COMMUNITY LOCALS

This column is not for use in advertising any money-making program, fair, supper, party or sale. It is intended for news, personals, and such matters as may be of community interest.

Churches, Lodges, Societies, Schools, etc, are requested to use our Special Notice Department for money-making events.

Churches are especially given free use of our Church Notice Column, for brief notices concerning regular or special services. Larger events will be cared for elsewhere in our columns.

Mrs. Edith Baumgardner, left today (Friday), to spend a few days with Mr. and Mrs. Robert Baumgardner and son, in Baltimore.

Mr. and Mrs. John Schwarber, of Middleburg, and Rev. and Mrs. Nevin Smith of Hanover, spent Sunday with Mr. and Mrs. Edgar H. Essig.

Miss Elizabeth Jane Smith, daughter of Joseph B. Smith, was graduated from St. Joseph's Training School for Nurses, on Tuesday, May 11th.

Pvt. Charles F. Baker, of Fort McClellan, Alabama, is speding a 10-day furlough with his parents, Mr. and Mrs. George W. Baker, of town.

The Rev. Paul S. Taylor, pastor of the Holiness Christian Church, Key-mar, will be the speaker over WFMD, Monday night, from 5:00 to 5:30 P.M.

Mr. and Mrs. Francis Edwards, of College Park, Md., spent Saturday and Sunday with his mother, Mrs. Ethel Edwards and his sister, Mrs. H. W. Mackley.

Mrs. Cyrus Troy and Mrs. G. H. Enfield, of Graham, N. Car., arrived Tuesday to spend a few weeks with the latter's sister, Mrs. Percy Putman and husband.

Plans are being completed for Memorial Day in Taneytown on Sun-day, May 30th. The speaker, Rev. Nevin Smith, of Hanover, Pa., will deliver the address.

Cpl. P. Lowman, son of Mr. and Mrs. Reginald Lowman, Keymar, has returned to his base at Newport, Rhode Island, after spending a short visit with his parents.

Rev. L. B. Hafer substituted for Rev. Guy P. Bready at the Reformed services on Sunday. Rev. Mr. Bready was housed up a few days by illness, but was out at school on Monday.

Mrs. Eva Golden, of Baltimore, and Dear Mr. Stonesifer: Mrs. Bernard Balkcom, of Macon, Georgia, are guests of Dr. and Mrs. Robert S. McVaugh. Mr. Charles Boone, of Harrisburg, spent the past week-end with them.

Capt. Bernard A. Weber flew by plane from Seattle, Washington, to spend the week with his wife and children. Capt. Weber will leave here Saturday by plane for San Francisco, Calif., where he will be stationed.

Miss Idona Mehring, of Baltimore, spent Saturday and Sunday with her parents, Mr. and Mrs. Harold S. Mehring. Dr. Richard Mehring. of Silver Spring Md. also selves. Then, too, there are the snakes and Silver oring, Md., also spent Sun-

Dr. and Mrs. Wilbur Mehring and children, Betty and Jimmy, of Silver Spring, Md., spent Sunday with Mr. and Mrs. Norman Baumgardner and Mrs. D. M. Mehring and Mrs. Charles Bostion. They also visited Mr. and Mrs. H. S. Mehring.

Mr. and Mrs. Harry Baumgardner and daughter, Nancy, of Winchester, Va.; Mr. and Mrs. Robert Baumgardner and son, Robert, of Baltimore; Mr. and Mrs. Delmar Baumgardner and daughter, Rebecca, and James Baumgardner, son, George, of town, spent Mother's Day with Mrs. Edith Baumgardner.

Pa., and a son of Dr. C. M. Benner, of this place, will receive the degree of Master of Sacred Theology, from Gettysburg Lutheran Theological Seminary tonight at 7 P. M. (Friday, May 14th) at the 117th. Graduation Service held in the Church of the Abiding Presence on the Seminary campus. Mr. Benner was graduated from Gettysburg Seminary in 1939.

Mrs. Maurice Hoppert and daughters, Mary and Kathryn; Mr. W. Cassell, of Baltimore; Mr. and Mrs. Harvey Cramer, Mrs. Amanda Harvey Cramer, Mrs. Amanda Strine, of Frederick; Miss Elizabeth Conley, of Hanover; Mr. and Mrs. John Grim, of Fulton, Pa, were supper guests on Sunday at the home of Mrs. Mary Stonesifer, and Mrs. Celia Baker. Mrs. Amanda Strine and Mrs. Celia Baker, are spending this with their brother John Grim and family.

A number of people from Taneytown and vicinity attended the con- a busy state highway, and surroundvention of the Maryland Federation of Men's Bible Classes held at Westminster last Saturday and Sunday. The star feature was the addresses of R. G. Le Tourneau, businessman evangelist, and the singing of Mrs. what is an Ouanga, a Zombie, who is Dorothy M. Strathearn. It was an Dumballa, and how to conjure up the inspiring convention.

Pvt. Ralph Vaughn from Camp Van Dorn, Miss., spent a ten-day furlough with his parents, Mr. and Mrs. Wm. Vaughn and family. They also had a fried chicken dinner for him. Those Fleagle and daughter, Margaret; Mr. George Fleagle, all of Thurmont; Mrs

(Continued on Fourth Page)

SERVICE MEN LETTERS

Containing Thanks for Kits and The Record.

To whom it may concern: I received the kit shortly before I came to the army and is very useful. I was in Fort Meade for three days and on Saturday, March 6 with three other boys and myself from town were shipped here. We arrived on Wednesday night, March 10, and was shown our new home.

The next week we started our

training. It's very interesting and we are in a good camp. The weather here is fairly nice but we have a lot of rain. That's all I have to say this But I want to thank you for the Record—I enjoy it very much.
Yours sincerely,

PVT. STERLING R. STAMBAUGH, Co. B 324th Inf. Reg APO 44 Fort Lewes, Washington.

The Carroll Record,

Dear Sirs: I have been wanting to write you before this and thank you for the Carroll Record. I am sure glad to get it and read the news from home, also the service mens letters which you so kindly print.

I also want to thank the ladies of the community for the service kit they sent me. I find the articles all very

useful to a man in the army.

I am getting along fine in the army and find it a very busy life. Again many thanks for the Carroll Record, and best wishes to you and all my friends.

PVT. EDWARD K. OHLER, Btry B, 149 F. A. Bn A P O 31 Camp Shelby, Miss.

I wish to express my sincere thanks for the Carroll Record which I loyally receive weekly.

Although my visits are far and few between, I can keep up with the cur-rent events at home through your pa-

You may be sure that I appreciate your effort in your free distribution of the weekly Carroll Record and I must say you are doing your part in helping to keep up the morale for the men in the service from your community. Sincerely,

NELLIE M. SMITH.

Just a few lines from deep in the sunny south. It seems odd that I am writing from southern Florida this week, when only a week ago I

was writing from New England. But such is the way of the army.

As for my present station I have nothing much to say. First, because the work is all too secret, and second, because there just isn't much I can say. The heat hardly agrees with me, but there's nothing I can do about it. Florida may be an ideal spot in the winter, but in the summer I say

Then, too, there are the snakes and scorpions. I was never one to readwith his parents, Mr. and Mrs. ily make friends with such creatures, and you can be sure that I step high and wide. The choral snake, probably one of the most deadly, is also the most feared, for death results within ten minutes after being bitten. The snake, itself, is not large, about 12 or 14 inches, and is brilliantly colored. The rattler, too, can be seen quite frequently. Several of the boys killed one over six feet long last Saturday. It was thicker than your wrist and Mills, St. Louis, Missouri. had seven rattlers.

The scorpion is something we all one lurking beneath the blanket, as

ors, I must say that its pretty nice Rev. Robert C. Benner, pastor of down here, and I'm sure I'll enjoy my the Salem Lutheran Church, Oberlin, visit. Plenty of swimming, boating and fishing-and WAAC's,

So with that I'll close, and I hope to be getting the Record again scon. And if things go according to schedule. I'll probably be spending a fur-

lough at home in August.

LT. WILLIAM R. SELL,
Field B. O.Q. Boco Raton Field, Fla.

H. S. SENIOR PLAY

The Taneytown High School Seniors will present a new play 'Mumbo Jumbo' on Friday, May 21, at 8 P. M., in the school auditorium. It is as practiced in Haiti, and is the result of much research in this strange religion by Jack Barnard, the author. But in his play Barnard has done an unusual thing; He has taken Voodoo out of its mystic West Indian jungles, and placed it in a New England farm house, not way off in nowhere, but on ed it with normal human beings. As a consequence. "Mumbo-Jumbo" is, according to the Seniors, one of the most unusual plays ever given at T. H. S. Introduces Papa Nebo; tells what is an Ouanga, a Zombie, who is

DOG GONE SHAME

There seems to be trouble about dogs and dog law in Gettysburg and Adams county. Recently a whole line of defendants paid lines and present were: Mr. and Mrs. Eugene Eyler, Mr. and Mrs. Albert Bell. of Taneytown: Mr. and Mrs. Franklin Prominent names appear in the list, among them an outstanding physician, and one of the county's leading Theodore Ridinger, of Harney: Miss Dorothy and Esther Vaughn, of Tanevtown; Pvt. Ralph Vaughn and friend Miss Jean Clabaugh, of Harney. and what's what.

O'CONOR ACTS UPON 1005 MEASURES

Signs 948, Making Them Law, Task of Many Hours

1005 Legislative measures, passed by the 1943 General Assembly, have now been disposed of finally by Gov. Herbert R. O'Conor a record task, performed in record time, under extraordinary conditions.

Of this grand total of 1005 bills, the largest crop ever to be placed before any Maryland Governor at one session, 948 received official approval and signature, thus becoming law. Fifty-seven measures were vetoed, for one reason or another, many of them because of legal or constitu-tional defects or because they were duplicates of bills already signed. The post-session period of bill-

signing was extraordinary because (a) illness of the Chief Clerk of the House of Delegates delayed action on several hundred bills two to three weeks; (b) because the final batch of bills signed required a visit by Gov. O'Conor, Speaker Conlon and Legislative officials to the home of Senate President Arthur Brice, at Betterton, confined to his home by illness; and (c) because of the abnormally short time, not over two weeks at most, allowed Governor O'Conor for consideration of the 700 bills sent to him after close of the Legislative session. Under the resolutions adopted by both Houses, all bills passed were to be presented to the Governor within ten days, with seven days additional for his decision. Actually, however, more than two-thirds of the bills were passed in the final days and

were not ready for review by the Governor until well along into April.

As every one of the measures had to be passed upon by the Attorney General's office for legal sufficiency, constitutionality, etc. constitutionality, etc., a majority of the 700 did not actually reach the Governor's hands until May 1 or later, despite which they had to be acted on by May 8 or become inoper-

Estimates of the average length of the bills placed it around 30 lines and it is estimated that a minimum of 30,000 lines of legislation had to be read by Governor O'Conor before final action was taken on the bills, for every line of every bill is read once, and sometimes more than once, be-

fore a decision can be reached.
At a conservation estimate, it was declared at the Executive Offices, the Chief Executive received 6,500 communications, telegrams, letters, postcards and telephone calls, in support of or protesting the bills. In addition to being read and studied, many of these communications were answered, and in some instances, further correspondence ensued.

FEED COMPANY A PRIZE WINNER

We received a letter this morning informing us that the Taneytown Grain & Supply Company won a \$50 U. S. War Bond in a feed contest. Congratulation! The letter says in

"The Taneytown Grain & Supply Company has just been named a winner in a nation-wide Food for Freedom contest, sponsored by Purina

Their prize is a \$50 United States War Bond. Approximately 3,000 Purina Merchants participated in the look for before retiring. Just a Purina Merchants participated in the precaution, to make sure there isn't contest, which covered a period of 4

- ## 4-H CLUB REORGANIZES

The Taneytown 4-H Club had its re-organization meeting. Mr. F. M. Rogers, the 4-H assistant was present and told some interesting things about club work.

The officers were elected. Mr. Hubert Null is local leader and James Teeter, president. There were 10 members present. They all decided to have a project and do all they could to make the Club a success for another year. The next meeting will be held Friday, May 28, in the school

REVISED FEED PRICES

Savings to farmers are expected to result from OPA'S revision of retail prices of animal and poultry feeds. Previously, the retailer has been allowed a fixed mark-up of \$7.50 a ton on all kinds of feeds. Now, feeds have been classified, and there is a schedule of mark-ups ranging from \$5.50 to \$10.00 a ton.

INSURANCE FOR SOLDIERS

All soldiers can get financial protection through the National Service Life Insurance program if they act before midnight of August 10. the War Department has announced. The maximum policy is \$10,000. Pay- no harm to do so again, that he is in ments will be made to beneficiaries in the Ground Work Division of the monthly installments.

FIRE COMPANY MEETS County Convention to be

Held Next Thursday

The Fire Company met in regular monthly session Monday night, May 10, at 8 P. M. The Chief reported 5 fire calls during the month. The ambulance committee reported 8 calls during the month. Discussion of the Air Raid alerts was before the company and it was agreed upon that no apparatus was to be removed from the building until a full force of men was attached to each piece of appar-

ambulance.

