## SCOUT ACTIVITIES

### IN TANEYTOWN

#### Many Projects Reported and Carried Out

Members of Taneytown Boy Scout Troop 348 participated in the nationwide scout distribution of doorknob "Liberty Bell" voting reminders on the closing days of the recent election campaign, handling more than 800 allotted to them. Ronald Hopkins, Francis Nelson, Wilbur Thomas, Donald Tracey, and Peter Westine, and a friend of Peter's, Walter Simpson, took care of the main town-wide dissemination, while some few hangers were posted along rural routes by George Abrecht, LeRoy Barnes, Robert Fitz, and Lee Rock.

A Halloween party was held for Scouts of the troop and their friends on October 30th, with 25 present. A program of games was directed by the scoutmaster largely from the boys' suggestions beforehand, and Explorer scouts Robert Fuss, Romanus Haines, Ronald Markle, Larry Martin, and Ray Slaybaugh assisted in games and in the serving of refreshments.

One of the more enjoyable chores of the year was taken care of on Saturday November 8th, when Explorer Scouts cut and split a closeful of wood, perhaps a cord, from fallen timber generously made available on their farm by A. D. and Henry H. Alexander. Explorers William Abrecht, Jr., Larry Eckard, John Perry, and Wilbur Thomas were also assisted by Scout George Abrecht in the cutting and by Scout Edward Schildt in the storing.

Stanley F. Frock, Explorer adviser, has called a meeting of both Explorer and Scout Green-Bar leaders for Sunday, Nov. 16 at 2 P. M., for a general planning session. Some ideas on a Christmas party, for example, were proposed at last Monday's Explorer meeting, and some eight explorer scouts have a public health project to work out a merit badge in this subject.

Service stars for varying periods of tenure have been presented to these members on the nearest anniversary of their joining: Two years, Romanus Haines, Lee Rock, and Harold Slaybaugh; four years, Larry Eckard and John Perry, and six years, Stanley F. Frock.

## THIS 'N' THAT

### (Your Chatty Column)

With all my heart, I wish you every morning

A smile that shall last until the next day's dawning.

I wish you health—life's greatest wealth!

I wish you always near so that I may help to cheer

Each future day and in some way—help to bring you happiness!

"Now that the election is over, all I can say is a repeater of the man who lived right here in Springfield—the words of Abraham Lincoln—"I am too old to cry and I feel as though I stumped my toe!"—that from that nice Governor in Illinois!

Believe it or not, the snow fences are being erected all over the Harford county farms. No doubt, due to the Caterpillars by the dozen walking around in the Fall—that means a cold winter is ahead!

Have you tasted that good ice cream called "Duncan, Hines"? They have a book out called "Adventures in Good Eating" yet it continues there is nothing like good eating in your own home! "This satisfaction is easily to attain. Select good food, prepare it with loving care, serve it amidst pleasant surroundings and finally take the time to enjoy it!"

Betcha, gentlemen you missed the Grapping of the T.V. Coliseum last Tuesday night of last week due to election! Big Humphrey is surely a scream with the odd clothes he wears—just to be different. Wonder if he really is that good natured? He is from the mid-west and is becoming very much liked by the audience at the ring side and the T.V. reviewers. That "Golden Terror" is just about the most wicked on any mat! Eh?

Christmas candy—the hard colorful kind of all flavors is in the stores already. If you cannot eat chocolates—just keep a supply of good hard candy in the house at all times. Be sure to put it in a tin so it keeps fresh. It surely will pick you up that is with just!

There is just one big apple tree beside the Parsonage lawn which was planted many years ago by a Minister's daughter and Your Observer gathers them daily and bakes them, makes apple pies and apple sauce!

From The Metropolitan Insurance Company comes this—that about 300 persons yearly are struck by lightning mainly on farms, standing under a tree for shelter, taking down the family wash, swimming, fishing and a few other reasons.

If you have any skin blemishes, Mr. or Mrs. or Miss just run right to the Drug Store and purchase a bar of "RESINOL" soap and follow directions inserted and in two weeks you will have a grand clear skin.

Did you know, Ladies that the best umbrella to purchase now is the one which is "WINDPROOF"? It can turn inside out and yet it won't break. That would make a nice gift for Christmas. There were quite a few in the May company basement last week.

