

One harvest is over— and another soon to plant. Daily life is like that too.

THE CARROLL RECORD

Reading, is important, but understanding what you read is still more important.

VOL. 45 NO. 5

TANEY TOWN, MD., FRIDAY, JULY 29, 1938.

\$1.00 PER YEAR IN ADVANCE

COMMUNITY LOCALS

This column is not for use in advertising any money-making program, fair, supper, party or sale except for non-denominational charities or Fire Company or Public Library support.

Churches, Lodges, Societies, Schools, etc. are requested to use our Special Notice Department for money-making events.

Positively, no free notices will be given in this column to Card Parties, or Bingo games, or like events.

Miss Mildred Smith, of York, Pa., spent Sunday with Miss Mary Shaum.

Mrs. Emma Rodgers, is visiting her sister, Mrs. Milton Baum and family, in Baltimore.

Miss Dorothy Dixon, Woodsboro, is spending a few days with Miss Jean McCleafe.

Miss Marjorie Sullivan, of Havre de Grace, Md., is spending this week with Miss Ann Cooling.

Mr. and Mrs. Elwood Baumgardner, spent several days this week, at Atlantic City.

Doris, daughter of Mr. and Mrs. Delmont Koons, is spending the week with Ezra Fitz, of Zullinger, Pa.

Master George Null, of near town, is spending a two week's vacation with his grand-mother, Mrs. Lizzie Zepp and family.

Mr. and Mrs. Jennings Bailey, have returned from an extended European trip and will occupy their summer home at "Antrim."

Mrs. John Baumgardner and son, Murray Baumgardner, returned home on Saturday, after spending a week at Chicago and Byron, Ill.

Era Stuller and wife, moved into the John M. Baumgardner (formerly Mrs. Thos. G. Shoemaker's) dwelling, on Middle Street, on Monday.

Billy, son of Mr. and Mrs. Walter Stonifer, of town, was taken to a Baltimore Hospital, on Friday, due to a broken arm which has not healed.

Mrs. W. Edgar Thomson who has been visiting her mother, Mrs. M. H. Reindollar, for several weeks, has returned to her home at Mineral Ridge, Ohio.

Mr. H. I. Reindollar and son, Henry, attended a hardware convention in Pittsburgh on Monday and Tuesday. They visited relatives in Ohio later in the week.

Miss Margaret E. Reindollar went to Baltimore, Monday, where she has a temporary position as assistant dietician in the West Baltimore General Hospital.

Mrs. George Baumgardner, Mrs. Margaret Nulton, Mrs. Clarence Ohler and Mrs. Roy B. Garner, left on Tuesday for a two weeks tour of the New England States.

Mr. and Mrs. Omar Brown, Kane, Pa., visited Mrs. Joseph Brown, on Monday and Tuesday. Howard Brown also of Kane, Pa., spent several days at the same place.

Mr. Grant Yingling, returned home on Thursday evening, after spending four weeks with his daughter and son-in-law, Mr. and Mrs. A. M. Blaisdell, of Springfield, Mass.

Mr. and Mrs. Robert Sherrill, Jr., and two daughters, Marian Belle and Helen, of Annapolis, Md., spent the past week with Mr. and Mrs. A. D. Alexander and family.

A party is being planned to be given at the playground. It is desired that every girl and boy of the community be included in this party. The supervisor will tell of the plans on Monday morning.

Mrs. Joseph C. Cline, son Billie and daughter, Patty, of Brooklyn, N. Y., have returned home after spending a week with her sister, Mrs. Annie Koutz, and also attended the funeral of her brother, Monroe Bankard.

Miss Catherine Farren, of Margate, N. J., returned home today, Friday, after a visit of several days with Miss Catherine Arnold. Miss Rita A. Hartman, of Baltimore, also spent several days at the same place.

Mrs. W. D. Ohler, is spending this week with her brothers and sister-in-laws, Mr. and Mrs. H. S. Koons and Mr. and Mrs. Dorie Koons, of Baltimore; Mr. and Mrs. J. D. Koons, of Sparrows Point.

An advertisement of the reservations so far made for the use of Big Pipe Creek Park, appears in this issue. It of course shows the dates not yet taken, for which, application should be made to Chas. E. H. Shriner.

Mr. and Mrs. Matthew H. Galt, of Springfield, Mo.; Mrs. Sydney Mead, of Columbia, Mo., are on an auto tour east, and are visiting Mrs. Samuel Gates, at Fairfax, Va., and Mrs. Margaret Stott and Miss Anna Galt, in Taneytown.

Taney Lodge No. 28, I. O. O. F. will conduct religious services at the Home, Frederick, this Sunday, July 31st., at 2:00 P. M. Rev. Paul D. Emeheniser, will be the speaker. All members, Rebekahs and the public are cordially invited.

Rev. Guy P. Bready, accompanied with the excellent male quartet made up of Edgar Fink, Harry Mohny, Murray Baumgardner and Delmont Koons, and Mrs. Edgar Fink at the piano—conducted the morning devotional service at Station WFMD, Frederick, on Tuesday morning. It was an excellent program throughout, and its reception very clear.

CARROLL COUNTY FAIR

Arrangements Now Practically all Complete.

Arrangements are nearing completion for the 41st. annual Carroll County Fair to be held at Taneytown on Tuesday, Wednesday, Thursday and Friday, day and night, August 9-12. A larger program throughout has been planned for this year's exhibition. Including such features as horse pulling contests, a horse and pony show, the annual public wedding, an amateur contest, Carroll County 4-H Clubs entertainment, a massed band contest, addresses by State and County political candidates and the largest group of educational and commercial exhibits in the history of the Fair, the four-day program is expected to surpass that of any former years.

Considerable building has been in progress on the Fair grounds. A new cattle barn, 24 feet wide by 200 feet long, and housing 120 head of cattle, has been erected. Another large structure that has been built is the cafeteria adjoining the exhibit hall. This cafeteria, including a large dining hall, a kitchen and a refreshment stand, all screened, is 24 feet wide and 80 feet long. A large refreshment stand beside the cafeteria, has been entirely remodeled to be used for the Carroll County Girls' 4-H Club exhibits.

Cousin Lee, well known radio entertainer, has again been engaged to conduct the amateur contest before the grandstand on Tuesday evening. Cash prizes of \$8.00, \$5.00 and \$3.00 will be awarded the three persons or groups receiving the most applause from the audience.

The dynamometer horse pulling contest on Tuesday and Wednesday are expected to be participated in by a large number of teams of horses. Cash prizes of \$20.00, \$15.00 and \$10.00 will be awarded in both the light and heavy horse classes.

The massed band contest on Thursday night before the grandstand will be open to both Senior and Junior Bands. Cash prizes will also be awarded in this contest.

The Carroll County 4-H Clubs entertainment program on Friday evening, is being directed by Miss Hilda Duterer, WPA Recreational Worker. This program will not be a competitive nature, but each club participating will be given a cash gift.

The Fair Association is especially pleased with the grandstand attractions which they have booked for this season. Reg Kehoe and his Girl Marimba Band, an instrumental, singing and dancing troupe of seven girls and two men, will present an hour's program of unusual entertainment. The climax of the attractions will be the thrilling aerial act presented by the Los Arcos Quartet. Two members hang suspended by their teeth from either wing of a monoplane, another member twirls at a dizzy speed on the propeller of the machine, and the fourth works on a perch above the machine. These acts have never before seen in this state.

Children's Day, on which children 12 years of age and under, will be admitted free to the Fair, has been changed from Friday, the closing day, to Tuesday, the opening day of the exhibition.

Educational displays, such as the extermination of fruit and crop damaging insects, will be shown in the exhibit hall. These displays will be provided through the courtesy of the biology and research departments of the University of Maryland and Western Maryland College.

The exhibits of livestock will be the largest in many years. Entries are practically filled in the poultry department; and in the draft horse, cattle and hog departments, the entries are coming in nicely. New breeds are being exhibited in each of the livestock departments also.

WHAT INCREASED TAXATION REALLY MEANS.

Many no doubt wonder what all of the complaint about increased taxation really means? With millions of persons direct taxation is something practically non-existent.

Many others are favored with exemptions, while others pay only state and county, and perhaps municipal taxes. These are fully understood, and vary but little, one year after another.

For the year just ended, business concerns—especially those operating as stock companies, known as "corporations," have a clearer view of the subject. Taxes are something very real, as well as numerous, with them.

The Carroll Record Company is a very small Corporation, and its fiscal year ends every June 30th., at which time we issue a Financial Statement to the stockholders. We give the following figures, in percentages, as we do not care to make public, actual figures in dollars and cents.

This statement is based on 1918, the year of the close of the World War. The report for 1919 showed an increase in our taxation of 61.36%.

In 1928, ten years later we showed an increase of 80.64% in taxes, and for 1938 an increase of 160.46%. Every other year covered by the period from 1918 to 1938, showed varying increases, all much above normal pre-war years.

In addition to the increases in regular and special taxes, overhead expenses have increased all along the line. Also, in addition to the above, we have every reason to expect still greater increases, and for many years to come. Most other classes of business have had the same experience.

CHRISTIAN ENDEAVOR DAY AT PINE MAR.

An Excellent Program has been Prepared for it.

The following will be Carroll County Christian Endeavor Day, Pine-Mar Camp, Sunday, July 31, 1938.

Theme: "Jesus is Mine." Text II Timothy 1:12, "I know whom I have believed, and am persuaded that He is able to keep that which I have committed unto Him against that day." Theme song—"Jesus is Mine" by Gipsy Smith.

2:15, afternoon session, Charles E. Ritter, Keysville, presiding.

Welcome, Rev. Franklin Brose, Director of Pine-Mar Camp.

Response, Rev. J. E. Ainsworth, of Westminster.

Song Service, Howard Gray, M. P. Society, Union Bridge.

Devotions, Mrs. James Hooper, Maryland C. E. Union officer.

Reports on Christian Endeavor Convention: Junior Convention, intermediate convention, Dorothy Little, of Westminster M. P. Society; Senior convention, Rose Beall, Taneytown Reformed C. E.

Report of the nominating committee for officers of the Carroll County Christian Endeavor Union, voting of group, nominations from the floor if any, Guy Fowler, Westminster, committee chairman.

Special music, Wakefield combined chorus.

Address, speaker introduced by Rev. Ainsworth Rev. Gould Wickey Executive Secretary, Board of Education United Lutheran Church of America, Washington, D. C. Rev. Wickey is very widely known in the U. L. C., as a speaker and scholar of wide ability.

Offering. Announcements.

6:45, Christian Endeavor Service, Mt. Union Lutheran Society. Topic: "Equal Opportunities for All." Leader, Roger Sentz, Union Bridge, Md.

7:45, evening service. Frank Bohn County C. E. Union, President, presiding. Call to worship, trumpet solo; song service, Howard Gray, devotions, Foster Fells, former State C. E. Pres. Special music, Lippy quartette, Manchester Reformed C. E. Society; Hymn; Address, "Jesus is Mine," Rev. Irvin Morris, Taneytown Presbyterian Church, Pastor, Counselor. Special music, quartette, Carrollton, Church of God.

Installation of officers of County C. E. Union for ensuing year. In charge of Mr. Bill Brish, Frederick, State Christian Endeavor, president.

Anthem, closing with the Christian Endeavor hymn, "All Hail the Power of Jesus Name"; Benediction; Quartette, "Jesus is Mine." Echo, "Jesus is Mine."

CHAMBER OF COMMERCE MEETING.

The Taneytown Chamber of Commerce met in regular monthly session on Monday evening, July 25th., in the Firemen's Building, at 8:00 P. M., with Harry M. Mohny, second vice-president in the charge. There were 22 members present. The minutes of the June meeting were read and approved as read.

Mr. Smith, chairman of the outing committee, reported that 41 persons had signed up to go on the boat trip down the Bay.

James Myers reported that work on the Middleburg road was going on with a reduced force.

Rev. Bready introduced Dr. Cooper, director of education at Eastern Penitentiary, Philadelphia, who spoke briefly on the change of the purpose of the penal system. He brought out the fact that mere punishment or revenge for society was no longer the purpose, rather than the main purpose was rehabilitation or the claiming of the criminal to the state of a good law-abiding citizen. He also spoke encouragingly of the parole system, stating that about seven out of ten paroled individuals go straight. The newspaper publicity about broken paroles are the few exceptions.

Mr. Peter Baumgardner presented to the Chamber, for the local American Legion, a gavel made of wood from the Francis Scott Key, estate, Terra Rubra, now the farm of Mr. Baumgardner.

It was moved and passed that the secretary write a letter to the Legion thanking them for the gavel. Appreciation was also expressed to Mr. Baumgardner for his presentation and for the wood out of which the gavel was made.

Postmaster Crapster reported that the stone crusher which had been helping to speed up the work on the Middleburg road has been moved to another place, and no information left about when it will be back. Progress on Middleburg road will therefore be considerably slowed up.

MERWYN C. FUSS, Pres.
PAUL D. EMENHEISER, Sec'y.

MAJ. GENERAL UPTON BIRNIE TO RETIRE.

Major General Upton Birnie, who completed a four-year term as Chief of Field Artillery, last March, will retire from active service, August 21. He was graduated from West Point in 1900, and was commissioned Second Lieutenant of Artillery.

"We bring into the world with us a poor, needy, uncertain life, short at the longest, and quiet at the best." —Sir W. Temple.

The noblest mind the best contentment has.

CLEAN-UP MAIL BOX WEEK.

Excellent Advice from the U. S. P. O. Department.

The week of August 1 to 6 has been designated by the Postoffice Department as "Clean-up your Rural Mail Box Week."

This is excellent advice, and points out a duty in return for a big favor received through the P. O. D. We trust that the field of circulation of The Carroll Record will comply, even to the extent of buying a new box in a good many cases of actual need.

One weekly publisher in the west has commented on the "Clean-up" day as follows:

"As a matter of community pride it is urged that every resident on our rural routes examine his box carefully and determine whether it measures up to the required standard.

Motorists along our highways, it is declared, invariably judge a community by the condition of their rural mail boxes. It can readily be seen, therefore, that proper attention should be given the boxes as a matter of good business.

Let's show the world we appreciate our rural mail boxes, which have been aptly described as "the symbol of rural America."

The condition of your mail box, as a matter of fact, is a serious matter. The box is the receptacle for millions of dollars worth of money orders, invaluable documents and priceless letters.

It seems our plain duty to resolve to aid our postal friends in eradicating any undesirable rural mail boxes in our town, as well as dressing all of them up in Sunday clothes."

THAT \$10,000 QUESTION.

In response to our question "How would you invest \$10,000," we have two additional replies as to what would be done "if I had it," that are well enough as specimens of humor; but as this query was not meant to be humorous, we feel justified in omitting them.

It is true that there is but "a short step from the sublime to the ridiculous," and unfortunately we now have before us many problems that would be ridiculous, were they not so serious.

Nero, a Roman Emperor, is said to have "played a fiddle" while two-thirds of Rome burned down; but we do not believe that we Americans have yet reached the "fiddling" stage.

A WEENIE PARTY.

The members of the Berean Bible Class of the Taneytown Presbyterian Church, invited husbands and families to a weenie party at William H. Carter's, near Taneytown, last Friday night.

Those present were: Mrs. Lulu Binnix and Miss Lueta Morris, Baltimore; Mr. and Mrs. Edward Shorb and daughters, Shirley and Norma Lee; Mr. and Mrs. Wilbert Shorb, Mr. and Mrs. Harry Mohny and daughter; Mr. and Mrs. Paul Bankard and son, Paul, Jr., and daughter, Elizabeth; Mr. and Mrs. William Stansbury; Mrs. Robert W. Clinegan, Mrs. Roy Crumpacker and daughter, Doris; Mrs. Ervin Morris, Misses Elizabeth and Amelia Annan, Mrs. Fannie Bowers, and Mr. and Mrs. William H. Carter.

15,000 FOR WALKERSVILLE ROAD IMPROVEMENT.

Tuesday's Frederick Post, gives the following statement concerning anticipated road improvements through a WPA appropriation of \$15,000, for Walkersville.

