Seldom has a picture so powerfully and dramatically told about the evil of selfishness and disguised as parental love. This is the story of a mother of two young people in love. How a series of events conquer the dread specter of selfishness and show the way to true happiness which makes an inspiring emotional experience. It is a lesson showing how Christian love can reach far beyond family ties to bring gladness into the lives of others. The public is cordially invited, especially mothers and young people to see this wonderful lesson on love.

## POLIO BENEFIT Party at Elementary School Nets Over \$200

Through the excellent cooperation of members and patrons, the Taneytown Elementary P. T. A. March of Dimes card party held last Monday evening was a huge success. Approximately 61 tables of players filled the auditorium and library to capacity, and many participants took home one of the 100 prizes donated through the generosity of P. T. A. members and business concerns. After expenses, the benefit will make it possible for the P. T. A. to turn over approximately \$201.29 to the Infantile Paralysis Fund. Leaflets describing how March of Dimes money is used, and giving facts about polio were given to each person present. A poster display also pointed out the importance of the benefit.

Refreshments were sold, benefit of the P. T. A. and a net profit of \$131.40 was added to the treasury.

It was recently decided by the school authorities that overnight trips may be taken if they are properly chaperoned and financed without interfering with regular school work. Taneytown Seniors have this privilege if at least ninety per cent of the class can go. On Tuesday morning, Jan. 27, the class of '53 took a formal vote to see whether the trip could be made. Approximately 98 per cent of the class is planning to go. It is hoped that this trip can be made in the early part of May.

In recent weeks several complaints have reached the School Magazine committee concerning the delay in the arrival of magazines subscribed for in the September 1952 campaign.

The committee regrets this inconvenience to its subscribers and urges them to contact the school at once if a delay is being experienced. The publishing company warned its subscribers that from 8-11 weeks would elapse before the first issue might be expected. After this time it becomes the duty of the subscriber to notify the school and they in turn will communicate with the respective publishing companies regarding any irregularities.

The school and committee wish to thank all who patronized their campaign and sincerely hope that by this date all subscribers are receiving their magazines as ordered—satisfied 1952 subscribers mean renewals in 1953.

## LETTER FROM OUR SENATOR

Many Bills of a General Nature  
Presented to Legislature

To The Editor,  
The Carroll Record,  
Taneytown, Md.  
Dear Sir:

Your readers may recall that several years ago the voters of Maryland approved a Constitutional Amendment containing a provision that all Bills vetoed by the Governor after adjournment of the Legislature shall be returned to the Legislature, at its next session, for the purpose of sustaining or overriding the veto.

It has been found in practice that the delay of a year, between the veto and the legislative action upon the veto, is unnecessarily long and may cause undue hardship.

H. B. 8, designed to correct this defect, provides that the Legislature shall meet a second time each year, two months following adjournment of the regular sessions, for the sole purpose of considering such vetoed bills.

If H. B. 8, is passed by the Legislature (Continued on fourth page)

## C. OF C. MEETING MONDAY EVENING

Edward Hardcastle was the  
Guest Speaker

The Taneytown Chamber of Commerce met Monday, Jan. 26, at Gardner's Restaurant for its monthly meeting with David Smith, Vice-President, presiding. This was a dinner meeting and was opened with prayer by the Rev. A. W. Garvin. The dinner was real tasty and all enjoyed the fellowship. The business meeting followed with the reading of the minutes by the secretary, Bernard Arnold. The minutes were approved as read.

The names of Dr. Robert A. Leonard, veterinarian, who purchased the Captain Shaffer property at Harney, and Lawrence Foutz, of Littlestown, were voted upon for membership in the Chamber. The next meeting place will be the Firemen's building on Feb. 23rd. The majority of votes thru the postcard ballot of the type of meetings desired was for the alternating of the regular and the dinner meetings. There were 28 members present at the January meeting.

The guest speaker, Mr. Edward Hardcastle, of the evening was presented by Vice-President David Smith. Mr. Hardcastle is from Hagerstown, and district manager for the National Federation of Independent Business, the largest organization of its kind in America. The topic was, "This—You Should Know", which was well presented.

At the start it was told that during the last few years we have seen in this country the greatest and most rapid expansion of the size and power of our Government that has ever been recorded, that today our Federal Government is the biggest spender, the biggest employer and the biggest debtor in the world.