There is a new one out now also with a piece of plain plastic between the two ribs which makes it safer as you glance over your shoulder.

Whatever you do, Ladies be sure to change your powder puff frequently as they are cheap enough to purchase new ones now and then. When you put the powder on your face don't

### WORTHY OF PRINT

High among the nostalgic tributes to the press that were brought forth during the recent National Newspaper Week, is, we believe, the verse of John Lair, the bard of Renfro Valley, Kentucky.

While it was heard over the air, we believe this Renfro Valley ballad should be presented in a less perishable manner. And, with the permission of Mr. Lair, we give you herewith the opening verses of "The Hometown Paper". We do not know what paper the poet had in mind, or even whether it still exists. Thus, while it was not (necessarily) written of this newspaper...well, if you think the shoe fits, we'll try to wear it:

"We never realize how much the hometown paper means

Till we have wandered far away from the old familiar scenes,  
 And then it's just as welcome as a letter from a friend.

We read it through from front to back, from beginning to the end  
 And when we see the names in print of folks we used to know

A flood of tender memories will set our hearts aglow.

"We remember how the paper was a standby in our home,

And how we'd scramble for it just as soon as it would come.

Sis looked for all the personals; Dad read the livestock news;  
 Grandad liked editorials—if they sided with his views!

But Mother never seemed to have a part that she preferred,  
 She just set down, when she had time and read it every word."

Speaking impersonally, for all "hometown papers", we believe that no matter what advances are made in type-setting and printing equipment and in the gathering and transmission of news, the "hometown" editor's attitude toward his job and his responsibility to his community will never change. He'll keep on striving to make his paper important enough in your life so you'll "read it, every word". Look for more of "The Hometown Paper" next week.—National Industries News Service.

### Earliest Humans

At Jarmo, in northeastern Iraq, American archeologists believe they have found the earliest human settlement, a village that thrived between 5000 and 6000 B.C. In the same general area new, carefully planned communities for oil workers, both native and from the Western World. Almost one-sixth of the globe's oil comes from Near East wells.

### More Doctors Needed

According to medical experts and statisticians, there exists today a severe shortage of doctors in this country. Our health standards are among the highest in the world, and one report by the Health Resources Advisory Committee stated that there are simply not enough physicians to meet our needs. This conclusion was a result of a six-months' study and indicated that the nation would need 22 thousand doctors over and above those in sight for 1954. The long years of study and training necessary, the high cost of such specialized education may be among the causes of the physician shortage.

### Marry a Tree?

Many a man in southern India has married a tree. Such weddings are an ancient custom among members of the Brahman caste. They get around the edict that the eldest brother in a family must marry before any of his younger brothers can take a bride. Because the Brahmans believe that all trees possess a spirit, bachelor elder brothers can marry these spirits—and their younger brothers can settle down with flesh-and-blood brides.

## SHORT STORY

### Share Alike

By Richard Hill Wilkinson

THE second week after they reached the cabin on Wolf Creek, Sid Condon, exploring a tributary alone, found gold. He spent half a day estimating the value of the find. It was a pocket and would probably net a total take of between \$40,000 and \$50,000. Sid filled his

### 3-Minute Fiction

pipe and sat down to meditate. The thing to do, of course, was to get Duke Brandon, his partner, clean out the placer, and hit for Big Rock settlement before the snow came.

Sid sucked on his pipe, and his eyes grew crafty. Into his mind there came a picture of thin-lipped Duke Brandon. Why should he share this find with Duke? A man with \$40,000 could retire and live for the rest of his days in comfort. A man with only half that amount would have to scrimp. Forty thousand dollars!

Duke Brandon was in a surly mood that night. He had had no luck. The food supply was getting low. Snow would come soon. Why not quit now while their chances of getting out were good?

With the speed of a snake his hand flashed to his hip where hung the revolver.

"Wait a week," Sid urged. "Might as well make sure we ain't missin' anything."

So Duke was prevailed upon. The next morning they started out again in opposite directions. Sid went south, circled west and came to his claim. Working feverishly he panned a handful of gold and carried it up stream a half mile, caching it beneath a large moss-covered rock.

