KIWANIANS MEET

Lt. Gov. of Capital District Makes Official Visit

James Payne Lt. Governor of the Ninth District of the Capital District of Kiwanis International paid an official visit to the local Kiwanis Club Wednesday evening at its regular meeting in Taney Inn.

President John Skiles presided. Visiting Kiwanians present were: James Payne, Nelson Mahone, M. O. Simpson and A. M. Carroll of the Front Royal, Va. Club and T. B. Cash and Miles S. Reifsnnyder, of the Westminster Club. Other guests were Mrs. M. S. Reifsnnyder and daughter, Masha.

President Skiles made the following announcements: The month of April is designated as the 100% attendance month; a Board meeting to follow immediately after the regular meeting urging all members of the Board and Committee Chairmen to remain for the meeting; an Inter-Club meeting to be held May 8, at 6:30 P. M. at the Southern Hotel, Baltimore; the club is sponsoring the church services to be held during the Easter Holy Week; a District meeting to be held in Frederick on May 10, at 7 P. M. and each member, if possible, to help in the Blood Donor Plan.

The evening's program was in charge of the House and Reception Committee and Norman Graham who introduced Mr. Roy Lamb and Mr. Conlon, of Koptz Creamery showed a moving picture on "Milk—from the producer to the consumer."

At this stage of the meeting Lt. Gov. Payne was introduced and in a few well-chosen remarks told what Kiwanis meant to a community.

Rev. Miles S. Reifsnnyder reported the meeting held at Mt. Airy, Md., when the Taneytown Club, with nineteen members present, and with the Ellicott City Club as joint sponsors, met with a group of representative citizens, of Mt. Airy and organized a club in that city. Mr. Raymond Selby a former member of the Taneytown Club was elected as president for the newly-formed Club.

Sec'y Robert Smith reported that for the first three months of this year thirty-two of the thirty-eight members of the Taneytown Club had perfect attendance.

The Missionary Society and the Mission Circle Holds Joint Meeting

The Women's Missionary Society and the Mission Circle of Trinity Lutheran Church enjoyed an inter-society review of the final chapters of the book "Twilight or Dawn" on Thursday evening. Those taking part were Mrs. Merle Ohler, Mrs. Charlotte Shorb, Mrs. Robert Wantz and Mrs. James Fiscus.

The first part of the book was given at the March meeting by Mrs. Chas. Kephart, Miss Clara Devilbiss, Mrs. Margaret Nulton and Mrs. John Teeter under direction of Mrs. C. B. Nail.

The meeting opened with quiet music played on the piano. The president, Mrs. E. E. Baumgardner asked the members to join in dedicating the meeting to the memory of our recently departed beloved sister, Mrs. C. C. Hess. At this time a season of silent prayer was observed led by Mrs. Baumgardner.

The lesson topic was "The Church Goes on in China." The leaders were Miss Clara Devilbiss and Miss Carrie Winter with Mrs. Francis T. Elliot as pianist.

Following the lesson period an interesting and informative picture was shown on the screen titled "My name is Han"—a picture of China.

The president conducted the business session in regular form with reports from the secretary and treasurer.

A number of important announcements were made including the Easter food sale to be held on Saturday, April 16, beginning at 10 A. M. in the recreation rooms of Mrs. Flora Leister on Frederick St.

The 21st Maryland Congress of the Women's Missionary Society of the Maryland Synod will be held on April 30, at Trinity Church, Baltimore, and the 58th annual meeting of the W. M. S., of Middle Conference at Middletown, Md., in Zion Church, on April 28th.

The 6th annual birthday party of the local society will be held at the regular meeting in May—the president named committees to take charge. Additional business matter relevant to the societies activities was transacted. The Missionary Benediction was used in closing.

The FOOD SALE committee comprises the following: Chairman, Mrs. A. G. Riffe, Mrs. Harry Sprankle, Mrs. Carroll Valentine, Mrs. Harry Crouse, Mrs. W. O. Bach, Miss Catherine Hahn, Mrs. William Nail and Mrs. Mary Witt.

The Birthday Party Committee consists of the following: Chairman, Mrs. Earl Myers, Mrs. Ernest Dunbar, Mrs. John Hoagland, Mrs. Franklin Fair, Miss Edith Hess, Mrs. Francis T. Elliot, Mrs. Cleve LeGore, Mrs. Flora Leister, Mrs. Herbert Winter, Mrs. David Smith, Mrs. Russell Eckard, Miss Ada Englar, Mrs. Edgar Phillips, Mrs. Glenn Reeve, Mrs. Luther Zimmerman, Mrs. Luther Luckenbaugh, Miss Carrie Winter, Mrs. Claude Derr, Mrs. Doty Robb, Mrs. Mary Devilbiss, Mrs. David Hess, Mrs. George Lookingbill, Mrs. Norris Sell, Mrs. Cora Dutterer and Mrs. A. LIONS CLUB PLEDGES

Support to the Taneytown Recreation Ass'n Project

At the regular meeting of the Board of Directors of the Taneytown Lions Club, held Tuesday April 5th, Don R. Webb, Secretary of the Taneytown Recreation Association outlined the history and organization of the Taneytown Recreation Association and its aims. Taneytown has long felt the need and have often been reminded by others not living in our community, that Taneytown needs and should have adequate recreation facilities for its youth and a place to relax for those of us who have graduated into the last strenuous activities group. Because of this need twelve of Taneytown's public spirited citizens, who are serving as the Association's first officers and directors, have formed the Taneytown Recreation Association to provide Taneytown with adequate recreation facilities for everyone. The directors of the Lions Club went on record as approving the plans of the Taneytown Recreation Association as a worthy community project and pledged the support of The Taneytown Lions Club.

At this meeting plans were discussed to send four delegates to the District Convention which will be held in Atlantic City on June 15, 16, 17, 18, 1949, and delegates to the National Convention which will be held at New York City in July.

