

COMMUNITY LOCALS

This column is not for use in advertising any money-making program, fair, supper, party or sale. It is intended for news, personals, and such matters as may be of community interest.

Churches, Lodges, Societies, Schools, etc. are requested to use our Special Notice Department for money-making events. Churches are especially given free use of our Church Notice Column for brief notices concerning regular or special services. Large events will be cared for elsewhere in our columns.

Mrs. Lydia Lambert, of Utica, Md., is visiting Miss Nettie Putman.

Private LeRoy Wantz, spent Sunday with his home folks, Mr. and Mrs. S. E. Wantz and family.

Mrs. Peter Graham returned home from the Frederick City Hospital, on Sunday and is getting along very nicely.

Mrs. Bessie Mehring and Mrs. John Forrest, Keymar, Md., were callers Thursday at the home of Mr. and Mrs. Clarence Dern.

LeRoy Wantz, of Mitchell Field, New York, was a caller at the home of Mrs. Lizzie Zepp and sons, Sunday afternoon.

The local A. & P. Store will close its doors tomorrow (Saturday) after many years of serving the people of Taneytown and community.

Mrs. Jack Bower returned home from the University Hospital, Baltimore, on Wednesday evening. Her mother, Mrs. Horrell Spencer, of Hampstead, is with her.

Mr. and Mrs. Merle Ohler and Mr. and Mrs. Luther Luckenbaugh, attended the "Ice Capades of 1942" at the Hershey Arena, Hershey, Pa., on Wednesday evening.

Mr. and Mrs. William Stansbury, of Halethorpe, and two daughters are visiting her parents, Mr. and Mrs. Paul Bankard and family. They will return home Sunday.

Mr. E. J. Clabaugh, daughter, Mae, sons Charles and Reuben; Mr. and Mrs. Ernest Myers, near Detour; Mr. and Mrs. Luther Clabaugh, daughter, Carrie Ruth, of near town, spent Tuesday evening at the home of Mr. and Mrs. Harry A. Clabaugh and son, Arthur.

Mr. and Mrs. Harry I. Reindollar, Mr. Wallace Reindollar, Mr. Alton Boston, Taneytown; Mr. and Mrs. John Reindollar, Fairfield, Pa., attended the Atlantic Seaboard Hardware Association Convention this week, held at the Lord Baltimore Hotel, Baltimore, Md.

On Monday, Feb. 9th., Mr. and Mrs. Frank E. Crouse celebrated their fortieth wedding anniversary, their dinner guests were, Mrs. Crouse's brother, Samuel Overholzer, of New Midway, and sister, Mrs. Sarah Albaugh, of town, and Mrs. Marshall Bell, of Keymar.

The Fire Company was called out this week to two fires, one Sunday morning to the farm of Mrs. Lydia Brown, near Taneytown, tenanted by Claud Smith; the other on Tuesday at the home of Edward Kooztz, near Emmitsburg. The damage was slight in both cases.

Mr. and Mrs. Edgar H. Essig and daughter, Mary Lou, with Rev. L. B. Hafer, were dinner guests of Mr. and Mrs. Carl H. Baumgardner, of Littlestown, last Sunday. Their daughter, Susan Elizabeth, three years old, helped very much to entertain. Afternoon callers at the same place were Mr. and Mrs. Ralph Baumgardner and little daughter, as well as a number of friends from Gettysburg.

The Service of "The World Day of Prayer" will this year be held at Piney Creek Presbyterian Church. This is a community service in which the churches of the district unite. The theme "I am the Way" with sub divisions: "The Way men have lost; the way back to God; the way of self-surrender; the way of peace; the way of love; the way of light; the way of power;" is most appropriate to the world situation at this time. As is usual the time for this service is the first Friday in Lent which will be February 20. The hours 2:00 P. M. The place Piney Creek Presbyterian Church.

Mrs. Norville Shoemaker and Mrs. Abbie Angell entertained the local Needle Work Guild to a luncheon on Wednesday. The table was beautifully decorated with the National colors with a "V" for victory formed with red ribbons. At each place was a favor of a gardenia. Those present were: Mrs. William Nail, Mrs. John Teeter, Mrs. Clyde Hesson, Mrs. Carroll Hess, Mrs. Mary Wilt, Mrs. Norman Baumgardner, Mrs. Merle Baumgardner, Miss Annie Baumgardner, Mrs. Norman Reindollar. Guests were Mrs. Charles Lambert and Mrs. D. W. Shoemaker.

Pvt. David H. Angell, who was stationed at Chanut Field, Rantoul, Ill., surprised his mother, Mrs. Abbie Angell and Mr. and Mrs. Norville Shoemaker by walking in on them on Wednesday. Today, (Friday) he left for Williams Field, Higley, Arizona. Pt. Angell started out from Ill. to hike it home, but got many a lift. One man brought him a distance of 500 miles and also paid for his meals. He also started out the same way for camp in Arizona, and hopes for many rides. Autoists, in general, appreciate what the U. S. boys are doing and gladly take them in.

(Continued on Fourth Page)

CIVILIAN DEFENSE.

Free Sand will be distributed Tuesday, Feb. 17th.

Many interesting and instructive meetings are being held in regards to Civilian Defense. On Sunday afternoon, Feb. 8, in the Westminster High School auditorium, Col Henry S. Barrett, State Air Raid Warden addressed an assemblage, covering the work of Civilian Defense and explaining the incendiary bomb. Preceding the address, moving pictures were shown of the damage done and a complete explanation of this type of bomb in general. Mr. D. Eugene Walsh acted as chairman of this meeting and introduced the speaker.

After Col. Barrett's address, a short open forum was held, questions were asked and answers given and at the close of the meeting the assemblage repaired to the different assigned rooms where discussions were held relative to different types of work in the interest of Civilian Defense work.

At a meeting, Monday evening, of the Taneytown Volunteer Fire Co., plans were made for a course of instruction under the supervision of Mr. Simon Clopper, Hagerstown, and assisted by James C. Myers and Alton Boston. This course will include the make-up and handling of bombs and war gases. Quite a large group agreed to take this course, which is free to everyone and will be in session once each week beginning next week. The ladies, too, are invited to take this course which will include Red Cross work.

The Civilian Defense committee meeting on Wednesday evening completed plans for the trial Blackout, Feb. 27, 1942. Four counties, Howard, Anne Arundel, Baltimore and Carroll and Baltimore City will go dark at the same time, 9:45 A. M. with all-clear signal at 10 P. M. The people of this community are urged and requested to help make this test a complete success. The local committee, working under the authority of Lieut. Col. Henry S. Barrett, director of Air Raid Wardens for Maryland and liaison officer to the First Interceptor Command, announced that permission to conduct the test has been given by the commanding officer of the First Interceptor Command at Mitchell Field, N. Y.

Sand with which to combat or extinguish incendiary bombs will be provided for each home and will be distributed on Tuesday, Feb. 17th. This distribution will begin at 9:45 A. M. and will be hauled by trucks of the State Roads Commission and will be furnished free by the Taneytown City Council.

Citizens are requested to have two buckets of about 10 to 12 quart capacity in front of their homes to serve as receptacles for this sand. The official instructions for the handling of this sand is to see that it is thoroughly dried and one bucket placed in the garret or attic and one bucket in the cellar to be ready for use in case of an air raid. It is further suggested that a long-handle flat nose or blade shovel be kept nearby ready for use, if necessary.

Water can be used to combat the incendiary bomb and the fire resultant from this type bomb but should never be dashed on or by a steady stream but should be sprayed on with a fine spray. So it is advisable to have water handy in case of an air raid as the raid may break water mains and it would therefore be wise to have a bucket or two of water in the garret or attic.

In addition to the above precaution it is recommended that attention be given the garret or attic in regards to articles of inflammable character and have same removed.

The signal arranged for the test blackout on Feb. 27 in Taneytown will be five taps of the bell approximately 20 minutes before the actual blackout. Traffic on all roads leading to the town will be stopped and all traffic in the town will be required to stop, pull to the side and turn off lights. Home owners and occupants are requested to extinguish all lights.

The full cooperation of everyone is requested and the committees in charge, in their different appointed positions are asked to be active in their work in this first test.

HOME NURSING CLASSES

In spite of rumors to the contrary, our Home Nursing classes have not yet started. We are still waiting for the textbooks. Although our number has already started in other localities without waiting for the books our instructors feel that since most of our local group are anxious to qualify for a Red Cross Certificate it would be better to wait just a little longer until our books arrive. We will try to get in touch with each one as soon as everything is ready. Please watch this paper for the exact date.

OLIVE MARTIN, Sub-Chairman.

At the close of the program, capsule Sister presents were exchanged and after a short business meeting a pleasant evening came to a close. There were 110 members and guests present.

ADDITIONAL AMBULANCE DONATIONS

The following persons contributed to the ambulance fund: Mrs. Cora Stieley, Jacob Stambaugh, Wm. Lindsay, Albert Hahn, Arthur Angell, Mr. and Mrs. Robert Koons, Wm. Stansbury, Taneytown Dramatic Club, Arthur Slick, Mrs. Calvin Valentine, Mrs. Albert Angell, Hubert Null.

The sailor calls his jumper a low necked gown.

To a sailor cheap liberty is a look from ship to shore by spyglass.

Sailors who have crossed the Equator are called shellbacks.

BOARD OF EDUCATION MONTHLY MEETING.

Resolutions Adopted in the Death of J. Keller Smith.

The regular meeting of the Board of Education of Carroll County was held on Tuesday, Feb. 3, at 9:30 o'clock. All the members were present.

The minutes of the last meeting were read and approved.

The bills were approved as listed and ordered paid.

The Board heard two delegations, one composed of farmers from various parts of the county requesting the Board to consider the keeping of schools on standard time on account of the early hour at which some pupils meet the buses. Another delegation, representing the P. T. A. at Mechanicsville, requested the Board to include in their 1942-43 budget a new building for their community.

The Board approved the following calendar for the remainder of the school year:

White school close on Feb. 16—teachers to assist in the draft registration. Schools will be open on Holy Thursday and Easter Monday; only Good Friday will be observed as a holiday. High School graduation exercises May 27th. Seventh Grade promotion exercises June 4. Schools close Friday, June 5. These changes were made in the calendar in order to release at an earlier date pupils for farm work and industry.

The budget was carefully considered and approved and the superintendent was authorized to distribute State funds as required by law and then submit the budget to the County Commissioners for their approval.

The Board noted with deep regret the death of J. Keller Smith and the following resolutions was adopted:

In the passing of J. Keller Smith the Carroll County Board of Education has lost a faithful and conscientious member whose counsel was always for the best interests of the children in this county. Mr. Smith's contribution to the cause of education covered a period of 24 years of service as teacher, principal and member of this Board. His qualities as a Christian gentleman and educator were recognized by all and the Board of Education records its appreciation of him by adopting the following:

Be it Resolved, That a copy of this resolution be sent to Mr. Smith's family, and that it be made a minute of this Board and a copy sent to all local papers.

The superintendent was instructed to write a letter of regret to Dr. Albert S. Cook, who decided to retire from the office of the State Superintendent of schools on March 1, 1942. The Board also instructed the superintendent to write to Dr. Thos. G. Pullen, the newly elected State Superintendent a letter extending to him best wishes.

The Board approved the recommendations of the superintendent and authorized him to order janitorial and instructional supplies based upon quotations submitted from various supply houses.

The meeting adjourned at 12:15 o'clock.

Missionary Society Event.

The Women's Missionary Societies of Taneytown Lutheran Church, held their regular meeting, and annual covered dish social on Thursday, Feb. 12. To commemorate the day, the tables had been arranged to form a large V for victory with centerpieces of American flags. Rev. Sutcliffe pronounced the invocation.

The food was both delicious and abundant, each dish a culinary masterpiece and with home-made cake and Mrs. George Sauble's luscious ice cream for dessert, the meal ended just right.

During the meal, we were entertained by Billy Sell's six-piece orchestra, a group of splendid young musicians who also played during the program. After supper the program began with two of our little girls singing for us. Evelyn Wilhide sang "A Valentine for Mother" accompanied on the piano by her mother; Lorraine Sauble sang "He's my Uncle" with Mrs. Norman Baumgardner at the piano; a piano solo entitled, "Two Guitars" by Armour was then played by Marian Martin; a pleasing duet followed when Kathleen and Luella Sauble sang "The White Cliffs of Dover" and "Shortin Bread" accompanied by Miss Hazel Hess on the piano. We were fortunate in having with us, Mrs. Norval Davis who entertained everyone with her impersonation of a young man's courtship, and Miss Hazel Hess who charmed us all with her rendition of two piano solo "Malaguena" by Lecuona and "Notturna" by Grieg. Rev. Sutcliffe then spoke on Lincoln, his philosophy and how it might be applied to our present crisis; Mrs. Nulton told an interesting Lincoln story which was followed by further remarks on Lincoln's fine character by Mrs. Norval Davis.

At the close of the program, capsule Sister presents were exchanged and after a short business meeting a pleasant evening came to a close. There were 110 members and guests present.

Sally—"What's your idea of a simple wedding?"

Joan—"One that costs only twice as much as the family can afford."

ENROLLMENT FIGURES For Maryland Civilian Defense Work.

Enrollment figures for Civilian Defense volunteers throughout the State were made public today by Governor Herbert R. O'Connor following a tabulation made at his request by the Maryland Council of Defense.

Including air raid wardens, air raid spotters and all the other defense functions, there was a total reported of 127,289, or approximately one for every 14 persons in the State. In a few counties the totals are not final and it is expected that complete tabulations will raise the figures in these areas considerably.

Laying great stress on the response to the Civilian Defense call throughout the State, Gov. O'Connor voiced the belief that, "Proper defense organization throughout the entire State is obviously vital not only for the protection of the counties themselves but also for the defense of Baltimore City and its strategic industrial area."

"Under the air raid precaution setup by means of which approach of hostile planes is flashed to the control center by spotter posts in the counties the defense of Baltimore City is closely interwoven with the organization throughout the State. Unless the county air raid spotters for instance, can be relied upon to report without fail the approach of hostile air forces, Baltimore City or any other section will be at the mercy of such attacks. I feel therefore that in being able to announce such a satisfactory total throughout the entire State we are assured of the greatest possible amount of protection for every section."

"My defense tours in the counties have made it very plain that the State as a whole is thoroughly defense conscious. Certainly in all the counties visited there has been marked interest manifested."