"The appropriation is for curb and road work in the county town but as yet, according to Mayor Stauffer, no project has been outlined. He said, 'we have not decided what we are going to do or how far we are going.'"

It was understood that the WPA appropriation is to be matched by Walkersville funds to be supplied by the State Roads Commission from the gasoline tax. The amount of money to be made available by the Roads Commission has not yet been determined although it was learned that the work on the project must be started before October 1st., if the money is to remain available. The fiscal year of the Commission ends on that date."

4-H ACHIEVEMENT DAY, AUGUST 4th.

The annual Carroll County Girls' 4-H Achievement Day will be held on Thursday, August 4th., at the Westminster High School auditorium at 8:00 P. M. This meeting will be featured by the traditional County Style Revue in which about sixty girls will take part. They will model outer garments for all occasions. Besides the Style Revue other work of the year will be featured in exhibits including canned, baked products, clothing and handcraft articles. Twenty-two clubs will participate in the achievement day program. Parents and friends and all people interested are invited to attend.

SERVICES AT PINE MAR CAMP.

Services at Pine-Mar Camp will be held this year from July 31 to August 14th. The speakers for Sunday, July 31, will be Rev. Gould Wickey, of Washington, D. C., and Rev. Irvin Morris, of Taneytown.

Services will be held each night at 7:45 P. M. Among the musical numbers on this year's program will be the "Spiritual Aires" of WORK and also the "Wings of Song" quartette. Rev. F. P. Brose is director.

FIGHT FOR NOMINATION HOTLY CONTESTED

No Such Campaign Ever Before Held in Maryland.

The primary election campaign for nomination for Governor and U. S. Senator in Maryland has become intense, with more candidates in the field than we can count.

Numerous line-ups, or combinations, have been made, and at present withdrawals seem to be unlikely. Most of the candidates are Democrats, but within the past week many Republican candidates have announced themselves.

The main contest for Governor (Democratic) appears to be between Mayor Jackson, of Baltimore, and Attorney General O'Connor; and for U. S. Senator, between present Senator Tydings and present Congressman David J. Lewis of the Sixth District.

On the Republican side Governor Nice seems most likely for the nomination for Governor, while Galen S. Tait, prominent Republican leader for years, or Judge Oscar Leser, Baltimore, are the most likely to win the Senatorial nomination.

No such contest has ever before been staged in Maryland. Weekly newspapers have been flooded with appeals for promotion space—the most of them not being paid advertisements. While campaigning for the lesser value nominations is active, they have been overshadowed by the Mayor contests.

EMORY GROVE CAMP.

The annual camp meeting services will open at Emory Grove Camp, Glyndon, Md., on Thursday, July 28th., and continue until Sunday, August 7.

Special speakers will address gatherings each night at 8:00 P. M., while the schedules for Sunday, July 31st., and August 7th., include sermons at 11:00 A. M., 3:00 P. M. and 8:00 P. M., Saturday evenings, July 30th., and August 6th., a special musical program will be given.

Rev. G. Custer Cromwell, pastor of Exeter Memorial Methodist Church is the religious director and Justin Laurie, of Washington, D. C., will have charge of the music, he will be assisted at the piano by Mrs. Douglas McComas and Eldridge Packham.

Children's services will be held at 10:00 A. M. each day from July 31st. to August 7th.

During the period of the camp meeting services, delegations from many of the Churches in Baltimore will attend, Thursday, August 4th., at 8:00 P. M. Mr. C. H. Gundersdorf, teacher of the Everymans Bible Class will speak, Bible classes from Baltimore will attend in a body.

The cottages at the grove are all occupied and a record attendance at the meetings is expected.

CROP INSURANCE PROGRAM.

Insurance on the wheat crop to be seeded this Fall will be offered Maryland growers, according to L. C. Burns County Agent. For a small cost, amounting to one-half to one bushel per acre, or its equivalent in cash, wheat growers will be insured up to three-fourths of their normal yield.

The hazards to be insured against include, drought, flood, hail, winter-kill, pests, diseases, fire, etc., that occur prior to threshing wheat in 1939.

For example, if the normal yield of wheat on a farm is 20 bushels per acre the farmer would be insured for three-fourths of that amount, or 15 bushels per acre. If he seeds 40 acres of wheat, the total amount of insurance would be on 40 times 15 bushels, or 600 bushels. If his yield in 1939, because of one of the unavoidable causes listed above falls to 10 bushels per acre, or a total of 400 bushels, he would receive 200 bushels, or the equivalent amount in cash. Thus, for a small insurance cost, the farmer is assured of at least three-fourths of a normal crop. In the above case, he will have at least 600 bushels to sell.

The crop insurance program will be limited to the following counties of Maryland, where wheat growing is of major importance: Baltimore, Caroline, Carroll, Cecil, Dorchester, Frederick, Harford, Howard, Kent, Montgomery, Queen Annes, Talbot, and Washington.

However, if there should be a demand for the program from wheat growers in other counties, it is possible that the program may be offered to them, also.

Any wheat grower, whether he is a tenant or landlord, is eligible for crop insurance. One party to a lease may insure his share of the wheat crop, even though the other party does not do so.

In the near future, meetings will be held to acquaint farmers with the details of the program. An early announcement will be made of the dates for such meetings.

A WARNING AGAINST CATS.

The State Game Warden of Maryland says "something must be done about the cat problem" as a large number of cats roam at large and kill small game in large quantities, and has issued the warning that Game Wardens, or anybody have the right to destroy any cat killing game or birds.

Fan palms have the world's largest seed. A single one of the pepper-shaped seeds may weigh as much as 30 pounds.

In Norway and Sweden, reindeer milk is used to make cheese.

PENNSYLVANIA LEGISLATURE

Now in Session Would Investigate Certain Judges.

A special session of the Pennsylvania Legislature, called by Governor Earle, is now in progress. Mainly, it is for the purposes of blocking a grand jury probe of the Governor and thirteen of his political associates.

United States Senator Guffy (Dem) has joined forces with the Governor in charging the Courts with improper practices, and that certain of the Judges be impeached for accepting gifts. They also allege that the courts are influenced by outside interests.

The probability is that the legislature will not act against the Governor's and Senator's interests and advice, especially as there is a sizable Democratic majority in both houses.

The Republican position seems to be that the Judges as members of the Dauphin county bar, have for years been establishing themselves in reputation for integrity never heretofore questioned.

The administration bills likely to be passed would suspend the asked-for inquiry to conduct, and establish legislative authority to investigate the whole very much mixed situation.

Republican members of the legislature have united in an appeal to the people "back home" to unite in a demand for "orderly procedure for prosecution of crime and punishment of official wrong-doing." The Governor's program, they say would "change and curtail judicial function which has existed in the commonwealth since its beginning."

MAN LEAPS 17 FLOORS TO DEATH

John Ward, an unemployed workman leaped from the 17th. floor ledge of a New York hotel, Tuesday night to 55th. Street near Fifth Avenue. He had threatened to jump for about ten hours, and resisted all appeals not to do so.

It appears that he could not be reached from the inside of the building without his assistance, and Police and Firemen had rigged up a net from the 16th to the 18th. floor to catch him, but he finally stepped off about an hour before the net could be completed.

The man had evidently become irrational from continuous brooding over the thought that his life was not worth living.

ROMANCE OF PAPER.

"Way back when" always makes an interesting story during these days when progress is so rapid that what holds true today becomes a misrepresentation tomorrow. To publishers the story of paper holds many interesting and exciting events.

Take the case of the Chinese who guarded their paper plants until 704 A. D., when the Arabs took as their prisoners Chinese paper makers, introducing the art in Samarkand.

The secret was again as carefully guarded until 795 when an army from Morocco captured some Arab paper makers, thus introducing the art in that country.

It was not until 1105 that the Moors introduced paper making in Spain. This was followed by France in 1189; Italy in 1276; Germany in 1301; England in 1304, and Holland in 1588.

Then the process reached America in 1690. In each of these nations all paper makers were sworn to secrecy, breach of which drew severe penalties.—From "The Making of Paper," issued by the Paper Trade Association of Philadelphia.

BOYD FAMILY REUNION.

The 14th. annual reunion of the Boyd family, will be held at Geiman's Park, 3 miles from Gettysburg, along the Biglerville road, on Sunday, Aug. 7th., rain or shine. The Sam Boyd radio band has been invited. All relatives please accept this notice as an invitation to be present.

Random Thoughts

PRIDE, AND GREED.

We read a few days ago an editorial in a daily paper of prominence, that contained this sentence—"Pride, more than greed, is back of the world unrest today." We disagree with this completely. Actually, "pride" and "greed" are synonymous, to some extent, when so used together.

We are "proud" when we win a prized object through the exercise of "greed," and we may have "greed" when we unduly exercise the "pride" of performance.

If money was not a thing so much sought for, because of its purchasing power, or to gain some sought-for end, we would not work so hard to get it. And when we use it solely for the purpose of "showing off," we would not so viciously seek for it.

In our own humble opinion, greed is the stronger incentive of the two, nine cases in ten, whether we want it to promote individual profit, or for accomplishment "in this world of unrest." Mere pride is too respectable a word to be used in this connection.

It is rank greed in such cases, coupled with inhumanity—an avarice that would out-do all previous records. There is, at times, a pardonable pride, but never a pardonable greed, that would even tear down and kill, to accomplish its ends.

The label on paper contains date to which the subscription has been paid. ADVERTISING rates will be given on application, after the character of the business has been definitely stated together with information as to space, position, and length of contract. The publisher reserves the privilege of declining all offers for space.

All advertisements for 2nd, 3th, 6th, and 7th. Pages must be in our office by Tuesday morning of each week; otherwise, insertion cannot be guaranteed until the following week.

Entered as Second Class matter in the Postoffice at Taneytown, Md., under the Act of March 3, 1879.

All articles on this page are either original or properly credited. This has always been a fixed rule with this office, and we suggest the adoption of it by our exchanges.

The publication in The Record of clipped editorials does not necessarily mean that editorial articles are indorsed by The Record. In many instances they are published in order to show varying opinions on public topics.

FRIDAY, JULY 29, 1938.

FREEDOM OF THE PRESS.

Just what is meant by it? It is a nice sounding expression. It is a freedom, apparently, that should not be abridged even by government. We learn of others by their actions. It is a penalty that attaches to the public service. It shows the responsibility connected with seeking political preferment.

There is a so-called "freedom of speech" not connected with the press. It seems that the latter may be called slander, while the former is libel. A sort of distinction without much real difference.

The one may terminate in a fist-fight, and the other in a legal battle in the Courts. What constitutes libels, we think, is not always clearly covered by law, but usually a definition to be found by juries.

We say that "Truth is mighty and will prevail," but "the truth" is sometimes held to be libelous, especially when it can be proven that there was malice back of it—personally studied and directed malice.

It has even been decided in a few cases that a message on a postal card can be—for instance a "dun", on account of a bill "owed," or some personal reflection.

However we may individually view the matter, there is undoubtedly a vast amount of truth, or near truth, circulated in the newspapers, concerning those both in high and low places, those both in high and low places, that is not intended to be complimentary, even if the main purpose is not to do injury to the persons involved. It is news of wrong that may be afloat—it is warning that care should be taken in order to avoid injury.

The best defense of the "freedom of the press" likely is that acts that have been performed; statements that have been made; and wrong intentions that are in prospect, represent dangers to be guarded against—news of a public protective character. Otherwise, there would soon be open to the abuse of power and opportunity to betray public trust; and government "of the people, by and for the people" become a non-existent blessing.

FARMERS WITH, AND WITHOUT "OUTSIDE" INCOMES.

The Record publishes the following news article received from The U. S. Department of Commerce, Bureau of the Census. It will no doubt be read with interest by many, as the statements made are not generally known, even by farmers. Quite a long while ago, we recall reading that one who actually "worked" a farm was a "farmer" but one who owned but "did not work" his farm, was an "agriculturist."

As a further comment, we call attention to the use of the word "obsolescence" in last paragraph (1) the "obsolescence of farm automobiles, trucks and tractors." As "obsolescence" means "going out of use" the architect of the article seems to have been a bit "off" as these motors are very much in evidence on farms.

We can not figure out just what this survey is intended to show, that is new. Perhaps it is, that farmers without "outside" income are badly off by comparison with those who have. There is no law against varied activities operated by any class.

As a matter of face, this "outside income" attaches to all classes of business, providing they have the individual foresight, ability and capital required. These "side lines" as we usually call them, often help mightily toward making any occupation pay, no matter whether one be a farmer, or just a country merchant striving to make both ends meet, and then some.

The article follows, with the exception of a few unimportant omissions: "One farmer in three has an income from non-farm sources according to a special report released today by William L. Austin, Director,

Bureau of the Census, Department of Commerce. This statement is based upon a special preliminary survey of 3,000 farms in selected counties in 40 States that was made in preparation for the coming Census of Agriculture, 1940.

Many surprising facts are indicated by this survey. Among those which hitherto have not been called to the attention of the public are: the high proportion of farmers who have outside income; the relatively high average return for such farm operators, which average is equal to about three-fourths of the average income from the farms themselves; the difference between the income of those making farming their principal operation and those whose principal occupation is not farming, but some other, such as banking, keeping store, professional service, and the like.

In a special Census monograph, "Part-time Farming in the United States," a study made of farmers who performed work off their farms for pay or income, it was found that there were about 2,000,000 of such farmers. This report on non-farm income is of unusual significance because it bears out preliminary surveys from other sources which show that non-farm income is a material part of the rural picture. For the 975 farmers who reported non-farm income a total of \$558,522 is recorded, or an average of \$573 per farm. About one-fourth of the farmers with non-farm income receive less than \$100, another fourth from \$100 to \$300.

Anyone interested in securing the other brief summaries of this limited 1938 survey which have been or will be published may obtain them by writing to the Census at the address given below. The summaries already released relate to: (1) the obsolescence of farm automobiles, trucks, and tractors; (2) the back-to-the-farm movement; and (3) co-operative sales and purchases. Additional releases are expected to cover the radio and other farm facilities and farm experience. For these and other farm census reports, address Agricultural Division T-4, Bureau of the Census, Department of Commerce, Washington, D. C.

WHITHER WEATHER?

Over much of the United States skies that hint the sun is still on the job prevailed at the week's beginning for the first time since two great oceans of atmosphere decided on central North America as their battle ground. Normally the oceans of warm wet tropical air push the cold polar front well north of 60° latitude in summer, forcing it to take to the stratosphere if it would come south. This year, however, the tropical ocean contains more moisture than usual and the polar air masses are stronger.

Why? Those who study the sun assert small changes in the amount of radiation sent earthward mean big changes in weather conditions. The activity of the sun is their basis for long range predictions. Hence when sunspots, solar storms, are at their height, and auroral displays are unusually strong as they were last fall and winter, long range forecasters feel rather certain that the difficulties experienced by electrical communications systems will be followed in coming months by cooler, wetter weather, if summer is coming.

During sunspot activity the sun is sending forth a little more energy than usual, the air over the equator is heated more readily, the pressure drops, and with higher pressure at the poles the colder winds move farther south than normal. Meanwhile, the warmer air masses have gathered more moisture than ordinarily, and in their super-saturated condition they shed their burden like a steep roof sheds water, wherever the meeting with cooler, drier air masses takes place.

Weather changes are not purely accidental. They arise from very definite causes, only a few of which are at present known. The Weather Bureau does not yet credit long-range forecasting, and study of weather conditions over the ocean is inadequate. However, forecasting today compared with ten years ago is as much improved as are airlines and automobiles over those earliest of models. The weather man is right six out of seven times. Some day the weather will be as predictable as an eclipse. That time is still distant, but progress is distinctly notable.—Christian Science Monitor.

FALSE ADVERTISING DEFINED.

The Wheeler-Lea federal trade commission bill contains a definition of false advertising which applies to food, drugs and cosmetics, as follows: "The term 'False Advertisement' means an advertisement, other than labeling, which is misleading in a material respect; and in determining whether any advertisement is misleading, there shall be taken into account (among other things) not only representations made or suggested by statement, word, design, device, sound or any combination thereof, but also the extent to which the advertisement fails to reveal facts material in the light of such representations or material with respect to consequences which may result from the use of the commodity to which the advertisement relates under the conditions prescribed in said advertisement, or under such conditions as are customary or usual."—Indiana Publisher.

