VOL. 47 NO. 9.

TANEYTOWN, MD., FRIDAY, AUGUST 30, 1940.

\$1.00 A YEAR

COMMUNITY LOCALS

This column is not for use in advertising any money-making program, fair, supper, party or sale. It is intended for news, personals, and such matters as may be of community interest.

Churches, Lodges, Societies, Schools, etc. are requested to use our Special Notice Department for money-making events.

Churches are especially given free use of our Church Notice Column, for brief notices concerning regular or special services. Larger events will be cared for elsewhere in our columns.

Rev. C. H. Barnett and wife, of Worthington, Pa., called on Rev. W. O. Ibach, on Tuesday.

Frank T. LeFevre, Sebring, Ohio, is spending several days with his mother, Mrs. M. H. Reindollar.

Our August cool spell is reported by Baltimore weather observers to be the coldest for 13 years.

Mrs. Harry S. Koons, of Baltimore, is spending the week with relatives and friends, in town.

St. Joseph's Parochial School will reopen on Monday morning, Sept. 9, for the school year of 1940-41.

Doris Koons is spending the week-end with her aunt and uncle, Mr. and Mrs. Theodore Koons, of Baltimore.

Mr. and Mrs. Elwood Baumgardner and son, Wayne, left Monday, on a ten day trip to the New England States.

Mrs. Minnie A. Jerley and son, Reginald, of Passaic, N. J., were week-end guests of Mrs. J. A. Angell and friends.

Mrs. Calvin Fringer, daughter, Miss Mary and son, Walter, left Sunday for White Sulphur Springs, W. Va., and Ashville, North Carolina.

We are reminded that the coal bin, the fire wood supply, chimneys, rain spouts and stove and furnace repairs, are all matters for attention before actual need for them arrives.

Rev. and Mrs. Robert Benner, of Newville, Pa., were callers at the Record Office last Saturday, and renewed their subscription. We are always glad for calls from former residents.

Because of an error, the name of Dr. Wm. Reindollar, Baltimore, was elected vice-president of the Reindollar reunion. The name should have been Edward Eugene Reindollar, of York, Pa.

The supper last Saturday for the benefit of St. Joseph's Catholic Church, was largely attended locally, and by others as far away as Baltimore. Taneytown has a deserved reputation for "good eats."

Miss Agnes Zent left for Baltimore this Wednesday morning to accompany her sister and brother-in-law, Mr. and Mrs. Edwin Schamel to New York, for to attend the World's Fair. They expect to return on Monday.

Mrs. Elizabeth Rutter and daughter, Laura, of Baltimore, spent last week-end from Thursday until Monday, with her sister, Mrs. McGuigan, of Taneytown. They left on Wednesday to go to the World's Fair and spend a few days.

Henry Clay Englar, California, who had expected to spend his August vacation with his home folks in Taneytown, will not do so on account of the serious physical condition of his wife, who has a surgical operation in prospect.

The Record Office has filled an unusual number of orders for wedding announcements, during the past month. Our work in that line is fully as desirable as the higher cost engraved kind. Let us show you samples.

The Carroll Record is an easy newspaper to read. It has not narrowed its columns and decreased the size of type used, in order to crowd more reading matter into its pages. This is worth noting, especially by those with poor eyesight. A newspaper that can't be easily read is of but little use.

Recent visitors at the home of J. Raymond Zent and family, were: Rev. and Mrs. Smith and two daughters, of Glen View, Illinois; Mr. and Mrs. Harry McCaslin, of Sterling, Illinois; Miss Sue Neady, of Waynesboro, Pa.; Robert Zent, of Blue Ridge Summit; Mrs. Norah Ambrose, of Thurmont; Sgt. Raymond M. Zent, of Quantico, Va., and Mr. and Mrs. Edwin Schamel, of Baltimore.

An old book that we have, says of Taneytown—"A Post village of Carroll County, Maryland, 71 miles northwest of Annapolis, population 279." The book is called "A complete pronouncing Gazetteer, or Pronouncing Dictionary of the World," and was published by J. B. Lippincott & Co., Philadelphia, in 1855. It contains 2182 pages.

Maurice Zent, son of J. Raymond Zent, of Keymar, who started working in the Dairy for the Baltimore City Hospital the first of August, met with a serious accident a week ago last Saturday. While working in Dairy he slipped on the cement floor with three milk bottles in his hand, breaking the bottles and severing the artery and a number of cords in his left wrist. Fortunately the Dairy is located near the Hospital too where he was rushed and received treatment immediately. But lost considerable blood, and was obliged to remain in bed for one week. He came home on Sunday, but returns to the Hospital once a week for further treatment.

(Continued on Fourth Page.)

HIGH SCHOOLS OPEN SEPT. 4.

Birth and Vaccination Certificates Required of New Pupils.

The High School and Elementary classes will open on Wednesday, Sept. 4, at 9:00 A. M. There will be a full day's class work on the first day, and the buses will run on their regular schedule.

New students may register Tuesday afternoon from 2 to 3:30 o'clock. In the case of first grade pupils, it will be necessary for parents to furnish birth certificates, and vaccination certificates, or other evidence of a successful vaccination.

The Cafeteria will not be open the first week and pupils are asked to bring their lunch.

THREE KILLED, TWO HURT, IN AUTO CRASH.

Three residents of Waynesboro, Pa., and two others were hurt in an auto crash in Cashtown, Pa., last Sunday forenoon. The dead are: Mrs. Martha Shoop, 42; Mrs. Martha Gift, 75; Martin L. Gift. All these had a fractured skull. The injured were: Mrs. Charlotte Nunemaker, Mont Alto, and R. S. Shoop, driver of the auto.

The auto was side-wiped by one driven by F. N. Gualderoni, Akron, Ohio, who is being held pending a hearing of the case and an inquest. He is also being held for assault and battery.

He was accompanied by his wife, two daughters, two sons. The latter were also held, but the wife and daughters were released on their own recognizance to appear.

WARNINGS FOR LABOR DAY AUTO DRIVERS.

"Governor O'Connor's Maryland Traffic Safety Committee urges the motoring public to use precaution over the Labor Day week-end to prevent accident and death on Maryland highways.

"Governor O'Connor's Maryland Traffic Safety Committee warns that the highways will be crowded over the Labor Day holiday, and urges that the motoring public use every precaution that accident and death may be prevented.

"If you drive don't drink. If you drink don't drive," is a warning of the Governor's Maryland Traffic Safety Committee, especially for the Labor Day week-end.

"If you are going away for the Labor Day holiday, the Maryland Traffic Safety Committee advises that you start a little earlier, and don't drive too fast for conditions. Observe the rules of the road to avoid accident and loss of life.

"Better be safe than sorry. Walk and drive safely over the Labor Day holiday is a warning of the Governor's Maryland Traffic Safety Committee.

"The Maryland Traffic Safety Committee says "Drive Safely! Walk Safely! and have no regrets when the Labor Day holiday is over."

SOME ADVANCE IN PRICES.

The advance of cost in paper, cardboard, etc., the paper line, are coming along, gradually as we predicted. Last week, a notice of advance in cost of 10 percent, on about half of our line of calendars, arrived, beginning Sept. 1st.

Most of the better grades of paper have gradually advanced about 2 cents per pound over prices of a year ago. Further advances are sure if preparedness for defence increases, and this will also mean increase in taxation, in one form or another.

This is not a "buy now" argument. It is merely telling you, what may be expected, in our particular line, in which sale prices have for a long while been too low.

What may be expected in merchandise and food prices, we do not presume to know. In all cases, price advances are likely to be slowly accumulative, and nobody need be unduly excited.

DON'T CONFUSE ISSUES.

There is a small group of defeatists in this country who seem to have become persuaded to the view that opposition to totalitarianism requires totalitarian methods. They observe the success of the dictator-ridden nations in creating gigantic military machines in a brief period of time, and reason that a form of dictatorship must be exerted here if the United States is to swiftly build its armed defense to the necessary level.

Anyone who believes that has forgotten or never knew the history of this country. We have met great crises before—and we have met them as a free people. When emergency comes, all Americans—worker, capitalist, executive, farmer—forget their differences, and join their resources in the interest of the common good. And no dictator is needed.

That is happening in the present emergency. Big business men and little business men have pledged themselves to do all in their power to assure the swift completion of the defense program. The great basic industries of this country—the railroads, the utilities, the steel companies, the machine makers—are prepared to do whatever is necessary to meet the exigencies of the future. They are prepared to cooperate with government to the limit, to the end that democracy may be perpetuated through democratic methods.—Industrial News Review.

As we understand it the "Peace be with you" movement includes married people in its membership.

FREIGHT TRAIN WRECKED ON B&O AT SYKESVILLE.

Two Men Killed and One Died in Baltimore Hospital.

A freight wreck occurred on the old line of the B. & O. R. R., at Sykesville, Sunday night, that resulted in the death of three trainmen. William F. Good, fireman, was one of the victims and his body remained under the engine until Tuesday, two days after the wreck.

Hampton N. Evans, 36, engineer, was found in the river in a dazed condition clinging to the bank. He died Wednesday in a Baltimore Hospital. Sterling Lee Owens Ambrose, 36, was found in the cab with a broken neck.

The conductor and brakeman riding in the caboose were unhurt. Twenty-three cars were piled up in the river. The body of Good was recovered from under the engine on Tuesday two days after the wreck.

Sheriff Walter L. Shipley, of Carroll county, announced that two breaks were found in a rail section where the train left the tracks. The separations were about fifty feet apart.

"It looked like a flaw in the steel" the Sheriff added.

The Interstate Commerce Commission, working with railroad officials, has begun an investigation into the wreck which will probably lead to a formal hearing.

HOMEMAKERS CLUBS TO HOLD MEETING.

The sixth annual tri-county meeting of Homemakers Clubs from Washington, Frederick and Carroll Counties will be held at Alumni Hall, Western Maryland College, Westminster, Md., on Wednesday, September 18th. Mrs. John D. Young, who is President of the County Council of Homemakers Clubs, will preside during both the morning and afternoon sessions.

The main speaker will be Miss Loda Mae Davis, of the Staff of the Advisory Commission to the Council of National Defense. Her subject will be "Homemakers interest in the changing Economic and Social Conditions in the United States. This talk will be a very timely one and will bring to the group assembled the best thinking on this subject from one who is very closely associated with those who are studying the problem most intensively.

Miss Venia M. Kellar, Assistant Director of Extension Service, will attend the meeting and will bring greetings from the University and speak briefly of her recent travels in Canada. The program will include several other numbers of interest to club members, including one more outside speaker and one number contributed by each of the co-operating counties.

The Carroll County Homemakers' Chorus will make its first appearance at this meeting. A special luncheon will be served in the College dining hall for the Tri-County group. The Fall news letter which will be sent to all Homemakers' Club members in the county will contain a more detailed announcement of the Tri-county meeting and a card to be used in making luncheon reservations will be sent with the news letter.

PROCEEDING ORPHANS' COURT.

F. Murray Benson, administrator c. t. a. of Lizzie L. Murray, deceased, returned inventory of real estate and settled his first and final account.

Letters of administration on the estate of Edgar S. Nagle, deceased, were granted to Amelia Sharrer, Mary Nagle Burgoon and Charles Dienst, who received order to notify creditors and warrants to appraise personal property and real estate.

Maurice E. Warner, Henry H. Warner and Raymond F. Warner, executors of John Frank Warner, deceased, reported sale of personal property, settled their first account and received order to transfer securities.

Emma A. Wink, administratrix of William A. Wink, deceased, received order to transfer automobile.

Annie M. Dinst, executrix of Herman M. Dinst, deceased, reported sale of personal property and settled her first and final account.

The last will and testament of Lillie E. Beggs, deceased, was admitted to probate, and letters testamentary were granted to Norman G. Dunkinson, who received order to notify creditors and warrants to appraise personal property and real estate.

Maurice E. Warner, Henry H. Warner and Raymond F. Warner, executors of John Frank Warner, deceased, received order to sell real estate.

William H. B. Anders, guardian of William Burns Downey, infant, received order to pay out funds.

Ida R. Alban, executrix of Thomas Alban, deceased, returned inventory of debts due, reported sale of personal property, and settled her first account.

EMMITSBURG R. R. SOLD.

The property items of the Emmitsburg railroad, covered a mortgage held by the Safe Deposit and Trust Co., of Baltimore, was sold Wednesday morning. The rails, tools, scrap iron and four small parcels of land were sold for \$14,000.

One of the locomotives owned by Miss Louise Sebald, Emmitsburg, was withdrawn at a bid of \$250.00. There are other assets of the Company not covered by the mortgage, that are in the hands of receivers.

THE BRUCEVILLE BRIDGE

The Engineering Plans have been Completed.

A statement headed "Taneytown Aug. 24," purporting to represent information from Walter C. Hopkins, bridge engineer of the State Roads Commission, was published in the Baltimore Sun, and Frederick Post, last Sunday and Monday, concerning the proposed new bridge, at Bruceville.

The cost of the new bridge and its approaches would be about \$100,000. The span would be 200 feet long with a five foot clearance above the average high-water mark; and the roadway would be 36 feet wide, with two 3-ft. wide sidewalks.

No information was given as to the route of the road-way at either end. The article closes with the statement that "the project could be started as soon as the Federal Agency approves the plans"; and, as we understand it; pays a portion of the cost.

THE BUILDING OF PLANES.