"It is particularly noteworthy that of the 63,934 volunteers enrolled in the counties 45,921, or 71 1/2%, are listed as assigned to training or duty in protective services."

In the report submitted to the Governor the following breakdown of defense activities was ascertained:

The twenty-three counties of Maryland showed a total enrollment of 63,034 of which number 45,921 have either been assigned to training or duty. The individual protective services reveal the following figures: Air Raid Wardens, 12,650; Auxiliary Firemen 7,858; Auxiliary Police 3,018 Medical personnel, 5,608; other protective services 16,787 and community service personnel, 4,537.

In Baltimore City the total enrollment numbers 61,255 and those assigned to training or duty in protective services, 6,860. An analysis of the latter figure reveals that there are either in training or assigned to duty, 7,500 air raid wardens; 200 auxiliary firemen and 980 medical personnel.

When the report was submitted to the Governor, Isaac S. George, Executive Director of the Maryland Council of Defense commented, "It is encouraging to note the progress in connection with the enrollment of volunteers and it is even more encouraging to note the progress made in the training of these volunteers."

"It must be obvious to all that those communities which had done little of anything before Pearl Harbor have been stirring themselves nightly during the intervening period."

"Many counties are ready today for air attack. Others are rapidly completing their organizations of protection services."

Colonel Henry S. Barrett, State Director of Air Raid Precaution Services after studying the report stated "That it should be borne in mind, that the volunteer enrollment reported in the above breakdown do not include approximately 3,000 airplane spotters who have been on observation duty—day and night—since Oct. 1, all over the State. These men and women are by this time thoroughly trained and well qualified as the first line of defense against possible airplane attack on the State."

He also pointed out, "that in the breakdown of figures by counties, many of the county figures are incomplete." He pointed particularly to Garrett County in which a total of only 96 volunteers was reported. To explain this situation he added, "In quite a number of the other counties, I know that it has not been possible, in the short space of time that we allotted the County Chairman to consolidate their figures, for these chairmen to get complete reports from every district within their territory. With complete reports in hand, I'm satisfied that the totals in all classifications would be much greater. At any rate this report by no means covers the entire number that will eventually be enrolled in the counties."

"The success in the counties is due to the spirit of the people realizing that it is absolutely necessary for them to be prepared in case of any emergency, and a splendid spirit of cooperation has been shown at all times."

Judge—"This is a sad case. You, who remained honest until you were 40, have tarnished your name and dishonored your family all for the sake of 100 miserable dollars. Have you anything to say for yourself?"

Defendant—"Yes, your honor. Was it my fault that it was so few?"

Sally—"What's your idea of a simple wedding?"

Joan—"One that costs only twice as much as the family can afford."

FOOD INCREASING IN ITS COST

Enforce laws against Hunting and Trapping

War and the Draft are said to be surely cutting down our food supply, not only for the war, but for home consumption.

This is plainly reflected by stores and shops in every town and village throughout Maryland, and of course, other states.

Those who have big stocks on hand of home-canned fruits are very fortunate, and it will be wise to economy in its use.

The progress of the winter warns us that there is still in field and woods, crops of nuts that may be gathered.

The laws and warnings against hunting, trapping and fishing, should be drastically enforced. Even those who permit "trespassing" are going beyond their right.

LEADERSHIP TRAINING SCHOOL

The Taneytown Leadership Training School will be held on Monday, Tuesday and Thursday, Feb. 16, 17 and 19, and 23, 24 and 26, beginning at 7:30 P. M. The first night there will be the devotional period at the beginning and the rest of the time will be between the periods. There is no cost upon the pupils part as there is no registration fee. The pupils can register beforehand and pass their cards to the pastor or superintendent of the Sunday School. The cards may be obtained from the persons so referred to in your school.

There will be three courses given, Rev. Alfred T. Sutcliffe will teach "Prayer, The Battlefield of the Soul". Some of the themes of Prayer that shall be studied will be, "The Meaning and Mission of Prayer," "Hindrance to Prayer," "The Power of Prayer," "The Habit of Prayer," "How to Pray," etc. Rev. Guy P. Bready will bring "The Life of Christ" as his part of the program. The course will consist of "Birth and Childhood," "Preparation for and Beginning of the Public Ministry," "Withdrawal into Galilee," etc., all through the ministry of Christ. Rev. Arthur W. Garvin will take the study of "Understanding Our Pupils." What makes persons act as they do? Why is it that persons will act differently over the same thing or experience? What are some of the best ways of finding out the backgrounds, experiences, prejudices, interests of persons and causes of their actions and attitudes? This is planned to help parents, teachers and other leaders in the church to understand their pupils better.

All that is requested is that each student will bring along their Bible, a notebook and pencil. This school is sponsored by the Taneytown District S. S. Association.

Head lines last Saturday morning, large tanker is torpedoed off New Jersey Coast. Allied Pacific situation is becoming grave. Britain denies peace reports.

The World War headings for last Saturday evening "Japanese shell Manila Bay Forts." U. S. submarine sinks in crash only 3 saved, all U. S. Japanese land guns and shell U. S. forts in Manila Bay. British said to plan an invasion. China plans full mobilization against the Japs.

Headings from last Sunday's papers—Picked Jap Battalion annihilated in battle with MacArthur forces. A giant freighter was sunk off N. Y. (No information as to nationality).

Monday evening headings. Japanese invade Singapore, and battle English on 10 mile front. MacArthur's men beat back new attacks. Japs raid Batavia for first time. Chinese recruits cool in fight at Singapore. Russians dig up thousands of German land mines.

Tuesday's Headlines. Former French liner is swept by flames in N. Y. Harbor. British expect drive on Suez and Gibraltar, Jap siege guns silenced by Manila Forts. British predict Axis drive to capture Gibraltar.

Tuesday evening. Fall of Singapore reported near. Japs may be in city, London says. Japs reported stronger in the air, than English.

Headings from Wednesday morning papers. "Singapore Still holds out." "Axis groups declared to use Dies Data." New Pacific Council meets an air of gloom. "Reds" battle resistance by Nazi sky units.

Thursday. Japanese demands for the unconditional surrender of Singapore, dropped in notes from planes, are ignored by the hard-pressed British imperial defenders of the fortress city. Japs use U. S. relief gifts in Bataan. Evening news: Battle lines nearer Singapore.

Friday. Defiant Singapore still hold off Japs. Make MacArthur's army chief Walkie urges.

Philosopher—"And what do we want in this world to make us perfectly happy?"

Battered Cynic—"The things we ain't got."

According to Edmund Randolph it was an old observation that "he who commands the sea commands the land."

WELFARE BOARD

Meeting Reporting Jan. Activities.

The County Welfare Board met on February 4 with Dr. Foutz, Chairman, presiding. L. Pearce Bowles, Secretary, Mrs. John D. Young, Paul J. Walsh, Jonathan Dorsey, and Mrs. Esther K. Brown were the other members present.

A report for January showed the following Case load:

Cases under care, January, 1942: Old Age, 381 families; Dependent children 169 children, 71 families; Blind 6 families; General assistance 166 persons, 60 families.

Two investigations for licensing of homes, one for the care of children the other for the care of the aged, were completed. One investigation for mental hospital care was made.

The number of children under 16, assisted under the aid to dependent children act increased 12.7% over the preceding month. Nine families with twenty-six children eligible for this type of assistance were added during the last month. These are children who have been deprived of the support of a father because of continued illness, death, or placement in institutions. Of the 60 families receiving general assistance there were 17 families including 85 children under 16 years whose requests were granted for such special needs as milk, school lunches, school clothing, or special foods for ill persons.

The preceding month's report shows that the percentage of total population of persons over 65 receiving old age assistance is 9.7%. Two counties, Baltimore and Frederick have a slightly lower percentage than Carroll. All other counties show a considerable higher percent of population receiving old age assistance. The percent of total population of children under 16 coming under the Aid to Dependent Children Law is 1.8%. Only two counties show a lower percent—Talbot County, with 1.7% and Baltimore county with .9%. Blind assistance is given to 1.5% per 10,000 persons. The one county with a lower percent is Baltimore showing 1.2% persons per 10,000.

Routine business included the approving of two applications for old age assistance. Two were held over for further consideration. Applications for three persons living or being boarded in Carroll County, but not having established residence in this county, were completed and forwarded to other County Boards who will be responsible for payment of grants.

REFORMED PASTOR TAKEN BY DEATH

The Rev. Elathan Lewis Higbee, pastor of Incarnation Reformed Church, Emmitsburg, died at his home in that place at 3:30 P. M., Sunday as the result of a complication of diseases. He was a son of the late Rev. Elathan and Lucinda Motter Higbee and was born in Mercesburg, Franklin County. He was 67 years of age.

The Rev. Mr. Higbee was graduated from Franklin and Marshall College, Lancaster, and from the Reformed Theological Seminary, at Lancaster in 1905. He went to Emmitsburg in that year and became associated with his brother-in-law, Sterling Galt, in the publication of the Emmitsburg Chronicle. He was ordained in 1913 and served as pastor of Incarnation Reformed Church for 29 years. He was a veteran of the Spanish American War.

Surviving are his wife, Mary Alice Kilmer Higbee, formerly of Arlington, Mass., and four daughters: Mrs. Claude Henry Coral, Jefferson, Md.; Mrs. Duncan Moore, Greencastle, Pa.; and the Misses Mary Frances and Helen Kilmer Higbee, at home; also a sister, Mrs. Sterling Galt, of Emmitsburg, and three grandchildren.

Funeral services were conducted on Tuesday in the Reformed Church. The Rev. Guy P. Bready, Taneytown officiated. Burial was in Mountain View cemetery.

Charlie Nobel is the sailor's nautical name for the galley smoke pipe.

The U. S. Navy changed from a navy of wood to a navy of steel between 1878 and 1898.

Random Thoughts

HOW LONG?

The World War II is causing us to have many "Random Thoughts" that we would rather not be thinking.

Our boys are being taken away to be sent to the "front" and orders must be obeyed. The reason is, we are by, for and with the U. S. A.

The President and Congress says so, and must be obeyed. What we are to do with our farmers and trades, we do not know.

We have regular jobs and trades, at good pay. We have illness, too, and must use an ambulance, and then a Hospital and surgeon and nursing.

All due to hateful Hitlerized war, and the grumpy Japs.

The Russian "Reds" are still on our side—but for how long?

In our own Revolutionary days, we were fighting for our colonies—now we are pro-British.

And so the world has gone—and, for how long—is the big question? P. B. E.

FRIDAY, FEBRUARY 13, 1942

THY WILL BE DONE!

This war will be won only by sacrifices. There is no doubt about that. It will be at a sacrifice of life, cash, home comforts and of things most dear to us.

Those who would make light of the situations are deceivers of the first rank. Just how those sacrifices will present themselves we can not predict.

But they will be represented by the lives of some; the property of others, and by the dearest hopes of others.

He need, first of all, to be fully posted on what is happening and likely to happen, and let our most fervent prayers to God to help us.

There will be an end of the wholesale murder. And some day God shall reign on earth as he does in Heaven.

THERE IS A TOMORROW!

A summation of heartening aspects of the situation involving automobiles, tires and maintenance was printed in the most recent issue of "Automotive Daily News," authoritative voice of the automotive trade, under the caption "There is a Tomorrow for Car Dealers."

Because we are just as sure "There is a Tomorrow for Motorists," we reprint the summary as a stimulant to the morale of every car owner in America:

Now is NOT the time to give up—don't take radical steps which later may haunt you.

As things have been shaping up in Washington during the past week, there is every indication that:

- (1) Dealers will be fully taken care of as regards losses sustained during the new-car sales ban;
- (2) All civilian-use cars will be rationed through dealers with regular profits and storage charges allowed;
- (3) Used cars will not be frozen or rationed, at least not for the immediate future;
- (4) Sufficient repair parts will be made at once to take care of needs for two years, thereby assuring uninterrupted service volume;
- (5) A "Victory" car may be manufactured, at a sufficient annual rate to meet essential civilian needs as well as permitting dealers to maintain a skeletonized set-up during the war;
- (6) Prices on new and used cars, if frozen, will be on a basis previously agreed on by dealers and OPA;
- (7) Government loans, or war work or other "sidelines" may be forthcoming to aid dealers.

Until a clear-cut program is evolved, probably within the next 30 to 60 days, dealers would be indeed short-sighted to give up the ship. There IS a tomorrow, so—
Don't be hasty.

FARMERS HAVE AN IMPORTANT PART

Maryland's farmers have a large part to play in the "Salvage for Victory" program, it was declared today by H. Sindlay French, Chairman of the Maryland State Salvage Committee.

Mr. French's statement came as it was announced that the 23 county agriculture department agents in the state are to work in close cooperation with county salvage committees set up in conjunction with the state defense council.

For several months, the county agents have been urging clearance of farms of old metal. Their work in this line will now be directly integrated with that of the salvage committees.

Mr. French pointed out that many farms have large quantities of old metal which would be useful in the salvage programs.

"Uncle Sam's war factories urgently need metal scrap with which to build guns" he said, "farmers are urged to comb their barns, yards and

lofts for old pieces of metal and sell them to a junk dealer or give them to a collecting charity."

County salvage committees are now at work devising methods of collecting scrap from farms which lie in outlying regions and which do not have a junk dealer in a nearby town.

Boy Scout troops throughout the state are collecting waste paper and selling it in conjunction with the state salvage campaign. Uncle Sam is confronted with serious shortage of paper because of curtailment of shipments from abroad and increasing use for cartons in which to ship arms and food.

BACKING SENATOR BYRD

Half of Maryland's delegation in Congress is backing Senator Byrd in his efforts to save the Nation up to 2 billion dollars by curtailing non-essential Federal spending.

Organized taxpayers, civic, business, service and women's clubs and the press all over the State have been demanding drastic curtailment of non-essential Federal expenditures and are specifically asking our Senators and Congressmen what they are doing about it.

In answer to citizens demands, already Senators Tydings and Radcliffe and Congressmen Wade and Cole have notified their constituents that they are in favor of reducing non-defense expenditures. Senator Radcliffe says he supported the legislation that created the Byrd Committee and believes that even before the war started it was necessary to stop "waste and extravagance, and it is all the more imperative now. We must see to it that our non-defense expenditures are restricted in every way feasible."

Senator Tydings, answering a communication from Harry S. Middelendorf, President of the Maryland Public Expenditure Council, Inc., stated: "I agree with you as to the necessity for economy in Government expenditures and I am heartily in favor of the economies proposed in the preliminary report of Senator Byrd's investigating committee. I have long been an advocate of sound and sensible financial policy for our Government and I shall continue to do everything possible toward a reduction in non-essential Federal expenditures."

