabin and called: "Mammy—are those your children playing down there by the river?"

"O mammy, I'm so sorry to have to tell you, but an alligator took one of your little ones."

"Wa-a---I done been tellin' Mose that somethin' was a-takin' our chillens!"-Exchange.

The radio is making people so particular about their entertainment that a street band of five pieces will soon be declared a public nuisance. Isn't it strange how we usually rate a man for being worth more than he is, especially when we know how

little he pays to his church? A fool always finds a greater fool to follow him.

None of us object to flattery provided we are the object of it.

DIED. Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

MRS. LUTHER R. HESS.

Mrs. Alverta V. Hess, wife of Luther R. Hess, died Dec. 30, at her residence 459 Jumiper St., York, Pa., from a complication of diseases.

a complication of diseases.

She was 42 years old and is survived by her husband and the following children: Roberta V., Vivian L., Mindella E., Milford L., and Thurlow H. Hess, all at home.

The deceased also leaves her mothers and stan father. Mr. and Mrs. Wr. er and step-father, Mr. and Mrs. Wm.

Dern, Emmits-burg; Elvin D. Dern, Gettysburg; Clarence E. Dern, Taneytown, and Roy B. Dern, New Fidway, and by nineteen grand-children and nine

He was a man of genial nature, and

great-grand-children.
Funeral service will be held on Saturday, at his late home at 1:30 o'cock and in the Keysville Reformed church, in charge of Rev. Feilds, pastor of Doubs Methodist Church, assisted by Rev. Guy P. Bready, pastor of Keysville Reformed Church. Interment in Keysville cemetery.

Loving Remembrance of our Dear Mother, MRS. MARY J. S. ANDERS, who departed this life Dec. 29, 1939.

Mother has fallen asleep.

Dear Mother was tired and weary Weary with aches and with pain Put by the needle and rocke. She will not need them again. Into sweet rest she has entered No more to suffer or weep After life's long litful fever Mother has fallen asleep.

Rest the worn feet now forever Dear wrinkled hands are so still Pulseless the heart that no longer Sorrow can quicken or thrill.

Tears will glide o'er her gently Fading the shadowland deep Drive back thy tears would you wake her Mother has fallen asleep. Father and Mother gone To the clinic to wait for the Others coming some time.

By SADIE AND LUTHER. Farewell dear Mother sweet thy rest Weary with years, worn with pain Farewell till in some happy place We shall behold thy face again.

By her daughter, MRS. OVERHOLTZER When evening shadows gathered round,
There came a voice that caller our Mother
To a home where sickness and pain are
no more—
To a home not made with hands.

By her daughter, MRS. AULTHOUSE. Dearest mother thou hast left us In this dreary world alone You have gone to join the Angels In that beautiful Heavenly home.

By her son WILLIAM & FAMILY, From a world of pain and sorrow To the land of peace and rest God has taken our dear mother Where she found eternal rest.

Sleep on dear mother life's night is dark; We wait for the golden dawn; May we meet where all tears are wiped away Where heartaches and sorrow are gone.

By her son, HARRY AND WIFE. Oh we miss her, yes we miss her, When we see her vacant chair. And how sad the room without her, For there is no grand-ma there. By her GRAND-CHILDREN.

Imitation sunlight, shining through fake windows to approximate further the effect of real daylight, has been found to speed up the production of night workers, says Popular Mechanics Magazine. Experiments in London by the national physical laboratory Missionary Says Effort Is Beshowed that the eyes are more at home under conditions as nearly as possible like natural daylight, and that better vision resulted in better work. A comparison of the hourly output of night clerks in offices working under ordinary artificial lights and under artificial sunshine showed a distinct balance in favor of the latter. Coloring of the light to approximate the sun's rays was found to be the most essential condition.

ATROCITIES IN CHINA REPORTED

ing Made to Arouse Ignorant.

Peiping.-A deliberate effort to arouse the feelings of ignorant Chinese against foreign residents, similar to efforts of the same sort made just prior to the Boxer uprising in 1900, is reported by an American missionary in Honan province.

The missionary writes that a number of well to do persons in a north Honan county have been murdered recently, and some of their vital organs removed, an offense particularly objectionable to Chinese, who believe it intereferes with the contentment of

the dead person in the spirit world. The story has been spread in each case that foreigners have paid gangsters to murder these people and get their organs, which the Chinese believe foreigners use for medicine. The story has appeared in several districts at the same time, and seems to be a co-ordinated attempt by some group to stir up agitation against foreigners.

Atrocities Reported.

Many instances of the same sort of atrocity have been reported from Honon and Kiangsi provinces, where ...,\$856,353.66 Communist armies are active, and it is believed likely that a Communist "missionary" has penetrated Honan, and is at work among the bandits there. While Honan has suffered immeasurably during the last few months from bandit raids in which

fess Communistic leanings. They are straightforward robbers, who claim no other purpose than to obtain as much loot as possible. There are two claimants to imperial rank in Honan at present who have a considerable following and have established independent governments of their own in isobelieve seriously that they may be able to establish a new Chinese dynasty, and are not robbers in the ordinary sense of the word.

Woman Bandit Chief.

The most picturesque robber chieftain in Honan at present is a woman, the "Widow Chang," who has been active for more than a year and during the last few weeks has invaded the district near the ancient city of Loyang and set up a government of her own in the town of Lungmen.

The "Widow Chang" is said to have been driven mad by the murder of her husband and children by bandits about a year ago. She sought admission to an established robber band and in a short time had risen to leadership. While she is mentally unbalanced, she retains enough intelligence to direct her band with an iron hand, and has gained many followers in re--3,054.60 cent weeks.

.....\$582,789.93 battle with a people's army near Lungmen, the latter consisting of farmers organized to defend their farms from bandits, and the widow was entirely victorious. The battle lasted for two days and several hundred were killed.

The Widow Chang is a sort of female Robin Hood, who rapidly enlists the support of poor people in districts where her band remains, She robs the rich to pay the poor, and is generally more gentle in her methods than other chieftains. Recently, however, she has allied with another bandit chieftain and seems to be on a par with the others at present in cruelty.

Sense of Humor Kept Couple Happy 90 Years

Denver.-John Dalziel, ninety-two, and his wife, Jane, ninety-one, who celebrated their sixty-ninth wedding anniversary here recently, attribute below the surface, in which, it is claimed, were over 75,000 feet of their long marital bliss to a sense of humor.

"We started out in Scotland, thinking we knew a lot," said Dalziel, who has gained nation-wide fame as an engraver. "Then life took hold of us, turned us this way and that way, laid responsibilities and burdens upon us, gave us enough joy to make and keep us grateful and enough sorrow to insure opportunities and kept our sense of humor alive."

For a man standing on the threshold of his ninety-third year, Dalziel made a surprising though frank ad-"I have discovered I don't know any-

thing and am preparing to take on a charge of new and thrilling knowledge," he said. Many of his engravings of birds,

beasts and reptiles appear in the Century Dictionary. His father, Sir Robert Dalziel of Newcastle-on-Tyne, was a portrait painter of note.

