BOY SCOUTS ACTIVITIES Collection of Waste Paper

will be made Saturday

The Scouts of Troop 348, Taneytown, will have a paper collection on Saturday, November 20, for which they again bespeak the usual splendid cooperation of townspeople, who are asked to place it out on the doorstep. In the event of unsuitable weather, a

later date will be announced. Members of the Troop committee, and Commander of the sponsoring Hesson-Snider American Legion Post, Neal W. Powell attended the Carroll District Boy Scouts dinner on Monday, where final plans for the financial campaign were among the items considered. Scoutmaster of Troop Board of Directors, President Merle Ohler presented this question.

By far the biggest item on the winning schedule, however, is an Amateur Night, to be held at the High School, December 2, a Thursday, with Vice-President Robert Thomas serving as general chairman.

As a result of last week's deliberations, compass and map work was agreed upon as November's theme, the presentation of the first portion to be held by the Scoutmaster, with Patrol Leader, Andrew Alexander and Assistant Patrol Leader, Robert Harner to handle the pre-meeting games. They selected swing the rope and pingpong, which both arounsed considerable enthusiasm. There was quite a satisfactory response to the direction-finding program, Assistant Patrol Leader, Jos Wilson explaining some compass uses. Dues were handed over to Wil-liam Slaybaugh for verification after patrol sessions, where compass points were brushed up on in preparation for the "Spot your Direction" game which tested their retention. The Pine Trees, led by Stanley Frock, had

a slight edge over the other.

Towards the close of the meeting an excursion outside to see what stars would provide directional information gave also a breath of fresh air, and arrangements were made to collect the cancer committees coin cans, which have been out for some little while in public places. Since the Pine Trees has placed them, Joseph Wilson of the Foxes volunteered to gather them in.

The meeting was closed by Stanley Frock, who called on Philip Lawyer to lead in the Scout Law. Future Scout meetings contrary to a previous announcement, have been set ahead to o'clock, each Monday evening.

The paper collection Saturday will begin at 9:30 A. M., with the assistance of the Reliable Junk Co., Fred-

Following the afternoon devotions, Mrs. Frederick Reissig, of Washington, D. She vividly portrayed to the assemblage the picture as she saw it. Greatly impressive to her was the "March" of the delegates, two by two, from the different nations of the world, in their respective native garbs-ranging from the extremely elaborate to the very simplest form of dress. Naturally many tongues were represented which necessitated many inter-

The theme used at this great conference was "Man's Disorder, and God's Design for the World." Mrs. Reissig was moved by the ideas expressed among the youth present. She said they questioned "so many different denominations with but one God." To her that was significant and something for all to ponder. Following Mrs. Reissig's address Miss Helen Lawson entertained by showing pictures on screen, photographed by herself, in her work as a Mission-ary to Liberia, Africa, which concluded the conference sessions. Thanksgiving is surely in the atmosphere. The other day I was talking to a

If so, girls and boys, do something about it right now. I think it would be 'nice to be nicer' in your home for after all you live with those individuals and anyway why can't you be nice in both places, at home and in other homes?

Your Observer has a beautiful picture which I cut out of a magazine over 15 years ago. It is a growing boy's picture with his father and on the back in printed, "Be good, son, and make my heart glad". It is in a narrow gilt frame and at the time I pleased it on the years of the sales. placed it on the wall of the eldest boy's room. It is still in his room. Try, boys and girls, to be fine in your own home and you will see what a delight it will be to your mother and father just to have you around. I think you know what I mean.

Would have written down his ligence number but it was a supplying the same of the same o license number but it was not re-cognized due to the mud of that rainy day. It did much for her although she has always appealed to Your Observer in many ways since the first time I met her three years ago. Ever listen in to those wonderful girls and boys of "Jr. Town Meeting of the Air"? Surely will interest you the topics they discuss and it will

THANKSGIVING

Thanksgiving Day should be a day set apart to give thanks to Almighty God for the many blessings received during the past year.

The day is a peculiar American day now being copied and followed by many other people of the world. For life, liberty, health, happiness, and especially for the abundant prosperity we enjoy. These are things especially to be thankful for. But we should also remember that there are many among us not so fortunately circumstanced, and to these should allow our bounty to be bestowed.

