City Council Plans to Improve Parking Situation

At a special meeting of the Mayor and City Council on February 14th., 1949, a contract was signed with the Koontz Equipment Corporation for the purchase of Miller parking meters. For some time the parking situation on the streets of Taneytown has gotten out of hand. Numerous solutions have been offered but none have solved the problem. The Coun-cil therefor decided to purchase park-

ing meters.

The installation of parking meters will begin within the next several weeks. Ten pennies, two nickles or one dime will operate the Miller Parking Meter. Many of our citizens are already familiar with this meter, having used it in Westminster, Gettysburg, Hagerstown or some of our other neighboring towns. Parking meters are to be installed on Baltimore Street from the Railroad to the alley East of the Lutheran Church, on Frederick Street North of the alley bounding the Gilds and Hemler ley bounding the Gilds and Hemler properties, extending on York Street to the alley South of the Presbyterian Church. Also parking meters will be installed on Middle Street to the alley North of Wantz Bros. Plumbing Shop.

GIRL SCOUT ACTIVITIES

The Girl Scouts of Troop No. 2 passed a milestone in Scouting on Friday evening when Miss Marian Tupper, Executive Director of Adams County Girl Scouts, awarded them their Second Class badges. The twelve girls of Red Rose Troop 2 have spent almost two years in exploring the eleven different fields of interest of the Girl Sout organization. They have had a "sample" from all of these fields, a sort of introduction to the hundreds of fascinating things they will find in working on future proficiency badges. They are now ready to start working toward First Class rank.

The program for the evening also included a play, "Devil's Stone", put on under the direction of Mrs. G. H. from Romeo and Juliet" by Andrew Bingham, Jr., assistant leader. Later. Mrs Lord and a committee of four girls served refreshments to members of their family and guests.

CARROLL COUNTY MINISTERIAL ASSOCIATION

Dr. Howard Ellis, a member of the staff of the Board of Evangelism of the Methodist Church, will be the speaker at the monthly luncheon meeting of the Carroll County Ministerial Association on Wednesday, March 9, in Grace Lutheran Church, Westminster. Dr. Ellis will speak on present-day methods in evangelism. In addition to his reputation as a speaker, Dr. Ellis is an artist. He has worked with Warner Sallman who is known for his current paintings of Christ.

The ministers of the county and their wives will gather in Grace Chapel for the luncheon which will be served at 11:30 o'clock by the ladies of the congregation. President Arthur C. Day will conduct, the business meeting which will follow the luncheon. Then the group will hear Dr. Ellis. Luncheon reservations should be made immediately by postal to Dr. Elwood S. RED CROSS DRIVE OPENED MARCH 1st A smile that shall last until the next

The Campaign Will Continue **During Entire Month**

Would you like to assist the American Red Cross in their Missions of Mercy during 1949? If you would, the month of March, 1949, is the time to do it; Taneytown is the place to do it; the purchase of a \$1.00 (or more) membership is the way to do it; a look at the past record of the Red Cross will give you the reason for doing it. Volunteer solicitors, who will start their work shortly, will have with them a pamphlet contain-ing the highlights of Red Cross Help during the fiscal year 1947-48. Ask

them to let you see it.
In the words of President Truman, the American Red Cross is an organization that "commands the respect and gratitude of all of us", and our great wartime military leader, Gen. Dwight D. Eisenhower has called upon America to "prove again that generosity, greatness of heart and individual acceptance of responsibility are truly characteristic of this

Missions of Mercy for 1949, as in the past, will consist of help in Disasters, (blizzards, hurricanes, forest fires, floods, tornadoes), help for Veterans, help for Armed Forces, help in promoting health. (National Blood program, First Aid and Accident Prevention Water Sefety, Nursing Servention vention, Water Safety, Nursing Services), and, of course, many others. Ask your solicitor for details.

The committee for Taneytown will be broken down into Sub-committees as follows: Industrial Interests, Commercial Interests, Residential Area, Churches and Civic Groups and Rural Area. The chairmen of these Sub-committees will be designated at a meeting in the American Legion Home on Tuesday, March 8, at 8 P. M. Campaign material will be dis-tributed and the mechanics of the drive will be discussed at this time. Neal W. Powell, who has been designated Chairman of the drive in Taneytown this year, extends an urgent plea to everyone, who can and will help the drive, to be present at this

meeting. Yes, You too can help, through your Red Cross.

AROUND THE TOWN

With all my heart, I wish you every

day's dawning.

I wish you health—life's greatest wealth! I wish you always near so that I may

Each future day and in some way—
help to bring you happiness!

Many individuals have a wrong impression of Movie Stars. Recently, Mae West was in Baltimore and while at the hotel there, she inches much better known. They claim those parts which she portrays in the movies are nothing like her character Your Observed, was talking to some one who met her through the illness one who met her through the illness that came upon her so suddenly and this friend spoke beautifully of Mae West. She is kind, gentle and has sterling qualities and always looking out for the less fortunate. She does not smoke or drink. So there you have it, Folks. Never judge or condemn those brilliant "stars."

