#### A BRIDGE TO PARENTS

#### New Method Being Used in Reporting Pupils Progress

In an effort to help bridge the gap which sometimes exists between the thinking in the home and school, eachers of the primary department of the Taneytown Elementary school, have been studying pupil reporting. It was found that report cards were placed in use as the schools were consolidated and drew further away from the home. Many years ago, when private tutors performed most of the teaching and lived in the homes parent-teacher conference enabled parents to know just exactly what the pupil was doing and what they could

However, today we have moved far away from these contacts and present reporting methods do little to give parents a complete picture of the child and in many cases cause much friction between school and home. tion-wide questionaires have shown that parents are interested primarily in knowing three things about their child's work in school; (1) How is my child getting along? (2) Where does he need help? (3) What is being done

The teachers have studied the many ways in which schools are attempting to bridge the gap and have found that the most successful method seems to be the narrative-conference type of report. Parents are given no formal, periodic report, but are told of pupil progress and needs by more direct methods. Written comments pointing out school progress are sent out in small groups, sometimes accompanied by actual samples of the pupils work. To supplement these narratives, short conferences between the parent and teacher are held during the year, at which time the entire picture of the pupils work is explained and discussed.

Since a better understanding of pupil progress is desired by all parents, Taneytown Elementary hopes to make every effort to build a better link of understanding between school and home. Perhaps the adoption of such a method in the lower grades would help bridge the gap.

#### HIGH SCHOOL NEWS

An innovation in the form of an Orientation Day was held on May 16, when the sixth grade under the supervision of Mrs. Senseney and Mrs. Welker visited the High school. The visitors were met by members of the ninth grade who escorted them thru the building showing the various class rooms, and introducing the teachers of each department.

The group was entertained by an assembly, the purpose of which was to familiarize the visitor with some of the extra-curricular activities of

## P. E. SYSTEM QUARTER CENTURY CLUB MEETS

The annual dinner meeting of the Potomac Edison System Quarter Century Club was held in Hagerstown on Friday, May 16 with 36 employees joining the honorary organization and eceiving 25-year pins and certificates From this area one who qualified for membership by having served a quarter of a century with the utility company was Samuel E. Breth.

Also featured on the evening's program was the awarding of service pins to those who have been associated with the Potomac Edison System for 30, 35, 40, 45, 50 and 55

Following the dinner and entertainment, Potomac Edison's President R. Paul Smith told the Quarter Century Club members: "The group could well be called the 'Foundation Builders' instead of employees. This group which we honor tonight have placed the foundation stones of this Company with such care that despite the effort of those groups who would destroy us, our industry and our country, we have stood the test without a tremor .... I feel especially close to the membership of this Club because I have enjoyed the association and personal acquaintanceship of almost member as we have marched shoulder to shoulder through the years serving this Company.

## CITY OFFICIALS NAMED AT PUBLIC MEETING

# Mayor Perry Makes Report of

A small but larger number than in past years, of interested persons Taneytown turned out for the public meeting Monday evening.

VICTOR, N.Y., HERALD: "Two months ago the government halted a New York Central rail walkout by enjoining the workers to go back. Two years ago he (the President) thwarted John L. Lewis' will to strike through the courts and won his fight. Yet in

part of the Constitution known as the 'Bill of Rights', Article IV states, 'The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated xxx.... the court saw fit to grant the steel industry an order voiding the industry's seizure."

BISHOPVILLE, S. C., LEE COUN-TY MESSENGER: "Quoting Donald Richberg 'The seizure of the properties of the steel companies by President Truman, is the most inexcusably lawless act of any President in our entire history.' Mr. Richberg is a distinguished attorney, author, General Counsel and Chairman of NRA, co-author of the Railroad Labor Act and for years conspicuously identified with Government Administrative policies."

ANAHEIM, CALIF., BULLETIN: "The Senate preparedness subcommittee has recently put its finger on one of the big reasons for big military expenditures-waste ... Lack of cost consciousness on the part of officers in charge of expenditures, says the committee, is a principle cause of waste. This blindness or indifference to the burden being cast on the taxpayer has long been typical of the armed services officials. It's one of the reasons why, with the greatly increased cost for

preparedness, a limit may have to be placed on the amount of taxes which can be levied on the people. In some degree, the effect of this would be to force the military and the civilian agencies of government to spend their funds on essentials, not extravagances.'