The speaker believes that statements made by our forefathers have been put on shelves for moth and rust to corrupt. He quoted Jefferson as saying, "I place economy among the first and most important virtues, and public debt as the greatest of dangers to be feared"; and Lincoln as saying, "that not with the politicians, not with presidents, not with the office-seekers, but with you is the question—shall the liberties of this country be preserved". Those present were reminded that Henry Ward Beecher said that there would be no liberty among a people who knew not how to govern themselves.

Several socialistic trends were mentioned and they were told that good government would never be found in wonderful speeches, nor in noble resolutions, nor in our halls of Congress. Good government will be found, Mr. Hardcastle continued, in an active, informed and steadfast people; a man's most important freedom is his freedom to slam his own door shut from the outside and then open his mouth.

In closing they were reminded of the West Point Cadet's prayer: Encourage us to live above the common level of life, make us choose the harder right instead of the easier wrong.

An expression of appreciation was expressed in behalf of the members present by Mr. Smith and a motion for adjournment followed.

## THIS 'N' THAT

(Your Chatty Column)

With all my heart, I wish you every morning  
A smile that shall last until the next day's dawning.  
I wish you health—life's greatest wealth!  
I wish you always near so that I may help to cheer  
Each future day and in some way—help to bring you happiness!

Previous to the Nomination, Your Observer said, "Well, I'll go to Washington no matter which man is elected for the Inauguration!" Time went on and after the election and hearing so many rumors what a jam there would be in that city, I decided to remain right in my living room and pull up a comfortable chair and view it all on T.V.

With a pencil stuck behind each ear and in my hand ready to jot down short hand so as I would not miss a trick for my readers of this column at exactly 29 minutes after eleven on Jan. 20 there I sat as many thousands of others all over the Nation.

From the Hotel Statler with "Ike" and "Ida" I rode up to the Capital where the Oath of The President of these United States was given and there I sat charmed by the nearness of this grand couple who are somehow just different from any other President and the First Lady. They are just "Home Folks" and we all feel so close.

After the big ceremony was over and the handclapping all around and our new President with his party had a 45 minute lunch, they were taken to the White House reviewing stand for the big parade in the days' honor. "Mamie" appeared beautifully groomed with her small Chic chapeau and fur coat with the huge Orchid that was flown from her home town for the occasion from the home folks!

A grand big smile adorned the face of our new President most all the afternoon and when that Cowboy roped "Ike"—the grin became broader which seemed to please Ike immensely.

The parade was too long and a very stretched out affair—about a city block between each feature. The big affair lasted for more than five hours and there the Presidential party remained not giving any signs of boredom in the least. There stood another grand man whose body seems to be getting smaller as the years come on but not that brain for it is still working wonders—HERBERT HOOVER

—who will give much knowledge to the new President as long as he lives. The Secret Service men were ever on their toes and must have been glad when that day was over.

The colorful floats were something to remember and those interesting ones depicting the unforgettable Chapters of this Warrior President's life!

The highlight of the marching was the "MIDSHIPMEN ON PARADE"! As I gazed down Pennsylvania Avenue watching their stride—and as they came nearer to the T.V. Screen—well—nothing could be finer! Real patriotic 'Chills' were going up and down Your Observer's spine and I do love a parade!

"Mamie" is a dear and have you noticed that the "bangs" were dressed in a higher fashion which is so much more becoming. No doubt, a Beauty Salon Operator tipped her off with that one!

Our Free State of Maryland's big float for the parade was most appropriate and patriotic and we can all feel most proud.

Did you know that Ike is really the 33rd President instead of the 34th for he actually is the 33rd man to hold office? It is all due to the fact that Grover Cleveland's two terms were separated by four years when Benjamin Harrison was President. So that really makes Cleveland the 22nd and 24th President. His picture in the White House portrait gallery is so labeled. That would really make Ike our 33rd President. Or is he really the 34th—that is the \$64.00 question! Eh?

Did you see the Grand Inauguration Ball? It was really too crowded. How could dancing have been done with ease?

Our Mamie's dress appeared lovely and from the description of that nice Columnist, Dorothy Kill gallon it was most interesting with the Rose hue pink and with all accessories matching. That is the one which will be placed on the figure in the Smithsonian Institute as all other dresses of former wives of Presidents.

Thanks to Television—thousands viewed it all at home and, no doubt saw more than if they had been a guest in the city of Washington.

And—so the day was over—our President starts a new life with his companion all down through the years—in the White House. It is just like a story book ending and, folks, he too was a farmer's son!