The recently purchased inhalator will be presented to the Taneytown Volunteer Fire Company at the next regular meeting of the Lions Club, which will be held at The Taney Inn on April 12, at 6:29 P. M.

A committee of four Lions was appointed by Pres. Merle Ohler to nominate candidates for the 1949-50 term of office. The committee choice will be presented to the Club at the regular meeting of May 10th. Nominations from the floor will be accepted on May 24 and election of officers will be held at the regular meeting of June 14th.

LEGION PLANS FOR MEMORIAL DAY

The Americanism committee assisted by other members of Hesson-Snyder Post are planning the annual Memorial Day parade for Taneytown. They hope to have an outstanding program for this day in which we pay tribute to all American war dead. They are planning for one of the largest Memorial Day parades ever to be held in Taneytown.

The Post activities committee reports that all is in readiness for the annual Easter egg hunt to be held at the Clabaugh Mansion Sunday, April 17, at 1 P. M.

The Post made a donation to Perry Point Veteran Hospital. It is to be used to buy refreshments at one of the affairs held by the Legion for Hospitalized veterans.

The Ladies Auxiliary of the Legion purchased a piano and drapes for the meeting room which improves the appearance of the room greatly.

All Legionnaires are reminded that all day Saturday is a work day. We hope to have a large turn out.

Mr. Elwood Baumgardner was present and showed movies of his trip throughout the west. They were highly entertaining and greatly educational. The members enjoyed them immensely and thank him for his time and trouble in showing them.

OFF THE PRESS

"Reminiscing in A Bureau Drawer" is the book by Mrs. Irene deLeon Love, (Your Observer) dedicated to her mother, Mrs. Jennie Brownstone, of Philadelphia. This is the book which Walter O'Keefe put over the air a few weeks ago. You will become fascinated with the little stories as they unfold as you read. They are true stories which have been experienced by Mrs. Love and are most original and will hold your interest from start to finish.

BOARD OF EDUCATION REGULAR MEETING

Contracts Awarded for Improvements at Westminster H.S.

The regular meeting of the Board of Education was held on April 5, with all members present. At the direction of the president the minutes of the last special meeting of March 15th, were read and approved and the bills listed ordered paid. The Board considered several items related to transportation of school children for the year 1949-50 and other items in connection with transportation contracts and changes in the same during the current year.

The Board was advised that applications were being received for tuition scholarships at Western Maryland College and that plans were being made to conduct the regular scholarship examinations for the colleges of the state as prescribed by law on May 7, 1949.

After due consideration the following calendar was adopted for the school year 1949-50.

September 1 and 2, teachers report to schools. September 6, teachers' meeting and the Westminster High School. September 7th, schools will reopen for the 1949-50 school session. October 20, 21, 22, State Teachers' meeting, schools closed. November 6 to 12, American Education Week. November 24 and 25, Thanksgiving holidays, schools closed. December 21, schools close for Christmas holidays, January 3, 1950, schools will reopen after the Christmas holidays. April 5, schools will close for the Easter holidays. April 11, schools will reopen. May 30, Decoration Day, schools closed. June 14, schools will close for the current year.

The Superintendent discussed at some length with the Board of problems relating to the teacher supply for the 1949-50 school year. He was directed to continue efforts to find replacements for teachers who are leaving the service and to observe in every case the state requirements regarding the certification of teachers. A motion was made and passed that the Board give consideration to the awarding of the contracts for the applying of coal at the meeting of the Board to be held in May.

After consideration a motion was made and passed that the superintendent proceed to make arrangements for some additional grading rooms in the newly acquired school land at Sykesville and for the fencing of this land as required by the deed.

A brief report was given by the superintendent regarding a meeting of the American Association of School Administrators recently held in Philadelphia at which time he had been in attendance. Further information was also given regarding the outcome of legislation related to the providing of an additional incentive fund for the aid in the construction of school buildings.

The Board next gave attention to the opening of bids for improvements at the Westminster High School. These bids were in two parts and consisted first of bids on alterations to the space under the existing auditorium to provide cafeteria facilities for this high school. The bids on this proposal for the general contract and electric work were as follows: Maurice Feesser, Taneytown, \$22,480.00; Carroll Construction Co., \$34,743.00; Allen F. Feesser, Taneytown, \$21,899.00; L. C. Wantz, \$22,075.00. The second aspect of the work proposed for this school consisted of alterations and additions to the present gymnasium to provide sections of this building which had been eliminated when the building was erected. This addition is necessary because of major use to which this building is put. This use at the present time requires the entire building to be opened when the gymnasium is used. The bids on this job were as follows: Maurice Feesser, \$24,832.00; Carroll Construction Co., \$36,243.00; Allen F. Feesser, \$23,649.00; L. C. Wantz, \$23,715.00. The bids for the plumbing and heating contract for the first mentioned construction were as follows: H. W. Gail & Son, \$5,868.00; J. H. Allender & Son, \$2,985.00; Westminster Hardware, \$3,100.00; George Harner, \$4,120.00. The bids for plumbing and heating for the gymnasium improvements were as follows: H. W. Gail & Son, \$5,290.00; J. H. Allender, \$3,580; Westminster Hardware Co., \$5,231; George Harner, \$5,499. After due consideration of these quotations the Board directed that contracts be executed to Allen F. Feesser for the general contract for the improvements to the space under the auditorium and for the alterations to the gymnasium at his quoted proposals of \$21,899.00 and \$23,649.00 respectively. A motion was also made and passed that contracts be completed with the J. H. Allender & Sons Co., Hampstead, for the plumbing and heating work on these proposals at their quoted price.

The Board directed that the lighting fixtures for the Sykesville building be purchased from the Westinghouse Company in Baltimore in accordance with their quotation for these fixtures.

The superintendent was directed to purchase additional equipment required for the Robert Moton School as necessary for the proper occupation of this building in September. The Board approved the proposal of Mr. William Martin of Hampstead for the exterior painting of the present Sykesville building.

