KIWANIS NEWS

Shrimp and Crab Feed Attracts Large Gathering

The regularly scheduled meeting of the Taneytown Kiwanis Club was held in the form of a shrimp and crab feed at Big Pipe Creek Park last Wednesday evening. There was a large attendance at the affair comprised of members of the Westminton Hanguer Pa Fradevick Mt prised of members of the Westminster, Hanover, Pa., Frederick, Mt. Airy, Front Royal, Va., and Baltimore Kiwanis Clubs plus friends of the local Kiwanians. Due to the unexpected large number of people attending, the late comers did not receive the benefit of the full menu. However, the fellowship experienced was genuine and everyone in attend-

ance had a fine time.

The committee in charge for the crab feed was under the direction of Kiwanian George Harner who was assisted by members of the club. Plans are now underway for a

dinner to be observed in observance of National Kids Day on Saturday, Sentember 23.

MISS NANCY TEETER NAMED QUEEN OF SESQUI-CENTENNIAL IN ADAMS COUNTY

Miss Nancy Teeter, daughter of Mr. and Mrs. John D. Teeter of Gettysburg and granddaughter of Mrs. John S. Teeter, Taneytown, was chosen "Miss Adams County" and will reign as Queen over the four days celebration of the Sesqui-Cen-

tennial of Adams County.
Sen. Edward A. Martin, crowned the Queen at a Coronation Prologue which opened the first presentation of the historical pageant "Freedom's Frontiers" on Wednesday evening, August 30, at the Gettysburg College Stadium. The Queen and her court will take part in the pageant each

evening.
Miss Teeter waived the prize of an all expense trip to New York City to Miss Helen Steinberger, of Fair-field, stating that the honor of reigning as Queen was sufficient reward for her and she wanted the runner-up to have a share of the prize.

Miss Teeter is seventeen years old and will be a high school senior this Fall. She belongs to the Girls Athletic Association, plays in the high school band and orchestra, is adver-tising manager of the high school year book and news reporter for the

JET PLANE CRASHED Pilot Killed in Airplane

Near Emmitsburg

A jet plane on a routine weather flight check exploded during a thunderstorm about three miles east of Emmitsburg exploded before 10 P. M. Wednesday night and exploded with a roar that could be heard for a dist-

ance of several miles.

The F-84, based at Andrews Field, Washington, was blown to bits, parts of the craft being scattered over an area of three acres in a cornfield ad-

joining the Roy Sanders farm.

Dr. W. R. Cadle, Emmitsburg,
physician, who accompanied State
Trooper Kenneth Bond to the scene, said the body of the pilot was blown Dr. Cadle said he saw "a red flash,

and about three seconds later there was a loud boom." He estimated time of the crash as 9:30 p. m. DST. Lieut Joseph Kent, information officer at Andrews Field, said the official report showed the crash occurred at 8:15, Eastern Standard Time. A number of residents of Emmits-

A number of residents of Emmits-burg observed the jet before it ex-ploded. Some said the plane appeared to be on fire in midair. Others said it exploded while in flight. A depres-sion in the ground at the crash scene indicated that it might have exploded after hitting the ground. Some speculated lightning had hit the craft since it crashed during a thunderstorm.

The accident immediately attracted a large crowd of curious. Trooper Bond asked for assistance from Frederick barracks and the crash area was closed off from the public, pending arrival of military officials, who will make a formal investigation.

The accident occurred on the north

side of Route 32 between Emmits-

Lieut. Kent said the plane was one of two jets that took off from Andrews Field at 7:12 (EST) for a rought of the control of t tine weather flight check. Both were to possess more than average natural sometimes known as the White House died within three months of each

National Guard.

He said his report of the crash indicated one casualty. A complete check being made immediately, but no indentification may be made until next of kin are notified.

One of the planes was observed over Frederick about 9:40 o'clock (DST) last night. Apparently it was the one that returned safely to Andrews Field. It was flying low and the sound of its exhaust attracted a

number of residents.

Dr. Cadle said the body of the pilot was badly mutilated and that parts of the plane were too rmall to identify it.

KEYSVILLE-DETOUR WOMEN'S CLUB

Due to the fact that it rained on the night scheduled for our wiener roast we postponed it one night. Thus on August 24, members and their families gathered on the lawn at the home of Mrs. Gilbert Stine. Almost the total membership was present.