The next day and the next and the next it was the same. Duke became more disgruntled. He decided to remain only one more day.

The next morning Duke headed north. Toward noon he swung west and south. At mid-afternoon he came to a moss-covered rock lying near the shore of what was to him an explored tributary. He sat down to smoke and rest, and as he sat there the slanting rays of the sun fell upon a dull, yellow piece of metal. Duke blinked, then leaned forward. He picked up the piece of metal and saw beyond it a small opening beneath the rock.

He knelt and reached into the hole and took out a handful of gold.

Sid Condon had stood in the bed of the stream when caching his placer gold, so there were no footprints nor other signs to indicate his having been there.

There must be \$30,000 worth of metal in the cache. Half of that was his, according to the unwritten law. The other half—but what could a man do with a mere \$15,000?

DUKE took a small sack from his pocket and filled it full with the dull, yellow dust. His breathing was heavy as he knelt there. His eyes glowered feverishly. He knotted the sack together and rose from his knees—and stopped dead still.

Sid Condon was standing not 15 feet away. Sid's left hand contained a sack similar to the one in Duke's. It was not full, but the bulge was evidence enough as to its contents.

For split seconds the two men stared at each other. Significance of the meaning of the situation dawned slowly in their sluggish brains.

Sid Condon's lips flattened against his teeth. His eyes narrowed to slits.

"So!" he cried hoarsely, "So! This is how it is! Partners, eh?"

"Partners," Duke Brandon echoed. "Partners!" he repeated in ugly scorn. "You louse!"

Sid Condon laughed harshly. He was bigger than the other man, and he felt confident.

With the speed of a snake his hand flashed to his hip where hung the revolver. His finger contracted on the trigger and flame belched from its muzzle.

Sid Condon saw his partner's body jerk convulsively, and he knew he had scored a hit; knew it only dimly though, for the sound of his own gun had come from a great distance, and there was a drumming and pounding in his ears. He sank to his knees, and through the haze of his vision he saw that Duke Brandon was also on his knees.

Then he knew that Duke had equalled him in speed at the draw.

They lay, so close they could almost touch, each holding firmly to a sack of gold; lay and cursed and were eventually silent while the silvery stream rippled on, and night finally came.

A ship is referred to as she or her and people often wonder why this is true. It has always been customary to personify certain inanimate objects and attribute to them characteristics peculiar to living creatures. Thus things without life are often spoken of as having sex. Some objects are regarded as masculine. He, him and his are applied to the sun, to winter, to death and many other objects. Others are regarded as feminine, especially those things that are so dear to us. The earth as Mother Earth is regarded as the common maternal parent of all life. Likewise seamen invariably speak of their ship in the feminine gender. To a sailor a vessel is always she or her. This is because the seafaring man depends upon the ship and it is dear to him. It is natural that he should compare it with woman, man's dearest and most cherished friend, from whom he is often long separated by the nature of his employment. In most of the older languages inanimate objects are regarded as having either masculine or feminine gender. Almost invariably the feminine gender is attributed to boats and ships as well as vehicles of all kinds. But the English language is devoid of true gender and pronouns denoting sex used in personifying objects.

The government generally makes a profit on special stamps issued to commemorate historical and other important events. The income from new stamps sold to collectors alone more than reimburses the Post Office Department for all expenses incurred in manufacturing and distributing the special issues. One of the recent special stamps issued is in recognition of service rendered their communities and their nation by America's newspaper boys. A fitting tribute to the thousands of young Americans that start their climb to success by first delivering papers on a route.

Monday was the blue Monday in Carroll County's school children's life for report cards were distributed Nov. 10th. Very few students are ever entirely satisfied with their marks. Whether report cards are an aid or a hindrance to students has long been debated by modern teachers, without arriving at any satisfactory conclusion. It depends a lot on the individual student and upon the fairness of the teacher. A bad report card can spur some students on to greater effort to do better while with other students it saps their confidence and they give up in frustration and despair of ever doing better. Teachers themselves have a great responsibility in taking a fair attitude toward each student and recognizing the fact that each student has certain capabilities and certain handicaps. Personally, I believe report cards do more harm than good, as very few students do their best under pressure and competition. Report cards are a form of competition.