AROUND THE TOWN

With all my heart, I wish you every morning

A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

What a Grand Old Flag! And what a lovely old and charming house of The American Legion—The Hesson-Snyder Post 1201 Folks, Your Observer called there to write about it in this column and I was impressed with many things.

The entrance of that home with its exceptionally wide hallway adds a charm all its own. There are so many rooms in the house and all laid out conveniently. All members should put forth every effort to do their share in getting the rooms in proper condition as several of the rooms are finished now and should be thrilled in doing so. The men should cooperate with the Auxiliary in every detail and those husbands should be proud of their wives. Never have I been present in any meeting where the women were so serious, so much interest, ambition, sincerity and enthusiasm displayed as it was right there. Upon my arrival home, I told my minister and he was so impressed that he immediately joined. He looked the roof over thinking he could repair it for the men but he discovered it was a slate affair and he could not handle that.

Ladies, don't wait to be asked to join the Auxiliary but come ahead. When I saw those women with their hand over their heart, pledging allegiance to our flag just before the meeting started it did something to Your Observer and as everyone should feel. Thank God you and you are Americans. I felt very much at home at that meeting and all Taneytown will be proud of that Legion Home. When I went to collect for their "Colors" am happy to write that only one person refused a donation.

A few days later, I called at the factory to meet that nice Commander of The Legion and, folks, he hails from the big West, the state of Kansas where men are men and women eat shredded wheat and like it. You know he must have been wonderful to decide to live Around The Town from those big open spaces just because he met the only girl in the world for him. Well, she is some nice girl with a fine personality and a little business wife, too. "Legion Lights" is the name of that cute paper of The Post which is published monthly. When anyone calls upon you for any kind of a donation, folks, remember to give for it is something that is "All-American". There is a nice chubby farmer out Rocky Ridge way. Most pleasing manner and most accommodating. Betcha he has a grand disposition. And to think, he won't even see this paper. A letter from Philadelphia states not to miss the movie when it arrives called "Letters To Three Wives". Betcha Governor Lane will be re-elected when the time rolls around. The nice Sister of St. Joseph's School is back again in class and taking hold of things once more after a long absence due to illness. Here's hoping she remains right there. Met two "Wacs" yesterday from Camp Lee, Va. Those uniforms are sure something to talk about and those two girls of around the age of nineteen were just about the prettiest you would ever want to see. A World War I vet spoke up and said, "Well, they didn't have anything like that in the service when I was a soldier". Well, so long, folks. Will be seeing you again next week. Have a grand week end and in the meantime make it a better day today and then tomorrow will be best and everyday thereafter after omitting the phrase, "Tomorrow will be better".
Faithfully,
Your
OBSERVER.

ANALYZING THE MINIMUM WAGE

The new Federal wage and hour bill will soon come up for consideration by Congress. The influence it might have on the economy of the country, if it passes, should be given much more consideration by the public than it has so far received.

First of all, the bill would raise the minimum wage to 75 cents an hour, almost double the present level. Partisans of the measure say that a further hike to \$1.00 is planned. The wage—along with overtime after 40 hours of work in a week—would be required of every employee engaged in interstate commerce in any way.

It might seem that the interstate commerce provision would confine the law to a limited number of enterprises, most of them large. But recent court decisions indicate that the judges are taking a very broad view of what interstate commerce involves. For instance, in the case of retail stores, it is quite possible that operators who make out-of-state purchases would be considered engaged in interstate commerce, and subject to the law.

Theoretically, the pending law is designed to help and protect unskilled and marginal workers. Yet there is grave doubt if it would work out that way. Many who have studied it believe that it might actually reduce employment. A concern, for instance, might find it impossible to keep on employing inefficient workers if it had to pay them 75 cents an hour—whereas it can profitably employ them at a lower wage, and so give them an opportunity to improve their skills and qualify for better jobs.

Lastly, it seems certain that a big percentage increase in the minimum wage would start the wage-price inflation spiral going again. The least productive worker would then get a rate of pay very close to that of many skilled workers—and the latter would naturally demand a boost for themselves. What this could do to the cost of living for all workers needs no elaboration in the light of experience.—Industrial News Review.

THE EASTER EGG

An interesting pastime is to rummage about for the origin of some of our customs, observances, and practices. Many of these have originated in other lands, but we have made them a part of the American way of life. The fact is they have become a part of us. To recognize something as a phase of our life does not necessarily mean that it had to originate in America. A number of our observances, customs, and practices, we have adapted and adopted. For instance, take the Easter egg. Easter egg hunts have afforded thousands and thousands of children, as well as adults, unparalleled enjoyment. And we have become accustomed to associate the event with the resurrection of Christ. However, we are told that colored eggs at Easter time were employed hundred of years before the time of Christ, and that the custom in itself has no relation to Christianity. Many ancient nations celebrated religious festivals in the spring of the year, in honor of some Deity at these vernal or spring festivity of life.

The egg was chosen as an appropriate emblem, because it contained the germ of life. For this reason the egg was offered to the Deity at these vernal or spring festivals. And to make the offerings more attractive, the eggs were colored with bright paints or dyes.

When we turn the pages back to the founding of Athens in Greece, we discover that eggs and buns had an important place in the ceremonial feast of Ishtar, a Queen of Heaven. We are also reminded that the old Teutons used eggs as well as buns at their springtime feasts in honor of Eastre, another Queen of Heaven. An observation that is very apparent is that Eastre and Ishtar resemble our word, Easter.

The use of eggs, and the egg-hunt, at Easter time, have been a significant feature of the American way of life for so long, that we would not give up the custom, even though we may have to admit that it is a survival of a pagan practice. May we ever be liberal enough to employ and to enjoy what is wholesome no matter what its origin.

Nothing within itself is small
Nor great though earth it fills,
But that is small which seeks its own
And great which seeks God's will.

"O'er all the way green palms and blossoms gay
Are strewn this day in festal preparation,
Where Jesus comes to wipe our tears away
E'en now the throng to welcome Him prepare.
Join all and sing His name declare,
Let every voice resound with acclamation,
Hosanna! Praise be the Lord!
Bless Him who cometh to bring us salvation."

