MEMORIAL DAY

Plans are About Complete for its Observance

The Memorial Day committee have announced that final plans for Memorial Day in Taneytown have been completed. These plans will include a parade and appropriate memorial services in the cemetery of the Grace Reformed church.

The parade will form on the Uniontown road, Wednesday, May 30, at which time a short service will be held at the World War I honor roll. The parade will move at 1:30 P. M. This year the committee have secured the services of the William F. Myers & Sons Band of Westminster and the V. F. W. Drum & Bugle Corp. of Chambersburg, Penna., also The American Legion Drum & Pipe Corp. of Taneytown, the Kingsdale Fire Company and Auxiliary, Marching groups from the Sunday schools, the Boy Scouts, the 4-H Clubs, the Ocker Snyder Post American Legion of Littlestown and many other organizations from surrounding communities.

The route of the parade will be as it has been in previous years, in that it will pass to each cemetery in town at which time there will be a short service and disbanding in the Reformed cemetery.

The speaker of the day will be the Rev. C. C. Rasmussen, of Gettysburg College Seminary. The program will be in charge of Merwyn C. Fuss, of Taneytown. The committee from the American Legion who have arranged the parade and program are as follows: Merwyn C. Fuss, chairman, committee members included Raymond Haines, Albert Smith, James C. Myers, Sr. and Francis Lookingbill.

NO VACATION BIBLE SCHOOL

The annual vacation Bible School, sponsored by the Protestant churches of the community, will not be held this year according to announcement received from the executive committee representing the churches. Three reasons have been advanced for this decision. First and foremost, the public school facilities have not been made available this year. Secondly, no church in the community can provide adequate facilities for the program. And thirdly, an adequate staff of qualified teachers is not in prospect at the present time.

Three years ago the public school was made available for this program in Taneytown as a number of other communities had done likewise. Also this was done last year before the erection of the new elementary school building.

For many years this Vacation Church School has been held in Taneytown each summer for two weeks after the close of the public school. A fine staff of qualified teachers has usually been secured for this purpose. Most of them have had training and experience in the teaching profession. Also a number of assistants have been secured from among the high school students. The course of study followed is that provided by the International Council of Religious Education. It includes a program of study, worship, play, arts and hand crafts. In all it has been popular with both children and parents.

The Vacation Church School is set up with one of the pastors as dean. When the public school was made available for this purpose there was added a Director of Religious Education.

An other reason for the decision against holding the school this year, is the fact that no church in the community at the present time has the facilities or equipment to handle the program.

Prior to three years ago, when the enrollment was much smaller than now, the Vacation School was held in one of the churches. This involved the confusion of having several classes in one large room where each disturbed the success of the other.

This problem was solved by the use of the public school where each class could have a separate room of its own. This brought a liberal increase in the enrollment. Last year 150 children attended. This included the pre-school age and grades 1 to 7. In addition to the dean and director of religious education a staff of 21 teachers and assistants, helped in the program. And, at the end, the two service clubs of the community, gave the children an outing and picnic at Big Pipe Creek Park.

A third difficulty in the way of having the school this year, is the shortage of qualified teachers available for the undertaking. Some of those willing to help are going to summer school or will be away for some other reason. Others plan to take a summer position. A number have small children in the home. While a large number of young people have volunteered their services as helpers, the Vacation School cannot be held unless a sufficient number of qualified adults can volunteer their services.

It is deeply regretted that this announcement has to be made. And it is earnestly hoped that next year this fine program for the whole community may be resumed.

Mayor Perry Makes Statement at Public Meeting

Mayor Raymond J. Perry opened the public meeting held Monday evening in the Municipal Building with a report of the work accomplished by the Mayor and City Council during the past year. He said—

"I would like to take the liberty of a departure from the public town meetings that we have had in the past to give you a summary of the work that has been accomplished by the council this past year.

We have widened the Roberts Mill Road from George Street to Broad Street, paved Franklin Street, also paved a small part of Commerce Street, remodeled the entrance to the Uniontown Road by setting the World War I monument back and adding a pavement for the Elementary School, and in working with the State Road Commission, macadamized from the old road to the gutter.

We also provided an officer at the corner to take care of the children going and coming from school.

We have added new lights in bad places over town, we have also leased the rear of the United Brethren Church property for a public parking lot and have bought the rear of the Presbyterian church property—also for a public parking lot.

