# ALUMNI BANQUET

Plans are about complete for the annual Taneytown H. S. Alumni ban-quet which will be held next Saturday evening, June 21, in the High School auditorium. The traditional fried chicken banquet will be served family style again this year by the Ladies' Auxiliary of the Fire Co., beginning at 6:30 P. M.

This is an event which many people look forward to from year to year and a record attendance is anticipated this year. This being the fifth ban-quet since the reorganization of the Alumni, an especially fine evening is planned. Following the meal an entertaining and interesting program has been arranged, after which there will be dancing to Pat Patterson's orchestra till midnight.

Reservations should be made with the Secretary at once. Due to the large mailing list, it is quite possible that there are Alumni who were omitted in the sending of cards. It is sincerely hoped that those people will still make reservationss. Any Alumni may place or cancel reservations by contacting Janet Royer, Taneytown or just by phoning 3464 or 4551. Since no advance deposit is required, it is essential that everyone make and break reservations since the Association must pay for all banquets or-

name is really Bob White.

At last we are beginning to have real June weather and I do hope that you and you are satisfied as many thought the summer would not arrive or questioned just when.

That also means vacations for many and perhaps a visit to a relative or friend so here are a few tips. Whatever you do don't be a bore as a guest for those kind of guests are never invited back! I knew of one guest who constantly demanded to be 'taken some where' daily that it became terrorizing for the hostess to hear each night, "Where do we go tomorrow or what have you planned for tomorrow." night, "Where do we go tomorrow or what have you planned for tomorrow?" Another guest would arise in the morning way past breakfast hour which disrupted the entire household. Another guest would look out of the window and if it happened to be window and if it happened to be cloudy or raining, she continually complained! Think of your hostess and whatever you do, be kind and consider ate. Read the newspaper in the mornings as she does her daily household duties. Don't keep walking after her and if there is only one bathroom, don't monopolize that. There are so many "don'ts" in visiting but it truly is nice to be asked back! Eh?

### UNHAPPY WARRIOR?

Aftermath of the sermon-at-Abilene, we are told, is a new series of lapel buttons that read "I still like Ike" Whether Mister Eisenhower's maiden effort as a private citizen was a studied effort at generalization, or whether Ike had not yet had time to prepare his case, we do not know. But, in either event, it was a less than happy culmination of a terrific build-

In his speech, Eisenhower said that we must hold fast to our faith, resist "unreasonable antagonism between economic elements of our own country." He is against inflation excessive taxation, government extravagance and the absorption of local powers by the Federal government. The loss of China to Communism, he termed a "disaster".

Our hope of survival, he said, lay in preservation of the two-party system. "One party," he said, "has been in power too long in this country."

In his press conference next morning, however, the General moved in on the press to offer specific information before it was asked. He had voted Republican, he said, in New York in 1948, 1949 and 1950. That was his entire voting record. He had never voted a Democratic ticket. He endorsed in principle the Republican declaration of February 6th., 1950.

Asked "how do we bring the Korean war to a successful end", Ike said he did not have a "prescription", that we can not retreat, but must "stand firm"....and "try to get a decent armistice out of it". He commented on the build-up of enemy air strength beyond the Yalu River, and considers any present attempt to extend the war "very dangerous"

If he were confronted by "anything that you can call a nationalistic attack", he would "do everything I can to win it and as quickly and decisively as I can"

Asked if he would support Senator Taft, if he were nominated, Ike reminded the reporters that he had said he would not discuss personalities, and that he had already answered this question in saying that he would support the Republican nominee.

On FEPC, the General assured his inquisitors that he believed in the principles back of it, but felt that the problem could be handled better by the States than by Federal laws.

Lasting Saw

Because so much sound lumber can be remanufactured from the huge timbers salvaged in the modernizing of many of the Pacific Northwest's older buildings, a saw has been developed which, it is claimed, imbedded nails will not materially damage.

Why Window Panes Crack Lack of putty and paint on the frames of windows may cause cracked glass. Moisture absorbed by unprotected frames during heavy rainfalls causes swelling of the wood. The resulting pressure on the glass often cracks it.

Health Note

Householders usually need two galvanized steel garbage cans, according to health officials, who point out that overloading one can so that it cannot be kept covered is an invitation for rats to take up housekeeping in an area.

# **GROW your PULLETS**

FOR EARLY EGGS LONG PRODUCTION

The New Purina Growena Checker-Etts with Purina's exclusive Formula 1028 providing the growth vitamins, B 12 and antibiotic feed supplements is the best growing feed we have ever tested. Pullet development is rapid and uniform, bodies are heavy at laying time and production, (the payoff), is high and steady after pullets start to lay.

