RELIGIOUS PICTURE TO BE SHOWN

An outstanding picture of the people of Nigeria, Africa will be shown in the Taneytown E. U. B. Church on Sunday evening at 7:30 o'clock. The picture's name is "Heathen Rage" and is produced by Sidney Correll, and the sound offerts by Helen Correll, and the sound offerts by Helen Correll. and the sound effects by Helen Cor-

The film opens with a pagan decked in charms, dancing and beating himsel to the accompaniment of drums and bells in the market place of Kano. The great city of Kano, Nigeria, Africa, where there are one million Mohammedians within 30 miles, is entered and photographed by the use of telephoto lenses. The forbidden, hidden courts of the Mohammedian family are photographed from the minaret of the mosque.

The picture shows the lepers, the medicine man and his antics in heal-

ing the sick, the "cupping" of the people, pagan dances to the beat of the jungle drums. Truly it is a great picture to enlighten the people of the U. S. how the people of the heathen countries are forced to do in their communities. After seeing this picture and the ways of the religious beliefs in this certification. beliefs in this section of Africa, we can truthfully say, "regardless of the small hardships we have here, that America is the best place to live in and enjoy the religious freedom with the high principles of God".

These missionaries, Rev. and Mrs. Sidney Correll, first showed this picture in Chicago to a large gathering of Christian group. Since then it is in great demand and the people of Taneytown are fortunate to be able to see it. The public is cordially invited to see this true life story of the true life story of the heathen in Africa.

PARENT-TEACHERS MEETING HELD AT ELEMENTARY SCHOOL

The Parent-Teachers Association of both the High school and Elementary school, held a joint meeting Tuesday, Oct. 16, in the Elementary school. A short business meeting was conducted by the President Singleton Remsburg, after which the 6th grade chorus sang

Miss Ruth DeVore, Supervisor of Elementary education, in Carroll county, introduced the speaker for the evening, Dr. Gross, a member of the staff of Springfield State Hospital. Dr. Gross explained the main points to be noticed in the film "Angry Boy", which was then shown. After the film, a discussion period was held in which parents were given the opportunity to ask questions. The main theme seemed to be that a happy child is a mentally healthy child and that children must be treated as human beings.

After adjournment refreshments were served by the social committee.

SR. 4-H NEWS

The regular monthly Sr. 4-H Club meeting was held in the form of a nature hike at the farm of Rhoda and Dorothy Rohrbaugh, with ten members present. After the hike the members made terrariums from the moss and small plants which were gathered on the hike.

After a delicious supper of beef tew, crackers, tomatoes and tea we had a business meeting, which was in charge of the President Sandra Welker. Dec. 14 was the date set for the bake sale to be held in the Firemen's building at 4:30. It was voted to give a donation to the Children's Aid drive. The business meeting was brought to a close by all the members saying the 4-H pledge. After this the recreation was led by Miss Belva Koons, who told some "spooky" ghost stories. The November meeting will be held at the home of Lorraine Sauble.

SCHOOL BOARD IN REGULAR SESSION

Annual Report Being Prepared for Distribution

The Board of Education of Carroll County met in regular session on Oct. 9, 1951 with all members present with president Clyde L. Hesson, presiding. The Board approved the minutes of the September meeting and gave approval to the bills submitted for payment. The Board considered briefly the problems confronted in connection with the securing of materials for the proposed buildings at Manchester and Sykesville and approved certain changes in structural plans to eliminate the use of certain critical materials. It is hoped that work can begin within a short time on the Manchester building and that progress on the Sykesville plans will not be delayed.

The Board considered a number of items with the maintenance and re-pair of schools throughout the coun-

Russell Seward as a teacher agriculture and biology in the West-minster High School and Mr. Frank Salley to the Mt. Airy High School to replace James C. Thomas. The resignation of Russell Seward at the Westminster High School was accepted.

The Board gave consideration to several requests for assistance from the schools in the purchase of library and instructional aid supplies.