Our president, Mrs. Harold Thomas opened festivities by greeting every-one. Mrs. Robert Hummel of Steel-ton, Pa., led the Ladies Community Sing. The men were supposed to sing too but must have been bashful. At least tenor, baritone and bass were conspicuous by their absence.

Mrs. Robert Stine assisted by Miss Patricia Dilley led the crowd in playing games. There were also contests varied and amusing. Then came the big moment when refreshments were served. We are pleased that there was such a large crowd and evidently a good time was had by all.

SOUTHLEA AYRSHIRES COM-PLETE RECORDS

The purebred Ayrshire herd of Alvin Dudley, Southlea Farm, Keymar, Md., has completed its 5th year on the Ayrshire Herd Testing plan with an average of 9834 lbs. 4.0% milk and 396 lbs. of butterfat.

With a record total of 15,000 cows enrolled in the Ayrshire Herd Test Plan, the Ayrshire breed holds the record among all dairy breeds as having the highest percentage of its cows on test.

THE STATE OF MONTANA DESCRIBED

Rev. Enfield Writes About a Western State

Montana is a great state. Even any citizen of the state with whom one may talk will say that much. Several hours are required to cross the state from east to west. scenery is varied-mouuntains, rivers, prairies. Montana is one of our widest states. The distance across is about equivalent to the distance be-

about equivalent to the distance between New York City and Chicago.
On May 21, 1881, the Northern Pacific Railroad track reached Wilbaux in the extreme eastern part of the state. Pierre Wilbaux was a pioneer of Montana. He owned at one time one of the largest cattle outfits in Montana. His statue stands one mile west of Wilbaux on the south mile west of Wilbaux on the south side of the railroad tracks. He made provision in his will the money for the erection of this monument. Also stated therein were instructions that his remains be returned to this spot "overlooking the land he loved so well."

I remarked to a passenger on the train that North Carolinians think there is no other state like their own, and that if they leave it for a time, they invariably want to return to spend their last years. In reply to this the passenger said, there are several North Carolinians who own ranches in Montana and who are replied good, and they have no demaking good, and they have no desire to return.

Upon awakening from a nap, I discovered a young woman occupying the seat adjoining mine. In conversation, I learned she had boarded the train at Glendive, Montana. She was an intelligent young woman, a col-lege graduate, and one who seemed other, and she and a younger sister were left to manage a 5,000 acre ranch with around 300 beef cattle. It seems that about 20 acres are allowed as pasturage for each animal. This young woman was going to Deer Lodge in the western part of the state to spend a few days at the home of her fiance, an only child, and who also was a graduate of the same college.

Glendive was named by General Lewis Merrill of the U.S. Cavalry in honor of Sir George Gore, an Irish nobleman who hunted buffalo here in 1885, and whose Irish estate was 'Glendive.'

Lest this article becomes too lengthy, I shall leave my readers for the present at this point in Montana.

fit of Oscar's socialized planning."
WILMINGTON, CALIF., PRESS-JOURNAL: "The presidential Fact-Finding Board recommended a 40hour week and an 8 per cent an hour wage boost. The railroads agreed. The swtichmen, however, want pay for a 48-hour week while working 40 hours-The switchmen, by their arbitrary action, in derailing the nation's transportation industry, are creating support for Senator Donnell's bill to outlaw strikes and lockouts in the railroad industry. Should it come about, strikes like that called by the switchmen will be responsible.

BEREA, OHIO, ENTERPRISE: "Even the best spenders at Washington are a bit scared, and are resorting to schemes to deceive the taxpayers. A couple of their best are to include in budgets authorizations for things to be done, with no appropriations for them. The money will come later after the expenses are contracted for. Another is authorizing of pretentious schemes for small amounts, with consequential pig appropriations coming up in subequent budgets."

LEWISTOWN, PA., SENTINEL: The Federal government will never be able to economize so long as every congressman is judged by his ability to 'bring home the bacon.'"

FEESERSBURG

The little red School house is out of style and so is the hickory stick. But the A. B. C's are still the same and so is Arithmetic.

So school days are with us once again, as millions of boys and girls get ready to pour into the class rooms next week. To the first graders it will be the day when mother fades into the background and teacher steps forward to assume new authority and new interest. To the teachers it will be the task of trying to put into young minds the ideas and information that will make them happy, useful citizens and to the parents it will be the beginning all over again of lunch boxes, mislaid books, lost clothing and that inevitable last minute scramble to get Johnny and Mary to the ous in

Sunday visitors of Mr. and Mrs. Lee Fink were: Mr. and Mrs. William Leitz and Mr. and Mrs. Harvey Gomer and children, of Baltimore, and Mr. and Mrs. C. McNeil, of Lansdowne.