Congressman Wm. P. Cole's reply asking him to support the movement in Congress to cut non-essential spending was "I favor the curtailment of non-defense expenditures to the very minimum. I have voted for reduction in the past and I propose to continue to do so."

On the Eastern Shore Congressman David J. Ward has notified the Talbot County Taxpayers' Association that he would support the Byrd Committee.

There remain only four Congress members to be heard from: Mrs. Katherine E. Byron of the 6th District, Lansdale G. Sasser of the 5th District, Thomas D'Alesandro, Jr., of the 3rd District, and John A. Meyer of the 4th District. As yet reports of the sentiments of these Maryland representatives have not been received at the offices of the Maryland Public Expenditure Council, Inc. But, according to Mr. Middelendorf, its president, "It is probable they will react the same as the other half of Maryland's delegation in Washington. It is only a matter of people from these four districts making their demands known. And that the citizens will do. For Pearl Harbor aroused the public from its apathy and made it determined to impress on its elected representatives the vital need for common sense in public spending."

ON THE ROAD TO MANDALAY

(The Washington Daily News says Editorially, Feb. 4, 1942).

Kipling's Road to Mandalay holds the fate of the Far East. For it is the road to Burma Road, and China is the road—the only one now—for Allied attack on the major enemy bases of Formosa and Japan proper. So the battle for Burma is even more important than the heroic defense of Singapore and Bataan, which get the bigger headlines.

This is not to under-estimate the significance of the tiny tips of Malaya and Luzon, which British Imperials and MacArthur's Iron Men are holding on the wide flanks of the South China Sea. Tho the enemy has by-passed MacArthur's stronghold and Singapore, these two besieged garrisons engage tens of thousands of Japanese troops and hundreds of planes which otherwise could be thrown into the Burma battle. Every additional day of successful defense by those garrisons buys desperately needed time for Allied reinforcement of Burma and the Indies.

Already the enemy has won an unexpected victory at Moulmein, next to Rangoon the main port for the Mandalay-Burma Road. After capturing Moulmein at the mouth of the Salween River, the enemy is now try-

ing to cross that river at several points between the sea and the great Shan Mountains of the north. Once across the Salween, he might cut the Road to Mandalay, thus isolating Rangoon port from China.

If that happens, the 5000 American trucks now speeding supplies into China will have nothing to carry. Instead of 5000 trucks unloading their precious freight daily, there will be none.

PICKING PARASITES

Washington, D. C., February—When President Roosevelt told Washington pressmen that the "parasites" should be driven out of over-crowded Washington and that 20-room houses on Massachusetts Avenue should be taken over for workers who couldn't find rooms he started a new game that the National Capital found as entertaining as the President's birthday balls.

One Washington newspaper published a long, dull and serious editorial in defense of "suspects," and it was a perfect vindication for some very dear ladies, including Mrs. William Howard Taft, Mrs. Woodrow Wilson and Mrs. Alice Roosevelt Longworth. All the other newspapers made a game out of the President's remarks about there being too many people here "to watch the show."

A retired General and a retired Admiral collaborated and protested that they must stay in Washington and see to it that "the nonsense about the Army and Navy cooperating is pigeon-holed."

An intelligent taxi-driver observed that "as I get it they want room for more clerks to do the work the clerks they have got ain't doing."

A society leader protested: "So now I am a parasite, am I? After eight years of feeding lipping New Dealers until I am bustle-bound myself. I wish I had my anchovies back."

A policeman: "I don't know anything about these Termites, but I do want to be on the detail that sees to it that girls are put to bed at 10 o'clock every night, the way one of our smart Congressmen suggests."

A taxpayer observed that "it don't make any differences to me, brother; my number is up any way you figure"

A number of rich, or lucky, political parasites were put on the spot. "Were their faces red" when the great newspapers used their names as horrible examples, with plenty of unwelcome advice about what to do with their 20-room houses, their spare time and their money. "Picking parasites" is a great game. It can be played everywhere—right in your own community, with your friends and neighbors. But don't get tough because some one may make jokes about you.—J. E. Jones.

Cat's Cornea Used To Restore Sight

Mexican Surgeon Reports on Three Operations.

LOUISVILLE, KY. — Transplanting of the cornea of a cat's eye to a human being to restore partial vision was described recently before the Pan-American Homeopathic congress.

The operation, declared to be one of the newest in surgery, was reported by Dr. Mario Escobar of Mexico City through a motion picture film and a description by Dr. Angel Camargo, also of Mexico City. Because of illness, Dr. Escobar was not present to deliver his address.

Only three persons have received the cat eye transplants, Dr. Camargo declared, but all three, formerly completely blind, have had their vision partly restored.

One young woman who before the operation could not distinguish even shadows, can now identify her friends at close range and differentiate colors, he declared.

All three persons suffered from saphyomatous infection of the cornea, a condition in which the "window" or primary seeing part of the eye at the front of the eyeball becomes thickened and clouded, a condition similar to cataracts.

The operation, which sounds simple but isn't, consists of opening the human eye with a double knife and removing part of the cornea. Then a slightly larger bit of cornea from a live cat on another operating table is removed, fitted into the human eye and sewn into place with extremely precise stitches.

Imprisoned 41 Days in Hen Coop, Dog Lives

VIROQUA, WIS. — Pete, a spaniel, has recovered fully from a 41-day imprisonment between the joists of a chicken coop. The dog apparently squeezed under the coop in pursuit of a rabbit. Dr. R. S. Hiron, the dog's owner said that rain water that had run under the coop saved the dog's life.

Secret of Deadly Gas Held by United States

For 25 years the United States has kept the secret of a gas whose effects are more powerful than many panzer divisions and air squadrons, gray-haired W. Lee Lewis, Evanston, Ill., inventor, said recently. Lewis, retired chemist and university professor, one-time colonel of the chemical warfare service, said the war department has known of the gas—Lewisite—for 25 years, since its development just before the first World War ended.

Lewis said he believed the United States would use the gas only for defense, although its potency for offensive use cannot be overestimated. He called it "a World War memento, but one whose importance two decades of chemical research have not erased."

It was not produced in wholesale quantities until just before the armistice in 1918, Lewis said, and was not tried in the war.

"But it is more humane than mustard and other gases used in the World War," he said, "in that its deadly effectiveness reacts more quickly."

"Lewisite is infinitely superior to World War gases in several respects," he continued. "The gas has a low freezing point and can be used in remarkably cold regions. A second important factor is that an area contaminated with the gas remains contaminated for a long period of time. Rain or moist atmosphere will not dissipate its force."

Roar of Airplanes Will Be Silenced, Says Expert

The peace of our homes will not be disturbed in the future by the roar of airplanes skimming the roof tops, according to an aviation executive. Before long, he predicts, planes will make no more noise than automobiles. How will planes be silenced?

By reducing the speed with which the propellers rotate without reducing speed of ships, says this authority, much noise will be eliminated. Secondly, new mufflers are being developed which reduce motor noise over 50 per cent.

Propeller speeds could be reduced without decreased efficiency by geared engines, he further pointed out. Efficient mufflers already are available for smaller planes up to 90 horsepower. By directing the exhaust upward, instead of downward additional quiet is achieved. So, try to be patient when you are awakened at 4 a. m. to hear the drone of a sky liner fading away. And don't get nervous and sell your home if it happens to be directly beneath an airline. Five years from today you won't know it when a plane passes.

More Teachers Tucked away at the most southern tip of Central America is Costa Rica, a nation which has more school houses than police stations, more school teachers than soldiers.

The appropriation for education in Costa Rica is the largest per capita in Central America, an item which may well be the determining factor in keeping the number of revolutions to a minimum.

Costa Ricans, in direct contrast to other Central American natives, are white rather than Indian. They are descendants of the Gallegos, the hardest working and the least fortune seeking of the Spaniards who settled in the Americas.

Before the war the people leaned heavily on British and German purchases of bananas and coffee. German capital owned 20 per cent of the coffee plantations. When that trade dwindled the Costa Ricans appealed to the United States for aid.

The U. S. responded with imports of half of the coffee crop and the Export-Import Bank loaned the nation more than \$4,000,000 to complete their section of the Pan American highway.

Sweet Tooth

Manufacturers' sale of confectionery and competitive chocolate products in 1940 totaled approximately 2,250,000,000 pounds, with an estimated value of \$336,000,000, the department of commerce reported recently.

Per capita consumption reached an all-time high of 16.9 pounds in 1940, compared with 15.7 pounds in 1939, an increase of 7½ per cent against an advance in national income of a little more than 7 per cent. The survey is based on voluntary reports from 273 manufacturers of confectionery and competitive chocolate products whose combined sales account for approximately 70 per cent of total sales for the industry.

How Permanent?

If the proper amount of heat and alkali are applied, the result is a permanent wave which will last until the hair grows out. If the hair is not steamed long enough or at a high enough temperature, or if the alkaline preparation used is too weak, the wave is not permanent. The hair will be soft, the wave loose, and it will gradually assume its original straight state. If too much heat or too strong an alkali, or too much of both, are applied, the hair may be left with little elasticity or resistance. This will have one of two effects: limpness or frizziness. A too strong wave is not likely to last any longer than a too weak one.

Now You Get Your Vitamins at Your Corner Grocery

The American people spent \$110,000,000 last year for vitamin pills, but the pill bill promises to be smaller this year, since now you can get your vitamins just around the corner, in bread.

Doctors employ many letters and big words as names for vitamins, yet one of the greatest sources of vitamin nutrition is the wheat grain.

Wheat has been a food for 4000 years, but flour has been refined to such a degree that its vitamin content has grown less and less. Most of the life-giving vitamins have been removed and fed to the cows, pigs and chickens.

Dr. W. H. Sebrell, National Research Council, declares the American people are not getting within 40 per cent of the nutrition our grandfathers got out of the food they ate. Whole-wheat bread containing wheat hulls has had a bitter taste, did not digest well and did not keep. So the public would not eat it.

Now, however, due to an accidental discovery by a mining engineer—Theodore Earle, of California—wheat can be peeled of its scurfy, splintery hull, acknowledged cause of digestive troubles and bitter taste. All the rest of the grain is then ground up into flour of a golden shade which contains all the natural vitamins of wheat—riboflavin, proteins, calcium, iron, phosphorus and others. The new process has developed an unusually tasty new bread which was first revealed to members of the U. S. Public Health Service, eminent scientists, nutritionists, senators and members of Congress in Washington only last spring. The bread is now available to the public. As production of the new flour is increased, the availability of the bread will be extended. It is known as "Staff."

FARM TOPICS

EDUCATORS HELP ON MACHINE CARE

Youths Shown Best Care of Farm Equipment.

By DR. A. K. GETMAN
(Chief of Agricultural Educational Bureau,
New York State College of Agriculture.)

The training of rural youth in high schools and institutes throughout the states meshes with the states' programs of farm machinery repair and adjustment, in which repair clinics, tractor tune-ups, and field adjustment meetings for adults are planned during 1942.

Since "victory in arms needs machines on farms," teachers of vocational agriculture in high schools, heads of departments of farm mechanics at technical institutes, and all school executives have been urged to co-operate with county agents and manufacturing agencies in the program under the general guidance of county agricultural defense committees.

A critical situation is ahead in maintaining and increasing American food production, and the current need is to put farm equipment in the best possible condition. It is imperative, he said, to use the present shop facilities and personnel to the utmost, and that all available public and private resources act together.

School garages, or similar buildings, it is pointed out, would make ideal places for farmers to bring their machinery for community repair clinics under engineers trained and employed by the state colleges of agriculture.

AGRICULTURE IN INDUSTRY

By Florence C. Weed

(This is one of a series of articles showing how farm products are finding an important market in industry.)

Grape Refuse Salvage

Almost every state has commercial vineyards. California raises wine, raisin and table grapes or about 85 per cent of the total. Eastern grapes are grown for juice, wine and fresh market. Since imported French wines have been cut off by the war, this may increase the demand for domestic wines pressed in California, New York and Ohio.

At present, grape pomace left from winemaking is a waste material. Research is under way to find economical methods to recover crude tartrates from which come tartaric acid used in the manufacture of baking powder.

Raisin seeds were once a waste product. Now a California manufacturer is distilling raisin seed oil to use as a coating to prevent packaged raisins from sticking together. The oil offers a promising base for cosmetics since it contains better than average quantities of vitamin F. So far, it has not been economically practicable to utilize waste grape seeds from wineries in the East, because of the cost of transportation.

The thrifty French have developed new outlets for their grape crop under the stress of war time. Since the start of hostilities they have been contributing to wartime fuel which is a mixture of gasoline and grape alcohol made by distilling grape skins after the juice is pressed out.

Soap, hard to obtain because of the dearth of fats, is being made from oil crushed from grape seeds, once discarded in the wine making process. Tons of natural sugar are being retrieved when fresh sweet grapejuice is boiled down. Many of these products could not be economically produced if other products were available, but are worth doing in war time.

Agricultural News

To make farm machinery last longer: (1) store machinery under cover, (2) repair if necessary and order repair parts now, and (3) clean machine thoroughly.

In feeding a dairy cow, a good rule is to give her as much grain, in addition to roughage, as is needed to maintain daily milk production and good body condition.

An increase of 82 per cent over the previous year in electricity delivered to consumers is shown in a report of REA-financed power systems for the last fiscal year.

Prospects of a higher average level of consumer purchasing power in 1942 means more income for vegetable producers in general, reports the U. S. bureau of agricultural economics.

Soybean wool, used in making plaster fiber panels and upholstery padding in automobiles, may increase the demand for soybeans, a crop of growing importance in the South. Your local county agent will have information on soybeans.

Florida Note, Coldest Spot Is in California

Not long ago a man dropped an orange in Santa Monica, Calif., and the citrus fruit shattered into a million pieces because it was frozen so solid. The man who dropped the orange was wearing sheepskin underwear and an air-tight suit of leather. His head was covered with a helmet fashioned of spun aluminum and welded to the shoulders of his insulated outfit.

And since the air he stood in might have given him pneumonia if he had breathed it, an ingenious valve in his suit brought air that had been warmed by his body up to his nostrils.

The Santa Monica Chamber of Commerce does not deny this story because the most frigid spot on the North American continent is in the so-called cold room of the Douglas Aircraft factory in that community. The temperature in this room is controlled by a mechanism which eliminates heat so that the mercury falls as low as 104 degrees below zero.

