## INTER-CLUB MEETING

### Kiwanians and Lions Dine at Taney Inn

The annual Inter Club meeting of the Kiwanians and Lions was held on Wednesday evening at the Taney Inn with Mr. David Smith, president of the Kiwanis presiding. The invocation was given by Lion Merwyn C. Fuss. Following a most delicious ham dinner, Kiwanian Wallace W. Yingling, the inter club chairman, introduced the Chemtomes, a quartet from Camp Dietrick who entertained the members by singing several songs in perfect harmony. Kiwanian Yingling also introduced the speaker of the evening, Dr. Wm. Barnhart, a member of the faculty of Hood College at Frederick, Md., who chose as his topic "Signs of Hope in a Confused World." Dr. Barnhart stated that in many instances instead of God's will it's man's will and in many times we have accepted the philosophy of the tin cup. What is in it for me? We are not living to a high standard but to a lack of living. Our public enemy number one is the people who are asleep and many speakers fail to proclaim the moral and spiritual values of life. We need to eradicate the things which communism breeds, that of filth, hunger and strife and not until we put away the selfishness and indifference within ourselves shall we have gained a portion of good will of which we ourselves are the givers. In conclusion, Dr. Barnhart stated that this is no time to resign from the human cause, it is time to unfurl our colors and stand for what is right and just. Next week's meeting is in charge of Kiwanian Sam E. Breth, chairman of the Public Relations committee and the guest speaker will be Lt. Governor Charles O. Harsock of Hagerstown, Md.

## ANNUAL BANQUET OF C. OF C. HELD

### Record Attendance at Gala Occasion

The annual Chamber of Commerce Banquet was held in the High school auditorium in Taneytown last night with every chair filled at the tables. This marked the 23rd annual banquet which has become one of the outstanding social events of the year in Taneytown.

The sumptuous feast was served by the ladies of the Baust church who have proved themselves experts in serving bountiful feasts.

Merwyn C. Fuss, president of the Chamber, acted as toastmaster and presented the officers and guests. 16 new members were introduced (as follows: Frank M. Butler, Harry Borenstein, H. B. Dickinson, William E. Doughaday, Thomas F. Detwiler, Kenneth H. Ecker, Geo. M. Harman, Frank H. Libman, John W. Manspeaker, Hayden Myers, Robert W. McPherson, Rev. Miles S. Reifsnider, Carroll D. Sharrer, Edward Sprowl, William J. Stonesifer, Jas. B. Yingling, with Atwood Hess, Delmar Riffe and Harry I. Reindollar, as renewals). The total number of members this year is 175 which is the same as last year.

Mary Howe, of Chambersburg, Pa., with her assistant, Jack Westlig, delighted the audience with their musical selections on the Hammond Organ, piano and accordion. Her excellent performances are well known in Maryland, Pennsylvania, Virginia and West Virginia, and on Radio and television in Baltimore and Washington.

An outstanding event of the evening was the Arion Male quartet from Hagerstown consisting of Marshall Rock, 1st tenor, Bill Bar, second tenor, Oscar Raup, baritone, Bob Irvine, base, and Kenneth Alling as accompanist. Their vocal selections and encores proved a big hit during the program.

The guest speaker for the occasion was Dr. Paul M. Robinson, of Hagerstown, pastor of the Church of the Brethren, and one of the leading statesmen of the Church in America. He is widely known radio speaker, and popular speaker at colleges and church conferences, and other public functions. Last year his own church was recognized by the Christian Century as one of the great Churches of America.

Dr. Robinson, a gifted humorist, delighted the audience with a stirring address filled with wit and punctuated with outbursts of laughter. Often he referred to his trip abroad last summer where he visited 20 countries of the old world. The speaker emphasized that the last great frontier today is in the area of human relations on which the future hangs in the balance.