Washington, D. C., August 26—Seven citizens were selected with great care to constitute the National Defense Advisory Commission and their work was divided into divisions called Transportation, Agricultural, Consumer Protection, Price Stabilization, Labor Supply, Production Division and Raw Materials Division.

These Commissioners are responsible to the President, the Army and Navy, and other administration branches of the Government. There are close contacts between the groups who will handle something like 14 billion dollars—which is the biggest peace-time affair ever created.

The present production of airplanes is now approximately 900 planes a month, and by January 1 the number of planes will be increased to 1,500 planes monthly, with a continuation of increased production. The number of employees in aircraft factories has risen from 56,800 people to 75,000 during recent months.

The Commission denies that there has been any delay caused by lack of specification for rifles, planes, tanks and other materials. The latest models of heavy tanks are being manufactured and they will be improvements over European war models.

There has been some clamor about the distribution of orders and the discrimination against manufacturers in different parts of the country. The explanation is that only the big contracts have been featured in newspaper articles. As a matter of fact the smaller business firms of the country are actually getting orders up to their capacity, which means that most of them are subcontractors. More than 535 business firms are engaged on major contracts or as subcontractors in the building of planes.

—J. E. Jones in N. I. Service.

MARRIAGE LICENCES.

James D. LeFevre and Dorothy L. Harmon, Taneytown, Md.

Blaine S. Etter and Miriam F. Coble, Chambersburg, Pa.

Gilbert L. Markel and Ethel R. Heffner, York, Pa.

Alfred J. Peeters and Esther M. Smith, Cooperstown, N. Y.

Melvin E. Reindel and Mildred A. Coppersmith, Lineboro, Md.

Edgar R. Long and Hilda M. Fogle, Washington, D. C.

Robert A. Shorb and Margaret M. Weaver, Hanover, Pa.

J. Harvey Haines and Mildred F. Nicholson, New Windsor, Md.

Jacob F. Replogle and Thelma S. Snader, Washington, D. C.

Clyde B. Hildebrand and Viola V. Hull, Keltou, Pa.

THE EUROPEAN WAR.

Late headlines are British Bomb Nazi bases (oil) in Norway. Two ships hit! Portsmouth, England, burning! Italy bombs Suez Canal! British bomb Berlin. African colonies join Britain in war. London raided for 6 days. More French colonies on British side. British planes bomb important Berlin R. R. Station.

ROOP-ROYER REUNION.

The family reunion of the Roops and Royers, held annually in the Meadow Branch Church, will occur, Sunday, September 1, 1940, with an all-day program. The main address will be given by Hon. Wendell Prescott Roop, Naval Expert, of Washington, D. C. Rev. D. E. Englar, of New Windsor, will be the guest preacher of the morning, at 10:30 A. M. Sunday School as usual, at 9:30 A. M., with Mr. Arthur Nail, Superintendent. Mrs. French Grove is the Supt. of the Primary Department. All are welcome to attend.

WM. E. ROOP, Cor.

SHIPLEY FAMILY REUNION.

The large Shipley family met in annual session, Sunday, August 25, at State Teachers' College, Towson. This was the 16th. reunion, and it is one of the largest families in Maryland, especially strong in southern Carroll County.

The president elected for the present year is Rev. Richard L. Shipley, Baltimore. Several addresses were delivered, along with an interesting program.

THE FLEAGLE REUNION.

The Fleagle Reunion will be held on Labor Day, September 2, at Pine Mar Camp, on Big Pipe Creek, south of Taneytown. Come and bring a basket lunch.

PROPOSED AMENDMENTS TO THE CONSTITUTION.

One is Opposed, but the other is Approved by writers.

We publish the following, as contained in a recent issue of the Maryland Gazette, Annapolis.

"The General Assembly has passed, for submission to the voters of the State a Constitutional Amendment, adoption of which would prohibit a Governor of Maryland from succeeding himself. It is well that we follow the democratic processes and submit this amendment to the people for their approval or disapproval.

The Constitution of 1864 was the result of the upheavals caused by the Civil War. In 1867 Maryland adopted its present Constitution, which has been amended from time to time. New departments have been created; weaknesses in our State Government in many instances have been eliminated.

Rotation in office was recommended but nowhere did we find a prohibition against a second term in any of our constitutions. The people of Maryland overwhelmingly endorsed the first administration of Governor Ritchie by re-electing him. There was no constitutional impediment. If the people had not approved his first administration he would not have been elected to other terms.

Governor Nice likewise sought re-election. There was no legal impediment. By the vote of the people, however, they made known their desire for a change. Governor Nice was not re-elected. The people made their choice.

These citations of precedents show clearly that the people of Maryland have the intelligence to make a wise and proper choice. If they want their Governor re-elected, they have the power to send him back. If they do not, then they can defeat him at the polls.

Now we are asked to write into the Constitution an amendment taking the right to a free and open choice away from the people in future elections. In other words, if this amendment is adopted now, the voters of 1940 will decide for those of future generations that any Governor, no matter how good his administration, no matter what the emergencies that may face the State, may not succeed himself.

By what right could we presume to decide that despite all precedent and experience, the voters who are to follow us do not have the sagacity, intelligence and common sense to decide whether they want a man to serve them for another four years."

The following has been sent to The Record, favoring the People's Court Amendment.

Leaders of the Maryland Bar, outstanding jurists and civic minded men and women in every section of the State have accepted invitations to serve on the general committee of the Non-Partisan Citizens group seeking adoption of the People's Court Amendment to the Constitution of Maryland. W. Clinton McSherry, State Chairman of the Committee, announced that the following civic leaders have become members of the Committee and are actively engaged in enlisting the support of voters in all parts for the Amendment:

William H. Adkins, Easton, Md., former Judge of the Court of Appeals; Bruce T. Bair, Past Commander of the American Legion Department of Maryland of Westminster; James E. Boylan, Jr., Westminster Attorney.

Dr. H. C. Byrd, President of the University of Maryland, College Park, Md.; J. DeWeese Carter, Denton attorney; Emanuel Gorfine, Chairman Judicial Proceedings Committee of the Maryland State Senate.

Mrs. J. Stanley Grabill, Mt. Airy, Md.; Milton Tolle, Chairman Judiciary Committee of the House of Delegates; Francis Petrott, Secretary of State for Maryland, of Laurel, Md.

J. Bryan Hobbs, of Laurel, Md.; John H. Hessey, Grand Master of Masons, Baltimore; Mrs. Harry L. Harcum, Md. Federation of Women's Clubs, Salisbury, Md.

CARROLL COUNTY SOCIETY DINNER.

We are going to the Carroll County Society outdoor outing to be held at Gilbert's Inn, Saturday, September 7th, beginning at 2 P. M. Dinner at 5 o'clock. Cost \$1.25.

The program of entertainment will include chariot races, good music and singing, and there will be pictures made in color of you and all there.

The entertainment will be held rain or shine.

All Carroll Countians are invited to this, the best entertainment and dinner we ever sponsored.

Call Gilbert's or advise Thos. S. Yingling, 1st. National Bank Building, Baltimore, for reservations.

RURAL MAIL BOXES.

Take a look at the rural mailbox. There are 6,000,000 of them. Few of them have locks. Many of them have doors that won't close. Some of them haven't doors at all. Situated in lonely places, wholly unguarded, one might think they would invite the robber. They don't. Only ten of them were reported robbed last year, and that, the Postoffice Department says, is about the annual average. So the department nominates the rural mailbox "the symbol of the honor system in the United States." It is a fair citation.—St. Louis Post.

MARYLAND UNEMPLOYMENT BENEFITS.

Baltimore, August 28—At the current rate of disbursements for unemployment benefits the twenty-one million dollar mark will be passed by the Maryland Unemployment Compensation Board before the beginning of September, it was announced today. This figure represents the aggregate of benefit payments since the beginning of 1938 when the Maryland Unemployment act became fully effective.

Claims for benefits have recently been steadily declining in volume as a result of increased industrial activity just as placements by the Employment Division of the Board have been increasing.

Benefit payments for the current month, it is now indicated, will not greatly exceed \$600,000 compared with \$826,000 in June, the highest for any month this year.

New claims for the week ending August 24 were only 961, a reduction of more than six per cent from the preceding week.

MUSICAL REVUE.

25-piece all electric guitar orchestra of the Honolulu Conservatory of Music, Hanover, will present a Hawaiian Musical Revue of dancing and singing and music in the Harney Mystic Chain Lodge Hall, on Friday night, Sept. 6, at 8 o'clock. The "Sharps" popular radio entertainers will be featured in the revue.

The program will consist of late popular and Hawaiian songs, featuring the "Hardman trio," Virginia West Acrobatic dance; Janet Rohrbach tap dance; Bernard Harmon, comedy numbers, and others.

The program will be under the direction of Harold Pratt who will act as master of ceremonies. The "Sharps" consist of Clarence Williams, singing guitar; Rita Aumen, spanish guitar; Virginia Pratt, bass viol. The electric guitar orchestra members are: Mary Groft, Bernice Kooztz, Katherine Kooztz, Geraldine Yealy, Lynn Slouther, Harold Little, Nelson Abel, Tobias Lawrence, Fred Yealy, Mary Shrader, Leonard Zinn, Bill Nace, Ralph Zepp, Betty Cooley, George Giesler, Melvin Nace, Virginia Altland, Evelyn Altland and Robt Buckman.

The program is sponsored by the Ladies' Aid, of Harney U. B. Church under direction of Rev. A. W. Garvin.

THE DRAFT QUESTION.

The Senate, on Wednesday, passed the selective compulsory military training bill Wednesday night, by a vote of 58 to 31, and the 30 day postponement, was defeated, 58 to 26.

Senators Tydings and Radcliffe, voted for 60 days delay in the calling of drafters, but this was lost 41-48.

The bill passed now goes to the House of Representatives. It calls for all youths between the ages of 21 and 30 inclusive must register for draft; and that industrial plants can also be drafted. The total number is estimated at about 12,000,000 in all, for service in the Western hemisphere, and not abroad.

There are other details in the bill that are somewhat complicated.

It is of course understood that the "draft," or "conscription" is only for the protection of the United States, Alaska, our only possessions, and perhaps including Canada. Not much has been said so far, as to our adherence to the "Monroe Doctrine" that would include pretty much all of the Western hemisphere.

There are other details in the bill that are somewhat complicated.

It is of course understood that the "draft," or "conscription" is only for the protection of the United States, Alaska, our only possessions, and perhaps including Canada. Not much has been said so far, as to our adherence to the "Monroe Doctrine" that would include pretty much all of the Western hemisphere.

COUNTY CLERK MAUS, ILL.

Levi D. Maus, Clerk of the Court, was taken to the Maryland General Hospital, last Saturday afternoon, for observation and possibly an operation. He had been complaining for some time, and finally decided to have an expert survey made of his condition.

The latest report is that no present operation is necessary, and that he is likely to return home in a few days, and it is believed that with care and dieting he will regain normal health.

Random Thoughts

TREATING ALL ALIKE.

At first thought we are apt to reach the conclusion that "treating all alike" in the way of favors rules or business, should meet the approval of all; but it wouldn't, for there are many who feel that they are entitled to more than others, or that they do not belong in the common run, but must be catered to.

They do not like the "piggy-wiggly" style of business; but want the "inside track" or some condescension for what they fancy themselves to be. As in baseball, they at least want a "free pass to first base."

Spoiled children? Of course. "Front seats" because they are, what they imagine themselves to be. Oh, not selfish—but just self-concited without feeling that they are.

But, just the same, "treating all alike" though a hard job, is safer than wabbling and measuring firmly drawn distinctions. Straight roads are safer for travel than crooked ones, and we must obey common sense and avoid as many skids as possible.

True democracy in every day affairs, is just as desirable and right, as it is the game of politics.

P. B. E.

THE CARROLL RECORD

(NON-PARTISAN)
Member Md. Press Association.

Published every Friday, at Taneytown, Md., by The Carroll Record Company.
BOARD OF DIRECTORS.
G. A. ARNOLD, Pres. D. J. HESSON, V. P.
W. F. BRICKER, Sec. M. ROSS FAIR
REV. L. B. HAFER.
C. L. STONESIFER, Bus. Mgr. & Treas.
P. B. ENGLAR, Editor.

General subscription rate \$1.00 a year; 6 months, 50c; 3 months, 25c. Subscriptions to 5th Zone, Pacific Coast, \$1.50; to Canada, \$2.00. Advance payment is desired in all cases.

ADVERTISING rates will be given on application, after the character of the business has been definitely stated together with information as to space, position, and length of contract. The publisher reserves the privilege of declining all offers for space.

The label on paper contains data to which the subscription has been paid. Entered as Second Class matter in the Postoffice at Taneytown, Md., under the Act of March 3, 1879.

All advertisements for 2nd, 3rd, 6th, and 7th. Pages must be in our Office by Tuesday morning of each week; otherwise, insertion cannot be guaranteed until the following week.

All articles on this page are either original or properly credited. This has always been a fixed rule with this Office. The publication in The Record of clipped or signed editorials does not necessarily mean that such editorials are endorsed by The Record. In many instances they are published in order to show varying opinions on public topics.

FRIDAY, AUGUST 30, 1940.

PEACE AT ANY PRICE.

The Record believes in pacifism, but not in the "peace at any price" sort. There is a peace that costs too much, because it stands for cowardice. This means, of course, that we mean that there is justifiable warfare.

We believe in a reasonable sized standing army. In a state militia. In Sheriff's and police forces. In rigid disciplining in all private and public institutions. In imprisonment and in law enforcement.