After consideration a motion was made and adopted that steps be taken to implement a policy with regard to the education of children whose parents are not residents of the county, and who have been placed in boarding homes without supervision from their parents. It was directed that the Board adopt a policy of collecting tuition in those cases where children have been placed by their parents in boarding homes in the county and are not under the care of a social agency at this time.

The Board noted with regret the death of Chas. O. Clemson who had been attorney to the Board of Education for a number of years and who had considerable interest in the prog-ress of the schools of the county. The Board adopted the resolution

presented by the auditor in connection with the allocation of funds for the school year 1950-51 and directed that the resolutions be made a part of the minutes of this meet-

The superintendent was directed to prepare the annual report as soon as possible and see to its distribution throughout the county.

The Board considered several items rected the superintendent to take steps necessary to improve the service where this is possible.

The Board was given a brief re-

port on the progress of construction to the New Windsor building and the hope was expressed that the addition to the New Windsor building can be occupied in the near future. The Board approved the appointment of James Russell Ditzler as janitor-custodian at the Taneytown High School and Leroy Oliver Farver as janitor-custodian in the Sandymount Elementary School.

The superintendent explained to the Board that Carroll County pupils were participating to a considerable extent in the programs of the Maryland State Teachers Association to be held on October 18, 19, 20. Twenty four high school pupils are singing in the State Chorus, twenty pupils are playing in the State Orchestra and 150 elementary pupils will present a program of vocal music at the Saturday morning sessions of the Teachers Association Meeting. The county schools will be closed on Oct. 18, 19, to enable the teachers to attend the sessions of the Maryland State Teachers Association which will be held in the Fifth Regiment Armory and various schools throughout

The superintendent reported briefly on the school health work being ac-complished by the County Health Department with the cooperation of the nurses and Miss Maud Manahan, Supervisor of Nurses.

The Board directed the superintendent to do everything possible to widen the scope of public information regarding the existing building needs in the school system of the county and to take whatever steps necessary to bring about action in preparation for meeting the building needs which will be necessary in order to accommodate the enrollment in the schools in the ensuing years.

Note was taken of the dedication exercises which had been planned at several of the schools including a meeting of the Elmer Wolfe P.-T. A. on Oct. 8 at 8:00 p. m. at which time the building was presented to the community by the local member of the School Board, Mr. Paul S. Niswander., Dedication exercises for Charles Carroll School Addition will be held in the school on Sunday after-noon, Oct. 14 at 3:00 p. m. and Dr. Floyd Cromwell will be the speaker. Other participants in the program include Sherman Flanagan, Westminster, former principal of the Charles Carroll School. Dedication exercises for the Johnsville Colored Elementary School will be held Sun-

H.S. ALUMNI ASS'N MET Many Activities Planned

for Winter Months The Taneytown High School Alumni Association met in the High school,

Monday evening, at 8 P. M. Reports were given on the annual card party which was held Oct. 11. The party was one of the largest ever held by the Association, there being 46 tables, and the prizes were splendid. Appreciation for the wonderful patronage of the people and the fine work and cooperative efforts. the fine work and cooperative efforts of the committees was expressed by the President. After discussion about the possible changing of the date it was voted that it would be held again on the second Thursday in October, that being Oct. 9, 1952.

It was reported that the contract with "The Tones" has been made for the coming Thanksgiving dance and they will furnish music again this year. "The Tones", an outstanding group from York, Pa., have become very popular in this section since the Alumni introduced them to this area several years ago, and the group felt that the public will welcome their return. The dance will be held Thanks-giving night, Thursday, November 22, in the High School, with dancing from 9 till 12. Dance committees will be announced in the next few weeks.

Mrs. Mary Clingan and Miss Janet Royer were appointed to obtain prices and styles of floodlights which would be bought by the Association for their own use or the use

of either school. The coming basketball season was discussed and the coach of the boys' team, William Rittase, reported that more Alumni boys will have to show their interest if a good workable team is to be had.

Mr. John Manspeaker, the High School Principal was introduced and spoke to the group. He expressed his appreciation to the Alumni for their interest in their Alma Mater and congratulated them for the splendid

work they are doing.