This was the first time in three years that a speaker was used at the banquet. And Dr. Robinson abundantly proved the wisdom of the committee in selecting him for the occasion. Everyone felt that this was one of our most successful banquets on record.

## TANEYTOWN 4-H CLUB MEETING

The Taneytown Agriculture 4-H Club held its annual parents night at the Opera House, Nov. 6, 1951 at 7:30 p. m.

The meeting was called to order by our president, Robert Bollinger. We then repeated the 4-H pledge.

Several of the club members then gave a play entitled, "Feudin'". The characters were Mary Klein, Gertrude Meunier, Mary Null, Robert Bollinger, Robert and Lawrence Meunier.

We then had the roll call, by each member telling what they have done with their projects since the Sept. meeting. We then had the reading of the minutes, which were approved as read. Our president then gave out calendars that were received from the Achievement Banquet. The treasurer's report was then given. There were bills to be paid and a motion was made to pay all the bills.

In our new business the president appointed a nominating committee for our election to be held at our next monthly meeting. The committee is Mary Klein, Harvey Dickinson, Lawrence Meunier and Robert Flickinger.

The Bollinger family gave the club a special invitation to come to their home for the Christmas party. Their invitation was kindly taken by the club. It was then decided to hold our next meeting on the 20th instead of our regular 4th Monday night meeting.

There was a motion made and carried to draw names and get "joke" gifts.

Robert Bollinger then introduced our guest speaker for the evening, Mr. William Allenburg, from the Taneytown High School, who teaches Agriculture. Harvey Dickinson then gave a demonstration on good soils. The meeting was then adjourned. Refreshments were served to all.

## "SOMETHING TO PONDER"

"Last year of Rockford, Illinois, the local churches and the Chamber of Commerce sponsored the second Christian Christmas Parade. Its purpose is to present the Christmas story to the public. There were 30 floats which 75,000 people saw. The first prize went to Tabor Lutheran Church whose float featured three trumpeters in white playing carols to a globe of the world. Quite an improvement over the Santa parade designed to drum up business."—From The Educational Reporter.

## BOARD OF EDUCATION REGULAR MEETING

### Many Problems Presented and Acted Upon

The Carroll County Board of Education met for a regular session on Tuesday, Nov. 20, at 10:30 a. m., with all members present. Approval was given for the minutes of the meeting of October 9, 1951 and the bills prepared for this session were given approval. The Board considered the problems related to the beginning of construction of the additional facilities at the Manchester School, and were made aware of the fact that no approvals had yet been given from the Washington Office of the National Production Authority.

The Board also considered advice which had been received to the effect that the beginning of construction without approval from the NPA would be in violation of National regulations, and it was therefore decided to delay the opening of the proposed building until permission to begin construction can be obtained through negotiation.

The Board gave some attention to the problem of collection of tuition for children not residents of the county who have been placed in boarding homes in some areas of the county. The superintendent was directed to continue his efforts to arrive at a reasonable solution of the problems connected with these cases.

The Board considered a report by the superintendent regarding the attendance of teachers at the sessions of the Maryland State Teachers Association in October as well as the successful participation of a number of Carroll County pupils in programs of the meetings.

The Board granted leave of absence to Mrs. Louise Barnes, Mount Airy High School and approved the assignment of Robert Martin to the vacancy in Mount Airy High School effective January 1, 1952. The Board noted with interest communications from a number of applicants for scholarships to Western Maryland College for the year 1952-53 and directed that these applications to be considered at the end of the current school year.

The Board made a number of miscellaneous appointments in connection with the janitorial and clerical staff in various centers in the county. Approval was given for the appointment of George Gillis as custodian of the Sykesville building effective November 15th.

The Board gave consideration to a number of requests regarding the surfacing of the parking lot in front of the high school in Westminster. Due to the fact that no appropriation is available for work of this kind the superintendent was directed to explore all possibilities for having the work done through the cooperation of interested groups.

