ANNUAL DOLL SHOW

Committee Served Cake and Ice Cream to Children

The annual Doll Show of the Playgroup was held on Tuesday evening. The attendance was excellent and those who were not present missed a truly delightful party.

The children were greatly pleased to share their happiness with the parents and other guests who came, showing their interest in the welfare of the Taneytown children.

The array of dollies was most captivating. Naturally they were dressed in their loveliest and were perfectly poised for the occasion.

Miss Janet Royer, supervisor, arranged the exhibits and assisted members of the Committee in judging. As usual, the decisions were difficult to make, as each was worthy of a prize. Awards were as follows: Kay Craig exhibited the oldest doll which was 72 years old; for the largest and most elaborately dressed doll, Barbara Eckard received a prize.

Anna Marie Reaver brought a large collection of dolls in which was found the tiniest one. Joan Cartzen-daffner brought the fanciest doll—a little bridesmaid replica. Patsy Wantz exhibited the "Dagwood and Blondy" family which took the family prize. The most unusual doll was that of Joan Cartzen-daffner, made of pearly white sea shells.

The most neatly dressed through-out doll belonged to Dorothy Ann Baker. Raggedy Ann, belonging to Anna Marie Reaver, was a prize winner.

The funniest character was, as you would suppose, a clown on a stick owned by Jean Wilson. Kay Craig brought the largest assortment of dolls.

During the evening, members of the Committee served ice cream and cookies, a treat to the children by Mr. Borenstein of the Taneytown Manufacturing Co. Each year Mr. Borenstein requests that all the children be served as much ice cream and cake as they can eat. Everyone concerned appreciates this fine act of Mr. Borenstein and the children were made very happy.

PARISH HOUSE TO BE DEDICATED

The new Social Hall of the Piney Creek Presbyterian Church will be dedicated next Friday, August 20, at 8 P. M., with appropriate ceremonies. Elder Norman R. The hall will be dedicated free of debt. This is made possible through liberal donations of time, work and money on the part of the church members.

According to announcement by Rev. Charles S. Owen, the pastor, it is expected that Brotherhoods and representatives from neighboring churches will participate in the program which will be open to the public.

Prizes for this game were donated by several different merchants. The evening came to a close following several reels of film which were enjoyed by all. The Association feels that this is the beginning of a yearly event which can be built up to being one of the highlights of our events in Taneytown.

FIREMEN'S CARNIVAL

A FINANCIAL SUCCESS

Incomplete Report Made at Meeting Monday Evening

The Taneytown Volunteer Fire Department held its regular monthly meeting on Monday evening, August 9, in the Firemen's building. The meeting was opened with the reading of the minutes.

A report was given by Mr. Doty Robb on the proceeds of the carnival which was held Aug. 2 to 7. The exact amount made by the firemen has not yet been determined. However it is evident that the proceeds will reach several thousand dollars. The Firemen wish to express their appreciation to all the Ladies and Bro. Firemen, who helped make the carnival a big success, also to Mr. Roberts our Town Police Officer and Patrolman Poteet who did such a grand job in directing traffic and keeping law and order during the week.

The ambulance committee reported 7 calls during the past month. Chief Charles Baker reported no fire calls during the past month. This is the second month we have had no calls. It just goes to show you that by keeping old paper and junk out for our garbage collector you reduce the fire hazard that cost lives and reduce our beautiful homes into piles of black useless lumber. Chief Baker also arranged to have a Donkey softball game in the near future. This is a game you can't afford to miss, the game will be played on the High School diamond on Sept. 17. Time will be announced later. The home team will be composed of citizens of Taneytown.

On August the 10th our Fire Department received a cash prize for going the longest distance to Violetsville, Md., to participate in their Mammoth Parade. The meeting was closed at 9:45 and refreshments were served.

AROUND THE TOWN

With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

Well, folks Your Observer took time out to attend the Celebration of the Rededication of the Francis Scott Key Monument at Mt. Olivet cemetery in the city of Frederick on the 168th birthday of that famous man on August 9th. The day was a delightful one and the services were at the hour of three.

I parked the old Lincoln at the entrance of the city of Frederick and walked down to the Square proudly midst all those wonderful "Grand old Flags" flying in the breeze from the pavements and the many windows.

Words fail me to convey to you just how I feel when a day like this takes place. Such a reverence for my flag as though I want to courtsey all the way and kiss each hem!

The windows were decorated with old relics and clothes for the occasion which I took time to view after the services were over.