The first item which was presented before the group by Mr. Manspeaker was the request by the present Junior class that the school class ring be changed. He and Mrs. Sanders, their class advisor explained the matter, pointing out that over the long period of years the present the long period of years the present ring has become outmoded and some modernization would make it more attractive. Those present felt that the matter was primarily the concern of the school and the classes which it effects. But the majority expressed the sentiment that no objection could be made so long as the original and traditional school crest is retained, the style is not too expensive for all to afford and the ring which is adopted would be made the standard ring

for another long period of years.

Mr. Manspeaker then told of some of the improvements which have been or soon will be made to the school and related to the improvement of school also related several problems and bus service in several locations and needs of the school. The report of Elwood Baumgardner, chairi the committee to investigate the cost of painting the cafeteria showed that this one project would cost too much and it would be better to channel that money toward some of the other needs of the school. Since a good portable screen suitable for classroom use is needed, the group voted to have the school buy a screen which they feel fills their needs and desires, and have it billed to the Alum-

After much discussion about some sort of insurance or accident fund a committee of Murray Baumgardner, chm; George Sauble, Mary Clingan and Mildred Rittase was appointed to meet with the principal and other interested organizations to devise a definite plan.

The Senior class invited all Alumni to their "Hallowe'en Roundup", which is the dance they are sponsoring on October 24 from 8 to 11:30. All Alumni are urged to attend this, the first dance of the year.

Delicious refreshments were then served by Betty Jane Hahn and Shir-

ATTENDED CONFERENCE OF RURAL YOUTH

Robert Wise, President of Rural Youth of U. S. A. Conference from Newark, Ohio, reports that Mary Null and Robert Neuman, Taneytown, are attending the conference of rural youth at Jackson's Mill, Weston, West Virginia. About 250 delegates from 17 states and 5 foreign countries are convening at this scenic spot to study and discuess problems of rural communities. The conference theme is "My Job in the

Rural Community."

One panel discussion led by Dr. Edward V. Pope, of Cornell University concluded that one of a person's most important contributions to the community is the development of democratic family living. Another of the discussions led by Dr. E. J. Nied-erfrank, Rural Sociologist of the U. S. D. A. at Washington decided that one of the most important jobs in the community is to help develop good leaders and good followers.

HALLOWE'EN PARADE PLANNED FOR OCT. 31 AT WESTMINSTER

Our city will again celebrate the Hallowe'en season with a mummers parade. The celebration is planned for the evening of Wednesday, Oct. 31, with Carroll Post No. 31, The American Legion as sponsors of the cele-bration. This event heads the city's selebration for the entire year and it is anticipated with great pleasure and fun by the adults as well as children. The celebration brings not only Carroll Countains, but visitors rom neighboring communities who contribute to the merriment of the evening.

Plans are being made for a much larger affair and the awards should be attractive to have more people prepare for the occasion. Following the parade there will be a promenade at the Armory where prizes will also be given. Full details will be announced in the papers later. For information concerning the affair communicate with J. Albert Mitten, chairman.

Parents, dress up your children and bring them or send them to this gala event. This event includes all children up to and including ten years of age. Let all the kiddies come out and have a wonderful time playing games with your friends. Yes, there will be refreshments.

THIS 'N' THAT

(Your Chatty Column) With all my heart, I wish you every morning
A smile that shall last until the next

day's dawning.
I wish you health—life's greatest
wealth!
I wish you always near so that I may

help to cheer
Each future day and in some way—
help to bring you happiness!

As I type this column the trains in the distance across the fields are moving slowly with the same familiar 'chug, chug' which is a welcome sound. The ground is covered with gold—the leaves which have fallen from the trees and we know that it is autumn. As I gaze around—there is much to be done with the Fall house-cleaning, placing away the screens and preparing the windows in readiness for the winter but it is good to just sit quietly and alone and listen to the voice of God speaking to me! I ask myself how can any one doubt the wisdom in back of it all?