I do not get around very much, but every now and then have occasion to "go to the store," as the saying is, and while there, cannot help noticing the many troubles the merchants are running up against, in the matter of complying with the rationing regulations, and at the same time, notice the very unreasonableness of a small minority of their customers, for instance, a woman was noticed arguing with the clerk about butter. He told her politely that they did not have any on hand, and was unable to get any at that time. But she evidently did not believe him, and insisted on getting it, saying that her husband had to have it. She seemed quite angry, and evidently thought that the grocer was lying to her and saving it for some more favored customer. This was only one of the many

things a merchant has put up with. The point system is another headache And I noticed that there are different ways of handling this problem, es-pecially in getting the stamps in shape for sending them to the proper place, in order to get new stock. In one of the large chain stores, I noticed a pile of them about a bushel basket full— all mixed through each other, and it struck me that it would require the services of an extra clerk to take care of this matter alone. In other stores, it seemed that they are trying to simplify this work, by having the stamps put into a sort of cabinet, with a compartment for each denomnation, thus cutting out the matter of sorting them, and simply count-

I do not know if ceiling prices are observed in there but do know that they are not out here. Stores sell potatoes, for instance, at 10c a pound which I am sure is way above the set price, and in the Farmer's Markets. almost in every case, much higher prices are charged. One thing is sure—a lot of small business men are going to the wall—not being able to comply with regulations, or not being able to secure help, the war factories offering much more lucrative wages. We notice many empty store

wages meet the cost of living going to stop? It is my opinion that the whole thing started when the Federal Government refused to put a ceiling on wages, for we have noticed ever since we came to Detroit, that every time wages were raised, the cost of living went up, until it reached the point that the two did not agree, and then a new wage raise was demanded, and generally granted, or a strike would result, and that is something that every manufacturer wants to avoid. Then the raise in the cost of living begin to rise, and the same upward spiral in both wages and cost of living would go on, unless a depression would come along and then down would go both. The extremely high wages-up to several hundred dollars a week-look all right to the man who is making that much, but not all are as lucky as that, and must suffer from what is no cause of theirs at all-especially the persons who are on relief-and we have plenty of those vet -and parties whose income has not changed since the depression began,

away back in 1932. But the big howl about the scarcity of whiskey and other hard liquors that we hear. causes us to think that some of this big money is not being spent for War Bonds or for any other good cause. We notice that the Liquor Control Commission has promised that a more bountiful supply will soon be on hand, and often wonder if the alcohol used in these liquid refreshments would not be put to a much better use if not made to work for. articles that the army says they need so badly

MOTHER'S DAY OB-SERVED BY KIWANIS

Fifty-three Members and Guests Present at Meeting

The Taneytown Kiwanis Club held its regular weekly meeting at Sauble's Inn, on Wednesday evening, at 6 o'clock, Dr. Thomas H. Legg, presiding. The Club observed its annual Mothers' Day meeting, with fifty-three members and guests present, as follows: Mr. and Mrs. Clyde L. Hesson, Mrs. D. J. Hesson, Mrs. Calvin Fringer, Charles Ritter, Mrs. Ernest Ritter, Mr. and Mrs. George Crouse, Mr. and Mrs. Edward Reid, Mr. and Mrs. Harry M. Mohney, Mr. and Mrs. Lewis Crumpacker and daughter, The Taneytown Kiwanis Club held Lewis Crumpacker and daughter, Anne; Mr. and Mrs. George Dodrer, Mrs. O. E. Dodrer, Mr. and Mrs. Chas Cluts, Mrs. Charles Ritter, Mr. and Mrs. George L. Harner, Mrs. W. O. Mrs. George L. Harner, Mrs. W. O.
Ibach, Mr. and Mrs. Raymond Wright
Mr. and Mrs. Edgar Essig, Mrs.
Harry Essig, Mr. and Mrs. Edmund
Nusbaum, Mrs. Laura Nusbaum, Mr. and Mrs. Elwood Baumgardner, Mrs. Merle Baumgardner, Wayne Baumgardner, Dr. and Mrs. Thomas H. Legg, Rev. and Mrs. William Kinsey, Mrs. Wallace Yingling, Rev. Miles Reifsnider, William B. Hopkins, Sam-uel Breth, Harmon Stone, Melvin Sell, John O. Crapster, Rev. A. T. Sut-cliffe, Rev. Guy P Bready, Miss Dollie Bready, Walter A. Bower, Miss Vir-ginia Bower and Wallace Reindollar.

The period of group singing was in charge of Wallace Reindollar, with Mrs. Wallace Yingling at the piano. The Kiwanis quartet favored with a

ocal number. Recognition was accorded guests present, special recognition being given to the mothers of the members present. Harmon Stone, a member of the Senior class of the Taneytown High School was inducted as a temporary member of the Club. The President called the attention of the assemblage to the presence of Kiwanian Edward Reid, home on furlough from military service. Private Reid responded with brief remarks.

The meeting was in charge of the program committee, Raymond Wright, chairman. The program was as follows: Vocal solo, "Mother Macree," by Mrs. George Dodrer, Mrs. Wallace Vingling accompaniet The Wallace Yingling accompanist. The chairman then introduced Rev. Wm. Kinsey, pastor of the Church of the Brethren at Monrova, Md. Rev. Kinsey delivered a most appropriate Mothers' Day address, basing his remarks upon a passage of scripture, Psalm 92, verse 4. His theme was "The Motherhood of God."

The meeting next week will be a ladies' night, in charge of the Achievement Committee, and will be observed as Charter Night.

TOBACCO CAN BE SENT TO PRISONERS

U. S. War prisoners and civilian internees held by Germany and Italy can receive cigarettes, cigars, smoking tobacco, or chewing tobacco sent by relatives and friends under a program worked out by several Government agencies and the American Red Cross. The plan will be extended to include persons held by Japan whenever facilities are available for routing the products to them. Under the program, the next-of-kin of each identified United States war prisoner and civilian internee will receive without asking for them two tobacco labels every sixty days. These are to be forwarded, with a money order, to a tobacco manufacturer, who will send the tobacco. No postage or federal excise tax need be paid. Each label is good for three cartons of cigarettes, or twelve packages or one carton of two-ounce packages of smoking tobacco, 100 cigars, or approximately 24 ounces of chewing tobacco. Smaller amounts or mixed packages cannot be ordered.

MAY DAY HONORS

Kathryn Arnold a Court Attendant

The annual May Day ceiebration of the State Teachers College at Towson will be held on the college campus on the afternoon of May 19th. This is a colorful affair and is always looked

forward to by students, alumni, and friends of the college.

Miss Jean Fisher, of Chevy Chase, Md, has been selected by the students to be May Queen. Her maid of honor will be Miss Virginia Kimball, of Bal-timore and the following students will be attendants in the court: Dorowill be attendants in the court: Dorothy Jones, of Kent County; Kathryn Arnold, of Taneytown, Carroll County; Anna Preuss and Dorothy Wade, of Anne Arundel County; Sue Baker Warner and Loretta Herpel, of Baltimore County, and Peggy McDonald, Virginia MacConney, Jean Benson and Solvair, Stefanson, all of Raltimore

Solveig Stefanson, all of Baltimore. The celebration as usual will be under the direction of the Student Government Association and will be held on the North Campus near Glen Esk, the President's Home. The procession will begin at 2:00 P. M. and after the crowning of the queen by Maynard Webster, a senior who will serve as King, the students of the college and of the Lida Lee Tall elemetary school will entertain the Queen and her court with dances and games on the green and singing. Included in the folk dances will be the traditional May Pole and Kerry dances. Carl Refo, a member of the senior class, will be the announcer.

At 4:00 P. M., there will be a tea

dance in Newell Hall for visiting high school seniors.

WELFARE BOARD MEETS.

The Carroll County Welfare Board met on Wednesday night, May 5, with the following persons present: Dr. Charles R. Foutz, L. Pearce Bowlus, Jonathan Dorsey, John S. Barnes, Mrs. John D. Young and Mrs. Esther K. Brown, Executive Secretary.

It was reported that a number of aged persons are no longer needing assistance due mostly to the fact that sons and daughters are now earning sufficient to support their parents. Former grants to 19 aged persons have been discontinued during the past four months. Because of the rising cost in food prices the Board agreed to increase the food item of its Master Budget for those persons eligible for assistance. was learned that a number of States and counties have taken similar action Also, single children living in the same household with parents, under the Board's old policy, were expected to contribute 60% of their earnings; whereas, new action resulted in lowering this contribution to 50%. Other routine matters were acted upon with adjournment at 10:15 P. M.

The 40th, annual meeting of the Maryland State Conference of Social Welfare was held May 6 and 7 in Ealtimore. This is a conference which health, educational and welfare agencies hold rembership. Persons attending from Carroll County were Miss Bonnie M. Custenborder, Director, and Mrs. William H. Thomas, Board member, of the Children's Aid Society, Mrs. Esther K. Brown, executive secretary of the Carroll County Welfare Board, Miss Elinor H. Ebaugh and Miss Ruth E. Stambaugh Senior Workers, and Miss Marie O. Fox and Miss Ruth A. Snider, Junior Workers, also of the Carroll County Welfare Board.

Subjects discussed centered around the following topics: the effect of war on the child and family, day care program for children, problems af-fecting the negro communities, juvenile delinquency, war time health problems and new laws enacted by the Maryland State Legislature. A number of noted speakers contributed to the program.

FRIDAY, MAY 15, 1943

END BAD PRACTICE NOW

The Guffy Coal Act came into being in 1935 on the demand of John L. Lewis, to prevent a coal strike. The Supreme Court held the first act unconstitutional. A revised Guffey Act was passed in 1937, again under the spur of coal strike threats.

Mr. Lewis insisted on a law such as the Guffey Act which forced the mine operators to raise coal prices so that the mines could pay higher wages to labor. This was an indirect way of levying a direct tax on the public for the benefit of a spcified group.

The Guffey Coal Act was to have expired in April, but the House and Senate extended it for thirty days on the ground that Congress should have time to consider its renewal.

In spite of the fact that a majority of coal operators have been virtually subsidized to the point of acquiescence in this legislation, against their better judgment as to its soundness as an economic principle, there is an undercurrent in Cogress that it may not! You answer! be better to eliminate it entirely before our republic reaches that stage arrived at by Diocletian in 300 A. D. when sons were compelled to follow the vocations of their fathers under penalty of death. Diocletian formulated a complex and vast system of in the pardonable pride. price fixing, labor relations, and a Lieut. General Jacob L. DON'T NEGLECT MEMORIAL DAY

This year we should have patriotic Memorial Day exercises, May 30. Every Christian Church and Jewish Synagog should resound with praises for the liberty we enjoy. Great rallies like those held during the early years of the century should be revived and carried out. For thirty odd consecutive years it was my privilege to speak on that occasion at Woodsboro, Frederick county, often to audiences of several thousand people.

We want and must have a united people, and this year, May 30th. we should rally in praise of our boys who are fighting and dying in all parts of the world that the liberty we possess may survive. Why not again Yet they dread the labor and toil, and big rallies at Woodsboro, Taneytown, Pleasant Valley and elsewhere! Why terests in this way.

AMAZON RUBBER

Rubber Administrator Jeffers says it would be a mistake to abandon the synthetic rubber factories now being built in the United States after the war. He believes that they will be able to produce better rubber at lower cost than it can be delivered here from the East Indies.

Vice-President Wallace dissents. He declares that synthetic rubber cannot meet natural rubber competition without high tariffs. The mere suggestion of high tariffs is shunned by the administration like a plague.

There is another factor in the equation. It is the United States Rubber Development Corporation, which has as its goal the development of more than 2,000,000 square miles of the Amazon basin and the harvesting of sap from 300,000,000 or more hevea trees. Workers employed on this project, it is estimated, will reach a total of 110,000.

Thus it looks as if the East Indies may be out of it permanently as a source of rubber for the United State regardless of what the British and Dutch may think of it. The United States is determined to be self-sufficient through synthetic production and Amazon basin plantations. The two are complementary.

Methods have been sought to make synthetic rubber without an admixture of natural rubber. They have not been found .- The Frederick Post.

Buy War Bonds Every Pay Day Let's Double Our Quota

Farm Curves Aid To Victory Effort

New Land Patterns Making Appearance

Farming on the contour, following the "curve of the land," is helping to win the war for the United Na-

A revolutionary method, farming on the contour not only is helping produce bigger yields but also it is saving soil and water to insure a continued longtime productive capacity. Cost of production, too, has been cut as much as 70 cents per acre by contour farming because conservation methods save fuel, fertilizer, time, machinerywear and labor-all essential to a wartime production economy.

Just as Columbus had faith in his belief that the world was not flat and proved it by discovering the continent which now has become the hemisphere of the Americas, men today have proved that the land can be farmed successfully and profitably on the contour. Just as Washington and Jefferson saw in their day a need for soil conservation practices, men of the past half century also have seen the good earth washing and blowing away, and have developed the remedy.

Vernie Marshall of Texas is one of the current group of men who has seen the effects of soil erosion

Twelve-year-old son of J. C. Taylor, Coryell county, Texas, helps his father improve the farm. Taylor practices contour cultivation, strip cropping and terracing. Well-vegetated terrace outlets and reseeded pasture complete the farm conservation program.

and who has assumed leadership in helping to solve the problem. Long a pioneer of the idea that farmers must act to check soil erosion, Vernie Marshall was largely responsible for enactment of the Soil Conservation Districts law in the Lone Star state. As administrator of the Soil Conservation board he is promoting the cause of conservation farming, and more than 70 districts have been organized in Texas under supervision of the board

"Straight" farming, with the fence rows and up and over the hills and slopes, once was common practice and resulted in immense erosion problems. In 1935 and 1936 there were six million acres of land subject to erosion in the Dust Bowl area.

During the past few years farmers have worked co-operatively together and have established erosion control measures.