I hailed a taxi at the Square and, folks I won't write the exorbitant fee that taxi fellow charged me to drive those few blocks out to the cemetery!

However, upon entering after showing my credentials, I was seated on the "inside of the ropes" right next to the platform where the important individuals were seated.

The General Chairman was Mr. C. Cyril Klein and he surely knew how to arrange that interesting short programme to the point.

Presiding was Hon. J. Glen Beall, Representative of the 6th Congressional District of Maryland.

There was prayer by Rev. Henri L. G. Kieffer, D. D. Then Hon. Jesse M. Donaldson, Postmaster General presented the great grand-daughter Miss Louise Pauline Blunda of Francis Scott Key with the first postage stamp (representing the children of the United States) and also to Hon. Wm. Preston Lane, Jr., governor of Maryland. Our governor surely made a lovely speech from inspiration (not from the usual procedure as to a written outline). Folks, I must write that there is nothing artificial about that grand daily smile of our governor which is most sincere and wholesome.

Miss Lucy Monroe sang the National Anthem as only she can sing it and which she sang more than 2,500 times in all parts of the world. Never has her voice been in finer form than before that monument.

As all of you know, it was the year of 1814 when that famous poet and citizen wrote The Star Spangled Banner and it was fifty years ago that the dedication of the monument to Francis Scott Key took place.

There were several prominent citizens of Frederick present at that time and who were introduced to the audience.

The closure was the playing of the Post Band (Quantico Marine Corps School) under the direction of August Olaguez.

Your Observer saw the former Senator Radcliff on the platform and wedged my way over for a handclasp and at the same time shaking hands with our Governor, after introducing myself. His handclasp was as sincere as the man behind that wonderful smile.

Upon leaving the cemetery, I boarded the town's bus to the Square and walked in the direction of the car and stopped to take in all the windows for the displays.

The one that really appealed to Your Observer more than any other was the windows of "Sears-Roebuck Co." which was arranged by the D. A. R. of the Frederick Chapter. The window was carried out as to the supposed living room of the sister of Francis Scott Key, Mrs. Anne Key Taney. She and her friend were supposedly standing before the melodeon, dressed in that period and the melodeon had exactly four octaves. Upon the sheet music ledge was a music book opened to the page which read, the music to "The Grave of Bonapart".

On the window of the store was pasted the following poem which was written by Francis Scott Key in memory of his departed sister. How wonderful it would be, folks, if all sisters and brothers were like the following.

TO ANNE KEY TANEY

I think of thee—I feel the glow
Of that warm thought—yet well I know

No verse—a brother's love may show—
—My sister.

I think of thee—of those bright hours

Rich in life's first and fairest flowers

When childhood's gay delights were ours, my sister.

My sister! whose bright days are gone

And we thru life have journey'd on

With hearts which still, as then, are one, my sister.

So long, folks, have a grand week end. Will be seeing you next week.

COMMUNISM

Once upon a time there were two communists—one a lecturer the other a faithful follower. On one occasion when the lecturer gave a soul stirring lecture for which he received \$25.00, his young friend accompanied him. On the way home the young man said to the lecturer that was a fine lecture you gave, your idea of a division of all property seemed to strike all present as the right thing to happen. Yes continued the lecturer and I believe every word of it true.

You got, said the young man, \$25 for the lecture.

Well, I have \$5.00 and you \$25 so let's put our money together, then we will have \$30 to divide, and you will have \$15 and I \$15.

No said the lecturer, I earned that money myself and I am going to spend it and enjoy it myself. That story it seems to me fits the Communists in practice to a T.

Communists are active and alert. When communism overthrew the Czarist regime in Russia there were only about one in 3000 of the citizens of Russia, yet they succeeded, and now we have Josef Stalin and his gang ruling all of Russia.

The proportion of Communists in the U. S. A. at this time are as numerous as they were in Russia at its overthrow. American citizens must be alert or the Russian scheme will succeed.

I have no sympathy for malifactors of great wealth but also believe that every man is entitled to enjoy the fruits of his labor. We are not by any means perfect but we are to date the best governed of any people in the world. But to renounce eternal vigilance is the price of our liberty.

"VICIOUS LIBEL"

The government, in the course of a suit against the railroads for alleged overcharges on freight shipped during the war, has attempted to belittle and discredit railroad men who were charged with the tremendous responsibility of superintending a task of unprecedented scope and difficulty. This attempt has been characterized as "vicious libel" by the president of the Wilwaukee Road, who then gave some facts on just how the war freight was handled.

