MARYLAND MUSINGS

Here's a Tip—Buy U. S. Savings Bonds—They're a sure thing.

Peach ice cream sounds like a summer dessert, but with canned peaches within your reach it can be an all-year-round favorite. Put your home-canned peaches to good use during the winter months.

Defrosting home freezers is usually done by scraping off frost. But if ice is formed, or if the freezer needs complete cleaning, a fan helps melt the ice by blowing warm air in and cold air out.

KIWANIS NEWS

The Kiwanis Service Club of Taneytown met Wednesday evening at Tane Inn. Past President, John Skiles opened the meeting and group singing was led by Wallace Reinhold with Mrs. George Harner as piano accompanist.

PROCEEDINGS OF THE BOARD OF EDUCATION OF CARROLL COUNTY

Teachers Appointed. Schools Will Open September 5th

The Board of Education following their regular August meeting of the Board announces its plans for the opening of Carroll County Schools for 1950-51, arrangements have been made to have the principals of the various county schools be in touch with the new teachers assigned to their schools during the last week in August. The meeting of new teachers will be held on the morning of Aug. 30, in the Westminster High school, at which time the principals and county supervisors will assist the teachers in preparing for assuming class room duties on September 5th. New teachers will spend the afternoon of this day in the various schools of the county becoming familiar with the organization plans under the direction of the school principals.

A general meeting of all county teachers will be held in the Westminster High School on the morning of Aug. 31. Following this meeting which will close at noon, all teachers new and old are expected to be in the schools during the afternoon and on Friday, Sept. 1, for the purpose of making ready for the opening of school on September 5th. During the day and one-half, the principal will be responsible for arranging a program within his school to insure effective opening and operation of the school on the date that the pupils appear. For the general meeting on August 31, a program is being planned through the office of the superintendent of schools for a program related to the efficient operation of schools during 1950-51. A special meeting will be held on Tuesday Aug. 29, for those engaged in school lunch work in the direction of Mrs. Josephine Weest, Supervisor of Cafeterias and School Lunches. A meeting will be held on August 30, for all home economics teachers who will meet with Mrs. West at this time. A special meeting for music teachers is scheduled for Saturday, Sept. 2, in the Westminster High School under the direction of Mr. Philip Royer, Supervisor of music. A special meeting of Principals is arranged for the 25th of August, under the direction of the superintendent. Schools will officially open on Tuesday, Sept. 5th. It is suggested that parents who have not already registered their pupils in the county schools report to the schools on Thursday and Friday, August 31, and September 1, for the purpose of registration. This is especially important for pupils who are transferring from other systems.

It should be noted that construction work going on in several locations in the county may interfere to some extent with the operation of school during the early part of the school year. It is not expected that the building at Charles Carroll and Sandymount will be completed by the opening of school. The operation of the program at these schools will be handicapped by the delay in building construction. The cooperation of parents and teachers is urged to insure as effective a program as possible under existing conditions.

The Board of Education also makes announcement of the staff for the various schools of the county and the following list of teachers submitted for 1950-51 has been approved by the Board of Education at its meeting on August 2, 1950. The complete list for teachers of the schools of the county is:

SOME FACTS ABOUT THE DAKOTAS

Rev. Enfield Describes two of the Western States

Who has not frequently heard about the Dakotas? Probably the Red River Valley is the most fertile area in the world. This valley has been called "The Bread Basket of the World."

The city of Fargo is a beautiful, flourishing jobbing center for the Red River Valley. The city was named for William G. Fargo who was a pioneer director of the Northern Pacific Railroad, of which the North Coast Limited is one of its well-known trains, and Mr. Fargo was also one of the founders of the Wells-Fargo Express. Soon after the railroad entered Fargo, June 8, 1872, settlers began moving in, building houses of prairie sod, and homesteading the land. The city is a noted farm machinery market. It is also the seat of the North Dakota Agricultural College and Experiment Station.