The purpose of the cold room is to reproduce the weather conditions under which men and planes must function at great altitudes. The test pilots at the Douglas airplane plant have found out that, at 35,000 feet, the temperature is usually about 67 degrees below zero.

Long and painstaking experiments in the cold room have made it possible to know, in advance of actual flight, that motors will work in the intense cold of the upper atmosphere and that the men flying the ships are properly dressed for their jobs.

Cat Does Not Masticate Food; Tears It Apart

The cat is a carnivorous or flesh-eating animal. It does not masticate its food as does the herbivorous animals and as man should. Its teeth and jaws are not made for that purpose. It cannot move its lower jaw as man and herbivorous animals do—from side to side. It opens its mouth by lowering its lower jaw and closes it by raising it to the upper jaw or mandible. It uses its teeth for gripping, puncturing and tearing its food to the size it can swallow easily in a lump.

As a cat does not masticate its food, the salivary glands are small, there being little demand for the saliva to mix with the food and partially predigest it before it enters the stomach, where the principal part of the digestion is carried on before it enters the intestine to undergo further digestion and assimilation. The larger and tougher the masses it swallows the longer they remain in the stomach.

The dog and cat have comparatively large stomachs but somewhat rudimentary intestines. The longer the food takes for digestion, the less craving there is for food until the next feeding time approaches.

Metal Finder Developed

A radioscope—a strange gadget that, when unfolded, is its own transmitter and receiver, has been invented by John Patrick Halloran, Los Angeles mechanic and air pilot.

The instrument, he explained, is mounted on a pair of carrying handles between which the operator stands while carrying the instrument. When carried the transmitter floods the earth with strong radiation waves that are balanced with respect to the receiver so that signals can be registered both in the headphones and the detector meter dial which is in front of the operator's eyes.

As soon as the wave encounters metal within the earth the metal becomes energized by the radio wave and sends back a radiation of its own. This reflex, he explains, is picked up by the receiver, resulting in a loud signal in the headphones and a strong deflection of the pointer on the visual indicating instrument.

Curb Disease

It is much easier to keep plants free from disease than to control the disease when established. Go over your borders at least twice a week uprooting weeds and remove faded leaves and flowers. Plants that are prevented from going to seed continue to develop flowers.

Better prune your honeysuckle several times during its growing season. It is only by constant pruning that it can be kept within bounds.

After the fruit has formed on your currant bushes, if you notice evidence of currant worms, spray with hellebore or pyrethrum.

Literally soak your lawn twice a week. Semi-weekly soaking is much better than daily sprinkling.

Smallpox Still Here

Many U. S. citizens believe that smallpox was wiped out in this country decades ago. Metropolitan Life Insurance company's Statistical Bulletin recently pointed out a striking statistic: the U. S. in 1939 had over 10,000 smallpox cases. "With the single exception of India (with almost 130,000 cases)," said the bulletin, "we still lead the civilized world in our tolerance of this loathsome and dangerous disease." The reason: failure to vaccinate. Only ten states (nine of them east of the Mississippi) have compulsory vaccination laws. Smallpox is rare on the Atlantic seaboard, occurs mostly in Indiana, Iowa, California, Texas, Illinois.

NOTICE TO CREDITORS.

This is to give notice that the subscriber has obtained from the Orphans' Court of Carroll County, in Maryland, letters testamentary on the personal estate of ROBERT M. REAVER, late of Carroll County, deceased. All persons having claims against the deceased are warned to exhibit the same, with the vouchers thereof, legally authenticated, to the subscriber, on or before the 7th day of September, next; they may otherwise by law be excluded from all benefits of said estate.

Given under my hands this 2nd day of February, 1942.

New and Old in Glassed Foods

Grandmother did her "glassing" over a hot kettle, and put up a supply of glassed foods that would suffice during the winter. A typical grandmother of this bygone era is shown directly above. At the top, is a modern housewife who achieves the same results as Grandma but in an easier and more efficient way. She shops for her glassed foods at the neighborhood market, sees the quality of the products she buys and eliminates many of the problems which confronted grandmother.

CORRESPONDENCE

Latest Items of Local News Furnished By Our Regular Staff of Writers

We desire correspondences to reach our office on Thursday, if at all possible. It will be necessary therefore, for most letters to be mailed on Wednesday, or by Fast Mail, west on W. M. R. E., Thursday morning.

UNIONTOWN.

William O'Meara and son, Billy, Gibson Island, and Miss Anna O'Meara, Glynndon, were dinner guests of Mr. and Mrs. Clarence Lockard on Sunday evening.

Burns Heltridde left on Monday for Fort Meade for army training.

Miss Betty Engler spent the week end at Ithaca, N. Y.

Mrs. John Stuller visited Mr. and Mrs. Edward Stuller, Taneytown, during the week-end.

The Women's Missionary Society of St. Paul's Lutheran Church, met Thursday evening at the home of Mrs. Harry Fogle. The topic, "Our Church faces her task in North America," was led by Mrs. G. W. Baughman.

At the business meeting led by the president, Mrs. Larue Shaffer, it was decided to hold a bake sale on March 14th.

The Boy Scouts with Scout Master Kenneth Lawson and their sponsor, Franklin Gilds attended services on Sunday evening in a body, at the Lutheran Church.

Rev. E. Bowersox, Jr., preached a special sermon for them.

The Bethany Circle made a surprise visit on Mr. and Mrs. Donald Goodwin, newlyweds, at their apartment in Westminster, on Monday evening and presented them with a miscellaneous shower.

Mrs. Harry Fogle spent the week-end in Baltimore.

Roy Singer spent several days last week with his son-in-law and daughter, Mr. and Mrs. Paul Robertson, Middleburg.

Mrs. John Heltridde entertained some friends to a quilting on Wednesday.

Mrs. Harry Fowler is spending some time in Westminster.

The following was copied from the Baltimore Evening Sun, "The University of Maryland loses a student and the army air corps gains a recruit in 20-year-old Salvador Macis, son of an American mother, whose home is in Smithsburg and a Spanish father, who is a physician in Honduras, Central America. Macis was a student at Emmitsburg High School six years ago. He enlisted in Hagerstown and will report for duty in about twenty days."

The Macis moved from Uniontown in 1930, to Central America. Dr. Macis practiced medicine here for a short time.

Rev. Paul E. Warner delivered an address at the banquet of the Woman's Society of Christian Service of Foundry Methodist Church, in Washington, D. C., on Tuesday evening.

On Thursday the Ladies' Aid Society of the Linwood Brethren church gave Mrs. Joseph Dayhoff a surprise quilting party at her home near town. At noon a pot luck luncheon was served to Mrs. Joseph Dayhoff, Mrs. John Crabbs, Mrs. W. P. Englar, Mrs. Burrier Cookson, Mrs. Preston Myers, Mrs. Charles Hesson, Mrs. Fanny Dorsey, Mrs. Hoke, Mrs. Merle Fogle, Mrs. Quesenberry, Mrs. Harry Vingling, Mrs. C. Dickenson and Mrs. Truman Dayhoff.

Private Norman Haines, Fort Monmouth, Red Bank, N. J., with Mrs. Haines visited his home folks, Mr. and Mrs. Roy Haines during the week-end.

Master Phillip Halter visited his uncle and aunt, Mr. and Mrs. Lloyd Devilbiss for several days last week.

NEW WINDSOR

The World's Day of Prayer will be observed on Feb. 20, in the Presbyterian Church at 7:30. This is a union service.

Mr. and Mrs. Manning and two friends all of Waynesboro, Pa., called on Mrs. J. C. Baumgardner on Tuesday.

Miss Jane Austin, of Pittsburgh, Pa. accompanied Miss Betty Jane Roop, home from Juniata College at Huntington, Pa., over the week-end. Mr. and Mrs. Roop and daughter, Ann, took them back on Sunday.

Miss Rebekah Sheaffer, a teacher at Blue Ridge College, gave the first of four lectures, on Sunday last which was very interesting, these talks are given in the Presbyterian Church each Sunday morning in the church at 10 A. M., under the auspices of Mrs. Cooper's Bible Class.

The smaller children of the town and community are having a siege of measles.

Mrs. R. Smith Snader entertained the W. C. T. U. at her home on Tuesday afternoon.

Mr. and Mrs. Earl Rameberg have moved from Mrs. Minnie Fraser's apartment to the home of the late Mrs. Molly Englar.

Rev. J. R. Hays and wife, came to town on Monday, from Emlenton, Pa.

Mr. Roger Barnes, of Washington, D. C., and Edgar Barnes and wife, of Baltimore, were guests of their parents, Mr. and Mrs. J. E. Barnes.

Mr. and Mrs. W. A. Bower, of Taneytown, visited her parents here, on Sunday.

Charles U. Reid, wife and daughter, Thurmont, visited his mother here, on Sunday.

Mrs. Willow and son, of Hanover, visited her parents, J. C. Baumgardner and wife, here on Sunday.

FEESERSBURG.

Feb. 9, Monday morning—and we never saw a brighter one; cannot see a cloud in the sky; which reminds us of the hymn our mother loved, "The Land of Unclouded Day". When sung she would sigh rapturously and say "Oh! won't that be wonderful!" The snow that covered the ground on Thursday morning has all disappeared but there's a wintry air and appearance—so no one is making garden yet.

We are glad to report our sick folks are all improving—but not good as new yet, and realizing how a sudden shock to the system affects the nerves; but as the little boy sang—the Sun will shine again.

Mrs. Addie Crumbacker spent Sunday at Clear Ridge with the family of Charles Crumbacker's and the Guy Crumbacker's of Baltimore; and we know they all fared sumptuously.

The kindness of the neighbors continue, and we think after God made mothers he created good neighbors, and a group of them live next to us.

Donald, only son of Charles and Pauline Hann Utermahlen, deceased, spent Friday with his aunt, Clara Wolfe. He is in the employ of the C. & P. Telephone Co., in Baltimore and likes his work and boarding place.

"It is interesting to hear of his experiences, especially learning to climb the poles successfully. There are tricks to all trades, and at first he held himself to erect—and slid back to the ground."

Miss Dorothy Sullivan and Mr. Bowers, of Washington, D. C. called on the Roger Sentez family on Saturday evening, and all went over to the J. Sellers home on Big Pipe Creek—where the visitors spent the night.

Mr. and Mrs. Walter Hape, Hanover, were calling on old friends and shut-ins in this community Tuesday.

From S. S. at Mt. Union on Sunday, Mrs. Myrtle Koons Sentez sent the balance of the day with her cousins at Grove Dale; and her daughter Esther, Mrs. Roy Angell and family took dinner with Edgar and Ruth Reifsnider Bair.

Mrs. Addison Koons is with her son, Roland, near Taneytown this week, where the women will do some quilting. Last week she spent a few days with her sister, Katie, Mrs. Andrew Graham in Union Bridge.

S. Franklin Koons and Russell Wetzel were callers at the Birely home on Tuesday. Russell is home on a ten days furlough from Hampton, Va., where his division of army service is on special detail. He was one of the attentive S. S. boys at Mt. Union a few years ago.

Miss Charlotte Bohn has secured employment in the office of the Rubber Factory, Taneytown. She and her sister, Miss Frances, student at W. Md. College to spend the nights with their grandmother, Mrs. Grant Bohn.

The Starr carpenters completed their work at the Raymond Wilson farm, on Saturday, where they repaired the original barn, and built a new modern cow barn—54 feet in length. This week J. H. Staffle plans to do some work on his own property in this town, and J. N. Starr has been called to serve on the Jury in Westminster—for the February term of court.

Ervin Myers of Mt. Union has sold his improved home to Frank Martin, of Linwood, and will give possession in the near future.

The register of visitors calling at L. K. Birely the past week includes friends from Waynesboro, Hanover, Uniontown, Clear Ridge, Ladiesburg, Union Bridge and Middleburg.

Because of recent rains and melting snow the cisterns and wells are filling with water and everyone rejoicing for it. We have so many mercies, but wonder if good water, and sleep are not two of our greatest nighly blessings.

Why what a lot of historical events this month commemorates—but we'll only mention three of this week: Feb. 9, 1773 William Henry Harrison was born in Va. He became the president of the U. S. A. but only lived one month after his inauguration. Thomas A. Edison was born Feb. 11, 1847—and we are enjoying the success of his great inventions. Abraham Lincoln, 16th President, was born in Kentucky, Feb. 12, 1809 and much of his life, and assassination, is known to all. On Sunday the Southernaires gave a memorial service in song, and a little sketch of his talk with the colored servants in the White House—all good.

Now for Feb. 14 in commemoration of St. Valentine, a Christian Martyr of the 3rd. century. Our new dictionary tells us it was believed birds begin to mate on this day, hence the custom of sending love notes and Valentines. May you receive a nice one.

COOPER'S DELIGHT.

Mr. and Mrs. Kelly Snyder and children, Mary Ellen and Sandra Lee spent Thursday evening with Mr. and Mrs. Joseph Snyder and family.

Those who are on the sick list are: Mrs. Joseph Snyder, Mrs. Jessie Boston and little Sandra Lee Snyder. Wish them a speedy recovery.

Since the last writing we have had some very cold weather.

We were very sorry to learn of the death of Mr. Carl Brightwell. The family have our deepest sympathy.

Congratulations to the newly weds Mr. and Mrs. Calvin Strine, of New Windsor.

Mr. and Mrs. Harry Farver, spent Tuesday with Mrs. Farver's parents, Mr. and Mrs. Joseph Snyder.

Harry Farver, Jr., and Fred Farver called on Jack and Dimp Farver, Monday evening.

Private Melvin M. L. Snyder, visited his parents, Mr. and Mrs. Joseph Snyder, on Sunday.

The U. S. Coast Guard has the honor of transporting floating court in Alaska when necessary.

On a Navy ship the "Lucky Bag" is the department concerned with misplaced belongings.

LITTLESTOWN.

At the monthly meeting of the Loyalty Sunday School Class of St. Paul Church, Monday evening the class decided to pay for the new doors at the church at an approximate cost of \$145.

The two Banks and State Liquor Store were closed Thursday in observance of Lincoln's birthday.

Mrs. Alice Showler, entertained at her home on Friday evening in honor of her son-in-law, William Rodgers who will leave for army service.