We also have had a planning, zoning, and sewer bond issue passed through legislature. We also, in view of the conditions of the old pump at the pump house, decided to put in a turbine pump. We also put in a 6-inch water main through the Morris Feaser addition, and it is the hope of the council that we continue it through the Mrs. Claude Derr property to connect to the main going out East Baltimore Street. The pipe and fittings are on hand for this work.

We also have on hand pipes and fittings for the laying of a 6-inch water main from the rear of the Lutheran Church property to Sandy Lane and coming back to connect to the 4-inch main at West Baltimore Street.

This is a brief summary of the things we have accomplished in the past year and what we have on hand for the future.

Also, in the past year, we have paid off all the town's indebtedness and as of today have money in the bank."

S. E. Breth was selected to preside over the meeting with Henry I. Reindollar, Jr., acting as secretary. A number of persons were named for the office of City Council but most of those named declined to allow their names to appear on the ballot for the election to be held June 4th.

Among those nominated were: Raymond Davidson, A. D. Alexander, M. S. Baumgardner, Franklin Fair, Harry Mohney, Norman Sauble, John Hocksmith and Murray Baumgardner.

A committee of three were appointed to complete the ballot so that less than six persons from those selected decide not to run for the office. They were: Norville P. Shoemaker, B. J. Arnold and Curtis G. Bowers.

Synod; Dr. Fife led discussion on Adult Workers; and pastors and superintendents division was directed by Rev. Ralph M. Miller of Brunswick. These conferences were valuable, as everyone was free to ask questions on the problems in their Sunday Schools.

The Resolutions Committee report expressed many heartfelt gratuities to the host church, officers of the Association and Program Committee for the arrangement of the helpful program, and whose presentation made the theme live, "Improved Sunday School, for Better Home, Better Church."

THIS 'N' THAT

(Your Chatty Column)
With all my heart, I wish you every morning
A smile that shall last until the next day's dawning.
I wish you health—life's greatest wealth!
I wish you always near so that I may help to cheer
Each future day and in some way—help to bring you happiness!

Did you hear, Folks the program of "Break the Bank" on May 15 that little boy, Tobby Nelson knowing all the answers and collecting the sum of \$9260, which comes on the air each morning at 11 o'clock? It is sponsored by the Cannon Towel Company. It so happened that the little boy has great aspirations in life to become a Minister! What a grand start he had in life to pay his way!

Thinking of Cannon products—nothing can compare with their fine thirty towels and their fine linens. They really do outwear other makes. Your Observer has towels which were even used by my three little "Sonny" boys when they were small and that was seventeen years ago. The colors are still glamorous, too which are rose, green and blue! It pays always in the end to get the finest on the market and those materials are like the name powerful and strong—"CANNON".

The very name of "FIRESTONE" sounds dynamic and you know their products are tops. Your Observer has always used that famous tire on each and every car. None could be finer! Of all the years of using that tire, I have had only about six flats and then that was due to picking up a nail. That company is one of the most reliable and a recent test convinced me of the fact. I had purchased two new tires of "Firestone" and one evening went to get the car out of the garage and there was a flat to my surprise. A young man around our town came to change it and noticed a slight mark on the interior of the tire. When I took the tire back to the company after using it for several months, a new one was presented to me. You see, Folks that establishes confidence in every individual and as it should be.

If you want to see real affection for a baby sister then you should visit those two red haired babies around our town. Devotion is the word!

Ladies, have you noticed the sweet odor now that comes with "Babo"? It tops all in any kind of scouring!

So many young girls are having their cars pierced these days for the glamorous earrings that are being shown in the stores. Faye Emerson started the fad, no doubt.

Did you see the show by the Hollywood Stars "Lux Video" on Wednesday night of last week called "Close Storm"? The acting and the story was thrilling besides a most interesting plot.

Thinking of Video, Folks—there is a couple who are elderly and can afford the most expensive kind of a set—yet they do not purchase one and are regular viewers on the set of the house next door! They reside in New Jersey and enjoy it all immensely. I know a few just like that, too and I do not know the answer to that one! Do you? Again, I repeat—to have a video regardless of size or price—there is nothing finer and money so well spent which you will never regret!

On T.V. it was shown of the grave of a Sam Smith which was being restored. He saved Baltimore in the year of 1814 and when he died was buried in the Presbyterian Church yard at Fayette and Green streets.

The teachers and the Principal of the Elementary school around our town should be congratulated as the pupils on PTA nights are just about the best behaved and mannered of any I have ever seen! They are most interested in the individual who is the speaker or speakers of the evening and Your Observer noticed and observed it all. The dances were done beautifully without one mishap.