At Casselton, N. D., the large bonanza wheat farms were established through the cooperation of the Northern Pacific.

Jamestown attracts one's attention from the train by reason of its clean appearance. At the right of the westbound train, one may see the campus of Jamestown College on the hill. A few miles west of the city, the railway ascends the east front of a lofty plateau or table-land known as the Coteau du Missouri. The table land is 1,850 feet above sea-level and 900 feet above the Red River at Fargo.

Bismarck is the capital of North Dakota, and about one-half the population of Fargo. It is 1,692 feet above sea-level. The city was named for Prince Bismarck, the German Chancellor. Just north of Bismarck one can see the new 21-story office type capitol building.

During the Indian campaign, General and Mrs. George A. Custer traveled to what is now Bismarck on the Northern Pacific train. President Rutherford B. Hayes owned an 800-acre farm near here from 1877 to 1886.

The world's largest rolled earth filled dam, the Garrison Dam, is located sixty miles north of Bismarck.

The Northern Pacific westbound trains skirt the eastern bluff of the Missouri River for two miles and then cross on a high steel bridge between Bismarck and Mandan. Mandan has an elevation of 1,667 feet. Here is the meeting place of central time and mountain time.

Mandan takes its name from the Mandan Indians, who were living in five great villages in this immediate vicinity in 1738, when visited by the Sieur de la Verendrye, the first white man known to have seen the country of the upper Missouri. The name of the Mandan village was "The Village of the Crying Hill." The present village is composed largely of residences of modern Mandan. Many Indians are frequently seen at the depot upon the arrival of trains. Reservations of Sioux, Gros Ventres, Arikara, Crow, and Mandan tribes are within a few miles of the city. The Lewis and Clark Expedition camped here in 1804 and spent the winter with the Mandan Indians. Here they procured the services of the Indian woman, Sacagawea, to guide them overland to the mouth of the Columbia River. Just below Mandan was Fort Abraham Lincoln, the headquarters of the famous Seventh Cavalry, and from which point the ill-fated expedition under Custer was defeated at the Battle of Little Big Horn.

Dickinson, another point through which we passed, is an important financial, live stock, and grain center of the prairie region of North Dakota.

Interesting history is associated with the last village which I shall mention in Dakota. Medora should have much interest for us. It is the center of the Bad Lands. Burned out lignite beds have given the rocks and buttes weird colors. The late president Theodore Roosevelt at one time had a home in the valley of the Little Missouri. His cattle ranch was located south of Medora. Medora is the headquarters for the newly created Theodore Roosevelt National Memorial Park.

I am quoting a bit of interesting history:

"Medora is named for the wife of Marquis De Mores, who founded the village in the early eighties. The chimney of the De Mores Packing Plant can be seen on the west edge of the town. This plant, built in 1889, was operated for five years. A fire destroyed it. On the west bank of the Little Missouri can be seen the Chateau of the Marquis, which is still maintained by the family."

HESS-BUSHEY REUNION

The Hess-Bushey Clan, on Sunday, August 13, held their 22nd annual Reunion at Big Pipe Creek Park, Taneytown, Md.

Families of the clan gathered in from many interesting points in Maryland, Pennsylvania and West Virginia. Renewed fellowship loved by all was enjoyed until noon when families gathered together and with happy faces, spread their tables with all the delicacies which tempt the appetite. A prayer of thanksgiving was offered by George Roy Hess, of Harpers Ferry, West Virginia.

At 2:30 our president, James Bushey, called our meeting to order. We opened with group singing, after which our president introduced our speaker, Rev. W. E. Saltzgriver of the Woodbine Lutheran Parish, Woodbine, Md. He spoke to us on "Character Building in the Home," taken from the 43rd Chapter of Genesis. His most instructive and enthusiastic talk was enjoyed by all. Each family loves their home and with Christ as their example each home would have a good foundation on which to build a good family life. Each home needs love, sincerity, and religion, and each member a life that will be an example for others. Our worship was closed with a quartette number by David and Wilbert Hess, Henry Reindollar, and Franklin Fair; and prayer by Rev. Saltzgriver.