Foul play was suspected by county officials this Wednesday in connection with the death of John King, aged 44, York. A former resident of Frederick and Carroll county. His lifeless body was found in about two feet of water in the Codorus creek. Coroner L. U. Zech reported he found severe bruises of the right eye and a deep laceration of the upper lip. Examinations of the man's pockets disclosed only two twenty-five cent pieces. Although King was known to have drawn \$26.32 in pay from his employer on Tuesday.

Mr. and Mrs. J. Harry Weaver, Lombard St., prominent residents of this place, celebrated their golden wedding anniversary on Sunday. A dinner was served at Schottie's restaurant in their honor. Mr. Schottie is a son-in-law. The table appointments were gold and white, in the center of the table was a large bouquet of yellow roses and a white wedding cake, flanked on either side with gold candles. They received many gifts.

William Yingling, chairman of Draft Board No. 1, of Adams County has announced the schedule for the third registration for men from 20 to 44 years. The place will be at the engine house from 7 A. M. to 9 P. M., Monday.

Mr. and Mrs. Robert French, of Chicago, Ill., are visiting at the home of Mrs. French's parents, Mr. and Mrs. J. Harry Weaver. Mrs. French will spend some time with her parents.

At the monthly meeting of the Catholic women held Tuesday evening a sample of the field kit to be sent to the local boys in the service was on display, and it was decided that the Council would join with the parish and the other organization of the church in making one contribution in the near future. Contributions totaling nearly \$50 to help buy field kits for the boys of the Littlestown area who are serving their country were received Sunday morning at the Sunday School service in St. Paul Church. The general collection for the fund amounted to \$19.24 in addition six classes gave \$30.00.

The Rev. John C. Brumbach, pastor of Christ Church, attended a meeting of the York County Alumni Club of Franklin and Marshall College which was held at West York Inn, Friday evening.

Over one inch of rain fell on Friday and Saturday. This brings the total for the first week in February to one and half inch so far. The temperature Friday night was 29 degrees.

Ruth McWilliams, of town, was removed from her home to the Hanover General Hospital in the Hanover ambulance at 5:30 A. M., Saturday.

The guest speaker at the Reformed Church, Sunday, was William Banks, a Senior at the Theological Seminary Lancaster.

The Lions Club at its meeting on Thursday evening voted a contribution of \$10 to the field kits.

Mrs. Mary C. Kump, W. King St. widow of George S. Kump, died on Friday morning at her home after an illness of two weeks. She was nearly 84 years. She is survived by two daughters, Mrs. D. H. Hartman, Thibert, N. Y., and Mrs. Lesbia Crouse at home. She as a life long member of St. Paul's Church. Funeral was held Sunday afternoon. Rev. D. S. Koenig officiated. Interment made in Mt. Carmel cemetery.

HARNEY.

Mr. and Mrs. H. J. Wolff, received an airplane letter from their grandson, John W. Witherow, who is in Surmain, S. A., with the 99th Bombing Squadron, Force A. John has been promoted to Sergeant and is having some wonderful experience.

Mr. and Mrs. Earl Welty had as Sunday evening supper guests: Mrs. Jennie Welty and son Clyde and Miss Grace Morningstar, Middleburg.

Mr. and Mrs. Robert Reneker, of York and Mr. and Mrs. Chas. Reck, Manchester, Md., spent Sunday with Mr. and Mrs. Wm. Reck and son, Robert.

Mr. and Mrs. Harvey Wantz, purchased the Milton Spangler property on private terms. Mrs. Spangler will have sale of the household effects on the 21. of Feb. 1 o'clock.

There will be a pork and sauerkraut supper, served in the Mt. Joy Parish House from 5 o'clock on Feb. 14. St. Paul's S. S. will serve a supper in their Hall, Feb. 28 to the public.

Service at St. Paul's Church next Sabbath: S. S., at 8:30; Sermon, at 9:15. E. W. time at 7:30 P. M., a special program by the young folks of the church in observance of C. E. work. They have invited some of the members of 45 and 50 years ago to be their guest speakers. The public is invited to worship with them and so come and if you wish make your little talk too.

Mrs. Grace Barton, Los Angeles, Cal., who has spent the past year in Maryland and Pennsylvania, with her brothers and sister is spending some time with Mr. and Mrs. E. P. Shriver and her sister, Mrs. H. L. Wolf before leaving for California.

A humboat is a boat which sells supplies, provisions, and articles to ships.

Spectators at the Naval Academy's intercollegiate boxing matches must attend in formal clothes.

In the Navy a dog is a bolt to secure hatches and a wildcat a sprocket wheel on the windlass.

A STORY OF WAR BY THE PRESIDENT What is being done by the United States

President Roosevelt told his press conference Pacific councils coordinating the war effort of the United States in the southwest Pacific have been operating for about a month. The military command in the ABDA area itself, the President said, is in the hands of Gen. Archibald Wavell, but strategic problems are referred to Washington and London. The joint military and naval staffs sit in Washington.

The Senate passed and sent to the White House a joint authorization for a \$500,000,000 loan to China. President Roosevelt said the money will make it possible for the Chinese to purchase numerous war materials, both in China and in other countries. He said the loan would be a definite relief for the Chinese financial structure strained by the long war with the Japanese.

The White House announced the U. S. through the RAF has dropped a second pamphlet over several occupied French seaports in the "biggest pamphlet bombing job ever done."

The first pamphlet, announced a month ago, stressed the traditional friendship between this country and France; the second told of the rapidly-expanding U. S. war production.

A Navy aviation training program designed to develop 30,000 of the toughest pilots in the world annually for the Navy and Marine Corps will be put into operation by May 1, Navy Secretary Knox announced.

Applications for training are now being accepted. Mr. Knox asked U. S. high school youth to aid the Navy by providing 500,000 aircraft models of 50 different types of fighting planes to be used in aircraft recognition and range estimation in gunnery practice and for training civilians in aircraft recognition. The Office of Civilian Defense invited college flyers and aviation enthusiasts to participate in the Civilian Air Patrol which is seeking to enlist 90,000 civilian pilots.

Sixteen years is the minimum age for enrollment for ground service, and 18 for flight duty. The Civil Aeronautics Administration reported a 60 percent increase in private flying during 1941.

Gen. MacArthur's troops in the Philippines repulsed continuous attacks by the enemy throughout the week. Enemy losses during the week included 11 planes plus an undetermined number destroyed in the air and on the ground in an attack on Japanese-occupied Marshall and Gilbert Islands, many fleet auxiliaries, two transports and "probably" a third, and an enemy warship torpedoed. U. S. losses were 13 planes, two tankers and two freighters.

The Navy and Marine Corps reported 1,294 officers and men missing or prisoners of war. The House passed and sent to the Senate a bill to continue the pay of persons in the armed forces and civilian employees of the War and Navy for a year after reported missing, captured or interned.

Congress passed the largest appropriation bill in history of nearly 24 billion in direct cash appropriations and 4 billion in contract authorizations for the Navy. The Navy said 100,000 men have enlisted since the attack on Pearl Harbor, and the Marine Corps has passed the 100,000-man mark in officers and men, both reserves and regulars. Three destroyers and one battleship were launched and two more destroyers and one cruiser will be launched Lincoln's birthday.

He told his press conference emergency shipping schedules make it almost impossible to utilize full cargo capacity of American merchant vessels because war developments often make it necessary for the ships to sail without advance notice. The Maritime Commission said through cooperative action with American ship operators, imports of 10 important raw materials increased about 200 percent during 1941. The Commission maintained its ship-a-day construction schedule by launching 14 new vessels during the last half of January. Eight French merchant ships in U. S. ports were requested by the Commission.

War production chairman Nelson announced adoption of a system of daily progress reports to check production delays "anywhere along the line." He merged priorities and subcontracting field offices in a new Bureau of Field operations to provide "faster, more efficient service to business and industry." The WPB asked the typewriter manufacturing industry which produced 1,000,000 machines in 1941 to cut its normal production 25 percent immediately and convert its facilities to war production.

President Roosevelt directed the United States Information Service to expand its facilities "so that visitors shall have one central place to which they can go for direction and information." He said because many businessmen and other citizens "are coming to Washington in increasing numbers seeking information and the assistance of their Government it has become more and more difficult for those coming—on specific business to locate the Government official who can give authoritative answers to their questions."

Price Administrator Henderson announced rationing of new passenger autos to eligible users will not begin before Feb. 26, and delivery of cars purchased but not delivered before the Government froze all sales will begin Feb. 12. The WPB Food Supply Branch asked sugar retailers to take care of small industrial users who have bought sugar from them in the past so they can conduct business on a minimum basis. The OPA consumer division said wool products sold during the emergency still must carry a

label telling the fiber content of the article.

Price Administrator Henderson set ceiling prices for electric phonographs, radios and all tubes and parts at the levels of last October 15. He also set ceiling prices for washing machines and ironers. Wholesale and retail prices were set for passenger autos under the rationing program, including a provision to compensate dealers for storage. The WPA reported that since the beginning of the defense program rents have been increased in 114 of 115 vital defense areas surveyed.

DIED.

Obituaries, poetry and resolutions charged for at the rate of five cents per line. The regular death notices published free.

CARD OF THANKS.

I want to thank all my friends and neighbors that sent me cards, flowers, fruit and candy, while at the Frederick City Hospital.

MRS. MARY GRAHAM.

HOW JAPS' 2-MAN SUBS GOT INTO PEARL HARBOR

Revealing article which shows how the deadly, little killer-ships were launched from and returned to their shelters aboard huge whaling ships prepared long ago for their sinister work. Don't miss this feature in the February 22nd, issue of The American Weekly the big Magazine distributed with the Baltimore Sunday American. On sale at all newsstands

COMMUNITY LOCALS.

(Continued from First Page.) Mrs. Maggie Eyer returned home Saturday evening after a two months stay in Florida.

Miss Nellie Selby, of Hanover, Pa., is spending this week with Mr. and Mrs. George Angell.

The solicitors for the Firemen's annual supper to be held next Saturday, Feb. 21, will begin their work on Monday of next week.

A NAVAJO INDIAN MISSIONARY SPEAKS AT THE PRESBYTERIAN CHURCH

The Board of National Mission of the Presbyterian Church in the United States of America sent Mrs. Roger Davis, an experienced Navajo Indian speaker, from Arizona to speak at the Presbyterian Church on Thursday afternoon.

The devotional service was in charge of Miss Amelia H. Annan, president of the Taneytown Missionary Society, Miss Anna Galt, president of the Piney Creek Missionary Society and Mrs. Ogle, president of the Emmitsburg Missionary Society with Mrs. Robert Clingan as organist.

School children of the third grade attended the meeting with their teacher, Mrs. Koutz. They were impressed to see and hear a real Navajo Indian and showed their appreciation by writing Miss Annan a letter of thanks for having had the privilege of attending the meeting.

Mrs. Davis told the children how boys and girls of her race live and play. She also displayed woven rugs as well as dolls attired in Indian costumes.

Mrs. Davis was born on the Navajo reservation and at the age of seven years she was sent to the Presbyterian boarding school at Tolchaco.

Schooling ended, she returned to her mother's hogan on the reservation, which was fifty miles from the missionary she had known at school, and completely out of touch with her friends. After eighteen months she was taken by the missionary, who had befriended her in former years, to the school at Ganado. Here she spent three years in spiritual training, all the while looking forward to the time when she could serve her own people.

At present Mr. and Mrs. Davis are on leave of absence from their work for study at the Cook Christian Training School at Phoenix, Arizona, preparing themselves for fuller, richer service to their people on the reservation.

TANEYTOWN KIWANIS CLUB

The Taneytown Kiwanis Club held its regular weekly meeting at Sauble's Inn, on Wednesday evening, Feb. 11, at 6 o'clock. There were present twenty-seven members, three guests and visitors: Ray Shipley and Dr. Cooper of the Emmitsburg Club and Kenneth Gilds, of Taneytown; also fifteen ladies. President Robert W. Smith presided. Music was in charge of Raymond Wright, with Mrs. Wallace Yingling as accompanist.

The program was in charge of the House and Reception Committee, William B. Hopkins, Chairman, who introduced Rev. Dr. Paul W. Quay, pastor of the Lutheran Church, at Westminster, as the speaker of the evening.

Dr. Quay spoke humorously for the most part of the significance of Valentine Day, he found the meaning of Valentine Day to represent the importance of the home, the fundamental ideal of humanity. Such an ideal, he said, shows itself early in life and never loses it. Civilization will suffer great loss if the home instinct ever breaks down.

The program next week will be in charge of the Citizenship Committee, Lewis Crumpacker, Chairman, and will be observed as "Patriotic Night"

NATIONAL BOY SCOUT WEEK FEB. 6 TO 13, 1942

Boy Scouts in Carroll County have completed final arrangements for their annual Jamboree to be held

CARL HAINES, Clerk.

Forty-Seven Years Ago.

Some thief stole a new horse blanket from Mr. Wm. Stouffer's sleigh. N. B. Hagan sold his Frederick Street property (formerly Elliot's) to A. F. Orndorff.

R. S. McKinney moved his drug store to the building adjoining the Savings Bank that was occupied by H. E. Slagenhaupt.

The mercury ranged from two to four below zero. Then snow which commenced falling on Thursday morning continued all day, and in the evening and during the night developed into a blizzard, the severity of which had not been equalled for years. The roads in all directions were drifted so that they were practically impassable, in many places as high as the fences, and cuts were level full. No mails, either by rail or star route, had arrived or departed Friday noon. The cut at Reindollar's farm, which is twenty feet deep, was full to the top as well as other cuts along the line. Four years before this time the line was badly drifted and trains delayed two days, but this blizzard exceeded that one in severity.

The new Lutheran Church at Silver Run was nearing completion. The bell in the tower, measuring 52 inches in diameter and weighing 2600 lbs. bore the following inscription: "Presented by Frank P. Cover and wife Laura J., of Brownstown, Va. to St. Mary's Evangelical Church, at Silver Run, Md., as a memorial of his mother, Maria A. M. Cover, who died at Silver Run, January 13, 1880. Come hither and hear the word of the Lord your God."

SALE REGISTER

Sales for which this office does printing or advertising, will be inserted under this heading (4 lines free of charge.) Charge for sale register alone, \$1.00 until date of sale. Notices longer than 4 lines must be paid for, extra.

FEBRUARY

14—Community Sale, in Middleburg. See Samuel I. Bowman or Chas. A. Ohler, Middleburg.

14—1 o'clock. Samuel Glingan, Taneytown. Household Goods. Earl Bowers, Auct.