If necessary, where voluntary enlistment in the public service is insufficient, we believe in drafts or conscription. Ample public protection is a prime necessity.

We should say that among the first to be conscripted should be the well-dressed, apparently able-bodied, young men who are abroad in large numbers, claiming that they cannot secure "employment." Possibly they would not make brave soldiers, but military discipline should cure that.

All of our laws depend for their value on enforcement. It is not for our police, for instance, to determine who to arrest, and who to let alone. The public, through taxation, pays for protection and safety, and must have it.

We can hardly conceive how members of some organizations can justly claim entire exemption from any and all military service. They would think otherwise, we believe, if their own homes would be victims of economy militarism.

A NON-PARTISAN POLICY.

The Carroll Record will try to pursue a non-partisan policy during the present campaign, not to the extent of not using party publicity at all, but to treat both parties as nearly alike as possible.

In last week's issue, a three column Willie article in ready-to-print plate form, was used through an error in our makeup department.

Our subscribers are both Democratic and Republican. Our Board of Directors is nearly equally divided, so far as party is concerned. Our job work department patrons are—so far as we know—divided politically. It is not our business to know who they are for, in the present campaign.

The Editor himself, often votes a mixed ballot; so there is every good reason, from a purely business standpoint, for him to publish a non-partisan paper.

The Record will, of course, publish advertisements of candidates in both parties. As we say every week under the second page masthead of The Record, we are not responsible for signed articles contributed, when they are written in a decent and argumentative manner.

DAVID L. ELLIOT, INDEPENDENT CANDIDATE FOR SENATE.

David L. Elliot, Baltimore Attorney has announced his candidacy as an Independent for the U. S. Senate.

He favors a referendum on conscription and on any declaration of war. Would confine service of National guard to our borders. Return to private enterprise cancellation of all HOLC mortgages.

Consolidation with Canada, if and when free. Extension of statehood to Alaska, wants no entrance into a League of Nations.

No meddling with affairs in Europe No aid to any at war, wants an amendment to the Constitution opposing "third term" election. Naturalization made easier for desirable aliens. Is for defense, and not aggression, etc., etc.

It seems to us that this platform is almost suspiciously like that of Mr. Willie.

AS TO EDITORIALS.

The Westminster Times in a recent issue, in its interesting "First Page Editorial" feature, said that "The Record is one of the very few weekly papers that has an editorial page," etc.

This is very true; and we wonder whether the writing of such editorials as ours—that are merely thoughts not so "random" as those contained in the southeast corner of our first page, are worth while.

Readers do not seem to be editorial-minded to any marked degree, and we wonder what they most desire in the three columns of space that we call our "editorial page."

Strange to say, there is a class of would-be experts who send us, on the average about every two weeks, ready-made-editorials that they offer to country weeklies at a very low rate of cost, very much as though country editors are eager for such opportunities, to be available.

And, there are the free publicity artists much along the same line, who think filling up space is the greatest problem an editor has. So, there are a lot of badly mistaken people in the world who consider weekly papers an easy mark, waiting for somebody to hit, at their pleasure.

COME OUT! STAY OUT!

If I interpret aright the opinion of the American people after pretty wide and varied reading, they are unanimous in their desire that we come out, and stay out, of the European mess. We want no part in the European war and the American people are not in sympathy with those who would take sides and do all they could to help one side, "short of war."

There is an inordinate amount of conceit in the average American, and it sometimes looks like the higher the place occupied, the greater the conceit.

We do not want to see how close we can come to war and yet avoid it, but rather to see how far away from it we can get and still keep on the road of freedom.

A story heard in youth comes to my mind and seems pertinent. A wealthy merchant used to riding in his coach found it necessary to hire a new coachman. There were three applicants, one of whom was an Irishman. The merchant interviewed each, and put one problem only before them. It was this, "If you were driving me on a narrow road around a mountain pass with high mountains reaching up from the road on one side, and a deep chasm dropping down a thousand feet on the other side, how close could you drive me to the edge and with safety? The first said he could drive within a foot of the edge and never a bit of danger; the second bragged that he could drive to the very edge, so close that the wheels would knock off the edge into the chasm, as he passed on.

The merchant then turned to the Irishman and asked "and how close could you drive with safety?"

Said the Irishman "I'd be keepin' as close to the inside as I could, and never venture near the danger." The Irishman got the job.

It is my personal opinion that it is the wish of the American people that our "coachman" should keep as far as possible from the European or any other Alien war, and attend more to the business at hand.

Not one dollar of American money should be spent or one drop of American blood should be shed in this European war.

If attacked on our own shores then every man and every dollar to the defense.

Baltimore, Md. W. J. H.

AVIATION AS A CAREER.

The Flying Cadets of the Army Air Corps constitute a body of young men who are noted for their splendid character and excellent discipline.

The courses of instruction are very thorough and fully cover all the fundamental knowledge needed by military pilots. This course at present requires nine months, including three months elementary and three months basic training at civil flying schools under Army supervision.

Three months advanced training is then had at any Army Air Corps Training Center. The instruction, in addition to the flying training, includes courses in navigation, meteorology, radio and other subjects allied with military aviation.

Flying Cadets upon graduation from the Air Corps Training Center are appointed second lieutenants in the Air Corps Reserve, receive their "wings" and the rating of pilot. They are then placed on extended active duty in a tactical squadron equipped with modern aircraft with the Regular Army Air Corps for a period of one year which may be extended from year to year. While on active duty they receive the same pay and allowances as an officer of similar grade in the Regular Army.

With the inevitable expansion of aviation, many positions will be available for graduates of the Air Corps Training Center in the various classes of civilian flying and with commercial companies. Graduate Flying cadets are also eligible to compete for commissions in the Regular Army Air Corps.

Unmarried citizens of the United States, not less than 20 nor more than 27 years of age, with two years college or equivalent education, of excellent character and sound physique, may make application to become flying cadets. Address inquiries to the Commanding General, Third Corps Area, Baltimore, Md.—Third Army Corps Service.

NINE DAYS WITH GENIUS TOM EDISON.

Remarkable never-before-printed diary of the famous inventor—a vitally important and human document. Don't miss this illustrated feature in the September 8th. issue of The American Weekly the big Magazine distributed with the Baltimore Sunday American.

Forest Acres of U. S. Show Steady Gains

Purchases May Bring Total To 200 Million.

WASHINGTON.—Expansion of the national forests purchase program to reach 200,000,000 acres by 1950 is planned by the national forest reservation commission.

The purchase program is expected to give the federal government ownership of large reserve supplies of timber and forests for recreation and conservation of mineral and other natural resources.

There now are more than 176,000,000 acres of publicly owned lands in the national forests. These are distributed among 196 forest units in 40 states, Alaska and the island possessions. They comprise about 10 per cent of the total area.

Last year nearly 4,000,000 persons derived all or part of their support from employment in the national forests, the United States forest service reported. Their total income was nearly \$1,000,000,000.

Workers living in or near national forests obtained employment harvesting timber purchased from the forest service, herding privately owned live stock on the public lands, working in summer resorts, dude ranches and hotels catering to visitors.

The forest service reported lumbermen received 2,600,000 man-days of work in timber camps. Live stock owners employed 25,000 riders and herders to take care of 6,500,000 head of animals in the forests.

While no estimate of resort, hotel or dude ranch employees was available, the number was large enough to supply the service needs of a clientele which spends about \$200,000,000 annually at such establishments.

In addition to private employment, the forest service kept a permanent force of 5,500 persons in the forests and gave part-time employment to an additional 11,000 persons.

Reforestation, road and trail building, and other improvement work under direction of the forest service also provided 13,436 man-years of employment on WPA projects, and year-long employment and training for 50,000 CCC boys and World war veterans.

Highway Death Rate Is

Ahead of Last Year's

CHICAGO.—The National Safety council said that the nation's highway death toll already was 6 per cent above the 1939 rate, and that more than 6,000 persons would be killed in the next two months if the trend continued.

Traffic fatalities for the first five months of 1940 were 11,900, an increase of 650 lives lost over the January-May period last year. In May alone 2,510 persons were killed.

Delaware showed the best improvement among the states for the five-month period, with 38 per cent fewer deaths than in 1939. South Dakota had a 23 per cent decrease. May was a deathless month on the highways for 267 cities, the council records showed. The largest were Kansas City, Denver, Memphis and Providence, R. I.

Lakewood, Ohio, was the largest city to report a perfect record for five months.

Leaders in the low death rate contests for five months ranked by population groups, were Buffalo, over 500,000; Providence, 250,000-500,000; Chattanooga, Tenn., 100,000-250,000; Lakewood, Ohio, 50,000-100,000; Brookline, Mass., 25,000-50,000; and New Kensington, Pa., 10,000-25,000.

Women in Men's Jobs

Win British Recognition

LONDON.—The long contested claim of women that if they do men's jobs they should have men's pay, has won its first victory, although it applies to the war period only.

The industrial court has made a ruling that women employed in place of men as bus conductors on municipally owned vehicles shall receive for the first six months not less than 90 per cent of the adult male conductor's commencing rate, and thereafter the full scale.

As Sam Clemens, Mark

Twain Was an Ace Pilot

Even now, on the Mississippi, you will hear that Mark Twain really knew comparatively little about piloting; that he learned all he wrote about it as a clever reporter at the elbow of Horace Bixby, king of river pilots.

Garnett Laidlaw Eskew, writing in the May Coronet magazine, says that he shared that belief until recently when he talked with Capt. Walter Blair of Davenport, Iowa, on the veranda of his home from which you can see a mile down the river in two directions.

"Listen," Blair said, as quoted by Eskew, "I'll tell you about Mark Twain. Every pilot that has read 'Life on the Mississippi' is jealous of Mark. They all wish they could have done it. When Mark lectured here in Davenport in 1885 with George Cable, I made it a point to talk with him. That was more than 50 years ago; I was then piloting the J. W. Mills and I had read everything that Mark had written. Away back in '78 he'd brought out a little paper-back volume called 'Old Times on the Mississippi.' Later on, in '84, I believe, he'd published his amplified book, 'Life on the Mississippi.' After I read it I wrote him a letter saying what a fine authentic book I thought it was, and Livy (that's what he always called his wife) wrote back and said Sam was on a lecture tour. So it was a lucky chance that my host was in port that night when he lectured here.

"After the lecture I walked backstage . . . Mark was sitting in an undertaker's chair, resting after his lecture. He looked dog tired. His big mustache was drooping. I walked up to him.

"Hello," he said. 'Who are you?'

"My name's of no importance, captain," I told him, "but maybe you'll recognize the handwriting on this letter." (His eye kind of lighted up and he sort of grinned when I called him 'captain.')

"He looked at the letter and drawled: 'That's my wife's handwriting. Now where the devil did you get that?'

"After he'd read it, he made me sit down beside him and began to ask questions. I never saw a man so interested in boats and the river."

Later, at Hermitage Landing on the Mississippi, Blair continued, he had an opportunity to ask Bixby himself about his former pupil and the latter's ability as a pilot.

"Let me tell you something," said Bixby. "Sam Clemens (I never call him anything else) was a first rate pilot. Make no mistake about it. And I don't think in the whole four years he was steambating he ever had a serious accident. If he'd stayed longer he would have been one of the great pilots of all time. He had all the qualities that a good pilot should have—nerve and a fine memory and the ability to catch on quickly. A pilot's got to have those traits. And he was a good talker, too, and as fine a companion as any man riding the river."

"After he'd read it, he made me sit down beside him and began to ask questions. I never saw a man so interested in boats and the river."

"Display" Farms Show Value of Electricity to Agriculture

Millions have inspected this modern all-electric demonstration farm.

By IRA MILLER
Farm Electrification Bureau

SEEING is believing! From time to time, electrical manufacturers, private and public power companies, and state agricultural colleges have established demonstration or model farms to show the practical value of the more than 200 uses of electricity in agriculture. In most instances, those farms have been converted from old-time manual or semi-mechanical operation to full electrification of nearly every farmstead and household chore.

Such farms—always open for public inspection—have been the means of acquainting thousands of farmers with the multitude of ways in which electricity can contribute to their convenience, comfort and safety. Accurate and careful cost records maintained on each piece of equipment have provided positive and indisputable evidence—if it were needed—not only of the economy of electrical operation but also of the fact that it actually makes and saves money for the farmer.

One of the most complete of these electric "display" farms is at the New York World's Fair. The accompanying picture shows the attractive two-story farm house fronting on a flower and vegetable garden. At the right is the silo and barn—only two of the many modern structures

which go to make up this practical working farm.

Sponsored by the private electric light and power companies of the country, this farm shows more than 100 applications of electricity on the farmstead as well as in the farm home. Every piece of equipment, every use of electricity—in the house and outbuildings—is of every-day value and use to the average farmer and, even more important, well within his means.

Every farmer who is interested in making the maximum use of electricity, and who can possibly do so, should combine business with pleasure and visit the electrified farm at the World's Fair. If it is not practical for him to do that, he should make a particular effort to inspect a demonstration farm if there is one in his vicinity.

Another farm display that many thousands of farmers already have attended is the Rural Electrification Administration's "Farm Equipment Tour" which has been visiting various parts of the country since the latter part of 1938. Made possible through the cooperation of the manufacturers and distributors of electrical equipment with various federal and state agencies and local projects, this tour is in effect an electrified farm on wheels. Some 20 trucks and trailers make up the show which should be seen by every farmer and his family in the electrified districts through which it passes.

France Is Ninth Nation to Fall

Succumbs to Might of Nazi Army After 8 Others Had Given Up.