FEESERSBURG

On Monday evening the program committee of the Elmer Wolfe P. T. A. presented one of the most interesting programs of the year. A chorus of 14 adult members of the fairer sex, dressed in fashions of ten to fifteen years ago sang in pantomime a song called "Those Hats We Wear." It was hard to believe that some of the hats worn were twenty years or more old for some of them looked like the ones in the smart shops today. The one act play called "Just Women" was very well done and the cast deserves a lot of praise for its fine performance. Four girls from the third grade acted as usherettes and were dressed in old-fashioned costumes with hats to match. They were Nancy Roelke, Carolyn Myers, Kay Luttrell and Jeane Bohn. Mrs. Paul Leister read the Scriptures and Mrs. Wilson Harris lead the prayer. Salute to the flag was led by Millard Roelke. Under the head of business came the balloting for the May queen. Mrs. Paul Niswander acted as president in the absence of Rev. Samuel Harley. The next meeting will be held May 9th, when three May Queens will be crowned. The patrons and friends of the Elmer Wolfe P. T. A. showed their interest by filling the auditorium to capacity Monday evening and the program committee which is made up of Mrs. Paul Leister, Mrs. Arintha Marsh and Rev. E. Colwell deserves many thanks from the community for adding some cultural value to the Union Bridge school.

The Ben King family moved to their farm recently purchased from Mr. and Mrs. Harry Lambert April 1st. The Lambert's sale held March 31st drew a large crowd and things sold well. The lunch stand under the supervision of the ladies of Mt. Union Church did a fine business and the net profit amounted to more than seventy dollars.

Miss Margaret Roelke, of Union Bridge, is spending some time with her brothers, Millard and Paul, at Mt. Union.

Mr. and Mrs. Mehrle Wilhide, and sons, John and Ronny, and Mrs. William Warner spent three days last week in Ohio visiting with relatives.

Sunday is Palm Sunday. Much could be said or written about this day but let us just read what Mark has to say. The 11th Chapter, Verses 1 to 10. And when they drew near to Jerusalem, to Bethphage and Bethany, at the Mount of Olives he sent two of his disciples and said to them, "Go into the village opposite you, and immediately as you enter it you will find a colt tied, on which no one has ever sat; untie it and bring it. If any one says to you, 'Why are you doing this?' say, 'The Lord has need of it and will send it back here immediately.' And they went away and found the colt tied at the door out in the open street, and they untied it, and those who stood there said to them, 'What are you doing, untying the colt?' and they told them what Jesus had said; and they let them go. And they brought the colt to Jesus, and threw their clothes on it; and he sat upon it. And many spread their clothes on the road, and other spread leafy branches which they had cut from the fields. And those who went before and those who followed cried out, 'Hosanna! Blessed be he who comes in the name of the Lord! Blessed be the kingdom of our father David that is coming! Hosanna in the highest!'"

The famous Passion Play of Oberammergau, Germany, will go on again in 1950. It has been out of production 16 years—the longest lapse in the history of the play.

If you have wondered what happens to those gray colored pennies when they are taken out of circulation it will interest you to know they are sent to the Denver Mint, mashed to make them unusable, then sent to Pueblo, Colorado. There they are melted with other scrap metal to make steel rails, nails and spikes.

Mrs. Vernon Gladhill spent Tuesday in Westminster shopping. Mrs. Gladhill writes the Union Bridge news for the Hanover Sun, which makes that paper very popular in our area.

Mr. and Mrs. Harry Wolfe and Mr. and Mrs. Cleon Wolfe called on Mrs. Worley Checks on Sunday. Mrs. Checks just returned home from Johns Hopkins Hospital where she had been a patient for several weeks. Her friends and neighbors will be happy to learn that she is improving.

The appearance of Grove Dale has been greatly improved by the painting of the board fence around the lawn and fields. A plate bearing the name of the house has been placed over the entrance gates. The Lowell Birely's plant to use Grove Dale as a summer home.

Mr. and Mrs. Wilbur Miller moved from their home in Feesersburg last Saturday to a home near Emmitsburg. Mr. and Mrs. Howe Essig, of Frederick, and their two children moved into the house vacated by the Millers. Mr. Essig is manager of the Farmer's Cooperative in Union Bridge.

HESSON-SNIDER AUXILIARY

The regular meeting on the first Tuesday in the month of the Auxiliary of The Legion, Hesson-Snider Post 120 was held on April 5, at 8 o'clock. Mrs. Katherine Shank, Vice President taking charge. Two new members joined the Auxiliary—Mrs. Herman Moffit and Mrs. Irene de Leon Love.

Donations for the Colors up to date were from the following Companies: Reid Grocery Store, Dougherty Grocery Store, Shaum Meat Store, Harner Plumbing Company, Rifle Grocery Store, The Carroll Record Co., The Employees of the Taneytown Manufacturing Company and Keefe's Gas Station, Taneytown Bakery, Lambert's Electrical Store, Economy Store.

Tiny aprons were distributed to all the members as to collecting money by the measurement of their waist line!

Pins were ordered and the stamps were given to each member to sell for Democracy's Fallen Defenders (a Poppy over every loyal heart) for Poppy Day. The stamps are a penny apiece.

A future date will be set for the "Astrology Luncheon" to which the entire town is invited. Full details will be given later.

A number of ladies attended the dinner at Brunswick and they are still talking about the wonderful time they had.

The next invitation will be at Williamsport, on May 15.

The ladies drawing room, kitchen and powder room will soon be in the pink of condition!

A piano was purchased recently for the Legion Home.

After the business meeting refreshments were served. Any lady desiring to join the Auxiliary will be gladly welcomed by all the members. Don't wait until you are asked by a personal visit. You will enjoy every minute of the two evenings, monthly—the first and last Tuesdays of the month.