As an example of the difference Purina can make, we point to a test run a few years ago. Purina-fed pullets were 11/2 lbs. heavier per bird at 20 weeks than their sisters raised on a poor growing ration. Purina-fed pullets averaged 21 eggs per bird more in the fall and early winter when egg prices were highest. START....GROW....LAY... PAY....feed Purina All the Way! See us soon!

This year's graduates of the Alma Mater during these beautiful June days must look on the world with an air of fateful resignation to the days that lie ahead. For no matter what this year's senior plans, he is no star-ry-eyed idealist nor fatalistic cynic—he seems to have added up the score and knows where he stands. He accepts the fact that he probably will have to serve some years in the army and he seems to be looking beyond those years to the time when he can continue on with his chosen career. There is ont thing in his favor. He is determined not to solve problems with his emotions. In spite of the many misgivings teachers and parents have about the present generation, they are pretty strongminded, disarmingly frank and surprisingly mature. # **OPEN LETTER from** YOUR CARROLL COUNTY TEACHERS

Meeting with County Commissioners

Tuesday night representatives from every school in Carroll County met with the County Commissioners to discuss the critical shortage of teachers which promises to develop in September.

A survey conducted among all Carroll County teachers this week revealed that 37 teachers definitely plan to leave their positions. Twenty-five teachers are resigning for higher paying jobs. In addition, 125 are undecided and are awaiting the outcome of salary negotiations.

# What Does This Mean to Your Children?

New qualified teachers cannot be attracted to Carroll County in sufficient numbers to fill these vacancies. This year, according to State Department of Education figures, 75 Carroll County teachers are not fully certified. Next year this figure will undoubtedly be higher. Do your children deserve the effects of being taught by unqualified teachers?

Tuesday night the Teachers' Association emphasized that a promise for a salary increase must be given now by the County Commissioners to prevent this critical loss of teachers and to attract new teachers for September. The commissioners stated that no promise could be given before September.

September is too late. By that time many experienced teachers will have left the county; desirable new teachers will have been attracted to other higherpaying counties.

# Future Action Planned

Your teachers will continue to negotiate through the summer. Representatives from each school in the county will meet during the summer as required by developments.

Teachers and administrators will be available to discuss the salary situation upon the request of any community organization. Arrangements can be made through John Manspeaker, Principal, Taneytown High School; Stephen Lerda, Principal, Hampstead High School, or any teacher in your community.

Should further negotiations fail to bring results. the following proposals have been approved by the teachers as possible courses of action:

1. Curtailment of all extra curricular activities taking place outside the regular school day. The survey conducted this week indicates that this step may be necessary because 96 county teachers are forced to engage in outside work to supplement their salaries to meet living costs.

2. Participation in mutual non-working days throughout the school year to show the strong feelings of teachers with regard to this issue.

3. Unionization of teachers with the American Federation of Teachers.

4. Refusal to return to classrooms in Septem-

Depending upon the action of County Commissioners BEFORE September, the teachers will vote to follow one or more of these courses of action.

Your teachers are taking this action in the hope that they will be able to give your children the best possible program of education.

YOUR CHILDREN DESERVE THE BEST!

# Tell the Truth

Lesson for June 15, 1952

"FOR SALE: A portrait of George Washington, engraved on the finest bond paper, suitable for framing. Send only 25c, while they last." So ran an advertisement some years ago. When suckers sent in their

quarters, what they got back were two-cent stamps. Now the ad had not "told a lie" in direct words. It was a portrait of Washington, right enough; a postage stamp is engraved on the finest bond paper, and it's

Dr. Foreman

suitable for fram-ing if you like to frame anything as small as that. So the suckers could not get theeir money back. But the ad was a lie all the same, for it misled people into thinking something that wasn't true.

Lies can be told without the use of words at all, lies can be told with winks of the eye, with facial expressions or gestures. A store window can be full of lies, for the merchandise there may not be actually like what they will sell you in the dim-lit store. Truth is more than just not telling a lie in actual words, truth is conveying ideas that do not

Scientific Truth

TESUS seldom argued that truth is right, just as he seldom if ever argued that honesty is a good thing. Every one knows it.

What would you think of a person who came to you with this recom-mendation? "This man is a hard worker, he has plenty of brains, he has only one fault and that is, he is a liar." You'd never hire him. Every one wants truth told him.