SALEM, OHIO, FARM AND DAIRY: "Government determines to what extent you are to be regimented. It determines what you shall receive for your beef animals, or did determine, but a ray of light and hope was cast when Congress failed to put its stamp of approval on all the controls and regulations that could be dreamed up by those wanting a controlled economy."

FORT PAYNE, ALABAMA, TIMES-NEWS ERA: "Commissioner of Internal Revenue Dunlap says that if there is not some let-up in criticism of his burea people are going tho lose confidence in it. Six out of 64 collectors of Internal Revenue have resigned under fire and two of them have been indicted for taking bribes. In addition, numerous lesser officials charged with duties in connection with collecting Federal taxes have been caught redhanded taking bribes and practicing favoritism toward taxpayers... If that causes people to lose confidence in the outfit, let them make room for officials who can be trusted and who will not yield to temptations to take bribes and feather their own nests at the expense of

## **GROW your PULLETS**

FOR EARLY EGGS LONG PRODUCTION

The New Purina Growena Checker-Etts with Purina's exclusive Formula 1028 providing the growth vitamins, B 12 and antibiotic feed supplements is the best growing feed we have ever tested. Pullet development is rapid and uniform, bodies are heavy at laying time and production, (the payoff), is high and steady after pullets start to lay.

As an example of the difference Purina can make, we point to a test run a few years ago. Purina-fed pullets were 11/2 lbs. heavier per bird at 20 weeks than their sisters raised on a poor growing ration. Purina-fed pullets averaged 21 eggs per bird more in the fall and early winter when egg prices were highest. START .. GROW ... . LAY ... . feed Purina All the Way! See us soon!

With its 180 HP V-8 engine, on 1251/2 inches of wheelbase, many people think the Saratoga is the best Chrysler car

We invite you to take the wheel and feel what happens! There's a new sense of easy power, of reserve power that make driving a new experience.

Its revolutionary combustion chamber develops more of the power in each charge of fuel than other engines can do. One result is performance, even on non-pre-

mium fuel, such as you have never felt. Another result is new economy. It's an engine that scarcely forms carbon at all. It creates less heat. It will last much longer, stay younger on the way!

And with Chrysler full-time Power Steering\*, you steer with one-fifth the usual effort . . . drive with five times the usual control! With Power Brakes you need up to two-thirds less foot pressure ... and still stop in many feet less than other cars can do.

Yes, behind Chrysler's new engine you'll find a new kind of car. Won't you come in and feel what we mean?

\*NOTE: Power Steering standard on Crown Imperial. Available, extra, on any new Chrysler.

After waiting several years for public opinion to adjust itself, the Mental Hygiene Society of Maryland has decided to launch a drive through the churches and schools for funds to support the need for research into the cause and cure for mental illness. #### The Watch Guard Dog

Most dogs have an inborn desire to guard their master's property. Here is how you develop this instinct. Dogs are naturally more suspicious. In the evening take your dog indoors. Then ask a friend who is not known to the dog to approach the room making a lot of noise while

When you hear the footsteps approaching talk to the dog in a low, excited voice. When your helper arrives at the door have him rattle the doorknob and knock loudly on the door. This and your excited urging will probably induce the dog to bark. Now praise and pet him profusely.

The helper should retreat and repeat the procedure. This time the dog's bark will probably be more energetic and determined and it will take only a few lessons of this kind

to make him a reliable watchdog. The good watchdog must announce the presence of any stranger. Then should stay in his place to keep out the stranger until called off. He should not attack people but when members of the household are menaced the average dog will seek to defend his "home" to the death. (From the Purina Farm Dog Book)

#### God and Life

Lesson for May 25, 1952

IF THERE IS any one commandment which Jesus not only did not abolish but made far clearer and sharper, it is the commandment, Thou shalt not kill.

By word and act, the Master showed that life is sacred. It is

sacred because we are God's children; whatever inlife, whatever makes it less worth living, whatever tempts men to do way with their own lives, whatever shortens life and makes it wretched and unbearable, Dr. Foremon this violates the

will of God, this is a form of killing. Jesus's attitude to disease is a case in point. We do not read of a single case where he came in contact with a sick person and urged the patient just to be patient. He always restored the sick to health; sickness in his eyes, is a thing that ought not to be.