So long until next week D.V. Have a grand week end and as you pray remember daily the man who has been elected to the biggest job on earth—the President of These United States—President Dwight Eisenhower!

Faithfully,  
YOUR OBSERVER

FRIDAY, JANUARY 30, 1953

## AN ERA BEGINS

Within the span of a few historic moments, shortly after noon on January 20, 1953, Dwight David Eisenhower became President of the United States, the avowed disciple of a new national unity, and the man to whom the free half of a viciously divided world looks for leadership in its struggle for survival and ultimate peace.

After reviewing a five-hour parade, sticking by his post till the last marcher had passed, long after darkness had settled over Washington; after his first, quick meal in the White House (served on a tray); after attending the two Inaugural balls; President Eisenhower was at his desk at 8:00 next morning to begin his first full day at the biggest job in the world.

Despite the weeks of earnest, effective planning and organizing at his New York headquarters and the Washington meetings with President Truman and his out-going department heads, the official family was still incomplete and there were 'breakers' ahead. But there could be no dismay in the heart of the man who had prayed the day before for "the power to discern clearly right from wrong, and allow all our words and actions to be governed thereby, and by the laws of this land". There could be no room for misgivings in the mind of a leader who had humbly and devoutly asked: "May cooperation be permitted and be the mutual aim of those who, under the concepts of our Constitution, hold to differing political faiths; so that all may work for the good of our beloved country and Thy glory. Amen."—National Industries News Service.

## GRASS ROOTS OPINION

YORKTOWN, TEXAS, DEWITT COUNTY VIEW: "How long can this continue? The government has gone \$8,386,000,000 (billions) into the red in the past six months and is expected to wind up its fiscal year June 30 with the biggest 'peace-time' deficit in history. During the past six months spending was logged at \$35,041,000,000 and income at only \$26,655,000,000."

HUMBOLT, IOWA, REPUBLICAN: "Individuals buy stock in a corporation as an investment and expect to receive earnings in the form of dividends from the stock they purchase. Such dividends become a part of the stockowners income and he pays an income tax on them. But...and here is the injustice of the present tax laws...the corporation has already paid a tax on those earnings."

MOOSELAKE, MINN., STAR-GAZETTE: "Good business means good jobs, good pay, and an abundance of products we can buy at reasonable prices. Federal economy will mean a balanced budget, a sound dollar, and a stable economy for the whole nation."

SALT LAKE CITY, UTAH, DESERET NEWS: "It has been said again and again, almost to the point of triteness, that America's greatest strength is her love of free enterprise. It is true. We have overwhelming superiority in the sinews of war today because free men have been given opportunity to dream and to invent, and because other free men have been ready to invest their dollars in the dreams of the inventors with the hope of making an honest profit."

## MEETING OF CARROLL COUNTY P.T.A.

A meeting of the Carroll County Council of Parents and Teachers was held at the Westminster High school on Wednesday evening, Jan. 14, 1953, at 8:00 P. M. 14 schools were represented.

Mr. Samuel M. Jenness, Superintendent of schools for Carroll county was guest speaker and spoke on the Green Commission Report of Public Education and Finance in Maryland. He also gave a factual report of public education in Carroll Co. Mr. Jenness urged the Carroll Co. council of parents and teachers to support the Green Commission report. He stated money spent for education was the best investment for the future.

Mrs. Victor J. Ruby, President of the Carroll County Council of parents and teachers presented the Maryland Congress of parents and teachers view of the Green Report. She stated "while Maryland's educational structure and financial system is excellent and often used as a model for the country, the State has not provided funds sufficient for its proper functioning. The quality of education in Maryland has been endangered by the State's failure to insure adequate financial support during the past few years. The State's minimum salary schedule is too low. The present minimum discourages entry into the teaching profession. They place Maryland under a handicap in the race for competent teachers. Increases in teachers' salaries have not kept pace with the cost of living and with pay increases in other occupations. Wide difference in the quality of education being offered by the various localities has been allowed to develop. Mrs. Ruby stated that while the Green Commission has recommended a new minimum pay schedule of 800 to \$4600, with maximum pay grade attainable within ten years, which is commendable, the Maryland Congress of Parents and Teachers will nevertheless continue to work for the \$3000 to \$5000 salary schedule which they believe to be necessary. Also, since the proposed program would not go into effect until 1955-56, a fact which is deplorable, the Maryland Congress of parents and teachers is urging all interested citizens to prevail upon our Governor, members of the Legislative Assembly, and County Commissioners to cause to be enacted legislation which will make the new salary schedule operative at once. This full program could be made operative at once, if Governor McKeldin would, from the huge State surplus, put sufficient money for this purpose in his 1953-54 budget to be presented to the General Assembly this January."