WASHINGTON.—France is the ninth nation to succumb to the might of Germany in little more than two years.

The great Nazi offensive which culminated in the surrender was launched the day after the Germans completed their mop-up of Flanders with the capture of Dunkirk.

Nine days later Adolf Hitler's iron legions marched into Paris and the swastika banners were unfurled over the Palace of Versailles. Within another two days the Germans had outflanked the famed Maginot line and the French were forced to abandon the \$500,000,000 system of fortifications in which they had placed their supreme trust. The withdrawal was the beginning of the end for the armies of France.

The train of events which led up to the outbreak of war last September began on March 11, 1938, when German troops marched into Austria without opposition.

In March, 1939, Hitler, defying threats of British and French resistance, took over Czechoslovakia without firing a shot. On September 1, 1939, he ordered his armies into Poland, again defying Britain and France, who proclaimed a state of war with Germany two days later.

The Germans required less than a month to overrun Poland. Warsaw fell on September 28 after a terrific siege that reduced the city to ruins.

Invade Norway April 9.
On April 9, after a winter of comparative inactivity, the Germans invaded Norway and Denmark, meeting no resistance in the latter country. On May 10, they invaded the Netherlands, Belgium, and Luxembourg.

Holland capitulated in four days, and Belgium gave up the struggle 14 days later, on May 28, paving the way for the final defeat of the allied armies in Flanders and the pulverizing German march on Paris.

The rapidity with which the Nazi blitzkrieg methods accomplished the downfall of France amazed military experts, who before the war had rated the French army as the best in the world.

Most observers believe the French made their gravest mistake in imposing too great confidence in the defensive strength of the Maginot line and in failing to adapt their strategy to the German methods of lightning warfare.

The maximum strength of the French army at the outset of the war was estimated at 6,000,000 men, including the air force. The latter was acknowledged to be far inferior numerically to the German air arm, which generally was considered the most powerful in the world.

69 Millions in Empire.
France has an unestimated number of troops under arms in the Near East and in its African possessions. Whether they will continue to fight and what will become of French territories overseas is a matter of speculation.

France itself has an area of 212,659 square miles and a population of 42,000,000. Its colonial empire embraces 4,613,315 square miles and a population of 69,076,627.

These possessions include:
In Asia: Syria, French India, and French Indo-China.

In Africa: Morocco, Algeria, Tunisia, French West Africa, Togoland, Cameroon, French Equatorial Africa, Reunion, Madagascar, Comoros, and Somaliland.

In the Americas: St. Pierre and Miquelon islands; Guadeloupe, Martinique and French Guiana.

In Oceania: New Caledonia and Tahiti.

Find Most Powerful Germ Killer in Garden Soil

PHILADELPHIA.—You can go out in your back yard and dig up material for the most powerful germ-killer known to science, according to a Franklin institute micro-biologist.

The new drug was described as a gray, powdered substance derived from harmless vegetable micro-organisms found in the ordinary garden soil. But it can kill hosts of virulent, disease-causing bacteria, such as pneumococci, streptococci, staphylococci and anthrax, Dr. J. C. Hoogerheide, of the institute revealed.

Dr. Hoogerheide isolated the drug, known only as H1, after three years' work in the institute's biochemical research foundation.

Institute spokesmen stressed the fact that H1 has not been tried internally on human patients pending further research. One physician reported, however, that he used solutions of the new drug to clear up infected wounds and treat cases of gangrene.

Yule Card 12 Years

Traveling Two Miles

MT. WOLF, PA.—Miss Louella Rentzel of Manchester mailed a Christmas card to Miss Mary Frits of this town in 1928. The card was delivered several days ago to the now Mrs. Edward Kuhn.

The towns are two miles apart.

Science to Delve Into 16th Century

Seek Knowledge in Hudson Valley Excavations.

POUGHKEEPSIE, N. Y.—Archaeologists, through excavations in the Hudson valley, expect to acquire knowledge of the people who inhabited that region prior to the Seventeenth century.

Dr. Mary Butler of the University museum, Philadelphia, will direct the work which will continue throughout the summer. Vassar college initiated the project last year under a five-year grant from the Carnegie corporation.

The Hudson valley, Dr. Butler said, "has been an open road for north-south travel and trade ever since man first came to the New World."

She said knowledge will be sought of the people who "traveled the regions back beyond the Seventeenth century through the preceding centuries of Indian occupation that started human history in the region now known as New York state."

In connection with excavations last year she said:

"Last year's field work tested 14 Indian sites, including rock shelters, camp sites, shell middens and a workshop or flint-quarrying site. It found prehistoric culture sequence in a black topsoil level characterized by broken shell and containing pottery and stone and bone implements, overlying a stony yellow subsoil level that lacked shell, pottery and worked bone.

"Fragments of ground slate semi-lunar knives show a connection with northern cultures, and pottery decorations show Iroquois contact, but the early Indians of the valley undoubtedly belonged, like the Algonquins whom the white men found there, to the Woodland pattern, basically different in many details of way of life from the Mississippi pattern, to which the Iroquois belong."

Dr. Butler has been engaged in field work in Pennsylvania, West Virginia, Illinois and Guatemala. She will be assisted by Carlyle S. Smith of Great Neck, L. I., who directed excavations for the Nebraska Historical society.

Nobody Knows Who Owns This Telephone System

LAKETOWN, UTAH.—It can't be denied that this rural community of northern Utah has a telephone system, but no one—not even the state tax commission—knows who owns it.

It's not just a case of an old style country party line—the phones are the early Twentieth century hand crank kind—but not much more can be said of the system.

It has a lone operator, whose name has not been determined, to do all the work of keeping the circuit in operation. The operator collects the bills—\$1 a month for each person on the circuit—and sees that the system is supplied with electricity.

Everything went fine until a member of the staff of the state tax commission found that the "company" was not paying any taxes. But even then the commission couldn't do much because it was unable to find who the owner was.

But it did find out this much. The little, orphan system was built by George H. Robinson of Laketown several years ago. He later sold it to the Utah-Wyoming Independent Telephone company. The Independent company decided to dismantle the system, but Robinson paid the company \$100 to let it stand. So the company disconnected the little exchange and left it to shift for itself.

Village Blames Slump To Runaway Freighter

ST. GEORGES, DEL.—St. Georges, a prosperous town straddling the Delaware and Chesapeake canal a year ago, has asked the state to repeal its charter.

A runaway freighter ruined the community's tourist trade and cut the town itself in two last January when it wrecked a bridge over the waterway. The DuPont highway, which ran over the structure, was detoured far from St. Georges.

The federal government has announced that it will build another bridge, but local residents see little hope, as the new structure will be a skyway and will not touch the community.

"Actually, a town no longer exists, so we do not propose to continue the expense of running one," an alderman commented.

Name Is Wojtkiewicz, But 'Bow Wow' Will Do

MOSCOW, IDAHO.—It is not for lack of political astuteness that Stanley Wojtkiewicz, Pittsburgh, is a leading campus figure at the University of Idaho.

Confronted by the name "Wojtkiewicz" on the ballot during a class election, freshmen voters were temporarily stopped. But not for long.

"Just call me Bow Wow," advised Wojtkiewicz, who says his name is correctly pronounced Woa-cha-hoe-ich.

He was elected president of the freshman class.

Hurry if you want some of these rich bargains!

Sale fast drawing to a close

HESSON'S CLOSE-OUT NOW ON AN EXTREME LOW PRICE BASIS

Your money certainly goes far during these FINAL days of our GOING OUT-OF-BUSINESS SALE!

At the rate people are rushing here and carrying away these goods by the arms full, it won't be long before we arrive at the finish, lock the doors—and quit business.

It's your chance to make your money stretch to the limit. But—you'll have to hurry, because the balance of our goods is going out fast at these FINAL price cuts during these FINAL days.

Prices hold good only while limited quantities last.

CORRESPONDENCE

Latest Items of Local News Furnished
By Our Regular Staff of Writers

We desire correspondence to reach our office on Thursday, if at all possible. It will be necessary therefore, for most letters to be mailed on Wednesday, or by Fast Mail, west on W. M. R. K., Thursday morning. Letters mailed on Thursday evening may not reach us in time. All communications for this department must be signed by the author; not for publication, but as an evidence that the items contributed are legitimate and correct. Items based on mere rumor, or such as are likely to give offense, are not wanted.

FEBSERSBURG.

What a wonderful, life giving rain that was on Sunday night; beginning in the afternoon with occasional showers, starting in lively about 7 P. M. and keeping on steadily until just about dawn there was a real down-pour, giving clean atmosphere for Monday if not a clear one.

Miss Betty Williams, of Union Bridge, spent last week with the Russell Bohn family on Big Pipe Creek—and life was young and happy.

Mr. and Mrs. Roger Royer and son Bobbie, accompanied Emmert Miller and wife to the home of his parents at Accident, Md., for the week-end; and we feel sure they found cooler air on those Alleghany mountains for some people were shivering in Carroll County on Sunday.

The Fred Littlefields were in our town on Friday, all in fair health. Our local Postmaster, C. E. Six has been indisposed the past week, and his wife is at the helm.

Miss Nellie Hibbard and some of her close companions from New Windsor, made a brief call at Grove Dale, on Saturday evening; and on Sunday afternoon Mr. and Mrs. Herbert Patterson, of Littlestown, and their great aunt, Mrs. Mary Biehl Dugan, spent an hour at the same place. Mrs. Dugan will return to Martinsburg, W. Va., this week.

Mrs. Addie Crumbacker, spent Monday at Clear Ridge, with the Charles Crumbacker family; where they had a busy day—jarring tomatoes, and getting fruits ready to preserve.

Mr. and Mrs. Roy Keiser out Emmitsburg way, and their niece, Miss Frances Bohn have planned a trip to New York and the World's Fair for this week.

The Harry Clabaugh family, Good Intent, and the Maurice Late's toured westward last week, after going 625 miles they sent a card from a camp in Michigan, and returned home Sunday evening.

The Mt. Union Sunday School picnic came to pass on Saturday afternoon, and everyone attending seemed to have a good time; but many were absent because of work or sickness. Roller skating at the new rink seemed to claim attention of the most; but the little folks enjoyed the sliding boards immensely, and one small man was stiff on Sunday from the exercise; while another big fellow came in too close contact with a splinter (not on the sliding board) so had to sit and "meditate"—like Josiah Allen when he wore his white tie trousers and sat in the huckle-berry pie by mistake. Some of the women played baseball; then everybody learned how to eat ice cream without a spoon—and that is a feat.

Saturday morning's mail brought us cards from vacationing friends at Geneva-on-the-Lake, Ohio—where they were occupying cottages at Chestnut Grove Park, for a week; from the World's Fair, N. Y.—a view of the Du Pont Chemistry building; and from Seaside Park on the Chesapeake, and all said "Having a good time."

There was Sunday School at Mt. Union on Sunday morning conducted by the Supt. F. P. Bohn; and C. E. Missionary meeting followed with J. E. Dayhoff, presiding and a general discussion on "managing our possessions," and special reading. Next Sunday morning the pastor will be home from his honeymoon vacation to fill the pulpit again.

A copy of the Record Herald, of Waynesboro, Pa., informs us of the disastrous fire of early Friday morning that destroyed the Geiser Manufacturing Co. building, one of the oldest manufacturing plants in Waynesboro. Origin of the fire which broke out about 1:00 A. M. is unknown, but the loss is estimated at not less than \$50,000. Five Fire Companies responded to the call for help, and poured tons of water on the dwellings, but only minor injuries to a number of persons were reported. On tanks stored near center of the building, exploded, and as the flames mounted upward the lighted sky was visible many, many miles away. A wolf alarm for the towns people that night!

One week until school bells ring again, the buses with their lively passengers will make their daily rounds, we'll meet the new Principal, select our chums, observe the handsomest girl and boy—decide whether we'll like them or ignore them, find the new lessons, and choose our athletics for another season. "Life is so full of a number of things."

The first practical typewriter was patented August 26, 1843, nearly one hundred years old now; but what an invention that was!

The neighbors are digging their potatoes from the ground—with satisfactory results.

Tuesday—more rain, water everywhere; hard on the peach crop, and to gather sweet corn and tomatoes from the fields.

For good nutrition, one or more servings of potatoes daily, one of a leafy, green or yellow vegetable, to-matoes three or four times a week, and some other vegetable four or five times a week are required.

"Pa," asked Johnny at a circus, "if one of those Arabs would fall and knock all his teeth out, would he talk gum Arabic?"

LITTLESTOWN.

Paul E. Miller, Hanover R. D. 1, was sentenced to 10 days in jail in default of payment of a fine and costs on a charge of hauling coal with illegal weight slips. The charge was filed before Justice of the Peace H. G. Blocher, by John E. Millhimes, county sealer of weight and measures.

Another one of Mr. and Mrs. Winfield Lippy boys enlisted in the United States Army. This makes three of the Lippy boys that join the army, and one of Mr. and Mrs. George Meadland boys join the army. This is the third Meadland boys that joined the army.

Darrall Ecker, youngest son of Mr. and Mrs. Charles Ecker, Lumbard St. ran a spike through his left foot, the accident occurred at the Littlestown Cannery Company, where he is employed.

Robert Myers is building a home on West King St. extended. Work on the dwelling was begun this week upon completion it will be occupied by Mr. and Mrs. Myers who were married this summer.