The Board gave considerable time to consideration of preliminary budget figures for the school budget 1952-53. After consideration the Board approved the preliminary figures for the use of administrative staff in preparing the budget for the 1952-53 school year, directing that every effort be made to secure a more adequate appropriation for current expense operation due to the serious increase in the cost of materials and services. It was further directed that every effort be made to secure the approval of the appropriating authorities for continuing the building program in the communities where serious conditions exist at this time. The Board directed that the superintendent make every effort to secure the approval of the budget as submitted and that an effort be made to bring Parent Teacher Associations and interested parties throughout the county to an awareness of the budget and its needs. It was noted that due to the serious increase in the cost of services and materials an increase in the appropriations for current expense would be necessary.

## THIS 'N' THAT

(Your Chatty Column)

With all my heart, I wish you every morning  
A smile that shall last until the next day's dawning.  
I wish, you health—life's greatest wealth!  
I wish you always near so that I may help to cheer  
Each future day and in some way—help to bring you happiness!

The huge "seven seater" taxi, the most beautiful glamorous store windows, ladies (nine out of ten) wearing fur coats, the constant rush of the pedestrians with their haggard and strained expressions, the tall buildings—that's Central Park with its many acres, Sugar Hill (where the rich colored class reside) with their hired white help, the TV and radio broadcasting buildings—that's New York. It still is the greatest city in the world with all the interesting background in every walk of life!

Your Observer spent three full hours in the studio with Faye Emerson (C.B.S.) in the Grand Central Building from which the Pepsi-Cola Show of Teevy goes on. No audience is allowed for this programme. What a charmer Faye Emerson is with her new hair-do of the Poodle Cut. She has big brown eyes which are beautiful and the most beautiful nose you ever saw! What was amazing was her figure as she is a much larger woman than TV shows. Her original hair arrangement did much for her in preference to the new hair-do. She is sweet and just about the most unaffected actress with whom I ever talked with the one exception of (Come up 'in see me some time)!

There are twenty four men in the Studio on that programme at one time all making that Saturday evening programme delightful for the TV audience. Miss Emerson never gets ruffled or impatient. Only once did I hear her say that she was tired. She is sweet to all those who work with her. She really makes suggestions even to the executive who is in the Controlling Room watching every second of it all. (Who holds regular conversation at all times although he is the real Director). At six o'clock as we said "Goodbye" and Miss Emerson (Continued on Fourth Page)

## KEYSVILLE LUTHERAN THANK-OFFERING SERVICE

A goodly number of people came out to enjoy the fellowship of the public Thankoffering service Sunday evening even though it was raining and freezing.

Mrs. Gregg Kiser played the professional on the pipe organ and Mrs. Arthur Clabaugh was pianist for the remainder of the service. The devotions were in charge of the thank-offering chairman Mrs. Clyde Wilhide. The scripture lesson was read by Mrs. Carroll Dougherty and prayer offered by Rev. Glenn L. Stahl pastor of Trinity Lutheran church, Taneytown. The Trinity Lutheran Brotherhood chorus accompanied Rev. Stahl to Keysville and they appeared on the program twice each time singing several selections to a very appreciative audience. Rev. Stahl brought a timely message encouraging missionary work. There is much to be done in missions. We must not stay along the shore line but launch out into the deep.

This service also commemorated the ingathering of food for the Lutheran Home of the Aged at Washington, D. C. The fruit, jellies and other articles of food brought in were attractively arranged by the special aids chairman, Mrs. Roy Baumgardner and her helpers. Our late pastor, Rev. R. S. Poffenbarger was deeply interested in the Home and it was he, who arranged for the jars to be filled. Rev. Stahl made brief remarks concerning the home, its family of aged people and the maintenance of the home.

David Reifsnider, of near Keysville very impressively sang "The Lord's Prayer" accompanied by his mother, Mrs. Leonard Reifsnider.