At the request of the government itself, a committee representing the railroads was established. This committee worked with government agencies to establish rates, and its function was approved by the assistant attorney general in charge of the anti-trust division. In no case was the rate charged the government higher than that charged commercial shippers, and in most cases it was substantially less.

In many cases the government rate was as low as 50 per cent of the going commercial rates. And in every case the rate met with the approval of government officials.

On occasion, the large gross revenues earned by the railroads during the war are cited as evidence of excessive rates. What those revenue figures do not show are the heavy taxes and operating costs of the period. The railroads' net return on investment during 1941-45 was actually less than 5 per cent.

For some mysterious reason, an industry which performed miracles in the support of the allied war effort is now being vilified by the government which agreed to rates which it now questions. The people should know the truth.—E. H. S.

THE EDITOR'S STAKE

A free press is made possible by advertising—a thousand and one different advertisements of industries seeking to sell their wares or services to the public.

From such a field in which to seek business the press of the United States can maintain its financial independence—the smallest country weekly or the greatest metropolitan daily has an equal chance.

Such financial independence means editorial independence. American newspapers are not creatures of government as in dictator countries where they are controlled and subsidized. They are not afraid to criticize government, public officials or business.

There can be no free press or individual opportunity without private enterprise.

Communism and socialism kill free enterprise and personal liberty because under such political systems government owns industry, including newspapers, and the individual.

American editors are against communism and socialism, first, because such governmental philosophies destroy a free press.

Any successful move to socialize an industry in the United States, undermines by that much, personal liberty, the foundation of a free press, and the unrestricted opportunity of individuals to choose a line of work or an employer. Under socialism and communism you work for the state and like it, or else.

This is why individuals and newspapers wishing to retain their independence should oppose government ownership of business in our country while they have a chance. Don't be lulled into a false sense of security by thinking it can't happen here.—Industrial News Review.

Furacin Is Effective In Coccidiosis Control

New Chemical Proves Valuable to Poultrymen

Animal health, already in debt to human medicine for some effective help, now must acknowledge further aid from the same source. The thing for which acknowledgement is due is a drug called furacin.

Natural source of this drug is oat hulls, corncoats, bran and similar farm wastes. It is one of the furfural series of chemicals, some of which are used in trades and industry.

In the very first trial with coccidiosis of chickens, furacin demonstrated that it was equal to the well-

known sulfa drugs in stopping losses. Further research proved that the drug is generally less toxic to chickens than the sulfa drugs, and that the growth of treated chickens is not retarded as much as in the case of those which have been treated with sulfa.

This chemical is as yet available only in small quantities, and still is high in price. Even so, the amount required to be effective against coccidiosis is so small that the cost of treatment is less than with the sulfa drugs. Before long, products containing this new chemical will be available to poultry raisers on a less limited scale.

DDT Emulsion Controls Flies in Poultry House

Spraying a 1 per cent DDT emulsion on poultry manure two days before the manure was removed from the dropping boards, which were cleaned once a week, gave 100 per cent fly control at the Hawaii agricultural experiment station.

The emulsion was applied at the rate of one pint per 30 square feet of area.

The addition of lime twice a week to the manure before use of the DDT treatment reduced odor and moisture and reduced the number of flies, but apparently decreased DDT efficiency, in the opinion of poultry specialists.

All-Time Champion

Above is Bess Skylark Ormsby Dora, 2388170, new all-time champion junior four-year-old Holstein for the United States, being milked three times daily. With her, on the last day of her record-smashing 365-day period, are left to right, three generations of her owners, G. F. Walters, Waterloo, Iowa; his son, Harold Walters, and his grandson, Robert Walters.

2,4-D Formulas Classified In Three Major Forms

Since 2,4-D itself is insoluble in water, it is made soluble by treating it with other chemicals. This results in the manufacture of many formulations, all of which can be classified as ester, amine or sodium salt sprays.

Ester, amine and sodium salt dusts also are manufactured. The ester and the amine sprays are produced in liquid form, the sodium salt spray as a powder and the others as dusts.

The 2,4-D chemical is used extensively as a weed killer.

Zinc Coating Provides Protection From Rust

Ten year tests at Indiana indicate that wire having less than a half ounce of zinc coating for each square foot of wire surface had 100 per cent of the surface rusted during the period. Samples having more than one ounce of zinc coating showed no rusting. Stainless steel and copper clad samples showed no rusting. Lead clad samples showed a third of the area discolored.