The business session was then opened. The minutes of 1949 were read and approved.

Statistics reported was as follows: Births, 10; Graduations, 4; Marriages, 7; Deaths, 1.

Greetings were received from several members who could not be with us. Roll-call showed 206 members present.

The 23rd annual Reunion will be held the second Sunday in August in 1951 at Big Pipe Creek Park, Taneytown, Md.

The following officers were elected for 1950-51: President, George Roy Hess; Vice-President, Daniel B. Naill; Secretary, Ella Mae Slagle; Treasurer, Wilbert Hess; Statistician, Katherine Hess; Asst. Statistician, Mrs. Ruth Byers.

FRIDAY AUGUST 18, 1950

HEALING HANDS

Jesus had many titles but perhaps the most appropriate was—The Great Physician. He healed leprosy—the most loathing of diseases. He spat upon the clay and anointed the eyes of the blind and bade them go bathe in the Pool of Solomon and sight was restored. He touched the ears of the deaf and hearing was restored. He made the lame to walk and they clapped and shouted and praised God.

He touched the tongue of the dumb and speech was restored. He cast out devils from the menage and they entered the swine that rushed into sea and were drowned. Yes Jesus was the Great physician—none greater. Strange as it may seem Jesus cared more for the physical ills of humanity than for the spiritual. He was the greatest personality that ever trod the earth. He fed the hungry that flocked after Him.

Strange indeed that he did all these things and the Jews persecuted him, that he was the greatest Jew that ever lived.

It was the Jews who cried "Crucify Him. His death be upon our head." Was it this self-imposed Jewish curse that caused Hitler to murder the six hundred thousand Jews. Who knows? W. J. H.

COMMUNISM MUST BE CRUSHED

Yakob Malik is the top Soviet Delegate to the United Nations. He is the mouthpiece for the Communists.

The United Nations is backed by 52 Governments. These civilized Nations represent the World Peace movement.

The trouble is with the Russian Communists.

The people of the United States have more brains and common sense than all the Communists in the world.

If Communists are determined to stand out and continue to bulldoze a world that is trying to restore peace and civilization, it will be necessary to conquer Russia and to show her that she cannot defeat the return of CIVILIZATION.

We have been tricked into the Korean Affair where Communists have murdered our American boys and men.

The opening days of the United Nations Security Council unveiled the plans of Stalin and Communists.

We all remember what happened to Japan and how we quieted their desire for fighting. We can repeat that plan.

Communism must be crushed. There are plenty of Atom Bombs ready for the job.—J. E. Jones.

This meeting was the purpose, first to create consciousness that women in all the Christian groups in the community belong to a world-wide fellowship committed to making Jesus Christ known in all the world, beginning in "Jerusalem" (the home community); second, to share ideas and plans with one another; third, to help and encourage one another. Leaders from other groups of church women in the community were special guests. FEESERSBURG

This is the month when mother nature with the help of thousands of farmers pours her bountiful supply of fruits and vegetables into the market places of the country. Home grown sweet corn picked from the fields early in the morning is one of nature's offerings greatly in demand. It sells on the average of 50 cents a dozen and the demand is greater than the supply. Garden fresh tomatoes are next in popularity with peaches, a close third. There is a heavy crop of peaches this year and the price averages three dollars per bushel. In spite of the local drought vegetables and fruits are plentiful and the prices about what they were last year. If the queen of the kitchen is so inclined this is the month to fill one's pantry and cellar with home canned foods, or if one prefers frozen foods, to freeze enough to last all winter. It is to be that the climax to any visit to the farm was to be taken to the cellar and allowed to gaze on the rows and rows of beautiful canned foods that the farmer's wife took so much pride in doing.

While working in the basement of the Keysville Lutheran Church, Carroll Wilhide met with an unfortunate accident. A fan placed on the window ledge fell off, striking Mr. Wilhide on the head, cutting a gash which required seven stitches to close.