Blunt Instruments

MURDER MYSTERIES are always solved in the detective stories. In real life we are not always so fortunate. Many a murder mystery remains a mystery after long years. All the police could ever be sure of was that "some person or persons unknown" hit the victim with a "blunt instrument."

Now you would think that a murderer would pick out something more efficient. Why not a sharp instrument? However, the blunt instrument, whatever it was-a sashweight, a brick or whatever,-did the work. A man can be just as dead from being hit with a sandbag as from being shot with a rifle.

As Simeon Stylites pointed out some time ago in the "Christian Century," there are all kinds of blunt instruments besides crowbars, sash-weights and bricks. Whatever tends to shorten life is a kind of blunt instrument; it may take a long time to have its effect but if it is deadly in the long run, then it is deadly, period.

Any sort of habit that cuts down one's good health; and carelessness or neglect; any stupidity or foolishness such as driving too fast on a wet night; giving, way to worries and getting indigestion from them; these are not un-heard-of ways of shortening life. They are, in plain language, murderous.

\* \* \* \*

Alcohol the Killer

AS THIS IS the temperance lesthe fact that alcoholic liquor is a too popular deadly weapon.
You have heard of the so-called

antibodies or phagocytes which are in a healthy blood-stream. These are the little fighting cells which gather around invading germs and kill them. Without these in our blood we could scarcely survive a single day, the air is so full of germs which we cannot help taking into our throats and lungs.

But alcohol taken internally

will paralyze these phagocytes to such an extent that they are no use. This is not to say that a single bottle or drink of liquor kills all a man's phagocytes at

But still, as David Starr Jordan, president of Leland Stanford University, once said, if a man were telling the whole truth he would not telling the whole truth he would not say, Let us have a drink together. He would say, Come, let us paralyze our phagacytes together!

Insurance companies which insure only ministers and religious work- 30. ers, that is to say, which insure mostly non-drinkers, can and do offer insurance for much lower premiums than companies that have to insure all sorts of people including "moderate" drinkers.

Hit by the Bottle

is hitting him. Liquor kills, in more ways than by paralyzing the health-cells in the blood. Time is the stuff life is made of and how much time

life. Liquor also makes a man reckless. The trade of prostitution would not be quite so flourishing without liquor. Many a serious disease is contracted under the effects of liquor.

As for violent and suddent deaths, read carefully next Monday's papers for the lists of the people killed on our American highways this beautiful May week-end. Read again after Decoration Day. Read carefully: how many of these dead people, if sober, might have lived? THE UNDYING DEAD

Memorial Day is here again. Significant days follow one another in quick succession—Lincoln's Day and Washington's anniversaries. Good Friday, Easter, Mother's Day, Memorial Day, Father's day, Independence day, Labor day, Thanksgiving, Xmas and a host of others. Each one is somewhat different from the others in meaning. But commercialism gives all of them. But commercialism gives all of them more or less a common touch. Too much so. And so long as the American people purchase so long will this spirit continue to thrive. On the other hand there are those who do not know how any of these days can be properly observed without lingering about a bottle-beer, wine, or whiskey. How many interesting radio and tele vision programs are interspersed with advertisement of these products! How can the young generation not be influenced by these accursed

Since this occasion savors of a homecoming, for friends from far and wide, t here are bountiful tables spread and at noon everybody is invited to share in this meal of fellowship. Their dead are not forgotten. They live on in memory while their mortal remains lie interred in Mother earth.

#### SOCIAL SECURITY

Checks for insurance payments under the provisions of the Federal Old-Age and Survivors Insurance Program are going to 1,455 aged persons, children, and their widowed mothers in Carroll County.

In releasing these figures, Laurie J. Gillespie, field representative of the Baltimore North Social Security field office, also said that these monthly payments amount to \$45,861. "Without these payments earned by work-ers under this contributory system, the ability of many persons to pay for necessities would have been drastically curtailed or entirely ended", he added.