Called on that nice banker and his charming wife over in Detour. The "Mrs" not alone is beautiful but brillant and one discovers finer things brillant and one discovers finer things about her at each meeting. "Beauty and brains" in abundance is very rare. Her hair is always beautifully groomed and a 'replica' of the days of long ago. She brought forward a very deeply framed relic made of human hair, shading from deep gold color to dark browns made up of imitation of all sorts of little flowers forming a wreath almost the size of the large frame. It was made by the the large frame. It was made by the banker's wife's aunt when she was a very young girl. My, what patience. The banker then walked in the bank where he very proudly displayed a beautiful plant which I think is called "Maiden Fern". Was glad to see that lovely secretary again.

That little man 'on the square' surely can fix things upon a jiffy. He was called out of bed not long ago and he seems always to have the knack of repair. One can really see him thinking him thinking.

Have you noticed who the success-ful men are 'around the town'? Those especially who have taken in their wives for their partners. It should be 50-50. Henry Ford stated not long before his death and which was pub-lished in a prominent magazine that it was his wife that made him the success that he was because he talked over everything with her before he ventured into anything. When he was making his first parts of a car in a shed on the farm, she stood by for hours holding the lamp for him until wee hours of the morning.

There is a very nice young girl in the parochial school who outshines

many by her exquisite manners. Now, here's to the Chamber of Commerce. Are you going to have that Easter parade in Taneytown of which I wrote last year? How nice the business session conducted by it would be to give a prize for the Mrs. Percy Putman, the vice-president, the following program was

A few weeks ago I was called to Baltimore on an emergency call. Hailed a taxi and after being driven a few blocks, the fine driver came to a sudden stop so he would not run over a dog which ran across the street. Your Observer complimented him wondering why all drivers were not as careful (thinking of the little pets of mine that were killed within two years). His number was 4711 and his name was Vincent Conary, a Diamond Taxi Cab number 762 for which company he has been driving for many years. Baltimore papers should copy. When I praised him, he answered "Lady, I feel it is just as bad to run over a dog as a human

being for I could not feel any worse". That nice young man in the chain store is getting more like the manager every day.

The chubby young boy who broke his wrist at the skating rink is com-ing along nicely and it does not seem bother him in the least. The one who works at our nice pharmacy 'around the town'. Betcha it won't be long before he is right in back of that soda counter again.

Your Observer and the minister were guests at the 75th anniversary of the Masonic order in West Virginia. After the grand banquet was served and beautiful souveniers were presented to the ladies and their es-corts in the form of pins for the lad-ies and minature aprons for the gentlemen, a delightful programme of entertainment was arranged of very special talent from the Ann Harvey Studios of Pittsburgh, Pa. The master of ceremonies was a Mr. Billy Sloan who looks very much like Nelson Eddy and has his grand manner, also. Never have I seen so much talent all in one individual. He was a marvelous impersonator. After dancing a number of original dances alone, he called to the audience to name any dance and he would reply with their request.

There was rather a long silence and to break it, Your Observer called out "Russian" which most of you know is a very difficult dance plus know is a very difficult dance plus frightful exercise which is most tiring. He really did that number for his last encore, Next some one called out "Irish", then "Scotch" and without a doubt, I have never seen anything done so originally in any State of these United States. That Billy Sloan will be heading westward for that big State of California! Finally, he asked for other numbers from the he asked for other numbers from the thrilled audience and this time there

HEALTH INSURANCE COSTS

It has become a habit for federal officials promoting compulsory health insurance in the United States to minimize or ignore its costs. The original Wagner-Murray-Dingell bill played down the costs. The last of the series under this name left them out altogether. Effort has been per-batteries, 200 chick size, and many sistently made for the past 10 years to sell the American public something for a huge expense without giving an accurate forecast of the ultimate cost. That may be ingenious, but it is poor public policy.

However, analysis is now and then furnished by independent sources. W. Rulon Williamson, former actuary of the Social Security Board, says there could be a high of 18 per cent of payroll, a plausible medium of 121/2 per cent, and a low, hardly to be expected, of 7 per cent when years hence the program is fully under way. These benefits include both Middleburg road, on medical care and cash benefits for disability-the standard features of government health insurance.

Mr. Williamson points out that a great deal depends on the liberality be fresh or close springers, by day of sale, 5 of the calves were just sold trators, and hence estimates must off; balance are Summer and Fall vary widely. But in his view the total cost of social security, with health insurance added to the liberalized oldage and survivors' insurance and unemployment compensation, could come between 18 per cent and and 36 per cent of payroll.

British and New Zealand health in- Holland hammer mill, new rubber-tire British and New Zealand health insurance programs indicate that the United States would be faced with the same problem. If introduced here and really made effective, health insurance for many years would probably require much more tax money than old-age or unemployment insurance. Its financing should be adequately explored. Christian Science of DAIRY FOULDMENT quately explored.—Christian Science Monitor.