****** Traffic Cop Falls in Love, Wife Sues

Memphis.-Charles P. Malone, a traffic policeman, fell in love with Mrs. Rose P. Rude, who motored past his corner four times a day, according to the policeman's wife, who has sued the other woman for \$5,000, alleged heart balm.

Zaasasasasasasasasasasas

CANADIAN SURGEON WINS WORLD FAME

Foot and Joint Ailments Are Treated Successfully.

Ottawa.—At Williamsburg, a tiny village six miles from Morrisburg and the St. Lawrence river, a country doctor has the world coming to his door because of the extraordinary success with which he is treating ailments of the feet and joints. By scores and hundreds a day, by tens of thousands a year, men and women are visiting him, and going away relieved or cured.

It is a story of unusual human interest which is told of Dr. M. W. Locke, this specialist in common diseases such as fallen arches; a modest physician who with professional reticence declines to be interviewed. He is said to have now the largest practice in the world. He charges no patient more than \$1 for treatment; his fellow-citizens and the poor from evervwhere are treated without charge. and yet his income is reported to be \$50,000 a year.

Declines Tempting Offer.

He declined an offer which would have given him a clinic in a famous American medical institution. He returned a check for \$10,000 sent him by a grateful American whom he had aided. When lodging houses in Williamsburg began to charge exorbitant rates for accommodation he told them to stop. "Make your charges reasonable or I will build a hotel of my own," he said, and he would have done so, but it proved unnecessary. The threat was enough.

Doctor Locke was born on a farm a few miles from Williamsburg, graduated in medicine at Queen's university in Kingston, and took a post-graduate course in orthopedics at Edinburgh. He set up in practice at Williamsburg, specializing in diseases of the feet and joints, but it was not until the last few years that his fame began to spread—and then principally across the border in New York state.

Information about the doctor's affairs has to be obtained from his friends in the village. They say that except in winter when roads are impassable he treats an average of 200 to 400 patients daily, seven days a week, and that 70 per cent of them are Americans. He begins work at eight o'clock in the morning and ends it when the last case of the day has been disposed of.

Patients From Everywhere.

On a recent morning a visitor found about 75 automobiles in the village with patients. Half of them bore American license plates and many from distant points. Patients were of all classes, some in expensive chauffeur-driven cars; some in humble vehicles. All had the same treatment and paid the same fee. In rare cases Doctor Locke finds it necessary to resort to surgery, but in the main he uses nothing but his strong hands in manipulations which are said to be quite painful but remarkably effective. The average treatment does not take more than two or three minutes, so that patients pass through his office The widow's gang fought a pitched in a steady procession. If they cannot walk he goes to their cars.

Doctor Locke has the reputation of possession a singular gift of silence. He is devoted to his work and apparently happy in it. He carries a tremendous burden with no sign of strain. He is about fifty years old; his self-imposed task is an immense one in the relief of distress and suffering, but his neighbors believe he would trade places with no one in this

Walnut Lumber Worth Fortune Found in River

Murphysboro, Ill.-A small fortune in walnut logs, lost during a blizzard 40 years ago, was recently recovered from the Big Muddy river near here. Several valuable logs in a pile of driftwood were noted by a group of lumberman and an examination disclosed a huge raft lying several feet

choice walnut logs. Investigation showed the logs to be the property of a Cairo timberman. who had started a raft of them down Big Muddy 40 years ago. A storm sunk the raft and no trace of it could be found. At that time they were

worth \$40 per thousand feet. The logs are in an excellent state of preservation.

War Veteran Arrested 154 Times Since 1919 Washington.-A request for release

of a war veteran from jail disclosed a world's record for arrests in police court here recently. An attorney asked the judge to re-

lease Stephen Woods, thirty-five-yearold sailor, from fail. He had been sentenced to approximately two years on charges of assault and drunken-

.The judge asked for the man's court record. It disclosed he had been arrested 154 times since 1919 and has paid \$2,040 in fines. Since 1920 Woods has spent the equivalent of eight years

Man Killed on Way to Funeral of Auto Victim

Norwich, Conn.-En route to attend the funeral of a nephew who had been killed in an automobile accident here, Philip Cormier of Framingham Wass., was kided in a similar mishap

MISSOURIAN FINDS WOES IN WEALTH

Pays Million Debts and Turns From Finance.

Kansas City, Mo.—Twelve years ago he was a millionaire-minus, that is, he

owed a million. And today Emory J. Sweeney of this city is a schoolman, free of debtand he intends to stay that way.

Making the million in real estate developments was difficult enough, but paying his debts of a million was even more difficult so he has no desire for either experience again.

Mr. Sweeney settled his debts by disposing of some of the luxuries which his fortune brought him. They included a huge mansion, a ten-story business building, a fleet of motor cars valued at \$100,000, a huge real estate subdivision, and a radio station. Today the man lives in a comfortable home and owns a three-story

building where his school is conducted. The good heart of Mr. Sweeney actually proved his undoing. He was at the height of his pros-

perity at the end of the World war, when influenza swept the nation and snapped the backbone of his fortune. "I took care of the sick boys, although I was only paid to teach them," Sweeney explains. "Influenza became the country's problem, and I made

those boys my own problem. I bought and rented hospitals-and paid the bills out of my pocket." The real estate business suddenly seemed stricken by illness, too, for Mr. Sweeney met trouble in that field also. Finally he counted his debts at the million mark, and then he began paying his obligations. The last settlement was made just a few days ago

when he disposed of Indian Village,

a pretentious land development from

which he at once time expected to

realize another fortune. Southern States Join

in War on Illiteracy Washington .- Four southern states, Georgia, Alabama, South Carolina and Louisiana have taken the lead in the campaign against illiteracy, according to reports of the national advisory

committee on illiteracy. In these states a total of 240,270 illiterates were taught to read and write. The number given instruction in each state follows: Georgia, 40,-848; Alabama, 41,726; South Carolina, 49,345 and Louisiana, 108,351.

The committee, of which Honorable Ray Lyman Wilbur is chairman, also conducted campaigns in Virginia, West Virginia, Tennessee and Arkansas, but returns for these states have not come in. It is planned to extend the campaign to all the states in the Union in order to give every illiterate a

chance to learn. The four states that have taken the lead in the campaign thus far were the only ones given outside financial aid. The Julius Rosenwald fund supplied them with one dollar for every two dollars raised locally.

Widow With 6 Children Rules British Island

London.-A widow with six children, Mrs. Dudley Beaumont, holds the distinction of being the only woman governor within the British empire possessing full administrative powers.

Mrs. Beaumont, who holds the title of the Dame of Sark, rules the island of Sark, which consists of less than 300 acres with a population of approximately 600. It is one of the Channel group of islands. She presides over a parliament

which meets thrice yearly and supervises finances of the island, where taxes still are paid in kind and the houses assessed according to the number of their chimneys. Because of her position, she alone on the island is allowed to keep doves. According to philologists, the people

of Sark speak the purest Norman French to be heard anywhere and faithfully preserve the speech of William the Conqueror and his followers.