Many farmers, teachers and professional people engaged in dairy cattle work believe that the udder of a cow will hold only about half a pint of milk to the quarter and that the milk is manufactured just as the cow gives it down at milking time. In 1926 the United States Department of Agriculture proved that most of the milk is not manufactured during the few minutes required for the milking process. This proof was obtained by a novel experiment in post-mortem milking. A cow was killed, her udder immediately removed and mounted on a framework and milked. She had been giving an average of about 12 pounds at each milking. A total of 10 pounds of milk was drawn from her udder after it had been severed from the body, proving that more than 83 percent of her milk had been stored in her udder before she was killed.

Thank-offering services will be held in the Mt. Union Lutheran church on Sunday, Nov. 16 at 7:45 p. m. There will be an all musical program consisting of choir singing and guest soloists. There will also be a short skit by three members of the Missionary Society to bring out the reason for the Thank-offering. The public is invited.

Everyone was happy to see the rain on Monday for the wooded areas had become potential fire traps. The soil needs additional rain though to aid the crops next spring and to start the small streams toward the sea once again. The experts are still trying to figure out the results of last week's election and to find the reason for so many Americans voting the way they did. No one has brought out the fact that Americans are restless souls and become tired of everything if they have it too long including prosperity and security. They have thrived on change, even though it was for the worst. They lack patience and the will to see a job through if it consumes too much time and energy. It is a sign of immaturity. Just as a child goes from one toy to another, never still for a moment, with eyes searching for the new and brighter object. That is America! Searching for something, often not knowing what it is they are seeking. They grow tired of poverty, disease, prosperity or their jobs—all for the same reason which is restlessness. Whether it is a good or bad trait only history will tell.

If you have never met Edward R. Murrow on radio or T. V. you are missing the best show either have to offer. He always leaves one with the feeling that America is great and to be alive in this country is one of the greatest privileges that one can enjoy. His programs are never trite, emotional nor insincere.

Most everyone knows that when winter settles down, its high time for sauer kraut and spareribs—cooked long and slow, as we all know. Pass the mashed potatoes. It's also

pumpkin pie time. That is one of the nice things about cold weather. One must stay indoors and out of "sheer boredom cooking good food is another of life's privileges. But watch your weight!

Mr. and Mrs. Chester Furhman, of Manchester, were recent guests of the Cleon Wolfe's. Opr popular vet—Dr. Zinkham is a patient in a Baltimore Hospital. We hope his recovery is as speedy as nature and medicine permits for not only his friends of the human race miss him but what is even more important and gratifying—the animals are wondering about him.

The measure of a man's worth is not who stands beside him when he is in the flush of his full glory, but who sits beside him when life and circumstance have laid him low.—Ruth Roelke.

THIS 'N' THAT

(Continued from First Page) wipe it on with the puff but pat the powder on which will be lasting and a nicer appearing skin.

Don't forget when you purchase your next dinner cloth be sure you have it long enough for there must be a twenty-two inch drop at the ends.

Whatever you do, don't miss "Because Your Mine" when it comes to your local theatre with that Golden voice of Mario Lanza. It tells of the romantic rollicking story of a singing star drafted into the Army, introducing also a new Star Doretta Morrow with Lanza of Broadway fame. And it is in that glorious technicolor.

Have you tried that Onion Soup of Liptons? You will enjoy that treat, I am sure. All the stores have it by now so place it on your list when you shop today and tomorrow. It is really something very special.

Hope you brought in the Geraniums and placed them in your kitchen for the winter. There is nothing that is more homey than to see a Geranium in the farm kitchen. It just does things for Your Observer as I enter a home! There is a brilliant hue of red that is blooming beautifully at the window on the table near the kitchen sink here in the Parsonage.

Have you seen the lovely large pictures with their interesting subjects in the big stores in Baltimore. They are specially priced, too right now. Vacant walls in any home spells your character so start doing something about it right now!

When you go to the grocers ask for that special "Cake Mix" of "Yellow or Golden Mix" of Pillsbury's. Instead of one box, purchase two and use them at one time by placing them in a funnel shape cake tin. It will be the size that is most desired, will save you time and worry about baking another one so soon and it will save you from that old-fashioned way of baking a cake! Everything is in there but the milk to be added! You then can make glamorous frosting for any special kind of an affair!