Friendliness is what our world needs today, if we are going to survive-friendliness among nations, in the neighborhood, on the job, in our churches and service clubs, within the family. The best place to increase friendliness is in the heart of each of us. Any group—church or club—reflects the spirit of its members. Friendliness is many things. It is a personal sacrifice in the little things of daily living; faithfulness in think-ing of the other fellow's welfare. Sometimes we lose our balance momentarily, righting ourselves barely by the skin of our teeth, or by a helping hand from the fellow in front or behind us. Our journey is made a lot more comfortable if we are provid-ed with the balancing pole of friend-liness. It is as inexpensive as a tooth pick, yet it means so much. No one knows how soon or often he will need the same kind of help. "Be Friendly" is a wonderful motto to follow every

The first of March really roared in like a lion. It looked so beautiful out that when I went to the mail box to post some letters I dreaded to walk to the end of our lane. (Almost a half of a mile). Going out the wind was against my back and it wasn't so bad, but when I turned for home and that March wind struck me in the face, I didn't tarry much but came

home under forced draft. Every year about this time one reads in the paper about the New Orleans Mardi Gras and no doubt most leans Mardi Gras and no doubt most people wish they could take part in it just once. Mardi Gras means "fat Tuesday". It is the French name of Shrove Tuesday, the day before of Shrove Tuesday, the day before Ash Wednesday, the beginning of Lent. French Mardi Gras or Fat Tuesday alludes to our old ceremony in which a fat ox, symbolizing the passing of meat was paraded through the streets of Paris on Shrove Tues-Lent being a period of fasting, Mardi Gras naturally became a day of carnival. In Italy and other Roman Catholic countries the day before Lent was devoted to feasting and merrymaking. The day was formerly observed in England by eating pancakes and it is still often referred to as Pancake Tuesday. French colonists introduced Mardi Gras festivities into the United States. Mobiley Alabama was the first place where these celebrations took place, and was later introduced at New Orleans. Today several cities hold Mardi Gras induding Mobile but New Orleans and Mrs. Cleve Stambaugh and Alabama was the first place where later introduced at New Orleans. To-day several cities hold Mardi Gras inthe biggest, most elaborate and perhaps the noisiest.

Wild Oats Harvest

Lesson for March 6, 1949

ALL RELIGIOUS teachers of Jesus' time used parables. But the great difference between Jesus' parables and those of his contemporaries, as Rabbi

Klausner says, is that his were remembered and theirs were not. People will remember a story who cannot take in a lecture. Jesus almost never told "wonder-tales." His parables are not

living people or things.

in the least like Dr. Foreman Grimm's fairy tales or Alice in Wonderland. Mostly they are about simple ordinary happenings, and practically always about

The Kingdom of God is a kingdom of law, not of happen-so or of magic wands. Jesus was fond of comparing God's Kingdom to growing plants. Every plant is a miracle, it is evidence of God's creative power; but plants do not grow overnight, they grow by the laws which the Creator made in them.

Wild Sowing

AS WE SAW last week, the most important feature of the Ideal World, or of any world, is the quality of the people in it. So most of Jesus' parables were about people one of the most famous being this one of the "prodigal son." ("Prodigal' of course does not mean wicked or repentant, but wasteful, reckless with money or other things.) You could find many faults in that young man. One of them-the fault that nearly killed him-was that if he had a calendar he never looked at it. If you take a good look at a calendar you will always notice that there is another day after this oneanother month, another year. But the prodigal never thinks about tomorrow, only about today. He sows his wild oats because he has fun doing it. He can say "So what?" fast enough but he has never asked the question, "—and then what?" Childish, isn't it? Yet all about us are prodigals old enough to know

Some people even argue that it is a good thing to sow wild oats, on the theory that the prodigal gets it out of his system and is afterwards a better man.

Nonsense! Is it better for your education to spend several years learning things wrong? Is it better for a garden to let it grow up in weeds for the first three weeks? Is it better for a man's health to spend his childhood years on a sickbed? That's no more silly than to say that a man is morally better for having been immoral for a while

Prodigal Nation

THAS even been said that we have a prodigal-son civilization. Our generation is pretty busy sowing wild oats. We waste the natural resources of the earth. Drinking has become encouraged by law and made glamorous by the movies. We spend more on liquor than on schools. More money is spent on a single day's horse-racing at a big track than a whole state or province spends on education in a year. The ties of marriage have grown so weak, especially outside the Christian church, that it has not been long since one American city was boasting that its marriage rate had "caught up with" its divorce rate!

THE PRODIGAL son in Jesus' story went home-but he had to reap his wild harvest first. The modern prodigal, whether individual or nation, seems to misunderstand Jesus' meaning. If God is thought of at all, he is pictured as a benevolent Being who after all doesn't mind our enjoying our little fling. "He will forgive," said Voltaire, "that's his business." That is

The Heavenly Father does love every one of his children, yes. But he will not hold back any one who insists on wasting his substance. He will not interfere with the man's freedom even if that freedom is wickedly

a total misunderstanding of God.

He will not suspend his own law: "Whatsoever a man soweth, that shall he also reap." The prodigal will never get back what he threw away. Time that is killed stays dead. The poverty and pain created by personal or national extravagance and intemperance, God will not magically conjure away.