FEESERSBURG

On Monday, along with several thousand other interested visitors, we witnessed the rededication of the 50-year-old Francis Scott Key monument in Mt. Olivet cemetery at Frederick. This was a part of the celebration in honor of the author of the "Star Spangled Banner" and also as the new stamp in his honor went on sale for the first time. This twin celebration came on the birthday of Key who was born 168 years ago in the mansion at Terra Rhuba now located in Carroll County. Jesse M. Donaldson, Postmaster General presented Gov. Lane with an album of the first 50 Key stamps run off in the issue. Frederick had dressed itself up for this occasion. Strings of bunting were strung along the downtown streets and flags decorated lamp posts and homes. Many store windows had displays of antique furniture and costumes of colonial days. Memories of half a century ago were revived for several of the guests of honor who sat under the awning of the speakers platform as they had participated in the original dedication. This group included J. W. Carthy, Mrs. Susie Ramsburg, Miss Estelle Castle, Miss Mary C. Ott, who incidentally taught my husbands in school and Dr. T. S. Eador. Like the doubt that surrounds the Barbara Fritchie flag waving incident in the Civil War, there is some controversy about when Francis Scott Key was born. One of the men who revived the campaign to build the monument for Key in the late 1800's was Folger McKinsey, now known as the Bentz-town Bard and who at that time was Editor of the Frederick News. One of the highlights of the rededication service was the singing of the "Star Spangled Banner" by Miss Lucy Monroe. The school children of the United States are really the ones who built the monument in honor of Key; for it was their donations of nickels and pennies that paid most of the expense. I always enjoy returning to Frederick for it has a quaint charm which attracts the visitor to wander up its quiet streets and visit its historical shrines. It is as if the town reluctantly saw the days of the Civil War pass and hesitates even now to live in the modern present. Here one can find tranquility for Frederick lacks that hustle and bustle which one finds in most towns its size.

Mt. Union Sunday School will hold its annual picnic Monday evening, August 16, at Rocky Ridge Park.

Many farmers from our community are planning to attend the Trasher farm face-lifting in Frederick county. Visitors are expected and elaborate plans have been made to feed and handle the crowd. The purpose of this project is to interest and educate the armers here in the State in soil conservation and better arrangement of fields in relation to crops. The tillers of the soil have just begun to realize how serious soil erosion and bad farming can be to the future of our land and country. Few people realize that the population of the world has doubled but the amount of land to feed them on is constantly getting smaller due to misguided use. It takes a couple thousand years to produce one inch of top soil and yet one heavy rain on an unprotected field can wash that one inch down the creek in an hour. Unless we want our beautiful land turned into a desert and some future generation to starve for lack of land to raise food on, all of us must get interested and do our part in preserving the soil, forests and other natural resources.

Raymond Angel and son, John, of Catonsville were visiting in the community Sunday. They attended services at Mt. Union Church and at the request of Mr. Angel, the church organist, Mrs. Blaine Broadwater played his favorite hymn, "Holy City." Later they called at Grove Dale to visit with Miss Sue Birely who has been ill with a severe chest cold.

Mr. and Mrs. Clarence Myers and two children, of Baltimore, visited Mr. and Mrs. Russell Bohn over the week-end.

It's a wise woman who can recognize essentials from non-essentials and govern her life accordingly. No two have the same idea of what is essential. A friend of mine, confined in bed by illness, found her family carrying on so well without her she wondered if all the things she had been doing were really necessary. A rested mother and wife who takes time to laugh at her husband's jokes and read to the children, is worth a hundred who are nerve-frayed and snappy from trying to keep the house in apple pie order. Take time for an apple and time to look your best. After all that husband was worth getting; keep him pleasant with his bargain.

Visitors at Merry Knoll over the week-end were Mr. and Mrs. Amos Heefner, of Highspire, Pa. and Mrs. John Dintaman, of Brunswick.

Mr. and Mrs. Lewis Leitz had as their Sunday guests their son and grandson, of Baltimore.

Mrs. Charles Gardner, of Blue Ridge Summit, called at Grove Dale Sunday afternoon while her husband took in the local baseball game.

If the new minister and his wife come to call when you're canning, it's the welcome that counts; not the dust on the furniture. Invite them out where you are packing corn in the jars, send some home with them, and don't apologize. Long ago as a town girl, I was going with a wise aunt of mine to call at a farm. She said, "they will be dressed for their work." I have now been a country woman

for twelve years, and have learned what she meant.