You know that old saying, Folks

MEMORIAL DAY

There are not many (if any) now living who lived during the trying days of the Civil War. Those were times that tried mens souls when brother fought against brother on the battle field. I am advised that this was especially true of Maryland. The North had the men power and wealth, the South courage and endurance. Historians are divided as to the cause. Some hold that it was secession, while others hold it was slavery. Both were right, and each course seems to have prevailed in certain sections. It was my privilege and pleasure to speak for the old soldiers during the closing years of the last century at their annual memorial day exercises at Little Round Top near Winfield. For thirty consecutive years, later, I was invited as one of the speakers at their service on the Sunday nearest Memorial Day at Woodsboro, Md., at their cemetery where the beautiful custom prevailed of having Sabbath School children decorate all the graves in the cemetery with flowers.

They were great men, those old soldiers whom the government rewarded by bestowing a pension of eight dollars a month for their service.

Our government seems more generous now in its treatment of those who fought the Germans and Japs. Let us hope that wars may not soon again fall to our lot.

FEESERSBURG

During the next two or three weeks thousands of young men and women will be graduating from our high schools and colleges. They will receive millions of words of advice, and will be bored by most of them. Like all generations that have graduated before them, they do not want words of wisdom or of folly, but just a chance to try their fledgling wings. And they will have that chance. For never has opportunity been so great for the young man or woman who has a certain amount of knowledge and an abundance of vision and of courage. The world is theirs to roam over, to fight for, to dream about and to change if they so desire. Never has there been so many vocations to choose from, never so many new ideas to try out, and never so many opportunities to lead full and useful lives. Only one pitfall does the young graduate have to watch for, and that is the pitfall of being a "drifter". Too often these days one hears people that should know better complain that youth is being cheated of stability, that life is so insecure and so forth. To some people living will always be a trial and a tribulation, while to others no matter what the odds, it's a glorious adventure. To the young graduate it should be the latter. Choose a career and stick to it, even if for awhile it must be given up for service in the armed forces. Marry and put your roots down in some spot and grow into a useful citizen. Avoid at all cost, the pitfall of drifting from day to day expecting life to assume a normal pattern. This is a new era and a new beginning of a social upheaval that may last for a hundred years. Be glad you have the chance to live and work toward a more abundant life for mankind everywhere. Look upon yourself as a pioneer in righting the world's ills and you will find that happiness comes not from security, but from giving and adding to the world's storehouse of kindness and unselfishness.

On Saturday evening Mr. and Mrs. Roland Welsh gave a reception for their son-in-law and daughter, Mr. and Mrs. Aubrey Glen King who were

recently married. The reception was held in the Firemen's Hall in Mt. Airy, which was decorated in white and yellow, with a wedding cake as a centerpiece on the refreshment table. About one hundred and fifty guests attended from Carroll county, Washington and Virginia. The couple received many beautiful wedding presents. Among those attending the reception from Mt. Union were: Mr. and Mrs. Ben King and daughter, Mrs. Samuel Keyton and son Ronnie; Mr. and Mrs. Paul Crouse, Mrs. Frank Martin, Mr. and Mrs. Roger Roop and daughters, William Coshun, Miss Jane Miller, Mr. and Mrs. Carl Blankenship, Mr. and Mrs. Donald Lambert, and James Lambert, Mr. and Mrs. Ed. Caylor and Mr. and Mrs. Fred Rosenbaum.

Mrs. Lowell Birely has opened Grove Dale for the summer and with her son-in-law and daughter, Mr. and Mrs. Haine Broadwater will be at home there until fall.

Mrs. Robert Smith, of Finksburg, spent Wednesday with Mrs. Cleon Wolfe.

The 4th annual Folk Dance Festival of the Carroll County Elementary schools was held in the Gill gymnasium at Western Md. College, Friday evening. The 5th and 6th grade pupils of the Elmer Wolfe school gave a "Polish Polka Dance" directed by Miss Dorothy Weiford and Mrs. Evelyn McIntosh, pianist. The costumes of the different dance groups were very colorful and the audience enjoyed the program very much.

In the final ceremonial parade of the R. O. T. C. on Hoffa Field at Western Maryland College Tuesday Cadet Captain David M. Buffington was awarded the silver medal for the second outstanding graduating cadet. He also received the PMSLT medals as the most valuable member of the rifle team. For having the highest average match score of his rifle team he was awarded the Gold medal also.