Mr. and Mrs. Frank Rentzel, of Middleburg have received word of the safe arrival of their son, Charles in Japan.

Miss Vivian Mathena, 15 of Granite, Baltimore County was chosen "State Farm Queen", Saturday at the Timonium Fair grounds. She will reign over the annual Timonium State Fair from August 30 to Sep-tember 9th. Miss Mathena was sefrom 28 farm girl entries from Maryland in the contest sponsored by the Associated Women of the Maryland Farm Bureau.

Mrs. Bessie Louise Jones, age 71 widow of William H. Jones, died on Monday in the Eye, Ear and Nose Hospital, Baltimore. She had been operated on for the removal of cataracts from her eyes and had recovered from the operation, but suffered a cerebrial hemorrhage just a day before she had planned to come home. She was a member of Mt. Union Lutheran Church. Funeral services were held Wednesday afternoon at 2 P. M. with her pastor the Rev. Donald Warrenfeltz, conducting the service. Interment was made in the Lutheran cemetery at Uniontown.

Mr. and Mrs. George Grossnickle and daughter of Union Bridge moved to the George Knill farm near Middleburg, last week

Mr. and Mrs. Laurence Roeike and children Carolyn, Laurence, Jr., and Kathy of Detroit are visiting the George Roelke family this week. Miss Marlene Boone of Union Bridge spent last week with uncle and aunt, Mr. and Mrs. Cleon Wolfe.

The Union Bridge Girl Scouts with their leader, Mrs. Charles Lovell will spend Saturday in Baltimore, enjoying a show and some sight seeing.

flixed so that one can see another car aproaching, the road from Union Bridge to Middleburg will not be too bad. No doubt every one is getting tired of hearing about this stretch of road but we who have had to travel it, have been tired of traveling this kind of road for many years.

The 47,000 Boy Scouts who held their second national Jamboree in Valley Forge, Pa., ate 25 miles of frankfurters and two freight car loads of breakfast cereal.

Vermont has more cows than hu-There are 375,830 Vermonters and 405,000 cows.

Here is something to think about especially for those who are always telling us how much longer man's life span is going to be. There are about 10 million men and women in the U.S. over 65. Almost 60% are dependent for their support on their children or upon the community. Some one should begin telling industry that a man's usefulness is not over at 65 and that he has to eat just the same.

If you've been drinking a lot of ice tea this summer, perhaps you would like to know the reason why. 1904 an Englishman named Blechynden, trying to promote a new blend of tea, set up a booth at the St. Louis World's Fair. Just then a heat wave struck, and prospective clients ignored his hot drink as if it was deadly poison. Desperate, he bought some ice, dumped the tea over it, and invented a new drink which sold by the barrels. Incidentally, the same fair introduced the ice cream

There's a question I would like to ask. Why is it that when a guest comes in a room he or she invariably chooses the only uncomfortable chair in the house, and can't be budged out of it and fidgets all evening, and so do you? Anybody know?

My grandmother always said the greatest new household boon in her time wasn't electricity or automatic washing machines—to her it was linoleum. I can well understand her point of view. Her kitchen was as large as a modern five room apartment and the floor was bare. Every morning as regularly as breakfast dishes the kitchen floor was scrubbed with sand and homemade soap. I can still see it now-the pine flooring almost white from so many scrubbings and the odor was as clean and antiseptic smelling as a hospital surgery.

Tuesday is registration day Carroll County. The primary election is on Sept. 18 with the general election in November. We try to keep this column free of partisan politics but it seems to us that any candidate the promises us reduced taxes in who promises us reduced taxes in these critical and expensive days is either taking us for gullible morons or is not being realistic and therefore not the kind of person we want for governor. All of us fuss about taxes but people of mature minds know that one must pay for every thing one receives. If we want roads, schools, police protection, beginning schools, police protection, hospitals and the dozen other services our state gives us then we must pay for them—if not by a sales tax then by some other tax. But you can be sure of one thing—pay for them we will.