MRS. HOWARD A. FROCK

Mrs. Nora B. Frock, widow of Howard A. Frock, died unexpectedly Sunday morning at her home on York Street. She appeared in her usual state of health and was preparing to go to Sunday School when she was stricken with a cerebral hemorrhage. Dr. C. M. Benner was summoned but Mrs. Frock was beyond medical aid. She was a daughter of the late Curtis and Louise Wertz Baker and was 64 years of age. Her husband preceded her in death some years ago. Residing with her were a sister Miss Lareina Baker and a brother William J. Baker. Surviving are a daughter, Mrs. William G. McNair, and two grandsons, Taneytown, and the following sisters and brothers in addition to those already named: Mrs. Harry J. Myers, Pleasant Valley; Mrs. Anna V. Young, Hagerstown; Roy H. Baker, Taneytown; Roland M. Baker, Hagerstown, and Howard S. Baker, Taneytown, R. D. Mrs. Frock was a lifelong member of the Reformed church. She was also active in the Sunday School. She was a charter member of both the Pythian Sisters and Daughters of America Lodges of Taneytown and also belonged to the Pythian Past Chiefs association.

Funeral services were held Wednesday afternoon, meeting at the late residence at 2 p. m. with further rites in Grace Reformed church and burial in the church cemetery. The Rev. Edwin H. Sponseller, Supply pastor, officiated. C. O. Fuss & Son were the funeral directors.

Mr. and Mrs. Edgar Fink sang "Saved By Grace."

The members of the Pythian Sisters and Daughters of America attended the funeral in a body.

The pallbearers were: Murray Baumgardner, Carel Frock, Raymond Davidson, Preston Smith, Augustus Crabb and Edgar Fink.

You will like an **Electric RANGE** because it's **ECONOMICAL**

YOU will like the surprisingly low cost of cooking electrically made possible by features found only on an electric range. The completely insulated oven retains heat so remarkably well that the use of electricity is kept to an amazingly low minimum, while the scientifically designed surface units impart their heat directly to pans and their contents, without waste. And you'll like the extra savings. With ordinary cooking methods the meat you buy may lose as much as 20% through cooking shrinkage. But with electrical cooking, flavors are "sealed in" and meat shrinkage largely eliminated. As a result meat goes further. Vegetables retain more of their healthful vitamins and minerals. Then too your cleaning time and costs are reduced because there is no flame produced soot and smoke to soil curtains, walls, and woodwork. Add them all up and you get the only modern method of cooking for the lowest cost of all. And on top of that you have automatic controls assuring perfect cooking results, complete safety, time saving conveniences, and "matchless" modern beauty.

The low cost of electric cooking is eloquently testified to by the fact that the number of electric range users has almost doubled in just the past two years. Nearly 30,000 women in this area now enjoy cooking electrically. You too can share their pleasure—why wait?

Bigger Popcorn Explosion Makes Bang-Up Product

AMES, IOWA.—Science is putting a bigger pop in popcorn to make it fluffier and less crunchy.

Not long ago popcorn that exploded into 24 times its original size was considered good. Now good popcorn expands 28 to 30 times in volume.

Some varieties developed by Dr. J. C. Eldredge and associates at the agricultural experiment station of Iowa State college have expanded 34 times in tests. This big an explosion doesn't always occur, and size 34 popcorn isn't available for popcorn growers. But it may come along in time.

The bigger the explosion, the bigger, fluffier and tenderer the pieces of popped corn, Dr. Eldredge said. People like it better, even though they get less popcorn to a bag.

Popcorn vendors like it better, too, because it takes less corn to draw as much money in sales.

Emphasize Explosions

For years the emphasis in plant breeding has been to get the bigger explosions. The job is difficult, because the corn also must give high yields, stand up well and be suitable for machine harvesting.

Only certain kinds of corn pop well. Moisture in the kernel turns to steam, and the kernel explodes. The steam pressure has to be generated quickly enough to produce a sudden expansion.

It has been thought that the hull acted like a bomb cover, holding in the steam for a time. But this doesn't seem to be the answer. The hulls can be damaged and the corn will still pop. The popping may be due to the structure of the millions of starch grains in the kernel, Dr. Eldredge said.

Research since 1928 here in the biggest popcorn-growing state shows some of the essentials for good pop-

ping. The temperature of the popper should be between 450 and 500 degrees. One part of oil should be used for every five parts of corn. Most important, the moisture content of the corn should be about 13 to 14 per cent.

Popcorn Production

The United States produces about 150 million pounds of popcorn a year on the average and Iowa grows about one-third of it.

About half of the crop is sold to motion-picture theater chains and finds its way into vending machines. Wholesale grocery firms take 25 per cent, selling to grocery stores and popcorn stands. Many of the stands buy directly from local growers. The other 25 per cent is used by makers of popcorn confections coated with molasses, syrup or cheese.

This year the Iowa station is testing nearly 1,200 different crosses or trial combinations of different lines of popcorn. Each year samples are popped and measured for volume, taste and tenderness. The tests supply snowy mountains of popcorn which are sold on the Iowa State campus for the benefit of the Agronomy club, the student section of the American Society of Agronomy.

LOOKING AHEAD

by GEORGE S. BENSON
President—Harding College
Starcy, Arkansas

You and Your Share

If ever this nation needed an economy-minded Congress, it is now. The cost of government has shot up all out of sight. Current high costs of government represent more than just dollar inflation. What we have had, without clearly realizing it, is a boom in government. This boom has flourished until there is danger of collapse from the very size of the superstructure itself. Our ship of state is indeed top-heavy.

Lumping all government together—federal, state, local—tax collections for the 1948 fiscal year came to 26 per cent of the national income. Perhaps you can see it better if we should divide up that \$55.2 billion of tax collections to find what was your part. It amounts to \$377 for each man, woman, and child in the nation. You didn't pay that much? Brother, your share was tucked away in the price of everything you spent your money for!

Government Unlimited?