Lt. Charles Helm and young son of Towson were guests of Mr. and Mrs. Millard Roelke last week. They enjoyed some fine trout fishing at Thurmont and were lucky enough to catch a few. It is a tradition at Merry Knoll to serve a special breakfast to anyone smart enough to catch a speckled trout.

The 81st commencement of Western Maryland College will start Friday, May 25, and end Monday 28th. The college players will present "The Mad Woman of Chailot" Friday evening at 8:15 in Alumni Hall. President Lowell S. Ensor will preach the baccalaureate sermon in Alumni Hall at 10:30 A. M., Sunday, May 27th and on Monday the 28th Dr. Richard G. Stone of St. Mary's School and Junior College, Raleigh, N. C., will deliver the commencement address at 10 o'clock. Among those graduating Monday will be Fred Keefer, son of Mr. and Mrs. Truman Keefer, Key-

mar and David Buffington, Mt. Union.

It's a man's world only because the women are too smart to wait it. Walking through our woods the other day we came abreast of a tree and out flew a bird. Looking among the branches we spied a nest. In it were four blue eggs and two speckled ones. We were unable to see what species of birds it was but we wish some reader, wise in bird lore would explain the two different types of eggs. We remember hearing somewhere in our travels that there are several species of birds that lay their eggs in other birds' nests, but we can't recall which birds.

And while we are writing about birds, there is a friend of mine that owns a cat with the same desires that all cats have that is, to catch birds. The other morning she saw Mr. cat in the tree waiting for an unsuspecting bird to come along. She decided to teach him a lesson and so she turned the garden hose on him. Mr. cat came down out of the tree in a hurry and maybe he will think about mice for awhile instead of birds.

In 17th century England, many church pews were not only fenced in by high glass partitions, but were comfortably furnished with arm chairs, tables, stationery, smoking materials and even a fireplace. Most of us would settle for a comfortable seat.

We won't say goodbye, but like the song, "So long it's been good to know you"

Who profits most? It is the man Who gives a boost where'er he can, Who's on the square in all that's done And trusts and helps the others on, And values friends and counts them wealth,

Who puts his task above mere self, Who profits most? Is that your quest? It is the man who serves the best."

MARYLAND MUSINGS

A little salt is good for beets. Sure, it makes them taste better, you say, but Edward K. Bender suggests you try it when you plant them. Beets are heavy users of salt while growing, so try 3 tablespoonsful per 50 feet of row. One tablespoonful of borax on the same row will supply boron needs. Mix salt and borax with sand or water for easy distribution. A quart of wood ashes or several side dressings of a quart of 5-10-5 also helps.

Select the right soil and prepare it correctly if you want the best tomato yield. Get Fact Sheet 17 from your county agent for full details.

Know what date to plant tomatoes for the highest yield? Know how close to plant for best results? Know how to increase yields with starter solutions? The answers are in "Facts About Transplanting Tomatoes" Fact Sheet 18, obtainable at the county agent's office.

Main-dish salads made with meat, fish, poultry, eggs, beans, cheese, or potato usually call for a mayonnaise-type of cooked salad dressing. But some of these more substantial salads are good with tart French dressing—salad oil combined with lemon juice or vinegar plus seasonings.

SAFE CRACKER'S JOB

Safe Closed Until 1976

WASHINGTON, D. C.—A safe-cracking ceremony is scheduled in the nation's capital in 1976.

When the nation became 100 years old in 1876 Mrs. C. F. Deihm of New York city determined to do something that would mark the passage of the United States into a new century.

Out of her determination came installation of a "centennial safe" in Memorial hall at the Philadelphia exposition in 1876.

Mrs. Deihm set out to get the signatures of famous people of the time and other material to put in the safe. She dispatched leaves of the "centennial album" throughout the country and gained concessions from express companies to transport them free of charge. She even obtained credentials from the chief justice of the United States and others high in authority.

Roundup Autographs

The year 1876 ended, however, with a number of signatures short. So the scheduled closing of the iron doors was postponed. Mrs. Deihm traveled about, giving notices to papers that she was on hand with the album.

More than two years passed before Mrs. Deihm felt that the time for the final roundup of signatures had arrived. When she arrived in Washington, however, to place the safe in the rotunda of the capitol, the authorities would not allow it to be placed there. A compromise was reached and the safe was set in a corner at Statuary hall. There it remains to this day.

The newspaper stories of the day reported: "The safe is designed to contain memorial articles, and will not be unlocked for a century."