A committee was appointed to draft a resolution on behalf of the Carroll County Council of parents and teachers urging the Carroll county representatives to support the Green Commission Report.

The Carroll County Board of Education was requested to submit a complete set of building requirements to the Carroll County Council of parents and teachers for study and further action.

The next meeting of the council will be held on Wednesday evening, Apr. 8th in Taneytown.

Earth's actors change earth's scenes; and the curtain of human life should be lifted on reality, on that which outweighs time; on duty done and life perfected, wherein joy is real and fadeless.—Mary Baker Eddy.

## YOUR SOCIAL SECURITY

Between now and March 15 of this year, some five million business men and women will place themselves on record as being insured under the Federal social security program.

This will be done in connection with the filing of their 1952 income tax return. For the second time since self-employed people became covered by social security, Schedule C of the income tax return will be used to report net income from self-employment for old-age and survivors insurance.

With the filing of the income tax return for 1952, those who were self-employed in 1951 and 1952 will acquire insurance protection for their families in the event of death. Additional work will be needed to qualify an individual for retirement benefits, however, unless he was born before July 1, 1890.

Since future benefits are based on the annual reports of self-employment income, it is important that the tax return be correct and complete. It should include the individual's name, social security number, a clear description of the nature of the business, and the amount of net income derived. Rentals, stock dividends, interest on bonds, and capital gains are generally not to be included.

If the self-employed person is in one of the professions excluded from social security (medicine, law, etc.), the net income from the profession is not reported. However, if he has income from another business, the non-professional income should be reported.

THE SALT OF THE EARTH  
Making The Most of Planning

(17th Article in a Series)

Cattle feed on pea vines from a canning crop.

In planning next year's production, many farmers in this area include those canning crops which will fit easily and profitably into other farm activities.

Dairymen, for instance, often put acreage into tomatoes because the crop fits nicely into their rotations and, with suitable fertilizer at hand, produces high yield and quality fruit for processing. When the soil is right and a canning conveniently near, this can bring a high return as the second cash crop for the farm.

The majority of Ten-Ton Tomato Club members, in fact, are either dairymen or grain and general farmers, according to the New Jersey Club founder, Dr. Charles H. Nissley, Extension specialist in vegetable crops at Rutgers University.

## Cut Marketing Problems

"We recommend that many of our general vegetable growers add processing crops," Dr. Nissley says, "because marketing problems are eliminated. The grower need concern himself only with high yield and quality, whereas for the fresh produce market, about 85 per cent of farm production cost can be laid to marketing."

Other advantages lie in such factors as the early or short-season crops like peas, which free land and labor for other uses, and quick-harvest crops like beans which can be cleared in a week.

"You can plant sweet corn early, it matures in about 75 days and in one week's time or two pullings, it is all done. Then you can disk the stalks down and plant to grain or a soil improvement crop such as rye or vetch."

## Make Good Choice

In general, Dr. Nissley recommends crops which are simpler to grow, which fit into the farm's labor scheme as well as its soil types and rotation cycle, and which require no outlay for extra equipment.

The dairy farm is ideal for canning crops, he adds, not only tomatoes but others, like sweet corn and lima beans—stalks are excellent feed, and so are the bean vines which can be returned after the harvest.

But other farms are often equally suited—"a fruit grower may do well with tomatoes, peppers or beans, planted between his young trees. And should a frost hit the fruit, a canning crop may be a life saver in taking up the slack."

### FEESERSBURG

Each month of the year can boast of some great man or woman celebrating their birthday in that particular period but January seems to have been a favorite month when great men first put in their appearance. Maybe sometime in the future some scientific investigation will prove that the time of year one is born in plays an important part in a person being a success or failure. Up to this time, however, nothing conclusive along these lines has been proven. It so happens however, that among the famous persons born in January are: Benjamin Franklin born on the 17th day, 1709; Robert E. Lee 19th, 1807; Stonewall Jackson, 21st, 1824; General Douglas MacArthur 26, 1880, and finally the beloved Franklin D. Roosevelt 30, 1882. These five men possessed one trait in common—intense loyalty and devotion to duty and that duty was serving their country with all the talent and courage they possessed.