Chicken Disease Control

Cecal coccidiosis, a disease particularly destructive to chickens, has been effectively prevented experimentally and may eventually be controlled by the use of a chemical compound developed for this pur-

Cecal coccidiosis is caused by microscopic organisms known as

which invade and attack the cell lining of the cecal pouchesof poultry, causing stunting, weakness

and eventual death. While several sulphur compounds have shown some promise, tetraethyl thiuram monosulfide, when fed experimentally in unadulterated form, appears to be the most satisfactory drug yet tested.

Decision to concentrate further investigation on tetraethyl thiuram monosulfide is based on the results of preliminary experiments conducted at the University of Wisconsin.

Farm Notes

To relieve fertilizer manufacturers of distress caused by rising labor and other operating costs, permission was recently granted them to increase prices of mixed fertilizers and of superphosphate.

Cotton is of such great importance in meeting military and civilian demands that the United States is now consuming more than 45,000 bales each day,

FIRST AID to the AILING TOUSE by Roger B. Whitman

Roger B. Whitman-WNU Features.

You may not be able to replace worn or broken household equipment. This is war. Government priorities come first. So take care of what you have . . . as well as you possibly can. This column by the homeown-er's friend tells you how.

Colored Concrete Floor

Question: In coloring a concrete floor for a sun parlor, is it best to mix powdered coloring with the concrete when the floor is made, or to wait until the floor is finished and then paint it?

Answer: If the right kind of coloring is used, powdered color mixed with the concrete when the floor is made is permanent and will not wear off. However, the color should be of a special kind that is proof against the effects of lime in the cement. Lime-proof colors are on sale and should be insisted on. They should not be used in a greater proportion than 10 per cent of the weight of the cement. For a floor that is not in contact with the earth and therefore permanently dry, color can be had with ordinary top quality floor enamel. The manufacturers' instructions should be carefully followed. A penetrating dye

Damp Walls

Question: My house is stucco on hollow tiles. The wallpaper in many places shows wet spots the shape of the tiles. What can I do about it?

Answer: The inside plaster is evidently applied directly to the tile, instead of being applied on lath on furring strips. The plaster therefore, becomes as cold as the tile, and the wet spots are due to condensation. The only real way to cure the trouble is to replaster the house, using lath on furring strips, or a form of insulating board, to be had at a lumber yard, to be applied over your present walls. No form of paint or any outside treatment will do, for neither one will provide the insulation that is necessary.

Broken Birdbath

Question: What will mend a broken birdbath? The bowl cracked in the frost. What will stick it together so that it will hold water?

Answer: Bring the bowl into the house so that it will dry out. Then coat both sides of the break with white lead paste and bind the parts tightly together. After hardening, which will take three months or so, the joint will be watertight. If you do not want to wait as long as that, above the booting coil. provides bet-

and a yellowish tinge of the ce...... makes no difference, make a cement powdered litharge and ordinary glycerine. This acts quickly and is thoroughly waterproof when dry.

Removing Wallpaper Question: Can wallpaper be removed from plasterboard?

Answer: That could be done by soaking with water, but using no more water than will be needed. If you use too much, you may soak off the paper finish of the plasterboard. At best, the plasterboard surface will be left rough. To smooth it, put on a coat of shellac, which in drying, will stiffen the paper surface of the board, which can then be rubbed smooth with sandpaper. It is then ready for papering.

Sagging Floor

Question: In an old house that is to be remodeled, the floors are sinking and buckling, apparently from crumbling foundations. How can they be strengthened? Is the situation hopeless?

Answer: The trouble may start with poor foundations, which can be renewed by a good mason. Trouble may also be from the rotting of sills, beams, and other wood parts, or from termite attack. The case is by no means hopeless. Consult any good contractor.

Porch Floor Supports

Question: In a stucco house the frame and stucco porches are supported on piers even with the surface of the ground. Wood under the made for the purpose can also be stucco touches the ground and has had. placed by concrete, must the foundation be deep? The piers now extend below the frost line.

Answer: Evidently the piers are made of concrete or masonry, and could be used as supports for beams of concrete. Foundation walls would not be needed.

Waxed Floors Get Dull

Question: What is the best way to care for my waxed floors? They lose their shine so quickly after being waxed and polished with an electric polisher.

Answer: Perhaps you have used too much wax. Remove it, then apply two thin, even coats, polishing each one well after hard-drying. Frequent waxing should be necessary only at doorways. For the rest of the floor, twice a year is enough. Frequent use of the electric polisher will keep the floors looking well.

Hot Water Storage Tank Question: In a domestic hot wa-

ter system is there any advantage in setting the hot water storage tank horizontally instead of vertical-

Answer: With proper connections a horizontal tank attached to the cellar ceiling, and as high as possible

ter circulation than a vertical tank; water circulates more readily and flows in greater volume. However, tanks less than 18 inches in diameter give better service when placed vertically.

U. S. Planes and Fliers

Prove Superior to Nazis WASHINGTON. - An overwhelming rate of victories over enemy aircraft is being maintained by American bombers in Europe, Lieut. Col. Carl Norcross reported.

On 23 consecutive missions over enemy-occupied Europe, he said in a statement issued by the war department, they shot down 104 German planes in combat, probably destroyed 108 and damaged 117, with a loss of only 18.

Norcross, a member of the staff of the eighth air force who has just returned from England for temporary duty in Washington, said American bomber crews were worried about new German fighters until their first encounter with them.

"When numerous missions had been completed without the loss of a single plane," he said, "morale went as high as the ceiling of the big

After the first five raids by Fortresses and Liberators, Norcross said, the Germans shifted their air command in western Europe and sent in the Luftwaffe's crack "Yellow Nose" fighter groups to stop the American bombers. However, he added, several more missions were completed before the Germans succeeded in bringing down a single

We desire correspondence to reach our office on Thursday, if at all possible. It will be necessary therefore, for most letters to be mailed on Wednesd. J. or by Fast Mail, west on W. M. R. R., Thursday morning. Letters mailed on Thursday evening may not reach us in time.

All communications for this department must be signed by the author; not for publication, but as an evidence that the tiems contributed are legitimate and correct. Items based on mere rumor, or such as are likely to give offense, are not want-

LITTLESTOWN.

Mr. and Mrs. Ralph Wahler, spent the week-end in Johnstown, with their son and daughter-in-law.

Guests at the home of Mrs. Kate Brumgard over the week-end were Mrs. John Deatrick, Biglerville, her daughter and Mrs. Clayton Brumgard, Carroll County.

The members of the Blessed Virgins Sodality of St. Aloysius Catholic Church held a special meeting and elected a May Queen whose privilege it will be to crown a statue of the blessed mother as queen of May at the annual May celebration to be held in the church Sunday evening, May 27, at 7 o'clock. Miss Rita M. Sneeringer was chosen for the honors.

Sgt. James R. Ulrich of the U.S. Army, now stationed in Hawaii, called his family on long distance telephone. Sgt. Ulrich stated that he was lonesome and wanted to hear a voice from home. His father, John Ulrich and sister, talked to him. The family reports that his voice was clear. John Ulrich has received word that another son, Edward, in the service at Fort Monroe, Va., is in the Hospital recovaring from an appear. Hospital recovering from an appendicitis operation.

Special services were held in all the churches of town Sunday in observance of Mother's Day. At St. Paul Lutheran Church a program was presented at the Sunday School hour. The guest speaker was the Rev. Theodore W. Boltz, pastor of the Redeemer Reformed church, who spoke on God and my mother. A quartet composed of Robert Degroft, Albert Bair, Dennis Plunkert and Clarence Schwartz, Jr., sang, "Silver Threads Among the Gold." A tribute to mother was given by Mrs. Charles W. Kump. A basket of flowers was presented to Mrs. John R. Byers, the oldest mother present, and to Mrs. Robert Gouken, the youngest mother present. Miss Henrietta Patterson in behalf of the Christian Endeavor Society presented a corsage to Mrs. D. S. Kammerer.

Mrs. Paul Study, Washington, D. C., spent the week-end with her parents. Mr. and Mrs. Willis H. Bish. Miss Peggy Spalding, Philadelphia,

Miss Peggy Spalding, Philadelphia, was a week-end visitor with her parents, Mr. and Mrs. H. J. Spalding.
T. Sgt. Winfield Lippy, Boise, Idaho, is spending a furlough with his parents, Mr. and Mrs. Winfield Lippy. This is his first trip home in twenty-six months, during which time he was attributed in the Visit Library. he was stationed in the Virgin Islands and Puerto Rico

Starting this Wednesday the stores of the town will close every Wednesday at noon through May, June, July and August. They may have to keep it up longer.

visiting her sister-in-law, Miss Freda Dehoff

Mr. and Mrs. Vincent J. Weaver, celebrated their 50th. wedding anniversary. A reception in their honor was held by their daughter. Mrs. Mary Moul, and son, Paul Weaver. About fifty guests were present. They received many gifts and cards.

James A. Randall, Aviation Cadet
of the U. S. Army is spending a ten

day furlough with his parents, Mr. and Mrs. Charles Randall. A marriage license was issued on Thursday to Francis D. Kuhns, and Miss Fannie Keagy. Edge Grove.

The members of the bowling teams held a banquet this Thursday in the Social Hall of St. John Church.

Mrs. Joseph L. Englar is ill at this Mrs. John Hays, of Emlenton, Pa.,

is visiting her father and sisters here. Mr. William Hibberd and wife, spent Sunday at his parents home at Brooklandville, M.I.

A very interesting Mothers' Day program was given at the Methodist Church on Sunday evening last.

FEESERSBURG.

Glorious May—Could there be a ovelier Mother's Day than Sunday! And such good sermons and exercises in honor of good mothers everywhere —well deserved. The poems read, songs given, and sentiments expressed are worth remembering. Some beautiful cards were received by the mothers around us from their children and may God have mercy on the souls of any who are unkind to their par-

The son and daughter and grandchildren of J. H. Stuffle celebrated Mothers Day at the Stuffle home on Sunday, also the birthdays of father and son. A buffet luncheon was served to 14 persons—consisting of fried chicken, hamburgers and "doggie" sandwiches, pickles, fruit salad and pretzels. The children donated a large birthday cake and home-made

Mr. and Mrs. William Corbin and mr. and Mrs. William Corbin and grandma Crouse, spent Sunday evening with Mr. and Mrs. Cleon Wolfe. Mr. Corbin is in Defense work by shipbuilding; but the size of vessels and lumber building are too large for the street of the size of our memory to retain: but what must the Master think of the work that is engaging most of the attention now

On Sunday afternoon Mr. and Mrs. Frank Koons, of Union Bridge, with Mr. and Mrs. William Main their son Mr. and Mrs. William Main their son Billy driving, visited Raymond Angell and family in Catonsville. They found Mr. Angell in bed alert and cheerful, and Mrs. Angell confined to bed, and her sister, Mrs. Bertha Albaugh still in attendance. Mr. Angell and Mrs. Edith Roop Main were school mates at Mt. Union in early life.

life.
Eva, 11 year old daughter of Mr.
and Mrs. William Griffin fell from
their horse and it stepped on her leg
causing agony—on Monday. Later
she was taken to a Baltimore Hospital where the X-ray revealed a fracture between the knee and thigh.

There was preaching service at 9:30 A. M., at Mt. Union. on Sunday, when Rev. Bowersox paidtribute to Mothe's ay at noon through May, June, July nd August. They may have to eep it up longer.

Mrs. Harry Dehoff, Pittsburgh, is siting her sisten in the state of the state o number of visitors were present and the church was decorated with lilac bloom given by Mrs. Noffsinger and a jar with tulips, carnations, and snap dragons presented by Mrs. C. Wolfe. The organist played an introductory of mother songs. Sunday School fol-

lowed when an offering of \$7.00 was received for India Lace Industry. The Church Bulletin gives a sketch of a pew with only 4 people in it, and beneath it the question "Where are the six? then the statement" only 4 out of every 10 members of the United Lutheran Church are in their pews on the average Sunday according to recent survey. The late campaign for Lutheran world action has been very encouraging in this parish so far-as one church has not vet made their offering. New members received into the parish recently number 3 at Uniontown, 3 at Mt. Union, 1 by haptism at Winters, and 4 at Baust. The anouncment of Maryland Synod-to be held May 25 and 26 at the Seminary Gettvsburg; and meeting of the Brotherhood, on the evening of 25th. The Smiling Sunbeams recently purchased for the church a service roll containing names and addresses of the Parish men serving our country. 7 from St. Luke's (Winters) 3 from Mt. Union; 10 from Bausts; 7 of St. Paul (Uniontown): also a candlelighter and extinguisher for use in the church

Miss Mary Bostian, daughter of Horace and Lottie Biehl Bostian, will be in the graduating class of the Maryland General Hospital School of Nursing at their commencement exercises in the Mt. Vernon Place Methodist Church, Baltimore, on Tuesday evening, May 18th. A faithful daughter, a faithful student, and now a

faithful nurse. Congratulations.
Mrs. James Booher returned from Frederick Hospital last week. strong of course but recovering nicely

Mrs. Ellie Koons Crumbacker, of Waynesboro, who has been with her sen, Merle since he was ill two weeks ago, was calling on relatives in our town on Monday. Merle is out again and at work, so she plans to visit her daughter, Mabel, Mr. and Mrs. Harris Frock. at Charlestown, W. Va., in the ear future. "Life can be beautiful"—and what

is better than the sudden arrival of Tolbert G. Shorb; also for the floral vour son on a two weeks furlough, aftributes, expressions of sympathy and ter long absence in military servicefar from home; but must not tell where he has been stationed. So our neighbor Cletus (Pete) Grinder gave his home folks a pleasant surprise on Menday noon-having travelled by plane and bus from a colder clime.