WAR'S DESOLATION.

They strike first then explain afterwards, if any explaining is ever done. Italy carried on an undeclared war on Ethiopia, raped the country, seized it, and now holds it as her own property, regardless of the fact that ancestors of Haile Selassie, Emperor and people, had held possession of the country since long before Romulus and Remus, mythical founders of Rome were reared by the she wolf.

Japan, powerful in arms and armament, for more than a year has been carrying on one of the most brutal and barbarous wars against stoic but defenseless China.

Both Italy and Japan, cowardly criminals, strike at defenseless foes of their own choosing, and solely because they realize they can get away with it.

Modern invention—high explosives and the airplane—have made these two wars possible, and the savagery in the breast of war-mad men, already has planned what to do, later, and waits but an opportunity to strike when their chosen enemy is "off guard."

The clash is bound to come in time. Fascism, Nazism, Communists, triplets hatched in the same womb of hatred, will bide their time, and when their cowardly cunning convinces them they can defeat democracies, and seize their wealth, will strike.

Whether the first blow will be against France, Belgium, Holland, the Scandinavian countries and England; or neglecting them they may make the "long hop" with ten thousand bomb laden planes, and strike at the U. S. to get the silver buried at West Point, and the gold buried in Kentucky, will depend on future explosive manufacture and in aeronautic inventiveness.

If a Hughes can circumnavigate the earth in less than four days and a Russian can cross Europe and Asia—nearly 5000 miles without landing, the probabilities are that the even now, airplanes are in existence that could cross the Atlantic, drop their bombs and return home without landing.

Looks like civilization has failed; that religion (all classes) has failed; that education—all conditions, has failed, and that Vis et Armis (strength and arms) alone will be able to settle matters.

Unless love and peace are able to supplant avarice and greed, the future of civilization looks dark and gloomy. W. J. H.

FREEDOM VITAL SAYS PUBLISHER.

New York (IPS)—Freedom of the press, religion, speech and assembly are the four cornerstones upon which American liberty rests, Arthur Hays Sulzberger, President and Publisher of the New York Times, said here recently.

"We must keep uppermost in the minds of the American people that freedom of press, freedom of religion, freedom of speech and freedom of assembly are the four cornerstones upon which liberty rests. We must make it plain that if one of these cornerstones is demolished, the others will crumble. Freedom of the press cannot be destroyed if we want the other freedoms to exist. The same is true with the other freedoms—each depends upon the other. Liberty in the United States can only stand on solid pillars.

"We must impress on the American citizen that there is only one thing that will insure full happiness, and that one thing is freedom. A man may be unhappy with freedom, but he certainly cannot be happy without freedom.

"The thing that makes life really worth living for the American citizen is the fact that when he turns the key of the door to his home at night, he can say—'This is my castle—I am a free man.'"

Only Way He Knew

"Doctor," said the patient, "I'm bothered with a curious pain. When I bend forward, stretch out my arms and make a semi-circular movement with them, I feel a sharp stab in my left shoulder."

"But," said the doctor, amazed, "why on earth make such motions?"

The patient looked at him carefully. "Well, doctor," he said, "if you know any other way for a man to get into his overcoat, I wish you would tell me."—Stray Stories Magazine.

Owner Declares His Cat Brushes Teeth

Pittsfield, Mass.—Every morning Bessie, an immaculate cat, brushes its teeth, according to Lemuel G. Lloyd, tax collector. An early riser, she climbs the stairs to the bathroom, hops up on a fixture where a brush is hanging and chews busily on the stiff bristles until her teeth are clean.

ATTORNEY'S SALE

Valuable and Desirable Real Estate AT MONOCACY BRIDGE, CARROLL COUNTY, MD.

By virtue of the power of sale contained in the mortgage deed of Roscoe E. Yingling and Edith P. Yingling, his wife, to The Birnie Trust Company, bearing date March 3, 1937, and received among the Real Estate Mortgage Records of Carroll County in Liber L. D. M., No. 165, folio 363, etc., default having occurred in the payment of the mortgage debt and in other covenants in said mortgage deed contained, the undersigned Attorney named in the mortgage for the purpose of foreclosure, will sell, on the premises, on

SATURDAY, AUGUST 6, 1938, at 1:00 o'clock, P. M., all that tract or parcel of land situated along the Taneytown and Emmitsburg road at Monocacy Bridge, in Carroll County, Maryland, containing

35 ACRES, 3 ROADS AND 15 PERCHES OF LAND, more or less, and being the same land described and conveyed in the deed of Frank C. Velnoskey unto the said Roscoe E. Yingling and wife, bearing date August 26, 1932, and recorded among the Land Records of Carroll County in Liber E. M. M. J., No. 157, folio 486, etc.

The property is about 2½ miles from Taneytown, and is improved by a two-story FRAME DWELLING HOUSE, of seven rooms and basement, garage, tool house, brooder house and other necessary outbuildings, as well as a road-stand. There is a well of water conveniently located and a fine grove suitable for picnics and social gatherings.

TERMS OF SALE—One-third of the purchase money in cash on the day of sale or on the ratification thereof by the Court, and the residue in two equal payments of six and twelve months, or all cash at the option of the purchaser. The credit payments to be secured by the notes of the purchaser, with approved security, bearing interest from the day of sale.

**Housework Now Calling
of Former Blacksmith**

Cleveland.—Charles Hollinger, eighty-one years old, is a former blacksmith who has turned housekeeper.

Housekeeping, however, was always his avocation. He never particularly wanted to be a blacksmith, but his father, grandfather and great-grandfather had chosen this trade. He was elected to follow in their footsteps because he was stronger than his three brothers.

He also was chosen to help his frail mother with her household duties.

He began to wash dishes when he still had to stand on a chair to reach the sink.

Later he made his mother's house-dresses.

"I don't want to be a blacksmith," he repeated to himself. "I will quit blacksmithing the day I am twenty-one." And he did.

He then went to a theological school, from which he subsequently withdrew. He gave no explanation of his withdrawal—perhaps it was because he still desired to be a housekeeper.

A series of jobs followed for Hollinger. He was a street car conductor, among other things.

But always his domestic proclivities cropped up. When he married he washed his wife's blouses. He is a superior ironer.

Now he keeps house for a brother and himself. His house has the reputation of being the neatest in the neighborhood.

**U. S. Is Making Use of
Beavers to Stop Erosion**

Washington.—A band of "government workers" in Idaho toil day after day at manual labor for less pay than the dollar-a-year man receives.

However, these beavers, for that is what they are, seem content with their jobs. They construct dams in streams to provide themselves with homes and help Uncle Sam arrest stream-bed erosion.

Transferred from distant localities by government experts, the beavers have been freed along swift running streams to go their natural ways. The beaver dams erected prevent valuable soil from being carried off by the currents.

Director F. R. Carpenter of the division of grazing disclosed that 8,000,000 acres of land have been designated as a game refuge area. Five other reservations aggregating 3,700,000 acres in five western states are now in process of negotiation between the federal and state officials.

Time Cycles Named for Animals

If you ask a Kirghiz his age he may reply, "I was born in the year of the dog, and have lived five rounds," for these nomad tribes of Mongol-Tartar descent know nothing of our western calendar. They have a system of their own, says the Rocky Mountain Herald, dividing time into "rounds," consisting of twelve of our years. Each round is subdivided into twelve parts named after an animal. Hence you will hear of "the year of the snake," "the year of the horse" or "the year of the bear."

**GAY VIENNA GONE,
SAYS OSCAR STRAUS**

**Famous Composer Saddened
by Recent Events.**

Paris.—Sixty-eight-year-old Oscar Straus, famous composer of the "Waltz Dream," "Chocolate Soldier," "Marietta," and many other popular light operas, is among the Austrian refugees who arrived recently in Paris.

"I was born in Vienna and lived there the greatest part of my life," said the aged composer. "Now I am an emigrant and shall never be able to see Vienna again."

"My wife and my son were forced to remain in Vienna as Nazi authorities confiscated their passports. I am also unable to dispose of my property in Austria."

"My future plans are to go to Hollywood, where I intend to make a film version of my operetta, 'The Chocolate Soldier,' with Jeanette MacDonald as my leading lady."

"Besides I shall conduct several concerts here and in England, and possibly also in the United States."

"It is true that I hoped to be able to live only for composition during the last few years of my life, but I am now too heart-broken and restless to do any creative work."

"The age of the gay Viennese operetta is as good as gone," Oscar Straus concluded sadly.

Recall

The student's allowance had run out, so he wrote home for more money. Feeling a bit nervous about the impression it would make, he ended his letter: "P. S.—I did not like writing to you. In fact, I ran after the postman to get this letter back."

A week later he received the following reply: "You will be glad to know I did not receive your letter."

Tact

"Who's that awful lookin' femme in blue over there by the orchestra?"

"That's my aunt."

"Oh, I don't mean her. I mean that horrible one who looks as if she had on a fake face."

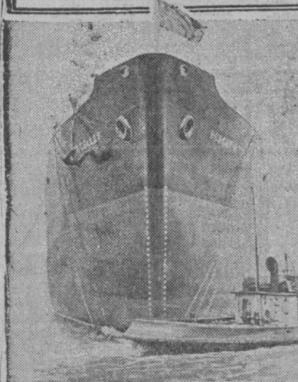

"She's my sister."

"Boy, she sure can dance."—The Pointer (U. S. M. A.).

Rats and Mice Are Cunning

Rats and mice are notoriously cunning, and many stories are told of their smartness in getting out of difficulties or adapting themselves to changed circumstances, says Tit-Bits Magazine. Rats, for example, have been known to turn themselves into living ladders. They have actually been seen to turn on their backs and clutch with all four paws an egg that is too difficult to carry in the ordinary way while a companion in crime drags them away from the scene of the robbery by the tail. This same tail has also been used to extract refreshment from otherwise burglar-proof bottles. It is hung down inside the neck, and after extraction its owner sits down and enjoys refreshment. Both mice and rats have been trained by electric shocks to find their way to the center of complicated mazes without a mistake.

CAMERAGRAPHS

HUGE OIL CARRIER LAUNCHED—The Atlantic Refining Company's 18,500-ton tanker, the "Robert H. Colley," in the Delaware River immediately after her launching at Chester, Pa. On one trip the new vessel will be able to carry 6,552,000 gallons of gasoline—enough to drive 100 cars in the low price class 40 times around the world.

CHAMPIONS IN THE MAKING—Sumo wrestling, national sport of Japan, is learned early by children of Nippon. The picture shows two Tokyo children engaged in practicing rudimentary holds. From smiling faces of the small spectators it is obvious the bout is causing considerable entertainment.

VACATION ECHOES are in the making as Lana Turner, pretty Hollywoodite, suns herself on the rocky shores of California, near Santa Monica.

END OF A NOBLE EXPERIMENT—Howard Hughes and his intrepid crew "sit down" in their "flying laboratory" at Floyd Bennett Field, New York, after a record-shattering, breath-taking flight around the world.

CLARK GABLE seems to be on the wrong end of the camera in this picture, but it's just a shot from his forthcoming Metro Goldwyn Mayer thriller, "Too Hot to Handle," in which the versatile Mr. Gable plays a newsreel cameraman with Myrna Loy as the object of his affections. As he adjusts the focus of his camera, Gable glances at the Gruen Ristside watch worn on the side of his wrist where he can catch the time without missing any of the hot news he's preparing to film. If that grin means anything, he must have a scoop—on a bathing beauty.

FRED ALLEN (left) learns some things he never knew about games from his game-playing Town Hall successor, Norman Frescott. The latter has replaced the Yankee comedian for the summer on the NBC-Rod Network airwaves, and is starred on the Wednesday night "Town Hall Big Game Hunt" which reaches listeners at the same time as Fred's show formerly did.

The Laurentian Mountains

The Laurentian mountains stretch like a great crescent over a million or more acres between the St. Lawrence river and Hudson's bay and from the Ottawa river east toward Labrador. Over them hangs that mysterious fascination that belongs to great age. In comparison with them the Alps of Europe and the Himalays of Asia are young. Geologists state that the Laurentians were among the first mountains to heave their summits above the waste of waters where afterward continents were born. Many aeons later they bore up under the weight of a mighty mass of ice that harrowed their sides, bumbled their peaks, and polished its fascinating chronicle on millions of scattered rocks.

"Hub of the Universe"

The nickname "Hub of the Universe" was suggested by a humorous quotation in the sixth paper of Oliver Wendell Holmes' "Autocrat of the Breakfast Table." Holmes wrote: "Boston State House is the hub of the solar system. You couldn't pry that out of a Boston man if you had the tire of all creation straightened out for a crowbar." The satirical remark referred to Boston as a self-satisfied community, composed of people who regarded themselves superior in wisdom and culture. Boston's downtown is often referred to as the Hub from the fact that the streets of this district form a wheel, radiating from several squares lying between the State house on Beacon hill and the old State House on State street.

**Finds \$5,000 in Toes
of Auctioned Boots**

Toronto.—The Toronto Evening Telegram says a Toronto woman recently purchased a parcel for \$1 at an auction of unclaimed Canadian National express parcels. It contained a pair of hiking boots. In the toes of the boots was stuffed "something over \$5,000 in cash," the newspaper said.

Thieves Get Mummies

Miami.—Most unusual theft reported to Miami police was that of three mummified human heads, which were stolen from the museum of a taxidermist.

Lights of New York
by L. L. STEVENSON

Accommodation: When a Lackawanna train, which reaches Hoboken, N. J., in time for Manhattan workers to reach their desks by 9 a. m., comes in the two smokers are at the rear. As the train consists of nine cars, that means a long walk for those who take the ferry. Well, one morning a smoker-rider missed his boat and was late to work. So he undertook to have the smokers shifted to the head end. It seems that 60 signatures are necessary to obtain action by the railroad, and all he could get to his petition were 45. Nevertheless something was accomplished—the train now arrives in Hoboken two minutes earlier than it did in the past. Incidentally, it used to have ten cars, including three smokers. When the railroad decided to reduce the length, a non-smoker got in his work and one of the smokers vanished.

City Life: Broadway toughies reading racing forms while leaning against the new black and gold fence separating Broadway from Seventh avenue in Times square . . . Workmen on the new Sixth avenue subway sharing their lunch boxes with unemployed, who flock by hundreds to the employment agency billboards on that thoroughfare . . . The patent medicine racketeers in Union square who attract a crowd with "liberalism" speeches and then peddle hair restorers . . . The dramatic hopefuls who gather in the basement of a drugstore at Forty-fifth and Broadway and exchange tips on new plays to be produced etc . . . The "Dead End" youngsters at Fifty-third street and First avenue roasting potatoes over fires in old tin cans in the early evening.

Futile: A gentleman seemingly only slightly inebriated, wandered into a financial district restaurant patronized by those who can afford to pay substantial prices for substantial food. From table to table he weaved, playing gay airs on a big harmonica. Instead of taking a collection, when he had completed his rounds, he went up to the bar and demanded a cup of coffee. It was given him without question and taking it to a table at which sat only one diner, he sat down. For a minute, or so, he looked at the coffee. Then he pushed it over toward the other occupant. "You take it," he said. "I can't drink it."

And picking up his harmonica, he tootled his way out into the street.

Escapes: Paul Whiteman was once trampled by a broncho he tried to bust. Though seriously injured, he later subdued the animal. Now he rides the Central park bridge paths each morning in a cowboy suit and hat . . . Morton Downey narrowly missed death in a theater in England when a heavy backdrop fell and came within a quarter of an inch of striking him . . . Jane Pickens was singing in a New England radio station which caught fire. She continued with her songs until her time was up and escaped just before the building collapsed . . . Benay Venuta during a tour of the South Seas, took her life in her hands by plunging into the shark infested sea to save a drowning child off the coast of Tahiti.

Diplomacy: A large and belligerent drunk with a mean gleam in his bloodshot eyes sat on the front seat of an Eighth avenue bus. As the vehicle sped along he drew out a big cigar and lighted it. The passengers became tense; the driver waited a minute or so before taking action.

"I'm sorry," he finally said. "But smoking is against the rules."