A pious, but spiteful woman was quite put out because her neighbors hadn't invited her along on their summer picnic. On the morning of the event they relented, however, and asked her to join them. "Humps!" she snapped, "It's too late now, I've already prayed for rain."

FRIZELLBURG

The Youth Community Club met at the home of Mr. and Mrs. Walter Myers, Jr., on Friday evening. Howard Reichard, Jr., presided at the business meeting. All the members enjoyed a scavenger hunt and upon their return to the house refreshments were served.

We are glad to say that Mrs. Emma Rodkey who is a patient in the Maryland General Hospital, Baltimore, is getting along fine.

Mr. Luther Zimmerman called at Walgramer on Tuesday afternoon.

Some time we get discouraged in doing Missionary Work and then along comes a letter from far off Germany to put us on the right road.

Some months ago our ladies of the Missionary Society of Baust Lutheran Church met to pack boxes of used clothing. In the sleeve of dresses and coats I gave, I pinned my name and address and this morning I received a letter, written in German hand writing. Of course it was all dutch to me. Fortunately our next door neighbor Mr. Eric Kamins could translate the letter for me, and it reads like this:

"Eisenberg, July 25, 1943.

Dear Friends:

We thank you very, very much for the useful dear present which we received through the Protestant Welfare Organization. We are very poor people and have only the bare necessities. If it is possible again we will be very, very grateful for any used clothes you may not need. We are a family of five people. Thank you in advance for any consideration. God bless you for this. Best wishes from the heart,

Frederick.

Also included in the letter was a beautiful book mark which read, "The God loveth all in Him who believe." Signed

Some of our folks attended the 72nd Dutch picnic on Saturday and enjoyed the good fried chicken and ham supper, benefit of Trinity Lutheran Church at Smallwood. A large crowd witnessed the riding tournament in the afternoon. The Taneytown Band furnished the music.

Miss Jean King visited her uncle and aunt, Mr. and Mrs. Ralph Dutcher the past week.

No services in Baust Reformed Church, on Sunday.

The Never Weary Class of Baust Lutheran Sunday School held its regular meeting at the home of Mr. and Mrs. Edwin Hull, New Windsor with 29 members present. The leader Mr. David Starnier presented the topic of the evening, "My Older Brothers and Sisters Do their Part."

The business meeting was conducted by Mr. Edward Haffley, President. A letter of thanks for fruit and a gift was read from Helen Marker. It was decided to hold a food sale at the public sale of Mr. Edward Donnett, on Aug. 17. The proceeds to go toward the Memorial Fund. A motion was made to contribute \$100.00 to the Church Improvement Fund. A chess picnic is planned to be held at Harvey Stone Memorial Park Sept. 12. Following the closing prayer delicious refreshments were served by the hostess.

Mr. Hyson was widely known as an educator and held the place of Superintendent of Schools in Baltimore County at the time of his death. Before going to Baltimore county, he held a similar position in his native Carroll county.

WILL INSTALL BRONCHOSCOPY AT HOSPITAL

The Warner Hospital Auxiliary announced plans for a benefit card party and dance to raise funds to equip a new department of bronchoscopy at the hospital.

Diagnostic and therapeutic instruments for the new department which will "round out" hospital services here beyond a point reached by any other hospital in this section will cost about \$1,200. The Auxiliary has adopted the raising of that sum as its new project.

The benefit dance and card party will be held in the recently re-decorated Moose home and Mrs. Elmer W. Warren, chairman of benefits for the auxiliary, said today she will announce Saturday her list of committee and community chairmen for the event.

The local committee for tickets is: Mrs. Elwood Baumgardner, Mrs. James Baumgardner, Mrs. James Burke, Miss Mildred Carbaugh, Mrs. Theodore Jester, Mrs. George Dodder.

Warner hospital officials disclosed that the staff there has approved the admission of Dr. John T. Szyplski, an associate member of the staffs of the state hospitals at Mont Alto and Hagerstown, as bronchoscopist for the Warner hospital.

Dr. Szyplski, who also is bronchoscopist for the Harrisburg Polyclinic hospital, will be on call for emergency duty at the hospital here. He also is trained in chest surgery.

It was pointed out that when the bronchoscopic department is available here many cases can be handled that previously have had to be rushed to Philadelphia or Baltimore hospitals. The recent case of Shirley Gastley who drew a straight pin into her lung could have been handled here had the hospital possessed the equipment the auxiliary has now undertaken to supply, Mr. Doud explained. As it was the girl had to be taken to Philadelphia.