The Old Farmer's Almanac, founded by Robert B. Thomas, "first issued in 1792 for the year 1793" is still a favorite for many persons. It still uses the same form as our grandfathers were accustomed to. The weather will be fair on both Labor Day and Christmas Day week-ends, 1953. March "whopper" in the week of the 15th will be rainy and stormy, with one 22nd. Plant your carrots between May 15-20th and your lima beans the first week in June. Remember, every 28 years all the dates of each month return to the same day of the week. If you doubt this, save your calendars and check.

Thieves in the form of opossums and foxes are raiding the local chicken pens and helping themselves. Our neighbors killed two opossums caught in the act, but the foxes are too smart to be caught.

The prelude last week seemed like a prelude to spring. The birds thought so too, for a flock of red-birds both male and female were holding a reunion on the lawn while a sparrow was busy gathering material for a nest. Some shrubs on the south side of the house dared to put out their tiny green ears, as if listening for the first spring thunder shower. They almost heard it for not many miles away nature was stirring up one of her thunder and lightning spectacles.

From where you sit, what meets the eye? A farmer's field? A small backyard? The walls of a building or a quiet village street. Each of us has his own particular window on the world. But no matter where we live, the view from our window is limited—our horizons are only a short distance away. If we depended upon our glimpse of the world from our small window, to furnish us with the knowledge about other people and other lands, we would remain provincial indeed. But with the radio, T.V. and thousands of books to read, our horizons broaden until it includes the world and all it contains. No longer need one be lonely nor ignorant for by the touch of a knob or the turn of a page, Presidents, and Prime Ministers, Kings and Queens step into the room with us. The best of music and the best in the theatre is at one's elbow; all the skill of man's hands and of his brain unfold before us through the medium of sight and the printed word. No longer need anyone complain that his world is narrow and unfriendly, for one's horizon can be as wide as the world is wide and his loneliness can be conquered by the people he meets in books.

William Fouche near Otterdale, has just purchased the young Guernsey sire, Lockshore Amber's Monarch from R. F. Loche, Hickory Corners, Michigan.

Mr. Dominic Cusenza, instrumental music teacher, held his first class instruction last week at the Elmer Wolfe School. We are glad to have, once again a teacher to organize the school band and orchestra, and we sincerely hope that no other school casts

jealous eyes in this direction with the intention of stealing Mr. Cusenza away from Elmer Wolfe school.

Mr. and Mrs. Jean Johns, New Windsor, are receiving congratulations upon the birth of a daughter at the Frederick Memorial Hospital. The baby will be named Nancy Lunane.

The intellectual world is appalled once again by the recent persecution of the Jewish race by the Russian Communists. We thought that with the death of Hitler and with the revelations of the torture camps in Germany where 2 million Jewish citizens were executed, the civilized world would not endure, ever again a purge of any race. We, who do not belong to a minority race that has known persecution as such, may never fully realize what it means to live in constant fear and terror. Or shall we? It would seem to me, that if any race or civilization stands idly by and allows a minority race or religious group to be annihilated without one indignant outcry, then cannot we, expected to fall beneath a dictator's just for power? Are men's souls so shriveled that they no longer feel compassion for one in desperate circumstance? If one turns his face away from another in trouble, can he expect anyone to aid him in like circumstance? The Christian world has enough to answer for without adding the extermination and misguided conscience.

There are 18,000 children in West Germany and West Berlin looking for parents and 33,000 parents still looking for their lost children.

Mr. and Mrs. Millard Roelke received word Tuesday that Lt. David Buffington left Korea, January 21st for the United States. He has served 12 months in Korea, and most of them at the front. He is being rotated under the point system.

Last week, in an editorial, the Baltimore Sun brought up the question of zoning here in Carroll County. From time to time local papers have also aired the subject. Anyone driving over Carroll County can see new developments going up in the form of homes. Some times one sees a 25 thousand dollar home built one year and the next year one drives by and there, not 100 ft away is an unsightly junkyard or gas station. For example, on the outskirts of Westminster on the Uniontown road is a cluster of smart, new homes and a short distance away one of the most unsightly graveyard for junked cars, I have ever seen. Zoning laws would do away with such contrasts. There must be filling stations and junk yards, but they need not be in the midst of a well-kept residential section. Roadside zoning would do away with much of the "down in the mouth" look of many otherwise lovely sections of the highways. As the Sun pointed out—"uncontrolled and ragtag development" of our beautiful Carroll County can destroy the value of its roads and lovely countryside. Let us be far-sighted and get some fair zoning laws in our own locality.