The many friends of Miss Edna

Wilson, beloved teacher at Hobson Grove School for a number of years, who also superintended a good Sunday Mrs. D. E. Engler attended the 34th. School there; will be interested to wedding anniversary of William know of the quiet passing away of School there; will be interested to

Gosnell and wife, on Sunday evening an only sister, Miss Vannie Wilson on Sunday morning at their home in New Windsor. Our hearts are with the one who remains, while our mind fol-lows the faithful one who entered the Haven of Rest in the sweetness of the

Corn planting is in order now-only help is scarce—almost every one's work has been delayed. Some of the neighbors have taken pity on the "Old Folks at Home," and have cultivated our garden—and are planting it today

UNIONTOWN

Miss Doris Virginia Haines was among the members of the 26th. O. C. class who received their commissions from the Secretary of War, as 3rd. officers in the Woman's Army Auxiliary Corps. On May 5 the 137 members of the graduating class heard 1st. Officer Mary Louise Milli-gan, Director 1st. WAAC Training Center as their guest speaker. All of the material used on the program was original with the members of the class. A song composed by one member was directed by Miss Haines at the exercises. Lieut. Haines has been assigned to Daytona Beach for duty.

Quite a few of our town's people attended the 14th. annual convention of the Maryland Federation of Men's Bible classes at the Westminster Meth-odist Church on Saturday and Sunday of last week. Both speaker and solo-

ist were thoroughly enjoyed.

Miss Emma Garner, Linwood was a dinner guest at the G. Fielder Gilbert home on Sunday.

Mr. and Mrs. Ray LeGore and

daughters, Bonnie and Regina, Silver Run were Sunday guests of Mr. and Mrs. Lawrence Smith.

Carroll Brown and son, Carroll, Jr. Silver Run, visited the former's father Levi Brown, on Sunday. Mr. and Mrs. Kenneth Lambert and

daughter, Patsy, Taneytown, visited Mrs. Lambert's parents, Mr. and Mrs. William Dickensheets, on Sunday. Mrs. Henry Turfle and Miss Beulah Heltibridle, Westminster, were overnight guests at their home here, on

Mr. and Mrs. J. Howard West and son, Barton, Baltimore, arrived on Friday to spend the summer at the Harry B. Fogle home.

Mrs. Grace Fox, Washington, spent the week-end at her home here. House guests of Miss Fox were Mr. and Mrs. H. L. Franklin and Dr. Benjamin Wal-

lace, Washington, D. C.
Harry B. Fogle attended the annual meeting of the Board of Directors at Gettysburg Seminary, on Tuesday.

Mr. Bernard Devilbiss had the misfortune to hurt his ankle very severely when he stepped on a rolling stone at his home near town, on Monday

evening.
Mrs. W. G. Segafoose is visiting her brother-in-law and sister, Dr. and Mrs. Carl Mess, Bethesda, Md., this

Dr. and Mrs. John D. Young, Jr., of Baltimore, were week-end guests of the John D. Young, family, near town.

TOM'S CREEK

Mr. and Mrs. Wilbur Naylor and family, visited Sunday evening with Mr. and Mrs. Claude Deberry and

Mr. and Mrs. Wilbur Martin and family, of Hagerstown, visited Sunday with Mr. and Mrs. William Martin and

Mr. and Mrs. Robert Grimes and family and Mr. and Mrs. Russell Ohler, visited Sunday afternoon with Mr. and Mrs. Lloyd C. Dern, Taney-Mr. and Mrs. Carl Baumgardner,

Audrey and Wayne, spent Sunday afternoon with Mr. and Mrs. Thomas Baumgardner. Mr. and Mrs. John L. Baumgardner

and family, visited Sunday evening with Mr. and Mrs. Raymond Roop.

HARNEY

Those who spent Mothers' Day in the home of Mr. and Mrs. Harry Angell, were: Mr. and Mrs. Robert Angell and family, Gettysburg, Pa; Mr. and Mrs. Luther Angell and family, Taneytown R. D.; Mr. and Mrs. Sylvester Kromrine and daughter, Thelma; Mr. and Mrs. Ray Uinholtz, Harrisburg, Pa.: Mrs. Frank Blyer and family ,Mrs. Faber Baughman and daughter, Lois Ann, Steelton; Mr. Walter Peck and son, Veryl, of Breezewood, Pa.; Mrs. Olive Feight and family, of Breezewood, Pa.; Mrs. Austa Perrine and William Gernet, of Halifax, Pa.; Mrs. Herbert Ridinger, Taneytown R. D.; Mr. and Mrs. Harry Angell, Rev. A. W. Garvin and family, Taneytown; Mr. and Mrs. John Radle and little son, Gearald Edward, of Harrisburg, Pa.

The Harney U. B. Aid Society held their covered dish supper at the home of Mr. and Mrs. Harry Angell, Tuesday evening. All had an enjoyable time and guessed their secret

-23-THRILLING ADVENTURES OF THE SEA

The sea hides many mysteriesstrange stories of deredict ships, tales of feuds and mutinies, legends of phantom ships. Don't miss the first of a series of thrilling sea adventure in the May 23rd issue of The American Weekly the big Magazine distributed with the Baltimore Sunday American. Tell your newsdealer to reserve your copy.

us, during the brief illness and after the death of our husband and father, Tolbert G. Shorb; also for the floral

U-Boats Fear Navy's Blimps

Hold Unique Position Among Fighting Agents Along American Coasts.

AKRON, OHIO.—The biggest part of the warcraft that submarines fear most packs inside a wooden case the size of two officers desks.

That part is the entire, huge envelope of a blimp, the nonrigid airships being built at Goodyear plants near here for the navy. The ten crewmen who ride and live in the airship's control car would hardly squeeze inside the packing case which holds the gas bag.

Here in Akron, the Goodyear men quote press dispatches stating that Hitler regards these nonrigid aircraft as the most effective antisubmarine weapon. They fly faster than most express trains, stand still in the air, or drop floating anchors which enable their crews to descend to the surface of the ocean.

Nothing affoat in water can dodge

The ships are presumed to be vulnerable to airplane attack and antiaircraft fire of surface ships. But in this war along both American coasts they hold a unique position among fighting agents. On some missions and in some types of warfare along these coasts the lighterthan-air ships are probably su-preme. The navy is having large numbers made. Their parts are built at various Goodyear plants.

How Blimp Is Assembled. They are assembled in a great

hangar quite some distance from Akron.

Assembly begins by lifting an envelope out of a packing case, and unrolling it to cover a great section of floor. An air hose pumps ordinary air into the envelope until it swells up like a monster silver cater-

Workmen enter from underneath and fasten to the ceiling of their tent, umbrella - shaped fabrics. whose fabric ribs end in metal rings, from which cables will later descend, always inside the bag, to carry the car for the crew.

This job completed, the air is pumped out of the envelope, until it is again flat on the floor. Next, like throwing a net over a school of fish, a peculiar sort of net is thrown over the flattened envelope. These are ropes with sand bags tied to their ends. The bags line up all around the sides of the envelope. Now helium is pumped into the envelope, and, as it billows upward, the weight of the sand bags controls the expansion and rise of the

Few Rigid Parts.

Meanwhile, at the front end, a metal spider web has been fixed to the nose to render it rigid. This is the only rigid part of the ship, ex-

cept the control car. In the last step the great envelope rises clear of the floor. It is stopped just high enough for workmen to assemble and fasten, under the midbelly the control car that houses crew, engines, and all equipment.

That done, the ship's nose is hitched to a mast on wheels. tractor tows the mast outdoors, and the great ship is ready to fly off to

war. The crews of these ships probably have more fun, grim as it may be, than in any other airship. They are enclosed inside metal and glass of a safe variety. They can lower a walk to step outside to the engine and propeller on either side. They can cook and bunk on board. They are outfitted for many other things.

Their adventures are not being

Sulfathiazole Is One

Day Cure for Impetigo CHICAGO. - The discovery that very fine crystals of sulfathiazole provide a one-day cure for contagious impetigo, a pus-forming skin infection, was announced in the Journal of the American Medical Asso-

ciation. Dr. T. N. Harris of Philadelphia reported the new treatment for the disease, caused by staphylococci bacteria similar to those which cause boils. He reported treating 15 children with a total of 293 lesions and said all were cured, one case in only 16 hours. The single application also stopped spread of the disease, either on the child or to his neighbors.

NEW YORK .- The Doughnut Institute calculates that Americans ate 560,000,000 dozen, that is 6,720,000,000 doughnuts last year, including some 1,000,000 dozen donated by the industry to service men. Two autodoughnut machines went along with the American forces oc-

Billions of Doughnuts

Don't Shoot Until You See Rivets, Fliers Told

cupying North Africa.

LONDON.—"Don't shoot until you can see the rivets in his aircraft" is the modern RAF application of the musketry instructor's favorite injunction.

The man who can outfly the enemy but cannot bring him down is just wasting good material.

The RAF training command is laying increasing insistence on the decir ne "Good marksmanship is important as good flying."

Lights of New York by L. L. STEVENSON

Western Reunion: When Harry Gilburt arrived in San Francisco via the Oakland Ferry recently, taxicabs were so scarce four pas sengers crowded into one. As the vehicle rattled up from the waterfront, a woman sitting next to Harry, remarked, "That ride across the bay reminds me of the old ferry between Brooklyn and New York.'

Harry asked if her home was in Brooklyn. The woman replied that it was and that she had attended Erasmus high school.

"Brooklyn is my home town," declared Harry, "but I went to East-ern District high."

"Eastern District high," repeated the driver turning and facing his fares, "I went there, too."

Best Laid Plans, Etc.: A bunch of fight managers at a corner table in Jack Dempsey's the other evening were discussing how various types of Uncle Sam's fighting services have sapped the boxing game of its potential man power. Talk veered to Al Weill, one of the better managers, who, seeing the handwriting on the wall, had taken steps to keep himself solvent for the duration. Weill having lost such well known pugs as Marty Servo and Lou Ambers to the coast guard and half a dozen other clients to the army and navy, had landed a berth as manager of the Cerney Twins, a boy and girl dance team recently headlined at Loew's State. Maybe this was "sissy stuff," sighed the manager, but it paid off. Then in walked Weill crestfallen. Charles Cerney, male member of the team, had just handed him a surprise-he was

. . . Inspiration: Henry Weiss, formerly an executive for one of the best known taxicab concerns, is the man who invented those sliding tops for taxis-the kind that roll back and give you a slice of sky and whiff of outdoors. He peddled the innovation to the Chrysler people-and that's how he got money enough to retire. A few evenings ago at Leon and Eddie's, he disclosed for the first time how he got the idea. He was dining at that very place one summer evening. Looking up, he saw the roof above the dance floor disappearing and a star-studded sky becoming the room's ceiling. "I've often wondered," said Weiss to Eddie Davis, "who thought of your sliding ceiling. He suggested something really terrific to me and I'd like to thank him personally."

waiting to be called into the signal

corps in which he had enlisted some

time back.

Whereupon Eddie blushingly remarked, "Here I am, sir, and you're perfectly welcome."

Information Please: Lorraine and Rognan, while vacationing in New York, told of a Hollywood incident which they swore was true. According to the relators, it happened at Hollywood and Vine during a test blackout. As the warning signal was given, an air raid warden shooed a young couple out of the street and into the shelter of a darkened doowray. When the "all clear" sounded some minutes later, the fellow remarked to the girl, "If I'd known the lights would be out so long, I would have kissed you."

"O-o-oh!" she screamed. "If you didn't, who did?"

About Face: Some time before December, 1941, a group of manufacturers banded together and formulated a plan to wage an advertising and publicity campaign against "going withoutism." They pledged a fortune to be spent ridiculing men who didn't wear hats, girls who substituted kerchiefs for millinery, youths who scorned bathing suit tops, misses who wore their legs bare instead of stockinged and so on through the list. Then came Pearl Harbor. Now most of that same group are so short of raw materials that they themselves are preaching "going withoutism" as an aid to the nation's war effort.

Here and There: One of the city's many marvelous free shows: The harbor as seen from Columbia Heights, Brooklyn . . . Discharges Gun but

Fleas Are Still There NASHVILLE, TENN.-Irked by fleas in the basement of his home Bulford Hill was advised to disharge a shotgun.

Hill rammed two high-velocity shells into an old gun and squeezed the trigger. The barrels pread at right angles. A big nole appeared in the wall. The fleas are still there.

COMMUNITY LOCALS.

(Continued from First Page.) Mr. and Mrs. James F. Burke and daughter, Patsy, entertained a number of guests last Sunday.

Miss Josephine Smith, New York City, spent this week at the home of her father, Joseph B. Smith.

Mrs. Clarence Ohler, spent the week-end with her daughter, Miss Audrey Ohler, in Philadelphia.

Charles R. Arnold, Curtis G. Bowers, David Smith and Merwyn C. Fuss spent Wednesday and Thursday in New York.

Mrs. James W. Annis, of Lexington Mass., with her small son, has been the guest of her parents, Mr. and Mrs. E. W. Dunbar.

Miss Mary S. Shaum and Miss Jane Smith received diplomas as registered nurses at the commencement of St. Joseph's Hospital, on Tuesday.

The Children's Day Service of Keysville Reformed Church will take place on Sunday evening, June 6, at 8 o'clock. The program will consist of recitations, exercises, special music,

Mr. and Mrs. Frank A. Troxell, of York, Pa., visited Sunday with Mrs. Troxell's brother, Andrew Keilholtz and family, of Emmitsburg, Md., and Grier Keilholtz and family, of Taneytown, Md.

Mrs. Harry I. Reindollar is spending several days visiting her daughter, Miss Margaret Reindollar, in Reading, Pa. She was a guest of her daughter at the Mother's Day dinner given by the Junior Women's Club, of Reading, on Thursday evening.