Community Still Used by

Neighbors Seized in Raid Cleveland .- Community stills are the latest wrinkle for thirsty neighborhoods, according to Police Sergeant

William Bammerlin. Heading a raiding party, Sergeant Bammerlin recently found one of 15 gallon capacity, It possessed no specific owner, but had been passed from neighbor to neighbor.

Not Appendix; Pin

Ocala, Fla.--Ever since he was eleven years old, Bill Aylward, now sixteen, complained of a pain in his side. They operated for appendicitis. The surgeon pricked his finger while operating. Forceps extracted an oldfashioned straight pin from Bill's appendix.

**** Rats Block Rivers, Lake Is Going Dry

Capetown, South Africa .-German explorers who have just returned from the Ngami Lake district report that Lake Ngami was formerly a deep lake 20 miles long and 10 miles wide. Today it is very shallow and almost dry, because, according to the natives, rats had stopped a number of rivers from flowing into it.

THE MOTHER OF RICHARD

SELECTION SELECT

By FANNIE HURST

MERKEREEREEREER

(©, 1930, McClure Newspaper Eggdicate.)

S MRS. BRISBANE told herself repeatedly when the news came, it was precisely what she had expected. It was precisely what she had known would happen. If this last is perhaps stretching it a trifle, it might be more concise to say that it was what Mrs. Brisbane had for years tried to make herself believe she wanted to happen.

No mother, however whole-hearted her desire for the welfare of her son may be, should be expected to take the high hurdle of a son's marriage without at least a little crack, if not a break, of heart.

And the news that had just come to Mrs. Brisbane was not only that of the marriage of her son, but of the marriage of an adored and only child, who up to two years before, when he had left to accept a temporary business position in London, had been her constant and devoted attendant.

The years away from him, while she remained at home in Minneapolis, where as a widow she had reared this child into the fine fulfillment of a steady manhood, had been the loneliest of her life, with the exception, of course, of those immediately following her husband's death, when the boy Richard had been six.

It was one of those sacrifices, her permitting Richard to accept the temporary position with a large mercantile establishment in London, that millions of mothers have been called upon to make, and have made valiantly. There was never a moment when Marion Brisbane hesitated in her enthusiastic co-operation with a plan that was to tear her son from her side. And now the two years were finished. The two interminably long years, when her chief sustenance had been eagerly devoured from the letters of her son.

It was not that his marriage had come with the blow of surprise. From her pretty little house in a charming residential street of Minneapolis, Marion Brisbane had seen the thing happening overseas as clearly as if the entire scene were taking place in the retina of her eye.

Veronica Clayback, the girl Richard was bringing home as bride, was an American born girl who had lived in England the greater part of her life. Marion Brisbane had gone to school with her mother, a highly bred St. Paul girl, who had married a Britisher. Everything about this marriage, generally speaking, gave off the odor of rightness. The Claybacks stood for fine stability, social distinction, to say nothing of great wealth. From all she knew of this daughter of her erstwhile school friend, Richard was taking unto himself a wife worthy of the promise of a fine young man

And so Marion Brisbane sat in the midst of the news of the rather sudden marriage of her son to this girl: sat with both their dear, affectionate letters in her lap, letters which announced their near future homecoming, and tried not to let the crack in her heart widen into a break.

The boy who had gone from her, totally her own, was coming back the property of another. There was no gainsaving there. Millions of mothers before her had tried to evade the bitterness of that truth, and millions would after her.

Richard was no longer hers, solely, triumphantly and dearly. He had taken vows in the name of this terrifying stranger, Veronica Clayback. His kiss of allegiance was sealed against her strange lips. The symbol of their oneness was in a circlet around her marriage finger.

It was then, as these shaming and shameful jealousies began to crowd in on Marion Brisbane, that she determined willfully to cast them out of her heart.

In the two months that lay between her and the date of the return of her child, Marion Brisbane determined to set her house in order, to adjust her jealousies, to grind them out, to prepare her mind to receive, without rancor, this stranger into her home.

It was curious the way the mind of Mrs. Brisbane set about its task. She determined to meet her daughter-inlaw on the equable basis of woman to woman. Veronica Clayback Brisbane was not going to be confronted by the appalling situation presented by an antiquated, jealous mother-in-law.

From the bottom up, Marion Brisbane began a mental and physical renovation that would make her, in the eyes of her daughter-in-law, the modern, unsentimental, intelligent mother-in-law that she proposed to be.

The result was interesting. Marion Brisbane had her face lifted, and it must be said that there was nothing mask-like about the results. A new youth flowed across the expression of this woman, aided and abetted by the new determination in her eyes. She not only had her face lifted, she had her hair tinted and permanently marcelled; conservatively tinted, so that it lay in soft brown waves. And her figure, given over in her middle years to a slight blowiness, she reduced in those two months to proportions that took off as many years in age as they did in pounds. The friends of Marion

Brisbane, who had not seen her in the brief period of a few weeks, gasped when they beneld her. A new, modernized, alert, youngish woman. Rejuvenated, trimmed down, incalculably improved. Even her manner was crisp and new and quick.

Richard Brisbane, who had been away two years, was to come back and find his mother more than fifteen years younger, and younger in a way that took his breath. She was the mother, all right; the mother whom he adored and toward whom he had felt qualms in bringing home even so undeniably right a bride as Veronica.

Marion Brisbane met her children with a reserve, with a competency, with a charm, that was as disarming to her daughter-in-law as it was to her son. Richard had not prepared Veronica for this complete, self-sufficient mother-in-law. She had expected a different type of woman, an older, less trim, less self-confident person. Richard had failed in his description of her.

The new regime, so carefully instituted in the heart of Marion Brisbane, began. She met her daughter-in-law on equal ground. The petty jealousy that pricked at her being, she kept fastened down like a jack-in-the-box: her son's evening kiss, which was for his wife first; little meetings of their hands beneath the dinner table; the covert, adoring glances that were exchanged in her presence. Neither by word nor manner did Marion betray heart hurt to Veronica. They met woman to woman. And once having made her decision, a glad kind of satisfaction over the wisdom of determination spread itself over the heart of Marion Brisbane.

Veronica, although American born, had the cool, proud quality of the Britisher. There was something almost boyish about her. Level-eyed, athletic and charmingly playful. There was no nonsense about her She was the sort of woman before

whom it would be difficult to weep. Marion Brisbane was glad of her trim figure and her trim manner and the air of camaraderie with which she was able to meet the stranger, and if her son sometimes regarded her, in spite of all his spoken admiration of her improved appearance, with bewildered and wistful eyes, the heart of Marion Brisbane felt right within her.

She was not the legendary motherin-law.

And then this began to happen, so slowly, so insidiously, that Marion Brisbane, herself, was the last to realize it-if ever she realized it. Gradually, subtly, the status of the household began to ascertain itself. Never once did Marion Brisbane relax the rigid conservation of her puzzled self. Her daily massage, her daily hairdress, her routine manicure, were religious rites. It was the inner woman who began to relax. Marion began once more to be a mother. Some of the old dominating attitude crept out in her manner toward her son. Once or twice in the beginning, while she was still conscious of it, she found herself to her horror, uttering an admonition to her daughter-in-law. Marion, who had so resolutely decided never to intrude her opinions or her mandates into the lives of these two younger ones.