The auxiliary most recently completed project was the equipping of the new kitchen at the hospital at a cost of about \$6,500. The organization supplied new gas ranges, a deep freeze unit, three new sinks, new lighting, a mixer and a steam table for the kitchen.

AN INCOMER'S OUTGOINGS

On the Pacific highway, today, between Salem and Creswell, Oregon, a distance of 85 miles, cars from 13 other states were observed: Arizona, Arkansas, California, Georgia, Idaho, Iowa, Massachusetts, New York, Ohio, Oklahoma, Texas, Washington, and Wisconsin. A few days ago, a car bearing North Carolina tags was seen parked on State Street in Salem. I have not, as yet, seen any from Maryland.

Below are given a few points of interest in Salem, the capital city of Oregon:

1. The Marion County Courthouse, erected in 1872, constructed of stuccoed brick, of French Renaissance design, with a mansard roof. A conventional figure of Justice with scales and a sword surmounts the high front cupola.

2. The Federal Building, which houses the postoffice, is constructed of Vermont marble, with a California granite base. The grounds are beautifully landscaped.

3. Willson Park, bounded by Court, State and Cottage Streets, with its towering shade and ornamental trees many of them cuttings of historic trees, was the gift of Dr. W. H. Willson, early Oregon missionary.

4. Sequoia Park, only 150 square feet in area, contains a single redwood tree, 80 feet tall, planted by William Waldo in 1872.

5. The State Office Building, erected in 1914, houses subordinate state officials. It is a five story Neo-Classical structure, embellished with Doric pilasters and rusticated stone work.

6. The State Supreme Court Building is occupied by offices and courtrooms of the state Supreme Court and the offices of the state superintendent of public instruction. The Neo-Classical structure, three stories in height, is constructed of marble with engaged Ionic columns on each facade.

7. Willamette University, founded as Oregon Institute in 1842, is the oldest institution of higher learning in the Pacific Northwest.

8. Federal Art Center was established in 1937 by a Salem citizens' group in cooperation with the Federal government, is housed in the old Salem high school building. The program being carried out by the sponsors includes a free art school, public school and library extension work, art library and reading room, lectures, and exhibitions of the work of American and foreign artists and students.

9. Oregon State School for the Deaf was established in 1870, and educates deaf children between the ages of six and twenty-one.

10. The Oregon State Hospital for the Insane was established in 1880. Flower-bordered drives lead to the buildings and through the grounds. Twenty-five hundred patients are cared for, many of whom work on the Hospital farm a few miles south of the institution.

11. The State School for the Blind was established in 1872 in a private residence, it has occupied its present quarters since 1892. It is conducted as a free boarding school for blind children, and its courses meet college entrance requirements.

12. The State Penitentiary is a buff-colored building and was erected in 1866, and is noted for the development here of the Oregon flax industry, an enterprise started in 1915 to furnish non-competitive labor for prison inmates. The penitentiary has the largest scutching plant in the United States and the largest single acreage of flax in the world. A lime plant grinds fertilizer that is sold to farmers of the state at cost.

More to follow.

BOARD OF EDUCATION MEETS

The office of the Board of Education announces that plans are under way for the opening of the Carroll County Public Schools on Tuesday, September 7th. Teachers and principals will meet for a general meeting at 9 A. M. in the Westminster High School on Thursday, Sept. 2nd. Following this meeting and on Sept. 3rd teachers will report to their respective schools for purposes of organization. Monday, Sept. 6th will be a legal holiday and the schools will be ready for opening on September 7th.

In order to accommodate a record enrollment school officials have planned for certain changes in school transportation as follows: (1) Elementary pupils north of the Liberty road including the boys in the Elementary school from the Strawbridge Home will be transported to the new school at Mechanicsville. On the return trip the bus transporting these children will pick up high school children for the Sykesville High School over the same route. (2) To partially solve a serious crowded condition in the Manchester school, the pupils living in the Maple Grove area will be transported to the Hampstead school instead of to the Manchester school. (3) Certain adjustments will be necessary for elementary pupils on the Pleasant Valley road. A number of these pupils will be transported to the Westminster Elementary School instead of to the Charles Carroll School. Parents of the pupils in the Pleasant Valley area will be notified as to what school their children are to attend. A temporary portable building is being erected on the grounds of the Westminster Elementary School to accommodate an increased enrollment at this school. A temporary room is also being provided at the Westminster High School to take care of an increased enrollment. Bids will be opened by the Board of Education at its meeting on August 17th for the construction of a consolidated high and elementary school for colored children in Westminster.