People are funny. They can stand just so much of civilization. They have a superduper electric range in the kitchen which costs Pa nearly \$400, and then delight to cook outdoors over an open fire.

Finally, after being prodded by the P. T. A. of the Elmer Wolfe School and by the Francis Scott Key Grange, the County Commissioners have started to do something about the unsafe road from Union Bridge to Middleburg. At present the bridge over Cherry Branch is being widened. What else will be done to the road depends entirely upon the interest and concern shown by the people of the Union Bridge district.

From past observation, it seems the district making the most noise, gets the better roads and schools. It seems there isn't much vocal power in the Union Bridge district, although some one should raise their voice to high heaven until the road from the Elmer Wolfe School to Ecker's farm is made safe. This means straightening the blind curves and putting shoulders on the road. If a count was taken, it would show that there isn't a county road in Carroll County that bears more traffic than the Union Bridge-Middleburg road, and that there isn't a piece of road that has had less repair in the county than this road.

The Union Bridge Girl Scouts held an outing at Frock's Pool at Westminster, Friday evening, under the guidance of their leader, Mrs. Charles Lovell.

The Carroll County Chapter of the National Foundation for Infantile Paralysis will have a booth at the Union Bridge Lions Carnival. Information concerning polio and interesting literature will be given to any person desiring it. The first major epidemic of polio occurred in 1916 when 27,363 cases were reported. In the past 32 years, 262,552 additional cases have been reported. Remember, should polio strike your family, your local chapter is ready to help you. Call your local chairman, who will gladly get in touch with the National Foundation. Mrs. Millard Roelke is chairman for the Union Bridge district; Mrs. Gladys Wimert is the county chairman.

Miss Evelyn Coshun is visiting relatives in New Jersey for two weeks. Invitations have been issued by Mr. and Mrs. Edward Stambaugh to the wedding of their daughter, Miss Shirley Stambaugh and Mr. Maurice Tregoning which will take place on Friday evening at 7:30 P. M., in the Mt. Union Lutheran Church.

Miss Dolores Hitchcock and Miss Alice Booher, spent Monday with Miss Nancy Roelke.

Mr. and Mrs. Frank Bohn and children of Union Bridge, returned Saturday from a weeks tour of the New England States. They encountered ideal weather, but saw signs of drought in many of the places visited. Three of the things that impressed them most in their tour was the beautiful, rugged coast line of Maine, where the Atlantic Ocean beats relentlessly against the high towering cliffs of rock forming the coast line; West Point on the Hudson and Thousand Islands where each little island is privately owned. Incidentally one is owned by Arthur Godfrey and one is inhabited by one lone wooden Indian.

Just to show how little I know about politics, I wrote in this column last week that Mr. William Main was running for Judge of the Orphan's Court on the Republican ticket. Mr. Main is running for the office but he is a Democrat not a Republican. I deeply regret that error but I am sure either party would be greatly honored to have Mr. Main's name on their ballot.

Dr. Thomas Legge is having an ornamental fence put around his property at Mt. Union. The work is being done by Archie Eyer.

The jitters over communists have finally reached our small community. It has gotten to the point that one's neighbors suspect you of communistic leaning if you raise New Hampshire Red chickens instead of white leg-horns.

Mr. Keyton's father received the prize for being the oldest one present (86) and also a prize for having the most children present (8).

Big Business

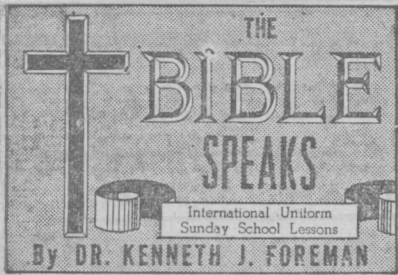

In 1870, America had 427,000 independent commercial and industrial enterprises which equaled one for each 91 persons. In 1947 America had 2,280,000 businesses, one for each 63 people. So, in spite of our big businesses, we have a larger number of small businesses even in proportion to our population.