"Since you're so polite about it," replied the drunk, "I'll get off."

Observation: Only on Broadway have I ever seen a gorgeous orchid, symbol of affluence, displayed in a discarded bottle that once held a five-cent soft drink.

**Mother-in-Law Haven Is
Discovered by Traveler**

Manila.—Back from a survey of travel conditions in the East Indies, American Expressman J. R. Lloyd reports that the natives of Papua, British New Guinea, have scotched the mother-in-law joke. Tribal custom there bars the mother from even speaking to her children's life partners. In some places the ban is so strict that she may not even mention their names in casual conversation.

**Modern Science Dims
Wonders of Magician**

Berkeley, Calif.—Science can stage a vaudeville act that would make the old magician look tame indeed, according to Irwin A. Moon, Los Angeles scientist, who is demonstrating scientific wonders.

A few of the things which Moon does in his lecture "act" are discharging 1,000,000 volts of electricity from his own body; floating metal in space; turning rocks into gems under a 20,000 volt iron arc; recording the human voice inside a thread of steel, and projecting voices on light beams.

CORRESPONDENCE

Latest Items of Local News Furnished By Our Regular Staff of Writers

We desire correspondence to reach our office on Thursday, if at all possible. It will be necessary therefore, for most letters to be mailed on Wednesday, or by Fast Mail, west on W. M. R. E., Thursday morning. Letters mailed on Thursday evening may not reach us in time. All communications for this department must be signed by the author; not for publication, but as an evidence that the items contributed are legitimate and correct. Items based on mere rumor, or such as are likely to give offense, are not wanted.

UNIONTOWN.

Mrs. W. G. Segafosse, spent Wednesday with Mrs. Georgia Gehr and mother, Mrs. Lizzie Franklin, Westminster.

Jane Fleagle and Betty Englar, are attending camp at Camp Peniel above Thurmont.

Billy Bowman, Maidensville, is spending a few days this week with Billy Fleagle.

Mr. and Mrs. G. Fielder Gilbert, Mr. and Mrs. Ray Kaezler and Dr. Fidelia Gilbert, started on Monday for an extended trip through Virginia.

Mary Lee Smelser entertained Dorothy Ruth Crawford, Janet Carl and Betty Englar to dinner on Saturday evening.

Mr. Samuel Harner moved from here to New Windsor, Saturday.

Mr. and Mrs. Charles Selby, Mr. and Mrs. V. Haupt and Miss Louise Craig, Waynesboro; Mr. and Mrs. Myers Englar were dinner guests of Mrs. W. P. Englar, Sunday evening. Miss Carlene Selby, returned home, with her parents.

Mr. and Mrs. J. Walter Speicher are attending the wedding of the former's brother, Dr. W. G. Speicher, Westminster, who is marrying Miss Betty Marcellus, Manassan, N. J. The wedding will take place Thursday, July 28th, at 4:00 P. M.

Mr. and Mrs. Jesse G. Smith, Portsmouth, Ohio, are spending the week with their father and family, Milton A. Zolickoff.

Mrs. H. H. Haines is visiting her daughter, Doris, at Ocean City, N. J. Vacation Bible School is now being held at Pipe Creek Church of the Brethren with an enrollment of 51.

Mrs. H. J. Speicher, Accident, Md., who had spent the past month with her son has returned home.

The M. P. Missionary Society will hold a food sale at the home of Mrs. Frank Haines, Saturday, July 30, beginning at 10:00 A. M. The public is invited.

The Ladies' Aid Society of the M. P. Church will meet at the home of Mrs. Preston Myers, Wednesday evening, August 3rd.

Mr. and Mrs. H. J. Cashman, Virginia, and Bobby Cashman, Frizellburg, visited relatives in town, on Monday evening.

Mrs. Jesse G. Smith, Mrs. B. L. Cookson, Mrs. Alfred Zolickoff and Mrs. D. Myers Englar, spent Wednesday in Washington, D. C., visiting Misses Eleanor and Eliza Birnie and Norman Otto's family.

Mrs. Walter L. Rentzel, Mrs. Edw. Myers, sons, Bobby, Elwood and Dickie, spent Tuesday afternoon in Westminster.

Mr. and Mrs. Walter Stoniesfer, son Billy, Taneytown, and Mrs. O. E. Taylor, West Virginia, were visitors at Carl Taylor's, Friday evening.

Miss Evelyn Crouse is visiting her aunt and uncle, Mr. and Mrs. Claude Crouse, Magnolia, Md.

G. W. Sionaker who had been visiting relatives in Baltimore, has returned home.

Kenneth Harris, Westminster, spent several days with Orville Bowersox, Jr.

Mr. and Mrs. Charles Winters, Mr. and Mrs. William Winters and daughter, Hanover, spent Sunday at Herbert Eyer's.

Mrs. A. L. Brough had the misfortune of bruising her hand very badly when she left a window fall on it.

HOOPER'S DELIGHT.

Miss Betty Jane Farver is spending a few weeks with her grandparents, Mr. and Mrs. Joseph Snyder, of Middleburg, and Mr. and Mrs. Ervin Crabb, of Untontown.

Those who visited at the home of Mr. and Mrs. George Garver and family, were: Mr. and Mrs. George O. Brecht, Mr. and Mrs. Bon Stultz and son, Miss Betty Janie, Buddy, Fred Farver.

Master Billie Reese is spending a few days with his mother, Mrs. Marie Reese.

Congratulations to the newly weds, Mr. and Mrs. Oden Eyer. Mrs. Eyer before marriage was Miss Helen Alexander, of Sam's Creek.

Mr. C. S. Pittinger and Buddy and Fred Farver spent Sunday at Camp Ritchie and Pen-Mar.

Miss Mildred Farver and Mrs. John Coe, is spending a few days with Mrs. James Hooper, of Waynesboro, Pa.

Mr. and Mrs. Kerby Snyder and daughter, Tootie, and Mr. and Mrs. Bloom and daughter, Patsy, spent Sunday with Mr. and Mrs. H. Farver and family.

Master Francis Reese is spending a few days with Mr. and Mrs. Bon Stultz and family. Miss Betty Jane, Buddy and Fred called at the same place, Thursday evening.

MANCHESTER.

Rev. and Mrs. L. H. Rehmyer and daughter, Mary, are spending several days sight-seeing in New York City and vicinity.

Mrs. J. R. Smith, near town, is very ill.

Reginald Barber and friend, of Summit Hill, Pa., attendants at the C. M. T. C. at Fort Meade, visited with Rev. John S. Hollenbach and family, Manchester, on Sunday.

Mr. and Mrs. George Stover, Mifflinburg, Pa., and Mr. and Mrs. Cren Shoemaker and son, Dwight, of York, Pa., visited Rev. John S. Hollenbach and family, Manchester, on Sunday afternoon.

FEESERSBURG.

Rain rain—every day last week, and Saturday with intermediate downpours. Very warm and wet, and vegetation thriving, including the weeds of which we never saw the seeds. Wells are full of water, and cisterns over-flowing—gracious provision, the rather bad for the farmers whose wheat didn't get hauled from the field.

The S. S. of Middleburg pic-nicked at Mt. Tabor Park, Rocky Ridge, on Wednesday of last week, but a thunder gust in late afternoon hastened their departure.

Chas. Utermahlen and son, Donald, left on Friday morning for a vacation trip to Niagara Falls, and on to points in Eastern Ohio, across Pennsylvania, calling on friends enroute.

Grayson Shank attended the Lodge picnic, Jr. Order of Mechanics, Taneytown, on Saturday at Mt. Tabor Park, which was considerably dampened by the rain that kept the crowd away, but the "Jolly Serenaders" were present to enliven the occasion.

Mrs. Viola Dayhoff Baker and daughter, Caroline, and Miss Erma Wolfe with the latter's brother, Cleon Wolfe and wife, motored to Philadelphia, on Saturday to see their father, Edward Wolfe and brothers, Marcus and Chester and families, some of their drive was spent by the roadside waiting for the rain to "let up" or "run off," however they saw all the folks, and returned home safely and happy about 10:00 P. M.

The F. Littlefields are entertaining his sister, Mrs. Minnie Garside, of New York, and her grand-daughter, Lillian Garside at Green Gates.

Mr. and Mrs. F. P. Foster, of Afton, N. Y., are visiting the Warren Brunner family, at Mt. Union, this week, attending service at Mt. Union on Sunday morning.

The Horace Bostian family held their annual reunion at Caledonia Park, on Sunday. The Marion Eichberger family, of Cumberland, met with them there, and they all enjoyed the day and their bountiful joint lunch together returning home in early evening.

Mr. and Mrs. Joseph Anderson and son, Billy, who spent last week with the Wilbur Miller family, in our town went to York, on Sunday evening and from there by bus to Philadelphia where they will visit friends this week before returning to their home in Boston.

Mr. and Mrs. Clarence Wolfe and son, of Westminster, visited his brother, Mr. and Mrs. Cleon Wolfe. On Sunday evening, Mr. Lewis Stauffer, living with his daughter, Mrs. Steiner Wachter, near New Midway, called at the Wolfe home, last week, in good health and spirit, also an octogenarian.

Rev. P. H. Williams and family, of Union Bridge, spent Monday evening with the Maurice Grindler family.

There—we were interrupted by an auto stopping, with three men wearing caps of the Salvation Army and holding out a tambourine to receive funds. Well its easier to give a few dimes than start an argument this hot weather—but who were they, and did we do right or wrong? You see "A burnt child dreads the fire," and we've been scorched already.

On Sunday morning Rev. M. L. Kroh held the last service before his vacation for the month of August, his next preaching at Mt. Union was announced for the evening of September 4th. Mrs. Lucille Sentz conducted the C. E. Service at night. Next Sunday evening they will worship at Pine Mar.

The Smiling Sunbeams of Mt. Union, will sponsor an August festival at the Parish House, on next Wednesday evening, Aug. 3rd. Mrs. Viola Baker, chairman. A good social time is expected, with a lot of good things to eat. See special notice.

Our young neighbor, Arlene Grindler received a nice book, "Children of Lap Land" by Thora Thossmark, as a prize for another good report almost perfect on the 2nd. Quarter's test questions. This is the third book she has received from her teacher for good attendance and study.

We are hearing from friends on mountains, along beaches on the East and West Coast, in camps, and across country—all seeing sights and having the best time ever; while the scenes around us are just as inspiring, the rain beautiful, the Sunset glorious and the dog days as sultry as ever.

On Monday evening between 10 and 11 P. M., a tipsy traveler alarmed our citizens, so a Deputy was called who placed a pair of stiff cuffs on his wrists and took him in charge not without some opposition however.

Mellow apples, luscious pears, apricots, peaches, cantaloupe and watermelon available—all delicious; just be careful to not eat over much, most of them will be in market for some time.

RODKEY REUNION AT PINE-MAR

The ninth annual Rodkey reunion was held Sunday, July 24, at Pine-Mar Camp. A basket lunch was enjoyed at noon. A short program was given immediately afterwards. Recitation, Earl Humbert; duet, Ruth and Edna Rodkey accompanied by Miss Mary Rodkey; piano solo, Truth Rodkey; piano solo, Elizabeth Caylor; prayer, Mrs. Lloyd Humbert.

Minutes were read by Miss Edna Rodkey. The history of the clan was read by Mrs. Manetta Fowler. Prizes were awarded to the following: youngest child present, Jimmie Wantz son of Mr. and Mrs. Denton Wantz; oldest lady present, Mrs. James Humbert; oldest man present, Howard Petry, coming farthest distance, Mrs. Annie Bucher, Hanover, Pa.

The following officers were elected: President, Ira A. Rodkey; Vice-President, Earl Bowers; Secretary, Mrs. T. Allen Morelock; Treasurer, Raymond F. Rodkey; Historian, Mrs. Manetta Fowler; Assistant Historian, Mrs. Cora B. Hoff.

It was decided to hold the next reunion at Pine-Mar Camp, July 16th. A Sunday School and Church session in the morning, basket lunch at noon, and special entertainment in the afternoon is the plan of the day. The program closed by singing "Blest Be the Tie that Binds."

TOM'S CREEK.

Mr. and Mrs. John Miller, Dundalk, visited at the home of Mr. and Mrs. Edgar Valentine and also called at Mr. and Mrs. Edgar Phillips.

Miss Grace Reed, of Roanoke, Virginia, is spending some time with her sister, Mrs. Ohler.

Mrs. Samuel Birely, who was confined to bed for several weeks, is able to be about again.

Mr. and Mrs. Norman Phillips, of Baltimore, spent Monday with Mr. and Mrs. Edgar Phillips and Mr. and Mrs. Carroll Phillips and daughter, Helen Elizabeth. Mrs. Carroll Phillips returned home with Mr. and Mrs. Norman Phillips and spent several days.

Mrs. Marshall Baumgardner, of Rouzerville, Pa., and daughter, Mrs. Fred Sprandle and son, Marshall, of Waynesboro, called on Mrs. Edgar Valentine, Mrs. Harry Dern and Mr. and Mrs. Albert Valentine on Friday.

Mr. and Mrs. Wilbur Naylor and family, spent Sunday evening with Mr. and Mrs. Edgar Phillips and family.

Mr. LeRoy Reun, of Frederick, spent Wednesday with Mr. Murray Roop.

Miss Rachael V. Valentine, of near here, and Miss Margaret Wilhide, of Detour, are spending the summer at Hotel Relaware, Ocean City, New Jersey.

Mr. and Mrs. William Martin, spent Sunday with their son, Wilbur Martin, of Hagerstown.

Catherine Eyer, of Philadelphia, is spending a week with Mr. and Mrs. Norman Six and family.

Mrs. Ora Wagerman, of Emmitsburg, spent several days with Mr. and Mrs. William Martin and Mrs. Carroll Kiser, spent Thursday at the same place.

Mr. and Mrs. Delmar Baumgardner, of Taneytown, spent Thursday evening with Mr. and Mrs. Thomas Baumgardner, and Mrs. Carl Baumgardner and daughter, Audrey, are spending several days at the same place.

NEW WINDSOR.

Mrs. Martha E. Harman, one of the oldest citizens of New Windsor, died at the home of her daughter, Mrs. Charles Bachman, on Tuesday. Funeral afternoon. Dr. Bixler of the Brethren Church, of which she was a member assisted by the Rev. B. F. Denton, of the Methodist Church.

Mrs. Harman leaves 14 children, 40 grand-children and 66 great-grand-children. She was in her 91st year.

Mrs. Minnie Hyde died Tuesday night at the Maryland University Hospital, after a week's illness. She was the widow of the late Thomas Hyde, and she leaves the following children: Earl Hyde, New Windsor; Mrs. Edgar Kooztz, near New Windsor; John Hyde, Ray Hyde. Funeral on Friday from the home of Mrs. Kooztz. Services at the Wakefield Church of God of which she was a member. Interment in Winters cemetery.

The Blue Ridge College players gave "Midsummer Night's Dream," on the lawn of Dr. Edw. Myers, in Westminster. It was presented by Madam Barry Oslova.

Mr. and Mrs. Daniel Engler, Prof. and Mrs. Berkeley Bowman, attended the meeting of the Eastern District Conference held at Rocky Ridge, on Wednesday.

Mrs. Ida Poole is critically ill at her home here.

Misses Jane Englar, Sara Baile, Mary Thomas and Betty Jane Roop are spending this week at Camp Peniel, at Thurmont, Md.

The ladies of the Presbyterian Church will hold their annual fete and supper on the church lawn Friday and Saturday evenings, Aug. 5 and 6th.

HARNEY.

The country ham and chicken supper will be served from 5:00 o'clock on, in Null's Grove. Music by the I. O. O. F. Band of Taneytown. This supper and picnic is sponsored by the St. Paul Lutheran Church and S. S. So don't fail to come and enjoy a good supper and music and social evening.

Mr. and Mrs. Murray Fuss and Mr. and Mrs. John Fream, returned home on Sunday much pleased with their auto trip through 23 states.

Miss Isabel Eckenrode, Baltimore, is spending this week and part of next with her home folks.

Services at St. Paul's Church next Sabbath at 8:30; S. S., 7:30. Rev. Beard and family will take their vacation the three first Sundays in Aug. therefore the church will be closed. No service till last Sunday in Aug.