The gratitude of the Missionary Society goes out to all who helped make the meeting a success both spiritually and financially. We are most grateful to the speaker who brought the message of the evening and to the soloist, and the chorus who brought a message in song.

## THE COAL WE BURN

Here in Eastern Central Pennsylvania, where I now live, is found the greatest seams of anthracite coal found anywhere in the world. My brother-in-law who is chief mining engineer of the coal and iron company informs me that seams of coal from one inch to 64 feet in thickness is found in this region, and that deeper and untouched are three other seams that await future needs and development. About 30 years ago a lot of independent operators known as boot-leggers flourished. They dug the coal near the surface and sold it to purchasers in Philadelphia, Wilmington and Baltimore at prices less than the regular company charged and did a flourishing business.

The company officials decided to end this business and proceeded to do so and now all over these parts may be found deep diggings a hundred yards deep or more. Some of the counties have compelled the companies to use bulldozers to push in and fill up these holes. All should be filled, and when done seeded with grass and orchards planted. These regions alone could furnish milk and fruit enough to supply the wants of the state and leave surplus for outside sales. But men here as elsewhere are slow to take advantage of present opportunities.

## FARMERS LOOK AT THE CANDIDATES

Only 21.3 per cent of farmers and farm women said they would vote for President Truman if he were running for re-election today, according to a spot check made by Country Gentleman magazine. The national farm magazine reports that 71.4 per cent said they would not vote for President Truman and 7.3 per cent were undecided.

The magazine's check was made by field correspondent in 23 states. The question asked was, "Would you vote for President Truman if he were up for re-election today?"

In the 1948 presidential election the farm vote was generally regarded as playing a decisive role in President Truman's victory.

"General Eisenhower was most frequently mentioned as the man farmers would like to see on the Republican ticket, followed closely by Taft, both being suggested several times as often as MacArthur, Dewey, Warren and Stassen," the magazine says.

None of those questioned, it added, expressed doubt that Truman would run in 1952, and there was a widespread feeling that "he'll be hard to beat."—E. H. & S.

## WATCHDOGS NEEDED.

In a letter to Senator Lodge, former President Hoover endorsed a proposal to set up a new congressional committee to act as a watchdog on military spending. Mr. Hoover wrote, "When appropriations were a few millions, the members of congress or its committees formed sufficient guardianship of their proper expenditures."

"But now that they run into many billions, something more than the normal congressional committees are essential for watchdog purposes."

It is often said that, despite the burning need for rigid economy in government, we must not tamper with the rearmament program. This is true—as a general principle. But waste in the military establishments is just as bad as waste in the Interior Department, the Executive establishment, or anywhere else. Congress has

been properly disturbed by reports that military officials have pursued purchasing policies which artificially and unnecessarily drove up prices—and thus brought the country less defense for the money available than would otherwise have been the case. Senator Lodge, a veteran of the last war and one of the strongest advocates of full preparedness, believes that the proposed new committee should maintain "a 365-day a year supervision of all defense spending."

We are now paying the highest individual and business taxes in our history, save for the peak reached briefly during World War II. In spite of this, we are running a tremendous deficit and going farther and farther in the red. Can anyone doubt that all non-essential spending must be stopped cold—and that the essential spending be watched with the utmost care?—Industrial News Review.

### FEESERSBURG

Eighty years ago the penny post card was born. On February 1, 1952 it will be laid to rest along side the five cent bus fare, the five cent cigar, the model T Ford and many other familiar landmarks of yesterday living. The penny post card has been an inexpensive means of communication, specially to vacationers, who never felt any vacation was complete without sending dozens of these cards back home to relatives and friends.

Of course we will still have the post card with us but it will cost two cents. The change in cost is not the significant thing though. To us, that are belonging to the middle-aged group, there seems to be too much change in the small money things of life. We have little to cling to that once belonged to our life when we were younger. It is distressing to many of us, that so much of the past is changing and we are left dangling in a world that at times seems hazy and unfamiliar.