Tresslertown is a modern, vibrant village, not unlike the average American community. It has its chapel; Hospital, its residence halls, its community centre; its printery, its play ground; its swimming pool; its gymnasium and a beautiful landscaped campus. For more than 82 years boys and girls have learned to worship, to study, to work and play. At Tressler Orphans Home 130 children lived there during 1949. What Tresslertown is today is due to the friends, love and generosity of Lutherans who over the years have so abund-antly supported the home. Order from Your Local Newsdealer In Loving Memory of our mother, BESSIE VIRGINIA SIX,

who passed away 4 years ago, Aug. 29, 1946

Some one who misses you daily And finds the time long since you're gone There is someone who thinks of you sadly And tries to be brave and strong. Though the tears in our eyes do not

glisten
And our faces are not always sad
There's never a night or morning
That we do not think of the Mother we had You're gone, but the treasure you left us Is truly, a value untold A life filled with deeds of kindness And beauty of heart and soul. Loving daughter, CLARA AND FAMILY.

In Memory of CHARLES UPTON MEHRING, JR., who died 6 years ago, Sept. 2, 1944

Six years have passed since that sad day, Six years have passed since that sad day, When the one we loved was called away. More and more each day we miss him, Friends may think the wound is healed, But they little know the sorrow, Lies within our hearts concealed. Nothing can ever take away, The love our hearts hold dear, Fond memories linger every day, Remembrance keeps him near. And while he lies in peaceful sleep, His memory we shall always keep.

GEORGE P. MAHONEY Says,

"For these things I stand"--

MY STAND ON THE SALES TAX

I am absolutely opposed to a permanent continuation of the present Sales Tax, and, when I am elected Governor, I shall take immediate steps to secure its prompt amendment and eventual elimination.

I am opposed to this present Sales Tax because it places an undue burden upon those people in the lower income brackets who are least able to pay, and is out of all proportion to their ability to pay; it favors some business enterprises at the expense of others; it drives business across State lines; it is subject to easy and simple evasion, is difficult of effective administration and it is unfair and unjust in its application and results.

But, I would not be honest with the people of Maryland if I attempted to make them believe that I, or anybody else, upon taking office as Governor of this State, could immediately eliminate the entire Sales Tax.

Commitments involving millions upon millions of dollars have already been made by the present administration which must be paid for out of taxes. Whether justified and warranted or not, whether extravagant or not, it will take time and a sincere desire and extraordinary effort to wisely reduce our tremendous and frightening increase in expenditures, and eliminate the taxes which pay for them.

I give my solemn pledge to the people of Maryland that if I am elected, I shall immediately use my best ability, every bit of my energy, and every possible means, to achieve that end and correct the mistakes that have been made.

However, these things I know I can do, and I shall do: I will recommend to the Legislature:

(a) the immediate increase of the exemption in the Sales Tax from 14c to 34c;

the immediate elimination of the Sales Tax from all foods, whether purchased in restaurants and public eating places, or for

the immediate elimination of the Sales Tax from all fuels used for household purposes;

the immediate elimination of the Sales Tax from all medicines, drugs, and household remedies which are not now exempt, and from oils, powders and like articles used in the care of babies;

(e) an immediate reduction of ten per cent (10%) in income taxes on earned and unearned income of individuals.

I assure the people of Maryland these things can be done, and I pledge that I will do them without in any way detrimentally affecting teachers' salaries, the public school system, the operation and administration of our hospitals, the improvement and maintenance of our State roads, or any other vital public function, and without in any way depriving our political subdivisions of their financial aid.

have been purposely conservative in the above reductions which I am recommending. I am convinced, however, that it will be possible to further increase the Sales Tax exemption and make other substantial reductions and eliminations in taxes after I have had the opportunity to examine our governmental and tax structures from within, instead of from the outside, as I am forced to do now.

BUDGETING AND ACCOUNTING CONTROLS

The Sales Tax and the recent tremendous increases in our other State taxes are to a large extent due to the failure to adopt and institute an adequate and approved system of fiscal accounting and budgetary controls, with

quate and approved system of fiscal accounting and budgetary controls, with competent, fearless and effective administration.