Under the direction of town authorities three trees were removed from the middle of the first block on Baltimore Street, Taneytown, this week. It took a year and a half of dickering with the State Forestry department. The trees had become a menace. It is a fine illustration of the nonsensical red tape made necessary when we give power to State bureaus in things which ought to be none of their busi-

The Taneytown Jr. I. O. O. F. Band filled an engagement at Forest Park, Hanover, on Sunday, May 9. The Band played concerts in the afternoon and evening. The band is preparing to give a free concert in Tananarata in the agreement of the part of t eytown in the very near future, and also is preparing to take part in the Memorial Day parade and exercises on May 30th. A check up on the bands uniforms has resulted in the discovery that several former members of the band have still retained uniforms. The management of the band requests that these be returned at once, as there are several new members of the band that require the ase of these uniforms.

MARRIED

LAWRENCE—HALTER

Mr. Robert E. Lawrence, son of Mr. and Mrs. Norman Lawrence of the vicinity of Taneytown, and Miss Erma M. Halter, of Westminster, were united in marriage at the parsonage of the Reformed Church in Taneytown, on Saturday evening, May 2.

DIED.

CHRISTIAN SCIENCE SERVICES 4-H'ers Become Cattle

"Mortals and Immortals" will be subject of the Lesson-Sermon in all Churches of Christ, Scientist, on

Sunday, May 16.

The Golden Text will be from II
Cor. 5:16—"Henceforth know we no
man after the flesh."

Among the citations comprising the Lesson-Sermon will be the following from the Bible—Psalms 39:6-"Surely, every man walketh in a vain shew; surely, they are disquieted in vain; he heapeth up riches, and knoweth not who shall gather them."

The Lesson-Sermon also will include passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, among which is the following, page 263—"When mortal man blends his thoughts of existence with the spiritual and works only as God works, he will no longer grope in the dark and cling to earth because he has not tasted heaven."

Rock Salt Works Under

Ice, Keeps Highways Safe

Faced with the necessity of keeping defense traffic moving despite snow and ice storms, and handicapped by a severe shortage of manpower to clear streets and roads quickly, street and highway officials are up against their hardest problem in years.

As a result, there has been an unprecedented demand for rock salt for snow and ice removal. Many tons of rock salt were purchased by the larger cities.

The use of rock salt for this purpose is a relatively new development. Once used in small quantities to keep cinder piles from freezing, it is now supplanting cinders in ice control work.

When first spread on snow or ice it acts as an abrasive, then by auger action it works beneath the surface, where it forms a brine and loosens the bond between ice and pavement. Passing traffic breaks up the loosened ice or snow so that snow plows can remove it readily without repeated scraping.

In most cities rock salt is used as a preventive at the first sign of snow. It is spread particularly on hills and at intersections so that ice cannot form at all. Usually only one application is required, an economy for street maintenance men, and it has the added advantage of leaving no residue to clean up afterwards or to clog sewers.

Walt Disney had Snow White and her Seven Dwarfs and we have just seven questions here. You'll have to take the role of Snow White in today's Guess Again quiz. Just place a mark in the space provided and check below for the correct answers and your rating.

(1) A phrenologist tells one's fortune by: (a) reading the palm; (b) bumps on the skull; (c) gazing into a crystal; (d) using playing cards. L

(2) In England a person riding on a lift would be in a: (a) taxicab; (b) street car; (c) elevator; (d) subway.

(3) . This famous picture was painted by: (a) Rembrandt; (b) Stewart; (c) Petty; (d) Whistler.

(4) If a Hatfield met a McCoy there would be: (a) an airplane crash; (b) a football game (c) a business deal; (d) | some gun-play.

(5) The abbreviation R. S. V. P. stands for: (a) Red Seal of Venezuelan Police; (b) Rescue Squad for Victoria Palace; (c) Respondez S'il Vous Plait; (d) Rush Signal Verifying Position.

(6) Allegro in music means: (a) a fast tempo; (b) a slow tempo; (c) turn the page; (d) take a solo.

(7) A person called "Scrooge" would be: (a) an athletic type; (b) a kindly old man; (c) a miserly old crank; (d) a conservative young business man.

"GUESS AGAIN" **ANSWERS**

Take a bumpy 20 points for (b)
Add 15 points for (c).
(d) nets you 15 more.
Easy, you said it, (d), 10 points
(c) gives you 15 points.
Worth 15 more for (a).

10 for (c).

YOUR RATING: 90-100, you're a good actor; 80-90, there's still room for improvement; 70-80, you'll do; 60-70, guess again.

Raisers in Massachusetts

Fourteen future dairymen in Massachusetts have recently become half owners of purebred Holstein bull calves, Harley A. Leland, assistant state leader of 4-H club work, has announced.

This is the first time, says Mr. Leland, that Massachusetts or any New England state has ever carried out such a plan for promoting better bulls among the 4-H club members. It is sponsored by the New England Holstein Breeders association in co-

operation with the club department. Breeders throughout New England have donated calves which are four to six months old when the 4-H members take them. Each member must make a deposit of \$5 which goes into a general insurance fund; must raise the animal until next fall; and must show the animal at county or

local fairs. At a special auction, in co-operation with the annual Holstein sale, these 14 prospective herd sirés will be sold. All expenses will be deducted and the net profit will be divided between the 4-H member and the dairyman who donated the calf. Prize money will also be given for the best jobs of fitting and training the animals.

Flying Brothers Circle

Earth; Meet in Australia SOMEWHERE IN AUSTRALIA. Lieut. Claude and Max Burcky, flying brothers from Pontiac, Ill., circled the earth to meet in Australia. Both left Langley Field last year. Max flew his bomber across the Pacific, while Claude went via South America and Africa. They met in a small Australian town. Both have been decorated for bravery, and each has a record of successful bombing missions.

Plenty of Coffee-

If You're in Egypt

WASHINGTON.-American solliers sent to Egypt will find it is perfectly proper to "zoop" their offee. And in either Egypt or ran, to avoid offending their losts, they should drink three

ups but refuse a fourth. Those are some of the hints in the army's newest guidebooks issued to troops in Iran and Egypt.

Keeping Our Navy Supplied Big Job

Shipping, Handling, Storage Are Great Problems.

WASHINGTON. - The man who sees to it that the navy has what it needs to make war in the Pacific said it was a tough job because when Adm. William F. Halsey "goes into action he throws everything he's got at the enemy including the kitchen stove-and then he goes into the kitchen, gets the stove lids and throws them, too."

Vice Adm. William L. Calhoun, commander of the Pacific service force, explained in a statement released by the navy that his job is 'to make sure that the kitchen stove and all the lids are there when Billy Halsey gets ready to throw them. Calhoun is here for conferences.

Shipping, handling and storage are the great problems confronting the men who supply American forces setting up bases in the Pacific islands. On the receiving end, Calhoun said, "methods as crude as those Robinson Crusoe had to use to get his stuff out of the wreck" are necessary.

"There were no storehouses on those islands, no magazines, no oil tanks, no refrigeration facilities," he "Our engineers are building them now, but material and labor for new storage facilities must come from the mainland-and that means delay. Ships are scarce. We have very low grade and insufficient terminal and pier facilities for unloading-sometimes we have to carry things right up the beach. Hurricane weather is frequent and that delays us, too.'

One of the greatest needs of the United States forces battling the Japanese is aviation gasoline and that makes Calhoun's prime problem the matter of having gasoline ready whenever needed

Fliers Fight Off Death in Canada

Airmen, With Legs Broken, Inch Their Way Out.

EDMONTON, ALTA. - Two injured United States survivors of a plane crash told from hospital beds of their experiences during 19 days and nights in the wild mountainous bush country of Canada's Northwest. The men, each with a broken leg, were brought here by airplane.

Staff Sergt. Edwin Wilczynski said he had greeted rescuers with the exclamation: "Gee, am I glad to see you!"

Wilczynski, whose home is in Nekoosa, Wis., and his companion, Rupert Alexander of Denver, Colo., were found by a Royal Canadian mounted policeman and an army officer as they were crawling toward a settlement from the crashed

Minneapolis and Co-Pilot Kenneth W. Jones of Elida, Ohio, were killed when the plane crashed into 60-foot

timber. The injured men lived on the plane's emergency rations for 14 days before they started to crawl to the settlement they knew was near-by. Their food supply was getting low and they were afraid it would run out. The rescuers built a

fire and gave them cigarettes. When the two started on their gruelling crawl through the dense bush and deep snow all the food they had with them was four packages of concentrated soup, seven bouillon cubes and two pieces of sausage.

One of the men pushed a sled to support the upper part of his body and the other pulled himself along with snowshoes tied to his hands. They came within a couple of miles of reaching their goal.

They had covered between two and three miles in that desolate area before their rescuers found

Deputy Sheriff Gets His Man After 13 Long Years

CHICAGO.—During 13 long years Deputy Sheriff Peter Agriostathes has searched intermittently for John H. W. Hoffman. The search began in 1929 when Hoffman was indicted on confidence game charges. Deputy Agriostathes was handed the capias, and told, "Go find him."

Agriostathes went forth, but nowhere could he find his man. The years rolled on. Now and then Hoffman flitted into Chicago and quickly flitted out. Once he stayed long enough to be indicted on a charge of fleecing Anna Surges out of \$4,182. But even with a fresh indictment and a fresh capias, Agriostathes couldn't find his man.

Then the other day Hoffman was seen at a north side hotel. Agriestathes enlisted the aid of Deputy George Soukoup. "Tell him," instructed Agriostathes, "you have a Greek friend with lots of loose money who wants to buy some stock.' Deputy Soukoup followed instructions and made an appointment for the two to meet. They did, in a Halsted street drug store, and Hoffman, now 59 years old, became a prisoner in the county jail. And Deputy Agriostathes was marking the records-"capias served."

Soldiers in Cold Regions

Get Clippers for Beards JERSEY CITY, N. J.—It needn't be "cold enough to freeze your whiskers off" to keep the faces of Uncle Sam's fighting forces in frigid climates clean-shaven. The army quartermaster corps is supplying them with beard clippers for use when "extremely low temperatures make shaving inconvenient and possibly dangerous," according to an announcement by the Jersey City quartermaster depot.

"It is necessary to keep the beard clipped to prevent formation of ice in the whiskers," the announcement explained.

The beard clippers for men in cold areas are an addition to a barber kit, which has been developed by the quartermaster corps and is now being supplied to army units in overseas areas where professional barber service is not available.

Send 14 American Women

Held in Norway to Reich STOCKHOLM. - Reliable reports from Oslo said 14 American women arrested by the Gestapo in Norway last autumn had been removed before Christmas from the Grini concentration camp near Oslo to the Liebenau internment camp in Germany near the Swiss border.

Pikes Peak Travel Off COLORADO SPRINGS, COLO.-Travel to the summit of Colorado's famous Pikes peak dropped 75 per cent in 1942. Supervisor E. S. Keithley of Pike National forest said only 30,000 persons—one-fourth of normal -made the trip up the famous scenic attraction of the state during the past year.

Lieutenant Can't Smoke

In Presence of His Wife SPRINGFIELD, MASS.—Life isn't tough enough, but Sergt. William LaFond, attached to the recruit induction center here, has to have extra problems-his wife is Lieut. Charity LaFond of the WAACS, stationed at Des Moines, Iowa.

Sergeant LaFond met her at the railroad station when she arrived on furlough. They greeted with suitable affection, chatted a while and then the sergeant lit a cigarette.

Up strode an M.P. "Put it out," he ordered. "An enlisted man can't smoke in the presence of an officer."

Japan to Close 70 Pct. of Textile Mills, Say Nazis

LONDON.-Radio Berlin said the Japanese minister for economic affairs had announced that more than 70 per cent of Japan's textile mills would be closed, and the workers in them drafted into war industry. Sixty to 70 per cent of the machinery in the closed mills will be scrapped for arms, Radio Berlin said.

Story Leads Bandit To Rectify Mistake

COLUMBUS, OHIO .- A bandit held up the Seneca hotel one night and got \$107, but overlooked \$1,000 in the cash drawer.

The newspapers reported it the The next morning a man identified as the same visitor, came back for the thousand dollars. He

got away with \$450.

Doughboys Need More Pork

U. S. Doughboys will need a lot more pork in 1943, for there'll be a lot more doughboys and they'll have use for every ounce of the energy and muscle pork helps build. It's estimated that our military and lend-lease pork requirements this year will exceed last year's by more than 11/2 billion pounds. To meet the need, farmers of this State are being asked during the Farm Mobilization Campaign to raise more and bigger hogs in 1943. Farmers plan to feed hogs to heavier weights, like the man in the top picture, and to increase farrowings by around 15 percent in many regions.

A Young Warrior on the American Farm

Farm boys and girls can help beat the Axis in many ways. This chap is raising calves—excellent insurance against a shortage of milk, butter, cream, cheece, and meat for the healthy American family.

JOHN O. CRAPSTER, Postmaster.

Feeding Program for Dairy Herd Should Be Balanced

A well-balanced feeding program for a dairy herd should comprise about one-third hay or silage, onethird pasture and one-third concentrates, according to some dairy spe-

A Jersey cow weighing about 1,000 pounds will eat about 20 pounds of dry matter in roughages daily. If this is obtained from tender green grass containing 85 per cent of water, the cow would have to eat 134 pounds of grass. If gotten from silage she would have to eat 60 pounds daily. The sum of this is that one pound of hay is equivalent to three pounds of silage, and about six pounds of green grass based on the dry matter contained.