Jacob J. Eppley, Two Taverns, died early Tuesday morning at the age of 75 years. Death followed an illness of three months. Mr. Eppley conducted a blacksmith shop for sixty years. He was a member of Grace Lutheran Church. He is survived by his wife, the former Ella Snyder. Funeral was held Friday afternoon in the church. Rev. Dr. J. M. Myers, officiated. Burial was made in the church cemetery.

The weekly concert on Saturday evening was given by the High School Band of New Oxford State Champion under the direction of Paul Harner, the last concert of the season will be given August 31 by the Carroll County Reed Band.

Mr. and Mrs. Orville LeGore, of Dixon, Ill., are spending two weeks with Mr. and Mrs. Kenneth Myers and other relatives in town.

Dr. Herbert Stoner, returned to his home in Baltimore, after spending a week with his mother, Mrs. George Stoner at her summer home at the edge of town.

The Rev. and Mrs. John A. Frehn, daughter and son, are spending a ten days vacation at the homes of their respective parents at Shippensburg and Lees Cross Roads.

Relief payment in Adams County last week was \$721. 142 checks. This is 87 less checks, and saving of \$723 than a year ago.

Mrs. Helen G. Hirt, wife of John Hirt, Lumber St., died at the Annie M. Warner Hospital, Gettysburg, on Wednesday afternoon from a complication of diseases at the age of 45 years. She had been a patient in the hospital for over two weeks. She is survived by her husband, two children, her parents, Mr. and Mrs. John Cratin, two sisters and three brothers. Funeral was held Friday morning in St. Aloysius Catholic Church. Rev. Joseph N. Whalen, officiated. Burial was made in the church cemetery.

Joseph Riden, East King St., has received the highest award of the Boy Scouts of America. The young man has attained the rank of an Eagle Scout.

Mr. and Mrs. Burton Smith and son of Orlando, Fla., spent several days visiting Mrs. Smith's grand-mother, Mrs. John Mayers.

Miss Ruth Hahn, Baltimore, spent the week at the home of Miss Edna Sauerhammer, near town.

Mr. and Mrs. John Krug and son, Kentland, Ind., are visiting relatives and friends in this vicinity.

Miss Myrtle Kuhn, daughter of Mrs. Eugene Kuhn, Cemetery Street and Fred Leister, R. D., son of Mr. and Mrs. John Leister were united in marriage Saturday afternoon in St. Mary Lutheran Church, Silver Run, by Rev. W. E. Saltzger. The couple will reside in a newly furnished apartment in the Kump building.

Miss Martha G. Seymour, daughter of Mr. and Mrs. Sylvester Seymour, Bonneauville, and Robert B. Groft, son of Mr. and Mrs. Ben W. Groft, Centennial, were united in marriage at a Nuptial High Mass, Saturday in St. Joseph Catholic Church, Bonneauville.

Jacob Trone's friends will be glad to hear that he has returned to his home, and getting along as well as can be expected.

Mrs. Joseph Rang, is visiting her son-in-law and daughter, Dr. and Mrs. Ray O. Shaughnessy, Lockport, N. Y.

A number of young people from town, participated in the hay ride and corn bake held by the youth Council of Adams County, which was held at St. Luke Church.

A piece of apparatus from the Fire Company went to the I. D. Crouse & Son Lumber Yard, at 8 o'clock Friday night. Firemen used chemicals to extinguish a fire in the saw dust beneath the shop and office. The fire was first discovered in the afternoon when smoke filtered into the building. Employees at the lumber yard poured water on the smoldering saw dust. Chief of Police H. S. Roberts found the sawdust still smoldering when he went to the yard. He called the firemen. Conducting an investigation he learned that three youths had been smoking beneath the building. He reprimanded the boys and warned that any children found playing around lumber yards and mills will be arrested. Remember boys if Police Roberts talks, why he means what he says.

Twenty-three Rotarians and wives enjoyed a boat ride down the Chesapeake Bay, Thursday evening.

Chief of Police H. S. Roberts is still in the business of arresting auto drivers for failure to observe the stop signs. Only 6 arrests last week.

Ray Hahn, was discharged from the Gettysburg Hospital, and Mrs. Theron Bowers and Steward Schildt have been admitted as patients.

The Fire Company held its annual picnic Friday evening. Due to the weather it was held in the engine house, instead at the farm of Dr. and Mrs. C. A. Spangler, near town.

Ethel Sauerhammer left Tuesday for her home in Lansdowne.

UNIONTOWN.

Robert Hoy, Philadelphia, spent from Wednesday until Sunday with his uncle and aunt, Mr. and Mrs. Clarence Lockard.

Rev. M. L. Kroh, wife and sons, Millard and Henry, Seven Valleys, Pa., former residents of this place, called on friends here, on Thursday.

Harold Smelser, Jr. and James Caylor, spent Sunday with their home folks.

Miss Miriam Fogle, Baltimore, is spending her vacation with her parents, Mr. and Mrs. H. B. Fogle.

Rev. Stone, a former Methodist minister here, with Mrs. Stone and children were visitors, in town, Sunday.

Mr. and Mrs. Raymond Kaetzel, daughter, Joyce Fidelia; Mrs. Wm. Caylor and Elizabeth Caylor, spent Thursday at Central Manor Camp, Pa. Mrs. Kaetzel was one of the afternoon speakers and at night showed moving pictures of Dr. Fidelia Gilbert's medical missionary work in India.

Mr. and Mrs. Walter Devilbiss, son Snader, are visiting the former's parents, Mr. and Mrs. Snader Devilbiss.

Some of our young people have had the privilege of taking part in the musical program under the direction of Prof. Philip Royer, which has been given at a number of churches. This has been a wonderful opportunity and should be greatly appreciated. Much credit is due Prof. Royer.

G. Fielder Gilbert has had an oil burner installed in his home.

Mrs. Alice Brough is visiting friends and relatives in Highfield, Pa.

Rev. C. E. Manherz, Selinsgrove, Pa., and mother, Mrs. Sue Manherz, Waynesboro, Pa.; Emory Englar, daughter, Miss Ethel Englar, Baltimore, called on their cousin, Miss Jennie Trite, during the week-end.

Mr. and Mrs. Roswell Dubs and son, Junior, Hanover, spent Sunday with Mrs. Flora Shriner.

Mr. and Mrs. Chas. Winters and Mrs. D. C. Dickensheets spent the past week with Mr. and Mrs. William Dickensheets.

Recent visitors of Mr. and Mrs. Aaron Plowman included Harvey Benedict, Illinois, and Arthur Benedict, Snyderburg.

Miss Eleanor Birnie, Washington, D. C., was a week-end guest of her uncle, Milton A. Zollicoffer.

Mr. and Mrs. Roy Haines and Mr. to dinner Tuesday evening at the ited relatives at Upper Marlboro, and Halethorpe, on Thursday.

Mr. and Mrs. Edward Best, Allentown, Pa., visited the latter's mother, Mrs. W. G. Segafosse, during the week-end.

The Carroll Garden Club will hold its September meeting on Wednesday afternoon, Sept. 4, at 2 o'clock, at the home of Mrs. C. Edgar Myers.

On Friday afternoon, Aug. 23, a very pretty wedding was solemnized at Pipe Creek Church, when Miss Thelma Senseney Snader became the bride of Mr. Jacob Replogle, Washington. After a short honeymoon through Virginia they will reside in Chicago, Ill., where the groom is attending Bethany Theological Seminary.

Betty Hoch, spent from Thursday until Sunday with her cousin, Mrs. Chas. Hobecker, Washingtonboro, Pa.

Mrs. G. Fielder Gilbert was removed to her home from the Hospital in the ambulance.

Rev. George E. Bowersox and bride have returned from their honeymoon and are at home at the Lutheran parsonage.

Howard Burrall, Lebanon, Pa., called on Mrs. George Shoemaker, on Sunday. Mrs. Maurice Brooks who has been visiting Mrs. Shoemaker returned to her home in Baltimore.

Mrs. Annie Hoch visited her son, Thomas Hoch, Columbia, Pa., the past week while Rev. and Mrs. John Hoch attended Central Manor Camp and spent some time with the David Newcomer family, at Washingtonboro, Pa.

Mrs. Harry Fowler was entertained and Mrs. A. G. Riffle, Taneytown, visahome of Earl Bowers, Taneytown, in company with her uncle and aunt, Mr. and Mrs. Isaac Rodkey, Edmond, Okla.; Mr. Jonas Bowers and granddaughter, Indianapolis, Ind. and Mr. and Mrs. Truman Bowers, Littlestown, Pa.

LINWOOD.

Mrs. Josephine Thomas, of Mt. Claire, New Jersey, returned to her home Monday, after a pleasant ten days visit with Mrs. R. Lee Myers.

Mr. and Mrs. J. Frank Englar enjoyed a three days visit at Atlantic City.

Rev. and Mrs. Ankrum, daughter, Mary Alice; Mr. and Mrs. William Davis left Saturday for Ashland, Ohio, to attend the National Conference of the Brethren Churches.

Mr. and Mrs. Harry Butler, Mrs. Martha Dayhoff and daughter, Mrs. Roger Fritz, attended the "Dayhoff" reunion at Pipe Creek Park, Sunday.

Mrs. Thomas, Mrs. Sheppard, Mr. and Mrs. John Englar, Mrs. Morris, Robert Myers, and E. M. Rouzer were Sunday guests of Mrs. R. Lee Myers. In the afternoon they attended the Englar reunion at Pipe Creek Church. A number of our citizens also attended.

Mrs. Ella Bovey, Mr. and Mrs. Brayden Ridenour, Mr. and Mrs. John Smith and daughter, Ella, of Hagers-town, called on Mrs. S. S. Englar on Sunday afternoon.

Mr. and Mrs. Claude Ertler, daughter, Jane and Mrs. Walter Brandenburger, enjoyed a week-end sightseeing trip to New York and the Fair.

Mr. Jesse Garner and sister, Miss Emma, have returned from Central Manor, Pa., where they attended the Church of God camp meeting.

Parents would be shocked if they knew how much their children know at the age of five.

NEW WINDSOR.

Mrs. Marker Lovell accompanied her son, John and wife, on a week's tour of the Northern States and Canada. They were overnight guests of Mr. and Mrs. Clarence Seabrook, Hazleton, Pa. and Mr. and Mrs. Chas. Kindleberger and family, at Ithaca, N. Y. Mr. and Mrs. Kindleberger were former residents of New Windsor. Mrs. Kindleberger having been a former teacher of New Windsor school.

The members of the B. Y. P. D. of Pipe Creek Church of the Brethren enjoyed a straw ride to Geiman's Park, near Gettysburg, Friday evening.

Mrs. H. W. Smith returned to her home in Brunswick, after a month's visit with her sister, Mrs. W. Oliver Haines.

The marriage of Harvey Haines son of Mr. and Mrs. Oliver Haines to Miss Mildred Nicholson, of Mt. Airy, took place Saturday evening at the Methodist Church, in Mt. Airy. Rev. D. W. Dickey performed the ceremony. Only members of the immediate families were present. Mr. and Mrs. Haines will reside at the home of the groom's parents.

Mrs. Walter Harman who has been a patient at a Baltimore Hospital, has returned to her home. Mrs. Harman is improving nicely.

Miss Charlotte Burrier and Miss Betty Walters are spending several days in New York City, attending the World's Fair. They are in company with a group of 4-H Boys and Girls from Maryland being chaperoned by state leaders from University of Maryland.

Mrs. Lulu Clemson has returned to her home in Baltimore, after spending a week with her cousin, Mrs. R. Smith Snader. While here she was entertained by Mr. and Mrs. George P. B. Englar and Mr. and Mrs. Jos. Englar.

Mr. and Mrs. Clarence Linard and children, Leon and Eurith, are spending some time with Mrs. Linard's parents, Mr. and Mrs. Clarence Enzor.

Mrs. Edith Baugher visited her aunt, Mrs. Margaret Engle the past week.

Rev. and Mrs. John Ross Hayes are visiting at the home of Mrs. Hayes parents, Mr. and Mrs. Truman Lambert. Miss Dorothy Lambert who spent several weeks at the home of Rev. and Mrs. Hayes returned.

Miss Mary Pety spent several days at the home of her uncle and aunt, Mr. and Mrs. Wm. Haines, near Westminster.

Mr. Fred Yohn, who has accepted a position with an ice company at Owings Mills, will move with his family to that location, Sept. 1st.

The marriage of Mary Elizabeth Buckley to Granville Edward Bixler, took place Saturday, Aug. 24, at noon in St. Paul's Reformed Church, Westminster. Rev. Nevin Smith performed the double ring ceremony. Mr. and Mrs. Bixler are spending their honeymoon at Cape Cod, Mass., and upon their return will reside in New Windsor.

Mr. and Mrs. Elvert Miller who have been spending the summer at Oklahoma, where Mr. Miller has been serving as pastor, are spending a week at the home of Mrs. Miller's parents, Mr. and Mrs. Preston B. Roop, Mr. and Mrs. Miller will be located in Chicago where Mr. Miller is a student at Bethany Bible school.

Earle Lantz who met with an accident on his way home from Baltimore last Wednesday is getting along nicely at Md. University Hospital.

Mrs. John Baile and daughter, Sara, returned home on Wednesday from a trip to Nova Scotia.

TOM'S CREEK.

Miss Katherine Eyer, of Philadelphia, spent the week-end with Mr. and Mrs. Norman Six and family.

Miss Katherine Wolfe and Dorothy Trout, spent the week-end at Atlantic City, New Jersey. They also visited relatives in Philadelphia and Merchantsville, New Jersey.