It seems to me sometimes that our prosperity and greatness stems largely from one devotion to God. All peoples are religious, but none more so than are the American people.

For years it has been my custom to seek donations for the United Patriotic Home of Baltimore, and I repeat the same this year. Any gifts of fruit, vegetables, clothing, or money will be turned over to that home. Let us be thankful and do our W. J. H.

THERE'S A LIMIT

One wonders just how far the Federal government can go in supporting the citizens of this country.

According to the Chicago Journal of Commerce, one out of every six adult Americans is now receiving money from the U.S. Treasury. This includes Federal employes, war veterans and dependents, retired civil service employees, social security beneficiaries, and so on. And the total tends to steadily increase.

If those who wish to extend social security to cover every possible human financial problem from the cradle to the grave have their way, it won't be long until the Federal government will supply all or part of the livelihood of practically everyone in the country. The drive for compulically, it would be paid for by a payroll tax. Actually, in the view of property: experts, the proposed tax would be inadequate, and heavy appropriations would be necessary to make up the deficits. Then, on top of that, it would create one of the largest bureaucracies in the government to handle the administration of the measure. Thus the army of regular Federal tax-eaters would be swollen once more-and once/more the taxpayer would dig into his depleted pocketbook to pay the bill.

Social security, indeed, can be made so costly that it would destroy the security and future of everyone. We have gone a long way toward that point.-Industrial News Review.

Sate., in Driving

One of the simplest ways to prevent automobile accidents is to drive a car that's kept in safe operating condition. Equipment items suggested as having special relation to safety are: headlights, tail and stop lights, brakes, tires, windshield wipers, steering and wheel alignment, the muffler and exhaust system, the windshield and other glass, the rearview mirror, and horn.

Black Widow Spider

Black widow spiders are found in all parts of the United States. They are jet black with a conspicuous, orange-colored hour-glass marking on the under side. The bite of this spider causes extreme cramp-like pain and muscle rigidity. Death is reported in about 4 per cent of cases.

Jesse James Rides Again-Behind the Wheel of a Car

ATLANTA, GA. - Jesse James Roberts-and it's his real namewas jailed and police said he revolutionized the car-thief business as much as his namesake did the bank

and train racket. Roberts, 240 pounds and six feet three inches, was said to have confessed stealing some 60 automobiles in south Georgia towns and cities. He realized around \$100,000 from | black their sale to Atlanta used car deal- hogs.

Roberts' plan of operation, police said, was this:

bargain-rate-license tags, giving a car make and any set of engine numbers. Then he would set out in a large red van to find a car that would fit the license.

He picked up cars in the early evening, parked outside churches on prayer meeting nights, or theaters. Driving them into the van, hidden on lonely roads or in woods, he would listen to the state highway patrol radio as the dragnet was cast for him.

The confession said Roberts would wait until patrol cars had reported failure, and the case was slacked. Then he would drive to a woods near his home, roll the car out and head for his basement garage.

There officers found several sets of dies for changing engine numbers to fit those he had given on the license application, blank bills of sale, and a stock of license tags.

Former Home of Circus Giants Will Be Demolished by Owners

MEDINA, OHIO.—Plans are being made to raze one of near-by Seville's oddest landmarks, a 14-room mansion built 70 years ago to fit two circus giants.

The curious old home was constructed for Capt. Martin Van Bates and his wife, Anna. Both were nearly eight feet tall and weighed more than 400 pounds. They were ballyhooed throughout the world by the late P. T. Barnum, and Captain Bates once was given a gold watch by Queen Victoria.

Doorways in the home are 10 feet high and the ceiling from 12 to 14 feet. Several fireplaces are trimmed with imported Italian marble.

The present occupants, Mr. and Mrs. John Bauer and their three children, find the rooms too big and the house too difficult to heat. Next year they expect to tear the building

down and erect a modern dwelling. Captain Bates' wife died in 1886 and he in 1919, a few years after he had a special oak coffin built in Cleveland.

Great Clock of Strasbourg

One of the most unusual clocks in the world is the great clock in the Cathedral of Strasbourg, France. This clock not only tells the hour and the positions of the heavenly bodies, but also points to the day of the month, according to the World Book Encyclopedia. Below the dial which tells the time of day is a procession of gods and godesses which show the days of the week. Quarter hours are which turns an hourglass. At noon each day a procession of the apostles appears, while a cock above crows three times.