Hay should be fed the year round, specialists advise, even when cows are on good pasture. In that case they will not eat much hay, but the moment the pasture begins to fail they start eating more, if the hay is before them. Experiments show that production of milk was maintained more evenly where cows had access to hay at all times.

Good green grass is the best and cheapest feed for a dairy cow. But a high producing cow cannot hold enough grass to entirely meet her requirements. Accordingly, it is necessary to feed some dry roughage and concentrate feeds additionally. Since a pound of digestible nutrients from roughages is as valuable as a corresponding amount of concentrates, and usually much cheaper, as much as possible of the feed requirements should be sought from roughages.

Set Up Signal Corps in 1863; Developed Telegraph

An act of congress of March 3, 1863, created the signal corps. It originally was authorized a chief signal officer, with the rank of colonel; one lieutenant colonel, two majors, and the necessary number of captains and lieutenants.

Today, the supply service of the signal corps handles the procurement of radio, telephone, telegraph, and all other signal equipment not only for the use of signal troops but also for the air forces, the infantry, coast artillery, and other branches of the army. This means the standardization, purchase, inspection, and distribution of billions of dollars worth of communications equip-

Pioneering originally in the military application of the newly invented telegraph, the signal corps has been responsible for many advances in the science of communication. It was the first federal agency to collect meteorological data by telegraph. The first U.S. army planes were purchased and flown by the aviation section of the signal corps, and the first ground-to-plane radio communication was the culmination of its experiments.

Settle Boundary Dispute

A century of litigation and dispute over location of a portion of the Indiana - Kentucky line has ended with signing of a bill by the Indiana governor following its passage recently by the state legislature. All that is necessary to write finis to one of the few remaining state boundary disputes is approval of the Indiana - Kentucky agreement by congress, which has the matter under consideration.

The dispute itself has been going on since a shift in the Ohio river channel more than a century ago left a tract of Kentucky land some five miles long and a mile wide on the north side of the river adjacent to Evansville, Ind. Meantime, Evansville had located its waterworks on a portion of the territory.

The dispute was brought to a head during recent years after numerous roadhouses were built on the strip of bottom land. Despite protests by Evansville of insufficient policing, Kentucky peace officers were reluctant to patrol the tract separated from their mainland by the river while Indiana officers had no authority within the area. Consequently, the area became a haven for lawless elements. The bill has been drawn in such a manner as to leave the Evansville waterworks in Indiana. Kentucky's legislature adopted the legislation last year. - 100

John's Grasshopper Pods

The kind of locusts eaten by John the Baptist while dressed in camel's hair at the River Jordan were not grasshoppers or even the gentle nomadic species, but were simply pods of the carob tree. One odd thing about them is that the blossoms grow out through the bark on branches instead of on twigs or terminally. The 30 per cent protein and sugar in the pods give an economic value to this member of the bean family. Sub-tropical, it endures less cold than the orange tree.

Vitamin C Necessary

Vitamin C must be provided every day because it cannot be stored in the body. It is needed to build strong bones and teeth and to keep the mouth in a healthy condition. Lack of this important vitamin results in bleeding gums, swelling and pains in the joints, and general lack of pep. A cup of canned tomatoes or tomato juice; a half cup of orange or grapefruit juice; an orange; or a half grapefruit provides the vitamin C each person needs for one

Important Remark

By JAMES FREEMAN

Associated Newspapers. WNU Release.

INSPECTOR EARLE HARRISON smiled as he listened to Detective Marc Dale. Marc was all in favor of accepting the story Blackie and his girl friend had told them and

was eager to get home. didn't know you so well, Marc, I'd fire you on the spot," said the Inspector. "It would appear to a stranger that you've lost interest in the case simply because we've found a snag in the puzzle.'

"But look here, Chief. Nine chances out of ten it was an accident. We haven't got a thing. Not a hlessed thing! The girl and Pleski blessed thing! The girl and Blackie have got a swell story, and they'll stick to it!"

Harrison turned and opened a door into an adjoining room. As he stepped inside, followed by Dale, a man and a girl looked up from a table. Other than a slight questioning look on the face of each, their expressions were blank. They had the thin, cruel features of the criminal who works at crime as a trade.

A man lay there on the floor near the door. The man was dead. An ugly-looking bullet hole was visible just above his collar on the left side of his neck.

Suddenly Harrison stood up and approached the man and the woman at the table.

"Want to stick to that story, do you?" he asked. "Don't want to change it any?'

The girl stirred, but her blank expression remained unchanged. "It stands, Inspector, because it's the truth. The whole thing was an accident. Frank-" she jerked her head

"It stands, Inspector."

toward the corpse on the floor-"and Blackie were good friends. The best. They'd come up here to get me. We were going over to Helen Greene's house to pick her up for Frank. Just as we were going out the door Blackie pulled out his gun to show it to us. It was a new gun, and he was like a kid with a toy. He'd had it only an hour or two, hadn't got on to the hang of it vet. He dropped the went off. The bullet killed Frank. And that's straight.'

"Swell story," Harrison looked cross at Dale. "Swell. But it don't across at Dale. go with me. Marc, get out your bracelets."

The man at the table leaped to his feet, overturning the chair he was sitting in. His eyes were suddenly gone bright with suppressed excitement. "Wait a minute, Inspector! Wait a minute! That story's straight! You can't pin this on to me. I didn't do it! I just got out of the big house and I'm not going

"Sorry, Blackie, but that's just where you are going!'

"What good will it do you? We got a story and we're going to stick to it. It's logical. I can prove I bought the gun tonight. I can't help it if it went off and killed Frank. Why, me and him was the best of

For answer Harrison pointed to the corpse. "Take a peep yourself, Blackie. If the bullet had come from the gun when it struck the floor, its natural course would be upward. As it happens, the course of the bullet was almost horizontal. Get it?"

Cold sweat had suddenly appeared on the accused man's forehead. Even before Harrison finished speaking his pig-like eyes began to dart from side to side, as though

seeking some means of escape. Abruptly he leaped. Swiftly, quietly, almost rhythmically the man's body began to move toward a window behind the table. The pig-like eyes glinted. They were fastened on the window, open now, with the dim outline of a fire escape landing, beyond.

He had reached the window and had one leg through it when Dale's hand fell heavily upon his shoulder, yanked him back into the room. Dale had anticipated the move, had expected it and was ready. It was this cat-like vigilance on the part of the detective that made him such a valuable aide to the inspector.

"Gotta hand it to you, Chief," Dale was saying five minutes later. "You got the brains in this outfit. Never would have thought of it my-

"I wouldn't have either," Harrison said soberly, "if you hadn't made that crack about nine chances out of ten. It got me to thinking about that other one - the tenth chance. That's what we're paid for -to check up on the tenth chance.

As Long As Battleship

American shipyards are currently building ore ships for service on the Great Lakes capable of carrying 10,000 tons of iron ore at a trip. Last year ore ships carried 90,000,000 tons of essential ore. The newest ships are nearly as long as the most modern battleship.

Growers Buy Bonds Members of the Colorado Wool Growers association, numbering about 3,500, have pledged themselves to invest 10 per cent of their gross income from 1,500,000 sheep in war bonds, it has been announced by Mike Noonan, past president of the organization.

Use Remnants

Make an attractive multi-colored sweater out of the remnants of two or more old or outworn knitted garments. Before taking the cast-offs apart, wash them in soap and lukewarm water. The wool will be easier and pleasanter to handle.

Poison for Grasshoppers

Grasshoppers, which destroy an estimated \$25,000,000 worth of crops annually, face a chemical foe in 1943 notwithstanding that the government requires for other purposes the sodium arsenite used heretofore to poison the pests. It is sodium fluosilicate, which meets all government specifications for use in poison baits to save large acreages from depredation. Sodium fluosilicate is a dry powder much more easily and safely handled than concentrated sodium arsenite solutions commonly employed. It is said to be much more distasteful to farm animals than sodium arsenite which is quite attractive. However, it is poisonous, and must be handled accordingly.

Runs in Family Lieut. Gen. Thomas Holcomb, commandant of the marine corps, who fought at Belleau Woods and in numerous other engagements in France during World War I, is a direct descendant of Commodore Joshua Barney, outstanding hero of the Battle of Bladensburg in the War of 1812.

Lamp Shade Care

Now that the War Production board has ordered thumbs down on wire lamp-shade frames, shades made of silk and other fabrics have joined the list of household irreplaceables. Unshaded lights are not an immediate prospect, however. With proper care, fabric shades that are now in good condition can be made to last for many more years. All lamp shades should be frequently dusted with a soft clean brush or a vacuum cleaner attachment, but fabric shades sometimes need more than brushing to remove ingrained

The most practical way to banish harmful dirt is by soap and water washing. Metallic ribbons and braids, or other trimmings that may not be washable, should be removed. The shade should then be doused up and down in a tub of luke-warm soapsuds until the colors brighten and the dirt floats out. A soft brush may be used if the soil is stubborn. Rinse in several clear waters of a lukewarm temperature. Speed in washing and drying will reduce color loss in fabrics that are not colorfast. Drying can be hastened by placing the shade in a current of air from the windows or an electric fan. Blotting with a soft cloth will also shorten the drying period.

Clean Water in Boiler

It pays to be sure that the water in a steam heating boiler is clean, says the Plumbing and Heating Industries bureau. There is a definite relation between the condition of the water in a steam heating boiler and the general over-all operating efficiency of the plant, the bureau points out. A boiler with clean water has a faster heating pickup, uses less fuel, and facilitates the dependable operation of safety devices. Water in a boiler may become dirty from a number of causes such as organic matter in water, rust and scale, dissolved solids caused by intermittent boiling, and oil which finds its way into the water.

-I AM AN-

American Day

• Presidents of the past interpret meaning of national ideals for citizens of the present.

BEING an American means many things to many people. But to every citizen it represents a distinction obtainable nowhere else in the world. This is true today as never before in history. On May 16, when the nation observes "I Am an American Day," that fact will be forcefully brought home.

In past generations eminent Americans have interpreted the meaning of citizenship and national ideals in words that sound strangely familiar today. This fact is glowing proof that the present generation is true to the principles of its forebears.

"What has America done for the world?" someone asked John Quincy Adams, sixth President of the United States. He replied: "America has proclaimed to mankind the inextinguishable rights of human nature as the only lawful founda-tion of government."

The martyred President James A. Garfield epitomized the meaning of American citizenship when he said: 'When our fathers announced as self-ev'ent truths the declaration

that all men are created equal and the only just power of government is derived from the consent of the governed, they uttered a doctrine that no other nation had ever adopted, that no one kingdom on earth then believed. Yet to our fathers it was so plain that they would not debate it. They announced it as a truth 'self evident.'"

Answering a query, "What is our country?" President Benjamin Harrison said: "Our country is the flag and what it stands for. It is its glorious history. Our country is the fireside and the home, the high thoughts that are in the heart that comes of the story of the fathers, the martyrs of liberty. In these things is that quality we love and call our country-rather than anything that can be touched or han-

New Litter Permits Easy Transfer of Wounded Men

CHARLESTON, S. C .- Medical officers at Stark General hospital, Charleston, S. C., have perfected a new type litter designed to permit easy transfer of wounded men from ambulances to Pullman cars. It moves on wheels.

One man can handle the litter and never move the patient until he reaches his berth. It can be kept on the train platform for immediate use and by saving transportation time, it gains fighting time.

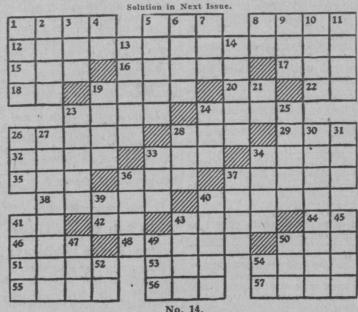

Surgical officers at Stark General have given the litter enthusiastic approval. Although not yet produced commercially, it has been submitted to the surgeon general in the hope it may be used for all patients moved by train.

Fliers Named Them

'Slum Clearance Bombs' MELBOURNE. - British fliers call them "block busters." But Australian airmen have another name for the big bombs that have wrought so much havoc.

They call them "slum-clearance bombs" because observers have found that one of these big fellows will destroy several blocks of old type buildings.

PETER AND JOHN PREACH TO SAMARITANS

LESSON TEXT—Acts 8:14-25. GOLDEN TEXT—Lift up your eyes, and look on the fields; for they are white al-ready to harvest.—John 4:35.

The Church as it grows has prob-lems, and so God calls leaders to serve Him in meeting and settling them for His glory and the good of

Philip had gone to Samaria (as a result of the first persecution of the Church) and there he had been used of God to bring many to faith in Christ. Now that the new groups of believers needed guidance and instruction, Peter and John were sent to help them (v. 14).

A proper understanding of, and attitude toward, God's gracious gift of salvation is of first importance. New converts must recognize that it is a gift: that it cannot be earned or bought, and that it issues in a life of service and testimony.

All three of these matters are covered in our lesson.

I. Spiritual Life and Power Is God's Gift to Believers (vv. 14-17).

The Holy Spirit was received by these early members of the Church by the laying on of the apostles' hands, but later He came directly into the believer's heart the moment he had faith in God. This is now our blessed privilege, and the provision for our every need as followers of Christ, to recognize the indwelling Holy Spirit.

What a glorious truth it is that the believer is indwelt by the Holy Spirit, He who is a divine person, not just a power or influence (I Cor. 6:19). Thus every believer, including the humblest as well as the greatest, has in him the One who gives spiritual life and power, who gives grace for holy living, and empowers for service.

The greatest power in all the world—the power of the infinite God -is thus available to every true and yielded believer, as God's free gift.