You can see how much taxes have grown, if you compare the above figures with those for 1940. Then tax collections were \$14.4 billion, or 18.9 per cent of national income. The amount for each person in 1940 was only \$109. In eight years, therefore, we have more than tripled our taxes. A lot of it results from the war. We're spending a lot in Europe, certainly. But let us not use that as an excuse for lack of vigilance about the rest of it.

We are inclined to justify boom government and resulting high taxes in a number of strange ways. In depression times, we call for

more and more spending. That means taxes, but we put them off until later. Then in time of plenty, we think up more things that government can do "better" for us, feeling sure that we can afford it. At the same time, we ignore war-time debt and forget that we ever did any "deficit" spending! Must we dedicate ourselves to unlimited government?

Voters Are Taxpayers

Knowing that "power to tax is power to destroy," the founding fathers placed tax power upon Congress. This power was not meant to be abused. Citizens then were aware that government was meant to serve them, not they to serve the government. That is the viewpoint of taxpayers.

But times have changed. Nowadays American voters (though they be taxpayers to the tune of billions) look upon themselves first as receivers of government benefits, last as payers of tax. Our federal government is now making payments direct to 15,830,899 persons. Some of these are necessary. But too many of us, far too many for the good of the nation, have a personal interest in seeing government expenditures continue. Will any of these 16 million bite the hand that feeds them?

You see, this is the way we ourselves can undermine the cornerstone of freedom. Almost without knowing it, we have created a huge central government, then given it power to perpetuate itself. If big government can minimize the dangers of entrenched bureaucracy, keep public waste and extravagance out of sight, and go on taxing—then this thing will continue regardless of the party in power. When big government sells people on the idea of lavish handouts which they themselves pay for by high taxes, you can call this bribing people with their own money!

Quick Starting for Diesels

Quick starting in cold weather is assured for diesel engines by recently improved fuels. Up to now, most diesel engines have been hard to start at temperatures below freezing even when new and more powerful fuels were used. It has been found that fuels laced with ether or certain other volatile chemicals make possible operations at extremely low temperatures.

Threat of Dry Rot

Dry rot is a plant, and once started in wood underneath a house it will creep up, developing large strands of whitish, fungus threads and spread through the first floor joists and studding, often up to and past the second floor. It destroys the strength of the wood and doubles fire hazards. Dry rot cannot grow across properly pressure-treated lumber.

"Little White House"

"Little White House," where Franklin D. Roosevelt lived when he visited Warm Springs, Ga., while president, and in which he died in 1945, was turned over to the state of Georgia on June 25, 1947, by the Georgia Warm Springs foundation, to whom President Roosevelt had willed it.

Wood Pulp Consumption

Paper industry consumed 12,360,000 tons of wood pulp in 1946 and approximately the same tonnage in 1947. It takes 15 years to produce a crop of fast-growing pine, and 25 to 40 years for spruce. Total paper output of all kinds last year reached 21 million tons.

Mastitis in Cows

Mastitis, sometimes called garget,ropy milk or caked bag, is simply an inflammation or swelling of the cow's udder, generally caused by injury to the udder. Rough milking, either by hand or machine, is usually the cause of the trouble.

Polisobutylene

Polisobutylene, which is made from gases evolved in the refining of petroleum, ranges in consistency from a sticky grease to a rubbery solid. Among the many polisobutylene products already patented are, grafting wax for splicing tree branches, cosmetics, plastic adhesive tape, electrical insulation, dripless oils for textile machines, paints that resist corrosive chemicals, and a chemical agent for improving the performance of diesel engine fuel.

Buying U. S. Savings Bonds is the best way I know to stop worrying about money. And if you persist in worrying, after starting to pile up money the sure, automatic way, the only way you'll have is how best to spend it when you start cashing in after ten years.

Your government offers two great plans, both of them automatic and both profitable. They are the Payroll Savings Plan where you work, or, if self-employed, the Bond-a-Month Plan at your bank. If you can sign up for a \$37.50 bond each month they'll grow to \$4,998 in 10 years. U. S. Treasury Department

Camp Fire Training

Camp Fire Girls stresses the arts of homemaking in its recreational and educational program for all girls between the ages of seven and 18. By providing group experience in work and play, the organization gives its young members a chance for living democracy. The money these two girls will get from selling the cookies and cakes they are making will go toward paying for a monthly gift package to their pen pals overseas. This is one of their activities in connection with Camp Fire Girls' national birthday project, "Make Mine Democracy!"

IS AMERICA

"ILL-HOUSED"?

If you listen only to boosters for government housing, you will sometime get the miserable feeling that America is in a bad way for shelter and housing. You will be made to feel that the situation is beyond remedy and nothing at all is being done about it. According to the "let-government-do-it" boys, if we don't start throwing billions of tax dollars around for housing projects, then the whole population is at once ill-housed.

Record of Industry

While the year 1947 did not quite reach the peak of our building boom in 1925, it is estimated that 825,000 new homes were built. One family out of every 40 got a new house in 1947. That is an excellent record! The Bureau of Census has reported that 93.2 per cent of all city houses are in satisfactory repair, compared to 88.6 per cent in 1940. Our American housing is steadily improving, despite the many difficulties that have been placed in the way.

One of these problems facing private building is government activity in house construction. Many government projects put up so far are said to have been built because costs were too high for the citizens to undertake them. Yet, because the government is willing to pay these same "high" costs, the costs are sure to remain high. In government housing, the difference between the rental income and the actual cost is simply passed on to the taxpayer. The government can't work miracles, but it can levy taxes.

Slum Clearance

If it is the object of federal housing legislation to clear away slums, then I say let communities in which these poor conditions exist clean up their bad sections. Some cities have already put slum clearance programs into effect, without calling on Congress for legislation. Our local governments can do much to stimulate building. Besides requiring property owners to meet good housing standards, they can also

eliminate "horse-and-buggy" building codes that keep costs high.

To assume that Congress, with a public housing bill, can clear away slums, is taking a phony position. There will always be some older and less expensive housing, no matter how much we may build. But if you take charge of the folks with very low incomes and put them in palaces, the rest will be paying the bill for it. Then who gets the premium? This is a beautiful way to get-more-for-doing-less! You see, the fellow who earns less is better off!