"The safe has inner doors of plate glass. Among the contents are hand-somely bound albums, to contain photographs and autographs of leading centennial officers, and those of governors and other prominent men."

Key Is Lost

There are also autograph books, a silver inkstand lined with gold, and two gold pens, one of which has been presented by Henry W. Longfellow. One album is larger than the others, and whoever records his name therein is entitled to the space below his name, so that when the books are opened in 1976 the direct descendant of the signer may record his own name too. There is also in the safe an album to receive the photographs of foreign ministers and visitors.

Today the safe is a battered relic. Pictures and inscriptions on its surface have vanished. One of the two handles is broken and effort is required to turn the dials controlling tumblers that have not moved for decades. But it makes no difference for nobody nowadays has the combination.

The key used to lock the inner doors on that faraway noon in 1879 has vanished.

It will require a safe-cracker to open the safe which was the dream of a stubborn and determined woman.

Two New Drugs Are Used In Korea for Frostbite

KOREA—Two new drugs are being used by United States army doctors to fight frostbite suffered by American soldiers in frigid Korea.

Army officials said the drugs are priscin, administered in tablet form, and tetraethyl ammonium chloride, which is injected. Both were developed after World War II.

Col. Francis W. Pruitt, Shelbyville, Ind., consultant on internal medicine in the army's far east command, said it was too early to determine the final effectiveness of the drugs, "but we do know that they have been very successful in giving relief."

Frostbite damages nerves and tissues, causing intense pain and spasm. The new drugs, Pruitt said, tend to repair the damage and control the spasm.

Col. A. L. Gorby, Palo Alto, Cal., surgeon of the U. S. 10th corps, estimated that half of the American soldiers who are frostbitten are returned to duty.

Operation on Boy Performed In Darkness Saves His Life

DETROIT, Mich. — Gerald Kilbourne, 14, was accidentally shot in the forehead with a .22 caliber rifle. He was knocked out and when he came to, he noticed a small gash on his forehead. He thought it had been caused by striking himself with his rifle while he was bending over.

A week later he complained of a headache. An X-ray showed the bullet had lodged back of the sinus.

There followed an unusual operation performed in darkness by X-ray which saved his life.

As one doctor performed the operation another physician directed it by watching the bullet and movement of the instruments on the fluoroscope screen of an X-ray.

The surgeons had to work in darkness because the only way to find the bullet, without overwhelming risk, was to use X-rays shining on the fluoroscopic screen. The operation was performed through the roof of the mouth.

Displaced Persons

Lesson for May 27, 1951

"D.P.'s" are no 20th-century novelty. This displaced person has for centuries dotted the international landscape. We can define a displaced person as one who, unwillingly or unintentionally, is a long way from a home which no longer exists. A D.P. would usually go home if he could, but he can't. His home has been bombed out, or perhaps his whole home town destroyed. Perhaps he and his neighbors have been forcibly moved out by a government that wants some one else in their places.

Dr. Foreman

The D.P. is usually at first poor, in the nature of the case; a foreigner where he is, sometimes without even a native land to go back to, to say nothing of a home town. Perhaps the most tremendous uprooting of people in recent times has been in Korea, where war victims have had to move out by the million.

The Innocent With the Guilty

BUT THE story is of a new one. Back in Bible times many of the Hebrews became D.P.'s. After the downfall of Israel and Judah, thousands of Jews were taken to the country along the Euphrates and Tigris rivers, there to fend for themselves as best they could.

The Bible writers always looked on that experience as a punishment of the nation, and so it was. But the experience illustrates a number of things. One is that the innocent often suffer with the guilty.

Not all those who were forced into those long death-marches had been to blame for their country's wrong-doings. Bad decisions of king and council resulted in personal disasters to thousands who had had nothing to do with their king's bad policies or their aristocrats' debauched lives.

D.P.'s Taking Root

ANOTHER thing to be noticed in the Bible story of these Hebrew D.P.'s is the way they took hold, wherever they were, and helped to build up the country and help themselves at the same time. They took root, in short, and even when later on their descendants were free to go "home," relatively few ever went back to Palestine.

From that time to this, the Jews have been scattered over the wide world, living (where it has been possible) as local citizens of whatever lands they call their own. We can still read Jeremiah's letter (ch. 29) to the D.P.'s from Judah, urging them to "buy land, to lay out vineyards and plant houses and generally make themselves at home in Babylon."

We read of an Ezekiel, owning a home and settling down in Babylon. We find Daniel the boy as a page in the royal household of Nebuchadnezzar, and as a man rising to prominence and power. Many of the D.P.'s took their places among the best citizens of their perforce adopted lands.