Did you see the picture in "Life" with the many couples renewing their marriage vows in the church in which they were married years before? Perhaps that would be an excellent way to cut out the startling number of divorces if this habit was a 'must' in all denomina-

Ladies, have you used those new and delightful bobby pins with the nice rounded ends instead of the sharp edges which so often dig the scalp? And thinking of hair! Did you see Faye Emerson on Saturday night with the new hair-do. What a transformation as it gave her face a much softer expression and much more refined appearance! She ap-

peared much younger, too.

That reminds me! Remember when the expression of our elders was "BE YOUR AGE" and now when a few years is added the saying is, "DON'T BE YOUR AGE."

It all was interesting to see just how "Pepsi" put over our own city of Baltimore and it was fascinating and then to hear the voice so plainly of our Mayor of Baltimore on T.V.

Betcha, on that "Song of Songs" with the lawyer's wife winning will be on everyone's lips in the very near future as the melody lingers on! The name of the song, "What's the Mat-ter?" 'What's The Matter?' 'Whats the Matter?' Remember? Then the Crow! Did that Ventrilo-

quist fool you, too on T.V? Are you a type of person who lacks enthusiasm of any kind in any time of life? I know of a married woman who has two lovely children and she is a very beautiful woman. She is quite an accomplished pianist yet she lacks much in life because she does not have the least bit of enthusiasm

even to a smile. If there is something funny which would make anyone smile or bring forth laughter, she sits there with a blank expression and oft times with disguise. People shun her! Many times Your Observer feels like saying, "Such a beautiful face and such talent you display with your playing, yet you seem to have a chip upon your shoulder!" Now, if that ever happens, Folks and I do pluck up enough courage will surely let you answer to that one! Was talking to a salesman recently

who drives a Studebaker car which he has had for two years (previously having a Chevrolet). He said, "This car has cost me more in the two years than all the years I had the Chevy!' No wonder they say that the first 50,000 on a Chevy is still a new one!

Often the Mines are discussed in groups and the danger in being a Min-

er. Yet, Your Observer was talking to a man who had been a miner for many years and he stated he had never been in any kind of an accident and only once did he see the coal move near a car which loads the coal and he shouted and the other Miners ran. It brought back the time out West in a little town called Pitcher, Okla.,

at that time the population of that little place was 2,000. The place was called after the founder whose name was Pitcher and who rented the acres of land for a mere song and then discovered there was zinc and ore and immediately incorporated. The land belonged to the Government a time after that, the tenants of shack paying the small sum of \$1.00 a month. The shacks stood in a row and the appearance was as large bathing houses. These shacks were occupied by the Miners and their families. Your Observer desired to go down into the Mine (something I have always wanted to see). walked to the Supt's office to get a permit to go through the mine. We then were introduced by the

Supt. to the foreman of seven of the factories who showed us where the (Continued on Seventh Page)

FRIDAC, OCTOBER 19, 1951

BANKERS WILL BE BANKERS

Historic Frederick, Md, home of the immortal Barbara Fritchie, and today virtually a suburb of Washington, is out of hock. The town's mayor and board of aldermen formally paid over the final \$20,000 installment on a loan that saved Frederick from destruction by Confederate General Jubal Early's army on July 9th, 1864.

Early, furiously intent on his march on Washington, found himself and his 23,000 men hung in Frederick without funds for essential supplies. So, he asked for \$200,000, about a tenth of the value of the whole town, or it would be looted and burned. The town officials signed promissory notes with Frederick's five banks, and delivered the general's cash in bushel baskets.

An interesting foot-note to this historical item is that the banks issued, on September 29, 1951, "paid in full' receipts..after collecting an estimated \$600,000 in interest as well as their principle. Oh well, as you have so often heard before, "money has no sentiment"-J. E. Jones.

SOMEBODY IS FALLING DOWN ON THE JOB

At his latest press conference, President Truman enunciated a new principle in censorship. It is to the effect that national security is the responsibility of publishers, not of the Defense Department. So, if the Pentagon hands us a piece of really hot news, that looks to us as though it might be revealing too much, we mustn't say a word; just leave it to a competitor who may have different ideas on what would be helpful to the enemy!