What You Can Do

A public housing bill could in no way relieve the housing shortage. Certainly, this is not the time for the government to come in and bid up prices of the building materials that are available. Right now, a government housing program would bring no additional skilled labor into the industry, but would simply take the labor that already works for private builders. Do you think these men would produce any more housing, working for the government?

If you want to add to inflation and make it more difficult for private housing to go up; if you want to pay your share of multi-billion dollar expenditures; if you want to risk these experiments while European recovery is costing us billions; if you want a federal bureau to control 10 per cent of our housing and keep building prices high; if you want to create a giant bureau for political purposes—then you're for public housing. But the only sane thing to do is to ask your Congressman to oppose public housing bills.

Sylvester Says:

"Meet your government cousin." You may be supporting your wife, children, a mother-in-law, and perhaps Aunt Lucy's nephew. But don't forget the man your taxes support. Every 9 workers in the U. S. pay the income for 1 government employee and his family. Let me ask it: How far will your paycheck stretch?

Milk in Holland

Milk still is rationed in Holland, but it is getting more plentiful. During the summer months bicycle milk wagons deliver the milk to the homes. The housewife gets her pail filled direct from a 40-gallon copper can.

Keeping Flowers Fresh

To keep a short-stemmed flower fresh in a slim deep vase, slit the end of the flower a little and wrap around it one end of a pipe cleaner. The pipe cleaner extending into the water acts as a wick for the flower.

Brighten Aluminum

To brighten aluminum pans, use a paste of vinegar and whiting and scour with a fine steel wool pad. Aluminum usually becomes darker when cleaned with strong soap, scouring powder or soda.

"Athens of America"

During the Revolution, Annapolis, Md., was one of the most important of the 13 colonial capitals. It was known on both sides of the Atlantic as the "Athens of America."

In Washington's Time

Long before the White House was built, George Washington penned thank-you notes for apples, cheeses, Jerusalem artichokes, flower roots, seeds, and unidentified "salt water delicacies."

White House Mail

In President McKinley's day a man drove a buggy to the post office twice a day to pick up the White House mail. Today a truck makes three daily trips, and it's always loaded.

Wheat Production

Wheatlands now average well above 14 bushels per acre. There is, therefore, a bushel of wheat annually for every acre of United States farm land.

Mangrove Bark

Mangrove bark is important for tannin. The wood, which is hard, heavy, strong and durable, is used for lumber and for ship keels.

Lord Chancellor

Lord Chancellor is head of the British judiciary, as well as president of the house of lords.

Increase in Corn Yields

Hybrid seed has increased corn yields in the nation's corn belt nearly 20 per cent in recent years.

USSR Meteorological Stations

An innovation in the Soviet Union's meteorological service is an automatic weather station of Soviet design that registers atmospheric pressure, temperature, wind direction and velocity and broadcasts the data over the radio at regular intervals. Several of these stations, which do not have to be visited by a maintenance man more than once a year, were set up recently in various parts of the country difficult of access.

Human Brucellosis

Number one among bacterial diseases that can be transmitted from animals to men is brucellosis. It is more common among farmers and others who handle stock, and is often contracted by those caring for animals at time of parturition. However, this disease can be spread through raw milk. Blood samples may be taken for diagnosis and medical attention is very important.

Uncle Sam Says

Here's an old saying: "There's nothing like being without money to make one appreciate having it." And now is your opportunity to make certain that you'll always have plenty of it by putting some into U. S. Savings Bonds every payday. The safest, surest way of providing future security is by saving the regular, automatic way through the Payroll Savings Plan where you work. Or, if self-employed, enroll for the Bond-a-Month Plan at your bank. No fuss, no bother with either plan. And in 10 years your money will come back to you with interest, \$4 for every \$3 you invest.

CARD OF THANKS

We wish to express sincere thanks to relatives, neighbors and friends for the many acts of kindness shown us following the sudden death of our dear mother and sister, Nora B. Frock; also for the many beautiful floral tributes, expressions of sympathy and the use of automobiles for the funeral. We especially want to thank Rev. Edwin Sponseller, and Mrs. Motter and choir for the service they rendered.

FOX—In Loving Memory of our dear father and grandfather, who departed from this life one year ago April 9.

Gone, dear father, gone forever, How we miss your smiling face, But you left us to remember, None on earth can take your place.

A happy home we once enjoyed, How sweet the memory still, But death has left a loneliness, The world can never fill, The loving daughter and son-in-law, VERNIA and GEORGE.

Today recalls sad memories, Of a loved one who has gone to rest; The one who thinks of him today, Is the one who loved him best.

I often sit and think of you, And speak of how you died, To think you could not say goodbye, Before you closed your eyes, The loving grandchildren, LUELLA, PAUL & MARGUERITE.

Kaiser-Frazer invades new price field!
Kaiser... new price \$1995*
now world's lowest-priced big car**

Our policy on prices
 "It has always been our goal to put a bigger, better automobile within reach of more people. To that end, we have bought the huge factory at Willow Run, and have a great engine plant in Detroit. In Cleveland, we have acquired the world's largest blast furnace for the making of steel. Our engineering-production team and our vast dealer organization have worked overtime to reduce manufacturing and distribution costs. In line with the settled policy of our Corporation, we are giving substantial savings to the public in the form of greatly reduced prices... even sooner than we expected. Now, almost any American family can own a really big, fine car!"
 Kaiser-Frazer Corporation

HENRY J. KAISER Chairman JOSEPH W. FRAZER Vice-Chairman

Happy days are here again! Today you can get a big, big 1949 Kaiser Special for only \$1,995*... a saving to you of over \$333.00! Prices of all Kaiser and Frazer models have been materially lowered. These are by far the most sweeping price revisions the automobile industry has seen.