17—12 o'clock. John A. Barnhart, on Roop's farm, at Otterdale. Live Stock, Farming Implements and Household Goods. Harry Trout, Auct.

21—1 o'clock. Mary M. Spangler, in Harney. Personal Property. D. E. Benner, Auct.

21—12 o'clock. Claude Reiffnyder, near Fountain Valley. Stock, Implements and Household Goods. Earl Bowers, Auct.

23—10 o'clock, sharp. Charles S. Houck, 3 miles north of Frederick, on Liberty Road. 50 head Horses, 20 head Heifers, Farm Machinery.

MARCH

5—12 o'clock. Harry Senft, near Taneytown. Live Stock and Farm Machinery. Harry Trout, Auct.

7—12 o'clock. Harry Babylon, on road leading to Hahn's Mill to Menges Mill. Stock and Implements. Earl Bowers, Auct.

10—Lizzie F. Stover, 3 miles south of Taneytown. Stock and Implements.

10—12 o'clock. Oscar Frock, between Littlestown and Harney. Stock and Implements. Earl Bowers, Auct.

11—12 o'clock. Mary Spangler, of near New Oxford. Live Stock. Earl Bowers, Auct.

IDA ISADORE CLARK, late of Carroll County, deceased. All persons having claims against the deceased are warned to exhibit the same, with the vouchers thereof, legally authenticated, to the subscriber, on or before the 14th day of September next; they may otherwise by law be excluded from all benefits of said estate.

Given under my hand this 10th day of February, 1942.
CHARLES E. CLARK, administrator of the estate of Ida Isadore Clark, deceased.
CHARLES O. CLEMSON, Attorney. 2-13-3t

EDWARD T. BEALL

Edward T. Beall has been appointed district commercial manager of the Western District of The Chesapeake and Potomac Telephone Company of Baltimore City with headquarters at Hagerstown, according to an announcement made by Harry S. Boyle, Jr., general commercial manager. He succeeds Silas M. Creech who has been transferred to the Washington Telephone Company as auditor of receipts.

Mr. Beall was born in Baltimore, Md., March 16, 1908, and was graduated from Johns Hopkins University in 1929.

He entered the service of the Company in July, 1929 as a clerk in Washington. During that year he was transferred to Baltimore and in April 1933, became manager of the Towson office. In 1937 he was appointed commercial supervisor-customer relations and in 1940 he was transferred to the Baltimore business office as a manager and remained in this position until his recent appointment.

Mr. Beall married Miss Evelyn Reck of Calvert County. They have one son, thirteen years of age, and they will make their home in Hagerstown in the near future.

Mr. Creech served the Maryland Telephone Company in various supervisory capacities before his transfer to Washington and while in the Western District was active in civic affairs, being a member of the Chambers of Commerce in Cumberland, Hagerstown and Westminster and the Hagerstown Rotary Club.

Miss Adeline M. Hoffman, Home Demonstration Agent for Carroll County, was recently elected to membership in Delta Kappa Gamma, Honorary Fraternity for Women in Education. The candidates for this Fraternity are elected by its members from women who are actively engaged in the field of education in some capacity of leadership from the elementary level to the University level. This Fraternity is organized in 44 states in the United States and numbers among its members many of the county's outstanding leaders in education. Miss Hoffman is also a member of Phi Upsilon Omicron, Honorary Fraternity in Home Economics, and holds office in the Chapter which meets in Washington.

NUTRITION CLASSES READY TO START

Standard Red Cross courses in Nutrition will be given at Westminster beginning on Monday, Feb. 16, it is announced by Miss Adeline M. Hoffman, Home Demonstration Agent, and Chairman of Nutrition for the Red Cross. A large enough number of people have enrolled for the course up to date so that they can meet in two separate groups. One group will meet on Monday and Friday afternoon from 2 to 4 at the Historical Society, and another group will meet on Tuesday and Thursday evenings from 7:30 to 9:30, at the Historical Society. Books have already been ordered for the number of people who have enrolled for the courses.

Most of the people who have enrolled stated their time preference and those who did not indicate whether they would prefer to meet in the afternoon or evening may contact Miss Hoffman in the Postoffice Building. The classes are not filled so people who have not yet signed up may still do so before Monday, February 16, or Tuesday, Feb. 17, for people who wish to attend with the group which will meet at night.

The Standard Nutrition course is prerequisite to the Canteen Course and all people who volunteer for Canteen Service must have completed the canteen course. Both the nutrition and the canteen courses are 20 hours in length. For both courses the plan will be ten class periods of two hours in length. Anyone interested in having a nutrition course conducted in another community in the county should contact Miss Hoffman to make arrangements for such a course

There's going to be lots of extremely entertaining this year, especially when the boys dash home unexpectedly from camp. So keep in your file of good things to serve an easy-to-prepare punch that tastes good with sandwiches, homemade cookies and cake. Here's one that will keep you and your young guests on the vitamin standard we are all following today, because the most important ingredient is canned unsweetened Hawaiian pineapple juice, which is a good source of both vitamins B-1 and C.

It's called Paradise Island Punch, and the recipe goes like this: Place one quart of orange sherbet in a four-quart punch bowl. Pour in three quarts unsweetened Hawaiian pineapple juice which has been well-chilled in the can before opening. Garnish with lemon and lime slices and sprigs of fresh mint. Serve at once. Yield: Four quarts.

Broiled Scallops with Bacon
1 box (12 oz.) quick-frozen scallops, thawed
2 tablespoons olive oil or melted butter
Salt and pepper
4 to 6 slices bacon
Place scallops in greased shallow broiling pan; pour oil over scallops and sprinkle with salt and pepper. Broil at medium heat 7 minutes. Turn scallops, top with bacon and broil 10 minutes, turning bacon after 5 minutes. Drain on unglazed paper. Serve hot. Serves 4. This ocean treat is one of the famous resort specialties that quick-freezing has made practical for party refreshments or the family table, no matter how far you live from the sea. All the chores of cleaning and preparing are done before quick-freezing in fresh ocean flavor, vitamins and minerals.

Limas a la Francaise
2 cups cooked, dried Limas
3 tablespoons butter
¼ teaspoon salt
¼ teaspoon pepper
1 egg, slightly beaten
Place milk, Limas, butter and seasonings in a saucepan. When hot, add egg diluted with milk. Stir until thick.
Orange Chrysanthemum Salad
6 Navel oranges
1 cup unpeeled apple slices
Lemonized mayonnaise
Salad greens
Cut tops from oranges. Remove meat in pieces. Cut orange shell to imitate petals of chrysanthemum. Combine orange, apple and dressing. Fill shells. Serves 6.

Children's Delight
1 package vanilla rennet powder
1 pint milk, not canned
4 or 5 canned apricot halves

Valentine Liederkrantz Cheese Canapes
Use slightly stale bread and cut in ¾ inch slices. Cut the slices in squares, circles, oblongs and triangles. Toast one side quickly so that it will not be hard. Crisp crackers and numerous special cocktail and canape crackers also make good foundations, and so does thinly sliced pumpkin. Spread crackers, toast or bread with Liederkrantz cheese, Camembert, and Brie, and garnish with sliced olives, tiny pickled onions, watercress, parsley, anchovies or pimiento. The cocktail cheese spreads, including Blue cheese, which has taken the place of vanished Roquefort, are delicious served on crisp potato chips and short lengths of celery are also appetizing as canape foundations.

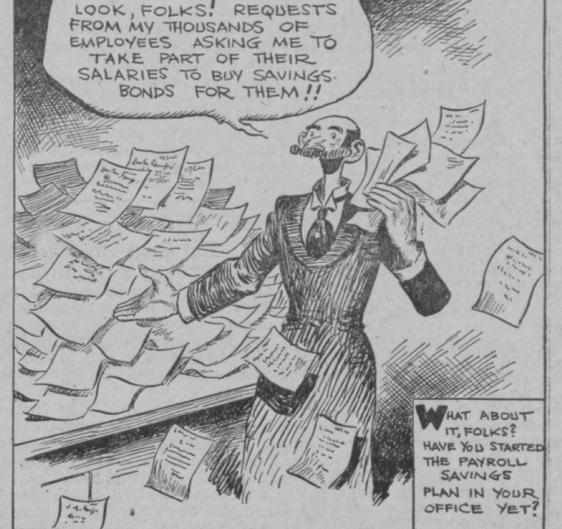

Cupid's Magic Candies
¾ cups (7½ oz. can) sweetened condensed milk
1 teaspoon vanilla
4 cups sifted confectioners' (4X) sugar (about)
Blend sweetened condensed milk and vanilla. Add confectioners' sugar gradually and continue mixing until smooth and creamy. Use between halved nut meats and as stuffing for dates. Or form into small balls and roll in chopped nut meats, shredded coconut, grated chocolate, chopped candied fruits. Or flavor variously and color lightly and form into round, flat cookies. Or pat out on lightly sugared board to ¼ inch thick and cut hearts with cookie cutter. Allow to dry for two or three hours. These candies are so easy that even a beginner cook can make them by this magically failure-proof recipe.

Honeyed Coffee Color in Kitchen

Coffee, sweetened with honey, has become the vogue in Hollywood studio commissaries. Honey is a source of quick energy but non-fat-tinger. Above, film starlet Jean Rogers sweetens daily cup.

Hunter Is Injured By Gun Fired by Dog

WASHINGTON.—A hunter was critically wounded when his hunting dog accidentally discharged his shotgun.

Daniel Hutchison, 26, had laid his gun on the ground in a hunting area when the dog stepped on the trigger, firing the weapon. The charge struck Hutchison in the chest.

Doctor Operates Under Gun Threat

CHICAGO.—A young doctor performed an operation at the point of a gun and helped three bandits to escape a police dragnet by keeping his "word of honor."

Police squad cars were racing along streets on Chicago's west side searching for three robbers when Dr. James Mahoney telephoned police headquarters from the Clearing Industrial hospital.

"I was just forced to remove a bullet from a man's shoulder," Mahoney reported nervously, "while another man was pointing a gun at me. They left 15 minutes ago."

A squad of police interviewed Mahoney at the hospital while other patrolmen made a fruitless search of the district.

Mahoney, 25, told the officers he was alone at the industrial medical office when two men entered. A third man and two youths stood at the entrance. One of the men said his shoulder needed treatment.

The doctor said he balked when he discovered the injury was a bullet wound and that he insisted he must phone police. Then he noticed for the first time that the second man was carrying a shotgun.

"He pointed the gun at me and told me to go ahead," Mahoney said. He removed the lead slug in 10 minutes.

"Now, Doc, we can tie you up," one of the bandits said, "but if you'll promise on your word of honor as a doctor not to call police for 15 minutes, we won't tie you."

Mahoney agreed and kept his pledge—to the annoyance of police who lost track of the fugitives.

Honors Pledge to Bandits, Aids in Their Escape.

Novice With Gun Beats Bandit, Thwarts Robbery

CHICAGO.—A 31-year-old accountant who said he "never held a gun in his hand before" handled a pistol like an accomplished gun-fighter last night and thwarted an attempted holdup.

John Roche, the accountant, was visiting his brother-in-law, Gene Flood, in Flood's liquor store when two men knocked at the door at closing time. Suspecting trouble, Roche slipped a pistol into his pocket from a cigar box under the counter.

When the men entered one drew a weapon and announced a stick-up. As his companion approached the cash register Roche thrust his arm around the man's neck, used him as a shield and began firing at the other.

Flood told Police Lieut. William H. Doyle the gunman shuddered as though wounded and then fled. The other man, seriously wounded in the crossfire, and Roche, shot in the right hand, were taken to a hospital. Doyle said the man identified himself as Nicholas Condes, 22, and said he knew his companion only as "Tommy."

He's 'Too Young to Hunt' But Bags Big Pheasant

UNIONTOWN, PA.—Eleven-year-old Russell Scott's father and grandfather thought he was too young and inexperienced to take along on a hunting trip, so they left him behind to amuse himself with a BB gun on the grandfather's farm at Norvelt.

The father and grandfather trapped through the woods, only to return disgusted and empty handed. Russell met them at the barnyard, displaying a plump pheasant. He had winged the bird with a BB shot and then beaten it to death with the gun after it had fallen to the ground.

CURRENT FICTION
Something He'd Read
By JAMES FREEMAN
(Associated Newspapers—WNU Service.)

"WHAT a break!" Police Officer Spence Tuttle groaned as the short-wave radio in the patrol car began to bark their number. Officer Ken Johnson, Tuttle's companion, smiled sickishly. In just five minutes the pair would have been relieved of duty for the night.

Tuttle glanced into his code book, holding it beneath the instrument board light. "Code 76." He repeated the number that had come from the short-wave set. "Murder," he read. "Man shot and killer has escaped."

Tuttle closed the book and grinned. "Well, that ain't so bad. Murders was always my meat and drink."

Johnson, who was driving, spun the wheel sharply. They sluiced off the main thoroughfare and tore madly along a dimly lighted side street. Five minutes later the car drew up in front of a pretentious-looking apartment, before which a small crowd had gathered. The policemen pushed their way to the front door, ordered the liveried footman who was standing there to allow no one to enter and went inside. A greatly excited superintendent met them in the hallway.

"This way, gentlemen. I thought you'd never come."

He stepped into an elevator, and the officers followed. At the tenth floor they alighted and the superintendent pointed to the door directly opposite. "It happened in there, gentlemen. Harris, Mr. Wainwright's butler, will let you in. It was Harris who spread the alarm."

Tuttle rapped loudly on the door and stepped inside the moment it was opened. Johnson followed. The man who confronted them was

"In that event," said Officer Tuttle sternly, "we'll have to charge you with the murder of your employer!"

obviously Harris, the butler, and a badly frightened butler, too, Tuttle thought.

They could see the figure of a man lying on the floor in a room just off the entrance hall. Tuttle bent over the body. The victim had been shot squarely between the eyes. The officer knew vaguely that Edson Wainwright was a prominent financier, and was reported to have lost heavily in the stock market.

Tuttle stood erect and eyed the butler. "What happened?" he asked.

Harris gulped. "I don't know, sir. I was in the pantry, preparing a sandwich and a glass of milk for Mr. Wainwright, who had just come in. I heard a shot, and rushed into the living room—to find this." He paused, staring helplessly at his dead master.

"Know where the shot came from?"

"It must have come from over there—through that window."

"What makes you think so?"

"It sounded sort of muffled. Besides, there's a fire escape there. A man could have been standing outside and made good his escape."