Mr. Samuel D. Snider and sister, Ruth, and Isabel Eckenrode, spent Wednesday evening in Littlestown, with Mr. and Mrs. Carl Baumgardner. The 4-H Club held a meeting at the home of Betty Teeter, on Tuesday evening.

HESS-BUSHEY REUNION.

The 14th annual reunion of the Hess-Bushey families was held at South Mountain Fair Ground Park, near Arendtsville, Pa., on Wednesday, July 27th, 1938.

At an early hour the members of the clan began to arrive. As usual with George Hess, the only living member of the original families was on the grounds to welcome every one as they came. The morning was spent in social chat, making new acquaintances and greeting old friends.

Dr. Wm. S. Hess, of Hagerstown, said grace and all enjoyed the lunch hour and the ice cream.

At 2:30 P. M., the business session was called to order by the President, Elbert Crum. All sang, "What a Friend we have in Jesus," with Miss Hazel Hess leading and Miss Edith Hess at the piano. Rev. John Hess Belt offered the opening prayer.

The minutes of the 1937 reunion were read by the secretary, and approved as read. The treasurer, Elmer S. Hess gave his report for the year which showed the organization was in a healthy condition.

The committee of inspection of grounds gave their report. It was

moved and carried that the 15th. reunion be held at South Mountain Fair Ground Park, July 26, 1939.

The statistician then gave her report as follows: The last member of the John Bushey family was called to the great reunion Feb. 13, 1938, when P. Rebecca Bushey-Hess answered roll call to come up higher. She passed away at the home of her daughter, Mary Ann Hess-Crum, Lisbon, Md., and was buried in the family lot in Frederick. She was aged 88 years, 1 month and 8 days, having attained the greatest age of any member of either family.

On January 16, 1938, A. Sexton Holmes, Creswell, North Carolina, was called to rest. He was the husband of Josephine Evans, who is a great-grand-daughter of Abram N. Hess.

Marriages—May 18, 1938, Ruth Elizabeth Wampler became the bride of Carroll Valentine. The service was held in the Messiah Lutheran Church, near Berrett, Md. The officiating clergyman was her pastor, Rev. Karl Mumford, assisted by Rev. John Hess Belt. Ruth is a great-grand-daughter of John Bushey.

Daniel Bushey Naill was married to Margaret Basehor, June 7, 1938, in St. Paul's Lutheran Church, Littlestown, by the pastor Rev. D. S. Kammerer. Daniel is a great-grand son of John Bushey.

Births—Dorothy Elizabeth Bushey was born Dec. 25, 1937. She is a daughter of Jack and Marian Bushey. A great-great-granddaughter of John Bushey. (A grand daughter of our John S. Bushey.)

On Jan. 8, 1938, a daughter was born to Thomas and Jane Long Bollinger. Jane is a great-grand-daughter of Abram N. Hess.

Elsa Marie Crum was born January 28, 1938, at Cooksville, Md. She is the daughter of Fred and Elsa Crum and comes in on both the Hess and Bushey lines, being a great-great-grand child of Samuel Hess also of John Bushey.

On March 9, 1938, Elizabeth Ann Strevig was born at St. Thomas, Pa. She is the daughter of Rev. John and Sarah Ogden Strevig. A great-great-granddaughter of Samuel Hess.

On March 10, 1938, Jeanne Carol Lajoie, daughter of Jack and Margaret Sherard Lajoie was born at Annapolis, Md. This young lady marks the sixth generation of the heads of these two families. Therefore she is a great-great-great-grand daughter of both Samuel Hess and John Bushey. Graduations—Eugene J. Naill, son of Mr. and Mrs. Wm. B. Naill, graduated June 1, 1938, from Bliss Electric School, Washington, D. C.

Ellen Hope Hess, daughter of Mr. and Mrs. Carroll C. Hess, graduated June 1938, from Western Maryland College.

Maxine Roberta Hess, daughter of Mr. and Mrs. Wilbert Hess, graduated from the Taneytown High School June 1938.

Greetings were received from many of those who could not be present with us.

Piano solo, Charles Conover. Solo, "The Hills of Home" Miss Hazel Hess. Reading, "Why I was Late," Miss Mabert Brower. The President presented gifts with an explanation to the couple who had been married the longest, Mr. and Mrs. Martin D. Hess who had been married 45 years were the winners. To the most recently married, Mr. and Mrs. Daniel Naill who were married June 7, 1938. The heaviest man, Dr. Wm. S. Hess. The smallest woman Mrs. Ethel Buckingham Wilson.

Dr. William S. Hess then gave a talk on "Families Past and Present." Solo, "The Old Refrain," Miss Hazel Hess. The report of the nominating committee was accepted and the following persons were elected to serve one year: President, Harry Bushey, Mt. Airy, Md.; Vice-President, Wilbert Hess, Taneytown; Secretary, Ella Mae Hess Slagle Woodbine; Treasurer, Elmer S. Hess, Taneytown; Statistician, Effie Hess Belt, Westminster. The retiring president expressed his appreciation of the co-operation he had received. All sang, "Blest Be the Tie that Binds," and Rev. Belt pronounced the benediction.

The families were represented as follows: Sara Bushey-Naill, 48; H. David Hess, 35; C. M. and E. Bushey-Hess, 28; Carrie Hess-Mehring, 20; S. F. and P. R. Hess-Bushey, 19; George W. Hess senior member of the families still living 14; L. M. Bushey, 10; Rev. John H. Hess, 3. The Harrisburg Busheys 7, and visitors 12.

While the older folks were holding their meeting Mildred Baumgardner and Ellen Hope Hess entertained the children with contests and games. The names and those who won follow: Cracker eating contest, Robert Mayers, Horace and Geraldine Waybright. Marshmallow, Donald Hess and Lois Waybright. Bead carrying contest, George Null, Paul Devilbiss. Running relay, the winning side was Ruth Hess, Lois Waybright, Roger Devilbiss, Paul Devilbiss and Ann Englar. Guessing game, Helen Wampler. Hop or foot relay, Horace and Geraldine Waybright, George Null, Betty Hess and Doris Plunkert. Hop race, Roger and Paul Devilbiss. Peanut scramble, Dorothy Alexander.

All had a very happy time. Mr. and Mrs. Stanley C. Reaver, of Taneytown were present. Mr. Reaver is a great nephew of Samuel Hess.

CARD OF THANKS.

I wish to thank my many friends for the cards, letters, fruit, flowers, and visits while a patient in the Hanover Hospital.

MRS. HARRY ANDERS.

Find Knife Lost 32 Years

Hinsdale, Mont.—Oscar Carlson, retired farmer, lost a good pocket knife while threshing wheat 32 years ago on the prairie land near Williston. The knife was returned to Carlson recently by a farmer neighbor who found it.

Coffin Factory Looted

Montreal.—A premonition of death must have directed thieves to an address on St. German street. The address is a coffin factory and the loot consisted of three \$125 coffins.

AMERICAN GROWN-UPS DEBT TO COMING PAYERS.

New York—America's grown-ups are setting aside for America's school children to pay in the future, a neat one-fifth of governmental expenditures.

A survey by the National Industrial Conference Board shows that almost \$21,888,000,000 has been added since 1929 to the public debt (Federal, State and local) against pay envelopes of future generations.

This means, according to statisticians, that the public debt in 1929 represented \$277.23 for every man, woman and child in the country. Today, however, if the Federal, State and local governments called upon each of its people for his and her share of the debt, each would have to dig down for \$429.99.

Of the total public debt increase of \$21,888,000,000 the Federal Government piled up almost \$19,496,000,000 the states and local governments the remainder.

From the figures it appears that the federal government has been able, notwithstanding the desperate search for new revenue sources, to dig up only sixty cents for every dollar that was spent from the middle of 1929 to the middle of 1936.

The other forty cents was made into federal debt, drawing on the average a little over 2 1/2 per cent a year.

It also appears from the figures that the States managed to raise eighty cents out of every dollar that they spent, while the cities, counties, towns and villages raised only seventy-four cents of every dollar that they spent.

Meanwhile in Washington some observers estimate the deficit of the Federal Government for the fiscal year which began July 1 will be \$5,000,000,000—the largest figure in history—and will push the national debt well over the \$40,000,000,000 mark.—Industrial Press Service.

NO FIGHT OF HIS

Counsel was cross-examining a witness: "You say you saw the shots fired?"

"Yes, sir."

"How near were you to the scene of the affray?"

"When the first shot was fired I was about ten feet from the shooter."

"Ten feet? Well, now tell the court where you were when the second shot was fired."

"I didn't measure the distance."

"Approximately, how far would you say?"

"Well, I should think it would be about half a mile."—Stray stories Magazine.

DIED.

Obituaries, poetry and resolutions, charged for at the rate of five cents per line. The regular death notices published free.

FRANKLIN G. SMITH.

Franklin G. Smith, a son of the late Henry and Elizabeth Smith, died on Thursday evening, July 21, at the University Hospital, Baltimore. He resided at the home of his brother, Herbert D. Smith, Taneytown.

He had formerly been employed in a rubber plant at Akron, Ohio, for thirty years, retiring three years ago and coming to Taneytown. He was 62 years of age and was unmarried.

He was removed to the hospital Wednesday and underwent an operation.

He is survived by his brother, Herbert D. Smith, two sisters, Miss Laura Smith, Taneytown, and Mrs. J. Harvey Stoniesfer, Hanover.

Funeral services were held from the home of his brother, Monday, Rev. A. T. Sutcliffe, pastor of Taneytown Lutheran Church, officiated; burial was in the Lutheran cemetery.

WILLIAM G. SOWERS.

William G. Sowers, farmer, living north of Taneytown, died last Monday morning, after a serious illness of a few days. In addition to farming, Mr. Sowers was a well known broom-maker. His age was 69 years.

He is survived by his widow, and three children, Mary Catherine Sowers, Hanover; Mrs. Samuel Rimanan and John W. Sowers, near Taneytown, and three grand-children, Treva A. and Mildred Rimanan, and Catherine E. Sowers.

Funeral services were held at the home and in Trinity Lutheran Church, on Thursday morning, in charge of Rev. A. T. Sutcliffe. Burial was in the Lutheran cemetery.

TRIBUTE OF RESPECT.

Resolutions of Respect adopted by Taney Lodge No. 28, I. O. O. F., of Taneytown.

Whereas, An All-Wise Providence has removed from the circle of our membership, Brother O. EDWARD DODRER, and we deem it fitting to make a permanent record of our deceased Brother, therefore be it

Resolved, That we record our appreciation of the character and spirit of fraternity manifested by our Brother O. Edward Dodrer, deceased, that we give expression to our sorrow and sense of loss in his passing away, and that we extend to the bereaved family our sincere sympathy with them in their great loss.

Resolved, That our charter be draped in his memory, shall remind us of our own frailty, and admonish us to make the most and the best of the days allotted to us.

Resolved, That these resolutions be published in the Carroll Record, a copy be incorporated in the minutes of this meeting and a copy sent to the family of our deceased Brother.

Clyde L. Hesson, Norman S. Devilbiss, M. Ross Fair, Committee.

CARD OF THANKS.

We wish to thank the neighbors and friends for the many kindnesses shown us during the sickness and following the death of our brother, Franklin G. Smith.

HERBERT SMITH AND FAMILY.

CARD OF THANKS.

We hereby express our sincerest thanks to all friends and neighbors for their kindness and assistance during the illness and death of our husband and father.

MRS. WILLIAM SOWERS & FAMILY.

RARE COLORS PUT INTO GLASS BY SUN

Dealer in Antiques Hopes to Build New Industry.

Imperial, Calif.—As the result of his having picked up a piece of broken glass one day in the Mojave desert, A. J. Clark, dealer in antiques and bric-a-brac, hopes to build a new American industry.

It will be the manufacture of costume jewelry and fancy glassware from glass that has been changed in color by the sun, sometimes over a period of 35 to 40 years.

Clark came to the Imperial valley four years ago from Oceanside. Fond of hunting and tramping, he and his wife spent long days walking over the desert near here.

One day Clark noticed a piece of glassware lying on the desert. It had

Nibbler of Carrots

Snitches Nibbles

Astoria, Ore.—A conscience-stricken vegetarian sent \$1 to the manager of a store here for edibles he "snitched." In the same letter he explained:

"I have had many chances to nibble a few grapes, a stray carrot, or a prune that was near the edge of a box of produce consigned to your company while working for a Portland transport company."

Tiger Runs Wild; Midget in Circus Slaps It Down

New York.—A tigress ran wild at the matinee of Ringling Brothers-Barnum and Bailey circus in Madison Square Garden. A midget finally smacked her on the nose and she was captured after several circus employees had been injured.

The 200 pound animal, Lady, escaped when Franz Wanka, menagerie boss, dropped her leash as she was being led from the arena after she had paraded in the opening procession. The Bengal tigress bounded down a long runway, scaring camels and horses. Several horses threw and kicked their grooms.

Turned back in the passage by the shouts of attendants, Lady ran under a tier of seats, out of sight of the audience. She started toward the arena, but was diverted in the direction of a group of clowns made up as Snow White's Seven Dwarfs. One of the clowns, three feet high, struck the tigress with a stick. She backed into a corner, scared and snarling, and at that moment an animal trainer seized her leash.

Barber Still Declares Cat Digs Worms for Him

Kankakee, Ill.—Barber John Savage spread the lather on a customer's face and started the 1938 "fish story" season off where it should begin—with the worms.

"I got a big black cat named Joe Louis," Savage said. "You know I do a lot of fishing. But ever since I had that cat I never have to worry about bait."

"That cat just naturally likes worms. He goes out into the yard—especially nights after rains—and digs 'em up. And that's not all. That cat brings those worms in and lays them right at my feet. One night last week he brought me 17."

TWO-THIRDS SWEEP TICKETS ARE FAKE

Distributor Exposes How Americans Are Cheated.

New York.—Two out of every three Irish Sweepstakes tickets sold in the United States are counterfeit, which raises the "normal" odds against winning a major prize from 1,000,000 to 1 up to 3,000,000 to 1, according to an expose of the "racket" written by one of the American distributors, who remains anonymous because he says, "it's not too easy to find a \$15,000 a year job these days with the boss 4,000 miles away."

The expose, published in Collier's, also reveals that if the buyer is fortunate enough to get a genuine ticket, still only 75 cents out of his \$2.50 ever gets into the winners' pool. The other \$1.75 goes into commissions for salesmen, distributors and wholesalers, bribes connected with smuggling, payment of handsome salaries to executives, "operating expenses" and finally the Irish Hospitals Trust Ltd.

Writing under the pseudonym of "Fred McDonald" the author of the article states that in addition to the numerous American distributors who average \$15,000 a year, there are five wholesalers in this country who average \$150,000 each.

Americans Are Easy.

"The greatest boon to my business," he says, "is that the average buyer of a Sweep ticket has little curiosity and apparently no resentment about the way his \$2.50 is treated after he surrenders it. And if you don't think this is eccentric you should consider that Americans buy \$100,000,000 worth of Irish Sweep tickets every year."

"Provided of course your ticket is the real thing (and remember the odds are 2 to 1 against that) the man who sells it to you takes a commission of 42 cents. In time the distributor who supplies the agent with the ticket gets 21 cents, and the wholesaler who supplies the distributor gets another 21 cents, reducing your \$2.50 to \$1.66. About 50 more cents are taken out at the Dublin office for "expenses," a word that covers a multitude of abuses.

"Out of the remaining dollar, give or take a few cents, now comes the 25 per cent cut given to the 52 beneficiary Irish hospitals, a flood of quarters that through the years has amounted to \$57,500,000. So by the time your \$2.50 is ready to go into the winners' pool it has shriveled to about 75 cents. And there it remains, to suffer no more shrinkage until the governments of the world, notably ours, begin to demand their tax cuts from the winners."

Clever Imitators.

McDonald states that if a ticket is genuine it was printed in Ireland and stitched to a cover that is watermarked "Swift Brook Ltd. Irish Paper \$1,000 reward conviction imitators." Counterfeiters (who print and deliver receipts as well as tickets) have even duplicated that watermark, he says, but adds that "the real McCoy" will stand boiling in three parts water and one part common household soda, where the counterfeit watermark won't.