The passing of the one cent postcard is just another flag stone that has been removed, leaving the gap between yesterday and today just a little wider and a little more forlorn.

The Women's Missionary Society of the Mt. Union Lutheran church will hold its Christmas party Monday evening, December 2, in the Parish House. There will be a special musical program, followed by games and refreshments and exchanging of gifts.

Mrs. David Miller and Mrs. Maude Martin met with freak accidents last week. Mrs. Miller fell and suffered cuts and bruise burns on her face and Mrs. Martin injured her arm from a fall.

Mr. and Mrs. Cleon Wolfe and Mrs. Emmett Miller attended special services at the Keysville Lutheran church, Sunday evening. The Lutheran Brotherhood Chorus of Taneytown sang several selections which were greatly enjoyed.

The Uniontown Parish choir journeyed to Washington on Sunday and took part in services held in the National Lutheran Home for the residents living there. Among those from the Mt. Union Lutheran church making the trip were Mr. and Mrs. Blaine Broadwater and son Brian, Mrs. Lowell Birely, Mr. and Mrs. Frank Bohn, Mr. and Mrs. Ralph Bair and Paul Spurrier.

If people in small towns think they have parking problems they should spend one Saturday in Baltimore. By the time they had found a place to park their car, dodged traffic to cross the streets, were yelled at by taxi drivers and pushed about by mobs of people, they would return to their small town, thankful to be alive, and vowing never to leave it again. No doubt city people get used to scampering about like a scared rabbit, and maybe their ears get used to the noise of horns blowing and drivers screaming but nothing a city possesses would repay anyone for going through one traffic jam in Baltimore on a Saturday. In payment for the quiet and comparative safety of a small town, any property owner should not be too squeamish about people parking in front of their home or property, providing the person doing the parking respects the rights of the owner. This of course does not include the right to toss out garbage, deface property and serenade the vicinity with all kinds of noise. Consideration of other people is the

basis of all good manners. And good manners should be used in parking one's car as well as in other contacts with people.

Driving toward Hanover on Monday Millard Roelke had the terrifying experience of seeing the wind rip a high tension wire loose from the pole and break the cable in two, catching his car between the broken ends. Traffic was tied up for half an hour until the current was turned off and the cable put back.

Mr. and Mrs. Clarence Myers and two children, of Baltimore, spent the week-end with the Russell Bohns.

The Lee Finks moved Monday from their farm at Mt. Union to their new home near New Midway. They will be greatly missed in our community for they were good neighbors—the old-fashioned kind. Like a light house beacon, on duty twenty-four hours a day.

In Washington, D. C., a mother visited her son's classroom during American Education Week and learned that each morning the school program began with the Lord's Prayer and before lunch the children were taught to say grace. She said she had no objection to prayer or any other religious practice, but she didn't think a public school classroom supported by public funds was the place to engage in prayers or any other religious ritual. A lot of things have come out of Washington schools lately and some of them so un-American that one would think any parents would be happy to know their children were being taught something like the Lord's Prayer. Of course religious instruction in the public schools has always been a touchy subject with most people, but there are some children who never come in contact with any religious training except what they obtain in the school.

One has to wonder if reciting the Lord's Prayer can hurt anyone, no matter what his or her religion may be.

### DAY AFTER THANKSGIVING

Thanksgiving is over and the turkey is gone

Mamma is mad and Daddy is too.

For mother is fatter by three or four pound

While daddy is leaner than a stray rabbit hound.

The reason is this I hate to relate

While daddy ate one, Mamma doubled her plate

Now daddy can boast he's as thin as Bill Tower

Mamma just glares and heads for the shower.

Now this should be a lesson to you.

Don't eat all the turkey—save some for stew.

—Ruth Roelke.

There is much, dear readers, that I could relate which would take an entire column which space does not permit and I do know you want to hear some other news.