Officer Johnson had reached the window in his rounds, and now Tuttle turned to ask him a question.

"How's it look, Ken?"

Johnson grunted. The window in question was open and the policeman was tugging at the screen. Suddenly he stopped, seemed to examine something with unusual interest.

"Harris is right," he said, joining the others in the center of the room. "There's a fire escape there and it would have been easy for the murderer to turn his trick and get away."

Tuttle looked abruptly into Harris' white face. "You been here all evening?"

"Yes, sir. Since early morning."

"And no one else was around? No one came in or went out?"

"No one except Mr. Wainwright."

"In that event," said Officer Tuttle sternly, "we'll have to charge you with the murder of your employer!"

Harris gasped. "Why—I don't understand. I—that is, you can't accuse me without proof."

"That's true," Tuttle gasped. "Listen, Harris, we know you killed Wainwright so you might as well come clean."

"You know! How? You haven't any proof!"

Tuttle leaned close. "It's true that Wainwright lost heavily in the stock market, isn't it?"

"Yes."

"It's true his brokers have run him ragged by continually calling up for more margin? And it's true that Wainwright was just about out of funds?"

"I don't know. I know he received a good many calls."

"And you know also his brokers called him this morning. You know he had to have money, and he asked you for what you had, promising to double the amount when he paid you back. You gave it to him—probably your whole life's savings. And tonight you discovered he'd lost it all. You were broke, without a chance of getting it back. So you waited for him to come in, intending to kill him, which you did! That's true, isn't it?"

For an instant Harris' eyes wavered. His expression was that of blank amazement.

"Why—why, how did you—that is—" he paused, staring helplessly into the officer's face. There wasn't much he could do. Tuttle had the whole story down to its minutest detail. It was too amazing, too shockingly true to be contradicted without fear of incrimination.

"Self-defense is your best alibi," Tuttle was saying as he snapped on the cuffs. "It's your only chance." His tone was not unkind.

Later, once more in the patrol car, Officer Johnson let out a long whistle. "How," he asked, "in the name of all creation, did you dope it out? And me always thinking you were a dumb bloke."

Officer Tuttle grinned pleasantly. This was his moment of triumph, and he took advantage of it.

"I don't know nothin' but what I read in the papers," he grinned.

"Yeah! Well, get it off your chest. It's your right to crow."

Tuttle lighted a cigarette. They were off duty now. "It was like this," he began. "I guessed it!"

"Guessed it?"

"Sure. This evening I read how Wainwright was about ready to blow up, and his borrowing money from his butler, seemed like the only logical solution. I took a chance, and made a bulls-eye. I'll bet Harris is still trying to puzzle out how I did it."

"Fine. But you must have had something to arouse your suspicions. You just couldn't accuse a man like that without a bit of evidence."

"Oh, that!" Tuttle flicked his cigarette airily. "Well, that's where the secret lies. You see, when I examined that screen I found a hole in it, just like Harris said I would. Only the bullet that had made the hole was shot from the inside, as was indicated by the fact that the pieces of wire were forced outward. I figured that Harris had shot that hole through the screen just to make it look like some one standing outside had killed the old man. And when he swore that no one else had entered the room, I knew I was on the right track. That's why I took a chance on hatching up the rest of the story."

"Oh, I see." Officer Johnson spun the wheel and brought the car to a stop before the curb at headquarters. "Well, that just goes to prove what I get for not reading the papers. I knew you couldn't have doped it all out yourself."

Foot Deformity Started Vogue of Pointed Shoes

Sometimes fads in shoes have lasted for centuries and probably caused about as much misery as all the wars fought in those same years. Pointed-toe shoes and the high French heels are two of the worst offenders that are still with us.

Pointed-toe shoes came into fashion in the Eleventh century in the court of William II of England, where a nobleman known as Fulk Rechin used them to hide a deformity, and by the reign of Richard II the pointed court slippers were so long at the ends that they were fastened up, out of the way, with light chains to the knees of the wearers.

Pointed-toe shoes have been in and out of fashion ever since. As recently as 1900 and 1905 the "sports" of that bygone era used to be proud of their bright yellow-colored "pig-stickers" that went nicely with their peg-top pants and broad-brimmed sailor straw hats.

By somewhat the same route—via the courts of royalty—came the French heel into the place of fashion which it still holds today.

Catherine de Medici came to the court of the French King Henry II to be his bride. Because she was so short and tiny she brought with her from Italy special shoes with built-up high heels. Because it originally was the mark of a queen, the fad caught on and has stayed with us ever since to the discomfort and torture of millions of women.

Back in the 1600s the fad for French heels became so great that court ladies in France used to wear heels from 6 to 20 inches tall. Even the men took up the high heel fad and short King Louis XIV once decided he would top all his court retinue. He came out on stilts! No one topped that.

Increasing Farm Accidents Attributed to Machine Age

Above—When the horses start, the knife-sharp blades of the discs begin to turn. Agricultural implements are the leading farm accident hazard. Right—Cigarettes and gasoline are noted for their teamwork in causing serious injury and costly fires.

Farmer Is Urged By Red Cross to Check Accident Hazards

Washington, D. C.—Mechanization of the American farm is accounting for a mounting accident fatality toll, the Red Cross pointed out in an appeal for farm owners to participate in its year-round Home and Farm Accident Prevention drive beginning the last week of October.

Of the 4,500 farm workers killed by accidents last year, approximately 28 per cent were due to carelessness and the use of faulty implements, the Red Cross said. Ill-tempered animals, vehicles, excessive heat and falls led other farm accident causes in that order.

To the farmer, the Red Cross urges a close check-up for the removal of accident hazards. Machinery, tools and other equipment should be examined periodically and kept in good repair. Tools and implements should be kept in regular places, out of the farm yard or where they may cause a serious fall. Bulls, boars and other dangerous animals should be kept in secure pens.

Approximately 50 injuries of varying degree occur for every farm accident fatality—a nation-wide total

of some 225,000 for last year, the Red Cross appeal for greater safety pointed out.

To launch this year's Accident Prevention program the Red Cross again will distribute 10,000,000 home and farm "check lists." By following the suggestions urban householders can systematically check the home for accident hazards. A similar check-up is outlined for the removal of hazards on the farm.

Of The Moody Bible Institute of Chicago.
(Released by Western Newspaper Union.)

Lesson for February 15

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE HEALING MINISTRY OF JESUS

LESSON TEXT—21:1-12.
GOLDEN TEXT—Jesus . . . was moved with compassion toward them, and he healed their sick.—Matthew 14:14.

Man is more than a body. He is made up of body, soul, and spirit. In a physical world where he is so much in touch with physical nature, and the needs of his body are so much before him, he is prone to forget that there is within a spiritual nature which is his real self. God is interested in both the physical and the spiritual side of man. He provides all that we need for our bodies, and above all, He meets the all-important spiritual hunger of man's inner being. We find the Lord Jesus in our lesson graciously touching both spirit and body of the palsied man in response to the faith of his friends.

I. Faith Brings a Double Need to Christ (vv. 1-4).

This faith-stimulating story faces us first with

1. An Impossible Situation. Incurably afflicted and helpless physically and far more deeply afflicted spiritually, this man had no one who could heal his body and restore his soul. Apart from the power of God in Jesus Christ his situation was hopeless, and thus he may well typify every one of us except for the grace of Christ.

Furthermore, his circumstances were such as to make it impossible for him to get to Jesus, who was there in his city. Even when his four friends came to his help and bore him to the house where Jesus was, they could not enter because of the crowds. So a journey begun in hope was evidently to close in despair. But wait, these men had

2. An Undeniable Faith. "Where there's a will there's a way." Where there is faith the obstacles may be surmounted. Having begun a good work they persevered in it.

Had these men been bound by convention or custom they would never have put their friend at Jesus' feet. They did try to make a proper entry through the door, but it was blocked. The way to Jesus is often closed, by some custom, a vain philosophy, or a religious ceremony. Let us, like these believing men, open the roof if necessary to bring our needs and our needy friends to Him.

Although mention is made only of the palsy of this man, it is probable that both he and they knew that his need was for a double cure, for he was yet in his sins.

They brought him to Jesus, where their

II. Faith Receives a Double Reward From Christ (vv. 5-12).

Immediately Jesus "saw their faith" (v. 5), just as He always does. God is on the lookout for faith and is quick to reward it. The twofold need here brought a double blessing.

1. Spiritual Cleansing. The man's physical affliction thus proved to be his greatest blessing, for it brought him to Jesus, who cleansed him of all unrighteousness. If he had not been palsied he might never have met the Lord. Suffering, then, may be a means of grace. That is more than a pious platitude, for it has been proved repeatedly in the existence of men and women.

Certain scribes "sitting there" (they were not doing a thing to help) began to reason in their hearts that Jesus was blaspheming because only God can forgive sin. Their theology was faultless and their reasoning was logical, but the premise of their argument was wrong. Only God can forgive sin, but Jesus is God, something which they in their wisdom did not realize or accept.

We (especially young people in school) should be careful that the fluent smoothness of some unbelieving philosopher's logic does not lead us astray, and away from God's truth.

Note also the solemnizing thought that Jesus knew what they were thinking in their hearts. Let us remember that "all things are naked and opened unto the eyes of him with whom we have to do" (Heb. 4:13). What does He see when He looks into our hearts?

The challenge of these questioning scribes is met by

2. Physical Healing. Forgiving sins was harder than healing the body, but these enemies of Jesus lived so much in the realm of the physical that He had to give them a demonstration of His almighty power which they could see. It was a gracious thing for Him to do, and perhaps necessary for those early days of His life and ministry.

Today, with all the light of history upon the work of God, we need to beware that we do not sit in the seat of the scornful and demand a physical sign before we will believe. God is doing great things in the spiritual realm, even in our day, in which Christian men and women may share by faith.

Sharks Once Shunned, Now Vital Source of Vitamin

Science has turned the tables on the sharks.

After roaming the seas for centuries—shunned as a scavenger and feared as a killer, the shark is finding a place of importance in the American home.

Tiny capsules, designed to bring health to thousands, are being prepared from this killer of the deep.

Recent research by the medical world has disclosed vital vitamin content in shark liver oil. Leather goods manufacturers have found a place in their industry for shark skin. Other uses will no doubt be made of the finny monsters in the near future and the shark is now hunted instead of the hunter.

Just so you will know what kinds of sharks might have contributed to the little capsules sitting in your medicine chest—here's a bit of business about them and where they may be found.

Perhaps the best known of these babies is the white shark or man-eater. He is white on the belly and brown on the back—and when you see him coming toward you the only thing to do is pray.

Another man-eater is the blue shark. He is also of the white belly clan and has a slate blue back. These can be found most anywhere in the warmer waters of the world and when they go after a school of fish they'll run them right into the fisherman's net.

They aren't babies—they grow up to and better than 20-feet in length. Very similar to these is the dusky shark—only smaller.

The thresher shark is easily identified by the very long upper tail lobe which this type uses as a powerful tail when it attacks a school of fish. The thresher runs from 12 to 15 feet long.

A common small species along the Atlantic coast is the sand shark which has sharp teeth but according to mariners will not bother a human in the water.

Seminole Indian Chief Didn't Pull Punches

Osceola, wily half-breed leader of the Seminoles, regarded murderous deceit as a fair weapon in his relentless warfare against the United States government in defending the right of his people to live in the thick, steaming everglades of Florida. His cunning method was to obtain supplies for his men by promising at intervals to keep the peace, and then later ambushing scouting parties of American soldiers in the fastnesses of the swampy grasslands. Though it was done under extreme provocation, it is generally admitted that the government itself was not fair with Osceola when, under a flag of truce, it seized the savage and put him into the irons in which he died. The Seminole war lasted seven years, ending in 1842, and cost thousands of lives and more than \$20,000,000. The vanquished redskins were sent to reservations west of the Mississippi. One band of Seminoles was never caught. Its descendants are the few hundred harmless Indians now residing in the Florida Everglades.

Machine, Machineless

"The machine method is older. In this type of wave, the hair is prepared and wet with an alkaline preparation, and the heat is supplied by heaters (one for each curl). These units are attached by cords to the central heating unit, an electric machine.

"In the machineless type, the heat is supplied to each curl by a small chemical pad, which is heat-producing when moistened with water, or in some cases a specific chemical solution. The pad is usually still cold when applied to the hair and does not come in direct contact with it. The chemical reaction generates heat, the maximum temperature is quickly reached, and the pad begins to cool."

First Photograph

Maj. Albert W. Stevens, commander of the National Geographic society-U. S. army air corps stratosphere balloon Explorer II, took the first photograph ever made showing the division between the troposphere and stratosphere and also the curvature of the earth. This unique picture was obtained above 96 per cent of the mass of the earth's atmosphere, and is the first photograph ever made with the line of sight from the camera to a far-distant objective (the arc of the dust horizon) wholly in the stratosphere. Major Stevens also made the first natural-color photograph in the stratosphere, at an altitude of approximately eight miles above sea level.

Japanese Stones Crying

Japanese stones are free to complain. "If you happen to hear," says the Japan Times Weekly, "a strange wailing sound when traveling through the districts around Fujiyama . . . you'll be surprised that it is the poor stones crying because they have no place to go." The explanation is that these pieces of ancient lava are prized as garden stones and many people have lived by gathering and selling them. But under the Anti-Luxury Regulations luxurious things are forbidden to be transported, and garden stones are deemed a luxury.

TO YOUR Good Health by DR. NATHAN S. DAVIS, III

HOME PASTEURIZATION NECESSARY SAFEGUARD

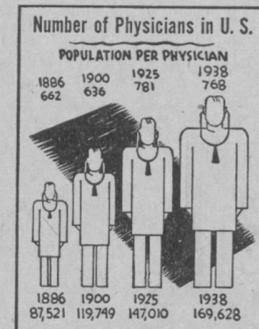

In 1886, David Bruce found the organism that caused a disease that was quite common on the island of

Dr. Nathan S. Davis III

Malta and on the shores of the Mediterranean, which some 20 years later, was found to result from the drinking of raw goat's milk. In 1897, a Danish veterinarian found the organism that caused contagious abortion (Bang's disease) in cattle. In 1918, Alice Evans found that the organisms discovered by Bruce and Bang were identical and a little later Traum found that the organism also was the cause of an infectious disease in swine. This organism was named after Bruce, the Brucella and the disease became Brucellosis.