So, now you can buy the big car you've always wanted... at virtually "little car" prices and at "little car" economy of operation! Think of what this means to you and your family in terms of riding comfort, driving ease and prestige!
 Go choose your Kaiser or Frazer today. Your nearest Kaiser-Frazer Dealer can probably give you immediate delivery. Fair-and-square trade-in allowances... but you do not have to have a car to trade to get the benefits of Kaiser-Frazer price revisions! So, enjoy the comfort, luxury and safety of a new, 1949 Kaiser... the lowest-priced big car in the world!

Look what these new prices save you!

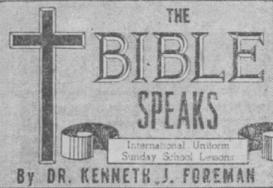

model	old price*	new price*	you save

SCRIPTURES: Mark 10. DEVOTIONAL READING: Mark 9:33-37.

Range of Religion

Lesson for April 10, 1949

ONCE THERE WAS a farmer who owned a large farm. Its wide acreage was divided into pastures and fields and a garden and orchards and hoglots and chicken-yards and so on. But whenever any one would ask the farmer about some particular part of the farm, he would answer, "That's not my business—that's only the orchard, it isn't the farm," or "—That's not the farm, that's a flock of sheep," or a rye field or whatever it might be. Of course such a farmer never lived, or if he did, he should have his head examined.

Dr. Foreman

What Does Religion Cover?

YET THAT FARMER is not a bit more idiotic than a Christian who, when asked about this or that activity or aspect of life, answers, "That's not religion. I have no interest in it." Religion isn't a little fenced-off pasture for lambs, a tiny garden plot behind thick hedges.

Religion covers the whole farm, every bit of life from end to end. Jesus knew this very well. He never once refused to discuss anything on the ground that it was not religious.

He cast light on everything that touched him. He called his followers the "light of the world." Not flashlights, shining in one narrow beam! Not flashlights, but lamps, set on a lampstand and "giving light to all who are in the house."

The Light Of God

A GOOD cross-section of Jesus' methods and ideas can be seen in Mark 10, into which one chapter Mark packs his whole account of a number of weeks which Jesus spent in the region called Perea. Observe the variety of situations which confronted Jesus. First there was a question about divorce. When they brought that question up to Jesus, he did not dodge it. He did not call it a personal matter in which he, as a teacher of religion, had no interest. He did not say it was strictly a matter for the civil courts. You may read what he did say in Mark 10. You will not that first of all he brings God into his answer.

Religion And Little Children

THIS CHAPTER includes the famous story of the little children who were brought to Jesus—evidently quite small children, for Jesus lifted them into his arms. We do not here Jesus saying, "Children are too small for me to take any interest in them. Wait till they are older. What good can religion do these tiny tots?" On the contrary, Jesus not only blessed them, but held them up as models for older people.

Is your church following Jesus here? Is your church interested in the little children as much as it is in the "paying" members?

Or are the little ones shoved off into some damp corner of the church basement? In your state or province, do the Christian people take an interest in the children? Do children in your section get as good attention as pure-bred cattle do?

As Wide As Life

THEN THERE WAS a question about eternal life. Of course Jesus answered that one, it was obviously a religious question. (Except that he gave it what some people even today would consider a not very religious answer!) Jesus went on to talk about money and the effect it has on a man's prospect of eternal life. Jesus would be the very last person to imagine that a man's bank account has nothing to do with religion. Some people to this day don't like to hear a preacher mention money in his sermons. Well, such people might have been offended by Jesus, for he often preached about money and property.

Then there was the question of ambition, the audacious request that James and John made of him. He had some strong remarks to make about that.

And finally at Jericho, not long before Palm Sunday, there was the blind beggar Bartimaeus. Jesus did not say to him, "Health is no affair of mine. I cure souls, not bodies."

U.N. Facts and Faces . . . UNION OF SOUTH AFRICA

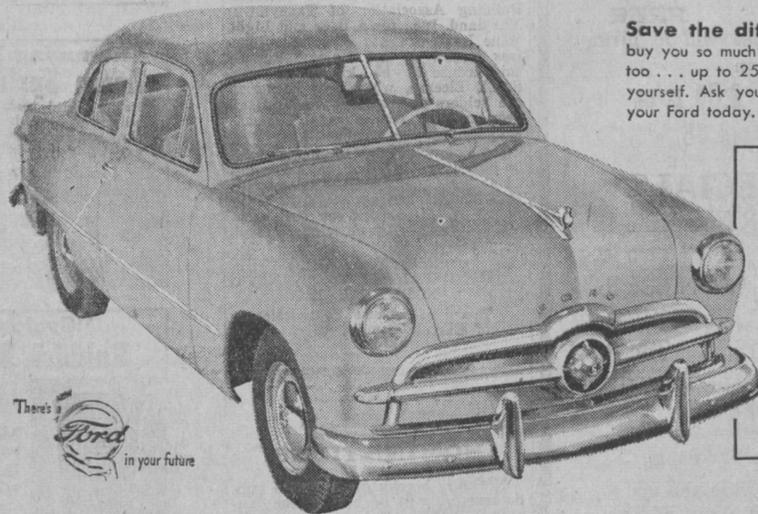

The annual production of 46 percent of the world's gold and a fabulous output of diamonds is a glittering item in the economy of the Union of South Africa. The discovery of gold and diamonds brought South Africa a rapid population increase about 70 years ago, but even then agriculture and grazing, now occupying half of her 11,400,000 people, had a good start. The country's 472,500 square miles bear marks of the pioneering of the Boers, whose Dutch-derived Afrikaans language is still widely spoken. The Union is represented at United Nations headquarters by Percy T. Andrews. Her flag is orange, white and blue, with miniatures of the Union Jack and of the two former Boer flags.

THE CASE OF THE PHOTOGENIC CHECKS

Yes, every check passing through our efficient bank gets its portrait taken.

The ultra-modern Recordak photographs each check on micro-film so that in case of loss or theft, there will always be a record on hand.

That is only one of the modern safety precautions taken by our bank for your convenience and protection.