Miss Agnes Valentine, spent Sunday afternoon with Miss Annabelle and Hilda Deberry.

Mr. and Mrs. Maurice Martin and daughter, of Illinois, spent Monday evening with Mr. and Mrs. Raymond Baumgardner and family.

Mr. and Mrs. Ephraim Grimes and Miss Annie Wertz, spent Friday evening with Mr. and Mrs. Robert Grimes and family.

Mr. and Mrs. Raymond Baumgardner and daughter, Betty, and son, James, spent Thursday with Miss Frances Baumgardner, a student at St. Joseph's Hospital, Baltimore.

Mr. Mark Baumgardner and Karl Smith and Howard Fitez, of Taneytown, and Donald Moser, of Westminster, spent Sunday at Carlin's Park, Baltimore.

Mrs. Otto Christensen and daughters, Norma, Benda and Sylvia, Philadelphia, is spending from Monday to Saturday with her mother, Mrs. Carrie Dern.

Mr. and Mrs. Thomas Motter, of Waynesboro, spent Monday evening with Mr. and Mrs. Norman Six and family.

Mrs. Otto Christensen and daughters of Philadelphia, and Mrs. Carrie Dern and daughter, Rieta, were dinner guests at the home of Mr. and Mrs. Robert Grimes, on Tuesday.

Mr. and Mrs. Edgar Grimes and son, Clyde, of Mt. Airy, spent Sunday evening with Mr. and Mrs. Raymond Baumgardner and family.

Mr. and Mrs. Carl Baumgardner and daughter, Audrey and son, Wayne and Mrs. Thomas Baumgardner, spent Sunday with Mr. and Mrs. William Morrison and Mrs. G. M. Morrison, of Baltimore.

Mr. and Mrs. Wilbur Naylor and family, and Miss Betty Cline, spent Saturday, at Carlin's Park.

Mrs. John Keilholz, who has been ill, is improving at the Annie Warner Hospital, Gettysburg.

Those who called at the Thomas Baumgardner home, on Sunday, were Mr. and Mrs. Charles Knox and family, of Emmitsburg; Mr. and Mrs. Weldon Shank and family, of Zora, and Mr. and Mrs. Earnest Lawrence, of Taneytown.

HARNEY.

The 50th. anniversary of St. Paul and Mt. Joy Lutheran Church will be celebrated with special program 2nd. week of October, 1940.

Mrs. Hannah Eckenrode had as visitors Sunday, Miss Gertrude Davis, of New York City, and Frank Fleschman, New Oxford, Pa.

Mr. and Mrs. Guy Warren and daughter, Rhea, Keysville, were Sunday visitors of Mr. and Mrs. Quintin Eckenrode, Sunday.

Mrs. Ella Null and daughter, Mrs. F. Swain, Baltimore, called on Mrs. Wm. Reck, Saturday afternoon.

The Harney school will open on Wednesday, September 4, with a full day's session. Any beginners' who haven't registered may do so on Tuesday afternoon from 2 to 3:30 o'clock, birth certificate will be required. Mrs. Alberta Lanier, Clara Devilbiss, teachers.

The sale of J. Wm. Slagenhaupt brought quite a lot of antique dealers here and good prices were realized. The land was purchased by Mrs. Maud Wantz, and the dwelling by Martin Zimmerman. Land \$556 and the dwelling \$500.50. Joseph Kelly, executor.

Miss Dora Margaret Witherow, visited her home folks of Avon, N. Y., over the week-end.

Mr. and Mrs. Lake Harner and family, New York, visited friends and relatives in the vicinity, and attended the Witherow reunion, Aug. 24th.

Mrs. Jennie Welty, of Middleburg, Md., spent the week-end with her son Earl and family.

Martin Zimmerman who bought the J. W. Slagenhaupt property has been making improvements. Expect to remove all buildings, but house, which he will paint and remodel interior, and make many more improvements.

Mr. and Mrs. Wade Brown and daughter, Barbara, of Littlestown, R. D., spent Sunday afternoon with Mr. and Mrs. Harry Clutz and Mrs. Rosa Valentine.

Mrs. Romaine Bragon, Frederick, was evening dinner guests of Mr. and Mrs. Samuel Valentine and son, Geo., one evening last week.

Services at St. Paul's Church, Sept. 1, 8 o'clock. Rev. Paul Beard, pastor.

FRIZELBURG.

Sabbath School will be conducted here next Sunday, at 10 A. M.

Those attending the World's Fair from this locality this week, are: Mr. and Mrs. Russell Warehime, son Richard, a relative, Mr. and Mrs. Walter Brillhart, Mrs. Elder Hare and Miss Luyetta Wantz.

Mrs. Mattie Myers, who was on an extended visit to her sister, Mrs. Ella Mehring, in Gettysburg, returned home on Monday.

Cheering news has reached here telling us the Miss Bessye Zile's condition shows perceptible improvement.

Mrs. Jacob Rodkey spent three days with Mr. and Mrs. Charles Reed, Sun Set Lane, on the Manchester road Mr. and Mrs. Hively Gladhill and family, who occupies one of Paul Warehime's apartments expects to move to Westminster, about September 1st.

Mrs. Walter Brillhart and Mrs. Walter Senft attended a class meeting recently held at the home of Mr. and Mrs. David Starner, Annapolis.

If summer has borrowed this cool spell from Autumn what will it give in return.

Mr. and Mrs. U. G. Heltbride and daughter, Westminster, and Mrs. Margaret Jordan, of Baltimore, visited Mr. and Mrs. Ross Heltbride and mother, on Sunday afternoon.

Mr. C. O. Dickensheets, who was quite ill last week is convalescing and able to resume work.

Mrs. Jennie Myerly left on Thursday for Randallstown, where she will visit folks for ten days or two weeks.

KOONS REUNION.

The eighth annual Koons reunion was held on Sunday, August 25th, at Big Pipe Creek Park. They assembled at about 11 o'clock and spent some time in social chat.

At 12:30 o'clock lunch was served to which all did ample justice. Notwithstanding the disagreeable weather eighty persons were present.

At 2:30 o'clock the assembly was called to order by the President, Theodore Koons and the Devotional exercise was dispensed with. Opening hymn, "Faith of Our Fathers," followed by the reading of the Scripture by Mrs. W. D. Ohler; Prayer was offered by J. B. Koons; Selection by the Mathias trio.

The officers elected to serve for the next reunion are: Theodore Koons, President; Delmont E. Koons, Vice-President; W. D. Ohler, Secretary, LeRoy Spangler, Treasurer.

It was decided to hold the next reunion the fourth Sunday in August, 1941 at the same place. Meeting was closed by singing, "God Bless America," and Prayer by C. W. Brooks.

THE FOX REUNION.

The first annual Fox reunion of the children's grand-children and great-grandchildren of George W. Fox was held at Big Pipe Creek Park, on Sunday, August 25th, 1940.

Those present were: George W. Fox, Norman Fox and wife, George Deberry and wife, John Steinhour and wife, Charles Sell and wife, Mrs. Luther Fox, Henry Feeser and wife, Paul Deberry and wife, Marlin Six and wife, George Fox and wife, Maurice Becker and wife, Clyde Sell and wife, Edward Sell and wife, Carroll Mackley and wife, Miss Frances Sell, John Barrett and wife, Mrs. Virginia Triplet, Miss Isabelle Fox, Lloyd Mehre and Paul Feeser, Junior and Carl Fox, Audrey, George and Marlin Six, Julia Ann, Patsy and Charles Becker, Bobby Sell, Jimmie Sell, Virginia and Edward Triplet, Virginia Steinhour, Mrs. Edith Laisure, Mrs. Helen Hiltseberger, Charlie Sell and Russell Fair.

COMMUNITY LOCALS.

(Continued from First Page.)

Mr. and Mrs. John Hoagland, New York, are spending from Tuesday until Sunday here.

Mrs. C. L. Russell, Jr., of Pampa, Texas, is the guest of her parents, Rev. and Mrs. Thurlow W. Null.

Mrs. Roy F. Carbaugh and daughter, Mildred, spent the week-end in Atlantic City, N. J.

Dr. and Mrs. Francis T. Elliot returned on Wednesday evening following a tour through the Virginias.

Miss Shirley Wilt, spent from Saturday until Wednesday with her sister, Mrs. James Baumgardner and family, in York.

Mrs. Ida Landis has removed to Hagerstown, where she expects to make her future home. Mrs. Landis has been one of Taneytown's good citizens for a long while.

Mrs. Andrew F. Christopher and daughter, Janet, of Hurlock, Md., and Mrs. Samuel W. Wheatley, Eldorado, Md., spent Monday and Tuesday with Mr. and Mrs. Charles L. Stonesifer.

Mr. and Mrs. John Moser and son, of near Westminster, and Mrs. Reuben Alexander, recently took a trip to Missouri, Illinois, Kentucky, making nearly three thousand miles.

Mr. and Mrs. Andrew Alexander, daughters, Mary Louise and Dorothy, and son, Andrew, Jr., left Friday to visit the New York World's Fair and relatives in New London, Conn.

Mrs. Wilbur Eckert and children, James and Joan, and Miss Rita Rose Daumbaud, New York City, returned home today, Friday, after spending several weeks at the home of the former's father, Mr. David B. Shaun.

Prof. and Mrs. Maurice Waltersdorf son, John and Mrs. Mary E. Crapster, of Washington, Pa., are spending several weeks at their cottage along Monocacy and at Gettysburg, Pa., with Mrs. J. T. Huddle.

Miss Mildred Carbaugh will return to the Woman's Hospital, Baltimore, on Sunday where she is a student nurse. She has been spending a two weeks vacation with her parents, Mr. and Mrs. Roy F. Carbaugh.

Mr

Frizellburg—Sunday School, 10:00 A. M. Mr. Marshall Mason, Supt. Prayer Meeting and Bible Study on Friday evening, at 8:00 P. M.

WOODBINE.

At last the drouth is broken—we are now having a week of rain accompanied by cold winds.

Building is progressing rapidly in our little village. Workers have begun the Lutheran parsonage, which will be erected at the site of the former one which burned down about fifteen years ago. Mr. and Mrs. Arthur Condon are building a semi-bungalow on the lot they recently purchased from James A. Jenkins, Sr. William Pickett's Cape Cod cottage at the top of Woodbine hill is nearing completion.

The terrible wreck which occurred on the B. & O. R. R., the early part of the week, attracted many spectators from far and near.

Mrs. Raymond Haines is confined to her bed for several days. Mrs. Minnie Ireley and son Reginald, of Passaic, N. J., were overnight guests of Mrs. G. H. Baker, Morgan Road.

Mr. and Mrs. George Buckingham and son, have moved from Alexandria Va., to the summer home of Mrs. Chas. Farman, who has returned to her home in Baltimore, where her son attends school.

The Morgan Chapel Aid Society met at the home of Mrs. Lucinda Reaver, Wednesday afternoon. Jewell Haines has returned home after a two day tour to New York and the World's Fair.

STONE AGE STUFF
The Poor Cave Man Had No Newspaper To Advertise In. But You Have!!

NO TRESPASSING

The name of any property owner, or tenant, will be inserted under this heading weekly until December 15th., for 25 cents cash in advance.

All persons are hereby forbidden not to trespass on my premises with dog, gun, or trap, for the purpose of shooting or taking game of any kind, nor for fishing, or in any way injuring or destroying property.

This warning applies to both Day and Night Hunting or Trapping. Diehl Brothers Mehring, Luther D.

Find Panama Is Rich in Relics

Hundreds of Rare Objects Dug Up at Site of Indian Graves.

PHILADELPHIA.—Several hundred gold objects of "exquisite workmanship," representing an advanced pre-Columbian culture and described as "comprising one of the richest finds ever made by a scientific expedition working in the Western hemisphere," have been dug up at the site of an Indian burial ground in Panama by archeologists from the Museum of the University of Pennsylvania and will be put on exhibition at the museum.

According to Dr. J. Alden Mason, curator of the museum's American section, the Spanish conquerors in the Sixteenth century obtained "tremendous quantities" of gold ornaments of this kind but melted most of them down and shipped the metal to Spain.

The gold relics, together with many pottery and stone objects, were recovered at the Sitio Conte, or Conte-Site, in the Province of Coclé, about a hundred miles west of Panama City and 10 miles from the Pacific ocean.

Found With Skeletons.

At least half of the gold objects found by the expedition came from 1 of 23 skeletons in three levels of a single grave. Presumably that of a chief, it had five of the large plaques or disks, as well as five smaller disks of thinner gold but also with ornate pictorial repousse ornamentation, and 30 small, thin gold disks with simple designs. Dr. Mason pointed out that reports of the Spanish Conquest stated that the chiefs wore gold disks in battle.

On the skeleton of the same tribal chief who wore the 40 gold disks lay a pendant of heavy gold more than four inches long, in the form of an ornate animal figure, "probably a conventionalized crocodile," with an emerald about an inch in diameter set in its back. Dr. Mason called this "one of the most beautiful and extraordinary gold objects ever found in America."

"The use of precious stones in a setting of gold," he said, "is extremely unusual in native American cultures and few examples are known. The emerald is not of great commercial value and was probably obtained in Colombia."

This same chieftain also wore wristlets and anklets, including a beautiful pair of cuffs of solid heavy gold seven inches long.

Interesting Objects.

In the opinion of Dr. Mason some of the most interesting objects found were animals and human figures of carved bone, ivory or rosen, with features such as feet, tails, wings and heads of gold applied to them as onlays.