Gone then is all boasting of our own strength, and gone are all excuses for weak and careless living. The power and grace are His, and He gives them to us as His gift. Christian friend, are you allowing the Holy Spirit who dwells in you, to infill and use you as He will?

II. Spiritual Life and Power Cannot Be Bought by Works or Money (vv. 18-24).

Men of this world are so used to putting their trust in money that they come to think that one can buy anything. To them every man and every desirable thing must have its Let us be clear that there are men who cannot be bought, and that the best things in life bear no price tag. A mother's love, friendship, fellowship with God-priceless they are, but not for sale.

Above all let it be clear that eternal life, and the power of God the Holy Spirit, cannot be gained by piling up good works, nor by payment in the coin of this world.

Simon Magus wanted this power to improve his business as a magician. He made a very gross proposal, but one wonders whether he was any more to be censured than many in the Church today who are doing the same thing, though by more cultured and skillful methods.

Not only are there those who are trying to buy their own way into heaven, but also those who by holding the purse strings, try to control the message of the preacher. What about those who by their financial gifts seek to gain control of church organizations?

Their efforts are doomed to ultimate failure-God will see to that! -but in the meantime they do much harm to the cause of Christ. Many a church and pastor would like to rise up and say with Peter, "Thy money perish with thee.'

III. Spiritual Life and Power Should Result in Testimony (v. 25).

Peter and John set the Samaritan Christians a good example as they went back to Jerusalem, by permitting the Holy Spirit to use them to testify and to teach the Word of the Lord in many of their villages.

One of the great hindrances to the carrying out of the great commission has been that Christians have received spiritual life, and even spiritual power, as though it were something for their own gratification or comfort. God saves us to serve Him in testimony and in life.

The Holy Spirit does not speak of Himself. He guides the believer in all truth (John 16:13), particularly the truth regarding Christ. The Spirit's primary interest is to glorify Christ (John 16:14).

It follows then that the Spiritfilled believer will be busy about speaking for Christ and glorifying His name. The Holy Spirit is ready to teach even the words to say that Christ may be lifted up and men be

Peter and John, as good leaders of these new Samaritan believers, gave them by word and example a good foundation for growth in grace and usefulness to Christ.

Budding Scientists Find

This Nut Tough to Crack Forty finalists in the nation-wide Science Talent Search, all senior high school boys and girls, recently completed one of the stiffest aptitude examinations leading psychologists could devise.

An examination consisted of a set of 17 separate statements about various scientific subjects. Here is a sample statement—read it carefully, then answer the questions that fol-

About 3,000 stars are visible with the naked eye under the most favorable conditions. To a first approximation the stars appear to be fixed relative to one another on a celestial sphere which makes one revolution around the pole star in 23 hours, 56minutes and three seconds. On the sphere appear also the sun, moon, and planets. These continually change their positions with respect to the stars. The moon moves eastward on the celestial sphere about 12 degrees per day, the sun moves eastward about 1 degree per day, and the planets move mostly eastward but sometimes westward at varying

Now find the correct answers to the following questions:

A. A clock which keeps star time would have to 1: run more slowly than our ordinary clocks; 2: run at the same rate as our ordinary clocks; 3: Run faster than our ordinary clocks; 4: have a different type of construction than our ordinary clocks.

B. For the sun to return to the same position in the celestial sphere (relative to an observer on the earth), it will take 1: more than one clock year; 2: less than one clock year; 3: slightly more than one clock day; 4: one clock day.

C. To an observer on the earth, the celestial body which retains its absolute position is 1: the sun; 2: the moon; 3: Mars; 4: the pole star. The correct answers are: A, 3; B,

Resembles Lincoln; Is Best

War Stamp Seller in State An employee of the Pennsylvania State college whose given name is actually "Abraham Lincoln" and whose resemblance to the Civil war President is remarkable, has won the reputation of being the best war stamp salesman in this section of the state.

He is Abraham Lincoln Hite, employed as a mason in the college department of grounds and buildings. He asked his boss, Superintendent George Ebert, for time off prior to Lincoln's birthday in order to sell war stamps in local public schools. His request was granted.

With a costume which greatly enhanced his likeness to President Lincoln, and with his face made up by students in the division of dramatics, Hite toured nearby schools and sold several hundred dollars worth of stamps.

Now the Lincoln impersonator can get time off whenever he wants it for this patriotic service. During month of February he sold \$2,657.25 worth of stamps in Centre schools and service clubs. He plans to continue his tours for the duration.

American Face Forms

The faces and head structures of American citizens fall into seven principal categories, according to a survey conducted by the air surgeon to determine measurements to insure the perfect fit of oxygen masks, essential in high altitude flying, and other head equipment for fliers. Conducted among 1,454 aviation cadets of all types, racial strains and national extractions, the survey showed that any shapes and sizes of faces which might be found in the army air forces could be fitted with one of four sizes of oxygen masks. On the measurements obtained, models of the seven types of heads were made and the new masks were designed and constructed. These masks provide the absolute snugness necessary to prevent inhalation of oxygen-thin air encountered

Soldiers Catch Rabbit

The cocky little cottontail whose daily capers on the recreation field used to be mocking gestures for the soldiers hardbent at calisthenics in their early stages of physical training at the Enid, Okla., camp has lost its cockiness.

His favorite sport was to tempt them into a chase. Now he is sorry for his earlier antics.

Hardened by their months of training, members of the 80th base headquarters and air base squadron, gave chase to the rabbit-and

The early morning class drew first blood and then released the bunny to give the afternoon class a chance. Again he was caught and released.

Shell Explodes Late

Crew members of a B-17 Flying Fortress were mystified recently while flying over a quiet sector in England when a 20 mm. shell exploded in the left horizontal stabilizer of the plane. There wasn't an enemy in sight. An engineering officer investigated when the plane landed and reported that the Fortress had been hauling the shell around since it had attacked German installations over France three weeks previously. During that attack, the shell pierced the stabilizer without exploding. The hole which it made subsequently was repaired.

Prefer Two-Piece Slacks for Summer

For the summer, warplant workers are showing an increasing interest in two-piece jacket slack ensembles rather than one piece overall or coverall types.

The two-piece models are exceedingly attractive in their pretty pas-tel colors. Plastic buttons in contrast colors impart extra charm. While most of the outfits are in solid color, there is also wide demand for contrasting jackets and slacks.

The entire scheme of things in the way of war-work clothes design revolves around creating apparel from the viewpoint of safety-no fluttery ruffles, or extending pockets, or flaring trouser hems that can catch in machinery.

The sturdiness of denim makes it the favorite material, and gabardine is also favored.

Forecast the Return of

The 'Chemise' Dresses The straight-hanging frock that takes a minimum of material, depending on a front tie belt to give it shapeliness, is, according to reports from style headquarters, destined to clay a leading role in the coming fashion picture. As a fall prospect, and even now it is being accepted for immediate wear. Designers, inspired by a desire to conserve fabric, are turning their attention to this new trend, and we may expect interesting developments.

Fanciful Hemline

Hemlines have gone in for decorative treatments. The black sheers take on a narrow ruffling of lace. Wool dresses and crepes are finished off with self-fabric pleatings and box - pleated ruches. Points, scallops and ribbon also outline hemlines. Young girls are wearing navy dresses with frilly eyelet embroidery peeking from under the hemline.

Style-Plus

The softly tailored one-piece dress in navy is a fashion favorite this season. Here it is shown made of navy faille crepe. The new color fad is navy with purple, and this costume subscribes to the trend. The shoulder bouquet is of purple violets and the buttons are formed of purple beads. The ruffled collar makes a flattering neckline, while the new trouser pockets give fash-

Crochet Millinery

Crochet hats are the smart idea in millinery. They are fashioned just as straws would be, with brims and crowns. The flowers are all crocheted in realistic colorings, and for a tailored effect there are crochet bands, some fastened with cro-

A Blouse Will Give to Your Suit the 'Touch That Tells'

By CHERIE NICHOLAS

your change of costume will, often as not, this season are fairly stampeding the fashion picture. The triumph of the

blouse in the presentday vogue is to be attributed in a large degree to the lux- the throat for feminine flattery. uriant rayon fabrics that yield so charmingly to artful and versatile styling. The range of smart rayons that go to make up this season's tremendous showing in blouses runs the gamut from gossamer chiffons and marquisettes to crisp taffetas and soft draping crepes, also shantungs and the voguish failles. In this galaxy of smart new rayon weaves you will find checks and stripes vying for popularity with plaids and gorgeous prints. Fine rayon sheers in exquisite pastels,

black, navy and other dark tones compete with snowy whites. There is something very dressy and exquisitely feminine and refined about the blouse that is made of chalk white rayon crepe with rufflings of lace at the throat, down the front fastening and about the wrist bands of the new long shirt sleeves. Rayon sheers in pastel or white with long sleeves or short have a bright future before them. These are styled with extreme sim-

Flattery is the word that keynotes the entire scheme of things in blouse design for this season Emphasis is especially on new necklines. Classic shirt waist types in fine acetate rayon crepe, also smooth acetate jersey, are shown with youthful peter pan collars this year, the high round line fitting nicely over cardigan jackets and sweaters, as well as giving a nice, neat look for jacketless wear with slacks, shorts or sports skirts. The print blouse that flaunts such bizarre colors this season glories in huge bows of self print at

The illustration presents a trio of important blouse fashions, each having a story of new fashion trends to tell. The simple black sheer blouse has a surprise "up its sleeve" in that it is reversible. It is really made on one side of black sheer, and the reverse side is of the same filmy chiffon in a pretty beige tone. Wear the dark side out for daytime. For evening glamour turn it inside out. It's a new idea, this of the reversible rayon chiffon blouse, and it is going over big.

An unusual scarf neckline adds special fashion interest to the striking tuck-in blouse of crisp rayon taffeta shown. The taffeta is richly colorful in its checked patterning, which is done in vivid purple, gold and rose. This is the sort of blouse that combines with a skirt to achieve the new blouse-costume look that is featured so prominently this season.

There is a definitely new style appeal in the jacket-like overblouse that makes sophisticated simplicity its theme, as may be noted in the model centered above in the group. In pastel tones, strictly tailored and beautiful in ultra-simplicity these jacket blouses of luxurious rayon crepe, designed to wear with or without a suit jacket, are making wide appeal to women of discriminating taste. The crepe for this model in the original is in pale rose-petal pink. Note the fly-front closing and the distinctive pointed neckline. Done in the new lilac tone, this blouse would be very lovely topped with a little hat of violets and green leaves.

Released by Western Newspaper Union

ion interest to the skirt.

Rationing doesn't mean that you

have to give up entertaining entirely. True, you may be serving dishes you've never served before, but if you've tucked your thinking cap at the right angle, you'll find many things with company manners which won't

take too many ration points. Be clever with your knives in

shaping fruits and vegetables into attractive shapes and sizes for your guests, and use bright colors for garnishes and table accessories. Add a good portion of your own charm to make your guests feel at ease, and Madame, your entertaining will be a success!

Tulip-like tomatoes are a picture on any spring luncheon table. *Tulip Tomatoes Filled With Shrimp.

(Serves 6) 6 tomatoes 1 cup finely diced celery 2 cups canned shrimp 1/4 cup french dressing 1/3 cup mayonnaise

1 tablespoon lemon juice Dash of cayenne pepper Cut tomatoes in sixths with sharp knife, cutting through outside of to-

matoes, and just enough so that each section can be pulled back to form a petal. Marinate shrimp in french dressing for ½ hour. Drain, then com-

bine with celery, mayonnaise, lemon juice and cayenne pepper. Chill. Sprinkle inside of tomatoes with salt, then fill with shrimp mixture. Garnish with whole shrimp.

Smart idea for salad plates is to include a small scoop of two or three different kinds of salad to make a picture plate. Here are two splendid ideas:

Lemon Sunshine Salad.

(Serves 6) 1 package lemon-flavored gelatin cup boiling water teaspoon salt 1 tablespoon lemon juice or di-

luted vinegar 1 cup cold water 1 cup finely shredded cabbage ½ cup finely grated raw carrot

1 tablespoon minced onion Dissolve lemon-flavored gelatin in boiling water. Add salt and lemon juice or diluted vinegar and cold water. Chill until mixture begins to thicken, then add remaining ingredients. Do not shred vegetables until just before using or a large

loss of vitamins will result. Pineapple-Cottage Cheese Salad. (Serves 6)

34 cup cottage cheese 1/4 cup nuts, chopped 1 tablespoon pineapple juice teaspoon sugar 6 slices pineapple, fresh or canned Green or red pepper Lettuce

3/4 cup salad dressing

Lynn Says: Nice to Know: Waxed paper wrappers from bread are good for wiping the top of the lid top range Use grapefruit shells for serv-

ing fruit or seafood cocktail if you don't have enough dishes. Iron rust may be quickly removed from white clothes if you squeeze lemon juice on the spot, sprinkle salt over it and place it in the sun. Repeat if the first application does not work.

Use warm water instead of cold for mixing flour for gravy. The use of a rotary egg beater helps smooth out lumps if they should

You'll save time if you have an extra set of measuring spoons in the coffee container, and to keep a measuring cup in each container of flour, oatmeal and sugar. It saves time and encourages accuracy in measurements.

Tulip-Shaped Tomatoes Are Welcome for Luncheon (See Recipes Below)

MEMOS... by Lynn Chambe

Spring Luncheon

Luncheon Menu *Tulip-Tomato Salad Brown Bread-Cream Cheese Sandwiches Lemon Sherbet *Recipe Given

> Combine cottage cheese, pineapple juice and sugar. Add salt to taste. Place a mound of cheese on top of each slice of pineapple, then garnish with diamond shapes from green and red pepper. Serve on crisp lettuce with dressing.