Gradually, the in to revert to type. It was impossible not to want to serve in a maternal capacity, these two, who had so much to learn and who stood at the threshold of a lifetime together.

Marion began to baby Veronica, to serve her in a hundred undignified ways; to meet her no longer as woman to woman, but as mother to child. And with the change in Marion, there came the change in Veronica. Again, subtly, the attitude of Veronica became that of the younger woman.

There was a mother-in-law in the home. Not in the comic, or the legendary sense, but behind the trim rigging of Marion Brisbane, an artificial structure was beginning to collapse. Richard saw it happening, and smiled. Veronica saw it happening, and had no consciousness of the facts. She felt only a secret sense of elation that her first impressions of her mother-in-law, which had been chilling, rather terrify-

ing ones, were all wrong. She was not the formidable, formal, cold and trim modern woman she had appeared in the beginning. Behind that cold exterior Veronica was gradually beginning to find the sort of woman she had dreamed Richard's mother would and must be. A terror was beginning to thaw at the heart of Veronica, and a new kind of sweet to flow in.

The mother of Richard was the kind of woman she had dreamed she

would be. And the mother of Richard, without realizing that the artificial structure that she had created behind the mask of her face was tottering, turned out permanently to be the kind of mother that Veronica had dreamed the mother of Richard must be.

South Pole More Barren

The life of the two poles is remarkably unlike. While numerous fossils have been found in the Arctic, providing definite indications of the migration of various species of plants and animals from continent to continent, too few for accurate theorizing have ever been found in the Antarctic. There are several hundred different kinds of flowering plant life in the Arctic, and only two, one a grass and the other an herb, in the Antarctic. herefore, any speculations on past igrations between the continents of te Far South must be based on fosis, which the explorers are eagerly

KISS FOR THE PRESENT

"My firm is sending me to Canada," said the young commercial traveler,

calling on his young lady, "Oh, Jack," she cried, "does that mean that you want me to go with

"Well, not exactly, dear," he replied. "I called round to ask if you'd kiss me farewell-for the present."

The girl looked mystified for a second or two.

"Of course, I'll kiss you, dear," she replied, "but where's the present?"-London Answers.

THEY'RE BEAUTS

She—The West has wonderful mountains—so beautiful. He-Yes, lots of them are buttes.

Shifting Opinion Our old impressions we deny,
How often have we seen it!
We make a law and then we try To say we didn't mean it.

First Catch Your Man The Visitor-Is your oldest sister married-the one who was so proficient in all branches of domestic science?

Philippa-No, nor likely to be. She was so busy fitting herself to be the wife of a good man that she neglected to go after the man.

For Literary Uses The Author-Can I get \$2 advance on a story I'm writing?

The Editor-It's unusual. But why? The Author-I've got to a point where the hero sits down to a square meal and I want to get the right atmosphere.

Hard Luck

Flubb-Grugg is certainly having a time of it.

Flap-He has the St. Vitus dance, hasn't he? Flubb-And his wife doesn't believe in dancing.

A Lazy Brother

"He hates these revolving doors."

"What's he got agin 'em?" "Well, he's always been used to depending upon a pull for what he wants, and they require push."-Cincinnati Enquirer.

LOVED THE RING

"Having broken your engagement to George because you hate him, why don't you send back his ring?" "Well, you see, dearie, I don't hate the ring.'

I'll Let You Drop, Too

Self-esteem is very well,
And there is naught can stop you. But though conceit may puff you up
It surely will not prop you.

Marriages of Convenience Mrs. Newset-O, John! Daughter has married the chauffeur.

Mr. Newset-O, that's not so bad. Now if Clarence would only consent to marry the cook we would be well fixed.

All His Fault Wife-John, I'm so disappointed.

John-What's the matter now, dear? "Here it is your birthday and you forget to bring me home a present to give to you."-Stray Stories.

Crude Work

Welfare Workers (to prisoner)-And what are you here for, my man? Prisoner-Flattery, ma'am. Caught imitating another man's signature on a check.

After the Marriage She-And don't you ever forget that

I threw over a millionaire's son just to marry you. He-Yes, that guy was not only born rich but lucky as well.

That's Different Father-Did you see me shoot that woodpecker on the wing? Son-You never shot him on the

wing. You broke his leg.

And Still He Paid Dubbson-You paid court to that chorus girl once, didn't you, old man? Flubson-Yes, and I'm still paying the court.

Hatchability of Eggs

Do not set eggs that are older than a week or ten days. Hatchability decreases rapidly after the eggs are ten days old, and the chicks hatched are apt to be low in vitality. A room temperature of about 50 degrees is best for eggs which are being saved for hatching. To lessen the work of turning the eggs while saving, they should be placed in a 15-dozen case which should be turned over one side a day. This means work, but it pays well in the end.

Poultry Facts

Keep comfortable temperature under hover for chicks.

Do not keep chicks of different ages under the same hover.

Use feed that has proved satisfactory by feeding tests.

Use clean dry sand or litter on floor. Clean every week and more often if

Separate cockerels from pullets as early as possible or before chicks are early as possetten weeks old. When the poultry range is idle, it

is a good plan to have a crop of oats

growing therein. Use hopper and water fountains that will not allow chicks to get in feed

Locate brooder house on ground that has had no chickens or chicken manure on it for the past year.

or water with feet.

When it is not possible to keep the birds from ranging on a certain area, frequent plowing, disking and liming are essential.

Like chicks, goslings should not be fed until really necessary, about thirtysix hours is best. They do not eat much for the first few days.

Recent experiments at the University of Kentucky have shown that high hatchability was secured when hens were allowed bluegrass range throughout the season.

Latvia's Historic Capital

In 1918 Latvia was made an independent republic with Riga as its capital. One is accustomed to think of the Baltic states as little countries, yet Latvia's area is 25,000 square miles and is as large as both Holland and Belgium together. Riga is a dignified city with many parks and broad boulevards. Its wide paved streets are so thickly fringed with lime trees that one may walk beneath them when it is raining without need of an umbrella. Riga was founded in 1201 by Bishop Albert, who built the cathedral. This cathedral is one of the most ancient of Riga's many places of worship and has one of the largest organs in Europe.

Proving Earth's Motion

A ball suspended in the National Academy of Sciences is a Foucault lins, while a Harvard student, took a The action of this pendulum depends upon the fact that, according to the laws of motion, a freely swinging pendulum tends constantly to move in the same plane. The experiment proves that the earth rotates eastward, and the rate of deviation of the pendulum proves that the relative motion of the earth with respect to the stars is due entirely to its rotation and not to the motion of the stars around it.

Clever Herbert

In the stillness of the night there came a noise from the dining room. "Some one's moving," whispered Mrs. Brown. "Go down, Herbert." "I don't think it's-er-anything,"

faltered Herbert. "Herbert, are you afraid to go down and face that burglar?" demanded his

"Afraid? Certainly not!" he stammered. "But you know, my dear, how I hate meeting strangers."

Cautious Mrs. Bonnie Carter of Pasadena was poking about in the shrubs when she

suddenly called out: "Look, Junior! Here's a little green snake!"