Have a grand week-end. These days are delightful for a drive and if you have not taken the Mrs. for a vacation this summer, why not right now even for a few days. She will love it and appreciate you all the more! So long until next week D.V. I am, Faithfully, YOUR OBSERVER

# THE BIBLE SPEAKS

International Uniform Sunday School Lesson  
BY DR. KENNETH J. FOREMAN

SCRIPTURE: Matthew 10:1-11:1  
DEVOTIONAL READING: John 15: 8-20.

## Immortal Twelve

Lesson for November 16, 1952

If the twelve Apostles wanted to join your church, would you let them in? Peter Marshall thought not. Books of sermons are often dull reading, but Dr. Marshall's book called *Mr. Jones, Meet the Master* is as fascinating a book as you are likely to find anywhere. One of his famous sermons goes over an imagined application of the twelve Apostles for membership in a typical American church. One by one each man is rejected—all but Judas! As a man of money the church wants his services.

Dr. Foreman

### Unpromising Material

Not to steal Peter Marshall's sermon, nor to spoil your appetite for it in case you do read it, but just to explore the possibilities, let's imagine yourself passing on the application of these men for church membership. There is Simon Peter . . . Well! He is a fisherman and a sailor, and you know what sailor's language is, sometimes. A man noted for talking before he thinks. Not among our best people (they would say in Capernaum); lives down by the docks somewhere, smells of fish. No education, very limited background. Better wait. Maybe he could find a little chapel down nearer his work he'd be happier there. And then there's James and his brother John. Hot-tempered and ambitious, in fact so conceited they're hard to live with. They would certainly want to be at the top—if thrones are passed out they will want one apiece in the front row. If they are crossed they are likely to call down fire from heaven—not that they'll get it, but that's the kind of young men they are. No, they will be too hot to handle. Let them go join some sect that will give their emotions a chance. We'll be too slow and too cold for them.