Discovery of Iron

Iron—according to legend—was discovered by primitive man in campfire embers or in meteorites. Iron tools were used in constructing the Pyramids about 3000 B. C. The ancients produced iron in fires built on the windward side of banks, or in pits or rock furnaces, using bellows.

Wood Pulp Exports

Exports of wood pulp in 1948 were 35.9 per cent under 1947. Paper, paperboard and paper products exports last year declined 16.3 per cent under 1947 exports—paper exports declined 24.6 per cent, paperboard, 3.4 per cent and paper products 16.2 per cent.

SCRIPTURE: Luke 3:1-22; 7:18-28; Matthew 13:1-12.
DEVOTIONAL READING: Luke 13:1-10.

A Great Preacher?

Lesson for August 20, 1950

JESUS SAID of him that there had never been a greater man, than John, the Baptist. Certainly there has never been a greater preacher, to this day. He had none of the aids a modern preacher has. He had no song leader, no music of any kind; no church organization, no building, not even a tent. He was not even in a village but in a bandit-infested wilderness. There was little "dramatic" about him or his methods.

Dr. Foreman

Yet he started a tremendous revival, and he won higher praise from Jesus than any other human being received from him.

Candor

CONSIDER SOME of the qualities of this famous man. One was candor, that is, he was not afraid to speak his mind. His opinions were not always popular; his verdicts were not always those of the masses. But he spoke his mind all the same.

He called his bearers "generation of vipers,"—snakes' babies, in modern words. He freely admitted he was no Messiah. When on a later occasion he had his doubts about Jesus, he did not conceal them, but told Jesus straight from the shoulder that he questioned him. And Jesus honored his honesty.

Candor is a rare article. Those few persons in public life who are willing to speak their minds may make some enemies but they make more admirers. The odd thing is that people cover up their minds for fear they will be unpopular; whereas you will generally find that the candid person does not lack for friends.

Courage

THAT BRINGS up another quality outstanding in this extraordinary man: his courage. He could stand up to the most prominent citizens and tell them they were sinners, and name their sins.

It doesn't take much courage to say you are a sinner, or to say that any one is. Aren't we all? It takes more nerve to speak out in plain language, as John did to the Pharisees and Herod for example. When he called on men to repent, he meant a specific repentance, not repentance-in-general.

In a southern state there was a prison chaplain at the penitentiary. One of the prisoners had been convicted of stealing funds from the state bank. But he never had admitted his guilt, in court or afterwards. He was stand-offish with the chaplain, though before his conviction he used to be a church officer and a praying man, the chaplain could hardly get next to him.

Finally one day he agreed to pray. As he and the chaplain knelt down together, the prisoner began: "Lord, thou knowest that we are all miserable sinners..." The chaplain stopped him. Leaning over he said to the prisoner: "What are you in here for?" The man was still a moment. Then in a quite different tone of voice he began again: "O God, forgive me for stealing from the State Bank." It was the first time he had ever admitted his guilt. But it took courage on the chaplain's part as well as his own.

Common Sense

ANOTHER QUALITY of John which deserves notice is his simple common-sense. Listen to what he tells the men who come with this question: What must we do? John's common-sense mind knew that repentance, just by itself, is not enough. Repentance is turning from something bad to something good, from wrong to right.

Let the man with two shirts share with the man who has none, he said. Let him who has food do likewise. Let the tax-collector be honest. Let the soldier stop grumbling; even in an "occupied country" a soldier must not be unjust or cruel.

Pointing to Christ

WHAT MAKES John best remembered is that he preached Christ. He is known as the forerunner; he was the man who said of Jesus, "He must increase but I must decrease." The preacher who calls attention to himself is an egotist, a show-off; the preacher who draws men's eyes and hearts to Jesus Christ may himself be small, but his work will be great.