Considerable difficulty has been encountered during the summer by school officials in recruiting qualified teachers for the school positions in the county. Several major changes in the administration have taken place due to the resignations of people in administrative positions. (1) Mr. Willard L. Hawkins, Principal of the Sykesville High School who re-

signed recently to accept the principalship of the senior high school in Cambridge, Md. Mr. Hawkins has been a principal in Carroll County since 1925 and has during this time been principal of the schools at Winfield, Manchester, New Windsor and Sykesville. He is just completing his second year as the principal of the Sykesville High School to which position he was named in 1946. Mr. Hawkins has served faithfully and efficiently in the schools of the county and his departure will be seriously felt in school administration. Mr. Hawkins has held several important civic positions during his time in the County. He is past president of the Westminster Kiwanis Club and an active member at the present time in the Sykesville Rotary Club. During his time as school administrator in the county he studied law and was admitted to the Carroll County Bar. His position as a principal of the Sykesville High School will be filled by Mr. Ivan R. Manifold, lately Supervising Principal of the New Oxford High School District in Pennsylvania. (2) The position as principal of the Elmer Wolfe High School, vacated by M. Carey Dacey who resigned to accept a position as High School Supervisor in St. Mary's County, Md., will be filled by Mr. Dean Manifold. Mr. Manifold has been a high school teacher in Prince George's County and comes to Union Bridge to accept his first assignment as a high school principal. Mr. Manifold is a graduate of the Millersville State Teachers College, Millersville, Penna., and has done graduate work at the University of Maryland to earn his master's degree. He served two years as a teacher in Hopewell Township, York County, Penna., and two years in elementary work in another assignment in Pennsylvania. He has been a high school teacher in Cooper Township High School, Clearfield County, Pennsylvania for five years and has had a number of years experience as a teacher in the high school at Greenbelt, Prince George's County, Md. He served in the Army for forty-five months during the recent war. Resignations occurring in the teaching force in this county during the spring and summer have been occasioned by transfers of teachers who wish to move to serve in other counties and by the resignations of those who were attracted by higher salaries being offered in other Maryland counties. Replacements have in every case been made by the employment of qualified teachers where these were available. Serious shortage of trained teachers existed in the elementary schools and considerable difficulty was experienced in locating persons qualified to carry on the work of the elementary school. New teachers named in the county were secured from various sources throughout the area.

A full list of teachers for each school will be announced following the meeting of the Board of Education on August 17th.

A repair crew has been at work throughout the summer in repairing the buildings and placing them in proper condition for the conduct of school. Meetings prior to the opening of school have been announced by the Superintendent's Office as follows: (1) On Friday, August 20th, the Administrative and Supervisory Staff will meet for purposes of planning in the Office of the Board of Education. (2) On Monday, Aug. 23rd, the high school principals will meet for a professional meeting for discussion of plans. (3) Friday, Aug. 27, a meeting of elementary principals will be held for the same purpose. The regular meeting for bus drivers will be held on Monday afternoon, Aug. 30th at which time problems of safety in school transportation will be discussed. The regular bus inspection will be conducted on Tuesday, Aug. 31st, and Wednesday, Sept. 1st. On the 2nd and 3rd, the principals and teachers will organize for work in the school buildings of the county and on Thursday morning, Sept. 2nd, a general meeting will be held in Westminster of all teachers. Parents having questions regarding the organization of schools and other problems relating to the enrollment of pupils are requested to contact the principals of the schools in the various communities.

JUST LIKE HIS DAD

Well, what are you going to be, my boy, when you have reached manhood's years—a doctor, a lawyer, or actor great, moving through to laughter and tears?

But he shook his head as he gave reply, in a serious way that he had: "I don't think I'd care to be any of them—I want to be just like my Dad!"

He wants to be like his Dad! You men, did you ever think, as you pause, that the boy who watches your every move is building a set of laws. He's moulding a life you're the model for; and whether it's good or bad depends on the kind of example set to the boy who'd be like his Dad.

Would you have him go everywhere you go? Have him do just the things you do? And see everything your eyes behold, and woo all the gods you woo? When you see the worship that shines in the eyes of your lovely little lad, could you be content if he gets his wish, and grows up like his Dad?