Actually, there would appear to be some basis for the President's lack of confidence in the security methods of the armed services. Certainly, when he roasted both press and radio for publishing "95 percent of our military secrets", he must have realized that the newsmen didn't dream up these new advances in the art of mass killing. He could hardly fail to be aware of the present contest between Army, Air Force and Navy and civilian public servants, notably in Congress and the Atomic Energy Commission, to see who can get the biggest headlines.

We refer, to mention only a few, to such revelations as:

The Navy's announcement that the U. S. S. Forrestal, our new giant carrier, will be equipped with a new secret television system to aid pilots in landing.

The Air Force announcement of the first pilotless squadron, activated on October 1st and equipped with a new guided missile known as the Matador; the Air Force discussion of rockets to the moon, floating platforms above the earth's gravity and interplanetary projectiles, the release of details (in picture and text) of our newest bomber, the B 47, as seen by Margaret Bourke White whose enthusiasm for communists is wellknown and whose loyalty is widely questioned.

The Army's publicity on new atomic field weapons, and the planned testing of these weapons with troops (5,000 troops, if you must know) in Nevada; the intimations that they may be used in Korea.

The recent speech of Senator Brien MacMahon in support of his plea for an extra \$6,000,000,000 appropriation for atomic development that, he promised, would provide practically unlimited quantities of atomic artillery shells, "tactical" atom bombs and hydrogen bombs.

The official announcement of Chair-

man Gordon Dean of the A.E.C. that these atomic weapons actually exist ... and his testimony before a House Appropriations subcommittee, recently released, predicting an atomicpowered plane "in the next decade".

An hour after the conference, White House Press Secretary Joseph Short "clarified" the Presidential instructions by advising that it is entirely proper to publish information given out by "responsible officials qualified to judge the relationship of such information to the national security".

So now, capital newsmen have the responsibility of judging who is 'responsible" and who is not. You would think that the Man with the authority to jerk the rug out from under General MacArthur in Tokyo could remove the irresponsibles right under his nose!-National Industries News Service.

"R" for Oysters - "R" for Rush

When there's an "R" in the month, it's oyster time. It's also a rush time for the people in the oyster business. Grown in coastal waters, oysters are most perishable. They've got to be marketed fast—and that's where the telephone comes in. For, even as they're en route in refrigerator cars, they're being marketed by the swiftest method of them all—Long Distance. Today, as never before, the nation is hurrying, and Long Distance hurries with it -an essential part of the National Defense

Signs of the times

Today, as never before, the farmer is playing a major role in our national effort for peace and security. Production, and speed in production, is the keynote of this united effort . . . and that's where rural telephone service lends a friendly, able hand. For, with rural service growing bigger and better daily, farmers get more done-faster and easier. It saves you both time and money-for business and pleasure.

'What matter to me if a man is poor, If his clothes and shoes are old; If only his words and deeds are pure If only his heart is gold!

What matter to me if a man is aged If he walks with a step not bold; What matter to me if his hair is gray If only his heart is gold".

We are told that the leaves of autumn do not change their color from the blighting of frost, but from the process of nature. They fall when the fruit is ripened, or when their work is done. And their glorious hues are but their graceful surrender of their summer's mission to God and man, a mission of loyalty and service, even like that of an eager child. The fall of the leaf, a lesson to man!

FEESERSBURG

Years ago the blight struck the chestnut trees and killed them. A few years ago the tomato crop was ruined by a blight and today our schools are being hit by another blight. This is called "game blight" and it is eating at the very vitals of our adademic system in both colleges and public chools. Physical education was first introduced into the schools to draw attention to the importance of being physically fit and to show that a healthy child generally produced a higher scholastic record both for the individual and for the school. Some how this idea has been lost and the emphasis has been placed upon sports. The idea now is to win against one's opponent at all cost and being physically fit is only a minor detail. Sports have assumed such proportion in our schools that it may be called the maior subject. This point was brought home at the last PTA meeting when the soccer team was complimented before the meeting. Nothing was mentioned about the music department nor the I. Q. rating of the students. Children come home and tell their parents how many home runs they make on the softball team but one has to pry month. out of them what they are doing in English or Math. It is all right to have a soccer team or basketball team and to take pride in their achievement, but not to the exclusion of everything else. Teaching a child to take pride in physical courage is good and fine, but there are also a few other kinds of courages. There is mental courage or spiritual if one prefers to call it that, when a person must overcome some handicap to be able to take his place in the world of normal people; there is moral courage, when a person is strong enough to resist temptation, though he would gain materially by closing his mind to his conscience. The idea of winning at all cost is being instilled into the field of sports so that athletics is no longer a game of skill but of cunning and subterfugs. Surely parents want in their children something more than the attitude of I must win even if I cheat." Athletics should be put back into its rightful place—that of an extra curricular activity and not a major subject. Let a school take pride in its physical prowess for long after the cheers for the home team have died westminster, Md. and Mrs. Carlton we will be all the children and the child and the children and th on thin air, the skill and knowledge of its doctors, teachers and engineers