"It isn't the occasional thief who bothers the trust," according to McDonald, "it's the double menace of the United States government and a series of adept counterfeiters. Confiscating government men and counterfeiters cost the Irish Sweepstakes about a quarter of a billion dollars in paper profits each year."

"Policing, publicizing and promoting the Sweep cost the operators fantastic sums of money, but since it is not their own they are fearless with it. The spies, muscle men and messengers within the United States are on straight salaries and good ones. Millions, of course, are paid in commissions, and uncounted thousands in graft go mostly to ship owners or officers who aid in smuggling tickets. Then there is the terrific overhead in Dublin with thousands of clerks, tremendous cable tolls, and the cost of printing 90,000,000 books of tickets and receipt blanks a year."

Starch and Sugar Held as Worst Foes of Teeth

Ann Arbor, Mich.—Experiments show that tooth decay can practically be eliminated if people will forego eating sugars and highly fermentable starches, according to Dr. Russell W. Bunting, dean of the University of Michigan school of dentistry.

Soft and imperfect teeth can be kept as free from decay as hard or perfect ones, he said, if they are protected from acids produced by bacilli nurtured on free sugars and starches. He said that in an experiment 300 children fed no sugars were found practically free of tooth decay although their diets also were low in vitamins, calories, calcium and phosphorus, lack of which have at one time or another been held responsible for tooth decay.

School on Train Carries Learning to Australians

Sydney.—Technical training is to be made available throughout New South Wales by the use of a technical college installed in a train that can move about the entire state. It will have facilities for teaching motor mechanics, farm engineering, electrical engineering, Diesel engine mechanics and cinema production.

Australian Cowboys Are "Drovers" or "Jackeroos"

Australia has its cowboys, too, although "down under" they call 'em "drovers" "boundary riders" and "jackeroos." And instead of ranches they have "stations" often thousands of acres. There are stations covering 10,000 square miles according to a writer in the Detroit News.

The cattlemen of Australia are tall, bronzed, sinewy and hardbiten. They do not wear the chaps of the Texas cow-puncher but in recent years some have taken to the "ten-gallon" hat, which is useful in the burning sunlight of the cattle lands.

But if not as picturesque as the American cowboys, they are fearless riders and skilled cattle drafters. They know the lore of the bush, find their way by instinct through the uncharted areas that go to the making of a big station, and on occasion travel great distances with only the sun and the stars to guide them.

The "drover" is a driver of cattle, and sometimes he is on the roads for months at a time taking a "mob" of "stores" or partially fattened animals from the "back o' beyond"—the "Never-Never Land" of Australia—to fattening paddocks near the big city markets. The boundary rider's job is to ride the boundary fences and keep them in repair. The "jackeroo" usually is a young man from the city, a "dude," seeking experience and knowledge of cattle-raising so that in later years he may become a land owner.

Australia has thousands of cattle and exports some 200,000,000 pounds of beef yearly.

Badger Sets Example in Cleanliness and Health

Human beings are less "health-minded" than any other branch of animal life. Wild animals instinctively do what is right for the preservation of their health. Humans not only have to be taught, painfully and laboriously, to seek fresh air, exercise, clean food and adequate rest—but they actually create an environment inimical to health, asserts a writer in Pearson's London Weekly.

A striking instance of how the lower animals can set us—the higher form of animal life—an excellent example in domestic hygiene is provided by the badger. His burrowing and excavation is muddy work, but he takes care not to carry soil into his home. He wipes all four feet energetically on the "doormat" before he enters.

He springs cleans regularly, replaces his bed by replacing used bracken and grass with fresh supplies, and is a skilled plumber. He actually makes ingenious sinks for storing remnants of food.

Humans can't teach him much about cleaning and hygiene—but they might learn from him.

Tea Defined

Tea is defined as the name given to the leaves of the tea bush prepared as a beverage. The term is by analogy also used for an infusion or concoction of other leaves, such as camomile tea, and similarly for the afternoon meal at which tea is served. The name comes from the Amoy dialect "te." The Chinese word for tea is "cha." According to Chinese legend, the virtues of tea were discovered by the Emperor Shenning in 2737 B. C. Knowledge of its use spread slowly over the Orient and the British were the first to introduce it to the Western world in the Seventeenth century. Some persons may believe that the use of tea in America ceased with the giving of the Boston Tea Party in 1773. At that time a group of colonists disguised as Indians boarded three ships loaded with tea which were lying in Boston harbor and threw the tea overboard. Actually, this was not an American protest against tea as a beverage, but against the tax imposed on tea by the British government.

Witchcraft Is Old, but Evil Attracts Attention

The notion that some people have the power to work an oppressive or even destructive influence upon others by the power of incantation or reliance upon some fanciful alchemy is as old as recorded history. It has been encouraged at times into a system of knowledge and employed by the crafty and mendacious to prey upon the ignorance of the people. At times it has been devoted to crusades against religion and spread so widely that masses of people have been cast into frenzies by the fear of witches. In Germany more than 100,000 people were executed as witches in one year, and even in the American colonies death sentences for witchcraft were executed.

The obvious protection against witchcraft is education, asserts a writer in the Indianapolis News, but when the belief fastens itself upon credulous people, the law must deal with the fact of their belief, not its causes. Defense under the law usually takes the form of suits for damages or criminal action to protect the good name of persons whose standing is injured by the effect of loose accusations of witchcraft, but despite all that can be done, the evil erupts at times and attracts the attention of people who have not forgotten the literature and lore of their childhood.

DENVER YOUTH HAS REVERSED ORGANS

All on Wrong Side, but He's Well and Cheerful.

Denver, Colo.—Although every vital organ in his body is on the opposite side from nature's original design, Nile Russell Root, eleven years old, doesn't expect it to deter him in carving out a career for himself in the art field.

The youth's heart, lungs, liver, spleen, appendix, colon and other viscera are in exactly the opposite position from the normal structure, but his art efforts will be made with his right hand.

Russell is an excellent specimen of modern youth. He is head boy of his class, healthy and perfectly normal in his play and study. His widest divergence, outwardly, from his mates is his zest for drawing pictures.

He parries questions regarding whether he worries because his order of arrangement is reversed, with this quotation from the Scriptures:

"A wise man's heart is at his right hand, but a fool's heart is at his left."

The youth is more excited over the possibility of rising in the world of art through his drawing than the fact that the "ouch" signal, if he has appendicitis, will come on the left instead of the right.

He has confidence in his ability. "Somehow or other I'm going to go on with my art," he said.

"I love to look at things—especially beautiful people, and then when I get the feel of them I like to make a picture."

It was nine years ago that the discovery of the youth's strange internal arrangement was made. His mother became disturbed by a persistent cough and took him to a hospital for observation. X-ray photographs were taken and an unprecedented wave of excitement swept through the hospital as attendants rushed to view the phenomenon of a complete transposition of the vital organs and the circulatory system.

"What's the difference how I'm built inside?" the youth says.

"Because most folk are made the other way around is no sign the fellow who isn't has something strange about him. Anyway, what counts is what's up here."

The knowing look as he taps his head removes any worry about his reversed condition hampering his progress in a world of individuals, with organs in normal pattern.

ALL ON THE PROGRAM

Mrs. Gabb—I'd like to know who's to be the speaker at the women's meeting tonight.

Mr. Gabb—Do you think there'll be any present who won't speak?

Find Pin Lost in Battle

Atherton, Calif.—A Phi Beta Kappa pin has just been returned to Holbrook Romney after lying on the battlefield of Verdun in France for 20 years. The pin was found by George W. Hartzell of Philadelphia, who was able from the inscription on the back to return it to the owner.

WATERMELONS, 39c each
SUGAR, 10c lbs. 46c

BLAST LEVELS DOG, BLIND PAIR'S EYES

Grief of Sightless Couple Is Heartrending.

Des Moines, Iowa.—A bride and groom of 16 months, tears in their sightless eyes, knelt in prayer recently over the shot riddled body of a fox terrier that was fighting for life. Mr. and Mrs. William Wurts, both 25 years old and blind. The dog, Pepper, is their guide. The Wurts, both graduates of the Iowa School for the Blind at Vinton, Iowa, where they became sweethearts, took Pepper into their home when he was a puppy.

Tender words had taught Pepper to lead them back and forth to the neighborhood grocery. When a stranger appeared at the Wurts' modest four-room cottage, he barked a friendly warning.

At noon the other day the Wurts were listening to a radio program. There was a blast from a shotgun. A moment later Pepper dragged himself in agony to the front door.

Mr. and Mrs. Wurts make their meager living selling dog mats they learned to weave from rope while at school.

There was no money in the house. To have a veterinarian dress jagged wounds in Pepper's back meant that more dog mats must be sold.

With deft hands, the Wurts placed the dog on a white pillow behind the living room stove. Mr. Wurts set out to try to sell dog mats. Mrs. Wurts watched over Pepper and the Wurts child, Barbara Willene, six months old.

Wurts returned at nightfall. He had not made a sale. Pepper was growing weaker from loss of blood.

Meanwhile, police searched the neighborhood. They couldn't find a clue to who fired the shotgun. Pepper had never been in trouble in the neighborhood, his owners said.

When a caller visited the Wurts home at 5:30 p. m., he suggested that an appeal to the conductor of a dog column in a Des Moines newspaper be made.

Pepper was removed to an animal hospital.

Dr. F. F. Parker, operator of a pet hospital, and two assistants, operated on Pepper. Their services were donated. They said Pepper had a good chance to recover.

"I hope the dog will be spared us," wept Mrs. Wurts. "To be without him would be like being a ship without a rudder."

Cock Pheasant, Shot Once, Profiting by Experience

Clawson, Mich.—Having found that hunters play too rough and that they play for keeps, Peg, one-legged cock pheasant known to hundreds in Clawson, just refuses to play any more.

"Peg is just proof of my contention that the pheasant is smarter than any bird and most of the animals," Chief of Police Leslie P. Straub, who has been feeding pheasants twice a day for 18 years, will tell you.

"About four years ago he was shot in the hunting season and lost a leg. Ever since, that bird hasn't got far away from the village limits. Shooting isn't allowed inside the village and dogs, cats and hunters are excluded.

"During the hunting season Peg never ventures away from that area. But what proves the smartness of these birds is that each year just before the hunting season opens, they flock by the scores to this protected space and many even take refuge in back yards."

OFFICIAL DIRECTORY OF CARROLL COUNTY

THE CIRCUIT COURT
CHIEF JUDGE.
 Francis Neal Parke, Westminster.
ASSOCIATED JUDGES.
 William H. Forsythe, Ellicott City.
 Linwood L. Clark, Baltimore.

CLERK OF COURT.
 Levi D. Maus, Sr.

*No Window Service or Rural Carriers on Legal Holidays

Holidays for Rural Carriers are, New Year's Day; Washington's birthday; Memorial Day, May 30; July 4; Labor Day, 1st Monday in Sept.; Thanksgiving Day, and Christmas. When a holiday falls on Sunday, the following Monday is observed.

Devil's Punchbowl, Other

Things Named for Satan

The Devil's Punchbowl at Hindhead, in Surrey, is known to thousands of visitors, says a writer in London Answers Magazine. But there are actually three Devil's Punchbowls in these islands—one being in the Scillies and the other near Killarney.

As a matter of fact, the Wicked Old Gentleman whom we call the Devil has given his name to all kinds of places in Britain.

There is the Devil's Dyke near Brighton the Devil's Staircase at Glencoe the Devil's Chimney near Cheltenham.

You will find the Devil's Frying Pan at Cadgwith, his Spoon at Petersfield, his Bellows at Kynance Cove, in Cornwall, and his Kitchen at Llyn Idwall, in Wales.

On Studland Moor, in Dorsetshire, is a large boulder known as the Agglestone, or Haggerstone, about which a satanic tradition is woven. It seems that Old Satan was carrying it to drop on Salisbury cathedral, but it proved to be too heavy for him and he dropped it where it now rests.

A somewhat similar legend is woven about a big block of stone on a moor not far from Richmond, Yorkshire, while an immense pile of rock in Upper Wharfedale is known as the Devil's Apronful.

Actually, these boulders and rocks were deposited where they lie by glacial action during the Ice age.

"Madonna of the Trail,"

Honors Pioneer Mothers

In 1927 it was announced that the Daughters of the American Revolution were making preparations for the erection in each state, along the Old Trails route from Baltimore to the Pacific coast, a "memorial to pioneer mothers of the covered wagon days."

The statues called "The Madonna of the Trail," were provided by the National Old Trails association and depict the figure of a pioneer woman with a gun, a child in her arms and another clinging to her skirts. The figure is ten feet high and weighs five tons. The base on which it stands is six feet high and weighs twelve tons. The foundation on which the monument stands is nine feet square and two feet above ground which makes the monument 18 feet above the ground. The front of the base has the following inscription directly under the monument:

The Madonna of the Trail. N. S. D. A. R. Memorial to the Pioneer Mother of the Covered Wagon Days. On the back of the base are the words: The National Old Trails Road. On each of the two sides are 25 words of historical data.

The monument is the work of A. Leimbach. There are several such monuments in different states.

Eric the Red

Like his father, Eric the Red, famed Norse colonizer of Greenland, Leif Ericson, was an explorer and was the first known European to discover "Vinland," or "Vineland" in North America, observes a writer in the Washington Star. In 1000 A. D. long before Christopher Columbus was born Leif, with 35 men and a small ship, sailed from Greenland to the west, and after many days of exposure sighted land. Going ashore, Leif called this new land "Vinland" or "Vineland" because of the abundance of grapes and fruit found growing and spent the winter there. Some historians believe that his party landed in Nova Scotia and came as far as the New England coast. Unfortunately the Norsemen left no evidence of building forts or settlements. The facts regarding the voyage however are recorded in the Norse sagas which are widely accepted as being trustworthy.

American Indians Not Nomadic

The American Indians were not nomadic in the sense that they roamed about without a regular home. According to the United States Bureau of American Ethnology, every tribe and every congeries of tribes, with but few exceptions, laid claim to and dwelt within the limits of a certain tract or region, the boundaries of which were handed down by tradition and not ordinarily relinquished save to a superior force.

Bible Land

According to the Ordnance map of Britain, there are six Jerichos, five Parades, four Egypts, and four Edens. Nineveh and Mounts Zion, Ararat, and Ephraim occur three times each. Calvary is in Bedfordshire, Jordan Hill in Dorset, and Job's Hill in Durham. There is a Land of Nod in Hants, Moab's Washpot in Worcester, and Noah's Ark in Kent. To crown all, there is a Jerusalem, Bethlehem, Gideon, Gebron, Joppa, Herod, Babel, and Golgotha.

Lincoln Saying

Abraham Lincoln once said: "If I were to try to read, much less answer, all the attacks made upon me this shop might as well be closed for any other business. I do the very best I know how—the very best I can; and I mean to keep doing so until the end. If the end brings me out all right, what is said against me won't amount to anything. If the end brings me out wrong, 10 angels swearing that I was right, could make no difference."

Advertising

is like "Going Fishing"—sometimes you "catch 'em"—sometimes you don't.

There is a Right Time

in both cases. All depends on what you want to catch, and the bait you use.

RIGHT NOW, the wise fisherman who has a farm, or home, to sell, with pos-

session given next Spring—

Should Go Fishing

during July and August. This will give the present owner, as well as the

prospective buyer, time to make ready for the change.

Town Lot and Property

owners, should also make known what they have to offer.

Try The Carroll Record

for a few weeks, and then in case of no satisfactory result, Private Sale can

be advertised, later.

This is good advice, based on long experience! Try it out in your case.

Perhaps somebody wants just what you want to sell.

All Indians Could Talk

by Aid of Sign Language

No one knows how old the sign language is, according to an authority quoted in the Chicago Daily News. It became known to the fur hunters who first met the Indians of the great treeless area of the western prairies and, in time, they found that only the plains Indians used it. On these wide open stretches many tribes were constantly shifting about hunting the buffalo. These buffalo hunters developed a system of gestures which was used for communication.