D.P.'s in American History

SO it has often been since. The United States alone owes a great deal to D.P.'s. The famous statue of Liberty is a welcome-sign to such people. The Pilgrims who came over in the Mayflower were D.P.'s, already twice uprooted. The Huguenot protestants, driven from France by official persecution, became top-level, successful citizens in England and America.

Revolutionary troubles in Europe a hundred years ago brought to America shores Carl Schurz, for example, a fugitive from then police of two countries because he was a revolutionist; here in America becoming a top success in many fields; general of the army, minister to Spain, Secretary of the Interior, prosperous business executive, editor of great city newspapers, writer and orator of international fame.

Not all D.P.'s become famous; but many thousands of them, throughout the troubled ages, have been a blessing to the lands that sheltered them.

So it may be in our time, that as God has before now brought good out of evil, he may in our troubled world bring even from the cruelties of deportation and homelessness again new understandings, fresh beginning, and an interweaving of many strands of humanity into a stronger fabric than before.

Wilbur Shaw thinks so much of this new Chrysler, he has selected it as Pace Car for the 1951 Indianapolis 500-mile race.

*"I've just
driven the
most
powerful
car* in
the U.S."*

WILBUR SHAW, AMERICA'S MOST FAMOUS DRIVER, DRIVES NEW 1951 CHRYSLER—REPORTS TO YOU ON REVOLUTIONARY FIREPOWER ENGINE AND HYDRAGUIDE POWER STEERING

Here are Wilbur Shaw's reactions—in his own words—as taken down by a recording machine in the car:

"The '51 Chrysler has it! With this new engine and power steering, the first on any U.S. car, it's a whale of an automobile."

"I'm completely bowled over by the ease of steering!"

"This steering combined with the automatic trans-

mission... is the nearest thing to an automatic pilot for a car I can possibly imagine.

"This engine... I can't get over the amount of power and snap in this engine... it's incredible!"

"I drove 111 miles with the feeling I had expended no more effort than in driving around the block."

"When Mrs. Shaw drove, her comments just about squared with mine. Here's what she thinks of the 1951 Chrysler..."

Mrs. Shaw: "At first I could hardly believe the ease with which I could turn the wheel. That's important... especially in the summertime."

"Often after I have parked a car in the average parking space, I feel I should taxi home, shower and get dressed again. But with Hydraguide Power Steering I parked it with one hand. It practically drives itself."

Wilbur Shaw: "It's hard to describe this new Chrysler without going off the deep end... it has it in every department."

"In fact, I think so much of this car, I've selected it as Pace Car of the 1951 Indianapolis 500-mile race!" (Mr. Shaw's comments are reprinted through the courtesy of Popular Science Magazine.)

*Mr. Shaw refers of course to standard passenger cars—not racing cars or special models.

QUARTERLY REPORT OF CARROLL COUNTY WELFARE BOARD

On April 10 the Welfare Board met and began the first in a series of considerations of the services that the agency offers. Aid to Dependent Children is a kind of assistance in which the local, state, and federal governments share in the expense. This kind of assistance is designed to help mothers keep their children with them when for economic reasons the unity of the family is threatened. When a crisis arises such as the death, desertion, or illness of the father, many mothers have no way of taking care of their children. Aid to dependent children is available to support the best efforts of mothers for their children if they have no savings or other income to rely upon.

The case worker goes into all details concerning the possible incomes and resources that might be there to support the children. In every case this varies a good deal. Some considerations are: support from the father, from older children in the home; ability of the mother to work and plan for the care of the children; savings, insurance, property; compensation, pensions, Survivors Insurance, etc.

Children are eligible for Aid to dependent children if they are under 16 years of age or until they are 18 years old if they are in school. They must also be living with their parents or certain close relatives and have lived in Maryland for the past year.

The Board noted that aid to dependent children begins for a limited time only and is designed to help the family in a period of crisis. From the very beginning the case worker makes it clear that this assistance is temporary until the family can work out some plans for themselves. The case worker who continues to visit the family would be helping them make plans for eventual self-support and independence. The outcome depends a great deal on help the worker gives and on the families' circumstances; mothers are helped to plan for work and care of children, deserted husbands are made to support, partially disabled fathers are helped to find limited kinds of work and so forth.

The Carroll County Welfare Board is helping 48 such families with 144 children at the present time and this costs about \$3,500.00 a month. The average grant for a family is \$70.00 a month.