We are so busy trying to make friends that we don't take the time to make the right kind of enemies. Of course, no one enjoys-or should enjoy—unpopularity as such. But neither should we be afraid of mak-ing enemies if they are made by being true to certain ideals and codes of ethics to which they may disagree. Tall trees must cast long shadows and the man for whom every one has a passing good word is but a fraction of a man and empty of purpose.

19 lbs. of feed for body and 4 lbs. for eggs per day will support an "ordinary" production of 40 eggs per 100 hens. These 40 eggs will just about pay feed, labor and other costs.

EXTRA PRODUCTION

3 additional lbs. of Layena Checkers per day are enough to make 20 additional eggs. In other words, for a cost of about 150 many growers make about 80c worth of eggs - or 65c extra per 100 hene a day.

Truth Set to Music

Lesson for November 21, 1948

"THE opposite of poetry is not prose; it is science." There were poets in the world long before there were scientists, but that does

not prove that poets are out of date: Many people in our modern world think we could not get along without science but could well burn all the books of poetry. If we did, it would be a dreadful mistake.

Poet and scientist Dr. Foreman

each has his truth to see and to speak. We need them both. Certainly if we tried to burn all the poems we should have to destroy some of the best-loved parts of the Bible.

Not All Poets Have Long Hair

SOME "practical" people sniff at poets for being peculiar. "Longhairs" is a slang name for them as for other people who know something besides arithmetic.

As a matter of fact, many poets are very practical people them-selves: engineers, farmers and soldiers all have written poetry. The poets of the Bible are of many sorts. If you will look into an editon of the Bible in which the poetic sections are printed as poetry is printed in other books, you will be impressed by the very large proportion of poetry, especially in the Old Testament. The new Study Bible or the American Revised Version or Moffatt's translation will show this at a glance.

These Bible poems are of various kinds. Some are warsongs (Judges 5), some are proverbs (the book of Proverbs), drama (Job), love-songs (the Song of Songs), odes (Isaiah 40), prayers (Psalm 16), hymns for public worship (the Psalms).

The writers were never professional poets, so far as we know. Of the poems which are this week's lesson Scripture, two were written by housewives, one by a sheep-herder, one or more by a soldier-king, one by a preacher (Habakkuk), and only one (Lamentations) possibly by a professional poet. The original Hebrew book of Lamentations does not claim Jeremiah for its author; but if he was the writer, then it was written by the most practical man of his time.

World's Greatest Hymn Book

and I care not who writes their said a famous man. same thing can be said about religion. "Let me write a church's hymnbook, and I care not who writes their theologies.'

The hymns our mothers loved, the hymns we heard before we heard any other kind of poetry, the hymns that we have learned by heart and that become a part of our mindsthese mean far more to most people than all the printed creeds.

Now the Christian religion is a singing religion. Our very first hymnbook was the Book of Psalms, and all the hymnals since, down to the present day, grew out of this one book in the Bible. It is the greatest hymnbook in the world; not the longest nor the oldest, but the greatest in its influence for good upon mankind.

Poetry Was in Jesus Blood

OF OUR Lord Jesus himself, it truly can be said, poetry was in his veins. He came of a poetic family. His most famous ancestor, David, was a poet; another royal ancestor, Hezekiah, wrote poetry. The book he knew best, the Old Testament, was full of poetry. His own mother Mary, before he was born, sang a song of her own making, so beautiful that it is still sung in Christian churches and loved the world around.

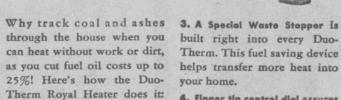

When Jesus died on the cross, two of the last seven sentences that came from his lips were quotations from the Psalms. The poetry of his people was in his blood, for in his last agony the words that came from his breaking heart were words first spoken by the poets of the Bible long

So it is always. "Truth in song will tarry long." Today and always, the parts of the Bible which are most cherished, the parts most often learned by heart, the parts which we carry with us to the valley of the shadow of death, are the truths set to music, long centuries ago, by inspired men who knew how to clothe truth with garments of shining and immortal loveliness.