If an adequate, modern and understandable system of accounting and proper budgeting controls, with continuous scrutiny and checking, had been adopted—if the uneconomic freezing of millions of dollars of idle cash money in the State Treasury (which is held there through the antiquated system of special dedicated funds, and which takes money away from the taxpayers far in advance of any need for its use in financing State services) had been discontinued—if a stop had been put to the wasteful and profligate practice of basing requests for appropriations from the Legislature on estimated receipts by Departments (which encourages the spending of more money than is reasonable necessary)—and if, after study, changes had been made in the sprawling structure of government organization, with its innumerable indesprawling structure of government organization, with its innumerable independent and uncoordinated departments, boards commissions and other agencies, over which there is now no effective control and management—all of which have been recommended time after time by the Efficiency and Economy Commission, by other experts and by the Press—there would have been no need for the tremendous increase in taxes forced upon the Legislature and the neonle of the State. and the people of the State.

and the people of the State.

State agencies having general fund appropriations and special fund moneys both available, now spend those special fund moneys for purposes never contemplated or authorized by the budget and the appropriation bills approved and passed by the Legislature. There is no valid reason why special funds should not be subject to regular budgetary control just as general State funds are. Where special funds are included in the budget, no account is taken of the balances on hand. Year after year appropriations are made by the Legislature under a so-called budget based almost entirely on estimated receipts, and the balances are carried forward and expended under blanket authorizations, so that the expenditures finally far exceed the amounts actually budgeted and approved by the Legislature.

This procedure creates unlimited opportunities for extravagance and almost criminal waste in the expenditure of the hard-earned money of the people of this State.

almost criminal waste in the expenditure of the hard-earned money of the people of this State.

Immediately upon my inauguration I shall take steps to abolish these vicious practices, and I shall set up a small permanent staff of experts to make a thorough study of the organization and operation of the administrative structure of the State Government for the purpose of eliminating the over-lapping and duplication which now exist in State agencies and their work, to correct our obsolete, unbusinesslike, misleading system of accounting and budgeting, and our haphazard taxing practices, and secure such legislation as may be necessary to effect the needed changes; and then I shall make that staff a/continuing, day-to-day check at the operating levels of the State government.

In addition, I shall appoint an advisory board of recognized public spirited business and professional men and women who will put the interests of the people first, to give the State the benefit of their experience and judgment in these matters, and to guard the interests of the public.

ROADS

I propose to build throughout the State of Maryland the kind of roads the State needs and can afford. I am opposed, however, to the State roads building program which will cost another Five Hundred Million Dollars, according to Governor Lane and his State Roads Commission, in addition to the Two Hundred Million Dollars which already has been committed for or spent by them. I am opposed to the building of fancy "denied-access" roads throughout this State, which cost from Eight Hundred Thousand to One Million Dollars a mile to build, and which will, if Mr. Lane builds them, saddle the State with a debt from which it can never extricate itself, require the raising of the tax on gasoline to fifteen cents or twenty cents a gallon, or the doubling or perhaps tripling of the present Sales Tax, or the putting

or the doubling or perhaps tripling of the present Sales Tax, or the putting of toll gates across the roads of Maryland and the making of toll charges against the citizens of this State who are compelled to use its roads.

What Maryland really needs, and what I shall give it, are plenty of good dual-lane highways, honestly constructed, the majority of which can be built for anywhere from Two Hundred Thousand to Two Hundred and Fifty Thousand Dollars a mile, and at the most Four Hundred Thousand Dollars a mile, instead of roads now being built costing from Eight Hundred Thousand to One Million Dollars a mile. and to One Million Dollars a mile.

STATE HIGHWAY EXPLOITATIONS

I am in favor of legislation which will control the use and development of land bordering on State highways so as to eliminate road-side slums, dangers to life, and unbridled exploitation by billboards and business establishments of land immediately adjacent to our roads.

TRAFFIC ACCIDENTS AND DAMAGE OF STATE ROADS

I promise an immediate study and proposal of effective legislation to reduce the deplorable and tragic number of deaths and accidents occurring on State roads, and the damage and destruction of those roads as a result of uncontrolled overweight trucks, improper and unsafe motor vehicles, and the lack of adequate inspection.

MENTAL HOSPITALS

I shall immediately correct the deplorable conditions which still exist in our mental hospitals and proceed with the improvements so long neglected; and I shall take steps to inaugurate and operate a mental care hospital program, with the emphasis on treatment and cure rather than on bricks and mortar, which will not call for the spending of millions of dollars on the erection of buildings and the expenditure of many more millions for their maintenance and operation, but will be primarily designed to properly staff our institutions and establish and carry on mental hygiene clinics in the cities and counties of the State, where unfortunate mental cases can be diagnosed, treated, and cured, and complete mental breakdowns prevented.