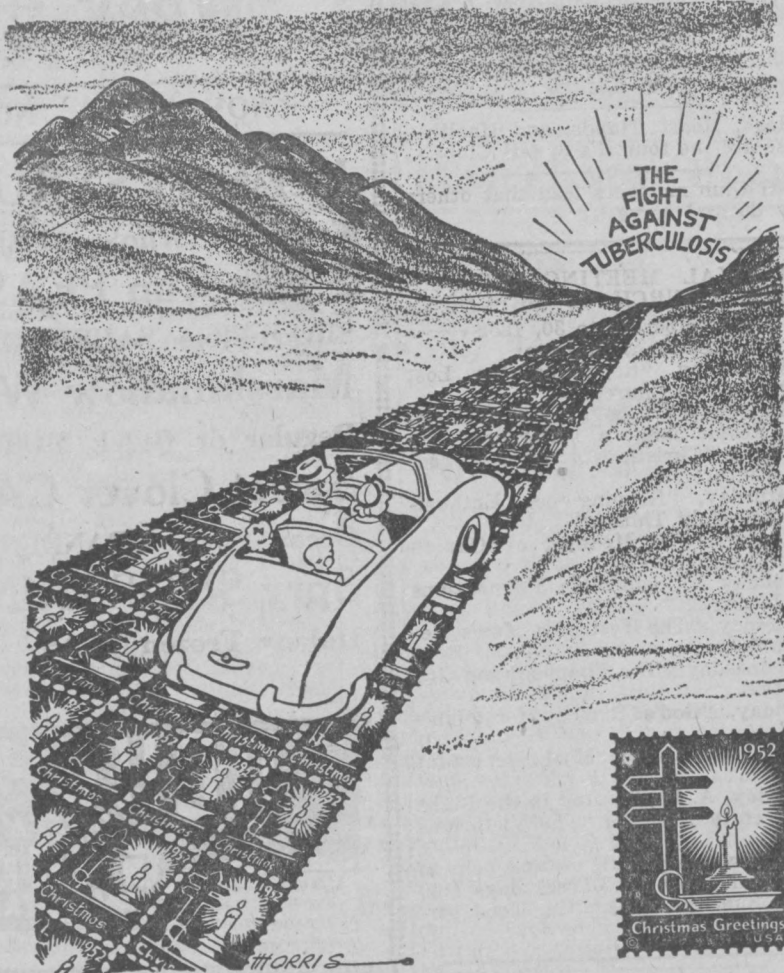

### Nobodies

Then there is Thomas, for instance. Just the opposite of Peter. A cold, gloomy man. Takes the dark view of everything. What you want in the church is men of faith, and this is a man who is sure to be called the Doubter. Skepticism is contagious, we have enough doubters now without electing another one. Let's leave him out. Then there is Philip, a stupid man if ever you saw one. You can say a thing to him over and over and he still won't get it. And Bartholomew and Thaddeus or Lebbaeus or whatever his name is, and another James and another Simon—their names are common and so are they. Just who are they, the whole lot of them? Nobodies, that's all you can say. Can you name one that has made a name for himself outside his native village—or in it, for that matter? What have they got to contribute? Haven't we got enough dead wood in the church as it is without adding some more people who will be nothing but names? Seems to me the pastor must have been scraping the bottom of the barrel—these men certainly didn't come from the top.

### Jesus Made Difference

Even worse than all that could have been said of some of the Twelve. There was one very doubtful character among them, the man Matthew the Publican. Publicans were tax-collectors for the Roman government. No one respected them; Jesus himself used the name Publican as meaning the lowest class of men. Who knew how sincere Matthew was when he joined the Twelve? There was also Judas, immortal for another reason; who was and who remained a devil. Jesus called two of these men devils at different times; Judas stayed one, but Peter changed. That lets us in to the secret of why Jesus chose these particular men. It was not for what they were at the time, not for anything they had accomplished, but for what he could do with them, that Jesus chose these men. He selected them for a particular reason: that they should go out and tell other men about him. To be ready to do this, they were to spend some time in close contact with him. When these men went out to speak for Jesus and the Kingdom of God they knew what they were talking about . . . and they were different men. All but Judas, who missed his life's great chance. For these other men had let Christ have his way with them. That is what the Church is and ought to be: the community of men and women who are being transformed, by Christ, for service in his name.

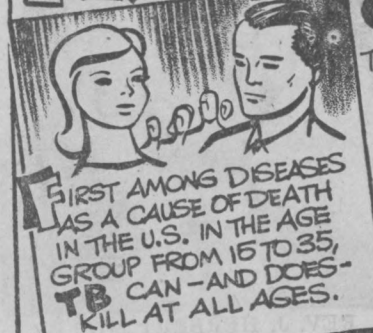

## The Road to Health

## DID YOU KNOW?

### THE FIRST SEAL

FIRST AMONG DISEASES AS A CAUSE OF DEATH IN THE U.S. IN THE AGE GROUP FROM 15 TO 35, TB CAN—AND DOES—KILL AT ALL AGES.

TB IS NOT INHERITED! IT IS SPREAD BY PEOPLE WITH ACTIVE DISEASE WHO COUGH UP GERMS.

CHRISTMAS SEALS HAVE BECOME A HOLIDAY TRADITION IN THIS COUNTRY, WHERE THEY HAVE BEEN SOLD SINCE 1907. THE FIRST SALE WAS IN WILMINGTON, DEL., AND WAS SPONSORED BY THE LATE EMILY P. BISSELL TO RAISE FUNDS TO HELP SOME DOCTORS CONTINUE COMMUNITY WORK

## On the Job

TB was not the end of the road for this ex-patient, but the beginning of a new one. Part of the funds raised through the Christmas Seal Sale conducted from Nov 17 to Dec. 25 by the voluntary tuberculosis associations affiliated with the National Tuberculosis Association are used to help provide services for patients preparing for a productive future.