It is with deep regret that the cemetery, Baltimore. community learns of the death of Roy F. Smith, farmer and blacksmith, of near Taneytown, who died Sunday evening at the Annie Warner Hospital in Gettysburg. He had hage, Friday night at il o'clock at been a patient there since Aug. when the Frederick Memorial hospital, he was injured while shoeing a horse near Westminster. Mr. Smith work-days. Living in Taneytown years ed around horses for many years, ago, he attended Taneytown Bowling Brook. He probably knew and Tressila Bigham Goodermuth, more about horses and their traits now residents of New Windsor. Mr. than anyone in the business, and it is regrettable that he never wrote some B. Geer Manufacturing Company, New of his interesting experiences in a story or book. It would have made New Windsor Volunteer Fire Cominteresting reading for lovers of the | pany. horse.

This past week-end anyone that owned a vehicle with four wheels and would run seemed to be on the highways. The combination of perfect weather, Columbus Day holiday and the beauty of turning foliage drew everyone out of doors and turned most highways into a driver's night-mare. Even the TV sets must have lost their appeal for it seemed that all America was on the roads. All of man's inventions will never be able to rival that of nature whes it comes to luring people out of doors in October. Something in the air makes man restless and he wants to be out and doing.

Among the jurors drawn are: William H. Main and Calvin W. Binkley, Union Bridge district, Arthur F. Lambert, William D. Lovell, Jr. and Edwin N. Derr, of New Windsor district; A. Millard Roelke and Clarence E. Derr, Middle-

burg district. The old saying "A little knowledge is a dangerous thing" surely applies in medical learning. Everywhere one turns-in newspapers and in magazines there are articles on heart, brain, rheumatic fever and a dozen other diseases. Anyone that can read may get a smattering of information and after reading day after day may feel that he is qualified to diagnose his own symptoms. A little medical learning is dangerous and has done much harm to many people. Taking a cue from a doctor, who never treats his own family, nor attempts to doctor himself, if you are ill see a physician. Only he is qualified to fit the symptoms together and arrive at the right conclusion. There are times when with all his knowledge the doctor doesn't know, what is wrong so what chance have you with only a superficial collec-tion of data, of knowing what is wrong with yourself?

Seeing God's Hand

Lesson for October 21, 1951

NOBODY is ever, in all his life, actually as wise as he thinks he is when he is about 17 years old. We have a remarkable case of this

in the Bible, the story of a man whose viewpoint, between h i s 17th and 56th birthdays, completely changed. It is the story of Joseph

At the age of 17, Joseph was about as nearly insufferas any one ever has a chance

to be. He was the oldest son of the favorite wife of a wealthy cattleowner named jacob. Old Jacob needed all the hands he could use, to look after his sheep and cattle; and he put all twelve of his sons to work. Eleven of them had real work; Joseph, though next to the youngest of them all, was a kind of boss or overseer. At least that is what his father intended.

Dr. Foreman

He dressed the boy not in working clothes like the others but in fancy clothes, and used to send him around to see what the other boys were up to. Naturally Joseph's brothers did not take to all this; in fact they hated him so hard that they were on the point of murdering

On the very day of the proposed murder, however, the brothers discovered a chance to sell him as a slave. So Joseph was sold off to some traveling slave-traders, and for all his brothers knew or cared, he was off to a lingering death.