JINX? HA!

Friday the 13th Is Big Fake

You, too, can have a safe and sane August 13, which just happens to turn up on a Friday this year. It is a matter of undeniable statistics that the combination of the day Friday and the date 13 definitely does not deluge the world and its citizens with any evil, unworlly influence. The belief that it does is a morbid hangover from the Dark Ages.

Three hundred and sixty major ship disasters are on the books for the 110 years between 1833 and 1943, but only two can be linked to Friday the 13th. It was a tornado in 1945 which howled through Oklahoma, Arkansas and Missouri. And even that began on Thursday, April 12, and extended into the theoretically unlucky date next day.

There have been more than 30 major plane crashes since 1941, but none of them occurred on a Whammy Friday. Interstate commerce commission bureau of safety lists 50 major train wrecks in the United States between 1876 and 1947. The only one hitting the jinx day was a wreck at Guthrie, Ohio, on December 13, 1946, in which 19 persons lost their lives.

None of the world's great recorded earthquakes took place on Friday the 13th. And that fact is really a blow to the superstition that tragedy strikes on that day, because the list of quakes includes events of such massively lethal proportions as the September 27, 1290, temblor at Chihli, China, in which 100,000 were killed, and the January 24, 1556, earthquake at Shensi, China, which brought death to 830,000 persons.

person would claim that the day has a monopoly on little unpleasanties such as these. Friday the 13th is, briefly, just another week-day, and history proves it. Take a look at the record: Of all the major disasters in this country since 1865—including torna-

Andrew, The Man Who Brought Others

Lesson for August 15, 1948

MEET Andrew, brother of Simon Peter, fisherman of Galilee. Follow his career and you will account him one of the truly great men of the ages, chiefly because he was ever alert to help men on to God. He was always introducing his friends to Jesus.

There are many passages of scripture cited for this study, with the devotional reading in Luke and the Golden Text from John 1:42: "He brought him to Jesus."

WHAT ANDREW TOLD HIS FRIENDS

WHEN Andrew met Jesus, and discovered in him the Saviour of men, he went and found his brother, Simon, and said unto him, "We have found the Messiah, which is, being interpreted, the Christ," John 1:41.

What do we tell our friends? Do we not delight to tell our friends what we have found to be good? This was the mission of Andrew—telling his friends about Jesus, for he had found in Jesus that which was good. John the Baptist had told Andrew about Jesus, and he was determined that he would tell everyone who would listen to this good news.

HOW ANDREW KNEW ABOUT JESUS

ANDREW got his impressions of Jesus firsthand. When he heard John the Baptist say, "Behold the Lamb of God that taketh away the sin of the world," he went on to inquire about Jesus, and Jesus bade him and John spend the day with him. They did, from 10 o'clock in the morning until late afternoon. That was enough. Andrew knew from that day about Jesus. He was now ready to tell others what he knew about Jesus.

Do we know Jesus well enough to tell others about him? If a fisherman could tell the story effectively, cannot everyone? But let us remember this, no man can introduce his friend to Jesus until he himself knows Jesus.

THE MAN WHO BROUGHT OTHERS

LET'S look for a moment at some of the people Andrew brought to Jesus. We begin, of course, with Simon, his brother. Here, I think, is the highest test of his ability to tell others about Jesus—bringing his own brother. It is often easier to tell strangers about Jesus than those of our own family.

And now we see Andrew yonder in the multitude, finding the lad with the loaves and fishes, and bringing him to Jesus. That is the test of seeing the right person at the right time. And again this is the acid test of introducing people to Jesus.

Again, we see Andrew sensing the fact that some young Greeks had come a long way to see Jesus. He knew how to help them. In this incident we see the final example of winning people to Jesus—cultured Greeks, who were familiar, we may assume, with the current thought of the world. But this simple fisherman of Galilee knew how to approach them, how to gain their attention, how to bring them to Jesus.

THEY WAIT FOR THE ANDREWS TODAY

THE world waits for some Andrew today. I fully believe that most people could be won to Christ if only there were enough Andrews. Rarely have I had a person to repel me when I faithfully followed the leading of the Holy Spirit to speak to such person about Jesus.

Andrew did not rely upon his own resources. He went in the might of the Lord. He knew what Jesus had done for him. He yearned to see all men enjoy their blessing. He was a simple messenger—a voice.

And God gave him words—words that fell like good seed into fertile soil. So may we today introduce our friends to Jesus. Only let us remember this—we must first know him!