"You better look out," cautioned Junior, "it may be just as dangerous as a ripe one."-Los Angeles Times.

History of Harpers Ferry Harpers Ferry, W. Va., was named

for Robert Harper, who founded it in 1747. He was born in 1703 at Oxford, England, and emigrated to America at the age of twenty. He bought the site of Harpers Ferry for 50 guineasabout \$260-for the good will of a squatter named Stevens and a patent from Lord Fairfax. It was purchased from Harper's heirs by the government in 1794 for the purpose of founding a national armory of 125 acres. Later the site passed under the control of the new state of West Virginia.

New Game

After his second week in school, Billy came home with the announcement that an older boy was going to show him how to play a new game. "And what is the game?" asked his mother.

"Hookey is what he calls it," responded unsuspecting Billy.

JAILS SELF TO GET U. S. PRISON HOME

Broken Man Turns Counterfeiter and Tips Agents.

Detroit.—Theodore Murdock, bent and crippled, and appearing much older than his fifty years, achieved his ambition when Gregory H. Frederick, chief assistant United States attorney, signed a warrant charging him with counterfeiting.

It ended months of miserable toil for him writing with twisted fingers. He smiled contentedly as he was led to a cell in the county jail.

Murdock was arrested by George H. Boos, secret service operative, in his room in a hotel after a mysterious telephone call to secret service headquarters. The caller had said a "dangerous" counterfeiter might be arrested in the hotel.

Boos was heavily armed when he flung open the door and found Murdock. With wide smiles, Murdock said he was a counterfeiter with a record and had actual molds for coins in the rooms. He produced the molds and Boos reluctantly assisted him to a taxi and brought him to Frederick's office.

There he confessed that he was sentenced from Toledo in 1918 to ten years in Atlanta penitentiary for counterfeiting. Prison life broke down his health and he was paroled in 1924.

Unable to gain a livelihood he first conceived the idea of spending the remainder of his life in a prison about two years ago, he told Frederick. He could not make up his mind to take the step, however, until a few months ago. Then all efforts to get sent to jail were futile.

After trying to enter state institutions unsuccessfully, he told Frederick, he decided to violate a federal law, easiest means he knew, he said, was to violate the postal laws by sending obscene letters through the mails. He sent several letters to the district attorney's office, but no attention was paid to him.

Writing the letters was painful, and in despair over their failure he turned to an almost impossible task for a man in his condition—the manufacture of molds for coins.

Somehow he accomplished the task. He finished the molds and then called

the secret service headquarters. After telling his story, Murdock waited anxiously for Frederick's decision. Smiles lit his face when Frederick decided there was a technical violation of the counterfeiting laws and recommended a warrant.

Famous Elm's Grandson

Will Be Transplanted Cambridge, Mass.-A "grandson" of the famous Washington elm, under which Gen. George Washington assumed command of the Continental army, soon will be thriving in historic

soil here. The Washington elm itself, long a local landmark, was cut down several years ago after its great age had made it a hazard to motorists and pe-

destrians. In 1896, however, one Arthur J. Colslip of the historic elm and planted it on the campus of the University of Washington. A "grandson" sprig, taken from that slip, had now attained a height of 16 feet, and the Cambridge park board has accepted the offer of the far western university to transplant the young elm near the spot where the original elm once

Riley "Checked Up"

Hamlin Garland has a new James Whitcomb Riley story in his reminiscences, "Roadside Meetings." Years ago Garland was visiting the Hoosier poet at his home and had praised his

fidelity to farm life. Riley smiled. "Sometimes a country boy gives me a round turn by criticizing me on my farm poems," he chuckled. "For instance, one youngster came stepping up to me. 'You never lived on a farm,' he says, 'Why not?' said I. 'Well,' he says, 'turkey cock gobbles, but he don't kyouck as your poetry says he does.' He had me right there! It's the turkey hen that kyoucks. Well, you'll never hear another turkey cock of mine kyonekin.' I said to the boy."-Kansas City Stor,

Time Sense in Animals

Some people have the time sense, but the vast majority of the human race is sadly deficient in this faculty. But many of the lower animals possess an extraordinarily keen time sense. Note the way in which the animals at the zoological garden become restless at the approach of the feeding hour. On the farm the horses and poultry know exactly the times they are due to be fed. Ducks are particularly clever in this way, and they will raise a small riot if their evening meal does not arrive to the minute.

Saves Wear on Stockings

Every, time Charley Payne, Jr, played marbles in Brooklyn his mother wondered how much longer she could go on buying stockings for the lad. Surely, she argued, there must be an inexpensive way of playing marbles without the fear of torn stockings, and so she began to work out an idea. With the aid of her husband, there presently appeared an object which was subsequently patented. It was a "device for projecting marbles and the like" and could be operated by a boy who stood up while he played.

GOOD POINTERS ON FEEDING CHICKS

Use Mash Mixture From Time Chicks Are Born.

Start feeding the mash mixture to chicks when they are 36 to 48 hours old and allow constant access to it until they reach maturity, says the New York state college of agriculture. Provide plenty of feeding space and feed in such amounts that fresh mash can be fed twice daily.

The mash mixture recommended by the college contains 45 pounds of yellow corn meal, 10 pounds of wheat bran, 15 pounds of flour wheat middlings, 10 pounds of fine ground heavy oats, 2 pounds of steamed bone meal, 1/2 pound of salt, 10 pounds of meat scrap, 50-55 per cent protein, and 10 pounds of dried skim milk or buttermilk. If fine ground heavy oats cannot be obtained, yellow corn meal may be substituted for the oats. The dried milk may be omitted from the mash when liquid or condensed milk products are used.

When the chicks are eight weeks old, begin feeding the grain mixture, composed of 60 pounds of cracked yellow corn and 40 pounds of wheat in hoppers. Keep it constantly before the chicks. They should not eat as much scratch grain by weight as mash until three months old. Restrict the amount of grain if necessary to make them eat more mash.

Fine grit may be given from the start. Provide oyster shells after the chicks are four months of age or when they begin to show evidence of reaching maturity. When sunshine enters the house through glass, mix one-half pound or one-half pint of cod liver oil into every 100 pounds of mash during the period when mash is fed. Afterwards feed enough cod liver oil to equal one-half pound for each 100 pounds of total feed used.

Ducklings Overfed on

Concentrated Feeds Ducklings may be overfed upon con-

centrated foods. They should have some tender green food in their ration and sand for grit. A recommended ration is equal parts of rolled oats and bread crumbs, with a little sand, moistened with water for the first three days after they are at least thirty-six hours old and, after the third day equal parts of bran and cornmeal added to this mixture. After the first week, two or three parts of bran, one part each of cornmeal and wheat middlings, 5 per cent (onetwentieth part) high-grade meat scrap and 10 per cent (one-tenth part) chopped green food. A little sand should also be added.