This disease, which only a few years ago was considered rare and limited to the Mediterranean area and a few districts elsewhere where raw goat's milk was used, has now been found to be one of the most

widespread of all the infectious diseases. It has an incubation period of from 5 to more than 30 days and a gradual onset in most instances though it may start with a sharp chill and rapid rise of temperature.

Varied Symptoms.

In the acute form the signs and symptoms are quite characteristic though the diagnosis can not be made definite without the help of laboratory tests. Less than 10 per cent of the chronic cases have had any manifestations of the acute disease and some of the ordinary laboratory tests may be negative though the more delicate ones are positive. In many of these cases, the patient is only partially disabled for work and complains chiefly of weakness and exhaustion, with or without mild fever, loss of weight, headache and muscular and joint pains.

Man seems to be most susceptible to the variety of Brucella causing the disease of goats, next to that affecting swine and least to that affecting cattle. Nevertheless the disease in man is most commonly due to drinking raw milk from cows with Bang's disease.

The widespread distribution of the Bang's disease in cattle makes it difficult to control the disease at the source. A cow may appear perfectly healthy and yet eliminate large numbers of Brucella in the milk. Bang's disease is so contagious in cattle that it is impractical to test them often enough.

As Brucellosis is generally a milk-borne disease, the logical method for its prevention is the pasteurization of all milk and milk products. Those handling fresh killed pork must also be careful to avoid infection through any cuts or abrasions.

Of course Brucellosis is only one of many diseases that may be transmitted to man through the use of raw and unpasteurized milk and dairy products even when certified. Complete pasteurization (143-145 degrees F.) for 30 minutes will destroy these organisms. The requirement by various boards of health that all milk sold in the area over which they have jurisdiction, must be pasteurized under strict supervision is amply justified. Home pasteurization should be the rule for those who live on farms or in small communities that do not as yet require pasteurization. This may be carried out by placing the milk in an aluminum vessel and heating it to 155 degrees F. (68.3 C.), stirring constantly, then immediately setting the vessel in cold water and continuing the stirring until cool.

"The best doctors are Dr. Diet, Dr. Quiet and Dr. Merriman." From the "Regimen Sanitatis Salerni."

QUESTION BOX

Send questions to Dr. Nathan S. Davis III, Winnetka, Ill. Enclose a self-addressed, stamped envelope.

Q.—I am interested in taking pituitary juice to reduce my weight. Could you advise me?
A.—You should not take pituitary extract except under a physician's supervision.

Q.—What is meniere's disease?
A.—Meniere's disease or syndrome is a group of symptoms—dizziness, nausea and buzzing ears. Cutting down on salty foods helps most cases.

'Remember Pearl Harbor,' War Cry Takes Its Place Alongside Slogan of Other Wars.

WASHINGTON, D. C.—"Remember Pearl Harbor!"

Born in Japan's treacherous, peace-shattering attack on the great American naval base in Hawaii, the phrase overnight became the battle cry and the byword of the nation.

Such other, it ranges itself beside such other famous expressions in American history as "Taxation without representation is tyranny," "Damn the torpedoes—full speed ahead," "Don't give up the ship," "Lafayette, we are here," and those two others dealing with poignant memories: "Remember the Alamo." "Remember the Alamo" was voiced by Gen. Sam Houston preceding the Battle of San Jacinto, in 1836, when Texas gained its independence from Mexico.

Curiously, the World war seems to have had, for Americans at least, no one battle cry to ring discordantly on the ears of the foe. The tribute to Lafayette, who aided this nation in the Revolution, was paid by Col. C. E. Stanton before the Frenchman's grave.

"Damn the torpedoes—full speed ahead" came from Admiral David Farragut in the Battle of Mobile in 1864.

"Don't give up the ship" was an order from Capt. James Lawrence in the War of 1812. "Keep the guns going," he said. "Fight her until she strikes or sinks." "Don't give up the ship."

The famous Revolutionary war taxation slogan came prior to the nation's fight for independence. Countless others were originated during the wars in which the nation took part.

The latest, however, looks good for the duration—and then some.

"Remember Pearl Harbor!"

Gets Burglar's Shoes, But Burglar Escapes

CHEEKTOWAGA, N. Y.—Restaurant Proprietor Anthony Mieczak, 51, noting a burglar emerging from a poolroom, let fly with a shoestring tackle and wound up with the burglar's shoes in his hands.

The burglar continued down the street with his loot of \$15 in cash and \$25 worth of cigarettes.

This Hen Does Her Part To Boost Output of Eggs

IPAVA, ILL.—Mrs. Gomer Codling of this city has a hen which apparently has been keeping abreast of the situation facing the nation in view of the rising cost of living and the demand for increased production.

While baking this week, Mrs. Codling broke one of the eggs she had collected and found that it was double-barreled, or double-yolked.

Inside the shell she found not only the usual white and yolk, but another perfectly formed soft-shelled egg.

Beggar Hears No Evil, But Oh, Boy! That Jangle

BALTIMORE.—A man handing out cards reading "I am deaf. Please help me," was brought into court charged with disorderly conduct. He might have beaten the charge, but a policeman dropped a 50-cent piece and the "deaf" man pounced on it. He paid \$25 and costs.

Bubble Bursts
"Yes," said the great man, "I woke up one morning and found myself famous."

"It was slightly different with me," sighed the other. "I found myself famous—and then I woke up."

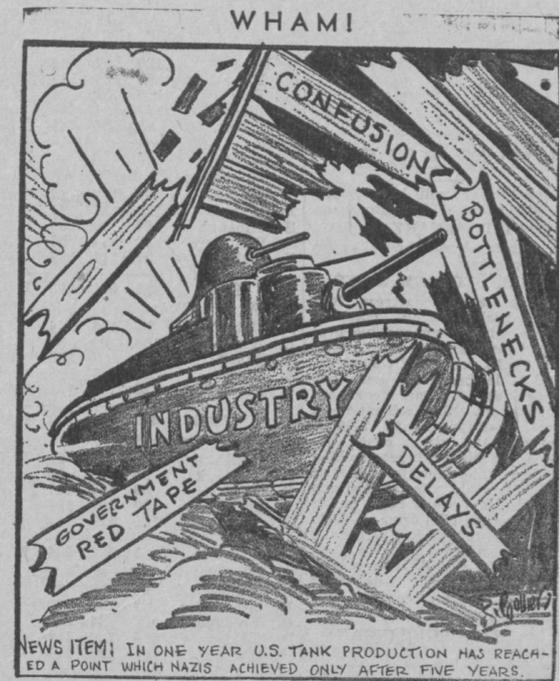

Playing Post Office
Postman's Wife—Pa, you look all tucked out.

Postman—I am. I've been all over town lookin' for a guy named "Fragile."

Expert in Murders Pulls Suicide Leap

NEW YORK.—Abbe ("Kid Twist") Reles, racketeer whose confessions sent two members of Murder, Inc., to death in the electric chair, committed suicide.

Reles, who was one of the leaders of the murder syndicate which was responsible for more than 80 gang killings, jumped from a sixth-floor window.

PEARL HARBOR

Remember Pearl Harbor
That beautiful place
Where Japanese traitors
Themselves did disgrace.

Remember Pearl Harbor,
Keep that fact in view
Was there treacherous Japs
Many innocent slew.

Remember Pearl Harbor
Our Nations great pride
Where friendship and kinship
Shall ever abide.

Remember Pearl Harbor!
Shall we ever forget?
Not till that debt is paid
With interest, you may bet.

Remember Pearl Harbor!
Pearl Harbor remember!
Pearl Harbor was bombed
On the SEVENTH of December!

Remember Pearl Harbor!
Till we can forget
The Japs treacherous way.

Remember Pearl Harbor,
Age, friend, just you wait
Till we hit our stride
Then we'll settle their fate!

Remember Pearl Harbor!
While Jap cities fall,
Blamable, inflammable,
Destroyed one and all.

W. J. H. 2-5-42.

TANEYTOWN GRAIN MARKET.

Wheat\$1.26@1.26
Corn, old95@ .95

PUBLIC SALE

The undersigned will have public sale on Middle Street, Taneytown, on **SATURDAY, FEBRUARY 14, 1942,** at 1:00 o'clock, sharp, the following personal property:

ONE FULL BEDROOM SUITE, iron bed, spring and mattress, four chairs, Goodrich sewing machine, clothes tree, window screens, big oval mirror, odd mattress and spring, two 9x12, one 12x13, one 10x12 congoileum rugs, end table, breakfast set, one kitchen cabinet, 6-burner coal oil stove, with oven; utility cabinet, clock, foot stool, 2 electric lamps, 2 large living room chairs, studio couch, library table, smoking cabinet, rocking chair, Philco radio, foot stool, electric heater, double coal heater, dishes and cooking utensils, 7 small rugs, power saw, work bench, oil drum, 50-ft. garden hose, lot of window screens, 2 wash tubs, wash bench, garden plow, snow shovel, dirt shovel, lawn mower, lot jars, sideboard, lot of tools, lot of other articles not mentioned.

TERMS—CASH.

SAMUEL CLINGAN.

SAGAS OF THE SKIES
by R. C. Oertel

Manager of Aviation Division
Esso Marketers

ONE cold gray dawn, a few days after the year 1942 was born, the control tower at New York's LaGuardia Field was startled to hear over the air these words:

"Pacific Clipper, inbound from Auckland, New Zealand, Captain Ford reporting, due arrive Pan American Marine Terminal, LaGuardia, seven minutes."

The control tower wasn't hearing things. The clipper was actually the Pacific Clipper. It had set out from San Francisco for New Zealand on December 2, 1941. Between Noumea, in New Caledonia, and Auckland, N.Z., the news of the Japanese attack on Pearl Harbor

came over the air. The clipper proceeded to Auckland and waited until December 15 for orders, which called for it to proceed for New York in a westerly direction by the "most practical route." Just what this route was will not be disclosed until after the war. Suffice to say that the clipper did fly 31,500 miles between the time it left San Francisco and the morning it landed at New York. Her skipper said it was just a "routine flight."

But it wasn't routine to First Radio Officer John D. Poindexter of Alameda, Cal. He was interested in some new radio equipment and when the clipper took off from San Francisco he decided to ride down to Los Angeles to make some extra checks of the equipment. He even phoned his wife to tell her where he was going and to say that he would be home for dinner. At Los Angeles, however, the regular radio officer was taken sick and Mr. Poindexter had to make the trip in his place.

He probably holds the world's record for being late for dinner. He had expected to fly from San Francisco to Los Angeles and return. He wound up more than a month later in New York after covering 31,500 miles, touching five continents, braving the dangers of flying almost continuously in danger areas and seeing a large part of the world from the air. There is no record of what his wife said when he finally got home for dinner.

Men in the engine room of a Navy ship are called the black gang.

CONCERT SUNDAY EVENING

The sacred concert to be given in the Lutheran Church of Taneytown this Sunday evening will begin at 7:30 o'clock, Daylight Saving Time.

This will be the first of a series of twenty engagements of the Gettysburg College Choir, covering a territory extending from Philadelphia to Wheeling, W. Va.

Two Taneytown boys, George Motter and Richard Teeter, and a Littlestown girl, Miss Ethel Kindig, will appear among the forty-two singers. An invitation is extended to all the

churches of the town and community, as well as to the public. A silver offering will be taken.

"I hear Jones died from a single blow."
"Who hit him? Joe Louis?"
"No, he blew out the gas."

Ahoy was the dreaded war cry of the Vikings and is, therefore, a distinct nautical hail.

Epaulettes were originally dubbed swabs and Navy men know them by that name today.

BOTH OF THESE SIGNS MEAN **Victory**

The dollars you deposit in your bank account are helping to win the war. The banks have invested billions of dollars in U.S. Defense bonds, and other billions to keep defense factories humming. This help would not be possible but for your savings and the savings of millions of other Americans. Also, your bank reserve will be a strong personal defense fund for you against the uncertainties of the future.

NOTICE FROM

Council Medical Defense TANEYTOWN, MD.

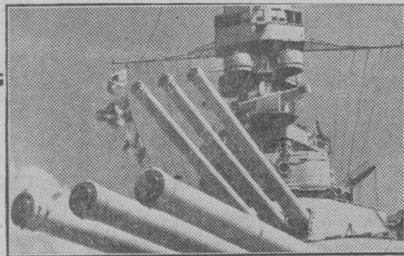

Dear Friends and fellow citizens of Taneytown and surrounding districts. I have been appointed chairman of the medical division of the Council for Civilian Defense work for Taneytown and surrounding district. The medical division covers—Field units, Casualty Stations, First Aid Posts, Nurses Aides, Ambulances, Emergency Hospitalization, Sanitation and Health Services.

I am willing with God's help to do all in my power for my community and my country, but this is too big a job for one alone to do and we must all work together as one in order to preserve our Liberty—and our life and it is my desire and request that every Doctor, nurse, fireman and other citizens will help and do all in their power according to the talents that God has given them, in order to preserve our sacred rights and liberties.

The Mayor and City Council has granted the use of the Fireman building for use of nurses and their classes—and it is our urgent request that these classes be started as soon as possible as no time is to be wasted as the enemy is at our doors.

The Taneytown Fire Co., together with the Council of National Defense of Taneytown, Md., had a meeting on Monday night, Feb. 9, 1942, at which

CHANDOS M. BENNER, M. D.

Let's get behind the men behind the guns

Let's show our fighting men that we are with them, all the way! Not just with what we say, but with what we do. Let's be patriots with our hearts as well as with our lips. Let's buy Defense Bonds, pay our taxes, pitch in at home whenever opportunity to do so arises. That's the spirit that will win the war.

NOTICE

The Mayor and City Council have purchased Sand to be distributed FREE to homes in Taneytown, on

TUESDAY, FEBRUARY 17, 1942

beginning at 9:45. Trucks from the State Roads Commission will be in town and with men will distribute this Sand, two bucketsful (10 to 12-qt. size) to each home. This Sand is to be kept in readiness in case of a possible air-raid.

Place your buckets in front of your home Monday evening or early Tuesday morning.

This Sand should be thoroughly dried and one bucketful place in the garret and one bucketful in the cellar with a shovel in readiness in case of an air raid.

Sand is the only satisfactory material that can be used, safely, in combating incendiary bombs. Water can be used but must be sprayed, (a stream or dash of water is dangerous).

Further instructions in the use of Sand and water can be explained by any Air-raid Warden.

Be Sure To Have Your Buckets Ready for Free Distribution of Sand

Tuesday, February 17th