**"Read 'Em and Reap" OUR ADS**

# Will she love your gift in May as she loves it in December?

When next May rolls around will the gift you gave this Christmas still be a source of pleasure and happiness—will it still be in constant use—will it still be a continual reminder of your thoughtfulness and consideration? So many gifts are so nice at the moment but so useless, forgotten, discarded or worn out in a few weeks. But there is a type of gift that means not only pleasure at the moment but pleasure, convenience—yes, even leisure—for months and years to come. It's the gift of an electric appliance. For instance—

## an ELECTRIC REFRIGERATOR or a HOME FREEZER . . .

**AN ELECTRIC REFRIGERATOR—Something she's always wanted and will continue to enjoy for years . . .**

Modern electric refrigerators are about as much like pre-war models as today's automobiles are like those of the "roaring twenties." Now every homemaker can enjoy the use of a built-in freezing compartment with plenty of storage space for a big supply of her favorite frozen foods; automatic defrosting that banishes forever the wet and messy job of frost removal; adjustable shelves and vegetable drawers designed for greatest use and convenience; lower than ever operating cost and sleek modern design that adds beauty to any kitchen. Nothing you can give a homemaker will be more deeply appreciated for years to come, than a work, time and money saving electric refrigerator.

**Or a HOME FREEZER—To really pleez 'er . . .**

An electric home food freezer offers safe storage for pounds and pounds of fresh frozen foods. Your little woman will have more leisure time and less worry when it comes to preparing meals for the family, simply by freezing a supply of lunches and whole dinners way ahead of time. Fruits and vegetables can be frozen gardenfresh at their summer best and stored for winter enjoyment, along with meats and cooked foods and desserts. She can take advantage, too, of "Bargain Buys" when buying in quantity is cheaper. There are all sizes and prices to fit every home's need and pocketbook.

Truly, in what better way can you show your understanding of her daily problems, than by giving her a gift that transforms those problems into pleasures!

T. H. S. NEWS

Visitors day was held Wednesday, Nov. 12, at T. H. S. when three occasions, Armistice Day, National Education Week, and National Book Week, were observed in an assembly. The assembly opened by singing the National Anthem followed by the flag salute. The ninth grade furnished special musical numbers. A playlet entitled "Our School of Today" showed the work done by various groups, particularly the 8th grade, the Commercial Department, Agricultural Class and the Orchestra.

The assembly was concluded with the presentation of the U. N. flag which was made by the F. H. A. Following the assembly a tea was given for the parents by the F.H.A. in the Home Ec. Room.

A very delightful and interesting day was experienced by three Seniors, Julia Humbert, Mary Jo Robb and Ruth Ridinger, and their guidance counselor, Mrs. Shipley, at Towson State Teachers' and Jr. College on Friday, Nov. 7. The well planned program gave them an over-all picture of some of the activities carried on at Towson.

The girls enjoyed a very delicious lunch and were shown over the campus and through the dormitories by two former graduates from Taneytown, Vivian Stone and Nancy Shower.

The Key Club met Thursday, Nov. 6th. Mr. Murray Baumgardner was guest speaker. Again the club convened on Tuesday, Nov. 11. There was a short business meeting at which time it was decided to start a drive fund for a new flag for the school.

The F.F.A. and F.H.A. will hold a dance at T. H. S., on Friday, Nov. 14. Music will be furnished by the Mello-Tones from 8 to 11:30.

4-H Club work is a kind of training in which rural youth learns better ways of farming and homemaking, better ways of working together in groups and on community matters, better ways of living.

ELEMENTARY SCHOOL BAKE SALE SCHEDULED

The annual food and bake sale conducted by the Taneytown Elementary school will be held at the Firemen's Hall, on Wednesday, Nov. 26th. Funds received will be used to purchase greatly needed items not provided by other sources, such as visual materials, library books, etc. Patrons are urged to cooperate in this activity. American Education Week was observed in the elementary school by open house during the entire week,

with parents visiting the different classrooms observing a modern school in session. The schools do belong to the people and they should make every effort to become acquainted with what schools are doing.

Check your stoves and furnaces to be sure they are safe.

Head, Heart, Hands, and Health—those are the four H's in 4-H Clubs.

4-H Club members lead that others may do and serve.

You enjoy complete control of your car at all times ... with far less fatigue!

**IT'S SAFER!** ... on rough roads, soft shoulders, or in case of a blow-out! Hydraulic power helps you turn ... and keep a true, steady course with a constant, predictable "feel" to the wheel.

**IT'S EASIER!** ... 85% of the steering effort is taken off your hands—substantially more than with any other type of power steering. Even with car at a standstill, you can turn wheel with one finger ... a real boon in traffic, on hard-to-negotiate driveways or when parking!