Fowls' heads turn dark as the result of any one of several internal diseases, the nature of which would require an examination of the organs to

Ancient Mulberry Gardens

Probably few of the guests at the king's garden parties at Buckingham palace associated the beautiful grounds with an attempt to found an English silk industry. In the reigns of Charles I and Charles II, these grounds were known as the Mulberry gardens, a place of fashionable resort mentioned by both Evelyn and Pepys. Dryden, it is recorded, used to repair here to eat mulberry tarts. The mulberry trees had been planted by James I to provide food for silkworms, one of his whims having been an attempt to encourage the production of silk.

is a doctor's Prescription for COLDS and HEADACHES It is the most speedy remedy known 666 also in Tablets.

Lesson for January 11

THE CHILDHOOD OF JESUS

LESSON TEXT-Luke 2:40-52. GOLDEN TEXT—And Jesus increased in wisdom and stature, and in favor

with God and man. PRIMARY TOPIC-Ideal Childhood.

JUNIOR TOPIC-Growing up for INTERMEDIATE AND SENIOR TOP-

IC-Responsibility of Youth YOUNG PEOPLE AND ADULT TOP-IC—Being about the Father's Business.

1. Jesus Growing (v. 40).

While Jesus was as to his personality, God, yet his deity did not interfere with his development as a human being. The processes of his physical, mental, and spiritual growth were the same as those of any normal human being.

1. "Grew and waxed strong." It was necessary for his body to develop. His brain, nerves, and muscles must not only attain unto the proper size but must come to act in unison, become correlated.

2. "Filled with wisdom." As with most children his training was largely in the hands of his mother. She, no doubt, taught him to commit to memory Bible verses and taught him the great stories of the Old Testament, from the creation down through the patriarchs and prophets. It seems that it was customary among the Jews to send the child at the age of six years to the synagogue school, where the Old Testament was the textbook.

3. "And the grace of God was upon him." By the grace of God doubtless, is meant God's loving favor and tender care.

II. Jesus Tarrying Behind at Jerusalem (vv. 41-43).

At the age of twelve years the Jewish child took his place as a worshiper in the temple. He was then considered "a child of the law." Being thoroughly conscious of his mission, Jesus tarried behind and inquired into the meaning of the ordinances of God's house. His heart yearned for his Father.

III. Jesus Found in the Temple

When his mother and Joseph had gone some distance on the homeward journey, they perceived that Jesus was not with them and sought for him among their kinsfolk and acquaintances. Not finding him, they returned to Jerusalem and found him in the temple.

1. He was sitting (v. 46). He was perfectly at home in his Father's house.

2. He was hearing the teachers of God's Word (v. 46), and was eager to learn God's will.

3. He asked questions (v. 46). His growing mind was inquisitive; it inquired after-reached out after-

4. He answered questions (v. 47). His answers showed such great wisdom that he astonished those who heard him. It was the expression of the workings of a perfect human mind suffused by the Holy Spirit.

IV. Mary's Complaint (vv. 48-50). 1. Her question (v. 48). "Why hast | thou dealt thus with us?" She remonstrated with him for his behavior.

2. Jesus' reply (v. 49). He replied to her question in a dignified yet tender manner, but made no apology, thus indicating that he was more than merely the son of Mary. God was his Fa-

3. Mary acquiesced in his revelation of himself (v. 51). She did not understand all these things, but she kept them in her heart.

V. Jesus' Obedience (v. 51).

Though he was fully conscious of his divine being and mission, he lived a life of filial obedience, thus teaching us that obedience to parents is pleasing to God, and a duty which will be discharged faithfully by those who have the spirit of Jesus Christ.

VI. Jesus' Development (v. 52). 1. Mental. "Increased in wisdom." Although the divine nature was united with the human, his mind was left

free to develop normally. 2. Physical. He increased in stature. His body developed according to the laws of a normal human being.

3. Spiritual. He increased in favor with God and man. As his mind developed, and his apprehension of God became more comprehensive, the Divine Being could be more fully expressed through him, and as the perfect life was lived, men could recognize his superior qualities, and therefore, their hearts would open to

Christian Victory

To trust him and to keep the eye on him is the one secret of all Christian victory.-G. H. Morrison.

The Disease, the Remedy "The law discovers the disease. The gospel gives the remedy."-Martin

Man's Religion

A man has no more religion than he acts out in his life.-Henry Ward

Umbrella Long Matter

for Public Ridicule

If the history of the sunshade or parasol is one of dignity and more or less solemnity, not so the umbrella. Its development is attended by considerable ridicule and hilarity. The origin of the umbrella, that is, the use of a covering to protect one from rain, is somewhat obscure. It is said that in 1710 Marius of Paris invented an umbrella with jointed stock, that could be folded, put in a case, and carried in the pocket. But it was not satisfactory and faded into obscurity.

In the Eighteenth century the umbrella became known and used all over Europe-Germany, France, Italy, Holland—and was sold on the streets of Paris by hawkers for from 15 to 22

England did not take kindly to the umbrella. In 1710, Dean Swift mentions seeing one made of oilcloth, and used by ladies only. A young man attempted to carry one, but was ridiculed in the press. Robinson Crusoe and his umbrella did much to popularize it, and it was often called the "Robinson." Jonas Hathaway (1786) is said to be the first man in England to carry an umbrella, and he carried it courageously for 30 years in spite of jeers and ridicule, and the "crass obscurantism" with which he is said to have been met by the public.-Ex-

Truth, if Not Grammar.

in Answer Geisha Made The prominent westerner says he's going to start a geisha's English class in Osaka if the Tokyo experiment

proves successful. "I've had a little experience in that line," he explained, "and I have found that geisha are very apt pupils.

"Once, for example, I was asked by a geisha to teach her a few simple phrases. It so happened that the first one I thought of was the query 'You love me?

"'Oh, I know that already!' she cried. 'Just a moment now and I'll give you the correct reply . . . Oh

yes! "'I love me!" "Her answer," smiled the prominent westerner, "may not have been 100 per cent grammatical, but it wasn't long before I found out that it was

absolutely true."-Osaka Mainchi.

Preserved by Frost

A Russian scientific mission sent out by the Bolsheviks from Lenningrad to the Altia mountains in Central Asia, has discovered the burial mound of a Hun chieftain of 27 centuries ago. From Asia the Huns swept into Russia. This leader of the Huns had his fortress among the high peaks of the mountains. From there he swept like a vulture on to the plains. To his eyrie he returned with his spoils. There he lived and died. Thousands of winters have passed over the burial place. None can tell who the chief was, or what tyrannies he committed, or how he died. But Time, which has effaced his memory, has preserved his body. The cold has embalmed it in its rock tomb.

Hard Knock

Samuel Insull, the Chicago capitalist who runs the Chicago opera company, said in an interview:

"Our company is the best in the world, but from its yearly deficit you'd think it-well, you'd think it was like the band.

"A band, playing away for dear life marched proudly along a city street when a pale-faced woman ran out of a house and grabbed the bandmaster's

"'Oh, sir,' she gasped, 'will you please stop playing as you pass our house? My husband is very, very musical.' "

Old Virginia Home

Mount Airy, on the Rappahannock river in Richmond county, Va., was built in 1750 by Col. John Tayloe. The interior, as well as the cornice, chimneys and roof, were destroyed by fire in 1844 and hastily restored with consideration only for comfort and economy. The exterior is of native brown sandstone, with trim of fine white sandstone said to have been brought from England. The formal setting and character of the house and the monumental scale of the gardens suggest a European designer.