"These," he said, "are very fragile though very beautiful and required careful museum treatment before exhibition. The ivory employed apparently came from the teeth of the sperm whale or manati ribs. Other typical objects are whale teeth with heads or ferrules of gold."

Hundreds of stone axeheads and thousands of projectile points, along with several teeth of a fossil shark "which were apparently found in the Cretaceous strata and preserved as fetishes" comprised other discoveries of the expedition.

The burying place at which the members worked apparently covers four or five acres and presumably was reserved for the nobility, chiefs, their wives and servants.

Bobcat as Deer Slayer

Is Declared Not Guilty

SHINGLETON, MICH.—An experiment conducted by the Michigan conservation department at the Cusino game area near here indicates that the evil reputation of bobcats in the minds of deer hunters may be undeserved.

S. C. Whitlock, pathologist in the game division, said he had not found a single instance of a deer being killed by a cat in four years of feeding experiments. He has personal knowledge of one instance where bobcats passed through a one-acre fenced plot in a natural deer yard in a swamp and apparently paid no attention to the five deer, two of them fawns.

Census Deflates Quip

Of Small Missouri Town

KING CITY, MO.—For 10 years King City residents used a catchy quip to reply to questions of visitors regarding the town's population.

"It's 1,101 and I'm the one," was the stock answer.

Now all that will be changed. The 1940 census count lists the population at 1,100.

So many claimed to be "the" one that something had to be done about it—that was the theory of one census taker.

Judge Fines Both Drivers

After Head-on Collision

HAGERSTOWN, MD.—Magistrate E. H. Miller believed both drivers involved in a head-on crash. Victor B. Wolfe, 19 years old, and Herman J. Kuhn, 27, each said the other was over the center line in the road when their cars collided. Judge Miller fined them both.

Indian Legend Is Revived by Census On the Mississippi

Story of Valiant Maiden's Death Leap to Join Her Lost Lover.

MILWAUKEE.—An obscure census item about an obscure Wisconsin river town might well be forgotten except that it seems to insure perpetuation of one of the most affecting legends of the American Indian.

It is the legend of Maiden Rock, a story of a valiant Indian girl's death leap which permitted her to join her lover in the happy hunting grounds.

Had it a Longfellow to give it detail and beauty of phrase, rather than the bald words in which it now is recorded, the story might be as well known as that of Hiawatha.

The legend concerns the river town because the town is named Maiden Rock, after the Mississippi river bluff where the tragedy took place. And had the community been more propitiously touched by the wand of commerce and industry, it might have grown into a large city which would have cast aside its somewhat poetic name and chosen something different.

Pleasant Place.

But with the census showing a drop in population from 311 ten years ago to 291 today, Maiden Rock seems destined to remain just what it always has been, a pleasant little place on the shores of Lake Pepin.

The legend goes that many young braves came to court the beautiful Wenona, daughter of Red Wing, a Dakota chief. But Wenona was in love with White Eagle, a young Chippewa, and would have none of them.

Red Wing violently opposed the match because the Dakota and Chippewa tribes often were at war. He vowed that he would kill Wenona rather than have her marry a Chippewa brave. Red Wing himself had chosen Kewauanne, an old Dakota chief, for Wenona's husband.

The young lovers would meet atop a high bluff overlooking the Father of Waters at the point where it spreads out to become Lake Pepin. When Wenona found that her father had sent his warriors after White Eagle, she ran to their trysting place.

Surrounded by Foes.

White Eagle was thrilled at the meeting, yet begged that she go with him to his own people. As he pleaded, the Dakotas surrounded him.

He fell at Wenona's feet, an arrow through his heart, and she held him while his life ebbed. Then she poised on the edge of the steep bluff, and before her tribe could stop her, cast herself on the cruel rocks below.

Red Wing recovered the broken body and mourned her death to the end of his days.

The bluff from which Wenona leaped became known as Maiden Rock point. It is some half-dozen miles south of the town itself, visible the entire distance because of the southwestern curve of the lake-shore. In rugged beauty, few bluffs along the Mississippi compare with it.

For several reasons the legend bears the stamp of truth.

It concerns a specific location. It is told without reference to earth-inhabiting spirits and monsters so prevalent in Indian lore. And the ending is unhappy. A romanticist would have changed it long ago.

The characters and tribes involved live in memory through the names of rivers, cities, counties and states. Even the young brave's name was borrowed by a gasoline company!

But to none of them is the legend as close as it is to the village of Maiden Rock itself.

More Glamour Stripped

From Medieval Castles

NEW WILMINGTON, PA.—The common idea that medieval castles were wonderful places in which to live "is all wrong," according to Dr. Leon Marshall, head of the department of history at Westminster college.

"A medieval castle had about as much privacy as a tourist camp," Marshall said. "The lord and lady had the only private rooms, mere alcoves, just large enough to hold a bed, off the main hall near the fireplace."

Besides, added Marshall, the medieval heating systems weren't "so hot," either. Only one large fireplace in the main hall served to try to keep the entire building warm.

Couple Wed 27 Years,

Lack Proof, Remarry

NEW BRITAIN, CONN.—Mr. and Mrs. Salvatore Cefalu were married 27 years ago. But Cefalu couldn't prove it when he sought citizenship papers. The justice of the peace who performed the ceremony failed to file a record of the marriage in the town clerk's office.

There was only one thing to do. Cefalu married his wife all over again.

Cutter Cut Down

MECHANICVILLE, N. Y.—John Whalen, a tree cutter, met death when a tree cut him down.

You Get to Salt Water at Oklahoma Oil Fields

From many of the prairies of inland Oklahoma it's less than a mile to salt water. That's because salt water lies directly below the rich oil fields. As an unwelcome byproduct of 4,400,000,000 barrels of petroleum, there were 13,200,000,000 barrels of brine. That's enough salt water, experts say, to cover 400,000 acres six inches deep with dry salt.

Formerly, this brine was allowed to drain down natural water courses. Devastation followed. Towns dependent upon rivers for their water supply got a brackish and unhealthful fluid. Trees and crops along the streams withered and died. Live stock perished.

Then the state stepped in three years ago to halt further losses. The big companies, plagued by damage suits for millions of dollars, were glad to co-operate.

Engineers began putting the water back under ground. Today 30 disposal systems are pumping 150,000 barrels of brine daily into the earth. In terms of dry salt, that's 6,000,000 pounds a day.

The oil companies paid the entire \$1,500,000 cost of the systems, aided in technical phases of the installations by the pollution department of the state division of water resources.

The disposal systems are relatively simple. A separator at or near the well cuts the brine away from the petroleum. Gravity lines carry the brine to a treating plant at the downhill end of the fields. These chemicals are added to coagulate the solids and the brine is run through a series of filters to take out impurities which might clog the permeable sands 300 to 7,000 feet below the surface, into which it is pumped.

Oil men's luck gave a fillip to construction of a disposal system by one petroleum company in Pontotoc county. At the lower end of the field, in territory believed to be "dry," drillers struck a 2,600 barrel-per-day gusher and had to move over a quarter mile before completing a successful dry hole.

Origin of 'Swing Low'

Of the origin of the spiritual, "Swing Low, Sweet Chariot," the Negro Year Book says: "A mother and her babe had been sold from a Tennessee plantation to go down into Mississippi, which was, to her, going to her death. To prevent the separation from her child, she was about to throw herself and babe into the Cumberland river. An old woman, seeing the mother's intentions, laid her hand upon the shoulder of the distressed mother and said, 'Wait, let de chariot of de Lord swing low and let me take de Lord's scroll and read it to you.' The mother was so impressed with the words of the old slave woman that she gave up her design and allowed herself to be sold into Mississippi, leaving her baby behind. The song, 'Swing Low, Sweet Chariot' by degrees grew up, as this incident passed from mouth to mouth."

Cool Drinks Without Ice

For campers and others who want cool drinks when ice is not available, relief is now being promised with the perfection of powders which through a chemical reaction produce a temperature of 20 degrees lower than ice in three minutes. A cocktail shaker with a special chamber in which the powders are mixed is supplied for cooling liquids, according to an announcement by the Canned Cold Chemical company.

Grandma's Menu, Too, Had Plenty of Vitamins

Grandmothers were good cooks and turned out meals with plenty of unsuspected vitamins when their store of foods permitted wide choice, but modern cooks in streamlined kitchens must be good cooks and also food engineers who can provide vitamins, calories, and minerals, without stuffing their families, say nutrition specialists at Ohio State university.

Cooks of the old school probably never heard of calories, but they knew folks who had plenty of different things to eat could live, work, and keep warm. Energy for these purposes came from the carbohydrates, fats and proteins, and grandmother learned quickly that the cooks who used plenty of butter, cream and eggs had the most guests.

Now, the minerals, calcium, phosphorus and iron are given attention by modern cooks because they are likely to be low in the average diet. Calcium and phosphorus form a large part of the bones and teeth. Some of the calcium, however, stays in the blood stream and is necessary for the proper functioning of the heart and the coagulation of the blood.

Vitamins were unheard of a few decades ago. Today, eight have been discovered, but vitamins A, B₁, C, D and G are the best-known. Quantities of vitamins and minerals were thrown away with the liquid from cooked vegetables until nutritionists showed homemakers the importance of cooking foods to conserve these health-giving nutrients.

Nutrition specialists point out that scientists have discovered how certain foods in the diet can prevent or cure pellagra, rickets, nutritional anemia and other body disorders. These findings have been a great boon to society.

A five-point diet worked out by the university specialists will furnish all the nutrients for the average person. It consists of the daily use of milk, tomatoes or citrus fruit, potatoes and green leafy vegetables, whole wheat bread and cereal, and eggs, meat, poultry or fish. Scientists have discovered that each person is a different problem in nutrition so each homemaker should appraise the physical fitness of all members of the family and plan the meals accordingly.

This Alien Was Right

Even if He Was Wrong

ALBANY, N. Y.—An Albany court official, after explaining the history of the American flag to a group of aliens seeking citizenship papers, asked one of them:

"Tell me, what flies over the city hall?"

The alien blinked a minute and replied: "Peejins."

Bottle Sets Mark

But It's in Reverse

SAN JOSE, CALIF.—An all-time record for not getting any place is claimed for the bottle J. J. Foley, department store assistant manager, dropped into the San Joaquin river at Stockton 10 years ago. A note in the bottle promised a pair of silk stockings to the finder. The other day came a letter from a claimant to the stockings, Shigeo Masuka, Stockton Japanese who found the bottle less than 20 miles from where Foley dropped it in.

Find Early Race Highly Civilized

Culture of Mound Builders Revealed in Recent Excavations.

WASHINGTON.—A full flowering civilization, not essentially inferior to that of the Aztecs in Mexico or the Maya in Yucatan, vanished without a trace in North America, probably a few generations before the first landing of Columbus. This is the conclusion drawn by Frank M. Setzler, head curator of anthropology of the Smithsonian institution, from an effort to reconstruct out of such scattered clues as are available the history of the Hopewellians, the mound builders of the Ohio and upper Mississippi valleys.

From the results of more than a century of research Setzler explains in a study just published by the institution a tentative picture can now be drawn of the ways of life of this mysterious people.

Construction of the large mounds, the surrounding earthworks and the hundreds of smaller mounds, he says, clearly required a dense population and a well co-ordinated society. This population must have had some stable economic basis.

"Hunting and fishing," he concludes, "no doubt were of some importance as evidenced by barracuda jaws and other fish remains and by the representation of birds and animals in realistic carvings on pipes.

Conscription of Labor.
 "There must also have been conscription of labor to construct mounds, which are 30 feet high, 150 feet wide and more than 200 feet long. We do not know what division of labor there was, but the excellence of the art suggests a special craft of sculptors and modelers. To obtain obsidian from the Rocky mountains, mica from the southern Appalachians, copper from Wisconsin and amphibians and fishes from the Gulf of Mexico required time for exploration. Since most of the large mounds were built to cover the bodies of the dead, accompanied by their personal adornments and other objects, one can postulate a well-developed ritual associated perhaps with a remarkable religious fervor.

"The specific form of government organization cannot be known, but certainly some regimentation is indicated by the great communal works.

"Possibly their political organization was a northern extension of the system that prevailed in Mexico and Yucatan, although very few specimens can be identified with Mexican deities. Copper-head ornaments and colored woven garments decorated with fresh-water pearls and mica suggest insignia of authority. At least persons with such attire would be set apart."

Impact of Two Peoples.
 This strange civilization, Setzler believes, resulted from the impact of two peoples, probably without definite conquest by either. A survey of the field shows the same culture, but in a simpler form, in the lower Mississippi valley and around the Gulf coast. It appears to have moved northward until it came in contact with a more primitive but apparently vigorous and progressive people.

No clue has yet been uncovered, Setzler says, that permits the dating of this development more closely than some time between the beginning of the Christian era and the coming of Columbus. There certainly were no Hopewellians left when the first white hunters and traders came into the Ohio valley, for not a single artifact of European origin ever has been found in the mounds. In fact, the country was then inhabited by woodland Indians who had no memory of their predecessors or even legends concerning them.

Thunder Is Injurious, Kansas Woman Finds

WICHITA, KAN.—There is an old saying that lightning may be dangerous, but that thunder never hurt anybody. But, like all axioms, it is not always true. If you don't believe it, just ask Mrs. Floyd Foster.

Mrs. Foster was lying in her bed asleep when a violent thunder storm struck the city. The claps of thunder were so sharp that the reverberations rattled windows and shook the walls of houses.