Where Was the Hand of God?

TOSEPH expressed no opinion about this at the time. (He was probably gagged.) But judging from his general character and behavior at that time of his life, it is no trouble to guess his thoughts. He was "fit to be tied"; indeed, he must have been tied on a camel's back, for no slave-trader in his senses would make Joseph walk the 200 miles to

The better his condition on arrival, the higher the price. (As it turned out, a very wealthy man bought him; perhaps only a wealthy man could afford

If you had asked Joseph while he was being hauled down to Egypt and the slave-market, Where is God in all this? Joseph might well have answered: "Nowhere. The devil is in this or my devilish brothers. Nobody means any good by it. The only reason they are selling me instead of killing me is that they are making a little by it; these slave-traders are certainly not in business for their health. I am the only son my father trusted, and lamp, now I shall die a wretched death in a strange land.

The Wisdom of the Years

THAT was Joseph at seventeen. At the age of 56 he saw a different picture. Many strange years had passed; Joseph had been slave and then prisoner; then by a dramatic turn in his fortunes he had risen overnight to be the top food administrator, price controller and economic stabilizer, all in one, for the great empire of Egypt.

His brothers, driven by famine, had fled to Egypt for help, and Joseph, after playing cat-and-mouse with them for months, at last told them (to their great terror) who he was. But he had returned good for evil; had invited down his whole family, father, brothers and all, and given them refuge in a corner of Egypt. At last Jacob died.

The brothers, who made the mistake of thinking Joseph no better than themselves, had supposed that all Joseph was waiting for was his father's death. Now would be the time for Joseph's long-delayed vengeance. Possibly Joseph the boy had dreamed of just such an hour. But Joseph the man was wiser. To his brothers, cowering before him, he said a memorable thing: "You meant it for evil, but God meant it for good." (Gen. 50:20.)

He still had no illusions about his brothers. They had been a bad lot. But God "meant it for good." That wicked act, selling him into slavery, had been the unintentional means of saving hundreds of lives. Joseph now, with the wisdom of his 56 years, can see the hand of God which his 17-year-old eyes could not see at all.

So in times of distress the thought should come to each of us: God's hand may just now be out of sight, but some day, looking back even on this distress we too shall see the hand of God.

THIS 'N THAT

(Continued from First Page) zinc and ore is brought up through the shaft from the mines, gathered then separated and placed in bins ready for the market. Pieces of the precious metals were handed to us. From there we were taken to the mine which is several hundred feet underground. We were lowered in a large bucket after being dressed in rubber clothing. Two miners went along as guides. The bucket in which we were lowered appeared more like a huge preserving kettle only of the state of wood. Three of us at a time were lowered in this bucket and it went down at a terrific speed revolving frightfully until we reached the bottom. The part that made Your Observer think was when the one foreman shook hands with us, "Goodbye" and hoped that we would come up alive! That bucket was raised from the mines with zinc and ore many times during the day, to be given the general pro-cess. We really were quite dizzy when we touched or reached the bottom. We were handed a torch light, a little brass affair which the miners place upon their hats while working. It was a real experience and one which I never will forget. The ground was wet and a very damp atmosphere and we could see the Miners working from the rays of the torch lights. The Miners gradually die from tuberculosis living and working in such conditions. They get from \$7.00 to \$10.00 a day and spend it as fast as they make it. The sensation returning to earth was not as bad going down.

Heard several women remark that they just did not thing it right to go to the Movies yet those very people enjoy Television in their homes. What's the difference anyway, Folks? The only difference Your Observer sees is that if a Movie does not meet with your approval, you can walk out and if something comes on T.V. that you dislike, you can switch the knob to another station. Don't be a crab, Folks. Enjoy yourself and if there are things in life to which you object just keep them to yourself and that way everyone will be happy.

So long, Folks. Have a grand week end. Be happy and by being so, you make others happy. Here's a saying for the week—"It is a sad religion that is never strong except when its owner is sick. And—"People who pray together—stay together." Until next week D.