Race-Horse Locomotives

Flying engines and flying horses are synonymous to the London and Northeastern railway. It has named eight new locomotives after famous race horses. The engines, which are of the Pacific type, and which will haul passenger trains on the east coast route over the track of the Flying Scotsman, are as follows: Trigo, Manna, Gainsborough, Rock Sand. Book Law, Call Boy, Spearmint and Cicero. Their equine prototypes, with one exception, Book Law, have won the Derby in the last twenty-seven years.

Primitive "Webster" Found

What is claimed to be the oldest known dictionary in the world has been discovered in southern Syria. A French archeological expedition under the leadership of Dr. F. A. Shaeffer of Stradbourg made the find. The expedition has reported many important discoveries, principally in the ancient city of Zapouna. The "dictionary" consists of large tablets of baked earth, some of which show an unknown script and language going back to about 1400 B. Q.

Home Owners Protected

by Zoning Restrictions Charles H. Cheney of Los Angeles, chairman of the committee on city and regional planning of the American Institute of Architects, says: "Property values are destroyed, cherished homes abandoned and neighborhoods ruined by the erection of one or more ugly or inappropriately designed buildings. More than \$3,000,-000,000 was put into such buildings last year. Every vacant lot in an unprotected neighborhood today carries a threat of ruin to its neighbors.

"This is the greatest economic loss of our time, and one that can and will be remedied as soon as investors, home owners and the public generally learn how to protect themselves. More than 500 cities have established zoning in the last ten years.

"Architectural control of this kind is not new. Santa Barbara, Calif., in 1925 to 1926, required that all plans for private buildings be passed on by a competent architectural board of re-

"For 50 years high-class real estate subdivisions have been exercising marked success and increasing property values, by means of building restrictions established by private agreements in the deeds."

More Than Mere Beauty

in Attractive Grounds There is just as much thrill in the

small home ground development as there is in the planning of a princely estate, perhaps more, for there is something about beautifying a backyard which enlists the aid and interest of every member of the family.

There is something of creative art in converting an ugly ashpit into a thing of beauty or covering up an uninviting garage with lovely vines. A rose-covered fence would centribute its sweetness to the entire neighborhood.

A hedge may have to serve as a boundary, a tree may be planted for the express purpose of keeping the too strong sun out of a certain room, a bush may be utilized to screen an ugly object, vines may serve to cover unsightly portions of the house. Indeed, plants have their economic

Some wise home owners have even been clever enough to make their backyards serve as a sort of annex or extra room simply by making them liveable and attractive.

Green Streets

Trees are good citizens. They rarely disturb the peace of city streets, such as there is. They offer shade and decency against the violence of the great town. At best a modern city street is harsh, unbalanced, crazy. Only the trees reclaim six panels, portraying the achieveit from its alienation and make it ments of Mr. Westinghouse, were de-

that people plant before their houses save Washington boulevard for civilization. And Grand boulevard, or Irving Park boulevard, or Ashland boulevard would do as well. People care for things like trees and grass. Where they cannot find them naturally they set them out in little squares, behind small iron fences, to remind them of serene realities beyond the city's border. They smuggle nature in. The rows of elms are green beside the surge and drive of motor cars and men along the road. Trees are good citizens, along with those who plant them.-Chicago Tribune.

Varieties of Hedges

There is no limit to the beauty possibilities of hedge planting. hedge may be trained to have all sorts of variations. It may be buttressed at the ends, it may be trained to offer varying outline on top with some parts higher than others. The top may be on square or curved lines. The hedge may even be trained over an opening in the hedge to form an arch. In fact, hedges are almost indispensable in the intensively developed landscape

that it will pay every home owner to scheme.

Beauty in Slate Roofs

We have by now passed out of the period when slate roofs looked like smooth blackboards. We are literally having a revival of its use in this country, because the manufacturers have gone back to the old traditions and brought them to the front. Today we can secure as beautiful a slate roof for our house as any in the world, and yet have it laid with more technical skill. Thus while the eld ways have been revived new life has been injected into them.

Select Trees Carefully

Trees once planted become a permanent part of the landscape. In most cases they will outlive the planter. Whether they give great joy, beauty and comfort to the planter and his family or prove to be ugly, displeasing eyesores to all who gaze upon them, depends upon how wisely they are selected.

Not Markers for Missiles

Eighteen states in the Union now have laws making it a misdemeanor willfully to damage official road signs.

Frescoes and Furniture

Found in Old Pompell Excavations at Pompeii have brought to light several important objects. A three-legged marble table, the top of which is missing, is one particularly interesting piece. Students have advanced the theory that this table was at one time the property of Casca, one of the murderers of Julius Caesar. The three legs are each in the form of a lion's leg, surmounted by a lion's head and on the top of each head is a square block, on which the actual table top rested. In fact, on the surface of each of the three resting blocks is carved the word "Casca." This enterprising Casca used to have a house in Pompeii, although students present at the time of the discovery are not certain that his was the house in front of which the table was found. Yet it is not improbable, noted archeologists say, that the table was purchased by some other patrician living at Pompeli and brought there from Rome. Delightful frescoes adorning the interior of the house have kept their colors so vividly that today visitors may admire, for instance, on one side of a doorway Narcissus seated and at the other side a representation

Characters That Live

of Pyramus and Thisbe.

in World's Literature

Frequently in the world's literature a character wholly imaginary becomes so well known as to give his name careful architectural control, with to the language. Such a character is Rodomont (the Italian significance of the name being "one who rolls away mountains"), from which, according to Webster's New International dictionary, we get our useful word rodomontade, which means "vain boasting, empty bluster or vaunting, rant."

Rodomont is a Moorish hero and warrior-brave, boastful, and fierce. He figures prominently as the king of Algiers in the works of two Italian poets of the Fifteenth century, namely, in the "Orlando Innamorato" (Enamored) of Bolardo and in the "Orlando Furioso" (Mad) of Ariosto

A parallel example from English literature is Braggadocchio, the personification of vain boasting in Edmund Spenser's famous masterpiece, "The Faerie Queene," from which comes the expressive word braggadocio, which means "empty boasting, mere brag, pretension."

Westinghouse Memorial

The memorial to George Westinghouse, inventor, is in Schenley park, Pittsburgh. The main unit of the memorial, a bronze statue, was created by Daniel Chester French. It rises 20 feet from a Norwegian granite base and depicts a figure of the subject. At his sides are two figures, representing a skilled workman and an engineer. Facing this group is the figure of an American youth studying the achievements. The setting for the memorial was designed by Henry Hornbostel of Pittsburgh. The Picarelli brothers of New York constructed the models of the units for casting. The signed by Paul Fjeldi. Subscriptions dustries in the United States and Canada made the memorial possible.