The Board next directed the agency's executive, Wm. H. Koelber, to prepare a quarterly report of expenditures.

Total expenditure of the Welfare Board by month compared with last year:

	Jan.	Feb.	March
1951	\$14,633.97	\$15,147.74	\$14,777.73
1950	16,837.20	16,905.46	16,766.09

THIS 'N' THAT

(Continued from first page)

That "Nobody loves a fat man?" That could never stand with a chubby growing girl. There is an adorable girl who is lovable and beautiful and has every bit of that "Clara Boy" IT—with a capital letter! She was just about the most graceful child on that floor and the nice part, she really loved it all. One seldom finds a girl of her tender years to have so many fine attributes. The nice part is that there is so much more of her to love! Going to the big city the other day Your Observer noticed a young man with a fine strong character written in his face although he appeared completely exhausted. He had a small suit case and was thumbing a ride to Baltimore. I stopped the car and made inquiries and then he told me he was going to New York. Seated in the car he told me his story and I pass it on to you. He had received a telegram early the morning before from his sister that his mother had just been operated upon for cancer and was not expected to live and he should return to New York at once. He was in his fourth year in College studying to be a Veterinarian in Athens, Ga. He was an x G. I. He said that he was trying to get rides all the way if he possibly could and did not have any sleep that night before. He said that did not matter if he just gets there in time! How I wished from the bottom of my heart that I could have driven him on to that sad scene!

Returning from Baltimore, a little boy was thumbing his ride as I stopped at the corner for the "Go". He had his books under his arm and he was telling Your Observer a cute story why he was thumbing. I looked at him, smiled and said—"I know all about it for I had a little brother, too just like you!" That little fellow burst out laughing!

As I type away this column, there is that right and smart farmer along with his helpers plowing up the rich brown earth across the fields.

Here's to the sweet boy and girl graduate this June! Your very first step is being taken now as you go out into the world this month. Always remember to keep your life clean. One little step may ruin it forever and it is all entirely up to you. You have knowledge now which never can be taken from you for that is the grand part of continued education. Be full of vision always. Then you will have courage with tremendous thoughts and deeds and then will come success with your new task. In life there will be many obstacles which you must brush aside for greater things. Even great things have some objections which you may not like. Things worth while are always difficult in some form or manner but just surge on and you will meet your goal. Pick the talent for which God handed you and then stick to it for Faith is a fountain giving forth power and wisdom and everyone in life may drink at this fountain and benefit by it. Faith is a transformer a conveyor and the Gift of God! Congratulations, Girls and Boys—this wonderful day of yours and "Grasp Time by the Forelock" and you will always hold on to precious gems! Have a grand week-end, Folks. Will be seeing you next week D.V. Until then, I am,

Faithfully,
YOUR OBSERVER.

Billy the Kid

Pardon Is Denied

SANTA FE, N. M.—A 91-year-old man who claims to be the notorious desperado, Billy the Kid, was refused a pardon by Governor T. J. Mabry.

After a lengthy conference with the old man, Mabry said, "No action will be taken because I don't think this is Billy the Kid."

The old man said he now is using the name of Henry Roberts, although at first he said his first name was Olli. He denied the crimes often attributed to Billy the Kid.

Roberts, a ramrod-straight little man, was dressed in a new fringed buckskin jacket and a new pair of levis for his conference with the governor.

Archbishop Claims

Ancient Scrolls Prove Prophecies

CHICAGO, Ill. — Proof that Christ's coming actually was foretold before He came is contained in ancient religious scrolls discovered in the Holy Land, a high Syrian religious authority reports.

Mar Athanasius Yeshu Samuel, the Syrian archbishop of Jerusalem, recently brought several of the scrolls to the United States.

He said they also reveal where John the Baptist may have got the ideas he preached to the followers of Jesus, and the probable source of many Biblical phrases such as "I am the way, the truth and the life." He reported that as the result of study of the Isaiah scroll it is regarded as indisputable fact that Christ's coming was foretold long before the event took place.

The scroll, which contains the entire book of Isaiah and verses foretelling the Messiah, predates Christ's birth by several centuries and contradicts theories that the book and the prophecies were written after the coming and merely made to conform with what was an already accomplished fact.

The "Habbakuk commentary" scroll reveals the prophecies in the book of Habbakuk as applying to "specific historic events" instead of "vague symbolism," the archbishop said.

Many persons believe the Isaiah scroll found in a Dead Sea cave was the same manuscript placed in Jesus' hands in the temple as a youth when His followers wanted to show Him how His coming had been awaited, as described in the New Testament.