When the storm struck, Mrs. Foster woke up, but she thought there was no danger. She was about to go back to sleep again when a large chunk of plaster, shaken loose by the thunder, struck her in the face.

She suffered cuts on the face and had to be treated by a physician. Her baby, asleep in a crib near by, was not injured.

No. 1 Sunshine Town Wants Federal Proof

LAS VEGAS, NEV.—The Las Vegas Junior Chamber of Commerce likes to boast that this southern Nevada city enjoys the greatest amount of sunshine of any city in the nation—but wants to prove it.

The civic group adopted a resolution urging the chief of the federal weather bureau to install official sunshine recording instruments in the weather bureau here.

DECEPTION

By BARBARA BENEDICT
 (Associated Newspapers—WNU Service.)

SONIA said, "I want to tell you a story about a poor girl who was thrust at a rich man by her family. She was supposed to marry the rich man in order to save her family's social position and her father from financial ruin."

Darl Evans looked at Sonia and in the moonlight his face was very grave.

"It's a grand night for story telling. Go on, finish."

"That's about all," Sonia shrugged. "As in all good stories, the poor girl was, of course, endowed with many scruples and a very noble sense of honor. She hated the role she had been given, but her family had reared her from childhood, given her every advantage. She felt that she owed them that much. And that's the end of the story."

"The end?" said Darl. "But you haven't told me whether or not she found the rich man, whether she fell in love with him, whether or not she married him and saved the family from disgrace, bankruptcy, and ruin."

"That part of it," said Sonia, "doesn't matter."

Darl lit a cigarette. Suddenly he laughed.

"You know," he said, "that reminds me of a story that is so similar one might think they were written by the same author."

"Really?" said Sonia.

"In my story," said Darl, "the girl hated the man before she met him, simply because she knew he was rich and it was her ignominious duty to inveigle him into marriage. Even after she met him, she continued to hate him. And then what do you suppose happened?"

"I can't imagine," said Sonia.

"Well, after about six months, the girl discovered that the man was as poor as she. Like her father, he had lost everything in the crash and was merely putting up a front in the hope of one day marrying a very rich girl in order to rescue himself from a distressing situation."

"And the ending of your story?" said Sonia softly.

Darl crushed out his cigarette and gestured.

"I never did hear the ending. It was very annoying, too. So annoying that I improvised one to my own satisfaction."

"Both the girl and the man thought it was a great joke and went their respective ways," Sonia guessed.

But Darl shook his head.

"On the contrary, each confessed to the other. You see, they had fallen in love, and when each discovered the other's deception they realized they had been blinded by their individual purposes. There came an awakening, and both lived happily ever after. As man and wife, of course."

Sonia caught her breath and was silent for a long time. Then she said:

"Is yours a true story, Darl?"

"What do you think?" He caught her in his arms. "Sonia, I love you. Madly. Will you marry me?" She tried to free herself.

"You're forgetting—my story. You can't want to marry me."

"I'm forgetting everything, except that I love you. That's all I want to remember. That's all that's necessary. Look at me, Sonia. Look at me. You know I love you."

"Yes, I know. I—oh, Darl, you do love me. And I love you, too, so very, very much."

"That's all that matters. That's everything. Let's get married. Now. Tonight."

"Tonight? Darl, I can't. My—family. They'd never forgive me."

"It isn't they who should be forgiving you; it's you who should be forgiving them. This is something you'll have to decide for yourself. You'll have children of your own some day. Are you going to be selfish enough to expect them to dedicate their lives to your happiness—to give up everything they want and long for, because of your aged selfish pride?"

"No! No! Never! I couldn't be that cruel."

"Of course not. Then think of yourself—of us—that way. It isn't fair for anyone to expect you to deny yourself the things that they refused to deny themselves. To do so wasn't written in the great scheme of things."

Sonia looked up at him. There were tears in her eyes, but her face was radiant.

"And you want to marry me—despite everything?"

He laughed. "I should be asking that question. Will you marry me—despite everything?"

"Yes, Darl, dear, I'll marry you—because I love you."

"Despite what I've said, the story I told, despite even the consequences?"

"Despite everything, Darl."

He held her close in a long embrace.

They sat in the hammock on the terrace, looking up through the tree branches at the white moon. A gentle breeze stirred the leaves with a faintly rustling sound. A bird chirped sleepily somewhere overhead. Presently Sonia stirred.

"I'm glad I told you my story,"

she said. "It—it ended exactly as I wanted it to."

He laughed softly.

"And I'm glad I had the presence of mind to think up the story I told you. Otherwise, I'm afraid you'd never have agreed to marry me."

She looked at him quickly, apprehensively.

"Darl, wasn't the story you told me a true story? I mean, about yourself?"

"Well, not wholly. That part about the young man putting up a front in the hopes of catching a rich girl. I couldn't do that, any more than you were able to go on with your deception."

"You mean—?"

"I mean, sweetheart, you haven't been fooling me a single minute. I've known how things stood all along. But I loved you, and after a while I began to think you might love me. But in order to make sure, I had to put myself on the same level. Now that I know you do love me, nothing can change that. Nothing else matters."

She drew away from him, but he caught her in his arms.

"It wasn't fair," she said. "You—you deceived me into thinking you—"

"I did," he said, "exactly what you did. You tried at first to deceive me, and then because you loved me, you confessed. And I deceived you, too, but because I love you, I've confessed. Is one worse than the other?"

Sonia opened her mouth to reply, closed it again, regarded him steadily. "It—it's all sort of mixed up, isn't it?"

"Some things about it are," Darl admitted. "But there are one or two points that appear quite clear. No doubt at all about them."

He drew her close, Sonia yielded.

"No doubt at all," she breathed.

Home of Today Costs Less Than in 1926, Builders Say

Although the home of today contains innumerable conveniences and improvements of comparatively recent origin, it actually costs less to build than was the case in 1926, which many economists call the normal year, building experts point out.

One important point in home construction economy is in financing. Not only is it possible for the prospective home-owner today to buy a home with a small down-payment, which was not the case a few years ago, but the carrying charges are smaller, partly through the elimination of junior financing. The Producers' Council points out that, due to the "one long-term mortgage plan," most of home financing is 85 per cent cheaper than was the case in 1926.

Economies, as well as added charm and beauty, are effected in present-day home building through improvements in design. By means of compactness and more efficient arrangements, it now is possible to attain objectives that could not have been the case a few years ago.

Standardization, mass production, and various superior manufacturing methods, place the cost of building materials much less today than in former years and these economies are being passed along to the home builder.

Among the added comforts and conveniences of today, mention might be made of air-conditioning, insulation, copper and brass plumbing, weather-tight doors and windows, automatic heat, electrical equipment, better plumbing, and more convenient and efficient kitchen equipment.

The house of today, it might be added, is a safer place in which to live because of fire-resistant roofs and side walls, while the "tighter" construction makes for better health.

Lightning Plays a Game Of 'Follow the Leader'

SWAMPSCOTT, MASS.—A flash of lightning resembles a swift game of "follow the leader," G. D. McCann, an engineer of the Westinghouse Electric and Manufacturing company, said.

Reporting that his company had undertaken research designed to protect electric power lines against lightning's damaging effects, McCann told the summer convention of the American Institute of Electrical Engineers that investigators had used a fast camera to get data on how lightning operates.

He said a weak, almost invisible preliminary stroke, known as a leader or pilot, picks its way haltingly through the air at the "relatively slow speed of 100 miles per second." When the path to earth has thus been broken, he added, a full-fledged powerful stroke comes charging along the same route at nearly 20,000 miles per second. On its heels comes another, and perhaps another, at the same speed—the entire process lasting about a second, and constituting a single "flash."

Wild Animals of West Thrill CCC Boys of East

BUTTE, MONT.—Wild animals in their native habitat provide eastern boys in Civilian Conservation Corps in Montana with some of their biggest thrills, according to L. M. Stewart, assistant Deer Lodge National forest supervisor.

"Youth from New York and New Jersey at the Flint Creek camp near Philipsburg have seen every kind of animal in the forest and they get a big thrill out of it," Stewart said.

Frequently the camp foreman is called upon to identify animals and explain the difference in deer, elk and moose.

"But they all know a bear when they see it," Stewart said.

Novel School Teaching Rabbits How to Run!

ABILENE, KAN.—George Kibler teaches wild Kansas jackrabbits to run for their lives.

The jackrabbits are trained by Kibler to act as quarry for hounds in the National Coursing association's races held each spring.

Twice a day Kibler drives the wild rabbits through the racing course, teaching them to run from chutes directly to the escapes at the far end of the park and to slip under them.

Rabbits cost from 75 cents to \$1 each and each one that fails to elude the hounds goes down in the loss column of the association's books.

Fragrances Have Many Associations

Intangible and elusive as they are, fragrances have associations of many kinds, according to Elsa Rehmann's "Garden Making." They call up pictures of many climes and many countries. There is never a tiny whiff of hawthorn but visualizes English lanes in Maytime, pictures English gardens during spring, typifies England itself.

Fragrances are inseparably mingled with the character and habits of plants. Is not the cool greenness of boxwood the very keynote of its fragrant charm? Does not each tiny bell of lily-of-the-valley tinkle the pure delicacy of its fragrance? Is not the fragrance of pinks indefinitely mixed up with the careless mats of spreading grayness along the edges of paths?

Fragrance is inseparably mingled with flower color. Think of all the perfumed loveliness of nicotiana, honeysuckle, Madonna lilies, garden heliotrope, dictamnus; do they not call up memories of white flowers glistening in the dark of the evening? Or get a whiff of marigolds; does it not suggest gardens of rich and varied color; of pungent yellow, orange, red?

Paris in the Far North

Every large city in the United States lies to the south as well as to the west of Paris, France. In fact, the main portion of the United States is so far south of Paris that if an aviator were to fly straight west across the Atlantic and on to the Pacific, he would not be over United States soil until he reached the northern part of Minnesota after a long flight over Canada, north of Quebec and north of Montreal.

Then, from a point in Minnesota well north of Duluth, his route to the Pacific would skirt the Canadian boundary, over the northern tips of Minnesota, North Dakota, Montana, Idaho, and Washington.

65,000 to Drill in Biggest War Game

Second Army to Set Up Base In Wisconsin.

CHICAGO.—Speed, a dominant factor in modern warfare, will be emphasized next August when the Second Army sends 65,000 regular troops and National Guardsmen into central Wisconsin for the biggest war maneuvers held in the Midwest since 1918.

The troops will be equipped with 4,500 motor units and the war games will give thorough training in swift movements of troops and supplies.

Lieut.-Gen. Stanley H. Ford, commander, indicated the type of training that will be given the soldiers in his first training directive, which said "the maneuvers will provide mobilization training, movement of troops to and from the concentration area, tactical operations and the organization and function of the various supply services in the Second Army."

The directive added that the troops will be given training in defense against mechanized attack and protection of both the front and rear lines.

This emphasis on speed and rear line defense is an indication of the lessons the American army is learning from Europe's present war, in which Adolf Hitler's fast-moving German troops have demonstrated the effectiveness of encircling movements.

The general headquarters will be set up at Camp McCoy, where they will be maintained during the course of the games that begin August 12 and close August 31.

Included in the men participating in the maneuvers will be 20,000 regular troops. The National Guard will send 10,755 from Illinois, 9,212 from Ohio, 5,994 from Michigan, 5,164 from Wisconsin, 5,089 from Indiana, 2,915 from Kentucky, and 2,098 from West Virginia.

Invalid Law Student Finishes Cum Laude

OMAHA.—Otto Spieghagen offered a helping hand—literally—to his brother Herbert so that both could enter the legal profession.

Herbert suffered from a rare malady that made him unable to walk. Five nights a week for four years Otto carried Herbert to the University of Omaha law school for their classes.

Both were graduated cum laude and passed their bar examinations.

Nice "Follows Through" On People's Court Amendment

Former Governor Harry W. Nice, Republican candidate for the United States Senate, plans to urge the voters of Maryland to approve the People's Court Amendment during his campaign trips into the counties.

The former Governor informed Reuben Oppenheimer, General Chairman of the Non-Partisan Citizens Committee for the Adoption of the People's Court Amendment, that he considers the Amendment among the most important issues to be decided by the voters in the general election in November. The titular head of the Republican party in this State this week declared:

"I can see no reason why anyone should be opposed to the proposed Constitutional Amendment in connection with the reorganization of the People's Court of Baltimore City. I feel that politics should be eliminated from the judiciary and I think that this is the wish of the general public. I think that the bringing of the People's Court up to a full time Constitutional Court is a step in the right direction and I heartily approve the Amendment in the form authorized by the Legislature."

It was during the administration of Governor Nice that public attention was first focused upon the condition of the People's Court, and a special Committee of the Baltimore Bar Association made public recommendations for its reorganization.

On January 28, 1938, Governor Nice appointed a Commission headed by Reuben Oppenheimer to conduct a thorough investigation of conditions existing in the Court and to recommend suitable legislation for its reform.

Since that time the former Governor has followed with close attention the progress made in this direction. With other leaders of his party he used his influence in securing passage of the necessary legislation at the 1939 session of the General Assembly.

ANCHOR YOUR Estate

• TO A WILL
Or it may drift away

Your estate, built by years of hard work, is your ship which has come in. But unless you anchor it to a Will, it may go on the rocks before your heirs can enjoy it.

Without a Will, the property may not be divided as you want it to be. Without competent management, your wife and children may be the losers.

Have your lawyer draw your Will, naming this institution as Executor and Trustee. This will give your loved ones the protection you want them to have.