Ancient Relics Displayed

Centuries ago, when a new bishop was elected in Speyer, Germany, the cathedral's "domnapf," a great sandstone basin, was filled with wine and drunk by the city's burghers to the bishop's health. At the celebration of the cathedral's nine hundredth anniversary, this "domnapf" was transferred from its place in the churchyard to a site near the main portal. Another feature of the celebration was the exhibition of the insignia of the Holy Roman empire—the crown of Kaiser Conrad II (1024-1039), the builder of the cathedral, and the scepter, cross, imperial apple and sword of Charlemagne, which are the property of the Hofburg in Vienna.

Love!

Among those who bought a quarter of an hour of air for advertising over the radio is a Mr. Rubin, a Brooklyn marriage broker.

Mr. Rubin opens his program with A well-kept hedge is so ornamental a little selling talk on the general idea of marriage and then retires in favor consider its use in his planting of an orchestra which plays "Deep in the Arms of Love."

> Immediately following the conclusion of this, while the hearers are still under its emotional influence, Mr. Rubin's voice cuts in hurriedly. "You, too," he declares, "can be

deep in the arms of love. Just communicate with A. Rubin, Brooklyn." -The New Yorker.

Barber's Mistake

When Bobby, who lives in the southeast part of town, returned from his first visit to the barber shop, his mother asked, "How did you-like it, Bobby?

"Aw, he tried to make a sissy out of me," he answered disgustedly. "Why, Bobby! What do you mean?"

"Why, when he got through he squirted perfumery on my hair and powdered my face with a brush."-Indianapolis News.

"Coming in Fine"

The doctor's little daughter had strayed into his surgery and was watching, wide-eyed, as he tested the heart and lungs of a patient. Suddenly she spoke:

"Getting any new stations, daddy?"

ESTIMATED COST OF RAISING PULLETS

Seven Months' Time and 30 Pounds of Feed.

Poultrymen should have available from \$1 to \$1.50 to spend for every pullet they plan to raise, declares Charles N. Keen, assistant professor of poultry at the Colorado Agricultural college.

"To bring into production a dual purpose pullet-one which may be utilized for meat or egg productionabout seven months' time and 30 pounds of feed are required," Mr. Keen says. "To bring into production a pullet of the Leghorn type, about five and one-half months' time and 24 pounds of feed are necessary."

Other interesting figures which have been compiled from authoritative sources, but which are of course average figures, are given by Mr. Keen, who believes they will be of special interest now that the new chick season is beginning. It is emphasized that good management in most cases should produce better than average

Since it generally takes about two eggs to get one husky chick, and since nearly three chicks must be hatched to get one good pullet, it has been estimated that it really requires about six eggs to obtain one good pullet.

Several good authorities declare that it costs about ten cents to produce a chick. A six-year-old Rhode Island Red should weigh about three-fourths of a pound. A six-week-old Single Comb White Leghorn should weigh about seven-tenths of a pound.

A Rhode Island Red should weigh two pounds at about eleven weeks of age and should have consumed about 7.2 pounds of feed. A Single Comb White Leghorn should weigh one and one-half pounds at about ten weeks of age and should have consumed 6.5 pounds of feed.

Sanitary Management

Is Baby Chick Need If the baby chicks are to keep their health and grow vigorously, we must practice proper sanitary management. We nust keep the house clean, the ground clean, and the feed that is given them must be clean and wholesome. The feeding utensils and drinking fountains must be kept as clean as possible. It is a good idea to always keep a good disinfectant on hand, and every time the house is cleaned to use a solution of the disinfectant. The house should be cleaned out at least once each week and disinfected whenever necessary. It should be disinfected thoroughly after each brood is placed on range, to guard against any contagious diseases.

Hard-Boiled Eggs Safe

Food for Baby Chicks It is common practice to feed the infertile eggs tested out from the incubator to baby chicks. In so doing it incurs the danger of infecting the chicks with pullorum disease (formerly called bacillary white diarrhea). Where eggs form a part of the chick's diet they should be boiled for at least five minutes and preferably longer. This beiling will destroy the germ of the dreaded chick disease, and then it is a perfectly safe and good practice to feed the boiled eggs to baby chicks. One should not run the risk of infecting the brood by feeding the raw eggs.

Feed for Poults

Little turkeys should not be fed for the first day or two, as they are absorbing the yolk of the egg from which they came and this is what nature intended that they should get. After two days they may be fed chopped hard-boiled egg and corn bread crumbs for the first week, or soaked stale bread in milk and squeezed dry. When they begin to get get out on the range, they may be fed morning and night only, as they get much from the range.

Young Duck Ration

A widely recommended ration that has been extensively used by duck raisers, is as follows: As a starting ration a mash made up of equal parts of rolled oats and dried bread is fed. It is found desirable to add a small quantity of sand, one part to twenty parts of the mash, and moistened. As much as the ducks will clean up readily is fed five or six times daily. After the ducks are six days old equal parts of bran, yellow corn meal, rolled oats and dry bread can be fed.

Geese Mate in Pairs

Geese generally mate in pairs. though a young gander will sometimes mate with more than one goose. Later he will usually pick a favorite. When mature the easiest way to tell a gander is to listen to the voice. A gander has a voice which is a cross between a whistle and whisper. A young male hatched in June has an excellent chance, but if he is kept in a pen with a lot of other birds of different ages he probably will not he ready by February.

ALL SQUARE

An old negro had been discovered stealing chickens. The owner decided to speak kindly to him.

"You see," he said, "it isn't the loss of the chickens that worries me. You could always have had one if you'd asked for it. What worries me is that an old fellow like you should be so sinful. Whatever will you do on judgment day when those birds are mentioned in evidence against you?" The old man showed signs of anx-

"Is dem chickens gwine to be dar?" he asked.

"Certainly."

"Den ah gwine say to yo, 'Is dese hyah you chickens, sir?' An' yo'll say, 'Yes,' an' Ah'll say, 'You take 'em, sah, yo take 'em.'"—London Tit-Bits.

HER PREFERENCE

"Madam, do you like the Cinema?" "Well, yes I do, but I believe I like the peppermint better."

With Feeling

Every life has some great sorrow, Every heart some pang of pain. And I have a date tomorrow With my dentist once again.

Jake-Did Jones get married at last? Lew-No; he told me he'd wait till times became more normal, and I think that by that time he will be more normal himself.

Eggsactly

"Dan always was a bad egg." "Yes, but the world in general didn't notice it much until he went broke,'

Sixteenth-Century Tale

Popular With Writers Faust and Faustus are different forms of the same name, and, according to tradition, the bearer of the name was a famous magician of the Sixteenth century, a native of Suabia, an ancient duchy of Germany. A rich uncle having left Faust a fortune, he ran to every excess. He made a pact with the devil, (who assumed the name of Mephistopheles and the appearance of a little gray monk), that if he might indulge in his propensities freely for 24 years, he would at the end of that period consign to the devil both body and soul. The compact terminated in 1550, when Faust disappeared. His sweetheart was Margherita, (Margaret), and his faithful servant was Wagner. The German poet, Goethe, has a dramatic poem entitled "Faust," produced in 1798, and Gounod, the composer, an opera called "Faust et Margherita," produced in 1859. The English dramatist, Marlowe, who lived in Shakespeare's time, wrote a tragedy based on the same tradition.