COMMUNISM AND SUBVERSIVE ACTIVITIES. I am opposed to Communism and to the coddling of Communists in this State and in this Country. I believe with every fibre of my being that the State should take every proper constitutional measure to protect itself, its citizens and its institutions against the infiltration of Communism, antidemocratic processes and subversive activities, and that this State should use its influence with the Federal Government to the same end.

I am in favor of legislation that will give to the cities, towns and counties of Maryland the kind of home rule that will enable them to have a greater measure of self-government. This is a vital part of the democratic process in which I believe.

HOME RULE

PUBLIC EDUCATION

It is my conviction that the subject of public education is a matter of primary importance. The very best in educational facilities for every child in the State is a requisite for good citizenship. A modern, progressive system of education, completely divorced from politics, with continuing aid to cities and counties, with planned program for higher educational facilities, for handicapped children, vocational education, in-service training for teachers, By authority-Wm. P. Webb, Treas.

and above all, adequate salaries sufficient to attract well qualified men and women to the teaching profession, are a necessary part of such a progressive system of education. They are merely sensible, businesslike investments, the dividends from which are intelligent, independent, wage-earning citizens, who, in turn, add to the wealth of the State and help to provide the means for maintaining other public needs as well as adequate educational features.

CONSERVATION AND FISHERIES I propose to put an end to the practice of making our problems of consersation of natural resources and tidewater industries a political football. The judgment and advice of practical, qualified, intelligent and honest tidewater county citizens and of experts, who can work harmoniously with each other and with the Governor, should be sought and utilized in establishing a program of research, experiment, and inforcement which will rehabilitate our oyster, crab and fish industries, and encourage and protect this great source of livelihood for our tidewater county citizens.

WELFARE PROGRAM

I promise an immediate study and improvement of our State Welfare program having to do with relief aid, old age assistance, child care, the blind and deaf, and other disadvantaged groups.

ORGANIZED LABOR

I believe that Organized Labor should be represented on those Boards and Commissions of the State that are engaged in public functions which affect the working men and women of the State; and I shall appoint to office qualified representatives from the ranks of labor to the State Industrial Accident Commission and the State Unemployment Security Board.

WOMEN'S PART IN STATE GOVERNMENT

I stand for giving the women of Maryland a greater opportunity to take the important part which they are qualified to take in the management of State affairs, instead of the minor part that has been thrown to them in the past as a political sop. I promise to make appointments of women to those positions in which they are particularly qualified to act.

OFFICES OF CLERKS OF COURT AND ORPHANS' COURTS

I am in favor of legislation looking to the eventual consolidation of the offices of the clerks of court and the abolition of the present Orphans' Court system. However, I believe, and will insist, that fair and reasonable consideration and protection should be given to those persons now serving in such offices who would be affected by these changes.

CONSTITUTIONAL CONVENTION

CONSTITUTIONAL CONVENTION

The best legal and disinterested political thought in the State is divided on the question as to (a) whether there is a real need for a new State Constitution, (b) whether a Constitutional Convention is the best and most practical means for making such changes as may be determined to be proper and necessary, and (c) whether this State should embark, at this period of domestic and world-wide upheaval upon the rewriting in its entirely of our State Constitution.

In any event, this question is more properly one for the people in November, when it will be voted upon by all the voters of the State. In the meantime, a general and full discussion of the subject can be had, an attempt can be made to secure crystalization of competent opinion, and the respective candidates for legislative and executive offices of both dominant political par-ties can make known their positions and their platform promises on the sub-

Then if a majority of the voters indicate their desire for a constitutional convention, I will do everything I can, as Governor, to carry out their wishes. REPRESENTATION IN GENERAL ASSEMBLY

I believe that the City and the counties of the State should have fair and reasonable representation in the General Assembly.

VETERANS' BONUS

I believe the matter of a State bonus for Veterans should be determined in the democratic way by a referendum to the voters of Maryland. If the Legislature passes a proper Act with provision for a referendum, I pledge, that I, as Governor, will sign it forthwith.

JUDICIAL REVIEW OF REAL ESTATE ASSESSMENTS

I believe that there should be some provision made for judicial review of the facts as well as the law under decisions of the State Tax Commission respecting valuations and assessments on real estate.