There are some things that just naturally go together like hot cakes and maple syrup. Another is boiled cabbage with country cured ham and Virginia corn-pone. A real treat for breakfast—piping hot biscuits with home-made strawberry preserves. Are you getting hungry? So am I and its bedtime.

He was a trustee and lifelong member of the Uniontown Church of God and was a life member of the Plymouth Masonic Lodge, Union Bridge, and Frederick Moose Lodge and a member of the POS of A Lodge, Uniontown. At one time he was United States conciliation commissioner for Carroll county for five years.

ture it will be placed on the ballot in the General Election of 1954 for approval or rejection by the voters of Maryland.

Automobile Finance Charges

There have been many complaints forwarded to the Legislature and to the Legislative Council concerning excessive finance charges made by certain automobile dealers in cases of instalment sales of new and used cars.

H. B. 12 places limitations upon the amount of finance charges permitted. It provides a limit of \$9.00 service charge per \$100.00 of the balance of purchase price each year on cars under two years old. On cars over two years of age the rate is fixed at \$11.00 per \$100.00 balance.

The Bill also prohibits a dealer from charging more for insurance than the rates approved by the State Insurance Department.

Property Assessments

In 1945 a law was enacted providing that each county be divided into 5 assessment districts and that one of these districts shall be re-assessed each year, in rotation.

This system proved objectionable because of the time lag between the assessment of the first district and the last.

In 1951 another Bill was passed providing that the counties be divided into three districts and that one of each of these districts should be assessed each year, but that the re-appraisals should not be effective until after all three districts had been appraised. This law was not to become effective until July 1, 1954, ten years after the original five-year cycle law became effective.

Now the State Tax Commission has recommended that the three district, and three year cycle, law be retained but that the reassessment in each of the three districts become effective at the end of the year of the re-assessment.

The assessment picture now appears to be thoroughly confused with the various County Commissioners thru-out the State recommending one plan, the Assessors another, the State Tax Commission an other, and each of the individual Legislators attempting to promote his own pet method.

What will finally emerge as the new assessment law is anybody's guess. It is my personal belief that no reassessment law is going to be popular with the taxpaying property owners and that the fewer the changes in this law the better off we all will be.

Half-Billion Dollar Road Program

H. B. 19 is the Bill that provides for a 12-year road program in Maryland at a cost of approximately one-half billion dollars. This is, by far, the most costly program of any sort ever proposed in this state.

The funds would be obtained principally by

1. Increasing the gasoline tax from 5c to 6c.
2. Increasing commercial truck fees by 50%.
3. Increasing passenger car registration fees from \$15 to \$20 and from \$23 to \$30.
4. Issuance of \$300,000,000 in bonds to be paid off by 1968.

More about this at a later date.

Until next week, I am

Sincerely,

STANFORD HOFF.

## FROST ON HELMETS

Pvt. Dan W. Shoemaker, son of Mr. and Mrs. Eugene Shoemaker, of Red Lion, Pa., and grandson of Mr. and Mrs. Norville P. Shoemaker, Taneytown, after hearing a friend recently back from Korea, tell of his experience there, and of the life of a serviceman in that war country, before going to bed that night wrote the following poem:

## FROST ON HELMETS

I watched the sun rise rosy  
And turn to violet red.  
The frost upon the helmets  
Reflected on my bed.  
I rose to greet the morning  
A breeze upon my face;  
My rifle leaned there ready,  
Bayonet fixed tight in place.  
The morning sun now glistened  
On frost returned to dew,  
And as I paused to listen  
The war began anew.  
The clouds above looked lazy,  
And matched the wall of smoke,  
That rose above the thunder  
Where tides of battle broke.  
Around me mad confusion  
Beneath my feet scorched earth;  
A million horrid noises  
Like devils roaring mirth.  
The struggle tore on by me  
And as I climbed the hill,  
A peace again descended;  
The world at last stood still.  
I watched the sun set rosy  
And turn to bloody red;  
The frost upon the helmets  
Reflected on the dead.  
This poem was published in the December 1952 issue of "The Screaming Eagle" at Camp Breckinridge, Ky.

## RED REFLECTORS ON FRONT OF AUTOS ILLEGAL

Thomas B. R. Mudd, Commissioner of Motor Vehicles, wishes to advise owners of motor vehicles that the red reflectorized material which is being placed on the bumpers of vehicles may only be placed on the rear, as under the Motor Vehicle Law, this device is illegal showing to the front. The State Law Department has concurred in this ruling covering this material, because it reflects a red light to the front, and as red, under rules and regulations, indicates the rear of a vehicle, drivers could be confused as to the direction in which the vehicle is being operated, which is dangerous.