Lynn Chambers' Point-Saving

Tea

A dark brown bread, fruity and tasty is excellent to serve with salad

luncheons. If your salad does not include cheese, serve its fragrant slices spread thinly with cream cheese and jam or make dainty little sandwiches

with butter spread thinly, add a bit of lettuce for crispness. Baked Brown Bread.

(Makes 1 14x9x2-inch loaf) 11/2 cups sifted all-purpose flour 21/2 teaspoons soda

11/2 teaspoons salt ½ cup sugar 2 cups graham or whole wheat flour

1/3 cup shortening 1 cup seedless raisins 2 eggs, beaten 2 cups sour milk

½ cup molasses Sift flour, salt, soda and sugar together. Add graham or whole wheat flour, mix well. Cut in shortening until mixture is like meal, Add raisins and mix. Beat eggs, add sour milk and molasses. Add dry ingredients and blend together thoroughly. Pour batter into a wellgreased pan. Bake in a moderate

(350-degree) oven. A lot of good quality protein, vitamins and minerals come in that neat little package, the egg! Right now you'll be finding they're plentiful, so make good use of them:

Eggs Creole. (Serves 4)

2½ cups tomatoes 1 small onion, chopped fine ½ green pepper, chopped 1 teaspoon green pepper 34 cup fine bread crumbs

cup celery 1/4 cup grated American cheese 1/2 teaspoon salt

1/8 teaspoon pepper 1 bay leaf

Cook tomatoes, pepper, onion, celery and seasonings together with bay leaf for 10 minutes. Strain, add bread crumbs. Place sauce in individual casserole dishes. Break eggs on top and sprinkle with salt, pepper and grated cheese. Bake in a moderate oven until eggs have set and cheese is melted.

Oatmeal puts plenty of vitamin B, into diets and keeps you stepping with pep and energy the day long. Try these delicious cookies:

Honey Oatmeal Hermits. 11/2 cups honey 2 eggs

3/3 cup lard or other fat ½ cup warm water 2 cups quick-cooking oatmeal 3 cups flour

teaspoon soda 2 teaspoons baking powder ½ teaspoon salt

1 cup raisins or chopped dates Cream honey and fat until smooth and creamy. Add well beaten eggs and oatmeal. Add sifted dry ingredients alternately with warm water, saving only a small amount of flour to dredge raisins or dates. Blend in fruit and mix thoroughly. Drop by spoonfuls, 3 inches apart on a greased baking sheet. Bake 15 minutes in a moderate (350-degree)

oven for 15 minutes. Lynn Chambers welcomes you to sub-mit your household queries to her problem clinic. Send your letters to her at Western Newspaper Union, 210 South Desplaines Street, Chicago, Ill. Don't forget to enclose a stamped self-addressed a stamped, self-addressed envelope for

Released by Western Newspaper Union.

Agricola

Hurrying along "K" street in Washington a few weeks ago, the cab in which I was riding narrowly escaped an accident. Somebody, absorbed in thought, carelessly stepped off the curb in front of the taxi and the driver veered sharply to the left to avoid striking him. I saw the man. He was tall, dreamy-looking, carried a big package and needed a haircut rather noticeably.

Of course, I wondered who he was: maybe a hopeful inventor going to the Patent Office with some contrivance he believed would win the war, or perhaps some learned bureaucrat pondering weighty figures such as fill the pages of the federal budget. Imagine my emotion at hearing the driver remonstrate, "Wake up, you dumb farmer! Dis ain't no corn field."

Did He Mean It?

The driver meant "lout" but he said "farmer", and set me to wondering how many people in America think these words mean the same thing. Not all of them, certainly But all too many are not aware that farming is a real art at which louts do not succeed. Not enough people realize that the farm problem ought to be receiving far more intelligent attention than it is getting. One of America's gravest dangers in the present crisis is a low appraisal of the skill required on American

The average farmer in the United States is an alert, thinking individual. Even a good farm hand is amazingly versatile. He is obliged to be, in order to do his work. Farming is a calling of many skills. A farmer does not have to be a veterinary surgeon but he must know how to breed and feed and care for livestock. A farmer need not be a graduate meteorologist but he has to know something about forecasting the weather if he hopes to succeed.

It's a Broad Field

There are many kinds of farms and many kinds of farmers but they have a great variety of fundamental, scientific knowledge in common, most of it unknown to men of other callings. In fact, one real farmer can do more on a farm than five equally strong, intelligent men who are not farmers. For this reason I honestly believe that a large per-centage of the farmers now working in factories ought to be sent back home to protect America's armed forces and the civilians, too, against a food shortage of growing serious-

The agricultural manpower problem of 1943 cannot be solved by relegating miscellaneous industrial misfits to the country. If they can't learn factory work there is no place for them on the farm. A neighbor's son, now holding a position of some responsibility in an eastern war-production plant, visited home recently and told me some things that illustrate the point perfectly. The young man is earning \$200 a month now at a job he learned in four days. His daily output was above average when he had worked there a month. Starting green, as he started factory work, it would take nearer four years than four days to learn farm-

"Incentive" Wages

He is an energetic young fellow but he can't earn \$200 a month on his father's farm; couldn't do it if he owned it. That's why he left home when his country could not rightly spare him from the farm. The food administration would have to pay him quite an "incentive" to put him between plow-handles again, I fear, although he says the country boys in factory towns are all homesick.

The food problem at a glance is this: Farmers can't net anything at today's fixed prices but they can learn in a week to earn good wages in a factory, so they leave the farms to old men and small boys who will unavoidably produce less this year than they did last, although more is needed. Farmers in the armed forces under 38 can't be brought back but those in factories can and ought to be. Somebody else can do their work in the mill but not at home.

Worse Than Nothing

Farmers have had advice enough. Texas cotton men provide an example. Lacking gin capacity they needed new machinery and more repair parts than they could get, so they inquired of bureaucracy. Don't miss this: They were told to move their gins south-to-north across the state as the cotton matured, serving more cotton with fewer gins. The expert didn't know a cotton gin was permanent as an ice plant. He was smart as his contemporary who suggested rotating shoes on horses to make them wear longer.

This country's farm problem has been badly muddled, and in part by "experts" who couldn't make a living on 1,000 acres with two county agents to tell them how. The real need is more farmers on farms. The notion that anybody can farm or do a farmer's thinking is silly and dangerous. In two years it can start our city-bred farm experts walking to the country hunting a real farmer and a square meal.

400 Billion Cost Of Hitler Lust

Commerce Department Gives Estimate of Arms Outlays And Income Losses.

WASHINGTON. - Adolf Hitler's lust for conquest has already cost the world more than \$400,000,000,-000, the commerce department estimates, and the cost may exceed \$500.000.000.000 if he is not brought to his knees for another year.

The department calculated known and estimated military expenditures to date of Germany and her victims and the nations allied against her and the loss in national income to the Axis-conquered lands.

The department estimated in the Foreign Commerce Weekly that German military expenditures since Hitler came to power were more than \$100,000,000,000, while Italy was said to have spent about \$8,000,000,-000 "since the date, June, 1940, of her deluded entry on the side of the

Our Share at Top.

A late entrant into the war against Naziism, the United States has already spent more than any other power fighting Germany, the article stated. Taking only expenditures already used or appropriated for military purposes in the last three years, the cost of Hitlerism to the United States so far was placed at \$112,300,000,000.

Expenditures by the United Kingdom since the rise of Hitlerism were estimated at \$58,200,000,000 and by Russia at \$96,000,000,000.

Estimates of expenditures by other nations included:

France (since 1932), \$10,100,000,-000; Canada (since 1939), \$4,814,000,-000; Australia (since 1939), \$1,760,-000,000; New Zealand (since 1939), \$319,000,000; South Africa (since 1939), \$541,000,000; Poland (1933-39), \$2,660,000,000; the Netherlands (1933-40), \$889,000,000; Belgium (1933-40), \$3,400,000,000; Norway (1936-40), \$93,000,000; Jugoslavia (1938-40), \$220,000,000; Greece (1937-41), \$165,-000,000; Czechoslovakia (1933-39), \$1,500,000,000.

Nazi Spends 100 Billion.

The article estimated the loss in national income in Axis-conquered lands at more than \$100,000,000,000.

"The national income of France stood at 250,000,000,000 francs in 1939," the article said. "There can be little doubt that owing to the large number of Frenchmen taken prisoners, a large number working at less than their full capacity, the national income of France has been reduced substantially since the period of the armistice of June, 1940.

"The same, proportionately, holds true of such other subjugated countries as the Netherlands, Belgium, Poland, Norway, Czechoslovakia

and Greece." With the United States planning to spend \$97,000,000,000 on the war in not counting future military expenditures by other United Nations \$500,000,000,000 as the cost of an-

other year of war and comments: "This sum is nearly three times the total monetary cost of the four years of the first World war."

Postal Courtship Reaches Its Climax in Wedding

COLUMBUS.—A two-year court-ship by mail ended happily for Harry ("Pat") Frazier, 21-year-old veteran of Coral sea and Midway battles, and the former Helen Kraft. Granted a 28-day leave after he landed in the U.S. from the Pacific, where his ship, the Vincennes, was torpedoed from under him, Frazier came to Columbus, formally proposed to the girl he had only spent two hours with, and they were married the next day.

"Pat" and Helen were introduced two years ago. Two hours later they parted, promising to write often. They did and the mail courtship progressed to discussion of marriage. He has gone back to duty as a petty officer, third class, and hopes for assignment on another cruiser.

Nazis Call Reds Unfair For Hiding Real Power

STOCKHOLM. - The German press is trying to explain defeats on the Soviet front by declaring the Russians tricked them, a Swedish

correspondent reported.

Russia's concealment of her real military power and skill in camouflage resulted in surprises for the Germans even during the second year of the campaign, the press complained. The Russians were said to have changed the names of many places, built new towns whose existence was kept secret and laid new railways that were not shown on any maps available to the Ger-

New Trench Knife Saves Vital Metal, Is Report

WASHINGTON. — A new trench knife that will kill as efficiently as the old one but conserve critical materials will be distributed soon to American troops.

The new knife is a stundy, sharpedged weapon, in appearance resembling an oversized hunting knife. One cutting edge runs the full length of the 634-inch blade; the other extends for nearly three inches from the needle-sharp point.

DETROIT LETTER

(Continued from First Page) Army Aerial Force, and as he served some years ago in the Michigan National Guard, as Supply Sergeant, the duties of his new position are not new to him,in one sense,but vastly different from those of his Guard service. He says the rats-four-legged onesmosquitos are very bad on the island where he is located. Of course our chief concern is for his safety, and sometimes it makes us feel very in-dignant that the War Department does not heed the request for help in the way of reinforcements, that General McArthur is making.

Again we notice the calling away from earth of some more of our friends of former days, one whom
Tolbert Shorb, we served with for
many years, in the old Taneytown
Band, and who was among the last to
With his arrogance so brash? throw up the sponge, when the going got too bad to keep the Band together What a weakling gods the Japs have a few years ago. In this connection, why not omit the Junior from the name of the present Band? There is Fools they are on us to war. no longer any Senior Band, and the present organization is surely the on-ly one that represents the town in the Band line. And now with a wish for a little more sunshiny weather, so that garden and farm planting may go ahead a little, I will bid you goodbye for the present

MAXIMUM PRICES ON POULTRY

Poultry raisers who sell live birds at their farms must observe the maximum prices OPA has set for the nearest city, town or village. Ceiling prices for 56 representative cities were recently issued. For broilers, fryers, roosters, and light capons the prices range from 27.5 cents per pound for Chicago, to 29.5 cents per pound for Miami, Florida.

FUEL OIL RATION

Householders in the 33 fuel oil ra-ioned states and the District of Columbia will receive their next season's ration coupons for heating oil through the mails. Approximately one-third of next season's coupons may be used beginning July 1 so tanks may be filled during the summer season. tions for smaller homes may be in-

"WAR IS H--"

Call them out-those sturdy fellows-Let them have their chance at war, Do not place barriers before them, Let them have abundant store.

Do not think our youth are softies Just because they like to dance; Give them arms and full equipment-They will 'gainst the foe advance.

'War is H-" as Sherman named it And it gets worse all the while, But the end will come, ne'er doubt it, Buck up soldier, 'gin to smile.

Whose afraid of crazy Hitler, Or that shrimp Herihito? Both are cowards and conceited, Thinking us they'll overthrow.

Just send over our Doolittle With his brains and magic touch, He will give them all they're seeking And they'll find it is quite much.

Get them Japs out of Alaska Chase them from Australias shore, Drive them from Oceanica, Trust them ne'er-nevermore.

Puncture their inflated ego, Shrink them to their proper size, Give them over to Great China, Let them be China's war prize W. J. H. 8-20-42.

They'll Help You to-

The Red Letters stand for "Y-O"-a patented product in which the strength of the vitamins in Brewers' Yeast,

Cod Liver Oil and Wheat Germ Oil retain their potency over a longer period. Every bag of Conkeys assures your baby chicks of these important A, B, D, E and G vitamins -so necessary to their health, growth and the development of sound egg-producing organs. They help to account for the amazing results thousands of poultry-men have experienced with Conkeys Y-O Feeds. Make these results YOURS - Start Right - with Conkeys Famous Y-O Starting Feeds.

AFTER you spend your ration points, banks come into the picture. We open "ration accounts" for the merchants, help them transfer the stamps up the line to wholesalers, manufacturers and others in trade channels. Like the merchant marine, or the infantry, our part is not spectacular but it's mighty important in these times.