VETO POWER

I believe the Governor of the State should not have the power to pigeon-hole enactments of the State Legislature until after the adjournment of the General Assembly and then thwart the will of the Legislature by a veto when it is impossible for the Legislature to override his veto.

REGISTRATION

The experience, in recent times in Baltimore City, with the operation of the permanent registration system for voters, has demonstrated to the public, I believe, and has convinced me, that some revision of the law and practices in connection with registration must be made, so as to better serve the public convenience and guarantee fair and honest elections.

HOUSING ACCOMMODATIONS

I believe the State has been derelict in not grappling with the statewide problem of insufficient housing accommodations. I propose to have a study made of these conditions with a view to having the State assist in ameliorat-

ENCOURAGEMENT OF STATE INDUSTRIES

I believe that, to every extent possible, the purchases of supplies should be of Maryland commodities and Maryland products and in aid of Maryland industries, so that such industries, as coal mining in Western Maryland for instance, can be encouraged, and residents of mining communities can be gainfully employed. gainfully employed.

And, finally, I promise that: (a) I shall attend to the business of this State day in day out, and be available to and in continuous touch with department heads; and I promise that no vacancies will be allowed to exist in important State positions and

that no vacancies will be allowed to exist in important State positions and Boards;

(b) I will periodically visit every city and county in the State and keep myself informed of their problems and views;

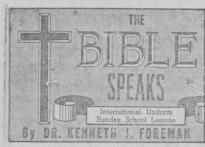

(c) No business I am engaged in or financially interested in will have, at any time, any business dealings with the State of Maryland while I am Governor;

(d) I will be available to the Press for interrogation, so the people can be informed on all matters of public interest; and I shall be accessible at all reasonable times to the people themselves;

I am not now, and I will not be, obligated to or controlled by any political bosses, so that when elected, I shall be a free Governor of the Free State of Maryland.

Man of Power

Lesson for September 3, 1950

"T KNEW him when-" can be a down many a good man. Some one District 1, Precinct 1—Firemen's is being considered for a job, and Building, Taneytown, Maryland.

he is just about to be accepted, when somebody sounds off with "I knew him when—"

"I knew him when he was a boy and he was a neighborhood nuisance. I

knew him when he used to live here, and his family were Dr. Foreman no-account. I knew him when he was in school and he never had high grades. I knew him before he amounted to anything, so he can't amount to anything now.

A Case Against Peter

TT IS A GOOD thing the Christian church never took that attitude about the Apostles, and a very good thing they didn't take that line with Peter. It is true that he did not come out of the top drawer. It is quite true that when he was young he was no prize specimen. In fact, it would not be hard to make almost as strong a case against him as against Judas, if you take Simon Peter at his low.

"Shall we keep Peter on our list?" Suppose you had been one of the other apostles and had been asked that question the night after the crucifixion. If you had not had a rather generous heart, you could easily have turned in an unfavor-

"Well," you might have said, "he has some good points. He is sometimes on the alert, never fails for something to say. But he doesn't always come through in a pinch. I understand the Lord took him up to the top of the mountain when he was trans-figured, and what did that man do but go to sleep? Any of us would have given our right eye to have been there. But we never did get much of a story out of poor old Simon Peter. He was asleep most of the

"And do you remember that din-ner when Mary poured all that ointment over Jesus' head? It was a beautiful thing for her to do, I mean her motive was beautiful. But Peter complained about it.

"Then there was the night—only last night, but it seems a year away
—when Jesus took Simon Peter and those two others into the garden with him. All the Master wanted was company. But old Peter was asleep again in no time.

"But that's not the worst. Last night at the supper table Peter bragged about how brave he was got out a couple of swords in fact -and he swore that even if every one else denied the Master, he wouldn't. But just before cock-crow he showed himself up for a liar and a coward. Some girls, just a girl, mind you, somebody out of the kitchen, said she knew he was a friend of Jesus. And this Peter starts swearing in the ugliest kind of language that he never knew Jesus, his very best friend.

"Well, Judas hanged himself, and Peter might as well I don't see how he can possibly hold his head up again after last night."

Man of Power

NEVERTHELESS, Peter became a hero, a man of power. Look at his story in Acts 2-5. A recognized leader of the Christians, defying the very men of whom he had once been so afraid; honest, rockribbed, standing up for the Master when it meant risking his life to

Even if you could not believe the miracle-stories which are told about him in Acts, you would have to admit that it is not every man who has miracle-stories told about him.