# Let's Think

by  
G. H. ENFIELD

Americans are lovers of birds, especially turkey.

He who does not keep up, lags behind. That is as true with thinking as with walking. This means attachment to an occasional new thought.

Worry is as detrimental to the physical health as jealousy is to the spiritual.

Maidens, tender in years in the first quarter of the century, have difficulty in understanding the antics of teenagers in this third quarter.

Meanings outgrow their words, therefore, they need to be rethought. Thus, we understand Herbert Gordon May when he says: "Any translation becomes in part antiquated in time because of the archaisms it contains."

A smile opens the door closed by frowns.

The most difficult thing to swallow is one's own words.

What you are depends on what you want to be.

Out of the school-house

Boys and girls pour;

Girls scream, and boys shout,

For snow covers the ground,

And snow lies all about.

The wall was rebuilt around Jerusalem because "the people had a mind to work". Any community enterprise can be achieved when there is co-operation.

## COUNTY HEART PROGRAM GIVEN FINAL APPROVAL

What is actually the start of a vast statewide expansion program received final approval by the Board of Directors of the Heart Association of Maryland at a meeting held recently in the offices of the State Heart Organization, located in Baltimore.

Mr. Clyde E. Arbogast, Executive Director of the Association said: "The plan which now has cleared the board will be submitted to various State Medical Groups and then instituted through interested lay leaders within the respective communities." Plans are already under way in several of the counties toward forming heart committees.

Included in program are plans for assistance to medical groups in helping start Cardiac Clinics where they are needed; the loaning of special equipment such as hospital beds, wheel chairs, over-the bed tables and other sick room needs. Volunteers are being sought to assist with the various helpful projects concerning the home bound patient. One of considerable note is the Counterpane Course, a craft set designed to help alleviate the psychological and emotional strain which invariably comes with long-term illness experienced by many rheumatic fever patients. A rehabilitation project directed at adult cardiac patients will be instituted as soon as practicable.

The program will be based upon the experiences gained from such services which are now being offered in and around Baltimore by the Heart Association. Each phase of the program is under the supervision of trained workers, assisted by volunteers. Dr. Helen B. Taussig, noted for her work toward perfecting the blue baby operation is President of the Organization.

## HONOR ROLL

Despite the high requirements a large number of T. H. S. pupils made the honor roll for the second school term. Only students with a B (or better) average are eligible and, since this includes minor subjects, there is incentive to work for a place on the coveted honor roll.

The nine Juniors include: Shirley Koons, Evelyn Wilhite, Richard Davidson, Fred Stonesifer, John Dudderar, Melvin Bowling, Merrit Copenhagen, Sandra Welker and Vivian Davidson.

The Sophomore who made the grade are: Lois Brown, Shirley Cluck, Sylvia Koontz, Oneida Myers, Marsha Reifsnider, Wayne Baumgardner, Paul Roop, Carrie Claybaugh, Dorothy Rohrbaugh, Robert Royer and Thelma Motter.

The Junior High is represented by the following: Ninth Grade, Roberta Garvin, Joan Davidson, John Skiles, Larry Markle, Frank Henshaw, Larry Feeser, Billy Crapster and Joan Stieley.

Eighth Grade—Jimmy Wolf, Richard Stonesifer, George Spangler, Larry Ohler, Richard Null, Sylvia Keeney, Jean Luckenbaugh, Doris Reaver, Doris Stonesifer, Shirley Wareheim, George Abrecht, Earl Angell, Bernard Koontz, Larry Koontz, Connie Aruin, Elizabeth Baumgardner and Norma Bloom.

Perfection is immutable, but for things imperfect to change is the way to perfect them.—Owen Feltham.

The old order changeth, yielding place to new; and God fulfils himself in many ways.—Tennyson.

YOUR QUESTIONS

Q. What can I do about colds in my flock?

A. I suppose by "colds" you mean coryza. Use Dr. Salsbury's Ar-Sulfa. It controls infectious coryza quick 'n' easy. Just mix Ar-Sulfa in the water supply when you notice snuffles and sneezes. Cold signs usually disappear in a couple of days. Best of all, Ar-Sulfa saves you egg loss -- and culls, too. Better get a bottle now and keep it handy -- Ar-Sulfa!