Up in a show window near Times Square was a sign, "BUY YOUR BULOVA WATCH HERE AND YOU WILL BE GIVEN A TURKEY FREE FOR THANKSGIVING!"

There is so much food in New York and all arranged most beautiful in the restaurant windows to tempt the passer by and the prices are telephone numbers.

If the show comes, "Two Tickets to Broadway" don't fail to see it.

Grand advertisement for the "Greyhound" bus. That Show!

Was in the audience twice of the shows, "Strike It Rich" and "You Can Be A Winner" and it is interesting to know and see the way the programmes are put on for those big sponsors. The Arthur Godfrey Show tickets must be written for just four months in advance! He is the most popular of all!

Those big swearing policemen are disgusting and Your Observer realized they could not compare with the Police Force. To ride in the Taxis are really at your own risk for they whisk through red lights and nothing is ever done about it. There are about twenty taxis to one privately owned car on the streets.

Did you know that the waist measurement of the Statue of Liberty is 35 feet and the arm is 40 feet. The height is 300 feet from the ground but the statue is exactly 152 feet. It is the largest statue in the world and to think it was designed by a Frenchman by the name of Frederick Bartholdi as a symbol of Franco-American friendship. Just \$250,000 was raised in France to pay for the Statue while \$200,000 was contributed by Americans to provide the pedestal. The head is 17 feet high and the forefinger is 8 feet long and five feet round and the statue weighs 250 tons! There are many New Yorkers who have never visited the statue which is hardly believable. Your Observer interviewed many while in New York and it was amazing how many close by have yet to visit the Statue of Liberty.

The Cathedral of St. Johns, The Divine (Episcopal) but all denominations worship here! is beyond description. The corner stone was laid in 1766 and George Washington worshipped there. It was most fortunate when the organ played in the Cathedral to be there at the time which is rare. It filled the entire interior with the beautiful strains. (Your Observer has always desired to play the organ in preference to the piano and some day not far off, I may begin taking lessons all over again just as the baseball player did—one of those GIANTS whom I heard and saw down in the Steiff piano company of which I had written in a previous column.) Remember?

There is much to see and visit there. The Beautiful Radio City Music Hall with its Symphony orchestra was enchantment. Each time, Your Observer visits New York, it means so much more to see. The show called, "Too Young to Kiss" was cute which delighted the audience shown in Radio City Music Hall. The Ballet Dancers with their special number were quite different.

Here's to that Sagittarius person! Either man or woman! They are indeed gifted with mental qualities of a high order including unusual powers of discrimination which in turn give a lofty sense of justice, foresight and wisdom in all commercial and industrial interests. These people are the ones who move the world by their concentrated energy. They are usually quite handsome in fact, I have known some of the most beautiful girls and women in this magnificent sign. They have sterling qualities and beautiful characters plus the best dispositions. There are a few around our town whom I could mention. They are the most thrifty people in the entire Zodiac and by that I do not mean 'tight' individuals! They are most reliable and their wonderful judgment in all things takes them to the top of the ladder. There is only one fault which they can easily correct and that is at times they may be blunt in speaking to others.

So long, folks. Have a grand week-end. Be good and be careful. Until next week D. V. I am,

Faithfully,

YOUR OBSERVER

At one of the large automobile companies, twenty-seven painting operations are carried out on two miles of conveyor lines. In the storage rooms there are twenty-eight tanks, each of which can hold one hundred twenty gallons of material. In addition to the primer surfacer and sealer paints, there are twelve enamel colors. Paint is supplied to the body spray booths through nearly thirty-six hundred feet of pipe.

### Modern Generation Gifted With Medical Knowledge

HOBOKEN, N.J. — The new generation never ceases to amaze!

Two 11 year old boys found a .32 calibre bullet and managed to somehow fire it in a toy pistol.

When the bullet lodged in the leg of Joseph Lawless, he calmly dug it out with a penknife and walked to a nearby hospital.