It is no weakling who has the reputation of being able to raise men from the dead and to kill liars with a glance of the eye.

* * * Transforming Secret

WHAT WAS the secret of Peter's transformation from the halfbraggart, half-coward he used to be, to the stalwart fearless man of power he became? The answer is in those stories in our Scripture readings from Matthew and John.

The first tells of Jesus' faith in Simon Peter. The second tells of that again, and also of Peter's response to Jesus' faith in him. It is the secret of any Christian's success in being all

that God knows he can be. (Copyright by the International Council of Religious Education on behalf of 40 Protestant denominations. Released by WNU Features.)

"What do you want to be when you grow up?"

Boy-dreams are grand dreams. And strictly American, too, because here they can come true. With the traditional freedoms of this country, every boy has the privilege of choosing his own dream and working it out the way he wants.

Who would want to end those dreams? Who would want to trade away a boy's freedoms and opportunities?

Maybe you've heard people say, "Let the federal government take care of things. Let it take over the doctors. The railroads. The electric light and power companies."

Are they socialists? Not necessarily. Most of the people who talk that way just think it would be good for them, or for their town, or for everybody, if the government took over this problem or that one - this industry or that service. They don't stop to think that every time government takes over another responsibility, men and women lose another right or another

History shows that when government controls enough things, it becomes socialistic automatically, whether the people want it or not. And then freedoms are gone - even the freedom to choose where to work, where to live, what to believe. Under socialism, there's no place for boy-dreams - or even grown-up ones.

This company and other business-managed, tax-paying electric light and power companies are fighting this creeping socialism wherever we find it. We believe it's your fight, too. How do your friends feel about it? Talk it over with five of them this week. The threat of socialism is everyone's problem because it is everyone's danger!

Although Christopher Columbus was one of the greatest navigators and seamen of all times, he had one very human weakness that caused him to be unpopular with his contemporaries. The man who discovered America, liked to say "I those who had formerly belittled him.

Rust Inhibitors

Through the research of the paint and finishes industry, effective rust-inhibitive protective systems have been developed which add longer life to structural materials and cut down greatly on the annual bill of damages resulting from corrosion.

Earth Worms

Addition of live earth worms to the soil in tests has resulted in an increase in crop yields of 83 per cent, according to a Cornell soil conservationist. A winter cover crop or manure on the surface will help protect the worms during the

Dairy Cattle

If the grass in pastures gets short, hay or silage should be fed to dairy cattle or some of the hay land to be plowed next spring should be grazed; otherwise, cows and calves that have summered well are likely to lose weight.

Ferocious Octopus

The octopus is a member of the family caphalopoda, which means "headfooted." With eight writhing feet, or arms, reaching out from a mournful ghostly face, this devilfish has a reputation for ferocity that is by no means undeserved.

Steel Production

In America, with 7 per cent of world's population, we produced 55 per cent of the world's steel, and Indiana, which contains approximately 3 per cent of our population, produces 12 per cent of America's steel.

Beryllium

Beryllium, a hard, lightweight metal used in the manufacture of fluorescent lights and in many other industrial applications, has been found to interfere with the body's use of sugar and other foods of the carbohydrate family.

WE SALUTE

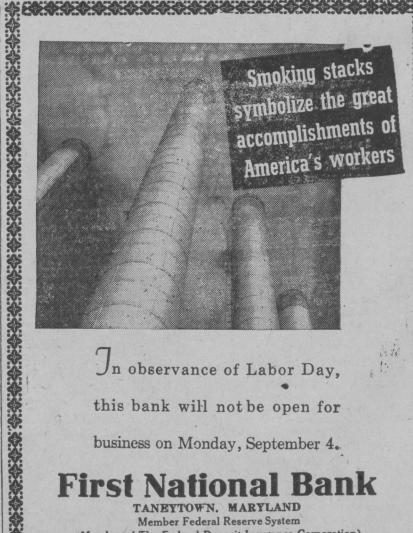

From the axe of the pioneer to the marvelous machines of modern industry, the nation's greatest power resource has been man power. The skill, brains and brawn of our workers have brought this country to its present leading position of industrial greatness. All honor to them both on Labor Day and throughout the year.

May we suggest to the ambitious worker that he use the protection and the varied facilities of this bank as a "tool" for the building of his financial independence.