More than one-third of all people over 65 in the United States who

could not count on income from work for support were getting social se-curity insurance benefits. About curity insurance benefits. About 1,170 persons over age 65 in Carroll County were receiving these pay-

ments.
Mr. Gillespie pointed out that this Three out of every four mothers and young children in the nation are now assured of monthly payments if the insured breadwinner of the family

In this connection, he cited monthly payments totaling \$7,324 to 237 children and their 48 widowed moth-

ers in Carroll County.

the great contrast. Those ever popular lemons with the emon sticks were most prominent and a delight to both old and young. This year there were two "Merry-Go-Rounds" for the small fry. Black-eyed Susans were sold to the throng attending the Mart and there was the real baby parking lot. Booths were do-ing a lively business with their potted plants—posies, candies and many articles of real value. Yes, the Flower Mart is somthing very special in Bal-timore and each year it becomes more popular. It is fascinating and the entire setting has a charming background in that very location.

Now, here's to the "OLDSTER"! Now, here's to the "OLDSTER"!
An aged lady living in a home with her husband for many years in the little place which they toiled and paid for by the sweat of their brow was influenced to take a nephew in the home with his wife with the understanding that the young couple were to do for the aged couple as though the home was their very own. The couple were childless always doing for other youngsters all their lives. One day—a few months ago, the aged husband fell down and the tiny wife tried to fell down and the tiny wife tried to pick him up and in doing so he fell backwards and fell on the little aged lady's hip and broke it. Since his fall, he has passed on and she is still in the hospital. "But", she says, "I do not want to go back to that house as there will be no one to take care of me as my nephew's wife also works and there would be no one all day and there would be no one all day long with me." She then was told that she could get someone in the house as free rent to the individual who would take care of her. She then admitted that she and her husband had signed over the Deed to the young couple and since that time there has been trouble! Things like this happen to many old folks! How cruel and trickey it is for the younger set to scheme! What will happen to this dear little aged lady, I do not know. There are so many cases that are similar.

Mr. Gillespie pointed out that this Federal program is affording substan- lived alone in the little house and supporting herself by having two boarders and was really making ends meet as nothing was owed on the litthe house in the city which her husband had left her. There was one child—a young son of nearing his 25th birthday. He influenced this Mother to mortgage her house as he knew of a big deal in Chicago where he could double his money in no time. The little lady listened and did as he said and now she is penniless and recently took a position as a helper in a strange household. So, Folks do not let others influence you when it comes down to your last cent or your home. If you desire to Will it to the individual in case of your death—that is a different story!

So long, Folks. Have a grand week end. Always remember to be kind to babies and aged individuals. Both need love and care. They only exist without it! Until next week D.V. I am Faithfully,

#### Rain Barrels

Make your rain barrel waterproof . keep it from rotting by applying boiled linseed oil each spring. Apply enough so that it soaks into the wood. Allow barrel to dry before

#### Storing Liquids

In storing flammable liquids, the experts recommend galvanized steel gasoline and oil cans, which cannot be broken and have tight-fitting covers to keep in explosive fumes.

#### TANEYTOWN SENIOR 4-H CLUB

The Taneytown Senior 4-H Club held their monthly meeting on May 15, at the home of Evelyn Baum-gardner. There were 12 members

gardner. There were 12 members present. The meeting was opened by saying the 4-H pledge.

Old business was then discussed. Sunday morning, May 18th the Club plans to attend the Evangelical United Brethren Church in observance of Rural Life Sunday. The Club decided to give a donation toward a basket of flowers for the church.

The Club then discussed what kind of demonstrations should be given at the 4-H Fair. Joan Baumgardner and Shirley Forsythe were chosen to help

at the fair.

The club is planning a week-end camping trip to Rohrbaugh's farm.

They will leave June 13th after school and will return the 15th.

The Store where Your Dollar has More Cents

On Memorial Day we see before us an endless panorama of mighty conflicts on

many far flung battlefields: Shiloh, Gettysburg, San Juan Hill, Chateau Thierry, St. Mihiel, Guadalcanal, the Great European Invasion of World War II. In all these places and many more, on land and sea and in the skies, Americans have fought heroically for their country.

It is fitting that we remember and honor this vast and gallant company-both the living and the dead-on Memorial Day.