## "WHAT DO YOU MEAN ...

### I'm asking for trouble?"

We mean what you are doing may cause trouble with your electric service. When you have to attach that many wires to one outlet you definitely need more outlets and there's a very good chance that you need new wiring. There is a limit to the ability of your present wires and switches to carry electricity and with the tremendous post-war growth in the use of appliances many homes are approaching that limit. How can you tell whether you are approaching your limit? Well, here is a rough check that may give you some idea.

## WHICH OF THE FOLLOWING DO YOU HAVE?

- Lighting ☐ Electric refrigerator ☐
- Washing machine (any type) ☐ Electric range ☐
- Electric water heater ☐ Vacuum cleaner ☐
- Small appliances such as: toaster, coffeemaker, grill, hand iron, mixer, automatic blanket, radio, etc. ☐
- Electrically operated heating system ☐

If you have all of the above you'd better have your entrance switch and wiring system checked by your electrical contractor before you add any more large appliances such as a dryer, home freezer, ironer, etc. for you may have reached the capacity of your present wiring system. Should you exceed that limit, you are asking for trouble in the form of blown fuses, inefficient appliance operation or other difficulties! So be safe -- and check!

If you would like a very handy booklet on home wiring, we will be glad to send you one FREE. Just direct your request to the WIRING DEPT., The Potomac Edison Co., Hagerstown, Md.

Scripture: Matthew 19.  
Devotional Reading: 1 Timothy 6:2-11.

### Poor Rich Man

Lesson for February 1, 1963

THE MAN had everything. He was young, he was in an executive position, he was in vigorous health, he was respectable, he was very rich. And still he felt something missing. After all this, what? What was there for him over and beyond the pleasant and powerful life he was then living? He was spiritually sensitive; he could feel that all he had was still not quite the thing.

### Camel and Needle

The man in the famous story (Matthew 19) never did get what he wanted, so far as we know. The reason is, he did not want it enough. The price was high: nothing less than everything he had, and his wealth was great. So he "went away sorrowful" and that is the last we see of him. What Jesus said as he watched him go has caused a great deal of discussion, both at the time and ever since. According to Matthew, Jesus said that it is harder for a rich man to enter God's Kingdom (that is, to have eternal life, or to be saved) than for a camel to get through a needle's eye.

Dr. Foreman

All sorts of efforts have been made to show that Jesus could not possibly have meant this. The words translated "camel" and "needle's eye" could possibly mean something else, but they probably don't. We may as well face it, Jesus meant to say that the only way a camel could get through a needle's eye is by a miracle; and it is more of a miracle for a rich man to enter the Kingdom of God than for a camel to pass through a needle's eye. He did not say it was impossible; he did say it was possible only with God. This is as shocking in 20th century America as in first century Palestine.

### Riches Are Risky

Actually there are many more warnings against wealth, in the Bible, than against poverty. The "have's" are in more spiritual peril than the "have-not's." Why this is, can be shortly stated. A minister who had had many contacts among the super-rich of one of America's Gold Coasts remarked to the writer that wealth makes the first generation hard, the second generation soft. The man of wealth may easily trust in his possessions and not in God, in short to make a god out of his own property. He may test right and wrong by what the effect is on his holdings.

Because his friends are mostly among other rich people, he is constantly tempted to habits, diversions, recreations, customs which are not Christian. Further, the possession of wealth tends to make the owner near-sighted; like the rich young ruler who turned his back on Jesus, he can neither see clearly his own best interest nor the needs of men and women in the shadowed ways of life.

### Don't Be Ruined by Riches

Now it is not true that Jesus taught that all first-class Christians must be complete paupers. It is not true that Jesus taught that no one with property can be a Christian. It is not true that Jesus laid it down as a rule for all his followers that they must give away everything they have. One of his best-loved disciples was John, who owned a home of his own. We can recall Lydia and Barnabas among the early Christians; we can all name Christians who have served God and their fellow-men with their money. When a doctor tells a patient he must get rid of his appendix, he is not saying that all healthy persons must do the same. But when an appendix is a danger, out it must come. Now wealth may be a danger, a source of moral infection. The one best way to keep from the dangers of possessions (and these begin as soon as we have as much as one surplus dime) is to learn to think of them, and to use them, as a trust from God.

To be Christian in the earning and acquiring of what we have; to be Christian in the using of it; to spend what we have as if Christ were spending it; to remember that of him to whom much is given, much shall be required; to regard what we own as so much opportunity for doing good, instead of so much insurance against hardships; this calls for the grace of God.