"Indians who could talk only the language of their respective tribes were able to communicate with each other by means of the sign language. I have squatted in an intertribal council with Sioux, Blackfeet, Cheyenne, Shoshoni, Arapaho, Kiowa and other tribes represented. None could understand the spoken words of the other tribes, but all understood every sign.

"Every movement of an arm, hand or finger in this sign language is founded on some basic characteristic. For example, a white man wore a hat; the first Indians to see this just naturally concluded that all white men wore this queer headpiece. So they indicated 'white man' by drawing the index finger across the forehead. A man is an animal who stands erect; hence the sign for 'man' in general is the up-lifted hand, with the index finger extended upward. A woman has long hair; hence the sign for 'woman' is a sweeping downward movement of the hand at the side of the head as though combing the hair.

"A straight tongue tells the truth; so the forward pointing of an extended index finger means 'truth,' while the same motion, with two fingers separated, is 'split tongue' lie. Each tribe has its sign; the Pawnee is the 'wolf' tribe; its sign is two fingers, wide apart, pointing upward at the side of the head to represent the standing ears of a wolf.

"Sleeping' is indicated by inclining the head to one side and resting on the open palm. As days, or rather nights, are counted by 'sleeps,' the same sign may mean a 'day.' In the same way 'cold' is indicated by a shivering motion of the clenched fists, and Indians count 'years' by 'winters' of 'cold' seasons, so this same sign may mean a year."

Chair in Synagogue Is

Prepared, but Not Used

In the synagogue of the Sephardim Jews in Jerusalem is a little place of prayer, with lights always burning, where the visitor sees a big chair draped and prepared but never occupied, observes a writer in the Montreal Herald.

The story is told that four centuries ago, when there were few Jews in the city, only nine could be found for worship. The number was not enough, for by Jewish custom there must be ten to make a congregation.

This is based on God's promise to Abraham to spare Sodom if not less than ten righteous men were found in it.

Suddenly a stranger entered and took a place in the congregation. The service then proceeded, but at its conclusion the mysterious stranger could no longer be seen. He could have been no other than Elijah, men said, and from that day to this his place is ready in case he comes again.

Forty Days in the Bible

In Biblical literature the symbolical or sacred numbers are 3, 4, 7, 10, 12, 40 and 70 and their multiples. Forty, the multiple of 4 and 10, naturally follows the significance of its components. Forty plays an important part in the chronology of the period of Judges and perhaps of the early monarchy. It is evidently used as a unit equivalent to a generation. The duration of the wandering in the wilderness and the three periods of life of Moses are also reckoned as 40 each. The number four, one of its multiples, early became a symbol of completeness. The number 10, as the highest of the series of units and as the basis of the whole decimal system, is vested with sacredness.

How Rayon Is Made

Rayon is made from either cotton linters or wood pulp. The raw material is treated with acids or other chemicals to make it soluble. It is then dissolved in alcohol and ether, or other suitable solvents and after purification is forced through very small openings, from which it emerges as fine threads. These become solidified by evaporation of the volatile solvents or by passage through a setting bath. There are four principal processes in use, but this is a generalized description. All of them are derived from the process devised and patented by a French scientist, Count Hilaire Chardonnet, about the year 1889.

Trees Thousands of Years Old

The oldest of the sequoias on the western slope of the Sierra Nevada are said to date back 3,000 or 4,000 years. Compared with these Methuselahs of the vegetable kingdom, oaks are shortlived, but several of the more than 300 species of oaks live to be hundreds of years old and attain great size. The great oak of Gloucestershire, England, for example, developed a girth of 47½ feet five feet above the ground.

Moment Musicale

By ADELE THANE
 © Wheeler Syndicate, Inc.
 WNU Service.

HE WAS clothed in a threadbare suit of black linen, rusted with age and creased with promiscuous sleeping. The sickly light flickering through the dust-filmed globe of a gas street lamp made moving bluish circles upon his broad, bent shoulders and the worn brim of his felt hat. He pushed forward a soiled left hand.

"Two bits, miss; jus' two bits," he whined.

I stared at that cracked, palsied hand and down at the other hanging by his side with a terrible stillness, and wondered about them. They were not proletarian hands, stunted with sin, flabby with excess, wizened with rapacity. They had not been created to pander and beg. They were meant for finer, bigger things: the chisel, the brush, the baton.

"Al' miss I am poor—poor." Then in a wheedling tone, "Jus' two bits."

I reached for my pocketbook. "What will you do with it?" speaking aloud a subconscious thought.

My eyes followed the shaken extended forefinger down the narrow alley to the dim end where it rose to meet the accentuated brilliancy of a myriad electric lights.

"But that is the Opera house!" I cried in astonishment.

"Yes. I go to hear—him!" The thin arm lifted slightly upward.

Clean-cut against the night sky, in titanic letters seemingly writ with fire, a name glowed steadily for a moment, burned out, then flamed with a brighter vehemence, only to die again.

I sucked in my breath. "Malte-Brun!" So swiftly did I turn, the old man fell back a pace.

"Wait!" I called. I clutched at the arm nearest to me. It was chill . . . lifeless . . . paralyzed. I fumbled in my purse. "Here! Take it! No don't thank me. I'm going with you."

All the music lovers of the city had gathered in the colossal auditorium to listen to those consummate symphonies which the fingers of only Malte-Brun could entice from the soul of the piano, and when the tall, gaunt maestro stepped out upon the stage, they gave him tumultuous welcome.

I was aware of the old man hitching forward eagerly as the maestro seated himself before the keyboard. The sudden quiet was cloven by the majestic opening chords of Grieg's "Norwegian Bridal Procession," and into the misshapen face, fixed so intently on the distant hoary-haired musician, came a look of infinite calm, altering and making of it the face of a thirsty child whose parched lips have at last tasted the soothing cool of spring water.

Throughout the recital he sat thus, until the final number, a brief composition by a Conrad Rabbek, called "Disillusion." Then he stiffened. That was all.

I shall never forget Malte-Brun's rendition of that weird selection. The agony and grief of humanity since creation was packed into those limited measures, the sobbing of strong men, the screams of mad men, the curses of Goddess men, and the prayers of dying men. I was like some one dead when it ended. Speech froze in my throat.

Outside the snow was falling with that undisturbed, feather-like tranquility which emanates an imaginary warmth. I threw back my head and let the downy flakes brush my throbbing temples.

Fingers plucked at my sleeve, long fingers, tapering and sensitive. I started guiltily. I had forgotten my companion.

"Now I go," he murmured in a husky voice.

"That last piece . . . it was—" I choked.

"You liked it, miss?"

"Did not you?"

He made no reply, but dropped his wrinkled lids over his pale blue eyes, mechanically smoothing his breastpocket.

Finally he spoke. "I—I'd like to give you somethin', miss," he faltered, "somethin' for t'night. It's no good to me no more. Once—I thought—"

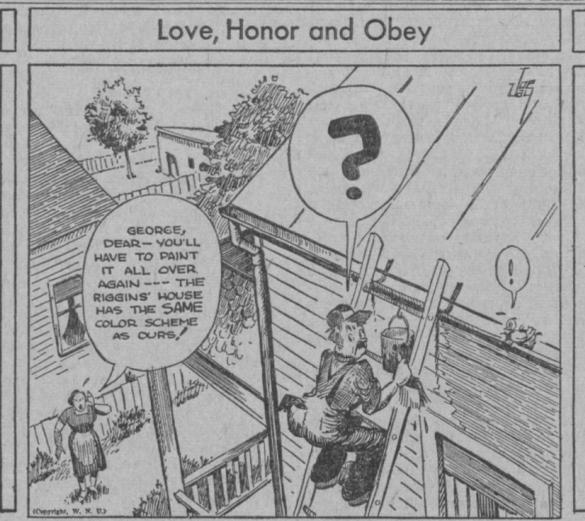

He glanced over his twisted shoulder into the foyer of the Opera house. It was dark now. He swallowed noisily.

"Funny," he went on, "the dreams y' dream when you're young. You know." He commenced to shout hoarsely. "But don't let them git you, miss,—DON'T-LET-THEM-GIT-YOU." He straightened. "Ah . . . forgive . . . I forget . . . Here, miss. Take it, with the blessing of God and a beggar . . . Goodnight."

And he was gone, the snow weaving a sibilant white curtain about him and blurring with a motherly tenderness the ugly outline of his warped form.

I hastened to the window of a pharmacy and unfolded the grimy manila wrappings of a package in my hand. The light streamed out upon a yellowed sheaf of lined manuscript paper.

It was the original score of "Disillusion."

Lesson for July 31

SAMSON: STRENGTH AND WEAKNESS

LESSON TEXT—Judges 14:5, 6; 15:11-14; 16:15-21.
GOLDEN TEXT—Be strong in the Lord, and in the power of his might.—Ephesians 6:10.
PRIMARY TOPIC—A Man Who Wasted His Strength.
JUNIOR TOPIC—How Strong Was Samson?
INTERMEDIATE AND SENIOR TOPIC—Who Is Strong?
YOUNG PEOPLE AND ADULT TOPIC—Physical Strength and Moral Weakness.

There is no more tragic individual among the sons of men than the one who entered upon life with every promise of success, who has lived for a time in favor with God and with man, and then because of moral failure is set aside by God, shunned by man, and ends life as a disappointment and a failure. "And yet such disastrous climaxes of what should have been great and victorious careers lie all about us, and nowhere with such frequency and inexcusable as among those whom God has called to preach, evangelize, and teach His Word. The saddest tragedy in all the world is a man who once knew the power of the Holy Spirit and who now walks the streets of some great city or is buried in the cottage of an unknown countryside, without power, without work, without joy, without the leading of the Lord. He knows a weariness that labor never gives, for he awakens every morning more tired and weary than when he went to sleep the night before" (Wilbur M. Smith).

The life story of Samson brings us the picture of God's patient and gracious dealing with such a failure, reveals the inexorable law of cause and effect in the moral realm as well as the certainty that the wages of sin not repented of and forsaken is death.

I. Physical Strength and Favor With God (15:5, 6).

Samson had the distinction (given to only one other Old Testament character) of having his birth announced beforehand. He was to be a Nazirite and was to "begin to deliver Israel out of the hand of the Philistines"—a commission which sin kept him from ever finishing. God gave him the marvelous heritage of a strong and healthy body as well as His own blessing upon him for carrying out the Lord's work. The fact that he is named among the heroes of faith in Hebrews indicates that he did have faith in God. Yet his life was a failure.

Samson would have been a great favorite in this athletic age. Let those who worship the body and glorify physical prowess take note that such strength is not sufficient to guarantee success in life, and may indeed be a source of temptation which may lead to spiritual and moral downfall. Those who live for the flesh "shall of the flesh reap corruption" (Gal. 6:8).

II. Moral Weakness and Spiritual Decay (15:11-14).

The portion of the lesson selected for our consideration from Judges 15 gives only an act of prowess on the part of Samson, but the reader will recognize it as one of the many deeds of Samson done as an expression of his uncontrolled sensual nature. Read the entire chapter and it will be evident that here is a man who, while occasionally responding to God's leading, is on the downward path of moral and spiritual decadence.

Scripture is absolutely honest in relating the facts as they are—and here it is not at all an attractive picture. It never is, although the world tries to make it appear to be. A learned audience of university people laughed with evident appreciation at the statement of a professor that "vice is always more interesting than virtue," little realizing that they thus bore testimony to their own attitude toward sin. If the liquor advertisements were honest enough to picture the agony of a drunkard dying of delirium tremens they would present the real truth, but they would sell no "booze."

III. Failure, Darkness, and Death (16:15-21).

Delilah finally betrayed the foolish Samson who apparently had become so sure of himself that he dared to venture anything. The man who was to be strong for God is now in prison, shorn of his strength, blinded by his enemies, and finally he kills himself even as he slays his enemies (16:23-31). Thus he threw away the life that had become to him but a burden and a disgrace.

"Thus he who began never completed his work. The column was broken in the middle. The story ends with a comma and a dash, blistered over by a tear. For the light is turned into darkness, and how great is the darkness" (J. M. Lang).

Now Power Can Defeat God

Be not afraid of sudden fear, neither of the desolation of the wicked, when it cometh. For the Lord shall be thy confidence, and shall keep thy foot from being taken.—Prov. 3:25, 26.

Word Candlestick's Origin Traced to Rushes, Knots

The origin of the word candlestick is found in the long stick of wood to which was fastened a bundle of rushes or a pine knot. This was carried from place to place as needed or spiked to the wall. Later, relates Alice R. Rollins in the Los Angeles Times, when the art of candlemaking was developed, the candles were placed on candle beams—a rude chandelier of cross-sticks of wood or strips of metal with sockets or spikes, in sliding stands, in sconces, which were also called prongs or candlearms.

The candles were made of tallow, spermaceti and bayberry, the latter obtained from bayberries which grew plentifully in New England and was noted for its pure, spicy fragrance. In a letter written by Robert Beverly in 1705, he states that "nice people often put them out on purpose to have the incense of the expiring snuff."

All the lighting devices in the American colonies for the first 200 years were generally the work of individual workmen. They were made by blacksmiths, tinsmiths, pewterers, glass-blowers, carpenters or whatever the craftsman might be. Each of these created his own designs which were made for local distribution as necessity demanded and of which no two were exactly alike.

Candlesticks were made in wood, iron, brass, pewter and later silver and glass. As the Colonies became more prosperous and trade with the mother country increased many beautiful examples in silver, glass, pottery such as delft, and later in the Eighteenth century porcelains such as Chelsea were imported.

Traveled in His Canoe to Minister to Indians

Jacques Marquette, one of the most noted of the pioneers of France in the New World, was born in France in 1637, became a Jesuit priest in 1666 emigrated to Canada to establish missions and explore new lands for his country.

At that time, writes Leslie Hartley in the Washington Star, the French settlements were mere trading posts, widely scattered, and Father Marquette was forced to travel hundreds of miles in his canoe to preach to the Indians and establish mission houses along the Great Lakes.

In the spring of 1673 Marquette joined Joliet in an expedition by canoe by way of the Illinois to the Mississippi river and down that stream to Arkansas. De Soto had discovered the Mississippi more than a hundred years before but nothing came of his discovery. Marquette, however, who had endured much suffering on the journey, prepared excellent maps and wrote descriptions of the new country which resulted in others following and developing the Mississippi valley.

Two years later Father Marquette started on a missionary journey along Lake Michigan, was taken ill from exposure and died May 18, 1675.

The town of Marquette, Mich., and the Marquette river are named in his honor.

Copyrighting the Bible

Only new translations of the Bible are copyrighted in the United States. Anybody may print the King James or other old versions. In Great Britain, however, a copyright on the authorized or King James version of the Bible rests perpetually in the crown. This version was translated and published at the expense of the crown for the established church of which the king is head. The right to print it is restricted to the king's printer and to Oxford and Cambridge universities. It is still customary in Great Britain and her dominions for publishers who desire to print the authorized version to apply for permission from either the Oxford or the Cambridge University press. The charter of publication originally granted by the crown to these publishing houses is recognized and respected by British publishers. This rule does not apply to publishers in America or other countries.

Healing Properties of Hot Springs

Tradition says that the curative properties of the waters at Hot Springs, Ark., were known to the Indians long before the Spanish explorations; that they warred for them, finally making an agreement whereby all tribes had access to the springs. They were probably known to De Soto and were visited about 1800 by French hunters and by members of the Lewis and Clark expedition in 1828. In 1832 congress created a reservation to prevent exploitation of the waters for private gain, but litigation ensued which was not ended until a Supreme court decision in 1876.

An Ancient Paris Restaurant

Boulangier's restaurant, which opened in Paris in 1765, was the first dining establishment to offer a choice of foods and liquors. Previously, says Collier's Weekly, the only public eating places were coffee houses and taverns, serving "regular" meals at a common table at a fixed time and price. Parisians so enjoyed eating when and what they liked that, by 1810, the city had more than 125 restaurants, one of which served 197 meat dishes.

THE GREAT KEYSVILLE PICNIC

In Stonesifer's Grove, Keysville
SATURDAY, AUGUST 6, 1938
Afternoon and Evening
That good Chicken and Ham Supper at 35c
Children 25c
Supper served from 4:30 p. m. on

Program by the Happy Marylanders (Radio Entertainers), at 3:00 P. M. Also address by Rev. Dr. John S. Hollenbach. Music by the ALESIA BAND in the evening.