As an intern began to probe the wound in search of the bullet, Joe politely informed him: "You don't have to go digging in there, Doc. I already dug it out. Just put some penicillin in it."

### Zoo Suspends Talking Crow For Using Foul Language

CLEVELAND, Ohio—One of the star performers of the municipal zoo has been suspended indefinitely by the management. He is Jimmy, the talking crow.

The two year old Jimmy has been selected to represent the zoo's birdhouse in a travelling zoo. Cheerfully, Jimmy would always have a big "hello" for Cleveland youngsters. Somewhere in his travels, however, Jimmy added a lusty phrase ("Go to U-NO-WHERE") that caused officials to bring him home to roost.

"He will be indisposed until he cleans up his language," the zoo director announced.

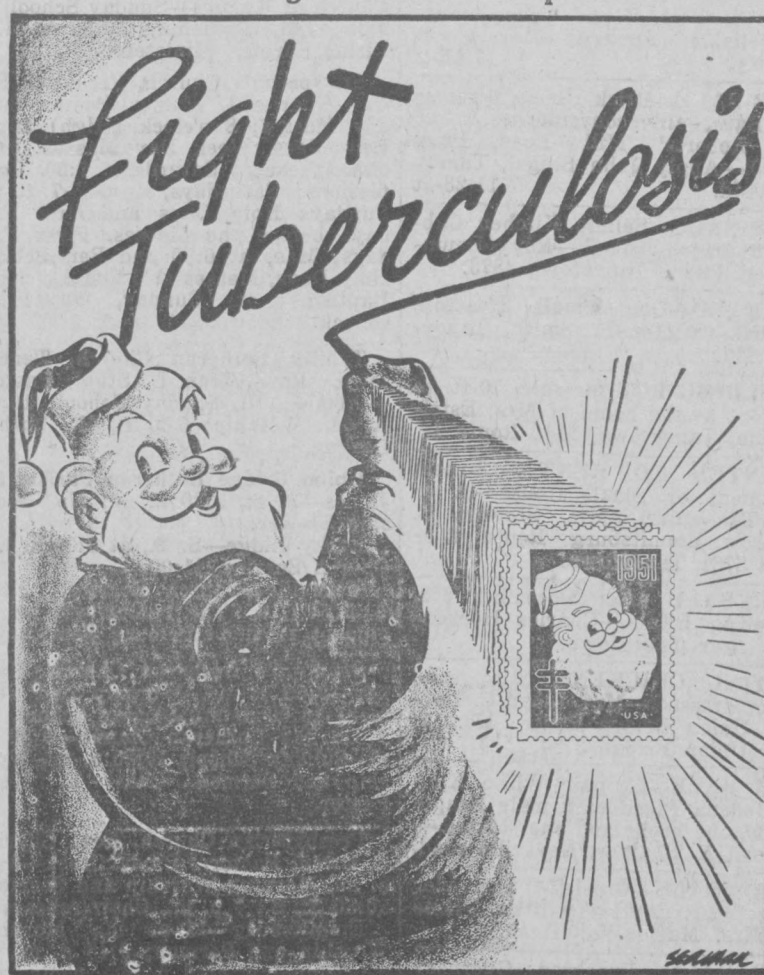

### Uncle Sam Says

Of course you know your ABC's but do you know your D's and E's? Under present world conditions, D standing for defense and E standing for Series E Defense Bonds are inseparable. By buying Defense Bonds regularly you help build the nation's economic strength that backs up our defense effort. At the same time you are helping yourself. Every Series E Bond you own automatically goes on earning interest every year for 20 years from date of purchase instead of 10 years as before. This means that the bond you bought for \$18.75 can return you not just \$25 but as much as \$33.33. A \$37.50 bond pays \$66.66. And so on.

### 'There Is a Tide'

Lesson for December 2, 1951

"There is a tide in the affairs of men,  
Which, taken at the flood, leads  
on to fortune;  
Omitted, all the voyage of their life  
Is bound in shallows and in miseries."