But there are different kinds of truth. One is scientific. Now it is hardly possible to tell the complete truth from a scientific point of view.

"How old are you?" is a simple question and most people answer it simply: Five, or fifty-five, or whatever the nearest year may be. But that's not a scientific answer. Five and how many months, how many weeks, how many days, hours, minutes, seconds?

You see by the time you have figured it out to seconds (which would be the scientific truth) you are already several minutes older.

Well, you say, I don't care to know how old you are down to the last second. Of course you don't, and that brings up another kind of truth.

Social Truth

THE KIND of truth in which Jesus was especially interested, and in which all of us take the most interest, is what we can call social truth, the kind of truthfulness that makes for friendly and trustworthy relationships between man and man.

If you apply for a driver's license and say you are seventeen when you are only fifteen, that's a lie. If you are seventeen and say so, and if your state will let you have a license at that age, then the clerk doesn't care a particle whether you are also seventeen and eleven months or seventeen and eleven

"How are you?" is a harmless and common question. But if you have any sense, you won't answer, "Well, I don't know exactly because I have not had a check-up. But my pulse was 73 at 8:32 this morning, I have a slight fuzziness on my tongue, I did not have enough appetite to eat my sixth griddle cake for breakfast, my left foot seems w be delined a fallen arch, I am getting over my dandruff by degrees . . ." Who wants to know all that? Just tell them, "I'm fine."

If you are telling about your neighbor, just tell the important things. Don't pass on the fact that you heard somewhere that she had a cousin whose husband served time for larceny. Social truth has to pass three tests, not one: Is it true? Is it necessary? It is kind?

Sacrificial Truth

THE PINCH comes when a teenyweeny lie seems likely to help us out of a jam. What's the harm in a lie that doesn't hurt any one? Jesus gives us the answer. He classifies deceit along with the other sins that truly "defile a man."

When it comes to a showdown, which kind of man would you rather deal with: the man who will lie to keep himself out of trouble, or the man who is willing to take any kind of hurt rather than to dirty himself with

a lie? Truth when it hurts others may be sheer meanness; truth that hurts the truth-teller may be the noblest form of truth.

Everything about this new Milk Cooler is designed to cool milk faster and to make your work easier. Baseboard-level storage eliminates backbreaking lift-in, haul-out. Now, it's slide 'em in . . . slide 'em out to make your milk handling easier than ever before.

The new Front-Dor model cools milk FASTER, too ... in one hour or less, milk is cooled from 90°F. to 50°F. Then, at automatically controlled, short-time intervals, ice-cold water continues to cascade over the cans . . . keeps milk at safe storage temperatures for pickup by the dairy.

For positive assurance of safe, fast cooling, see this new Front-Dor Milk Cooler with the Hermetically-Sealed Drop-In Refrigeration System backed up by the 5-Year Guarantee Plan.

# DON'T LET YOUR WIFE DISCOVER THIS TOO LATE!

Women by the thousands are discovering in the beautiful Chrysler Saratoga the easiest "big car" of all to handle . . . the most generously comfortable to ride in . . . and the most instantly responsive to their command.

That's why we say to you . . . and your wife . . . "Come in and see for yourselves what the Saratoga does for you." And do it now, before you decide on any car . . . not later, when you may regret not having all the things you can have in a Saratoga!

Yes, it is a big car with big car power . . . a breath-taking 180 H.P. performer (the most revolutionary V-8 engine in 25 years) that answers to the touch of your toe with delightful gusto. And it doesn't call for premium fuel, either!

Does your wife think there's too much car here to handle? . . . let her try its Power Steering that does 4/5 of all the steering work and gives five times greater control on the road and when parking!

Is she safety-minded? Chrysler Power Brakes give her quicker, safer stops . . . with up to two-thirds

less foot pressure. She'll appreciate Chrysler's Safety-Cushion dash panel. And in case of a blowout, she'll have the assurance of Safety-Rim wheels that won't "throw" a tire.

How about comfort? Come, both of you, for a ride! . . . feel how those amazing Oriflow shock absorbers "liquidate" even the worst road bumps. Chair-high seats plus big, big windows let even the tiniest little lady see out properly. Doors open wide . . . and she can keep her hat on!

Here, in short, is the car beautifully designed for men and women. The liveliest, best handling car in America. The car you'll both be glad you saw first. Why not stop in today?

NOTE: Power Steering standard on Crown Imperial. Available, extra, on any new Chrysler.