Ice Cream, Cakes, Candy, Melons, etc., and all kinds of refreshments for sale. 7-22-3t

PUBLIC SALE

of Valuable School Properties

The following school properties will be offered for sale at the Court House in Westminster, Maryland, on August 2, 1938 at 2:00 o'clock P. M. as follows:

WINFIELD: All that parcel of land located in the village of Winfield, in Carroll County, containing 1/2 ACRE OF LAND, more or less, being the same property conveyed to The County School Commissioners of Carroll County, Md., by William H. Barnes, Jr. and wife, by deed dated January 29, 1887, and recorded among the Land Records of Carroll County in Liber W. N. M., No. 65, Folio 331, etc. This property is improved with a brick building (metal roof) and a drilled well.

DETOUR: All that parcel of land located in the village of Detour, in Carroll County, containing 3600 SQUARE FEET, more or less, (as per survey made by John J. John, County Surveyor, on November 12, 1937), being the same parcel of land conveyed to the Board of County School Commissioners of Carroll County by Margaret G. Myerly and James T. Myerly, her husband, by deed dated August 18, 1905, and recorded among the Land Records of Carroll County in Liber D. P. S., No. 102, folio 412. This property is improved with a one-room brick building (metal roof).

LINWOOD: All those two adjoining lots or parcels of lands located in the village of Linwood containing in the aggregate 136.7 SQUARE RODS, more or less, being the same two parcels of land conveyed to The Board of Education of Carroll County, Maryland, by the Linwood Union Literary Association of Carroll County and Joseph Englar, by deed dated September 14th, 1921, and recorded among the Land Records of Carroll County in Liber E. O. C., No. 139, Folio 127, &c. This property is improved with a 2-story frame building containing two rooms on the first floor and one large room on the second floor. Also a well on the property.

The Board of Education reserves the right to withdraw any of the above properties from the sale.

TERMS OF SALE—10% deposit at the time of sale. Balance within 30 days. Purchaser to pay expense of transfer.

By order BOARD OF EDUCATION OF CARROLL COUNTY.
7-22-3t R. S. HYSON, Secretary.

"Beat the Heat" With a One-Plate Meal and Lots of Iced Coffee!

CHICKEN shortcake, green peas and currant jelly make a whole-meal-on-one-plate and delicious iced coffee tops it off to cool perfection! Use leftover cubes of cooked chicken or ham for your biscuit shortcake; make your coffee double strength and pour it fresh and hot over ice, in tall glasses for the most delicious of all summer drinks. Cut flowers for your centerpiece—and lunch is served!

Love, Honor and Obey

MY-MY! JUST LOOK-OUT THEM WINDOWS! TSK! TSK!

EVERYTIME I WASH WINDOWS IT RAINS—EVERY-TIME!

Footgear Worn by Lapps
The Lapps wear no stockings. The shoes are lined with dry grass—a short hay called "starr." It is a trick requiring clever manipulation so that it can be pulled over the foot and worn with comfort. When the bottom of the shoe wears through, it is patched with a round piece of reindeer leather. In rainy weather the natives wear reindeer leather leggings. The pants, blouses, coats, breast cloths and caps are all made of good Swedish woolen cloth, blue preferred.

Stripping Cork Oaks
The stripping operation on cork oaks requires skilled and experienced hands, lest the trunks of the trees be bruised. When it is carefully done the oaks not only replenish themselves with cork but the process apparently is good for them. They sometimes live 300 years. Stripping is done every 10 years, the quality of the cork improving each decade until the tree is well past the century mark.

Craters of the Moon Is a Desolate, Awful Waste

Earliest mention of the craters of the moon appeared in Washington Irving's "Adventures of Captain Bonneville," the story of an explorer whose name has been perpetuated in the vanished Lake Bonneville, which thousands of years ago filled the whole Salt Lake basin. According to Irving, Captain Bonneville described the region as "an area 60 miles in diameter, where nothing meets the eye but a desolate and awful waste, where no grass grows nor water runs, and where there is nothing to be seen but lava."

The description is accurate as far as it goes, writes David Duncan in the New York Times. The Craters of the Moon National monument is a "desolate and awful waste," but it is also an area of weird and arresting beauty. The chaotic jumble of volcanic cones, cinder buttes, ice caves and lava flows presents an ever-changing panorama of colors in the crystal light of the desert. Colors vary from dull rose at sunrise to deep blue in the evening. Throughout the day the shifting shadows disclose every color of the rainbow in the mineral content of the lava flows.

As geologists measure time, the entire region is of recent formation. The mythology of the Blackfoot Indians carries legends of "the fire in the skies"—legends traceable to the time of the last eruptions. According to geologists, not more than a thousand years have elapsed since the last eruption took place. Some authorities set the date of the most recent activity at only 300 years.

For miles the face of the earth resembles the surface of a mighty cauldron suddenly hypnotized into immobility. The crenelations of the flowing lava show no marks of weathering by the wind. The fissures have not collected enough dust to offer foothold to anything more than a few tufts of buffalo grass. Bubbles are discernible in the hardened rock, most of them unbroken, although they are so fragile that a stone will shatter their shell.

Greenbacks Were Issued During Civil War Days

Greenbacks were issued by the United States government during the Civil War period "as a question of hard necessity." The government, as had the banks, suspended specie payment and the new notes were inconvertible paper currency until January 1, 1879, when specie payment was resumed. At the end of the war \$433,000,000 in greenbacks was outstanding. Retirement of this at the rate of four million a month was begun in accordance with the Funding act of 1866. Hard times caused a demand that the greenbacks remain in circulation and their legal status was favorably decided in the legal tender cases of 1869-72.

Following the panic of 1873 there was agitation for inflation, but the following year President Grant vetoed the bill setting the amount of the greenbacks at \$400,000,000. Finally in 1875 the Resumption act, under which the secretary of the treasury was to accumulate in the treasury \$100,000,000 gold reserve, was passed. When specie payment was resumed the amount of greenbacks outstanding became a permanent part of the currency.

Polyharmony and Atonality

Polyharmony and atonality are less common and relatively new in musical jargon. Polyharmony is the effect of two or more harmonies sounding simultaneously but also independently, according to an authority in the Cleveland Plain Dealer. It is often obtained by writing melodies in whole chords so as to give each a harmonic character, or by writing one melody in one key against another melody in an entirely different key. Polyharmony became quite a vogue in the second decade of this century, but instances of it can be found even among the classic composers.

Atonality, on the other hand, involves a more radical departure from tradition. Literally it means music without any tonality or key, though even its most distinguished practitioners admit this to be practically impossible. It is achieved by a dissonant arrangement of the 12 tones of the chromatic scale.

Supersonic Waves Break Solids by Vibrations

PORT HURON, MICH.—Supersonic waves—sounds too shrill in pitch to be heard by the human ear—will soon be used to break up solid particles into new degrees of fineness.

Sound's new use has been developed from research of Dr. Karl Soellner of the department of agronomy at Cornell university. He found that high-frequency sound waves not only make sediments, gels and precipitates disperse—as previously had been known—but also that certain solids having a laminated structure could be broken into fine bits by the intense vibrations created.

Materials on which the supersonic waves work well include graphite, mica and steatite. As soon as production changes are completed, colloidal graphite will be made of much finer particle size and longer suspension than has heretofore been available to industry.

Ears Reveal Paternity, Says a German Scientist

FRANKFURT-on-the-MAIN, GERMANY.—Possibility of determining a child's paternity from the shape of his ears appears in a report from Dr. Thordar Quelprud of University Institute for Heredity and Race Hygiene. The shape of the human ear, Dr. Quelprud says, has a number of personal peculiarities which appear well-developed in the infant. Left and right ears of the same person are often markedly different, so Dr. Quelprud examined both ears in his study of 5,000 persons. Twin and family studies, including studies of fraternal and identical twins, were made to determine hereditary characteristics. Shape, length and breadth of ear, height of concha, length and form of ear-lobe, helix and tragus, length-breadth-index of the ear, scapha and other characteristics were investigated.

Keeping Up With Science

'Dosing' of Oil Wells Produces Salts That Ruin Refinery Units

NEW YORK. — Widespread use of acids to boost production from oil wells has brought in its wake a major trouble for the petroleum industry in the form of thousands of miles of ruined pipelines and hundreds of ruined refinery units, petroleum engineers report here.

Salts, 50,000,000 pounds of them, produced largely as by-products of the acid "dosing" of wells, are eating the walls of expensive pressure piping and plugging refinery tubes, exacting a stupendous economic toll, they reveal.

They are in addition lowering the value of residual oils and tars, eating up in waste a considerable portion of the increased income earned by the use of the acid process which increases the wells' yield.

Greater even than the cost of replacement parts and labor is the loss caused by equipment being out of service while repairs are made.

Petroleum engineers are turning increasing attention today, however, to this problem and report a number of desalting methods.

Methods of Removing Salts

Heat, pressure and the addition of fresh water remove some of the salt from commercial crude oil, increasing the life of piping and refinery equipment greatly at a low cost. A Michigan installation, described in Petroleum Technology by Dr. Gustav Egloff and a group of petroleum engineers of the Universal Oil Products company, reduced the salts in the incoming crudes from 220 to 5 pounds per thousand barrels.

Incoming oil was mixed with about 10 per cent of water, then heated to 250 degrees under a pressure of 60 pounds. The salt removal, 212 pounds for each 1,000 barrels of oil handled, reduced corrosion from a continual cause of breakdowns to a very minor maintenance factor.

Chemicals to break up the shell of emulsion which protects brine globules from the surrounding oil have been used with some success. Once this protective coating is destroyed, water particles settle out of the mixture very rapidly, carrying the salt with them. Different chemicals are needed in each oil-producing area, and the search for a general desalting chemical agent, suited to all types and mixtures of oil coming to a refinery, is still going on.

Electrical desalting, in one plant, decreased the salt content of the crude oil from 200 to 8 pounds per 1,000 barrels. This particularly corrosive crude oil, from an Arkansas field, was mixed with water, then subjected to an alternating potential of 16,000 to 32,000 volts.

REV. WM. E. ROOP DOING EVANGELISTIC WORK IN FAR WEST.

(For the Record.)
The "Empire Builder", fast express from the Pacific Coast, rolled me into Minot, North Dakota, on Saturday, July 16th, 1938, at 8:45 A. M. Western time, just in the nick of time to begin a revival meeting in the large Surray Church, several miles further, on the Great Northern railroad.

This meeting began on Sunday morning, with good attendance and deep interest. Some of the young people here are well trained musicians and singers, and the preparatory song service before the preaching is thrilling and soul-inspiring.

The revival just before this one was held on the Pacific Coast, near Seattle, Washington. The Sunday School there is under the supervision of the American Sunday School Union Missionary, Rev. Rebert, who lent his support, to this, the first two weeks revival, ever held in this, developing community.

There was a number of good piano musicians, and special solos, quartets, duets, etc., as were needed for inspirational gospel songs.

Intervals were spent in getting acquainted with the citizens of this vicinity in their homes, and in the most sublime variety of natural scenery, to be found in any part of the world.

The evergreen playground of the National Park enclosing Mount Ranier elevation 14,408 ft., was thoroughly gone over by my son, Earl and myself with modern mountain highways and at their end, mountain trails almost everywhere. Walking and climbing one of these trails we came to the very summit, of Ranier, covered with deep snow, so beautiful to behold from Portland, 180 miles away.

All residents in Seattle give a premium on locations for residences there, having a visit of touring Ranier, 108 miles away. Our son Earl's home in Seattle has a view of this scenic grandeur, from his dining room window and elsewhere also as on his attractive terraced lawn.

Glacier Park, of course was visited with its 120,000 acres of U. S. National Park Reserve. Its lofty mountain in the Rocky Range, is perennially capped with snow-covered glaciers on every side. Visitors from almost every state in the union can be seen easily in either of these two grand National Parks. Along with their auto tags, indicating State from which they came are also very many from British of Columbia and the Provinces of the Dominion of Canada, as well as from Mexico.

While in Washington State a visit was made to the great coal mines of this metropolitan state—shafts, with the usual narrow track and small cars to elevate the coal, from the deep below the surface, veins of coal, are affording ample coal at a low price, to all who use coal instead of the wood, kept in coal yards, in Seattle for 55c per hundred. Wood is abundant.

Just took a 38 mile tour by auto to the many thousand acres field of the Truax Trayer Coal Co., of Chicago. Was taken through their Minot, N. D., mine by an expert guide. They have a surface coal mine here. But to expose the 14-ft. vein of coal for mining, they are now removing 44-ft. of earth off the top of the 3 miles long coal bed at this present place of operation, with one of the biggest electric shovels made, with an arm 90-ft. long which carries the 12 cu. yd. bucket for one single shovel full.

(The remainder of this letter will be published next week.—Ed.)

HAMPSTEAD CARNIVAL.

The annual carnival of the Hampstead firemen has, in recent years, become one of the largest, from point of attendance and profits realized, of the numerous firemen's carnivals held in Maryland during the summer months. It will be held this year during the week of August 1st. to 6th. inclusive, with amusements every evening and on Thursday and Saturday afternoons, having, as additional features, airplane maneuvers and parachute jumping on Thursday afternoon and a large Firemen's parade on Saturday afternoon. Governor Nice and Senator David J. Baile will attend the carnival on Monday evening.

FREE VENTILATION.

Constant free circulation of air is the basis of cool ventilation. Keep the windows open at both top and bottom—open at the bottom to draw the cooler air into the room, open at the top to allow the hot air which has naturally risen toward the ceiling to escape. More actual comfort from your electric fan will be enjoyed if the fan is placed in such a position that it forces the hot air out of the upper window than by actually sitting in the path of its draft.

WEEK-END SPECIALS

- Sugar, 10 lbs 45c
- 3 Cans Tall Pet Milk 20c
- 3 Cans Baby Lima Beans 25c
- 1 Box Selox 12c
- 2 Cans Hershey's Chocolate Syrup 19c
- 2 Boxes Puffed Wheat 15c
- 2 lbs Fig Bars 25c
- 2 Large Cans Peaches 31c
- 3 Cans Sauerkraut 25c
- 4 Cans Early June Peas 25c
- Cut Rite Wax Paper 40 ft 5c
- 1 Doz Aeroxon Fly Ribbons 25c
- 1 Large Can Prunes 13c
- 1 Box Ralston Corn Flakes 5c
- Large Juicy Oranges 22 and 30c doz
- Bananas 15c doz
- Jumbo Watermelons 55c
- Cantaloupes
- Fancy Slicing Tomatoes 5c lb

ADVERTISING.

"Advertising is as essential to the newspaper as it is to any other line of business and the best advertising newspaper can do is that addressed to the subscriber and prospective subscriber—the advertising that creates favorable comment about the newspaper by the people of the community.

Such advertising not alone holds subscribers and encourages others to subscribe, but it builds prestige and confidence which creates advertising patronage.

Like all other articles of commerce, the newspaper must be sold, and must be kept sold day after day, week after week.

All too often its value is not fully realized by those who buy it because that value has not been impressed upon the purchaser through advertising."

So says the Publisher's Auxiliary. It might have said too, that advertising is an invitation for co-operation between seller and buyer in every community—and for the good of both.

In every rank, or great or small, 'tis industry supports us all.

LEADING HARDWARE DEALERS

"It's Just Like Getting a Raise!"

Finding ways to save a little extra money is just like getting a raise in salary. And see how these small economies mount up!

An extra dime saved daily mounts to \$36.50 in a year; a daily quarter grows to \$91.25; and 50¢ daily becomes \$182.50.

Keep track of your outgo... analyze it... eliminate unnecessary expenditures. You will find that a growing account at this bank provides a real incentive to careful money management.

VACATION DAYS

Dangerous FOR VALUABLES

Before you leave, be sure to place your valuables and important papers in a safe deposit box. Otherwise you may find them "away" when you get back.

Thieves, fire, careless members of the household, playing children, open doors and windows, and other hazards of summer, might easily make your vacation cost you a thousand times the small cost of renting a safe deposit box.