Many circumstances point to this belief, the archbishop said—the location of the cave, near where the temple probably stood; the careful state of preservation; and the likelihood that these scrolls may have been placed there by close followers of Christ. But proof is difficult if not impossible and this phase of the scrolls' interpretation may remain a permanent controversy.

Travels of Radioactive Mosquitoes Are Checked

SAN FRANCISCO—The state of California conducted a "radioactive-mosquito project" last fall that gave information about flight, distance-covering ability, and life span of the biting insects.

The atomic energy commission furnished radioactive phosphorus that was used to "tag" about half a million mosquito larvae in the experiment.

According to Dr. Wilton I. Halverson, state public health director, three separate groups of "wigglers" were immersed in chemically treated tanks of water in a field near Turlock, Cal. They emerged as flying adults.

Of nearly two million mosquitoes caught in light traps or by hand-collection methods, an average of one in 1,000 was detected by Geiger counter as a member of the radioactive group.

The maximum distance covered by the "atomic" mosquitoes was two miles downwind and slightly less upwind, with the insects spreading out fairly equally over a total of 1,000 acres.

Woman, 81, Walks 57 Miles In 11 Hours, 30 Minutes

PORT HURON, Mich. — Just because "it was so pretty out," Mrs. Sylvia Carlen, an 81-year-old grandmother, recently walked 57 miles—from Detroit to Port Huron.

Carrying her lunch in her pocket, Mrs. Carlen made the trip in 11 hours and 30 minutes. She stopped only once, to eat, and averaged nearly five miles an hour.

She started out at 5 a.m. from Detroit. Her goal was the international bridge linking Port Huron with Canada, but at 4:30 p.m.—two miles short of the bridge—friends picked her up in an automobile.

"It was so nice of them to drive by I just couldn't turn down the ride," she said.

Mrs. Carlen was only five days short of her 82nd birthday when she made the trip. She wore high-topped hiking shoes, a short skirt and a workman's cap. She had made the trip from Detroit on foot twice before, a good many years ago.

At the end of the trip she concluded, "The older you get the worse your walking becomes."

Increased wages and other costs must be met

Latest wage offers emphasize need for higher telephone rates

There is no mystery or magic about telephone rates. The price for service is determined by what it costs us to provide it.

Wages are by far the biggest item in the cost of furnishing telephone service, taking 59c out of every expense dollar.

Since 1939, our wage rates are up 103%, while the cost of telephone service to our customers in Maryland has gone up on the average only 27%. Over the same period, general wage increases total nearly \$6,000,000 a year more than the rate increases we have had. This includes wage increases recently granted Traffic employees. Now, in current wage negotiations with the CWA-CIO Unions representing employees in other departments, we have offered these employees a general wage increase. This will further widen the gap.

Despite this, however, this wage increase is necessary to keep telephone wages in line with those paid by other businesses in communities we serve. And we must keep our wages in step, if we are to attract and hold the capable people we need to give you good telephone service.

Telephone costs are up

Compared with 1939, our tax bill has gone up more than 314%. Just in the past year, our taxes have gone up over \$3,500,000 . . . and they will go even higher.

The cost of most everything we use in the telephone business is higher than ever. For example, since 1939 the cost of lead is up 246%, zinc 244%, copper 132% and pine poles 112%.

It all adds up to millions of dollars in higher costs to the telephone company. That's why we must ask our customers to pay a little more for their service.

There is no other answer. Higher telephone rates are essential to meet the higher cost of doing business and to assure good telephone service.

We can't keep our rates down when our costs keep rising

For 22 years we avoided any general increase in telephone rates. But, finally, when soaring prices made rate increases necessary, we asked for the minimum needed to maintain good telephone service. That is what we are doing now. All we want is a fair price for telephone service, only enough to enable us to do the telephone job that must be done.

Telephone rates have been regulated for many years

Most businesses have been able to raise prices whenever their costs went up. But the telephone company is different. Our prices always lag behind increased costs.

Telephone rates in Maryland are regulated by the Public Service Commission. When we need higher rates we must present facts and figures to prove the need. In the public interest, the Commission must study these facts and figures carefully. This is a proper procedure, but it takes time. So, when a decision is reached, costs may be even higher.

The result is that telephone earnings are far too low to assure the continuance of good telephone service. They are much lower than the earnings of most other businesses, averaging only about 5% over the past five years, as against more than 15% for outside industry in Maryland.