SO Shakespeare said, and he was at least half right. Opportunity sometimes knocks twice; but don't count on it.

The Bible lesson for the week is a failure-story, not a success-story. It is the story of some persons who contracted the grasshopper complex, a mental disease that still attacks people today. The story is from the wild days when the Israelites, now two years out from Egypt, were first knocking at the doors of the Promised Land.

Dr. Foreman

The Israelites were land-hungry, but the only land they wanted was what we now call Palestine and it was not theirs for the asking. They would have to fight for it, every foot of it. They all knew this. Moses knew it. There was no going back to Egypt and slavery. Nobody wanted to stay in the desert. The obvious thing was to go ahead into Palestine. But there were two questions filling the people's minds: (1) What kind of country is it, really? and (2) can we fight our way into it?

#### Investigating Committee

SO a committee of investigation was formed, of one man from each of the twelve tribes,—grown men, trusted leaders, by no means "boy scouts."

Don't think of these men as sneaking through Palestine from bush to bush; peeping out Indian fashion to see what they could see. They walked into Palestine, not unobserved but unmolested. They spoke Egyptian, of course, and could easily pass as Egyptian traveling salesmen. They spent around six weeks in that country, visiting the cities, no doubt talking with the people.

In late summer they went back to the encampment on the edge of the desert, carrying with them some of the fruits of the land. (Incidentally, those pictures showing bunches of grapes six feet long are a funny misunderstanding. Palestine has good grapes, but not quite that good! They carried the grapes on poles because that was the best way to keep them from being crushed.)

At the big mass-meeting at the desert camp, the twelve made their report. On the facts, they were all unanimous. It was a wonderful country, "flowing with milk and honey," a great country for cattle and bees. Palestine did look marvelous to their desert-burned eyes. But on question number two there was a serious division: Can we fight our way in? Yes, said the minority of two. No, said the majority of ten.

#### Grasshopper Complex

THE majority put their reasons in a single revealing sentence: We were as grasshoppers in their sight, they said, and so we were in our sight.

Nowadays we call this state of mind the "inferiority complex"; our name is a new one for an old trouble. Think of yourself as a grasshopper, and grasshopper is what you shall be. Take yourself at other people's lowest estimate, and that is all you will be worth.

The trouble with the grasshopper complex is that it is catching. The majority report was wrong, as majority reports so often are. But the people believed them rather than the courageous pair who stood up to declare boldly, We can do it, with the help of God.

Well, what did God do about it? That is perhaps the saddest part of the story. He did nothing about it. He let the people impose their own sentence. Grasshoppers? Very well, so be it. Grasshoppers die, they never amount to anything, no one bothers to kill them, they just die. God was believed to strike men dead in anger, or command the earth to open and swallow up the wicked, or hurl lightning from the skies on his enemies. But he wasted no miracles on these self-elected grasshoppers. He only let them die. Ten, twenty, forty years . . . just drifting about in the wilderness, till they all died, and a new generation took their places.

Opportunity did not knock twice. There was a tide in those men's lives.

to enable the schools to conduct an efficient program.

A report was given to the Board regarding certain difficulties in connection with the heating plants at Taneytown and Sykesville, and it was directed that further efforts be made to improve the efficiency of the heating plants at these locations as promptly as possible.

The superintendent was directed to make arrangements for the evaluation of the Westminster High school and other county schools by the Middle States Association. This work to be done as soon as arrangements can be made.

It was reported that the New Windsor school had been practically completed and was occupied at this time, and that the occupancy of the new quarters was of much advantage to the educational program in this community.

Today many schools are in serious trouble. Nationally, we need thousands more classrooms over the next ten years. We need more teachers—75,000 more in elementary schools alone. We need better equipment, more facilities, more up-to-date textbooks. We may need some of these things right here—so let's start doing something about it.
